# Governors give mixed reaction to 'federalism'

WASHINGTON (AP) — The nation's governors gave a mixed and often skeptical reaction Sunday to administration arguments that there will be "no winners, no losers" under President Reagan's "new federalism" proposal.

"The truth of the matter is the states are already the losers," said Gov. Scott Matheson of Utah, referring to cuts in federal aid to the states in the administration's budgets for fiscal 1982 and 1983.

Although budget director David A. Stockman contended that the budget is a separate and distinct issue that "really has no bearing" on "new federalism," many of the governors disagreed.

"Are you saying to me ... that this deficit is not important?" New Hampshire Gov. Hugh Gallen, a Democrat, asked Stockman during a session of the National Governors' Association

"I have not suggested anything of the kind," Stockman responded.

Stockman and Richard Williamson, assistant to the president for intergovernmental relations, appeared at the opening day of the association's three-day winter meeting and also at a meeting of state legislators.

While nearly all governors support the concept of giving states authority over programs now run by the federal

government, they are questioning whether the financial resources also will be made available.

"If we're going to be partners, we can't come into the partnership in an anemic position," said Matheson, a Democrat.
Williamson responded, "The greatest losers are not any state, but all Americans," a reference to the current economic conditions.

"With respect to the budget," he added, "we're open to discussion."

Two Republican governors, James Thompson of Illinois and Christopher Bond of Missouri, urged their fellow governors to accept "new federalism" as the basis for achieving the kind of shift of responsibilities governors have long advocated.

Bond urged the administration "not to delay just because we're in tough times."

Reagan's proposed budget for fiscal 1983 projects a \$91.5 billion deficit and reduces federal aid for the states by \$10 billion.

Gov. Richard Riley of South Carolina, a Democrat, said that for the states to negotiate the details of "new federalism" on an equal basis "the federal deficit is going to have to be corrected."

### FCC chief criticizes regulations

### Thomas Jefferson Award recipient speaks in UC Ballroom

By SUSAN CORBETT UD Reporter

Broadcasting regulations such as the fairness doctrine and equal time rule — tools of legal government censorship — trammel the first amendment of the constitution, Mark Fowler, chairman of the Federal Communications Commission said Friday.

Fowler was at Tech to receive the national Thomas Jefferson Award at a banquet in the UC Ballroom. The annual award is given to a public official who has worked to uphold and defend the rights of the news media to report and disseminate the news.

The FCC will try to make drastic changes in government regulation of the broadcast industry, Fowler said. He submitted the proposed legislation calling for an end to the equal time rule and the fairness doctrine in October.

"What you'll start to see is a lot of unregulation, not deregulation. We've identified 500 rules in broadcasting alone that will be repealed or modified," Fowler said at a press conference Friday afternoon.

Fowler said the public interest standard the rules were encrusted upon at their inception has been lost.

"What has emerged from the public interest standard is a trustee approval for broadcasting, demonstrating the level of public service never before required of any medium. It's time we got out of the content-control business," he said.

The fairness doctrine cannot be a dogma enforced by the government, Fowler said.

"The fairness doctrine is really a censoring doctrine. It censors by forcing someone to broadcast something he

Fowler

normally would not, or precluding him from broadcasting other news events," Fowler said.

"There is no business for the government in programming. The government telling stations what to do violates the democratic spirit of the United States," Fowler said.

Fowler said the people and editors have the right to make their own judgments about programming.

"What is on TV is what the people want to see. Let the people change the dials on their TVs and radios. This furthers the goal of the First Amendment," he said.

Fowler said the equal time law and the fairness doctrine sound good but are disincentives to robust discussion.

"The rules jeapordize the stations' licenses because broadcasters have to find another side to a story or rely on the noncontroversial topics. Supression of debate or forcing someone to speak is censorship," he said.

No fairness doctrine exists for newspapers, and there is no rationale for not allowing the same in broadcasting, Fowler said.

"The Washington Post, a paper known to print predominantly liberal editorials, also prints the conservative view in its own self-interest and in journalistic excellence," he said. "Reversal of the rules would return to brodcasters something they should have had all along — the same rights as other media."

Free press is in serious trouble, Fowler said, citing current efforts to license journalists, as well as the Polish press as the first target in tyrannical government takeover of the country.

"In our own country, our government is inconsistent in criticizing other countries while maintaining censorship in its own press," he said.

The presentation of the award was the opening event of Mass Communications Week at Tech, Feb. 22 to Feb. 26. The theme for this year's Mass Communications Week is "Tech Excellence in Mass Communications."

This was the 10th year the Thomas Jefferson Award has been presented.

The Thomas Jefferson Award is sponsored by the Texas Press Association, the Texas Daily Newspaper Association, the Texas Association of Broadcasters and Tech.

Tech's Joe Washington (left) competes with SMU's John Briggs for possession of the basketball during Saturday's game at the Municipal Coliseum. Reginald Pink of the Mustangs looks on. The Raiders defeated SMU 71-44. See page 7.

# Lubbock will not be affected by proposed utility increase

By KEELY COGHLAN UD Reporter

Although Southwestern Public Service Company (SPS) has asked for a rate increase in its electricity charges in Texas, Lubbock residential customers of SPS will not be affected by the proposed 12.7 rate hike, SPS District Manager Jake Webb said.

Unlike residents of other Texas towns served by SPS, Tech students living off-campus in Lubbock will not have to add a proposed average increase of \$5 to \$10 to their monthly bill.

SPS is not seeking a rate increase in Lubbock. Floydada or

SPS is not seeking a rate increase in Lubbock, Floydada or Crosbyton because the three cities have competing municipal utilities, Webb said.

Both SPS and Lubbock Power & Light, the municipallyowned and operated electric utility, received a rate hike that went into effect August 1, 1980.

However, SPS might have been able to provide Lubbock customers with electricity in January for about a quarter of a million dollars less than it did.

The cost of fuel SPS uses to generate electricity apparently has continued to be less than the cost of fuel LP&L uses.

LP&L recently constructed an interconnect, or pipeline for electricity, between LP&L and SPS because LP&L can purchase electricity from SPS cheaper than it can generate it, Lubbock Electric Utility Board Vice Chairman Lee Stafford said.

## Happy Birthday, George — a look back

By DON McLEOD

Associated Press Writer

MOUNT VERNON, Va. (AP) — Happy Birthday, George Washington. Rest well. Your house and your memory are in good hands.

There are people who know this is

your birthday and care, even if the

federal government you started a cou-

ple of centuries ago celebrated it last

week.

In the early light, when the dew still clings to the slopes you so carefully terraced, the keepers of your house will visit your tomb and lay a wreath, commemorating the 250th anniversary of

your birth.

President Reagan arrives later, and then the governor and the county supervisors, color guards, veterans and scouts and all kinds of well-wishers and

But these first visitors are special.

These are the folks who look after
Mount Vernon the way you did, or the
way you would have if you could have
spent more time here.

Your cousin Lund Washington took care of the place when you were away serving your country. The head man here today is John Castillani.

Mount Vernon is as beautiful as you would have wished, and financially sounder than you ever knew it. And in your own hospitable tradition it receives one million visitors a year.

And despite the trampling and the romping, the grass is lush, green and soft. They even have an underground irrigation system now.

Over there, fussing with the shrubs is Dean Norton. They call him their head horticulturalist, but like you, George, he's a scientific farmer who loves his work.

The boxwood gardens you laid out are full and deep green. And those holly trees you put out as sprigs; you wouldn't believe them now.

And the house. It's perfect, George. Furnished with care very nearly the way it was when you breathed your last in the upstairs bedroom in that December chill of 1799. Most of the furniture isn't yours, but each piece is as close as they could come to an original.

And they're doing some things you would like.

They scraped through two dozen coats of paint and discovered what a

and drab hues that represented George Washington to visitors for so long. In their place are vibrant greens and vivid blues and lemon yellows. And they peeled away the toned-down browns of your study and recreated the wood graining you loved.

lively spirit you were. Gone are the pale

You may not like this, but there are wires running all through the place, to carry that electricity Ben Franklin made such a fuss over. But it's for the house's own good. The wires provide power for lighting at night without those dangerous open flames you used. They run cleaning machines, burglar alarms and fire alarms.

You have the best fire detection and suppression system in the world. Just one flicker of flame and out spurts special gases that smother the fire but won't harm your house, or your furniture, or your books, or your guests.

Haven't had much trouble of that sort here, though. Castellani says they keep a careful watch, but he thinks the real reason Mount Vernon survives so well is that "there is such a deep reverence and respect for George Washington." Imagine that, 250,000 school children in an average spring and there's hardly a scratch anywhere that counts.

They've got more than half a million pieces of paper in the document collection. No room for the staff and visiting scholars to turn around, much less work together.

The new library opens this summer, and it will allow them to share the collection with researchers and scholars, promote seminars, sponsor fellowships and keep their priceless papers in a harmless climate.

And don't worry. It's tucked away under a little knoll where it won't spoil the view you loved so much.

All this costs a lot of money, though, and the Mount Vernon Ladies Association that saved your home from destruction back in the last century, are pursuing a fundrasing drive. Some of the most important business and government leaders of our time are helping.

It's only the second public appear since the ladies raised the \$200,000 purchase price in 1853, but it had to be done. They've got problems you never would have imagined. A gasoline shortage or price rise, could cut income dangerously. Four rainy weekends in April could cost \$150,000, a big enough piece of the \$3 million budget to cause alarm.

They want to keep Mount Vernon affordable to the millions of people who come here to get closer to you.

They just can't raise the ticket price high enough to make the repairs needed and keep growing.

So, your countrymen are helping, they've already raised \$3.5 million and hope to reach their \$10 million goal by your next birthday. Looks like they'll make it, too.

"The ladies are very sensitive to being private owners of a national shrine," Castellani said. "They feel strongly that they hold it in trust for the public benefit and that it is in the public's best interest to keep the admission fees as low as possible."

Happy Birthday, Mr. President.

In a review of Conway Twitty's new album, "Southern Comfort," UDEntertainment Editor Pat Barton says the country singer is still going strong. See Page 6.

### WEATHER

Fair today, becoming partly cloudy Tuesday. High today near 80. Low tonight low 40s. High Tuesday upper 70s.

# Opinion February 22, 1982, Page 2 Black Awareness Month: A time for looking backward

Tech is in a unique situation when it comes racial minorites. Situated in the far reaches of the state, the university could be a Mecca for every minority in the area. Tech could attract almost every minority in West Texas that was interested in getting an education.

Instead, Tech is more like a Moscow for minorities. Less than 1,000 Mexican-American students and less than 300 black students are on campus. To have a minority percentage that low is shameful.

That's why it is encouraging to see a group take things into its own hands when it comes to improving the minority situation at Tech.

Since the beginning of February, Tech has been celebrating Black Awareness Month. The Student Organization for Black Unity (SOBU) has been sponsoring events ranging from political lectures to musical entertainment to a beauty pageant, all to help blacks understand their heritage as well as look toward where the race is going.

Such an undertaking is no easy task, and the organization deserves a lot of credit for doing something to improve the image of blacks at Tech. Black Awareness Month has become more and more popular over the years, and this year it has had 50 percent white atten-

But, as good as Black Awareness Month has become, there is still room for improve-

When it comes to educating the community about blacks, 50 percent white attendance at some events is not enough. To really educate the campus on the cultural events that have given blacks their distinctive culture, there needs to be a large majority of whites at key

Blacks should be aware of their heritage and Black Awareness Month should still be keyed to letting blacks celebrate that heritage. At the same time, a few key events that would attract a majority of people from other races are

Popular films about blacks could be screened or popular black artists could be brought to the campus. These people

and these films could mix solid entertainment with a strong message about blacks in today's society.

Black Awareness Month is one of the best things minorities on this campus have going. If more is done to upgrade this already quality event, then maybe, someday, it will be extremely hard to find any serious prejudice at Tech. - Joel Brandenberger

### Week marks a salute to tough kids

#### Ron Miller

Editor's Note: Cystic Fibrosis Week was last

This, by the decree of the mayor and local officials, is Lubbock Cystic Fibrosis Week. There are several reasons why CF is getting this atten-

First, it is the number one genetic killer of children and young adults - A degenerative and ultimately fatal disease that attacks the lungs and digestive system. Every day, an average of five children are born with CF and everyday, three children die of it.

Second, it's a far bigger public health problem probably realize. Ten million Americans - one out of every 20 of us - are carriers of the gene which as yet is unidentifiable. When two carriers marry, the chances are one in four that each child they conceive will have CF, and the chances are two in four that the child will carry the CF gene.

Third, and this point is the focus of this editorial, we pay tribute to the tough kids who have CF. Every day is a battle for them to breathe and to digest their food. CF patients must undergo a daily, rigorous routine of therapy just to be able to breathe. Many of them take up to 40 pills a day to help their digestive process and ward off lung infections.

Although medical progress has greatly extended the length and quality of life for people with CF, about half of those with CF will not live past their 20's. Few live into their 30's.

And yet, the thousands of CF children and young adults in this country continue their daily struggle; they undergo therapy, go to school, make friends, prepare to hold jobs (and, when they do, appear to be especially motivated) - in short, make a determined effort to lead what we like to call a normal life.

This takes a very special kind of toughness, the kind that grows out of adversity and a fierce determination to hold onto life. In some ways, such people get more out of the years they live than those of us who take longevity for granted.

So it's a good time, during Lubbock CF Week, to salute them - these tough kids with Cystic

### Letters to the Editor

#### Dad's Day

To the Editor:

Pursuant to the inquiry by Mr. Ed Quintana concerning the Dad's Day-Parent's Day issue ("Parent's Day" - Feb. 11, 1982), I am pleased to inform Mr. Quintana and others that the Student Association is sensitive and receptive to these student ideas.

During the Feb. 4 meeting of the Student Association, I introduced a resolution stating the sentiment of the senate concerning a possible change in the title of the university-wide event from "Dad's Day" to "Parent's Day."

We feel this change is necessary to truly recognize the accomplishments of female students, past and present, as well as the sacrifices and support that mothers have extended to their children attending

It seems only logical that a statewide university should make every effort to appeal to ALL potential students. Through this small gesture of appreciation, Tech should go a long way in the attainment of both incoming students and the development of a stronger and more diversified alumni support group.

It is my understanding that the Dad's Association has been informed by the Student Association and other groups of the growing appeal for a proposed change of "Dad's Day" to "Parent's Day." I hope that the Dad's Association will give all due consideration to this

#### constructive appeal.

It is my opinion that the proposed change would benefit the University as a whole - student, faculty and alumni. Chris Arrington

Senator, Student Association

#### Fonics phun

To the Editor:

After reading your story on The Filadelphia Story, (2-18-82), I thought about foning but phelt a letter would be phreferable. I wondered about your filosophy of spelling. Do you have one or is it "Webster be damned."

Phantastically yours in fonics, Tess (Fyllis) Trost

DIVERSIONARY ISSUE!

LOVEABLE

WHY ARE YOU WAKING ME AT THIS RIDICULOUS HOUR? WHO

DROPPED THE BOMB?

petroleum field (as is sometimes supposed) comes from an older era of inland seas where the conditions were ripe for petroleum formation and that the petroleum eventually migrated to oil traps above it in permeable rock, which is much younger, how can this be?

Geologists as a whole want to accept the uniformitarian principle that it took eons and eons to accomplish this feat of petroleum formation and migration to the point we see it today, as well as eons to accomplish the deposition of many layers into which this oil was trapped; where is the consistency? I am enclosing a recent article from The Dallas Times Herald. Suppose that it took only thousands of years to form petroleum. Perhaps it took only thousands of years to form the layers of earth we see (assuming the principle of uniformitarianism).

John Yates Editor's Note: The following is an excerpt from that article.

LA JOLLA, Calif. - The Scripps Institution of Oceanography reported Friday that an expedition probing hot springs in the Gulf of California has discovered pagoda-shaped "petroleum factories" that may indicate Earth's oil supply is not finite.

The discoveries do not signal an end to the energy crunch and are not commercially valuable at this time, Scripps scientists said, but they could serve as natural laboratories to determine how petroleum

forms.

Dr. Peter Lonsdale of Scripps, who headed an international research team, said, "The unique conditions in these environments deposit mineral sulfides and transform organic material from dead plankton and other marine life into petroleum products in thousands, rather than millions of years."

#### Paper deluge

To the Editor:

It has come to our attention that the Paper Monster is alive and well on the Tech campus. This problem is pointed out daily by the overflowing trash cans containing memorandums, announcements and program fliers.

These announcements, etc., could easily be sent to department chairpersons for posting rather than sending them to all faculty-staff personnel. Doesn't Tech have enough money problems without generating more waste by producing this overabundance of paper which usually never gets read and ends up in the trash

We would rather see this money spent on badly needed raises and departmental funds rather than passing it on like a bad case of paper diarrhea. Matilda Reeder Lisa Carrier

Octavio Molina, Jerri Allison

### No radio contact made in collision

GALVESTON (AP) - Officers aboard two ships on a collision course in the fogshrouded Gulf of Mexico failed to establish radio contact with each other, a Coast Guard spokesman says.

Petty Officer Thomas Geiger of the Coast Guard station here said the officers of the African Pioneer and the Delta Norte should have been in radio contact as they approached each other in the He and Herman Manfred, 61, dense fog.

"They didn't do it," Geiger said this weekend. "They put themselves in that position. They should have been on the radio with each other as the range decreased."

Coast Guard Cmdr. Fred Halvorsen of the Marine Safety Division in Port Arthur said both ships had radar equipment that would have warned the vessels' officers of oncoming traffic, but he added he wasn't sure if the radar was in use at the time of the collision.

Two crewmen from the Delta Norte, an 892-foot U.S. barge carrier, were seriously injured in a collision with the Liberian registered cargo ship African Pioneer in international waters, about 110 miles

southeast of Galveston.

Halvorsen said one crew member was injured when the crash knocked frames and plates into his quarters, throwing him from his bunk. Albert Alexander fell two decks and was submerged in diesel fuel, he said.

Alexander, 37, suffered a broken leg and ribs and was treated for inhaling the fuel, said a hospital spokeswoman. were listed in serious but stable condition Sunday.

The spokeswoman said Manfred suffered a crushed hand and a broken shoulder.

The Delta Norte, which has a hole above the waterline, was brought into port about 6 a.m. Saturday after Coast Guard inspectors declared the vessel safe.

The African Pioneer was towed into Galveston Bay Saturday but was prevented from docking because of heavy fog.

A formal board of inquiry into the crash would be convened Tuesday morning, Halvorsen said. He said the proceedings probably would take about four months.

### Oil officials deny production reports

RIYADH, Saudi Arabia (AP) - Oil Ministry officials Sunday denied reports the kingdom has slashed crude oil production a million barrels a day below the official OPEC level.

The denial, the first official Saudi comment since the reports began last month, came as the world oil cartel president warned of market "chaos" if members undermine each other in pricing and production.

Sheik Abdul Aziz al-Turki, the undersecretary of the Oil Ministry, said "the kingdom's crude production is continuing within the framework of the announced ceiling of 8.5 million barrels daily."

In a statement carried by the Saudi Press Agency, he denied reports "that any decision has been taken to reduce production to (between) 7 million to 7.5 million barrels daily." Saudi Oil Minister Sheik Ahmed Zaki Yamani is in

Europe, according to officials. Saudi Arabia, the world's largest exporter of crude oil, accepted a ceiling of 8.5-million-barrels daily in November at the demand of other members of the 13-nation Organization of Petroleum Exporting Countries.

Its previous daily average was 9.5 million barrels. The weekly Middle East Economic Survey reported Sunday that knowledgeable observers estimate Aramco, the main Saudi producing company, is currently producing between 7 and 7.5 million barrels per day.

#### Yearbook given 5-star award

The 1981 La Ventana has been named a five-star All-America yearbook by the Associated Collegiate Press, Richard Lytle, Tech director of Student Publications, has announced.

ACP judges present awards to collge yearbooks every year for excellence in concept, layout, design and content. This is the second year in a row the La Ventana has been named All-America and the first year the book has been named five-star All-America.

Five-star All-America is the second-highest award a yearbook can receive from the ACP.

The judges cited strong photography and graphics, writing, display, news coverage and concept as reasons for presenting the yearbook with the award. According to judges' comments mailed to the La Ventana staff, the judges were impressed most with the packaging of the book as well as the writing and design.

#### Gun slaying victims buried

CLARE, Mich. (AP) — To the strains of "Safe in the Arms of Jesus," 500 people packed into a church here Sunday to pay their last respects to seven neighbors gunned to death in

The procession from the First Baptist Church to the cemetery stretched two miles, with 300 cars behind the six casket-filled hearses.

"I know vengeance. I know justice must be served," the Rev. Robert Russell, whose father-in-law was among those slain, told mourners. "But I ask that we hate not. It will destroy us if we do ... A few days ago, as I thought about this tragedy, I found myself becoming bitter and hating, and God

> In North Carolina, state officials disqualified indicted highway contractors by using a law that requires consideration of bids from all "reasonable" companies.

"This is not a criminal case," said North Carolina Deputy Attorney General Gene Smith. competitive-bidding law is not made for their benefit, and administrative agencies really have a duty to protect the system."

State legislatures in Florida, Georgia and Virginia are considering similar laws,

### Agency speeding up decontrol of natural gas, groups charge

WASHINGTON (AP) - As millions of Americans struggled to cope with record high heating bills during one of the coldest winters of the century, an obscure federal agency was moving to speed up the decontrol of natural gas prices, consumer groups charge.

The Federal Energy Regulatory Commission, a five-member independent panel, is responsible for enforcing the 1978 Natural Gas Policy Act, which calls for the phased-in removal of price controls on about 60 percent of U.S. gas

But what has consumer groups upset are actions the commission has taken or is considering that will make prices rise much faster.

Critics say FERC, led by Chairman Charles Butler, is embarking on a plan of "backdoor decontrol" to accomplish administratively what President

Reagan has been unable to get through Congress.

Reagan appointed three of the agency's five members.

Consumer groups complain that · During one of the winter's worst

cold waves, announced it was doubling the price for offshore gas found in 300foot water. Gave notice that it was considering

raising the price of gas found at 10,000 feet to 15,000 feet. The consumer group Energy Action Project charged that alone could cost customers \$18 billion. · Said that next month it will consider

raising prices of "old gas" - found before April 1977 — from as little as 60 cents per thousand cubic feet to \$4.

While estimates of how much gas would be covered vary from 25 percent to 50 percent, critics are uniform in their complaint that FERC is going beyond its authority.

"The commission is being used to usurp the power of Congress," said Edwin Rothschild, director of Energy Action. "This is the administration's way of decontrolling gas without going to Congress."

FERC officials say the commission is acting completely within its authority to adjust the prices of natural gas. Butler has warned of severe inequities in price and supply between regions of the country because of faults in the current decontrol program.

"This is not backdoor decontrol," said commission spokeswoman Rachelle Paterson. "There is no way we have the authority for that. These are just modest steps Chairman Butler feels should be considered."

### E-Systems continues the tradition of the world's great problem solvers.

Unquestionably, Leonardo da Vinci possessed one of the world's great minds. Not only renowned as a painter and sculptor, da Vinci also applied his exceptional talents to the mechanics of flight, to cartography for planning military campaigns, and even astronomy.

Today, scientists and engineers at E-Systems continue the tradition by expanding the practical application of advanced technology. E-Systems uses the principles of flight mechanics as the basis for major modifications to aircraft, expands basic cartography to encompass highly

sophisticated guidance and command and control systems, and has designed and built a system that greatly expands man's ability to study the universe.

That's only a small segment of the tough problems E-Systems engineers solve in the area of antennas, communications, data acquisition, processing, storage and retrieval systems and other systems applications for intelligence and reconnaissance — systems which are often the first of a kind in the world.

For a reprint of the da Vinci illustration and information on career opportunities with E-Systems in Texas, Florida, Indiana, Utah, and Virginia, write: Dr. Lloyd K. Lauderdale, Vice President Research and Engineering, E-Systems, Inc., Corporate Headquarters, P.O. Box 226030, Dallas, Texas 75266.

### Pope lays down law to Jesuit legion

ROME (AP) — Angered by signs of rebellion in his Jesuit legion, Pope John Paul II has summoned 100 leaders of the largest and most influential religious order in Christendom to an unprecedented conclave.

Vatican and Jesuit sources say the conservative pontiff has been unhappy about many individual Jesuits' active involvement in leftist politics and their open support for liberal church causes.

"Some have been a little undiscriminating in elaborating new theories," said a Jesuit source, who asked not to be identified.

A number of Jesuits in Latin America have endorsed the "Theology of Liberation," which combines Marxism with Roman Catholic tradition.

Jesuits also have participated in the left-wing Sandinista guerrilla movement in Nicaragua, and have been accused of helping rebels in Guatemala and El Salvador.

In the United States and Western Europe, Jesuits publicly have challenged celibacy and the church ban on artificial birth control.

Soon after the start of his pontificate in 1978, the pope sent a directive urging members of the 447-yearold Society of Jesus, the formal to a closed laying-down-of-the-law, name of the order, to stick to an austere religious life, follow church history.

doctrine and shun "secularizing tendencies."

In October, he went further, naming a personal representative, the Rev. Paolo Dezza, to run the order supplanting the Jesuits' ailing superior-general, the Very Rev. Pedro Arrupe of Spain.

The move was without precedent, and Jesuits in West Germany, France and Canada complained publicly about the break in tradition.

Now, the pope has called leaders the first such meeting in the order's

"The first purpose is to inform the provincials (Jesuit local administrators), and through them the entire society, about the pope's thoughts about the society," Jesuit spokesman the Rev. Jean-Claude Dietsch said.

"The second purpose is to see how the society can respond and realize the pope's will," he added.

Dezza, 80, an Italian, will preside over the conference that begins Tuesday night in the cloistered setting of a hilltop villa retreat near the winemaking center of Frascati, 13

miles southeast of Rome. Jesuit sources expect the pontiff,

through Dezza, to take a hard line. They contrasted John Paul with Pope Paul VI, who also had difficulties with what one Jesuit called the order's "hotheads."

"Paul was a sensitive diplomatic type. This man might drop the gloves," said the priest, who asked to remain anonymous.

If individual Jesuits reesist the pontiff's will, some Jesuit and Vatican sources expect the pope to force them out of the order, but give them time to yield to his will.

John Paul will receive the group in a Vatican audience Feb. 27.

UC ceiling damage

### Fees not enough as UC borrows

By BECKY HGLMES **UD Staff** 

Tech students went to the polls last March and voted, by a 4 to 1 margin, to increase the University Center student fee from \$10 to \$15 during the long term and from \$5 to \$7.50 during the summer term.

The money was to be used for kitchen renovations in the UC cafeteria and general improvements, improvements claimed by UC officials to be "unaffordable unless students vote for the \$5 fee increase."

Since then, the UC has borrowed \$350,000 from the Tech Bookstore to pay for renovation of the cafeteria kitchen, leaving some people wondering where the student fee increase money had gone.

"The (student fee) money will eventually help correct the balance of the UC account," Vice President for Finance and Administration Eugene Payne said. "The fee increase wasn't enough to pay for the renovations needed."

Payne said the UC was operating in the red before the fee increase. Though it is still borrowing from the bookstore, the UC is beginning to reduce its deficit.

"With the extra money the fee increase generated, the UC can build up its reserve to take care of future renovations,' he said.

Money collected from students as a result of the increase. though not enough for major renovations, has been put to several uses, UC Director Nelson Longlev said.

Two new projectors costing \$5,000 each were purchased for the UC Theatre from the fee increase funds, Longley said. A wide screen television also was installed in the lounge across from the newsstand.

"The UC cafeteria kitchen needs renovation now," Payne said. "To delay this would be to delay future profits."

The Tech Bookstore will be paid back over the next several years, Longley said. Beginning Aug. 31 of this year, the UC will start the repayment process by a minimum of \$100,000 a

### 'Southern Comfort' another good Twitty album

By PAT BARTON

**UD Entertainment Editor** 

During the past 10 or 12 years one thing country music fans could always count on was Conway Twitty consistently turning out good albums.

Southern Comfort, is less than Jeans," and "Red Neckin', awesome, it continues Twitty's trend of making good tone for a collection of songs

Conway Twitty

Twitty's focus on Southern Comfort is more toward traditional country music melodies and themes. It's territory Twitty is more than familiar

On his last album Twitty us-While Twitty's new release, ed hit songs "Tight Fittin" Love Makin' Night" to set the

to adapt his style - and his fans — to a different type of displayed, Twitty now returns

much of his past work.

to the style of songs that have made him a star. Southern Comfort's main emphasis is on the slower love and hurt songs that have long been the staple of Twitty's repertoire. "Slow Hand," "The Clown," "It Turns Me Inside Out," "I Was the First" and "Something Strange Got

work on the album. remake of the recent Pointer ed as a foundation to build his Sisters hit. It transfers well to a decent country song, thanks to Twitty's smooth vocals.

done by the pop group it might seem like a perfect Twitty song. The theme of the song follows some of the same concepts as past Twitty hits "Rest Your Love on Me Awhile," "Touch the Hand of the Man" and "I Can Tell You've Never seem slightly off. They just Been This Far Before."

"The Clown" is Twitty's really strong Twitty songs. current hit. It's a fairly commen song about a common album an interesting flavor. case of a broken heart. "The Boy Next Door" has a Although it's a good song, definite rockabilly sound to it. even Twitty's fine singing It's somewhat reminiscent of can't make it a great one. The Twitty's early musical roots theme is one that has been when he, Elvis Presley, Carl

that had a faster pace than beaten into the ground.

There's still worlds of room The obvious success of the left for heart songs, but it's a album proved Twitty was able constant challenge to a songwriter to find new ways to say the same old thing.

The skill of songwriter Jan His versatility thus Crutchfield in accomplishing this feat makes "It Turns Me Inside Out" the finest song on the album.

> The lyrics are simple but excellently phrased and skillfully crafted by Twitty. He's able to use his rich, smooth voice to draw all the feeling and meaning out of Crutchfield's powerful lyric.

"Something Strange Got In-Into Her Last Night," all easy, to Her Last Night" and "I Was soft love songs, dominate the The First" are both solid, country hurtin' songs. They "Slow Hand" is Twitty's are the kind of song Twitty usstrong country career.

The two selections aren't great efforts, but they do add In fact if it had never been to the overall quality of the

Two songs that don't add much to Southern Comfort's quality are "Love and Only Love" and "When Love Was Something Else." The timing and phrasing of both songs never seem to click and aren't

Two other songs give the

Perkins and Johnny Cash emerged as early rockabilly

One of the pleasant surprises on the album is "She Only Meant to Use Him." From the title it sounds like a genuine heart-breaker, but the song that emerges is a likeable effort about deceit. hatred and sweet revenge.

It's a somewhat lighthearted song that tells an interesting story in a neatly packaged combination of sharp lyrics and a slick

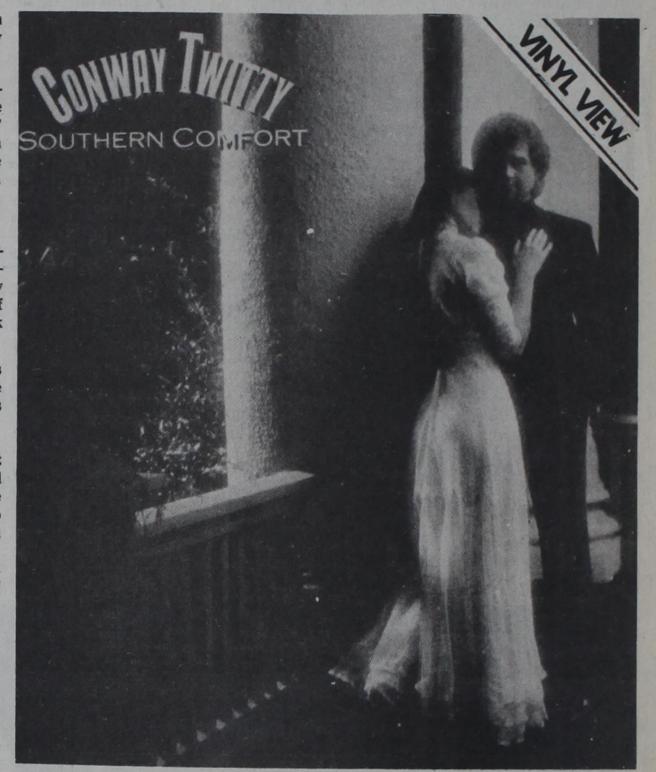

Of the faster, lighter songs on Southern Comfort, "She Only Meant to Use Him" is definitely the best.

Although Southern Comfort is filled mainly with love and pain songs, there is some diversity. Diversity seems to be something Twitty has been aiming to show lately.

It's a tribute to Twitty's talent that he's pulling it off

without a hitch. The ease with which he's adapting to the different styles and trends shows Twitty to be even more completely a country music superstar.

It's just another good album by a man who's been consistently turning out good and often great - music for a

As Myers said in the locker room after the game, the Tech performance was an overall team effort with no one Raider standing out. Each did his own part in bringing Tech its 15th victory of the season.

Steve Smith led Tech with 16 points and ran the offense admirably. Charles Johnson added 13 points and two dunks, Clarence Swannegan had a career-high 13 rebounds, Joe Washington contributed eight points and Taylor played outstanding defense while also scoring eight points.

Myers even got scoring production from his bench as Vince Taylor scored 10 points. Subs Quentin Anderson, Travis Salem, Dwight Phillips and David Reynolds conhelp the Tech cause.

The Raiders trailed only once in the game when SMU

had a slim 5-4 lead three minutes into the game. At that point, Tech made a 6-0 run taking a 10-5 lead when Jeff Taylor scored on a fast break.

Tech increased its first-half lead to 15 points when Swannegan scored making the score 31-16 with 1:27 remaining. The Raiders had a comfortable 33-20 lead at intermis-

Tech did not relax its efforts in the second half as it continued to play tough defense which allowed the Raiders to use their running game.

At the 11:50 mark of the second half, Swannegan ripped down a rebound, fed Smith on the outside who, in turn, passed to a streaking Johnson, who brought the crowd to its feet with a slam dunk. SMU's Dave tributed two points each to Piehler caught up with Johnson and fouled the junior three-point play gave Tech a 67-44 lead.

increased the 15-point lead to 21 when Jeff Taylor fed little brother Vince, who dunked the ball to give Tech a 59-38 lead with 4:01 left in the game.

Mustang in double figures.

### Bliss says Mustangs lack point guard

By MIKE MCALLISTER

**UD Sports Writer** So what do you think about when your team has lost 10 straight games in a parityridden conference, has been blown out in its last three games by 20 points or more and has just been mangled so badly in its last outing that the game films will be shown in the next Driver's Ed. class? Where do your thoughts go when your team has reached the den of inadequacy?

"Recruiting," answered SMU coach Dave Bliss. He wasn't smiling.

But then, there wasn't anything for him to laugh about. His SMU squad whose members, with their Command Performance hairdos and their Farrah Fawcett teeth make them look like they just stepped out of "The Official Preppy Handbook" had just gotten the Izod kicked out of them by Tech, 71-44.

Bliss isn't ignorant. He knows that his Mustang team, now an ugly 1-14 in SWC play, has one major problem which only recruiting can help.

"We just don't have a ball handler and that's killing us," Bliss said after the Lubbock massacre. "That just takes us out of the game. We can't run

any offense. A point guard Bliss said. "No. 2, our fast

"We're like a baseball team that's got great hitters and fielders but no pitching staff. The offense doesn't run well."

And in fact, the only cog that was running at all Saturday night was Lufkin freshman Larry Davis, who has decided ing. that SWC play is to his liking

ing star in a cloudy SMU sky. spurt to take a 55-34 lead.

"Larry Davis played super dous heart."

things aren't going right, I just chance. have to do the best that I can we can pull out a win."

takes the baton and leads the them." Pony symphony.

that can handle the ball well break is disoriented. And No. would solve 95 percent of our 3, there's no tempo control without a good ball handler."

> Still, the Mustangs got to within 39-28 with 14:38 left in the game after Davis hit an eight-foot jumper. But the Raiders called time at that point and decided that the game was ready for the tak-

Utilizing three long Steve after a dismal non-conference Smith jumpers, two Jeff Taylor shots, three Joe Davis had 25 of the Ponies' Washington free throws and a 44 points and grabbed six re- three-point play by Charles bounds and was the only shin- Johnson, Tech went on a 16-6

"We got it back to 11 and we tonight," Bliss said. "But it's can stay in the zone and lose hard for him to carry the load by 11 or go out and play and because now everyone is sagg- lose like we did the last three ing on him. He's got a tremen- games," Bliss said. "We're trying to make some strides "I felt good but one person with this young team and we can't do it all," said Davis, a had to come out and try to bulky, 6-7, 235-pounder. "If man them to give ourselves a

"The way we play just plays and hope that if I hit enough, right into their hand," the second-year coach said. Not without a point guard, "When we would lose the ball though, as three things happen (the Ponies had 18 turnovers), to Bliss' team when no one it's always three-on-two for

That's because fuzzy-"No. 1, our offense doesn't cheeked youngsters have a run the way it's suppose to," way of turning a simple pass

into a nightmare that never of the offense but is now ends. And at SMU, inex- resigned to put up a jumper perience has been every now and then since Bliss overstocked.

There is only one senior on the team — Keith Beverly and he doesn't start.

There's only one junior on the team, Dave Piehler, who last year was the cornerstone team," Bliss said.

rebuilt his offense around the inside game. Six sophomores and four freshmen complete the diaper gang.

"They (the Raiders) have a veteran team and we have an inexperienced junior college

### Raiders place at meet

BATON ROUGE, La. — Kana Smith paced the Tech effort Saturday in the finals of the LSU Women's Indoor Invitational when she finished third in the 300-yard dash with a

Teammate Donna Lamar finished fifth in the 300-yard dash with a 38.95. Sharon Moultrie captured fourth place honors in the long jump with a 18-1/2.

Tech also recorded a fourth place finish in the shot put when Early Douglas completed a 43-11 effort. Kayla Morrison was fifth in the 880-yard run with a 2:16.53.

The Raiders compete March 5-6 in the Border Olympics in Laredo. The meet is an individual meet and no team scores will be tabulated.

### OUR WORK-STUDY PROGRAM GETS YOU MORE THAN TWO INCOMES. If you have at least two years of college left, they can

be over \$6,000 cheaper. By joining the Army Reserve and Army ROTC at the same time, you earn two incomes over \$100 a month as a Reservist, and \$100 a month as an ROTC Cadet. You graduate from ROTC a second lieutenant and continue in the Reserve as an Army officer. It's called the Simultaneous Membership Program. By joining the Army Reserve now, you can take your paid initial entry training over the summer. You'll then qualify for Advanced ROTC programs at over 800 colleges, universities, and cross-enrollment schools. If you'd like to learn more, stop by or call.

### ARMY RESERVE. BE ALLYOU CAN BE.

#### Men's swimming

MONROE, La. - The Tech men's swimming and diving team trounced Drury College and Northeast Louisiana Saturday in a triangular meet to conclude the Raiders' 1981-82 dual meet schedule.

Tech defeated Drury 69-44 and Northeast Louisiana 79-34 to improve the Raiders' season record to 6-5. Tech finished first in nine of 13 events against Drury and 12 of 13 events against Northeast Louisiana.

The triangular meet is the Raiders' final competition before they participate in the Southwest Conference meet March 4-6 in Austin.

Richie O'Neill won the 3-meter diving competition with a 276.4. Jeff Beth won the 200-yard breaststroke event with a 2:11.9. Monte Alwein won the 200-yard individual medley with a 1:60.8.

Rick Scott won the 200-yard breaststroke with a 1:55.2. Sid Glenn won the 500-yard freestyle with a 4:44.9.

#### Women's tennis

The Tech women's tennis team extended its season record to 22-9 Friday when the Raiders shut out Midwestern 9-0 at the Lubbock Municipal Tennis Center.

The Raiders swept the six singles matches and three doubles matches. Tech improved its spring record to 6-4 with the win against Midwestern, which played its first

In singles competition, Pam Booras knocked off Troy Rasbury, 6-2, 6-0; Regina Revello defeated Sidney Rasbury, 6-0, 6-3; Jill Crutchfield beat Tammy Robinson.

#### Men's tennis

The Tech men's tennis squad opened its Southwest Conference schedule on a positive note Saturday when the Raiders knocked off Baylor 9-0 at The Lubbock Racquet Club.

Tech won six of six singles matches and three of three doubles matches to move into first place in the conference standings.

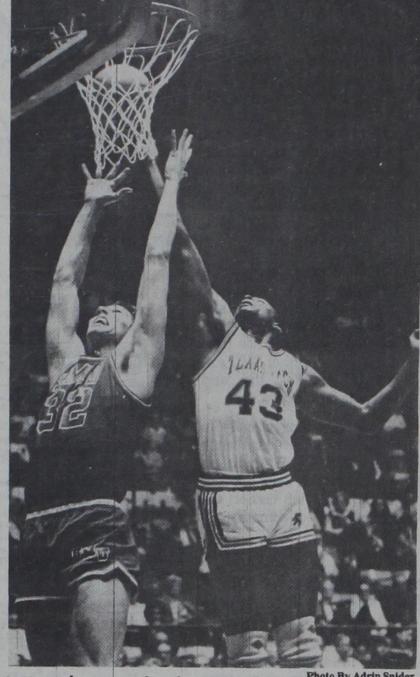

In singles competition, Tech freshman Vince Menard defeated Blake Jackson, 6-1, 6-2; Fred Viancos beat Mark Slingo, 6-4, 6-2; David Earhart defeated Douglas McKinnon, 6-1, 6-0;

#### Men's track

FORT WORTH - Tech's Thomas Selmon placed third in the finals of the long jump competition Saturday in the ninth annual Southwest Conference Indoor Track and Field Championships in the Tarrant County Convention

Selmon was the only Raider to place in the finals of the meet. Arkansas captured the team championship behind the distance efforts of Randy Stephens and Dave Taylor.

Selmon leaped 24-534 in the long jump final.

Watch out below!

Tech's Clarence Swannegan drops two points in for the Raiders as SMU's John Briggs attempts to stop the basket from counting.

### Mavericks beat Bulls behind Davis' 32 points

CHICAGO (AP) — Playmaking guard Brad Davis scored a career-high 32 points including 12 of 13 shots from the field in the second half Sunday to lead the Dallas Mavericks to a 113-97 National Basketball Association triumph over the Chicago

Davis, who helped the Mavericks even their road record at 8-8, also chipped in with 7 steals and 9 assists in leading Dallas to its 18th win against 35 losses.

The Bulls, who fired Coach Jerry Sloan last week and handed the reins to General Manager Rod Thorn, suffered their 11th loss in 12 starts as their record sagged to 19 and 34.

The Mavericks grabbed a 54-47 halftime lead as rookie Jay Vincent collected 17 of his 21 points.

### Raiders take on sliding Longhorns

By LYN McKINLEY **UD Sports Staff** 

You're about as likely to find Texas I onghorns breezing into Lubbock with a less than .500 record on the line as you are to find a thirsty ball player turning down a cold brew after a rough game of one-on-one.

But that's exactly the scene that has been set for the Tech-Texas game, which is slated for 7:10 p.m. today in the Lubbock Municipal Coliseum.

The Horns will enter tonight's contest caught in a horrendous slide, which has left them with a 6-8 conference record. But the fact that Texas has put on less than sterling performances of late will make no difference to Tech head coach Gerald Myers and Co.

For the home folks, it's still Tech vs. Texas. It's still the biggest battle this side of Ozzy Osbourne vs. the Moral Ma-

But more important than the ever-present grudge match between the two schools is the chance for the Raiders to earn a home-court advantage in the first round of the SWC Post-Season Tournament. The Raiders would clinch a home spot for the first round of the tournament with a win in tonight's

But a win for the Raiders won't be as easy as a two-on-one "in your face" against your little sister. Texas lost to Texas A&M 91-70 last Saturday and can't be too happy with the way its season has been going.

The Raiders have been riding a rollercoaster of their own lately, only recently snapping a two-game losing streak with a 71-44 defeat of the SMU Mustangs Saturday.

Tech easily handled the Ponies, who dropped to 1-14 in SWC play and 6-19 on the year. Led by the defensive play of guard Jeff Taylor, the rebounding of center Clarence Swannegan and the sharp-shooting of guard Steve Smith, Tech shut down the anemic SMU offense and played just hard enough to in-

Now the Raiders must gather themselves to face the Longhorns, who must be angry enough at the strange twists in their season to go for a little one-on-one on the roof of the Tech Biology Building.

Myers said his team will have to regroup quickly to prepare for the Texas game.

"The SMU win was good for us but we have to get ready for Texas (tonight)," Myers said. "This game will help our chances of hosting the first round in the tournament instead of having to go on the road."

While the Raiders still are flying high for the Texas game, the Horns must have a slightly different attitude going into tonight's contest.

Texas head coach Abe Lemons' squad has taken a nose dive since the loss of 6-9 forward Mike Wacker. Wacker went down on Jan. 26 against Baylor and the Horns have been licking their wounds ever since.

Texas' 6-10 center LaSalle Thompson has been the only guiding light for the Horns since the loss of Wacker. Thompson is a one-man band for Texas, leading the team in scoring with an 18.5 average and in rebounding with 13 per game. Thompson contributed 22 points and nine rebounds in the A&M game.

The Raiders will start their usual group with Charles Johnson and Joe Washington at the forward spots, Jeff Taylor and Steve Smith in the guard positions and Clarence Swannegan at center.

Swannegan is Tech's leading scorer, averaging 18 points per game. Swanny also is pulling down 6.8 rebounds per game. Taylor has continued to excel defensively and Smith has burned the net with his outside shooting.

The Horns' starting five consist of 6-4 Denard Holmes and 6-2 Jack Worthington at the guard slots, 6-6 Virdell Howland and 6-5 James Booker as forwards and Thompson at center.

### **UTA** takes two from Raiders

ARLINGTON — Tech opened its 1982 baseball season on a sour note Saturday as Texas-Arlington recorded two lateinning wins to sweep the Raiders 4-3 and 6-5 in nonconference action.

Tech right-hander David Carroll allowed four hits and four bases on balls in six innings during the first game before he was relieved in the bottom of the seventh with the score deadlocked at 3-3. Carroll walked the lead-off batter before newcomer Keith Wood, a junior transfer from McLennan,

Wood, however, had trouble finding the strike zone after he got his first batter out and issued an intentional walk to UTA second baseman Curt Culbertson. Wood walked two more batters to force in the winning run for the Mavericks.

Carroll (0-1) absorbed the loss for the Raiders. UTA relief pitcher Robert McCallum (1-0) collected the win with his two shutout innings.

Tech shortstop Andy Dawson led the Tech offensive effort with two runs-batted-in - a single and a ground ball. Left fielder Bobby Kohler was three-for-four with two singles and

a double. He also had one RBI.

A pair of newcomers to the Tech program handled the pitching chores in the second game; however, they failed to protect a 5-4 lead going into the bottom of the seventh and lost 6-5

Joe D. Petty, a junior transfer from Panola, pitched the first six innings for the Raiders allowing 12 hits and striking out five batters. Doug Galloway, a junior transfer from Paris, relieved Petty in the middle of the seventh inning.

Galloway got one batter out but allowed a hit and a walk enabling the Mavs to score the tying and winning runs. Galloway (0-1) suffered the loss.

Dawson collected two hits for the Raiders as did second baseman Scott Nethery and designated hitter Steve Spalding, a freshman from Raymondville.

Nethery, Spalding, catcher Kevin Rucker and third baseman Kenny Allbritton each knocked in one run for Tech during the second game.

The Raiders banged out 11 hits in the second game of the double-header while UTA got 13.
