VOLUME III.

TEXAS TECH, LUBBOCK, TEXAS, MARCH 13, 1928.

NUMBER XX.

## Junior Queen to Be selected by Class Members

SEVERAL CANDIDATES ARE TO CONTEST FOR COVETED PROM HONOR.

Several candidates have been nominated for the honor of being Tech's second Junior Queen, to preside at the Junior Prom which is to be held in April. These candidates, from whom, the Junior class is to select their queen are: Afton Gilkerson, Jane Mast, Evelyn Jennings, Virginia Grigg, Sally P. Simmons, Nell Hol-lar, and D'Aun Sammons.

The Juniors are to vote on their choice, the final voting date being March 25th. Bids for the annual affair go on sale on March 17th, and the president of the class, Mr. Floyd Woodruff, urges all Juniors to secure their bids as soon as possible.

Tech's first Junior Prom was held last year honoring the first class to graduate from this institution. Miss Glennys Honey was selected by the Juniors of last year as their queen. The Prom during 1927 was exceedingly elaborate but the present Juniors have made their boasts that the affair this year will surpass any function of its kind, which has heretofore been given in the college.

## Miss Biffle is Bride of Hale Center Man

Miss Carabel Biffle, postmistress of the Tech P. O. branch, became the bride of Mr. Howard Lemond of Hale Center, last Tuesday. The ceremony was performed at the home of the bride's mother in Silverton at high noon.

Mrs. Lemond has attended school at Clarendon college and at W. T. S. T. C. at Canyon while Mr. Lemond is a N. M. M. I. man. The couple are to reside in Hale Center.

## Press Club Hears Ex C. I. A. Lass-O Editor-in-Chief

The Press Club met last Wednesday evening at which time Miss Blanche Bean, former C. I. A. Lass-O Editor and present society editor of the Avalanche-Journal, addressed the writers. Miss Bean took up various practical terms of editing a newspaper, paying especial attention to policies of various papers. The speaker showed wherein school journalism differed from commercial journalism.

The Club also took action on matters pertaining to submission of contributions to the T. I. P. A. contest editor. The T. I. P. A. convention is to be held in Canyon during the month of April. Texas Tech was made a member of that association at the last state meeting of the T. I. P. A. association which was held in Waxahachie last year.

### DR. HORN HEARS JOHN McCORMACK

Dr. Paul W. Horn was in Amarillo Friday for the purpose of attending the John McCormack recital in that city during the evening.

Mrs. T. A. Harrison of Roswell, New Mexico, visited her daughter Miss Pearl Harrison, Secretary to Dr. Horn, last week. Mrs. Harrison returned to her home Wednesday night.

### RETURN RECORD BOOKS.

Registrar E. L. Doheny urges all students to return their student record books to his office before March 17. A fine of \$1.00 will be assessed each student not returning his book by that date.

## Mr. Rylander Speaks At Final Convocation

Mr. Rylander, local business man, spoke at Convocation last Wednesday, the last all-student meeting of the term. Mr. Rylander advised all students to "radiate their knowledge." Dean Leidigh was in charge of the meeting.

## Pi Gamma Mu Hears Talk on Mooted Topics

With Mr. Pender of the college, and "Pinky" Lowery of the local high school faculty as principal speakers, Pi Gamma Mu delved further into questions of Imperialism and Nicaragua at their regular meeting last Friday night.

Mr. Pender in his discussion on "Imperialism" took the term and traced it historically, making such personal comment as he deemed necessary. Mr. Lowery spoke on the so-called conservative or administration side of the Nicaragua question, bringing out facts which have in a measure escaped public attention.

The meeting last Friday night was the last of the meetings which have been devoted to a discussion of international Relations Conference to be held here on April 1, 2, and 3. For this conference Tech has, indeed, been fortunate in securing the services and attendance of men of a nation wide reputation, such as Mr. Sherwood Eddy.

## Las Chaparritas Members Feted by Joint Hostesses

Misses Edna Yonge, Cecil Dawson, Juanita Strong, and Clarice Scott were hostesses to Las Chaparritas club members with a luncheon at Hotel Lubbock Tuesday afternoon at 1 o'clock.

A color scheme of green and white was used at a prettily appointed table where a four-course lunch was served. Mrs. Mary W. Doak, dean of women at the Technological college, and Miss Virginia Johnson were guests.

Club members attending were Mrs. Henry Mobley, Mrs. Royce Waters and Misses Almeda Murray, Pearl Hensley, Afton Gilkerson, Cymbol Patterson, Floy Pryor, Willette Wauweice, Ruth Starnes, Sylvia Wilson, Verna Wilson, Lucille Lucas, Thelma Caraway, Lynn Daugherty, Johnnye Gilkerson, and Sue Rattan.

## Stock Judges to Ft. Worth Show

The Tech Stock judging team and several interested members of the student body left for Fort Worth last Saturday where the judging team will participate in the judging contests at the Fort Worth Fat Stock Show. Mr. Stangel of the Agriculture school will have charge of the Swine Division at the Stock Show.

## Geol. Dep't. to Offer New Course for Spring Term

The Department of Geology announces a new course for the spring term, which will be of special value for students who are preparing to become oil geologists. This is a course in geological mapping, in which instruction will be given in the various field methods used by geologists in making Area geology and Structural Maps. The course will be essentially an intensive one in the use of various instruments used by geologists in field work, such as the plane table, Brunton compass, explorer's sketching outfit, and other special methods made use of by geologists in field work. The course must be either preceded or accompanied by C. E. number 130 or 241, 2, 3.

## Plans for Registering Both New And Old Students for Third Term

Plan for Registration of Students Now in School. Monday, March 19, 1928.

I. Engineering Students report to the Textile Engineering Building where definite instructions for registration will be given.

II. Home Economics Students report to their building for instructions.

III. Agriculture Students report to their building for registration.

IV. Liberal Arts Students will report to their advisors. Faculty advisors for making schedules will be assigned rooms, as follows:

English, Rooms 207 and 209  
Mathematics, Rooms 206 and 208  
Public Speaker, Room 202  
Physics, Room 220  
Chemistry, Room 220  
Spanish, Room 219  
Latin, French, German, Room 217

Government, Economics and Bus. Adm., Room 221  
Biology, Room 318  
Geology, Room 318  
Education, Room 302  
Music, Room 305

Students desiring to make any changes such as taking new or advanced courses may do so only with the approval of the head of the department.

V. After schedules are made report to corridor third floor, between main stairways, for checking by representatives of all departments. Deans will not approve schedules that have not been checked.

VI. Liberal Arts men to Dean Gordon, room 211, for approval of Schedules.  
Liberal Arts women to Dean Doak, room 102, for approval of schedules.

VII. All students to Business Office, room 104, east wing, Administration Building, for payment of fees, EXCEPT ENGINEERS, who pay fees at Textile Engineering Building.

VIII. Students will be required to submit "The Student's Study List" to each instructor when first entering classes at the beginning of the spring term.

Information for New Students: Order of Registration. March 19, 1928.

I. WHERE TO START: Main entrance Administration building.

(1) Report to information bureau in the rotunda of the east wing of the building; register your Lubbock address and church affiliation. Bring approved Lubbock Address to Registrar's office.

II. (1) Report to Home Economics Building, Room 206, for physical examination and vaccination, if needed.

Students must receive card from the College physician showing physical examination and satisfactory vaccination, which card is to be filed with the Registrar before schedule cards are issued.

III. All students file entrance or transfer records in office of the Registrar, Room 210, and receive entrance, registration and schedule cards.

IV. (1) Liberal Arts students should report as follows to any of the following offices for making schedules: Pre-medical students to Room 313, Pre-Law students and Business Administration to Room 319; those who will major in any particular subject to the office of that department: Mathematics office, Room 204; English office, Room 205; Public Speaking, Room 202; Physics Office, Room 223; Chemistry office, Room 218; Spanish office, Room 225; German and French office, Room 317; History office, Room 316; Geology office, Room 315; Music office, Room 305; Education office, Room 304.

(2) Engineering students will report to the Textile Engineering Building for having schedules made.

(3) Agriculture students will report to the Agriculture Building for having schedules made.

(4) Home Economics students will report to the Home Economics Building for having schedules made.

V. All Liberal Arts students report to corridor between rooms 306 and 313, third floor, Administration Building, for checking schedules.

VI. Liberal Arts men to Dean Gordon, room 211, for approval of schedules.  
Liberal Arts women to Dean Doak, room 102, for approval of schedules.

VII. All students, EXCEPT ENGINEERS, to Business Office, room 104, east wing Administration building, for payment of fees.

A representative of the business office will be in the Textile Engineering Building to collect fees of Engineering students.

VIII. Students will be required to submit "The Student's Study List" to each instructor when first entering classes at the beginning of the spring term.

## Miss Williams Talks To Lubbock Nurses

Merle Williams of Miss Harper's Institutional Management Class talked to the Dietetics class of the Lubbock Sanitarium last Tuesday evening. Her subject was, "The Co-operation of the Health Nurse with the Lunch-Room Directors of a city."

Wensel (Bony) Fulton, who attended Tech last year is now engaged on a newspaper in Odessa, Texas.

## Former Tech Student Now in Galveston

Campbell Loughmiller, former Tech student, is now in Galveston, but has retained his contact with Tech by enrolling for correspondence courses in journalism. He is working from time to time on the docks in Galveston and Houston. Loughmiller has on previous occasions made several trips abroad.

## Tech Studes Appear In O'Neill Play

Several Tech students appeared in the Little Theatre Play "Beyond The Horizon" last Monday night. Horace Grady Moore played the character, Robert Mayo, while John Burroughs was portrayed as Andrew Mayo, Robert's brother. The play was pronounced a success.

## Sans Souci Club Entertained on Two Occasions

Mrs. Charlie Guy entertained the Sans Souci club Friday, in honor of the following new members: Margaret Bennett, Fegi Steele, Donna Vaughn, Jerry Smith, Helen Womack, Glens Sims, and Mrs. Al Jennings. Each of the new members were presented with a beautiful bracelet.

Bridge was played during the evening, Miss Jane Mast winning high score prize, a beautiful pair of silk hose. Miss Ann Harston received a novelty glass flower as low. Miss Mary Frank Nickols cut high for a pair of silk hose.

A salad course was served to: Alma Spikes, Jane Mast, Novelle Hemphill, Ann Harston, Mary Frank Nickols, Anna Belle Collins, D'Aun Sammons, Margaret Bennett, Fegi Steele, Donna Vaughn, Jerry Smith, Helen Womack, Glen Simms, and Mrs. Al Jennings.

At Hotel Saturday. The Sans Souci Club entertained its new members with a one o'clock luncheon at the Lubbock Hotel Saturday. Green and pink the club colors, were used in the decoration in the form of sweet peas. Favours were given to each of the members attending.

## Twenty-five Boys And Two Tech Men Attend Conference

Mr. Roy McCollough, Tech Y man, and Dean J. M. Gordon were in Wichita Falls during the past week with some twenty five Lubbock boys who attended the older boys conference which was held in that city. The Lubbock delegation went to the conference with the avowed determination of securing the 1929 meet for this city.

## Tech Student Loses Father by Death

Rev. Wilson Bennett, father of Beecher Bennett, died last Wednesday at a local sanitarium following an attack of pneumonia.

## County Farm Bureau Meet is Well Attended

Members of the faculty of the Tech School of Agriculture and practical farmers and authorities from over the South Plains addressed approximately two hundred people when the Lubbock County Farm Bureau held a meeting in the Gym Saturday. Matters of interest to the farmers of this section of the country were discussed.

## Band Concert is Musical Success

Playing to a small but appreciative audience the Tech band rendered its American Legion-Band Sweater Fund concert last Friday evening. From a musical standpoint the concert was a success but the small attendance proved a disappointment to the band members making the concert possible.

## Student Council Group Sit for Photograph

Members of The Student Council assembled Saturday and had their pictures photographed for La Ventana. The group picture was taken in the conference room in Dr. Horn's office.

## Students are to Hear Man of Wide Reputation Soon

"THE DEAN" WALTER WILLIAMS TO ADDRESS TECH STUDENTS.

Dean Walter Williams, head of the school of journalism of the University of Missouri, is to speak at Tech on April 5, according to announcements given out from President Horn's office last Saturday. Present plans include addresses to be made by Dean Williams to members of the student body, the faculty, and the Scholarship Society. "The Dean," as he is affectionately called by the entire journalistic world, is the recognized head leader of newspaperdom. In addition to being head of the department of journalism in Missouri University, he was the first president of the Press Congress of the World, the first president of The American Association of Schools.

In typifying the place of modern journalism the "Dean" has said that the journalist, "must sympathize with the high purposes of the community to properly serve it."

Dean Williams' Texas itinerary includes visits to several colleges in the state.

## Student Council Acts on Plan to Aid Pep Squad

The Student Council in a called meeting last Thursday night voted to pay off a note made by the Girls Pep Squad if the members of that squad would agree to allow that organization to come under the jurisdiction of the Student Council. If the Pep Squad agrees to the action of the Student Council the future leader of the Pep Squad group will be elected by the student body of the college.

Attention was also paid to a method which has been proposed whereby the Athletic Association will be benefitted to the extent of some four hundred dollars. No action was taken on this latter proposition, however.

## Famous Trapper To Lecture to Geol. Students

Mr. Frederick Broadwell, of Seaward, Alaska, will lecture to the Geological Society on Wednesday night, March 21. Mr. Broadwell has spent fifteen years, in Alaska as trapper, big game hunter, and geologist, and has had experience in mapping, mining and exploring.

All persons interested in geology are cordially invited to the lecture which will be held in room 318, at 7:30 Wednesday night, March 21.

## Dr. Granbery Speaks To Lorenzo Women

Dr. John C. Granbery went to Lorenzo last Friday where he addressed the Woman's Club of that city. Dr. Granbery has been addressing the women of this club each month on the subject of various countries of Europe, Asia and Africa.

## Practice House Girls Serve Formal Dinner

The members of the practice house dinner were hostesses to a formal dinner last Thursday evening at 7:00 o'clock. The serving of the dinner was a part of the term work. A color scheme of yellow, green and white was carried out very effectively in the table decorations-ferns and jonquils-as well as in the menu.

The guests were: Mrs. and Mrs. Kimbro, Judge and Mrs. Bledsoe, Mr. and Mrs. Provance, Mrs. Doak, Miss Weeks and Miss Erwin.

### DOES THE FACULTY CO-OPERATE?

"Miss McCreary's class in meal service entertained the faculty members Thursday afternoon with a tea."

Such is a brief in the Home Ec. Items for this week. In itself this item has nothing but a bit of news value, but in the manner in which the item was not exactly truthful, the news account makes no mention.

Miss McCreary invited all faculty members to attend this tea which was given for their especial benefit. The class in meal service prepared the refreshments and arranged for a full attendance from the faculty, which they had every reason to expect, would accept their invitation in the spirit in which it was given. Imagine their disappointment, when out of a total faculty membership of well over a hundred, approximately one score accepted their hospitality and put in their appearance at the tea.

Members of the faculty are often prone to criticize the student body for lack of cooperation in matters pertaining to school work, but can it not be said, truthfully, that the faculty needs to look no further than within its own ranks to find a kindred lack of co-operation?

It is unjust that Miss McCreary and her class should go to the trouble of preparing for entertainment for the entire faculty membership when less than one-fifth feel the necessity of accepting an invitation to such a function. A function, which by the way, would afford an enviable opportunity for free fellowshiplike discussion.

Indeed, does the faculty always co-operate?

### TIME SAVERS.

The following article was handed in last week by a member of the faculty. Such comment on time saving deserves editorial space:

President Horn has established a custom which should become the fixed tradition of the Tech, and that is promptness. People will conform to any way of doing things that becomes established. For example, the regular faculty meetings are set for 4:10 P. M. At first there were a number of stragglers. The faculty has learned, however, that when 4:10 arrives, the faculty is promptly called to order. This takes place never at 4:11. In consequence, virtually everyone is in his place at 4:10. This is a great saving of time. If all our public gatherings would adopt this policy, it would make for efficiency. For example, the two excellent plays that we have just had were to have been given at 8 P. M., but the actual time of beginning was nearer 9. There was in consequence a great deal of restlessness on the part of students. This could hardly have been considered disorder, but it certainly would tend toward the establishing of certain customs well known in Austin that are not very desirable. The suggestion here made is that President Horn's habit of promptness be established as a regular college tradition.

It is a mistaken idea that the college student who persistently makes his presence known by the conventional rah-rah is always the loyal supporter of his school.

Real school spirit goes deeper than that. In these days, when it is doubtful whether the noise is the result of stimulus of anti-Volstead liquid or of real school enthusiasm, it is hardly fair to accuse the retiring individual of not having a true school spirit.

Possibly the idea that the Utah University student body is dead is gained from the movies, wherein we college students are portrayed, not as we are, but as we would like to be, for it would be a joyous life to worry about nothing except that we should defeat our traditional opponent in the next basketball game, swimming meet, or checkers, to go to an extreme no greater than that exhibited by the silent drama.

But that is not real school spirit. The primary argument against noise making can be found in the fact that the team on the field never notices it. Ask any athlete if he could hear the cheering section yell, "Hold that line!" when the home team was faltering before its opponent's drive for a touchdown. On the other hand the mere presence of numbers has a psychological effect on the team that is excellent. A team hates to disappoint a multitude which is quiet, much more than it hates to disappoint a noisy handful. We do not argue, however, that it is unnecessary to yell at athletic contest by any means, for that is the best method of reminding a team of the multitude's presence, even though the team when playing never hears it; the vibrations may announce it to the playing men or the

injection of a sub in the lineup may carry the news.—Utah Chronicle.

The Toreador carried a poem, "The Volunteer Coach," in its columns recently. Just about the same sentiment.

With the district basketball tournament this week, there will begin a series of meets in which students from over this section of East Texas will participate. In the interscholastic meet of April 13 and 14, many of the best academic as well as athletically able students coming from the leading high schools of his district will be guests of the college and city.

It is our duty as students of this college to show these students every courtesy and so represent the college with its student body in its true light. This is, of course, no pretension that we should be artificial to the extent of assuming a temporary courtesy to induce these students to come here for the mere purpose of futhering the scholastic and athletic ends of the college. We should be courteous to all visitors as a matter of culture and principle.—S. F. A. Pine Log.

Texas Tech, also is to be host to the hundreds of interscholastic visitors during the month of April, even as it was host 3 weeks ago to the county basketball champions of the entire district. It is well for Tech students to conduct themselves at all times that their actions will not cast a discredit on the school, but especially should they be careful when entertaining high school students. High school students of today are college students of tomorrow, and it will be well for Tech to give these youngsters a first impression that will help shape their idea of a constructive college life.

The masterpieces of literature were

## Persons Attending College Dances Subject of Interviews

The Opinion of Students on Behavior At College Dances as Gathered By Wandering Wistaria.

Unfavorable criticism has often been heard of the behavior of students at dances. Students have their own opinions on this that might well be considered. The following is an attempt gathered from some about what they are thinking and the questions that arise in their minds.

"Why cannot our college affairs be made strictly college affairs for persons connected with the college only. While students believe wholeheartedly in co-operation between the town and college, they do not feel that the college is indebted to the town element in the matter of furnishing them with their social life.

"Much criticism has been hurled at Tech students about drinking. Have those who saw the Tech students drunk made any effort to determine the source of the liquor? The first thing some of the town group do on arriving at a dance is to start calling aside some athletes and prominent students. And why? They want to increase their popularity with the gang. They want to be known as good fellows. Not a large percent of students are able to pay the high bottle prices. They drink largely what is brought out by the town element. This is not to be interpreted that all of the town group are vicious—far from it. There is no doubt though, that half the trouble and half the fights at college affairs have been caused by a good fellow from town. Nothing stops him. He must have his little fights. This means that some

written in solitude. Two people cannot write a great play or poem. In the long lonely walks, or in the quietness of midnight hours, ideas were conceived in the minds of men of genius. The idea once conceived could be written down, though not so well in a noisy room.—S. F. A. Pine Log.

Some educator has remarked that only in a very small town or in a great city is one at all capable of securing the desirable solitude so necessary for the production of worth while thought. Others contend that necessity is the mother of invention allows one to think when under great physical and mental stress and thus the ideas which have gone to shape the progress of the world, are born.

student must laugh about a beating administered to him by this "Manassa Mauler". This person has been in several difficulties, but this does not keep him from carrying a card inviting him to the dances. No persons conducting the dances would like to throw themselves liable to attack because of refusing to issue him an identification card.

There has been much said since the opening day of school about college spirit. One thing that contribute to that spirit is acquaintances. Because of scattered residence conditions here, not so many students know one another personally as should. Why not let our college dances be a unifying element? As long as the town people come to the dances, a higher standard is set for expensive clothes; costly evening gowns, fur coats, diamonds and jewelry which the parents of the ordinary students cannot well afford. Has it occurred to our Social Committee that a standard is being built up at our all college dances for clothes which would be seen at an Ambassador's Ball? The girl who does not have a new and flashy frock finds that she does not "rate" at the dance. She does not care to return, for as she says, she does not have a good time. But it could be made so that she would enjoy it, and the average boy and girl are entitled to that privilege even though it should come at the price of excluding some town people.

"Student dances are held in the college Assembly Hall. That building was built by state money to provide a meeting place for students primarily. Why not let students of Texas Tech feel that there they have a college home? But that can never be, as long as the town group is as welcome as students. It is not a home then, it is a club. Some persons will probably say that the dances will not pay unless those in charge take advantage of the opportunity to increase the returns by allowing outsiders to attend.

This is not a condemnation of the town of Lubbock. The question might be asked: Are all Tech students welcome at dances given in private homes in Lubbock. Our college is an institution and a part of society as is the home. The situation is this: Oil is all right for certain purposes and water is necessary for certain things, but oil and water do not mix. College students are quick to notice injustices, and they have noticed how easy it is for them to be called on the

carpet about drinking, while some of the town people have dropped dead drunk on the dance floor, and it has been unnoticed. This is not to condemn the chaperones, but it does offer an escape from any such occurrence as these just mentioned."

"Look here, Mose," said the white foreman of a gang of colored laborers, "everytime I look around you are loafing. How does it happen I never find you at work?"

"Ah'll tell you how come, boss. It's cause them rubber heels of you'm don't make no noise a-tail."

### My Kingdom.

I am a stately prince—  
I sit here in my room—  
And before me, sitting here,  
Unnumbered Kingdoms loom.

For each volume is a province  
(A heritage for me)  
Of fertile plains and rolling hills  
And lovely stream to see!

My mind is now a flashing sword  
Before which none shall stand—  
For I will move from realm to realm  
And leave them conquered land.

—H. Y. PRICE, Jr.

### Full Review of 1928 Cage Season.

On January 2 Coach Vic Payne called Tech's basketball squad together for his initial time and for Tech's third and most successful season Coach Payne had seven letter men to use as a foundation for his team of this passed season. The letter men were Captain Al Jennings, White, Hemphill, Pace, Hunter, Walker and Weaver.

The largest number of points scored by Tech in any one game of this season was 57, the smallest number was 18. Tech scored a total of 704 points to their opponents 593.

The first games of the season were with the Amarillo Gassers. Tech won both games, the first by a score of 26 to 14, and the second by a score of 51 to 23. The Matadors next opponents, Wayland, met with the decisive defeat of 57 to 23. On the following week Tech dropped two games to Daniel Baker to the tune of 25 to 35 and 18 to 22.

Tech played their first out of town games with W. T. S. T. C. at Canyon. The Teachers won both games. The scores were 25 to 21 and 20 to 25. The Matadors came back to split a two-game series with A. C. C. The scores of these games were Tech 40, A. C. C. 41, and Tech 34, A. C. C. 32.

The scarlet and Black aggregation than left Lubbock to spend a week in Abilene. At the College City they won four out of six games played. They won from Simmons 27-20 and 34-19. McMurray's Indians were scalped to the tune of 27-24 and 24-20. The A. C. C. Wildcats scratched them out of one game by the margin of one field goal, the score was A. C. C. 25, Tech 23. A. C. C. won the second game 36-32.

On their return home the bull fighters won two more games from McMurray by the scores of 31 to 14 and 41 to 40.

On the following week the Matadors met Simmons for their remaining games with the Abilene Colleges. The first night the Matadors won by a score of 46 to 34. On the next night the Cowboys staged a wonderful come-back and rode the Matadors out to a tune of 53 to 41.

On February 20 and 21 Tech took Canyon on for their last two games of the season. The first of these Tech won by a score of 39 to 29. This is the first and last game that Tech has won from Canyon in these three years of her college history. The game ended the second game with Canyon holding the big end of a 36 to 35 score. This was one of the most thrilling games that was ever played on the Tech floor.

The Matadors won twelve out of the nineteen games that they played. Two of the games were lost in an extra five minutes.

Although Tech loses Al Jennings, Buck Weaver, and Andy Hemphill by graduation this year they expect to put a fast passing, goal looping bunch on the floor next season that will be capable of battling the Missouri-Valley champions to a standstill. Dopic White will lead the Matador quintet next season.

### School Toreadors To Re-Appear Soon

The Toreador will not suspend publication next week as has heretofore been the custom during examination period but will make its initial appearance for the third term next Tuesday the day classes for the spring session begin.

Following the next issue of the school publication the school special editions will be resumed. The Liberal Arts school will be presented by J. W. Jackson on March 20, to be followed by the Home Ec. edition on April 3.

### Fifty Dollar Prize Offered For Essay

A prize of fifty dollars is being offered by the East Texas Mill Managers Association in co-operation with the Texas Forestry Association for the best essay on "The Value of Forestry to Texas and How to Advance it." The essay is open to any undergraduate of Texas colleges. The essay must be not less than 1500 word or more than 2500.

Students interested in entering the contest may write Mr. E. O. Sieck, Texas Forestry Association, College Station, Texas; and they will be supplied with information and literature concerning it.

### L. A. Tracksters Glean Victory in Intramural Games

The Liberal Arts team placed first in Tech's first annual intramural meet here Saturday. Dick Davis, Tech pole vaulter, coached the victorious team. The Liberal Arts squad scored a total of 93½ points, to be followed by the Aggies with 32 points while the Engineers brought up the rear with 26½ points.

Many of the victors in this contest will be drafted into varsity competition. Coach Payne was able to see the thinly clad lads in actual operation, and will be able to obtain a good idea of their potential ability.

**Summary of Meet**  
The results of the meet and records made are:

100-yard dash—Smythe, liberal arts first; Walker, Aggie, second; Fisher, liberal arts, third; and Murray, engineers, fourth. Time—10 seconds.

Pole Vault—Walker, aggie, first; Edmonds, liberal arts, second; Taylor, liberal arts, third, and Pickett, liberal arts, fourth. Height, 11 feet.

120 high hurdles—Grimes, aggie, 1st Spring, liberal arts, second, Kirby, liberal arts, third; and Walker, aggie, fourth. Time 18 seconds.

Shot put—Edmonds, liberal arts, first; Starr, aggie, second; Smythe, liberal arts, third; and Fisher, liberal arts, fourth. Distance 40 feet.

### Schedule of Net Games Announced

Mr. K. L. Knickerbocker announces the following schedule for the Matador net squad. It is doubtful if any squad in Texas outside the Southwestern Conference is offered as complete and representative program for the coming net season. With the completion of the tournament now under way, Coach Knickerbocker will have a somewhat better idea of exactly what must be done before the Picador racquetees are ready to do battle. The tryouts will probably be held soon after the beginning of the spring term for the Tech squad opens its season with a dual match with the Canyon Buff aspirants on the fourteenth of April.

The work done in the present tourney assures a creditable showing of the swingers of Matador racquets.

- The Schedule:**
- 1. W. T. S. T. C., at Lubbock, April 14.
  - 2. Simmons University, at Lubbock, April 23.
  - 3. Great Plains Meet, at Canyon April 27-28.
  - 4. School of Mines, at Lubbock, May 1.
  - 5. S. M. U., at Dallas, May 5.
  - 6. T. C. U., at Ft. Worth, May 7.
  - 7. Abilene Christian, at Lubbock, May 12.
  - 8. McMurray College, at Abilene, May 19.
  - 9. Simmons University, at Abilene, May 21.
  - 10. Abilene Christian, at Abilene, May 21.
  - 11. McMurray College, at Lubbock, May 26. (Tentative).

### Baseball Season Here It Won't be Long Now!

Forty ambitious baseball candidates answered the call that was issued on March first by Coach Grady Higginbotham; among these are nearly a dozen lettermen from the past seasons.

The oiling and rolling of the baseball diamond has made it one of the fastest fields that is to be found in West Texas. The rolling and dragging along with the installation of the clay battery boxes has placed the diamond in tip top shape.

Among the former lettermen that are out are: Nicklaus, Rigney, Peterson, Burnett, Dewitt, Marshal, Kaufman, and Eddleman.

### MULISH IGNORANCE

Emanuel Jackson, mule tender, appeared one morning on crutches.

**Law Court Active  
As Prominent Man  
Is Found Guilty**

"Gentle beware!—you cannot escape if you refuse to comply with social changes accompanying the advent of leap year." At least that is the decision handed down by the Texas Technological Supreme Court at the last meeting of the club, Prof. H. C. Pender, prominent member of the government department, paid the penalty for refusing to accept advances of the fair sex, in a trial held under the jurisdiction of the court, a product of the Pre-Law club.

The Supreme Court is composed of Chief Justice Carter, and Associate Judges Eddelman and Britain. The prosecuting attorney J. W. Jackson was ably assisted by Senator Trust Smith of Idaho, who arrived shortly before the trial to play an important part in the proceedings. The prosecution showed that the defendant had violated the law in four different ways to-wit:

1. Cruelty to the fair sex.
2. Refusing the advances of the fair sex.
3. Remaining a bachelor over a period of several years.
4. Persistently refusing to comply with the social changes accompanying the advent of Leap Year.

Andy Hemphill, first state witness testified that he has on many occasions, tried to get the defendant to accompany him on his many social calls. Hemphill, also testified that last year the defendant had refused to take a girl friend along to the Pre-Law banquet. Further he had refused to take one this year on the grounds that, "there was not a girl in Lubbock he would go with."

**Ladies Testify**

Then the state placed two young ladies on the stand who stated that they had tried to gain the affections of the defendant both by the routes of his heart and his stomach. But to their earnest efforts he had ignored their advances completely. Each young ladies, clearly below the age of 20 were wrecks of their former selves, owing to the worry that accompanied their ill-fated courtship of the defendant. Deep lines and wrinkles were everywhere evident over their youthful faces. In fact they were so worried and in such a state of nervous prostration that they both fainted before they could complete their testimony, and had to be carried to their seats while the spectators looked on in pity.

**Knowles is V. D.**

The defense then put on their witness, the first of whom was Dr. Sidney Knowles, of Denton, Texas. He testified that he had known the defendant in the North Texas State Teachers College where he was a rip-roarer. Dr. Knowles stated that the defendant had led a very wild life there and was very popular with the ladies of the institution. Attorney Jackson threw bombshell into the camp of the defense, when he proved by cross-examination the witness that he was not a Ph. D. or a M. D., but a L. V. (a horse doctor).

Attorney Smith then asked the court to throw out the testimony of doctor Knowles, on the grounds that he was a horse doctor and hence was not capable of being an expert in love affairs. The court then threw out his testimony. The defense attorneys, Allison and Treadway protested very vigorously, but the august court held to its original view.

Then the court introduced a young lady who testified that she being attracted by the handsome features of the defendant had loved him very much and that he was a very nice, gentle and devoted lover.

**Defendant Calm**

The defendant then came on the stand himself. He swore that through out his life he had been very susceptible to the wiles of the weaker sex. On cross-examination he testified that since being in Tech he had tried to model his efforts after those of Andy Hemphill and Ox Reed, two of

**Scholarship Group  
Votes to Add Many  
New Members**

The Tech Chapter of the Southern Scholarship Society met last Wednesday night to hear the report of their representative Mr. R. A. Mills, to the general convention which was held at Brownwood on February 22.

Mr. Mills discussed various matters which came to the attention of the general assembly at Brownwood and mentioned the action taken on each. The 1929 general convention is to be held in Belton at the Baylor College. Some twenty-two new members whose grades justified such addition were voted into the society.

**Miss Horn Conducts  
Club Magazine Study**

Miss Ruth Horn conducted the Junior Twentieth Century club lesson last Tuesday afternoon. The society met to study magazine articles at the college.

**Life Insurance Class  
For Spring Term**

There will be a course in Life Insurance Math L 237-A open to those who have had Math 138 A-B. The course will be offered at 10 T. T. S.

**Home Ec.**

The Home Economics Club will not meet next week. The next regular meeting is to be held Friday evening, April 6.

Mr. H. T. Kimbro, member of the Board of Directors, had the members of the grand jury as his guests to luncheon in the College Cafeteria last Tuesday noon.

Mr. J. P. Fitch, Regional Scout Executive, with Messrs. L. S. Harkey, F. A. Harmon, Rev. L. H. Williams, and L. P. Knox, visited on the campus last Tuesday and had lunch at the college cafeteria.

Miss McCreary's class in meal service entertained the faculty members Thursday afternoon with a tea.

Tech's most persistent wooers. To prove that he had always tried to make his personal appearance pleasing he exhibited a series of toilet preparations that would have made Edna Wallace Hopper ashamed of herself. Reaching in his pockets the defendant displayed tubes of tooth paste, bottles of perfume, toilet water combs, brushes of every kind made by Mr. Fuller, bottles of hair tonic, vaseline, listerine, and other toilet preparations till the court became dizzy. He still had several collections of shaving cream and soaps, face powders, after-shaving lotions and other articles too numerous to mention that he did not get to show and explain in detail.

**Asks for Acquittal**

Then Attorney Allison gave an impassioned plea for the acquittal of the defendant. Scribes of the defendants friends sobbed sorrowfully as the Attorney made his plea for acquittal.

Then the States Attorney made his plea. He showed that the defendant had violated the laws of the land and in that he must pay the penalty. Attorney Jackson showed how the defense witnesses had contradicted their own testimony, hence it was difficult to believe any of them. In a slow, gentle, but firm voice he showed how the defendant had blasted the lives of the two young ladies who had laid their hearts open to the hard-hearted defendant, only to have their advances repulsed without the least respect for pity or mercy.
