

Bozeman Lectures To Dean's Class

Manufacturing Superintendent Is In This Section Trying To Develop Cotton Picker

Choosing as his subject "The Organization of the John Deere Implement Company," V. F. Bozeman, a superintendent of that company, gave a talk to one of Dean Leight's classes, Friday morning.

Stressing the importance of the young man who realizes the relation of one individual to another in the business world, the speaker advised every individual planning an industrial career to obtain at the start a chart of the company's organization.

He further said: "We pay not for the job, but for the man. His salary is not always determined by what he can do, for we have found that a young man is subject to over-pride if he is given a too rapid raise in salary."

President Agrees With Editorial

Being confronted by a Toreador reporter who was "looking for more news," President Paul W. Horn took the occasion to comment upon an editorial which has recently appeared in the columns of the paper.

"Since I am eager to get the students' viewpoint, I was interested in the editorial on CONVOCATION," President Horn said. "I agree with the editor in his explanation for the lack of these assemblies, but in calling convocation, weather conditions and the distance between the gymnasium and other buildings has to be taken into consideration."

"Then the attitude of the student body is also a determining factor. I wish one class of students find convocation helpful, the other class does not show enough interest in college to attend."

Dr. Carter Shows Movies Of Germany

Dr. A. L. Carter, head of the department of English, presented an informal discussion of the present day Germany before an open meeting of the Women's Forum last Sunday afternoon in the auditorium of the new Engineering building.

Several reels of movies, furnished by the German railways, were shown in conjunction with the discussion, showing scenes of the principal cities and castles of the Rhine.

After the showing of the pictures, Dr. Carter answered questions concerning present day Germany as he saw it as compared with the German nation of pre-war times.

Business English Course Organized

A course in business English, taught by Professor Cecil Horne, has just been organized by the Extension department.

It is composed principally of business and professional men. Anyone who is not taking the course and who desires further information about it should address Mr. J. H. McDonald, director of Extension.

Calendar

Wednesday 6 Girls' Glee club, room 310, at 4 o'clock. Hall County club, room 209, 7:30. Press club, room 314, 7:30. Ag. club, room A 109, 7:30. Central Texas club, room 310, 7. Canyon-Tech basketball game at gym.

Thursday 7 Boy's Glee club, room 310, 4 o'clock. Junior class meeting, room 302, 7 o'clock. Band rehearsal, room E 208, 7:30. Amarillo club, 1911 16th street, at 8 o'clock.

Friday 8 Capay Espada, room 310, 7:30. Pi Gamma Mu, room 214, 8 o'clock. Lubbock club, room 302, 8 o'clock. McMurry-Tech basketball game, gym.

Saturday 9 McMurry-Tech basketball game, gym.

Sunday 10 Miss Weeks will discuss Italy and France from an artistic standpoint. Room E 208, 4 o'clock.

Monday 11 Girls' Glee club, room 310, 4 o'clock. Spur club, room 214, 7:30. Chamber of Commerce, room E 208, 7:30. Forum, room 102, 7:00.

Tuesday 12 Boys' Glee club, room 310, 4 o'clock. Debate Society, room 202, 7:30. Student council, room 209, 7:00 o'clock. Sul Ross-Tech basketball game, gym.

Wednesday 13 Girls' Glee club, room 310, 4:00 o'clock. Pre-Law, room 217, 7:30. Thespian, room 303, 4 o'clock. Sul Ross at Tech gym. Tech Rifle club, 7:30.

Class To Discuss Junior Promenade

A special meeting of the junior class has been called for tomorrow night at 7 o'clock in room 210 of the building. All business with reference to date and appointment of special committees for the annual junior prom will be transacted at this meeting.

Tragedy Stalks At Dramatic Club

Grim tragedy stalked on the stage of the dramatic club last Monday night as the Thespian club presented Synge's "Riders to the Sea" to the Sock and Buskin club and its friends.

A slight weakness in their parts was observed with the exception of the difficult role of the old mother, Maurya, which was admirably portrayed by Mrs. M. L. Shepherd.

Tragedy was inevitable. From the first unfortunate moment when the audience learns the probable fate of Michael to the tragic moment when the last of the sons is brought in a corpse unhappily was paramount.

Evelyn Sowell and Velma Eubank as Cathleen and Nora, the two sisters were as symbolical of hopelessness as the drab garments in which they stalked the stage.

Lillian Hopping was cast as the brother who died just before the finale of the play. Other people taking the parts of the mourners and fishermen were Misses Margaret Cooper, Marian Poe, Gertrude Osborne, Jolene Vannoy and Lela Fay McEntyre.

Thespians Meet This Afternoon

Club Will Sponsor Interpretive Reading Contest Which Carries \$50 Prize

A meeting of the Thespian club will be held in room 202, Administration building this afternoon at four o'clock. Short stories will compose the program. Margaret Cooper giving "John Takes a Vacation," Ena Armstrong, Buddy and Wilkes, "and Vachel Lindsey, "An Extra Pound," Marion Poe will give two poems, "The Man with Ho," by Edwin Markheim, and "Abraham Lincoln Walks at Midnight," by Vachel Lindsey.

To Sponsor Reading Contest According to the announcement, the Thespian club will sponsor the Interpretive Reading Contest to be held the first of May. A prize of fifty dollars will be awarded the winner.

Equipment Is Sent To Tech Rifle Club

Tech Rifle Club has received their annual issue of ammunition and equipment from N. R. A. The issue for this year consists of 30 calibre ammunition, and 10,000 rounds of 22 ammunition, 30 and 22 calibre range targets, indoor targets with a patented carrier, spotters, markers, patches, two Springfield 30 calibre rifles, two 22 calibre rifles, two sets of recording rods, and cleaning apparatus. The total issue is valued at about \$600.

Mrs. Charles Guy Dies Of Pneumonia

Mrs. Charles A. Guy, Jr., former Tech student, died in the West Texas hospital early last Thursday after contracting pneumonia. Mrs. Guy had been in failing health for about two months and had been ill for more than a week prior to her death.

STUDENTS PLAN TRIP TO MUSEUM

Sociology students of the college are planning a trip to Santa Fe, N. M., where they will visit what is considered one of the best museums in the southwest. While at the museum, the students will study anthropological and ethnological exhibits.

Engineer Grads Have Big Chance For Employment

Dean States Graduates Are Likely To Receive Offers From Big Companies; Employment Blanks Here

"Every student in the school of engineering is practically certain of securing a good position when he graduates," is the statement made by Dean Miller of that school. Moreover, he may also feel assured of having at least two or three offers from large companies to choose from. A number of companies have sent application blanks to Tech in the departments in which each company is individually interested and it is more than likely that the number of requests for men to occupy positions will far exceed the number of graduates.

The most recent companies to send application blanks to Tech are the Westinghouse Electrical Manufacturing company of Pittsburgh and the Chicago Central State Institute, which is the bureau of education for the Commonwealth Edison company and connected enterprises. The latter is the largest in the world whose product is generated by steam power.

It is said that it has holdings containing enough coal to operate its plant for the next hundred years. It also has expressed willingness to employ graduates from Tech who may get some practical experience before graduation, this being in connection with employment of twenty juniors, each from a different college.

Ad Building Burns At Abilene College

The Administrative building of Abilene Christian College, built in 1906, and having a present value estimated at \$75,000, was swept by fire of unknown origin January 28. Most of the equipment of the building was destroyed. The walls were damaged beyond repair.

Near 500 Attend Farm Short Course

Approximately five hundred farmers and women from thirty Texas towns and from other states registered for Tech's first annual Farm Short Course, according to figures from the officers of Deans Weeks and Leidigh.

Although Lubbock had the largest farm short course in the state, Hale Center, Abertown, Sedan, and other small towns also sent large delegations. Attendance in the women's division was greater the second day than the opening day due to better weather conditions.

RIFLE TEAM TO SHOOT MATCH

Among the many rifle matches which the Rifle Club is scheduling with other colleges and universities is that with the University of Southern California which is next on the schedule. The club is challenging twenty-five colleges for a match. Among them are Yale, Stanford, Chicago and Illinois universities.

Las Chaparittas Valentine Function Introduces Four New Members Friday

Las Chaparittas club introduced four new members at a Valentine dance given at the Up Town Dance Palace last Friday evening. In keeping with the theme of the occasion the pledges Misses Frances Ford, Mary Lois Gamel, Beth Wulman, and Dorothy Rushing entered through the heart to be met by their escorts: Candler Glazier, Joe Partain, Raymond Pluiger, and Murray Balenger. They were presented by James G. Allen. Following the presentation Miss Thelma Caraway, club president and Cash Wileman led the grand march.

An effective note in decorations was carried out in the heart tree placed near the entrance of the hall and in the hearts which were arranged across the front of the building as well as being used in the guest favors.

Those registering included: Misses Virginia Murray, Marjorie Ann Ainsworth, Pauline Patterson, Thelma Caraway, Madeline Elliot, Rita Hulstader, Lynn Dougherty, Jean Mitchell, Margaret Dell Prim, Mary Elva Burns, Christine Denney, Lois Perkins, Bob Horton, Virginia Lee Finley, Almada Murray, Cymbel Patterson, Edna Earl Patterson, Iris Crawford, Mary Snyder, Kate Boyd, Irene Darden, Veta

Senate Confirms Board Appointment

Appointment of three Tech negroes—Mrs. F. N. Drane, Navarro county; John W. Carpenter, Dallas county; and F. E. Clardy, Tarrant county—was confirmed by the Texas Senate meeting in executive session on Feb. 2. All three are re-appointees, John W. Carpenter being past chairman of the Finance Committee, while Frank E. Clardy and Mrs. F. N. Drane served on the Executive and Building Committees, respectively.

New Attraction Is Coming Soon

An attraction, different from anything that has ever been given at Tech, will be given here February 18 when E. A. Thompson, famous reader of America, gives a recital of L. N. Parker's "Diavoli." Mr. Thompson, who is making a tour of Texas schools, comes to Tech through the efforts of the Thespian club. He is from the School of Expression, Boston.

This is not the first time he has been in Texas. He has previously appeared at the following Texas colleges and universities: Texas Christian university, Simmons university, Abilene Christian college, St. Edwards university, Southwestern university, Texas Woman's college, Trinity university and Baylor college. Reports are to the effect that Mr. Thompson has been enthusiastically received at all of these schools.

Press comments are also favorable for the reader. Two of them, which Miss Cox, head of the Expression department here, pointed out as being exceptionally complimentary, are given.

"A man who, hobbled of his sight, yet lives in a world he seems actually to see, else how could he so vividly portray nature's sights and colors in his readings."—Portland, Ore., Bulletin.

Electric Company Donates Fifteen Horse Power Motor And Prepays Freight From Pittsburgh

A 15 horse power, 230 volt elevator motor valued at \$400 has been donated by the Westinghouse Electrical Manufacturing company of Pittsburgh to the department of electrical engineering. Freight was also prepaid on this motor. Other large companies as in the habit of making similar donations of equipment to the different departments of the engineering school, and this example shows how the industries are anxious to help the students whom they will later employ in their training.

Council Assumes Budget Liability

By unanimous vote at a meeting last week the Freshman Y. M. C. Council assumed responsibility for raising the freshman boys' part of the general Y. M. C. A. budget of \$7500, \$1500 of which is to be raised among the student body. Six teams have been formulated for that purpose, captains of each team to be named, and work is proceeding rapidly. It is intended that some member of a team will interview every freshman in the class upon the subject. The Council has urged that everyone should respond freely in order to uphold the honor of the class by covering its share of the budget.

Constitution To Be Finished Tuesday

A constitution embodying the organization, officers, functions, etc., of the Student Council of Tech is in the making and will be completed at the regular meeting of the present council Tuesday night, according to Jack Maddox, student prexy. As yet the constitution has not been sufficiently completed to be submitted for approval but it is expected that the group next Tuesday will accomplish the finishing touches and make definite plans for enactment of the provisions therein provided. It is planned, first, to submit the constitution to school authorities for endorsement. Later it will be presented in some way to the student body as a whole for final approval and ratification. This new proposed law will, duly approved, govern and limit the activities of succeeding student councils except wherein it is amended from time to time as provided in an amendment clause.

STUDENTS DO TERRACING

Two lines of level terracing are being run west of the poultry plant by a class in Soil Survey and Terracing. A special machine for terracing which was donated to the college is being used for the work. Professor Bower states that a picture of the class taken beside the machine will be sent to the company which made the donation.

Student To Speak For Pi Gamma Mu

"Racial Understanding" Is Subject Which Koeninger Will Discuss Before The Social Science Group

Pi Gamma Mu is to hear a discussion on "Racial Understanding" at the regular meeting Friday night. Rupert Koeninger, Tech student who is familiar with the racial situation, will be the speaker of the evening.

The question for discussion is one of great magnitude. However, the race problem will not be dealt with in detail. Primarily, the student in the United States, particularly in the South, will constitute the basis of Koeninger's talk. Although the Negro and American Indian are the most glaring problems in this country, the group's work will be spent somewhat in reviewing the caste and class system the world over in so far as such are the results of racial conflicts and misunderstandings.

Special attention will be given to the answers received to some of the questionnaires circulated about Tech and Wayland College of Plainview. These queries compiled and given out by Rupert Koeninger himself contain some 70 statements concerning race relations. Each statement was to be marked as to the degree of truthfulness or error according to each individual's view. Such statistics give a very concrete illustration as to the attitude of students of Tech and Wayland to questions of race.

Baylor Girls Aid Sisters At Belton

WACO, Texas, Feb. 5.—Responding to the needs of the women of Baylor College, Belton, as a result of the fire which destroyed Luther Hall, the women of Baylor university, Waco, have gathered together dresses, shoes and other wearing apparel and sent to the unfortunate sisters of their neighbor institution.

\$400 Motor Given By Westinghouse

The chairman of his troop committee writes: He has been an honor student in both high school and college. This scout lost his father several years ago and has been the nominal head of the family, assisting in the support of his mother and younger sister. He is working his way through college and his training in Merit Badge requirements has helped him earn money. His work in the Council has been outstanding. He always takes an active part in any program that has to do with the closer unity between Scouting and his community."

Five New Members Added To C. Of C.

Texas Tech Chamber of Commerce now has five new members on its roll. Assembling last Wednesday night in a called meeting the initiation committee composed of O. Reed, Vaughn Corley and Elmer Moore, carried the new members through a series of ceremonies that were entertaining to the Club members and at the same time rather humiliating to the candidates.

Business Manager Back From Austin

Business manager, E. W. Provence, has just returned from Austin where he has been attending to matters with reference to appropriations and to the general college catalogs which is expected off the press soon.

Soph's Set Dance For February 21

A meeting of the sophomore class was held in room 302 last Wednesday at 7:30. It was decided that the class will give a class dance Wednesday, February 21 for which Grady Glider's orchestra will play. The dance will be held in the gym. Mansell Hall presided over the meeting. The dance committee consisted of Mendle Hughtet, Bill Walker and Margaret Hervey.

Woman Is Added To Engineering Faculty

Mrs. George N. Atkinson, who has been recently employed as a part time instructor in engineering drawing, is the only woman in the faculty of the school of engineering. She has had several years of experience in teaching engineering drawing and it is probable that she will remain in the department for the rest of the year.

Y Campaign Gets \$132 From Leaders

Although the "Y" campaign is still gathering momentum before actual solicitation begins, directors of the campaign decided to come through with their contributions at once. So far six pledges from directors have come in. These six students donated a total of \$132 or an average of \$22 each.

Tech Student Wins Scout Scholarship

Eugene Adair, who held the distinction of being the youngest Freshman at Tech last year, has recently received the highest honor of any Boy Scout in the State of Texas, with the award of a Harmon Foundation Scholarship. Adair is an Eagle Scout and was not only the Boy Scout to be awarded this Foundation, being among 52 Scouts to receive it, but his Scouting record is published by the National Scout Council as the foremost record made by all those winning this single honor.

Adair was one of the Scouts trying for the appointment as one to be chosen by Martin Johnson to accompany him and his company to Africa.

Under the provisions of the Harmon Foundation Scholarship agreement, 52 scholarships of \$100 each are given annually to the Eagle Scouts of the country who have shown that they actually put into everyday practice the principles of the Scout law, "Be Prepared" and the doing of a good turn daily. They must have maintained an active service relationship to Scouting for at least one year, they must make an effort to develop and demonstrate leadership ability, and they must have given conspicuous and unselfish service of some constructive nature, which denotes character, perseverance, or self-sacrifice.

Pender Delivers Second Speech To University Women

Professor H. C. Pender of the Government department delivered his second in a series of talks to the International Relations group of the American Association of University Women, yesterday in the home of Mrs. Mary Doak. Past international political organizations were reviewed; their respective achievements and failures discussed; and their inter-relationship with the present League of Nations was shown. How that such organizations as the International Postal Union, International Labor Unions, International Organizations for Sanitation, and others which have attempted to do, and how they are now functioning under and through the League of Nations was shown in the address.

International arbitration in time of war by the League was not discussed. Primarily these discussions of the League of Nations perform in times of peace were reasoned upon by the speaker. Nor was arrival at a definite conclusion as to the merits or demerits of the League attempted.

This lecture is to be followed by another by Professor Pender before the same group. Other subjects to be discussed are: "The American Isolation Policy," "Organization of the League of Nations," "American Cooperation Through the League," and "The Kellogg Peace Pact."

RUSSELL TALKS TO ARCHITECTS

Lloyd Russell talked to architectural students on "The Essence of Architecture" at a meeting of the Architectural club Thursday night. At this same meeting the club held a short business session which dealt with its constitution.

WHERE IS THE PREFERENCE?

The question as to whether the business and commercial world really wants college graduates in preference to the men who do not have college training is often raised. Argument can be found in abundance on both sides of the question. But we are inclined to believe that the college student who is really prepared to do something and who is willing to work should have little fear about ever getting a good position.

This belief is strengthened by two statements which were made by two different men on the campus last week. Mr. Bozeman, a superintendent in the John Deere Implement Manufacturing Company, in lecturing to one of Dean Leidigh's classes, said that large companies were partial to the college trained man. Dean Miller, of the Engineering school, implied that every engineer could feel reasonable sure of employment upon graduation. This implication is backed by actual employment application blanks which have been sent to the school by large companies and which are to be filled out by senior students.

FINE WORK, FORUM

An excellent piece of constructive work is being done by the Women's Forum. It is sponsoring a series of faculty lectures on foreign countries. Dean Doak made the first of the series on England. Then last Sunday, Dr. Carter presented movies of Germany showing the many castles of the Rhine and answering questions for members of the audience.

We feel that members of the student body who have not been attending the lectures will be well repaid if they get the schedule for the entire series and miss none of the speeches which are to follow.

What Tech Offers

Told By Department Heads

Political Science or Government is one of the oldest of the social sciences. As a study it is not addressed to any one special group of professional or semi-professional students. On the contrary, the study of government is universal in its appeal, touching vitally the interests of all college students as citizens, as voters or prospective voters and as future leaders in public affairs.

Student Opinion

THE HARD GUY I am the hard guy. Most of the time I am a freshman but many times I am in the form of an upper classman. I believe in treating 'em rough for why should I respect the faculty members and be scolded to fellow students? Is it not a sign of weakness?

I do not try to create tradition and I do not respect the traditions of others. I wear my hat in the hall and create all the disturbance I can. When I walk to school with a girl I let her carry her own books. When I start in a door I go right in and let the door slam behind me, never paying any attention to the lady or the heavily laden student who is waiting there.

I have let the heavy doors close many times carrying light persons before them. Would not the general public consider me a "soft sister" if I acted gentlemanly? I forget that everyone does not follow my code.

I scoff and scorn everything I see. I make fun of the prof and wise crack the girls. I laugh at boys who are real gentlemen and call them Boy Scouts. It is my great delight to say things that hurt. I have to be hard for my public's sake.

Way down underneath my hard exterior I am human. I know that I am not really hard and these are not my true instincts for if they were I would keep them to myself. I feel that I have to create an impression but am I not making myself hated instead of building a good name? Why don't I and all my kind discard this rough exterior which is in a way a sign of ignorance and be a true college citizen? I believe I owe it to myself and my fellowman. —H. R.

is a wide diffusion of political knowledge accompanied by a program of character building, the democratic experiment will surely fail. It is the appreciation of this simple truth more than anything else that has led to the recent great advancement in the teaching of government in colleges and universities.

The distinctive contribution of Political Science as the study of Government in has recently been formulated in these words: "Political Science is the study of the State, a term which includes all forms of political organization. It deals with the life of men as organized under government and law. As its distinctive contribution to the social studies it gives an understanding of social control by means of law and of the promotion of general welfare by means of governmental action."

Political Science includes a study of the organization and the activities of the states and of the principles and ideals which underlie political organization and activities. It deals with the relations among men which are controlled by the state, with relations of men to the state itself, and with those aspects of international life that come under political control. It considers the problems of adjusting political authority to individual liberty, and of determining the distribution of governing power among the agencies through which the State's will is formed, expressed, and executed. Political Science seeks to develop in individuals a sense of their rights and responsibilities as members of the State, and a realization of the significance of law.

It substitutes accurate information and intelligent opinion for emotions and prejudices as a basis for forming judgments in politics and world affairs.—W. A. Jackson.

Announcements

All Engineering students are called to meet at the Engineering building tomorrow at 5 p. m. Speakers for the engineer's banquet will be elected at this time.

Senior class meets 7:30 tomorrow, room 220.

Hall County club will meet tonight at 7:00 instead of 7:30.

East Texas club meets tonight 7:30, room 209, Ad building.

"T" club meets Thursday, 7:45, gymnasium.

JUDGING TEAM SPENDS WEEK END TRIP

Tech's junior stock judging team, accompanied by coach R. C. Mowery, spent last week end near Tulla working out on stock farms in preparation for the contest which will be held at the Fort Worth Fat Stock Show next month.

Debaters Defeat Canyon College Men By Critic Judge Decision Yesterday

Jackson, Knowles and Edelman Represent Tech On Government Question

Tech defeated Canyon by a critic judge debate decision yesterday afternoon on the affirmative side of the question: "Resolved, That Parliamentary Government is Superior to Presidential Government." Tech was represented by J. W. Jackson, Sid Knowles, and William Edelman. Canyon was represented by Frank Barnes, J. D. Gamble, and J. D. Hazelwood.

The debate was held in room 302 Administration building. Tech representatives advanced argument to show that in the parliamentary type of government responsibility can be definitely located; that parliamentary government reacts more readily to the will of the people; that there is no possibility of deadlocks between the executive and the legislative departments; that legislation may be passed immediately upon the occasion of its need; and that parliamentary government makes possible the representation of all the people living under the government.

J. W. Jackson, second year debater for Tech, was outstanding both in rebuttal and main speech. Knowles and Edelman did good constructive work.

On February 19 Tech will debate Texas-Christians University on the same question. Tech representatives will take the negative in this encounter. This debate will be held at the Gym. Surrounding high schools are being invited to hear it. B. Z. Rogers, superintendent of schools, Lamesa, served as judge.

Exchanges

A bill appropriating the necessary funds for the establishment of a South Texas Tech with the present college plant as a nucleus will be introduced in the 41st Legislature now in session at Austin. The passage of the bill is being given impetus by a strong popular demand for a Technological college for all the districts of South Texas. The success of such a bill cannot be predicted with any certainty, but the chances for its passage are very strong.—South Texan.

Tech had the only Freshman Council in the South until the University of North Carolina recently organized a "Freshman Friendship Council."

Authorities at Stephens College, Columbia, Missouri, require their 200 co-eds to take an afternoon walk every day. The man has an effect of appreciable scholastic improvement, members of the faculty report.—The Campus Chat.

The Daily Texan announces that the registrar of T. U. lists 502 candidates for B. A. degree in June.

Theatre Review

At the High School auditorium on Thursday evening, January 31, the Little Theatre of Lubbock presented "SUN UP," the third play of the season. This stirring folk-play by Lulu Vollmer, has been produced by Little Theatre groups all over the country, and has been received with enthusiastic approval wherever it has been seen. The scene is placed among a primitive folk in the mountains of North Carolina near the city of Asheville.

The theme of the play is subjective and the conflict is centered, principally in the tradition, and which Widow Cagle bears for "the Law." Mrs. T. A. White interpreted this role with a sympathy and understanding which is rarely witnessed in amateur productions. There was no evidence of "over-acting" which makes amateurish; the inner-conflict was rather sensed than felt.

Professor Smallwood Creates Character

Prof. George Smallwood of the English Department created in Pap Todd an interesting, pathetic, and humorous character. His voice-work was exceptional, and he lent himself to his role with an understanding that was consistent and convincing.

Leta Flo Edgar, as Emmy, Pap Todd's daughter, carried the part well, allowing for the occasional lapses of character. A certain sophistication seemed a little too evident at times; but, fortunately, these were only momentary.

Although his was a minor part, Le Roi Vaughn did decided credit to the role of Bud, Emmy's "quaker" brother. His lines were few, but at no time did he slip out of character.

Earl Sparks Appears Earle J. Sparks, student in Texas Tech, was cast as Rufe Cagle, son of the Widow Cagle. His work was distinctive at times, and deserves more than ordinary mention. However, even while we keep in mind the general tone of the play, we are of the opinion that Mr. Sparks might have used more variety in his voice-work to a good advantage.

Math. Prof. is Mountaineer Lonnie Langston of the Mathematics Department gave a clever interpretation of the mountaineer preacher. Others of the cast included

LUBBOCK, TEXAS

J. B. Galland as the sheriff, Gaylord Hankins as the stranger, and Charlie Laykey as Bob. The play, as a whole, was well done, owing a large share of its success to the director, Miss Ruth Pirtle, whose artistic and technical ability has contributed much to the growth of the Little Theatre of Lubbock. The general tone and atmosphere was established early and was maintained consistently to the end. Variable and interpretive lighting played a large part in this respect. The setting for the play, which was designed and executed by the Class in Stagecraft in Tech, was also a great factor in this particular. The action dragged slightly at intervals, but was very well timed taken as a whole. The technical artistry of Mrs. T. A. White's acting kept the theme of the play always to the foreground and rounded the production to a very satisfactory close.

Pinson Opens New Store Near Campus

A new drug store, to be known as the Pinson Drug Co., No. 2, will be formally opened Saturday of this week in the new building at 19th and Ave. Y, one block east of the campus on 19th street.

The store is operated by Mr. Bert Pinson, and will be one of the three stores to occupy the new arcade type building now being completed.

THE WIND ON THESE PLAINS The strength of the wind. And the harmony of its song. Is like an old lady's skirt—Flowing and long.

Great is the strength of the wind! With freedom it sweeps along Without hindrance or stop, Truly—the wind is strong.

If I could sing like the wind, Never stopping for breath in a song, Then, I too, in my singing, Would be sweeping and strong. —Jave Velin.

Tech And Daniel Baker Divide Hard-Fought Games Of The Season; Competition Is Fast And Furious

Texas Tech and Daniel Baker split their two game series in two of the hardest games of the season. In fact the average collegian rarely see two consecutive games in which the two teams are more evenly matched. Hodges and Miller, forwards, for the Matadors and Goats respectively, were running wild in the first game and as a result Miller was high point man with 29 points. Hodges was Tech's best with 24 points. Saturday night's fray saw two men on each of these teams and as a result they were held down in scoring.

Win-By One Point

Both teams won their respective victory with only one point margin. And that one point was added in the closing seconds of play. The Goats came here big favorites to annex both contests, having split a two game series with Burton's Buffs on Wednesday and Thursday nights. As a result of the series, the supremacy still remains very much disputed. Both will have to be content with a tie—and ties are very much in evidence in the athletic relations of the two schools, when it is remembered that last year's football game resulted in a tie, as well as the game of 1926.

Puts Forward at Guard Position

The first night, Coach Blair shifted his lineup and placed Miller, scoring ace, at guard position. At the close of the first two minutes, the Matadors had scored 6 points and were having trouble in passing through the Hill Billy defense. Miller was shifted to forward but still the onslaught continued. At the half, score 26-17 in favor of the Crimson tide.

"Fast and Furious" only mildly describes the second half. In this period the Goats came back with Miller sinking many crib shots and adding 11 points by his uncanny ability to make free goals. Walker contributed 8 points to the Matador cause, all of which were tossed from the vicinity of the center of the court. Incidentally Coach Morgan called 3 technical fouls on the audience for booing and hissing the referee in a decision. These 3 fouls only boosted the Daniel Baker total 3 points, due to the uncanny ability of Miller to sink free tosses.

Free Toss Wins

Failure by Hodges to toss a free goal and success by Johnson decided the game Saturday night in a bitter, fought game that was replete with thrills. The lead switched from one side to the other in a game that featured by brilliant defensive play. Both teams were clearly off form, as far as scoring was concerned and as a result the score was held down. As the time keeper's watch showed 5 seconds to go a double foul was called on Hodges and Johnson, with the score tied.

game in that he seems to have an uncanny instinct to know where every man on the floor is located at all times. This, needless to say, makes his subsequent passing a decided asset to the team.

Coch Burton of Canyon scouted the Daniel Baker-Tech game on Friday night. As Daniel Baker split their series with the Buffs, new hopes arises in Matador supporters. Tech apparently has an even chance to beat Canyon.

According to reports brought from Buftland by the Goats, Crump and Lowes are not so hot this year. Red Keith is the young gent that is causing the opposition all of the trouble this year.

Sidney Knowles and Slim Hazelwood have met several times on the gridiron. Yesterday evening they met in a new role. They met not on the gridiron or the basketball court but on the stage in a debating contest between Canyon and Tech.

Arkansas continues its winning ways. Last Friday and Saturday nights they smothered Drury College of Springfield, Mo., in the 30th and 31st consecutive victories of the present season.

Texas University and Texas A. & M. have both announced the beginning of baseball training as well as track workouts.

Buffalo Quintet Display Dazzling Passing Machine To Administer Tech Cagers Sound Beating By Score, 32-14

Paymen Off Form In First Of Two-Game Series With West Texas Teachers; Lowes Leads In Scoring

The West Texas Teachers played basketball like champions last night to hand Coach Victor Payne's Matador quintet a sound drubbing to the tune of 32 to 14 in the first of a two game series.

Displaying an uncanny passing game, the Buffaloes played a strictly defensive game in the first half and came back in the closing frame with their scoring machine oiled to perfection. The visitors found the Matador cagers off form in practically every department. Poor passing, ineffective shooting and defective floor work made the Tech basketballers easy victims for the Burton crew.

Playing air-tight defensive basketball throughout the opening period, neither team found the basket consistently before the second half started. It was evident from the outset that the Matadors were considerably off, many shots which appeared sure baskets rolling off the hoop into the arms of a Canyon guard. Crump led the visitor's scoring attack during the initial frame, accounting for six of the ten points the Buffs scored during this half.

Trailing 10 to 6 at the half the Tech basket loopers made a momentary flash in the pan at the beginning of the last half with Dalton in the starring role. His long shots through the basket enabled the locals to climb to within two points of the visitors, but not for long. Lowes and Newman began to break through the Tech defense and the

DALLAS CLUB MEETS

The Dallas club met Monday night, Feb. 4. A committee of four was appointed to decide on a social affair which will be given Feb. 14. A matter of a constitution was discussed briefly. The meeting adjourned at 8:10.

Athletic Items

Tech and Canyon are handicapped greatly in both track and basketball competition, by virtue of the fact that both schools must wait at least 30 days to start training after schools off the caprock have already started.

For the first time in several years, Canyon seems to be eliminated from the T. I. A. A. cage race. Denton East Texas and Daniel Baker have each defeated the Buffs once each, with only 5 games remaining on the Canyon schedule that has any bearing on the T. I. A. A. flag.

Monroe continues to wallopp everything in sight. Littlefield was the last victim. Coach Floyd Blakenhip's team let Littlefield have it in the ear last Thursday night to the tune of 44-15.

Happy Dalton, although not so hot on scoring, plays a remarkable

Former Ag. Student Is Father Of Boy

A baby boy was born to Mr. and Mrs. Clyde Brown, January 29. The father is a former student of the school of agriculture, studying landscape gardening here in 1925, 1926, and the spring term of 1928. He is now coach at the Jayton high school, and is teaching history and botany there.

Intramural Contenders Carry Oval For Same Number Of Yards And Are Unable To Make Score On Each Other

Saturday was a fine day for football. And a fine game was accordingly played. The Liberal Arts and Engineers fought through 2 minutes to a scoreless tie. Using only straight football both teams displayed a surprisingly amount of strategy, skill and teamwork, but the time was too short for either team to do any scoring. With a decided weight advantage, the Engineers, coached by Chubby De Witt, were able to chalk up 6 first downs but were unable to gain when gaining meant scores. Both teams carried the oval for the same number of yards.

Passing Is Inconspicuous The Liberal Arts were penalized two times also but for only a total of 10 yards. The passing attack was conspicuous because of its absence. The Engineers attempted 5 passes but failed to complete any of them. The Liberal Arts tried to pass one and it went the way of all ill-planned passes.

A Liberal Arts back went around the end for a 55 yard run to the 30 yard line but he was called back on the grounds that both teams were offside. Maddox, Engineer fullback, also attempted a drop kick from the 30 yard line but it was short and wide.

For the Engineers, the defensive work of Earnest stood out from his position at guard. Bergfeldt and Maddox were by far the best line pluggers on the field. It was the Engineers to stack up a neat total of yardage.

The brilliant but steady work of "Whacker" Barton, erstwhile Lubbock High tackle, was the feature of the game. This young red haired Irishman, who entered Tech on Jan. 2 broke up play after play of the De Witt men before they were started. The denizens of the north Campus soon learned to route their runs around the other side of the line. He also excelled in the punting department of the game, with his punts averaging well over 40 yards. In fact one of his punts, (roll and all) carried for over 80 yards.

Mooney and Honey, Liberal Arts backs, played a neat game, against their heavier opponents. The next game is scheduled for this afternoon at 4:15 between the Liberal Arts and Vaughn Corley's Farmers. The final game between the Cow Hands and the Engineers will be played in all probability Saturday at 2 o'clock.

Near 200 Attend Methodist Banquet

Near 200 Tech students were present at the annual Methodist student banquet which was held in the basement of the First Methodist church. College atmosphere was lent by the decorations which were of scarlet and black colors. A program of unusual interest featured the evening, including a number of songs led by Edridge Eagen, of which one titled "The Boasting Song" sung to the tune of "Jacob's Ladder," composed by Horace Grady Moore. There were also several musical numbers by the church orchestra, the Methodist group, and the Green brothers, following which spirituals were sung by a negro chorus. President Horn was the speaker of the evening, making a talk on the topic, "The Student Prince." Before commencing the banquet, thanks were returned by the Rev. Mr. H. L. Munger, pastor of the church, and guests were introduced by Clarence Whitesides, council president. By a unanimous vote of all those present it was decided to continue holding the banquet as an annual affair.

Telegram Editorial Commends Course

"The opening of the first farmers' short course at Texas Technological College Tuesday is an event second in importance only to the establishment of that institution," says The Ft. Worth Star-Telegram in a recent editorial. In comparing the Tech course to the A. & M. annual short course the paper stated that, "The college was brought into being and set in the midst of West Texas to render a service of the same sort as is rendered by its older sister." The Telegram stated that although A. & M. is the federal agency for experiments, Tech has ample opportunities to render a great service to the newer developed portions of the state through the holding of an annual school of instruction and clearing house of agricultural ideas.

LOS GAUCHOS ORDER PINS

"Los Gauchos" as in full sway. At present the club is ordering pins using the club emblem as a crown. This emblem is a mask with a dagger slipped through it. The president, Frank Stone, states that pledges are soon to be selected after which a banquet is to be given in their honor.

MISS PETERS TALKS TO WOMEN'S FORUM

Miss Erico Peters, senior student who visited Germany last summer, talked to the Women's Forum recently telling of her personal experience while there. Miss Peters has relatives in Germany and her stay with them afforded an interesting topic for the discussion.

First All-Freshman Debate Is Staged

For the first time in the history of Tech an all-freshman debate was held: between Tech and McMurry at Abilene, Monday, Jan. 28. Alvis Ellis and Don Wellenman upheld the affirmative for Tech on the question: "Resolved, That a Trial by Jury Should Be Adopted." McMurry was represented by Auburn Neely and Laurel Dunn, who spoke on the negative. The decision was awarded to the McMurry debaters.

A cordial reception was given the Tech debaters as guests at the home of the president, according to Miss Pendleton, who accompanied the

freshmen on their trip. The audience consisted of many students from Simmons, A. C. C., and McMurry. Judges for the occasion were Mr. Stevenson, debate coach at Simmons; Mr. Childers, a lawyer of Abilene; and Dr. West, Abilene dentist.

Tech Represented At Church Party

Young people of the Broadway Church of Christ met Friday evening in the basement of the church for a good time.

There were games of all kinds played which were directed by Miss Troy Baker. The old game of school was played with Miss Baker acting as the teacher. Only two lessons were taught; one was a health lesson, the other was a history lesson in which the Tech was well represented. "The Three Bears" was dramatized by the teacher's pets. The readings "Between Two Lovers" by Maggie Lee Inman, and "The Midnight Game" by Opal Hawes, was given.

Refreshments were served in the school room, and each pupil given a valentine.

Fish Dance Set For March 12th

Announcement that the freshman dance will be held on the night of March 12 in the gymnasium has been made by Jimmie Whitesides, class president. A number of the members of the class have been appointed to act on three committees, program, refreshment, and decoration, which are arranging various details of the affair. It was also mentioned that the class will probably go to Silver Springs or some other resort on Freshman Day this spring. At this meeting a new sponsor, Miss Reigel, was elected to work with Lonnie Langston, filling the place vacated by the departure of Miss Parker.

Ready—The New SPRING SUITS

Men, we have just unpacked a complete and full line of the spring's newest styles. Our policy is to "SELL FOR CASH, AND SELL FOR LESS" and it is this cash policy that enables us to offer these all-wool suits of the highest class tailoring at far below the ordinary prices. The lot includes the best materials in the land—the newest styles in sizes for regulars, slims and juniors at—

\$24.75, \$29.75, \$32.75, \$34.75, \$37.50, \$45.00 AND \$57.50

All handcrafted by such nationally known tailors as Kuppenheimer and Heldman. Don't fail to use this opportunity to at least look at what's new for Spring.

"We Can Fit and Please You"

Barrier Bros., Inc.

"There's No Substitute For Value"

S. F. Q. R. MEETS Games by J. W. Jackson. The club sang several Latin songs. Refreshments were served, carrying out the Valentine scheme. A large number of members and guests were present.
