

FORMAL CAMPAIGNING AT AN END—The two major presidential candidates reached a climax in campaigning Saturday night. Wendell L. Willkie is shown above at Madison Square Garden in New York Saturday night. He said he wanted to be the "master of no man" but sought to be the people's servant. At right, President Roosevelt acknowledges the ovation of a Cleveland crowd which heard his last major address of the drive for votes. Mr. Roosevelt said he was "proud" of his opposition which he described as the "forces of dictatorship."

## Miss Laneous Notes

By MARY WEALEY

Just about the time turkey and dressing and football games, big yellow mums and who will win the conference series is uppermost in our minds and we are in the mood for Thanksgiving, folks start jumping by talking about Christmas.

Somebody figures out how many more days there are for shopping for gifts (and the number is startling) and others begin telling about buying their presents and addressing Christmas cards. We got our first one last week!

In our foggy thoughts, Christmas is still so far off that we have Armistice Day and two Thanksgivings to look forward to before we can get around to observing Christmas. And it is like rushing your life away to jump three holidays ahead to start talking about December 25th.

We are like the little boy who shaves his ice cream off in little slivers in order to make it last a long time. We take our holidays as they come and that way always have one to look forward to and like the ice cream, it makes the one day vacations last a little longer.

On the other hand, these folks that get prepared way ahead of time are always ready when holidays come along and have things well planned out while we wake up with a start and find them right upon us with nothing done. We mail our Christmas cards on the night of the 24th of December with sad regularity.

But it just seems like we can't look ahead very far without spoiling the fun of planning from one holiday to another.

## Important for Women

A weak, run-down condition often gives a foothold to functional dysmenorrhea, causing much periodical distress from headaches, nervousness, cramp-like pain for women. CARDUI so often helps in such cases, for it sharpens appetite, boosts flow of gastric juices, so improves digestion, helps build physical resistance. CARDUI, if taken a few days before and during "the time," also helps to relieve periodical distress. Used 50 years.—adv.

# Standard Auto Parts Has Enjoyed Growth In Three Months' Operation

Supply Firm Is Owned By E. Hamilton

Since the opening of his store, Standard Auto Parts, on August 12 of this year, Elwood Hamilton states he is well pleased with the way in which he and his business have been accepted in Big Spring. Coming to this town from Weatherford, where for five years he was connected with a similar line of business, Hamilton has put in a full line of auto parts and accessories.

"Our aim has been, and will continue to be, to give our customers the best of merchandise at the most attractive prices possible and with a service that counts," Hamilton said in outlining his program of business.

Featured in his stock are Hico piston rings. This motor part, according to Hamilton, is made of double steel and has less wall pressure on the motor block.

Also spotlighted on his store's shelves is a complete line of Lowe belts. Included in this stock are heavy and thinner. Colors are available for all makes of cars from model of 1941 on back. Synthetic and lacquer paints are made by the Lowe people.

Hamilton is the sole owner of his store and started its operation with a well-grounded training in the business.

The Weatherford auto supplies store, of which he was the manager, handled the same line of goods

now offered by Hamilton in Big Spring. Parts made in the Lion factories form the chief items at the Standard Auto Parts. This particular line of goods has seventeen years of actual use behind it. Detailed Lion equipment for all makes and models of automobiles can be supplied by Hamilton.

In preparation for the coming cold spells, Hamilton has in stock various anti-freeze solutions. Also, he has recently established Powerpak batteries in his shop and has exclusive dealership in Big Spring on this unit.

Everything from muffler tail pipes to radiator ornaments is on display at Hamilton's store. For the interior of automobiles, he has on display two types of seat covers, Superknit and Knitex.

For the repair trade, Standard Auto Parts offers life-time guarantee New Britain hand tools. Hamilton is a young fellow just starting into business, despite the unsettled conditions of today, especially in the case of a young man. He has opened a shop that is new and well-stocked and is strictly a Big Spring owned and operated business.

He pointed out that his business is showing an appreciable increase, considering the short time he has been here. Shortly after he opened in August he could not see too much encouragement in regard to sales, but is gratified by the developments since.

He feels that Big Spring is a town that offers wide opportunities for a young man and is certain that he made a wise choice when he decided to start out on his own in Big Spring.

**Large, Small Jobs Handled By Runyan**

From the smallest domestic repair job to big commercial projects, Runyan Plumbing company, 505 E. 6th, is always ready and able to do the work.

Founded and operated for years by the late A. M. Runyan, the company which bears his name and which now is owned by Mrs. Runyan, continues an old policy of prompt and quality service.

While giving attention to a wide following in Big Spring on ordinary plumbing needs, the company has been handling several large contract jobs in other points in this area, having recently finished one at Odessa and Monahans.

C. E. Smith, manager for the

company, pointed out that the shop carried a complete stock of faucets, fittings, etc to meet ordinary and emergency needs. In addition, there is a range of choice in the way of bathroom heaters, floor furnaces, bath tubs, lavatories, and other plumbing fixtures. What is not kept in stock is available on 24-hour schedule, said Smith.

At present time, Runyan Plumbing company is stressing its "Day and Night" heaters which feature the famous "heat trap" principle of heating, a process made more efficient and economical by use of a new compound known as thermite. Thus the floor furnace produces an abundance of uniformly warmed air cheaply, is easier to install than other models, is compact, has no fumes or odors, is noiseless and convenient and is automatically controlled.

In order to maintain a record of service, the company maintains a regular staff of five men in Big Spring. Besides these, however, there are up to a dozen others working on contract jobs for the concern.

With this trained and experienced help, it makes no difference whether someone wants a hydrant repaired or wants a plumbing and heating system installed for a big commercial structure. Runyan Plumbing company can do the job. And if there's an emergency feature attached, it can be done quickly and effectively.

**MANY INDICTMENTS ARE IN STORE FOR SUBVERSIVE GROUPS**

ORANGE, Tex., Nov. 4 (AP)—Rep. Dies (D-Texas), chairman of the house committee investigating un-American activities, predicted today 3,000 indictments would be returned throughout the nation against subversive groups within the next month.

The Texan said investigations of the committee would show "the Italian espionage and propaganda end of the story" more important than "the German end."

Dies said the committee had uncovered widespread activities of "Italian agents similar to evidence we recently obtained about German espionage which is now in the hands of the state department and the justice department."

## Balch Specializes In Making Boots To Order

C. C. Balch started out his career by hanging around a shoe shop when he was a schoolboy instead of being in school "where I belonged" and he is now owner and manager of the Balch Shoe Hospital at 218 Bunnels.

For the past twenty years, Balch has been hospitalizing shoes for men, women and children, and making and repairing boots. Boots, which constitute a large part of his business, are also the most interesting to the shoe man.

It takes him about three days to make a pair to order. First he must take measurements of each foot and the color of stitching, pattern and type of leather the customer desires. Then comes the job of putting the boot together.

For the past six years Balch has done boot work although he had known long before that how to make a boot to please the eye and the foot.

Balch, who does all his own work, has been with his shop for the past ten years and a Big Spring resident since 1907. His shop was formerly located at 107 E. 2nd St. and moved to the present location in February of this year.

He began his work in San Angelo where for three and a half years he worked in a shoe before coming to Big Spring to buy out a shop for himself.

His shop has all the modern equipment needed to take care of all types of shoe repair and the owner, who finds his job to his liking, gets a real artist's pleasure in completing a job. "Leather is beautiful to me like dress material is to a woman," Balch explained and in both making boots and repairing shoes he enjoys his work.

## All Business Reflects War And Defense

NEW YORK, Nov. 4 (AP)—This past week, more clearly than at any time since the world struggle began, was the force of war and defense on American economy made apparent, as business bowed to decade-long records and the flood tide of third quarter corporation reports set in.

Here were some of the highlights:

1. Probably for the first time in history, an American industrial corporation reported \$1,000,000,000 of unfilled orders on its books. Bethlehem Steel Corp., helped by its big shipbuilding division, set the mark.
2. U. S. Steel Corp., reporting for the first nine months of the year, gave graphic illustration of the meaning of high defense levies, as it revealed taxes were \$62,746,071 for the period, nearly as great as its net profit of \$69,418,070.
3. The demands of the arms program began to make themselves felt in the country's lately stagnant money markets, as commercial loans rose for the fourth successive week, and the Securities & Exchange Commission, at Washington reported that 49.3 per cent of the \$91,000,000 of new securities registered in September called for actual "new" money, to be put into plant and equipment or added to working capital. Financial quarters said the trend had probably intensified in October.

Accompanying many of the reports to stockholders were messages from the heads of leading concerns which showed in increasing preoccupation with the problems, not only of a war-gear economy, but with the inevitable adjustments which peace-time conditions would bring.

Charles R. Hook, of the American Rolling Mill Co., told stockholders: "If we are to prevent serious collapse when the requirements of our national defense have been satisfied, we must begin now to give serious thought to the problems of our domestic economy."

Alfred P. Sloan, chairman of General Motors, a key factor in national defense plans, said: "The program that has been industry for so many years are unswerving. They may be counted on to reassert their influence when the present emergency is over."

At the same time Sloan cautioned the owners of General Motors 43,700,000 shares that rising costs from the prospect of "diminishing returns" on their investment.

## Light Conditioning Science Followed In New Fixtures

It is important that every room be kept with the new science of light conditioning for seeing, for comfort, for charm. Now you can economically make every interior of your home a better place to live in—to entertain in, for at Taylor Electric Co. you can obtain new styles in light sources that are moderately priced. They add to and bring out the beauty of surrounding furnishings and because of their price, permit refreshing changes in light source decorations.

The light fixtures shown at Taylor's have been designed in keeping with the new science of light conditioning. They supply engineered illumination from attractive sources with a simplicity of design that makes for smart styling and harmony in any decorative scheme.

Light conditioning will add a sparkle that can be achieved in no other way—to say nothing of the easier seeing you will have. As your house brightens up, you will brighten up. For the utmost in eye comfort, charm, and value, install modern light fixtures in your home and be assured of correct light conditioning.

Right to left—Mrs. James Franks, San Antonio, Texas, winner of first prize in the first week's \$3,000 Admiration Contest; Mr. George Pinch, Duncan Coffee Company representative; and Mr. Rudy Balusek, the grocer who sold Mrs. Franks her Admiration Coffee and who also won a cash prize.

## First Winners Are Announced In Admiration Coffee Essay Contest

Winners in the first week's Admiration Contest are limited to the million \$3,000 contest have been announced. Winner of the first prize and \$100 was Mrs. James Franks, San Antonio housewife. Her grocer received a prize of \$50. Second prize of \$40 went to Mrs. E. W. Pinkston, Tyler, Texas school teacher; while third prize money of \$20 went to Mrs. A. M. Thompson, Marlow, Oklahoma, housewife. Twenty other prizes of \$2 each were scattered throughout the Southwest.

Mrs. James Franks, first prize winner expressed high appreciation for the interest of her grocer in the competition. For, although she knew about the contest through the newspaper advertisement and planned to try, it was her dealer who urged her to send in her entry without delay, which she did. For his active interest, her grocer was rewarded with the special dealer's award of \$50 in cash.

There are ten weekly contests in all with new cash prizes being awarded each week. To enter the contest, which is entirely free, of course, a twenty-five word story of why the contestant prefers Admiration should be written, and attached to any entry blank and an Admiration Coffee coupon. As many entries as contestant wishes may be sent. Entry blanks appear in every Thursday's issue of The Herald, extra ones being available at The Herald business office, free of charge, or they may be obtained at your grocers.

As will be noticed by this week's list of winners and their addresses, the fact that the big \$3,000 Admiration Contest is being held in Big Spring is a fact that is being widely publicized.

# Looking 'em Over

With Jack Douglas

Bobby Savage, erstwhile Big Spring athlete, is among those due to make a strong bid for a place on John Tarleton's basketball crew. On October 30 about forty men turned out for the initial practice session of the season. Tarleton Coach Wisdom will reduce this number to twenty-four later in the year.

The Plooyboys' football team may rise and fall, but like old man river, their basketballs go on forever. This season Tarleton will start out with twenty straight wins to their credit before a gun is even fired.

Plans are now being made to get some exhibition games between local quintets and outstanding traveling basketballers this season. On the list of prospective troupes to appear at Big Spring is the nationally known House of David aggregation. Furthermore, arrangements are now under consideration to get the nation's champion girls' basketballers, the Redheads.

After many years in the desert, Big Spring people will at last be given a chance to look upon the fruitful fields of district championship country.

Still standing as a threat on Big Spring's hopes to cap the title race for long years, are the three bugaboos of this circuit—San Angelo, Sweetwater and Abilene.

On Armistice Day the Longhorns meet the first obstacle and on two following engagements the other two will be met. As things now stand, the Herd will keep rolling, but there is nothing to keep a bewildered Bobcat from suddenly going berserk, a Mustang getting an overdose of loco weed and kicking living daylight out of the hopeful Steers, or a ruffed Eagle getting a sudden desire to turn the table on the dopsters. All in all, anything can happen between now and the close of the season.

## Schoolboy Grid Leaders Rally For Crucial Tilts

By HAROLD V. RATLIFF

Fewer than half of the Texas schoolboy football districts had undisputed leaders today as the field is defenses for crucial armistice struggles.

The coming weekend, however, will trim the contenders out appreciably although no district championship can be clinched at this date.

Districts with undisputed leaders are:  
District 3—Big Spring, district 4—Woodrow Wilson (Dallas), district 9—Stephenville, district 11—Tyler, district 12—Lufkin, district 13—Jeff Davis (Houston), district 15—Kerrville, district 16—Harlingen in the south zone.

The big game of the week is Amarillo's tussle with the dark horse Plainview team in the panhandle. Both are undefeated and tied in the state along with Lubbock, which plays in interdistrict game with Austin (El Paso).

Other districts with crucial games shape up like this:  
District 2—Graham plays Quanah. These two are tied with Wichita Falls for the lead. Wichita Falls meets down-trodden Electrica.

District 5—Greenville plays Highland Park (Dallas) for the lead, and in all probability the championship.

District 10—Temple goes to Waxahachie. Temple is in a virtual tie with Waxahachie and Corsicana for the lead. Corsicana is idle this week.

District 11—Tyler is the only unbeaten, untied team in conference play but the Lions meet a major menace in the Longview Lobos, who could give the leadership to the Kilgore with a victory. Kilgore is unbeaten but has been tied.

District 13—Jeff Davis is the only undefeated, untied team but Reagan (Houston) also is unbeaten although once tied inside the district. Reagan could take the lead by defeating Jeff Davis this week.

The rest of the state picture:  
In district 3 Big Spring plays

thrice-beaten San Angelo next Monday while second-place Midland tackles Lamesa.

District 4 has Austin (El Paso) and El Paso high tied for the lead. El Paso high plays Bowie (El Paso) Friday.

In district 5 Paris and Sherman are undefeated. Paris plays much-an interdistrict game with Adamson (Dallas).

District 7 moves toward a showdown between Masonic Home and Arlington Heights, the only undefeated teams in conference play. The Masons play impotent Paschal and Arlington Heights is idle this week.

Woodrow Wilson plays twice-defeated Dallas Tech in district 8 while Forest and Sunset battle for second place.

In district 9 Stephenville awaits its final conference game with Brownwood which plays Breckenridge this week.

In district 12 Lufkin meets once-beaten Nacogdoches.

District 14 plods toward a climax when Port Arthur and Beaumont meet but this weekend Beaumont tackles Galveston and Port Arthur plays Conroe with neither of the leaders in any apparent danger.

Top-hand Kerrville of district 15 plays once-beaten Jefferson (San Antonio).

In the north zone of district 16 undefeated Corpus Christi meets twice-beaten Beville and Robstown tangles with Kingsville. In the south zone unbeaten Harlingen has a date with San Benito, which hasn't won a game of any kind all season.

Sherman did not play last week but the Bearcats continue as the top scoring machine with 261 points in 7 games. Stephenville is second with 239 in a like number of tests.

A dozen teams remain undefeated and untied in the state, they being Amarillo, Lubbock, Plainview, Paris, Sherman, Masonic Home, Stephenville, Lufkin, Jeff Davis, Kerrville, Corpus Christi and Harlingen.

## Steers Look Toward Hard Final Series

The die is cast—the axe are out—Big Spring's Steer footballers are moving into the first of the last go-round series this week. First hurdle between the Herd and the district 3-AA championship is San Angelo's latticed crew of Bobcats.

Next on the list of would-be Steer maulers is Sweetwater, followed by Coach Mayhew's Abilene Eagles.

Anything but an easy prospect, although their record is not up to scratch this season, the Bobcats are scheduled to pack a hefty wallop when the Longhorns are on the receiving end. A real threat, and not listed as what one could call an underdog, Sweetwater is slated to be the hardest test that the Bovines have left to meet as far as past performances this season are concerned. Abilene is the unknown quantity in this gridiron formula.

A Mayhew-tutored team is a dangerous thing when in form but an indifferent opponent in an off day.

Big Spring lost to Plainview, 6 to 0, last Friday night, but, since the engagement was a no-stake affair in the matter of conference standing, the Steers are all set to continue the scrap in their ward without too much loss of prestige or with an unreasonable injury list.

Taylor Rowe, Longhorn quarterback was the only outstanding casualty in the affair up on the Plains, but he is not yet to be counted out of the picture.

If nothing untoward happens during this week's drill sessions, Coach Pat Murphy should be able to toss his boys out in the pit with the Bobcats from the Concho bottoms without having a strike called on him because of an overcrowded sick bay.

## GIRL'S BODY FOUND; HUSBAND IS HELD

ALLEGAN, Mich., Nov. 4. (AP) The body of 17-year old Elteen Darrow was uncovered in a shallow grave on a farm near here this morning after an all night search by sheriff's deputies.

Dale Darrow, 23, the young woman's estranged husband, is held in the county jail. Prosecutor Ervin Andrews said he had confessed he killed his wife during a quarrel last Saturday. They were married last August.

The search for the young woman's body followed Darrow's appearance at police headquarters in Pontiac, Mich., early Sunday morning with a report that his wife had been kidnaped.

# Who's Who On Gridiron Stated To Be Picked After This Week

NEW YORK, Nov. 4. (AP)—Minnesota plays Michigan next Saturday; the Texas Aggies encounter Southern Methodist and Stanford meets Washington. When these games are over the long-suffering football "experts" may have some real idea who is who in the football world this season.

Minnesota and Michigan are the unbeaten and untied survivors of the titanic struggle for the western conference championship. The Texas Aggies and Stanford have equally perfect records and high ranking. S. M. U., unbeaten, has been tied once but figures to give the Aggies the battle of the season for Southwest conference honors while Washington, defeated by Minnesota at the start of the season, is right behind Stanford in the Pacific Coast conference race.

Ranking with these on the list of unbeaten and untied candidates for the mythical national title are Cornell, Georgetown, Boston College, Notre Dame and Tennessee. Penn State, Lafayette and Hardin Simmons also have clean slates and Texas Tech has only one tie against its record. They don't appear to rank quite as high as the others, however.

Pushing these leaders for sectional honors are reported teams that still are going strong. Among them are Pennsylvania and Fordham in the east; Nebraska, the undisputed Big Six conference leader; Mississippi, tied with Tennessee for first in the Southeastern conference and Duke and Clemson, rivals for the Southern conference crown.

East-Cornell has played the toughest schedule without a let-down. Columbia was a 27-0 victim for the big red team last Saturday and Yale will be lucky to do as well this week.

Georgetown beat Syracuse 28-6 for its 22nd consecutive game without a defeat. The Hoosiers enjoy a breather this week against Maryland. Boston College, 25-0 victor over Manhattan goes back to minor league company this week against Boston university, 19-0 victim of Western Reserve.

Penn State, remaining undefeated by beating South Carolina 12-0, scores by Army was a let-down for Notre Dame's fighting Irish and they'll probably be out to make up for that showing when they meet Navy this week.

The Western conference race was reduced to a two-team affair when Minnesota edged out Northwestern 13-12. If they can get past Michigan the Gophers should have a clear road. Michigan has to play Northwestern later and the whole thing may wind up in a tangle. This week Northwestern faces Illinois, 13-6 victim of Wisconsin. Indiana, beaten 21-6 by Ohio State, meets Michigan State, 22-0 winner over Kansas State. Iowa plays Nebraska's Cornhuskers, who went to the top of the Big Six with a 12-0 win over Oklahoma.

Oklahoma, tied with Missouri for second in their circuit, plays Kansas, beaten 33-7 by Villanova Friday. Missouri, which passed to a 33-0 decision over New York university, plays Colorado.

Other interesting games include Detroit, dropped from the unbeaten class, 7-0, by Tulsa, against Texas Christian, 14-12 winner over Baylor in the Southwest conference, and Washington University (St. Louis) against Virginia Military.

South-Tennessee, the South's only "major" unbeaten and untied team, showed power in bowling over Louisiana State 22-0 and takes a week off from major competition to play Southwestern of Memphis. Mississippi kept pace in the Southeastern conference standings by beating Vanderbilt 13-7.

With these two on the sidelines next Saturday it's Alabama, impressive 20-0 winner over Kentucky, against Tulane, which knocked Clemson out of the unbeaten group, 13-0, in the biggest Southeastern game. Others are Georgia, 14-13 winner over Auburn, against Florida, Kentucky-Georgia Tech, L.S.U.-Mississippi State and Vanderbilt-Sewanee.

Southwestern Preparing for this week's decisive encounter, Texas A. & M. rolled over Arkansas 17-0 while Southern Methodist outscored Texas 21-13. Rice, also unbeaten in the conference, beat Texas A. & I. 9-6 and may find it hard to stay in the running when it meets Arkansas. Texas and Baylor meet in the remaining game. Outside the conference, Hardin-Simmons plays Loyola at Los Angeles Friday night while Texas Tech is idle until next Monday.

Rocky Mountain Big Seven—It's anyone's race since Utah knocked off Colorado 21-13 to go into a tie for the conference lead. The Utes play Wyoming Saturday while Colorado meets Missouri. Denver and Brigham Young, tied for third, play each other. Colorado State meets Utah State—Stanford had to stave off late rallies to beat U.C.L.A. 20-14 but was clearly the better team. Washington may prove a tougher customer. Only conference games this week and Oregon State, 19-13 surprise winner over California, against Washington State, which beat Idaho 26-0; U.C.L.A. against Oregon, victor over Montana 35-0; and California against Southern California.

St. Mary's, which whipped Portland 25-13 to remain on even terms with Santa Clara, 27-0 winner over San Francisco, among the big "independents" plays Duquesne Sunday.

encounters Syracuse. Lafayette, 25-0 winner over Washington and Jefferson, faces Rutgers, Pennsylvania, which trounced previously unbeaten Navy 20-0, plays Harvard, which fought Princeton's favored team to a scoreless tie. Fordham downed North Carolina 14-0 and now tackles Purdue, 21-6 winner over Iowa.

Other games of major importance this week include Columbia against Wisconsin, Holy Cross against Mississippi, Manhattan against Marquette, Pittsburgh against Carnegie Tech, Princeton against Dartmouth, which beat Sewanee 28-0, and Army against Brown.

Mid-west—being held to a 7-0 score by Army was a let-down for Notre Dame's fighting Irish and they'll probably be out to make up for that showing when they meet Navy this week.

## Aggies Meet Real Test In SMU Duel

DALLAS, Nov. 4. (AP)—Week after the bulls-eye for inspired football teams, icy Texas A. and M., the sphinx of Southwest football, next Saturday meets the real menace of all this emotionally aroused opposition.

Since the timer's gun halted them on the Aggie goal line in the rain-splattered quagmire down on Jones, ACC 6-9-9-0-85, Southern Methodist has molded its 1940 season around the Aggie game.

The Methodists lost that game of games, 6-2. It was the last genuine threat the Aggies had before rolling on to an unbeaten season and the Sugar Bowl triumph.

Now, these two teams meet up again. The scene hasn't changed much. Both are unbeaten. The Aggies working on a string of seven straight victories. Pulse has carried them through a few tight spots. Actually, there has been little cause for distress—until now.

Weeks ago the available 25,500 seats at Owenby Oval in Dallas were sold out.

Just a year ago, the Aggies are favored. Never have they been behind this season. Their line has beat back every man-sized threat. Their offense, from Joltin' John Kimbrough on through Marion Fugh and his passing, Jim Thomson and his blocking, line backing and running; Derace Moser and Wild Bill Conaster and their fancy punt returning, is about the most solid thing in the section.

Frankly befuddled for the first half in their Saturday meeting with Arkansas, the Aggies came confidently back to punch the Mountaineers groggy with vicious tackling and cunning passing and running to win 17-0.

The Methodists showed they weren't forgetting their knitting and looking too far ahead, when they shackled Jack Crain and Texas, 21-12. They made the Aggies quiver a trifle by getting 15 first downs to Texas' two.

Two more conference games are scheduled. Rice, shaking from the shock after beating little Texas A. and I., 9-6, in the last two weeks, invades Fayetteville to play an Arkansas team that was great, except for fumbling, against the Aggies.

Texas, its dreams of a conference championship melting after two straight defeats, meets a good Baylor team at Austin—a Baylor team that caught Texas Christian with Kyle Gillespie at full blast for the first time this season and lost a tough 12-14 decision.

The Christians, expected to come back after the Tulsa beating and still far from out of the conference scramble with Gillespie ready to go, goes east for an interconference date with Detroit—loser of its only game this season Saturday last to Tulsa.

on the 10th and 11th, with 41 inch registered, October was listed as having 13 clear days, 10 partly cloudy and eight cloudy days. Fog was reported on three days.

## SPORTS ROUNDUP

By EDDIE BRIETZ

NEW YORK, Nov. 4. (AP)—Week's Wash: While handing out the posties, don't pass up Coach Homer Norton whose Texas Aggies have won 17 in a row. Max Schmeling spiked those rumors that he is in a concentration camp by broadcasting to the U. S. via short wave Saturday night.

Jimmy London, richest of the wrestlers, makes no bones about being plenty worried over his investments in Greece.

Today's guest star, Elliott Cushing, Rochester Democrat-Chronicler. "This is the best 'stay in there and keep punching' team I have seen under Carl Snavely at Cornell. The Harry Grebs of football, an old fight writer might term them. They hit with blinding speed. They seldom throw two successive punches in the same place."

Buck Shaw, Santa Clara coach, rates Michigan State a better defensive team than either U.C.L.A. or Stanford. "What's this about Bill Ingram, former California U. and Navy coach, having a son tabbed for Stanford? The champion Reds, who won 41 of their 100 victories by one run, broke the all-time record of 87 set by the world champion Cubs in 1907.

Hoves and zeroes. Saturday's heroes—All the guys who took Army and ten points. Saturday's zero—Whoever called that place kick when Army had only one foot to go for first down on the Notre Dame four.

Nary a wig-wag. Carl Snavely sat upon the bench and clutched his trusty papers. But that is all, for it's a cinch, He tried no funny capers.

## Chicago U Has Gridsters Still

AP Feature Service  
CHICAGO — The University of Chicago may have given up on intercollegiate football, but football hasn't given up on the university.

Almost a year ago trustees of the institution abandoned the sport on an intercollegiate basis. Football, though, of not one but two varieties is being played on the midway campus.

True, the games go on before empty stands—stands once filled by throngs cheering on great Chicago teams. But the players work hard at the game even though they know they'll earn neither plaudits of the crowds nor their school letter.

Six-Man Game  
Under the supervision of Coaches Kyle Anderson and Nels Norgren, the latter the Maroon basketball coach the six-man game was introduced early this fall. Turnouts have been excellent, with some 10 intramural teams competing.

Sentiment Divided  
Campus sentiment on Chicago's abandonment of the intercollegiate game seems fairly well divided. Half the students hope that some day the regular game will be returned to the institution's athletic program.

Three reserves from last year's varsity and five freshmen numerical winners went out for the six-man game, but since have swung over to the other squad. Charles Boyd, among them, has played brilliantly in the two "scrimmage."

The referee was right on him: "Fifteen yards on you for swearing, and that makes it even!"

Play was resumed and on the very next play the eastern tackle again held the Duke end. The referee saw the violation:

"Fifteen yards on you for holding," he yelled, "and I don't give a damn what he calls you."

## Temperature Range Wide In October

October brought a wide range of temperature, but little precipitation, the monthly meteorological summary issued by the local department of commerce weather bureau reveals.

Although there were six days in the month on which rainfall was gauged, the total for the month was only .58 inch. There was no killing frost during the month.

Temperatures ranged from a high of 81 degrees on October 3 to a low of 40 on the 18th, to give a mean of 66.8, with a mean maximum of 78.9 and a mean minimum of 54.8.

That struggling new nation, shakily recovering from seven long years of devastating war, striking out boldly toward new institutions of freedom, has today become a vast nation of 130,000,000 people, occupying the most fruitful part of a whole continent, whose power and influence are great in the world.

WASHINGTON—Answering the mail orders: T. C. Garrison, N. Y.—The present session of congress will have to last until Dec. 23 to break the record for the longest sitting on record. It already is the second longest and the three-day recess now in operation does not come to an end until Nov. 18, so there is a good chance that the record will be broken.

Man About Manhattan

NEW YORK—This is a good football town for money but a poor one for fun. If you are accustomed to the big horseshoe stadiums of the west and south you'll be unable to let yourself go in New York except possibly at Columbia University's Baker field, which is really a gridiron instead of a stadium.

By George Tucker

What New York needs is an old-fashioned Ivy league or midwest horseshoe concrete stadium. It needs flying streamers and a campus lined with giant oaks instead of skyscrapers. To me it seems to be missing the whole fundamental spirit of football now.

Shani Lun, contained an apartment in which the girls would be safe, he hoped, until he could make arrangements to take them away from Lanfou.

The Road To Shani Lun

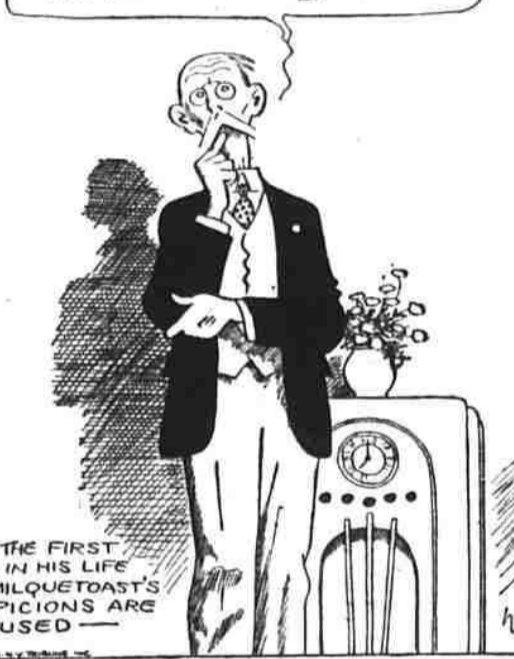

She took off her wide-brimmed hat. "You're here, a representative of the powerful Prince of Shani Lun. You wouldn't let the revolutionists stand me up against a wall and shoot me, would you?"

"Scratch is right," Lynn shuddered. "Mr. Wallace and I ate lunch that day in an inn that was full of fiends."

"You can be thankful it wasn't worse," Temu observed with amusement. He looked her over. "Change into your heaviest dress. You'd better give the Russian fur coat to Mrs. Telford. There's a Mongol coat of mine that you may wear."

The Timid Soul

THEY TELL ME I SHOULDN'T SWAP HORSES IN THE MIDDLE OF A STREAM, AND THAT I'D BE VOTING FOR HITLER—HM! I WONDER IF, BY ANY POSSIBLE CHANCE, THESE POLITICIANS COULD HAVE AN ULTERIOR MOTIVE IN SAYING THAT?

He might flirt across a dinner table with an art student in Paris, or with a college girl in America, but Lynn had never dreamed that a fluff with a frilly, red parasol would come tripping down the quay looking for him in Lanfou.

They went into the living room and Temu asked her to sit down. He spoke bluntly. "Your husband believed you intended to miss the plane. He said you had quarreled with him."

Chan came in with a message. Revolutionists had captured three of the forts above the city as well as the airport. Uprisings and massacres were continuing in villages to the north. River traffic had been held up farther downstream.

Between them, they had Peggy completely bewildered. "But what really has become of your brother?" she asked Lynn.

He confirmed without opposition. R. B. Grand Rapids, Mich.—It is true that the civil aeronautics board has licensed manufacture of a "spinless plane," but you will have to write the board here for details.

They turned at the sound of a powerful motor boat as it shot up the river and headed in towards the wharf where they stood.

Temu stood up before the boat came to a stop, and at sight of the girls, almost lost his balance with surprise and consternation.

Temu Darin's eyes held hers for a moment, with that elusive spark of amusement and understanding and something else that had a power to flutter her nerves.

When they had lifted to a level with the northern hills they felt a jolt of the plane as it struck rough air and saw wild, black storm clouds boiling up on the northeast rim of the world.

**THE WAR TODAY**

By DEWITT MACKENZIE

Reports in Washington and London that Herr Hitler is preparing a fresh peace offensive may be apocryphal (Berlin denies them) but still are important as emphasizing that the war has passed the possibility of peace by agreement, barring some strange and wholly unexpected development.

Hard as it is to say, it's difficult to see how the conflict can be settled excepting by the total defeat of one side or the other. Europe just isn't big enough to hold both Adolf Hitler and Britain. Should it prove to be true that the Führer is indeed preparing peace terms it would, of course, be significant as indicating that he no longer feels confident he can smash England.

Reported terms provide that "the British empire undefeated and unconquered" should remain as it is. Europe, "being conquered by Germany," should be regarded as outside England's sphere of influence.

That would be a grand bargain for the Nazi leader. However, even if John Bull were willing to forego his oath to free his allies from German subjugation, he would seem to me to be inviting disaster to accept such terms.

Peace under an arrangement like that couldn't be lasting. It would in reality represent a stalemate and war would blaze again.

Hitler has sworn time and again to destroy the British empire. Only a fortnight ago British Premier Churchill declared this as his country's war aim:

"We seek to beat the life and soul out of Hitler and Hitlerism—that alone."

That's what this war amounts to—a struggle between Hitler and the British empire. One or the other is going to disappear from the picture.

Anyway, while England has a tough row to hoe, the going just now seems to me to be considerably more promising than it was a while back. Making predictions in this mad war is like crossing Niagara Falls on a tight rope, but I venture to say it's far from sure that Mussolini didn't confer a great boon on Britain when he lashed out at Greece.

Instead of achieving a blitzkrieg, as they expected, the fascists have tossed priceless bases into England's lap, thereby going a long way towards nullifying their efforts.

If England can make capital out of this situation she may win the active support of Russia and Turkey. Meanwhile, Hitler is straining every nerve to pull these countries into his camp, and success would be a sad blow to Britain.

**RAILROAD PICTORIAL MAGAZINE PLANNED**

SAN JOSE, Calif., Nov. 4.—The National Railway Journal, a publication of special interest to railroad men, will become a railroad pictorial magazine, it was announced today by H. M. Stephens, publisher.

The Journal will soon go to press with a full photographic layout of

the latest in trains, shops, equipment and devices, as well as other interesting pictures pertaining to railroads and the men who run them.

The magazine will be published independently of any transportation companies or the railroad brotherhoods, but will work in close harmony with such lines and organizations.

The Journal as formerly published, contained articles of interest to railroaders and others, along with a moderate use of cuts. Henceforth, Stephens said, the publication will lay stress on pictures of railroad life along the lines employed by the modern, popular pictorial magazines.

Stephens, born in Cleburne, Texas, and long in the railroad publication business, began his career with the Santa Fe in 1915, in Cleburne. Before entering the editorial sanctum, he also worked for the Burlington, Katy, K.C.M.&O., Missouri Pacific, Rock Island, and Southern Pacific lines.

**W. A. Kaderli Of Stanton Makes Hobby Profitable, In Raising Unique, Valuable Karakul Sheep**

STANTON, Nov. 4. (Sp.)—If a man wants a hobby, well and good, but if he has one that pays, excellent dividends, that is something else again. Three years ago, W. A. Kaderli, local abstractor and insurance man, bought a small herd of twelve Karakul sheep, and put them on his farm just west of Stanton. At the time, many of the county were stocking more common breeds of sheep in herds large and small, but Kaderli chose the Karakuls merely as a diversion, and did not anticipate their financial assets. Since he bought them, however, he has realized a profit of over \$1500 from sale of pelts, wool and sheep, and including the number of sheep he now has, which number over twice his original purchase. This week he sold all of his non-registered sheep to T. C. Hollowell, of Hatch, New Mexico. Kaderli's herd of pure-bred, registered Karakuls are the only ones in Martin county. He is not breeding them for sale.

Karakul is a breed of fat-tailed sheep, taking the name from the village of Karakul in the valley of the Amu Darja river, in the former Chanat of Bokhara, in west central Asiatic Russia, in which region the breed's origin dates back to antiquity. The climatic and other conditions of that locality being quite similar to our own, they are well adapted to this locality. They have all the characteristics of other sheep, but are a little harder, and are subject to the same treatment.

**First Importation in 1909**

The first importation of Karakuls into the United States was made in 1909 by Dr. C. C. Young, who brought a flock of five rams and ten ewes to Holiday, Texas. A total of 63 head have been imported into the United States, and 130 head into Canada, a few of which reached the United States. The last importation was made in 1929 by Alex. Albright of Dundee, Texas. Because of the strict quarantine regulations it is now impractical, if not entirely impossible, to import more. According to the United States animal husbandry survey for 1938, there were then nearly 6000 Karakuls in this country.

Karakuls are valuable chiefly for the skins taken from the lambs when quite young, and the still-born lambs skins are frequently most valuable, being very beautiful, depending upon the stage of development. These lambskins are used for coats, hats and trimming garments. Trimmings on the coats of the Hittite kings unearthed in the excavations at Sanchsirlic indicate that Karakul skins were in use as long ago as 1400 B. C. The earliest written records about the production of their valuable skin-half back to 918 B. C. About one-half of one per cent of the lambskins used by the American trade are produced in this country. Approximately three millions are imported annually.

**Good Mutton**

Aside from their valuable skins, Karakuls make excellent mutton, claimed by many to be superior to other mutton in that the flesh does not have that "sheepy" taste. Karakul lambs mature in about one-third the time that other lambs do, because the mothers are heavier milkers. Cross-bred Karakul lambs not only mature quicker, but are one-third heavier than other lambs produced at the same time under the same conditions, and it is claimed they bring top market prices.

Aside from realizing much pleasure from his hobby, Kaderli has gained much profit from the Karakuls. Lambs which he does not want are killed as soon as they are born, and their skins, glossy black and tightly curled in the perfect beauty of the Persian lamb, are sold, to be tanned, and adorn a lovely suit, hat, muff, or perhaps become part of a coat itself. Kaderli stated that the lambs must be killed as soon as born for the fur to be perfect. The longer time they live, the less curly the fur will become. From wool they have sheared, Kaderli has had twenty-six heavy soft woolen blankets made, sixteen of which he still possesses.

**Slain Mexican Is Identified**

COLORADO CITY, Nov. 4.—A Mexican man, about 30, who was fatally shot in the South Colorado City Mexican settlement Saturday night while resisting arrest for drunkenness, has been identified as Francisco Martinez of Charcoal, a cotton picker this fall on the John Hale farm near Colorado City.

Martinez was shot, according to officers' reports, when he broke away from officers and began running. The shot was fired by Serapio Heredia, Mexican deputy sheriff, and was intended to frighten the fleeing Mexican. Heredia was erroneously described as a deputy constable in an earlier story.

Two calls were made by the fire department Sunday night in answer to alarms for automobile fires. One was at 3rd and Gigg and the other at 4th and Rannels. Little damage resulted in either case.

Burglars smashed a front door glass at the Lowndes Hanshaw home, according to a report received by police Sunday afternoon, and stole several items of clothing and minor household goods.

**Here 'n' There**

Herschell Blakerby, Stanton, said that he was accosted by a would-be hijacker in the courthouse basement early Sunday morning. When his assailant drew a gun, Blakerby fled and called policemen. With them he looked for the gunman, but no trace was found.

J. H. Greene, chairman of an inter-city aviation committee seeking north-south airmail service through Big Spring, was in San Angelo Monday conferring with representatives from Amarillo, Lubbock, San Angelo and San Antonio. CAA has set hearing for Nov. 14 in Washington on a series of applications for service in this area.

Petitions are being circulated among merchants urging them to agree to decorate windows in time for the formal opening of the Christmas shopping season on Dec. 6. They also are being asked to enter the treasure hunt.

Can it be that cotton picking season is here? Nine Mexicans were jailed by the constable over the weekend for drunkenness. There were three other men in for the same offense, plus two for affray and one for vagrancy.

G. B. Mayfield, Lamesa, doesn't think much of the person who waited on his car while he parked in front of a local cafe Sunday evening. They relieved his car of a quantity of clothing. A Mexican, identified as "Ignacio" and who works for A. L. Wasson, had a suit of clothes stolen from a truck at 2nd and Seury street.

Imagine the surprise of A. J. Wallace, negro, who cut in short to snag a fender on a car early Sunday morning on W. 3rd street. He discovered it was the police patrol car. The negro appeared Monday to pay the damages.

Foreign Wars members had been asked to meet at the city auditorium at 3:30 p. m. to march in the parade.

Assisting Mrs. Lawrence will be Mrs. Mary Delbridge, veteran detail organizer for past toll calls and some of whose methods have been adopted by the national organization. Mrs. Delbridge is on special leave from Eberley Funeral Home for duration of the drive.

Mrs. Lois O'Barr Smith has undertaken the organization and direction of the drive to reach rural schools south of Big Spring, the oil field communities and all of Glasscock county.

As the chapter received the shipment of material for sewing, Mrs. Gilbert Sawtelle, who has directed the outstanding knitting program, announced that 150 knitted garments would be sent this week to New Jersey for shipment to England. Mrs. Sawtelle will be used for refugees, Mrs. Sawtelle, who will be assisted by Mrs. Stichter, an experienced sewing room director, will also head up the program for sewing garments. Those who cannot volunteer to sew garments at home were asked to give their services in cutting goods at the sewing and knitting room in the Settles hotel.

on the ballot as democratic nominee, and Levi Robinson, father of the late Newton Robinson, who won the nomination in the democratic primaries, and L. A. Coffey, runner-up, as write-in candidates.

Too, there was some speculation as to the extent and effectiveness of the campaign to scratch J. E. McDonald, commissioner of agriculture who announced he was supporting Wendell Wilkie for president, and write in the name of Bill Corry of Tarrant county.

Notwithstanding all this, the crux of the interest lay in the heated presidential campaign between President Franklin Roosevelt for the democrats and Wendell Wilkie for the republicans.

Not even the most optimistic GOP supporters saw the possibility of Wilkie repeating Herbert Hoover's 1928 miracle of a republican victory in Howard county. The conjecture centered around the extent of the Wilkie vote, for normally there are only between 150 and 200 old-line republicans in the county. The only times GOP strength has exceeded the 200 mark was in 1928 when Hoover captured the county with 812 and in 1936 when Alf Landon polled 230 votes in getting a little less than one-thirteenth of the democratic vote.

Voters were reminded that they will not find the names of Roosevelt and Wilkie on the ballots, but the names of 23 democratic or republican presidential electoral college candidates. Polls will open at 8 a. m. and close at 7 p. m.

**Mrs. Chesser Of Stanton Succumbs**

STANTON, Nov. 4. (Sp.)—Death came Saturday evening at 8:10, to Mrs. Minnie Chesser, resident of Stanton for thirty-five years. Mrs. Chesser had been in ill health for several years, but grew seriously ill only Friday evening.

Born in Roger, Alabama, August 6, 1877, her parents were William R. and Temple Jane Jones. With her parents, she moved to Texas Dec. 7, 1888, settling near Lockhart. She was married to J. D. Chesser in December, 1894, to which union was born eight sons, four of whom preceded her in death. With her husband, who died Nov. 11, 1934, she moved to Martin county in 1905, and had resided here since. She was a member of the Baptist church.

Survivors include four sons, Norrie Chesser of Stanton, Aubrey Chesser also of Stanton, Bristol Chesser of Gulfport, Miss., and Herman Chesser of Stanton; two brothers, Wilmer Jones of Stanton and Leon Jones of Lifton, California; one sister, Mrs. J. W. Chesser of Kyle, Texas, and ten grandchildren. One son, Bristol, was in Washington, D. C. at the time of his mother's death, and could not attend the funeral.

Funeral services were at the First Baptist Church here and were in charge of Rev. Fred McPherson. Eberley Funeral home, of Big Spring was in charge of arrangements. Burial will be in Lockhart.

had entered Greek territory "varying distances," and had said that the Italian advance failed to acquire lightning rhythm because of bad weather prevailing for several days and because of bad roads... swampy strips interrupted here and there by dynamite mines exploded by the Greek rear guard.

The Greeks, he said, were fighting with British and French artillery, rifles, ammunitions and warplanes.

Concrete British aid to the little Aegean kingdom took a two-fold aspect. Official circles in London confirmed that British troops now have landed on the Greek Isle of Crete, opposite the Italian Dodecanese Islands. The British poured \$50,000,000 into Greece's defense coffers.

British naval assistance in striking at the Italian invasion was also indicated in sketchy reports of a sea battle Sunday evening west of the island of Corfu, at the lower end of the Greek-Albanian frontier.

The Athens radio said that 20 minutes after firing at sea was heard "a large vessel was seen ablaze, steaming northward," toward Italian defense bases—indicating the ship was Italian.

At the same time, British RAF bombers, now presumably operating from Greek bases, caused an hour and 45-minute alarm in Rome—the Italian capital's first alarm since July 22—and also attached Naples again.

NEW YORK, Nov. 4. (AP)—Selling of steel unsettled the stock market today after an early attempt at a forward move met with only half-hearted response.

The tumble came shortly after midday and prices for leaders dipped fractions to more than 2 points in lively dealings. It was a short-lived shift, however, and support quickly made its appearance for the majority of leaders. Final losses were reduced and a number of issues managed to emerge with modest gains.

Londonware in the territory are B. T. Birkhead, G. G. Birkhead, Tom Birkhead, W. W. Lay, S. L. Hull, J. L. Baugh, Earl Hull, W. C. Rogers, V. W. McGreggor, Leon Hull, Carl Robinson, Wade Robinson and Jim Robinson. The other joint demonstration for the county lies over a two-section area immediately north of Big Spring.

**Markets At A Glance**
