'Better Than Ever,' States Mason; New 'Kiss-O-Meter' Will Be Featured

By ROSS SHORT
Foreador Staff Writer

How cool are your kisses? The electrical engineers are prepared to answer that question for you and your date to the 23rd Annual Tech Engineering Show tomorrow and Saturday. The gimmick is a little booth for two called a "kiss-o-meter" designed especially to classify kisses as "cool, warm or WOW!"

"Bigger and better than ever" is the order General Manager

Don Mason has passed along to his student staff in making plans for the show. Exhibits from all the departments of Engineering will be displayed, including a 'never-emptying coke bottle' prepared by the physics department, a city planning exhibit by the architects, a demonstration on cloth making by the textile engineers, and a cutaway engine prepared by the mechanical engineers.

Mason's Engineering Show staff includes: Bill Hudson, assistant general manager; Dick Alford, auditor, Dayle Clark, publicity manager; Ben McGlamery, advertising manager; Ted Hannah, traffic manager; Ivan Sorenson, assistant traffic manager; Bob Gough, lighting manager; and Shirley DeShazo, secretary.

The show will be presented in two sessions, beginning at 2 p.m. on both days and lasting until 10 p.m. each night.

Start at West Engineering
"The West Engineering Building will probably be the place to start seeing the show," said Dayle Clark, publicity manager. A system for directing visitors through the complete show has been devised.

The electrical and industrial engineers will present their exhibit in the West Engineering Building, with features such as the "kiss-o-meter," a tesla coil, a nerve tester, an industrial safety show and a study in motion and time.

The East Engineering Building will feature displays by the mechanical and civil engineers and an exhibit by students in architecture and allied arts.

Cloth To Be Made
Souvenirs and a magic show will be featured at the Chemistry Building, along with an exhibit of commercial chemicals, and

SEE ENGINEERING, PAGE 6

Home Economics Show To Accent 'Key For Living'

"Key for Living" will be the central theme as the 18th annual Home Economics Open House opens tomorrow to an expected crowd of more than 3,000 visitors.

Approximately 30 exhibits and demonstrations are planned for the two-day program, with each of the six Home Economics departments arranging special displays of student's work.

Hours for the show will be 1-9 p.m. tomorrow, and 9 a.m. to 5 p.m. Saturday. Lois Cleavinger, Dimmitt senior, and Nancy Phillips, Lubbock junior, are general co-chairmen for the event.

Departmental Exhibits and demonstrations will feature a host of new ideas.

Art Designs Featured
In the applied arts department, exhibits will include experiments in freshman design, elementary art education activities, student's work in textiles and other related materials such as wood and metals, selection of color and texture for various rooms in a home, laboratory or office, and techniques of rendering presentation plates.

"Do-it-yourself" ideas in upholstery and other home furnishings will be featured in the clothing and textiles department, along with exhibits in hand weaving, "1955 Ensembles," "Spring Fashions," "Tricks in Tailoring" and news in textiles.

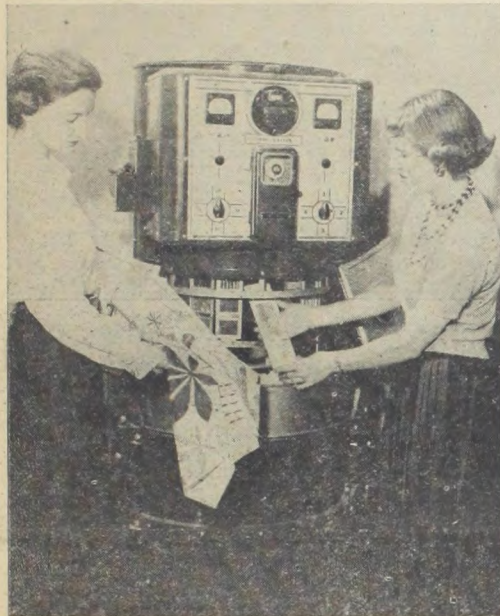

This year, rather than staging one large fashion show, students will model the dresses they have made at frequent intervals. Exact times will be announced over a loudspeaker in the Home Economics building.

Home Management exhibits will include ironing centers planned and arranged to require minimum time and effort, two complete kitchens featuring well-planned storage, kitchen and laundry planning, proper packaging materials for frozen food, information on family finance management and a display on adequate wiring and the dangers of overloaded circuits in the home.

Cake Decorating Shown
"Nutrition - A Key to Health," "Dietetics - A Career for Better Living," and "The Key to Efficient Food Preparation" are topics to be taken up by the Foods and Nutrition department. In addition, a display on gracious entertaining and a demonstration of cake decorating will be given. Hours for the decorating demonstration will be Friday, 3:30 - 4 and 8 - 8:30 p.m.; and Saturday, 2 - 2:30 and 3:30 - 4 p.m.

Child Development and Family Relations displays will illustrate how a successful family life, wholesome childhood and satisfying personal adjustments are keys to happy living.

Home Economics Education will display keys to better living through good teaching by showing centers of interest for home and school. Additional exhibits will feature sources of aids for good teaching, graduate work in Home Economics — how it prepares better teachers, and a key for living through family health and safety — what the individual

FRANCES ALLISON, LEFT, AND AUDRENE RHINE, two home economics students, are shown operating the Fade-O-Meter, a machine which tests how well cloths retain their colors. The machine will be demonstrated at the Home Ec Open House tomorrow and Saturday.

DuPriest Is Elected Girl Cheerleader; Ray, Norwood, Bynum Win Council Seats

Shirley DuPriest, Waco Arts and Sciences sophomore, won the position of head girl cheerleader yesterday in run-off elections. Her opponent was Ruth Ann Cummings, sophomore from Lubbock. DuPriest polled 830 to Cummings' 600.

No one person had a majority in the general elections in the Home Economics Division. Both Student Council seats were decided in the run-off elections and were won by Edwina Schovajsa, 57 votes, and Ann Simmons, 45 votes. Defeated were Averil Brinkmann, 40 votes, and LaRue Gilmore, 31 votes.

The three seats in Engineering were won by Bill Ray, 281 votes, Charles Norwood, 255 votes, and Bill Bynum, 208 votes. Eliminated were Max Merrell, 185; Shirley DeShazo, 134; and Andy Edmondson, 176.

The remaining two seats in Business Administration were won by George Morgan, 193 votes, and

Joyce Tharp, 151 votes. They defeated Mary Jane Smith, 148 votes, and Joanne Holmes, 143 votes.

Smith Found Guilty In Hancock Death

W. H. (Swat) Smith, 38-year-old crop-dusting pilot, was found guilty last night of murder with a motor vehicle in the death of student Betty Hancock last December. Smith was assessed a two-year prison sentence, the minimum under the law, excepting a suspension.

The verdict was returned at 10 p.m. after almost three hours of deliberation. The defendant heard the verdict with no sign of emotion. About 25 spectators, among them several Tech students, were present in the 99th District courtroom when the verdict was read.

Smith was charged with being intoxicated when his automobile was in collision with Miss Hancock's auto at 32nd St. and Ave. V. He was accused of driving on the wrong side of the street and failing to heed a stop sign. Miss Hancock was killed instantly in the collision.

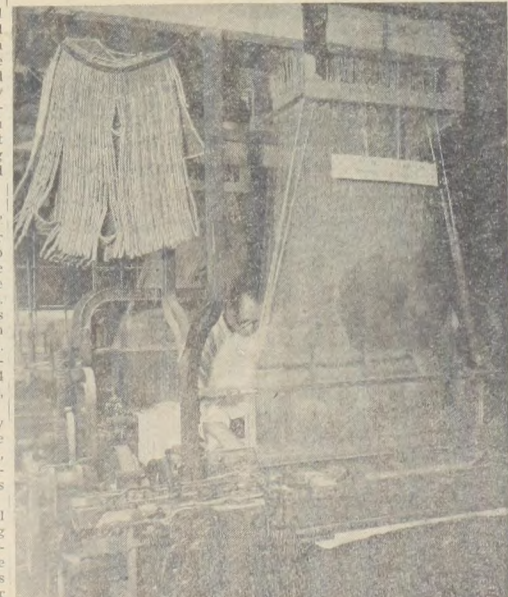

Smith claimed he had stopped at the intersection before proceeding. He said he was not driving more than 10 miles per hour when the accident occurred. He also denied he was drunk at the time.

District Attorney Travis Shelton had asked the jury to find Smith guilty and to return the maximum penalty—five years in the penitentiary.

Will Will Rogers Take Passengers?

Who dunnit? Who switched the antique buggy from Memorial Circle to the back of Will Rogers' horse? Where did that buggy come from anyway? This question may rival the puzzler, "Who put the overalls in Mrs. Murphy's chowder?"

It was believed that the buggy might be a publicity stunt for the Engineering Show, but so far nobody has been found who will admit it.

THIS HIGH SPEED, AUTOMATIC LOOM will be used tomorrow and Saturday in demonstrations at the Textile Engineering Show. A bale of cotton will be processed through every step until it turns out as colored cloth.

60 Hear Fraternity Housing Discussed

Fewer than 60 persons turned out Tuesday night to hear a panel discussion of possible methods of fraternity and sorority housing on Tech campus.

A panel, composed of Gale Hays, Don Dilley, Ladon Sheats and Terry Young, with Union Director Bill Scott as moderator, discussed the problem from all sides, but the disappointingly small crowd obviously had heard the same arguments before.

Miss Hays, president of Panhellenic Council, stated that sororities at Tech definitely want separate houses. In backing her argument, she pointed out that single dormitory type structure housing two or more sororities would complicate entertaining, especially during Rush Week. She said that each group, furthermore, would want a say in the construction of a dorm, although individual houses could be built according to the desires of each sorority.

Seven Schools Polled

Dilley, president of Men's Interfraternity Council, said that the fraternities are in favor of separate houses. He said that seven schools, each with dorm-type housing similar to that under consideration at Tech, were polled and that every school reported numerous objections to the system. Much contention arose in such cases as to which fraternity actually owned what in the dorm, it was reported. The fraternities, said Dilley, were placed in the position of paying for the facilities, but did not own their own house.

Sheats, who made clear that he was expressing his own opinions and not those of independents as a group, asked Dilley why fraternity housing was being considered at present. Dilley replied that the increase in enrollment has created a need for more housing, and that now is a logical time to consider possible fraternity and sorority housing. Dilley went on to state that if the legislature passed a bill currently before it, the college would be allowed to lease land to fraternities, providing the Board of Directors so desired.

Needs Austin Action

Young pointed out that the bill would require the unanimous consent of both houses of the legislature before it even could be considered during the present session. If such a bill were passed, the college conceivably could put up as much as 75 per cent of the cost of a house, with the fraternity raising 25 per cent and paying off the remainder in from 20 to 30 years.

Young then explained how as many as eight groups could be housed in one H-shaped dormitory, with movable partitions to allow for increase or decrease in the size of individual organizations, and with separate entrances for each fraternity. Each fraternity would be allowed an option to build its own chapter rooms and

game rooms.

During a question and answer period which followed the panel discussion, the fact was emphasized that current planning is merely in the tentative stage.

Arnold Air Group Flies To Conclave

Eight Tech members of the Arnold Air Society, national honorary fraternity for AFROTC, comprised the largest group, from one college, to travel to a National Conclave of the Arnold Air Society, according to the AFROTC public information office. The conclave was held in Washington, D. C. during Easter weekend.

Because the Arnold Air Society at Tech contributed more toward the advancement of the national organization it received the largest number of representative invitations. Approximately 160 colleges were represented.

Tech is headquarters for Area H, which includes Texas, New Mexico, and Oklahoma, and is national publications headquarters for Arnold Air Society.

Representatives attending were

Beaux Arts Ball Revives Gargoyle Society Tradition

The Beaux Arts Ball, sponsored by the Gargoyle Society, was held Saturday night, reviving a tradition of the architecture and Allied arts departments.

The theme was "A Masquerade of Famous Paintings," and the decorations depicted a French scene.

Those attending besides Gargoyle members were Mr. Nolan Barrick, Mr. and Mrs. Robert Lockard, Mr. and Mrs. Tom Sasser, and Mr. and Mrs. Richard Duran. Four members of A&M College faculty were also present.

Kenneth O. Johnson, Cleburne; Eugene D. Rummel, Vernon; Theodore G. Lofton, Hillsboro; George F. Aulback, Houston; John A. Kovar, Ennis; Ronnie W. Clark, Yuma, Ariz.; Robert E. Keith, Whiteface; and Charles E. Norwood, Waco.

They were flown to the capitol by Lt. Col. H. E. Walker and Capt. John H. Baumbardner, associate professors of Air Science, in Reese AFB C-47 and B-25 aircraft.

A WHOLE CABOODLE OF LUCKY DROODLES!

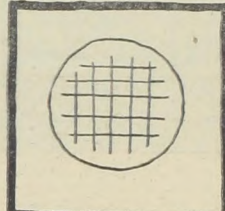

WHAT'S THIS?

For solution see paragraph below.

A WONDERFUL SLANT on smoking! You'll find it in the Droodle above, titled: Tourist enjoying better-tasting Lucky Strike while leaning against tower of Pisa. If your own *inclination* is toward better taste, join the many college smokers who prefer Luckies. From any *angle*, Luckies taste better. They taste better, first of all, because Lucky Strike means fine tobacco. Then that tobacco is *toasted* to taste better. "*It's Toasted*"—the famous Lucky Strike process—tones up Luckies' light, good-tasting tobacco to make it taste even better. Little wonder that Luckies tower above all other brands in college popularity!

Second Annual Fiji Island Dance Scheduled by Phi Gams Saturday

Arnett Ranch will be the scene of the Second Annual Fiji Island dance to be given by the Phi Gamma Delta fraternity, Saturday night. The costume affair will begin at 8:30.

Fijis and their dates are: Ed Aiken, Suzanne Sears; Ellis Bauereis, Beverly Champion; Bob Beckham, Peggy Pattillo; Bob Black, Billie Kay Huckabay; Jerry Bratcher, Ruth Ann Cummings; Don Brice, Tommy Wieland; Walter Bryan, Shirley Herrington; Bill Burton, Carol Chancy; Fred Currie, Donna Abraham; Johnny Flewharty, Pat Knox; Jerry Bob Fraley, Pat Hayter; Bill Gaither, Sharlene Smith; Freeman Gross, Joan Roff; Van Hall, Diane Thomas; Jerry Jackson, Mary Alice Richardson; Bruce Johnson, Joyce Throp; Ken Johnson, Barbara Sanders; Ross Jones, Sue Hendrick.

Carl Kennedy, Bette McGehee; Bob Killian, Gwen Gracey; David

Larson, Kay Elder; Joe Lynch, June Holly; George Mallett, Charlene Willoughby; John Marse, Reita Martin; Ted Mellinger, Jane Hicks; Tommy Morris, Yvonne Worley; Jim Ratliff, Nelda Vaughter; Jerry Russell, Pat Garrett; Joe Goodin, Glenda Knowles; Eldon Smith, Betty Fortune; Bill Summers, Pat Boles; Ken Whittington, Alice Irelan; Brad Wilde, Grace Boles; Bob Williams, Kay Lawrence; Monte Wise, Bette Jo Starnes; Morris Womack, Joy Dee Hatchett; Bill Harpole, Shirley DuPriest; Ed Wilkes, Janna Murray.

Messrs. and Mmes. Verle Downy; Rodger Lane; Ray Lunn; Roddy Stargel; Jim Ware; H. A. Anderson; S. H. Lee.

Pledges and their dates: Don Allison, Carol Wagon; Jack Bogess, Arlette Arnett; Bill Bristol, Averill Brinkman; Joe Dale Bryan, Sondra Stone; John Paul Cain, Susie Miller; Shel Cunningham, Marilyn Cheshier; Don Hay, Ann Belt; Bob Johnson, Marilyn Abbott; David Kent, Eileen Jacobson; Bob Lapham, Gladys Bain; Jack Link, Cherrille Lemon; Dick Lowke, Helen Willis; Kary Mathis, Beverly Patrick; Jim McCulloch, Linda Taegel; George Nelson, Pat Henderson; Robert Nemir, Sharon Millean; David Pool, Kenda McGibbon; Dale Roselius, Diane Davis; Walter Schuler, Pat Stanley; Jerry Spence, Merle Sparks; Raiford Stainback, Patsy Harris.

David Thompson, Sandra Spellman; Bill Waddle, Betty Sue Howard; Jerry Wales, Ardith Campbell; Jackie Williamson, Janice Newsom; Jerry Cook, Elaine Russey.

Tri Delts Retreat Near Palo Duro

Ceda Glen Methodist encampment near Palo Duro was the scene of the Delta Delta Delta retreat last week end. The 40 girls attending spent their time studying the functions and activities of the sorority, Jeanette McKinley, chaplain, was in charge of the program activities.

Members and pledges attending were: Mary Alice Braselton, Joan Cantrell, Ann Collins, Sondra Cooper, Diane Davis, Joyce Ben-thul, Robbie Dale Davis, Carolyn Dixon, Arleen Durkee, Doris Ellis, Pat Garrett, Alice Gaunt, Judy Harlow, Sue Hendrick, Mary Ann Hill, Revis Jordan, Kay Lofley, Joan McGee, Jeanette McKinley, LuAnn McNeill, Jody May, Joyce Morton, Marion Nickelson, Nita Peters, Mary Randal, Elaine Russey, Jo Sloan, Sue Shawver, Mary Jo Smith, Mary Jimm Stinson, Dorise Stone, Ann Standifer, Merle Sparks, Joyce Tharp, Clovis Watt, Jane Ann Whitfield, Alice Wells, Mary Frances Wiese, Charlene Williamson, Betty Mills, and Elizabeth Mitchell.

Open Dance Given By Newman Club

Everyone is invited to come to the Newman Club dance Friday night according to Mel Lemos, club president. The dance will begin at 9 p.m. in the Student Union ballroom. Tickets can be bought from any Newman Club member for \$1; tickets will cost \$1.25 at the door. Buddy Hackfield and his combo will play.

Two Tech Newman club members were elected to province offices at an annual meeting April 15-17 in Norman, Oklahoma. Dorothy Foylton was elected recording secretary and Mary Alice Reidy was elected editor. Others attending the convention were Tony Reis, Dick Denton, and Jim Higdon.

Marilyn Cheshier, Kappa Alpha Theta freshman from Lubbock, was presented as Chi Sigma Sweetheart at their dance Friday night. Other nominees were Anisse Baynes, Lois McKee, Dorothy Briggs, Merle Sparks, Susan Mowery, Ruth Ann Cummings, Jean Crass, Mary Sue Lewis. —Photo by Harold Creswell

Alpha Tau Omega Spring Sport Dance To Be Held Friday at Lubbock Hotel

Alpha Tau Omega will hold its annual spring sport dance Friday night at the Lubbock Hotel. Burl Hubbard will play. Members and dates attending are: Bob Butler, Suzie Carr; Bill Cormack, Anita Powers; Robert Curnutte, Ann Hogg; Jim Davis, Charlie Brown; Pete English, Dorcas Morrison; Bobby Evans, Billie Jean Ward; Leonard Gaston, Pat Bolby; Larry Glasgow, Gloria Porter; Bert Grimes, Rose Green; Buddy Hackfield, Shirley Caldwell; Gene Hamby, Dixie Hewell; Buddy Hargrove, Mitzie Boyle; Charles Miller, Monette McGuire; Lyndell Ross, Mary Fisher; Curt Vandiver, Jody Roberts; Neil Vaughn, Patty Lyles; Dena White, Jane Jipp; LeRoy Crawford, Jimmie Faye Maxwell; Scott Hichman, Gayle Hays; Tommy Reid, Barbara Perry; Dick Russell, Mearle Sparks; Mark Sheffield, Marjorie Weathers; Messrs. and Mmes. Hal Barron, Joe Harris, Jim Lornard, Charles Lockhart, Burt Roberts, Jerry Walker, Gene Wheeler, Don White, Elmer Wilson, Nelson Evans, and Fred Subt.

Pledges and dates: Richard Allen, Keith Morgan; Charles Cummings, Susie Applegate; Buddy Ferris, Carol Simpson; Billy Max Hale, Susie Morris; Bill Hatchett, Ann Bowman; Neal Huffaker, Shirley DuPriest; Cocky Lancaster, Jane Hampton; Bill Leonard, Grace Vick; Charley Moore, Kay Lofley; Hulan Preston, June Holly; Don Simms, Ann Innes; Bennie Sorrels, Joy Weiland; Mark Wyatt, Mary Ann Tongate; Kenneth Tollin, Diana Nichols; Bob Bachman, Barbara Warren; Messrs. and Mmes. Bobby Cavazos, Clyde Grappe, Bently O'Quinn, Doyle Reynolds, Carl Tripper.

ART STUDY TALKED

Standard curriculum for institutions training art teachers was discussed this week in a National Art Education Assn. committee meeting at Cleveland, Tech's Prof. Aren Randall, applied arts department head, is a member of the committee. The association's annual convention was held last week.

4 PKA Members Learn Operation

Four members of the Texas Tech chapter of Pi Kappa Alpha, men's national fraternity, learned how other chapters in the Southwest operate during a recent two-day meeting in Tulsa, Okla. Attending the meeting from Tech were Tom McCown, South Plains junior; Truman Powers, Desdemona senior; Milton Newell, Hereford junior; and Ralph Sherrill, Coolidge, Ariz., freshman.

Distinguished visitors at the Texas-Oklahoma District Convention were Roy D. Hickman, former national president from Birmingham, Ala.; Robert D. Lynn, national executive secretary from Memphis, Tenn.; and Robert C. Duke, district president from Austin.

Chapters represented at the meeting included Tech, Tulsa, Texas U., Southwestern, North Texas State, SMU, Oklahoma A&M, and Oklahoma U.

PI PHI OFFICER TO COME

Mrs. Mylred Allen Hightower, Kappa province president of Pi Beta, Phi, will be a guest of the Tech chapter Monday through Wednesday. While here she will attend the sorority's Founders' Day banquet Tuesday night.

AN EDITORIAL

The Origin of Progress

With the spring elections over, and with only a few crowded weeks left in the current school year, it is time to review past events with an eye to the future.

The year has been about the same as every other year: complicated by a few old problems and made interesting by the arrival of a few new ones.

The parking problem is still with us and no doubt will be for some time. School spirit, that old standby, remains a much discussed but unresolved topic.

Where, then, in light of these unsolved questions, has progress been made during this school year?

A few students have developed the ability to think independently. A few have realized that they must look not to others for leadership but to themselves for the capacity to deal with their problems.

On these students will rest the hopes of the college and the nation. For they have realized that progress comes not from without but from within oneself.

—David Clark

Senior Carnival Set for Next Week

Everybody get ready for the Senior Carnival! It will be a week from tomorrow southeast of the Union Building, and will begin at 7 p.m. and last until 11 p.m.

The purpose of the carnival is to raise money for the senior gift to be left to the school by the graduates. It is a coordination of organizations on the campus. Several organizations will have booths of games, food, and fun.

There will be a barrel ride, a dart throw, a dunking board on which prominent figures on the campus (students and faculty) will sit, plays, movies and a horror house.

Prizes donated by various downtown merchants will be raffled off at the end of the carnival. Tickets are available from any senior.

Carl Kennedy is in charge of the senior carnival and David Clark is working with Charlie Harper on the publicity committee.

LITTLE MAN ON CAMPUS by Dick Bibler

"48 gum wrappers, 12 cigarette butts, 8 orange peelings and 3 votes in this one . . . if you ask me there hasn't been enough student interest in campus politics this year."

Dairy Team To Be Honored Monday

The dairy products judging team will be honored at the Dairy Industry Club banquet Monday at 6:30 p.m. in the Student Union ballroom.

Team members, Charles Wales, Richard Stovall, James Morgen, and Roy McDonald will be presented medals by the club for outstanding activities in the past year.

The team took third place in the international meet in Atlantic City last fall. Team sponsor is Dr. J. J. Willingham, head of the dairy industry department.

A scholarship, which is given in honor of Mrs. A. M. Williams will be presented to a junior dairy industry student.

Officers for next year will be in charge of a meeting of Future Teachers of America tonight at 7 in room 11 of the Library. A short movie will be shown.

On Campus with Max Shulman (Author of "Barefoot Boy With Cheek," etc.)

THE GIFT HORSE

Many of our friends will soon be graduating. What kind of gifts should we give them?

Here is no simple question. It is never simple to find gifts for people who have everything, and college students, as everyone knows, are the most richly endowed of mortals. They've got beauty and truth. They've got rhythm. They've got stout hearts, willing hands, and a clear vision that dispels the miasms of the future as the morning sun sears away the last wisps of a cool night's fog.

One infallible gift for the person who has everything, of course, is a stethoscope. New models, featuring sequined earpieces and power steering, are now on display at your local surgical supply house. Accompanying each stethoscope is a gift card with this lovely poem:

When you hear your heart beat, When you hear it pound, Remember me, your buddy, William Henry Round.

If, by some odd chance, your name does not happen to be William Henry Round (you're laughing, but it's possible), here is another dandy suggestion for the person who has everything — a gift certificate from the American Bar Association.

These certificates, good at your local lawyer's, come in three convenient sizes: small, medium, and large. The small certificate covers title searches and writs of estoppel. The medium size covers torts, claim jumping, and violations of the Smoot-Hawley Act. The large one covers kidnapping, murder, and barratry.

If, by some odd chance, you don't know what barratry is (you're laughing, but it's possible), it is arson at sea. This interesting crime is called after Cosmo "Bubbles" Barrat, a captain in the British navy during the last century, who was addicted to burning his ships. One man o' war after another fell victim to his incendiary bent. The Admiralty kept getting crosser and crosser, but every time they called in Captain Barrat for a scolding, he would roll his big blue eyes and tug his forelock and promise faithfully never to do it again. Oh, butter wouldn't melt in his mouth, that one!

So they would give him another ship, and he would soon reduce it to a scattering of charred spars. He burned more than 120,000 ships before he was finally discharged as "doubtful officer material."

After his separation from the navy, he moved to Vienna where he changed his name to Freud and invented Scrabble.

But I digress. I was listing gifts for the person who has everything, and here is another one. This gift, in fact, is not only for persons who have everything, it is also for persons who have nothing, for persons who have next to nothing, for persons who have next to everything, and for persons in between. I refer, of course, to Philip Morris cigarettes. Here is the cigarette for everybody—for everybody, that is, who likes a mild relaxing smoke of fine vintage tobacco in a handsome brown package that snaps open with the greatest of ease. For those, if such there be, who like dull, nondescript tobacco in a package that requires a burglar's kit to open, Philip Morris is definitely the wrong gift.

Among the newer gifts that warrant your attention is a revolutionary development in the enjoyment of recorded music. This is the Low-Fi Phonograph. The Low-Fi, product of years of patient research, has so little fidelity to the record you put on it that if, for example, you put Stardust on the turntable, Melancholy Baby will come out. This is an especially welcome gift for people who hate Stardust.

Finally there is Sigafos Shaving Cream, a brand new kind of cream that makes whiskers grow in instead of out. You just bite them off in the morning.

To Max's suggestion to give PHILIP MORRIS for graduation, the makers of PHILIP MORRIS, who bring you this column, add a hearty amen.

©Max Shulman, 1955

Newly Formed Circle K Club Gets National Charter From Kiwanis

Presentation of the national charter to Tech's Circle K Club highlighted the newly formed club's spring semester agenda. The presentation was made Tuesday noon at the Hub City Kiwanis's regular meeting in the Caprock Hotel.

Clarence Beauford, president of the Circle K club, received the award from the sponsoring Hub City Kiwanis club during their luncheon meeting.

The Circle K was organized last February for the purpose of giving civic minded Tech students a chance to present their abilities. The club has already started a project of building a baseball diamond for Lubbock's little league baseball tournament.

Dr. Howard Golden, of Tech's marketing department, is the club sponsor. The club will meet every Friday at noon, during the school's regular sessions.

The Circle K Club is one of a new type being organized throughout the nation. Its purpose is to help students who desire to help the other fellow in order to help themselves.

Any male student who wishes to learn more about the organization

Placement Office Lists Opportunities

Several job interviews are on tap this week and next week at the Placement Office.

Tomorrow the superintendent of schools from Lovington, N.M., will talk with 1955 graduates and others interested in teaching positions.

BA graduates interested in working for the Fort Worth National Bank are asked to stop by tomorrow and schedule appointments for Monday.

Stanolind Oil and Gas Company is seeking engineering, math, geology and physics majors. Interviews for Tuesday should be scheduled tomorrow.

Men with engineering majors who are interested in working for the Phillips Chemical Company are asked to schedule interviews with the Placement Office by Wednesday. Date of interviews will be announced later.

OPEN HOUSE, CONT.

Home Economics building, will be open to visitors during the show. The house is planned for senior Home Economics students to get practical experience in the management and care of the home.

The Nursery School, a small cream-colored building south of Home Economics, is a laboratory for students taking Child Development. It will be open Friday, 1-6 and 7-9 p.m.; and Saturday, 9-12 and 1-5 p.m.

ENGINEERING, CONT.

water treating. The textile engineers will be able to show step by step how cloth is made, beginning with the opening of the cotton bale, and ending with a finished textile product.

Geologists and physicists will show their talent in the Science Building by featuring demonstrations with ultraviolet, sodium and polarized light.

Combat Films To Be Shown

A pumping unit in operation will be featured in the rear of the Petroleum Engineering Building, and on the inside will be student projects.

Military and Air Science will contribute their part of the show in buildings X-1, X-10 and X-10-b, with an exhibit of machine guns and rifles, mortars, a rocket launcher, military bridge miniatures, radio and telephone equipment, an aerial bomb exhibition, a bomb sight and the latest photographs and models of USAF aircraft. Combat films are to be shown every hour.

Jerry Loucks asks:

What sort of work would I do on my first assignment with Du Pont?

R. GERALD LOUCKS is currently working toward his M.S. in Chemical Engineering at Carnegie Institute of Technology. Jerry has served as president of his student chapter of A. I. Ch. E. and participated in intramural sports—besides finding time to play the trumpet in the R.O.T.C. and Kiltie bands. Right now, Jerry is giving a lot of thought to the selection of an employer.

CHARLES W. LOUNSBURY, Jr., worked at Du Pont's Chambers Works for three summers before he received his B.S. in Chemical Engineering from Rensselaer Poly. Inst. in 1940. Since then he has taken an M.S. from Carnegie Tech., and has been continuously employed on interesting assignments at various Du Pont plants. Today Charlie Lounsbury is Technical Superintendent of the Grasselli, N. J., plant of Du Pont's Grasselli Chemicals Department.

Charlie Lounsbury answers:

There is a great variety of first assignments at Du Pont, Jerry, depending on a man's field of training and the general area of work he has selected. For example, I understand you're interested in plastics, and you might start in development work on plastics, as I did. I worked with a team of more experienced engineers to increase the capacity of equipment used in producing "Lucite" acrylic molding powder. This was a natural prelude to my next major assignment, where I acted as a liaison between Du Pont's Design Division and the plant group—on the design of a new plant for making another form of "Lucite" plastic.

Or take research work. Here a new man is generally assigned to minor research problems until he becomes familiar with the general features and requirements of an industrial research program.

A young man interested in sales may start in a plant or laboratory dealing with the products he will later sell; or he may join a group of trainees to learn selling techniques right from the start.

A man aiming for production supervision may first spend a year or so in laboratory or plant development work. Or he may start as an operator—in a plant producing nylon or "Dacron" polyester fiber, for example. In this way he obtains firsthand knowledge of his process, and establishes a bond of mutual respect with the men he'll be working with on his major assignments later.

In general, Jerry, a man is chosen for a specific job within the scope of his major field of study. His first assignment is intended to help him make the best use of his abilities as promptly as possible.

WANT TO KNOW MORE about working with Du Pont? Send for a free copy of "Chemical Engineers at Du Pont," a booklet that tells you about pioneering work being done in chemical engineering—in research, process development, production and sales. Write to E. I. du Pont de Nemours & Co. (Inc.), 2521 Nemours Building, Wilmington, Del.

Profit Split Proposal Tabled

Motion For Split Of Machine Profit Under Discussion by Student Council

A proposal to obtain profits from non-dormitory vending machines for the Student Association was tabled by the Student Council Monday night.

Ronnie Avery moved that the Student Council recommend to the president of the college that profits from non-dormitory vending machines be allotted to the Student Association. Profits from these machines are approximately \$6,000 a year. If the council should receive this money it would be distributed among the organizations that receive money from the activity fee.

In tabling the motion the council requested that Marshall Pennington, Tech vice president, Bill Scott, Student Union director, and Dr. W. E. Hall, journalism dept. head, be invited to appear before a meeting of the council in a discussion of the proposal next Monday night.

A committee of students and faculty members was appointed to reevaluate the distribution of the Student Activity fee.

This committee includes: Marshall Pennington, Dr. James Wm. Davis or Coach DeWitt Weaver representing athletics, Dean James Allen, Lou Stamatakos, Dr. Gene Hemmle, Glenn Rainer, Melvin Deardorff, and Glen Cary.

Jack Pruitt reported to the council on the National Inter-collegiate Pep Conference held at the University of Kentucky, Lexington, last week. Tech's invitation to hold the annual conference in Lubbock next year was approved by the schools attending this year's conference.

A College Award Board was set up by the council to provide a system of recognition for areas

on the campus that do not have all school recognition. Organizations that do not receive all school recognition include the Rifle Team and Forensics.

Money was appropriated by the council to pay the expenses of four Tech students to Southern Methodist University's Minada Carnival later this semester. The Tech students, David Pool, Ann Hogg, Margaret Schindler, and Margaret Ammer, will represent Texas Tech in a talent show held as a part of the carnival.

The council voted to have a bulletin board put up outside the council office for the posting of council business.

The proposed budget for the Student Association will be submitted to the council at a called meeting Monday at 7:15 p.m. in Ad. 218. Gwen Williams, council secretary, has extended an invitation to all students to attend this meeting.

Tech Netters Host ACC Tennis Team

Red Raider netters are playing host at the varsity courts east of the Gym this afternoon to the Abilene Christian College tennis team.

Tuesday the Raiders shut out Eastern New Mexico University, 7-0. A weekend trip was not so profitable, however. Last Friday Tech was tied, 3-3 by Hardin-Simmons University in Abilene, and on Saturday lost to Texas A&M, 5-1. The Raiders have beaten HSU twice this season by scores of 6-0 and 4-2. The loss to A&M was the second defeat of the year. Tech has previously been defeated by SMU.

Playing for the Raiders today are: Captain David Clark, No. 1; Billy Edd Gowan, No. 2; David Kent, No. 3; and Dick Spiers, No. 4. Opposing the Tech netters are ACC players Max Leach, Jerry Griffith, Ronnie Walcher and James Tudor.

Church of Christ Lectureship Ends

"Attitude Toward Self" will complete a Church of Christ Bible Chair Lectureship tonight at 6:40-7:40 p.m. at 2406 Broadway. Minister Bob Wear from Hereford has been conducting the devotionals evening and morning.

Beginning steps for the Bible Chair were taken in the fall of 1947 when space for a large classroom and study was rented at 2416 Main. After two years the present site was purchased.

New improvements include a \$20,000 fellowship hall with modern wrought-iron furniture opened last Fall.

Religious books and articles numbering over 1,000 are in the center's library. There are 13 different translations of the Bible.

Four years ago the Bible Chair started a paper called the "College Christian."

Bible classes, daily devotionals, Christian fellowship, student guidance and counseling are some of the more serious activities of the center.

Less serious activities this year included a banquet, picnic at Silver Falls, bar-b-q at Palo Duro Canyon, open house and parties.

Primary purpose of the Chair is the molding of young people in the likeness of Christ's life and to provide young people with a home away from home.

Baseballers Pull Surprises; Trip Sheppard, 21-20; 19-16

By JOE McLAUGHLIN
Toreador Sports Editor

Tech's baseballers gave even the most avid fans two of the most pleasant surprises in the annals of the sport Monday and Tuesday by accomplishing a feat they've never been able to do—win two baseball games in a row.

Of course, the Raiders of Coach Beattie Feathers have only been in the sport two years and last year the squad only won one game.

The surprises came in the form of "pitching duel" wins over Sheppard Air Force Base of Wichita Falls, 21-20 and 19-16.

The hitting was sorely missed until this week and the pitching hasn't improved noticeably.

Lutheran Drops Raiders Twice
Texas Lutheran had dropped the Raiders twice last weekend by scores of 13-6 and 8-5 in games that were closer than the scores might indicate.

The Raiders banged out only 12 hits in both games combined before the Sheppard fiascos.

Shortstop Elmer Wilson, the team's leading hitter, rightfielder Ray Weed, leftfielder Grady

Graves and firstbaseman Wick Alexander all collected three base raps apiece. Weed, Graves and Wilson contributed doubles and Weed and Alexander each poked homers out of Hubber Park.

Pitchers, Leo Chase, Terry McRight, Charlie Wright and Paul Hawkins all turned in chores on the mound with McRight showing more effectiveness.

Too Many Errors
Faulty fielding and wildness by the pitchers has been Tech's downfall all season with 10 errors in the Sheppard series, besides numerous mental mistakes. The Raiders committed 11 errors in the Lutheran series.

Tech was fortunate to say the least against the servicemen in the second game. The Raiders scored 19 runs on eight hits and 22 bases on balls.

Alexander banged his second homer of the season in the game with pitcher Hawkins collecting a triple for the only Tech extra-base hits in the game.

Next games on the agenda are with Texas Lutheran at Seguin yesterday and today. Then, the Raiders will meet Sam Houston State at Huntsville Monday and Tuesday.

Intramural Golf Pairings Listed

Pairings for Intramural Golf have been posted in the Gym.

First and second round matches should be played by Monday, according to George Philbrick, intramural sports director.

In first round matches, Gary Mitchell is pitted against Calvin Garrett, Jack Vass meets Don Barnett, Jack Brown is scheduled against Richard McClure, Gregg Chappell plays Max Drying, and Ted Nellinger will encounter Neal Pipkin.

Fred Currie, Harry Sealing, and Ted Hardy each drew a bye in the first round.

Opponents will meet in 18-hole match play at the Meadowbrook Golf Course.

Rodeo Team Wins NM Aggie Trophy

Texas Tech's Rodeo Team "tied" and "rode off" with the large first place intercollegiate trophy at New Mexico A&M's 10th annual rodeo, held April 15-17 in Las Cruces, N.M.

B. F. Yeates, a senior from Matador, placed third in all around cowboy competition by winning first in bulldogging and second in saddle bronc riding.

Other Tech placers included: Dave Hopper of Lubbock, first in bulldogging; Lee Cochrell, Pampa, second in calf roping; Neil Love, Spur, third in tie down calf roping; and Gene Graham, Rocksprings, fourth in saddle bronc riding.

In competition with six other colleges including Tech — Sul Ross and Hardin-Simmons finished second and third. Other teams participating included Odessa Junior College, West Texas State, New Mexico U., New Mexico A&M and University of Texas at El Paso.

The Tech team includes: Johnny Leonard, Del Rio; Tooter Shanklin, Rocksprings; and Gerald Leonard, Del Rio.

Sluggers Cop Independent Softball Intramurals; Advance to Playoffs

The Sluggers copped the Independent League last week in intramural softball action and by doing so are eligible to play in the All-College Playoffs.

The Rebels finished the independent pact with a 5-2 record, good enough for second place.

In the Fraternity League, Sigma Alpha Epsilon is setting the pace with a 5-0 record, followed closely by Kappa Sigma with a 4-1 mark.

Bledsoe Hall and Doak Hall are

knotted in the Dormitory League with 3-2 records. Each has one more game to play. Bledsoe has a make-up game with Gordon Hall, and Doak will meet Sneed Hall, also in a make-up game.

Games scheduled for this week in the Fraternity League are: Sunday, Chi Sigma vs. ATO; SAE vs. Phi Delta; Phi Psi vs. Sigma Nu; and Phi Gamma vs. Kappa Sig.

SAE will meet PiKA and Phi Psi is scheduled to go against ATO in night games Tuesday.

Raider Fencers Take North Texas Crown Qualify For El Paso Sectional Finals

Texas Tech's men fencers remained undefeated last weekend and qualified for the Southwest Sectional Finals at El Paso May 7-8 by racking up the Dallas YMCA in Dallas.

The fencers collected a 5-4 win in foil, 5-1 in epee and 5-2 in saber.

The Raiders, thereby, became North Texas Division Finals Champions.

The team will compete with the winners of the college and university divisions of the Gulf Coast, New Orleans and Border divisions at the El Paso meet.

Nationals in New York
The winner of the four-division meet will go against the strong

Independent Club for the Southwest Sectional title and the right to vie for the National Championship in New York City June 8.

In the individual championships, Jo Nell West of Big Spring became the first woman in Tech history to win the Senior Women's Competition. Additionally, she placed second in the junior event and was awarded a trophy bearing the words, "Annual Women's Sportsmanship Trophy for 1954-55 Season."

This is only the second year of senior girls' competition.

Men's events resulted in Tech capturing 15 of 18 places. Ken Gullett of Olton won first in novice saber and second in junior saber.

Sims Leads Raiders
Bill Worrell of Colorado City

was first in junior epee and second in novice saber. Gene Brown of Amarillo took third in novice saber.

Ed Sims, captain and only letterman returning, captured the Men's Intermediate Title in both foil and saber, third in senior foil and second in senior epee.

Jack Carnell, participating coach and senior foil and saber champion, successfully defended his title in the foil, but he dropped to third in the saber. He dethroned teammate Sims to win the senior foil.

Gene Miles, not a member of the team, placed third in novice foil and junior epee and second in novice epee.

The sophomore-laden squad will be out to retain the epee championship at El Paso next month.

500 Oil Workers In Lifting Course

Speakers at the Tech Oil Lifting Short Course will be honored tonight with a dinner at the Lubbock Country Club. Twenty-three classroom sessions on different problems of oil production were held this afternoon with 40 more scheduled tomorrow. Approximately 500 oil field workers are participating in the two-day program, which is sponsored jointly by the petroleum engineering department of Tech and the petroleum industry of West Texas.

William J. (Bill) Murray, Jr., chairman of the Texas Railroad Commission, gave the principal address this morning at the opening session.

Eighteen Coeds Selected For Forum Membership

Juniors Tapped In New Ceremony

To the solemn strains of "Matador Song," played from the towers of the Administration building, 18 junior coeds Wednesday morning were tapped to membership in Forum, women's honorary organization. Membership in Forum is considered the highest honor which can be bestowed on women students here.

New Forum members are: Jacqueline Bateman, Lubbock; Virginia Carr, Lubbock; Virginia Carter, Lubbock; Beverly Garner, Rockdale; Ann Collins, Plainview; Josephine Garcia, Amarillo; Huda Hassen, Stamford; Betty McGhee, Canyon; Nancy Phillips, Lubbock; Annita Powers, Lubbock; Ann Simmons, Olney; Mary Jane Smith, Fort Worth; Marilyn Snetten, Plainview; Marilyn Stonecipher, Houston; Diane Thomas, Amarillo; Dorothy Ware, Clovis, N. M.; Kay Lynn Watson and Tommie Wynn, both of Lubbock.

White and Black Dress

The girls were chosen for outstanding qualities of scholarship, leadership and service to the college.

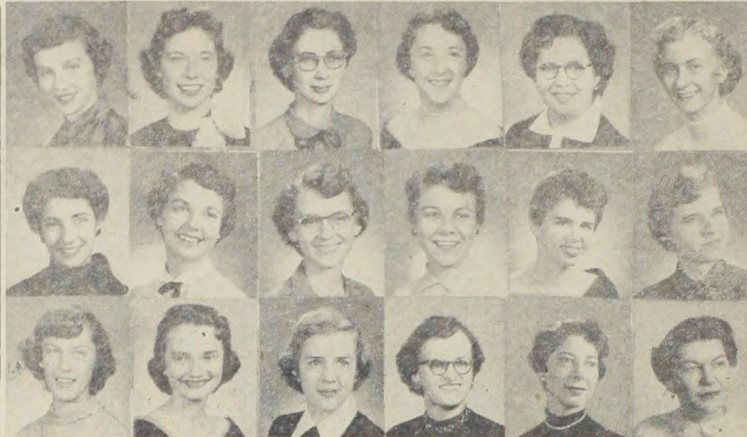

The ceremony was opened with "Matador Song" and Forum members, dressed in white blouses and black skirts, marched together to various classes. The newly chosen members were tapped on the shoulder and presented with a symbolic black ribbon, prior to joining the procession around campus.

Initiation Breakfast Held

An initiation breakfast at the Lubbock Club Sunday will honor new members. Following the breakfast, they will attend church services as a group.

The history of Forum goes back to 1927 when it was established by Mrs. Mary Doak, then Dean of Women. The group is now petitioning to become affiliated with Mortar Board, national women's organization.

The ten senior coeds that comprise Forum at present are: Martha Blankenship, Morse; Lois Cleavinger, Dimmitt; Frances Edwards and Gwen Williams, Lubbock; Doris Ellis, Sweetwater;

THE EIGHTEEN WOMEN SHOWN ABOVE WERE tapped yesterday morning for membership in Forum, senior women's honorary service organization. The women are, left to right: top row—Jacqueline Bateman, Virginia Carr, Virginia Carter, Ann Collins, Josephine Garcia and Beverly Garner; middle row—Huda Hassen, Betty McGhee, Nancy Phillips, Annita Powers, Anne Simmons and Mary Jane Smith; bottom row—Diane Thomas, Marilyn Stonecipher, Marilyn Snetten, Dorothy Ware, Kay Lynn Watson and Tommie Wynn.

Last Rites Held For Dr. Rister

Funeral services for Dr. Carl Coke Rister were held Sunday at First Baptist Church.

Dr. Rister, died of a heart attack April 15 at the home of a sister in Rotan.

Dr. Rister became distinguished professor of history at Tech in 1951. Prior to that, he had been at the University of Oklahoma since 1929, and before then had taught at Hardin-Simmons University.

He was the author of many historical articles and several books. He was considered an outstanding authority on oil history.

Dr. Rister's wife was with him at the time of his death. Burial was in Tech Memorial Park.

Linda Hudson, Brownfield; Mary Elizabeth Johnson, Albuquerque, N. M.; Shirley Massey, Odessa, president; Sue Shawver, Megargel; and Ann Lee Turner, Fort Worth.

Chairmen of Union Committees Chosen

Chairmen of Union committees for next year were chosen by the Program Council Monday.

The chairmen are: Alice Wells, arts and exhibits; Sally Wood, building decorations; Bill Serber, dance decorations; Guy Finley, games and tournaments; Virginia Carr, hospitality; Ann Rathjen, Friday Night dance; Edwina Schovajsa, lectures and debates; Charlene Williamson, movies; Sylvia Dietering, music; Dick King, Record Dance; Susie Allen, special events; John Hallum, square dance; Ted Carthel, world traveler.

These chairmen will serve on the Program Council next year instead of having area co-ordinators as it was in this year's system. Also on the Program Council next year will be the vice president of the student body and a Toreador representative as ex-officio members.

Next year's executive council members, chosen earlier this month, are: Melvin Deardorff,

president; Jack Gibson, vice president; Ann Collins, secretary; Chuck Strohl, treasurer; Jack Pruitt, director of personnel; and Jack Beckner, director of public relations.

At the Union

Soph Hodge Podge In Union Saturday

The annual Sophomore Hodge Podge will be held in the Union Ballroom at 8:30 p.m. Saturday. The Dunbar Combo will play for the dance which is free to all students, according to Bruce Campbell, sophomore class president.

The Italian film "The Bicycle Thief" will be shown tonight at 7 p.m. in the ballroom. This is the third in a series of foreign films presented by the Union Movies Committee.

"The Bicycle Thief" which has been acclaimed as the best film in thirty years by Time magazine, will be in Italian with English subtitles.

Jane Wyman will be featured in her Academy Award winning role of "Johnny Belinda" Monday at 7 p.m. in the ballroom.

A record dance will be held in the "Hole" Tuesday at 7 p.m. Also Tuesday there will be a square dance at 7:30 p.m. and Girls' Billiards at 7 p.m.

Wednesday will feature a noon listening hour on the second floor of the Union. Students are invited by the Music Committee to lunch there and listen to fine music.

Violinist Zeitlin Last in Art Series

Before a miniature crowd, violinist Zvi Zeitlin closed out the 1954-55 Artists Course Series Monday night with a demonstration of the skill which may someday rank him as great.

Playing before fewer than 500 persons in Lubbock High School Auditorium, Mr. Zeitlin won the hearts of his listeners with "Shepherd Song and Country Dance." The Israelite showed great feeling in this song of his native land.

Zeitlin was accompanied by Herbert Colvin, instructor in music, who was assisted by Mary Jeanne van Appledorn, also a music instructor.

Monday night's performance ended the series which has included such outstanding artists and groups as Robert Goldsand, the Robert Shaw Chorale, the Houston Symphony, and the Touring Players.

January Graduate Gets Director Job

J. D. Jones, January agriculture graduate, has been named livestock service director for Wilson and Co. at Oklahoma City. The appointment will become effective May 2.

Jones attended Hinds Junior College, Raymond, Miss., and spent four years in the Air Force before entering Tech. An animal husbandry major, Jones was a member of the livestock judging team, taking top individual honors in all classes at Oklahoma City and at the 1954 American Royal Livestock Exposition in Kansas City. He also placed high in last year's International Livestock Exposition in Chicago.

Classes meeting 4:00- 5:00 TTS
Classes meeting 5:00- 6:00 TTS

Evening classes, other than Saturday classes, will have their respective examinations at the regular class meeting during examination week.

Classes scheduled for more than an hour will take the first hour on the exam schedule, and two-semester-hour-courses will take precedence over one-semester-hour courses.

In case of conflict of orientation with regular exams, the orientation exam should be given the last day the class meets.

Requested changes in the schedule of an individual student will be considered by the dean of the division in which that student is registered.

—THE SCHEDULE COMMITTEE

Livestock Contest Set for Saturday

A Block and Bridle sponsored livestock judging contest has been set for Saturday in the Agriculture judging pavilion, according to Stanley Anderson, associate professor of animal husbandry.

Freshmen, sophomores, and juniors will be eligible to enter separate divisions according to classification and courses previously taken in the animal husbandry department. Freshman and sopho-

more divisions will be questioned by instructors in the department during judging and juniors will be required to give reasons for all decisions made.

The National Block and Bridle organization will present gold, silver, and bronze medals to winners.

Presentation of awards will be at the annual Block and Bridle banquet Monday.

FRAT DORM UNOPPOSED

The Texas Tech Board of Directors is not in opposition to dormitory-type structures as a step toward fraternity housing, it was announced today by Dr. E. N. Jones, college president.

A statement appearing in a previous Toreador issue that such opposition existed was rewritten from another publication.

JOURNALISM HEAD TO SPEAK

Dr. William E. Hall, head of the journalism department and director of public information, will speak to the International Relations Club at its regular meeting at noon Friday. Dr. Hall's subject will be "International Communications," according to Ronnie Avery, club president. The luncheon meeting will be in the Student Union.

ROTC Units Face Inspection

Army and Air Force ROTC units on the Tech campus will be on their best behavior today as a pair of inspection teams from regular military establishments make their annual tour and check of student proficiency.

The inspectors will hold regular class inspections followed by a routine investigation of the detachments' facilities, supply and administration and climaxed with a joint review by both Army and Air Force cadets.

Inspection in ranks will be held from 3 to 5 p.m.

An informal luncheon will be held in the Student Union Building for the inspection party, resident military instructors, Tech vice president Marshall Pennington and other college administrative officials.

The Army ROTC inspection party will include Col. Luis F. Mercado, chief of troop training and inspection branch, Ft. Sam Houston, Texas; Lt. Col. Oscar A. Mall, Ft. Hood, Texas; Lt. Col. Lester M. Rice, Ft. Hood; Maj. Paul L. Terry, Ft. Hood; Maj. Harry C. White, Ft. Hood and Maj. Larry L. Herres, Ft. Sam Houston.

The Air Force ROTC team from AFROTC Headquarters in Montgomery, Ala. will include Col. Herman E. Hurst, Lt. Col. Horace T. Finch, and Lt. Col. James N. La Roche.

Block And Bridle To Fete Judgers

Tech's livestock, meats, and dairy cattle judging teams will be honored at the Block and Bridle banquet Monday night at 7 p.m. in Underwood's dining room.

The twenty-first annual banquet will climax the year's activities for Block and Bridle members. Awards will be presented to winners of Saturday's livestock judging contest.

Block and Bridle's merit award will be presented to an outstanding member. A scholarship will also be presented to a scholastically outstanding person in the club.

Speaker will be E. S. Balleu, Hampshire Hog Breeder from Clarrington.

Business Sorority Tours City Bank

A tour of Lubbock National Bank was made by 21 members and pledges of Phi Gamma Nu Monday. The occasion was the semi-annual professional meeting of the honorary business sorority. Bank hostess was Ruth Ford, patroness of Phi Gamma Nu, and secretary-treasurer of the firm. Charles Signor, vice president in charge of public relations at the bank, assisted Miss Ford. Refreshments were served following the tour.

Members and pledges attending were: Peggy Golden, Peggy Morton, Mary Jane Anderson, Joy Clark, Nita Haseloff, Jo Nell West, Marjorie Clinton, Betty Scarborough, Betty Nelson, Carol Crouch, Joanne Holmes, Christine Foster, Ima Jane Griffith, Molly Morrison, Mava Wolford, Mary Katherine Hill, Pat Brownlow, Shirley Crook, Kay Squires, Claudie Carpenter, and Bernadyne Weatherford. Sponsors Nelda Snow and Mrs. Isabelle Gillenwater, and Patroness Mrs. Pearl Smith also attended.

PEEPLES HEADS DAIRY MEET
Milton Peoples, instructor in the department of dairy industry, recently returned from Plainview where he was superintendent for the Future Farmers of America Dairy Products judging contest. Peoples reported that 18 teams entered the Panhandle-South Plains show.

Dockray Named TAGS Secretary; Professor Alexander Chosen Sponsor

Karl Dockray, Lubbock junior and president of the Tech German club, was named secretary of the Texas Association of German Students at their third annual convention in San Antonio last weekend.

Tech's German club sponsor, Theodor W. Alexander, was chosen to a two-year term as a sponsor of TAGS.

Other action made Dr. C. B. Qualia, professor of foreign languages, an honorary member of TAGS for his "great contributions to and for the support of German language activities." He is an original member of Tech's faculty and former head of the foreign language department.

Ray Cook, Floydada junior, is

immediate past president of the association.

Representing Tech at the state convention were: Dockray; Cook; Frankie Boyd, Big Spring; Lowell Gregg, Plainview; Gordon Peck, Dallas; Cynthia Loveless, Bob McCarty, Lynn Rodgers and Carolyn Coe, all of Lubbock; Trixie Austin, Matador; Alvin Gregg, Plainview; and Prof. Alexander.

ERROR IN RETIREMENT VOTE

Voting of the faculty members for the supplementation of the present retirement system with Social Security will be held tomorrow instead of last week as erroneously announced. The final

5 Dairy Seniors Return From 9-Day Tour of Texas

Five dairy industry seniors have returned from a nine-day trip which covered most of related industrial points in Texas. The annual trip which is made by seniors of the department is to acquaint them with different phases of the industry.

Making the trip were Charles Wales, Richard Stovall, Melvin Schlegel, Robert McDonald, Jimmy Sandlin, and Dr. J. J. Willingham, head of the dairy industry department.

The 1800 mile tour included visits to all type of dairy processing plants between Lubbock and Houston.

decision, even with a favorable vote, rests with the Legislature, which would decide whether to authorize State contributions.

West Only Dorm To House 3 Men

It is West Hall that will have three men to a room next semester, and contrary to what was printed in last week's Toreador there are no plans to put any extra men in the rooms of Gordon and Bledsoe Halls.

West Hall residents will enjoy a cut-rate room rent of \$12 per month instead of the previous rate of \$15, making the total room and board \$62 instead of \$65.

There is nothing permanent about the plans, according to Vice President Marshall Pennington and Tech policy as to how many men per room in Tech dormitories depends on future campus construction.

You'll find a world of new fun at the wheel of a new Chevrolet—and the exciting discoveries you make can help you win one!

Driving a beautiful new Chevrolet is thrill enough any time. It is more rewarding right now, because the things you find out on your drive can help you win a 1955 Chevrolet plus a \$1,000 U. S. Savings Bond!

For instance, your drive will show you what it means to sit in a luxurious Fisher Body, to see all four fenders from the driver's seat, and to get a man's-size look ahead through a Sweep-Sight windshield.

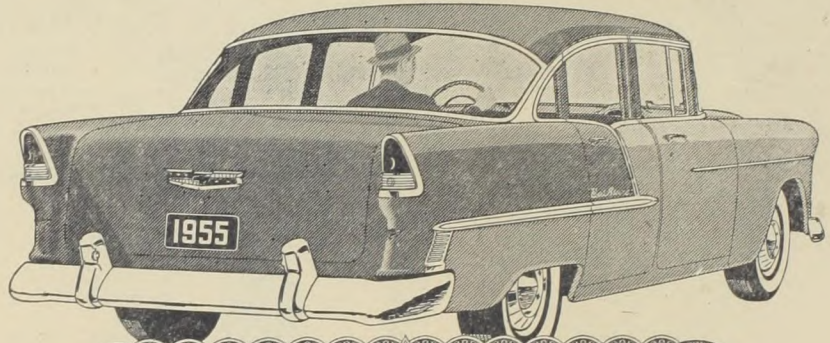

You'll learn that Chevrolet puts new comfort in going! New Glide-Ride front suspension and Outrigger

rear springs. New ease to guiding the car with Ball-Race Steering. A new smoothness to all stops with Anti-Dive Braking Control. A constant flow of outside air from the new High-Level ventilation system.

You'll discover new fun whether you drive Chevrolet's new 162-horsepower "Turbo-Fire V8" or one of the two new 6's. (All with the only 12-volt system in their field.) You can learn about the smoothness of three great transmissions—automatic Powerglide, new Overdrive (extra-cost options) and Synchro-Mesh.

Come in soon. Pick up your entry blank and get the complete details on Chevrolet's big Miracle Mile Contest. It's easy to enter and you'll enjoy yourself. So drop in while there's still plenty of time left to win!

See it—
Drive it—
WIN IT!

COMPLETE and OFFICIAL figures show that again in 1954—for the 19th straight year—MORE PEOPLE BOUGHT CHEVROLETS THAN ANY OTHER CAR!
