Spike Jones and Musical Insanities To Invade Tech Gym Friday Night

The "Old Barn" will literally be jumping with music tomorrow night when Spike Jones and his Musical Insanities present two shows at Tech Gym.

Tickets may be obtained at the Union Building for the shows beginning at 6:45 and 8:45 p. m. This marks the beginning of Jones' second million miles of one-night stands. On the entertaining cast will be the Wayne-Marlin Trio, Dolores Gay, dancer, Helen Grayco, the glamorous vocalist who is also Mrs. Spike Jones, and the famous City Slickers.

Nutrition Majors To Hear Speaker

Charles Ray Walden will speak on "Continental Foods of France" at the October meeting of the Lubbock Dietetic Association, to be held at 8 p. m. tonight at the home of Mrs. Gertrude Morse, 2806 33rd St.

The Association is composed of hospital and other institutional dietitians, as well as teachers of foods and nutrition. Tech junior and senior foods and nutrition majors are eligible for student membership.

Dr. Mina Lamb, associate professor of foods and nutrition, was installed as president of the Texas Dietetic Society at an executive board meeting held at Baylor Hospital, Dallas, Oct. 2.

Phi Eta Sigmas To Attend Meet

Texas Tech chapter of Phi Eta Sigma, national freshmen men's honor society, plans to send a delegation of 13 members to national convention the week-end of Oct. 21-23. The convention will be held at Oklahoma A & M, Stillwater.

Members planning to attend are: Monte Wise, Quitaque (official delegate); Tom McKelvey, Odessa (alternate official delegate); Donald Fortenberry, Adarin; Jack Fulwiler, Abilene; Leon Harp, Abernathy; Leslie Hembree, Phillips; Richard King, Ft. Worth; Walter McDonald, 3517 29th; Max Merrill, Carlsbad, N. M.; Jack Morris Jr., Rallas; Glenn Rainer, 2605 30th; Ray Joe Riley, Hart; Jimmie Wygal, Post.

Dean James G. Allen, chapter faculty adviser, will accompany the group.

LA VENTANA DEADLINES

Saturday is the deadline for seniors to have their class pictures made for La Ventana, announces Editor Linda Hudson.

Deadlines for sophomores and juniors is Oct. 23. Freshmen have until Oct. 30 to get their pictures taken.

Photographs are being made at Koen's Studio, 2322 Broadway. Studio hours are 9 a. m. to 6 p. m.

Judging Teams To Enter Contest

Tech livestock and wool judging teams are scheduled to arrive in Kansas City, Mo., tomorrow, following a short stop at the Texas State Fair in Dallas. Both erican Royal judging contests Saturday.

Teams will compete in the American Royal and the American Coached by Stanley Anderson of the animal husbandry department, the livestock team is composed of Joe Ash of Bronte; J. D. Jones, Jayton; Joe LeGendre, Shreveport, La.; Frank Newson, Alpine; Jerry Vines, Brownwood; and Ralph Willingham, Rotan. Ash, Jones, LeGendre and Newsom double as the wool team and will compete in both contests at the annual show. Ray Mowery, professor of animal husbandry, coaches the wool team but did not make the trip. Both teams will be under the guidance of Anderson.

Both teams placed second in their individual contests at the American Royal last year.

Leaving today enroute to Kansas City via Oklahoma City is Fred Boren and his meats judging team, made up of Bobby Waddle, Cedar Hill; Ike Trimble, Seminole; Charles Cunningham, Garden City; and Gayle Smith, Sweetwater. The team will compete in the American Royal meats judging contest to be held next Tuesday.

They plan to work out in Oklahoma City enroute to the contest and will arrive in Kansas City Sunday. Tech's meats team placed 12th in the American Royal in 1953.

The livestock and wool teams are scheduled to return to Lubbock next Tuesday, and the meats team will arrive on the campus later in the week.

Five Women Are Initiated As Mu Phi Epsilon Pledges

Five women were initiated as pledges to Mu Phi Epsilon, honorary music fraternity, Sunday morning in the Music Building. Pledges are: Anne Mason, Sweetwater; Patty Crain, New Deal; Carole Tollin, Virginia Furbee, and Joy Downing, all of Lubbock.

Painting of Texas Heroes

Includes Two Tech 'Firsts'

A painting sponsored by the Texas Heritage Foundation announcing the '84 names of the Heroes and Heroines of Texas Education was unveiled Oct. 13 in the Hall of State on the Fair grounds, Dallas.

The late Paul Whitfield Horn, first president of Texas Tech, and Miss Elizabeth Howard West, first Tech archivist-librarian, were among these selected and portrayed in the painting.

Women's Recreation Association

Extends Invitation for Members

Women's Recreation Association today invited all interested women students to attend a meeting at 7 p. m. Thursday, Oct. 21, in Ad209. Purpose of WRA is to further the interest of women students in intramural sports, according to Dr. Mary B. Dabney, WRA sponsor.

PEP RALLY

A pep rally will be held at 7:30 tonight between Drane and Horn Halls, according to Virginia Carr, head girl cheerleader.

Prexy Gets Ag Club Off to Fast Start

-- Leaves Guest Speaker 'Speechless'

Charles Cunningham, president of the Aggie Club, could easily hang himself from the nearest tree.

It seems that Charles became so engrossed in the business at hand during the regular meeting of the club Tuesday night that he adjourned the meeting before Jack Creel, farm director for radio station KFYO, could make his scheduled talk. By the time the mistake was realized, most of the members were too scattered to be recalled. The speech was postponed until a later meeting.

The business that so absorbed Charles' attention consisted mainly of laying plans for the Pig Roast, an annual affair held by the club and attended by many college and civic personalities. Featured at the barbecue, tentatively scheduled for Nov. 16 at the

livestock pavilion, will be introduction of the 1954-55 judging teams and awarding of college scholarships.

Other business at the meeting included a vote to hold the annual Aggie-Home Ec party, and a decision to enter a float in the Homecoming parade Nov. 13.

Perhaps it was more than club business that had Charlie's mind off of speakers. Featured on the program were five girls from Drane Hall, June Hollie and Jerrie Hills pantomimed Kitty Kallen's "Little Things Mean A Lot," and Pat Bowles presented a character dance, accompanied by Helen Willis at the piano. Ann O'Neil closed the program with a pantomime of Eartha Kitt's "Let's Do It." Cunningham announced the next meeting of the club will be held Oct. 29. It is planned to have Creel speak.

Kappa Kappa Psi Sponsors Food, Saddle Tramps To Decorate Train

By La Doyce Lambert
Toreador Staff Writer

LSU or bust!

The former motto of the vigorous Student Council ticket sales campaign now becomes the cry of every student making the trip to Baton Rouge in happy anticipation of the events of this weekend.

LSU To Welcome Tech With Revue

"Hi, Texas Tech," a miniature musical revue to be presented Saturday by the Louisiana State University student body in honor of Texas Tech, reflects the friendly greeting to be received by Tech students making the out-of-town trip to Baton Rouge.

The revue, which stars LSU campus talent and also an act from Tech, is one of many events to honor Tech in an "Open House" preceding the night football game between the two schools.

An outstanding feature of the talent show will be two original songs written especially for Texas Tech by Gene Quatro, LSU director of social recreation. The two songs, "Hello, Texas Tech," and "That Boy From Texas Tech," will be presented in the show, along with other vocal and dance numbers.

There will also be accordion and piano solos, comedy skits, and yells for both teams led by Tech and LSU cheerleaders.

The detailed program, to be held from 2 p. m. to 5:30 p. m. Saturday will open with a campus sing, featuring songs from both schools. Following this will be greetings from LSU student body president, Roy Beard, and the response by Glenn Rainer, Tech student council president.

The highlight of the program will be a dance from 3:30 to 5:30 Saturday afternoon with music by Buddy Boudreau's orchestra.

Hosts and hostesses for the entire program will be members of the LSU Student Council, Women's Panhellenic Association, and the Men's Inter-fraternity Council.

As an added gesture, the LSU student newspaper, "The Reveille," will print a special edition welcoming Tech and give more details about the "Open House." Copies will be distributed here late this week.

Seniors To File Personnel Forms

Only 1 per cent of the senior class had completed personnel information forms for the Placement Service early this week.

About 50 forms have been turned in, according to Mrs. Jean A. Jenkins, director. Despite the small number so far, Mrs. Jenkins is encouraged because response began earlier than in past years.

The forms should be in the Placement Service office tomorrow, as a part of the requirement for graduation. In addition, seniors should supply the Placement Service with two photographs. They must be glossy prints, approximately 2 by 3 inches. If not available now, they may be added to the file later.

A permanent file is made up on each graduate, comprising the forms, photographs and statements from references. All students and graduates are encouraged by the Placement Service to make use of the file when applying for a job, and to refer prospective employers to it at any time when such information would be of value.

The 350-ticket goal for the official out-of-town trip fell short of its mark by about 20 by the extended deadline Tuesday. However, the Student Council reports that the special train will be taken despite this fact. The Council also reports that tickets will remain on sale at \$25.50 until noon Friday.

Bill Hudson, Student Council vice president and chairman of the special train committee, reports that the train will leave on schedule at 3:30 p. m. Friday and arrive in Baton Rouge about noon Saturday.

Members of the Tech band fraternity, Kappa Kappa Psi, will have charge of concessions on the train in a separate car which will be reserved for food, coffee, cokes, sandwiches and chicken box lunches will be on sale during the trip. The train will be decorated by the Saddle Tramps.

The train will stop only a few blocks from the LSU Field House, which will be headquarters for Tech Students. An LSU Student Council car will meet the group and escort them to the Field House. Booths will be set up there for information and registering. Members of the LSU Student Council, Inter-fraternity Council and Women's Panhellenic Association will welcome Tech students.

The group will have lunch in the school cafeteria and then go to the Gym-Armory for the "Open House" from 2 to 5:30 p. m. honoring Tech.

The train will leave at 12:01 a. m. Sunday and will arrive in Lubbock at 8:30 p. m. Sunday.

The special train committee, who worked out details for the trip, is made up of Bill Hudson, chairman, Jack Gibson, Betty McGehee, Huda Hassen, Fred Currie and Jerry House.

Dean Lewis N. Jones, dean of men, and Dean Florence Phillips, dean of women are sponsors of the trip.

Campus Traffic Tickets Increase

The traffic and parking problem on the campus is breaking all records. Campus and city patrolmen had issued 2,281 tickets to Tech students by Oct. 5, and the number is mounting every day.

Careful observance of rules would cut this number considerably, says Dean Lewis N. Jones. He urges that students notice the penalties for violations. The first two tickets serve as a warning to the owner who is responsible for his car regardless of who may be the driver. When a student violates the rules the third time, he loses the privilege of driving his car on the campus for at least the rest of the semester.

Dean Jones has these suggestions for student automobile operators: Know and observe traffic rules, and unless it is absolutely necessary, leave the car at home.

CEDRULY NAMED

Raymond Cedarly has been appointed as West Hall representative to the Freshman Council. An announcement issued by the Council yesterday encouraged all members of the Freshman Class to offer suggestions pertaining to operations of their class at meetings held each Tuesday at 7 p. m. in Ad 220.

McCutchan Joins Psychology Staff

Dr. Kenneth McCutchan, an assistant professor of psychology at the Women's College of the University of North Carolina since 1951, has joined the Tech faculty.

The appointment was announced today by President E. N. Jones. Dr. McCutchan will assist Dr. Sylvan J. Kaplan, psychology department head, in conducting research on the effect of radiation on the human mind. Funds for the research were provided recently by the U.S. Institute of Neurological Diseases and Blindness. It was the largest single grant for an on-campus study yet received by Tech, totaling approximately \$45,000 during a three-year period.

A native of Texas, Dr. McCutchan is a graduate of Marshall High School and the College of Marshall. He received his doctorate from the University of Texas. From 1937 until 1941, he was acting head of the department of psychology at the College of Marshall. He then served five years on the psychology staff at Texas University. He has also taught at the University of Florida and Oklahoma. He has had numerous articles published in psychological journals, is a member of the American Association for the Advancement of Science, the Texas Academy of Science and Sigma Xi.

Officers Appointed For Student Union

The executive council and committee heads have been appointed for the Student Union Building. Carol Seibert, program director, announces that committees are functioning and an extensive program is planned for the year.

Melvin Deardorff, Lubbock student, is president of the executive council. Other council members are: Gwen Williams, vice president; Mary Alice Braselton, secretary; Ann Lee Turner, treasurer.

Committee heads are: dance—Ann Rathjen, chairman, and Joan Roberts, co-ordinator; decorations—Pat Randolph, chairman, and Pat Harkleroad, co-ordinator; games and tournaments—Chuck Strehli, chairman, and Ken Johnson, co-ordinator; movies—Gary Gilliland, chairman, and Sylvia Dietering, co-ordinator; music and fine arts—Betty Doris Hamilton, chairman, and La Don Sheats, co-ordinator; personnel—Glen Cary, chairman, and Jerry House, co-ordinator; publicity—Marlin Hamlin, chairman, and Kay Lynn Watson, co-ordinator; special events—Ann Collins, chairman, and Virginia Carr, co-ordinator.

Ex-officio council members include Glenn Rainer, president, Student Council and David Clark, editor of The Toreador.

Whetstone Writes Technical Article

Dr. George A. Whetstone, associate professor of civil engineering, has written an article appearing in the September issue of "Agricultural Engineering," a technical publication of the American Society of Agricultural Engineers.

The article, entitled "Mechanism of Ground Water Recharge," deals with the problem of air trapped within ground moisture and water tables. Dr. Whetstone suggests two methods of overcoming or minimizing this problem.

In case of farming land, he advocates a continuous blanket of water to prevent air from following sporadic moisture into the ground. Irrigation and water wells, he says, should be drilled to the bottom of the water table in order to pull more water and less air to the surface.

Psychology Club Officers Elected

The Psychology Club, during a recent meeting, elected its officers for the 1954-55 school year.

Bill Pedrini was installed as president, Bob Willoughby, vice president and program chairman. Phil Walther is secretary and Trixie Austin is treasurer.

Club sponsor will be Dr. William H. Melching.

The publicity and membership committee will consist of Jim Buster (chairman), Marshall Ross, Donald Reece and Dick Brooks. Brooks will also be in charge of the entertainment and refreshments.

The next meeting will be held at 8 p.m., Oct. 25, in the Student Union Building. Regular meetings will be held at 8 p.m. on fourth Mondays in the Student Union.

Selective Service Rules Announced

New regulations for deferment of graduate students have been released by Lt. Col. Morris S. Schwartz, deputy state director of Selective Service.

The new rules recommend that local draft boards defer a graduate student accepted for admission to a class commencing on or after Jan. 1, 1955, if he achieved a scholastic standing ranking him in the upper one-fourth of the male students in his class during his last full-time undergraduate academic year, or if he attained a score of 80 or more on the college qualification test.

Former regulations concerning graduate students required a standing in the upper one-half of his class or a score of 75 on the Selective Service test.

The regulations also recommend that graduate students who begin their work both before and

FTA TO MEET

after Jan. 1, 1955 be allowed to complete their work so long as the school certifies that the students are meeting degree requirements and are expected to get their degrees.

Alpha Chi Called Meeting Set Tonight in Student Union

Alpha Chi, national scholastic society, will hold a called meeting tonight at 7 o'clock in the Anniversary Room of the Student Union.

A sponsor will be elected and plans made for initiation of new members. Certificates of membership will be available to last year's initiates. Coffee, cokes and doughnuts will be served.

If you drive for the sheer zest of it
**you owe yourself
this hour!**

If your hands rejoice in the precise balance of a fine gun or the sweet response of a racing loop . . . then you owe yourself an hour with the Chevrolet Corvette.

You'll find it is, quite literally, like no other car in the world—a heart-lifting blend of the true sports car with all that is best in American engineering.

There is the velvet smoothness of a Powerglide automatic transmission (but with the classic floor selector-lever).

The trouble-free durability of a Chevrolet "Blue-Flame" engine (but with three side draft carburetors to unleash its flashing 150 horsepower).

The ruggedness of an X-braced box girder frame (but with the astonishing impact resistance of a glass-fiber-and-plastic body).

Luxurious seating for driver and passenger in deep foam rubber (but cradled in the traditional security of bucket seats).

Generous luggage room, the panoramic sweep of a deeply curved windshield, the flair of tomorrow's styling (but within the polo-pony compactness of a real road car).

The Corvette blends all this and more. For it is a driver's car . . . a low-slung torpedo with a center of gravity only 18 inches above the concrete . . . with outrigger rear springs that make it hold to the road like a stripe of paint . . . with a 16 to

1 steering ratio that puts needle-threading accuracy at your finger tips.

Frankly, the Corvette is a "limited edition," made only in small numbers. It is intended only for the man or woman to whom driving is not just transportation but an exhilarating adventure, a sparkling challenge to skill and judgment. If you are one of these, then you owe yourself an hour with a Chevrolet Corvette.

Call us now and let us set up a demonstration run . . . for in a short 60 minutes you can discover that motoring has a whole new dimension of delight.

Make a date to drive the

Chevrolet Corvette

150-h.p. overhead-valve engine with three side draft carburetors • Four-leaf outrigger springs in rear • Powerglide automatic transmission • Center-Point steering, 16 to 1 ratio • Form-fitting individual seats • Full instrumentation, with tachometer, oil pressure gauge, and ammeter.

Tech French Club Schedules Movie

A color film travelogue of France will be viewed Tuesday night by Le Cercle Francais, says Jimmie Bennett, program chairman of the campus French club.

French songs and refreshments are also scheduled. The film is provided by Air France. The meeting will be at 7:15 p.m. in Room A of the Student Union.

"Anyone taking French or interested in the language is cordially invited," Miss Bennett says.

Officers are: Travis Francis, Post senior, president; Miss Bennet, Big Spring senior, vice president; Nancy Alexander, Canadian junior, secretary; and Myrna Wilson, Floydada sophomore, treasurer. William Roberts, new instructor of French, is sponsor.

Forum Members Honor Mortar Board Secretary

Active and alumnae members of Forum, honorary organization for senior women, entertained with a luncheon at the Lubbock Women's Club Saturday to compliment Miss Thelma Lockwood of Austin.

Miss Lockwood is the national secretary of Mortar Board, and is the first of two visitors the honorary service organizations sends to a campus before a formal petition is presented.

The guest advised with active and alumnae groups on revising plans and suggested changes which would strengthen Forum's hope of attaining Mortar Board status. She left Lubbock Saturday afternoon.

Mortar Board is the national honor organization for senior women.

DIRECTORIES DELAYED

The 1954 fall semester Student Directory has been delayed in printing, but should be out by late this week or next week, says Virgil F. Young, representative of the National Farm Life Insurance Co., which is printing the directories.

Mr. Young's original announcement last week stated that the directories would be out last Friday. The delay was caused by an unavoidably heavy printing schedule, Mr. Young said.

AN EDITORIAL

Good Business!

Fifteen dollars well spent . . . where else, by spending \$15, could you receive \$30 worth of entertainment and enjoyment?

And now, because of the increased sale of student activity tickets, another attraction has been added to the 1954-55 season of the Tech Artists Course series. Zvi Zeitlin, violinist, will appear April 18, 1955.

In the past, such stars as Rise Stevens, Jascha Heifetz and Eleanor Steber have appeared on the Artists Course programs. Scheduled this year are the Robert Shaw Chorale; Robert Goldsand, pianist; and the ANTA touring players.

The Artists Course entertainment is just one of the benefits to be received from the activity tickets. Football and basketball games cost only presentation of your ticket book. Many worthy campus organizations also receive allotments from the activity ticket fund. The Student Council, Toreador, band, Engineers Show, Aggie judging teams, Home Economics club, choral groups, Association of Women Students, Student Religious Council and KTTIC are included in activity ticket fund distribution.

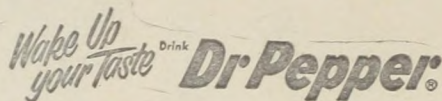

By spending less than half the estimated cost of all these programs and games, you receive dividends worth

Co-captains Announce Hopes For UNDEFEATED SEASON

Our nationally famous co-captains, when interviewed in the locker room after Saturday's game, had this to say, "Sure, we got good talent on the team this year, but we wouldn't get to first base (sic) with our schedule, if it wasn't for our trainer." When asked to explain, they said, "We just squeaked through our first two games . . . but now the trainer has put a Dr. Pepper vendor in the locker room. Our boys get such a Lift for Life there will be no stopping them."

And, there'll be no stopping you in any of your campus activities if you'll Wake Up Your Taste with a frosty cold bottle of Dr. Pepper.

Industrial Representatives

To Interview '55 Grads

Representatives of the Creole Petroleum and the Carnation Companies will be on campus Monday to interview future graduates.

Creole is interested in January, May or August graduates with degrees in engineering, petroleum geology or physics. Carnation is seeking January graduates interested in accounting, marketing, sales management or dairy industry.

Additional information is on file with the Placement Service. Those wishing to make appointments should report at once.

Tech-LSU Football Game

To Be Broadcast by KFYO

KFYO will again be one of the participating stations in a special network broadcasting Texas Tech football games. The station will carry the Tech-LSU game beginning at 7:45 p.m. with pre-game information followed by play-by-play description beginning at 8 p.m. Saturday.

Jack Dale, KFYO sportcaster, will work with Bob Walker of Waco. Walker will give the play-by-play account and Dale the color and commercials.

Interviews with Texas Tech and LSU players and coaches are scheduled for the pre-game broadcast, along with other information of special interest to West Texas fans of the Red Raiders.

more than three or four times what you spent. That's just good business!

On Campus with Max Shulman

(Author of "Barefoot Boy With Cheek," etc.)

STUDYING MADE SIMPLE

I have passed my thirty-fifth birthday, and my dewlaps droop and my transmission needs oil. More and more my eyes turn inward, reminiscing, sifting the past, browsing lovingly among my souvenirs, for at my time of life memories are all a man has.

And most precious are the memories of college. It still makes my pulses quicken and my old glands leap to life just to think of it. Ah, I was something then! "Swiftly" my friends used to call me, or "Rakehell" or "Candle-at-both-Ends" or "Devil Take the Hindmost." My phone was ringing all the time. "Come on, Devil-Take-the-Hindmost," a cohort would say, "let's pile into the old convertible and live up a storm. I know a place that serves all-bran after hours."

So it went—night after mad night, kicks upon kicks, sport that wrinkled care derides, laughter holding both his sides. "Come on, "Candle-at-Both-Ends," my companions would plead, "sing us another two hundred verses of Sweet Violets."

"No, my companions," I would reply with a gentle but firm smile, "we must turn homeward, for the cock has long since crowed." "Twas not the cock," they would answer, laughing merrily. "Twas Sam Leghorn doing his imitation of a chicken!"

And, sure enough, 'twas Crazy, madcap Sam Leghorn. How I miss his gaiety and wit! I never tired of hearing his imitation of a chicken, nor he of giving it. I wonder what's become of him. Last I heard he was working as a weathervane in Tacoma.

Oh, we were a wild and jolly gang in those days. There was Sam Leghorn with his poultry imitations. There was Mazda Watts who always wore a lampshade on her head. There was Freddie Como who stole a dean. There was Cap Queeg who always carried two steel marbles in his hand. There was Emily Hamp who gilded her house mother.

Yes, we were wild and jolly, and the wildest and jolliest was I . . . But not right away. I blush to admit that in my freshman year I was dull, stodgy, and normal. I finally corrected this loathsome condition, but for a while it was tough and go. And, dear reader—especially dear freshman reader—be warned: it can happen to you.

The makers of Philip Morris have bought this space so I can bring you a message each week. There is no more important message I can give you than the following: College can be beautiful. Don't lose it up with studying.

That was my mistake. At first, cowed by college, I studied so much that I turned into a dreary, blinking creature, subject to dry-mouth and fainting fits. For a year this dismal condition prevailed—but then I learned the real function of college. And what is that? I'll tell you what: to prepare you to face the realities of the world. And what do you need to face the realities of the world? I'll tell you what—poise, that's what you need. And how do you get poise? I'll tell you how: not by keeping your nose in a book, you may be sure! Relax! Live! Enjoy! . . . That's how you get poise. Of course you have to study, but be poised about it. Don't be like some clods who spend every single night buried in a book. Not only are they not learning poise; they are also eroding their eyeballs. The truly poised student knows better than to make the whole semester hideous with studying. He knows that the night before the exam is plenty of time to study.

Yes, I've heard that lots of people have condemned cramming. But have you heard who these people are? They are the electric light and power interests, that's who! They want you to sit up late and study every night so you'll use more electricity and enrich their bulging coffers. Don't be a sucker!

Clearly, cramming is the only sensible way to study. But beware! Even cramming can be overdone. Take it easy. On the night before your exam, eat a hearty dinner. Then get a date and go out and eat another hearty dinner. Then go park someplace and light up a Philip Morris. Enjoy the peaceful pleasure it offers. Don't go home until you're good and relaxed.

Once at home, relax. Do not, however, fall asleep. This is too relaxed. To insure wakefulness, choose a chair that is not too comfortable. For example, take a chair with nails pointing up through the seat—or a chair in which somebody is already sitting.

Place several packs of Philip Morris within easy reach. Good mild tobacco helps you to relax, and that's what Philip Morris is—good mild tobacco. But Philip Morris is more than just good mild tobacco; it is also cigarette paper that keep the good mild tobacco from spilling all over the place.

Now you've got the uncomfortable chair and the Philip Morris. Now you need light. Use the lit end of your Philip Morris. Do not enrich the electric power interests.

Read your textbook in a slow, poised manner. Do not underline. It reduces the re-sale value of your book. Always keep your books in prime re-sale condition; you never know when you'll need getaway money.

As you read you will no doubt come across many things you don't understand. But don't panic. Relax. Play some records. Remove a callus. Go out and catch some night crawlers.

Relax. Be poised. Stay loose. And remember—if things really close in, you can always take up teaching.

This column is brought to you by the makers of PHILIP MORRIS who think you would enjoy their cigarette.

Faculty Members To Speak At Reese

Seven faculty members will be guest speakers during the fall session of the Reese Air Force Base Mid-Management Seminar, which got underway with a meeting Monday.

Col. C. P. West, base commander, invited the faculty members to participate in the program. Meetings will be held every two weeks.

Speakers from Tech will include: Dr. P. Merville Larsen, speech department head; Dr. F. L. Mize, management department head; Dr. Per Stensland, adult education program director; Dr. Horace Hartsell, associate professor of education; C. B. Hubbard, assistant professor of management; Dr. S. M. Kennedy, associate professor of government; Dr. S. J. Kaplan, psychology department head.

Randall Co-Author Of U.S. Booklet

Prof. Arne Randall, head of the applied arts department, is co-author of a recent U.S. government booklet. Randall helped to write "How Children Can Be Creative" for the Department of Health, Education and Welfare.

The booklet stresses the contribution creative expression plays in developing the well-rounded child and cites the role of parent, teacher and child in creative programs. It tells in pictures and text about the various creative arts and activities which can be taught children.

Randall contributed to the booklet while working as a creative arts specialist in the U.S. Office of Education and did further work after coming to Tech.

Press Club Members Plan For Homecoming Activities

Homecoming plans were discussed at the first Press Club meeting held recently. Plans include sponsoring a float in the Homecoming parade and a coffee for all Journalism execs after the parade.

Regular meetings will be held in the Journalism Building on the first and third Tuesday of each month. A guest speaker will feature the next meeting.

Officers of the club for this year are: Claudia Martin, president; Linda Hudson, vice president; Jan Webster, secretary; Gale Hays, treasurer; and Max Williams, reporter.

Accounting Professor To Address Branch of AAUW This Saturday

Mrs. Luta P. Eaves, assistant professor of accounting, will speak to the Big Spring branch of American Association of University Women Saturday. Mrs. Eaves will describe the advantages and desirable features of AAUW membership.

Union Will Screen 'Richard II', With Maurice Evans, Wednesday

Shakespeare's "Richard II," starring Maurice Evans, will be shown in the Union Ballroom at 7 p.m. Wednesday.

The two-hour movie, sponsored by the English department, is being loaned by the Institute of Visual Training. "Richard II" is a movie production for the Hallmark Hall of Fame television series.

CADETS NOMINATED

Two students of Texas A&M have been nominated to the first Air Force Academy class, convening in July, 1955. The two are

among some 300 men who will make up the first class of the academy, which will be located at Colorado Springs, Colo.

Wheels who get around wear an ARROW...Button-Down

It's the one shirt that says—"You're really with it." And that campus-classic... the Arrow button-down shirt... is ready in a solid variety of styles like the traditional Gordon Dover. With all these perfect-fitting Arrow shirts, you'll get "button-down correctness" . . . PLUS a lift that gives a man his individuality. \$4.50 in white broadcloth; white oxford, \$5.00—same price in color!

FORMATIONS PLOTTED

Tech Band To Maneuver 'Griderama' In LSU Half-Time Football Activities

By Hubert Waddill
Toreador Staff Writer

Up in a small, dark room on the second floor of Tech's Music Building is a box of screws on a table. Near the screws is an odd-looking rectangular drawing of angles and straight lines.

Such trappings would seem more at home in an architecture class than in musical surroundings. For who would know that this strange assortment is a plotting board behind a revolutionary conception of band formations on the sports field.

"Griderama" is here, and Tech has it. We've seen panorama and cinemascope on the movie screen. Now, at half-time on the football gridiron, we may see griderama.

The term is lagged to perspective formations of letters shaped by band members. For each maneuver, screws, representing band members, are placed on the drawing. The drawing shows the field as seen from the stands. The letters are placed in true proportion. A graph is then plotted and transferred to a drawing of the gridiron with perpendicular lines. The band practices their formations from this.

Tech is probably the second college in the nation to attempt the complicated show. Ohio State has used it for two years.

Based On Cinemascope

The idea, based on the principle of cinemascope, originated a few years back with a high school in New York state. Tech picked it up this year, using the maneuvers in every game.

From any seat in the stands toward which the band is facing, and especially between the 35-yard lines, spectators get a true perspective of letters spelled on the playing field. Instead of being smaller and closer at the top, the letters are seen in exact shape. Band members are spaced further apart at the top of the letters to make them appear the same distance from each other.

Here it is, time for another show; so, up to the small dark room we go to plan for Saturday's LSU half-time. This is the routine as band president, Jimmy Williams sees it.

While playing the "Eyes of Texas" or "I've Been Working on the Railroad," (take your pick), Tech

Picadors Outplay Buff Calves 14-12

Texas Tech's freshmen Picadors overcame a determined West Texas State B team last Saturday 14-12.

The Picadors, taking their second win of the season against one loss spotted the Canyonites a 12-7 lead midway in the fourth quarter, and then showed them that the Raiders varsity is not the only Tech team that can score when in need.

Boasting a large statistical advantage in the game, the Raider freshmen had to fight off two second period drives, both inside the 10.

A 66-yard spurt gave the Picadors a tally the first time they got control of the ball. Doug Duncan of Wellington went over from the 11 for an early lead. R. V. Alcorn converted to set the Picadors out in front 7-0.

West Texas came bolting back on the kickoff to score its first TD of the game. Mark Clapp slipped over from five yards out, but Jack York missed the first of two extra points.

York banged over from the three in the final quarter to set the Canyonites out in front 12-7.

Tech's battle-winning tally was made with less than two minutes to play, when Quarterback Wick Alexander went over from the one.

AFROTC Honors Wing Sweethearts

Revis Jordan, Lubbock freshman, was named Sweetheart of the 820th AFROTC Wing Friday at a reception held in the Student Union.

Joyce Tharp, Littlefield sophomore, and Barbara Ware, Midland freshman, were selected Sweethearts of the 821st and 822nd groups, respectively.

Selection of squadron sweethearts is being made today.

Tech - LSU Movies

Movies of the Tech-LSU game will be shown at 12:15 noon Tuesday in the Rec. Hall. Coach Buzz Warren will narrate and give comments on the game.

band will roar onto the field in a perspective locomotive engine formation, smoke and everything. The engine will break into the letters "LSU", then into the Greek letters honoring band fraternities on both campuses. A tiger in perspective will be shaped and skinned down to its ribs, as the band plays the Matador song. Still playing, the band will form the letters T-E-C-H and the double "T".

You may see this show too, through realistic, new griderama.

Raiders Hobble Texas Western 55-28

Techsans Journey To Baton Rouge For Year's Toughest Tilt Saturday

Texas Tech's Red Raiders could easily meet the toughest opposition of the season Saturday when they invade Louisiana State University in Baton Rouge. Although the Tigers are still looking for their first win of the season, they have shown plenty of promise against such teams as Georgia Tech, Texas, Kentucky and Alabama.

The Raiders, sporting an 11-game winning streak, have been predicted as favorites by some sportscasters, while others are calling it a toss-up.

The Techsans showed their greatest promise of the season last week by routing a point-happy Texas Western eleven in a free-scoring offensive battle, 55-28.

Raiders Penalized

The fired-up Miners forced the Raiders into the battle early in the game. Tech stacked up 52 yards in penalties during the first six minutes of the game. Four consecutive downs of the Raiders saw the field covered with red flags as Tech drew 35 of their total 122 yards of penalties.

Spinks was forced to punt, and got off a beautiful 51-yard boot to the Miners' Harman. The Miner halfback took the ball on his own 34, and scampered back to the Raider 48. The Miners scored in five plays with Harman bucking the line for the Western lead. Whittenton converted, and Texas Western led 7-0.

Bryan Takes Kickoff

Bryan took the ensuing kickoff and carried it out to the Raider 26. On the next play, Graham raced 64 yards for the equalizing TD to end the first quarter scoring. Kirkpatrick converted the first of his five consecutive extra points to tie his mark in the Gator Bowl last January.

The second quarter opened with the Miners on the Raider 13. The Tech forward wall held, and Tech took over on downs. Two plays later Ronnie Herr broke loose to roar 82 yards to paydirt.

Miners Tie Score

Still hopeful of repeating their 1952 upset in Lubbock, the Miners took control of the ball and drove 77 yards. Tevis carried the last yard, and Whittenton converted to knot the count 14-14.

But that was the last time the Miners saw daylight as the Weaverites bottled the Miner attempts. The Techsan ran up a 28-14 halftime lead.

Graham Scores

Graham grasped a pitchout, swept the left end, and found himself all alone in the Miner secondary. Living up to the name of "Lone Ranger", he galloped 66 yards for his second tally of the game.

Brumbelow's Miners took the following kickoff and racked up one first down, but that was all the hosts would allow. The Western eleven got off a short punt that went out on the Raider 42. Tech moved the ball to the Miner 44, where Kirkpatrick tore up the turf to the forty, found himself trapped, and pitched back to Bryan who trotted into the end zone.

Raiders Dominate Play

The Weaverites, after a 15-minute intermission were ready to go and wasted little time in ending any ideas the Miners' might have concerning an upset. Starting from the Tech 21, Pogue contributed a 35-yard dash to set up the score-happy Raiders' next tally. Johnson flipped nine yards to White, who took the agate on the 20 and went over standing up.

Hurt Grabs Fumble

Texas Western, taking the kickoff, had control of the ball only three plays as Howard Hurt, playing alert ball, fell on a Whittenton fumble on the Miner 22. On the first and only play of the

series, Johnson fired to Herr on the 16, and Ronnie rang up six more points.

Bryan Scores TD

A short punt gave the Raiders control of the ball on the visitors 38. Electing to see what their ground attack could do, the Raiders covered the distance in nine plays with Bryan plunging over from the one. The score now jumped to 48-14.

After running out of gas, the Miners got a refill and decided it was their turn to ring the cash register. The Western drive carried to the Tech 45 as the third period ended, but that didn't stop the visitors' rally. Forest banged over for the final six yards. Corbell added the extra point.

Last Miner Score

Playing heads-up ball, End Enrique Mata recovered Pogue's fumble on the Tech 17 to set up the last Miner touchdown. On third down Hedgecoke gathered up steam and broke around end for the final Western tally.

Tech, taking the kick-off was out to increase their margin. It only took three plays, with Sides grabbing Don Schmidt's lateral for the final 13 strides.

Intramural Tilts Now Underway

Tech's intramural football season got underway Sunday with six of the eight fraternity teams opening the action.

PIKA eked out the closest victory of the day with a 2-0 win over Phi Delta. A bad center pass gave PIKA a touchback and cost the Phi Deltas the game.

Sigma Nu's Bobby Joe Parker passed to Doug Perkins to drop the Kemas squad 6-0, and ATO's Gene Weeler returned a punt all the way to give his club a 6-0 win over Phi Psi.

In the dormitory bracket, Sneed Hall handed West Hall a 20-0 shellacking for the most decisive victory of the week, while Bledsoe Hall crushed Doak Hall's Green Hornets 20-6 to keep pace.

The Independent League saw the Chowhounds slip by the Many Critters with an overtime penetration. The Nameless Wonders edged the Nubins 7-0, and the Tech Vets dissolved the Sugar Lumps with a 6-0 victory.

Monday's schedule calls for games between West Hall and Doak Hall, Sneed Hall and Gordon Hall, and ATO vs. Phi Delta. SAE will battle PIKA, Kemas challenges Kappa Sig, and Phi

Four Business Administration Students Given \$100 C. N. Hilton Scholarships

Four C. N. Hilton Foundation Scholarships have been awarded this week to top business administration students at Tech.

This year's winners are: Ed Weyman, graduate student from Midland; Theo Lofton, Hillsboro senior; Carmaleta Brown, Wheeler junior; and Molly Morrison, Sweetwater sophomore.

C. N. Hilton, president of Hilton Hotels, Inc., has given \$100 scholarships since 1948 to the four business administration students at Tech having the highest scholastic averages for the previous school year.

This year's awards were presented by John E. Harding, assistant professor of management. Welman, graduate management

major, is a former member of the Student Council, Who's Who in American Colleges and Universities, Delta Sigma Pi, Phi Eta Sigma, Sigma Alpha Epsilon, Sigma Iota Epsilon and Saddle Tramps.

Lofton, who also won a Hilton scholarship last year, is an accounting student and member of Phi Eta Sigma, Delta Sigma Pi, Saddle Tramps, Alpha Chi and Arnold Air Society.

Miss Brown is majoring in secretarial administration. She is a member of Alpha Lambda Delta and Phi Gamma Nu.

Miss Morrison is legislator and AWS representative for Knapp Hall, and is a member of Disciple Student Fellowship. She is in business education.

Roddy, Holmquest Receive Awards

Richard W. Roddy Jr., and Charles A. Holmquest, both Tech seniors of Lubbock, have been named winners of the \$500 Schlumberger Collegiate Awards.

Announcement of the winners of the awards, offered for the first time this year at Tech, was made Saturday by Arts and Sciences Dean R. C. Goodwin, and Engineering Dean D. E. Holcomb.

Roddy, of 2607 24th St., is a physics major and has a three-year grade average of 2.57. He is past president of the Tech physics Club, and a member of the Student branch of the American Institute of Physics.

Holmquest, son of Mr. and Mrs. A. A. Holmquest, 2013 Main St., is an electrical engineering major with a grade average of 2.65 during his first three years at Tech. He is president of Alpha Chi, scholastic fraternity for upper classmen, a member of the Electrical Engineering Honor Society, secretary of Kemas, men's social fraternity, and a pledge to Tau Beta Pi, honorary engineering fraternity. He has also received individual, class and divisional honors at the All-College Recognition Services for the past three years.

The Schlumberger scholarship states that one recipient must be an arts and sciences student majoring in physics or geology, and the other must be an engineering student majoring in electrical, mechanical or petroleum engineering. Both students must have had at least 12 hours of study in electricity.

they might bid for them.

Perhaps the most memorable sight of the entire event was Auctioneer "Dupe" DuPriest parading about the lobby in a 1940 model teddy bear coat, wearing a long-handled tin pan upon her brow. A typical Tech event, conducted in typical Tech style!

J. D. Hassell Will Speak To Tech Accounting Society

J. D. Hassell, general manager of Hemphill-Wells Company, will speak to the Tech Accounting Society at its first meeting of the year at 7:30 p.m. tonight in Room A of the Student Union.

Coffee and doughnuts will be served. Anyone interested in becoming a member is invited to attend. Officers for this year are: Willie Dunnam, president; Robert Holt, vice president; Howard Parker, secretary-treasurer; and Shade Gore, reporter. Dr. Fred Norwood is sponsor.

Touch-Football Rules Clinic Will Meet In Gym Tuesday

George Philbrick, intramural sports director, has announced that there will be a touch-football rules clinic at 7:30 Tuesday night in the Gymnasium.

The clinic will consist of a panel discussion concerning touch-football rules. Questions which arise will be answered during the discussion.

Glen Hatfield will serve as panel chairman, and will receive aid from Gordon Harman, Don Rowell and Richard Duke. These men also officiate the game.

All touch-football managers, coaches, and players are asked to attend.

Everything Goes As Ladies Bid On Merchandise

Horn Hall Auction Antics Entertain Residents; Proceeds Go To Polio Fund

by Janice Cox
Toreador Staff Writer

"Going once — going twice — gone for \$2.08!"

The cries of seasoned auctioneers could scarcely have been more spirited and tempting to the bidders than the voices of Shirley DuPriest and Betty Hickerson, as they conducted the Horn Hall storeroom auction in the dorm lobby recently.

Bids started at 2 cents and went as high as \$13 for merchandise ranging from mops to antiquated matador costumes.

Announcements were made earlier in the week that the storerooms would be cleared of all unclaimed items. On the night preceding the auction, members of Horn Hall's social committee transferred the contents from the six wing storerooms to the center

of the dorm lobby. Bidding began at 10 p.m. Thursday and continued on Friday and Monday. Almost \$245 was taken in, which is to be given to the Polio Fund.

As the "skeletons in the closet" were brought up for bidding, the lives of past residents floated before the eyes of the onlookers. Boxes of forgotten love letters (which were destroyed), bulletin boards still covered with dead corsages and old dance bids, the financial records of one of the old social clubs, battered portfolios filled with the work of art majors — bits of human drama in the form of forgotten possessions.

Since the auction was held after hours, it was open only to Horn residents, but many of the male visitors picked out objects beforehand and left instructions with the girls as to how much

FREE GALendars "make dates easy." Luscious, full color GALendars for desk or wall. Yours Free at your neighborhood City Club dealer's, or write Peters Shoe Co., Dept. CN-10, 1505 Washington Ave., St. Louis 3, Mo.

"I STARTED SMOKING CAMELS 24 YEARS AGO. YOU CAN'T BEAT 'EM FOR FLAVOR —AND BELIEVE ME, CAMELS ARE REALLY MILD!"

Wm. H. Brockman,
REAR ADMIRAL, U. S. N. (Ret.)
Commander of the first Nautilus, submarine which sank Japanese carrier at Battle of Midway; awarded three Navy Crosses; today, a Baltimore chemical company executive.

SUCCESS STORY...

AND HOW IT STARTED...

ADMIRAL BROCKMAN says: "I prepped at Baltimore Polytech, found I liked math and electrical engineering — required subjects for a Navy career. But it was getting licked in lacrosse by the Navy plebes that got me interested in Annapolis. My break on an appointment came when two ahead of me failed on exams. I worked hard to graduate, got into sub class, did some teaching, eventually earned my own sub command."

SUCCESS STORY
Camels — America's most popular cigarette ... by far!

Start smoking Camels yourself. Make the 30-Day Camel Mildness Test. Smoke only Camels for 30 days — see for yourself why Camels' cool mildness and rich flavor agree with more people than any other cigarette!

For Mildness for Flavor

CAMELS

AGREE WITH MORE PEOPLE THAN ANY OTHER CIGARETTE!
