TEXAS TECH, LUBBOCK, TEXAS, MAY 1, 1928.

NUMBER XXVII.

## Student Body Leaders to be Elected Tomorrow

COMPLETE SET OF STUDENT LEADERS TO BE SELECTED BY END OF THE WEEK.

A general convocation will be held tomorrow morning for the purpose of electing officers to head the student body for the coming year, according to a statement issued late yesterday by Al Jennings, student prexy.

Officers to be elected tomorrow are: the president of the student body, the vice president of the student body, the secretary of the student council and the yell-leader.

This election and the publication elections to be held tomorrow and Thursday will see a complete new set of student leaders selected by Thursday night.

Everyone is urged to be present at the convocation in order that the officials elected may be representative of the entire school.

## Lindy's Luck Ends; College Girls Won't Marry Famous Col.

Only 29 of 159 girls in South Hall at the University of Missouri would marry Colonel Lindbergh, if they had the chance. Eleven of the 29 were ready to marry the airman without hesitation; fifteen wanted to "date him" first, and three felt that "it wouldn't be bad at all" to stand beside so famous a man. Of those who voted negatively, 63 were in love with someone else; 17 said the Colonel is too popular; twelve did not care for his "type"; six were afraid he might be killed any minute, and three refused to marry a famous man and be known only as his wife.

## Work Begun on Chemistry Bldg.

By OTTIS KOEN.  
Work has been started on the new Chemistry building. There was no definite announcement as to the time the building is to be finished and ready for occupancy, but it is at the beginning of the Fall term of the 1928-29 session.

The Chemistry building is only a part of a unit of buildings which will contain a large assembly hall and a Physics building. When the unit is completed it will be in the shape of a horse shoe. The Chemistry and the Physics buildings will be at the ends of the unit, with the assembly hall in the center.

## Faculty Members are Practice House Guests

Another of a series of formal faculty dinners was given last Tuesday evening at the Practice House. The guests present were: Mr. and Mrs. James M. Gordon, Mr. and Mrs. William J. Miller, Mr. and Mrs. Arthur H. Leidigh, Miss Margaret Weeks and Miss Jorrie McCrery.

## Publication Elections Tomorrow and Thurs.

Regular elections will be held tomorrow and Thursday. This edition of The Toreador is being edited by the various candidates for the position of Editor-in-Chief of The Toreador. The other publication officers will also be voted upon during the two days. It behooves all Tech students, with the interest of their school at heart, to vote and take an active interest in this election, for the policies governing future publications will be largely decided with the installation of the new heads of the publications.

An official ballot will be found in another place in this paper. Look it over and decide which one of the candidates will be best fitted to serve this institution; then cast your vote accordingly.

## Freshman Class to Edit The Toreador

In order to make Freshman Day a thorough success the Class of '31 is to present the Freshman Edition of The Toreador on next Tuesday, May 8th. The Freshman Class is to embark early Tuesday morning for Silver Fall where they will spend the entire day in frivolity. Realizing that their presence will be lacking on that day they have determined to make up for any lack of physical attendance at classes by the appearance of their edition of the college paper.

## Tech Senior to Work for Great Electric Company

M. R. Glimp, of Burnett, Texas, and a Senior of the Engineering School, has been recently offered a position with the Westinghouse Electric and Manufacturing Company of Pittsburgh, Pennsylvania, which serves to show that Tech is being regarded as standard school. Glimp is a transfer from John Tarleton Agricultural College but will complete this spring three years of work here.

## Engineering Equipment Now Being Received for Immediate Installation

The equipment for the new Engineering Building now being erected on the campus has arrived and is now being installed. It is of the most modern type and of the best quality. A boiler has been placed for use in Mechanical Engineering and the Civil Engineering Department has received a 200,000 pound testing machine and have been running the first test. At present the night lighting fixtures for the building are also being selected.

The building will be ready for occupancy about the tenth of July so Dean W. J. Miller reports.

## Specimen of a Stego - Mastodon is Found in Dickens

A fine specimen of the lower jaw of a Stego-mastodon, an extinct animal of the elephant type, was recently brought to the Texas Technological College. The jaw is about three feet long when pieced together and has two teeth and a short tusk which are well preserved. It was found in the northeastern part of Dickens County in the bed of a small creek and is probably late Pliocene in age.

This fossil was collected by F. F. Henry, D. W. Hughes, D. F. Christian, and M. E. Franklin of that locality, who, realizing the importance of their discovery, brought it to the college for identification. They have given it to the museum of the department of geology, where it is to be placed on display.

## Turner Unable to Attend Canyon Meet

Ralph H. Turner, manager of the Southwestern division of the United Press, who was scheduled to be one of the speakers at the session of Texas Intercollegiate Press Association, last week notified Delmer Ashworth, president of the Association, that he was unable to fill his engagement at Canyon.

Mr. Turner's appearance at the convention was made impossible by business developments in the United Press which made it necessary for him to go to Denver, Colorado, where he will be for the remainder of the month.

Friends can be very annoying, but if it were not for them you would be a total stranger.

## Miss Westbrook Elected to Head Y.W.C.A. Group

Miss Mary Hope Westbrook, was elected to head the Y. M. C. A. next year, at a meeting held by that organization last Tuesday. Other officers elected were: Ruth Lafforge, vice-president; Lillian Nelson, Secretary; and Lizzie Bell Clements, Treasurer.

Shortly before the election a member of the Advisory Board spoke to the girls on "What the 'Y' Means to Me and What it Should Mean to the Girls on the Campus." She stressed the points of

Knowing Jesus through Bible study. Helping other girls hold true to the right clean living.

The development of an all-round woman with poise and charm, growth-teachings of Jesus.

Due to inclement weather the retreat scheduled with the Canyon Y. M. C. A. was postponed to this weekend. Fourteen girls expect to avail themselves of the opportunity to attend this meet.

Tech is to arrange a devotional hour for the Sunday morning session and one of the girls is to talk on the "College Y. M. C. A." Miss Ivo Wilson is to be in charge of the Technical hour.

## Olin Hinkle, T. I. P. A. Speaker, Former College Editor

Olin E. Hinkle, editor of the Pampa Daily News, who spoke to the T. I. P. A. delegates Saturday morning at 10:30 o'clock, is well qualified to give the college journalists helpful suggestions on various phases of their work.

Mr. Hinkle is a former editor of "The Prairie". For several years he participated in the contests of the Texas Intercollegiate Press Association, and attended its conventions. For this reason, he was acquainted with its problems and interested in the advancement of the organization.

After graduating from W. T., Mr. Hinkle attended the School of Journalism of the University of Missouri, receiving his degree there in 1926. He is meeting with great success in his work as editor of the Pampa Daily News.

## Board of Control Men Visit This Institution

Dr. Harrington and Mr. Gaston of the Board of Control, Mr. Frank E. Clarity, Mr. Clifford B. Jones, Mr. H. T. Kimbro and Mr. C. C. Conneys of the Board of Directors and Mr. C. E. Hedrick, Architect, were visitors in Lubbock Tuesday.

They were guests of the Kiwanis Club at lunch and of the College at dinner, which was served in the dining room at the Home Economics Building.

## Recent Tech Student Bride is Honored

A shower of nuptial gifts was presented Mrs. Walker Stanton Wednesday afternoon when Mrs. Volney Hill and Miss Geraldine Smith entertained at the Hill home, 2409 20th Street. This courtesy came as a surprise to the honoree, who before her marriage on Easter Sunday was Miss Alynne Felmet.

A salad course was served by the hostesses to Misses Alma Spikes, Donna Vaughn, Faye George, Thelma Scott, Glenn Sims, Novelle Hemphill, Mrs. Lawrence Bacon and Mrs. Joe Nislar.

## Miss Weeks Takes Part in Lynn Co. Program

Miss Weeks went to Tahoka Saturday, April 27, to take part in a program for "Better Homes Week," which is being conducted by the county demonstration agent of Lynn county.

## Tech Players Will Present 'Youngest' On May the 4th

By OTTIS KOEN.

A three-act comedy will be presented at the Gym on Friday, May the 4th, by Miss Anna Joe Pendleton's class in The Technique of Dramatic Art. The play, "The Youngest," by Philip Barry has had a long run on Broadway. It has been staged by the Dallas Little Theatre.

A young son, "The Youngest" of his family, is treated as a "Cinderella" until he comes into contact with a charming busybody who works on the theory that if you "Treat a mouse like a lion he will grow a mane overnight."

The cast includes some of Tech's best dramatic talent. Charlette Winslow, who believes what her son Oliver says is right, is played by Mrs. Alice Chilton; Oliver Winslow, the head of a family since his father's death and also head of a factory, Carroll Atchinson; Mark Winslow, associated with his brother, Ameral Payne; August Winslow-Martin, who prefers to live at her mother's home, Mrs. E. E. White; Allen Martin, Augusta's husband, a lawyer who would like to have a home of his own, H. Y. Price; Martha "Muff" Winslow, in sympathy with "The Youngest" but who has a love for what's funny, Lillian Hopping; Richard Winslow, "The Youngest," a writer Brock Brandon; Nancy Blake, the charming busybody, Virgie Johnson; Katie, the maid, Willie Pearl Dockery.

Miss Pendleton's class is making its own set. Every member of the class will have a part in the production.

A short scene from the play was presented Saturday night at the All College Circus.

"The Youngest" is a high priced royalty play. There will be an admission charge of about thirty-five cents.

## Home Ec. School To Hold Exhibit During the Week

Beginning Monday, April 30th, and extending throughout the week, the Design and Clothing Departments of the School of Home Economics will conduct an exhibit in Room 107 of the Home Economics Building.

The exhibit consists of Peasant Embroideries from Northern Europe, Briggie and Newcomb pottery. The exhibits have been brought to the college by Miss Marie Dellaney, Head of the Art Department, and Clothing Department.

The faculty, students, and townspeople are cordially invited to see the exhibits from 9:00 to 12:00 and from 2:00 to 4:00 every day. Many of the articles are on sale, others are museum pieces which are not for sale.

In connection with the exhibit, there will also be on display wall hangings executed in batik, the work of the applied Design classes of the winter term, and garments designed and made by the classes in clothing.

## Changes Proposed in Teaching of Math

By OTTIS KOEN

Prof. Fred W. Sparks of the Mathematics Department has just returned from the University of Texas where he has attended a committee meeting on the Relation of the Teaching of Mathematics in High School and College. The Committee, of which Mr. Sparks is chairman, was appointed by the Texas Division of the American Association of Mathematics. It will make resolutions which favor shifting high school math from the eighth and ninth to the tenth and eleventh grades. The committee believes this would make a better connecting link between high school and college mathematics.

## Proof of La Ventana is Sent by the Publishers

The proof for La Ventana has been forwarded to Ferral Roark, editor of the college year-book, by the printers, the Hugh Stephens Press, of Jefferson City, Missouri. As soon as possible the okehed proof will be returned to the publishers and in order that the completed La Ventana's may be placed in the hands of students before the end of the present term.

## History Courses of Unusual Interest to Be Offered in Summer

During the coming summer term the History department plans to offer three new courses of especial interest to people who do not regularly attend college, but which are also of interest to students in advanced work who have not had the opportunity for such courses.

Mr. Ford will give a course in the history of Colonial America, and Mr. Eaves plans to teach during the first term a course on Twentieth Century Europe, and a course during the second term on Economic Europe during the Nineteenth Century.

## Abilene Selected As T. I. P. A. City For 1929 Meeting

After a determined fight between Sam Houston State Teachers College of Huntsville, and the unified colleges of Abilene, Simmons, McMurray and Abilene Christian College, for the 1929 T. I. P. A. convention, the old adage of "Unity is Strength" was again proven, and the convention was voted to be held in Abilene, by the group of college journalists who met in Canyon last week.

Denton likewise placed a bid for the convention, but it was believed that this was but a political gesture on the part of the North Texas town, in order that Denton might be placed in the running for the 1930 convention.

## Tech Student Models Dress for Club Women

Mary Hazel Hurn modelled a dress Saturday afternoon before the Convention of Women's Clubs, at the request of Mrs. Collins, President of the Seventh District Federation of Women's Clubs. The Home Economics Club of the Texas Technological College is a member of the Federation.

## Clona Swinney Crowned Queen Of Tech Circus

"Long live the Queen!" Queen Clona of the House of Swinney was crowned Queen of the Tech All-College Circus last Saturday night amidst the applause of her subjects. Her Highness was attended by Princess Cymbol of the house of Patterson, Princess Lucia of the house of McIlvain, and Princess Eloise of the house of Sneed.

Following the coronation the frivolity seekers indulged in the many pleasures provided for their merriment. The booth arranged by Las Chapparritas received much favorable commendation.

Officials of the first Tech Circus are enthusiastic over the reception accorded their efforts by the students of the college.

## Engineers to Award Gold Footballs Soon

By OTTIS KOEN.

The Engineering Society will probably have a called meeting within the next few days. The Society has ordered seventeen miniature footballs, which will be presented to sixteen Engineering football letter men and their coach, Windy Nicklaus. The Engineers have been intramural football champions for the last two seasons.

## Value of News is Stressed in Tex. Press Meeting

COLLEGE JOURNALISTS HEAR PRACTICAL NEWSPAPER MEN AT ANNUAL CONVENTION.

The annual T. I. P. A. convention opened at Canyon, Friday with President Delmer Ashworth, association prexy, of the Buff school presiding. Ashworth introduced President Hill of W. T. S. T. C., who tendered the address of welcome to the approximately fifty delegates assembled, representing some 15 member colleges.

In his address the Canyon President gave his opinion on: What constitutes good college editors. President Hill said "we must take it for granted that the college editor has the ability to write with a measure of ease, and this factor implies, constructive thinking."

In dealing, as he does, in a rapidly changing environment the editor must keep up with this evolution of ideas and ideals. The President particularly emphasized the point of constructive thinking, as a rational dealing with campus situations.

To be constructive one must have the will to make a contribution toward the constructive growth of the college, president Hill said, in substance.

The college newspaper is responsible, in a considerable measure, for the ideals of the college.

Further, the college editor must have at heart the general interest of the institution and above all he must be an interpreter of human life.

Whipkey Responds. Following President Hill's address of welcome, Robert Whipkey, Recording Secretary of the association, of Simmons U., gave the response in a characteristically humorous vein.

L. A. Osgood, head of the English department of the college, introduced the principal speaker of the morning, Professor Frank L. Martin, of the School of Journalism, Missouri University.

The speaker prefaced his remarks by saying that the T. I. P. A. and similar organizations had more influence on journalism than other kindred agencies.

The Topic "News". Professor Martin took as his topic the dynamic word, "News".

A newspaper is first of all a vehicle of information. The function of the newspaper is to give the news—intelligently and with a proper interpretation. The first duty of the publisher is to give the public real news presentation.

The speaker pointed out the business cycle of journalism with news getting the circulation—the circulation bringing advertisers—and advertising lining the pocket of the publisher. Comic strips, fiction and syndicated material are of very little worth in putting out a newspaper which fulfills its mission, according to Mr. Martin.

The New York Times was cited as a splendid example of a newspaper which fulfilled the function of news-

(Continued on Last Page.)

## Ballot for the Publication Election.

The following names have been approved by the Publication Committee and the Student Council to be submitted to the vote of the student body at the publication elections to be held tomorrow and Thursday.

- Editor of The Toreador: Douglas Smythe, Agnes K. Brown, Ottis Koen
- Editor of La Ventana: A. Dayle Wallace, Wilburn Edelman
- Business Manager of Toreador: Jack Camp
- Business Manager of La Ventana: R. Gray Carter

### MEN AND MOUNTAINS.

By Douglass Smythe.

Some man once said great things were accomplished when men met mountains and not by men jostling in the streets. This will be the exact predicament when Tech opens her doors next fall as far as athletics are concerned. Next fall Tech enters athletic events upon the same qualifications and basis of scholarship as are placed upon the members of the Southwestern Conference schools. This means that no freshman will be eligible for varsity athletic teams next year representing Tech. A real varsity football team will come into its own. This varsity team will be composed of men who are now in school and who will pass work qualifying them for the varsity competition. We will have no new flood of freshman material from which to make recruits next year.

Now here is our mountain—we are the men to accomplish the great things—are we going to jostle in the streets—no. There have been several rumors around the campus that Tech will have very little from which to build a football team next year. Various other rumors have also been heard. These rumors are very unsound and should be quelled. Knocking never made a machine function any better. Let every loyal Tech student begin now to think and talk of what we will have next year on the varsity football team. We will have the same squad of men practically from last season. Of course some very valuable men will be lost but there will be men out there fighting for the vacant positions and more than likely by the first whistle these positions will be well filled. What we need now is talk and action of the right sort. If you are not satisfied with things as they are why just keep quiet and let someone else talk that can, perhaps, help a bit. Next year when the Matadors journey to Austin to meet the Longhorns, will you be pulling and backing for them? Will you be with them when they meet T. C. U.? How about the game with Simmons? Will you be there helping them with all you have?

Begin now to help the Matadors have a successful season. The best way to start is talk—and talk the right kind of dope. Push, shove, carry, and pull but don't knock, and when the final whistle has blown we will find Tech has subdued the mountain and a great thing has been accomplished—a very successful season.

### Frank L. Martin Is Convention Speaker

Frank L. Martin, of the School of Journalism of the University of Missouri, at Columbia, was the main speaker at the annual convention of the Texas Intercollegiate Press Association.

Mr. Martin is well known for his work in the field of journalism and his speech was of special interest to the T. I. P. A. delegates. Officers of the organization express much pleasure at his acceptance of the invitation to speak to the Texas journalists.

## Tech Poem Takes Place in T. I. P. A. Annual Contest

The poem "Hermitage" by Horace Grady Moore submitted by Texas Tech in the annual T. I. P. A. contest, was awarded third place in the poetry division contest, according to an announcement of awards made Saturday at Canyon during the annual convention of the Association.

C. I. A. secured the major portion of the awards, in this as in previous years. Steps are being taken by the association to differentiate between colleges which have full-fledged journalism departments and those which are lacking in such departments. If this innovation is secured, schools with inadequate journalistic departments will not be forced to compete with those schools which have adequate departments in the newspaper contests.

The awards announced Saturday were as follows:

Newspaper—C. I. A., first; Baylor College, second.

News Story—C. I. A., first; Trinity University, second.

Feature Story—Stephen F. Austin, first; McMurray, second; Texas Woman's College, third.

Editorial—South West Texas State Teachers College, first; C. I. A., second; Baylor College, third.

Formal Essay—C. I. A., first; West Texas State Teachers College, first; C. I. A., second; Baylor College, third.

Formal Essay—C. I. A., first; West Texas State Teachers College and South West Texas State Teachers College tied for second; Baylor College, third.

Informal Essay—Sul Ross, first; C. I. A. second; Simmons, third.

One-Act Play—Baylor College first; C. I. A. and Trinity tied for second; McMurray, third.

Magazine—C. I. A., first; North Texas State Teachers College second; Simmons, third.

Annual—C. I. A., first; Baylor and South West Texas State Teachers College tied for second; North Texas Teachers College, third.

Short Story—Simmons, first; C. I. A., second; North Texas State Teachers College, third.

Poem—South West Texas State Teachers College, first; Stephen F. Austin, second; Texas Technological College and West Texas State Teachers College tied for third.

## Home Ec. Club Met Friday Night

The Home Economics Club met last Friday at the Practice House with Miss McCrery as hostess. The girls enjoyed a most interesting and realistic "trip to Europe" given by Miss Weeks. She illustrated her lecture with many effective slides and showed a number of souvenirs from foreign countries.

After the lecture Miss McCrery sang to solos; "The Sweetest Flower that Blows", and "Sylvia".

The girls enjoyed a social hour afterward, with refreshments consisting of ice cream and cake.

The next meeting of the Home Economics Club will be held next Friday, May 4th, and will be the Home Economics Picnic.

Please watch the Bulletin Board.

## Spanish Club Stages "Quixote"

A portion of Cervante's famous story, "Don Quixote de la Mancha," was presented in the form of a play, given under the auspices of the Spanish Club, La Capa y Espada, on Wednesday night, April 25.

Miss Inez Medlock gave an introduction to the play which included the life of Cervantes, which was then followed by the production. The characters of the play together with their actors, are as follows:

Don Quixote—Clyde Fincher.  
Sancho Panza—Lloyd Creslin.

Basilio—Debs Patullo.  
La Cocinera—Mary Louie McNeill.  
El Cura—Weaver Medlin.  
El Quitera—Louise Teague.  
Camacho—Alfred Ahlman.

B. Oliver, Inez Medlock, Fay Bumpass, Leta Alice Cross and Elizabeth Cross. In addition to its interesting and amusing qualities the play was of great educational value to the student interested in Spanish life and customs.

# TEXAS TECH THINLY CLADS WIN GREAT PLAINS MEET

## Tech Wins in Great Plains College Meet

THE MATADORS BREAK FOUR RECORDS IN CONTESTS LAST WEEK.

Beginning by placing practically every man entered in the preliminary events held at Canyon Friday, Texas Tech finished to win the meet Saturday by accumulating the greatest number of points. Some seven Plains colleges were entered in the meet, which is styled the Great Plains meet.

Captain Tadlock of the Matadors equaled the 120 yard high hurdle record in the preliminary heat Friday.

On Saturday Fisher ran the 220 low hurdles in 24.8 setting a new record. Payne's relay team, likewise, set a new record making the mile in 3:33.6, while Rosy Edmonds tossed the shot for a new mark of 42 feet 8 1/2 inches. Tadlock tied with Naylor of Clarendon in the high jump at a mark of 6 feet 3 3/4 inches, also setting a new mark.

### Results of Events.

100 yard dash: (1) McCoomis, NMMI; (2) Keith, West Texas; (3) Smythe, Tech; (4) Williams, Pan. A. & M.; time, 9.8 seconds (new record).

1-mile run: (1) Anderson, Southwestern Teachers (Okl.); (2) Walker, P. A. & M.; (3) Doak, West Texas; (4) Freeland, Tech, time 4:52 sec.

220-yard dash: (1) McCoomis, NMMI; (2) Keith, West Texas; (3) Smythe Tech; (4) Porter, NMMI; time, 22 sec. (New record).

120-yard high hurdles: (1) Naylor, Clarendon college; (2) Christian, Tech; (3) Tadlock, Tech; (4) Fowler, West Texas; time, 15 seconds. (New record).

440-yard dash: (1) Keith, West Texas; (2) Porter, NMMI; (3) Bagwell, West Texas; (4) Corley, Tech, time, 52.8 seconds.

2-mile run: (1) Walker, P. A. & M.; (2) Penick, West Texas; (3) Sanders, Mont.; (4) Miller, West Texas, time 11:32 seconds.

220-yard low hurdles: (1) Fisher, Tech; (2) Dixon, West Texas; (3) Naylor, Clarendon; (4) Tadlock, Tech, time 24.8 seconds. (New record).

880-yard run: (1) Bagwell, West Texas; (2) Anderson, Southwestern; (3) Pearson, West Texas; (4) Guill, West Texas; time 2 min., 8 sec.

1-mile relay: (1) Tech; (2) West Texas; time 3 min. 33.6 sec. (New record).

Pole vault: (1) Lowes, West Texas; (2) Sutton, NMMI; five men tied for third and fourth; height 11 feet 6 inches.

Shot put: (1) Edmonds, Tech; (2) Jones, NMMI; (3) Reed, Tech; (4) Starr Tech; distance 42 feet 8 1/2 inches. (New record).

High jump: Naylor, Clarendon and Tadlock of Tech tied for first and second places; (3) Jones, NMMI; (4) Radalls, P. A. & M.; height, 6 feet 3 3/4 inches. (New record).

Discus throw: (1) Jones, NMMI; (2) Edmonds, Tech; (3) Payne, Tech; (4) Claunch, Tech; distance 120 feet.

### DISCORDS

I  
She said: "Won't you come along with Joe."  
So what could I do but laugh and go.  
She murmured: "I've captured me beau."  
So what could I do but laugh and go.  
She murmured: "I think you're mean to be so slow."  
So what could I do but laugh and stay.

II  
She said: "Thy feet shall never turn to clay."  
So what could I do but laugh and stay.  
She said: "We'll be so happy on that day."  
(Now what could I do but laugh and stay.)  
She said: "You have the most de-sepisable way!"  
So what could I do but laugh and go.

## Paynemen to Meet Wildcats in Track Season Final Go

By DOUGLASS SMYTHE.

Next Saturday will see Tech and Abilene Christian College fighting for the track championship of West Texas. This meet bids by far to be the closest and best of the season as neither the Wildcats nor the Matadors have suffered defeat in the dual meets so far. The Wildcats from Abilene have made some very good marks this year and will be out to keep them from being broken. Only once this year have the cinder path men of these schools met before, and that was in Austin at the Relay Games. Here the Matadors overcame a lead and defeated the Wildcats in the half mile relay.

The Wildcats will bring such men as Stevens, Coalson, Vaughn, Clynch, and Powell with them. These men are all well known in West Texas Athletic fields and will offer very stiff competition to the Tech thinly clads.

The Matadors will be at their best form in this meet and as it will be the last go of the season some real competition will be in store for the Wildcats. The Matadors have not met defeat on the Tech Track this year and will try to keep this record clean.

## One Win, One Lose With Canyon Buffs

By Ottis Koen and Truman Teal.

In a loosely played game the Canyon Buffaloes took the opener of a two-game series with the Matadors Wednesday by a score of 13 to 4. The game was another soccer contest, twenty boots being committed, twelve by the Buffaloes off of Grey and eight by Tech from the offering of Strain.

The high wind, the large park and several errors were responsible for four home runs that otherwise might have been only singles or doubles.

Godfrey and Newman of the Buffaloes tied for hitting honors, each collecting a home run and a single.

### Box Score

TECH	AB	R	H	P	O	A	E
Rigney, 2b	5	1	3	1	2

## Tech Comes Back 4 to 1 in Second

The Matadors came back Thursday with a tighter crew and evened the defeat of Wednesday by a score of 4 to 1.

## With Many 1st Places Tech Track Men Double Simmons Score

By Ottis Koen and Truman Teal. The results of the Tech-Simmons track meet, in which Vic Payne's track and field entries piled up an 89 to 42 score, and the summary of events:

120 high hurdles—Christian, Tech, 1st; Payne, Tech, 2nd; and Tadlock, Tech, 3rd. Time 15.7 seconds.

100 yard dash—Smythe, Tech, 1st; F. Woodbridge, Tech, 2nd; and Hardy, Tech, 3rd. Time 10.1 seconds.

Pole Vault—Fritzgerald and Sims, Simmons, tied for 1st and 2nd, and Hardy and Walker, Tech, tied for 3rd. Height, 10 feet 6 inches.

One mile run—Freeland Tech, 1st; Fry, Simmons 2nd; and Porter, Simmons, 3rd. Time 9 minutes 13 sec.

220 yard dash—Smythe, Tech, 1st; Dallas, Tech, 2nd; and F. Woodbridge, Tech, 3rd. Time 22.4 seconds.

440 yard dash—McCollum, Simmons, 1st; Corley, Tech, 2nd; and C. Woodbridge, Tech, 3rd. Time 53 sec.

High Jump—Tadlock, Tech, 1st; Gregg, Simmons, 2nd; and Pace, Tech 3rd. Height 6 feet 1 inch.

Discus Throw—Smith, Simmons, 1st; Claunch, Tech, 2nd; and Starr, Tech, 3rd. Distance 127 feet 10 1/2 in.

Shot put—Edmonds, Tech, 1st; Read Tech, 2nd; and Starr, Tech, 3rd. Distance 39 feet 9 1/4 inches.

Two Mile Run—Rollins, Tech, 1st; Walters, Simmons, 2nd; and Mims, Simmons, 3rd. Time 11 minutes, 32.2 seconds.

230 low hurdles—Fisher, Tech, 1st; Christian, Tech, 2nd; and Bounds, Simmons, 3rd. Time 25.1 seconds.

880 yard run—Fry, Simmons, 1st; Weatherby, Simmons, 2nd; and Smythe, Tech 3rd. Time, 2 minutes 14 seconds.

Broad Jump—Fisher, Tech, 1st; Sims, Simmons, 2nd; and F. Woodbridge, Tech, 3rd. Distance 22 ft., 1 in.

Javelin Throw—Fisher, 1st; Taylor, Tech, 2nd; Bartlett, Simmons, 3rd. Distance 153 feet 11 inches.

One mile relay—Texas Tech (Dallas C. Woodbridge, Fisher, and Corley). Time 3 min., 32.5 sec.

"Pete" Peterson, Matador third baseman, led the Bullfighters in hitting by gathering in two singles and a double out of four trips at bat. Besides giving the Matadors superb pitching, freshman Howell collected a few of the hitting honors himself when he singled in the sixth and closed one for the circuit in the eighth, only out be called out for overrunning the bag at third.

The Matadors played a better brand of baseball Friday than the previous day by tightening in the pinches to hold the Buffaloes to 2 lonesome hits while they were swatting Wells, Buffalo ace, for eight blows.

The Teachers left Lubbock immediately after the contest for Abilene, where they met the Wildcats in a two game series Friday and Saturday.

## Board Members and Girls' Glee Club Bldg. Committee Express Tech Needs

By OTTIS KOEN.

"Tech needs two million dollars at the present time" was the opinion expressed by members of the State Board of Control and the college Building Committee after a visit to the college Thursday.

The visitors seemed to believe that Tech's present need was about equal to the amount already spent on buildings. Tech has already spent approximately two and a half million dollars. If she should get an appropriation of two million dollars more she will have received nearly half of the entire estimated building expenditure, which is \$10,000,000.

The members of the Board consisting of: Dr. H. H. Harrington and Mr. W. T. Gaston, chief clerk of the Board, together with several members of the Building Committee; Mr. C. G. Comegys, chairman, of McKinney, Mr. Frank E. Clarity of Ft. Worth and Mr. Clifford B. Jones of Spur, visited every department of the college and talked with the heads of the departments.

They seemed to be impressed especially with the crowded condition in the hallways between class periods. They were also of the opinion that more library room was needed.

While in Lubbock the members of the Board and the Building Committee were the guests of the Kiwanis Club at noon and the Department of Home Economics in the evening.

## Matadors to Play Indians Here

Tuesday, Wednesday and Thursday of this week the Texas Technological college baseball machine will meet with the McMurry college Indians, of Abilene, on the Matador field.

In the six collegiate contests played thus far, two with Baylor University, and two with the eWest Texas Teachers college, the Matadors have played 500 percent baseball as they have split the series with each school.

## Tech Sends Delegates To T.I.P.A. Convention

As delegates to the annual T. I. P. A. contest which met last week in Canyon, Ferral Roark, Editor-in-Chief of La Venetana, J. W. Jackson, member of the press club and Senior issue editor of The Toreador, and Tom B. Morrison, Editor-in-Chief of The Toreador, represented the college.

## Girls' Glee Club Gives Program Honoring T.I.P.A.

The Girls' Glee Club of the West Texas State Teachers College, consisting of twenty members of the department of music, presented a program in the college auditorium, Friday evening, April 27, as a feature of the entertainment for the delegates to the Texas Intercollegiate Press Association.

The organization is directed by Miss Pauline Brigham, of the department of music, and has presented several notable programs over the Panhandle during the year. The program consisted of part songs by the Glee Club, assisted by soloists.

## Thespian Club Meets Last Wednesday

Thespian club members of the college were guests of Miss Pauline Hufstедler at her home on the Slaton highway Wednesday afternoon for a business and social program. Readings were enjoyed during the latter part of the afternoon, Misses Eunice Cox, Kate Pressley, and Bobbie Rushing speaking. Miss Hufstедler served strawberry ice cream and cake to Miss Winona Ford, Rosebud Osborne, Lillian Hopping, Bobbie Rushing, Glenda Crawford, Kate Pressley, Ruth Forbes, Louise Harris and Eunice Cox.

## Faculty Members Attend American Science Meeting

Miss Beatie League and Dr. E. L. Reed of the Biology department, Mr. L. V. Robinson of the Mathematics department and Dr. R. J. Ryssel and Dr. M. S. Stainbrook of the Geology department attended the meeting of the Southwestern Division of the American Association for the Advancement of Science which was held in Flagstaff, Arizona, during the past week.

It is of interest to note that Dr. Russell, Dr. Stainbrook, Dr. Reed and Mr. Robinson had scientific papers to present before the meeting.

### TO PHILOSOPHERS

Tell me and convince me that 'tis good to be—  
You who know what it's all about.  
We live—ah, we know not what we do—  
The mind surrenders to doubt  
All the heart revered as true;  
Vainly we have sought for a clue  
To how it all came to be.  
From whence came God and to where  
Go we—  
Is the universe a spoken decree—  
Or did Palaeozoic mud create life  
And assign a purpose to its strife?  
It is answers that I seek,  
If thou art Good I pray thee speak.

## Koen Says "Get The News" for a Real Toreador

### FELLOW STUDENTS:

Being a candidate for editor-in-chief of The Toreador it becomes necessary that I state my platform. I shall proceed to give my reasons for making the race, my experience, and my ideas of what our paper should be, in order that you may determine whether or not I am the man for the position.

### REASONS FOR MAKING RACE:

1. My friends have encouraged me to do so.
2. I believe I can edit a paper that will please you.
3. I am a student of Journalism.
4. I need thirty-five dollars per month.

### MY EXPERIENCE:

1. One year with The Lubbock Daily Journal.
2. Two years on the Toreador staff.
3. Two years on the La Ventana staff.
4. Several courses in Journalism.

### PLATFORM:

The first aim of The Toreador should be to give the students and faculty members the news—all the news—of the entire college. Everything which pertains to the college should be reported in The Toreador, in order to get all the news—to overlook nothing—I propose to have a staff of reporters who will pay regular visits to every office in every school of the college. I propose to have a reporter at every athletic event, at every club meeting, at every social function.

Furthermore, I believe in a close relation with other colleges. If a news event occurs in another college which pertains to Tech, The Toreador should be the medium by which we all learn about it. Hence, I propose to have some one to 'comb' the exchange papers for inter-college news.

I am in favor of many short, well-written news items rather than a few long articles. Something of interest is happening in Tech all the time. The thing for The Toreador to do is 'get it' and not try to fill its pages with a few long drawn-out articles.

I favor a column of Student Opinion.

I favor many personals. I think they make a paper interesting.

I propose to print only those editorials of special merit. I do not think college students like to be 'preached' to. However, the editorial column will be open to anyone who submits a constructive editorial, provided he is willing to have it credited to him.

I repeat: The prime duty of The Toreador is to "Represent the ENTIRE college".

If my platform expresses conformity with your idea of a college newspaper should be, I would appreciate your support. I thank you.

OTTIS KOEN.

## Stude Says Water Is Main Cause of Floods; Prohibition

Water is a substance largely liquid in composition and is the habitat of germs, molecules, and fish. It is found to a large extent in rain, milk, and bathtubs.

Its use in the past has been largely exterior, being favored for washing of clothes, faces and automobiles; from now on, however it will in all probability become the favorite national drink.

Water is the principle cause of floods, navies and raincoats and is largely responsible for the formation of ice.

In conjunction with soap water is regarded by many authorities as being an excellent cure for bolshevism; and sprinkler systems as well as electric washing machines are useless without it.

It is a very poor cooling and insulatory medium for use in transformers and is not recommended for such usage.

It constitutes practically the only obstacle to the construction of fine macadamized roads between New York and London and furthermore if it were not for water the chances are there would be not prohibition.

## MATADOR CAFE

## Convention.

(Continued from First Page.)

papers to print only news and an interpretation of news.

News, was characterized as the food of public opinion. Mr. Martin illustrated this point by reference to the recent Hickman case, in which newspaper so moulded public opinion that the slayer was speedily apprehended and brought to justice.

The newspaper as an agent of democracy, in that the press will help form public opinion, was a further point made by Mr. Martin.

The editor does not fulfill his task unless he intelligently gives news.

The educational phase of journalism was pointed out in the speakers remarks ament the value of such education.

### Journalist Must Know.

The journalist must have information at his finger tips and a general college education will enable one to get a start on a real education but education must continue long after college.

Mr. Martin concluded his address with the statement: "Do not forsake your general broad education until you have finished your career as a journalist."

Following the morning session the delegates were entertained at a luncheon by the Chamber of Commerce of Canyon.

### Second Day.

The second day of the convention was devoted to speeches by Olin Hinkle, editor of the Pampa News, and C. W. Warwick publisher of the Canyon News. Mr. Hinkle told how personality will get the news, pointing out the fact that a well trained journalist has an humbleness and yet does not lack poise. He advised his hearers to beware of the superciliousness which so often characterizes college trained journalists. He said that the average newspaperman does not expect the college trained journalist to be well versed in technical experience.

In discussing college publications the speaker pointed out that too much faculty supervision is the bane of the college paper work. The most important things for a college journalist to observe are:

1. Accuracy.
2. Ability to see news sources.
3. Ability to be in contact with the ways of the world—the college journalist must use every facility to know life.
4. The college journalist should study the style of the newspaper on which he works.
5. He should be genial; critical but not soured. He should study the mission of the press and fight for the freedom of the press.

In closing, Mr. Hinkle said: "There are too many publishers and not enough newspaper men in Texas. These little things we are using are words—be careful of them."

### Warwick Talks.

Mr. Hinkle was followed by Mr. Warwick, of Canyon, who seemed to favor the country field, pointing out the mechanistic "cog in the machine" type which is the characteristic of the city paper. The mission of the country paper is to tell all the news of the community.

In regard to constructive newspaperwork the speaker said that the strongest country newspaper is the biggest booster.

He advised, "If you don't like people and can't get along with them, the country field is no place for you."

The country paper field was held up to the assembly as the place where the college journalist can gather up all the threads and there finish the product the college journalist is starting at this time.

## Twelve Men Score In Rifle Firing

By OTTIS KOEN

The record of Tech's rifle firing squad shows four experts, and nine sharpshooters. Those in the expert class, in the order of their rank, are: Ogden King, W. S. Galloway, F. M. Coker and H. E. Killin.

Those in the sharpshooter class are: Zed Glimp, G. H. Higginbotham, James Lindsey, F. S. Ford, Archie Brown, Neville Graham, Earl H. Cain, Albert Horstmann, and Jack Camp.

## Floating Univ. Will Carry Real Orchestra on Tour

In a bulletin sent out from the New York headquarters of the International University Cruise Inc., Mr. A. J. McIntosh, President, announces the organization of a full Symphony Orchestra under the direction of Mr. Frederick H. Lewis, a noted pianist and musical director of Ann Arbor, Michigan, which is to be made up of advanced musicians chosen from some of the largest Music Schools in the United States.

In addition to presenting the standard orchestral compositions of great composers the orchestra will present during the world cruise the worthwhile compositions of American Composers.

The "Floating University" cruise will thus carry American Music to the four corners of the world as the Orchestra will visit practically every country of importance on the face of

This edition of The Toreador was edited by the candidates for editorship and managership of The Toreador and La Ventana for next year. The various articles are credited to the writers in order that the student body may have a "sample" of the candidate's ability.

—Editor
