Bush: first POW release 'progress'

By The Associated Press

WASHINGTON - President Prime Minister John Major "at a Bush welcomed the release of a first group of allied prisoners Monday as "progress in our journey from war to peace" but said Iraq must keep moving and set free all prisoners of war and detained Kuwaitis.

Bush said that the allied coalition still intends to hold Iraq to all U.N. resolutions and that compliance could help the allies move beyond the suspension of hostilities to a "more permanent and stable ceasefire." He declared, "We have a lot to do to heal the wounds."

Administration officials said Bush would soon embark on a series of face-to-face meetings with leaders of the anti-Iraq coalition to discuss maintaining peace in the Middle East in the postwar period. Presidential spokesman Marlin Fitzwater said Bush would meet with Canadian Prime Minister Brian Mulroney in Ottawa on March 13 and with French Prime Minister Francois Mitterrand the

French island in the Caribbean.

Bush will also meet with British western hemisphere location yet to be determined," Fitzwater said.

Secretary of State James A. Baker III leaves on Wednesday for a postwar diplomatic mission to the Middle East and the Soviet Union. Bush, in a speech to veterans, hailed the victory over Iraq as "a

triumph" and said it was a time to be "fiercely proud" of U.S. and allied troops.

But he and other officials also said it was not a time to let Baghdad off the hook.

Fitzwater said the administration was collecting war-crimes evidence that could be used at a tribunal in Kuwait City to prosecute Iraqi tormentors.

And Gen. Colin Powell, chairman of the Joint Chiefs of Staff, told a conference of the Veterans of Foreign Wars that the United States would vigorously pursue the return of prisoners of war and troops missing in action.

"I make this pledge: In this war, said Rogich.

following day on Martinique, a it won't be over until we get a full and immediate accounting of all our POWs and MIAs," Powell said. Two decades after the Vietnam war, some American troops remain unaccounted for.

TUESDAY

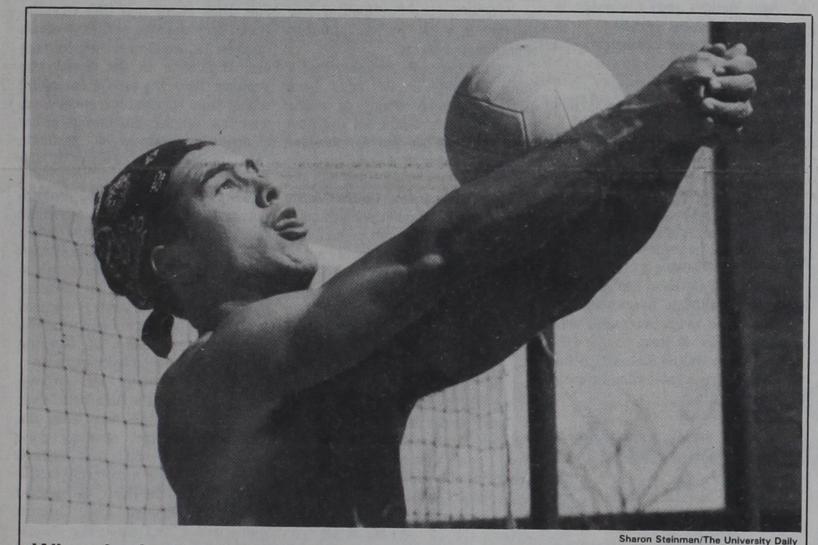

March 5, 1991

Bush made a direct reference to Vietnam, paying special homage to the Vietnam veterans in the audience and saying, "It is long overdue that we kicked the Vietnam syndrome."

He said veterans of that war "did not receive the proper acclaim" when they returned home. "So somehow, when these troops come home, I hope that message goes out to those who served this country in the Vietnam war that we appreciate their service as well," he said to loud applause.

Bush and Vice President Dan Quayle are expected to visit military installations around the country to welcome returning units. However, Sig Rogich, special assistant to the president for special events, said no plans were set. "We take heed in what the president said. This is not a time to gloat,"

"There are too many legalities inman like Saddam," Gurken said.

Lawrence Mayer, political science professor, said many people besides Saddam were losers in the war. King Hussein of Jordan could face harsh of the trust lost when he backed Iraq in the war.

"The United States will be rethinkthe West," Mayer said.

Mayer said that now that the war is over, Israel will have to come to a decision on the Palestinian question in that country.

"The Israeli honeymoon of surviving (Saddam) Husssein's attack upon be made now is the Palestinian question," Mayer said.

Mayer said that despite the distrust most Iraqi citizens have for Saddam, no one can predict who is going to at-

Candidates for Student Association offices debate opinions in UC courtyard

By CHARRIE SOUTH The University Daily

Candidates for Student Association president, internal vice president and external vice president stated their views on questions posed by master of ceremonies Joe Handley Monday in the University Center Courtyard.

Russell Laird, presidential candidate four, said the Student Service Fee Advisory Board would be a priority of his if elected president because it allocates \$4 million - \$82 per person each semester.

Some services provided by the Student Service Fee Advisory Board are the Recreational Center, the on-campus bus system and the Career Planning and Placement

to prospective problems caused by the cuts.

Bannister said that as Student Association president he would be a representative on the Student Services Fee Board and would suggest dropping fees for services students no longer desired.

If elected, Bannister also would use the position of president to go to Austin and distribute information about Tech and why a cut in funding to Tech would be detrimental not only to the school, but to the West Texas economy as well, he said.

"At this time the best thing to do is to promote Texas Tech to the best of our ability and to let them know down in Austin exactly what we stand for up here," said Bannister, a business administration major in have students participate on college boards of regents.

"I feel that there are a lot of issues boards of regents deal with that students have personal interest in," Qualls said. "It would keep the board more student oriented."

Robert Guimbellot, presidential candidate two, was unable to attend the debate.

Todd Joy, internal vice presidential candidate one, said he thinks the relationship between Tech and the Lubbock community was a strong one. He suggested one way to make the relationship stronger would be to implement a community service plan in which Tech students would participate in a day of service to the Lubbock community

Center, Laird said.

Laird also said the projected budget cuts by the Texas state legislature, if implemented, could effect Texas Tech by endangering 300 faculty jobs.

"Since we don't know what the cuts are yet, we can't determine how they effect Texas Tech yet," said Laird, an agriculture economics major. "If everybody has to be cut, we want to get the biggest piece of the pie we can."

Gary Bannister, presidential candidate three, agreed that without knowing what state budget cuts are made, it is hard to provide solutions

the 150 program.

Richard Qualls, presidential candidate one, said he is certain that there will be cuts in the state budget, which would in turn effect Tech. He said the Student Association could help the administration find where the cuts would be least dramatic by hosting another "We Think Students Day."

An agricultural economics major, Qualls also said if Tech's state research funds were cut, the Student Association could strive to bring more contributions from the Lubbock business community. Qualls said he supported a plan to

"A goal I've been speaking about for the past few weeks is I'd like to publish a course evaluation guide. This guide would list a course at Texas Tech and describe and evaluate those courses, based on the comments of other students," Joy, a finance major, said. Matt Weinheimer agreed that the relationship between the Tech and Lubbock communities is strong. Weinheimer also said he would support an increase in student health fees.

"It comes down to a cost to benefit ratio," Weinheimer said.

Debate time

VIEWPOINT

TUESDAY MARCH 5, 1991

Channel 13 **KLBK makes amends for ex-employee**

In response to a recent editorial by Brian Mayes, allow me to formally state that the views and opinions expressed by Mr. Mayes in no way reflect the views and opinions of KLBK/Channel 13! None of Mr. Mayes' immediate supervisors knew of his intention to

write such an article and he certainly had no authorization to mention KLBK in the same breath with his viewpoints. What Mr. Mayes did, he did of his own accord.

Unfortunately, I cannot change or alter what was published in your paper. Believe me, if I could I

would. I can offer my sincere apology to the untold number of readers who were offended by Mr. Mayes. It is my hope that your readers will not let the views of one individual pollute and infect their observations of this television station.

I wish Mr. Mayes had disclosed the intensity of his feelings at the time he was hired by KLBK. Had he done so, I would not be writing this letter and informing you that I have accepted his resignation.

Terry Graham News director/anchor

Lederman said that people do not create these luxuries and like science because they are unfamiliar and uncomfortable with it.

about it and not be afraid of it.

"The image of the scientist needs to be changed," he said. "A person would be surprised about science. When science is performed well it is really beautiful.

"There is a right way to teach science," Lederman said. "Teaching directly from a text is not the way. Students need to be able to see what is going on and be able to work with their hands. It helps them think. If every teacher would do this, there would be a lot less fear about science."

Lederman said he would like to see college students understand important, current issues better because they know science.

"I want to encourage students to believe that science is not that hard.

Inflation forces review of serials

By TELEA JOHNSON The University Daily

Due to the inflation in serial prices, the library will conduct a serial review to see which publications faculty consider most important.

The library's budget is \$2.1 million for subscriptions and books. The amount of money spent on serials is 76 percent of the total budget.

The last serial review was three years ago. This year, each faculty member will receive a list of all serials received by the library. Each faculty member is encouraged to participate by selecting up to 60 titles that he or she considers im-

money to pay for subscriptions and less money is available for book purchases," said Doug Birdsall,

associate director of the library. Birdsall said Tech is not the only library that has a problem paying for serials. All university libraries as large or larger than Tech have the same problem, and about half of those are reviewing subscriptions to make cuts in their titles.

"There aren't many budgets that can keep up with that inflation. It isn't because they aren't getting enough money, it's because of the skyrocketing costs," Birdsall said.

The library subscribes to 10,000 serials, 119 of which cost \$1,000 each. The initial cause for the serial review was the concern that not enough money was available for book purchases.

as possible," Birdsall said.

"The serial review will affect the interlibrary loan in both borrowing and lending. There will be an increase in the amount of materials that are borrowed, but at the same time there will be less material to lend," said Carol Roberts, a library assistant.

The library does not know what the budget for next year will be until summer. The library is planning ahead to allow for inevitable inflation and possible budget cuts.

"We are trying to act in a responsible way. We are trying to plan for a way to keep funding for both books and subscriptions," Birdsall said.

Council fights sexism Women educators' conference set

By TARA HEARLIHY The University Daily

The Women's Studies Council discussed the area of assisting women on campus dealing with underrepresentation and sexism on the Texas Tech campus during a meeting Friday, said Gwen Sorell, an associate professor of Human leaves," she said. Development and Family Studies. The council's objectives are to administer to the women's studies program and to have an advocate group for women who are students or ex-

ecutives on campus, Sorell said. "We are concerned about the ism and unreported sexism." underrepresentation for women who

Center.

"We discussed ways to assist women through cooperation with the Affirmative Action Committee, groups and meetings with women who are new on campus," she said.

"We are trying very hard to recruit women, but it seems like for everyone woman who is hired, someone

Racism and sexism also were problems the council discussed. Sorell said.

"Sexism and racism are an increasing problem on campus," she said. "We are more concerned about sex-

Baltic rebellions may lessen funds for super collider

By The Associated Press

WASHINGTON - Unrest in the Baltics may undermine the Soviet Union's pledge to contribute significantly to the costs of building the \$8.2 billion super collider, Energy Secretary James D. Watkins said Monday.

Watkins, under pressure from Congress to raise \$1.6 billion in foreign contributions for the superconducting super collider, refused to tell a House committee that he was optimistic it could be done.

"I do believe this is the year that we have to come up to you and say here's where we stand on this, and we have very active efforts going to try to get these monies," Watkins told the House Appropriations subcommittee on energy and water development.

Asked by Chairman Tom Bevill, D-Ala., if he was optimistic about the foreign fund-raising, Watkins answered: "I hate to say I'm optimistic. We're going to fight hard for it, but I'd like to think at this point in time we have a good shot at

The House voted last year to spend no more than \$5 billion in federal money on the project, a 54-mile underground ring around the city of Waxahachie in which scientists hope to learn more about the origins of the universe by studying collisions of high-speed beams of protons.

tant dean of students, have developed a presentation dealing with the effects of sexism on students and harassment to students in the "The presentation simply is a case of letting people know how important "Many people are unaware that the issue of sexism is," she said. Despite repeated warnings from Gschwend, the girl continued on her hell-bent path undaunted. A nearby police officer jumped into his patrol car and continued the chase. Gschwend just smiled.

> > "We get this 20 or 30 times a day," she said.

Despite the disregard of the rules by some, the traffic controllers see themselves as helping out the students.

If people illegally "get into visitors parking we have to get them or send someone to get them so they won't get a ticket or be towed. If they park where we can't see them, then we can't help them," Gschwend said.

Rodriguez pointed out that the traffic control attendants are just misunderstood, thereby causing negative feelings.

If I were a student, "I would have had the same attitude because I would not have understood them," she said. "It's really for their favor and if they understood that, we wouldn't bother them."

"We have to be strict because of the limited parking," Gschwend said. "We have three to four hundred visitors a day and there aren't but half of those spots available."

Tech gears up for SWC tourney Myers hopes for best in opening game

By LEN HAYWARD The University Daily

During the last few games of the 1990-91 basketball season, coach Gerald Myers and the Texas Tech men's basketball team were working to avoid the elimination game of the Southwest Conference Post-Season Tournament. With the loss to the Texas Christian Horned Frogs on Saturday, Myers feels the team must go into the game with a positive attitude and be ready to play Texas A&M.

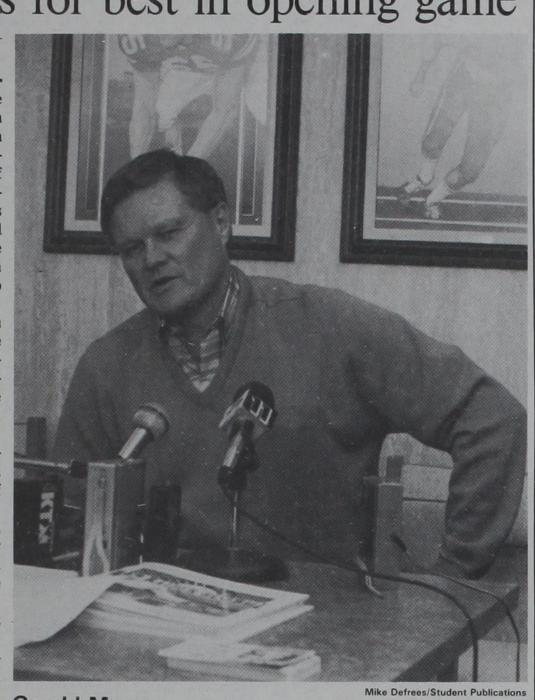

"We did not want to participate in this first round game, but we are glad we are playing in the tournament," Myers said. "It is a lot better to participate in a game like this, than not be in the tournament, such as last year."

The Red Raiders will face the Aggies at 9 p.m. Thursday at Reunion Arena in Dallas, in the first round of the 16th SWC Post-season Classic.

The Raiders finished seventh in the standings tied with the Baylor Bears. Tech will be the No. 8 seed in the tournament because of the tie breaker rules in the SWC.

"We have resided to the fact that we have got to play that game," Myers said at his weekly press conference. "We are going to work hard this week and do everything we can to prepare ourselves to go to Dallas and play against Texas The loss to the Longhorns marks hit it." A&M."

Tech did not make the tournament field last year because of its ninth place finish in league play. While this year, for the first time in the history of the SWC Post-season tourney, all nine teams will

Gerald Myers

the only conference defeat for the Razorbacks this season.

Myers commented on the play of Texas A&M against Houston on Saturday, in which they lost by a three-point shot late in the game.

"I was really impressed with the

participate.

If the Raiders are victorious over the Aggies on Thursday night, then they will have to face the No. 1 seed in the tournament, the Arkansas Razorbacks, who are also the regular season champions.

"The game against A&M will be hard for us and I think it will be a hard played game," Myers said. "We don't need to worry about Arkansas, and it would be a big mistake to look past the Aggies."

Arkansas lost to the Texas Longhorns Sunday by a score 99-86.

way they played against Houston on Saturday," Myers said. "I thought A&M had a really good game plan and they executed well and played well in the game."

Myers also commented on the strength of the back court of the Aggies with their three guards.

"I think they have three outstanding guards and those three guys can shoot the ball, especially (Lynn) Suber and (Brooks) Thompson," Myers said. "You just can't leave them open. If they get a good shot, chances are they are going to

well, although I think Lewis is a very good player," Myers said. "Anderson is the guy we have trouble matching up with. We can match his height but he is a strong physical player."

The Raiders have an overall record of 22-11 in the post-season tournament, which is a .667 percentage.

The only players to participate in the tournament on this year's Raider squad are seniors Johnny Grusing and Steve Miles.

Clutch hitting fuels Raider wins Shook, Tijerina lead Tech comebacks Brigham Young University and By JOSEPH HAYES another game against Grand Canyon

The University Daily

Up until this weekend, almost all the wins that the Texas Tech baseball team had compiled in its recordbreaking 14-2 start were usually the product of multiple runs in the opening innings, followed by a few lategame insurance points.

That was about to change as the Shook Red Raiders traveled to Phoenix, Ariz., to participate in this year's as they both scored after hitting Grand Canyon Classic.

Yesterday, it took junior Wes Canyon College.

sixth blast of the year that brought in record to 5-1. junior Kent Blasingame, who had reached base on an error.

rowed to one as Grand Canyon closed strikeouts and no walks. the gap to 5-4. But once again the they sent 10 men to the plate to bring in additional five runs and end the scoring at a 10-4 mark.

With the bases-loaded, junior Todd Kolbicka sacrificed for the sixth run and senior Tim Tadlock added another three with a double. Tadlock eventually scored on one of the four errors that the Antelopes would make on the day.

As well as a good hitting display, the Raiders also showed another good pitching performance on the mound. Winning his fourth game of the season was senior Rodney Steph.

Steph, who struck out eight in as many innings, gave up 15 hits and walked only one.

The last inning required relief help from sophomore Travis Gage (2-0) and junior Grant Lindsay.

On Saturday, Tech had to put on the Raider rally caps to defeat the Bearkats of Sam Houston 5-4, as they entered the ninth inning facing a 4-1 deficit.

Senior catcher Tony Tijerina recorded the game-winning RBI as he put a shot past the Bearkat shortstop to end the game. Other clutch hits in the comeback inning were registered by Shook and senior Joe Mendazona,

A

Raiders tangle with SMU in opening round Third-seed Tech casts wary eye on Lady Mustangs

By MIKE PENDER The University Daily

Being in the limelight usually does not last very long in college sports and such is the case with Texas Tech women's basketball coach Marsha Sharp.

After being named 1990-91 Southwest Conference Coach of the Year by the league's coaches Sunday night for the second time in her nine-year tenure, Sharp must turn her sights to this weekend's SWC Post-season Tournament in Dallas.

At noon Wednesday, the thirdseeded Red Raiders will battle with Southern Methodist, leaving Sharp's accolades behind her as she begins the trek for the SWC title.

Sharp said, "I really don't think you change that much from year to year as a coach. I think it's the response you get from your kids and just the chemistry. To me that has been the thing that has enabled us to do as well as we have this season."

Sharp has guided Tech to a thirdplaced finish in the SWC with an overall record of 21-6. The Raiders have accumulated a 12-4 SWC mark this season.

Although Sharp's award will be savored at season's end, the only thing on her mind seems to be Tech's confrontation with the Lady Mustangs.

"They (SMU) scare me a lot," Sharp said Monday in her weekly press conference. "First of all, they're on their home court and I fering a 77-53 loss Feb. 26 before think that definitely gives them an 5,403 Texas fans in Austin. The 53 advantage in the first round and secondly, Coach Brown is retiring put for the Raiders of the entire after their last game."

The Lady Mustangs mentor, Welton Brown, is in his final season the fact that we did not play a better

"The fact that they scored 76 points against us scares me. I don't think we're shooting the ball well enough to score 90 points a game."

In the two earlier meetings, the Raiders have prevailed, 85-57 (Jan. 2 in Dallas) and 90-76 Feb. 2 in Lubbock's Municipal Coliseum.

Tech holds a 20-3 series advantage over the Lady Mustangs including a perfect 2-0 record against them in the SWC Tournament.

Sharp said it is very important for Tech to get past SMU for the team to possibly advance to the NCAA Tournament later in March.

"I guess you look at the postseason conference tournament as the beginning of a whole new season and at this point. Obviously, anytime you lose, it could be your last game," Sharp said.

"I think we have to win against SMU to get in the NCAA Tournament and continue to win."

Tech should be in the running for an NCAA-Tournament bid as the only losses they have suffered this season have come at the hands of either previously or currently ranked Top 25 teams.

If the Raiders prevail over the Lady Mustangs, Tech will most likely meet SWC-nemesis Texas again in the semifinal round of the tournament.

The second-seeded Lady Longhorns entertain No. 7 Rice at 2 p.m. Wednesday at Moody Coliseum.

Sharp is weary of Texas after sufpoints were the lowest scoring out-1990-91 season.

"We were really disappointed in

Raider golfers tie for seventh in tourney

The Texas Tech men's golf team finished tied for seventh in this weekend's Border Olympics in Laredo.

Before the tournament, the Red Raiders were seeded 13th out of 15 teams, and finishied seventh tied with the Rice Owls.

After the first round, Tech was in sixth place and fell to ninth after the second round and finished the contest in seventh.

Individually for the Raiders, finishing tied for 26th place was Chance Blythe and Kevin Youngblood. Both Blythe and Youngblood finished with a score of

Blythe shot 79, 80 and 78 in the three rounds, while Youngblood shot 71, 82 and 84.

Before the tournament the Raiders were ranked 11th in their region. After the tournament the Raiders tied one team and defeated four other teams in the region.

Also competing in the tournament for the Raiders were Brad Ott (241), Scott Friggle (243), Jason Foster (244) and Michael Ashey who shot a 253.

Winning the tournament was the Texas Longhorns, who had a composite score of 923 with the top two finishers from the Longhorn team.

Razorbacks place three on all-SWC team

DALLAS (AP) - Arkansas got its "three-peat" even though Texas shattered the Razorbacks' dreams of an unbeaten farewell league season. In the process, Arkansas garnered most of The Associated Press 1990-1991 All-Southwest Conference basketball awards.

Texas kept Arkansas from becoming only the third team in SWC history to go through a season unbeaten with a 99-86 victory over the third-ranked Razorbacks in Austin on Sunday. The Hogs finished 15-1 in league play, two games ahead of Texas.

Oliver Miller, Todd Day and Lee Mayberry earned first team berths for the Razorbacks and Nolan Richardson was named Coach of the Year for the second consecutive season in voting by his peers.

A fourth Razorback, guard Arlyn Bowers, was honored as the best defensive player in the league.

Other first teamers on the mythical all-star team included two University of Texas seniors, guard Joey Wright, the offensive catalyst of the second-place Longhorns, and forward-center Locksley Collie of coach Tom Penders' team.

Arkansas rolled through the SWC to earn its third consecutive title. No team had won three in a row since E.O. "Doc" Hayes' great Southern Methodist teams of the mid-50s accomplished the trick.

In other balloting, Chase Maag, the deadly shooter for the Rice Owls, was named Newcomer of the Year and Willie Sublett of the Baylor Bears was named Freshman of the Year.

prevailed in both meetings thus far (Saturday) and only saw glimpses this year, Sharp said the fact that of what we wanted to see. We might the Raiders have played so well have played well for two minutes against the Lady Mustangs in and for five or six minutes we would previous games this season might have mental lapses and really not not be to Tech's advantage.

"The other thing that scares me a little bit is that we've played really game of the year ended in a 63-57 well against SMU both times we've victory over the Lady Horned Frogs played them before," Sharp said. Saturday at "The Bubble."

affected our performance on Satur-Although the Raiders have day. We came back against TCU play well."

Tech's last SWC regular-season

GLASGOW, Scotland (AP) - The team of Terri Dendy, Natasha Kaiser, Marilyn Gilliard and Jearl Miles set an American record in the women's indoor 1,600-meter relay Sunday during a meet against Britain.

The time of 3 minutes, 34.66 seconds, broke the record of 3:35.92 set by the University of Florida at the 1990 NCAA Indoor Track and Field Championships.

Miles came from about five meters behind on the final leg to give the U.S. team victory over the British squad, but the Americans did not realize they had set the record until the public address announcer told the crowd.

"We were thinking about winning the race. The record was a blessing," Dendy said. "We didn't even know what the record was."

Earlier, Gilliard had run the 800 meters and Kaiser had run the 400 meters, but Dendy and Miles were fully rested for the relay.

"We were just hoping to run strong splits," Dendy said. "Two of our girls were tired from earlier races, but Jearl was fresh."

Texas lineman identified in steroid case

By The Associated Press

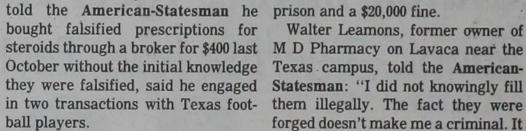

AUSTIN - University of Texas offensive lineman Kevin Wiley has been identified as a football player who was selling falsified prescriptions for steroids similar to the falsified prescriptions that led to the arrest of a Longhorns player last week, the reported.

In addition, an Austin pharmacist told the newspaper on Saturday that he filled at least four prescriptions for steroids last year from Duncanville doctor David Hubler, but he said he had no knowledge the prescriptions were falsified.

Local weightlifter Tim Bruner, who him the prescriptions was Wiley.
