## Election Of Tech Rodeo Queen Set For Next Week

### Election For Annual Rodeo Queen Is Set

Some Tech Coed Will Reign Supreme During Tech Aggie Rodeo Here On October 9 And 10

#### To Write Names

No Nominations Will Be Made But Student Voters Are To Write Names Of Their Choice On Ballot

Some Tech coed will reign supreme over the Tech Aggie rodeo next week.

A queen for the rodeo, October 9 and 10, will be elected by a popular vote of Tech students Monday and Tuesday. B. E. Snyder, rodeo manager, announced late last night. Ballot boxes will be placed in the administration building and every registered student in the college will be entitled to one vote, election officials have announced.

To Write Names  
No nominations will be made, but each student will write the name of his candidate on the ballot as he votes. Last fall four coeds were nominated, Miss Kathleen Harman of Lampassas being elected.

Coronation of the winner will be the opening of the rodeo, it was said last night. It is probable that other coeds will assist the queen during the two-day event. Last year the queen had three ladies-in-waiting.

Winner Announced Wednesday  
Votes will be counted and the winner will be announced the following morning after the election. The queen will lead the parade down town both days and will assist in the two-day event.

### Tech Women To Meet Tomorrow

Ladies Only Are Asked To Attend Gathering At The Tech Gymnasium Friday Evening; All Tech Coeds Invited

Ladies Only!  
So goes the announcement concerning the meeting at the college gym tomorrow night. Every woman student is invited to attend the gathering, it was announced yesterday, and no admission price will be charged.

Program Planned  
Sponsored by several women organizations on the campus, the meeting will be the first get-together for the college coeds for this year. A special program including stunts, songs and music will be on the program, according to the coeds in charge.

### Tech Debaters To Meet Twice Month

The Texas Tech Debate club will meet twice every month as has been the custom in the past. Dates for definite meetings will be posted later.

All old students interested in debate are expected back and freshmen are especially invited. Each year a variety team is chosen to compete with other schools. Special work will be given the Freshmen and also an opportunity to make a place for themselves on varsity.

### Wayland Throws Miners A Scare

(Special to The Treador)  
EL PASO, Tex., Oct. 1.—That same Wayland College football team which has been reported from the Roman Review of Columbia University and is now available for students' use in the library. The subject is "Ragner Lodbrok's Swan Song in French Romantic Movement."

### SHAKESPEAREAN ACTOR

Sir Ben Greet and his troupe of Shakespearean actors are to appear at Tech again this year. They will present "Twelfth Night" and "Julius Caesar," December 2.

### GIRLS TEACHING

Misses Alice and Lois Beckett are teaching this winter in Roberson and McAdoo. Miss Nina L. Gordon has a position as teacher in the schools at Albany, her home town.

### 'No, Not Yet' First Year Student To Obey Doctor

The freshmen we have with us always! Physical examinations, getting their bedding places approved, listing their religion, occupation, age, these and many other things were too much for some of the first year students registering last week.

One handsome young "fish" staggered into the big room on the third floor where classes were being scheduled and looked and looked into the kind face of Mr. Pender.

"Have you been sectioned?" asked the government prof.

"Not yet, but the doctor said I would have to be," the freshman replied.

### Gale Is Named Band Official

Plans Made By Tech Girl's Band For Coming Year; Rehearsals Will Be Held At Least Twice Each Week

Meeting for the first time this year the Girl's band recently made plans for the year. The organization is under the direction of Harry Le Maire.

In making final selections for the vacant offices in this year's organization, Miss Mary Frances Gale was elected as vice-president.

Places Listed  
The lineup for the year places Allene Huston, Roma Gouse, Lizzie Belle Clements and Juanita Peritas in the cornet division. Those who will play clarinets are: Misses Ruby Ford and Rowena Turner. Misses Mary Frances Gale and Marguerite Henson will play the alto saxophones. Miss Hazel Gruber will play the baritone. Trombone players will be Misses Doyle Thornhill and Carolyn Poe. Miss Viola Cravens will be the bass player. Misses Virginia Robinson and Dollie Clements are the drummers.

### James Potts Is In Charge Of Entries

James Potts, junior in the agronomy department of the aggie school in charge of 4-H club entries at the Panhandle-South Plains fair this week. He exhibited six entries of grain sorghum at the Amarillo Tri-State Fair last week, winning two firsts, one second, and one third place.

Potts, who lives 10 miles east of Lubbock, was one of the two 4-H club members from Texas to win a trip to the national conference at Washington, D. C., this summer. He was also chosen president of the club at A. and M. short course this year.

### Wayland Throws Miners A Scare

(Special to The Treador)  
EL PASO, Tex., Oct. 1.—That same Wayland College football team which has been reported from the Roman Review of Columbia University and is now available for students' use in the library. The subject is "Ragner Lodbrok's Swan Song in French Romantic Movement."

### VOTED MISS 'BIG SPRING'

(Special to The Treador)  
BIG SPRING, Tex., Oct. 1. (Special)—Miss Lucile Haley, a striking black-haired beauty, has been voted "Miss Big Spring" and will represent this city in the annual fall bathing beauty revue.

### GIRLS TEACHING

Misses Alice and Lois Beckett are teaching this winter in Roberson and McAdoo. Miss Nina L. Gordon has a position as teacher in the schools at Albany, her home town.

### Dr. J. M. Lewis Delivers Tech Annual Sermon

Pastor Of The First Presbyterian Church Of Lubbock Preaches To Students And Town People Sunday

#### Jennings Talks

Meeting Is Under The Direction Of The Local Ministerial Alliance; Churches Dismiss For Service

Using the text, "And behold, I am with thee, and will keep thee whithersoever thou goest, and will bring thee again into this land; for I will not leave thee, until I have done that which I have spoken to thee of," Dr. J. M. Lewis, pastor of the First Presbyterian church, spoke to a large crowd of citizens and college students last Sunday night at the seventh annual Tech opening sermon.

Dr. Lewis dwelt throughout his sermon upon the vision of Jacob in the wilderness, saying, "If there is any message in this vision, it is for young people." He also brought out how, after Jacob had stolen the birthright of his brother, Esau, God appeared to him in a dream, promising him a great future.

Says Something Expected  
"Jacob was lifted into a man," Rev. Lewis stated, "when he came to realize that God had not forsaken him." In conclusion, Dr. Lewis pointed out that "just as God expected much of Jacob, he is expecting something of everyone today."

The annual sermon is delivered the first Sunday night of each college year at the college gym. Most of the local sermons dismiss for the affair. Sunday night's gathering was under the direction of the local ministerial alliance, Rev. Walter P. Jennings, pastor of the First Christian church, presided.

### Club To Hold First Meeting

International Relations Club Will Hold Its First Meeting Of Year Tomorrow Night In Engineering Building

The first meeting of the International Relations club of Tech will be held tomorrow night at 7:30 o'clock in the auditorium of the engineering building, it was said yesterday.

Professor M. E. Ogdon of the government department and sponsor of the club will make the principal address on "Recent Developments in International Relations." Other speakers on the program are Garland Smith whose subject will be "Andrew Carnegie, His Gift to International Peace," and Frank Ward who will discuss the "Value of the Study of International Relations to College Students."

Recently Organized  
The Tech club which is sponsored and conducted under the auspices of the Carnegie Endowment for International Peace, was organized year before last at the close of the second annual International Relations conference by Miss Amy Hemenway Jones, of New York, executive secretary of the International Relations club.

### AMARILLOANS TO MEET

Tech students from Amarillo will hold the first meeting of the year this afternoon at 4:30 o'clock in the administration building at 7:30 o'clock tonight. Jack Boyd, secretary, has announced. Dr. R. S. Underwood will speak at this time on "The Religion of a College Man." All college men are invited. Boyd said.

### CABINET TO MEET

First meeting of the Y. M. C. A. cabinet will be held in room 310 of the administration building at 7:30 o'clock tonight. Jack Boyd, secretary, has announced. Dr. R. S. Underwood will speak at this time on "The Religion of a College Man." All college men are invited. Boyd said.

### Say It With Telegrams!!

An Editorial Urging Tech Students To Back The Matadors By Sending Them Telegrams Next Saturday

When you want something done in Austin you wire your senator.

When you want something to put in your pocket-book you wire the folks at home.

When you want Coach Cawthon and his boys to know that you expect a victory you should send them a wire.

Saturday morning, at about 9 o'clock every student, prof, or organization on the campus should call a messenger boy and turn a pep message loose on the wires headed for Las Cruces, New Mexico.

Let's all get behind this "absent cheering" movement and snow the Matadors under with a ton of "good luck" messages. Send them to the coaches, Captain Durham, or any particular favorite you have on the team.

Remember—wire the Matadors—and do it so they'll get your message before the game starts.

### Buffs Beaten 21-0 Friday In Night Tilt

France Leads Mates To Win Over West Texas State Teachers College; Almost 5,000 Witness Night Game

Sad Sam Burton returned to Canyon Friday night a sad man. His Buffaloes had met a fighting bunch of Matadors, only to lose 21 to 0. Almost five thousand fans, witnessing their first night football in Lubbock, saw about twenty-five Matadors open their 1931 season with a win over a team that beat them 6 to 0 last fall.

Penalties played a big part in the evening's show, Tech drawing 130 yards during the hour's battle. The last half was featured by constant punting, and was nothing like the first half of the game, which was worth ten times any man's money.

"Shock Troops" Start  
Cawthon's and Smith's "shock troops" were sent in for the first quarter and battled the Buffaloes down the field, outclassing them in every department. At the beginning of the second period a complete new lineup was sent, which soon put over two touchdowns. The "shock troops" again were sent in during the third quarter, and threatened the Buffaloes several times. Again a revived team was sent in for the last quarter, scoring a touchdown and a safety.

France Is Outstanding  
Shorty France of Sulphur Springs was the outstanding backfield ace, followed closely by Crites, Close, Tribble, Ross Ayers and Toby Greer were the mainstays. McIntire, Powell, Clark and McClendon were outstanding for the Panhandle group. Tech registered 11 first downs, while the Teachers marched down the field for 8. Although completely outclassed the Buffaloes put up a stubborn fight, threatening to score several times during the last period.

FIND OUT YOURSELF  
EL PASO, Tex., Oct. 1. (Special)—Special investigators working here today were unable to establish whether the "Terror of Texas Tech" otherwise known as the mighty Sidney Knowles deserted the ranks of the benefactors or not.

At the request of the Texas Tech Treasurer an investigation was launched in hopes of finding out if Knowles had actually married. Out at Bowie High school friends of the former Tech athlete refused to comment, but said:

"Let the boys up in Lubbock find out for themselves."

### Story Of How Tech Students Bring Cows To School Told In China Paper

BY EVA ROB WATKINS, Treador Staff  
That Texas Tech is becoming known in foreign countries is evidenced by the fact that in a recent issue of the China Press, American newspaper published in Shanghai, there is a feature story about students in this college who are defraying their expenses by bringing milk cows to school with them. This particular experiment has been carried on successfully in the school of agriculture under the direction of Dean A. H. Leidigh al-

### Second Annual Rodeo Set For October 9-10

Memories Of The Days Of The Old Dusty Trail Will Be Revived Here On Campus Next Week

#### Officials Named

B. E. Snyder, Of Moran Named Manager With Carlton Carmichael Of Lubbock Assistant Head

Memories of the days of the old dusty trail will be revived when the gates swing open for the second annual Tech Aggie rodeo next week.

Riders, racers, wild cow milkers, trick ropers—they'll all be here on October 9 and 10, dates of the event for this year. With B. E. Snyder of Moran as manager and Carlton Carmichael of Lubbock as assistant manager, plans for the second show are well under way. It was said yesterday by Manager Snyder. A queen, selected by a popular vote of Tech students, will reign over the affair.

To Pay Judging Expenses  
Proceeds of the affair will go toward paying the expenses of the members of the senior stock judging team to Kansas City and Chicago this fall for national stock judging contests. The first event was held last November with Miss Kathleen Harman of Lampassas as queen. It was dubbed a huge success despite rainy weather which cut greatly on the attendance. With better weather promised for this year's attraction, which comes a month earlier, special plans have been made for the best program possible, Snyder says. All contestants must be Tech students, he pointed out, but further added that plenty of ropers and "bronc peelers" can be found enrolled here.

To Offer Prizes  
A complete list of all prizes to be offered has not yet been completed, but officials said numerous prizes will be awarded for the winners of the various contests. Students wishing to enter any of the events are asked to see the superintendents of the various departments within the next few days. There probably will be a small entrance fee, officials said.

Work is sponsored by the school of agriculture and has been made an annual affair. Aggie students have voted for it to take the place of the annual spring fair, which formerly was means of financing the stock judging team trips.

Officials Listed  
Superintendents of the various departments follow: Rodeo director, Curtis Williams; secretary-treasurer, Jason O. Gordon; publicity, Fred Nix; gates, Paul Hardy; tickets, Iris Ribble; steer riding, Vel Limer; bronc riding, Jesse Young; roping, Edward Raliff; special events, Bill McKinney; seats, Kenneth Martin; usher, W. A. King; corral, E. Steen; police, Tom Easley; parking, G. L. Bean; arena, Buford Browning.

Officers of the chapter are: Morgan Gist, president; W. T. Nettles, vice-president; M. E. Ford, secretary and treasurer; Leon Gaines, reporter; and Herbert DeShazo, sergeant-at-arms.

Other members of the fraternity are Robert Spivey, Elmer Moore, Mason Smith, Howard Hopkins, Malcolm Patterson, Carl Stultz, Wallace Verley, Conrad Clark, Everett Perkins, Whitman Matheny, Clarence Cole, L. B. Worley, and Drs. M. A. Steinbrook, W. I. Robinson, and L. T. Patton, honorary members.

### Aggie Graduates Hold Positions

John Wherry, agricultural graduate of '31, in Lawton, Oklahoma, at the government dry-land experiment station. He is filling the place vacated by Richard E. Senter, '29, who resigned to enter Texas A. and M. college where he is doing work on the master's degree in the department of agronomy.

Lionel M. Starr, who received his M. S. in '31 from Tech, with a major in agronomy, is now working in Tucuman, N. M. Two other "exes," T. R. Weaver, '28, and Robert Burdette, '29, are teaching vocational agriculture at Dimmit and Fort Sumner, N. M.

Bill Clutter of the class of 1931 is field assistant at Big Spring, H. L. Hershby, '30, is a state certified grain sorghum grower at Hereford. Another graduate of the department of agronomy in 1930 is J. E. Couch, who is farming at Pecos.

### STUDIES IN TEXAS

AUSTIN, Tex., Oct. 1. (Special)—A blonde brain-storm down from the South Plains of West Texas breezed into the State University in pursuit of further education.

Don Boggs, erstwhile political genius of the Texas Tech campus, has signed up with university officials as a candidate for a Master's degree. Rumor has it that the Boggs lad was an honor student while attending the West Texas college.

### Seriously Ill

MOSE WITHERSPOON

Condition of Mose Witherspoon, former student of Strawn, who is ill at Mineral Wells remains unchanged, it was said yesterday. Witherspoon is vice-president elect of the student council for this year and is president-elect of the Silver Key club. He was student representative to the Athletic council last year.

### Geology Frat Is Installed

Tech Geological Society Becomes Alpha Beta Chapter Of Sigma Gamma Epsilon; Is A Professional Frat

The Geological society of Texas Tech, composed of students majoring in geology, has become a chapter of Sigma Gamma Epsilon, national fraternity. The national organization sent Prof. E. F. Schramm, of the University of Nebraska, vice-president of the fraternity, to install the chapter here.

A banquet was held at the Hilton during commencement week in June honoring Professor Schramm. The Tech chapter will be known as Alpha Beta. The object of the organization is to promote standards of scholarship and fellowship among students of geology.

Officers of the chapter are: Morgan Gist, president; W. T. Nettles, vice-president; M. E. Ford, secretary and treasurer; Leon Gaines, reporter; and Herbert DeShazo, sergeant-at-arms.

Other members of the fraternity are Robert Spivey, Elmer Moore, Mason Smith, Howard Hopkins, Malcolm Patterson, Carl Stultz, Wallace Verley, Conrad Clark, Everett Perkins, Whitman Matheny, Clarence Cole, L. B. Worley, and Drs. M. A. Steinbrook, W. I. Robinson, and L. T. Patton, honorary members.

### Carroll Takes The Place Of Gus Ford

Professor Gus L. Ford of the history department left Monday for Yale university where he will resume work on his Doctor's degree. He has been granted a year's leave of absence.

H. Bally Carroll, Tech graduate who was at the state university last year, will take Ford's place, it has been announced.

### STAGS LIMITED

Only 75 stags will be admitted to the all-college dance Saturday night, it was said this week. Prices will be \$1 for stags and 75 cents for couples.

Frank Stone and his collegians will play for the event which is to be held in the college gym at 9 o'clock.

### Special Rates Offered Tech Football Fans

Round Trip Ticket Will Sell For \$7.10; Special Prices Also Offered For Berths Both Lower And Upper

#### Is 'Tech' Day

Game Is Special Feature Of 'Dallas, Tech And South Plains' Day At State Fair; Band To Make Trip

Dallas, here we come!

Definite arrangements for a special train to the Tech-Haskell Indian game at the Dallas fair on October 13 were completed at a meeting of the Tech Athletic council Monday night. A special train over the Fort Worth and Denver road will leave Lubbock Monday night, October 12 and will arrive in Dallas early the next morning. Roundway ticket is \$7.10.

President Paul W. Horn said Tuesday that although no holiday would be declared for that day, no absence would be counted against the students riding the special. The train will leave for Lubbock sometime Tuesday night, arriving here early Wednesday morning.

Is Fair Feature  
The Tech-Haskell game will be one of the features of the State fair at Dallas on "Tuesday," which has been designated as "Tech and South Plains Day." Tuesday also has been set aside as "Dallas Day."

Prices for the trip beside the roundway ticket for \$7.10 are, standard lower berth, \$4.13 each way; tourist lower berth, \$2.25 each way; standard upper berth, \$3.30 each way; and tourist upper berth, \$1.80 each way.

The Matador band will accompany the Tech group.

### Band Try-outs Are Tomorrow

Forty Persons Will Be Selected For The Tech Matador Band, Director LeMaire Has Announced

Try-outs for places in the Texas Technological college Matador band, of which Harry LeMaire is director, will be held next Friday morning, officials of the musical organization announced Saturday.

Rehearsals will be held every morning at 7 o'clock pending the tests. Forty persons will be selected for membership in the musical organization. About 60 musicians attended the early morning rehearsals last week. Mr. LeMaire yesterday invited all new students who have their own instruments and desire to try out for the band to attend the practice session this week.

Go To Fair  
One of the first important assignments of the Matador band will be engagement at the State Fair at Dallas, October 12 and 13. The band last week attended the Tri-State fair at Amarillo. While there the Lubbock organization broadcast over radio station WDAG.

Early prospects indicate that Tech this season will have one of the best bands in its history, Director LeMaire said.

### Carroll Takes The Place Of Gus Ford

Professor Gus L. Ford of the history department left Monday for Yale university where he will resume work on his Doctor's degree. He has been granted a year's leave of absence.

H. Bally Carroll, Tech graduate who was at the state university last year, will take Ford's place, it has been announced.

Only 75 stags will be admitted to the all-college dance Saturday night, it was said this week. Prices will be \$1 for stags and 75 cents for couples.

Frank Stone and his collegians will play for the event which is to be held in the college gym at 9 o'clock.

## A FIGHTING GENTLEMAN

The history of Texas Technological college has added the name of P. W. Cawthon to its record of genuine Texans.  
During the two short years that Mr. Cawthon has been a member of the college's faculty he has accomplished more for the welfare of the institution than the average professor accomplishes in a lifetime. "Coach," as the athletes affectionately call him, has taught his lessons by practicing what he preaches.  
Cawthon demands clean living boys—and he sets the example.  
Cawthon demands honesty and sincerity from the boys—and he sets the example.  
Cawthon demands gentlemanly fighting—and he sets the example.  
Probably no one will ever know the heartaches, the battles, and the uncertainty that Mr. Cawthon faced during those trying months last summer when he was building the greatest coaching school in the country and asking the famous football mentors of the nation to support him here at an institution that has only recently cast aside its swaddling clothes.  
Cawthon has triumphed. With his fight and determination he could not have done otherwise.  
Texas Tech has triumphed. With a man like Cawthon behind the project the college could not have done otherwise.  
Cawthon is admired by the entire college.

## TECH'S AGGIE RODEO

The second annual Tech Aggie rodeo is coming!  
Tech and Lubbock citizens will have a chance to see some real bronco busting, calf roping, steer riding, wild cow milking and everything else that goes with a Wild West show, when the second annual Aggie rodeo opens its gates on the campus next week.  
The proceeds of the event will go to a worthy cause. After expenses are deducted, every cent from the exhibition will go toward paying the expenses of the senior livestock judging team to northern contests this fall. Tech students know what kind of teams Professor Ray Mowery puts out, and further more know something of the honors the Aggies bring back from the north.  
Everybody likes rodeos. They're good entertainment and Tech students will see some of the best performances money can buy when the gates swing open next week.  
The rodeo is coming!

## A LITTLE MORE REASON

Tech's student directory is in the making.  
Each fall names home addresses, Lubbock addresses and class affiliations of the students are compiled and a result the student directory is printed. These booklets are useful and should be in the home of every student.  
But time out is taken here for a few suggestions to those who have charge of this year's book. Last fall students who had completed only 89 hours were still sophomores according to the student directory. But he who had finished 90 hours was a junior. In other words the line between the classification was drawn very sharply. Too, numerous mistakes were made in spelling names, listing home towns, and listing phone numbers.  
The Toreador suggests that this year a little more time be taken in compiling the facts, and that if a student has completed as much as 80 hours that he be listed as a junior and not a sophomore.

The best way to end this over production is to put college students on the farm. They wouldn't get up early enough to raise an over-supply.

The college is full of golf bugs waiting for a chance at the Tech crown. When will Tech have a good golf link of its own? Why not one on the Tech 2,000 acre plot.

It will be well for any of you who are thinking of running for the presidency in the future to remember that the locusts will be with us again in 1948. That year will certainly be a bad one for the White House.—William Castle, Jr., Under Secretary of State.

I am of opinion that a stupid servant is worse than a wicked one, or at any rate more harassing; one can be on one's guard against a knave, but not against a fool.—Jacques Casanova.

## College Calendar

October 5, Monday. Last day to register for full work.  
October 12, Monday. Last day to register in fall term except by special permission from the dean.  
November 10, Tuesday. Mid-term reports due in Registrar's office.  
November 26-28, Thursday-Saturday. Thanksgiving holidays.  
December 18-23, Monday-Friday. Fall term examinations.  
December 24, Thursday. Fall term grades due in Registrar's office.

March 22, Tuesday. Recitations begin at 8:00 A. M.  
April 22, Friday. Mid-term reports due in Registrar's office.  
May 31-June 4, Tuesday-Saturday. Spring term examinations.  
June 4, Saturday. Spring term reports due in Registrar's office.  
June 5, Sunday. Commencement Sunday.  
June 6, Monday. Commencement day.  
June 6-7, Monday-Tuesday. Summer school entrance examinations.  
June 7, Tuesday. Summer school begins.

## TIME AND TIDE

Bits Of News Taken From The Week's Happenings

**BY WILL BRISBARTON**  
**SPRAWLING JOHN GARNER**  
Sooner or later most politicians saw off the limb they are sitting on, but it took Speaker-of-the-House John Garner of Uvalde to be literal.  
Last Thursday Congressman Garner stood under a huge limb and held a ladder for a workman who was sawing it off. The limb came crashing down on top of Garner, sprawling him to the ground with a painfully injured hip.

**BAYONETS**  
In Cedar County, Iowa, last week it was necessary to call out the Iowa National Guardsmen to body-guard state veterinarians making tuberculin tests of cattle belonging to violently protesting farmers.

**WALKING CO-EDS**  
Girls at a big dorm of Texas U. have resolved through parliamentary deliberation to walk boys having automobiles bought and paid for will not be discriminated against but rented cars and taxis are banned. Poor boys, who formerly had to borrow taxi fare to take their dates to the Saturday night dance, can now swallow their pride and pay as they go.

**PATCHED FUNDAMENTALS**  
Tech has her girl with riding boots; Canyon has her honorable patches. In college the country over farm produce is being swapped for meals and lodging at dorms, or to near-campus dwellers, and at Canyon, a news dispatch publicity a boy has dared the glare of publicity by coming in patches.  
"I want an education," he explained fearlessly.  
College professor Albert Barnett gazed at the patches and remarked "We're getting back to fundamentals."

**A \$2.19 DOLLAR**  
The worth of a dollar is gauged by what it can buy. Its purchasing power fluctuates. In paying registration fees a dollar is a dollar, but other living costs are static. Using 1926 as a stabilizing mark, attributing a value of 100 cents to the dollar, this week's dollar is worth \$2.34 in buying carrots, spinach, tomatoes, and watermelons; \$1.53 for Princess Eugenie hats, dresses and suits; \$1.72 for static electricity; \$1.32 for lumber, brick, and cement; \$1.14 for draperies, chairs and davenport; and \$2.19 for automobile tires.

**RUMBLINGS**  
Bristling Japan, anti-capital Russia, Franco-German tension, and Mussolini mark present day militarism's powder magazines—where a heavy step or tiny flicker might set off another world explosion. The world is awaiting her ears for distant rumblings from this danger zone and up they came last week from Japan.  
Dispatches to Berlin said three Americans were killed in Mukden, Manchuria, when a spray of Japanese machine gun bullets swept the streets. Japan declined to submit to intervention by the League of Nations or Kellogg Pact signatories, but occupation of South Manchurian railway zone was halted.  
Rumor said the Soviet government was preparing to interfere.

**MORALLY WRONG**  
The wages of honest toil took a tumble last week. United States Steel corporation, followed by other large companies, cut wages 10 per cent. Said American Federation of Labor President William Green: "This action of the steel corporations is morally wrong and economically unsound."

## Cowboys Resting From Bad Defeat

(Special to The Toreador)  
ABILENE, Tex., Oct. 1.—Banged and battered by the Texas Longhorns the Simmons Cowboys are resting from their 26 to 0 trouncing and making plans to come back strong against their next two Southwestern conference opponents.  
Coach Cranfill will spend most of this week remedying the Cowboys' poor defense against forward passes. As long as the Steers kept to the ground the Cowboys were able to battle them on even terms but Littlefield's aerial attack proved too much for the locals.

## MUST FILE BLANKS

All students interested in becoming a member of the Sock and Buskin dramatic club will please file an application for tryout in the speech office, third floor of the administration building, before Saturday noon. It was said yesterday.  
The first regular meeting of the Sock and Buskin club will be held in room 202 next Tuesday evening at 7:30 o'clock.

## BECK RETURNS

Dr. Thor Beck, head of the department of French and German, spent two months abroad during the past summer. He visited three weeks in Denmark with his mother, and spent some time in Germany, where he studied political and social conditions.

## HELP AT FAIR

H. J. Bower, head of Tech's agronomy department, and W. L. Stangel, of the animal husbandry department, are acting as superintendents of individual exhibits and superintendent of beef cattle, respectively, this week at the Panhandle-South Plains fair.

Marie Bostick, who has been working with the YWCA and YMCA industrial experiment group in Houston, under the direction of Miss Fern Babcock, regional secretary of the YWCA, has returned to Tech.

## Four Numbers On Schedule For Season

Two Sopranos, Violinist And Internationally Renowned Dancer To Appear; Dates Have Been Arranged

Offering the greatest series of attractions ever presented in Lubbock, the 1931-32 Texas Tech Artists' course has been signed up, officials of the college announced the past week. Four numbers will be given during the winter months.  
The course is under the management of Charles L. Wagner of New York. Prof. W. R. Wagborne is chairman of the college committee.  
Greater patronage of the course is expected this winter, officials said, due to the fact that the audience of the new high school building which affords plenty of seating space and stage room will be used.

**International Artists Coming**  
Appearing in numbers of the course will be international artists, Mme. Claire Clairbert, Belgian soprano, San-Malo, renowned violinist, Doris Kenyon, soprano, who has just completed a concert tour in Europe and Harald Kreutzberg and his dancing group.  
The Belgian soprano, Mme. Claire Clairbert will open the course with an appearance on October 29. She is hailed as one of the foremost coloraturas, having made marked impressions upon all the eastern music critics in her debut in America.

Billed as "an aristocrat of the platform," San-Malo, native violinist of Panama, will appear in the second number of the course on November 16. He has been one of the masters of the European concert stage. He has been in America for two seasons.  
Doris Kenyon, Feb. 1.  
February 1, will find Doris Kenyon, widely known screen actress and widow of the late Milton Sillis, star actor, here for the third course program. She has just returned from a concert tour of Europe. In her debut in New York last fall, she established herself as one of the outstanding newcomers of the American concert stage. Her repertoire covers a wide range of delicately-etched characterizations presented in a half dozen or more foreign languages and dialects. Her unusual achievement is the climactic preparation in the arts of music, dramatic mimesis, dancing and costume research and design.  
Harold Kreutzberg, world's greatest dancer, brings his group to Lubbock in the final program on March 19. After triumphant appearances in Europe, the dancer has set a record of the dance world with forty appearances in New York in the past three years. Misses Elfriede Becker, Erja Hagfors and Else Mendtner assist him in his unusual program selected from a repertoire of more than one hundred dances including startling creations never offered before in America.  
Only a limited number of season tickets will be sold for the course officials have announced. Season tickets have been set for \$3 each which each number will cost \$2 for reserve seats.

## SANS SOUCI TO ENTERTAIN

## Churches Hold Receptions In City For Tech

First Methodist Has Large Attendance On Sunday; The First Baptist Is First To Hold Open House

The churches of Lubbock extend a welcome to Tech students over the week end through means of open houses.  
The First Baptist church held the first reception of the year, on last Saturday night. The evening consisted of a "course of study" in the "Bug House college." The students were initiated into the "T. Arma Nut" fraternity, and received their B. A. (Bunk Artist) degree to the tune of "Good-Night Ladies." The program was directed by Miss Hazel Kokanour, and fifty young people were present.  
The First Methodist church had the largest attendance of any church in the city at their open house, Sunday evening at 5 o'clock. There were 176 young people present for games and stunts which were directed by Miss Maecita Mounds. One of the main features of the evening was numbers by a negro quartet from Abilene. Readings were given by Beulah Anderson and Miss McKinley, and light refreshments were served.  
Forty young people took part in the entertainment at the First Christian church Sunday evening, which was directed by Mrs. J. E. Harrelly. Watermelon was served later.  
The St. Paul's Episcopal church had an informal affair at 8:30 Sunday evening for the purpose of "getting acquainted." There were forty students present, and most of the evening was taken up in group singing after which light refreshments were served.

Forty young people took part in the entertainment at the First Christian church Sunday evening, which was directed by Mrs. J. E. Harrelly. Watermelon was served later.

Lloyd Reeves is here from Dallas after spending the summer there. Reeves is one of the biggest men in the textile department, standing way above the other textile students.

"Offole" Abraham arrived on a special train from Canadian ready for his sophomore year. His arrival had been expected for several days.

Richard (Dick) Browning is enrolled after dropping out last spring. He is an engineering student.

Hazel Lee has returned from her home in Prairie Grove, Arkansas to do her senior work in home economics.

Daisy Lockwood and Helen Jackson, '31 graduates of Tech, both of whom are teaching at Morton, Texas, were in town Sunday.

Bits Of News From Other Colleges

**UTES TUMBLE**  
Utah, three times Rocky Mountain champs, was defeated by the University of Washington (Jimmy Phelan's outfit) 7 to 6 for the first defeat the Salt Lake boys have met in a long time.

**WINS AT LAST**  
Iowa State managed to nose out little Simpson College 6 to 0 for the first win the Iowans have registered in 17 starts. At that the Simpson boys are said to have outplayed the heavy winners.

**ONE FOR BROTHERS**  
Eastland High double checked Polytex of Fort Worth with a 6 to 0 count. Our own "Buddy" Brothers coaches the Mavericks' backfield so Tech feels rejoice in the Eastland triumph.

**HIGH SCORERS**  
Michigan State's 74 to 0 win over Alma College and Cornell's 68 to 0 score against Clarkson stood near the top in the past week end's scoring. The Army's 66 to 0 triumph over Ohio Northern came in third in Carrie's check of the scores.

**OH YOU TECH SCHOOLS**  
And here's what the score card tells us about the Tech schools:  
Texas Tech 21; Canyon 0.  
Carnegie Tech 25; Uni. of Buffalo 0.  
Westinghouse Tech 0; St. Vincent 30.  
Tennessee Tech 7; Uni. of South 24.  
That's all we could find out but there's Georgia Tech, Michigan Tech, Alabama Tech, California Tech, Bradley Tech, Stevens Tech, and others of the Tech nature to hear from.

**PLENTY OF TIGER, TOO**  
The Bengals from the University of Missouri call in Austin Saturday for a battle with the Southwest conference champions. Of course the Steers are favored to win—but you can't assume that the Missourians will break off a few cow horns before matinee performance is over. About four touchdowns for Texas and one for the Tigers.

**TOUGH FOR WADE**  
Wally Wade's first appearance in the role of coach of the Duke Blue Devils wasn't so hot. South Carolina, thanks to a quartet of Texans, bumped Wade's eleven 7 to 0. Imagine Wade wished he were singing "Alabama Bound."

**SLOW BUT SURE**  
The once high powered machines of the Southwest conference, namely T. C. U. and S. M. U. may rise to an occasional brilliant victory but their early season games indicate that denominational schools are slowly slipping out of the conference leadership. The Horned Frogs had to put all their "jumps" into play to beat L. S. U. and the Mustangs supposedly playing under cover, found the going tough against Prof. Corry's play-mates from Denton.

**THEY CAN BE BEATEN**  
Texas Tech bumps into several opponents who have already tasted defeat. The "tribe" of Haskell Indians took a lacing from Washburn College while Cranf's Simmonizers failed to polish the Longhorns, in fact, the Abilene outfit came home with a 36 to 0 licking tacked on their score card.

**MISSED COTTON PICKIN**  
Max Saxton's Texas Miners trapped the Wayland Jackrabbits in a 10 to 0 score but found that without "Cotton" Pipkin things are going to be tough this fall. Two old timers, "Shorty" Keyes and J. B. Andrews finally came through with enough pointage to give Saxton's squad a victory.

**ROUGH GUESSES**  
Your correspondent, submits the following Northwesters to win the Big Ten: Utah the Rocky Mountain; Kentucky the Southern; Chattanooga the Southern Inter-collegiate; Bradley the Little Nineteen; Nebraska the Missouri Valley; Washington the Pacific Coast; Yale

## Personals

Kathryn Gaudier, formerly with the Rose Bud Beauty shoppe, is doing laboratory work in the office of Dr. C. C. Mansell and taking part time work in Tech.

Jesse Young, '31 representative of freshman aggies on the student council, is back in Tech, having spent the summer on a ranch near Cotulla. Mr. Young boasts of having become well versed in the tactics of "broncho bustin'."

Phyllis Pool, former secretary to the First Baptist church, is now employed in the office of professor W. L. Stangel. She is also taking part time work in Tech.

Sim O'Neil of Coleman was a visitor on the campus last week.

Dorothy Mae Scott, transfer from Simmons, has entered Tech this term.

Mrs. Lloyd Russell, former Tech student and now of Washington, D. C., is visiting her parents, Mr. and Mrs. T. L. Sansom.

Miss Rowena Grantham, who is teaching in Brownfield, was a visitor in Lubbock this week end.

Garland Smith and Carrol Thompson are back in school after a summer working for Holland's magazine.

L. Bullock spent the summer in Lampasas and Amarillo.

Marie Price is home from a visit to her uncle's ranch in New Mexico.

Mary Ollie Persons, Quitaque, the Big Three; Williams the Little Three, and—hold everything—RICE the Southwest! See you next week.

was visiting at Duck Inn last week. Miss Persons was in the home economics school at Tech last year, and has transferred to North Texas State Teachers college at Denton where she expects to get her degree this year.

Fred Miller who spent the summer at his home near Fort Worth has returned to Tech.

Elizabeth Montfort has returned to Lubbock after spending the summer traveling.

Eulalia Aycock, former Tech student, will teach in Rosebud this year.

Miss Margaret McMurray, who received her B. A. degree from Baylor, is doing graduate work in Tech this year.

Carl Bailey, a former Tech student from Estelline, will teach near there this year.

## Matadors Meet Far Of New Mexico

Aggies Of New Mexico Set To Settle With 14 To 0 Beating Them Last Year

Aggie "Bully" security work will receive attention from the Matadors when they meet the Aggies in a football game at Lubbock, Texas, on Saturday, Oct. 10. The Matadors will be playing against the Aggies in a game that is expected to be a close one. The Matadors are expected to win the game by a score of 23 to 0.

Other Games: The Matadors will play the Aggies on Oct. 10, the Red Sox on Oct. 11, the Blue Sox on Oct. 12, the Green Sox on Oct. 13, the Yellow Sox on Oct. 14, the Purple Sox on Oct. 15, the Brown Sox on Oct. 16, the Grey Sox on Oct. 17, the White Sox on Oct. 18, the Black Sox on Oct. 19, the Gold Sox on Oct. 20, the Silver Sox on Oct. 21, the Bronze Sox on Oct. 22, the Iron Sox on Oct. 23, the Steel Sox on Oct. 24, the Lead Sox on Oct. 25, the Tin Sox on Oct. 26, the Copper Sox on Oct. 27, the Zinc Sox on Oct. 28, the Nickel Sox on Oct. 29, the Cobalt Sox on Oct. 30, the Manganese Sox on Oct. 31, the Magnesium Sox on Nov. 1, the Beryllium Sox on Nov. 2, the Calcium Sox on Nov. 3, the Strontium Sox on Nov. 4, the Barium Sox on Nov. 5, the Radium Sox on Nov. 6, the Actinium Sox on Nov. 7, the Thorium Sox on Nov. 8, the Uranium Sox on Nov. 9, the Plutonium Sox on Nov. 10, the Americium Sox on Nov. 11, the Curium Sox on Nov. 12, the Berkelium Sox on Nov. 13, the Californium Sox on Nov. 14, the Einsteinium Sox on Nov. 15, the Fermium Sox on Nov. 16, the Mendelevium Sox on Nov. 17, the Nobelium Sox on Nov. 18, the Lawrencium Sox on Nov. 19, the Rutherfordium Sox on Nov. 20, the Dubnium Sox on Nov. 21, the Seaborgium Sox on Nov. 22, the Bohrium Sox on Nov. 23, the Hassium Sox on Nov. 24, the Meitnerium Sox on Nov. 25, the Darmstadtium Sox on Nov. 26, the Roentgenium Sox on Nov. 27, the Copernicium Sox on Nov. 28, the Tennessium Sox on Nov. 29, the Oganesson Sox on Nov. 30.

### Matadors Will Meet Farmers Of New Mexico

#### Aggies Of New Mexico Are All Set To Settle With Tech For 14 To 0 Beating Handed Them Last Year

The "lucky seventh" for Texas Tech will receive another strain when the Matadors invade Aggie-land of New Mexico at Las Cruces, Saturday. The Matadors won a hard fought 14 to 0 battle with the Aggies last fall on Tech field. This year the Aggies promise there will be a much different story, for besides having the advantage of playing on their own field, last week they added the scalp of the New Mexico state normal to their belt by the score of 33 to 6.

#### Results Now Seen

In turn Tech has realized an upward trend that is likely to be surpassed by few schools. Coach P. W. Cawthon's reign over the Matadors has produced no small results, as could be plainly seen Friday night when local fans were surprised by the tounding administered the Canyon Buffaloes. The 21 to 0 drubbing only indicated the power of the Matador machine.

#### Stars On Every Corner

Matador fans have little excuse for not attending games this year, for stars are to be seen on every corner of the field. France's run of 65 yards for a touchdown against the field, France's run of 65 yards for a touchdown against the Buffs will not soon be forgotten, nor will the line crashing done by Orites and Price. Tech can put her hopes in the hands of these men.

Following the game in Las Cruces, the Matadors will return home for a week of practice, then journey to Dallas for the feature game of the year, with the Haskell Institute Indians. The game is an added attraction on the state fair program.

Oct. 23 the Matadors entangle with the Colorado School of Mines. No data has been gathered concerning the Rocky Mountain school, but the Matadors are apt to have their hands full.

#### Other Games Listed

Tech has an interesting schedule which includes the following games: Oct. 31—Baylor university at Waco.

Nov. 6—A. C. C. at Lubbock.  
Nov. 11—Texas Mines at El Paso.  
Nov. 20—University of New Mexico at Lubbock.

Nov. 28—Simmons university at Abilene.

### N. Mexico Aggies Trounce Teachers

(Special to The Toreador)  
LAS CRUCES, New Mexico, Oct. 1—A new regime in New Mexico Aggie football was introduced here last Saturday when the Farmers trounced the State Teachers 33 to 6.

This week-end the Texas Tech Matadors, undefeated to date, appear here in one of the feature games of the Aggie schedule. Little is known of the Matadors' strength other than Coach Cawthon has two complete quartets of backfield stars.

Local fans are hoping to see the Aggies avenge last fall's defeat.

#### RHODES STARS AGAIN

GRAND SALINE, Tex., Oct. 1. (Special)—John T. Rhodes, former Texas Tech student, stepped into a high school football uniform long enough to tear off a ninety yard run for a touchdown in the annual game against the alumni.

Rhodes was a star here during his pre-college days.

### Under The Double "T"

BY LYLE HOLMES, Toreador Sports Editor

Wasn't that a dinger of a game out at Tech Field Friday night? It really did my old heart good to see the Matadors tame those Buffaloes. However, there was one thing that marred an otherwise enjoyable game. That was the continual wrangling done by the officials. On the whole, they took up more time with their arguing than was consumed by playing. If Tech officials are wise they will never permit Mr. R. P. Parsons to referee another game at Tech. For such a thing as happened Friday night is what cuts down attendance at future games.

The terminal positions, Tech's week spots last year, were one of the strong points Friday night. Howell, Hitchcock, Teal and Faulks all played a stellar game.

Tech's hardest game of the season comes October 13 when they meet the Haskell Indians at the Dallas Fair. If they win this tilt, they will have to stop Rabbit Weller, the sensational 135 pound back of All-American caliber. He is one of the outstanding backs in the country, being compared frequently with Albie Booth. Haskell was beaten last week by Washburn College, 6-0. This week they tackle Kansas U.

Remember that this is the "lucky seventh" for Tech. Let's get behind and push. If several hundred of us can scrape together a little coin and make that trip don't you think maybe that it would pep the team up? Whaddaya say? Powder River! A mile wide and an inch deep. Let's go Matadors. Rock 'em and sock 'em.

And I suspect that Sad Sam Burton is just a bit sadder after last Friday night. The redoubtable Burton was really tearing his hair over there on the east side of the field that night.

The New Mexico Aggies appear to have a stronger team than they did last year. They took in New Mexico Normal to the tune of 33-6 last Friday. A team that has the fight of the Aggies is not to be taken too lightly by anyone. However, it is probable that Capt. Jack Durham, who did not take part in last week's contest because of an injured leg, will be in the middle of the coming tussle. His return to the lineup will bolster Tech's team considerably.

You Tech fans may not realize the fact, but Coach Pete Cawthon, if he has a mind to, can start a backfield of four 10 second men. Moffet, France, Price, and Close are the young men mentioned.

Tech football fans were given a new treat Friday night when they witnessed the first night football game ever held in this city. In September, the night games are an advantage to the players because they can avoid the excessive heat prevalent in the daytime. However, they are a disadvantage to the spectators at any time. Even in September it is exceedingly chilly and when November rolls around—Brrrr!

Poor Simmons! It looks just too bad for them. The Matadors are out to avenge the lacing handed them last year and every mother's son of them is pointing for this game. They've got blood in their eye and fight in their bodies. Watch out Simmons! We are going to

### Picadors Work Hard For Game With Badgers

#### Del Morgan Feels He Has The Cream Of The 215 Candidates Coming Out For 'Fish' Football Squad

With the clamor for positions and the rigidity of the registration rules over, the Freshman football squad still has 45 men fighting for positions on the A and B teams. Coach Morgan and Washam have been shifting players from different positions so that there will not be the least chance to pass some player by who has the real ability. Del Morgan feels that he has the cream of 215 candidates who began the season.

#### Hold Varsity Close

The Picadors have a good team this year. To say the least they held the varsity much better than Canyon did. The Fish are working in preparation for a hard game with Amarillo Jr. college next week. The Badgers have sent in a report from "that cold city," saying they are plenty fierce, and it is going to take more than the Picadors to tame them. At any rate the Fish will get a genuine test of their ability when they meet the Badgers in Amarillo, Oct. 16.

#### Members Listed

Members of the Picador squad are: Wayne Larsen, Malcolm Martin, Baxter Gilmore, Wilson Gilmore, McLendon, and Vestal, ends; Roy Morris, Wilson, Burton, Birdsong, Orr, and G. B. Morris, tackles; Roy Curfman, Weldon Moore, McGeehee, Raymond Smith, Worthington, Trice, Lemond, guards; Leonard Curfman, Elmer Fortner, Bob Benson, and Kelly, centers; Pool, Clark, Ortner, Dowell, Reynolds, Hahn, Miller, Turner, Smith, Hill, Groce, Rowe, Muendine, and Tuck, backs. Several of the best men are on the casualty list. G. B. Morris of Seymour is in the hospital with an infection of the ear; Adrain Clark with a near fracture of the ankle; and Carl Muendine with an injured knee. The schedule for the "fish" has not been completed, but the games that have been posted are as follows: October 16—Amarillo Junior college, at Amarillo.  
October 23—Terrill Prep school, at Dallas.  
October 30—Canyon Teachers Freshmen, at Canyon.  
November 21—Simmons university Fish, at Lubbock.  
Thanksgiving—Canyon Teachers Freshmen, at Lubbock.

#### THEY'RE EARLY BIRDS NOW

ELECTRA, Tex., Oct. 1. (Special)—This city went to bed earlier than usual last night.

Bill Jennings and a handful of his college friends have enrolled in Texas Tech for the fall term. Jennings returns to the Lubbock college after spending six months as a "hand" on his brother's turkey and wheat farm.

Elizabeth Baird, who is teaching school in Tulla attended the Canyon-Tech game Friday night.

duplicate that 36-0 shutout Texas handed you.

And for the benefit of those who care, pertaining to the fair sex only, the Freshmen have chosen as their beauty Leonard Curfman of Electra, Texas. We understand he smokes Luckies, wears nationals, parts his hair with a single tooth comb, eats breakfast at 7:15, sleeps in bed, has classes from 8 to 12, wears rayon shorts, and is open for engagements from 1 p. m. until 3:30 p. m. A picture may be obtained on application at Chert Casa.

Changes Made In Staff For 1931-32 Year

Several Faculty Members Return To Tech After Leave Of Absence; C. E. Russell Is Promoted

Fifteen changes have been made in the personnel of the faculty of Texas Technological college for the next long session, according to an announcement made recently by President Paul W. Horn. The 1931-32 faculty will be composed of 125 persons.

One department head, C. H. Mahoney of the department of horticulture, has resigned to accept a position in Michigan State college. His position has been filled by promotion of C. E. Russell, a member of the horticulture staff. Mr. Russell's place is filled by George C. Woodbury of Michigan State.

Five Granted Leaves Leaves of absence have been granted to R. A. Schuchter head of the department of biology, and M. F. Landwer, member of the staff, Miss Bonnie K. Dysart of the department of education, Dr. Allen L. Strout of the department of English, and Capt. H. E. Killin, instructor in military science. Dr. Strout is to leave after January 1, 1932.

Three other members have resigned. They are Mrs. H. L. Farrow of the department of French, Dr. Elizabeth Stafford of the department of mathematics and W. L. Goughly, member of the athletic coaching staff.

Dr. E. L. Reed has been designated acting head of the biology department in Mr. Studhalter's absence. Miss Bessie League and J. Q. Sealey, members of the department, who have been on leave of absence are returning to the staff.

H. R. Nisley of the math department, who has also been absent on year's leave returns to the college and H. H. Pfarr, who has been filling his place temporarily, returns to work elsewhere.

Miss Dysart's post in the education department is to be filled by Dr. Lula Marie Jenkins.

W. B. Gates and James G. Allen return to their posts in the English department after a year's absence as does Miss Ruth Pirtle in the department of public speaking, R. E. Heineman of the math department and Mrs. Eunice Gates in the Spanish department. Miss D'Laurel Beville, who taught in Miss Pirtle's place and Prof. W. A. Whately of the Spanish department, are leaving for other points.

Noel Moulton of Columbia university is to be in the post vacated by Mrs. Farrow in the French department.

Dr. O. A. Kinchen, who served temporarily in the history department, is leaving.

Colonel Charles A. Davis is to be in charge of the military department in the absence of Capt. Killin during the next year.

Milton Kirksey, Robertson, is the big butter and egg man at Meadow. Kirksey, a junior last year in the school of agriculture, recently was appointed manager of a produce house at Meadow. He assumed his duties the latter part of August.

Kirksey last year was connected with the Tech Dairy department and was employed with the student dairy. He expects to return to Tech, probably next year, for his B. S. degree.

Mrs. Marise Lesh Will Open Studio Mrs. Marise C. Lesh of Dallas, a member of the Klepper Klepper Sketch studio, and a former pupil of Frank Klepper, famous artist of the South, is here to open a studio. It was announced last week.

Mrs. Lesh is also a graduate piano teacher with two diplomas from an Eastern Conservatory of Music. Her studios are at 1919 14th street.

TO HOLD MEETING Students and faculty members who are members of the Eastern Star will hold a meeting Tuesday night at the Masonic temple, over the Citizens National bank building. A special program has been planned.

Larhelle Moore spent the week end at her home in Levelland.

Would-Be Artists To Get "Break" Texas Tech This Year Will Offer Course In Just How To Act, What To Say And What Not Before Radio "Mike"

WOULD-BE Graham McNames, Floyd Gibbons, and even Amoses and Andys will have an opportunity to learn to address the "mike" as it should be done. Starting this year at Texas Technological college, a class in radio speaking will be offered by the public speaking department. Miss Ruth Pirtle, head of the department, will direct the work. A microphone will be placed in one room and an amplifier in another. Students will make announcements and speeches into the "mike" while the remainder of the class serves as an audience.

Radio Bans Dialects Miss Pirtle agrees with national radio authorities that the radio is bringing about a revolution in speech; that it is eliminating the southern drawl the New England nasal twang, the western localisms, and other vocal mannerisms and colloquialisms. She believes that eventually, radio will bring about a standard, cosmopolitan speech, characteristic of all the nation and unmarred by dialects. "If a speaker is talking into a microphone and realizes that

an unseen audience is listening to his every word, his speech will not be slovenly; he will be more careful than he would in making a talk from a platform", Miss Pirtle said.

Because of the rapid advancement in radio, and the constant demand for well-trained speakers, entertainers and announcers, it is thought that the radio speaking class will be one of the only college class of its kind in Texas.

Information concerning the selection and training of radio announcers by the National Broadcasting company was given Miss Pirtle in a letter from Vito Ravencraft, Sinton, speech critic and head of the speech department of N. B. C. It was pointed out that college graduates are preferred for announcers. Personality, diction, vocal culture and reading ability are considered. At least a reading knowledge of some foreign languages is necessary in a well-trained announcer.

Before an announcer is chosen by N. B. C. he is required to pass a rigid test on pronunciation, diction, grammar and extemporaneous speaking.

'Open House' Is Planned Saturday

Annual open house for Las Chaparritas club will be given by the patronesses Saturday, Oct. 3 at the W. G. Murray home, 2419-19th street. The receiving line will be made up of club members. Hours for the reception are from 7 to 9 o'clock.

Officers for this year are Virginia Murray, president, Jean Shelley Jennings, vice-president, Cecile Horne, secretary-treasurer, and Sue Barton, parliamentary.

Cookery Class Is To Serve Lunches

The quantity cookery class, foods 331 of the school of home economics, announces that luncheons are to be served in the home economics tea room beginning October 5, on Mondays, Wednesdays, and Fridays from 12 o'clock to 1 o'clock. The price will be 35c per plate. Reservations should be made through Miss Mamye Twyford's office.

Las Vivarachas Club Entertains

Las Vivarachas club members were entertained Wednesday evening at 8:00 o'clock when Miss Ada Ruth May was hostess at a bridge party in her home 2202-16th street.

Guests present other than members included Martha Alice Penney, Evelyn Stuart, Margaret Connor, Del Kennedy and Sally Bean. The club has planned a tea and a picnic to be given soon.

Las Leales Club Honors Freshmen

With pink roses and green candles carrying out the color scheme in decorations of College Inn parlors, members of Las Leales club entertained with an informal tea honoring freshman girls Sunday afternoon from 3 until 5 o'clock. About 250 guests called.

Miss Lila Gaye Rodgers met the girls at the door where they were introduced to Pearl Harrison, club president. The receiving line was made up of members and Sylvia Wilson and Vonelle Gilkerson. Musical numbers throughout the afternoon were given by Louise Jennings, Sue Brown, Evelyn Jackson, Fred Fairley, Culver Hill and Edgar Neal, Wilma Bartlett and Lois Beckett were at the punch bowl.

Frank Ward has returned from a trip to New Orleans.

Women Offered Riding Course

Miss Zella Reigel And Miss Johnnye Gilkerson Offering Two New Courses In P. Education Department

Miss Zella Reigel and Miss Johnnye Gilkerson are offering two new courses for women students in physical education classes this year.

Interpretative dancing is open to everyone except freshmen, and will be taught in room 204, textile engineering building, which has been especially prepared. The course is to feature natural dancing, with rhythmic balance, limbering exercises, and interpretation of music in dance. The class will meet Monday and Wednesday at 5.

New Course The other new course is horse-back riding, and as many classes as the demand necessitates will be given. At present the course is scheduled for Monday-Wednesday from 5 to 6. Horses belonging to Miss Virginia Wester, freshman student from New Mexico, will be used. She furnishes western saddles and the western style of riding will be taught. Rates will be about one-half of the charge for individuals.

Information may be obtained about either of these courses by calling the women's section of the physical education department.

John Brown is still here.

Former Students Teach This Year

Four former students who did their work on master's degrees in Tech's English department are teaching this year. They are Oliver P. Ramsey, who received the M. A. degree in '31, and who is an instructor at the University of Texas English department. He taught two courses in freshman English here last year.

Miss Martha Pfaff, '31, will head the English department at Kidd Key college, Sherman, this year, and Miss Eula Lilly is an instructor in English in a Houston high school. Miss Lilly is a candidate for the M. A. degree in 1932.

The fourth is Harry M. Crain, who received the master's degree in June, 1930, and who is head of the English department at the New Mexico School of Mines.

MAKE MODEL FARM

R. V. Davis and W. R. Underwood, junior architectural students, have constructed a model farm, consisting of dwelling, barn, and other buildings, to be used this week at the Panhandle-South Plains fair.

The model is to be part of the exhibit of the Texas Cooperative Cotton Growers association display.

Chemistry Society Plan 'Open House'

Open house for members of the Tech Chemistry society and all students interested in chemistry will be held in room 101 of the chemistry building Tuesday evening at 8 o'clock. It was announced yesterday.

The program is under the direction of Roy C. Davis, president, and Vernon Jones, publicity director. Main purpose of the gathering is for a get-together, Jones said. Old members of the society will meet in the chemistry at 7:30 o'clock for a short business session. The program for the term is to be outlined at that time.

WILL TEACH HERE

Coming here from Columbia University where he has been doing graduate work, N. D. Moulton, will teach first and second year French and first year German classes.

HERRING LEAVES

E. W. Herring left Saturday for his home in Mount Calm after receiving a message that his mother was seriously ill. Herring will be a senior student here this year.
