

Judging Opens In 8th Annual Pig Show Here

Sale Is Slated 8 P.M. Thursday At 4-H Building

Judging was to start at 1 p.m. today in Howard county's eighth annual 4-H and FFA Swine show.

There were 65 entries in the four divisions of the show, County Agent Durward Lewter reported this morning. Animals were being exhibited, probably for the last time, in the 4-H club building near the entrance to the Big Spring Air Force base.

On hand to judge the entries was M. B. Templeton, Sweetwater, Nolan county agent.

Being held as a part of the Howard county show was the Sears Foundation exhibit. FFA and 4-H club boys from Martin and Howard counties had animals entered in that division.

From Martin county was one pen of three Sear's pigs, one boar, and one gilt.

Forty-four animals were entered in the market fat hogs division as either light or heavy weight porkers. There was one entry in the sow and pigs class.

The annual pig sale will start at 8 p.m. Thursday evening in the 4-H club building at the airport. Both judging and the sale will be indoors and facilities have been provided to accommodate a large crowd, Lewter said.

Both the show and sale are sponsored by local Jaycees.

Tagging The Pig

Durward Lewter, Howard County agricultural agent, is shown getting ready to tag a pig owned by Ricky Phinney, Coahoma, as the lad holds his entry. The occasion was a weighing-in ceremony preceding today's opening of the eighth annual Howard County 4-H-FFA swine show.

Socialism, Threat Of War Are British Vote Issues

By RELMAN MORIN

LONDON, Oct. 24. (AP) — Britain's election campaign ends tonight focused on two critical issues — the country's place in a world threatened by war, and her bitterly controversial experiment in socialism.

Voters from a registered electorate of 35 million cast their ballots Thursday.

Their choice lies between the Conservative party led by Winston Churchill, and the Socialists who came to power in July, 1945.

The Liberals, standing about midway between these two in doctrine, have entered too few candidates to form a government. They hope only to constitute a balancing "third force" in the next House of Commons.

Both bit contenders forecast victory.

The general belief, however, is that Churchill and the Conservatives will come back to power by more than 35 parliamentary seats and possibly by 60 or more.

This belief is based to a large degree on numerous polls of public opinion, which unanimously favor the Conservatives. Newspapers which support the Socialists have conducted no surveys, or, if they

did, have not reported their findings.

In addition, most independent observers expect a Conservative victory this time. They look for the majority of the two million or more Liberal votes in most of the districts where there is no Liberal candidate to be cast for Churchill's party.

Apart from these political technicalities and party maneuverings, two facts are ominously evident, regardless of his political sophistication or his station in life.

One is that Britain has a bad case of low blood pressure economically. It's getting worse.

The other is that the bonds between Britain and the United States are frayed and working loose.

On the economic question, every Briton tends to translate the general condition into completely personal terms.

Men who have been campaigning through these past three weeks report that questions posed in meetings show equal concern with the issue of foreign relations — especially the possibility of war.

Churchill in his final campaign speech Tuesday placed the emphasis on peace and on relations with

the United States.

He said Anglo-American relations have been damaged during the years of Socialist government.

"Nothing could be worse for our country and nothing could be more injurious to the cause of world peace than for Mr. Attlee to be returned depending upon a sham reconciliation between the main body of the Socialist Party and the powerful and turbulent left wing forces whom Mr. Bevan represents."

Former Labor Minister Aneurin Bevan is considered anti-American. His influence with the left wing of the Socialist Party is very great.

Churchill again struck back at assertions that he is a "warmonger." Nevertheless a London newspaper's black headline today asked, "Whose Finger on the Trigger?"

Another newspaper, the ultra-Conservative Daily Graphic, quoted Hugh Gatskell, chancellor of the exchequer, as saying in a speech at Leeds:

"I know there's a lot of anti-American feeling in some quarters. Sometimes I share that feeling myself. But I put it to you that if America becomes isolationist again and clears 'out of Europe, it would be a pretty poor lookout for us."

Tanks Again Hit Kumsong; Air Fight On

Infantry Mops Up Ridgeline Defense Southeast Of City

By NATE POLOWETZKY

U.S. EIGHTH ARMY HEADQUARTERS, Korea, Oct. 24. (AP) — Fifteen Allied tanks again today shot up battered Kumsong on the Central Front as a great jet battle raged across North Korea in the fourth straight day of air fighting.

The Fifth Air Force said one Red jet was shot down and another probably destroyed. One U. S. F-4 Sabre jet was reported lost.

The tanks killed an estimated 85 Chinese and destroyed 24 bunkers in a raid into a valley just west of Kumsong. They returned safely to their lines through Red artillery fire.

Infantrymen slowly mopped up an estimated 120 Chinese fighting a last-ditch defense on a ridgeline southeast of the city, a front line dispatch said. It was the only resistance remaining along this sector.

The Fifth Air Force said between 70 and 150 Russian-made MIGs took part in the battle that raged across the entire waist of the Korean peninsula and finally ended northwest of Wonsan on the East Coast.

The new air fight followed Tuesday's scrap in which Allied B-29 Superforts and jets destroyed or damaged 20 Communist jets when they tried to stop a bombing attack on the Red's new airfield at Namal.

This fourth straight day of air fighting broke out when MIGs jumped Sabre jets covering B-29s as they dumped 150 bombs weighing 1,000 pounds each on a 5,000-foot single track bridge at Sunchon in Northwest Korea.

Tanks that rumbled up to the western outskirts of Kumsong brushed aside light resistance and poured more shells into the already charred, smoking city. Several enemy bunkers were destroyed.

Casualties Rise 2,062 During Week

WASHINGTON, Oct. 24. (AP) — Announced United States battle casualties in Korea reached 92,997 today, an increase of 2,062 since last week.

Bulgarian Reds Slap At Farmers

VIENNA, Austria, Oct. 24. (AP) — The Communist government indicated today the Bulgarian Communist government is cracking down severely on that nation's farmers.

This week's issue of the journal says the Bulgarian Communist Party has adopted decisions to "eliminate serious shortcomings" in Bulgaria's agricultural production.

On this date, six years ago, the Charter of the United Nations came into force. On this date U.N. reaffirms the aims of the organization, recalls its achievements and pledges to continue all efforts to realize its purposes: Collective measures against aggression, promotion of peaceful settlement of disputes, international cooperation for economic and social progress, aid to peoples on the road to independence. These are the main avenues along which U.N. advances into its seventh year of existence. Throughout the world, in every field of human endeavor, U.N. and its affiliated agencies continue action towards the achievement of these goals of the Charter.

TRUMAN STATES

Russians Foolish To Oppose Peace

By ERNEST B. VACCARO

WASHINGTON, Oct. 24. (AP) — President Truman told the Russians today they are "utterly foolish" to oppose nations banded together to seek "peace and justice."

Speaking on the anniversary of the birth of the United Nations, the President declared:

"I hope the time will not be far distant when the leaders of the Soviet Union and their satellites will come to see that it is utterly foolish to oppose the united will of all the other peoples of the world for peace and justice.

"But so long as the forces of aggression are attacking the United Nations, there must be no weakening — there must be no slackening of our efforts to check aggression

and to build up the defense of the free world.

"It is up to us here at home to back up these men of many nations who are fighting for us and for the freedom of the world in Korea."

The President spoke at the laying of the cornerstone for the building of a District of Columbia Red Cross chapter.

Mr. Truman devoted much of his talk to a plea for blood for the Red Cross banks.

He said advances being made toward a system of international peace and justice "will prove to be worth all the sacrifice and effort which they are costing us and other nations."

He said one of the best ways for the public to support the men in Korea is to give blood through the Red Cross for the use of soldiers.

Armistice Chats Start Thursday

By ROBERT TUCKMAN

MUNSAN, Korea, Oct. 24. (AP) — Allied and Communist negotiators will re-open Korean armistice talks Thursday. They will tackle first the knotty problem of where to establish a buffer zone.

The five-man delegation will meet at Panmunjom, a roadside village six miles east of Red-held Kaesong where the search for a cease-fire agreement was suspended Aug. 23 by the Reds.

Thursday's meeting is scheduled to begin at 11 a.m. (8 p.m. Wednesday, CST).

Panmunjom is accessible to each side without having to travel through enemy territory. The tiny town now has the appearance of an American carnival. Armistice activities are housed in circus-like tents. Huge colored balloons and searchlights ring the conference area to warn warplanes away from the neutral zone.

Resumption of the conference talks was made possible when the Communists Wednesday ratified Security Council resolutions drafted by U. N. and Communist liaison officers in 12 meetings at Panmunjom since Oct. 10.

The U. N. had approved the ground rules Monday. An Allied liaison officer said a new dispute cropped up Wednesday. The Communists objected to Allied military policemen at the entrance of the negotiations tent. The Communists insisted that the MPs be stationed on the road about 110 yards away. The liaison officer said the guards would be posted at the tent door unless Adm. C. Turner Joy, chief U. N. negotiator, yields to the Red demand.

For some Gen. Nam Il, 53-year-old North Korean, again head the delegations. There will be two new men on each.

If and when the negotiators agree on a line of demarcation between the U. N. and Communist armies, they still face three tough issues:

1. How the truce is to be supervised.
2. How to exchange prisoners.
3. What a recommendation to make to their respective governments. This includes the Red demand that foreign troops be withdrawn from Korea.

These issues must be settled before there can be an end to the fighting. No one in official position at the U. N. advance headquarters would risk a prediction on how long it might take to reach an armistice. But the general feeling here was that the new effort would be "this time or never."

The Reds broke off negotiations 83 days ago, charging Allied planes strafed Kaesong. The charge was denied. It was followed by a series of Red accusations. All but three were rejected by U. N. investigators.

From one way of looking at it, this has been done, since the Reds generally have been thrown back north of the 38th Parallel, and in some cases are 50 to 60 miles north of 38.

However, if the talks break down completely, Ridgway and Van Fleet are not going to sit around. There has been some talk that if an armistice is not realized this time, U. N. forces will drive the Reds about 80 miles back and establish a line across the narrow neck of the peninsula, from P'yongyang, present Red Korean capital, to Wonsan on the East Coast.

Then, the story is, Ridgway would say "The war is over so far as we are concerned."

A new and bigger Republic of Korea would be organized south of that line.

Action on the front during the next round of talks depends a lot on what the Chinese are caught doing by Allied air observers.

When the negotiations began last July there was speculation that the Communists might be using the breathing spell to build up another offensive.

This has proved not to be the case. The Reds haven't any more manpower in Korea than they had before.

However, they did dig deeper foxholes and built more fortifications, indicating they intended to defend what they held.

Three Bradley Hoop Stars Plead Guilty On Conspiracy Count

NEW YORK, Oct. 24. (AP) — Three former Bradley University basketball players pleaded guilty today to a conspiracy charge in the national basketball bribery scandal.

The players, Eugene Melchiorre, George Chianakis and William Mann, were indicted in connection with a plot to fix a game with Bowling Green of Ohio, on March 19, 1946.

General Sessions Judge Saul S. Streit set Nov. 14 as the date of sentencing.

TENSION IS QUICKENED

British Warships Cover Ships Clearing Through Suez Canal

By FRED ZUSY

CAIRO, Oct. 24. (AP) — Guns of British warships covered British merchant ships clearing through the Suez Canal today against orders of the Egyptian government.

The Suez and the Cairo areas were quiet after violent outbursts of anti-British rioting, and the government issued stern warnings against new outbursts.

But as in between the British and the Egyptians quickened. A British naval spokesman in Cairo said Egypt deliberately was "trying to make things difficult" for the British at the canal entrances.

Port Said and Suez, and that the Egyptians brooked previous arrangements to clear British ships carrying supplies for the British military forces in the Canal Zone.

British Navy officials issued a communique saying that as a result the Navy now was issuing clearance certificates stating that Egyptian Gambia and that the Destroyer Chevron were reported at Port Said. The Destroyer Chequers and the Frigate Cygnus were said to be at Suez. Egypt has ordered the British to get out of Suez and the Anglo-Egyptian Sudan.

The British military announced it had lifted — for a 24-hour period only — the ban on oil tanker and truck traffic between Suez and Cairo.

The pro-government newspaper

Al Balagh quoted Interior Minister O Serag El Dim as saying all was quiet today and there were no new incidents in the Canal Zone, from which Egypt wants to expel British forces. The Egyptians have scrapped the 1936 Anglo-Egyptian treaty.

At Balagh said Queen Narriman, King Farouk's recent bride, had given 800 pounds (about \$2,300) toward aid for families of Egyptians killed in Canal Zone incidents last week, and that Princesses Fawzia and Falqa each gave 500 pounds.

Al Balagh said the Egyptian foreign ministry soon would present a new note to the British embassy protesting "British acts of aggression" in the Canal Zone. Two

such notes already have been handed over.

Strong forces on Egyptian police, kept on the alert against mobs for days, fired on unruly crowds in Alexandria Tuesday. They flung tear gas to break up demonstrators who, paraded before the Russian legation in Cairo and shouted "give us arms" to fight the British.

Up to mid-day today no resumption of rioting was reported.

One demonstrator was reported killed in Alexandria Tuesday.

Interior Minister Faud Serag El Din Pasha, whose job is to maintain order in the tense and angry country, sternly declared the government will "take the strongest measures against these troublemakers."

An independent Cairo newspaper, Al Ahran, said today the government had ordered the privately-operated Suez Canal Company to bar all ships from the canal unless they had permission to go through from the Egyptian Ports and Lights Administration. Officials of the company in Cairo said they had no information on the report and were investigating it. Al Ahran said the company rejected the request.

Except for the movement of the oil tanker-trucks, the British maintained their tight restrictions on

Draft Exams For Married Men Due Soon

AUSTIN, Oct. 24. (AP)—Draft physical examinations for married men without children will begin in Texas next month. The State Selective Service headquarters announced Tuesday 3,600 who will be ordered for physicals in November and December will be principally in that category.

The orders are designed to get married men without children examined as early as possible in compliance with official instructions from national Selective Service headquarters. Rifle Director Paul J. Wakefield said. First examination is scheduled for Nov. 5, with other examinations following on Nov. 13, 20, 27 and Dec. 6, 7, 13 and 14. Wakefield said some of the examinees will be inducted in December and still more in January. Many of them ahead of single men who have been examined and acceptable for many months. The law provides that men shall be inducted in order of age — the oldest first.

Examinations will be given at armed forces joint examining and induction stations at Abilene, Amarillo, Corpus Christi, Dallas, El Paso, Houston, San Antonio and Shreveport, La.

EXPECTED TO GROW

Liquor Poisoning Deaths Now At 24

ATLANTA, Oct. 24. (AP)—The toll of liquor poisoning deaths reached 24 early today — and the list of dead is expected to grow.

Twenty-two persons died of methyl alcohol poisoning at Grady Hospital in the wake of weekend sales of a mixture of wood alcohol and water peddled as "good drinking liquor — cheap." Six others died in their homes.

Physicians at the hospital have treated more than 100 persons for the deadly poison, and cases were still coming in today. Of the two dozen victims remaining under hospital care, several were given only a scant chance for recovery.

Twelve Negroes accused of peddling the poison have been jailed on charges of suspicion of manslaughter. Officers are searching for an unidentified white man believed to be the source of supply. Death struck almost instantly in some cases; in others no ill effects were noticed for as much as 48 hours.

Most of the victims were Negroes. Two white persons succumbed to the poison and three others were treated at Grady, the city's emergency hospital.

One of those treated was a 10-year-old Negro boy.

Those who stricken collapsed at home, in the streets and alleys and in automobiles. One woman was found dead in a chair on her back porch. A man told police he bought a drink on a street corner and 30 minutes later was admitted to Grady Hospital — blind.

As casualties neared epidemic proportions and the poisonings became known generally, the hospital was swamped with patients.

Rain, Snow Hits Wide Part Of U.S.

Associated Press Sports Writer
Rain and snow pelted wide areas of the country today but it was pleasant October weather in the Atlantic Coast states.

Heavy rainfalls doused the mid-continent. One wet belt extended from the Eastern and Central Great Lakes region southward to Kentucky and Eastern Tennessee. Snow mixed with rain fell in parts of Wisconsin and Northwestern Illinois. Snow also fell in the Northern Rockies and rain hit parts of Northern California and Northern Nevada northward to Puget Sound.

Temperatures were below freezing in North Central states early today. At the same time it was 74 in Miami, 61 in Los Angeles, and

Warn Oil Industry To Improve Things

HOUSTON, Oct. 24. (AP)—Sen. Lyndon Johnson (D-Texas) warned the independent petroleum association Tuesday that the oil industry will be neither heard nor heeded in the national forums if its members seek sympathy by continual cries of alarm.

The Texas junior Senator addressed the closing session of the IPAA's 22nd meeting.

He said the answer to worries over nationalization of the domestic oil industry was better performance, more economy, greater service.

Columbus, O., and Tulsa were selected as sites for the 1952 meeting. The IPAA executive committee will hold its mid-year meeting in Columbus on April 28-29 and the second annual convention will be at Tulsa, Oct. 19-21.

Other speakers at the final session included Ernest P. Thompson, Texas Railroad Commission member; Alan B. Kline, president of the American Farm Bureau, and J. Warren Kinaman, vice-president of the E. I. DuPont de Nemours, Wilmington, Del.

Kinaman stressed the inter-relationships and mutual dependency of the petroleum and chemical industries.

Thompson summarized the outlook for the oil industry and urged "let's steer clear of federal control."

Kline said the real question fac-

ing the world is that of the survival of individual freedom.

New Enforcement Measures For Beef Control Planned

By OVID A. MARTIN and WILLIAM O. VARN

WASHINGTON, Oct. 24. (U.P.)—Price Director Michael V. DiSalle said today "we most emphatically do not" intend to remove price controls from beef and beef cattle. On the contrary, he added, new enforcement measures are under study.

DiSalle spoke out in a statement issued at a time when pressure for lifting the controls appeared to be mounting from the meat industry and some farm groups.

Also, it appeared that disagreement over some of the new steps DiSalle's Office of Price Stabilization (OPS) is reported considering may go to the White House for final decision.

Agriculture Department officials are known to be reluctant to be drawn into programs designed to make the controls work more effectively than they are.

In a New York speech Tuesday night, DiSalle accused a "majority" of the meat industry of fighting "our price controls with non-compliance, misstatements, unethical conduct, and illegal and immoral operations."

It is conceded by all parties concerned that there are widespread violations of the ceilings and that the result is a disturbed meat production and distribution pattern.

DiSalle says the disturbed situation reflects the fact that Con-

gress has forbidden him to use slaughter quotas. The quotas were designed to channel a normal portion of the beef cattle to various slaughterers.

By doing so they were expected to minimize competition among packers for animals and thereby reduce over-celling bidding.

One of the steps DiSalle cited today as under study at OPS is also designed to attack this problem. He said the agency is considering setting up an over-riding ceiling for beef cattle. Present cel-

COMFORTS FOR REDS BY U.N.

MUNSAI, Korea, Oct. 24. (U.P.)—Communist negotiators will walk on a smooth floor and enjoy light and heat during the new series of armistice talks — courtesy of the United Nations command.

The Reds supplied the big tent for cease-fire negotiations at Panmunjom. It's the same weather-worn tent in which liaison officers worked out the agreement for reopening the talks.

But the floor was sand and there was neither light nor heat. Col. Andrew J. Kinney, senior Allied liaison officer, offered to make the tent more comfortable. The Reds accepted — without argument.

ings apply only to the average slaughterer may pay for animals he buys in a fixed period. There is nothing to keep slaughterers from bidding up choice grades.

DiSalle said his agency also is considering a priority system. Under the plan, any slaughterer who killed more beef than he did in a comparable period last year would be required to sell it to the armed forces or to institutions.

Some OPS officials are understood to hold the view that the Agriculture Department could help make the ceilings work by using its broad authority to allocate farm products among various classes of users.

A top-ranking department official, who asked that his name not be used, said he doubted the agency would be drawn into such a program unless directed to do so by the White House. He said allocation of beef animals would violate the spirit of the congressional ban on slaughter quotas.

WAKE UP YOUR LIVER BILE—

Without Calomel—And You'll Jump Out of Bed in the Morning! Start to Go! The liver should pour out about 2 pints of bile juice into your digestive tract every day. If this bile is not flowing freely, your food may not digest. It may just decay in the digestive tract. Then gas builds up your stomach. You get constipated. You feel sour, sick and the world looks pink. It takes those mild, gentle Carter's Little Liver Pills to get those 2 pints of bile flowing freely to make you feel "up and up." Get a package today. Ike Backers Won't Bounce Gabrielson

By JACK BELL

WASHINGTON, Oct. 24. (U.P.)—Backers of Gen. Dwight D. Eisenhower apparently have agreed not to make any effort to oust Guy C. Gabrielson as chairman of the Republican National Committee.

And evidence accumulated that President Truman may not be ready to pick a successor to William M. Boyle Jr., when the Democratic National Committee meets here next week to accept Boyle's resignation as chairman.

Influential Republicans who are getting ready to launch a movement to draft Eisenhower for the 1952 GOP presidential nomination were reported shying away from any move to replace Gabrielson.

Senator Ives (R-NY), an Eisenhower backer, told reporters he knows of "no concentrated movement" to oust the chairman.

The Eisenhower camp was said to feel that if any such effort were successful in the face of Gabrielson's demonstrated determination to hang on to his job, it would be interpreted as a party admission there was some substance to charges against him.

Gabrielson has denied he did anything wrong in seeking more time for repayment of an RFC loan to Carthage Hydrocol, Inc., a company he represents as president and general counsel. W. Stuart Symington, RFC director, called Gabrielson's activities normal and routine.

Some Eisenhower backers think the GOP chairman is supporting the bid of Senator Robert A. Taft of Ohio for the party's presidential nomination.

Although Taft has been miffed at Gabrielson for taking the political edge off charges against Boyle, the Ohio Senator is reported to have told his supporters he wants to avoid any fight within the committee before next year's nominating convention.

Mr. Truman was said by associates still to be looking for a man

to fill Boyle's place.

A Democratic Senator, who asked not to be quoted by name, said he had been informed that if the President doesn't find the right man by the time of the Oct. 31 committee meeting, the committee will be asked to let the job go unfilled for a while.

This presumably would leave Mrs. India Edwards, vice chairman, as the top-ranking official until a successor to Boyle could be chosen.

Drama Joins Fiction During Opera Showing

NEW YORK, Oct. 24. (U.P.)—The drama of a real life incident competed with the fiction of an opera at City Center last night.

As the first act of Wagner's "Die Meistersinger" unfolded, one of the performers—Oscar Natzka, the bass playing the role of "Pogner"—mentioned to workers backstage that he needed a doctor.

Slowly, he edged toward the side of the stage. He managed to sing all but the last two sentences of his part. Then he stumbled into the wings and collapsed.

He was taken to St. Vincent's Hospital where he was reported in fair condition early today. Physicians were giving the 39-year-old singer tests to determine if he had a heart ailment.

When the ambulance was called, company director Laszlo Halasz stepped to the center of the stage and explained the situation to the audience. The show went on after a half-hour delay. Called at home, Norman Scott hastened to the theater to finish Natzka's part. An opera company worker, meantime, dashed to the hospital to get the proper costume from Natzka.

Then, the excitement over, the music and fiction resumed.

8 Indictments Returned By Grand Jury

The October grand jury returned eight indictments, including one murder case.

Defendant in the murder case is Edward Wrightall, a Negro, who was accused in the slaying of Herman Marion on Oct. 14. Marion died of gunshot wounds, following a shooting incident in Northwest Big Spring.

Other indictments included Leonard B. Thomas, charged with forgery; James Michael Morgan, driving while intoxicated, second offense; George Prescott, car theft; Thomas Blackwell, car theft.

Two men who are still at large were charged with robbery by assault, while another who has not been taken into custody, was indicted on two counts of forgery.

Another complaint investigated by the grand jury resulted in misdemeanor counts against John Otis Cole and Doris Chalk Cole. A complaint charged John Otis Cole with assault with intent to murder, but the grand jury reduced the count to aggravated assault.

Burglary Charge Due Against Man Arrested In Ft. Worth Tuesday

A burglary charge was to be filed here against a man arrested Tuesday in Fort Worth.

The man was returned here by Deputy Sheriff W. A. Fields who went to Fort Worth and recovered articles reported missing from the N. O. Becker home in Big Spring. The Becker home, 1217 East 17th, was burglarized over the weekend.

A car reported stolen in California also was recovered during the investigation, local officers reported.

Couple Fined \$750 On Assault Counts

Doris Chalk Cole and John Otis Cole were fined \$750 each in county court this morning after pleading guilty to charges of aggravated assault.

The charges were lodged by the October grand jury, following investigation of a shooting incident which occurred last Friday night in the southeastern part of the county.

Two BIR Employees In N. Y. Suspended

WASHINGTON, Oct. 24. (AP)—The Internal Revenue Bureau announced today the suspension of two of its employees in the New York area.

Those suspended today are Theodore Isaacs, an agent in the Upper New York City division and Elias Schulman, a deputy collector in the First New York District in Brooklyn.

Commissioner John B. Dunlap said Isaacs was suspended "pending completion of investigation of his testimony before special agents of the bureau regarding his financial condition and other matters."

Schulman was suspended "pending investigation of charges of misconduct," Dunlap said.

The suspensions followed the resignation by request Tuesday night of Joseph P. Marcelle, as Collector of Internal Revenue for the First New York District.

Marcelle failed to appear today before a House Ways and Means Subcommittee hearing on irregularities in the government's tax collection system.

A subpoena was promptly issued for his appearance Thursday.

Rep. King (D-Calif.), chairman of the subcommittee, said the Internal Revenue Bureau meanwhile has been asked to take steps to see that none of the files in Marcelle's office are "tampered with."

Marcelle, former Brooklyn collector, whose resignation was requested and accepted Tuesday night, had been slated to appear before the committee at 10 a. m. today.

Counsel for the subcommittee said the reasons for the resignation would be brought out at today's session.

Tax Commissioner John B. Dunlap said in announcing the action the reasons were personal. He said Joseph P. Marcelle, collector for the First District of New York, resigned after a long conference here yesterday between Marcelle, Dunlap and Secretary of the Treasury Snyder.

Dunlap said "the resignation... was requested for the good of the service... thus far, the investigation has not disclosed any discrepancies in the Brooklyn office (or) improper conduct" by Marcelle.

"Today's action," Dunlap said, was based "on some of (Marcelle's) personal actions."

Marcelle was the sixth revenue collector to be suspended or forced from office in recent months.

Adrian DeWing, counsel for the Ways and Means Subcommittee, said in an interview soon after Marcelle agreed to resign that he had agreed to appear before the committee today.

DeWing said the subcommittee questioned Marcelle in closed session last August and that evidence leading to his resignation was developed by subcommittee investigators.

Interior Nears A Rule On Oil Wells

WASHINGTON, Oct. 24. (AP)—The Interior Department was reported today as nearing a ruling on the attempt of a group to take over rich oil wells in the Gulf of Mexico by claiming land through old script certificates.

The information, Rep. Willis (D-La.) told a reporter, came from Mastin G. White, solicitor for the Interior Department.

Willis has been pressing for a decision on what he termed a "fantastic attempt" by the E. L. Cord group to take title to 40 wells in the submerged lands off the coast of Louisiana.

Willis said White told him that he has prepared a ruling and submitted it to Secretary of the Interior Chapman for a final decision.

"He didn't tell me what ruling he has made," Willis said, "but I told him that as an attorney I could not see how the ruling could be for the Cord group and he did not disagree with me."

Willis said he gathered from the conversation that the ruling might be announced later this week or early next.

The matter stems back to the State-Federal dispute over which owns the oil-rich off-shore submerged lands. The courts have ruled that the federal government has paramount rights to the area but that Congress has the right to settle the title dispute. The House

Egyptian sources at Port Suez said train traffic there still was at a standstill. The British said Tuesday only food trains and two forces east of the canal would be allowed to run.

Road traffic was reported open, but under heavy restrictions enforced by military road blocks studding the zone's roads.

The British have said they would maintain the restrictions until Egyptian harbor pilots and dockworkers cease their boycott of British vessels.

Ag Educational Aide To Visit

Robert A. Manire, chief of agricultural education service, will visit the office of E. L. Tiner, Area II supervisor, here this week.

He also will inspect Vocational Agriculture departments in Big Spring and surrounding schools on Thursday and Friday.

Manire is in charge of the service which is composed of approximately 1,000 VA teachers and 36,000 Future Farmers of America.

In recognition of his work, he was loaned in 1947 to assist the Republic of Korea in setting up a program patterned after the Texas plan.

Under a recent reorganization of vocational supervisory division of the Texas Education Agency and through an agreement with the Big Spring Independent School District trustees, the Big Spring schools become headquarters for supervisors of four vocational programs in West Texas.

These are Homemaking, Vocational Agriculture, Vocational Industrial Education and Vocational Distributive Education. Florence McAllister, supervisor of Homemaking Education, has been stationed here a number of years. E. L. Tiner, area VA supervisor, moved here from Alpine on Sept. 1. The two other supervisors are expected to move here in the near future, said W. C. Blankenship, superintendent.

UN Discussed At Rotary By JC Instructor

Purpose and accomplishments of the United Nations were discussed by J. A. Jolly, Howard County Junior College faculty member, at the Rotary club meeting Tuesday.

Sole purpose of the organization is "peace," Jolly said. He cited 62 instances in which the UN has averted "open conflict."

The speaker said Russia is in the UN because of the force of public opinion, but that she is trying to stymie work of the organization.

The HJJC instructor spoke as part of the club's observance of "United Nations Week." He was introduced by John Freeman, program chairman.

Next Tuesday, Oct. 30, will be Ladies Day at the weekly luncheon. All members' wives are invited to attend.

628-Pound Man Needs A Lot To Move Him

TORRANCE, Calif., Oct. 24. (AP)—When Eugene Adkins, 28, entered Harbor General hospital, he had an official escort of five firemen, one policeman, two ambulance attendants — and a laundry truck.

That's what it took to move Adkins' 628 pounds from his Long Beach home to the hospital for an operation, probably today. He is paralyzed from the waist down as a result of an automobile accident.

A Bible Thought For Today—

There are deep seated laws that do bring this about. But God expects us to use industry and thrift and moderation too. "They shall prosper that love thee." — Psalm 122:6.

Tactical Atomic Weapons May Be The Enforcers Of Complete Peace

"One of the nuclear detonations announced by the Atomic Energy Commission on August 28 was held this morning at the Nevada test site."

In this unscripted and awkward sentence the AEC broke the news of the world's 20th atomic explosion on the desert 75 miles from Las Vegas, Nev., at 8 a. m. CST, Monday. No flash was visible from Las Vegas—nor from places even nearer the scene. There was no jar or roar, whereas the half-dozen atomic explosions set off at the same place a few months ago broke plateglass windows in Las Vegas, and gave off a blinding flash of light visible hundreds of miles away. One observer 45 miles from the spot reported a slight glow; that was all.

Naturally, since it differed so radically from previous atomic blasts there was much speculation as to its nature. Best guess: a baby A-bomb, such as could be used in tactical warfare without danger to one's own personnel. It was announced officially that this latest "nuclear detonation" was set off from a 100-foot steel tower, similar to the first one of all in the New Mexico desert in 1945.

A newspaperman much nearer the scene said the blast was hardly greater than the TNT explosion which preceded it by one hour to test the instruments. He said there was a brief, bright flash, then a white cloud which rose and mushroomed and disappeared within ten minutes.

This indicates control of the "critical mass," meaning that atomic weapons of almost any size can be manufactured and used for specific purposes, including tactical weapons as small as artillery shells. It does not necessarily mean, however, that these smaller weapons are immediately practicable, or that we have the know-how and the means of producing them in-being, or that we can start directing conventional weapons the day after tomorrow.

But it does indicate that we are on the right track, and that sooner or later weapons may be revolutionized. This may have been what AEC Chairman Dean had in mind when he said that while we were maintaining our edge in the conventional and catastrophic bombs, which had so far preserved the peace, we were developing means of containing the piecemeal nibblings on the peace.

Odds On The Conservatives, But Labor May Not Be Entirely Routed

The betting odds on the Conservatives to win the British elections opened this week at 5 to 2, whereas a week ago they had been 7 to 2. That is still pretty heavy odds-on, and it should be kept in mind that these odds are fixed by hard-boiled betting commissioners, not by public opinion polls.

Nevertheless, the election isn't until Thursday, and something might upset the applecart at the last minute and send the Laborites back to power. Once before the experts foresaw a Labor demise that didn't entirely mature.

Enemies of both Roosevelt and Truman have accused them of plotting ways to insure their election to office. If so, they disagreed with the political philosophy of Woodrow Wilson, who was re-elected in 1916 on the slogan, "He kept us out of war." If the Labor government in Britain holds with the enemies of Roosevelt and Truman, they could launch war in Egypt tomorrow and feel reasonably certain of success of the polls in theory.

As a matter of fact, however, the British people are fearful of war—goodness knows they have ample reason not to

want another one—and the Labor Party has been doing its best to persuade the electorate that a Tory victory means war. If there is an overturn of expectations and the Laborites win, it will be because Labor's warmongering charge against the Churchill party has registered favorably with the voters.

A Tory victory might result in two major developments. 1.) It would certainly halt the nationalization of industry in the British Isles, though it would make little other difference in the basic operation of the welfare state. 2.) It might slow down the gradual disintegration of the British Empire, and could conceivably reverse the trend completely. The Labor Party, reversing Churchill's 1940 pronouncement about not liquidating the Empire, has been doing little else since it came to power.

Whether the process of liquidation can be stopped or even appreciably slowed down remains to be seen; but if it can be done a government headed by old warhorse Churchill will do it. The Empire was largely a matter of attitude and spirit anyway, and Churchill might be able to revive both.

Eisenhower Favors A "Foreign Legion" Of Curtain Refugees

WASHINGTON. — A vitally important argument over European defense strategy is keeping the tele-coms busy between Washington, London, and General Eisenhower's Atlantic Pact headquarters in Paris.

The debate started when Eisenhower suggested a way to take the offensive in the psychological war with the Kremlin—namely, recruit military-age refugees from behind the Iron Curtain into a volunteer legion.

Eisenhower believes that up to 100,000 men—three to five divisions—could be recruited from Russian, Czech, Polish, Baltic and Balkan escapes. Most of these men left Iron Curtain countries because they hate Communism, and Eisenhower believes the existence of such a legion would be further inducement for Communist troops to desert.

He received a dash of cold water, however, from London and Washington. The British, who support refugee committees of their own, are opposed to a large fighting force independent of the foreign office; and the foreign legion like proposals would be equipped, armed, and trained largely by the United States.

Another objection is that the refugees' fanatic hatred could not be controlled and might erupt into war as soon as rifles are issued. At one conference, the British representative frankly stated: "We fought one war to liberate Eastern Europe, and our cities were bombed out for it. We are not anxious to start another war."

Gen. J. Lawton Collins, U.S. Army chief of staff, was also skeptical when he conferred with Eisenhower recently. He said the Joint Chiefs of Staff have no faith in troops under refugee command, and pointed out that escapes can volunteer in the American Army.

Eisenhower replied that very few escapes have enlisted, and for a very simple reason: They don't want to be inter-

grated among strange American troops. But if organized into their own foreign legion they would like to get a crack at the Communists in control of their countries.

Meanwhile, a group of far-sighted senators has introduced a resolution proposing a Senate investigation of escapes in Western Europe. Behind this is the fact that both American and Allied officials in Europe have so badly muffed handling these escapes that some want to go back behind the Iron Curtain, and Russian escapes are handed back and forth between U.S. Counter Intelligence, Central Intelligence, and Military Intelligence, then either turned loose to find a job on the German economy or allowed to go to seed in refugee camps.

The senators who sponsored this investigation are: Nixon and Knowland of California, Bennett of Utah, Bridges of New Hampshire, Brewster of Maine, Carlson of Kansas, Hendrickson of New Jersey, Ives of New York, Monroney of Oklahoma, O'Connor of Maryland, Smathers of Florida and Wiley of Wisconsin.

Crippling strikes have put jetplane manufacturers so far behind schedule that more than a million pounds of aluminum sheets have piled up in aircraft factories waiting to be used. As a result, friends of the industry inside the National Production Authority are now maneuvering to divert this backing of precious aluminum into civilian goods.

Meanwhile, Sabre-jet pilots are fighting against five-to-one odds in Korea, because of the shortage of jet planes.

U. S. Ambassador Robert Murphy in Brussels has handed the Belgians a tough note virtually demanding that Belgium send some of its army to help the United Nations in Korea. So far, Belgium has sent only a few hundred volunteers. The United States is also pressuring the Netherlands to do its part to reinforce General Ridgway's army. The Dutch contribution has been no greater than the Belgian. American reports on Russian A-bomb tests have been so accurate that the Russians are reported preparing a new and distant proving ground for future tests. It's reported to be in the Takla Makan desert across the southeast Russian border in China. This desert is shut off from the outside world by some of the world's highest mountains. U.S. experts believe England's rearmament program will dangerously lower the British standard of living and make another U. S. loan necessary by the middle of next year. It'll be around \$2,000,000,000, and will occur whether Churchill's elected or not. (Actually a change in Britain's ruling political parties is not expected to make the slightest difference in Britain's economy.) All of our new F-34 jet fighters-bombers are now equipped to be refueled in flight. This gives them a range thousands of miles greater than the fighters in the last war.

World Body Observes Birthday United Nations Is Peace-Creating, Not Peace-Keeping, Trygve Lie Says

UNITED NATIONS, N. Y.—On the twenty-fourth day of this month the United Nations enters its seventh year as a going concern, a world-wide organization dedicated to the never-ending task of helping people everywhere to find security from war, freedom and independence for themselves, and mutual economic and social progress.

"Whether the world is to enter upon a period of easing of tensions, or whether the great conflict that has dominated world affairs since 1945 will continue on its present acutely dangerous course," declared U.N. Secretary-General Trygve Lie in his sixth annual report to the General Assembly, "it is I believe, both wise and necessary at this time for governments of member states and their peoples to give careful reconsideration to the place of the United Nations in the struggle for peace."

United Nations Day, 24 October, is the sixth anniversary of the coming into force of the Charter of the world organization. On that date in 1945 the United Nations came into being in a political atmosphere far different from that which exists today. Five great powers had then emerged victorious from the world-wide struggle against Germany, Italy and Japan, and as permanent members of the U.N. Security Council, under the Charter, they appeared united still in a new campaign for peace.

The events of the past six years did not confirm the early optimism that they would continue to cooperate in the peace that followed victory.

The question remains, in the words of the Secretary-General's report: "Is the fundamental concept of the Charter regarding the problem of world peace still valid today or has it been disproved by subsequent events?"

And the further question: "Should the main efforts in the international field made by member states to preserve peace and to protect and promote the interests of their peoples be conducted through and in support of the United Nations, or by other means?"

The Secretary-General poses for "careful reconsideration" by the governments and peoples of the U.N. member states.

He believes it "important to recall that the founding of the United Nations was motivated by a far more fundamental and lasting concept concerning the world than a passing wartime alliance of great powers."

This concept, he declares, "is that the peace and well-being of all nations and peoples have become in the present age so intimately interrelated that it is necessary for them, despite all their differences, to join in a world-wide organization."

In his message to the sixth General Assembly, Mr. Lie says: "The founders of our Organization never conceived that its mere establishment would of itself remove or prevent conflicts and differences of national interests, aspirations, cultures and beliefs, nor would it assure in advance the future good conduct and good faith of governments in all circumstances. On the contrary, they considered that from that time forward a world organization was the one essential and primary instrument, to be available in all circumstances, through which the member nations could over a period of time develop adequate means for controlling unlawful international conduct on the part of any government and for preventing those differences which inevitably arise between nations from leading to further world wars, with the consequent denial or destruction of the political, economic and social progress of the peoples."

"It is in the light of the record of the past six years that I propose to review the soundness of this fundamental judgment as well as the concept of the United Nations as the instrument for applying it."

What is the record of the United Nations in six years?

Trygve Lie says:

"When we consider the role of the United Nations in relation to attempts to settle peacefully disputes between nations and to prevent or put an end to armed conflict, we find that virtually all the most serious questions of the past six years, with the exception of the conclusion of the actual peace treaties, have been brought in one form or another to the United Nations."

In the peaceful settlement of disputes, the record is this:

The first three cases to come before the Security Council concerned the presence of British and French troops in Lebanon and Syria and of USSR troops in Iran, and the struggle of the Republic of Indonesia for independence. Following the Council's consideration of the first two cases, the British and French troops were withdrawn from Lebanon and Syria, and the Soviet troops from Iran. Persistent efforts by the United Nations at conciliation in Indonesia were a major factor in the achievement of independence by the Republic of Indonesia through peaceful agreement with the Netherlands.

In Greece, it is generally realized that the unceasing U.N. watch over the northern borders of Greece has contributed largely to the amelioration of a dangerous situation threatening Greece's independence.

The problem of Palestine has been in the hands of the Organization since 1947. Following decisions of the General Assembly, the state of Israel was established, and mediation by the United Nations succeeded in ending armed conflict between Israel and the Arab states. Real peace in the Middle East has yet to be achieved, but the armistices arranged through U.N. have continued in effect.

The problem of the unification and independence of Korea has also been before U.N. since 1947. Of Korea, Trygve Lie has this to say in his report:

"The future of Korea was involved in the wider world conflict and the Organization was unable to bring about an agreed peaceful solution of the problem in succeeding two and one-half years. Thus, in June 1950, the arms attack was launched from North Korea against the Republic of Korea. When that attack occurred, collective United Nations

Fellow Tries To Do A Good Job And Judges Think He's Cribbed

This is dangerous doctrine, I know, but there have been moments in my life when I have wondered if it always pays to exceed yourself.

This vexing thought occurred to me first in my high school days. Our English class had been given an assignment to write an original theme. Just to make it more interesting, the instructor tossed out some titles. We were to take these and compose our piece around them.

My ingenuity challenged, I cooked up what seemed to me to be a good idea. But it called for some research. I went diligently to the encyclopaedia and to my history books to get the facts, the names, the places and the descriptions. When the appointed day came, I proudly read mine. The fact that it was so much better than my hitherto efforts, plus my inability to handle French pronunciation, won me a rebuke for cribbing as I will never know if pronouncing Ypres like Wipers cost me the day, or whether it was my unrestrained and inspired effort. It made me skittish.

Along about the same time a similar incident occurred to one of my classmates. He was Curtis Kent Bishop, more lovingly known among his associates as Sap. It was generally suspected that Curtis was a bit erratic, a condition that obscured the fact that the Sap was a pretty sharp cookie after all. He could do a number of things, and do them well. For instance, he was championship calibre on the tennis courts. He could turn a fifty essay on the drop of a hat, and he was, for a fee, the source of the better book reports of his day.

No one, however, took him seriously when he suddenly decided to enter the extemporaneous speech contest at Cap Centre, then the principal, took Curtis along to the district interscholastic league meet. When Curtis got loose, he literally had the judges spellbound. After a hurried consultation, they agreed that no high school had could have thought up such a speech—and tossed him out.

A couple of years back felt moved to become lyrical about the autumnal season. And so I spent some time putting together my inner thoughts, cementing them together with moods and weaving the whole into measured metrical prose.

Whatever reaction I had anticipated was slow in maturing. Eventually, and second-handly, I heard of one comment. It was this: "Wonder where he clipped it?" Discouraging, isn't it?

Large Minority Doubts Ike Can Overcome Taft's Lead For 1952

A large minority of editors doubts that General Eisenhower could now overcome Senator Taft's lead for the Republican nomination for President. Taft's reported strength being the promises, though not yet formal pledges, of some 400 delegates, approximately 200 less than what larger minority believes that Taft will receive a promised or pledged majority of delegates as long as there is a chance Eisenhower will accept the nomination. For a plurality of editors, only future events, including the timing of Eisenhower's decision will determine the Republican Party's choice of a nominee.

CHARLOTTE (N.C.) OBSERVER (Ind.-Dem.): "Senator Taft's formal announcement that he is a candidate for the Republican nomination for President... may have the effect of eliminating General Eisenhower. Widespread reports indicate how thoroughly the country is covered by the Taft organization. They show also a good understanding by the Senator that nominations are not handed to candidates on silver platters. Whether the General enters the contest or not, Taft now has such a long lead that Eisenhower probably cannot overcome it. Taft, therefore will probably be the nominee."

CHICAGO SUN-TIMES (Ind.): "Many delegates who like Eisenhower will be tempted to swing away from him the longer he delays in clearing up the question whether he will become a candidate. Yet the Taft strategy could backfire disastrously for him. An announcement by Eisenhower sometime in January would not be too late. Dewey in 1948 held out his announcement until January 16. By officially announcing now, Taft takes a chance on uncommitted delegates ganging up against him. He invites on attack by members of his own party who aren't particularly for Eisenhower but are against Taft himself."

LOUISVILLE (Ky.) COURIER-JOURNAL (Ind.-Dem.): "It is now pretty clear that no man except General Eisenhower has a real chance to stop Taft at the Republican convention in 1952. Even Ike will be lost, however, unless he announces before the snow flies and turns his friends loose to round up delegates. An announcement next spring would be too late. Taft already has many delegations tucked away in his pocket, including those from Kentucky and Indiana."

PENSACOLA (Fla.) JOURNAL (Ind.-Dem.): "If present indications that General Eisenhower will allow his name to be presented to the convention pan out, Mr. Taft is doomed to disappointment again, for the popular military leader would be a pushover for the nomination and also for the election. The only way Taft could win the nomination would be for him to tie up enough state delegates prior to Eisen-

Cockroach In Diet

JAKARTA, Indonesia.—Most people, troubled by cockroaches, kill them and let it go at that.

But some people here fry them to a fine crisp, then reduce them to a powder.

If you're run down, a teaspoon pep you up. If you have a cough, it cures it. Take it regularly, and you may... what you like without fearing indigestion, those who use the powder say. Those with experience say that powdered cockroach, mixed in tea or coffee, is quite tasty.

UNCLE RAY'S CORNER

Boston News-Letter First U. S. Paper

On an April day, 247 years ago, a man in Boston performed an interesting deed. He printed a little newspaper, called the "Boston News-Letter." It was issued once a week.

The man was John Campbell, and he was postmaster of Boston. That may sound like a high position, but his pay was low. Probably he thought that he would make a better living if he published a newspaper.

Campbell kept his place as postmaster for a long time after starting the paper. He talked with people who had letters to send, or to whom letters were delivered. In this way he gathered news.

Scholars usually speak of the "Boston News-Letter" as the first newspaper to be published in what is now the United States. Something in the nature of a newspaper had been printed by Benjamin Harris 14 years before, but it had been suppressed by the Boston government after the first issue. It is hard to call anything a newspaper unless it appears at least a few times.

If Campbell's paper was the first American newspaper, what was the second? The "Boston Gazette" was founded 15 years and eight months later. Its first issue was dated the twenty-first day of December, William Bradford, new postmaster of Boston, was the editor.

Campbell failed to greet the rival paper with pleasure. Instead, he wrote these words about it:

"Its sheets smell stronger of beer than of midnight oil."

At almost the same time as the "Gazette" appeared—with an imprint only a day later—a Philadelphia man, Andrew Bradford, started the "American Weekly Mercury." Bradford was the Philadelphia postmaster.

DUGGER REPORTS

Oxford Debaters Supporting Tories

By RONNIE DUGGER
 OXFORD, England, Oct. 24. — Apparently unconvinced by a story of a Texan who found paradise in England, the Oxford Union, world-renowned student debating society, has gone on record, 19 votes to 26, in favor of a Tory victory tomorrow.

An American student from Chicago, Howard Schuman, took the floor to argue the Labor Party cause in a special pre-election debate in the Union's historic hall, where Winston Churchill first orated. Schuman explained that he was converted to socialism by the story of a man from Texas.

This fellow, according to Schuman, was born into misery and poverty in Texas; went to New York and improved his lot; and moved to socialist England, where he died and went to Heaven. Schuman said that the Texan found so little difference between England and paradise that he hardly knew he was dead.

A bit later in the debate, one of the Conservative speakers asked Schuman how he was so certain in his "brash American way" that the Texan had gone to Heaven. (I have just joined the Union, else I would have told them both forthwith that the phrase "heaven on earth" refers to Texas.)

When the speeches and the heckling died away, the students voted, 3 to 2, for Mr. Churchill's Tories.

The evening's air was warmed first by Oleg Karamsky, a student at New College, who argued that the Tories, while not warmongers, "chuck force about here and there."

The rising cost of living is only a part of a world-wide rise and is not Labor's fault. British production, far from being "sabotaged by lack of incentive," is half again more than what it was before the war; he said. Karamsky's basic appeal was to the working class; he argued that the wealthy were "the section of the community which will benefit most from a Tory victory."

A student named Blaker took up the Tory banner then. "If a return to Tory rule would be dismal," he said, "a return to Labor rule would be disaster." He argued that pacifism, ideas about imperialism, and a delicate dislike of world power politics still "nag the Socialist conscience" and have prevented Labor from exerting strong policy in Egypt and Iran. The warmonger charges by the Socialists is "deplorable," he said.

"Nationalization as a dogma has been chucked on the dustbin of history," Blaker said. "The social services are all very well, but how can we protect the welfare state and full employment in the present inflation if the Labor Manifesto says that both peace and social services are first in its priority; in other words, if we must cut either rearmament or the social services, it won't be the social services."

Schuman, the American, said

Nationalists Report China Purges Again

TAIPEH, Formosa, Oct. 24. (U) — The Chinese Nationalists say heads are rolling again in a new and greater blood purge on the Communist mainland.

The defense ministry asserts that the new program of blood-letting calls for the extermination of anyone suspected of secret dissatisfaction with the Red regime or with the previous purges.

The ministry estimates more than 200,000 Chinese have been massacred in Kwangtung province alone in the new purge. Kwangtung is the south coastal province long a seat of revolt and unrest.

The Communists are supposed to be paying special attention now to former employees of the Nationalist government — from once-high officials down to office boys.

The Communists absorbed thousands of these public servants into their regime when they seized control of the mainland. The Reds did not have enough trained personnel.

The ministry says the Communists plan to eliminate eventually every Chinese who ever served under the Nationalists.

Labor and farmer unions also are reported under closer scrutiny.

LOOKING 'EM OVER

With Tommy Hart

In five games this season, Big Spring high school backs have fumbled the ball 31 times. They regained possession on 15 of those occasions.

If the Longhorns hope to beat Plainview here Friday night, they not only must rid themselves of fumbling, they must control the ball most of the way, as well.

Haskell kept the nugget most of the time during the second half of last week's game here, and almost got away with a victory.

The Junior high school Yearlings become a better gate attraction every time they play here.

In their game with San Angelo ten days ago, the 'gate' amounted to \$242. The eighth graders played a night game here recently and lured an \$82 house.

Most recent major college football team to go through a season unbeaten, untied and unscored on was Tennessee's 1939 outfit. The Vols counted 212 points that year.

However, they went to the Rose Bowl and were beaten by Southern Cal, 14-0.

A Corpus Christi paper says Wayne Wallace of San Angelo was voted the Longhorn baseball league's most valuable player.

I didn't know an election had been held.

OUTLOOK NOT DARK FOR STANTON BUFFS
Stanton's Buffaloes haven't won a football game this season but Coach Red Read isn't too downcast.

Two of the lads who showed to best advantage against O'Donnell last week — Maxie Davis and Glenn Cross — are only Juniors. Billy Rowden, another fine player, is a soph. Eldon Hopkins, who could team with Davis, Rowden and Scooter Polk in next year's Buff backfield, is a Junior.

The Tennessee-Alabama football series has produced no less than 13 bowl game entries since 1928, all for major New Year's Day attractions.

The Oil Belt football game at Wichita Falls, which has been outlawed by the Texas Interscholastic league, had built its charity contributions from \$1,000 back in 1948 to \$6,000 the past August.

The Los Angeles Rams of the National Football league have played to 457,862 paid admissions in 14 games this season, still have at least seven games on their schedule.

A lad who may replace Bob Smith in Texas A & M's backfield next year is Virgil Patton of Vernon. Patton was considered only ordinary in high school but he's a whiz for the Aggie frosh team.

Leo Durocher Named 'Manager Of Year' In AP Poll Of Scribes

By RALPH BODEN
NEW YORK, Oct. 24. (AP)—Leo Durocher, whose managerial career hung in the balance four years ago, is baseball's "Manager Of Year" in the AP poll of scribes.

The 45-year-old pilot gained the accolade for leading the New York Giants to the most sensational triumph in National League history.

Durocher won the award in an Associated Press poll conducted among the 187 members of the Baseball Writers' Association of America.

The Giant leader collected 113 votes to breeze home ahead of Casey Stengel, manager of the world champion New York Yankees, who was second with 64.

Other pilots who figured in the poll were Al Lopez of Cleveland, Paul Richards of the Chicago White Sox, Jimmy Dykes of the Philadelphia Athletics and Marty Marion of the St. Louis Cardinals.

Durocher, advised of his selection while playing golf near his West Los Angeles winter home said: "That's great news. It makes me very, very happy. I am very grateful."

"I'm grateful to the New York Giants team. It was the players who made this possible for me. They came through and played like the champions they are."

Durocher's darkest hour was in 1947 when he was suspended for the season by former Baseball Commissioner A. B. Chandler for "conduct detrimental to baseball."

Durocher returned to the helm of the Brooklyn Dodgers in 1948 but on July 16, in a move that stunned the baseball world, he switched to the New York Giants.

Durocher risked his job when he broke up a slow-running, but heavy slugging crew for "my kind of team."

The Giants started slowly in 1950 and again Durocher's job was in jeopardy. But the New Yorkers finished a strong third.

Durocher's 1951 team was favored in many quarters to bring the Polo Grounds its first flag since

1937. But the Giants lost 11 straight during the first month and the outlook was black, indeed.

They trailed Brooklyn by 13½ games as late as Aug. 11 but kept plugging away and finally caught the Dodgers two days before the end of the season. The Giants climaxed their comeback by beating the Dodgers in a playoff for the pennant.

Drake Seeking Grid Hearing

DES MOINES, Ia., Oct. 24. (AP)—The Drake University athletic council has unanimously agreed to ask for an immediate hearing with Missouri Valley Conference officials over what the council calls "malicious and intentional attacks" upon Football Star Johnny Bright by Oklahoma A&M.

The 11-man council, meeting here for over three hours Tuesday night, said in a prepared statement it will "immediately register a strong protest with officials of the Missouri Valley Conference.

The council also said it is asking for a meeting with Commissioner A. E. Eilers and executive Vice President George Small of the University of Tulsa by no later than Sunday, Oct. 28."

In St. Louis, Commissioner Eilers said he would have no comment until he had received the protest. He also said he would have to confer with Small regarding the meeting requested by the council.

The Negro halfback, the nation's all-time ground gaining leader, suffered a broken jaw early in last Saturday's football game with Oklahoma A&M. Bright, who has been hospitalized here since, is expected to be released today.

Doctors said he might see limited duty against Iowa State this week.

The Oklahoma A&M athletic council Monday said it planned no action unless Drake filed a formal protest. The council, after viewing the game movies, admitted two of the "blocks were illegal but unintentional."

Maxwell Entered At Mexico City
MEXICO CITY, Oct. 24. (AP)—Two dozen U. S. golfers, most of them from Texas, tee off today in the championship flight of the 26th Mexican amateur tournament.

At the top is the 1951 U. S. National Amateur Champion, Billy Maxwell, of Big Spring. Another is veteran Frank Stranahan, Toledo, Ohio, U. S. Walker Cup team player for seven successive years, who won the Mexican title in 1946 and 1948.

Dogies

Victorious in four of six starts to date, the Big Spring high school football Dogies (above), will try to avenge one of their losses here Saturday night, when they play the San Angelo reserves at Steyer stadium.

Doug Hughes and Doyle Mason. In the backfield, left to right, are James Hollis, Kirk Faulkner, Freddie Blalock and Rex Bishop. Hollis has been the team's leading scorer to date. Bishop is the fastest man on the club. Suter ordinarily plays tackle but was shifted to center when the regular pivot man, Ray Todd, was hurt. Wayne Bonner coaches the team. (Staff Photo).

McKown Was Fourth In Line For TCU Job

FORT WORTH, Oct. 24 (AP)—Danny Ray McKown, the latest Southwest Conference football sensation, got that way through necessity. Three other guys had to get hurt before he even became known to Texas Christian University fans.

Departure of Conn Isaacs for a non-coaching job in Amatiello has forced Carl Coleman to make changes in his coaching staff at Big Spring high school.

More Than 200 Prep Contests Scheduled

Pampa-Odessa Go Headliner

By HAROLD V. RATLIFF Associated Press Sports Writer

The most important week-end of the Texas schoolboy football season will see district championships go on the line from Panhandle to Gulf. More than 200 games will establish favorites throughout the far-flung stretches of the four-district campaign.

In Class AAAA the feature games are: District 3 - Lamar (Houston) vs Two district leaders clash: Lubbock, the other one, plays undefeated San Angelo.

In Class AA the top games are: District 6-Anson at Hamlin, Stamford, the other undefeated team, plays Snyder. District 5 - Mesquitas at Kermit, Seminole also is undefeated. It is jinx this week.

McKown was the fellow who sparked TCU to its great last quarter rally that scored 20 points and shot down Texas A&M, 20-0 in a jarring upset last week.

Louis Says He'll Win Friday Night

NEW YORK, Oct. 24 (AP)—Joe Louis thinks he'll knock out Rocky Marciano Friday night at Madison Square Garden.

District 1-AAA 11's Boast Edge Over Field In Seasonal Play

District 1-AAA football teams, who have managed to win 15 decisions and play a tie in 30 starts against outside competition, start their family quarrels this week.

Stanton Plays Whiteface 11

Denver City's Mustangs continue to gain respect in the District 4-A football race. The Ponies swarmed over Sunday, 36-6, last week and will be favored to clip the chops of Seagraves this week, although Seagraves had lost only one start in five outings.

ENMU Hounds Seek Clincher

PORTALES, Oct. 24. (Sp1)—Whether the Greyhounds of Eastern New Mexico University repeat as champions of the New Mexico Conference will almost certainly be determined Saturday night.

Doug Cameron Tops

Douglas Cameron of San Angelo has taken over the ball-carrying leadership of the Pioneer Conference.

29 Records Are Broken In TL; Perry Sets Two

DALLAS, Oct. 24 (AP)—Twenty-nine new records were written in to the Texas League books the past season, among them being three marks on double plays.

SW HOGS HONORS

Griffin, Howton Win AP Laurels

NEW YORK, Oct. 24 (AP)—The Southwest Conference, which has been hitting the football headlines regularly this season, came up today with both the defensive and offensive linemen of the week in Bob Griffin, Arkansas center, and Bill Howton, Rice end.

Against Texas, Griffin played nearly 80 minutes and his defensive work was a big factor in holding Texas to only four first downs. He made tackle after tackle. He was so agile in smashing through the Texas forward wall that on three occasions he downed the Texas quarterback, operating from a T-formation, before the Texas back could hand off the ball.

Brooks Retains Lead In Scoring

Though he didn't see action last week, Midland's Ralph Brooks continues to lead the District 1-AAA scorers with 54 points.

LEGAL NOTICE
THE STATE OF TEXAS
TO: RALPH E. POWER, Plaintiff, vs. R. E. POWER AND ASSOCIATES, Defendants.
ORIGIN: You are commanded to appear in the District Court of Howard County, Texas, on the 1st day of November, 1951, at 10 o'clock A. M. of the first Monday after the expiration of 30 days from the date of publication of this Citation, to answer to the petition of the Plaintiff, the same being the first day of the hearing of the Court House in Big Spring, Texas. Said plaintiff's petition was filed on the 21st day of May, 1951.
The nature of said suit being substantially as follows, to wit: That the sum of \$2,444.44 liquidated damages, plus costs and attorney's fees, and by virtue of the breach of one certain written contract made and entered into by and between Plaintiff and Defendant, Ralph E. Power, the 4th of January, A. D. 1948, and for foreclosure of a certain mortgage, dated January 31, A. D. 1948, made by Defendant, Ralph E. Power, securing Plaintiff's mortgage therein, in the faithful performance of the obligations imposed on Defendant Ralph E. Power, by the terms of said contract, the following described property being subject to said contract mortgage: 1-1/2 Tractor, 1-1/2 Tractor and Tractor; 1-1/2 Diamond T Tractor and Van; 1-1/2 1 1/2 Ton Dodge Truck; 1-1/2 GMC 1 1/2 Ton Panel Truck; 1-1/2 Jeep and Big 2 Power Saw, Woodworking Equipment, etc. Plaintiff's said claim and then is prior to subsequently recorded claim and lien of Defendant, Ralph E. Power; for all monies due Plaintiff of said contract, costs, and general and special interest.
I issued this 29th day of October, A. D. 1951.
Given under my hand and seal of said Court at office in the City of Big Spring, Texas, this 29th day of October, A. D. 1951.

Snyder Escapee Returns To Get Things Cleared
SNYDER, Oct. 24. (AP) — J. M. Steward, one of five prisoners who sawed and dug their way out of Snyder's aged jail Saturday night, was behind bars again today because he wanted to "get this whole thing cleared up."
Steward, 25, of Snyder, was being held on a charge of falsifying his credit statement to a bank in order to obtain a loan. Police Chief Ray J. Keenan quoted Steward as saying he returned because he had never been in "bad trouble" before and wanted "to get this whole thing cleared up."
Steward said the five escapees left Snyder in his car. He said one of the men, Gilbert M. Contreras, 27, was let out northeast of Snyder. Steward said he drove the other three men to Hollis, Okla., and left them there.
The other three escapees were Wilbur James Williams, 36, Jack Wiley Baker, 30, and William C. Kidd, 25.

May Seek To Make Prohibition A Top Issue In 1952 Election

HOUSTON, Oct. 24. (AP)—A strong indication that Texas dry forces are trying to make prohibition one of the main issues of the 1952 election came before Texas Baptists during today's session of the annual meeting here of the Baptist General Convention of Texas. Some 7,500 delegates quietly opened the three-day session Tuesday night with a stiff resolution condemning President Truman for his action in appointing Gen. Mark Clark as Ambassador to the Vatican.

The resolution relating to the prohibition movement came in a report by the Christian Life Commission, presented by Rev. A. C. Miller, of Dallas, director of the ministry to minorities for the convention. It strongly urged that Baptists "refuse to vote for any candidate for office who favors the liquor traffic."

Dr. W. R. White, president of Baylor University and the United

Texas Drys, said today that "there has been no decision along these lines."

The report also included a statement commending "with sincere approval," Texas seminaries and "some of our Christian colleges in admitting to their classes qualified students without racial discrimination."

Dr. White presented the Clark-Vatican resolution.

Earlier in the day, some 4,000 members of the Baptist Brotherhood of Texas passed a similar resolution, and the matter was referred to by Dr. Duke K. McGill, president of the Southern Baptist Theological Seminary, Louisville, who addressed the meeting Tuesday night.

"The resolution said," 4th grad 50d16. The resolution said the Baptists here could see no necessity of an ambassador to the Vatican, noting that the "embassy to the Italian state is quite convenient and available for all practical purposes."

The convention opened Tuesday night. Today it will continue to hear committee reports, including reports on endowments, hospitals, home missions and the treasurer's report.

Before the resolution was read, Dr. J. Howard Williams, the con-

vention's executive secretary, predicted total gifts this year would exceed the \$12 million record last year.

Auxiliary units meeting here in conjunction with the convention include the State Brotherhood, Women's Missionary Union and the Baylor University board of trustees.

New York Firm Is Low Bidder For New Texas Housing Units

By The Associated Press

A New York firm is apparent low bidder in many of 16 Texas cities on a new offering of federally-guaranteed low-rent housing Tuesday.

The New York firm, Blyth & Co., led a dealer group of 204 members. Also bidding on most of the individual issues was a bank-dealer group of 240 members managed by the Chemical Bank and Trust Co., also of New York.

Both syndicates bid 2-1 1/2 per cent interest on the Texas issues. Reports indicated that Blyth & Co. offered larger premiums.

Results of local action on the bid openings in Texas cities Tuesday included:
 Gladewater — \$616,000 issue, awarded Blyth & Co., 2 1/4 interest, \$644.34 premium. Chemical Bank & Trust offered 2 1/2 per cent, \$141.68 premium. Howard Hall, Gladewater contractor, has a contract for project which is expected to be completed by Jan. 1, 1952.

Bonham — \$61,000 issue for Bonham, \$195,000 for Honey Grove, awarded Blyth & Co., 2 1/4 interest, \$205.14 premium for Honey Grove. Elgin — \$447,000 issue, awarded Blyth & Co., 2 1/4 interest, \$463.09 premium. Chemical Bank

& Trust offered only other bid. J. J. Fritch General Construction Co., Dallas, reported construction of 48 dwelling units 4 1/2 per cent complete.

Olney — \$368,000 issue, awarded Blyth & Co., 2 1/4 per cent, \$378.46 premium. Chemical Bank & Trust only other bidder. Olney housing project reported almost completed.

Hamilton — \$173,000 issue awarded Blyth & Co., 2 1/4 interest, \$181.30 premium. Chemical Bank & Trust only other bidder.

Henderson — \$661,000 issue, awarded Blyth & Co., 2 1/4 interest, \$681.49 premium. Chemical Bank & Trust offered \$132.03 premium. McKinney — \$661,000 issue, awarded Blyth & Co., 2 1/4 interest, \$439.35 premium. Chemical Bank & Trust only other bidder.

Seymour — \$424,000 issue awarded Blyth & Co., 2 1/4 per cent interest, \$430.36 premium. Chemical Bank & Trust offered \$97.50 premium.

Hearne — \$575,000 issue, awarded Blyth & Co., 2 1/4 per cent interest, which offered highest premium of two bids made.

Haskell — \$403,000 issue, awarded Blyth & Co., 2 1/4 per cent interest, \$407.84 premium. Chemical Bank & Trust offered \$92.69

premium.

The opening of bids on an \$850,000 issue at Sweetwater was postponed until Nov. 6.

The Luling Housing Authority plans to let bids on equipment, Oct. 26 and on insurance, Oct. 29. Bonds bids probably will be opened sometime in December. The Luling issue totals \$630,000.

Bids on the \$760,000 issue will be opened Wednesday morning.

Marines Seek Fem Recruits Here This Week

T-Sgt. Wesley Ward, Marine Corps recruiting sergeant from San Angelo, will be in Big Spring three days this week with an eye for the women. That is part of the sergeant's job, screening young women for enlistment in the Marines.

The San Angelo recruiting district has a quota of women to obtain for the Marines for a class beginning Nov. 28. Sgt. Ward said this is the first time since he has been on recruiting duty that his office has had a quota of women to enlist.

High School graduates between the age of 18 and 29 may enlist in the Marines, providing they are in good standing in their community and can obtain their parents' consent if under 21 years old. They are sent to six weeks of basic at Parris Island, South Carolina, from there they are transferred to the numerous Marine Bases throughout the country and Hawaii and perform clerical, supply and technical jobs.

The sergeant will be at the Post Office Thursday through Saturday and will welcome all inquiries about the Marines. Of course, Sgt. Ward will be available to talk enlistment terms with men, too. Another buddy squad—one in which the men enlist and train together—from West Texas is under consideration. Former Marines may enlist in their old rank of sergeant and below.

Ex-Student Leader Charged In Murder

AUSTIN, Oct. 24. (AP)—An ex-University of Texas student president, now an agricultural economist in Washington, D. C., was charged with murder Tuesday, 24 hours after an Austin golf course owner was shot to death.

Held under \$30,000 bond in the

slaying of Douglas Kinser, 33, was Malcolm E. (Mac) Wallace, 30, of Washington, D. C.

Detectives who questioned Wallace most of Tuesday said they were not ready to disclose what they considered the motive in the killing.

Wallace, an economist for the U. S. Department of Agriculture, refused to give any information except his name, occupation and address, detectives said.

Kinser was shot to death in the clubhouse of his Pitch and Putt Golf Course Monday afternoon. The assailant fled with a pistol in his hand.

Wallace was arrested by highway patrolmen on the Burnet highway.

Wallace, the son of A. J. Wallace, Dallas contractor, was president of the university student body in 1944-5. He led the November 1944 student parade protesting the dismissal of then President Homer P. Rainey.

Wallace's wife, Mrs. Andre Wallace and two children, ages 1 and 3, have been living in Austin with Mrs. Wallace's mother since early August.

Kinser was divorced. He had a young daughter.
