

U. S. Accepts Proposal For New Germany

WASHINGTON, June 9. (AP)—Secretary of State Marshall announced today American acceptance of the London conference proposals for Western Germany.

Marshall called the London plan "a major step" toward the solution of the problems of Germany. It provides for a federal government to give Western Germany a measure of "home rule" and pledges occupying powers not to withdraw their forces except by mutual agreement.

Groundwork On More Paving Is Ordered

City commissioners Tuesday instructed the city manager to begin preparation of assessment rolls for 96 1/2 blocks of city streets which have been submitted for consideration in plans for a fall paving program.

The total amount is substantially higher than the city plans to carry through for completion, but the commission agreed that preliminary work should be completed for all streets up for consideration.

The city also has left open its own proposal for curb and gutter installation, which provides that curbing will be installed at a rate of \$1.20 per foot on any block where property owners agree to make 100 percent cash payment.

The city's rate for curbing is 15 cents a foot below the contract price.

Lawyer Freed Of Contempt Fine

AUSTIN, June 9. (AP)—A Fort Worth lawyer who balked at defending a confessed rapist was freed today of a \$100 contempt of court fine.

The Court of Criminal Appeals ruled that the attorney, Clifford Mays, was not in contempt for his protest against defending William Ray.

Graves said that Ray was not "too poor" to employ counsel and that the trial judge was in error in appointing a lawyer to defend him.

WANTS WORK FINISHED

Truman Attacks GOP Leadership

ABOARD TRUMAN TRAIN ENROUTE TO SPOKANE, Wash., June 9. (AP)—President Truman today, challenged the Republicans to keep Congress in session until price control, housing and farm bills are passed.

He made a slashing attack on the Republican congressional leadership, mentioning the opposition party for the first time since he left Washington last Thursday on a western tour.

Man Killed In Highway Crash

W. L. Yarbrough, 39, who was enroute from Odessa to join his bride of a month at Abilene, was killed instantly in a crash on U. S. 80, 15 miles east of here Tuesday afternoon.

The car in which he was riding alone was in collision with a moving van occupied by Mr. and Mrs. G. R. Coker, Birmingham, Ala. Mrs. Coker was hospitalized for minor injuries at Colorado City and Coker escaped uninjured.

Yarbrough suffered head injuries as well as hurts to his arms and legs. He was enroute to Abilene to assist Mrs. Yarbrough, the former Mrs. Larline Walker to whom he was married on May 2, 1948, in operation of a tourist lodge. He had been residing in Odessa, and had closed out his affairs there.

The van was westbound and the two vehicles collided near the Howard-Mitchell line at about 4 p. m. Yarbrough's body was taken to Colorado City.

Foreign Aid Reduction Hit By Vandenberg

Launches Fight To Get Funds Restored

WASHINGTON, June 9. (AP)—Sen. Vandenberg (R-Mich) today called the House cut in foreign aid funds a "cynical reversal" of American foreign policy.

He said it is a dangerous one which "guts the enterprise" of strengthening Europe against communism as "insurance" the United States will not have to fight another great war.

With these words, the chairman of the Senate Foreign Relations Committee launched a fight to get from Congress the funds he believes are necessary for foreign aid.

What the House did is this: The administration asked \$6,533,000,000 for a 12-month program. The House voted \$5,980,000,000 and said it had to be spread over 15 months.

Secretary of State Marshall has said that would mean cutting European aid from a recovery program to mere relief.

Vandenberg went before the Senate Appropriations Committee simply as a witness. Seated by his side was Sen. Barkley of Kentucky, Senate Democratic leader and a member of the Foreign Relations Committee.

The questions raised in France are whether there are sufficient guarantees against a re-armed Germany.

The German problem, Marshall said, involves a careful balance between the needs of European reconstruction and the dangers of possible restoration of the might of Germany by rebuilding some of its basic industries.

Atomic Wage Talks Continue

OAK RIDGE, Tenn., June 9. (AP)—Officials met today at a conference table with representatives of the atomic plant operating company their members denounced last night.

The session was another of the series directed at settlement of the lengthy labor dispute at Oak Ridge National Laboratory.

It followed a mass meeting of workers who went on record opposing re-confirmation of Atomic Energy Commission members, specifically Chairman David E. Lilienthal "for his open support of the vicious contractor, Carbide and Carbon Chemical Corporation."

The meeting of about 500 of 875 atomic laboratory workers also unanimously authorized their union, the AFL Atomic Trades and Labor Council to call a strike.

The union is demanding a 26-cent hourly pay increase above the present average \$1.38 wage. Carbide has offered a 10-cent hike.

Mexico Reducing Railroad Fares

MEXICO CITY, June 9. (AP)—The government-owned national railroads announced today that first class fares will be cut 40 percent from Sept. 14 to 25 and from Nov. 29 to Jan. 21, 1949, to encourage vacation travel.

Fat Cows Sell At Record \$25 Price

FORT WORTH, June 9. (AP)—A new high price record for grass-fed fat cows was set here today when two truck loads averaging 1,132 pounds sold at even \$25.00. They came from the Parker county ranch of Monroe Veale of Breckenridge.

STATES-RIGHTS DEMOS WILL OFFER OPPONENT TO TRUMAN

JACKSON, Miss., June 9. (AP)—Southern states' rights Democrats will offer their own presidential candidate if the national party nominates President Truman.

Palestine War To Halt Under Four-Week Truce

DISCUSSES TRUCE WITH ARABS—Count Folke Bernadotte of Sweden (left), United Nations mediator for Palestine, and Azdel Rahman Azzam Pasha (center), secretary general of the Arab League, defly Cairo's summer heat to discuss terms of a four-week truce in the Palestine war. With them in Bernadotte's suite in Shepherd's hotel is Dr. Ralph Bunche (right) of the United Nations secretariat. (AP Wirephoto via Radio from Cairo).

Both Sides Agree To U.N. Proposal

CAIRO, June 9. (AP)—Arabs and Jews announced today unconditional acceptance of a four-week truce in the Palestine war.

The government of Israel in Tel-Aviv issued a communique saying it accepted the nine-point proposal of the United Nations mediator, Count Folke Bernadotte.

In Amman, key capital of the Arab war, Trans-Jordan Foreign Minister Fawsi Pasha Mulki announced all Arab states accepted the proposal to cease firing at 1 a. m. Eastern Standard Time, Friday.

United Nations officials at Lake Success were elated at the success of the mediation efforts, but delegates still urged caution. They pointed out that any incident between now and the cease fire hour might upset the apple-cart.

There has been no official word from Count Bernadotte himself. But he arranged a news conference for 10 p. m. (3 p. m., CST) to announce the replies of both sides.

Neutral observers here said even under an armistice there might be many isolated instances of sniping or small-scale guerrilla warfare. They said this has been the normal situation in the Holy Land for a long time.

Foreign Minister Moshe Shertok's announcement of the Israeli acceptance said no conditions were attached, but Israel asked certain technical modifications in the mediator's proposal with regard to immigration, war material and supplies to besieged Jerusalem's Jews.

In the twilight period between acceptance and effectiveness of the truce, fighting continued in the Holyland.

A Trans-Jordan Arab legion communique said Jews, 1,000 strong, attacked at Bab El Wad gorge last night. The gorge is astride the supply road from Tel Aviv to Jerusalem.

Jews still battled Egyptians in the Isdud area on the coastal route to Tel Aviv, and Jews and Arabs fought in the northern Nablus-Tulkarm-Jenin triangle, held by the Arabs.

Artillery fire continued in Jerusalem itself. A pooled dispatch from the Holy City said Jewish-held areas of the new city were hit with anti-personnel shelling late yesterday, and that last night the Jews staged a swift counterattack against what looked like the beginning of an Arab offensive drive from the Damascus gate of Arab-held old Jerusalem.

Odessa Slaying Trial Near End

ODESSA, June 9. (AP)—Closing arguments were scheduled for today in the murder trial of Dennis (George) Randel, charged with the death of his twin brother, Dallas.

Dennis denied yesterday he had told his brother to leave him alone "or I'll fill you full of lead." A state witness testified he heard the words shortly before the shooting in a local cafe Feb. 13.

Dempsey Concedes Anderson Victory In New Mexico

ALBUQUERQUE, N. M., June 9. (AP)—John J. Dempsey today conceded New Mexico's Democratic nomination for U. S. senator to former Secretary of Agriculture Clinton P. Anderson.

The former New Mexico governor announced at his home in Santa Fe: "I have wired Mr. Anderson my congratulations this morning. I wish also to express to the people of the state who supported me my sincere thanks. 'It's one of those things,' he added. 'Everything happens for the best.'"

STANDARD AIRPORT REGULATIONS ADOPTED BY CITY COMMISSION

The Municipal Airport claimed the top spot on the agenda at Tuesday's city commission meeting.

Frank Hodnett Dies Suddenly At Knott Home

Thomas Francis (Frank) Hodnett, 64, prominent farmer and former county commissioner, died suddenly at his home in the Knott community Tuesday.

Mr. Hodnett had worked in the field all day, completing his planting. He did not complain of feeling ill and said he was going to water his chickens. A moment later, when his daughter, Mrs. Robert Brown, came up in the car, she found Mr. Hodnett lying on the ground, the horse still running.

Born June 25, 1883 in Collin county, Mr. Hodnett had been a stock farmer all of his adult life and a resident of the Knott community for the past 30 years. He came to Howard county in 1900 and was married to Iva Linn Anderson on Feb. 7, 1909 in Big Spring.

In 1930 he was named democratic nominee and elected as county commissioner from precinct No. 1 and took office Jan. 1, 1931, to serve three consecutive terms. This year Mr. Hodnett had offered again for the office.

Surviving are his wife; three sons, Merle F. Hodnett, Big Spring, Ewell W. Hodnett, Carlsbad, N. M., and Grady L. Hodnett, Knott; one daughter, Mrs. Robert Brown, Knott; three sisters, Mrs. Ely Satterwhite, Big Spring, Mrs. Wiley Puckett, Lubbock, and Mrs. Eugene Long, Big Spring; and three grandchildren, Haley, Fredrick, Karen, Ruth Ann, Frank, Kirby and Larry Hodnett and Robbie Merle Brown.

Masonic rites will be said at 4 p. m. Thursday at the Eberly chapel and graveside by members of the Big Spring lodge. Mr. Hodnett also was a Knight Templar, and fellow knights will serve as pallbearers.

ANSWER TO LEWIS Coal Operators Draft Own Plan

WASHINGTON, June 9. (AP)—John L. Lewis today offered to keep the coal miners on the job after July 1—when their present contract expires—if mine operators agree to his \$100 a month pension plan.

Lewis also attached another condition—that any new contract finally negotiated shall be retroactive to July 1.

WASHINGTON, June 9. (AP)—Soft coal operators seemed likely to come up with a proposal of their own today in the touch-and-go contract talks with John L. Lewis.

The mine union boss started the court-directed bargaining sessions off Monday with a welfare fund plan the operators quickly rejected.

So it looked like the negotiators for the mine owners, after a 48-hour huddle among themselves, had readied a proposal of their own.

The negotiating conference was to resume this afternoon. The present contract expires June 30 but Lewis has spoken encouragingly of whipping up a new pact before then to avoid a July coal strike.

It appeared possible that any plan put forward by the operators would cover only one of the many points at dispute. Lewis has called for wage and welfare program improvements as his price of peace.

One of the main issues is finding a way to pay pensions and other benefits out of the \$50 million-a-year welfare and retirement fund financed by the 10-cent-a-ton royalty.

The money has been piling up for almost a year now because of the argument between Lewis and Erza Van Horn, trustee for the operators, on a payment plan.

Van Horn has challenged the proposed \$100 pension system devised by Lewis and Sen. Bridges (R-NH), the third trustee. Van Horn says it violates the Taft-Hartley labor act and is too steep a figure for the fund to stand.

Federal Judge T. Alan Goldsborough on June 19 will hear Van Horn's suit to junk the Lewis-Bridges proposal and have the court instruct the trustees how they should proceed.

Possibly nothing will be done about the welfare fund clauses in the new contract until Goldsborough rules and thus clarifies the legal situation.

Dr. Ross Case Being Argued

AUSTIN, June 9. (AP)—Oral arguments in the appeal of Dr. Lloyd I. Ross from the death sentence were scheduled before the Court of Criminal Appeals here today.

Dr. Ross, San Antonio surgeon, was convicted of murder in the death of Mrs. Gertrude York, 43, one of four members of the Willard York family slain on a Comal County country road May 22, 1947.

Defense attorneys had based their case in trial court on a plea of insanity. The trial was held at La Grange after failure to select a jury in Comal County.

Besides Mrs. York, the 43-year-old doctor had also been charged with the rifle slaying of her husband, Willard H. York, 36, San Antonio investment broker; their son, John, 9, and York's mother, Mrs. Mary York, 67. They were slain as they were driving to church from their ranch home in Comal County.

The Ross and York families had been friends for years. The defense sought to show during the trial that Ross "cracked up" after he lost his savings, about \$150,000, which he had entrusted to York for investment.

New Pay Opener In Coke County

SAN ANGELO, June 9. (AP)—The No. 1 Jake Lassiter oil well, opener of Coke county's fifth and latest oil producing area, had been completed today.

On an official 24-hour gauge the well flowed naturally 221 barrels of high gravity oil plus 78 barrels of salt water and basic sediment.

It is owned by Alan Guiberson and others of Dallas.

Production was through an 11-32 inch tubing choke from open hole at 6,235 to 6,250 feet, the total depth in Marble Falls lime. Operators estimated the gas oil ration was 7,000-1. They plan to set a plastic plug on the bottom in an effort to shut off the water.

No. 1 Lassiter is in the C SW SE 308-LA-H&TC 2 1/4 miles northwest of Sanco. It is lower structurally than Sun Oil company's No. 1 J. W. Arledge Marble Falls lime strike 2 1/2 miles north and three-quarters of a mile east. No. 2 Lassiter has been staked as a diagonal northeast offset.

Turkish Premier's Government Falls

ANKARA, Turkey, June 9. (AP)—The government of Premier Hasan Saka collapsed today under harsh fire from critics of its domestic economic policies.

Foreign policy played no part in the disputes which led up to the Saka cabinet's unexpected resignation early this morning. Turkey is receiving American aid under the Truman doctrine, intended to protect Greece and Turkey from Communist pressure.

STANLEY HARDWARE OFFERS MOST OF FAMOUS CROSLY PRODUCTS

Complete line of the most modern home appliances, including frozen food cabinets, washing machines, ironers, ranges and radios, can be purchased at Stanley's Hardware store, 203 Runnels street. Stanley's handles most of the Crosley manufacturing company's products, including the Shelvador, the Frostmaster, the Deluxe Gas Range as well as several models of radios. The Shelvador is a patented model which makes use of space within the door and for that reason can store a greater amount of food than most makes of boxes. The Frostmaster boasts a sparkling white, easily cleaned finish which occupies less than six square feet of floor space. It is designed to fit the average kitchen, entry or closet. The Crosley radios range in size from the five-tube table model to the huge 14-tube console. On display in the Stanley store is an exact model of the famed Kitchen-Kraft kitchen, an all-steel unit that conforms to modern design. Utility cabinets, base cabinets, wall cabinets and sinks are included in the unit. Combinations are made to fit every kitchen. Kitchen-Kraft is permanent, rot-proof, warp-proof and vermin-proof. All units are reasonably priced.

We never did learn whether Kilroy settled down, or Richard got the door open.

Blossom Artistry At Caroline's

While residents are now enjoying summer yard flowers, they still look to Caroline's Flowers for that extra quality and beauty in cut flowers and pot plants.

A case in point is the gladiolus at Caroline's shop. Included in this

fine collection are the conventional rich colors in white, salmon, pink and yellow. Two shades, not so common but perfectly gorgeous, are a deep purple and fuchsia.

In 35 years, the Rockefeller Foundation has spent more than \$400,000,000 in virtually every corner of the world.

Besides these, Caroline's has a wide range of other flowers suitable for bouquets, corsages, sprays etc. Among them are the ever dependable roses, the almost waxy snapdragons, daisies, carnations and the delightful peonies.

Carrie Scholz, owner of the shop, has an unusual talent for arrangements, and her artistry adds much to an order of blossoms for any occasion.

For those who prefer a pot plant, because verdance and beauty can be perpetuated, Caroline's has a wide selection. Besides the dependable begonias, there are the tuberous begonias, which put on large and lovely blooms; fuchsias with

W&K Cleaners Press Service

One of the major problems usually associated with the summer months can be solved easily and conveniently at the W&K Cleaners, 1213 West Third street.

In fact, local residents can all but forget their worries concerning increased cleaning and pressing needs occasioned by summertime outdoor activity, when they rely upon W&K's dependable service.

The establishment is owned and operated by D. Weatherly and O. B. Kirby, who give constant personal supervision to all types of work their firm performs.

Regular cleaning and pressing during the summer months is not only essential to good grooming, but it also helps prolong the life of clothing, the co-owners explain. Their shop boasts completely modern equipment, and they employ the latest cleaning processes to insure expert service.

W&K also performs alterations of all types, and the firm serves as a retail outlet for a popular line of made occasioned by summertime

They have a large variety of spring and summer samples from which customers may choose patterns. They include suits for both men and women, and prompt delivery is assured on all orders.

LIGHTER, LOWER, LONGER

New Ford, Shown Privately Has Many Radical Changes

NEW YORK, June 9. —The new model Ford was unveiled today in a strictly private preview, and you would never know that she is the great granddaughter of old Tin Lizzie.

The car is lighter, lower, longer and more expensive than old models. Interior and exterior color is imaginative, but there is a marked reduction in the use of flashy chrome finishing inside and out that characterized so many post-war automobile models.

Private unveiling ceremonies in the Waldorf-Astoria Hotel on Park Avenue spread out over an area as big as eight basketball courts. It is the largest show ever staged at the Waldorf, a hostelry long accustomed to "famous firsts." It will be open to the public tomorrow.

What strikes the eye immediately is the styling. It's described as "functional," with a low silhouette which is unbroken from the blunt nose to the fenderless rear. A balance was achieved by moving the body forward five inches to cradle it between the wheels.

Mechanical improvements are

stressed by Ford engineers who made scores of changes such as rubber engine mountings to reduce vibration, a 10 per cent increase in gasoline mileage in normal operation and a 25 per cent improvement with the optional engine over-drive.

The style change in emphasized downs, a maximum of 20 square feet of glass. Color choice is wide and vivid in label—bayview blue metallic, birch gray, sea mist

green, Arabian green, colony blue, gun metal gray metallic, Midland maroon metallic, black, fez red and Miami cream. Interior fabric also departs from tradition with a gray tweed mixture with a blue stripe, green striped broadcloth, or mohair in a green and maroon stripe and a green and gray stripe.

Prices of \$1,113 to \$1,980 are 8.7 per cent higher than current models and are subject to revision in July.

Benny Meyers' Ex-Secretary Sues Him For 'False' Stories

NEW YORK, June 9. —The former secretary of Bennett E. Meyers is suing the retired air force general for \$250,000, charging he made "false" and "defamatory" statements about her.

Mrs. Mildred R. LaMarre filed suit yesterday in federal court. In an affidavit, she said Meyers imputed in statements before a Senate investigating committee that she was an "unchaste woman, unfaithful to her husband and her marriage vows."

Meyers, wartime air forces procurement officer, is serving a prison term for inducing Mrs. LaMarre's husband, Brierly H. LaMarre, to make false statements to the committee concerning Meyers' activities.

LaMarre served as president of the Aviation Electric Corp., of Vandalia, Ohio, which Meyers allegedly owned. LaMarre has been indicted for perjury.

Mrs. LaMarre, of Dayton, Ohio, said in her affidavit that Meyers told the Senate committee:

"I had an affair with this gal. It lasted for eight years. She was good looking at that time. I was intimate with her."

She charged the general testified falsely, that his statements were "injurious to my reputation and

character," that they caused her mental anguish and bodily harm, and that as a result she is ill.

Meyers has a residence in Huntington Township on Long Island, N. Y.

Anne's Parents Give Approval Of Marriage

ATHENS, June 9. —A spokesman for ex-King Mihai of Romania said today Princess Anne of Bourbon-Parma is being married here tomorrow with the full consent and agreement of her parents.

He declared that Anne's uncle, Prince Xavier of Bourbon-Parma, spoke without authority in Paris Monday when he said the Bourbon-Parma family did not approve of Anne's marriage to Mihai.

"Anne has a mother and father with whose full consent and agreement the wedding is going to take place," the spokesman said.

"The reason Xavier made this statement," he added, "is because he is under the complete domination of the Catholic Church and is most anxious to protect his position."

(Xavier is a pretender to the Spanish throne.)

Although the spokesman said Anne's mother and father will not be in Athens for the wedding, that fact should not be taken as "evidence that they disapprove. The fact that Prince Erik, Anne's uncle, is here and will attend the wedding as a representative is the best evidence that the wedding has been approved by the family," the spokesman said.

Prince Xavier, declaring that he

Moscow Reports Record Heat Wave

MOSCOW, June 9. —Moscow's heat wave continued today. The weatherman said yesterday's 92-degree heat was the highest temperature in the Soviet capital in 27 years and predicted the mercury would climb to 93 degrees before this day is over.

Czechs' New Constitution Is In Effect

PRAGUE, Czechoslovakia, June 9. —The new Czech constitution, which President Eduard Benes refused to sign, becomes the law of the land today.

A government announcement to this effect did not say by what executive signature the document was made valid.

The presumption is that Communist Premier Klement Gottwald signed it after Benes handed in his resignation Monday. Gottwald is considered the leading candidate to succeed Benes. Parliament will choose the new president Monday.

The new constitution, adopted unanimously by Parliament a month ago today, proclaims Czechoslovakia a people's democratic republic in "the great family of Slav nations."

By the constitution, parliament consists of a single house of 300 members. The deputies were chosen at a single-ticket election May 30.

The voting age is fixed at 18, and the minimum age for holding public office at 21. Women have equal rights with men.

Negro Elected To Richmond Council

RICHMOND, Va., June 9. —Citizens of Richmond, Va., elected a 41-year-old Negro attorney to a seat on their new nine-member city council today.

Oliver W. Hill, World War II veteran, was the only independent candidate to break the ranks of the Richmond Citizens Association, which elected eight of its nine candidates.

Hill edged out T. D. De Cuenno, ninth member of the association's slate, by an unofficial count of 9,095 to 8,834. De Cuenno is area director of the CIO for the eastern part of Virginia.

The Negro attorney's election marked the first time that a member of his race had been named to the city's governing body in many years.

SAWYER REPORT CANCELLED

Secrecy Lid Put On Russian Trade

WASHINGTON, June 9. —United States policy on trade with Russia settled into a "keep 'em guessing" phase today under strange circumstances.

To the secrecy over what goods the Soviet Union will be licensed to buy here was added another puzzle: What she actually has been allowed to get since the U. S. clamped down on export licenses March 1.

Plans for Secretary of Commerce Sawyer to tell what American goods Russia has been get-

ting recently—as a rough guide to what she can have in the future—were cancelled abruptly yesterday.

No reason was given for the cancellation, but it was learned authoritatively that Secretary of State Marshall made a personal call on Sawyer shortly before the plans were changed.

At a news conference a little later, microphones which had been set up to record for radio use an expected statement by Sawyer, were requested removed because "no statement will be read."

Speculation over why the State Department might object to disclosure of buying authorizations already given Russia centered on possible fear of its effect on the current battle in Congress over funds to aid Western Europe.

The House voted a \$1 billion slash in the global aid program and Secretary Marshall has urged the Senate to restore the reduction. Otherwise, he said, the Soviet-opposed European Recovery Program will be turned into a "mere relief project."

Sawyer told reporters he will release data later—he did not say when—on types and value of goods shipped to Russia, after the shipments have been cleared.

WAITS FOR CAR THAT HIT HIM

ROSCOE, Calif., June 9. —Night after night Jack Foster, 38, sits astride his parked motorcycle at an intersection here holding a sign which reads: "Who hit me?"

Foster, an aircraft plant worker, was involved in a collision with a truck at the same intersection last May 10. He was hospitalized for many days and still has an injured right leg.

He says that in order to become eligible for compensation because of the accident he must identify the truck in the accident and find a witness.

Foster's nightly vigil has been going on for two weeks without results. He says he'll keep trying.

TRIANGULAR SOLUTION

CHICAGO (U.P.)—Irving Zafan, a delivery man for a diaper service, was robbed of \$85 and his pants. He left his truck and walked to the nearest phone to call police, wearing a kilt of borrowed diapers.

Junior Roosevelt To Support Demos

lin D. Roosevelt, Jr., says he will support "the candidates, program and decisions of the Democratic Party."

Previously, Roosevelt and his brother, Elliott, said they favored Gen. Dwight D. Eisenhower for president.

FDR Jr. told the Westchester County Democratic Club last night: "I am, have been and shall remain a Democrat. I have no sympathy with the 'nervous Nellies' who wax hot and cold in their party loyalty with every turn in the newspaper headlines."

Dynamite Blast Kills 2 In Italy

MILAN, Italy, June 9. —Two persons perished and a score were seriously injured yesterday in Aosta when an illegal dump of a ton of dynamite blew up, according to reports received by Milan newspapers. The town itself was badly damaged, the reports said.

Moscow Reports Record Heat Wave
MOSCOW, June 9. —Moscow's heat wave continued today. The weatherman said yesterday's 92-degree heat was the highest temperature in the Soviet capital in 27 years and predicted the mercury would climb to 93 degrees before this day is over.

WAKE UP YOUR LIVER BILE
Without Calomel—And You'll Jump Out of Bed in the Morning Rarin' to Go
The liver should pour out about 2 pints of bile into your bowels every day. If this bile is not flowing freely, your food may not digest. It may just decay in the bowels. Then get bloated up your stomach. You get constipated. You feel sour, sunk and the world looks punk.
It takes three mild, gentle Carter's Little Liver Pills to get those 2 pints of bile flowing freely to make you feel "up and up." Get a package today. Effective in making bile flow freely. Ask for Carter's Little Liver Pills, 35¢ at any druggist.

New Zenith Table Combination

WITH THE ONE AND ONLY

Cobra Tone Arm

New Zenith "Century"—first table model ever to have the Cobra, same as on big Zenith consoles! An exclusive Zenith invention, found on no other radio at any price. Brings out tone beauty never heard from records before—keeps 'em sounding like new for over 2,000 plays! Also has Silent-Speed Record changer—for 10 and 12 inch records—that works by Remote Control Button on dial, too. Extra large new DialSpeaker for extra big volume, rich tone. "Glide-Away" cabinet lid for easy record loading. Walnut or mahogany finish. **\$99.95 ONLY**

Matching Record Cabinet
Holds 200 records or 40 average size albums! Use it separately—or with the "Century" Table Combination to make a unit giving big console advantages you can't duplicate for twice the price! Walnut or mahogany finish. **ONLY \$39.95**

And for Amazing Power in a Tiny Radio—the new "ZENETTE"
Aristocrat of "personal" portables. Easy to carry as a handbag! Easy to pack as a travel kit! Makes a smart table model, too. Plays anywhere—on self-contained long life battery and AC or DC current. Rich maroon plastic case. Less batteries. **\$42.45**

ZENITH TABLE RADIO
With Convenient Folding Handle Gives you New Superpowered Console, Alnico-Dynamic Speaker. Has Radiomic tone and performance advancements found in costlier Zeniths. Works on AC or DC. Extended broadcast range. New super-sensitive Wavemagnet. Rich walnut plastic cabinet. Model 6D013 **\$32.95**

Name-Calling In Housing

Attacks on the Taft-Ellender-Wagner housing bill have developed at least one monumental bit of illogic. It is inclusion of Sen. Robert Taft in a blanket insinuation that supporters and planners of the measure are communistic.

That will come as a shocking surprise to millions upon millions who have looked upon Sen. Taft as the right-hand bower of the conservative element of the Republican party. As such, the senator from Ohio has, until the real estate lobby got hold of him, been regarded as a pretty staunch and solid antithesis of all that might be called communistic.

His crime, it should be noted, is having part in shaping legislation that would, in an extremely modest way, provide for public housing. Only about eight per cent of the total volume of construction represented in the measure would be in this category; the remaining 92 per cent would largely go to support of private operators.

The lobby is quite willing—and even anxious—to accept the subsidy, but it is bitterly opposed to the government entering a field which its interests have shunned like a plague. It is going to take some more positive alternative than insinuating that Sen. Taft is pink to meet the need for adequate housing for hundreds of thousands of low income people who need shelter befitting human beings.

Safety Ought To Be Habit

Perhaps nobody is saved from the printed word, but if repetition has any effect, it may cause some sober reflection that will result in saving lives and preventing injuries.

The local news has abounded in recent days with accounts of "accidents." These range from a copious amount on highways and roads, and from injuries to death; from freak accidents on the farm and at work to mishaps of pleasure riders. Elsewhere there have been stories about youngsters on motor scooters, about the impaling of a swimmer.

There is not a case but what is tragic, especially when loss of life is involved. Not all, but most of the instances could be avoided by a little care and a little thought. Safety is not a Sunday vestment, but a habit that must be worn from day to day. It must become almost a fetish.

Everywhere people can see potential hazards, and if they can be seen, they could be avoided. On highways, mental alertness is the watchword, for so often it is not only a case of looking out for yourself and your family, but for some reckless or irresponsible fool who may be meeting you. All of us would do well to find some means of periodically reminding ourselves that eternal vigilance also is the price of safety.

Tarts, Darts And Dashes

Most candidates know that they can't fool all the people all the time; but are content to fool the majority for a short time—around election time.

A chip on the shoulder usually indicates that there is wood higher up.

Russians may be striving for world peace, as they contend, but they are clever at hiding their efforts.

Apparently honesty isn't the best foreign policy.

Today's Birthday

COLE PORTER, born June 9, 1893, is a rich boy who became one of the outstanding song writers of the world. He tried law school at his father's request, but soon quit to write songs. He joined the French Army in World War I. Later, he and his wife had fine homes in several cities and resorts. They are famed for their parties. But Porter, a sophisticate of sophisticates, never forgets he was born in a small town, Peru, Indiana.

MATRIMONY HAS PUT EMPHASIS ON PRICE TAG

By HAL BOYLE
NEW YORK, June 9. (U.S.)—Money whispers love's sweet nothings today. Cupid has gone on the stock exchange. Matrimony is wearing a price tag.

Across the country grass widows and spinsters are springing up like dandelions to announce their willingness to race to the altar with the right man. But he doesn't have to be tall, dark and handsome. The first qualification of their atom age Romeo is a five-figure bank account.

This new pattern in leap year courtships was set by a sprightly suburban blonde with one divorce and two children. She had scores of offers since she began looking for a husband with \$10,000. A brunette in Seattle went her one better by advertising for a husband with \$10,000—plus a home.

And now the field is flooded with unwed damsels who've put themselves on the matrimonial mart. But the old iron law of supply and demand has set in. Some girls have cut the asking price to \$5,000 and a wedding ring, and the under-the-counter figure is probably lower than that.

I hope all the girls get the man of their financial dreams. But if most of the lassies in America start refusing to dedicate their lives to a cookstove except on a cash-and-carry basis, they are bound to lose. The going rate on those endearing young charms will quickly drop to bargain basement levels.

It's a matter of cold, sad statistics. It boils down to these facts: Women control most of the nation's wealth; more women than men want to marry; but the male is vanishing.

The 1940 census showed that in the marrying ages—15 to 39—there were only 27,139,179 males to 27,066,583 females. That left Cupid with a surplus of 427,405 women matrimonially unmarketable in this monogamous land. The census also listed 822,563 divorced women but only 624,398 divorced men. And widows outnumbered widowers by a fancy 5,700,092 to 2,113,552.

How could the girls hold out for a gent with a fat pocketbook? There aren't that many around. One out of every seven girls today will end up a spinster even though she's willing to give her hand on the installment plan.

Women appear to be less of a matrimonial bargain than men. Here is the ungalant picture: A woman of 30 has only about an even chance of marrying; at 40 it's a four-to-one bet she won't; at 50 the odds against her are 16 to 1. The odds are 13-to-10 that the bachelor of thirty will marry. And the odds are only 3-to-1 against him at 40, and 10-to-1 at 50. It just seems like more people want to marry bachelors than are willing to wed, bed and board with spinsters.

The Nation Today

Actual Draft Not Due Now

By JAMES MARLOW
WASHINGTON, (U.S.)—Congress finally is considering a law to draft men into the armed forces for peacetime service.

The Senate has started debate on it. The House is expected to do so shortly. Right now the talk is of drafting men between 19 and 26. None of this is certain at this point. Keep this in mind as you read the stories coming out of Congress on the draft:

Even if Congress passes a draft law, there's a chance it won't mean drafting any men this year. This may happen: Congress may pass a draft law, set up all the machinery for it, and then say:

"We've passed a draft law. But it is only a law on the books and is not to go into effect—meaning no one is to be drafted—unless and until the President says so."

"So, although we've set up all the machinery for the draft, passing the law doesn't start it. The President will have to do that, if he sees fit."

It is that way Congress would put the whole load on the President for starting the draft. Each house is considering a slightly different bill. One bill was put together by the House armed services committee, the other by the Senate armed services committee.

Without going into details—because Congress may make changes before all is finished—here, briefly, is what the bills would do:

All men 18 to 26, would have to register. Men 18 to 19 could volunteer for one year's military training, but not outside the United States. And men 19 to 26 could be drafted for two years' service. The House—All men, 18 to 26, would have to register. But only men 19 to 26 could be drafted. They'd be drafted for two years.

Under both bills most veterans would be exempted. Both houses are almost certain to wind up passing different bills. If that happens, then—They'll have to get together and agree on one bill. All that takes time. So it will be late this month before you'll know the full score on a draft law.

"FOR HEAVEN'S SAKE—THE PARADE IS READY TO START!"

Washington Merry-Go-Round

Leaders Steer GOP Congressmen Away From Controversial Housing Measure

By DREW PEARSON

WASHINGTON—Here is how carefully Republican leaders in the house of Representatives watched the housing bill in order to keep it bottled up in Wolcott's Banking and Currency Committee.

To get it out of committee, Congresswoman Helen Gahagan Douglas, Democrat of California, was pushing a discharge petition which would force the committee to discharge the bill. Walking over to the speaker's table last week, G. O. P. Congressman Les Arends of Illinois checked over the list of housing-bill signers, then whispered to G.O.P. Leader Halleck of Indiana.

Together they beckoned to G. O. P. Congressman Boggs of Delaware, asked why he had signed the housing bill. Boggs protested that he hadn't signed. Arends had made a mistake. It was Boggs of Louisiana, a Democrat, who had signed.

All of which illustrates how the Republican leadership gave categorical orders to Republican congressmen not to be for housing—despite the fact that one of the pillars of the party—Senator Taft, pushed the bill through the senate.

TRUMAN MERRY-GO-ROUND
Secret Service has placed a double guard around the Truman train at each stop because of White House troubles with the railroad unions. They recall that during the 1920 rail strike, Woodrow Wilson was subjected to much embarrassment during a speaking tour when striking switchmen uncoupled his private car, letting the rest of the train pull out of the station without him . . . The President has with him a draft of the Democratic National Committee's new \$2.30 political handbook, "The Power of the People" by Senator McGrath . . . The 30 Truman "extemporaneous" speeches including a kicker line for local audiences, were largely written in advance.

TRUMAN MERRY-GO-ROUND

The President has with him a draft of the Democratic National Committee's new \$2.30 political handbook, "The Power of the People" by Senator McGrath . . . The 30 Truman "extemporaneous" speeches including a kicker line for local audiences, were largely written in advance.

RED TAPE
It was also found that 8,500 different types of bearings were handled by the Navy during the war, yet the Navy had 264,000 different types in its records. In other words the assignment of duplicate numbers had magnified the paper work 30 times.

Even more serious, many installations were forced to shut down temporarily for lack of spare parts, although the parts were discovered later under different numbers. This happened to one of the powerful radar sets in Panama during the spring of 1942 when the canal was in constant danger of Jap attack. To the horror of the Army, it discovered that the replacement part was not in stock. A hurried telephone call was put through to Washington, and the missing part was ordered flown to Panama at once.

Meanwhile, the stock officer, searching through his warehouses, discovered eight bins full of the identical article he had sent to Washington for. But they were all stocked under different numbers.

ON THE TRUMAN TRAIN
At one stop, the President posed for pictures with two railroad conductors. Smiling, the President said, "If it weren't for me, you wouldn't have a job." The conductor reminded Truman that all railroad employees are working for the President, thanks to the railroad strike threat. "That's right," replied Truman. "I hope it won't be for long." . . . Most of the Truman speeches are being rewritten on the train by hard-working presidential general counsel Clark Clifford and Press Secretary Charles Ross from drafts forwarded by brain trusters in Washington. . . . Truman was introduced at Fort Wayne by ex-Senator Sam Jackson of Indiana. . . . Jackson, now running for his old senate seat, is the man who saved Truman's neck at the 1944 Chicago convention by hastily calling a recess just as Henry Wallace was about to be nominated for the vice-presidency. . . . At Cleveling, Ohio, a switching point, the President was introduced by ex-Governor Frank Lausche, also running for his old seat. Neither Jackson nor Lausche spoke for President Roosevelt in 1944.

In Hollywood—
The latest fashion among Hollywood male stars is gray hair.

In the old days, the best friend of an actor advancing through his thirties and forties was his dye pot. Times have changed. Jimmy Stewart is the latest to sport distinguished strands of silver in his hair. He joins Clark Gable, Ray Milland, Spencer Tracy, Humphrey Bogart, Ronald Coleman and other members of the "frankly gray club." If it's true that stars set U. S. styles, this should prove a boon to the silver-topped men of the nation.

I have even heard of one star who has ordered a gray-streaked toupee. . . . John Garfield's picture, "Tucker's People," was chased here the same reason the movies came to Hollywood in the first place—weather. "The weather's just as bad in Hollywood (we've had an unusual spring—B. T.) but at least we can shoot indoors," he said. He'll have to return east to complete the numbers racket film, since half of it is set in New York. Sonja Henie's European jaunt has been postponed because most of

covered later under different numbers. This happened to one of the powerful radar sets in Panama during the spring of 1942 when the canal was in constant danger of Jap attack. To the horror of the Army, it discovered that the replacement part was not in stock. A hurried telephone call was put through to Washington, and the missing part was ordered flown to Panama at once.

Texas Today

RAILROAD GETS ONLY BOUQUETS ON BIRTHDAY

By WILLIAM C. BARNARD
The Gulf, Colorado and Santa Fe Railroad began in Galveston with a quarrel and has just celebrated its 75th anniversary in the same city with a surplus of affection.

Hundreds of Texans and out-of-staters were present to wish the railroad well. Even in the island town where conventions are everyday stuff, the diamond anniversary had plenty of sparkle.

The Santa Fe building modeled the latest in holiday bunting; the Galvez Hotel lobby was crowded with early-railroad displays; a marker was dedicated at the spot where the first rails were laid and 500 guests attended the banquet Saturday night.

It was at the banquet that Dr. Chauncey D. Leake, vice president and dean of the University of Texas at Medical Branch, commented that the GC&SF was born "with Galveston as the mother and yellow fever as the father."

Dr. Leake spoke the truth—yellow fever gave the railroad its start. Here's what happened: In the early 60's Galveston had only one railroad—a line connecting it with Houston. In those days, mild yellow fever epidemics occurred each summer along the coast.

Then Houston business interests would get quarantines declared on all passenger and freight traffic from Galveston to Houston. During these quarantines, Galveston was virtually isolated and the business men of Houston cornered the rich East Texas market. Galveston tempers boiled over this situation. Some of the boys wanted to load their shotguns and shoot it out. But conservative men of the island city had a better plan—a new railroad from Galveston that would go around Houston into the interior of the Lone Star state.

Financed almost entirely by Galveston business interests, the line was chartered in 1873 and begun in 1875. There were hardships and delays. Not until 1877 did the rails touch Arcola, a community 43 miles from Galveston.

Two years later the road went into bankruptcy and was reorganized. Operations were resumed in 1880. In 1881, the rails crawled to a town laid out as a division point and named Temple in honor of B. M. Temple, chief construction engineer. Later the same year, the line reached Fort Worth.

Houston was not to be ignored. The railroad, by 1883, no longer could afford not to tap its wealth. A branch was built from Alvin to Houston. In 1886 the Atchison, Topeka and Santa Fe, ambitious of reaching from Kansas to California and to the Gulf Coast, began trying to buy the Texas railroad that had been born of trouble in Galveston.

GC&SF stockholders met in March of that year and authorized the line's president, George Seely, to handle the negotiations. A short time later the sale was consummated. The Gulf, Colorado and Santa Fe became a part of the Santa Fe system.

Affairs Of The World—
Restoring Germany
By RELMAN MORIN
For Dewitt Hahnemann
A British general was talking with newspapermen in Berlin the other day when he dropped a remark that must have jolted even those professional shock-absorbers. He put it into two sentences: Yet those two sentences probably are more important than all the thousands of words that went into, and accompanied, the recommendations for unifying Germany which were announced yesterday. This is what Gen. Sir Brian Robertson told the correspondents: "Just as we are a Christian, civilized people, the Germans are also a Christian, civilized people. They should be treated accordingly."

Assuming that the general was expressing official British policy—and it would be difficult to assume otherwise considering his position—that is a statement of tremendous magnitude. Gen. Robertson is the head of the British Control Commission in Germany. Before moving on to the meaning of this, and its implications, let your mind go back three years to the summer of 1945.

In entering Germany, Gen. Eisenhower announced: "We come as conquerors, not as liberators." American soldiers were forbidden to "fraternize," as the saying was, with German girls. At that time, German girls were neither "Christians" nor "civilized." At Dachau and Auschwitz, the corpses were found, piled up like cordwood, and the four powers were rushing to establish the tribunal that finally brought Goering and Keitel and the others to Nuremberg.

That was only three years ago. But today, if General Robertson's statement can be taken as a statement of policy, all this is past, done and forgotten. It is forgiven. The German people, as of today, stand absolved of all war guilt. Henceforth, they are to be treated as equals.

It seems very unlikely that this was an isolated pronouncement. More probably it is directly connected with the announcement of the London conference recommendation for Germany.

Around The Rim—By The Herald Staff

Story Of City's Water Supplies

About the only time most of us give a thought to water is when we turn on the faucet late in the evening after a scorching day and expect to find pressure sufficient to knock a hole in a porcelain lavatory. A howl goes up, instead, the stream is no healthier than a leaky waterbag. We immediately start spreading word of a great shortage.

Maybe a little review on the source of our municipal supply might be helpful even if it doesn't increase the size of squirt on a summer's day. Big Spring's supply is dual—both surface and underground. At the outset, the village drew its water from the spring. When that didn't supply expanding needs, especially for the railroad, wells were drilled above the spring. This caused the spring to dry because it represented the overflow from a sump or underground bowl in the city park area.

Years later—or about 25 years ago—additional wells were failing to supply enough water, so a well was sunk in the park location at considerable cost and on the theory that a little hole yielded a certain amount, a big hole would yield proportionately more. Unhappily, there is an engineering principle which says this isn't so.

So the search turned southeastward and to what was known as the "new wells" or section 17. This is immediately south of the Silver Heels addition and about a mile up the draw from the city park. This sheet water (that is, a constant flow through sands) bridged the gap until the oil boom. The late Edwin Kelley, manager of the Southern Ice Co. and a brilliant engineer in many fields, spotted a potential location over another sump. Hydraulic engineers confirmed his location and thus section 33 came into production. It has been by far the best underground source in proximity to Big Spring.

In the late thirties, it became apparent Big Spring did not have an adequate supply, and just as a PWA program was sliding over the deadline, Big Spring got in a project for construction of the Moss Creek and Powell Lakes, in the southeastern part of the county. Original plans called for only one lake but when aerial pictures showed Devil's creek waters could be diverted by means of a dam and ditch, Powell dam was added. Because its watershed is a circular bowl as opposed to Moss Creek's long and narrow shed, it has benefited to the fullest from thundershowers and thus has furnished the most water.

The city has never recapitulated production from the lakes, but it has been hitting around 30 to 40 million a month normally, and gross revenues have amounted to several times the original investment by the city. Because the pipeline will carry 1,500,000 gallons per day, this has been a big factor in meeting demand.

But the lakes have comparatively limited storage—that is, about a billion and a quarter gallons, so in prolonged periods of drought, they can toss in the sponge. That happened during the war years, and once more the city went prospecting. The United States Geological Survey recommended the O'Barr ranch in northern Glascock county. To date, development is approaching the point when production from that source will approximate the pipeline capacity of 2,000,000 gallons per day. The next step may be on the upper Colorado river where five cities are studying a joint project for 26 million gallons per day. But that won't necessarily guarantee geyser pressure in the late afternoon. Bigger water mains are the answer.—JOE PICKLE

Broadway—
Dancing Star
Through Talking
By JACK O'BRIEN
NEW YORK—Valerie Bettis, most exciting new dancing star of the season, is afraid she hasn't anything more to say about herself.

"All the years I've been shooting for stardom, and never being quite sure I could make it, I've been telling folks I'm great," she said over noontime breakfast. "Sometimes I was sure I was whistling in the dark. But I kept blowing my horn. And now with folks telling me how good my dancing is, and particularly the drama critics who liked me so much in 'Inside U. S. A.', I'm afraid I have nothing else to say."

While Beatrice Lillie and Jack Haley are the stars of "Inside U. S. A.", Miss Bettis was the winner of the sort of skyrocket enthusiasm which makes Broadway an always exciting adventure. She completely captivated a normally callous first night clientele. Now every magazine, radio guest program and newspaper feature writer seems to have delved into Valerie's story.

"Trouble is, I don't think I have any story to tell," Miss Bettis added. "There have been lots of other girls born in Houston, Texas. And lots of girls in my class at the University of Texas. I've been dancing in concerts, and have been praised, but lots of girls have been praised the same way. I was two summers in 'Railroads on Parade' at the Worlds Fair and I've been choreographer for an unsuccessful Broadway musical—'Beggars Holiday.' I've done lots of things I got satisfaction from: designing dances for the Ballet Russe, and even organized my own dancing company for a while, and I think it was good. So I can't take credit for some startling skyrocket across the heavens. I think I just got proficient in my trade and was presented in the right show at the right time in some wonderful dances by Helen Tamaris. In fact, I've been thinking Helen doesn't come in for half enough praise."

Month Of June Brings Guests To Big Spring

Mrs. C. W. Woods of Rush Springs, Okla. was a recent visitor in the home of her son-in-law and daughter, Mr. and Mrs. Logan Baker.

Mrs. J. H. Baker and Mrs. George Denton and son, Dick, will arrive today for a visit with Mr. and Mrs. Logan Baker. The visitors are from Rush Springs, Okla.

Mr. and Mrs. J. T. Baird and sons, Julian and Stephen, are visiting with her parents in Taft. They will also visit other relatives in Seguin, Corpus Christi and Benavides.

Woody Baker has returned from TCU in Fort Worth to spend the summer with his parents, Mr. and Mrs. Logan Baker.

Mr. and Mrs. Ray T. Clark left this morning for Lubbock where he will attend summer school at Texas Tech College.

Bobbie June Bobb arrived home from Hardin-Simmons Sunday evening.

Mrs. Steve Baker and daughter, Diane, have just returned from a visit in Portales, N. M. with Mrs. Baker's aunts, Mrs. L. C. Thomas and Mrs. Sidney Stone and their families.

Mrs. Milton Hadley and daughter, Bobbie Nell of Odessa are visiting with Mrs. Hadley's parents, Mr. and Mrs. C. R. Balch.

Mrs. Susie Weissen of Hobbs, N. M. is visiting in the home of Mr. and Mrs. B. M. Barbee.

High Heel Slipper Club Announces Names Of Models

The High Heel Slipper Club has announced the names of ten of the twenty models that will participate in the Bathing Beauty review which will be staged at the Municipal pool Sunday afternoon.

Models include Evelyn Roberts, Justine Sewell, Mae Barnaby, Wanda Lee Petty, Evelyn Huddleston, Ramona Sneed, Hazel Corning, Jo Barnady, Faye Russel and Nancy Lovelace.

All models will be entertained with a cake party in the home of Mrs. Shirley Robbins this evening beginning at 7 p. m.

Sponsors for these models will be J&H Drug, Lone Star Chevrolet, Davis Tire and Machinery company, Nabors Beauty Shop, Zale's Jewelry, Fashion Cleaners, Gregg Street Cleaners, Terrace Drive-In Theatre, Seven-Up Bottling company and Swartz's.

WEAK NERVOUS
cranky every month?
Are you troubled by distressing menstrual periods? Do you feel so tired, high-strung, nervous—at such times? Then try Lydia E. Pinkham's Vegetable Compound to relieve such symptoms. Pinkham's Compound is made especially for women. It also has what doctors call a stomachic tonic effect! Ask your druggist for Lydia E. Pinkham's Compound.

Graziano And Zale Clash For Third Time In Newark

Rock Favored To Kayo Tony

NEWARK, N. J., June 9. (AP)—The noisy extrovert, Rocky Graziano, meets stolid Tony Zale in Ruppert Stadium tonight in the rubber match of their violent ring series.

At stake this third time is Rocky's world middleweight championship, won from Zale July 18, 1947, in Chicago. In the first fight, Sept. 27, 1946 in New York's Yankee Stadium, Zale was victor by knockout.

Both previous battles were bloody, boisterous affairs ending in the sixth round. Odds are 8-1 this one also will not go the full 13 rounds scheduled. The fight starts at 9 p. m., EST.

Betting odds that last week favored Graziano 5 to 12 narrowed on the eve of the clash to 1 to 2. Zale is 34 years old and Graziano 26, and this age differential is counted Zale's only handicap. As punchers go, there's little to choose between the two.

Graziano weighed 157 and looked sharp after his final light workout yesterday. Zale rested the entire day. He weighed 158 when he wound up training Monday.

The official weigh-in was scheduled at 11 a. m., EST, in the Newark City Hall.

Fair, warm weather after weeks of cold and rain brought a rush of late ticket sales. Promoter Andy Niederreiter predicted a turnout of 22,000 and a gate of \$350,000.

Of this pot the champion is as-

sured \$120,000 or 40 per cent of the net. The challenger is guaranteed \$60,000 or 20 per cent of the net. The promoters rejected a \$75,000 television offer and announced the bout would not be televised. In the event of a postponement the bout will be held Thursday night.

LOOKING 'EM OVER

With TOMMY HART

So many things happened between the hours of 8:15 and 11 p. m. Monday night at Steer park, it would require a couple of thick volumes to put them all to print. And each party who witnessed the ruckus and the incidents that led to it, has his own version of what caused the trouble.

Here are a few facts that may help bring some of the readers up to date on the now historic incident: Bobby (Pepper) Martin, the Angelo skipper who swung on Tony Traspuosto of Our Town, was fined but not put on probation by League President Howard L. Green. Reason: Pepper departed the premises when ordered by Umpire Steve Sadowski whereas the local hands, Traspuosto and Joe Arenobia, did not.

The trouble between Martin and Traspuosto started last year, not this, when both were members of the local team.

Martin has been under a terrific strain in San Angelo recently due to the fact that he did not know where he stands with the owner of the club, C. West. He's been given very little help since the season opened but, all in all, has done a good job with the Colts.

Arenobia looked like a wild bull in a china shop once enraged and it took Manager Pat Stasey to quiet him, who had to use strong words once he got him cornered. Following the game, the management held a special meeting with the boys in which it was emphasized that no more threatening gestures with baseball bats would be made. The person who violates that rule is liable to a heavy fine and suspension.

When Martin turned to swing on Traspuosto, he hit Tony a glancing blow on the chin, which knocked the Big Spring catcher off balance. Martin's slow burn over the developments was quickened, no doubt, when he was picked off first base in the third inning. He was all set to steal on Frank Perez and was caught off balance when Traspuosto flashed the signal to the Big Spring pitcher.

Quick and heady work by Capt. Bob Thompson and Willis Carleton of the City police force helped avert further trouble. They gave the umpires unlimited co-operation.

Joe Phillips was not guilty of throwing bean balls at Perez in the eighth, although it did look like it. He used two curve balls in succession and both grazed Perez. Had he been throwing dusters, he would have resorted to fast pitches.

In the eighth inning, Jake McClain started a war dance complete with facial contortions after Sadowski had called a strike on him. The stands interpreted his antics to mean that he was protesting the decision and cut loose with a verbal tirade against the arbiter that shook the stands. In reality, Jake was cursing himself for passing up so perfect a delivery and was letting Sadowski know he felt like kicking himself.

ENSEY TRIED TO GET PEPPER MARTIN SOME TIME AGO One of those who witnessed the proceedings was A. D. (Shadow) Ensey, the general manager of the Odessa club, who some time ago put out feelers for Martin, in event Angelo lets Pepper go.

Ensey needs a hard-hitting outfielder to give his club added punch.

McADEN LOOKS AT RHUBARB IN BUSINESS WAY Claud McAden, the hard-working general manager of the local club, has but one regret. As long as the battle royal had to occur, says he, he can see no reason why it couldn't have happened in the first game of the series instead of the third.

Business would have been terrific the next two games, if such had been the case, points out Claud.

HAVANA PAPERS FOLLOWING DEEDS OF CUBAN BOYS Some of the Big Spring Bronco box scores have been appearing in the El Mundo newspaper, one of the numerous dailies in Havana.

The news organs there kept close tab on the highlights of the local team's fortunes last year. Fact of the matter is, Big Spring may get more publicity in the Havana papers, day in and day out, than any other city in the U. S. In event you don't know your geography very well, Havana boasts nearly a million population.

MIDLAND GRADUATE LEADING PIONEER LEAGUE Hank Ramsdell, who was a fly-chaser for Midland last year, is currently leading the Pioneer league in hitting with a mark of .417. He's with Ogden along with Arnold Davis and Claud Gray, who also were with the Tribe in '47.

Muny Softball League To Be Discussed At Thursday Evening Conclave Here

Five teams are reported prepared to enter a city softball league and the circuit will function with that number, if a sixth club cannot be obtained.

Managers of the teams will gather at the Settles hotel at 7:30 o'clock Thursday evening to work out plans for summer activity. The meeting is open to everyone.

All games would be unreeled at the city park. The league schedule would probably call for games two nights a week at the park.

Teams already committed to play are Grapette Bottling company, Big Spring Vocational school, T & P Shop team, McKee's Construction company and West Texas Sand & Gravel company.

The Grapette team is thirsting for competition, according to Cotton Mize, manager of the club. Persons interested in arranging practice games can contact him through Telephone No. 2487.

NO EQUIPMENT Marshall Club May Be Moved To Jacksonville

MARSHALL, June 9. (AP)—Marshall's entry in the Lone Star League has no bats, balls or uniforms and may not even have a franchise.

The Tigers had to forfeit their scheduled game with Kilgore last night for lack of equipment. R. W. Burnett, who owned the physical property of the Marshall club, withdrew the equipment to use at his Big State League Club in Texas.

R. R. "Gabby" Lusk has been negotiating to dispose of the Marshall franchise for several days. He failed to agree on a price with a group of Marshall businessmen and announced he had turned it over to the league.

Lone Star League President Fred Nicholson said the franchise has not been turned back by Lusk and said he hopes to straighten out Marshall's status today.

Burnett said in Beaumont last night he had offered to buy the Marshall franchise and move it elsewhere. He said he is awaiting an answer from league officials. Indications are the franchise may wind up in Jacksonville, which has been seeking a league club.

Tom Dean of the Jacksonville Chamber of Commerce said Burnett telephoned him yesterday to see if the city ball park could be made available. City Commissioners in special session voted to make it available to Burnett—if he asked for it.

Burnett, who owns the Texas-Kansas Club and Dallas in the Texas League, earlier had recalled four players from Marshall to Texas-Kansas. They were Frank Calo, catcher; Fred Pollock, pitcher; Ralph Katcher, pitcher; and Maurice Card, second baseman.

Lusk several days ago announced his intentions of returning the franchise to the league because of financial difficulties. Burnett withdrew the equipment yesterday.

Nicholson told the Associated Press last night that the league "might be forced to take over the team" but that he couldn't say if this would be done. He said he hoped to get everything worked out.

Jacksonville, which dropped out of the league last year, had applied to Nicholson for a franchise earlier in the year.

The Marshall club is last in the eight-team Class C league with a record 15 victories against 30 defeats.

Ninth Inning Strategy Pays Off As Sports Win, 6 To 5

Stasey Bangs Out 3 Hits

SWEETWATER, June 9.—The Big Spring Broncs try again tonight to defeat the Sweetwater Sports, a team that has suddenly turned on them after losing six in a row to the Longhorn league leaders.

The Sports made it two straight Tuesday night by thrashing the Big Springers, 6-5, but had to stave off a Bronc uprising in the ninth inning. The visitors had the winning run on first base when Pitcher Coy Taylor forced Bobby Fernandez to ground out to Hal Jackson at first base.

The Hosses raked the offerings of Taylor for a dozen assorted blows, including three by Pat Stasey and two each by Justo Azpalar, Armando Traspuosto and Lefty Gumbo Helba but could not bunt them.

Sweetwater chased Roland Viadora in the first inning after Kenny Peacock had hit his 13th home run with a runner aboard. Helba stopped them fairly well but was destined to be tagged with the loss.

McClain was on second, following a double that scored Ace Mendez, and Stasey, who had been walked intentionally, was on first when the game ended.

Dave Steger scored what proved to be the winning run on a squeeze play in the sixth following a triple. The Cayuses return to Big Spring Friday night to open a two game series with Del Rio.

Fierro Leads Tiger Hitting

Gus Fierro continues to pace the individual hitters on the Big Spring Latin-American baseball Tigers with a sizzling .439.

Tom Fierro is advanced on the top spot in the averages, however, with 13 hits in 31 trips, which gives him a record of .419.

Isa Mendoza and Joe Aguilar are the leading hurlers on the team, each with three wins and no losses.

BUFORD RANSOM, young Seattle welterweight, learned defense by boxing with ropes tied to his arms as in the picture above. Ransom opponent swinging for a knockout—and paying no attention to defense.

Will Ramsdell Helps Save Game For Bums As Cincy Beaten, 6-5

A "throw-in" in a deal between the New York Yankees and Cleveland Indians two years ago, Gene Bearden, loomed today as the key player in the Indians' American League pennant chances.

The wavy-haired southpaw came along as excess baggage when the Tribe acquired Allen Gettel and Hal Peck in a trade that sent Sherman Lollar and Ray Mack to the Yankees. He has proved to be the best pick-up of the Indians have made since they plucked Bob Feller from the Iowa sandlots.

In fact, the 27-year-old rookie thus far has outdone the great Feller on the mound and currently rivals Bob Lemon as the No. 1 hurler on the staff.

The Los Angeles knuckleballer gained his sixth victory last night when he pitched the Indians to a 2-0 triumph over the Red Sox in Boston. The victory increased the Indians' first place lead over the Athletics and Yankees to three and a half games.

The Yankees moved into a second place tie with the Athletics, coming from behind to edge out the Chicago White Sox 3-2 in a 12-inning night battle at Yankee Stadium. The Detroit Tigers nipped the A's 2-1 in another close one at Philadelphia.

Bobby Brown drove in the winning run for the Yankees with a two-out single in the 12th.

Hal Newhouser continued to climb back by holding the Athletics to seven hits. It was his fifth straight victory after four consecutive defeats.

The Senators came from behind three times to tie the score, then tallied twice in the seventh to nip the St. Louis Browns 6-5 in a night game in Washington. Carden Gilenwater and Mark Christman, with two hits each, led the Nats'.

COPS DECLINE POULTRY JOB

BANGOR, Me., June 9. (AP)—Police here to draw the line somewhere.

The Bangor force thought the time had come yesterday. A woman telephoned that a setting hen had deserted its eggs and "Can an inspector come out and investigate?"

She was advised to consult a poultry expert.

Whole-grain corn added to scrambled eggs makes an excellent luncheon dish. Serve frizzled ham with it and a fruit salad for dessert.

O'Dowdy Meets Clements At AC

Pat O'Dowdy, the local wrestling promoter, has obtained special permission from the Texas Boxing and Wrestling Commission to make an appearance as a grappler on next Monday night's show and will come to grips with Ray (Big Train) Clements, he said today.

O'Dowdy, one of the finest junior heavyweight wrestlers in the country, has been deprived the chance to appear in his own club because he handles the promotional end of the business.

The Irishman, who moved here two years ago from Venice, Calif., to open a sports arena, is probably the best known wrestling figure in West Texas.

Be careful not to spread fish flavor when fish is stored in the refrigerator. Always keep it in a tightly covered receptacle.

MEN! GET PEP

Do you want to feel like a champion again? Why feel old at 45, 50 or 60? Enjoy youthful pleasures again. It's added years have slowed down your ribs and vitality. Just go to your drugist and ask for Colman's Mustard Tablets. Many men are obtaining remarkable results with this amazing formula.

Hangs Up 10th Win Of Season

By The Associated Press
Harry Perkowski hung up his 10th victory of the Texas League season last night and Shreveport edged back into the first division. Perkowski survived a bad start to pitch Tulsa to a 5-3 victory over San Antonio. Shreveport climbed from sixth to fourth by knocking off Fort Worth for the second straight night, 8-6. Dallas dropped into sixth by losing to Beaumont 6-1, and Houston missed a chance to gain on league-leading Fort Worth by bowing to Oklahoma City, 15-7.

Chuck Kress' two-run homer in the fifth inning provided Tulsa with the winning margin. Tom Jordan hit a homer for San Antonio in the fifth, deadlocking the score momentarily.

Big Pete Lewis pounded out two home runs in pacing Oklahoma City to a one-sided victory. He had a two-run circuit clout in the third and hit his second in the eighth. The Indians erased an early Houston lead with nine runs in the sixth and seventh frames.

Ellwood Test Runs Drillstem Test At 7537

Recovery of 25 feet of slightly gas-cut drilling mud with no signs of oil or water was reported Wednesday from Sun No. 1 Ellwood, southern Mitchell deep exploration.

An one-hour drillstem test was run in the Detrital zone from 7,537-57 feet. There was a slight blow of air for part of the period. The project cut core at 7,577-67 feet with recovery of five feet of dense, gray and green shale. It had a fair sulphur odor with no porosity or oil stain. Another core was cut from 7,567-76 feet and operator was pulling that specimen at last report. The venture has not yet entered the Ellenburger, the formation to which it is projected. Location is in section 26-16, SPRR, 17 1/2 miles south of Colorado City.

Anderson-Prichard & Vickers No. 2 Marvin Frances Foster, southeast offset of the operators' No. 1 Foster, Wichita-Albany discovery below 4,250 feet, was reported below 3,910 feet in line. It is 330 feet from the south and 1,650 feet from the west lines of section 12-15, H & TC.

Seaboard No. 1 W. C. Campbell, northern Howard Vealmoor (Pennsylvania) stepout, was below 5,513 feet Wednesday morning. The test is in section 29-32-3n, T & P, just south of the Borden county line and a quarter mile north of the heavy producer, Seaboard No. 1 Dora Campbell.

Sun No. 1 Schattel, central Scurry test in section 186-97, H & TC, was below 5,633 feet. Gulf No. 1 E Wilson Bryant, Midland county deep wildcat in section 36-39-3n, T & P, started a drillstem test from 10,180-201 feet in lime and shale but the packer failed after the first 30 minutes.

Raymon L. Whetstone of San Antonio, picked up on a local thorefare by members of the city police force last night on a charge of driving while under the influence of intoxicants, entered a plea of guilty to the charge in county court this morning and was fined \$75 plus court expenses.

Judge Walton Morrison also suspended Whetstone's driving privileges for the ensuing six months.

Services were held for Betty Ann Williams, nine-months-old daughter of Mr. and Mrs. Burris C. Williams, at the Nalley chapel at 2:30 p. m. Wednesday.

The baby died in a hospital here Tuesday night. The Rev. Cecil Rhoades, West Side Baptist pastor, officiated, and burial was in the city cemetery. Besides the parents, the baby is survived by her maternal grandmother, Mrs. F. E. Dawson, Big Spring, and paternal grandparents, Mr. and Mrs. O. L. Anderson, Colorado City.

When in 1932 the pair created several puppets, they drew the attention of a large advertising firm in Los Angeles which signed them for a show through the summer. Columbia pictures copped a contract with them for movie sequences through the fall. Finishing with Columbia, the team was able to establish their own theatre in 1934 on Olvera street in the Old Spanish section of Los Angeles, a habitat of tourists.

The 300-puppet theatre stayed open five years—the first show ran two years and the second show ran three years. The latter, an 80-puppet extravaganza, was entitled "Love On A Pantry Shelf, A La legfeld," and featured the team's first animated all-insect cast. In 1939 Walton and O'Rourke took on road appearances. They toured England, France, Germany and Ireland in 1944 and 1945, and were in London on VE day.

All puppets used in their acts, the two men make themselves, Walton, a graduate in designing, creates costumes and animates the creatures' faces. O'Rourke does the mechanics. It requires one to two months' constant work to complete a character. The face must be sculptured to perfection, then cast in a lead form and molded from plastic. The anatomy of a good puppet must be perfect — ankles, arms, wrists must move exactly as a human being's. The Walton and O'Rourke creations have life-like movements, even to those of the tongue and eyelids.

Women puppets are given artificial fingernails, and real hair which must be curled and cared

for nightly. A special character whipped up for the Texas Electric show, is Reddy Kilowatt, equipped with a battery which illuminates his eyes and nose. The rapid dialogue and acts are written by the team. A show requires some two months preparation.

Among puppets featured in the current show are a skeleton Carmen Miranda and her partner in a rhumba number, Lazybones who smokes Walton's cigarette, a pair of ice-skating animals, and a formally attired Negro man who pounds the piano for a very curvaceous blues singer. Reddy Kilowatt is emcee.

Nora Ballard of Sherman joined the team at Sherman for the Texas Electric show's opening in the Fort Worth Coliseum. She accompanies the acts at the electric organ.

Flames which spread from a barbecue pit Tuesday afternoon virtually destroyed the Hut Sut cafe, located one mile west of town on US 80.

City firemen who sped to the scene succeeded in keeping the blaze from spreading to an adjacent grocery. The frame structure which housed the cafe was completely enveloped in flames when equipment arrived, firemen said.

The establishment was operated by Tommy Hewgley.

Crocker To Teach At Fireman School

H. V. Crocker, Big Spring fire chief, has been elected to serve as an instructor at a firemen's training school to be conducted at Texas A&M college July 11-16, it was announced today.

Crocker has been asked to take charge of a course of instruction on operation and maintenance of firefighting equipment.

At least two other members of the local fire department will enroll as students in the school. A credit of two percent will be applied to the city's fire insurance rate if as many as two of the firemen take the course.

Can Black-Draught Help Sleeplessness?

Yes, Black-Draught may help sleeplessness if the only reason you can't sleep is because of constipation. Black-Draught, the friendly laxative, is usually prompt and thorough when taken as directed. It costs only a penny or less a dose. That's why it has been a best-seller with four generations. If you are troubled with such symptoms as loss of appetite, headache, upset stomach, flatulence, physical fatigue, sleeplessness, mental listlessness, bad breath—and if these symptoms are due only to constipation—then see what Black-Draught may do for you. Get a package today.

Phillips Quits Barber Chair To Take Place In The Pulpit

A career of more than 26 years as a barber in Big Spring has been terminated by Elra Phillips, 44, who is entering the ministry of the Methodist church, it was announced today.

Phillips, who has been an energetic lay worker in the Wesley Methodist church here for several years, has been interested in religious work for some time, but only recently set out to devote his full time to the field.

He has been assigned to the Methodist church in Sylvester as pastor, where he and Mrs. Phillips will make their home. In September he plans to enroll in McMurtry college, Abilene, to begin scholastic preparation for future work.

Mr. and Mrs. Phillips have been vacationing in the Rocky Mountains for several days, following the sale of his barber shop in the Lyric Theatre building. It was his first formal vacation since he started to work here as a barber 26 years ago.

For several years Phillips has been identified with adult leadership for youth organizations in Big Spring, and he has been especially active in Boy Scout work. He has organized troops, served as scoutmaster and on various adult committees in the latter organization.

He also has been an active worker in the Odd Fellows, and currently holds the title of Vice Grand in the Mullen Lodge.

Veteran Puppeteers Behind Scenes At Electric Show

By LEATRICE ROSS

Two fellows who got tired of "being shoved around" in the late '20s are now doing a little showing around on their own—in a business where not one of their workers makes a move without their sanction.

In 1932 Paul Walton, an artist, and Micky O'Rourke, an ex-Marine, both jobless, ran across each other in Los Angeles. That same

A total of 4,999 people saw the Texas Electric Show of '48 at its opening Tuesday evening, a gain of 444 over the first night last year. On the basis of this, C. S. Blomfield, manager of TES, anticipated that the 14,000 aggregate of last year would be exceeded before the enlarged production of this season closes Thursday at the high school gymnasium and campus where entertainment and appliances are on display from 6 p. m. to 11 p. m.

Walton and O'Rourke, now with 16 years of manipulating behind them, and a half dozen of their nationally famous puppet personalities are in Big Spring with the Texas Electric show on the high school grounds.

The team is booked all summer for performances along the west coast, to Detroit and to New York City when they finish the TES shows. Back in New York City Walton and O'Rourke will play in supper clubs and theatres.

When in 1932 the pair created several puppets, they drew the attention of a large advertising firm in Los Angeles which signed them for a show through the summer. Columbia pictures copped a contract with them for movie sequences through the fall. Finishing with Columbia, the team was able to establish their own theatre in 1934 on Olvera street in the Old Spanish section of Los Angeles, a habitat of tourists.

The 300-puppet theatre stayed open five years—the first show ran two years and the second show ran three years. The latter, an 80-puppet extravaganza, was entitled "Love On A Pantry Shelf, A La legfeld," and featured the team's first animated all-insect cast. In 1939 Walton and O'Rourke

SAN ANTONIO, HOUSTON HARD HIT

Polio And Infant Diarrhea Taking Heavy Toll In Texas

By The Associated Press
The death toll from polio and infant diarrhea is mounting in Texas.

Polio has spread throughout the state, it was disclosed, and 98 infants have died of diarrhea in San Antonio this year.

Forty-four polio deaths have been reported at Houston, where 122 cases have been treated this year. Two of the deaths occurred yesterday.

Fort Worth recorded its first polio death Monday and there has been one death from the disease in San Antonio and at Fort Sam Houston, in San Antonio.

Thirty-five patients are under treatment at the polio clinic at Edinburg.

Arthur Dyer, executive secretary of the Dallas County unit of the National Foundation for Infantile Paralysis, yesterday said:

"There is no gap of over 30 miles between counties having polio between the Rio Grande and the Red River. The main concentration remains in the Rio Grande Valley, Nueces County, Harris County and Galveston."

Polio was first reported in Texas this year in Cameron and Hidalgo counties in the Rio Grande Valley. It has reached epidemic proportions in areas of these two counties, Nueces and Harris Counties.

Dr. Dyer has a map of Texas, marking counties where polio is reported. More than 400 cases are recorded.

Two new cases of polio were reported in San Antonio yesterday, bringing the total for the year to 11.

The death of three infants yesterday brought the number of diarrhea victims to 98 in San Antonio this year. This is almost three times as many deaths as reported last year.

A meeting of the City Health Board and the Epidemiological Committee is scheduled today to study possible methods of halting the rising diarrhea toll in the Alamo City.

The epidemiological group is an unofficial body formed to advise the health board on means of preventing disease.

Galveston's polio cases number 13. Sixteen other cases have been reported in Galveston County. Only one death has resulted.

The national foundation has two teams of four or five persons each working with the cases in the Valley.

The disease has spread steadily. Cases have been reported at Temple and Wichita Falls. Dallas has had one mild case, but about 10 from out of town are in a hospital polio ward.

FIREMEN HAVE TO CHASE FIRE; IT WAS A MOVING BOXCAR

DECATUR, Ill., June 9. (AP)—Firemen spent ten minutes chasing a fire before they put it out last night. They made it on the fourth try.

The fire was in an empty freight car on an Illinois Central train. By the time the fire engine got to an intersection where the train had been, it had moved on.

The firemen backtracked a block, sped two blocks parallel to the tracks, and dashed down another side street to the railroad intersection.

By the time they got there, the burning car had passed that point.

They made two more similar trips before they caught up with the fire.

The train's crew, meanwhile, knew of the blaze, but didn't know the fire engine was chasing the train. They had kept the train moving, looking for a side street with a fire hydrant.

The freight car's sides were burned up. The firemen were a little hot, too.

Socialists Gain Seats In Canada

OTTAWA, June 9. (AP)—Canada's Socialist Party, the Cooperative Commonwealth Federation, picked up two seats in the House of Commons in by-elections yesterday at the expense of the ruling Liberal Party.

The Liberals remained the dominant party, however, with 124 seats to 66 for the Progressive Conservatives and 31 for CCF. The remainder of the 245 seats are scattered among other parties and independents.

to the tracks, and dashed down another side street to the railroad intersection.

By the time they got there, the burning car had passed that point.

Stevenson Slates Air Talk Thursday

AUSTIN, June 9. (AP)—A 6:45 a. m. Thursday broadcast has been scheduled by former Gov. Coke Stevenson, candidate for U. S. senator.

Stevenson's headquarters here said the early-morning broadcast will be carried by KRBC, Abilene; KRLD, Dallas; KABC, San Antonio; and at 8 a. m., by KTRH, Houston.

The broadcast will originate in Abilene where Stevenson plans to spend Wednesday night. After the broadcast he is to drive to San Antonio for the state firemen's convention. He plans to attend a roundup and homecoming celebration at Manor Friday.

Meat Workers Renew Strike

ALBERT LEA, Minn. June 9. (AP)—Picketing was resumed this morning at the Wilson & Co. plant here after CIO United Packinghouse Workers voted last night to renew their strike, ended only five days ago.

Robert Hayes, president of the local, said the strike renewal won a majority vote from 900 members. He added that "our union ended its strike last Saturday, but apparently the company hasn't."

John Crowley, Wilson manager here, said the plant was in operation yesterday. He said he had no comment, "pending developments."

Hayes said union members complained that the sheep kill, begun yesterday for the first time since the walkout began March 16, was not manned by the union crew employed before the strike.

He said one man refused to break in a group of women Hayes described as strike-breakers. Another refused to help move bedding Hayes said had been used by strike-breakers.

Union Studies GE Wage Offer

NEW YORK, June 9. (AP)—The General Electric Company's offer of an 8 per cent wage increase to its 125,000 CIO employees was under study today by union officials.

The company said the boost would become effective as soon as the CIO United Electrical Workers Union "accepted" it.

It was reported the union may give its answer at a meeting scheduled today.

The company's offer, which it says would add "nine cents to over 15 cents an hour" to current wages, came yesterday after 14 weeks of negotiations.

GE previously had refused wage boosts on grounds they would be inflationary.

The union recently asked for an 11-cent hourly increase, with further adjustments geared to fluctuations in the cost-of-living.

The company says present take-home pay averages \$55.99 a week.

Actress, Husband Are Separating

HOLLYWOOD, June 9. (AP)—Elsie Janis, veteran actress of stage and screen, announces that she and her actor-husband, Gilbert Wilson, are separating.

Miss Janis, 58, said yesterday she is not planning divorce action. She and Wilson, 42, were married in 1932.

Stewed tomatoes are an excellent accompaniment for macaroni and cheese. Serve a crisp salad also and a fruit shortcake for dessert.

Heavy Rains In North And East

CHICAGO, June 9. (AP)—Rain fell over several Eastern and Southern states today and was predicted for wide sections of the Midwest.

Heavy showers were reported in some parts of the rain belt in the North Atlantic and New England states. There were thundershowers in widely-scattered sections of the Gulf States and Oklahoma.

Local thundershowers in Canada moved into North Dakota and Minnesota early today. They were expected to spread southeastward through the upper Mississippi Valley tonight and tomorrow, reaching the Great Lakes region and lower Ohio Valley tomorrow.

A nutritious menu for a take-along lunch is one of peanut butter and cheese sandwiches, raw carrot strips, an orange, cookies and milk.

Russia Drafts Own 'Marshall Plan'

LONDON, June 9. (AP)—Izvestia, the Russian government's official newspaper, hinted today that Russia is ready to offer her own version of the Marshall Plan to countries siding with the Soviet Union.

"The Soviet Union is now in a position to increase economic aid to those countries which maintain friendly relations with her," an Izvestia editorial said.
