

Rojas Says U. S. In Danger

Removal Of Castro Would Mark Victory

By JEANNIE BOOKOUT
Foreador News Editor

Fidel Castro's sweeping rise to power . . . the Communist take-over in Cuba . . . A broken U.S. promise to Bay of Pig invaders. All this was part of the Cuban story unfurled Tuesday by Sergio Rojas, one-time Castro supporter, at Tech's all-college convocation.

Rojas, speaking to a captivated audience of more than 3,000 about "the hottest issue in this country and maybe in the world," told with great vividness the history of Cuba and what Communism there can mean to the whole western hemisphere.

The former Cuban ambassador to Great Britain, who broke with the Castro regime in 1960, said, "As long as Castro and Communism are in power in Cuba, the security of the U.S. is in danger. There can be no stability of peace."

Removal of Castro

He declared that the removal of Castro would be the most outstanding victory of the free world in this century.

"The removal of Castro will save the western hemisphere from Communism for many years to come — it is like a chain reaction. When something fails, its power is seriously diminished."

Of Castro's dramatic rise to power, Rojas said he joined the movement because at the time "it was the only thing in Cuba to fight Batista's shameful and corrupt dictatorship."

Tracing Castro's actions from 1953 — when he was "an unknown lawyer"—until the present, Rojas made clear why Castro became a hero and symbol of hope to Cubans.

Rojas told of a Cuba that was a "paradise" of gambling, drinking and prostitution under Batista in the early 1950's and of a people desperate to rid their land of this dictator.

Castro Was Young Lawyer

He spoke of a young lawyer (Castro) who defended himself at his own trial for attacking a Batista military fortress.

"Castro spoke to the people at his trial, not the judge. He spoke of all freedoms people have the right to demand. As a result of his actions he was put in prison, but at the same time he became the hero of an anti-Batista movement."

"Youth joined him in the hills; funds came from everywhere," Rojas said. The Cuban middle classes supported Castro and when Batista fled, Castro filled the political vacuum.

Castro Was A 'Symbol'

"At this time he was a leader, a symbol, a god. Everybody was with him, not only in Cuba but everywhere," Rojas said.

Later the "freedoms" Castro had spoken of diminished. He attacked the rich, confiscated industries and persecuted religion, Rojas said.

"In 1960 he confiscated U.S. property and got away with it. Then he became insulting, aggressive to the 'Yankee Imperialists' and shot some American citizens," said Rojas.

Then the famous Bay of Pigs invasion, in which Rojas took part, was organized.

"We were promised help in this invasion by the U.S.—take it from a Cuban who was there," exclaimed Rojas.

Russians Sent Aid

Regarding the present Cuban situation, Rojas said that in June, 1962, Castro sent his brother to Russia to ask for help. The Russians sent in technicians and armaments, "the beginning of the present crisis."

"But the Communist economic machinery doesn't work," declared Rojas. "They destroy fundamental incentives. The individual is destroyed and becomes a slave."

Rojas said as a result of Communist takeover in Cuba, President Kennedy's speech in Octo-

ber was the most "direct and firm U.S. policy statement in 15 years."

Cuba Is Stronger

Rojas closed by warning that Communists gain victory by taking things slice by slice. He

pointed out that although Russia has withdrawn from Cuba, "Cuba is 10 times stronger than it was before they came."

Urging that students be informed rather than complacent, Rojas said, "We are in this together. As long as Castro is there, the security of this country is in danger. Freedom is a costly commodity."

"We Cubans are in the front line. You in Texas are in long range danger."

Anonymous Artist Distributes Signs

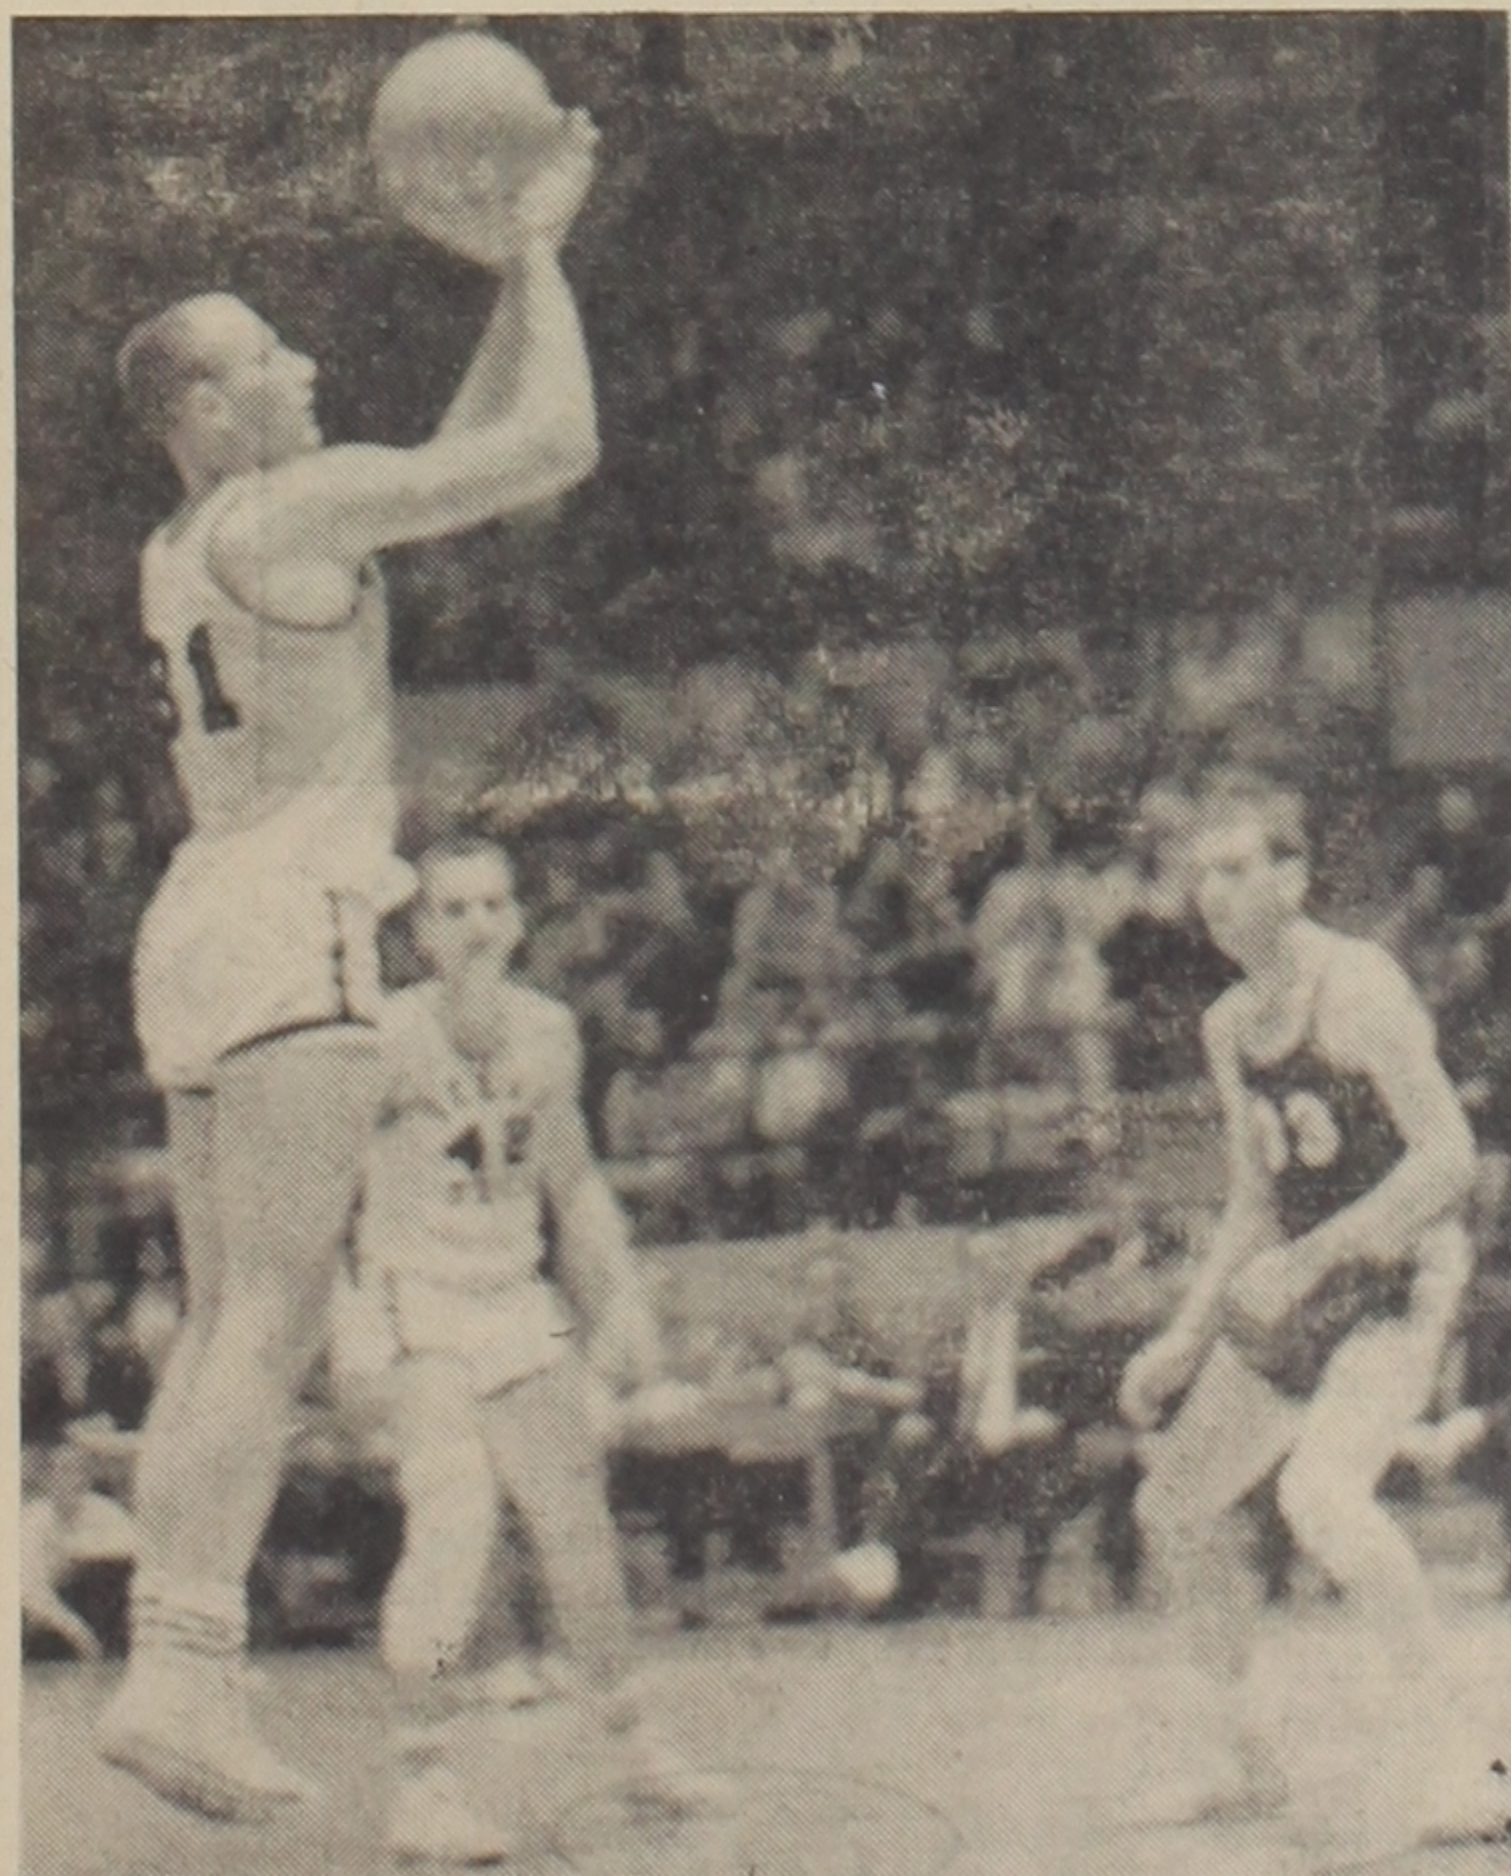

There's an absent-minded person posting signs around campus.

Numerous posters reading, "Why Join?" are appearing on walls of Tech buildings.

But the anonymous sign-artist forgot to mention just "what" Techsians are suppose or not suppose to join.

Several Student Council members reported unofficially Tuesday the posters are referring to "some coming event."

He's Up And-Will It Go?

Enrollment Record Set For Spring

Tech made history Wednesday in registering 10,613 students for a spring semester — an increase of 944 over last year.

Normally a decrease of 10 per cent occurs between fall and spring registration. However, enrollment decreased only five per cent this semester, from the 11,183 total last fall.

Men still outnumber women, but by smaller ratio — 7,059 to 3,554 or 1.98 to 1.

The School of Arts and Sciences maintained its lead in enrollment figures with 4,482 — more than twice the total of the runner-up, business administration with 2,230. These are followed by 1,894 engineers, 873 aggies, 783 graduates and 551 home economists.

80-75, In Overtime

Tech Topples Hogs

By RAY FINFER
Acting Sports Editor

Hot - shooting Tom Patty fought, scrapped and clawed as the underdog Red Raiders top-

pled the Arkansas Razorbacks, 80-75, in overtime.

Although it was Bobby Gindorf who led the team in scoring with 23 points, Patty was the man who pulled the Raiders from a 60-52 deficit late in the last quarter to a 61-60 lead with furious shots from all over the court, including four straight goals and one free throw.

Ahead To Stay

Gindorf finally put the Raiders ahead to stay with an unusual shot in the overtime. He drove through the lane and laid the ball up and in, only to have Tommy Boyer push it out the top, but the ref signalled the two-pointer and Tech was out in front to stay.

The regulation game ended in a 67-67 tie as Glen Hallum tossed through a free throw with 54 seconds remaining. Gindorf sank two points to start off the extra period in Tech's favor and they fell behind just twice as they put 13 points through the hoop.

Hallum and Harold Denney followed. Gindorf's effort with 17 points each and Patty got 16 to round out the balanced scoring for the Raiders.

Wofford Tops Hogs

Larry Wofford topped the Hogs with 20 points and fouled out of the game as he deliberately knocked Gindorf down to try and regain the ball in overtime, but Gindorf calmly sank both throws.

Gindorf scored eight of his points in the additional period. Denney had two, Hallum had two and Petty scored once.

The first half ended with Tech leading, 43-36. The Raiders had to overcome a seven point lead held by the Hogs in the first period, 27-20 with eight minutes left.

All told, the Raiders missed only five free throws in the game out of 25 tried. Arkansas

was more accurate, missing only two of 16 charity tosses.

Hogs Storm Back

Tech's biggest lead of the game was nine points with the

That Magic Circle!

opening shot of the second half. Arkansas stormed back to regain the lead and surge out front by four several times in the last half.

The game was tied 10 times and the score changed leaders seven different times during the tension-filled game.

The win for the Raiders brought them to a 3-3, .500, SWC record. It also tied the Raiders with the Razorbacks who now sport the same record. Tech now stands 3-12 for the season.

Picadors Win

The Texas Tech freshmen also fought to a win over the Lubbock All-Stars, by a 87-73 score.

Tough Bobby Measels topped the scoring for the Pies with 25 points, scoring long set-shots from every angle of the court.

Defensive supermen, Russ Wilkinson and Norman Reuther, combined to practically rule the backboards for the frosh. Wilkinson grabbed 13 and Reuther took down 10.

Freshman coach, Roger Hennig, and former Raider Gene Arrington, each scored 19 points for the All-Stars with Gerry Thomas adding 16.

SEA Gives 2 Awards

Two members of the Tech Student Education Assn., a man and a woman, will be awarded \$50 scholarships Feb. 14.

Applicants must leave their names and addresses in the Teacher Certification Office in the Ad Bldg., room 252, by 5 p.m. Monday.

Each applicant must submit a 250-word essay to the same location by noon Tuesday.

The essay should include the applicant's major, over-all grade-point, grade average in education courses, extra-curricular activities, participation in SEA and reasons for applying.

The scholarship committee will present the awards at the SEA banquet at 6:45 p.m. Feb. 14 in Tech Union Workroom. Tickets, \$1.75, may be purchased in the Ad Bldg., room 252, or from Nancy Joe Dyer, Ext. 4503.

These scholarships, to be used the 1963 fall semester, are sponsored by Phi Delta Kappa, men's honorary education fraternity, and the local Veterans of Foreign War.

Ex - Aerospace Chief Speaks

Dr. Knox Millsaps, former chief scientist in the office of Aerospace Research, will be a guest lecturer at Texas Tech Friday and Saturday.

He will speak at 4 p.m. Friday in the biology auditorium of the Science Bldg. on "Possibilities for Federal Support of Scientific Research."

A second talk, "Some Recent Progress in Statistical Theories of Turbulence," is scheduled at 11 a.m. Saturday in room 211 of the West Engineering Bldg.

Receives Doctorate

Dr. Millsaps received his B.S. degree in 1940 from Auburn University and three years later finished his doctorate at California Institute of Technology, where he taught until 1945.

He was associate professor of aeronautical engineering at Ohio State University until 1948, when he joined the staff at Wright Air Development Center. He became

chief mathematician before resigning in 1955 to become professor of mechanical engineering at Massachusetts Institute of Technology and chief scientist of the Air Force Missile Development Center.

Selected Chief Scientist

Three years later he was selected chief scientist of the Air Force Research Division and executive director of the Air Force office of Scientific Research in Washington, D.C.

In April, 1961, the Air Force Research Division was redesignated the office of Aerospace Research. As chief scientist, Dr. Millsaps served as advisor to the Commander of the office of Aerospace Research. He resigned Jan. 11.

Dr. Millsaps received the Arthur S. Flemming Award in 1961 and in 1959 he won the Exceptional Civilian Service Award.

Tyrian Rifles Vie At Meet

Tech's Army ROTC Tyrian Rifles drill team will compete Saturday in the Sunshine City Drill Competition in Tucson, Ariz.

Approximately 60 drill teams in the United States will compete.

The event is sponsored by the University of Arizona in conjunction with the Aerospace Exhibition of the Air Force.

Tech's team of 24 cadets will leave Friday with Maj. Frank M. Pender, instructor of military science.

FOUR SUMMER STUDY TOURS OFFERED

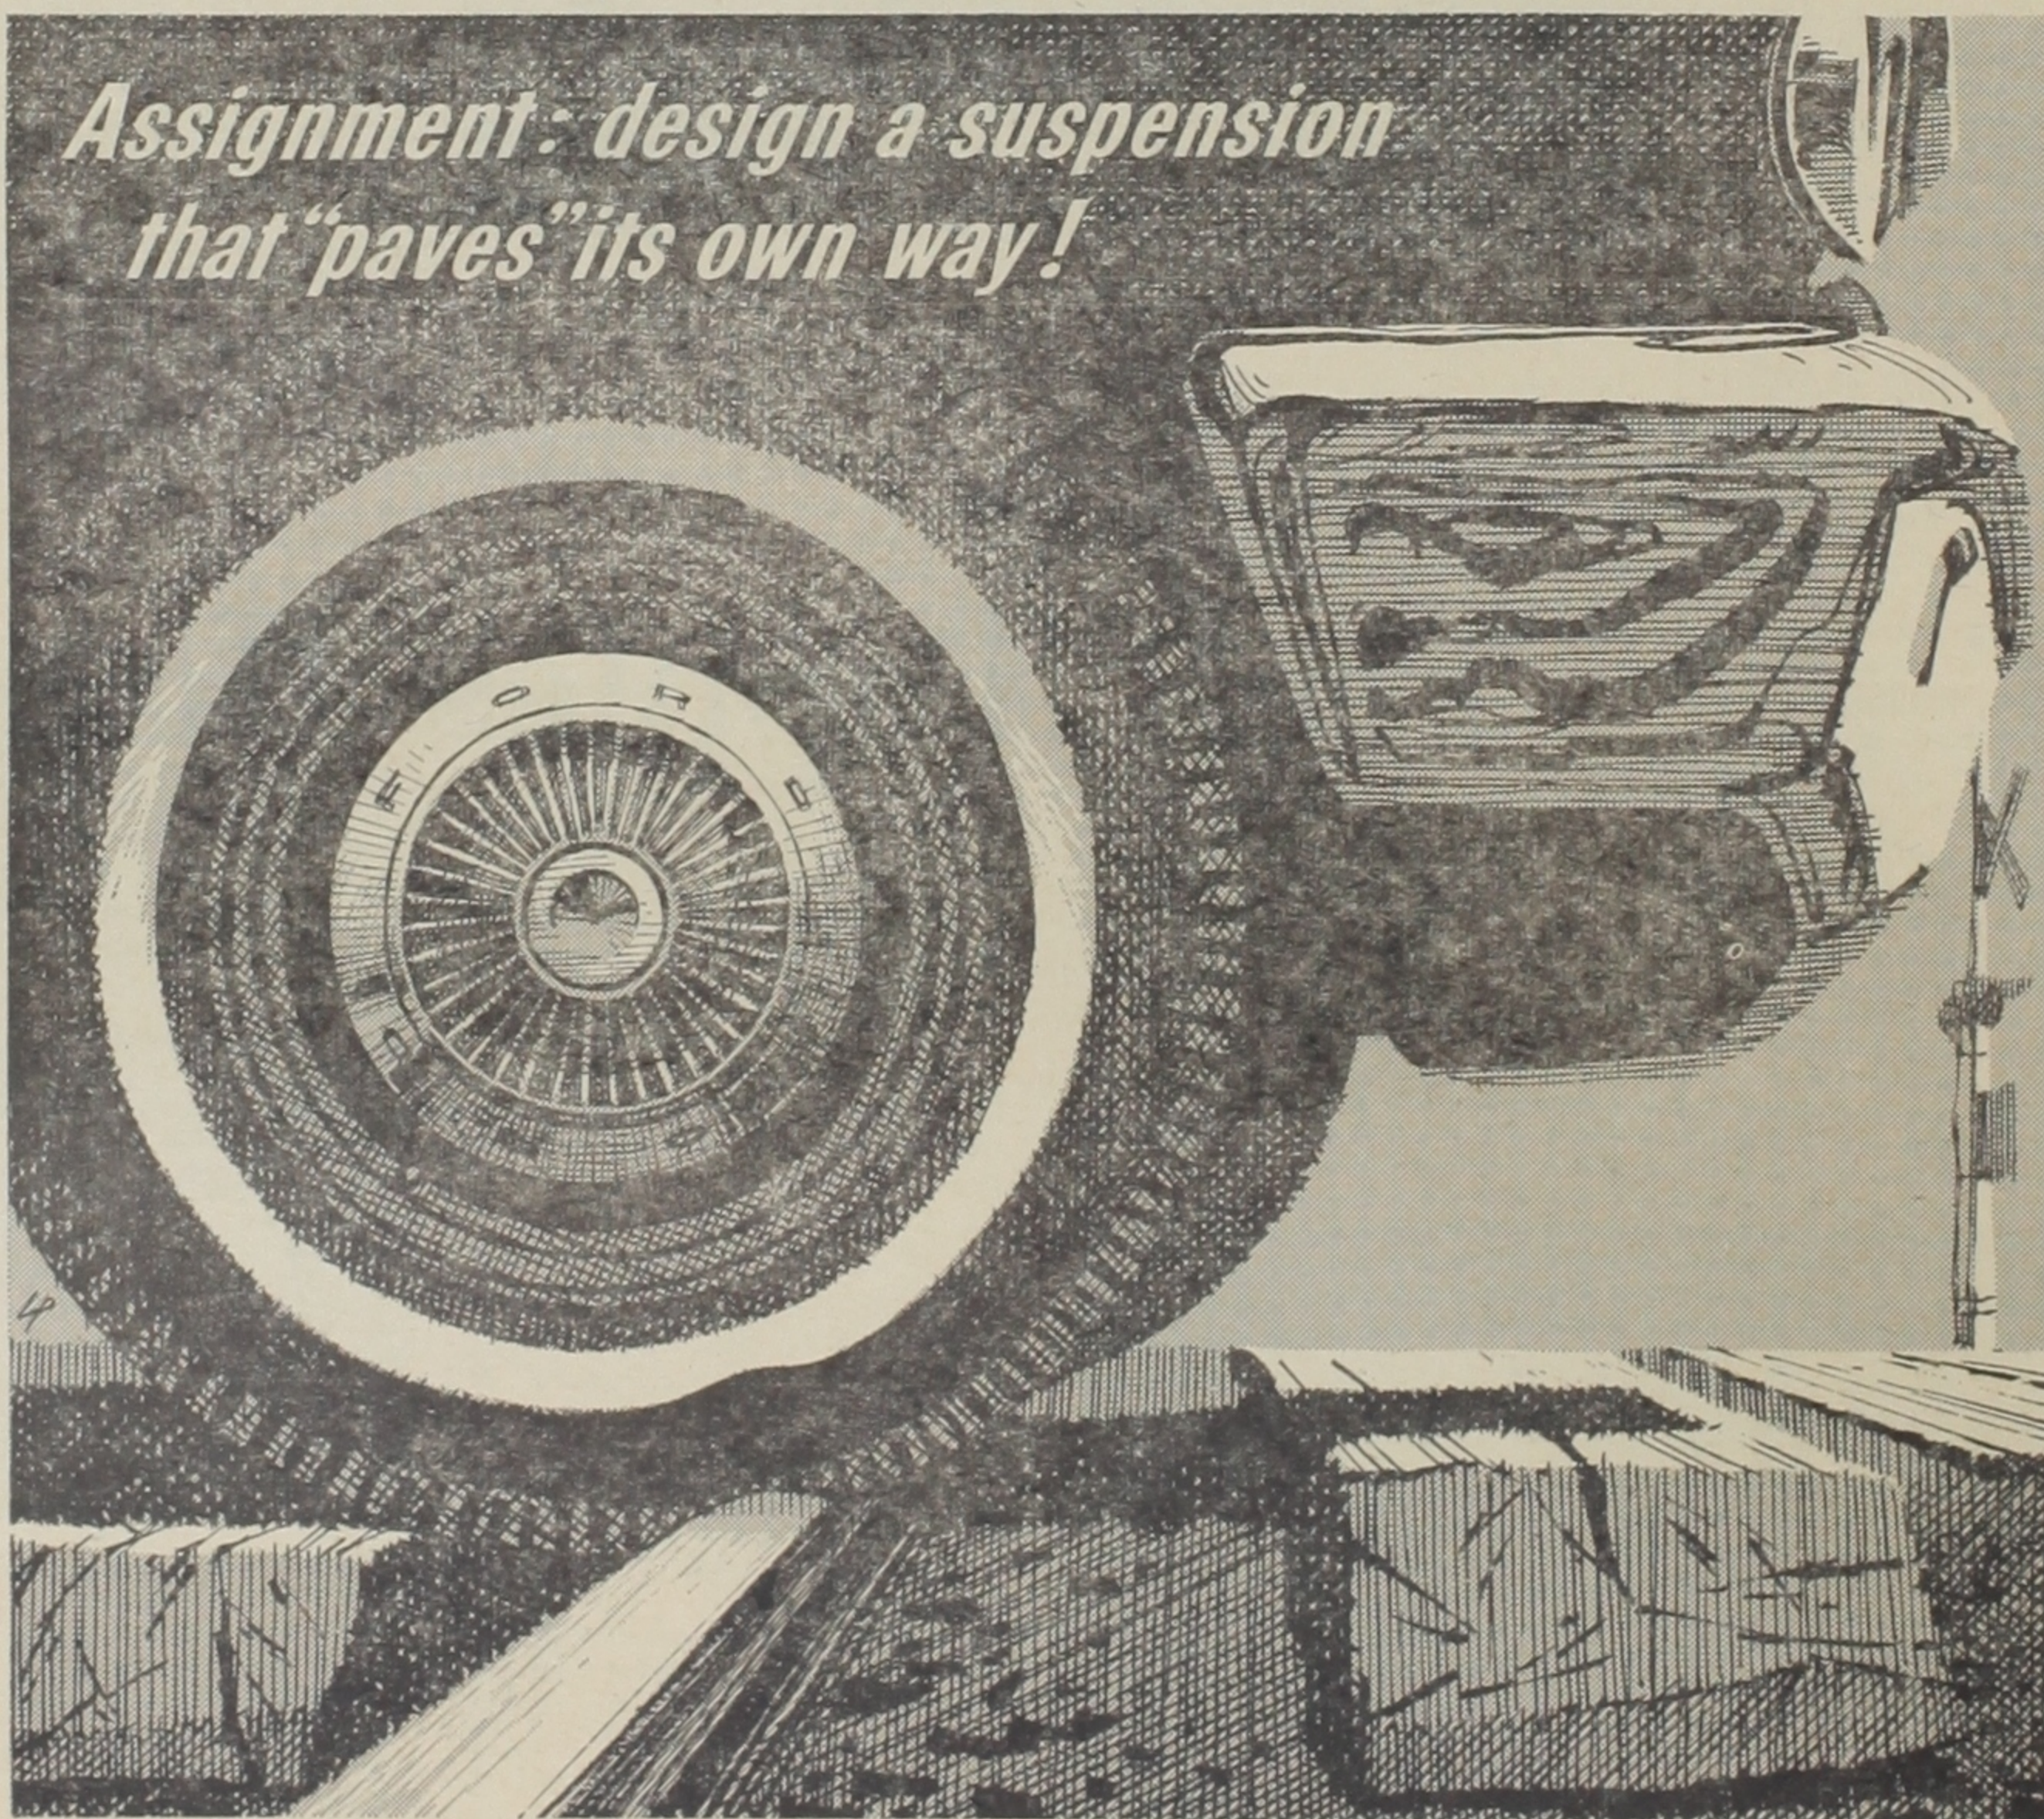

Mrs. C. C. Turner, for the eleventh consecutive year, has been appointed the Southwest representative of Howard Tours—the original college and travel program to the University of Hawaii summer session and the Pacific. 1963 applications are being accepted now by her at 6311 Hillcrest Avenue, opposite SMU, Dallas 5; telephone: LA 6-2470 or LA 8-6224.

Next summer's tour of 56 days to Hawaii costs \$589, plus \$9 tax. This price includes roundtrip jet between the West Coast and Hawaii, campus residence, and the most diversified itinerary of dinners, parties, shows, cruises, sight-seeing events, beach activities, and cultural entertainment plus all necessary tour services.

Kaikiki apartments living, steamship passage, and visits to Neighbor Islands are available at adjusted tour rates. Steamship travel, however, will be at a premium. Therefore, interested travelers should apply early to protect their reservations.

1963 will be the "Big Summer in Hawaii," because this is the Trans-Pacific Yacht Race from Los Angeles to Hawaii, with everybody sharing in the extra fun and added excitement.

In addition to HAWAII, Howard Tours offer a 67 day study program to the Orient, and study tour of 45 days around SOUTH AMERICA, and another 42 day study tour of EUROPE. All three are San Francisco State College summer session study tours offering six upper division university credits. College men and women may call Mrs. Turner at Howard Tour — Texas office, for further information. —Adv.

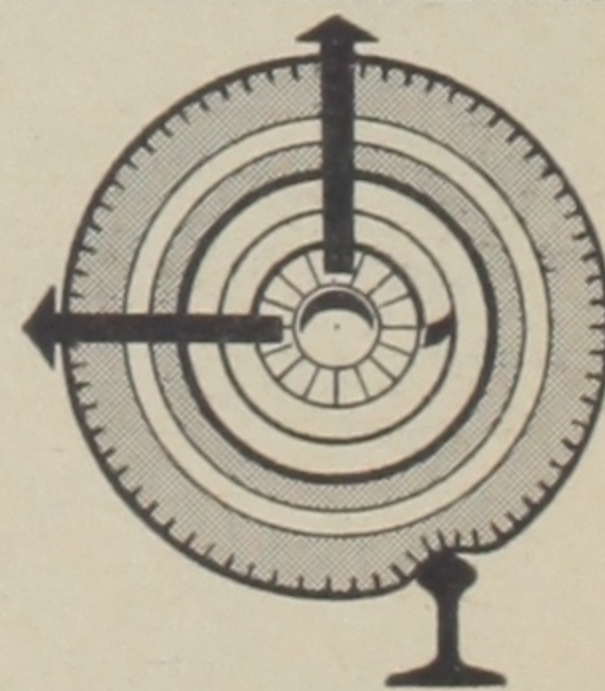

Result: "Cushion Recoil" provides a dramatically smoother ride in 1963 Ford-built cars

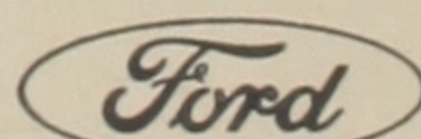

The challenge given Ford engineers was to design suspensions that would permit wheels virtually to roll with the punches—not only in a vertical plane but fore-and-aft as well. Conventional suspension systems provide only a partial solution to road shocks by limiting wheel recoil to an up-and-down motion.

The solution? Exclusive Cushion Recoil suspension design in all Ford-built cars for '63! Cushion Recoil, with cushioning action in a fore-and-aft plane as well as vertical, smoothes the jars and jolts of rough roads, adds to your comfort, safety, and driving pleasure. Even the thump of freeway tar strips is reduced, and on deeply rutted roads you experience better control of the car. Furthermore, your Ford-built car is spared the wear and tear of road-induced vibration.

Another assignment completed—one more example of engineering excellence at Ford and new ideas for the American Road.

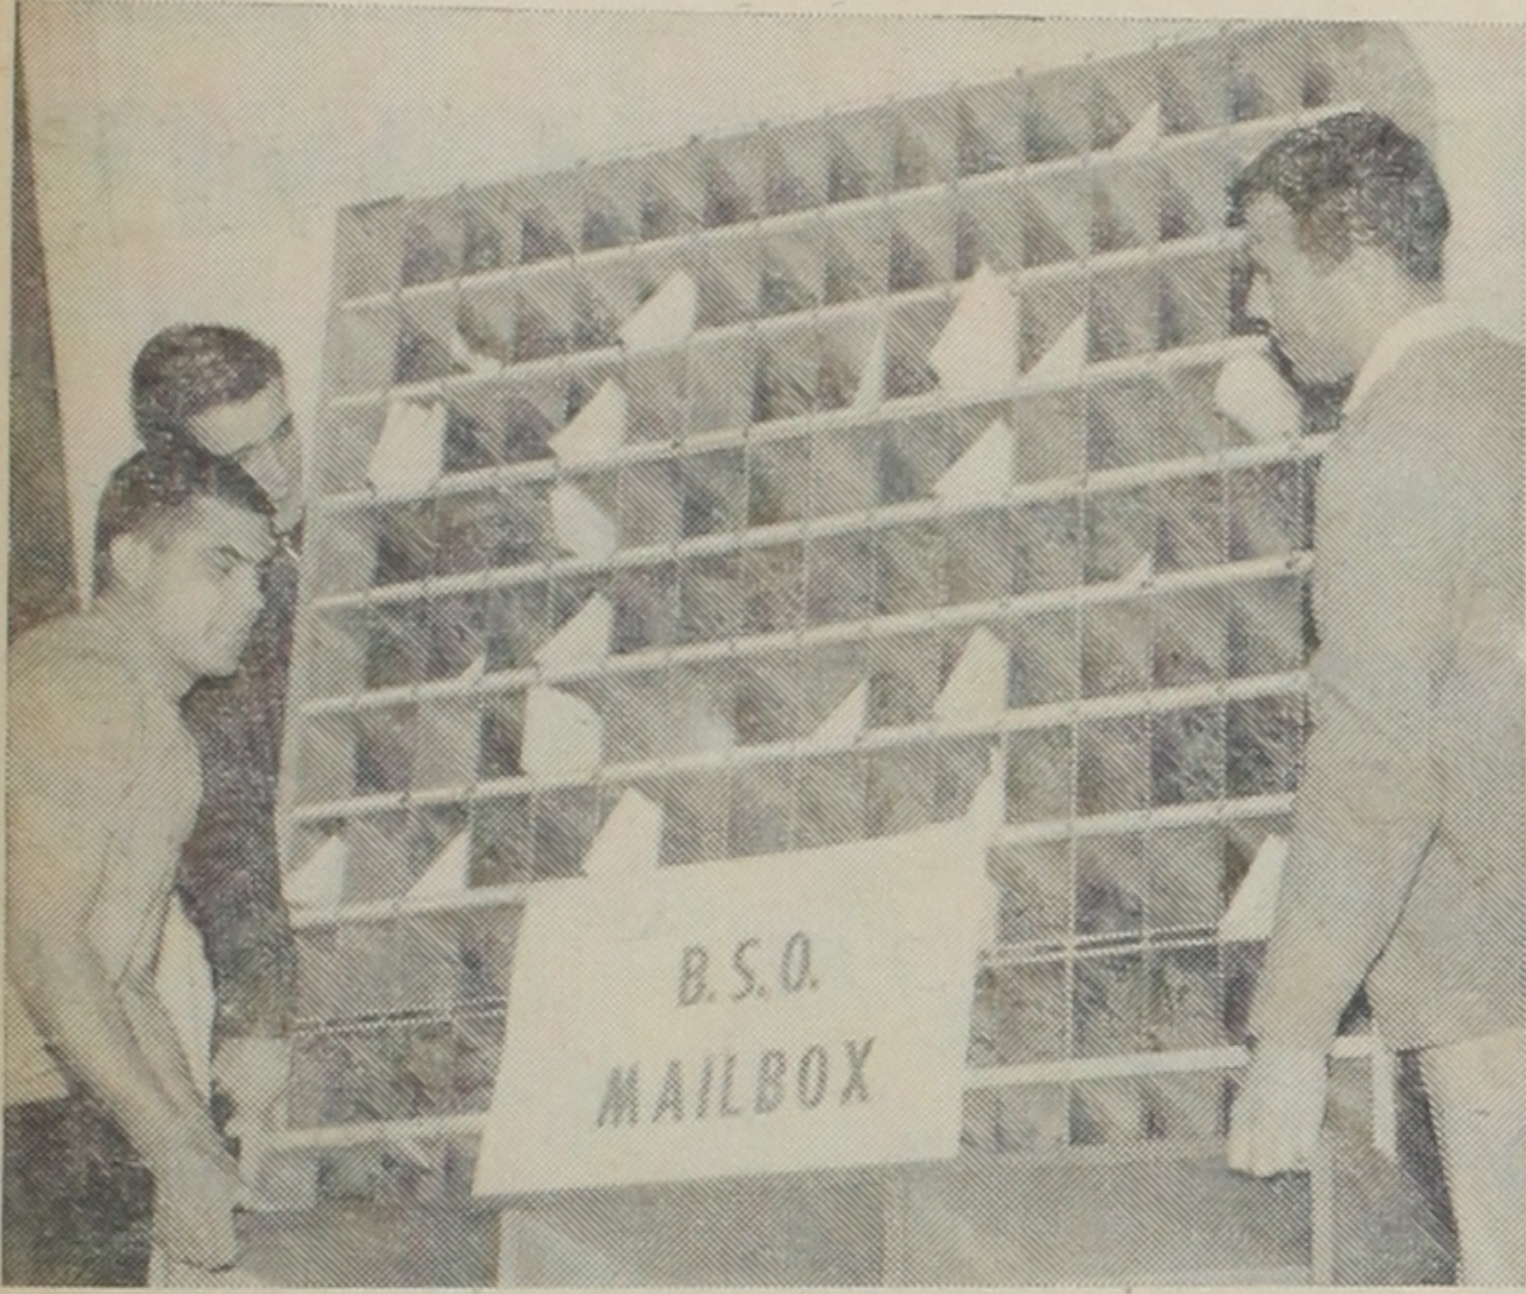

SOAKS UP ROAD SHOCK. Exclusive Ford Motor Company Cushion Recoil action moves back as well as up for a smoother ride.

SDX Sets Deadline In 'Playmate' Race

Entries are being received in room 102 of the Journalism Bldg. for the 1963 La Ventana "Miss Playmate" contest.

Any campus male organization may enter a coed in the contest by submitting an 8x10 glossy photograph of their contestant. The photo must picture the contestant in a swimsuit, and her name, classification, hometown, measurements and sponsoring organization should be given on the back of the photograph.

Deadline in the contest is 5 p.m. Thursday.

Contestants will be judged from the photograph submitted and the winner will be announced during the annual La Ventana Extravaganza, in Municipal Auditorium Saturday night. All contestants will appear in swimsuits during the Extravaganza, which begins at 8 p.m.

The girl named "Miss Playmate" will be featured in a three-page foldout in the Playboy section of the 1963 La Ventana. She also will accompany the 10 finalists in the Miss Mademoiselle contest on a ski trip to Ruidoso during spring vacation, compliments of Sierra Blanca Corp.

Miss Mademoiselle and her nine runners-up also will be named at the pageant Saturday. Tickets are on sale in the Union lobby today through Saturday, or may be purchased at the door Saturday night. The pageant is sponsored by Sigma Delta Chi, professional journalistic society for men.

Flight To Pick Ten Members

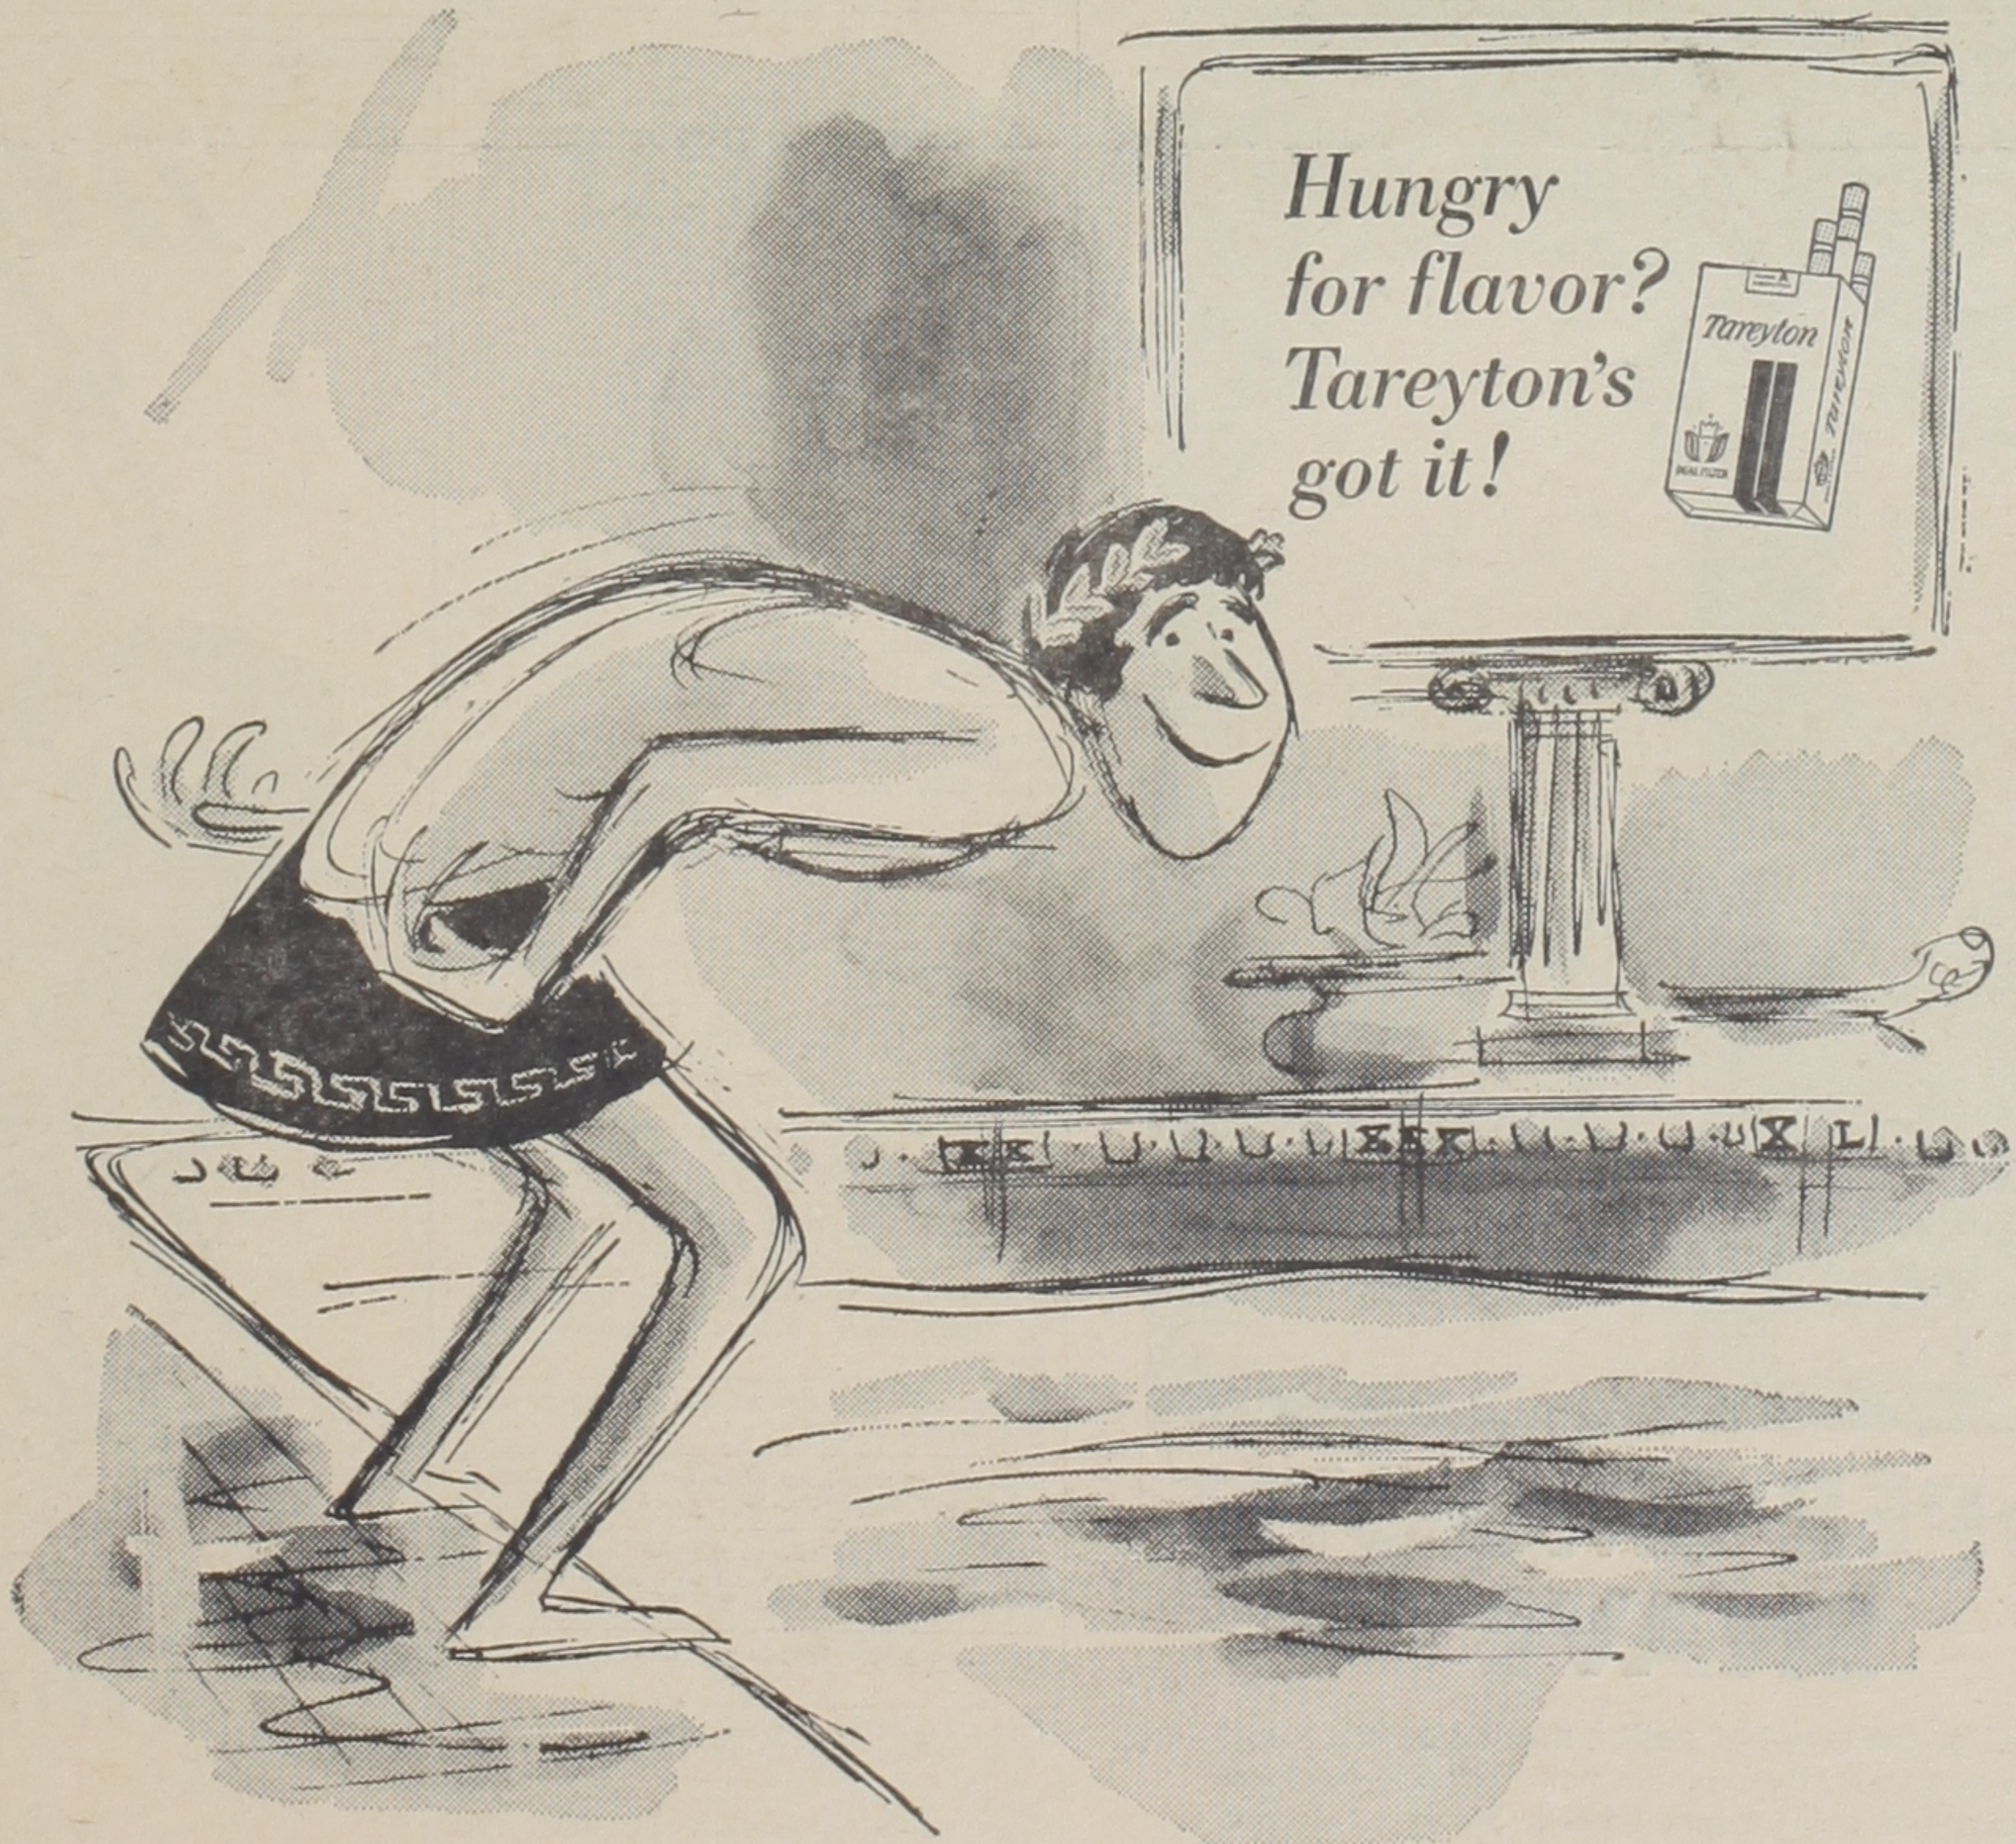

Tryouts for approximately 10 positions in the Angel Flight will be at 5 p.m. today, Thursday and Friday.

"Angels" are selected on the basis of their drilling ability and personal appearance. Girls must have an over-all 2.0 grade average and must drill at 5 p.m. Tuesdays and 4-6 p.m. Thursdays.

Previous experience is not required. Usually one-fourth of the "Angels" have had no past drill experience.

Judges will include two Angel Flight girls, two students and three officers from the Air Force ROTC.

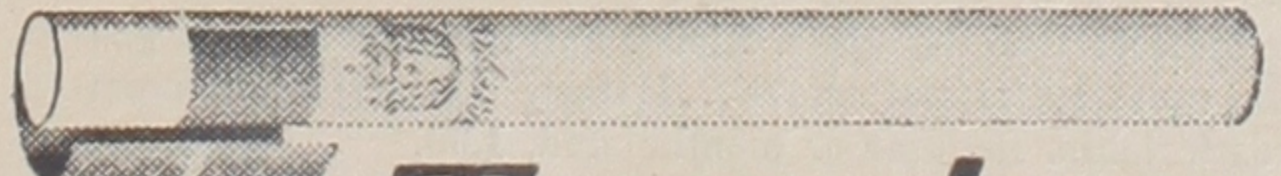

Angel Flight activities for spring include hosting a convention and drill meet for area teams, a trip to the Air Force Academy and another possible trip.

Solons Want Cuban Lowdown

By GARDNER L. BRIDGE
WASHINGTON (AP)—Calls for an investigation of just how much this country knows about what is going on in Cuba arose in both houses of Congress Tuesday.

Members grew increasingly edgy over charges that the Soviet military threat in the island is more dangerous than the Kennedy administration admits.

Developments included:
● In the Senate, Asst. Democratic Leader Hubert H. Humphrey of Minnesota called a news conference to urge a public congressional inquiry at which the head of the Central Intelligence Agency, among others, would be questioned.

● In the House a brief but sharp debate broke out over Republican criticism of Kennedy administration policies. Rep. William E. Minshall (R-Ohio) proposed a joint congressional investigation into all federal intelligence agencies.

● Rep. Samuel S. Stratton (D-N.Y.) accused Sen. Kenneth B. Keating (R-N.Y.) of talking through his hat when he said the Russians are maintaining missile bases in Cuba.

● Keating replied that "The situation in Cuba is extremely critical and is becoming more so every day."

Although Humphrey implied he believes President Kennedy favors public hearings on the con-

troversy, the White House kept hands off.

Pierre Salinger, the President's press secretary, said that as far as he knows Kennedy has not expressed himself on the matter.

CIA Testimony

Humphrey told newsmen he thought there should be public testimony from CIA Director John A. McCone, among others.

"Candor is required in this situation," Humphrey said. "We should have open sessions on these matters. There isn't any information that is going to be kept secret anyway."

Slap At Keating

In a slap at Keating and others who dispute administration contentions that there has been no significant military buildup in Cuba since the October missile crisis, Humphrey said, "The worst thing that can be done is to create doubt and suspicion."

Stratton went further and accused Keating of "disgraceful irresponsibility" in pretending, as Stratton put it, to know more about Cuba than the Defense Department.

Force Pentagon's Hand

Stratton issued a statement saying the only effect of Keating's efforts would be to force the Pentagon to reveal its intelligence operations, a move which Stratton said would aid the Communists.
