Arrest of Student For Parking Tickets Results In \$10,034 Claim

George H. Fewell, senior petroleum geology major, Tuesday became the third person in recent weeks to file a claim involving traffic regulations against the City of Lubbock.

Fewell claimed Lubbock City Police and Corporation Court employees illegally jailed and fined him for an overparking ticket he did not receive. He revealed he had filed a \$10,034 claim against the City as a result. He charged that on Jan. 7 he was put behind bars with a blunt "lock him up" because he could not immediately produce \$34 to pay fines for overparking tickets.

Fewell, whose home is in Cisco, says that officials repeatedly refused to show him the warrant under which he was arrested.

One of Fewell's instructors, Dr. Richard Mattox, who went to help pay the fine, said that after being permitted to "cool his heels" for some time, he was almost fingerprinted and photographed when he was mistaken for Fewell.

Lynn Andrews, director of public safety for Lubbock, late Tuesday refused to let *Avalanche* Journal reporters see the warrant. This was said to be an unprecedented move here in such cases.

"I want to study it thoroughly myself first," he said. The claim filed Monday was not called to the attention of city officials until Tuesday. Newsmen learned of it after a "tip" brought inquiries at City Hall Tuesday afternoon.

Andrews said he regretted that a misunderstanding had arisen over the incident and pointed out

that after he had completed his investigation he would issue a full statement.

Fewell said the Corporation Courts erred in issuing a warrant for him because it was for a Chevrolet with a 1954 Texas license only one digit different from his. His car, a Pontiac with 1954 Texas license BB3017, was purchased Oct. 18, 1954, and the violation in question occurred six days before Fewell bought his car, he said. The license number of the Chevrolet was listed as BB3018.

Andrews said Fewell was arrested on 12 parking violations, not including the ticket in question. Since his arrest Fewell has

been issued five notices of violation.

The claim was filed by Lubbock attorney Tom Griffith who also filed a similar claim of another attorney, Bryan Dillard, who says he also was illegally jailed in a similar incident.

Normally, when a person appears in the City Police building, he may plead guilty and pay his fine, or he may ask for a hearing before the Corporation Court judge before whom he may make his plea. In the latter instance, a hearing date is set and the person involved is either permitted to leave on his own recognizance, in the custody of a lawyer or by making bond.

John Harding and Mildred Bettencourt Named BKFV King and Queen by Forum

John E. Harding, assistant professor of management, and Mrs. Mildred Bettencourt, instructor in education, were crowned Faculty King and Queen last night at the annual faculty talent show. They were chosen Tuesday by election

at the Union. The awards were announced by Shirley Massey, president of Forum, honorary service organization for senior women.

The show was a part of Be Kind To Faculty Week, sponsored by Forum. Appearing were Dean James G. Allen, "Reminiscing at the 85"; Dr. Per Stensland, head of Adult Education, singing ballads; Mary Jeanne Wray, Applauder, playing a piano medley; William Geisert, vocalist, accompanied by Herbert Colvin; Tom Stennis, violinist; Dr. R. R. Male, guitar and vocal numbers; Mrs. Colvin, vocalist, accompanied by her husband; a faculty combo lead by Burl Hubbard; "Kremlin Quartet" introduced by L. E. Bowling; Dr. Cline Nall, vocalist; and Servando Trevino and his marimba.

An estimated 300 persons attended the show, held at the Union.

ENGINEERS TO ELECT

The Engineering Division will elect a representative to the Student Council from 8 a. m. to 5 p. m. in the West and East Engineering Buildings Tuesday. Candidates are Bill Ray and Hugh Fewin. Results will appear in the March 3 issue of *The Toreador*.

Placement Service In Eighth Year As Job Information Channeling Office

By GLADYS PARKEY
Toreador Staff Writer

Tech Placement Service is in its eighth year as a channeling office for information to companies requesting graduates for employment, graduates looking for positions, and to school superintendents looking for teachers.

Jane Jenkins, director of the placement service, said that over 500 companies made inquiry or sent representatives here last year for graduate students. Over 125 different companies scheduled interviews with students, and many came more than once to the campus, she said.

In addition to its placement activities, the placement service also handles part-time employment and files on wives of students seeking jobs. Summer counseling jobs for women have already been filled at the office.

Roberts Is Named Soph. Vice Prexy

Dale Alan Roberts was elected vice president of the sophomore class at a special election yesterday. He is an engineering major from Fort Worth.

Others in the balloting were Jackie Claude, Spur, and Richard F. (Dick) Spencer, Midland. Both are in Arts and Sciences.

Saxophonist Sigurd Rascher To Give Concerts Tomorrow

By WAYNE LINDSEY
Toreador Staff Writer

One of the most misunderstood musical instruments will be "tamed" tomorrow at two performances in the Union Ballroom when a world famous concert artist demonstrates the uncanny flexibility of his jazz band horn. At least that's what Sigurd Rascher has a world-wide reputation for doing.

He claims to be the first man in history who can play the saxophone as its inventor Adolphe Sax intended.

Having played with organizations such as the Boston Symphony, New York Philharmonic Orchestra, Washington National Symphony and the Detroit Symphony, Rascher will spend tomorrow afternoon and evening in concert with the Texas Tech band. He has performed in cities around the world, some of which are: London, Liverpool, Paris, Sydney, Berlin, Oslo, Copenhagen and Budapest.

Critics of the New York Times have acclaimed him "First virtuoso of saxophone to stand out in front where the fiddlers and singers have stood. Make no mistake about it, Rascher is an artist." Papers in Ceylon reported "The audience rose to its feet with storms of applause."

Normal procedure has composers writing for traditional instruments, however Rascher has persuaded music writers of all nations to produce special works for him.

Tech students will be admitted free to a 45-minute program at 5 p. m. upon presentation of activity books. The 8 p. m. concert, with \$1.00 admission, will last two hours.

Tickets may be purchased at the

Music Building or at the door to the Ballroom. Rascher's appearances are being sponsored by Kappa Kappa Psi, honorary band fraternity.

Cell Block Seven Riot in Union

Only one could read music, but that didn't stop the musical riot in Cell Block Seven.

The Cell Block Seven, novelty dance band, turned loose with some jazzy numbers for the 575 people who attended their concert at the Student Union Friday night.

The seven members of the band, flavored their music with progressive jazz and "Spike Jones" antics to make it a rollicking show.

Radiation Studies Will Be Carried Out Through Tests With Rhesus Monkeys

What effect does radiation have on the human mind?

Tech psychologists are now launching a three-year research program to help establish an answer for that increasingly important question.

The study, to cost approximately \$45,000, is being financed by the United States Public Health Insti-

tute of Neurological Diseases and Blindness.

"We're principally interested in determining whether radiation will impair the individual's ability to learn and to remember," Dr. Sylvan J. Kaplan, psychology department head, explained.

Twelve Macacus Rhesus monkeys arrived on the campus this week to serve as subjects for the experiments which will be conducted by Dr. Kaplan and Dr. Kenneth McCutchan, co-director of the project.

The Macacus Rhesus, an Indian species, has a sufficiently high intellectual level to permit comparisons with humans. In addition, previous research has provided a wealth of knowledge about his anatomy and physiology.

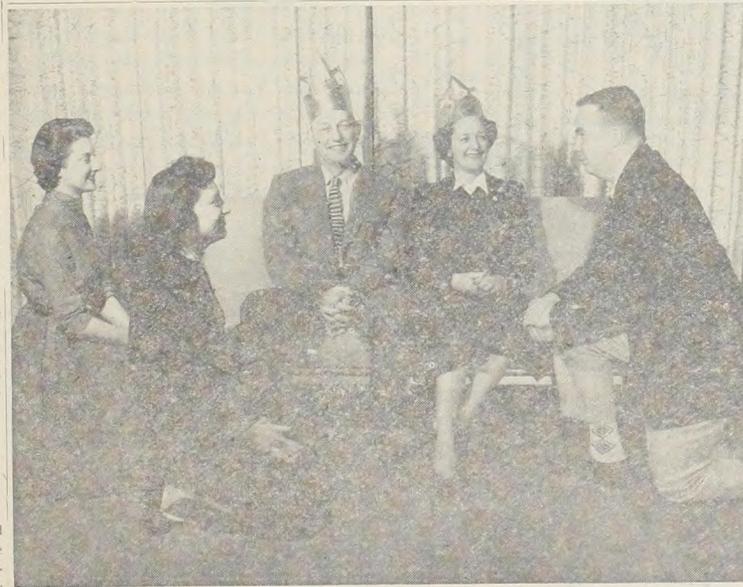

During the first year of research, Drs. Kaplan and McCutchan will establish the I. Q. of the dozen subjects through a series of learning and memorizing problems.

Since arriving on the Tech campus early last fall, Dr. McCutchan has been engaged in constructing a complicated network of passages, freedom from which will depend on the monkeys' ability to learn certain key colors and shapes.

Past experience leads the Tech psychologists to believe a curve of intelligence will be established for the monkeys not unlike that of an average classroom of humans.

Once their intelligences are determined, the monkeys will be subjected to radiation and then be re-run periodically through the mazes so that "before" and "after" measurements of their intellectual ability can be obtained.

A request has already been received from Brig. Gen. Elbert DeCoursey, director of the Armed Forces Institute of Pathology, asking that findings in the study be transmitted to Washington.

JOHN HARDING, associate professor of management, and Miss Mildred Bettencourt, instructor in education, were crowned King and Queen of the Faculty last night at the talent show climax to Be Kind to Faculty Week; sponsored by Forum. Kneeling before Their Majesties here are, left to right: Shirley Massey, Doris Ellis and Wayne Davis. The event was held at the Union. (Photo by H. A. Tuck)

News In Brief

Campus-Town Relations Lauded

"The Lubbock-Texas Tech relationship is the finest town-campus relationship I have ever seen," Dr. William E. Hall, head of the journalism and public information departments, told members at the annual District 10 meeting of the American College Public Relations Association in El Paso last weekend.

"Certainly," he asserted, "This is indicative of a sound public relations attitude on the part of our faculty."

Accompanying Dr. Hall to the conference were L. C. Walker, executive secretary of the Ex-Students Association, and William Crenshaw, director of development for the Tech Foundation, who participated in a panel on "Sources of Support and Best Appeals for Each."

Dr. Elizabeth Sasser, assistant professor of architecture, and Dr. C. D. Eaves, professor of history, will speak to groups Friday. Dr. Sasser will speak to the AATW Child Development Unit I at the Lubbock Women's Clubhouse, 10 a.m., and Dr. Eaves will address the International Relations Study Unit of the American Association of University Women at 7:30 p.m.

Heart examinations for students, faculty members and other employees of Texas Tech will be held at the Museum one day each week, according to Howard Walker, campaign chairman of the South Plains Heart Association.

"Hearts of Hearts" will be presented to Texas Tech in March by the association. The SPHA will donate several heart models to the Museum for permanent public exhibition.

The heart drive will end Saturday. Goal for the drive has been set at \$15,000.

Dr. Per Stensland, head of the adult education department discussed "Mature Citizenship Responsibilities" at the luncheon meeting of the Lubbock League of Women Voters today.

Prof. Arne Randall, head of the applied arts department, has been named an advisory editor for School Arts magazine, a leading publication in the art education field. The February issue will contain two articles by Randall, and as advisory editor he will write at least one article each month.

The March issue of Kansas Law Review will also carry an article by a Texas Tech faculty representative, with Prof. Dwayne L. Oglesby, assistant professor of business law, and State Rep. Waggoner Carr collaborating on "The Small Claims Court in Texas."

McMillan Bids \$263,527

Lubbock Firm Awarded Contract For Construction of Infirmary

The new Tech infirmary moved a step closer to reality last weekend.

Contract for construction of the Harriet and Len McClellan Memorial Infirmary on the Texas Tech campus was awarded to W. W. McMillan and Son, Friday on a low bid of \$263,527.

Three directors, composing the Building Committee, were authorized to act for the entire board following a Feb. 12 meeting during which downward revision of plans for the infirmary were ordered after initial bids exceeded estimate of the cost of the building. Their decision awarded the contract to the Lubbock firm.

Dr. E. N. Jones, president, took a telephone poll of the members of the committee Friday, including C. T. McLaughlin of Snyder, Robert B. Price of El Paso, and George E. Benson of Lubbock.

Revision of the plans for the infirmary included the elimination of air conditioning equipment and reduction of 1,100 square feet of space in the building.

Proceeds from the sale of the old McClellan home at 19th St. and College avenue, which was

donated to the college by Mrs. McClellan, will be applied to the cost of the infirmary. A promissory note to the Citizens National Bank will be increased from \$250,000 to \$300,000 to finance cost of the building and equipment.

Writing Contest Open To Aggies

Prizes of \$25 will be awarded to agronomy students at Texas Tech and other colleges for writing essays acceptable for "Crops and Soils" magazine, according to Dr. A. W. Young, head of the agronomy department.

The farm magazine is sponsoring this contest. The first place winner will receive a gold medal; second place, a sterling silver medal; and third place, a bronze medal. Three honorable mention winners will receive bronze medals. The prize money will be awarded for each essay published in the magazine regardless of placement in the contest.

Dr. Young may be consulted for further details.

SKIER LOOKING FOR LOST SKI
James U. Cronie
Colorado State College

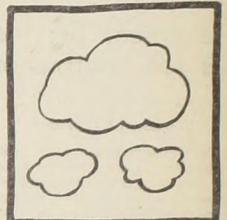

WHAT'S THIS? For solution see paragraph below.

IN THE DARK about which cigarette to smoke? Take a hint from the Droodle above, titled: Two searchlight crews, one asleep, one enjoying better-tasting Luckies. Your search is over when you light up a Lucky. You'll find out why college smokers prefer Luckies to all other brands, as shown by the latest, greatest college survey. Once again, the No. 1 reason: Luckies taste better. They taste better, first of all, because Lucky Strike means fine tobacco. Then, that tobacco is toasted to taste better. "It's Toasted"—the famous Lucky Strike process—tones up Luckies' light, good-tasting tobacco to make it taste even better . . . cleaner, fresher, smoother. So, enjoy the better-tasting cigarette . . . Lucky Strike.

Campbell; George Mallett, Charlene Willoughby; John Marse, Reita Martin; Johnny Matson, Sue Applegate; Ted Mellinger, Jane Hicks; Tommy Morris, Yvonne Worley; Bill Parks, Marilyn Coleman; Tom Parks, Charlene Williamson; Jim Ratliff, Nelda Vaughter;

Melvin Schlegel, Marilyn Abbott; Wayne Shipley, Revis Jordan; Eldon Smith, Virginia Mitchell; Bill Summers, Pat Boles; Bobby Waddle, Sharon Powers; Kenneth Whittington, Alice Ireland; Brad Wilde, Grace Boles; Ed Wilkes, Shirley Chapman; Bob Williams, Kay Lawrence; Jerry Wilson, Corinne Urbanczyk; Monte Wise, Bette Jo Starnes; Morris Womack, Patsy Lou Harris; Bruce Matson, Laura Lou Bailey; Fred Willis, Carolyn Callaway; Mr. and Mrs. Verle Downey; Mr. and Mrs. Ray Lunn; Mr. and Mrs. Ralph Sharp; Mr. and Mrs. Roddy Stargel; Mr. and Mrs. Jim Ware.

Four Fraternities Have Initiations During Past Week

Four new members and two alumni have been added to the Phi Gamma Delta roster after an initiation Sunday.

Those initiated were: Wendell Dorsett, Winters; Jerry Bob Fraley, Abilene; Jim Ratliff, Lubbock; Jerry Wilson, Knox City; Lt. J. D. Harkey, Mason; Robert Hicks, Lubbock.

Pvt. Bob Lowke, Vernon and Cadet Bob Anthony, Lubbock were initiated as alumni prior to Sunday's services.

Kappa Sigma fraternity initiated 16 new members Sunday. They are: Joe Arthur Bailey, Dallas; Joe Dan Bailey, Lubbock; Gomer Cordell Custer, Post; John Edward Eubank, Waco; Paul Gaston, Brownfield; Gary Gilliland, Rotan; Jack Grimes, Dallas; Buddy Henderson, Wichita Falls; Carl Jones, Midland; James Jones, Anton; Don McDermott, Morton; Donald McGuire, Floydada; David McWhitney, Dallas; Edwin Prest-ridge, Alvarado; Robert Richards, Lubbock; Hal Maynard Stockton, Dallas.

Phi Kappa Psi initiated four new members Sunday in the basement of the Citizens National Bank. They are: Ted Trippe, Lubbock; David Jones, Dallas; H. A. Sessions, Sundown; Thomas Holman, Lubbock.

Phi Delta Theta initiated six new members last Thursday, Feb. 17. They included Buddy Hill, Lubbock; Merle McKim, Lubbock; Bruce Weaver, Amarillo; Ross Cass, Plainview; Lynn Elliott, Houston and Bob Cox, Lubbock.

Seven Sororities Pledge 30 Girls In Spring Rush

Thirty additional women students are wearing sorority pledge pins today following the end of pledge rush Saturday. They are:

Alpha Chi Omega: Joleen Day, Cedar Hill; Judy Allen, Lamesa; Bettie Etheridge, Fabens.

Delta Gamma: Lajeane Latham, Hereford; Jean Crass, Silverton; Micky Owens, Fort Worth.

Kappa Alpha Theta: Margaret Schindler, Monahans; Carol Wagon, San Angelo; Sue Barcus, Waco; Marilyn Abbott, San Angelo; Janis Long, Plainview; Janet Reeves, Plainview.

Kappa Kappa Gamma: Barbara Sanders, Lubbock; Nancy Moore, Arlington; Lucinda Birtciel, Leveland.

Sigma Kappa: Marsha Dowdy, Lubbock; Kay Hintz, Lubbock;

Zeta Tau Alpha: Suzanne Carr, Paducah.

Delta Delta Delta: Robby Dale Davis, Kilgore; Jane Ann Whitfield, Anton; Joy Green, Houston; Clovis Watt, Saginaw; Jane Webb, DeWald, Snyder; Arleen Burkee, Abilene; Alice Wells, Fort Worth; Juanita Peters, Plainview; Darlene Sneed, Big Spring; Ann Graham, Pecos; Josephine Sloan, San Saba; Toookie Wade, Ballinger.

Two-Week Visit To "Life" Offered

A two-week all-expense visit to Life magazine and a chance to work with the photographers of that picture weekly is the top prize in the Tenth Annual College Photo contest. Co-sponsors with Kappa Alpha Mu, national photo-journalism honorary, are the National Press Photographer's Association, and the Encyclopedia Britannica.

Any person regularly enrolled in college or a university may enter the contest. There is no entry fee.

In addition to the visit to Life, seven sets of the Encyclopedia Britannica; six copies of the Britannica World Atlas, and many plaques and trophies will be awarded to winners.

For entry blanks and further information about the contest, students may see H. A. Tuck in the Public Information office in the Journalism building.

Annual Peppermint Party Held Sunday By Kappas

Peppermints were the order of the day Sunday as all sorority pledge classes were entertained by the Kappa Kappa Gamma pledge class.

The annual Peppermint Party was held at Clapp Party House with Janelle Lewis, pledge president, Huda Hassen, pledge trainer, and Mrs. Harmon Jenkins, chapter advisor, receiving the guests.

Approximately 150 people called during the afternoon.

White Rose Queen Will Be Crowned At Sigma Nu Formal Saturday Night

The White Rose Queen of Sigma Nu will be crowned at the fraternity's annual White Rose Formal Saturday night in the Lubbock Hotel. Queen Candidates are Deanie Edwards, Revis Gilbert, Joyce Booher, White Rose princesses. She will reign over Sigma Nu functions until another queen is selected to take her place next year.

Members and dates for the dance include: Bill Cromer, Nina Smith; Eddie Reincero, Janet Evans; Douglas Perkins, Jackye Hill; Harold McCollum, Charlene Tatum; Eddie Martin, Ann Davidson; Jimmy Strawn; Meryl Sparks; Bruce Campbell, Joy Green; Floyd Jensen, Kay Steele; Bob Waheed, Deanie Edwards; Bill Velvin, Revis Gilbert;

Breakfast Is Held By Phi Gamma Nu

Phi Gamma Nu, honorary business administration fraternity for women, commemorated Founders Day Thursday, Feb. 17, in the Student Union, with a breakfast on the birthday of the sorority, which was founded Feb. 17, 1834.

Members present were: Nita Haseloff, Mary Jane Anderson, Betty Nelson, Nancy Roberts, Betty Pitzer, Beverly Powell, Molly Morrison, Christine Foster, Carol Crouch, Joanne Holmes, Peggy Golden, Gena Speer, Betty Amburgey, Pat Brownlow, Lee Turner, and Jo Nell West. The sponsors, Miss Nelda Snow and Mrs. Isabelle Gillenwater, also attended.

President Pat Brownlow welcomed members and introduced the new secretary, Lee Turner.

Pledge Paddle Presented To Delta Gamma Actives

A paddle inscribed with the pledge class roll was presented to the actives of Delta Gamma Sorority Sunday at a come-as-you-are breakfast in the home of Sandra Stone.

Delta Gamma also held a pledge service Wednesday night for Lajeane Latham, Hereford; Jean Crass, Silverton; and Micky Owens, Fort Worth.

ABA Musicians Invite Tech Band

Prof. D. O. Wiley, director of the Tech band, announced today that the Tech band is one of two in the nation to be invited to the American Bandsman Association's convention next year in Santa Fe, N.M.

The convention will be held March 7-10. The other band invited to the convention is the United States Air Force band of Washington, D.C. The University of Michigan band played at last year's convention.

The American Bandsman Association is the leading organization of its kind in the U.S. The association has only 100 members.

Prof. Wiley is one of 11 members from Texas. Membership is limited to invitational bids and a years screening by the members.

Thetas Initiate 21 New Members

The initiation of 21 new Kappa Alpha Theta members was held Saturday afternoon at the First Presbyterian Church, according to Kay Lynn Watson, president of the sorority.

Those initiated were: Margaret Ammer, Monahans; Arlette Arnett, Lubbock; Bobbie Blocker, Lubbock; Mary Jo Cappleman, LaMarque; Marilyn Chesher, Lubbock; Barbara Cowherd, Dallas; Theora Calverley, Garden City; Carol Crisler, Lubbock; Ann Davidson, Wichita Falls; Betty Fortune, Colorado City;

Gerry Hancock, Dallas; Pat Henderson, Coleman; Jerri Hills, Abilene; Ann Hogg, Monahans; Kay Morrison, Burkburnett; Sandra Myers, Lockney; Ann Rathjen, Canadian; Annette Reed, Dallas; Joan Ross, Fort Worth; Sue Ann Hunt Sexton, Lubbock; and Barbara Ware, Midland.

Frat Serenades 'Gardenia' Girl

Carole Ann Loop, Midland freshman, was serenaded by members of Pi Kappa Alpha fraternity Wednesday night after her selection as "Gardenia Girl" for February.

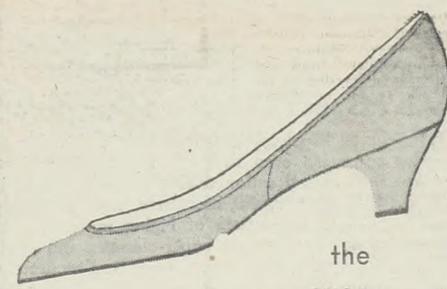

Sunday found the PIKA's initiating 13 new members. Ceremonies were held in the Flame Room of the Pioneer Gas Co.

New members are: Kenneth Thomas, Lubbock; James Fox and Calvin Mitts, Gruver; Ralph Yarbrough, Odessa; Jess West, Plainview; Aubrey Payne and Elmer Wells, Ralls; Kenneth Bennett, Van Horn; Euel Ray Hill, Lamesa; Leo Hatfield, Midland; Theodore DeKanter, San Antonio; Glenn Slay, McAllen; David Pennington, Post.

'Don't Die, Boys, the Poor Devils Are Cheering!' Cry Angry Writers in Letters to the Editor Column

(This column exists for the purpose of providing a means of student expression. Letters must be signed, however, even when the author wishes his name withheld, and should be turned in by Tuesday afternoon. The editor reserves the right to cut the length of any letter.)

Dear Editor: Of all the letters that have appeared in the Letters to the Editor section of The Toreador, I believe the one printed last week was definitely ill-advised, shortsighted and in poor taste . . .

I am bitterly opposed to the contention voiced in last week's letter that the solution to getting good cheerleaders is to elect them all. Such a contention infers that our present cheerleaders are incompetent because we didn't put them all to a vote. Personally I don't care how we acquire cheerleaders, so long as whoever we get in the future is capable, in some small way, of equalling the job being done by our present group . . .

Appointed or elected, I doubt if a finer group of school-spirited people exist upon this campus!

Chuck Luling P.S. The following poem is dedicated to last week's anonymous Rudyard Kipling.

MAYBE (More Sarcasm) Maybe if I had been a cheerleader at the Tech-West Texas game,

Maybe I would have wondered how come all the students came,

Maybe I thought, "I'm dreaming. All these people here!"

Maybe I thought, "After all these months of effort, A new school spirit is near."

Maybe I thought of all the times I'd hollered, screamed and yelled,

Maybe I thought of all the response that had told me to go (to a place I'll never tell),

And now that the game is over I realize 'tis true,

That those who come real early Leave real early too. And those that thought the cheering Should get a little hotter, Were the very ones who left Before we sang the Alma Mater.

Editor's note: After being besieged with poetry for the past few weeks, we are wondering why more entries are not being received for the Sigma Tau Delta creative writing contest. Is it true when people stew they often do a poem or two? And can it be that students see the potency of poetry?

Dear Editor: What's all this business about Tech having no school spirit? I think someone needs to look again at Tech campus and this time go a little deeper than "who yells the loudest, us or them?" or "who's got the biggest bonfire?" or "our yell leaders jump higher and do more flips!"

Bonfires, pep rallies and yell leaders are great but they are not the ultimate in school spirit. All you have to do is look at the great number of people working for a bigger and better Texas Tech and you will see a spirit which goes far deeper than the enthusiasm of a pep rally. Look at your Union program: it's grown from nothing to a leader in union circles in three years because of hard work and never ceasing effort on the part of its workers. Look at your aggie judging teams, the Engineering Show, speech plays and organizations sponsoring such things as Be Kind to Faculty Week, Religious Emphasis Week and many others.

This is school spirit. It is not a loud spirit, nor boisterous, but it works all the time, not just Saturday afternoon or Friday night. We can improve our spirit, sure, but not by running our cheerleaders down. We can pull for a better Texas Tech, but lets pull in the same direction, not

one saying "it's the Student Council's fault," another "it's the Saddle Tramps" and another "it's the students' fault." Let's realize improvements are needed in all departments and start working for these improvements.

Jack Pruitt Dear Editor: There seem to be a few persons on the campus who would like to place the blame on the cheerleaders for the lack of pep shown at the basketball games, or maybe for their own inadequacies. The latter is suggested when one recalls that the writer's name was withheld from his masterpiece. It would also seem logical that the person could not be a campus leader and not know that Tech has only five cheerleaders and not six.

My time has been wasted if the writer of the article that appeared in this column last week only wanted to "put a monkey on a man's back." It seems that if he were sincerely interested in the school, he could find a better means of help which would not consist of running the campus leaders down.

Your interest is commendable, but your methods are not so hot. Sincerely, Andy Edmondson

Dear Editor: In regards to the letter to the Editor in last week's Toreador, concerning the failure of the cheerleaders to perform as much as some (very few I imagine) thought they should at the West Texas basketball game, I would like to say that if most people on this campus had tried to build school spirit as much as our cheerleaders have this year—to have their efforts fall flat—I imagine they would have already given the job to someone else.

The lack of school spirit on this campus is certainly not the cheerleaders' fault this year. I think that our cheerleaders have fought a great fight in a losing battle for more school spirit. School spirit is the individual's responsibility and honor—it seems to me.

Concerning the paragraph of the letter to the editor last week that suggested the election of five cheerleaders (instead of two and the appointment of three), it is my opinion that the election of five cheerleaders would produce "too many chiefs and not enough Indians." The cheerleaders must be a well organized and closely knit organization . . . five head cheerleaders with five different organizational plans would be impossible to coordinate.

This is not (I quote) "A Sarcasm." Name gladly submitted, Jerry B. Johnson, A&S Representative to The Student Council

Dear Editor: I couldn't help but be a little amused when I read the letter to you entitled "If . . . A Sarcasm." I think the author selected an excellent subject when he wrote on school spirit, which is something that many students at Tech are deeply concerned about. But I don't know of any students that are any more concerned about it than our cheerleaders.

Evidently the author of the "poem" has a very short memory or hasn't bothered to attend some of the earlier games this year or the football pep rallies. I don't believe that anyone could say that it was the cheerleaders' fault for the lack of interest then.

I agree that WE need to work on school spirit, but to unjustly criticize our cheerleaders because at one game they didn't perform just right to suit an individual who wouldn't even let his or her name be printed, is a very, very poor start!

Instead of criticizing the people who are trying to improve school spirit, why not try a more positive approach—such as working with the students who don't even try to attend the games?

Carl Kennedy

Students Debate Negro Admittance

"Resolved: That Texas Tech Should Open Its Doors to Negroes."

This proposition was supported by 59 per cent of the audience after two hours of Oxford-style debate at the Student Union Building last week.

Arguing in favor of the admission of Negroes were Donnie Dean, Student Council member, and Dr. J. W. Davis, head of the government department. The negative side of the issue was argued by Glenn Rainer, president of the Student Council, and Warlick Carr, Lubbock attorney.

Rainer and Carr gained support from 36 per cent of the audience, and five per cent were still undecided at the conclusion.

A poll of audience opinion was taken before and after the debate.

Net results of the debate were a total of 138 more votes at the end of the debate as compared with 149 undecided at the beginning. Persons polled after the debate were 254, only eleven of which expressed no opinion. Approximately 375 persons attended.

Only Washington Statue In State Dedicated at UT

The University of Texas today can boast possession of the only public statue of George Washington in the state.

After a 31-year campaign started by the late Mrs. Thomas S. Maxey of Austin, the Daughters of the American Revolution dedicated a Washington statue on the University of Texas campus, last Sunday.

THE CARE AND FEEDING OF BOOKS

You busy college people—you with your classes and your studying and your social activities and your three-legged races—it is no wonder that you have so little time for reading. I mean reading for the pure pleasure of it, not to cram for exams. It is a sad omission, and my heart goes out to you. I do, however, take comfort from the fact that the graduation season approaches. Many of you will soon leave the hurly-burly of college for the tranquility of the outside world. Oh, you'll love it on the outside! It is a quiet life, a gracious and contemplative life, a life of ease and relaxation, of plenty of time to enjoy the treasures of literature.

It is with you in mind that I sit now in my cane-bottomed rocker and close my kindly gray eyes and smoke a mellow Philip Morris cigarette and remember books that made me laugh and books that made me cry and, remembering, laugh and cry again. It is, I say, with you in mind that I sit thus and rock thus and close my kindly gray eyes and smoke a Philip Morris thus and laugh and cry thus, for I wish to recommend these lovely and affecting books to you so that you too may someday sit in your cane-bottomed rockers and close your kindly gray eyes and smoke a mellow Philip Morris and remember books that made you laugh and books that made you cry and, remembering, laugh and cry again.

Sitting and rocking, my limpid brown eyes closed in reverie, a plume of white smoke curling lazily upward from my excellent Philip Morris cigarette, I remember a lovely and affecting book called *Blood on the Grits* by that most talented young Southerner, Richard Membrane Haw. It is a tender and poignant story of a sensitive Alabama boy who passes safely through puberty only to be devoured by boll weevils . . . A lovely and affecting book.

I puff my splendid Philip Morris cigarette and close my dancing blue eyes and recall another book, a thrilling true adventure, lovely and affecting, called *I Climbed Everest the Hard Way* by Cliff Sherpa. Mr. Sherpa, as everyone knows, was the first man to reach the peak of Mt. Everest by tunneling from below. In his book he gives a lovely and affecting account of his trip, which was not as easy as it sounds, you may be sure.

I light another merry Philip Morris cigarette and close my lambent hazel eyes and recollect another book—*Life on the Farm* by Dick Woolly. This is a short book—only 55 words—and rather a dull one. It would not be worth mentioning here were it not for the fact that the author is a sheep.

I exhale a cloud of snowy white smoke from my bracing Philip Morris cigarette and shut my laughing green eyes and think of the vast, vast array of historical novels that have given me pleasure.

There is *Blood on the Visor* by Richard Membrane Haw (he who wrote the lovely and affecting *Blood on the Grits*). There is *Cold Steel and Hot Flashes* by Emmaline Prentiss Moulting. There is *The Black Shield of Sigafos* by Wruth Wright. There is *Four Quarts in a Galloon* by William Makepeace Clambroth. There are many, many others, all lovely, all affecting.

But sitting here, drawing on my matchless Philip Morris cigarette, my saucy amber eyes closed tightly, I am thinking that the loveliest, most affecting of all historical novels is May Fuster's classic, *I Was a Serf for the F.B.I.* Mrs. Fuster, justly famed for her rich historical tapestries, has outdone herself in this tempestuous romance of Angela Bodice, fiery daughter of an entailed fief, who after a great struggle rises to the lofty position of head-linesman to the Emperor of Bosnia and then throws it all away to lead the downtrodden peasants in a revolt against the mackerel tax. She later becomes Ferdinand Magellan.

But the list of fine books is endless, as you will soon discover who are about to leave the turmoil of the campus and enter into the serene world outside, where a man has time to read and rock and close his rakish taupe eyes and smoke good Philip Morris cigarettes.

The makers of Philip Morris, who bring you this column, tell you that in our book, PHILIP MORRIS is the mildest, tastiest cigarette anybody ever made.

AN EDITORIAL

It Ain't Gonna Got You a Sheepskin

It might be hopelessly old-fashioned in this day of progressive education even to think about this subject, but maybe such radical action as that taken by the University of Tennessee could be wisely and profitably emulated by Texas' institutions of higher learning. For Tennessee has no monopoly on upper-classmen and graduates who cannot express a thought clearly and accurately.

The Jackson Clarion-Ledger carried this report from Knoxville:

"The University of Tennessee, alarmed over complaints that college graduates can't speak or write grammatically, has started a tough new program to make its students pay more attention to their English.

"If two or more of a student's professors feel he is deficient in grammar, the student is required to brush up on his English in a special non-credit course."

Perhaps such a plan might enable students to make better grades in all their subjects and protect them from failure after graduation.

—Willie Turner

Habeeb To Discuss Palestine Tonight

Kareem Habeeb, junior engineer student, will speak on his native country, Palestine, tonight at 7 p.m. as the Union presents another World Traveler program in the ballroom. Coffee will be served.

The Dunbar Combo will provide music for the Sox Hop dance Saturday night at 8:30 in the ballroom. Sponsored by the Friday Night Dance Committee, the dance will feature a jitterbug contest during the intermission. Prizes will be awarded and judges will be from local dance studios.

"The Day the Earth Stood Still" starring Patricia Neal and Michael Rennie will be shown in the ballroom Monday at 7 p.m.

Tuesday will feature the Apple Polish Hour from 3:15 to 4:30 p.m.; a square dance at 7:30 p.m. in the ballroom; the duplicate bridge tournament; and girls billiards, both at 7 p.m. in the game area.

The Union will initiate its bi-monthly record dance at 7 p.m. Tuesday. These night dances and the Wednesday afternoon dances are held in the Union basement. The Record Dance Committee has placed footsteps on the Union floor to lead students to the basement which the committee has dubbed "The Hole."

Ways and means of improving The Toreador and coping with its current problems were discussed at Coffee: Grounds for Discussion Sunday afternoon in the Union. Jack Gibson, Lubbock sophomore, lead a group of 15 persons as they offered possible solutions: It was the general feeling of the group that the foremost problem was the lack of funds. Subscription rates and more money from the student activity fee were voiced as possible means of raising funds.

Potential Pledges Selected by Club

Scabbard and Blade tapped 20 prospective members this afternoon. The annual offer of membership, limited to 20, was made by calling potential pledges from the ranks during ROTC drill.

Among those honored were: Engineers: Howard L. Thomas, Bill Echols, Hugh Fewin, Charles D. Brooks, John W. Buswell, Paul J. Gaston and Verle Downey; Infantry Division: J. M. Higdon, Jimmy E. Ware and James D. Daniel; Signal Corps: Richard Snyder and Joe Bennett; Air Force ROTC: Dwayne West, Robert Keith and Joe Teal.

The potential pledges were selected at the regular business meeting in the Student Union Building Monday night.

Scabbard and Blade plans to designate the annual ROTC Field Day as the "Phil McGee Memorial Field Day" in honor of a former member who was killed in an auto accident between semesters.

Final arrangements were made for the Military Ball which is to be held March 12, in the Student Union.

What young people are doing at General Electric

Young specialist in community relations makes friends in 101 plant cities

General Electric now has 131 plants in 101 cities, and one problem is common to all: How can the company show people in every community that it is a good neighbor?

This responsibility is shared by many and stimulated by 32-year-old John T. McCarty. His job: Consultant, Program Services in Plant Community Relations.

McCarty's work is varied, exciting

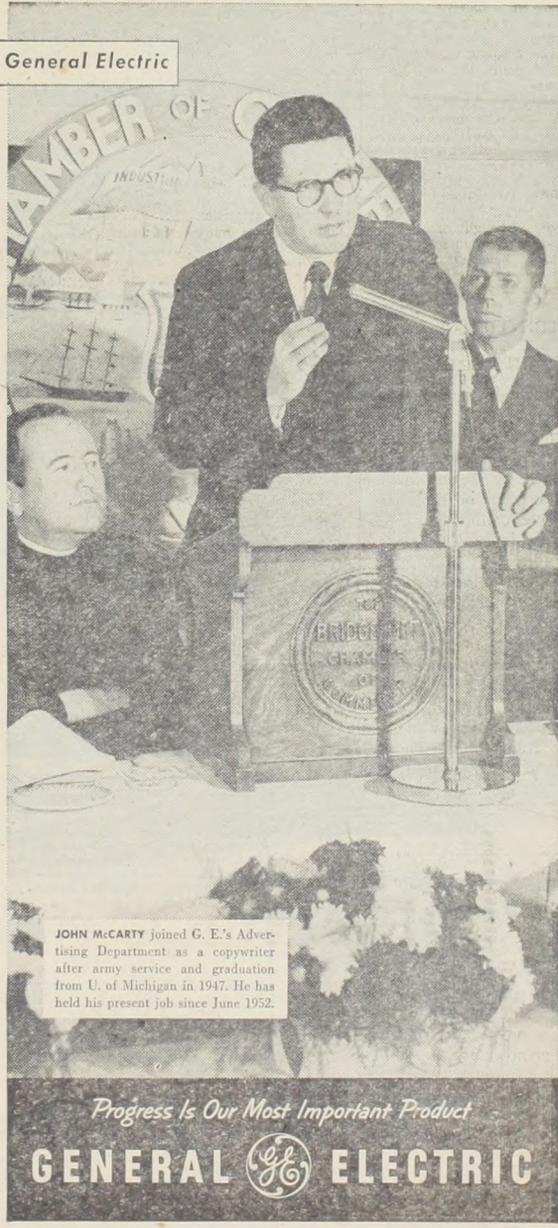

McCarty's assignment is to help each of the General Electric plants tell its neighbors what it is doing, what it hopes to do, and how it fits into the community.

He must be ready to travel to 26 states. He prepares community-relations manuals for use in all 101 plant cities. He supervises surveys of community sentiment, and tests the local effects of the company's advertising. And he helps plant management maintain friendly contacts with civic, religious, educational and other community leaders.

23,000 college graduates at General Electric

This is a sensitive and important job. McCarty was readied for it in a careful step-by-step program of development. Like McCarty, each of the 23,000 college-graduate employees is given his chance to grow, to find the work he does best, and to realize his full potential. For General Electric has long believed this: When fresh young minds are given freedom to make progress, everybody benefits — the individual, the company, and the country.

JOHN McCARTY joined G. E.'s Advertising Department as a copywriter after army service and graduation from U. of Michigan in 1947. He has held his present job since June 1952.

Progress Is Our Most Important Product

Industrial Firms Set Interviews

Job placement interviews for 1955 Tech graduates have been scheduled next week by several major industrial concerns, it was announced today by the College Placement Service.

Interview sessions will open Monday with the Magnolia Petroleum Co. interviewing chemical, mechanical and petroleum engineering majors.

The Western Co., Midland, Tuesday, March 1, will interview 1955 graduates in chemical, civil, electrical, mechanical, and Petroleum engineering and majors in petroleum geology, physics, and mathematics. Also Tuesday the Texas Electric Service Co. will interview graduates in electrical, engineering, industrial engineering, mechanical engineering, accounting and finance.

Senior and graduate students majoring in chemical and mechanical engineering and chemistry are eligible to attend interview sessions Wednesday, March 2, with the American Potash and Chemical Corp. and Continental Oil.

Doow Chemical and the Shell Oil Co. have scheduled interviews with chemistry and chemical engineering students and accounting and secretarial administration majors Thursday, March 3.

White Will Reign On Women's Day

Get your white clothes ready girls! Tech coeds are being honored on Women's Day, May 3, and all coeds will wear white.

Plans for the Day are now under way by chairman and co-chairman Jimmie Faye Maxwell and Sally Wood. Women's Day will be sponsored by the Association of Women Students.

AWS is sponsoring a panel on "AWS on Tech Campus." Participants on the panels are Iris Brunson; President, Jane Hampton; Vice President, Doris Wampler; Reporter, and Dottie Sue Hartschell and Ruth Ann Cummings, AWS representatives.

The panel discussion was presented in Drane Hall Tuesday in an all-dorm meeting. It will be given in Knapp and Horn Halls today. Dean Hall attended the Drane Hall meeting.

Band Fraternity Initiates Fifteen in Music Building

Alpha Omicron Chapter of Kappa Kappa Psi, honorary band fraternity, staged a pledge initiation last Thursday night at the music building.

The fifteen initiates were: Scott Couch, Jimmy Whitacre, Willis Powers, J. B. Baccus, Kenneth Briden, Bill Pittman, Kenneth Tompleton, Frank Washburn, Leroy Kunetka, Jimmy Snell, Bob Sewell, Wayne Lindsey, Sammy Allred, Lonnie Peek, and John Alford.

German Club Interviewed On TV "Hospitality Time"

TV viewers of Jim Black's "Hospitality Time" over KCBT last Friday saw Black interview members of the German Club tonight committee about their adoption of a kindergarten in West Berlin, Germany.

Ted Alexander, club sponsor, gave the video audience a history of the project. Donations of local merchants to the toylike drive also were presented on the program.

Committee members appearing were: Jeanette Reames and Mary Brice, clothing collections; Boone Brackett, collections and acknowledgements; Bobby McCarty, mailing, and Mr. Alexander.

Tech Choir's Annual Spring Tour Includes Program for Legislature

The Tech Choir, directed by Dr. Gene Hemmle, has been invited by a resolution of the Texas Legislature to sing in the House of Representatives April 18 as part of their annual spring tour. Jim Lindsey, speaker of the House, sent each choir member a personally signed copy of the resolution earlier this week.

Although all arrangements for the choir's tour have not been completed, according to Dr. Hemmle, head of the music department, the dates have been set

as April 17-20, inclusive. The choral group will sing in an Austin church Sunday, April 17. Students of McCallum High in Austin will hear the group April 18.

Kerrville will be the next stop on the tour where the choir will give an evening concert. They will sing for students of Kerrville High School April 19, and will present an assembly program at Junction High School the same day.

Concerts in San Angelo and Abilene are hoped to be scheduled for the tour, said Hemmle.

"Dress" Pruett wants to know:

What type of training program does Du Pont have?

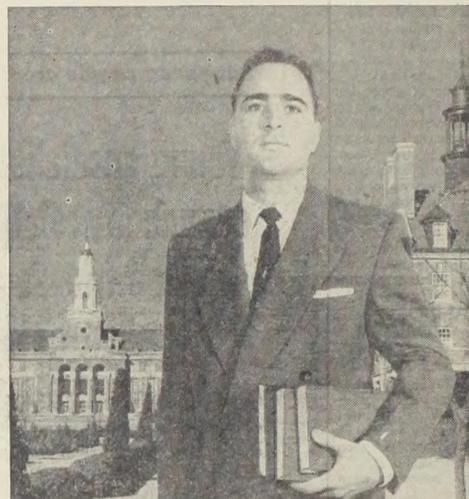

DONALD C. MILLER received his B.S. in Chemical Engineering from Ohio State University in June 1937. During the following month he started work with the Organic Chemicals Department of Du Pont at Deepwater Point, N. J. Since then he has received and given many kinds of technical training. Today Don Miller is a general superintendent at Du Pont's Chambers Works—well qualified to answer questions about training programs for college men.

NOW AVAILABLE for student ASME chapters and other college groups, a 16-mm. sound-color movie—"Mechanical Engineering at Du Pont." For further information write to E. I. du Pont de Nemours & Co. (Inc.), 2521 Nemours Bldg., Wilmington 98, Delaware.

WATCH "CAVALCADE OF AMERICA" ON TELEVISION

DRESSLAR M. PRUETT expects to receive his B.S. in Industrial Engineering this summer from Oklahoma Agricultural and Mechanical College at Stillwater, Okla. He is president of the local student branch of A.I.E.E. Naturally, he is interested in selecting the best job opportunity for a successful career based on his technical training.

Don Miller answers:

Training has many facets in a big firm like Du Pont, Dress, and a great deal of thought has been given to make it truly effective. We look upon training as a very important factor in a man's career. We think that the best way to train a college graduate is to give him a maximum of on-the-job responsibility in a minimum length of time. That's the general guiding policy at Du Pont, Dress.

Of course, each department varies this general policy to suit its special needs. A new man being trained for production supervision may first spend a year or so in laboratory or plant development work. Or he may spend his training period as a plant operator. Thus a man obtains firsthand knowledge of his process, and establishes a bond of mutual respect with the men he'll be working with on his first major assignment.

A young man interested in sales is often first assigned to a plant or laboratory dealing with the products he will later sell; or he may join a group of trainees to learn selling techniques right from the start.

An engineer, chemist, or other technical graduate is usually chosen for a specific job within his major field of study. Such a man brings specialized knowledge and skill to his job, and he is encouraged to put them to use promptly. But at Du Pont his experiences on the job are supplemented with lectures, conferences and discussion groups. In a very real sense, new technical employees continue training in their specialties after joining the Company.

To sum it all up, Dress, Du Pont's training program is individualized to provide a new man with specific opportunities to learn from contacts with more experienced men. The prime objective of Du Pont training is always kept clearly in mind—to develop men for future advancement and effectiveness in the organization.

Tech Clings to Lead, Needs Three Wins To Clinch Second Consecutive BC Title

★ ★ ★ ★ ★

Red Raiders Defeat Arizona U., 68-63 Before Losing to Arizona State, 77-75

Texas Tech's Red Raider basketball squad, after a week's layoff, will play their last home game of the season Monday night in the Tech Gym when it tackles dangerous Hardin-Simmons University, one of three showdown battles next week.

Coach Polk Robison's quintet must beat the Cowboys, New Mexico A&M at State College, N.M., Friday night, and Texas Western at El Paso Saturday night to win the Border Conference championship outright and a berth in the NCAA Basketball Tournament.

The Matadors missed a shot at, virtually cinching their second consecutive conference championship last Saturday night when Arizona State upset them, 77-75, in an overtime thriller at Tempe. The Raiders had just whipped tough Arizona on the Wildcat floor Friday night, 68-63.

Buffets Lose, Too

Texas Western had pulled a similar upset when the Miners knocked off the second place West Texas Buffaloes, 78-76, at El Paso.

However, as things turned out, Tech still roosts in top spot in the conference with a 7-2 won-lost record against West Texas' 8-3 mark.

Against the Wildcats, Carl Ince and Jim Reed shared scoring laurels with 24 points apiece. The Raiders jumped into an 8-0 lead at the beginning of the game and were never headed. Tech held a halftime lead of 37-23. Closest Arizona came was three points early in the tussle.

Gene Carpenter with 12 points and DuWayne Blackshear with 8 rounded out the Tech scoring. Altogether, the Red Raiders meshed 41 per cent of their shots. Arizona hit 40 per cent.

Graybill Is Spoiler

Arizona State's Dave Graybill, a hot-shot sophomore, was the spoiler the following night when he sank a 25-foot jump shot with less than 15 seconds remaining in the overtime to ice the game. The Sun Devils' Jim Perkins hit a clutch fielder to send the game into overtime.

Tech was cold from the field while the Sun Devils hit over 50 per cent of their field attempts.

Forensic Members to Aid High School Speech Meet

Texas Tech Forensic Union members and members of Delta Sigma Rho, national honorary fraternity, will help with the West Texas High School Speech meet, Feb. 26, in Aggie Auditorium.

The meet will be governed by the basic rules of the Texas Interscholastic League, with awards being presented to first and second place winners.

The tentative schedule is: Debates, 11, 1:15, 2:30, and 3:45. Extemporaneous speaking and Declaration begin at 9. A luncheon is scheduled for 12:15.

Vets, Sneed Win Tourney Openers

Tech Vets and Sneed Hall advanced into the semi-finals of the All-College tournament last night with convincing wins over Gordon Hall and the Nameless Wonders respectively.

A tight defense coupled with Gordon's inability to hit from out front helped the Vets smash the Gordonites 56-34. The Vets did not allow Gordon to score from the floor in running up a 27-18 halftime score. All Gordon points came from the free throw line.

Jack Davis led game scorers meshing 24 points for the Vets. He was aided by Walter Johnson with 12 and Wayne DeVaney who snared 10.

Barrett Led Gordon with 13 followed by Meeks with 10.

Sneed Hall roared from a 17-13 halftime deficit to club the Nameless Wonders 48-32. Sneed took a first quarter lead only to have the Wonders pile up a four point lead at the intermission. Then they began to pull away. With Swindle hitting 24 points from the pivot position, Sneed held a 27-22 margin at the end of the third quarter. Waddle contributed 10 to the final score.

High man for the Wonders was Bates who meshed 13. He was followed by Wilson with nine.

Tonight's schedule shows Phi Delta Theta meeting the Hornets at 7 p.m. The winner will meet the Vets Sunday at 2 p.m. in a semi-final clash. At 8 p.m. Klu Klux Klan takes on Phi Gamma

CARL INCE, named to the second team of the United Press "Small American" basketball team. The team is made up of players not more than 5' 10" tall.

Sports in General

Four Raiders Sign Pro Contracts

Four Raider football lettermen have signed contracts to play pro football.

Walter "JoJo" Bryan of Olney, Claude Harland, of Texarkana, Dean White of Lubbock and Jerry Johnson of Hale Center have all affixed their signatures to contracts.

Bryan, a starting halfback, has signed with the Baltimore Colts, while Harland, a starting end, has signed with the Los Angeles Rams.

Johnson, quarterback and co-captain last fall, and White, starting end, have signed with the Edmonton Eskimos of the Canadian Football League.

Texas Christian University has signed a contract to play Tech in Jones Stadium Nov. 10, 1956. It will make two appearances in a row for the Frogs on the South Plains, as they are already scheduled this fall in Lubbock.

The champions of the Border Conference will have their work cut out for them in the NCAA playoffs. San Francisco, currently the number one team in the nation, will be the winner's opponent in regional play.

Other teams chosen for the NCAA are Canisius, Penn State, Marquette and Villanova—all at-

Delta with the winner meeting Sneed at 3 p.m. Sunday in the other semi-final clash.

The eight-team tourney will close Tuesday at 7 p.m. with the winner being named All-College champion.

Phi Gams won the Fraternity league followed by the Phi Deltas. Sneed topped the Dorm league with Gordon second. The Wonders came in first in the Independent league, KKK was second, Vets third and the Hornets won consolation.

large teams. Four more at-large representatives will be chosen to compete with the fifteen major conference winners for the championship.

Only major conference winner to be certified thus far is Idaho State, who clinched its conference crown last week.

The Lubbock Amateur Athletic Association has changed the name of the South Plains Relays to the Red Raider Relays. The Relays, to be held April 29 and 30 on the new Tech cinder track, will be by invitation. Only regional winners will be invited.

Holy Cross has accepted a bid to return to the National Invitational Tournament as defending champion. Other teams named for the tourney, to be played March 12-19, are Duquesne, Dayton, Cincinnati, Louisville, Manhattan, Niagara and St. Francis of Pennsylvania.

The four remaining berths are expected to be filled soon. Under consideration are West Texas State and Tech. The NIT will have to be content with the runner-up of the conference, as the winner of the loop automatically qualifies for the NCAA.

ASME MEETING

A special meeting of the American Society of Mechanical Engineers will be held at 8:30 p.m. Monday in East Engineering Rm. 1.

Purpose of the meeting is to discuss plans for the ASME convention April 29 and 30 at the University of New Mexico.

DELTA SIGMA PI

Sixteen new members were initiated into Delta Sigma Pi, national honorary business fraternity, Thursday night, Feb. 17. The initiation was held at Lubbock Auto Co.

Applications For Deferment Tests To End March 7

Applications for the draft college qualifications test to be given in April, must be postmarked no later than midnight, March 7, according to Brig. Gen. Paul L. Wakefield, state Selective Service director.

Students may mail applications for the test to Science Research Associates, Chicago, Ill., in self-addressed envelopes which may be obtained at local boards.

To be eligible to apply for the Selective Service tests, a student must: (1) intend to request deferment as a student, (2) be satisfactorily pursuing a full-time course of instruction and (3) must not previously have taken the qualification test.

Present criteria for deferment as an undergraduate student are either a satisfactory score, 70 or better, on the test, or specified rank among the male members of the class, that is, upper half of freshman class, upper two-thirds of sophomore class, or upper three-fourths of junior class.

Panel Discussion Slated At Baptist Student Center

'Christianity and Race Relations' will be the topic of a panel discussion Saturday night at the Baptist Student Center. Leading the panel will be Dr. Foy Valentine, director of the Christian Life Commission of the Baptist General Convention of Texas.

Panel members will include representatives of the Negro and Oriental students in America.

Dr. Valentine, who received his doctorate in the field of social ethics, will speak at a chili supper at 6:00 p.m. on the principles of Christian ethics. The panel discussion will begin at 7:15.

This will be the first of a series titled 'Christianity and Current Issues.' Each month authorities in the fields of economics, politics, science and other fields of current interest will lead sessions.

Plans For Annual Student Board Retreat To Be Discussed March 5

Plans for the three-day retreat training program for representatives of Tech campus organizations will be discussed March 5 at the meeting of the Board of Student Organizations.

Date for the luncheon was set last Saturday at an organizational workshop attended by 66 students representing 26 of the 130 eligible groups.

The retreat has been slated for April 1-3 in Cloudford, N.M.

Judge Robert J. Allen of the Lubbock County Court-at-Law was the principal speaker at last week's opening noon session.

The afternoon program included a series of group discussions.

Subjects, speakers, and student leaders included: records, Dr. Robert L. Rouse, Gwen Williams; publicity, Carroll Sibert, Ann Collins; membership, Dick West.

Future Farmers to Hold Annual Steak-Fry May 7

The annual Steak-fry for Tech collegiate chapter of Future Farmers of America will be held May 7, at the Mackenzie Bar-B-Q Pit.

Officers for the spring semester were elected Monday. They are: James Barr, president, Junction; Bill Jackson, vice president, Breckenridge; Richard Ridgway, reporter, Brownfield; Tim Mason, secretary, Abilene; Charles Cunningham, treasurer, Garden City; and A. P. Denton, sentinel, Burk Burnett.

Glenn Rainer; program, Dean J. B. Whitehead, Melvin Deardorff.

Mrs. Harry F. Godeke, wife of Harry F. Godeke, professor of mechanical engineering discussed parliamentary procedure.

Concluding activities was a banquet with the Rev. Dudley Strain, pastor of the First Christian Church of Lubbock, guest speaker.

Writing Entries Are Due Tuesday

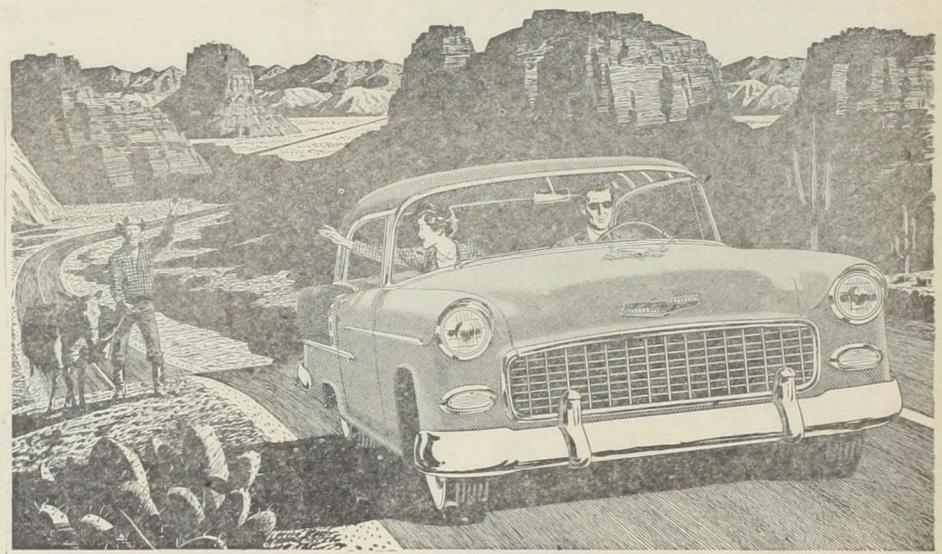

Less than a week remains in which to enter Sigma Tau Delta's creative writing contest, David Rackley, president of the honorary English fraternity, reminded students today.

Tuesday is the deadline for entering manuscripts, Rackley says. The contest is open to undergraduate students of Tech, and consists of three divisions: short story, poetry and essay. A prize of \$10 will be given the winner of each division.

Entries should be typed double-space on regular typing paper. Name of the entrant should not appear on the entry, but should be on a separate sheet with the title. Short stories are limited to 4,500 words, and essays to 2,500. Poetry may be of any length.

Several entries in each division have already been received, says Rackley. Manuscripts may be turned in at The Toreador office.

The beautiful Bel Air Sport Coupe with Body by Fisher

It's highway robbery!

For sheer fun out on the road, Chevrolet's stealing the thunder from the high-priced cars!

new 162-h.p. "Turbo-Fire V8" delivers? (For those who do, 180-h.p. is optional at extra cost in all V8 models.) Chevrolet also offers the two highest powered sixes in its field.

Come in and see how the Motoramic Chevrolet is stealing the thunder from the high-priced cars!

Up to this year, maybe there were reasons for wanting one of the higher-priced cars. If you demanded something really special in the way of driving fun, you simply had to pay a premium to get it.

Not any more! The Motoramic Chevrolet has changed all that. Who could wish for more excitement than the
