Chinese Ready To Protect Burma Road

Important Supply Line Reopened After Three Months

CHUNGKING, Oct. 18—(Friday) (AP)—Chinese labor squads were drawn up at strategic points of the Burma Road when it reopened today under orders to reconstruct the lifeline highway as fast as Japanese bombing planes could destroy it.

The road opened officially at the stroke of midnight after three months of closure as a British appeasement gesture to Japan.

A great part of the first traffic ever the winding road from British-controlled Burma will be during the night, it was learned reliably—a measure of defense against Japanese bombs.

Trucks bearing supplies to replenish Generalissimo Chiang Kai-Shek's armies will be spaced to avoid forming concentrated targets for Japanese airmen.

Authoritative circles said ending of the Burma Road agreement also paved the way for re-opening of the British Crown Colony of Hongkong to arms shipments to China if this action seemed desirable.

The Hongkong route was closed to the transport of arms to China last Jan. 1 for "security reasons" and movement of gasoline, trucks, railway equipment and other supplies was banned at the same time the Burma Road was shut.

No assurance was given Japan concerning continuation of the Hongkong closing until the Burma Road agreement was reached, it was said, and since that agreement has now lapsed it remains within the discretion of the government of Hongkong to reach its closure order.

The Tokyo press reported from Hongkong that the Japanese consul general there had advised the British that Japan regards the closing of the Hongkong route as entirely separate from the Burma Road agreement. He was said to have made it plain that the Japanese interpreted the Hongkong closure as "effective indefinitely."

The press hinted at direct action if the route was reopened.

(Japanese military authorities in Indo-China announced yesterday that their bombers would make "the utmost effort" to keep the Burma Road closed to the expected flow of war supplies from America and other sources.)

REA Receives First Funds

First of the \$14,000 allotment to the Caprock Electric Cooperative for 100 miles of rural power lines through Howard and Martin counties has been dispatched from Washington, it was reported here Thursday.

The initial block of funds furnished by REA will amount to \$30,000. When this is exhausted, more will be forthcoming.

Representatives of R. W. McKinney Construction Co., arrived here Wednesday to make preparations for starting the work next week.

C. B. Bryan, district supervisor, is in Fort Worth conferring with regional REA officials on the project and on a "B" project application now in Washington and covering an additional 180 miles of lines for Howard, Martin and Midland counties.

The agreement of the motor car industry to subordinate model changes to the needs of national defense, it was explained in authoritative quarters here today, is the first step toward mass production of aircraft.

Representatives of the Automobile Manufacturers association and the Ford Motor company, in New York for the current national automobile show, signed the resolution, agreeing that until the present emergency has passed tooling in their plants will be directed toward production of fighter planes.

EVERY COLOR, EVERY CREED—Men from every walk of life reported Wednesday to register in keeping with the draft act. Eager to get their names in early and avoid the rush, hundreds turned out shortly after 7 a. m. to create the worst jam of the day. Here are shown some of the men registering with volunteer registrars. Above is a shot of one of the score of tables in use for precinct No. 3. At top left is a glimpse of those of Mexican extraction registering at the Kate Morrison school, while below negroes report to the grand jury room at the courthouse to be signed, colored or creed made no difference, for Uncle Sam said every male from 21 to 36 must register. Draftees' Serial Numbers Being Drawn

Mexican Laborer Is This County's No. 1

Evaristo Martinez, Mexican farm laborer for W. W. Lay at Coahoma, Thursday was given county serial No. 1 as the Howard county draft board began drawing registrars' cards on young men who registered Wednesday for the draft.

Martinez, who registered at Coahoma, was born in Santa Monica, Mexico, and was listed as a single man.

Second name to be drawn was Clarence Bates Thompson, 4711 South Street, Big Spring, an employee of the Texas and Pacific Railway Co. and a married man.

Drawing for serial numbers, however, has no bearing on the order in which names will be drawn for conscription. Later an order number will be assigned to each card from Washington, and then when capsules are drawn from a fish bowl for the first draft after Oct. 25, those holding similar key numbers over the nation must report to local boards.

Wednesday a total of 3,208 men, between the ages of 21 and 35 registered at 15 booths in the county Thursday morning the board, in headquarters at room 11, First National Bank building, suited all out-of-county and out-of-state cards, then shuffled the remaining cards on county residents.

By a process of odd-man-out matching, Miss Olive Canale, stenographer for the board, drew the assignment of drawing for the first two serial numbers. She reached deep into one stack and pulled out a card. It was turned over and Martinez's name was on the other side. She repeated the performance from another stack and Thompson's name came up.

George White, chairman, Bruce Frazier and H. C. Hooser, secretary—members of the county draft board—took over from there and began drawing cards quickly for serial numbers.

They had orders to keep at it. See DRAFT, Page 5, Column 2

Trucks Still Call For Mail

T. & P. transport trucks continued to call for mail here Thursday in face of orders issued Sunday which discontinued afternoon mail service to and from the east.

It was learned on good authority that the railroad subsidiary would continue to call a reasonable length of time for the mail in hopes that the service would be restored.

Although much had been done toward seeking restoration of the afternoon postal connection with eastern markets, there had been no official postal order rescinding the one which summarily disrupted the schedule over the weekend.

Some Indians Answer Call, Others Refuse

WINDY ROCK, Ariz., Oct. 17 (AP)—Supt. E. K. Fryer of the Navajo reservation announced today the registration for selective service totaled 4,520 braves, about 300 more than was estimated.

Several tribesmen appeared at registration stations with rifles, ready to take the war path at once. Another showed up with his horse and pack animal "ready for trip to Germany," officials said.

Wendnesday a total of 3,208 men, between the ages of 21 and 35 registered at 15 booths in the county Thursday morning the board, in headquarters at room 11, First National Bank building, suited all out-of-county and out-of-state cards, then shuffled the remaining cards on county residents.

Nat'l. Guard Case Argued

AUSTIN, Oct. 17. (AP)—Reports on the registration of young Texas menhood under selective service poured into state headquarters today and the total number of registrants was expected to be known by late afternoon or tomorrow.

Meanwhile, the supreme court heard arguments on whether an officer of the national guard might also hold an office after the guard had been called into federal service. Numerous state officials, members of the legislature and state employees were affected.

The adjutant general's department indicated boards of appeal, which will hear cases of registrants protesting classifications assigned them by local draft boards, would be announced shortly.

Storm Strikes Ship, 5 Hurt

ABOARD STEAMSHIP PRESIDENT COOLIDGE En Route to Yokohama, Oct. 17 (AP)—Five persons were injured seriously, numerous others bruised and some damage inflicted to the ship's furnishings by a severe typhoon which the President Coolidge encountered late Wednesday. The wind velocity was estimated at 100 miles per hour.

The Coolidge, now a thousand miles from Japan, was engulfed by the storm. The vessel tossed heavily, causing officers to order passengers to public rooms where they gathered to avoid the possibility of crashing glass. Some portable glasses were battered in.

The seriously injured: Dr. Harold Thomas, Malden, Mass., of the American Baptist Foreign Missions, New York, broken leg; Mrs. Berce Blain, New Haven, Conn., executive committee Foreign Missions, Nashville, Tenn., severe fracture; Mrs. Harry Caldwell, Bridgeport, O., board of Foreign Missions, New York, fractured ribs; Commander L. C. Thyson, U. S. navy, Washington, D. C., torn leg and shoulder ligaments, and Karl Grim, ship's baker, San Francisco, fractured knee.

Some Of Raiders Turned Back, But Others Take Toll

LONDON, Oct. 17 (AP)—German warplanes, which all day last beaten at England in formations of hundreds, returned tonight to London for their 41st consecutive nightly assault.

Five times during the day sirens had sounded and, while most of the raiders had been turned back before reaching the city, some bombs were dropped and there were civilian casualties. An undetermined number were trapped by the collapse of a three-story building which fell across an air raid shelter.

The raids started early in the morning when 20 planes crossed the coast near the Thames estuary and tried to force their way toward London.

They were quickly repulsed. But a few minutes later a group of more than 100 appeared and some of these bombed the London area. Then an even larger formation crossed the Kent coast, flying high above the clouds. It split into waves, some of which took the favored western route inland and circled towards the capital.

Only a short time later the sirens in the London area shrieked out for the fourth time since dawn, as Germans tried to beat off the Hurricane and Spitfire squadrons patrolling the coast. Some of them slipped past the British guard and approached close enough to put the London area in a state of alert.

A few minutes after the fourth alarm wailed, air-raid wardens patrolling the streets and rooftops whistled a shrill secondary warning which means "raiders over-head."

In earlier attacks, Nazi airmen who worked their way through outer defenses dropped tons of bombs on the so-called "home counties" surrounding London and on the outskirts of the capital. There were no reports, however, of bombs falling in London proper.

Next to London, the raiders seemed to be making their most determined attack at the west England coast. One coastal town reported German planes overhead for a second time shortly after lunch.

The fourth all-clear signal this afternoon was followed by reports that a raider had dive-bombed a section of London, demolishing houses and causing some casualties. Within a half hour later a fifth daylight alarm was sounded, but the all-clear followed quickly.

A number of persons were trapped when a three-story building collapsed under bombing in an afternoon raid and fell on a brick and concrete shelter in the street. The shelter was cracked but did not give way.

Shoppers in the area flung themselves flat in shop doorways and on the sidewalks when they heard the bombs whistle down.

The raiders were turned back after a fierce battle above the clouds along the Thames estuary.

It sounded as if scores of planes were in the fight and its fierceness was indicated by continuous machine-gun and cannon fire.

Dozens of bombs were unloosed on the shopping district of a southeast town by twelve Nazi warplanes after a dogfight high above the clouds. Several buildings were demolished and 10 persons were injured.

Two hospitals were hit in the southeast, with a nurse killed and several persons injured.

The government said "reports indicate, however, that the general extent of the damage is slight and that there have been only a small number of casualties."

ELKS OFFICIAL TO BE HERE TONIGHT F. O. Henderson of Sweetwater, district deputy grand exalted ruler of the Elks lodge, will be in Big Spring this evening for a meeting with the local group, and all members are urged to attend.

Officers and committees of the lodge were asked to meet at 7 p. m. in the club room, and a general conference will start at 8 o'clock.

GOVT. WILL HAVE CONTROL OF BIG COTTON, WHEAT SUPPLIES

WASHINGTON, Oct. 17 (AP)—Farmers are storing millions of bushels of wheat and thousands of bales of 1940 cotton under loan programs which are expected to give the federal government control over upwards of \$1,500,000,000 worth of food and fiber supplies by mid-winter.

Similar loans will be made available on corn and possibly several other crops within a few weeks.

Agriculture department officials said the loan programs, designed originally to bolster producer prices, were being fitted into the national defense program to assure the country of reserve supplies in the event of war and to protect customers against sharp price advances such as occurred in the last war.

German Naval Base At Kiel Is Bombed

LONDON, Oct. 17. (AP)—Tons of high explosives and incendiary bombs were dropped on the German naval base at Kiel last night, some of them "straddling" a warship, the air ministry news service announced in a bulletin.

Drifting clouds made observation of results difficult although the raiders carried on the attack for two hours for the second night in succession.

Their targets were the Deutsche Werke and German ship yards at the naval base.

The incessant bombardment of German war bases and war industries, now tied in with a growing naval offensive, was reported to have caused new and "extensive" fires also at Hamburg, Bremen and Cuxhaven.

The fireless or smoldering spotlights in Kiel tonight, the operations was hindered by a conciliar ministry communique acknowledging loss of five planes.

Proving for action in the English channel and the North sea, British warships were reported last night to have destroyed an entire convoy of five German vessels and to have attacked a sixth ship "successfully."

Apparently this was a submarine action—a follow-up to the recent reported naval bombardment of Dunkerque and Cherbourg, on the German-occupied French coast.

In the Mediterranean phase the admiral admitted the 9,100-ton cruiser Liverpool had been damaged in an Italian torpedo-plane attack. The Liverpool, one of eight ships of the Southampton class, reached her base with an undisclosed number of casualties.

Unfavorable weather hampered last night's RAF operations, the air ministry said, but nevertheless the operations were described as "successful."

WIDE SHAKEUP IN SPANISH CABINET

MADRID, Oct. 17 (AP)—In a cabinet shakeup widely regarded as evidence of Spain's firm ties with the Rome-Berlin axis, Generalissimo Francisco Franco today named Ramon Cerrano Sener, recent special emissary to Germany and Italy, his foreign minister.

Political observers regarded the shift as sure to be welcomed by the German and Italian governments, for Cerrano Sener is considered one of the staunchest friends those powers have in Spain.

Guard Named For Harbor

WASHINGTON, Oct. 17 (AP)—The treasury department notified Representative Mansfield (D-Tex.) that Chief Boatwain Theodore Roberge of the coast guard had been designated captain of the sort of Galveston, to aid in the protection of shipping in that harbor.

The protection of the harbors and ships in territorial waters against damage due to sabotage or carelessness is of great concern, Mansfield was informed in a letter signed by Admiral R. R. Waesche, coast guard commandant, explain-

ing that officers had been assigned to various ports to cooperate with local authorities to insure protection.

The coast guard has sufficient personnel under increases recently authorized by congress, Admiral Waesche said, but required additional patrol boats have not been provided because present federal procurement methods greatly restrict the use to which the coast guard may put craft acquired from private owners.

Mansfield had transmitted to Admiral Waesche a letter from Mayor Brantly Harris of Galveston, in which the latter had urged a coast guard patrol there because of recent incidents in ship repair yards said to have apparently been the work of saboteurs.

The commandant's reply made

no reference to an observation by Mayor Harris that 300 coast guardsmen had recently been stationed in New Orleans, but other coast guard officials here explained that the 300 were enrolled in a training school.

ONE DEAD, ONE HURT IN AUTO ACCIDENT

WINFIELD, Kas., Oct. 17 (AP)—Ruben Virgil Diel was killed and Orville Stroud severely injured early today in an automobile accident on U.S. Highway 77, four miles north of Winfield.

Both the Potwin, Kas., men were identified by draft registration cards they carried.

It's The Thing To, Says Average Young Man Of Call To Register

John Smith, age, 37; married; eyes, blue; hair, brown. A composite John Smith of the millions of young men of America registered at the draft office yesterday.

He took a few minutes off from his job and added his name to a growing list. He was nonchalant about it as he fixed his signature and pocketed his identification card.

When he saw his friends he gave them a grin and a "I'm in the army now, just call me Colonel."

Back at work he looked curiously at his card. Hell, he practically WAS in the army! And he worried a little as he scratched his head perplexed. But he swagged a little "as he went about his job whistling.

If Uncle Sam called him, he'd be ready. Get a year's vacation from the same old job anyway.

He would scoff at the world, this John Smith. It's old fashioned and obsolete now. He didn't even feel very duty-bound as he registered. He was just an ordinary man and it was the thing to do.

But he was—gallant. And gallant he seemed to all the Mrs. John Smiths in America.

U.S.-MEXICO ISSUES TO BE DISCUSSED

MEXICO CITY, Oct. 17 (AP)—Pending issues between the United States and Mexico will be discussed today at another special session between President Cardenas and several of his advisors.

Principal subject to be discussed, it was understood, was a general settlement of indemnification claims against Mexico for American-owned farms expropriated since 1927.

Dallas Under A Strain To Keep Traffic Safety Record Intact

DALLAS, Oct. 17 (AP)—Sometimes Police Captain R. B. Smith wonders why his head does not ache all the time. The captain's job is to keep Dallas the champion deathless day city of the nation in the 250,000-300,000 population class. His troubles are manifold and on this, the town's 138th day without

a traffic death, the captain is a bit weary.

The wear and tear on people's nerves is beginning to tell. Most everybody is deathless day conscious. Policemen wear arm bands proclaiming the number of days Dallas has escaped an auto death. Things have reached the state where the first person who kills somebody with a car is apt to be mobbed.

Just yesterday a rumor reached Captain Smith that Anna Elizabeth Sewell, 7, a negro girl hit by a pie truck, had died and was buried secretly.

The captain investigated, found Anna beaming and alive.

The strain on motorists' mounting.

A car stalled in an underpass. Another motorist obligingly pushed the stalled machine. His bumper dented the rear fender of the other car and the owner pulled out a piece of lead pipe and whacked the good samaritan on the noggin.

"A bad case of nerves," said the cop.

A negro was injured in a wreck. Hospital doctors said he would die. The traffic squad, undaunted, aroused a noted brain surgeon at 3 a. m. and the doctor saved the negro's life.

That's just one of the town's narrow escapes. A woman was killed 50 feet from the city limits. A man died in a wreck a block from town.

Night before last a car hit three pedestrians, killing one. Everybody thought sure that accident happened in town. But the traffic squad measured off the spot and found it was just outside.

So the champion deathless day city in the 250,000-300,000 class goes on, happy that its per capita traffic deaths technically have beaten the per capita deathless days in Providence, R. I., which set a record of 157. Providence is smaller than Dallas, so experts figured Dallas beat Providence when the Texas town passed 135 deathless days.

Women Form League To Assess Bachelors

SACRAMENTO, Calif. (UP)—A group of Los Angeles women, calling themselves the "Tax the Bachelors League," filed articles of incorporation with the secretary of state's office, declaring their purpose to campaign for increased taxes on bachelors for the relief of "bachelor women."

The group plans to press for higher income taxes on bachelors over 36 years of age. From the taxes benefits would be paid to unmarried women of the same age group, for whom the organization offers the title "bachelorettes" in place of old maids.

GERMANS CLAIM A NEW DEFENSIVE AIR WEAPON

BERLIN, Oct. 17 (AP)—The German press claimed a new defensive air raid weapon today—a super searchlight which would blind British night raiders and make them fly directly into its rays, where they would be easy marks for anti-aircraft guns.

DNB, official German news agency, said the weapon was used successfully last night against a British bomber on the Dutch coast. The bomber, the agency said, was brought down in flames.

Mormon Church Opens New Housing Program

SALT LAKE CITY, Utah (UP)—The Church of Latter Day Saints, which since the days of Brigham Young has conducted "make work" projects for relief of its own unemployment problem, has inaugurated a new housing program.

The church housing committee has obtained title to a 10-acre plot in Salt Lake City.

Unemployed workers who have inadequate housing will be permitted to exchange labor on small residents in the area for eventual ownership.

Looking 'em Over

With Jack Douglas

A letter written to Lamesa by D. I. Arthur, manager of the Plainview high school athletics, following the game between the two schools last Friday gives a slant on what Big Spring's Steers mean to up against tomorrow night.

Arthur writes: "Our compliments to your little boys, who play such a 'whale' of a ball game for their size. They threw a terrific scare into us, and we really honor them for their grit, nerve and training. To me they seem to be the best coached team we have played this year."

Coming from a big and rugged Plainview aggregation, that is food for thought for the Big Springers. Add to this, the fact that the Steers will be invading a camp that is extraordinarily dangerous for visitors, and you get the idea that there is not likely to be any push-over up in the north country. The Lamesans sometimes fail to do much shinning when they are on the road, but we are told by Coach Murphy that they are better on wheels in their own ward.

Now we are not really figuring on going up to Lamesa to see Big Spring finish on the little end of the score, but we do expect to see a battle that keeps moving throughout the evening's performance. Every advantage that one, the location, is in favor of the Steers. If they fail to click, it will be because they have not yet developed an airtight defense against moves from overhead.

Jack Graves, new addition to the roster and wingman from last year, will see some service tomorrow night, very likely, but we doubt if he will take a large part in the festivities. Judging from his showing in practice, there can be no question of his ability to hang on to the ball when it comes sailing to him, but he is not yet fully acquainted with the plays.

Murphy intends to spring some surprises with a few new plays that he has developed. From watching in drill sessions, we are of the opinion that some of these new tactics will account for yardage. A bit of razzle-dazzle is a good thing for throwing the opposition off balance, and, incidentally, adds to the kick received by the paying customers.

Piglet Gridster Can Tell Crain About Ark.

FAYETTEVILLE, Ark., Oct. 17 (AP)—Everybody can sympathize with Leslie Ross, freshman footballer at the University of Arkansas, who wishes he never had heard of Jack Crain of Texas.

Ross has to wear Crain's big No. 99 and impersonate the Longhorn star every afternoon in scrimmages and if you think the Razorbacks aren't smearing that No. 99 Jersey with vicious intent, ask Ross.

Yearlings Are Underdogs In Colt Battle

Big Springers Slated To Try Aerial Attack In Game At Sweetwater

It is full steam against the Sweetwater Colts for Coach Carl Coleman's Yearling footballers tonight at Sweetwater. Giving evidence of having a smooth-working ground game, the Big Springers are slated to branch off a bit in the aerial department.

Flyweight Quarterback Matlock is scheduled to handle the passing and punting chores, while Doyle Stewart, Yearling fullback, carries the power drive burdens. Due to the absence of Flankman Bagley from the roster, Coleman will start Cochran in the wing position.

The Yearlings' passing attack is something of an unknown quantity, owing to the dependence on running plays in the engagements with Lamesa and San Angelo, both victors over the local aggregation.

Simmons or Massey will start at the left half post. Both boys are lightweights who have shown an ability to batter into the opposition on offensive and defensive maneuvers. Bastick will handle the right side of the secondary in the half slot.

Brown and Boykin, two stocky tackles, displayed a strong forward defense in the tilt with San Angelo, mopping up the Crimson Tide's ground advances so effectively that they were forced to fall back on a purely overhead game during most of the session.

Pivot man on the Yearling line-up is Billy Bob McDonald, veteran of two games standing. Although a little uncertain at times, the center delivers a fairly accurate series of pass-backs.

Success of Coleman's passes will depend to a large extent on Wingman Dearing, who has been showing some progress in snagging balls. Smith and Coffey fill out the forward wall in the guard berths, in a line whose weight compares favorably to that presented by Sweetwater.

On the books, Sweetwater is due to hand the visitors a pasting. Coleman announces he is not overly sure that his boys will be able to turn the tables on the Colt crew but is expecting to put a team on the field that will give the opposition a run for its money, regardless of score.

Wolves Engage Roscoe Friday

COLORADO CITY, Oct. 17 (AP)—Another hurdle toward the District 6A championship looms for the Colorado City Wolves in their game with Roscoe on the Roscoe field Friday night.

Roscoe, defending champion of the district, tied Merkel 6-6 in its first conference game and lost to Roman 7-0 last week. The Wolves defeated Merkel last week 13-0, and have also defeated Loraine and Roby by wide margins.

Courtney Plays W'brook Sextet

COLORADO CITY, Oct. 17—Two of the stronger teams in six-team football district No. 12, the Westbrook Wildcats and the Courtney Eagles, will play on Cantrell field Friday night at 8 o'clock.

Courtney has lost one game, and Westbrook has been tied by Fort-

Kerrville's Antlers, who in 1938 gave the mighty Sandies of Amarillo a battle in the Texas school-boy football finals, meet a major test in their drive along the comeback trail tomorrow night.

Undeclared and untitled Kerrville plays Brackenridge of San Antonio, another team with an unblemished record, in the week's feature game.

It is the only tilt matching unbeaten teams and will have a vital bearing on the District 15 race. The winner will be picked as the team to battle Austin for the championship.

The week's schedule by districts:
1—Friday: Yaleta at Plainview, Norman, Okla., at Amarillo, El Paso High at Pampa, Borger at Hobbs, N. M.

2—Friday: Quannah at Electric (conference), Childers at Graham (conference), Wichita Falls at Vernon (conference), Burkburnett at Olney (conference).

3—Friday: Big Spring at Lamesa (conference), Cisco at San Angelo, Abilene at Odessa (conference), Breckenridge at Midland.

4—Friday: Austin (El Paso) vs. Bowie (El Paso) (conference), 5—Friday: Bonham at Sherman (conference), Gainesville at Paris (conference).

6—Friday: Greenville at Denton (conference), Arlington at Sulphur Springs (conference), Methodist Home (Waco) at McKinney.

7—Thursday: North Side (Fort Worth) vs. Arlington Heights (Fort Worth) (conference), 8—Friday: Masonic Home (Fort Worth) vs. Riverside (Fort Worth) (conference), Saturday: Poly (Fort Worth) vs. Fort Worth Tech (conference).

8—Friday: Dallas Tech vs. Sunset (Dallas) (conference), Saturday: Forest (Dallas) vs. North Dallas (conference).

9—Friday: Dublin at Stephenville, Brownwood at Ranger (conference), Strawn at Mineral Wells.

10—Friday: Waco at Hillsboro (conference), St. Joseph's (Dallas) at Waxahachie, Emis at Cleburne, Athens at Corsicana.

11—Friday: Texarkana at Longview (conference), Marshall at Kilgore (conference), Tyler at Glade-water (conference).

12—Friday: Mexia at Henderson (conference), Livingston at Nacogdoches, Lufkin at Palestine (conference), Jasper at Jacksonville.

13—Thursday: Austin (Houston) vs. St. Thomas (Houston), Sam Houston (Houston) vs. John Reagan (Houston) (conference), Friday: Lamar (Houston) vs. San Jacinto (Houston) (conference), Saturday: Milby (Houston) vs. Jeff Davis (Houston) (conference).

14—Friday: Beaumont at Conroe (conference), St. Anthony's (Beaumont) vs. South Park (Beaumont), Fort Arthur at Coock Creek (conference), Galveston at Orange (conference).

15—Friday: San Antonio Tech vs. Harlandale (San Antonio) (conference), Lanier (San Antonio) at Laredo, Jefferson (San Antonio) at Austin (conference), Brackenridge (San Antonio) at Kerrville (conference).

16—North Zone, Thursday: Corpus Christi College-Academy at Robstown; Friday: Kingsville at Corpus Christi (conference), Beeville at Victoria, South Zone, Friday: Edinburg at Harlingen (conference), Mercedes at Brownsville, San Benito at Weslaco.

SMU-Auburn Duel Matches Punt Kings

DALLAS, Oct. 17 (AP)—Two of college football's finest punters duel Saturday at Dallas in the Auburn-Southern Methodist game, and if the day is breezy, the result should be almost stupendous.

Flaxen-haired Preston Johnston, the Methodist kicker who left Pittsburgh last Saturday with the natives still pacing off that 92-yard boot against Pitt, meets up with Rufus Deal, the Auburn fullback who rocked the old south last season with an 87-yard kick against Georgia Tech.

Deal's kick really went something like 115 yards. He booted when the ball was in play on his own 13 yard stripe and it tumbled over the far end zone and into the stands. Only a week ago, against Mississippi State, he spiraled a couple of 62-yarders.

But Deal is just one of several kickers on the Auburn team that last season rated as the nation's first punting team.

Wiry Dick McGowen, the publicized boy of the backfield who is all-Southeastern conference half-back, wound up the country's fifth best kicker last season with a 43.3 yard average on 93 kicks.

This Auburn team, the one that traveled some 12,000 miles in 1936 and visited three foreign countries—Mexico, Canada and Cuba—while playing out the schedule, makes Notre Dame look like home bodies. This season's schedule, of which there are few tougher, will take them a mere 7,000 miles.

Only two home games have been played since 1936. Coach Jack Meagher, formerly of Rice Institute, honestly believes traveling is good for his lads. Sort of keeps them from getting too bruised in week-long scrimmages seasons, or something.

Uncle Sam, Atheletes Draw Up Contracts

NEW YORK, Oct. 17 (AP)—Uncle Sam signed the greatest "team" of athletes to contracts yesterday in the history of sports—but he doesn't know yet who'll make the starting lineup.

All the way from unsung blocking backs on freshwater colleges to the highest paid stars of the professional firmament, the world of sports answered the selective service draft with enough athletes to make glad the heart of the most pessimistic coach.

New York, of course, gave more athletes to the team that may have to fight the biggest battle of 'em all than any other city. Probably some 10,000 players stood on the sidewalks of New York yesterday in front of little red schoolhouses making sour puns about "I feel a draft, don't you?"

Bobby Feller and "Oom Paul" Derringer, baseball's prize pitchers headed the baseball parade to the polls but the names of Harry Danning of the Giants, Manager Joe Cronin of the Boston Red Sox and Hank Greenberg, reputedly the big leagues best-salaried player, also were put on the white cards.

Mel Hein of the New York pro grid Giants took his whole team to the place of registration and the pros and collegians who on Saturdays and Sundays are big shots—but who were just guys in a line yesterday—followed suit. Whizzer White, Tuffy Loessmans, Tommy Harmon, Coach George Munger of Penn and a host of others answered the call.

Golf top-flighters, National Champion Lawson Little and P.G.A. kingpin Byron Nelson registered, as did the prize ring's champion Joe Louis, Madcap Maxie Baer and Light-Heavyweight King Billy Conn, who quipped "I'd just as soon fight for Uncle Sam as Uncle Mike (Jacob)."

Hockey's famed "kitchener line" of Mill Schmidt, Bob Bauer and Woody Dumart, were among the ice sports earliest enrollees.

The jockeys at Jamaica, including Don Meade, Jimmy Gilbert and others signed up right at the track, where a special booth was erected. Although most of the athletes were considered highly eligible to be "invited" by Uncle Sam to spend a year as his guest, the professional baseball men seemed less concerned than any others, for most of the major league stars are married, and therefore would probably not be allowed first called for duty.

Terrest statement on the whole situation came from non-garrulous Joe Louis, something of an amateur horseman. Asked if he'd like to join the cavalry he sounded the clarion note for the whole world of sports when he replied: "I ain't choosy."

BIG SIX TO CONFER ON FOOTBALL BOWL GAMES

KANSAS CITY, Oct. 17 (AP)—It was to be a surprise, but Big Six faculty representatives will gather in Kansas City Oct. 24 and 25 to decide, once and for all, the conference attitude on football bowl games.

The action follows the recent approval of the University of Kansas to represent the annual Jan. 1 clash of the Big Six and Southwest conference football champions, and the taking over of the Cotton Bowl by the Southwest schools.

Big Six faculty representatives met to define the conference attitude last December and carried the discussion over until the spring meeting in Lincoln, Neb., without reaching a decision either time.

At the Nebraska gathering they heard emissaries from both the Cotton Bowl and from the Southwest conference, who suggested a game along the lines of the proposed Big Ten-Pacific Coast hook-up for the Rose Bowl.

One of the reservations tied to the Kansas approval was that the Cotton Bowl, capable of seating 52,000, be controlled by the two conferences. This was met in part last week when the Southwest schools acquired the game site and rights.

Bruins' Wilson Out Of Hospital

DENVER, Oct. 17 (AP)—Jack Wilson, Baylor university halfback who suffered a kidney rupture in Baylor's football game with Denver university here Oct. 4, was released from Presbyterian hospital last night and departed for his home at Paris, Tex.

Wilson's doctor said the Baylor back was "much improved" but declared Wilson could not play football again this season.

Tex. Colleges All On Card Except H-SU

By The Associated Press

All but one of the Texas colleges have football games this week but it happens that the lone exception is Martin-Simmons, the only school boasting an undefeated, untied record for the season.

The week's schedule: Thursday: Sam Houston State vs. Southwestern, La., college at Beaumont (night).

Friday: Texas Tech vs. Brigham Young at Lubbock (night), Austin college vs. Oklahoma City university at Oklahoma City (night), North Texas State vs. Stephen F. Austin at Denton (night), Abilene Christian college vs. Southwestern at Georgetown (night), St. Mary's vs. St. Anselm at Manchester, N. H., (night).

Saturday: Daniel Baker vs. Trinity at Waxahachie (night), Howard Payne vs. McMurry at Abilene (day), Texas Wesleyan vs. Oklahoma Baptist university at Fort Worth (day), East Texas State vs. Murray, Ky., State Teachers at Commerce (night), Texas Mines vs. New Mexico university at El Paso (day), Arizona State vs. West Texas State at Canyon (day), Southwest Texas State vs. Texas A. and I. at Kingsville (night).

Big Springers Pack Weight Advantage

In preparation for their game with the Big Spring footballers Friday night at Lamesa, the Golden Tornadoes are piling on the pressure to make up for the poundage they will be forced to give to the visitors. A more wide-open type of grid warfare has been developed with the intention of running the heavier, although not quite as speedy, Steers out of the ball park.

Steer Mentor Pat Murphy, getting primed for one of the toughest engagements on the Big Spring card, has been spending the week giving his crew sound workouts in overhead tactics. Heretofore, the Longhorns have placed a deal of confidence on their power, and have failed to put over a touch-down drive in the clutch. In the Odessa conflict, the local squad was placed in line to move up into scoring position on several occasions, but, being unable to make lengthy gains through the air, was forced to advance with the pile-driving strategy.

The Tornadoes will have nothing to lose, as they have already been doped to drop the tilt, therefore, they are likely to be inclined to shoot the works tomorrow night. That was not the case with Odessa, because the Bronchos were really slated to pile up a score against the Murphysmen. Unless the Bovines show an ability to hold against a fast-moving offense, they have a chance of not making the showing statistics indicate.

There is a report from the Lamesa camp that passing and receiving is on the bright side and blocking is looking up since the Odessa defuge. Ball carriers have been shifted to positions that gives an appearance of increasing strength. Linesmen who have been under the weather are back in harness.

Despite the gloominess of Lamesa coaches, fans and players are full of confidence in their ability to take the favored Steers to a cleaning. A defeat Friday night will put the Lamesans completely out of the picture as far as District 3-AA race is concerned. Added to this cause for making a determined stand against the invaders, a hot desire to obtain revenge for the walloping received last year from the same foe is uppermost in the Tornadoes' minds.

Practice session showing to the contrary, the Big Springers will be able to throw a rugged and fairly efficient machine on the field tomorrow night. There has been a minimum of attention paid to their ground work during the week and the air has been the main subject of study by the Bovines. Not yet masters of the art, the Murphysmen have shown they can register completions on a fair percentage of hurls. They will probably get a fire test of what they have learned Friday night, provided the Lamesans do not cover the territory so efficiently that every move through the ozone will be grounded.

Cornell Listed Tops In Roll

SEATTLE, Oct. 17 (AP)—Statistics today bore out the sports writers' choice of Cornell as the nation's number one football team in this week's Associated Press grid poll.

The Ithacans moved up from second to first place as the country's leading eleven in total offense—gains rushing and passing—figures released by the American Football Statistical Bureau disclosed.

Also, Cornell retained its lead by a wide margin as collegians' top passing team.

In thumping Colgate, 34-0, and Army 45-0, Cornell in 126 plays, gained 357 yards rushing and 507 in the air for a total of 864 yards, or an average of 432 yards per game—the figure by which the bureau ranks the teams.

The Cornell average for yards per game through the air was a phenomenal 233.5, or 61.5 yards ahead of second place Illinois.

Mississippi and Detroit, on statistics available for three games each, tied for second place in total offense with marks of 331.7. Lafayette in three games averaged 399 and Drake, after losing to Kansas last week, dropped from first to fifth with 371.7. Tennessee, Pennsylvania, Navy, Creighton and Georgia round out the first ten, with figures on Georgia's 28-14 loss to Mississippi last week still unavailable.

Detroit, which had a 47-0 field day against Michigan Normal, zoomed from 15th to third place with 312.7.

Business Gains Are Reported By McCrory Chiefs

Reports of vastly improved business conditions throughout the country were brought to Big Spring by two top executives of the McCrory Stores organization, who made their first visit to the Big Spring unit of the company Wednesday night and Thursday morning.

Accompanying R. F. Coppedge, president, and Mr. Jameson, chairman of the board, on their tour of the Texas district is N. P. McCrory, district manager for the concerns with headquarters in Fort Worth. "We have found that the spread of industrial activity is reaching into the Middle West, and many parts of the south and south-west, particularly the coastal areas, are enjoying a greater volume of business than was noted this time last year," Mr. Coppedge said. "Of course a lot of this is directly tied up with defense preparations, but all indications point toward rapid upswing in business not entirely concerned with the rearmament program."

Expressing satisfaction with the progress shown by the Big Spring store, Mr. Coppedge said his company believed that industrial decentralization that is rapidly taking place would materially benefit this section of the state, because of the many natural advantages. "The Big Spring area, particularly, has every reason to look forward to a period of unprecedented growth in the immediate future," Mr. Coppedge said.

NEW AIR CORPS UNIT AT BATON ROUGE

NEW ORLEANS, Oct. 17 (AP)—The number of air corps officers and men to train for national defense in southeast Louisiana was raised today to nearly 4,000 by the war department's announcement that a new army air corps station would be placed near Baton Rouge.

Plans are already being made for locating a similar base on the shores of Lake Pontchartrain near the New Orleans airport where Brigadier General Walter H. Frank of the United States army air corps will have general headquarters.

continuously until all names had been drawn. Miss Chumley and Miss June Krupp, business school student who volunteered her services, were typing names and numbers furiously in order to expedite completion of the list.

Serial numbers and names will be posted on a bulletin board outside the board headquarters and will be published. As soon as the list is complete and posted, the board, said Frazier, is to wire Governor W. Lee O'Daniel the number registering and notify him that the first phase of their task is finished.

Hurja, executive director of the democratic national committee from 1932 to 1936, now is publisher of Pathfinder Magazine. His prediction before a republican meeting, he said, was based on an "idealized cross section poll" taken over the nation within the last ten days.

He said President Roosevelt began to slip as early as 1936 and a close study of that election showed that despite 11,000,000 plurality, he lost strength in 58 per cent of the counties of the United States and 70 per cent of the middle western counties.

Members of the board expressed thanks for the fine spirit of registration manifested in expediting their work. The First National bank provided office space and furnished it on the same day a request for space was made. Likewise, the telephone company installed a telephone—No. 735—the same day it was requisitioned.

Occupants of the building loaned typewriters and other furnishings and equipment, and city and county commissioners responded quickly to an appeal to guarantee rental of the office space in event there are no federal funds for same.

"Everyone asked to do anything has complied quickly, demonstrating the fine, patriotic spirit of America toward the draft," observed Frazier.

Likewise, Lee Porter, county clerk, issued thanks to all who had a part in doing an unbelievably fast job in registering men Wednesday. There must have been upwards of 200 over the country who helped.

"I take this method to thank the numerous volunteers who so faithfully and efficiently helped with the registration Oct. 16, making it a success in Howard county," said Porter.

All cards were in the hands of the draft board early Thursday morning, the Vincent box being the last to report. Typical of the rural boxes, it contained the names of 32 Mexican cotton pickers.

It was estimated that possibly 400 of the county total was for persons residing outside the county as the state. All day traveling men stopped to register and frequently men crawled off buses to sign up. Five men from Chicago used the stopping time of an interstate bus to register.

While the stack of out-of-county cards will be dispatched quickly to their right places, several Howard county cards were expected in from other places in the state and nation.

Higher Standard For America Is Willkie's Aim

ABOARD WILLKIE TRAIN ENROUTE TO ST. LOUIS, Oct. 17 (AP)—Wendell L. Willkie, bareheaded in the bright sunshine of his native Indiana, said today he wanted to bring about an American standard of living that would make "our present one seem subnormal."

Contending that the new deal believes "America is through," Willkie told a crowd in the Evansville Ind. ball park that his election would mean an "alive, a developing, a hopeful" nation.

The republican presidential nominee repeated his view that "more jobs" was a key campaign issue and added:

"Release us, release us, so that the people can build a new life in this country. If we go down to stagnation in defeatism, we will not produce and will become weak."

To Order Supplies For Liquor Vote

Supplies for a liquor referendum are to be ordered soon, said County Judge Charles Sullivan here Thursday.

Placing of an order will precede actual calling of the election since the vote must be held not less than 10 nor more than 20 days after the date of calling. By having supplies on hand, absentee voting can be carried out.

Judge Sullivan indicated that action on petitions bearing signatures of 1,015 persons and requesting a referendum on all liquors on Nov. 5, date of the general election, would be taken within a few days.

Says Willkie The Winner

CHICAGO, Oct. 17 (AP)—Emil Hurja, who as a democratic analyst forecast the election of President Roosevelt in 1932, and his re-election in 1936 predicted yesterday the election of Wendell L. Willkie by a plurality of from 1,500,000 to 3,000,000 votes.

"So great is the defection among 1936 Roosevelt voters in urban areas," Hurja said, "that if it continues, the present campaign may take on the proportions of a landslide."

Hurja, executive director of the democratic national committee from 1932 to 1936, now is publisher of Pathfinder Magazine. His prediction before a republican meeting, he said, was based on an "idealized cross section poll" taken over the nation within the last ten days.

with state governors the appointment of appeal boards.

"There are sure to be appeals," he said, "as soon as the lottery is held and actual selection of men begins."

The approximately 5,000,000 civilian soldiers to be drawn from yesterday's registrants will, according to present plans, be spread over a five-year period, with the first call to go out in mid-November.

As the counting and sorting of yesterday's registration cards began, preliminary reports from across the country said with frequency: "Registration exceeded advance estimates."

As soon as registration ended at 9 p. m. last night, registration cards began to move from the registration places to county clerks for re-distribution to 6,500 local draft boards which began functioning officially today. Most boards should have the cards of the men in their areas before tonight.

The boards first will shuffle the cards and give them serial numbers which will be drawn in a national lottery in Washington to determine the order in which men will be subject to call for service within a few days, the boards will begin publishing the serial numbers and, when they have finished, the lottery will be held, sometime between October 26 and November 2.

MAY SPEED TOPPING ON COUNTY ROAD

Possibility that approximately four miles of road from Coahoma toward Vincent will be paved soon was seen Thursday by Thurston Overbaum, county road engineer.

Caliche base on that much of the seven-mile job is already down, he said, and added that it was probable that it would be topped soon instead of waiting for the remainder of the base on the project to be installed.

Similar rapid progress was being made on the Moss Creek lake road. To date approximately two miles of base material have been installed on the route which is destined to be one of the most used lateral roads in the county.

GOVERNMENT NOT TO LEAVE LONDON

LONDON, Oct. 17 (AP)—The British government has no intention of leaving London despite recent heavy bombings, it was made known in parliamentary circles today.

The correspondent in the house of commons lobby for Reuters, authoritative British news agency, wrote tonight that "there is no question of the government leaving London."

The correspondent gave no reason for reiteration of what has been understood to be the established government policy since the start of the war.

TURKISH VEHICLES SUBJECT TO SEIZURE

ISTANBUL, Oct. 17 (AP)—The Turkish government, preparing its defenses, published a decree today making all vehicles subject to requisitioning whenever the ministry of roads and communications demands it.

How AP scored brilliantly on the Lindbergh kidnaping and tripped up on the conviction of Hauptmann. ("The AP had made a mistake—and that was news.")

How Eddie Neil died a war correspondent's death in Spain.

Organized news gathering was begun in 1811, Gramling recounts, by Samuel Topf, Jr., who kept the "news book" at a Boston coffee house. Later, newspapers in thriving New York sent rowboats to haul incoming ships for news.

Young David Hale of the Journal of Commerce, bucking an old guard of established papers, stepped up competition by using a sailboat. From there the way led to bigger boats, to carrier pigeon relays and to pony express. By Mexican war times the burden was so heavy that Hale proposed pooling resources to stop the ruinous costs.

So New York's big six papers formed a cooperative called The Associated Press. The six arranged to get news from boats at Halifax, rush it to Boston and put it on the new-fangled telegraph wires to New York. They hired \$1. Alexander Jones as first general agent at \$20 a week and gave him an assistant.

The modern AP has 1,400 member newspapers and spends \$11,000,000 a year on news and news picture.

The association sold news to outside newspapers but it had no intention of letting them in on the good thing of actual membership.

This original organization carried on through the Civil war with expanding facilities, doing accurate and objective reporting in a day of flowery newspaper language and uncertain facts.

But in the growing cities of the west, newspaper subscribers to AP news wanted to have something to say about the organiza-

tion. After a flare-up in 1886, the old AP kept the westerners in line by sending Alexander Wilson to London as the first American correspondent abroad and so improving its news report that the dissidents came back into the fold.

But in 1889 the westerners smelled corruption and, led by Victor Lawson, father of the modern AP, disclosed that as a result of a conspiracy AP news was being fished systematically by the United Press (no connection with the modern UP). That spelled the doom of the old AP. Its offspring, the Western Associated Press, reorganized along broad cooperative lines as The Associated Press of Illinois (later of New York), and Melville Stone became its general manager.

Since then the story has been one of development. Under Stone the AP got European news contracts, saw the old United Press topple from its commanding position and go out of the picture, broke down European censorship, spent \$2,685,125 covering the World war. Under Kent Cooper it humanized its reports with interesting as well as important news provided "pony" circuits for small papers, developed regional news, started feature and photo services and introduced the revolutionary wirephoto system.

Gramling, the author, started a collection of source material back in 1930 and the actual writing of the book occupied about two years. William A. Kinney, now of the AP Washington staff, assisted in the work. Henry C. Barrow of the AP Feature Service illustrated the book.

Gramling's stories of the news and the men who gathered it are the kind that newspapermen will always find engrossing. Such as—

How an early agent used to "file" the Bible to hold the Halifax wire against all comers for important ship news.

How "string" correspondent Mark Kellogg wrote, "I go with Custer and will be at the death"—and was.

How the AP spent \$25,000 chartering a yacht and hiring Marconi to help report a yacht race by wireless, even before the navy had radio.

How Cortes cabled "number missing bond 404" to get past the censors the fact that Pope Leo XIII died at 4:04 p. m. one fine day in 1902.

How the new AP system of reporting elections was justified brilliantly in 1916 by naming Wilson president after friends had conceded to Hughes.

How Pancho Villa held off a revolutionary attack until after the World Series, on the advice of an

AP man, so he might get a break in U. S. papers.

How Paul Cowles cabled "drawing \$80,000," and did so, to buy a yacht for Russo-Japanese war coverage.

How AP stood pat for hours in face of the "armistice" reports that later proved false.

How AP scored brilliantly on the Lindbergh kidnaping and tripped up on the conviction of Hauptmann. ("The AP had made a mistake—and that was news.")

How Eddie Neil died a war correspondent's death in Spain.

MARKETS Wall Street

NEW YORK, Oct. 17 (AP)—Stock traders centered their interest on the steady steel group today, permitting most of the market to follow an irregular course.

Operations were mainly of a tentative, testing nature, held to a minimum by the uncertainties of war developments. About 600,000 shares were exchanged.

The closest approach to a trading barometer and it was not widely accepted—was gentle, recurrent lifting movement among the steels, followed, to some extent, by aircrafts.

MARKETS AT A GLANCE

NEW YORK, Oct. 17 (AP)—STOCKS—Irregular; interest centers on steels.

BONDS—Mixed; foreign issues in wide move.

WORKERS MUST GIVE PLEDGE OF ALLEGIANCE

HARRISBURG, Pa., Oct. 17 (AP)—Under penalty of dismissal, the 20,000 state workers under Governor Arthur H. James' jurisdiction must pledge allegiance to the state and nation and shun any organization that seeks to undermine the government.

James announced his order yesterday and said Attorney General Claude T. Reno advised him he was within his rights.

PROMINENT DEATHS

By The Associated Press

Prominent persons who died Wednesday night included: Newark, N. J.—George S. Bliser, 70, democratic governor of New Jersey from 1923 to 1926.

Wilkes-Barre, Pa.—Fred Morgan Kirby, 79, one of the founders of the Woolworth store chain.

New York—W. Vaughan Spencer, 61, secretary-treasurer of the Association of American Agriculturists, Editor, and publisher of the Kentucky Farmers Home Journal.

as well as medical examiners were announced yesterday.

State headquarters continued work on its list of draft board members, numerous changes being necessary for various reasons.

Some, for example, had been appointed before the selective service act was finally passed and on the assumption the age limits for registration would be 21 to 31.

A nine-member supreme court heard Charles Black assert constitutional amendments of 1926 and 1932 removed any doubt that a state officer, summoned to a year's military service in the national guard, retains his state office.

Black was one of several attorneys for Orville S. Carpenter, chairman-director of the unemployment compensation commission and guard major now in active service, who is seeking to compel the comptroller to issue him a pay warrant.

Assistant Attorney General Richard Fairchild countered Black's argument with a contention the constitutional amendments did not apply to Carpenter because when he was called to military duty under the national defense act he lost his national guard status.

He maintained that guardsmen, under national defense legislation, are "drafted" into the federal service just as conscripts will be and they do not regain status until completion of one year's training as part of the nation's army.

CLEAR UP WRECKAGE

LONDON, Oct. 17 (AP)—The news Chronicle led a campaign today for speeding up the work of clearing away bomb wreckage from London's streets as the result of complaints from business men that clogged streets are interfering with trade.

Mildred Allen of San Angelo entered the Cowper Clinic Wednesday afternoon for medical attention.

Tired Kidneys Often Bring Sleepless Nights

Doctors say your kidneys contain 15 million of tiny tubes or filters which help to purify the blood and keep you healthy. When they get tired and don't work right in the daytime, many people have to get up at night. Frequent or scanty passages with smarting and burning sometimes show there is something wrong with your kidney or bladder. Don't neglect this condition and lose valuable vitality.

When disorder of kidney function permits a poisonous matter to remain in your blood, it may also cause nagging headache, rheumatic pains, leg pains, loss of pep and energy, swelling, puffiness under the eyes, headache and dizziness.

Don't wait! Ask your druggist for Doan's Pills, used successfully by millions over 40 years. They give heavy relief and will help the 15 miles of kidney tubes flush out poisonous wastes from your blood. Get Doan's Pills.

A Fireman Does More Than Just Fight Fires

THERE'S MORE to a fireman's job than fighting fires. There are endless hours of practice, too, so that fighting the next blaze may be just a little more successful than the last one.

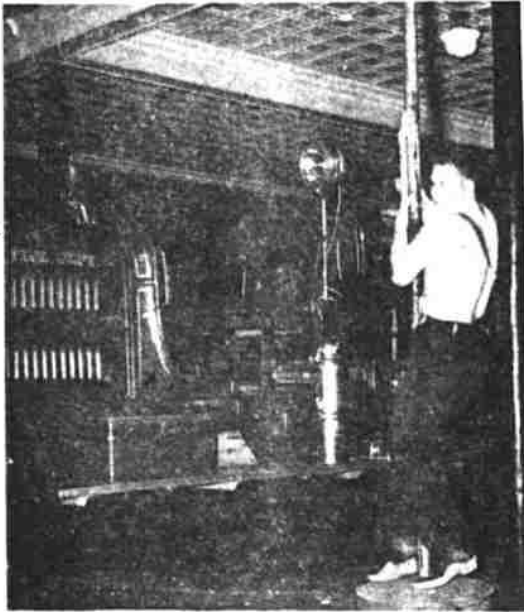

At night firemen go to school to study the theory of fires, to learn first aid, and to discuss the mistakes they made on their last alarm. Many mornings are spent in practice, as firemen raise ladders against time, haul fire hose up drill towers, and practice methods of rescuing persons from burning buildings. A fireman does more than play dominoes. He constantly flirts with danger.

These pictures, showing members of the San Angelo Fire Department in action, are true of all departments in cities about the same size. All firemen must be well trained for their job. A man without experience might himself be hurt or be responsible for injuring one of his fellow fire fighters.

THERE SHE SQUIRTS—It's no easy job to hold down a high-pressure fire hose. Bracing themselves against the squirming hose are, left to right, Joe Walters, J. W. Booth, and Lee Williams. Assistant Chief Tom Biggs looks on. Firemen are not wrestling with the hose merely to water the lawn. Testing pumper trucks and hose equipment is an important part of their job.

RUDE AWAKENING—There's no time for another "40 winks" when the fire bell rings at night. It's up to the firemen to get started in a hurry. Shown "bunking out" are Leon Hunter, Everett Gregg, and Ed Taylor.

THAT POLE'S cold on a chilly night, especially when the firemen have no shirt. Here Everett Gregg drops from his warm bed to the ground floor.

DRESSING UNDER DIFFICULTIES—Leon Hunter demonstrates how easy it is to put on a coat while the fire truck is moving—if you don't fall off.

MAN FROM MARS—No, only Joe Walters all dressed up in a smoke mask at the Holcombe-Blanton fire. **LEFT**—Fire Chief Ed White demonstrates the correct way to carry a smoke victim from a burning building.

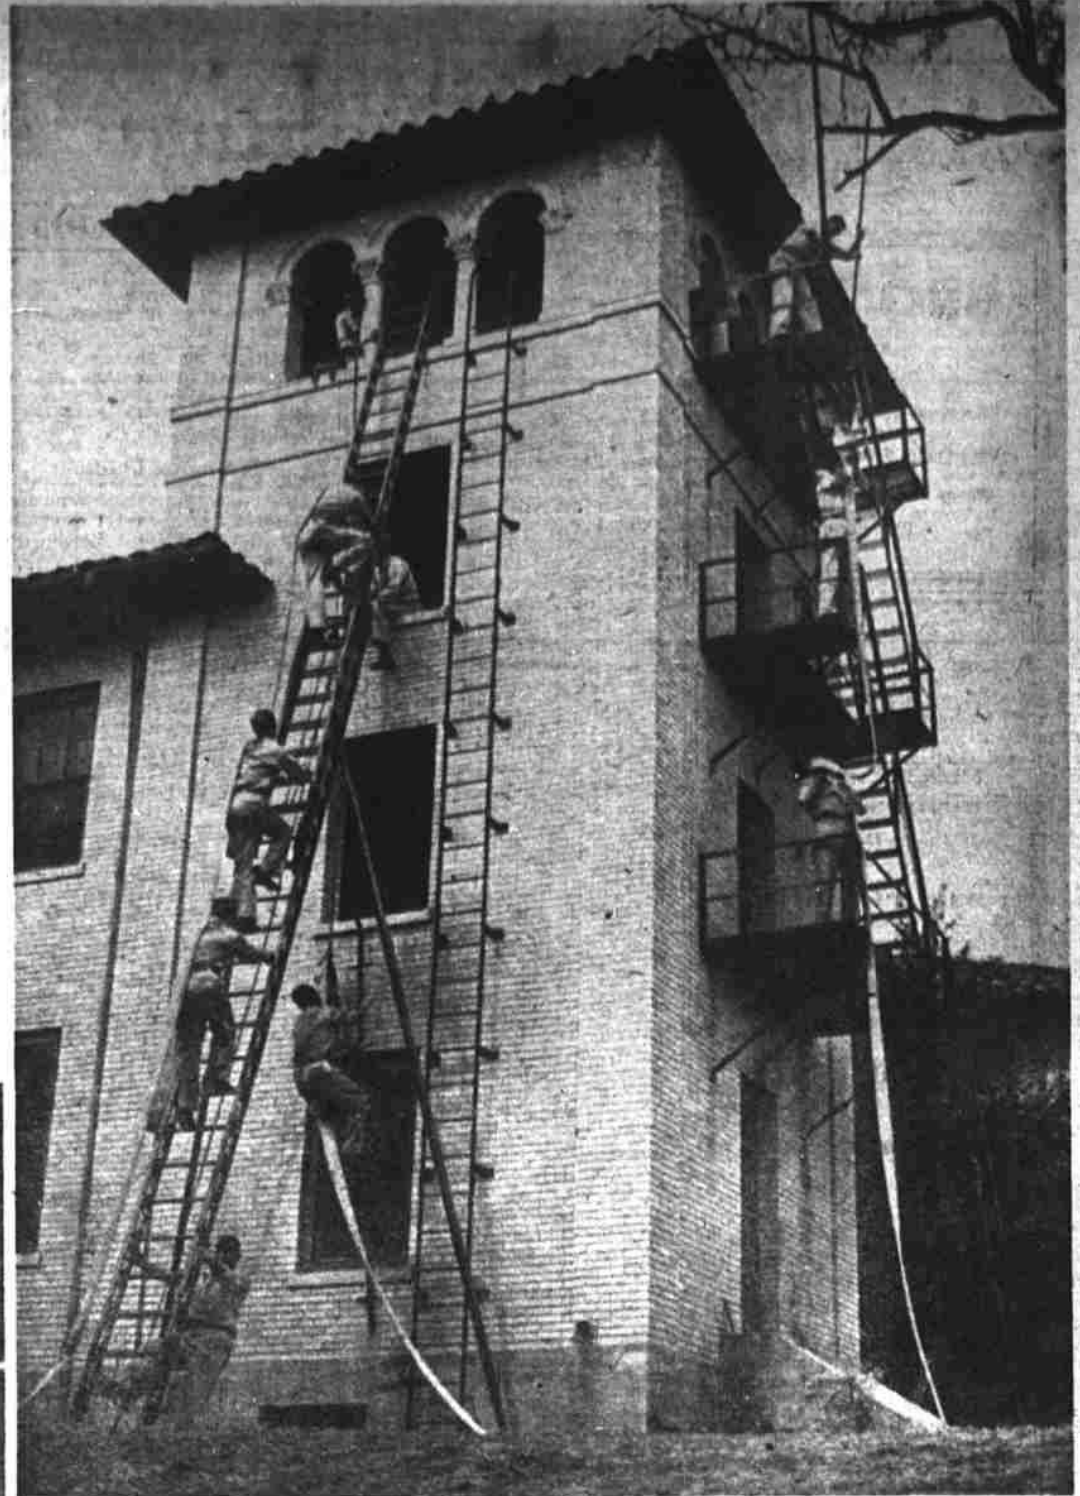

WATER COMES OUT HERE—This pumper truck can pour 600 gallons of water a minute on a blaze. It is hooked up by Lee Williams, Everett Gregg, and K. K. Kennedy. **BELOW**—Raising a 45-foot ladder is hard work but these firemen know how from long hours of practice.

PRACTICE MAKES PERFECT—Firemen ordinarily don't have to rescue anyone from a burning building but they know how to do it if the occasion arises. Marcus Morris practices a rescue with Leon Hunter.

WHERE A KNOT HAS TO HOLD—Knots are an important part of a fireman's training and this picture shows why. If the knot would slip, J. W. Booth might fall to his death.

NOT MONKEYS, just San Angelo firemen during one of their regular practice sessions on the drill tower at the Central Fire Station. Ten men are shown in action, taking hose up the tower by three different methods. The 45-foot ladder is in use, another hose is being hoisted up the fire escape, and the third is being pulled up by a rope dropped from the top.

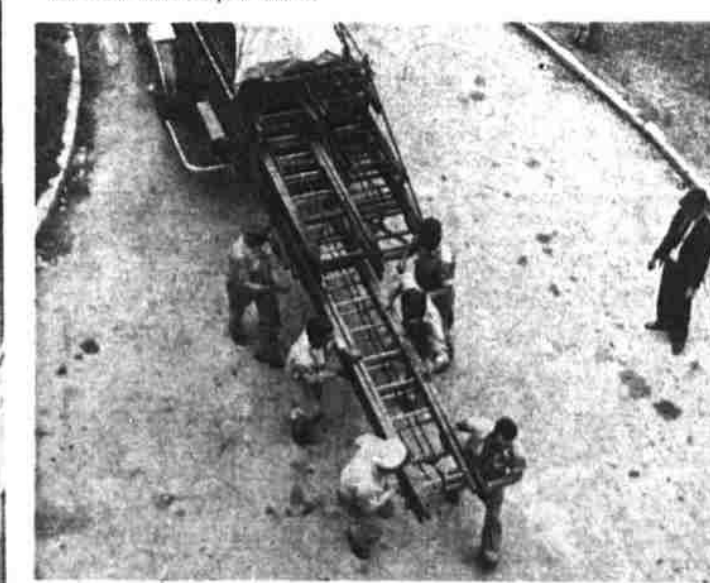

HE GIVES ALARM—Louis Underwood, night operator, stays awake while the rest of the firemen sleep. He is one of three operators.

PLAYING with matches.

NEGLECTING a hot iron.

THE CAPTAIN AND HIS CREW prepare to hoist a 45-foot ladder. Capt. W. T. Gregg leads, assisted by Leon Hunter, Lee Ash, K. K. Kennedy, Lee Williams, and Ed Taylor. Chief White looks for mistakes.

BEING CARELESS with cigarettes.

THE FIREMAN'S LIFT—Notice how Robert Henderson's back is kept perfectly straight as Leon Hunter, Everett Gregg, and Tom Biggs lift him.

CLEANING CLOTHES with inflammables.

Romance Lasts 7 Years, Marriage Just 6 Months
LONDON (UP)—A man who knew his wife for 17 years before he married her, was engaged to her for seven years, but had only six months of married life, has been granted a decree nisi in London on the grounds of desertion. Granting the decree to the man, Thomas William Clark, Justice Bucknell said that the only explanation Mrs. Clark gave for leaving her husband was that he paid too much attention to his mother, who lived in the same house, but had a separate flat. Mrs. Clark contested the petition.

More Funds Alloted For Power Survey

WASHINGTON, Oct. 17. (AP)—President Roosevelt informed congress today that he had allocated \$1,000,000 for preliminary surveys looking to development of additional power for defense at the International Rapids of the St. Lawrence river.

The money came from a \$290,000,000 defense fund which congress placed at the president's discretion and it was assigned to the federal power commission and the army engineers corps for core borings, test pits, soil analysis, and other preliminary work to be undertaken immediately.

"The preliminary investigations which I have authorized involve no actual construction or commitments to construct," the president said.

Development of additional power on the St. Lawrence was a high point of controversy five or six years ago when the senate rejected a treaty with Canada on the subject that would have provided for making the St. Lawrence an ocean-navigable stream from the Atlantic to the Great Lakes and for producing additional hydro-electric power to be equally divided between the United States and Canada.

Emphasis has been placed recently on the power phase of the project alone, Mr. Roosevelt declaring that more power was needed in both countries for defense purposes.

Nazis' U. S.-Born Lord Haw Haw Cheerfully Confesses Treason

BERLIN—I have met Lord Haw Haw.

He is that almost fabulous Englishman—born in the United States—who by his own assertion perpetrates "high treason" daily against England by broadcasting from German stations with intent to disturb British self-assurance.

He is blond, ruddy-faced, short William Joyce, former British fascist Mosleyite who was a prime mover for national-socialism in England until August, 1939. Then, as it became evident war was about to break out, he and his wife hastily packed a few bags and dashed away to Germany. They had become "sold" on nazism and on Hitler as its world exponent.

Now several times of an evening Lord Haw Haw reports the war in 15-minute broadcasts, always directed at English listeners. He ribs British patriotism, sarcastically ridicules British claims of victories. He urges the inevitability of a Nazi victory with a half cajoling, half ironic voice as British as Trafalgar square.

His "title" is British

Quickly his programs attracted a tremendous audience in England. English papers and magazines carried stories about him. Who was he? If he were German, how could he have acquired that unburied English accent? The British dubbed him Lord Haw Haw.

Even in Germany few people know him. He broadcasts only on short wave bands. Germans rarely have short wave receivers, and are forbidden to listen to foreign broadcasts. Foreign correspondents, allowed to tune in on foreign broadcasts, listen to him regularly, but few ever have seen him.

We met quite by accident, of all hours, 3:30 a. m. in the half darkened hallway of the German propaganda ministry. The foreign press had been invited to tour the city to see the effects of a British bomb raid. Joyce was going along too.

"That's Lord Haw Haw," whispered out of the party to me. In no time we were talking. He is decidedly short, perhaps five feet four inches, and tightly knit physically.

His voice was unmistakable. On the air he uses no name whatever. In Germany he has adopted his German name of Froelich.

He grinned when I suggested he was far better known in England than in Germany.

Tuey Like His Drollery

"I suppose so," he said, then added with that touch of drollery that seems to have tickled the English.

"Not so many listen now. The German bombers are keeping them in the cellar all the time."

He was casual and friendly. From time to time he strolled over to my side to help me understand the flood of German that periodically drowned my limited vocabulary.

A day or so later he sent me a book in English he has just published in Germany. Called "Twilight Over England," it tells his

Lord Haw Haw, once William Joyce of New York.

views of why England has come and instilled in it, he said, a definite anti-Jewish policy.

"To anybody who could see, in the years 1934 and 1935," he wrote, "it was only a specially successful effort to spread national-socialism widely in England that could avert the tragedy which has come to pass."

He broke with Mosley in 1937 "over organizational matters," and formed a movement of his own. To the Jews and financiers he laid most of England's troubles. British patriotism, he said, ever neglected the English poor. Two times in the year before the war he was arrested, and later acquitted of charges of disturbing the peace and assault.

Then, as the country moved toward war, he prepared to leave. He felt that if, "for perfect reasons of conscience, I could not fight for her (England), I must give her up for ever."

Joyce joined the British fascists in 1923, when he was about 17. He saw a "certain amount of street and hall fighting" against the communists, "of which I shall carry the marks so long as I live." He has a scar across his right cheek.

Broke With Mosley

In 1933 Joyce joined Mosley's new "British Union of Fascists,"

MINT PRODUCTION AT ALL-TIME HIGH

WASHINGTON, Oct. 17. (AP)—John Q. Citizen is using a record breaking amount of coins these days.

The mint produced an all time high of 49,880,841 new coins in the three month period ending Sept. 30, but the treasury department reported today that there was no sign of a letup in the demands for more.

The department said the July 1 Sept. 30 production, representing a total of \$15,797,820.37 in pennies, nickels, dimes, quarters and halves, was an increase of 155 per cent over the comparable 1939 period.

The treasury announcement did not attempt to explain the unprecedented coin demand.

Getting Gun Inventor Hoped To Check War

FORT WAYNE, Ind. (UP)—According to Dr. W. A. Warren, director of the Lincoln Museum in Fort Wayne, the inventor of the machine gun hoped to aid mankind rather than destroy it.

In a letter owned by the museum and written by Richard Gatling on June 15, 1877, to a Miss Lizzie Jarvis, the inventor said: "It occurred to me that if I could invent a machine—a gun—which could by its rapidity of fire enable one man to do as much battle duty as a hundred, that it would to a great extent, supercede the necessity of large armies, and consequently exposure to battle be greatly diminished."

Consumers' Cooperatives Set Up To Dodge 'Middle Man's' Profit

CHICAGO, Oct. 15. (AP)—Some 2,000,000 American people are trying to dodge the "middle man" and his profit.

Instead of buying their groceries, for instance, at the private neighborhood or chain store, they pool a few dollars apiece, set up their own grocery store and hire a man to run it for them.

Sometimes the store's prices are the same as other stores. Sometimes they are lower. But in any case at the end of the year the profits, if any, go, not to the manager, but back to the customers.

The same principle can be applied, and is being applied, in the supply of everything from soap to auto tires and binder twine to gasoline.

It even is being applied to insurance, medical care and money-lending, in which field, instead of paying legal interest rates that may amount to 50 per cent a year, the customer-proprietors pay only 9 per cent.

These 2,000,000 people are the members of consumers' cooperatives, which exist in nearly every state in the union. Last year they did a total business of \$600,000,000.

The system has been developing since 1921 when farmers in Ohio, Michigan and Indiana formed a cooperative to "break" high retail fertilizer prices, which presently dropped 35 per cent.

The system is no utopian panacea for the nation's economic troubles. A consumers' cooperative has the same problems of management of an enterprise as a private operator. When cooperative stores give special services like deliveries and charge accounts, the customers have to pay extra for them like the customers of any store.

Some cooperatives have over-expanded, given too much credit, and gone broke. Some say lack of profit motive often fails to attract sufficient astute managers.

But in general, cooperative members, by doing the work of organization and administration themselves, boast of garnering the marginal pennies that ordinarily would go to a private operator.

Cooperative business still constitutes only a very small part of the nation's commerce, but the movement is growing.

When the cooperative movement's central organization, the cooperative league of the U. S. A., opens its 12th biennial convention here tomorrow (Oct. 18), it will represent about 25 per cent more members than at its last convocation, in 1935.

The big achievement that will be marked at the coming convention is the pushing of the consumer co-

The Knitty Knitters club met in the home of Mrs. Boone Cramer Monday evening at 7:30 o'clock with Miss Beverly Cramer acting hostess.

The girls reported progress on knitted sweaters and caps. Refreshments of punch and cookies were served to Elsie Mae Echols, Mildred Patterson, Earline Reid, Marie Warren and the sponsor, Mrs. Ethel Byrd. Elsie Mae Echols will entertain the club next week.

The men of the churches met Monday evening at 8 o'clock at the high school in the banquet room with the women of the First Baptist church serving the dinner. Lyman Wren of Snyder spoke on "The Responsibilities of the Men of the Churches." Musical numbers by Velma Ruth Woodson and Jean Young, accompanied by Mrs. Ethel Rives Byrd, furnished the entertainment. Twenty-two regular members were present.

J. B. Wheat, Mr. and Mrs. J. B. Wheat, Jr., of Big Spring, and Mrs. J. L. Morris and son, Dwight, of Lamesa left for Emporia, Kas., to attend funeral services of C. L. Wheat, brother of J. B. Wheat.

Grand Coulee Slide To Be Cleared Away

GRAND COULEE DAM, Wash. (UP)—Bureau of reclamation engineers are making plans to remove the second largest earth slide in the history of the Grand Coulee Dam.

Officials estimate the cost of excavating approximately 1,300,000 cubic yards of rock and dirt will be nearly \$500,000.

Like a glacier, the slide for three years has been moving slowly down the west shore of the Columbia river toward one of the powerhouses.

James Miner, assistant supervising engineer, said bids on the removal contract will probably be called in mid-October, and that actual work on the removal may start in December.

The contractors will have to move one section of the dam's railroad bed and also the west vista-house, a structure through which more than a million visitors have seen the world's greatest hydro-electric project under construction.

The area to be excavated is a crescent-shaped locality some 1,400 feet long.

The largest landslide to hamper operations at the dam occurred in March, 1934, when 2,000,000 yards sloughed off a hillside.

FOUR CONVICTS FOUND GUILTY

STEAM ROLLER LOSES

OAKLAND, Calif., Oct. 17. (AP) Patrolman Henry T. Rose never thought a five-ton steam roller could lose a traffic argument.

But the evidence was indisputable. Answering a routine call he found the steam rolled 40 feet from the spot where an interurban train had hit it.

To make it more impressive—the steam roller was right in the middle of Patrolman Rose's lawn.

Mrs. Mabel Carter Is Hostess At Halloween Coffee At Hotel

Sister And Houseguest Of Mrs. Spence Is Complimented With Morning Affair From 10 o'clock To 12 o'clock Here

A Halloween coffee complimenting Mrs. Gordon Lewis of Corpus Christi, sister and houseguest of Mrs. E. V. Spence, was given Thursday morning at the Settles hotel by Mrs. Mabel Carter from 10 o'clock to 12 o'clock.

The table was laid with a yellow and black satin cloth and centered with a bowl of orange marigolds and large white calendulas and fern. Scattered about the flowers were autumn leaves and orange and black confetti. At each corner of table were jack-o-lanterns holding yellow candles and surrounding these small pumpkin candleholders. Larger pumpkins at opposite corners of the table held black and orange tapers.

Presiding at the silver service were Mrs. J. Y. Robb and Mrs. M. H. Bennett. Tea, coffee and sandwiches were served.

Others in the houseparty were Mrs. Ben Le Fever, who wore a navy blue dress with red accents. Mrs. R. R. McEwen, who dressed in a grey and white striped wool. Mrs. W. Rowe Verachoye, who had on a light blue wool dress with pleated top.

Mrs. Carter wore a green wool suit with a rust colored jacket and Mrs. Lewis dressed in blue and grey checked shirtwaist dress. Mrs. Spence had on a blue wool dress with a white stripe.

Mrs. Robb wore a gold-colored corduroy suit and Mrs. Bennett moss green wool with amber beads. Mrs. Curtis Driver wore a beige wool trimmed with dark brown buttons and belt and Mrs. J. Gordon Bristol was dressed in a tan wool dress with dark brown accents.

Mrs. A. Swartz had on a grey wool plaid dress and Mrs. William Tate wore black wool. Mrs. Al Groehl wore black crepe with a jeweled clasp at the neck and Mrs. Sam Goldman wore a blue wool dress.

Mrs. Jim Kelly dressed as a witch with a long black skirt and white waist and gold silk cape. She had on a witch's peaked hat and carried a broom. One corner of the room was set off with orange and black streamers and guarded by a black cat while she told fortunes.

Yellow mums, orange marigolds and cut-outs of Halloween figures decorated the rest of the room, and members of the houseparty complimented their costumes with Halloween hats.

The guest list included Mrs. Tom Ashley, Mrs. Ralph Baker, Jewel Baron, Mrs. R. L. Beale, Mrs. Cal Boykin, Mrs. Carl Blomshild, Emily Bradley, Mary Louise Bruce, Mrs. Turner Byrnes, Mrs. R. B. Blise, Mrs. Robert Beadles, Mrs. M. Carnohan, Mrs. J. G. Carnoy, Mrs. Roy Carter, Mrs. E. T. Cardwell.

DOWNTOWN STROLLER

At the N.Y.Z. Club

Mrs. W. D. Carnett was at the meeting wearing a wine colored costume suit with long coat. The only decoration the mink tails at the throat. Looked slick.

A tailored suit of warm brown was worn by Mrs. J. M. Woodall, newcomer to Big Spring. With it she wore a handknit beige sweater and onvelly beads of wood.

Mrs. Roy Reeder was also suited-out in a rust colored outfit and she wore a white silk shirtwaist blouse. A large gold pin fastened the collar at the neck.

A green striped dress with three quarter length sleeves was the choice of Mrs. Ennoch Lovelady. The color set off her black hair.

Fashionable was the word for the black tailored suit worn by Mrs. M. Carnohan. She wore with this a black pill box hat and a pink sweater that was mighty becoming.

Mrs. C. A. Amos had on a brown wool dress made with a pleated skirt and to offset the dark color had a bright necklace of wooden beads of red, green and yellow.

Mrs. Chester Clark wore a green pebbly crepe dress with three quarter length sleeves.

Mrs. Leonard Hilton, who incidentally was observing her second wedding anniversary Tuesday night, had on a bright blue wool trimmed in angora stitching and her hat was a brown skull cap trimmed with a bright feather.

We were bundled to the ears in everything but red flannels which are still packed in moth balls and looked unusually like oneself.

Three Hostesses Entertain For The Homemaker's Class

Three hostesses entertained the First Christian Homemaker's class in the home of Mrs. George Hall Wednesday afternoon and used a Halloween theme in the games and decorations.

TO HELP PREVENT Many COLDS

FROM DEVELOPING RIGHT AT START

3-Purpose Medicine a Success

As first sniffle, sneeze or nasal irritation, put a little Va-tro-nol up each nostril. Its stimulating action aids Nature's defenses against the cold.

And remember - when a head cold makes you suffer, or transient congestion "fills up" nose and spoils sleep, 3-purpose Va-tro-nol gives valuable help as it (1) shrinks swollen membranes, (2) relieves irritation, (3) helps flush out nasal passages, clearing clogging mucus. Enjoy the relief it brings.

VICKS V-A-TRO-NOL

It's a worthy cause to send your Fall coats now to us to be cleaned. It freshens the colors, aids tensile strength of fabric and lengthens wear of the garment. Cleaning pays dividends!

Men And Women Both Find Cooking School Practical, Helpful

The entertaining and informative series of free lectures and cooking demonstrations give a wealth of knowledge to the new housekeeper who would have to learn by the trial and error method and to the experienced housekeeper who may not have learned the short cuts to good cooking.

Facts to save worries and dollars are given by Mrs. French, who has spent many years in the study and preparation of food. Mrs. French is known throughout the Southwest for the entertaining and helpful lectures that she prepares. Herself a housekeeper, Mrs. French knows the problems that beset every housekeeper and many of her lectures are based on practical home experiences.

The lectures and cooking instructions are free of charge to any who will attend the three days of talks at the city auditorium and gifts are to be given each day to those who are present.

Budgeting, that bugbear of all new brides, is made simple and practical when Mrs. French gives helpful hints on how to keep within the limit and still have tasty and different meals.

The annual West Ward Parent-Teacher association carnival will be held at 7:30 o'clock Friday night at the school. Entertainment is being planned and the public is urged to attend.

Pull the Trigger on Lazy Bowels

With herb laxative, combined with syrup pepsin to make it agreeable and easy to take

When constipation brings on acid indigestion, bloating, dizzy spells, gas-coated tongue, sour taste and bad breath, your stomach is probably "crying the blues" because your bowels don't move. It calls for Laxative Senna to pull the trigger on those lazy bowels, combined with good old Syrup Pepsin to make your laxative more agreeable and easier to take. For years many Doctors have used pepsin compounds, as agreeable carriers to make other medicines more palatable when your "taster" feels easily upset. So be sure your laxative contains Syrup Pepsin, insist on Dr. Caldwell's Laxative Senna, combined with Syrup Pepsin. See how wonderfully its herb Laxative Senna wakes up lazy nerves and muscles in your intestine, to bring welcome relief from constipation. And see how its Syrup Pepsin makes Dr. Caldwell's medicine so smooth and agreeable to a touchy gut. Even picky children love the taste of this pleasant family laxative. Buy Dr. Caldwell's Laxative Senna at your druggist's today. Try one laxative that won't bring on violent cramps, even when you take it after a full meal.

The Ladies (Bless 'Em) Go In For Politics

By SIDNEY ARNE
AP Feature Service Writer

WASHINGTON—Even teacups and baby buggies seem destined to serve as political weapons this year.

The ladies—many more than ever before—are entering the campaign battle. Naturally, they propose to use weapons with which they are familiar.

The strategy varies with the community.

The teacup offer comes from a western city where a convinced lady Democrat who owns a restaurant has offered to serve hot tea to any woman who comes from the voting booth wearing a Roosevelt button.

The baby buggy brigade is proposed by some young Republicans in a city where there are many hard-driven housewives with big families. The girls have volunteered to take over the family car while Mother votes.

Back of such individual offers are probably the two biggest women's political machines the world has ever known.

The Republicans claim a million women workers.

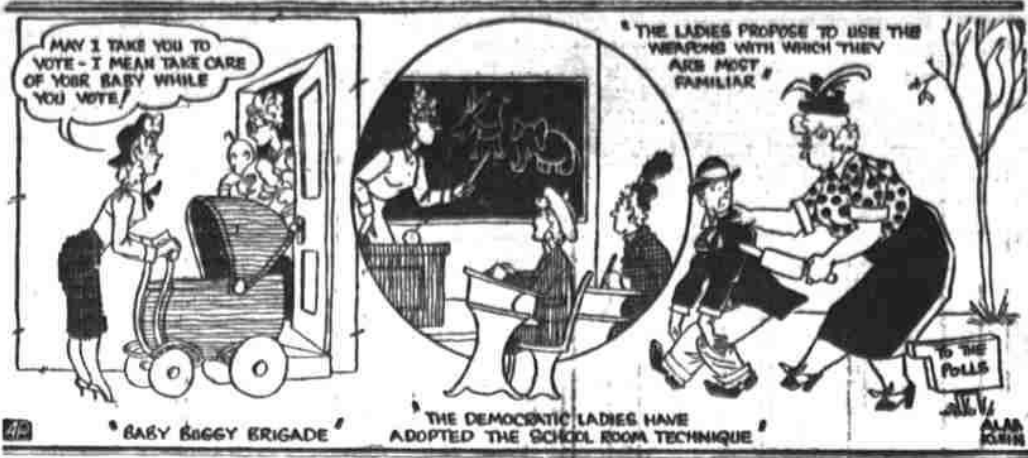

Have 1,000 Clubs

The Democrats don't count their nationally, because each state runs its own affairs. They point out, however, there are 2,000 Democratic women's clubs.

Both groups are using press, radio, the platform and the good old door-bell techniques.

But there is a difference.

The Democratic ladies have adopted schoolroom methods. For several years they have held political clinics for key women, go-

ing into such subjects as soil erosion, the cost of a battleship, the cost of electricity on the farm. There are 30,000 such trained women, called Fact Dealing Reporters (notice the F.D.R.).

The Republican ladies, who have really shoved into high gear for the first time this election, are united through the National Federation of Republican Women's Clubs.

Study Criticisms

They meet locally for monthly

Republican programs that elaborate on Deal and include digests of major important radio speech.

Both groups have committees that phone friends the day before an important radio speech.

The Republican ladies print news of their doings in a section of the Republican magazine. The Democratic women have a monthly magazine of their own.

Then there's the unpleasant job of collecting money. The Repub-

Dinah Shore

(Continued from Page 1)

a week or as high as \$700. She is singing on the Eddie Cantor program currently; she has been singing in theatres and for recordings; she expects to go to Hollywood shortly.

She can buy those dresses she used to dream about. But she's modest and thrifty and she puts money into a dress only for special occasions.

A special occasion came this fall when Broadway lights spelled her name for the first time.

She got the dressmaker to design three frothy frocks on princess lines to show off her 21-inch waist. The green, the white and the black set her back \$300. But she could swirl 45 yards of skirt every time she bowed to audiences clamoring for more of her bluesy singing.

When she sings she sounds happy. She looks happy. And she sort of sings all over.

Dinah has warm brown eyes and hair and lips to match. She's 5 feet 6 inches and thinks she weighs not quite enough at 114 pounds.

Enjoys Sports

She loves to go to football and baseball games. She likes to dash from a radio program to hear a band. And she loves to read a romantic novel.

Dinah's troubles over a career of singing started at the age of 14 when she sneaked from home in her sister's best dress for a roadside cabaret engagement. She got snatched back home, but she collected \$10 first.

NIGHT CLUB GIRLS DON'T WANT TO BE OUSTED FROM EGYPT

CAIRO, Egypt. (Correspondence of the Associated Press)—Two hundred night club girls from the Balkans, regarded suspiciously by British counter-espionage agents as possible Mafis Haris, are protesting lustily against moves to drive them the bum's rush out of Egypt.

One group held a vociferous indignation meeting; appointed a spokesman to communicate their grievances to the press. Others sought it better to plead individually with influential persons frequenting their night spots.

BRITAIN CUTS DOWN ON BACON SUPPLY

LONDON, Oct. 17 (AP)—The ministry of food announced that supplementary issues of bacon to retailers would be suspended "for a few weeks." The announcement added that "consumers will find that supplies of cooked ham will not be available to the same extent as previously both at retail shops

and catering establishments." There was no change in the weekly ration of 8 ounces of ham and bacon. (But presumably shops would be running short of these supplies.)

The agriculture ministry announced that householders who grow food in their gardens would be given a sign, "This is a victory garden," to be fixed to the garden gate.

Moore Pupils Hear Talk By Melvin Wise

MOORE, Oct. 17.—Melvin J. Wise, minister of the Church of Christ in Big Spring, was guest speaker at chapel exercises Friday afternoon at 2:45. The fifth grade room was in charge of the program. Mr. Wise gave a talk on the subject "Confidence," explaining how all of the great achievements of the past had been accomplished because some individual had confidence in himself and the future. He encouraged the students to have confidence in their own ability, and in those directing their education.

J. R. Goodman, son of Mr. and Mrs. O. A. Goodman of this community who was on a four day furlough from Fort Bliss gave a talk on "Army Life at Fort Bliss." Mrs. G. F. King, president of the Parent-Teacher association announced that all committees appointed to work on the goodwill dinner to be given on November 19 meet at the school building on Friday afternoon, October 18, at 2:15 o'clock. Those listed on various programs are Mrs. W. H. Ward, Mrs. Dave Leatherwood, Mrs. Lester Newton, Mrs. G. C. Broughton, Mrs. Irene Hammack, Mrs. O. D. Serve Soups in Clever New Ways

By FRANCES PECK
Heinz Home Institute

To set yourself up as a hostess in the know, serve smartly simple bridge luncheons and suppers to your guests. Main course mergers like soup-salad-sandwich combinations make perfect partners for quick and easy feasting. With such a menu planned, you can hustle out to the kitchen for a little last minute magic of your own while your foursome is clearing off the final rubber of bridge. Twirl your trusty can opener over a tin of ready-to-serve soup. Ferret salad-sandwiches (made ahead of time by the beforehand hostess) from the refrigerator. Brew a pot of coffee with your own inimitable skill. Then bring on this feast—fat bowls full of ruddy colored cream of tomato soup merged with cream of celery, garnished with chips of

CATHOLIC CELEBRATION

EL PASO, Oct. 17. (AP)—Thousands of Catholics from Texas, New Mexico, and Mexico came here today for the celebration of the 25th anniversary of the ordination of the Most Rev. Anthony J. Shuler and the dedication of a statue to Jesus Christ on Mount Cristo Rey.

FSA Meeting Will Be Held Here Friday

First of a series of informational meetings sponsored by the Farm Security Administration will be held Friday from 2 p. m. to 4 p. m. in the FSA offices located directly east of the postoffice building. It was announced today.

Three other meetings are contemplated between now and Nov. 8 and each FSA borrower and his wife are expected to attend at least one of the sessions.

Any other farm families interested in the FSA program and especially those who plan to borrow through the organization are urged to attend one of the meetings.

The invitation also holds good for bankers, business men and others interested in the program.

At the meetings the FSA program will be discussed in general, both as to purpose and ultimate goal.

Other sessions planned for convenience of families in various localities are: Vealmoor, Howard county, Oct. 25 from 2 p. m. to 4 p. m.; Knott, Howard county, Nov. 1 from 2 p. m. to 4 p. m.; Patricia, Martin county, Nov. 8 from 2 p. m. to 4 p. m.

gram will be discussed in general, both as to purpose and ultimate goal.

GOOD THINGS TO EAT

NOT AT THE COFFEE TABLE... BUT BACK AT THE SINK!

Earn... and Hold—Their Admiration. AVOID Coffee Gossip—Serve Admiration Coffee!

"At the sink—that's where Helen ended. For days she had looked forward to her club dinner—had pictured herself skillfully preparing coffee for the gay party. But instead, she was washing cups at the sink! And that, the committee decided, was right where she belonged! Everyone knew her as a poor coffee maker." And if Helen had only known before, what she now knows... she would have spared herself this cruel humiliation—if only she had served Admiration Coffee. Coffee Gossip—or Coffee Compliments... depends on you!

wives use Admiration than any other coffee. Admiration is so dependable!

THRIFTY—The use of the world's most costly and full-bodied coffees in Admiration makes it economical to use. Many housewives report that they get more cups per pound with Admiration than with just ordinary coffees. Remember that... be a wise shopper.

DEPENDABLE—Exact blending and scientific thermo-roasting insures uniform flavor at every serving. No fear of embarrassment because of poor coffee. Remember that... be a smart hostess.

SATISFYING—Admiration's tempting, robust flavor is a bit with men. And women, too, enjoy its full richness and coaxing goodness. Remember that... be a good housewife.

So don't you risk it—not once. Don't be known as a poor coffee maker... don't expect just any coffee to satisfy any more than you would expect just any size shoe to fit. Avoid embarrassment—avoid coffee gossip—serve Admiration Coffee! It's fool-proof. Remember... more Southwestern house-

Chapter Seven A PRISONER Lynn realized that there was more involved between her brother and the Prince than a social visit. The unexpected appearance of Temu Darin had frightened Dick out of his wits.

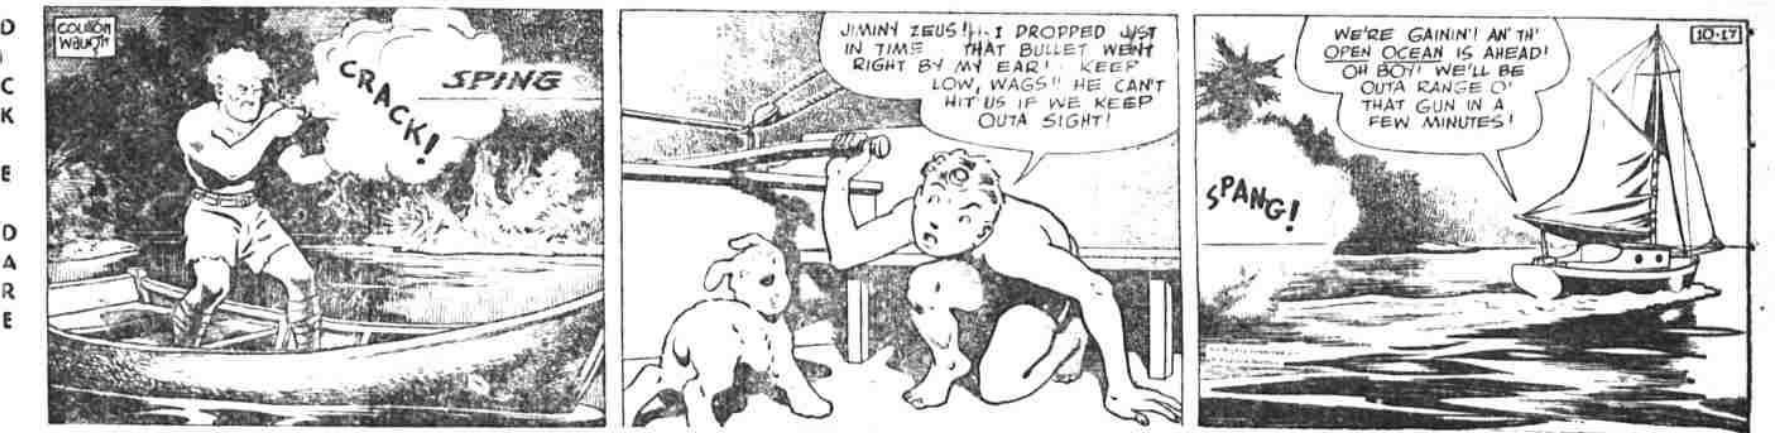

pletely as he had over that bank affair when she was a child. She ate her breakfast happily. "Tell Temu Darin I have finished," she directed the serving boy as he cleared the table.

"You are my—charge." "Why was Dick afraid of you?" she demanded. "Until he saw you everything was satisfactory?" Temu Darin smiled faintly.

HWY. DEPARTMENT'S REVENUE EXCEEDS EXPENDITURES

WASHINGTON, Oct. 17 (AP)—State highway departments took in \$17,185,000 more than they spent last year.

The public roads administration reported today that 1939 income totaled \$1,144,064,000 and expenditures \$1,126,879,000.

The revenues included \$850,683,000 from state sources; \$189,879,000

in federal highway aid, and \$104,502,000 from sale of bonds, transfers from local units and from miscellaneous sources.

They announced these total incomes and expenditures by states: New Mexico, \$11,928,000 and \$9,798,000.

Oklahoma, \$14,617,000 and \$9,915,000.

Texas, \$58,442,000 and \$60,249,000.

First Japanese beetles discovered in the U. S. were in central New Jersey.

Quick Freezing As An Industry Is Making Strides

Quick-freezing, the American process which seals vitamins, flavor and nutritional qualities into farm-fresh foods, is revolutionizing agriculture and the nation's eating habits, a bulletin from the Modern Home Institute reports.

The industry has grown 40 per cent this year, and is now a 75 million dollar business. This phenomenal expansion has been made in the face of a terrific handicap—the absence of adequate household storage facilities for fresh-frozen foods.

Now below-freezing storage equipment that holds deep-frozen foods "fresh" for months is available. Home storage supplements commercial storage lockers, used by more than a million families.

Reports from Europe indicate that already huge mobile storage lockers for fresh-frozen foods are an integral part of Hitler's front-line fighting equipment. The Germans have been quick to recognize the advantage of including fresh-frozen vegetables, meats and fruits in the diets of their fighting men, the bulletin states.

While fish, meat, dairy products and poultry were frozen in the United States as long ago as 1910, and fresh-frozen vegetables were introduced by 1929, wide-scale acceptance of the dietary innovation has occurred during very recent years.

AT CHARITY FUNCTION—Seldom-seen Mrs. Alfred P. Sloan, Jr., dances with her customarily stern-faced husband, the motor magnate, at the Waldorf-Astoria, New York, where a dance and program of entertainment for the Travelers' Aid society benefit was staged. The Sloans were with a party that included Mrs. Richard Grant of Dayton, Ohio.

She directed the boy to lay aside several trouser suits, one in black and white, one in yellow, one a deep dark blue, rich as the shadows in a grotto. And as she chose them she managed to get the ring into her hands and let his shy intelligent eyes understand it was his to keep—or sell as she hoped—as a clue to her whereabouts.

Presently she looked up at Temu with gleaming, mocking eyes. "Have I chosen enough?"

He pointed to a tray of jewelry and hair ornaments laid out on the table.

"This is a silly farce," she reminded him, but her spirits had risen over her success with the servant.

He picked up a ring of carved green jade. "Here is good workmanship," he said.

She wondered for a frightened moment if there was a special significance in his choosing a ring, held up her left hand, concealing the right from which she had removed the diamond.

New Manager For TSES Office Here

O. R. (Otto) Rodden, formerly of Abilene, has assumed his duties as local manager for the Texas State Employment Service, it was announced today.

He succeeds S. G. Merritt, who has moved to El Paso to enter private employment.

Before he left, Merritt issued a statement of appreciation to business houses, private homes and others who made it possible to show a substantial increase in the number of private placements during the first nine months of this year over the same period a year ago. This cooperation, said Merritt, meant 1,311 private placements instead of 647 for the previous period.

Merritt had been here almost since the opening of the TSES office in Big Spring. His successor has had five and a half years experience in the work and has lived in Abilene for the past 12 years. Mrs. Rodden and their son will join him here soon. The son, however, is a member of the cavalry reserve and is due to report to Fort Bliss as of Nov. 15. Rodden is known to ex-service men in this area.

U. S. Army War Manuals May Help This Officer

CAMP NATION, N. Y. (UP)—All of a national guard officer's duties are not strictly military, one of the officers in command of a battery of the 108th Coast Artillery, Delaware National Guard, has found.

One of his major problems, he says, is this letter:

"Dear Captain: I am asking if you please to give John and Herman a discharge. We need them on the farm very badly. If you don't their father will drive me insane. He just says all the time he says I signed them up but I sure did not. If you can't give John and Herman a discharge please come and get the father and sign him up too—I just can't stand his going on he don't care about the boys, it is his work what he is gone off about. So do your best."

Arizona Likely To Have Six Women Legislators

PHOENIX, Ariz. (UP)—Political writers may call the Arizona house of representatives of the 15th legislature the "powderpuff house" or the "petticoat house."

For, on the basis of returns from the Sept. 10 primary, it is likely membership will include six women. The six are Democrats and won nominations in districts predominantly Democratic, virtually assuring their election.

MY FAVORITE RECIPE—

Crispy Cookies And A Recipe For Barbecue Are Suggested

Crispy Cookies
Cookies that don't have to be cooked are unusual and the recipe suggested by Mrs. W. C. Barnett, 2009 Donnelly, is one that her family always enjoys. It may be a little expensive Mrs. Barnett points out but it is so good and rich that everyone that tries it likes it.

Take 1-2 pound of butter and melt with 30 marshmallows. Pour mixture over 1 box of rice crispies and add 1 cup of nuts.

Mix well and pack in a bread pan or a shallow pan and place in ice box. Cut in squares to serve. Will serve about 40 squares.

Homemade Barbecue
Everybody knows the proof of the pudding is in the sauce or something of the sort and Mrs. C. H. Pool has a recipe for homemade barbecue that makes her family want to have it served often.

To one pound of well-cooked stew meat, add sauce made of two table spoons of chili powder, two table spoons of vinegar, dash of red pepper, teaspoon of brown sugar, dash of paprika, and two cups of rich broth.

Cook until it is thoroughly blended and add meat. Let simmer for 45 minutes.

COL-TEX REFINERY WINNER IN TAX SUIT

COLORADO CITY, Oct. 17—Suit of the Col-Tex Refining company of Colorado City to enjoin the collection of an intangible asset tax on its oil gathering system has been decided in favor of the refinery by the 11th court of civil appeals at Eastland, reversing a decision made in 32nd district court here last November.

In reversing the decision, the court enjoined the collection of the taxes. The Col-Tex suit, a case of considerable interest in oil circles of the state, was based on the claim that its gathering system is not a common carrier nor is it operated as an oil pipeline company.

MONTERREY ELECTRIC STRIKE IS ORDERED

MEXICO CITY, Oct. 17 (UP)—Union leaders today ordered a strike of electrical workers in Monterrey which they said would paralyze that city's factories, pumping stations and public facilities.

The strike was called after union representatives and officials of the Canadian-owned Monterrey Power company had failed to reach agreement on the terms of a new contract. The union is demanding a wage increase.

WHAT'S IN A NAME?

EAST GREENBUSH, N. Y. Oct. 17 (UP)—A district board of education pondered hundreds of suggestions in a contest for a name for the new million-dollar East Greenbush Central school.

After much consideration, the board agreed the name will be "East Greenbush Central School."
