Work On Preliminaries To Nationwide Conscription

WINNER—Hamilton Fish LOSER—John J. O'Connor

Regulations, Appropriation Are Necessary... WASHINGTON, Sept. 18. (AP)—Action to clear the way for operation of the nationwide conscription program commanded attention today as President Roosevelt returned to the capital and congress made ready to resume sessions.

Before the United States can launch the undertaking which begins with registration of 16,500,000 men on Oct. 16, three essential preliminaries required disposition: 1. President Roosevelt must promulgate the regulations governing the administration of the draft machinery, enrollment, classification and selection of trainees, their induction into service and kindred matters.

'Condition Unchanged' In American League

Shippers Snap Buffs Winning Streak, 8-3

BEAUMONT, Sept. 18 (AP)—Beaumont's baseball spirit was on the upswing today because the Exporters finally had managed to puncture the tough armor of the Houston Buffs in the Texas league play-off.

Houston had Beaumont two down yesterday when the Buffs rolled into town but the Shippers responded to the pleas of the home folks with an 8-3 decision that put them back in the running.

Beaumont depended on the slants of Les Mueller today for the fourth game. Houston nominated Ted Wilks for mound duty.

Virgil (Fitz) Trucks kept ten Houston hits well-scattered in yesterday's victory while the Exporters were clubbing out eleven, with homers by Boyd Perry and Murray Franklin bringing in half the runs.

Tigers Swap Berths With Ex-Top Tribe

By JUDSON BAILEY
The daily bulletins of the American league's feverish pennant fight are about as informative as those that hospitals give out on patients—like "condition unchanged" or "resting comfortably."

There is nothing anybody can do about it, though, because nobody in the world right now knows which of the American league patients are going to live and which are going to die.

The Detroit Tigers triumphed again yesterday and exchanged places at the top of the league with the Cleveland Indians, who lost. The New York Yankees ended a losing streak to move up 3 1-2 games from first place and the Chicago White Sox were idle.

Out of this jumble anything can happen. Here is the way they stand:

The victories of the Tigers and Yankees were somewhat marred, because Schoolboy Rowe, while getting credit for his 15th victory, developed shoulder trouble and retired before Detroit finished a 6-3 triumph over the Washington Senators, and Joe DiMaggio of the world champions hurt his game leg again as the world champions walloped the St. Louis Browns 9-0.

Rowe said his trouble wasn't serious and he would be able to go again after a few days rest. Others of the Tigers were less certain. Without the schoolboy, Detroit is due to find a lot of difficulty on the pennant trail.

DiMaggio hoped to be ready to return to duty today, but wasn't sure.

All the American league contenders were booked for doubleheaders today.

Cleveland's only casualty was its 4-3 loss to the last place Philadelphia Athletics. Bill Beckman kept the Tribe checked on nine hits and the A's squeezed through with the same number off four Indian hurlers.

In the National League the Cincinnati Reds came within a single game of clinching their second straight pennant. With Whitey Moore pitching five-hit ball they edged out the Phillies 2-1 to take an 11-game lead over the Brooklyn Dodgers, who were shutout, 5-0 by the St. Louis Cardinals.

The Chicago Cubs put on a six-run uprising in the eighth inning and beat New York 9-5 to extend the Giants' losing streak to nine games.

Boston's Bees copped a free-biting battle from the Pittsburgh Pirates 10-5.

The San Antonio star plans several hours of practice daily on the pebble beach course, where she will begin defense of her title against a formidable field of 164 Monday.

Steers Meet Powerhouse Friday Night

Coach Chule Milner's Austin Panthers of El Paso, after handling a 20-0 wallop to Mentor Paul Kie, left's Cathedral Irish last Friday night, are all primed to give the same treatment to the visiting Big Spring Steers this Friday night.

The Panthers displayed a powerful ground gaining machine when they piled up 156 yards to the Irish's 53 by rushing and batted the Cathedralmen's passing attack with 76 yards to 33. Only 17 yards of the total distance acquired with rushing and passing were returned to the opponents of Austin. Right Halfback Bridler took credit for most of the Panthers' gains.

Austin's kicking is able to keep pace with the rest of the department, averaging 29 yards in five punts. An indication of a potent goal line punch was given when the Panthers made four touchdowns in five penetrations to the Shamrock 20-yard line.

Being rather lacking in polish in play execution, the Big Spring Longhorns were given an intensive drill in maneuvers yesterday afternoon. Coach Pat Murphy announced he was considering making some changes in the Steers' starting lineup. Lemuel Nations probably being the starter in one of the end positions and Collins filling one of the tackle positions.

LOOKING 'EM OVER

With Jack Douglas

Alton Bostick, outstanding Big Spring footballer during the fall of 1938, has decided to give up the game for this fall down at the University of Texas. Bostick was rather severely injured in a car wreck a few days before he reported to the Longhorn camp, but he came out anyway. After trying with all he had for several days, he found he was in no condition to play football. He will be out for spring training and plans to be in school this semester.

Since he is a prospective member of the Texas baseball team and a promising football player, we are of the opinion that he will be remembered. He will still have three years of football eligibility, so the fact he doesn't get to play this fall may prove a blessing in disguise—as we are told he is the type of player who will be a lot better in '43 than he would have been this season.

According to one who knows more about it than anyone else, the Big Spring Steers are shy on one of the fundamentals of football—just where the heck the next play is going and who is going to go there. This little item is one of the things that make the difference between a football team and just a bunch of kids running in circles with plenty of spirit but no cooperation. In other words, it is a mighty good way to start spinning the wheels while their opponents make monkeys out of them.

We're almost willing to wager a small amount of the short green that the Bovines won't be so badly troubled by plays that are more surprising to them than to the opposing gridders after yesterday's session with the professor.

Rice Owls Primed To Be Dark Horses Of SW Loop

HOUSTON, Sept. 18 (AP)—Go no further than Rice Institute for the Southwest conference dark horse.

New coaches, new methods, very new spirit and most important new thing of all—physical condition—comprise the unpredictable Rice football setup.

The general idea one gains around the Rice camp is that something is going to happen. Not that drawing Jess Neely, the southern gentleman who left Clemson to take up Rice's broken foot-

"He is good on pass defense, a pretty fair and sure tackler, a good safety man and he's trying hard."

Wolcott is no worse than the second string wingback—and sees considerable service with the first stringers. He impressed with one bit of maneuvering in a hard scrimmage.

On a deep reverse play he came tearing around to the opposite

runner. Coach Neely is searching for a capable signal selector, would like to see the speed of his team improved and will concentrate on developing agility and coordination in his big line.

"So far I'm impressed with the spirit of the boys. I didn't think I'd ever have a bunch like that Clemson team of last year, but the same spirit prevails here at Rice. "I don't see why we can't have a pretty fair team. We may not win a game, but we're going to battle hell out of 'em."

The reserve strength is so good that Neely hinted he might be in a position, later on, to substitute full teams and use the unit system.

Right now, the Rice lineup probably will be, on opening day

end. Veteran football men sat in the stands and wondered if he would attempt merely to outrun the enemy secondary and forget to pick his holes.

But Wolcott, seeing the end well guarded, suddenly cut back inside tackle with a smooth crossing of his famed legs and picked up 12 yards down the middle. Not once, but four times, he showed the same football sense. He got his chance to show his speed when he picked up a lateral pass and hurried 55 yards for a touchdown.

Wolcott will do. There is another fellow who could easily become a standout in his sophomore year—T. A. Weems, the six foot, one-inch boy of 195 pounds who is a sensational punter and a very hard against Centenary Oct. 3, Tipton

Iron Men At Wash. State

SEATTLE, Sept. 18 (AP)—If a couple of potential all-Americans can keep up their iron man performances of 1939, the University of Washington Huskies should be able to beat anybody, if not everybody, in this fall's football frolics.

Last year Dean McAdams of Caldwell, Idaho, was the busiest halfback in the country, figuring in 397 plays. He ranked among the nation's best as a passer, punter, ball packer and pass receiver, and was his team's best blocker.

Rudy Mucha of Chicago was second only to all-American Johnny Schiebel of Santa Clara as the coast's best center, and he's a roiling, socking 60-minute man, especially potent on defense.

So if those boys can keep from getting hurt, the Huskies have a chance against anybody they play, and they play some tough ones, including Minnesota, Oregon State and Southern California.

Dean and Rudy spent the summer working for a mining company near the Matanuska colony at Palmer, Alaska. Dean returned weighing 200 even, and Micha trimmed down from 232 to 218.

Washington has a large veteran squad and several beefy and capable linemen.

Coach Jimmy Phelan has some other lads who may take the play away from the "M boys."

There's the swifty Ernie Steele, left halfback, who learned in spring practice how to make the sidelines run interference for him. And there's Ray Frankowski, sturdy, 210-pound Polish boy from Hammond, Ind., the school's heavy-weight wrestling champ who won a regular guard spot as a soph last year.

MIDLAND, Sept. 18.—The North Texas State teachers college Eagles and the Abilene Christian college Wildcats, Lone Star and Texas conference defending champions respectively, will renew their long-time rivalry this season when they meet this Saturday in their season-opener at Midland for their 13th annual battle.

Victorious over the Abilene Wildcats by a 9 to 0 margin last year, at Sweetwater, the Eagles this fall appear to be even stronger than they were in '39, when they marched through an undefeated conference slate and lost but one contest the entire year—that to S. M. U.

But A. C. C., fortified with the return of 24 of her 29 lettermen of last season, when she defeated five of her six league opponents to tie for the Texas conference title with St. Edwards, is also stronger than last year and stands a splendid chance of downing North Texas, her bitter rival since 1926.

Nashville One Up In Dixie Play-Off

NASHVILLE, Tenn., Sept. 18 (AP)—The Nashville Vols will be seeking their 18th victory tonight when they come to grips with Atlanta's Crackers in the second game of the final round of the Southern Association Shaughnessy playoff.

The pennant-winning Vols found the Crackers easy pickings last night in the opener, grabbing a 12-4 decision as Atlanta's defense fell apart.

Starting date of the city bowling league race, first announced to be Thursday night, September 19, will be Friday night. Jake Douglas, secretary of the circuit, stated. The postponement is due to a Keglers' banquet at Midland Thursday night.

Cowboys Hit By Injuries

ABILENE, Sept. 18 (AP)—Fullback troubles plagued Coach Frank Kimbrough today as Hardin-Simmons' Cowboys worked behind barred gates for Saturday night's grid game with the Centenary Gentlemen at Shreveport.

Moose Bryson, hard-hitting 194-pound sophomore from Tyler, was definitely out of the game, as physicians ordered him to stay off his feet until Monday because of a ruptured blood vessel in a leg calf.

However, Moon Mullins, 205-pound No. 1 punter, from Marshall, who missed the Daniel Baker opener with an ankle sprain, was running signals gingerly, and probably will see service.

Chisox Give 'College Try'

CHICAGO, Sept. 18 (AP)—James J. Dykes and his Chicago White Sox are coming through for a man who died believing he had built the nucleus for a pennant-contending team—"Uncle Lou Comiskey."

"Uncle Lou" was J. Louis Comiskey, who died a little more than a year ago after directing for eight years the baseball club founded by his illustrious father, Charles A. (the Old Roman) Comiskey.

Unlike his father, who was a famous player, Lou never competed on the diamond, but he had the family love of the game, plus a gambling instinct which prompted him to pay \$150,000 for three players back in 1932. One of them was a third baseman named Dykes—and from that deal can be dated the upsurge of a club which now is playing an important part in the hectic American league race and is only a 1-2 games out of the lead.

"We have a scrappy, interesting club now," said Lou one day late in 1937, when the White Sox finished third, "and someday soon I think the team will surprise everybody by taking the flag."

Dykes, now in his seventh year as White Sox pilot, has done a remarkable job with his mate-

rial. There isn't a single expensive piece of "ivory" on his club, yet the team plays the kind of ball which fairly drips "color." The White Sox pennant chance may be remote with only 11 games remaining, yet they can't be laughed off. Not in view of a two-weeks rush which saw the club win 15 of 19 games.

Last February, the probate court denied a request from the First National bank, executive of the Comiskey estate, for permission to sell the club on the ground that baseball was a "hazardous business."

From Dykes on down to the hat boy, the White Sox all agree it's "hazardous" so far as a pennant is concerned. From an attendance standpoint it hasn't been as risky this season. Right now the Sox home attendance matches the 600,000 figure hung up through the 1939 season.

Coach Jimmy Phelan has some other lads who may take the play away from the "M boys."

There's the swifty Ernie Steele, left halfback, who learned in spring practice how to make the sidelines run interference for him. And there's Ray Frankowski, sturdy, 210-pound Polish boy from Hammond, Ind., the school's heavy-weight wrestling champ who won a regular guard spot as a soph last year.

Miss Houston And J. D. Poe Wed In Church Service

STANTON, Sept. 18. (Sp.)—Uniting two prominent Stanton families, the marriage of Eleanor Houston, and J. D. Poe was solemnized Tuesday morning at 9 o'clock in St. Joseph's Catholic church.

Father Joseph Walters said the single ring ceremony. Nuptial music was given by Angela Schell. Attending Miss Houston as maid of honor was Jeanette Thornton, of Midland. She wore a black alpaca frock, with black accessories. Beth Houston, a cousin of the bride, was bridesmaid, and wore a green wool tailored frock, with which she wore black accessories.

Miss Houston and Mr. Poe entered together, to the strains of the "Bridal Chimes," from "Lohengrin," by Wagner. For her wedding costume she chose a green wool costume suit, the coat colored in red fox. For something old she carried a handkerchief used by her aunt, Mrs. Jim Tom, in her wedding ten years ago. Her accessories were of black.

Bernard Houston, brother of the bride, served as best man, and Bert Fowler, of Odessa, was groomsmen. The couple left immediately following the ceremony, for a short wedding trip, their destination unannounced. Upon their return they will make their home here.

Mrs. Poe is the daughter of Mr. and Mrs. A. R. Houston, pioneer ranchers of Martin county, and the granddaughter of the late A. L. Houston, former president of the First National bank, and one of the first settlers of Martin county. Her maternal grandparents were the late Mr. and Mrs. Charlie Tom, also pioneers of this area. She was graduated from the Garden City high school, and attended T. S. C. W. in Denton.

Poe is the son of Mr. and Mrs. John Poe, prominent ranching family of Stanton. Following his graduation from the local high school, he became associated with his father in extensive ranching and cattle interests.

Wedding guests included Mr. and Mrs. Edmund Tom, Mr. and Mrs. Jim Tom, Mrs. A. R. Houston, Mrs. Ector Thornton, Mrs. Sam Wilkinson, all of Stanton, Mr. and Mrs. Alfred Tom and Mrs. J. C. Ellis of Midland.

THINGS GOING OK, FLYNN TO TELL FD

NEW YORK, Sept. 18. (AP)—Edward J. Flynn, democratic national chairman, said today he would fly to Washington tomorrow to confer with President Roosevelt and report that "things are going favorably."

"They definitely have improved," Flynn said at a press conference. "I think the situation was good two weeks ago, that it is better now and that it is improving every day."

The chairman waved aside all questions regarding Wendell L. Willkie's assertion that President Roosevelt was party to the Munich conference settlement, and announced that he did not intend to comment on foreign policy issues during the campaign.

Methodists In Stanton Sign Charter

STANTON, Sept. 17. (Sp.)—Forty-three women were present Monday afternoon for the charter meeting of the new division of women's work of the Methodist church, to be known as the Women's Society of Christian Service. The meeting here was held at the First Methodist church, with the Rev. Raymond Van Zandt presiding, and Mrs. P. A. Berry acting as temporary secretary.

The Rev. Van Zandt called the meeting to order by giving a brief talk on the purpose of the meeting. Mrs. Calvin Jones discussed "The New Day in Methodism" and Mrs. P. A. Berry told of the purpose and plan of the new organization and the changes to be made as a result of the union of the three branches of the Methodist church.

The following new officers were elected: president, Mrs. Morgan Hall; vice-president, Mrs. Calvin Jones; recording secretary, Mrs. Mose Laws; corresponding secretary, Mrs. Arlo Forrest; treasurer, Mrs. B. F. Smith; secretary of missionary education, Mrs. O. C. Southall; secretary of Christian social relations, Mrs. Martin Gibson; secretary of literature and publications, Miss Ina Kelly; secretary of supplies, Mrs. W. H. Cox; secretary of student work, Mrs. Joe Poindexter; and secretary of children's work, Mrs. P. L. Daniels.

A delegate, Mrs. Morgan Hall, was elected to the council meeting at Memphis, Tex., October 16 and 17. Alternate will be Mrs. Harry Hall. Mrs. P. A. Berry gave a report of the study committee. First step of the new organization will be "Uprooted America."

Formal installation of officers will be held at the meeting next Monday.

Following the benediction, the group was served refreshments from a lace-laid table.

Plate favors were corsages of marigolds and bachelor buttons, with tiny scrolls bearing the dates 1905-1940, commemorating the former Woman's Missionary Society here.

Domestic Economy Must Come First, Willkie Declares

ALBUQUERQUE, N. M., Sept. 18. (AP)—Wendell L. Willkie, moving his presidential campaign into the deep southwest, linked national defense today with economic improvement as the two principal problems confronting the United States.

"Rehabilitation of our domestic economy is the front line trench of any defense program," the republican presidential nominee told reporters last night. He had discussed the same subject earlier in the evening before an audience estimated by Mayor Clyde Tingley at 21,000 persons. Willkie devoted part of his address to criticism of President Roosevelt's third term effort. He also declared that the Roosevelt administration "has been on the most drunken orgy of spending that ever occurred in the history of the world," and said: "What a piker was Louis XIV. And the Rajahs of Persia, with their diamonds, didn't spend pennies compared to these boys."

GANDHI TELLS HIS FOLLOWERS TO OBEY THE LAW

BOMBAY, Sept. 18. (AP)—Mohan-das K. Gandhi, once again unquestioned leader of the all-India congress (nationalist party), went to Wardha today, leaving instructions for all followers to obey the law and await further instructions pending an interview with the British viceroy, Lord Linlithgow. The congress pledged itself two days ago not to embarrass Britain, now that she is at war, but at the same time to preach anti-war propaganda in a non-violent manner.

Back To School Party Given For B & P W Club

It was back to school for the Business and Professional Women Tuesday night when they were entertained with a school day party in the home of Pearl Cutinger with Gladys Smith and Anita Bonds her co-hostesses. School "took up" in Pegasus Hollow with Professor Smith and Teacher Bonds in charge and none too apt were given tests in arithmetic, spelling and English. Scores were kept on the blackboard and prizes went to Ella Morris, a guest, Evelyn McCurdy, and Mary Whaley.

Games of marbles, leap frog and drop the handkerchief were also played. Lunch was served in paper cartons and consisted of sandwiches, cake, fruit and chocolate milk. Favors were pins made of books, pencils, slates and rulers. A business discussion was held and the district conference in San Angelo, September 28th and 29th, was announced and several planned to attend. Others present were Ina Mae Bradley, Mrs. Matt Harrington, Jeannette Barnett, Dorothy Bassett, Helen Duley, the hostesses and guest, Miss Morris.

New Lake Is Being Stocked With Fish

Moss Creek lake is being stocked under the supervision of the state fish, oyster and game commission. Henry Covert, caretaker at the city lakes, has announced.

At the same time Covert voiced an appeal to well-meaning sportsmen not to turn fish loose in the Moss Creek lake. There have been rumors, he said, that some fishermen intended to do this, looking toward establishing a good fishing spot for the future.

Such a course, Covert pointed out, could only serve to defeat what has been accomplished thus far in the way of stocking the Moss Creek lake with game fish. He feared that induction of large fish into the lake body might mean destruction of many of the fingerlings of bass, bream and calico perch put into the lake last week by agents of the state fish hatchery.

Next month the state commission's agents are due to put more fish into the lake, and continue until the new city lake is adequately stocked. The commission, said the caretaker, has made a study of the type and size of fish which should be put into the lake to insure its best operation in future years as a fishing resort for people of this locality.

Deer, Turkey To Be Put In Borden Co.

GAIL, Sept. 18—For the first time since 1885, deer will soon be grazing again on Borden county ranch land, officials of the Borden County Game Management association have announced. The county is also slated to receive a shipment of wild turkeys in the near future.

Announcement was made by Dr. F. S. Henika of Lubbock, game manager of region 5, who informs Borden County Game Management officials that 33 deer will be available for Borden, with the state game commission to ship the deer to the county by truck from South Texas.

Deer are to be placed on Borden county ranches under a five-year closed season. Dr. Henika says 2,000 wild turkeys are available for his district of 72 counties, with Borden to receive 35, which will be placed under a five-year closed season.

Green Apples Blamed For Big Stomach Ache

PITTSBURGH (UP)—"Who put the green apples in Gloria's hay?" is the question with officials at the Highland Park zoo.

Keepers became suspicious when Gloria—who is an elephant—suffered frequent tummy aches. They discovered that some pranker had been secreting green apples in the elephant's hay supply.

Officials have narrowed the suspect list down to 50,000 persons—the total number of zoo visitors during the elephant's recurrent illness.

France Rations Gasoline To Mosul Oil Millionaire

VICHY (UP)—Europe's richest oil millionaire, S. S. Gulbenkian, known as the "Armenian Rockefeller" because he owns a 4 per cent interest in the Mosul fields which brings him as his share 500,000 tons of crude oil annually, was forced to stand in line with hundreds of refugees to obtain a special coupon according him five gallons of gasoline for his fleet of seven motor cars.

The gasoline famine has halted the motors of 95 per cent of automobiles in France. Gulbenkian took refuge at Vichy when the German army entered Paris, but he left behind him the most valuable private art collection in Europe, chiefly paintings and tapestries, in his Paris town house.

YOUR ARMY

A Series Of Articles Describing The Arms And Services Of The Regular Army

No. 8—Medical Dept.

For any man to do his best, he has to be well. That's the way it is in civilian life; that's the way it is in the army. Good health and good soldiers go hand in hand. And entrusted with the important job of keeping the army fit is the medical department.

In peace time five per cent of the army's total enlisted strength is engaged in keeping the other 95 per cent hale and hearty. And in time of war, at the scene of military operations, the Medical Department constitutes as much as 12 per cent of the total enlisted strength.

Who are these men whose responsibility is as fundamental as feeding, clothing and sheltering the army? They are soldiers, many of them highly-trained technicians who perform the medical services required by the army, under the supervision of medical officers and in conjunction with a corps of graduate army nurses. These services include care of the sick and prevention of disease, operation of clinical laboratories and dispensaries, examination of applicants for enlistment, testing of food supplies for the consumption of military personnel, and a host of other duties requiring technical knowledge and skill. As a whole the medical department embraces the dental service, the veterinary service.

The liberal authorization of non-commissioned officer grades and specialist ratings makes the oppor-

tunities for promotion, with attendant increases in pay, exceptionally good in the medical department. Approximately one man in every five is a noncommissioned officer. Privates, first class, account for another twenty-five per cent of the total strength. And specialist ratings disregarded, forty-five per cent of the personnel would receive pay higher than that of a private.

Upon initial enlistment, young men who have the basic education and aptitude may study in one of the several professional service schools operated by the medical department. The Army Medical Center, in Washington, D. C., for example, conducts two courses a year to develop X-ray, laboratory, dental, and veterinary technicians.

The Medical Department offers a rich field of opportunity to any ambitious young man who desires to qualify himself to earn a good livelihood, either in the army or out. The field for study and self-improvement is limited only by the individual's inclination and ability. If a graduate of one of the medical department professional service schools decides to make the army his career, he may confidently count upon promotion and increased pay. If, on the other hand, he elects to return to civil life, he will find that his medical department training will stand him in excellent stead.

Almost Before Its Stars Depart From Texas Personal Appearance, 'The Westerner' Comes To Ritz

With everything but the glitter of the picture stars in person—and they cost extra—the Ritz theatre this weekend is cashing in on Texas' current interest in "The Westerner," a western opus fresh out of Hollywood that has to do with Judge Roy Bean, his law west of the Pecos, and assorted facts and fables about the town of Langtry.

"The Westerner" is released for public enjoyment this week. Since it is a Texas picture, the premiere is in Texas. Fort Worth and Dallas share in the spotlight, and a mighty light it is, with Gary Cooper, Walter Brennan, Doris Davenport and other principals of the cast of "The Westerner" appearing in person. The Hollywood folk are due to pass over Big Spring in planes early Thursday morning. Big Spring doesn't get a look at 'em.

But no sooner does "The Westerner" open in the cities to the east than the Ritz picks up from there. The Samuel Goldwyn production is booked here for Saturday midnight, Sunday and Monday. The customary price schedule will prevail.

Although the lanky cowboy, Gary Cooper, gets top billing, "The Westerner" has that able character actor, Walter Brennan in the part of Judge Roy Bean.

Brennan long has been among the most steadily employed character actors in the film industry. However, he had not intended to become an actor when he first arrived on the west coast some fifteen years ago. Born in Lynn, Mass., Brennan had enlisted in Boston in the 26th Division and was badly gassed in the World War. When he was demobilized he vainly looked for work in the east and, having no luck, moved gradually westward, finally ending up in the California real estate business.

Following the collapse of a real estate boom in Los Angeles, Brennan found himself jobless and with a wife and three children to support. So he tried motion pictures. For some time he eked out a meagre living with extra roles, vainly trying to make producers believe that he could play old men with the proper amount of pathos and humor. Finally Samuel Goldwyn cast him as "Old Atrocity" and Brennan won immediate recognition as an important film personality.

Former Prisoners Keep Friendship Of Jailer

EL PASO (UP)—Ralph Howard has more friends in jail than out—and he has no police record.

He's the El Paso city jailer and is known as "Mr. Ralph" to all city jail inmates. Howard has a knack of capturing the friendship of the prisoners, and upon being released many of them write him.

Since March of this year Howard said he has received two dozen letters from "exes."

One letter came from a man who had escaped. The fugitive penned the following:

"Hello, Old Pal: Just a few lines. Trusting you are fine and dandy. Sure hated to leave your modern hotel, but the fop and those easy, soft b's just didn't agree with my physical condition. Best wishes, Jimmie."

ONE BIG REASON

we're glad to be in the newspaper business....

THERE ARE hundreds of reasons why we are proud to be newspaper men. But of all of them, nothing can match the pride we take in the young men who daily deliver our product to you. Almost unique is this business in that respect. Here created is a job that allows a young school age boy to earn his own way . . . to know early in life the thrill of providing for himself, to a degree, and to actually accomplish something worthwhile with his own brain and energy.

THE "LITTLE MERCHANT" PASSES YOUR HOUSE DAILY

A Herald "Little Merchant" passes your house daily with his wares of local and world news and merchandise presentations from Big Spring merchants . . . He is on his own—buying "wholesale" from this newspaper for his selling to you. His route is his "store" and he is anxious to have you listed as a customer . . . Too, he likes to have you tell him how he can better serve you as a regular subscriber.

AND NO EASY job is this that these young men of tomorrow tackle. Yet they seem to thrive on it. As a rule, they are the athletes of their schools, the conscientious workers of their studies, the young men who are least delinquent in any phase of their lives. And, as a rule, these boys are the men to whom, in a few years, employers will be turning for workers who do the job and do it well. These boys are proud of their jobs. Some of them will go on in the newspaper business. Others will go into business and finance. Still others will become skilled technicians and laborers. Why are they the cream of the crop? Simply because they have learned early in life the important lesson that by serving well they themselves profit well.

SU Preps for Gents

WHEELING, Sept. 18.—A win over Abel Baker, to inaugurate the new intercollegiate gridiron season in the bag by a 35 to 0 score, led Kimbrough's Cowboys drill today for Saturday night's tough one with the Centenary Gentlemen in Shreveport.

The game inaugurates the career of Coach Jake L. Hanna, mentor at Centenary, and adds the Gents and Hanchers to an even break on results in the past two years. Centenary won at the 1938 homecoming in Abilene, 26 to 13, and the cowboys took last year's game in Shreveport, 7 to 6.

Last year, Kirk McKinnon returned a Centenary kickoff for 95 yards to tie the score, and Murray's conversion boot won the game.

In the Cowboy camp today, return to practice of Moon Mullins, pound smashing fullback, and Ross Bryson, who alternates with the promise of great potency in H-SU's running game at Centenary. Mullins missed the Daniel game with an ankle sprain, and Bryson because of a charley horse. Both are East Texas contributions to the Cowboy strength, Mullins, a former Henderson star, lives at Marshall, and Bryson at Tyler product.

To start the current season hot, and boost wins to five in a row, the Cowboys struck four runs through the air, in trouncing Daniel Baker.

E. B. Russell, Hereford, and Captain Owen Goodnight, offensive, the seat or pass artists, it took for three scoring aerials. Russell twice hit the waiting arms of H. C. Burrus, former Spring star, who led in scoring last year. Goodnight connected with Edward Marcum, Abilene, veteran left end, Jimmy Beam, Abilene quarter, linked to James Crocker, Abilene end, for a fourth score by air. Harry McRae, Fort Worth star, plunged from the one-foot line for the final counter. Evans led two conversion points, and Captain Wilford Moore tallied.

LAMESA, Sept. 18 (Sp) — The annual contest for election of a "Queen" conducted in conjunction with the season of the mesa high school Tornado football team, is now underway here. Each class in high school has nominated a candidate for the honor, and the sale of tickets within the school will determine the winner. The class which sells the greatest per cent of tickets in comparison with enrollment over the season names its candidate.

Those nominated are: Sue Cope, the Wood community, by the girls; Faye Fisher from Spangenberg by the seniors; Gladys Under of Mulling by the sophomores; and Patsy Jo Rountree of mesa by the freshmen.

on-Swimmer Periled; Wife-Calls His Bluff

DETROIT (UP)—In all of his 65 years William Bousneuer never got near water of his own will. His wife called his bluff.

The result of the family disagreement was that Bousneuer, fully clothed, spent half an hour in the Detroit river splashing and shouting: "Help, I can't swim a stroke."

When he was pulled into a police speedboat, he explained to officers that his swim had been precipitated by an argument with his wife.

"I told my wife," he said, "that I was going to jump into the river. She told me to go ahead. I decided to show her and here I am."

He told officers that he hasn't been near a swimming beach in 40 years and has always hated the water. He said he just turned over on his back and kept shouting until he arrived.

Lamesa Students Voting On 'Queen'

LAMESA, Sept. 18 (Sp) — The annual contest for election of a "Queen" conducted in conjunction with the season of the mesa high school Tornado football team, is now underway here. Each class in high school has nominated a candidate for the honor, and the sale of tickets within the school will determine the winner. The class which sells the greatest per cent of tickets in comparison with enrollment over the season names its candidate.

Those nominated are: Sue Cope, the Wood community, by the girls; Faye Fisher from Spangenberg by the seniors; Gladys Under of Mulling by the sophomores; and Patsy Jo Rountree of mesa by the freshmen.

ONE WHO DIDN'T GET BACK TO GERMANY—A little British lad gets an eyeful as a captured Nazi pilot is marched through a southeastern England town to London-bound train. The pilot had hailed out of a Junkers during mass raid.

WALKED OFF WITH SHOW—Every inch a canine king is "Daro of Maridor," champion winner at Tuxedo Park, N. Y., show. With him are Mrs. David Wagstaff and John C. Bates, judge.

IN CHARGE—Gen. Hermann Goering, who's credited with direction of the Nazi air assault on Britain, wears his new reichsmarschal uniform. The cape and tunic are cloud gray, the chin strap's gold Nazi eagle ornaments ivory baton.

DOUBLE TALK
OMAHA, Neb., Sept. 18 (UP)—It sounds like double talk when the public address system at the Douglas county hospital sings out a call for "Dr. Doctor."

It caused confusion for a while, but now the staff knows that Dr. A. W. Doctor, the new resident physician, is wanted.

AN ANALYSIS OF THE WAR DEVELOPMENTS

By DEWITT MACKENZIE

Herr Hitler hasn't been deprived of his chance at invasion of England this year by the gale which turned the bad tempered channel into a rolling, pitching harbinging of the permanent bad weather to come, but his delay in striking certainly has maneuvered him into a dangerous position.

Yesterday I expressed the view that this wasn't the autumnal break which marked the end of good weather (as many Britons eagerly hoped) but that more fine days could be expected and that the fuhrer would attempt invasion if he saw an opening. Later British Premier Churchill emphasized a similar belief in addressing his house of commons.

However, while the Nazi chief probably will get further smiling skies, his vital problem now that the fall weather is at hand will be to find enough of them to give him time to push one of the greatest military operations of history to a successful conclusion. It's like this:

Supposing for the sake of argument that Hitler has been able, in the face of violent resistance, to land a big army on English soil and establish bridge-heads for the clearance of supplies from the continent. That's only a start. You can't just tow an expeditionary force up through the surf onto the shore and then say:

"Well, gesundheit, men. Lots of luck. I'll see you later."

Mountains of supplies—equipment of all sorts, munitions and food—must pour in after these troops in a steady stream. So must reinforcements.

But just as the big army has been got ashore there comes the final break in the weather. The fog descends—the channel is standing on end. What happens to the vital Nazi communications with the continent?

In short, they are likely to be so badly disorganized as to leave a German army stranded under most inhospitable surroundings if I know the temper of Cedric the Saxon. That would mean catastrophe for Hitler.

Then too, there is much more to getting troops across the channel or the North sea than loading them on their little barges and pushing them out onto the deep. Those boats, packed with troops in full fighting kit, must run the gambles of the British fleet, the Royal Air Force and English land batteries before they even arrive in the shallow, pitching waters under the sheer cliffs of Dover, or where will you.

That in itself presents a tough picture, but there is another almost insurmountable aspect of this situation. Would you ever imagine? Well, you

you wholly incapacitated and praying for death? Sure you were.

I've managed to be seasick on most of the seven seas, and I claim that one can get sicker quicker on the English channel than on most any other body of water. The racing tidal currents make a ship pitch and roll like a bucking bronco.

There is nothing more sure than that if Herr Hitler sends an army out onto those waves, great numbers of the men will arrive on the English shores in a near helpless condition.

The idea of sending a sea-sick army up against the British shore defenses must be giving the German high command one of their big worries.

'Look Out For Deer' Is Timely Highway Sign

SPOKANE, Wash. (UP)—Signs along Washington's highways saying "Look Out for the Deer" mean just exactly that, State Game Commissioner Thomas Lally found out.

Lally was driving in the northeastern corner of the state and no sooner got by one such sign than a big buck leaped out of the underbrush directly in front of his automobile.

The game commissioner had to swerve the car into a ditch to avoid the animal.

Discarded Movie Films To Go Into Munitions

MINNEAPOLIS, Minn. (UP)—A new Minnesota industry will reduce discarded motion picture films to nitrate for the manufacture of munitions for the nation's defense.

A receiving house here is collecting old films and film scraps from which nitrate, base for TNT and other high explosives, will be recovered.

The reduction plant for the industry is to be built near Minneapolis at Lake Crystal.

IT WAS RED, ANYHOW

ST. PAUL, Sept. 18 (UP)—A momentary furor was caused in the Minnesota state federation of labor convention when a delegate arose to protest that a spectator in the gallery was "waving a red flag."

A sergeant-at-arms found the "red flag" was a piece of knitting brought by a woman spectator who placidly continued to knit one part two during the furor.

The last census of Soviet Russia, in 1937, showed 81,000,000 males and 88,000,000 females.

Special Water Rate Ending

Careful, brother, if you're planning to give your lawn and flowers a final soaking under the special summer residential irrigation rate offered by the city to those who wish it.

Just at the moment the city water department is engaged in reading meters for the last month under the special rate. Consumption after the meter is read will mean that the water will be billed at the city's regular domestic rate.

The irrigation rate, which provides 10,000 gallons of water at \$3.50, goes off automatically as of the current reading, which is due to be completed in all quarters of the city as of Friday.

Water consumed after the September readings will be billed at the regular schedule of \$1.50 minimum for the first 2,000 gallons and 10 cents per thousand excess. Thus, on a 10,000 gallon consumption, your bill would run \$1.70 higher in October.

Brazil And Mexico Start Trade Talks

MEXICO CITY, Sept. 18 (AP)—A Brazilian economic mission, in Mexico seeking increased commerce between the two countries, arranged interviews with two government departments today.

The Brazilians' schedule called for conferences with Eduardo Suarez, secretary of the treasury, and Modesto Rolland, sub-secretary

of economy.

Although stressing that their forthcoming trip to the United States was not official, members of the group expressed confidence that matters of common interests would be discussed with American government representatives and economic authorities.

Judges Named For Dawson Co. Fair

LAMESA, Sept. 18 (Sp)—Judges for the Dawson county fair, opening here Oct. 10, have been selected, Raymond Lee Johns, secretary of the fair association, has announced.

X. B. Cox, Seurry county agent, will judge poultry and general agricultural exhibits. George Bond, Stanton, Martin county agent, will judge hog, beef and dairy cattle.

Buildings have been wired and equipped for the fair, and officials are predicting that it will be the greatest in the history of Dawson county. A carnival has been booked during the fair and will set up its midway in the baseball park.

WAKE UP YOUR OWN LAXATIVE FLUID

And Maybe You, Too, Will Feel Like "Happy Days Are Here Again!"

Do you suffer from constipation? Do you suffer from fatty indigestion below the belt or sick headache or biliousness due to constipation? Do you feel crummy from being constipated? If so, you may need to buck up the flow of your natural laxative fluid with Carter's Little Liver Pills. Try them according to directions. These pills, made of two simple vegetable medicines, have doubled the flow of this laxative juice in some people as proved by medical tests. cocktail party without offering farewell.

Constance had watched the glittering parade, seeing herself in severe black tailored clothes. Now she thought, bitterly, "The runt of the litter; the queer cross-breed; the throwback."

Morning came with the snow falling thick, blurring the landscape and casting an unearthly glow in the compartment. The diner was filled with families going home for Christmas; with commercial men, hurrying home for one day with their families; even the waiters were filled with the joy of the holidays.

Constance retreated from the happy people. She rang for a table and buried her thoughts in the future.

Here were the letters pertaining to transactions. She'd read them through, every one of them... but later, now she would study dourly. She read, Hokstems, Jerseys, Guernseys, Shorthorns, Herefords, Galloways, Devons and Lurhams marched across the pages of the books. Feed mash, tillage, mowing, marketing, crammed into her mind.

What would Michael Mahoney have thought of his throwback, she wondered once. She closed the book and leaned back assured. She had done exactly what Michael would have done under these circumstances.

"I can't lose," she tried aloud.

WHY DON'T YOU TRY FOLGER'S? IT'S MOUNTAIN GROWN FLAVOR ALWAYS APPEALS TO MEN.

ANOTHER CUP OF COFFEE, HONEY! IT CERTAINLY TASTES DIFFERENT THESE DAYS.

THAT'S BECAUSE MOUNTAIN GROWN FOLGER'S IS DIFFERENT KIND OF COFFEE!

THREE OUT OF FOUR COFFEES ARE LOWLAND GROWN

Vigorous Flavor
BECAUSE IT'S MOUNTAIN GROWN!

Folger's comes from tropical mountains of Central America, "the world's coffee growing Paradise," where bright sunshine, air, and rich volcanic soil produce a miracle in coffee flavor. In fact, Folger's is so rich that thousands of women say you can use one-fourth less and actually enjoy full-flavored coffee. Serve Folger's for breakfast tomorrow and enjoy a vigorous flavor no lowland grown coffee can possibly match!

Bachelorhood One Of Requirements For Enlistment As Flying Cadet

Bachelors wanted! One of the qualifications for enlistment in the army as a flying cadet, according to Sgt. Troy Gibson, the U. S. army recruiting representative at Big Spring, is that the applicant be unmarried. Not only must he be unmarried, but he must agree to remain unmarried during his period of training as a flying cadet—a period lasting just seven months.

Besides bachelorhood, other qualifications for enlistment as a flying cadet are not too rigid. Briefly, they are: 1. Age—20 to 26 years inclusive. Applicant must have passed his 20th birthday and must not have reached age 27. 2. Education—Applicant must have earned at least half the credits required for a degree at a recognized college or university. If he has not earned such college credits, he can take an examination covering work of similar nature. 3. Physique—Of course it is necessary that the applicant be sound of wind and limb, and that he be a male citizen of the United States.

A Job After Graduation Not only does the army take care of the flying cadet during his months of training, and pay him \$75 per month in addition, says Sgt. Gibson, but it assures him a job for at least three years after graduation. Upon enlistment as a flying cadet, the applicant is required to complete another agreement with the government, in addition to the one about remaining single during his course of instruction. He must agree to serve three years as a second lieutenant, Air Corps Reserve, on active duty with the Army Air Corps. During his three years active duty, the Air Corps reserve officer receives a

Barrow Makes Special Offer

"Volume buying makes these unusual prices possible," D. D. Douglass, manager of Barrow's Big Spring store, said in pointing out the values offered in the firm's advertisement appearing in today's Herald. "If we were buying on order, these figures would have to be up considerably, but the store-wide offerings during this event are all from our regular new fall stock purchased direct during eastern market showings in mid-summer."

According to Douglass, Barrow's large Runnels street store now houses the largest variety of top quality furniture ever offered at that location. Large shipments of new fall creations have been arriving for several weeks, filling the building from wall to wall with manufacturers' most popular lines.

"Our new stock is not only superior to furnishings of the past in quality but also smarter in general make-up," the manager said, "and we cordially invite all who will to come and view our present array of new suites, odd pieces, linoleum, rugs, etc., whether they want to buy or not."

PILING DRIVEN FOR RED RIVER DAM

DURANT, Okla., Sept. 18 (AP)—Piling for the steel cutoff wall on the Oklahoma side of the Denison dam has been driven by the Guy F. Atkinson company, contractor for the main embankment, announced today.

The strip of piling, 1,700 feet long, was driven to the Trinity sand to prevent seepage underneath the dam.

Adjoining this section on the north is a 2,500 foot trench which is being filled with impervious material also to prevent seepage. It became necessary to use the trench because the Goodland line formation near the surface at that point prohibits successful use of piling. The steel wall will be resumed north of the trench on a higher terrace, the contractor said.

PLEAD INNOCENT NEW YORK, Sept. 18 (AP)—Four airplane fabric manufacturing firms and six of their officials pleaded innocent today when arraigned in federal court on an indictment charging conspiracy to fix prices in violation of the anti-trust laws. Trial date was not set.

Cannon Ball Baker Rides Continental Trail Again; On Fuel-Test Trip, Will Stop Here Thursday Night

Husky veteran of 118 trans-continental tours, Cannon Ball Baker is on the coast-to-coast trail again—this time in the interest of economy and not speed. Baker is driving a Crosley Covered Wagon from Cincinnati, Ohio to Los Angeles, returning east by way of Texas, Florida and up the east coast in time for the New York Automobile Show starting October 12. He will be in Big Spring—designated as a "control point"—Thursday night, after a drive from El Paso, and will drive from here to Fort Worth Friday.

Cannon Ball Baker, veteran of 118 transcontinental tours, is motoring across the nation at a fuel cost of a third of a cent a mile, and he'll be in Big Spring Thursday night.

Holder of all the important speed and endurance automobile runs from coast-to-coast since 1915, Baker is averaging more than 50 miles to a gallon of gasoline in a 6,000 mile tour which takes him to Los Angeles and back again to New York for an appearance in the New York automobile show.

Vitamin K Being Tried In Fight Against Cancer

By HOWARD W. BLAKESLEE Associated Press Science Editor PHILADELPHIA, Sept. 18—A new attack on cancer, trying vitamin K as a possible preventive, was announced to the bicentennial conference of the University of Pennsylvania here today.

K is the recently discovered vitamin which aids blood to clot. Alfalfa is rich in K. But an inexhaustible new source has been supplied by chemists who synthesized K in five forms.

The cancer prevention experiments are starting at Harvard university and were described by Dr. Louis F. Fieser, professor of chemistry.

The K will be tried on a common form of skin cancer caused by injury substances. In animals it is only necessary to rub some of the tarry "hydrocarbon" on the skin and lethal cancers develop. The vitamin will be injected to see whether its presence will prevent these cancers.

The experiment is exactly like a prizefight. K is the "second" at the ringside, and the real cancer fighter is prothrombin, the clotting substance in blood. K stimulates human and animal bodies to make prothrombin.

Experiments have shown also that bile acid and hormones, which humans possess in abundance, are able to break down into some of the tar chemicals which are most potent in causing cancer.

When these cancer chemicals were fed to rabbits, the animals' bodies changed them into harmless compounds. Whether this protector of the rabbits was prothrombin, or something still unknown, the Harvard experiments promise important information.

'Grapes Of Wrath' Locale Included In Migration Study

OKLAHOMA CITY, Sept. 18 (AP)—A congressional committee studying interstate migration headed today for Oklahoma, opening locale of "Grapes of Wrath," the novel which raised a verbal storm with its description of a wandering farm tenant family's life.

Fresh from a season at Lincoln, Neb., four members of the group are scheduled to arrive tonight. They will open a two-day hearing at the state capitol tomorrow morning.

At least 25 witnesses from Texas, Oklahoma and Arkansas will be called for oral testimony and the committee will receive numerous briefs which can be studied at their leisure. The first day's testimony is expected to concern the dust bowl areas of Texas and Oklahoma.

Brazos, Colorado Flood Control Plans Dimmed

WASHINGTON, Sept. 18 (AP)—A new flood control authorization program apparently has been shelved for this congress, informed persons said today.

They reported that at the suggestion of President Roosevelt, Chairman Whittington (D-Miss) of the house flood control committee would not attempt to obtain passage of the legislation.

Mr. Roosevelt has vetoed a rivers and harbors authorization measure and requested congress to withhold consideration of similar bills not connected directly with national defense.

Expenditures proposed in the flood control program included \$5,000,000 in the Colorado basin (Texas); \$5,000,000 in the Brazos basin (Texas).
