

Registrar Expects Jump In Fall Term Enrollment

At least a 10 per cent increase in the registration of students at Tech is anticipated in the fall term, according to Don L. Renner, assistant dean of admissions and registrar.

12,000 Expected

The number of students will jump to approximately 12,000 as compared to 11,183 (7,361 men and 3,822 women) in 1962-63.

Enrollment begins Sept. 17 and continues through Sept. 19. Tuesday and Wednesday scheduling will last from 8 a.m. until 6 p.m. Thursday times will be from 8-12 a.m.

Days and hours for a student to register will be determined by the total grade points

earned at the close of the spring semester. Transcripts may be included if they are received early enough.

Housing Termed Controlling Factor

A controlling factor of enrollment is housing. The 15 men's and women's residence halls will hold 2,818 women and 2,474 men.

Those that live off campus last year numbered 7,065 men including the graduates and married students and 150 girls not including the married women and graduates.

This number was decreased considerably as vacancies appeared in the halls.

The new women's hall, opening in Sept., will house 808. There will be no increase in

space for men, thus two of every three men will live off campus.

New Men's Dorm Not Answer

James G. Allen, Dean of Student Life, implied that even with the completion of a new men's dorm in 1964, with the capacity to house approximately 1,000, the situation would not be remedied.

"We will be no better off," he said, "because the enrollment will continue to increase also. There is no solution to the problem."

Of the 1962-63 enrollment 59.68 per cent lived off-campus, leaving 40.32 per cent in the halls, according to Lewis N. Jones, dean of men.

K T X T Slates Biology Series

"I'm glad that it is he on television dissecting that pig instead of me."

"Better enjoy it because you'll be doing the same thing tomorrow in class."

SUCH WILL BE the candid comments of Tech students viewing the educational programs KTX-TV will broadcast this fall as a supplement for biology and economic courses offered on campus. A series of ninety highlights of biology will be shown Monday, Wednesday, and Friday at 6 p.m. The economics series will be shown Tuesdays and Thursdays at 6 p.m. Both series are gratis from the Learning Resource Institute.

No courses are to be broadcast specifically for academic credit this year as physics, chemistry, and economics were last year. The supplementary courses may be required viewing, however.

"INSTEAD of trying to please some of the people all of the time, we try to please all of the people part of the time," said D. M. McElroy, manager of KTX-TV. "There should be something of interest to everyone at least once during the week's programming."

This September there will be several new educational and entertaining series from National Education Television Radio Center. "NET," fourth largest network in America, distributes free programs for educational TV stations.

"FESTIVAL of Arts" is broadcast now and will be continuing through the fall semester at 7:30 on Friday. This series is a presentation of famous dramas.

A program which may supplement government and law courses through a court discussion of the constitutionality of laws is "Decision." It is shown at 7:30 on Monday.

Beginning September 20 at 8 p.m. will be the first in a series of eight broadcasts entitled "Short Stories of Saki." The stories by Scottish wit, H. H. Munro, are satires on human foibles.

"ON HEARING Music" broadcast at 8 p.m. on Tuesdays features the world renowned cellist Pablo Casals.

Interviews with top Washington officials concerning current events will be shown Mondays at 8 p.m. starting September 23 on "Perspective."

"The Light Show" to be shown on Wednesday at 8 p.m. will feature a cross section of music from jazz to folk songs.

BEGINNING August 15 at 8:30 p.m. will be a new series entitled "Exploring the Universe" narrated by Dave Garroway.

This September KTX-TV will operate partially on a budget of state funds for the first time. The state law which prohibited the use of state funds for college television stations is no longer in effect, so the only two college transmitters in operation, one at the University of Houston, the other at Tech, will broadcast partially on taxpayers' money.

SINCE KTX-TV has only one camera with which to do live programming, very few live shows are done at present.

Lubbock, Texas, Thursday, August 15, 1963

No. 146

PRACTICING UP—Steve Boyar and an unknown accomplice participate in an antic synonymous beachcomber ball, August 16. The Sport? —He's Doug Boone.

'Beachcomber Ball'

Union Sets Dance

Taking the place of the annual Tech Splash Day, a Beachcomber Ball has been arranged by the Student Union Program Conference under the direction of Mrs. Karen Moore, program director. The party is scheduled for Aug. 16 at the Sun Play Swimming Pool on Brownfield Highway from 6 to 11 p.m.

Doug Boone is in charge of student preparations for the ball.

While a Hawaiian beach party comprises the theme of the affair, the night's

activities include a swimming party at 6 p.m. followed by a Beachcomber dance from 8-11 p.m. The Raiders will provide music.

All Tech students are invited to attend, although non-Tech students will be admitted if accompanied by a Tech-san.

Fee slips must be presented at the door. Those attending are advised to wear Bermuda shorts and bring their swim suits. Dressing rooms will be provided at the pool.

(Real) Editor's Note . . .

This edition of the TOREADOR was prepared by high school students on campus this week for the West Texas High School Press Association journalism workshop.

All reporting, editing, makeup and other chores incidental to the publishing of a newspaper were performed by these youngsters with amazing skill and perception.

A truly refreshing aspect of their work was the open mind with which they went about their duties. We feel that you will discover, in this edition, some perspectives of Tech that have escaped our now-veteran eyes only to be re-discovered for us by these visitors — many of whom were seeing our campus for the first time.

STOCK FARMER

MUSEUM EXHIBITS—as will be featured when Tech opens its art show in November.

Varied, Interesting

Museum Plans Fall Exhibits

Artists, collectors and even those who simply enjoy buying and owning paintings will find works at their fingertips when the Tech Museum opens its "Art to Own" exhibition in November.

The sale show will be a part of the plans for fall exhibitions which have been announced by Dr. W. C. Holden, museum director.

Scheduled to open Nov. 8, the purchase show will feature works from American and European galleries which were assembled by W. R. Fine, an art dealer from Dallas. This will be the second year the museum has had a show of this type.

The paintings and graphics will be arranged in the art and rotunda galleries by the Fine Arts Committee of the women's council of the museum. Prices will range from \$25 to \$6,000.

Nov. 24 through Dec. 17 the museum will display a collection of drawings by Norman Rockwell, a noted artist who has done covers for the Saturday Evening Post.

An exhibit of original prints by artist Gene Kloss of Taos, N.M., will be shown concurrently with the Rockwell collection in the rotunda gallery.

"Tentative plans are also being outlined for exhibits for the first of the year," Dr. Holden said.

The Ninety-Sixth Annual American Watercolor Circuit Show is tentatively set for Jan. 2 through Feb. 2. Other tentative exhibits include prize winners from Watercolor, U.S.A., and the third annual West Texas Watercolor and Collections Committee of the women's council hopes to have an exhibit from Feb. 2 through 26 entitled "One Hundred Years of Weddings, 1860-1960."

The committee has been gather-

ing clothing and bridal wear for the exhibit for nearly four years.

To tie in with the Tech Science and Engineering Show in April, the museum hopes to have an exhibit on Space and Communications.

The Museum will close Aug. 31 and will re-open Sept. 15 for the 1963-64 season.

Hours are 8-12 a.m. and 1-5 p.m. Tuesday through Friday, 8-12 a.m. Saturday and 3-6 p.m. Sunday. The Museum is closed on Mondays.

Sixty Vie For Bingo Prizes

The Tech Student Union closed another of its summer activities with Tuesday's Bingo games according to Mrs. Karen Moore, program director.

Nearly sixty participants amassed the fifty odd gifts donated by local merchants to the Union by 9:40 p.m.

Typical of the prizes was the shampoo and hair set won by Carla Lemmons.

The numbers seemed to be falling into place more rapidly for the boys than the girls in these contests and because many of the prizes were intended for girls, several "ladies only" games were played.

There were many multiple winners and some students were victorious in three or four games.

Sixty Towns Represented At Tech's WTHSPA Conference

Tech's sixth annual WTHSPA conference enrolled 220 students this past week with sixty towns represented.

The workshop was divided into three sections: newspaper, yearbook, and photography. The yearbook section had the largest number of students.

The Toreador was edited by twelve staff members chosen from the advanced newspaper section. The "Sine Nominee," the workshop annual, is also being edited by advanced students of the yearbook section. These students were chosen for their ability and experience.

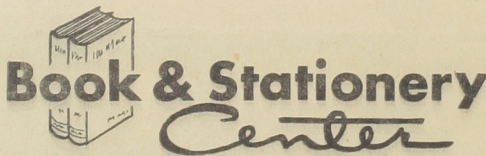

In charge of the newspaper section was Mrs. Betty Stanley, sponsor of the "Monterey Mirror"; Miss Dorothy Bowles and Lew Bullion and Max Jennings, Toreador editor and managing editor respectively. Directing the yearbook section was Phil Orman, Tech director of student publications. Director of the photography section was Ralph Sellmeyer.

Girls attending the journalism workshop stayed in Knapp Hall under the supervision of Mrs. P. Attillo, and the boys roomed in West Hall.

Workshop coordinator Mr. W. E. Garets, along with teachers and students arranged the rooming, entertainment, and supervision of the students during their stay on campus.

Union Council Lists Varied Date Ideas

Going along with the well-known idea that "all work, or in this case, all study and no play makes Jack a dull boy," the Union Program Council, under the direction of Karen Moore, program director, has planned a varied list of activities for the upcoming fall term.

Students without a car or those who wish to save gas money can have dates right on the campus.

Night Club Dances
Beginning in October, night club dances will be scheduled once each month in the Union Coronado Room. Different themes and decorations will be used for each program.

Tech members who would like to take in a movie every now and then but have no means of transportation will also find this provided at the Union Building.

Two films are shown each month and each film is shown four times. Aside from the convenience in location, these films will be shown free with the exception of select foreign movies which have a 25 cents admission charge.

Game Instructions Offered
Also popular with Techsians, the game room provides accommodations for billiards, table tennis, table shuffleboard, and others.

The excuse, "I've never played pool before," won't work, girls. Free instructions will be provided in the Union Building. Bridge instructions will also be given.

Of course many activities will be planned around the athletic events this fall. Students can take their dates to the traditional pep rallies,

the games, and the after-game parties. Fans will have an opportunity to listen to out-of-town games broadcasted in the Coronado Room, between 8-10 p.m.

Members also attend dances sponsored by sororities and fraternities.

Off-Campus Ideas
For those who like to get off the campus every once in a while and have transportation, there are approximately six movie theaters, two miniature golf courses, five bowling lanes, an ice skating rink, and several roller skating rinks located in Lubbock.

PRACTICING PRINTING TECHNIQUES — Photography students of the THSPA workshop learn by doing actual film developing. They are Randy Brown of Lubbock High, Rosemary Kimbrough of Midland, Rita Williams of Monterey in Lubbock and Mike Scott of Paducah. —Staff Photo

Miniature Golf Tourney Scheduled This Week

Tech Union will sponsor a miniature golf tournament at the Twin Lakes Miniature Golf Course on the Levelland Highway Friday and Saturday.

The tournament is open to all students enrolled in the Tech summer session. There is no entry fee.

Winners in both girls' and boys' divisions will receive a trophy and a five dollar gift certificate. Other prizes will be awarded to the second, third, and fourth place winners.

Today is the final day for entering the meet. Entrants may sign up at the newsstand.

Karen Moore, program director,

remarked, "The miniature golf tournament has always been popular at Tech. We have held this affair for the past four or five summers."

Qualifying rounds will be run off at 1 p.m. Friday. Semi-finals and the final round will be Saturday.

Mike McDonald and Danny Stewart are student chairmen in charge of the event.

As of Wednesday only one girl, Carla Lemons, had entered the tournament. A field of seventeen boys entered including: Tommy Williams, Lawrence Thurman, Louis Hurt, Glen Smith, Larry H. Hoover, Bill Adams, Jimmy Jackson, Dave Pendleton, John Seymour, Don Whittack, Dale Newberry and Bob Bullard.

Other entries are Don Bartley, Jim Watt, Richard Haggard, Dan Adams, Terry O'Donnell.

City YMCA Announces Caprock Chess Contest

A Panhandle - Lubbock Open Chess Tournament is planned Aug. 24-25 at the Caprock Hotel under sponsorship of the YMCA.

According to Murray Tabachnick, president of Tech Union Chess Club, registration is scheduled Aug. 24 between 8:30 and 9:30 a.m.

Entry fees for contestants over 18 are \$5 and \$2 for those under 18. Contestants must be members of the United States Chess Federation.

Tabachnick emphasized that the \$5 entrance dues could be paid during registration.

Prizes include trophies for both

first and second place in open division, Tabachnick said.

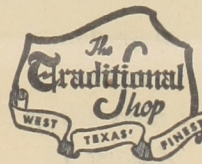

Also, trophies will be awarded the highest ranking player from the Panhandle - South Plains area, highest ranking Lubbock entry, and highest ranking junior (under 18) entry.

Over one-hundred players are expected for action which will feature five rounds.

Experts Choose Raiders For Cellar

By DAVID BEESINGER
Workshop Asst. Sports Editor

Sunshine may be scarce this year for Tech football fans as gridiron experts expect the Red Raiders to inhabit the cellar of Southwest Conference standings again for the 1963 season.

According to line coach John Conley, Texas is sure to finish in first place. Outstanding boys fill all the team's positions but Scott Appleton, lineman, will be especially important in the Longhorn's lineup.

Arkansas should be second because of its good ends and a young

quarterback named Bill Gray. Rice will follow if their strong offensive line holds. The list will probably be completed by Texas A&M, Baylor and TCU, followed by SMU and Tech.

Coach J T King has one light for the darkness in the form of David Parks, senior from Abilene. Last fall Parks was runner-up to Arkansas' All-American Billy Moore in polling All-Southwest Conference votes, and he is a candidate for All-America selection this year. Parks is 6-2, weighs 193 pounds and occupies one of the end spots. Jerry Don Balch will probably be the other end.

Young James Ellis will most likely be calling signals in the huddle

from quarterback's spot. Ben Elledge is also a contender for the position.

Other candidates for backfield jobs are Roger Gill, Bill Worley, Donny Anderson and Max Gatlin at halfback, and Jim Zanios, Butch Thompson and Charlie Graham at fullback.

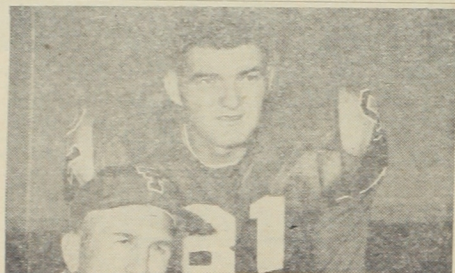

H. L. Daniels' golden toe will be returning this fall kicking field goals and extra points. On the line, holes will be plugged by Glen Koch, Richard Willis, C. C. Willis, Bill Shaha and Ronnie Reeger.

Nineteen of last year's lettermen return for action this fall in the form of four ends, four tackles, four guards, three centers, two halfbacks and two fullbacks. The loss of quarterback could be Dan

Scarborough penalized, the team considerably but the situation may not be as bad as it seems. The Raiders have more speed and depth than last season's eleven, so King and Company could surprise even the experts.

Coach Burl Huffman, Picador head coach, seems to have a different idea about his squad of freshmen. Although all the expected players haven't arrived on campus yet, he thinks there will be several good boys reporting for workouts when the fall semester starts.

"We will probably have as good a team this year as the one last year," Coach Huffman commented. In competition last fall, the Picadors finished with a commendable four wins and one loss.

LOOKING AHEAD—Texas Tech Coach J. T. King and the Red Raiders' All-America candidate, end David Parks, study the 1963 schedule, which includes six home games—with Washington State, Texas A&M, Texas Christian, Baylor, Rice, and Kansas State.

J T King Starts Third Year As Tech Head Football Coach

On Sept. 21, J T King will begin his third year as head football coach at Tech. King, who started coaching at Kennedy High School in South Texas in 1939, has had 17 years of college coaching experience with Tulane, Texas A&M, Texas and Tech.

Merrill Green, one of seven staff members, will coach the offensive backfield. Joe Blaylock, offensive end coach, graduated from Mississippi Southern in 1950.

John Conley is in charge of the offensive line. He is a 1949 graduate of Kansas State and coached at Snyder High School before joining the Raider staff.

The newest member of the staff, Harry Buffington, is coach of the defensive line. Buffington, a 1942 graduate of Oklahoma State, coached at Austin College and at his alma mater before coming to Tech.

Jim Wright, a 1957 graduate of Texas A&M, played quarterback for Bear Bryant's 1956 SWC cham-

pions and the 1957 Gator Bowl team. His entire coaching career has been with Tech.

Burl Huffman, freshman foot-

ball and varsity baseball coach graduated from Trinity University in 1928. He also helps with the varsity football coaching duties.
