Army - Navy Examinations Here Tuesday

Beauty Nominations Made-

Yearbook Beauties Named Wednesday

132 Potential "Best Lookers" Named In Opening Selections

By Raymond Miller
Toreador Staff Writer

IN MASS nominations held on the campus Wednesday the names of 132 Texas Tech coeds were turned in as beauty nominees for the 1944 La Ventana. A student committee of 10 boys has been appointed by staff members and Eleanor Cotton, annual editor, to eliminate all but 32 girls. Each girl must appear before the committee at 2 o'clock Sunday afternoon, when the group meets in room 206 of the Press building.

In a general student election next Wednesday, the 16 official nominees will be named. Voting will take place only in the Administration building. A student council representative and faculty member selected by Maxine Craddock, council president, will be in charge of the election. At a later date, some celebrity will select the eight leading beauties in person. They will be featured in La Ventana with full page pictures. The other eight, as runners up, will have smaller pictures.

Nominees expected to appear in person before the committee Sunday afternoon are as follows: Rose Mary Anderson, Jean Armor, La Verne Allen, Isabel Burrus, Delores Bizzell, Jerry Blundell, Johnny Lou Bigwell, Lou Deane Blair, Margaret Ann Bell, Elizabeth Bellow, Erma Baugh, Hope Cade, Dorothy Conellus, Annie Lee Cone, Dorothy Combs, Betty Cope, Bernice Cocanougher, Betty Rhea Caldwell, Gloria Mae Caldwell, Jane Cole, Millie Coleman, Norma Croxon, Anna Jean Carpenter, Sarah Cooke.

Estele Debusk, Tommie Dean, Ethel Davidson, La Nelle Doshier, Juanita Davidson, Genevieve Decker, Sara Margaret Davidson, Ruth Day, Verda Beth Edler, Charlene Fisher, Franca Ford, Faustenna Fuffer, Margie Gerber, Phyllis Goeth, Margueriet Goza, Sue Grimes, Patsmary Gray, Hellen Billham, Earnestine Gambill, Edna Mae Gandy, Annette Gibson, Kay Greene, Ernestine Hanson.

Larue Hall, Edy Hill, Patsy Hilligier, Ann Howard, Jean Sherwood, Halbert, Betty Herring, Avis Herring, Marjane Holmes, Fae Beth Hill, Betty Jean Hughes, Evelyn Jones, Mary Johnston, Frances Kline, Martha Kuykendall, Mary Myrtle Knoohuizen, LaJana Ledford, Martha Laruche, Nita Beth Lutrick, Nelma Lane, Zelma Lee, Yvette Lynch, Barbara Livingston, Mary Langford.

Betty McCoy, Martha McLellan, Elizabeth McLarry, Mary Lou Metcalf, Dorothy Miskimins, Mary Virginia Nixon, O'Veta Morris, Nell (Abie) McClesky, Mary Maloney, Beverley Montague, Jean McGreger, Tommy Jo Mitchell, Lucille Melton, Audrey Melton, Rowena McKinley, Maybelle Murphy, Ella Glen Nettles, Nancy Neill, Rita Norman, Marguerite Nobles, Bernice Nix, Mary Elizabeth New, Peggy O'Brien, Lavon (Junior) Ostrom.

Louise Pat Patterson, Helen Pemberton, Barbara Peterson, Doris Jean Peder, Roxie Pierce, Barbara Patton, Jean Roco, Moreen Roberts, Marjorie Russell, Umpy (Elizabeth) Robinson, Earlyne Reid, Jerry Shaw, Mary Menon (Stangel), Marilyn Snider, Sara Stringl, Janelle Shanafelt, Thelma Ruth Strain, Wynona Sims, Corrienne Scroggins, Dorothy Nelle (See YEARBOOK, page 4)

Tech ROTC Officers Named

Eighty-Five Men In Local Reserve Get Promotions

Staff Sergeants Are Top Officers Here; No Higher Rankings

Appointments of cadet officers of the Engineers Officers' Training of the Engineers Signal corps battalion, Reserve Officers' Training corps, Texas Technological College, have been announced by Major Frank E. Hays, acting head division of military science and tactics. Twenty men are to be appointed staff sergeants, 19 sergeants, 12 corporals, and 34 privates first class.

Staff sergeants to finish training during the first semester are Eric Biggers, Isaac C. Enoch, Jr., Kit C. Gray, Jr., Bobby Harvey, Tom Hassel, Eldon W. Hill, Clarence D. Horn, Welford E. Hunicutt, Jim Hysinger, Robert Kent, Winston Martin, Holice C. Pruett, Fray H. Smith, Raymond Swofford, Tom Tarwater, Alvin Thomas, and Ted Melvin White. Others to be staff sergeants are Tyler A. Ferguson, Samuel G. Jackson, and Stephen G. Johnston.

Appointed to the position of sergeant are Burton Clifton, H.E. Choate, Jack E. Creel, Will Gillet, Jack Horton, Ben Kessel, Ben Logan, Gene Lunsford, Melton M. Martin, Herman Millican, Billy Ray Neal, Hal A. Pender, Richard L. Rainey, Robert W. Schultz, Donald L. Spain, Edward Sumerall, Lowell I. St. Clair, William M. Thornton, Edward Turnentine.

To be corporals are: Robert L. Carr, Roger W. Flanagan, John L. Lea, Allan J. Lewis, Phillip E. Nikel, Ray N. Rhodes, Stewart Shirey, Jim G. Simpson, Joseph E. Vaughn, Jr., Edward Veazy, Vernon Wade, August J. Wilkus.

The privates first class are: L. Alsop, Fred R. Beasley, Marion C. Bowers, Bob Camp, Floyd Cannon, Gene Collins, Jr., J. Connelly, Harold Donnell, Ramsey M. Groves, Billy Harris, Don Henderson, Crawford T. Henalee, Billy Howard, J. E. Lammore, Jr., Eugene W. Mahaffey, Steve B. Meinecke, Ernest E. McDonald, Dale McIlroy, Bobby McMenamy, Roy J. O'Hair, James M. Phy, Robert Richardson, Elbert V. Rogers, E. R. Scuday, Jimmie Siman, Jr., Don Sloan, Albert J. Smith, Jr., J. G. Strickland, John L. Swanson, William H. Treet, Barton C. Willingham, Carol Wilson, and Charles L. Winn.

Heads Of A & S Division Meet

Chairman For Three Groups Are Named

In an effort to redefine its functions in the present war conditions and post-war days the division of arts and sciences called a meeting of chairmen and representatives from various departments yesterday afternoon.

It is planned by the dean and assistant dean of this division to give every faculty member of the division an opportunity to contribute to the reorganization. For a practical working plan arts and sciences division has been divided into three major groups: natural sciences and mathematics, social science, and languages. General chairman for each of the groups was selected, and two members from each department were chosen. The chairmen and representatives are: Languages, Dr. W. B. Gates, chairman, R. A. Mills, C. B. Qualia, A. B. Strehli, J. P. Blizt, D. O. Wylie, Annah Jo Pendleton, and Helene Blattner. Social sciences chairman is Dr. R. E. Garlin, and representatives are L. B. Cooper, W. C. Holden, Earnest Wallace, A. C. Pender, J. W. Davis, A. J. Bahm, Cecil Horne, Louise C. Allen, Morley Jennings, Polk Robinson, Johnny Langford, and Margaret Mancipelli. Natural sciences and mathematics chairman is Dr. Leroy T. Patton; representatives are R. A. Studhalter and M. F. Landwer, R. C. Goodwin, W. M. Craig, M. A. Stainbrook, J. N. Michie, R. S. Underwood, C. C. Schmidt and Jules De Launay.

These representatives met with Dean J. M. Gordon and Assistant Dean Albert Barnett and discussed the effective functioning of arts and science division in wartime and after. It is planned later on to invite entire faculty to meet and discuss various phases of this general problem.

Texas Tech Art Institute Has 24 New Exhibits

Works Of Living Americans Included In The Purchase

Texas Tech Art Institute has acquired 24 paintings and prints since last fall, F. A. Kleinschmidt, director, announced Wednesday. Gifts and purchases for the past year have an appraised value of \$570.

The American Federation of Art, Washington, D. C., presented several paintings, with the understanding that the institute would purchase works of living Americans equal to the value of the gift.

Paintings received in this way were: "Red Station," an oil painting by Alger; "Figure Composition" in water color by Freitag; "Small Landscape," a water color by Gates; "Sunlight (Autumn)," also by Gates; "Mr. Brown's Buggy" by Jameson; and two water colors by Keller, "Ships" and "Docks."

The institute purchased a collection of 15 prints from Doel Reed, a southwestern artist, many of which had been selected among the 100 best prints in America in some of the annual contests. One of the prize-winning prints, "Oklahoma Barn," was presented to the institute with the original copper plate from which the print was made.

Professor Carl Compton of Southwestern university at Georgetown presented the institute with one of his water colors of Mexico. An additional water color was purchased as a companion piece.

As soon as the pictures are adequately framed, they will be on exhibition in West Texas museum.

Special Training Offered Students

Students Who Qualify To Get Education Through Government

By Margaret Long
Toreador Associate Editor

SECOND Qualifying test for the Army Specialized Training program and the Navy College program V-12 which will be given throughout the country on Tuesday, Nov. 9, will be administered at Texas Tech as announced by Dr. H. L. Kent this week.

Campus Pet Lover Is Aggie Major

Snakes, Hamsters Are Edith Ward's Hobby

A pet lover on the campus, Edith Ward, junior animal husbandry major, has no preference as to what animals or birds make the best pets. Failure to distinguish her favorites from different kinds of birds including mocking birds, crows and doves, to snakes, prairie dogs, horses, cows, dogs, pigs, rabbits, guinea pigs, and finally to Syrian hamsters. (If you must know what a hamster is, ask her, for she is quite familiar with its appearance, habits, and peculiarities.)

Red-headed Edith with her flashing smile names horseback riding as her favorite sport.

"I've always liked to work with animals," Edith simply replies when explaining her chosen major. She plans to do research on the breeding of animals at an experiment station after graduation.

Edith is the older of two daughters of Maj. Gen. Orlando Ward, now in charge of the tank destroyer center at Camp Hood and recently returned from active duty in Tunisia. She has seen a great deal of territory for her twenty years, having lived in eight different states of the union, Washington, D. C., and the Philippines.

For the past two years she attended Colorado college, Colorado Springs, where she had to "put up a fight" to remain an Aggie. Edith likes Tech, especially since she was accepted into the agricultural division.

ROTC And ASTU Shocked At The Sept. 9 Orders

Readers of the daily bulletin of the ROTC and ASTU, Texas Technological college, were probably shocked to find this among the special notices and orders of the Sept. 9 issue.

Private Henry Dale Weston, Jr., having reported at this station in compliance with orders from headquarters of West Texas hospital on Sept. 8, is assigned to ASTU No. 3888 class of 1945. Private Weston will report without delay to Captain and Mrs. Henry D. Weston for rations, quarters and duty.

Then, when they read the following notice in the October 5 issue, they were probably looking forward to the next bulletin with wonder.

"Pvt. William Elmo Beck, Jr., having arrived this date at the West Texas hospital, will report to Lt. and Mrs. William E. Beck, commanding officers of the Beck Provisional unit for administration and duty. It being impracticable for the government to furnish rations and quarters, Private Beck will receive separate rations and quarters at the rate of one crib for quarters and necessary special baby foods for rations. Upon completion of 18 years service, Private Beck is appointed Pvt. 1st Class and transferred in grade to the 3888 service unit, Texas Technological college, reporting for duty to the commandant thereof no later than Oct. 4, 1941."

Faculty Football Tickets Now In Jennings' Office

Faculty members are requested to get their tickets for the remaining home football games, Oct. 16, 23, and Nov. 13.

Tickets will be available in the office of Morley Jennings after Friday. He urges all faculty members to pick up their tickets as soon as possible.

Facts Of New Invention Discussed By Whilhit

Members of physics seminar 411 met Tuesday night to hear a special lecture on spherophones. J. G. Whilhit, the speaker, brought light many interesting facts about a new invention that will soon have far-reaching results in the field of sound reproduction.

Next week, Dons Robbins will speak on the subject "Theories Regarding Sun Spots". Meetings are held each Tuesday evening, in room C-116, at 7:30 o'clock.

Cossack Chorus To Appear On Artist Course Oct. 25th

The General Platoff Don Cossack Chorus, under the direction of Nicholas Kostroff, which will be presented Oct. 25 in the Lubbock high school auditorium, is the next feature on Tech Artist course.

The Don Cossack chorus is a group of Russian musicians, dressed in the Cossack military uniform, from the region of the river Don. It takes its name from the famous Russian General Platoff. The program contains liturgical music, folk song, and battle songs. There are also a number of dances, one of which is the outstanding feature of the performance.

"This is not the same Cossack chorus which sang here some years ago for the Artist course," Prof. R. A. Mills, Artist course chairman says.

The Cossack chorus has given some 4,000 concerts, touring the world from Londonderry to Cape Town, from Singapore to San Francisco. At present they are giving many concerts for soldiers in the various camps.

Tickets are on sale at the Adair Music Company, 1012 Main street. General admission tickets are \$1.25, and reserved seat tickets are \$1.50.

The DePaau, twice-weekly publication of DePaau university, has been published since 1852.

Don Budge On Tech Campus With Pre-Flight Detachment

Don Budge, world recognized tennis champion, is now stationed on the campus with the 309th Air Crew detachment. He was assigned to this division from the West Coast Flight Training command at Santa Ana, Cal.

Budge entered military service Feb. 18 at San Francisco. He has been stationed at Sheppard field, Texas, Klotzwood field, North Carolina, and was graduated from Officers Candidate school at Miami Beach, Fla. August 21. On receiving his commission he went directly to the West Coast Flight Training command to be assigned a definite post. He is tactical officer for Squadron F in Barracks 1.

Budge says his one claim to fame is that he is the only person to have won four major championships in one year. That year was 1938. The championships consist of Australian, French, English and American. Bobby Jones once did the same thing in golf. They are the only two athletes to hold this record.

In the national ranking of 1934, Budge was given first mention in tennis and was classed ninth in the field of 10 top tennis stars of that

DONALD BUDGE

year. He first became interested in tennis in 1929, and was an amateur until in 1938 when he won the four matches. In 1939 he began playing tennis professionally.

Shortly after entering college at

the University of California, Budge was invited by the American Davis Cup committee to go to England. He withdrew from school and went as an extra member of the team. His tennis was good enough for him to be placed on the regular team. Other foreign countries where he has played matches are France, Ireland, Scotland, Belgium, Holland, Germany, Hungary, Czechoslovakia, Yugoslavia, Australia, New Zealand, Honolulu, Fiji islands, and Samoa islands.

The only matches he has played since he has been in military training were played in Florida for the benefit of wounded soldiers. April, 1942, was the last tour he has made since the war started.

Budge married Desiree Counselman of Los Angeles in 1941. Mrs. Budge's father was originator of the "Ella Cinders" comic strip, and was a Hollywood scenarist, having written pictures for Will Rogers, Bing Crosby and some for Shirley Temple. Budge met his wife when she was in school at Stanford university.

Lt. and Mrs. Budge live at 2306 16th street.

A pamphlet of general information containing an admission-identification form may be obtained at Dr. Kent's office, 215 Administration building. This form properly filled out will admit to the test students between the ages of 17 and 21 inclusive who are recent high school graduates or who will be graduates by March 1, 1944. Intent to take the test should be made known immediately to Dr. Kent at his office in order that the necessary test supplies may be ordered.

The same examination will be taken by both Army and Navy candidates. The examination is designed to test the aptitude and general knowledge required for the program of college training, and all qualified students are urged to take the test. At the time of the test each candidate will be given choice of service preference, but taking the test does not obligate the candidate to enlist in the service.

The Army Specialized Training program and the Navy College program enable students to continue academic training at government expense following induction into the armed services. Successful completion of the prescribed courses may, following further officer training, lead to a commission in the Army or Navy.

Those selected for the Army will, after further screening and basic military training, be sent to college. Students chosen for the Navy program, after selection by the Office of Naval Officer Procurement, will be detailed directly to college. Students who attend college under either of the programs will be under military discipline on active duty in uniform with all expenses, including tuition, food, housing, books, and uniforms will be paid by the Army or the Navy.

College students who took the test April 2, 1943, and failed, may, if within the ages of 17 to 21, take the test again on Nov. 9.

The hours and rooms in which the test will be given will be announced at a later date. Watch for announcement.

Tech Professors Speak At Forum

W. F. Helwig, electrical engineering professor, and Dr. Dean Parker, zoology instructor, spoke Wednesday night at the After-Dinner forum in the Hilton hotel. Professor Helwig talked on "Ancient Coins and Mythology," and Dr. Parker on "Eugenical Sterilization."

Members of the After-Dinner forum are: Helwig, Parker, Lt. Leroy L. Booth, Major Frank Hays, professors James G. Allen, J. W. Melton, Aaron G. Oberg, Alan E. Herr, M. G. Pederson, Robert Lockard, Polk Robinson, Harold M. Hefley, R. G. Sidwell, E. R. Heinemann, Grayson Meade, Ernest Wallace, J. William Davis, L. J. Powers, and A. B. Strehli.

Catalogue vs Constitution

THERE comes a time in the life of every *Toreador* staff when the C average question rears its ugly head, and strikes without warning or partiality at the students of Texas Tech

The question that is raised in our minds is not concerning the whys and wherefores concerning students who do not maintain such an average, but as to the need for such an average by certain persons for certain extra-curricular activities.

Waxing strong on the campus at present is the heated discussion of the eligibility of our assistant yell leaders. These three students have received letters from Maxine Craddock, student president, informing them that they have no right to hold office according to the catalogue.

What we are vitally interested in is whether the student government is to be overrun by this catalogue, or if we are to stick to the student constitution, which was written for the exact purpose of determining the rules by which students may participate in said activities. There must be a choice made somewhere, and it must be done soon to avoid the continual contradiction of these two articles.

Texas Tech has long boasted of its democratic system of student government, and where the school is known, this is its outstanding characteristic. But if our constitution fails to hold up under Administrative fire, then it may as well be discarded and our student council be disbanded permanently.

We quote the 18th catalogue of Texas Tech College, page 68, under the topic *Eligibility For Extra-Curricular Activities*: "Any undergraduate student not on scholarship or disciplinary probation who is regularly registered for twelve or more semester credit hours is eligible to become a candidate for student office, or may represent the College in any extra-curricula activity, provided such student has a grade average of at least 1.00 for both the whole of his college work and that of the preceding semester on the complete scholastic load" . . . etc.

Also included in this topic is the statement that the above includes any elective or appointive office of the campus.

The student constitution, however, does not state the necessity for having such an average. Article 8, Section 2 says: "The Head Yell Leader shall appoint two male assistants. The elected girl yell leader shall appoint one girl assistant. The three appointed yell leaders shall have at least full sophomore standing. There shall be no freshman yell leader."

To have a full sophomore standing, a person does not necessarily have to have sufficient grade points. Students who have the proper amount of hours, 30, are considered sophomores, regardless of their grade-point standing. We contend, therefore, that the present assistant yell leaders have the right to maintain their office according to the constitution.

Those who propose to remove these persons from office contend that the catalogue is the supreme power. We realize that the Administration has the power to veto any act they wish, but if we are to abide by their catalogue and forget our constitution, then we may as well forget our idealistic preachings about democracy on this campus.

Other proponents of this C-average-war contend that the constitution itself says that assistant yell leaders must have the disputed average to be eligible for office. According to our study of it, this is pure propaganda by a few misfits who are perhaps a little envious of the present office holders.

These persons quote from Article 7, entitled Elections, of the constitution which says that the yell leaders must have a C average to maintain office. We wish to correct this mistaken idea, and point out that this deals exclusively with those yell leaders elected to office, and does not, in the least, concern the appointed ones.

We do not fully understand what caused this sudden outburst by the student council regarding assistant and appointive offices. We can cite many instances where appointive office-holders had no such average as is demanded at present.

The late Bud Barnes announced his candidacy for the position of boy head yell leader a few years back, and was proved to be lacking in grade points for that position. He was appointed by "Chocky" Fair to serve as assistant, and did so for the entire year.

Another case, and more recent, was the same situation last year. Rex Harris and Leslie Nichols were assistants during the year to Brad Gilbert, with neither having the newly required average.

With these points presented we can see but one solution. The student constitution must remain the law on such minor questions as the present one. The present assistants have been doing a marvelous job, even securing a guarantee that Techsians could have buses to the SMU or TCU game, and have been keeping the Raider spirit at a high key considering that the student body is scattered from Avenue A to Monroe Avenue and further, and from 1st to 34th.

Perhaps our word will have no effect on the present situation, but we believe that students had best awaken to the fact that anything can happen, and will happen, if we are not on our toes. We sincerely hope that the Student Council will waive the letters released, and will allow at least Tech's fighting spirit and enthusiasm to go unmolested.

AMERICAN HEROES

BY LEFF

After being blown through a window by a bursting shell and stunned by a 14-foot fall during the bombardment of Sand Island, Marine Staff Sergeant Dale Lester Peters of Breckenridge, Michigan, struggled to remove large aerial bombs from nearby burning hangars. He has been awarded the Navy Cross for exceptionally meritorious service and disregard of his own safety during this action. What hardships are you willing to disregard to invest in Payroll Savings?

Not Enough Toreadors?

THE TOREADOR office has been receiving complaints about the small number of papers being printed this year. Many students who don't have early classes have found that all the copies are gone by the time they arrive on the campus.

This is an unfortunate situation, but it can be very easily explained. Student activity tickets include a year's subscription to the TOREADOR, and only ticket holders are entitled to receive this publication. Only 906 activity tickets have been sold this year. And as the TOREADOR is on a rather limited budget, no more copies can be printed than have been paid for. Naturally, 906 are not enough for each of the 1657 students enrolled to have one; hence, the papers disappear early.

We feel sure that non-ticket holders have no intention of being unfair when they take TOREADORS, because there are those who think tickets are only for athletic events. However, only six dollars of the ten paid-goes to the athletic council. One dollar goes to the TOREADOR, and the rest of the fee goes to the Matador band and other college activities.

The purchase of student activity tickets has never been compulsory. In our opinion, however, buying one is among the most beneficial ways one can show his loyalty to Tech. It is the student's privilege as well as his duty to support extra-curricula activities to the best of his ability.

If one wishes, he may subscribe to the TOREADOR without buying an activity ticket. Subscriptions are seventy-five cents per semester, and may be either mailed or brought by the TOREADOR office.

We have no way of checking to see whether or not the paper's subscribers are the only ones who get copies. A sense of fair play is the only thing that can make the present system of distribution adequate. Students of Tech, we are counting on you!—E.H.

Professors Only

CAN YOU estimate how long it will take a student to prepare the assignment you have just given him? Consider the fact that giving the assignment is routine to you, but getting it up is something new to the student. Consider also that some can comprehend more quickly than others, which does not mean that the others are not intelligent.

There are students on the campus who are just conscientious enough to spend all night on a lesson in order to get it. Two hours of preparation is required for each hour spent in the classroom. That means that a student taking a normal number of hours should spend at least forty-five hours on his school work each week. Add the time that it is necessary for him to sleep, eat and spend otherwise, and there is enough time left to keep Jack from being a dull boy. Of course, yours is only one subject that Jack takes, but if you give him an assignment requiring five hours of work instead of the required two, how are you to know that several of his other teachers have not done the same thing? He can study all night and go to class the next morning still half prepared and in a sleepy daze, and you will probably say he spent the night in various amusements.

Jack is human enough to want a little for diversion. His conscience is not going to hurt him if he takes it. Naturally, some students are extreme in their calculations of just how much time should be spent for extra-curricular activities, but too often the light in a really studious person's window does not go out until three o'clock in the morning.

There is another thing we students think we have a right to rebel against. Too often those term reports of up to twenty pages are not announced until a week before they are due—usually the last week in the semester when several other teachers have suddenly decided that a little research will do Jack good.

Give us all that can normally be expected of us to do; we have paid for it and are being cheated if you do not, but take into consideration the fact that there are few things we like to do and will do besides study. Give us more time on our extra long assignments. V. C.

In The Editor's Mail

October 4
Mr. Bill Barnett, Editor
The Toreador
Texas Technological College
Lubbock, Texas
Dear Bill:

Your splendid editorial on the conditions of our Avenue hangouts in last week's *Toreador* was very timely, and I want to congratulate you on putting this question before the students of Tech in such a clear way.

It is the hope of the majority of the students on our campus this year that some action be taken toward cleaning up the things you have written about, and *The Toreador* can be an effective means for beginning and continuing such a drive.

Thanks again for a swell editorial.

Sincerely yours,
Neyland Hester
Editor's Note—This letter was delayed in the mail and failed to reach us by publication time. We are printing it in this issue, because we hope to show that the writer of the recent article concerning the conditions of local drugstores is not the only one who feels that way. Also, a

compliment is a compliment, and at present they are too few and far between . . . Thanks for your interest Neyland . . . Ye Ed . . .

An Ugly Man contest was sponsored last spring on the San Jose State college campus in California by Alpha Phi Omega, scout service fraternity. At a penny a vote, \$150 was earned by the ballots to contribute to a war purpose.

Women students out number the men at the University of Texas this fall for the first time in history. The normal proportion is two men to each woman, but in this war year, registration of women is 3,291 as compared to 3,155 men.

Parking Problems . . .

A Techsan Speaks

—By Barnett

TIRES may come and gas may go but parking problems we have always. Once again campus parking is brought to the attention of the writer and the students, though in a much different light than has been cast in the past.

During years gone by, for the benefit of the frosh, The Toreador has found it necessary to campaign on various occasions to reserve the right for Techsians to park on the campus without being molested by city officials. In past years this caused quite a heated discussion between downtown papers and this one.

However, I am leaving all this behind with the hope that it was well settled during those trying times. The present problem of parking is one that occurs about the main buildings on the campus.

Last week the paper carried an article discussing hitch hiking, and accused pedestrians of being color blind. I have begun to wonder, and to notice, since that time if some of our campus drivers are not even more inclined to be blind (period).

During the summer, or my memory being short, during last spring, red lines were painted surrounding the Administration building accompanied by bold black letters that read NO PARKING! Also, a campaign was carried on by APO striving to halt parking around the main buildings here.

During busy hours, especially with the pre-flights marching to and from classes, there is little room left on the circle for a normal amount of traffic, not including busses, and cars which frequent this section of the city seeking a short way home. With a double row of cars parked from the Home Ec building to the Chemistry building it takes a combination of Jimmie Lynch, the daredevil, and Barney Oldfield, the speedster, to navigate safely (?) the area included in this block.

And what of poor work-gone students who must ford this stream of vehicles, dodge between parked cars, and get safely (again the ?) to the opposite side of the street?

The answer is simple. They take their life in their own hands, and are lucky to escape with no breaks or bruises.

Long ago our college fathers built this college on the wide area it now occupies, and laid out ample space to afford all drivers a place to leave their car without obstructing traffic. But came the modern chariot, along with the modern Ben Hur, and a sane life was no more sacred on the streets here.

Fast disappearing, we thought, were the crowded parking spaces

mention EDY HILL and MARY WELLS this week. Instead, I think I'll close shop and go home! But before I go I just must add that VIRALYN PATRICK has a lot of "buddy-buds" that she hasn't heard about. Haven't you VIRALYN?

Five out of every six members of the 1943 graduating class in agriculture at Washington State college are in the armed services. Of those who are not in uniform, three are working for state governments or institutions, one is teaching vocational agriculture and two are farming.

Two non-academic members of the Randolph-Macon women's college staff, Lynchburg Va., have been with the school ever since its founding in 1893. The two are Mr. Burks, superintendent of the buildings and grounds, and "Aunt Maria", for half a century a maid in the college dormitories.

Red Raiders Return Home For South Plains Battle

Three-Time Losers Hope For Victory

Brewer And Dudley Injured; Listed As Doubtful Starters

COACH Dell Morgan's battered Texas Tech Red Raiders, recovering from a 7 to 34 trouncing handed them by the Golden Hurricane of Tulsa university last Saturday in Tulsa, went through intensive drills this week preparing for their second home game of the season tomorrow night against the South Plains Army Air field's Winged Commandos.

The Commandos are likewise seeking a comeback after a severe 40-0 trampling handed them by the Southwestern Pirates of Georgetown in Tech stadium last weekend.

On the ailing list, but still holding a chance to start against the army team, are Don Dudley, right end; and Bob Brewer, half back and fullback. Dudley sustained a rib injury in the Tulsa battle, and remained in his home town, Wichita Falls, early this week for treatment. He is expected to be ready for action tomorrow night, but will probably not play unless he is absolutely needed.

Brewer, who received an ankle injury in the Texas Aggie 0-13 defeat, missed the Tulsa trip, and was still favoring the injured limb during workouts this week. If he does play it will be under the same conditions as Dudley, although his leg is healing satisfactorily.

Striving for more perfection in the line Coach Morgan has moved Raymond Smith from his blocking back post to tackle. Smith, holding a discharge from the Army and with considerable experience behind him, has shown up well defensively at this position.

The backfield remains a big question mark for coaches, players and fans. During the Tulsa game Coach Morgan used tailbacks Buster Melton and Freddie Brown in the same backfield, alternating at the wingback and tailback post whenever needed. Whether Morgan intends to make a permanent change in this combination will not be known until Saturday night. Melton has also been running at the fullback post some during the week, and has looked well in that position. During the Tulsa fray it was Melton's superb defensive play from the halfback slot that on several occasions saved Tech from a more severe beating at the hands of the Hurricane.

Since the injury of Walter Schlinkman, and the departure of Buck Gilenwater, the two Raider captains, Coach Morgan has been appointing game captains. During the Texas Aggie fray, Melton was the captain, and Brown succeeded him during the Tulsa game. No announcements are made previous to game time as to the choice of the coaches, and the appointment is made in the dressing room immediately before kickoff time.

The kickoff for tomorrow night's game is scheduled for 8:15 p.m. in Tech stadium. Admission prices will be \$1.65 for reserved seats, \$1.10 for general admission, with soldiers and wives admitted for 50 cents.

Morely Jennings, athletic director, has announced faculty tickets for the three remaining home games on October 16, 23, and November 13 are now on sale and urges all faculty members to get them immediately.

A significant collection of historical legal and economic material on the republics of Columbia and Venezuela has just been acquired on the Berkeley campus of the University of California.

The historic gowns of the wives of the presidents of the Republic of Texas and the governors of Texas are housed in a museum in the art building of Texas State College for Women, Denton.

Play-By-Play Account Given Of Tulsa Game

FIRST QUARTER

The Kick-off—Tulsa won the toss and elected to receive, Tech defending the south goal.

Tech-Browning kicked off out of bounds and Tulsa took over on its 35.

Tulsa-Leforce swept inside his left end for 5 yards. Taylor took a pass off from Leforce and went 11 yards inside his right end for a first down. Leforce cut over his left tackle. Tech was penalized 5 yards for offside. Taylor plowed through a big opening at center and raced for a first down. Winkler made the tackle. Leforce cut back at right guard for 5. Winkler stopping him. Taylor dashed through to the 3.

Taylor plunged over for the touchdown.

Score: Tulsa 6, Texas Tech 0. Leforce converted. Score Tulsa 7, Texas Tech 0.

The Kick-off—Burgess kicked off for Tulsa to Tech 2, from where Brown returned to the Tech 27.

Tech—Winkler tried the Tulsa center and got one yard. Brown lost a yard at his left end. Brown faked a punt then raced for 7 yards before E. Jones and Kowalski stopped him. Brown punted from his 22 to Leforce on the Tulsa 27. Leforce returned to his 35.

Tulsa—Shedlosky reversed at the Tulsa right end for three yards. Leforce's first pass of the game was knocked down and almost intercepted by Pirie. It was intended for Goodnight.

Leforce failed to find a receiver and lost his yard. Leforce punted to Freddie Brown on his 21, and he wriggled his way back to Tech 41.

Tech—Stanley stopped Brown after one yard gain. Dick Jones dropped Brown on his 33 as he faded to pass. Brown punted from the Tulsa 30, from where he returned to the Tulsa 34.

Tulsa—Ford was stopped by Bechtel after one yard. Ford faked a punt to the left guard for only one yard. Ford punted to Brown on his 22 who returned to the Tulsa 28.

Tech—Brown then punted to Ford on the Tulsa 49 after a series failed to gain from where Ford returned 10 yards before Dudley stopped him.

Tulsa—Shedlosky reversed inside his left end for four yards. Ford lost nine yards. Tulsa was penalized for holding, back to the Tulsa 38. Ford picked up six yards and almost intercepted by Pirie, but the play was recalled and Tech penalized for roughing the kicker, placing the ball on the Tulsa 49 with a first down. Taylor plunged for three as the period ended.

Score: Tulsa 6, Texas Tech 0.

SECOND QUARTER

Tulsa—Ford's pass intended for Shedlosky was incomplete. Ford punted kicking to Brown on his 10 who returned to the Tech 21.

Tech—Brown took two. Brown then cut back at his right end for seven yards. Luhn and Dowalaki tackling. Brown kicked short to the Tulsa 48 where Browning recovered a live ball for 20. The ball had struck a Tulsa player, giving Tech a first down at that spot.

Brown then rushed punting after a series of no gains.

Tulsa—Leforce shot a hot one down the center to Luhn, but the play was nullified as the Tulsa backfield was in motion. Leforce then punted over the goal line and Tech took over on its 20.

Tech—Brown quick-kicked over Wade's head to the Tulsa 45 after line plays had failed to gain.

Tulsa—Tulsa was penalized 15 yards for clipping. Wade then made seven yards. Wade's pass was long. Wade swept his right end and cut back beautifully for 21 yards and a first down on the Tech 36. A Wade pass was incomplete. Wade faked a pass and then handed off to Walker who went for seven yards around his right end. Walker made it first down on the 10. Tulsa was holding the play and penalized to the 36. Taylor punted out of bounds on the Tech 3.

Tech—Brown punted out to Wade on the Tech 41, from where he returned to the 37. Williams making the tackle.

Wade hit inside right tackle for three one yard. Walker reversed his left end for five yards. Pirie made the stop. Wade punted out on the Tech 10.

Tech—Brown faked a pass and ran his right end to the Tech 19, where Bob Smith tackled him. Brown was injured on the Tech 3.

Tulsa—Leforce shot a hot one down the center to Luhn, but the play was nullified as the Tulsa backfield was in motion. Leforce then punted over the goal line and Tech took over on its 20.

Tech—Brown quick-kicked over Wade's head to the Tulsa 45 after line plays had failed to gain.

Tulsa—Leforce shot a hot one down the center to Luhn, but the play was nullified as the Tulsa backfield was in motion. Leforce then punted over the goal line and Tech took over on its 20.

Tech—Brown quick-kicked over Wade's head to the Tulsa 45 after line plays had failed to gain.

AMERICAN HEROES

BY LEFF

Beneath the relentless hail of bombs in a Japanese air attack in the Pacific, Private William C. Hamby, OMC, drove nurses and wounded to the hospital and went back again and again to bring in more of the injured. He made seven trips in all and won the Distinguished Service Cross. How many Third War Loan Bonds can you yourself afford, to match those seven trips of Private Hamby?

U. S. Treasury Department

play and left the game. Melton punted to the Tulsa 45, where Leforce returned to the Tech 40.

Tulsa—Allen Smith plunged for a first down on the 27. Shedlosky raced around his right end for another first down on the 14. Williams making the tackle. Smith and Leforce carried to the one-yard line. Smith punched through center for the touchdown.

Score: Tulsa 13, Texas Tech 0. Shedlosky holding. Leforce place-kicked for the extra point.

Score: Tulsa 14, Texas Tech 0. The Kick-off—Burgess kicked off over the goal line to Melton who ran back to the Tech 25 before he tripped and fell.

Tech—Melton cut back at right tackle but failed to gain as the half ended.

Score: Tulsa 14, Texas Tech 0.

THIRD QUARTER

The Kick-off—Burgess kicked off for Tulsa to Peden on the Tech five, from where he returned to the Tech 15.

Tulsa—Leforce turned his right for no gain. Brown was stopped by the Tulsa line for a two-yard loss. Brown then punted dead to the Tech 46.

Tulsa—Taylor punched center for two. Browning making the stop. Leforce cut back between Brown and Winkler to elude both and score.

Score: Tulsa 20, Texas Tech 0. Shedlosky holding. Leforce converted from a placement.

Score: Tulsa 21, Texas Tech 0. The Kick-off—Burgess kicked off over the goal line and Tech took possession of the ball on its 20.

Tech—Winkler failed to gain at center. Winkler then cut back at left tackle for eight yards. Brown then quick-kicked over Leforce's head to the Tulsa 25, where the ball rolled dead.

Tulsa—Camp Wilson crashed over his right tackle for five yards. Leforce broke into the open through right tackle and appeared to be away for a touchdown, but Winkler brought him down from behind.

Tulsa—Leforce's pass and then ran his left end to the three. Tulsa was off-sides and was penalized to the 18. Leforce then punted to the Tech 44.

Tulsa—Ford's pass intended for Wade was low and incomplete. Tulsa was penalized for pushing, giving Tech the ball on the Tulsa 48. Thompson crashed through his left tackle for seven yards. Brown then shot a long pass to Wade. Tech end, who was caught by Field on the two. Brown then lost one at right tackle. Winkler got two at center.

Tulsa—Ford angled his punt for the northwest corner but missed the side-line by a yard, giving Tech the ball on its 20.

Tech—Brown was stopped for a two yard loss. Winkler lost another yard. Winkler punted to Ford on his 46 who was chased back to his 33.

Tulsa—Ford punted to Brown on his 27, and he returned to the Tech 44, where Bob Smith brought him down.

Tech—Brown's pass intended for Bechtel was low and incomplete. Tulsa was penalized for pushing, giving Tech the ball on the Tulsa 48. Thompson crashed through his left tackle for seven yards. Brown then shot a long pass to Wade. Tech end, who was caught by Field on the two. Brown then lost one at right tackle. Winkler got two at center.

Tulsa—Ford angled his punt for the northwest corner but missed the side-line by a yard, giving Tech the ball on its 20.

Commandos Polish Offense For Tech

Not Disheartened By Defeat By Marines SPAAFS Seek Win

SPECIAL TO THE TOREADOR—Not the least disheartened by their jolting 40 to 0 loss to Southwestern university, one of the nation's top-ranking football teams, South Plains Army Air field's Winged Commandos were polishing up their offense this week in preparation for Texas Tech's Red Raiders at 8:15 o'clock tomorrow night in Tech stadium.

Although the Winged Commandos completed 12 of 38 passes for 77 yards aerially against Southwestern's Pirates, Coach Nathan B. Eubank was putting the soldiers through extensive drills to sharpen their offensive punch. Failure of the Commandos to gain against Southwestern on the ground did not discourage Captain Eubank particularly since massive Southwestern line yielded only 20 yards rushing in four games to date.

The SPAAF passes carried the Commandos to the Southwestern 11 and 19 yard lines in drives during the second half and SPAAF became the only team which has penetrated twice within the Pirate 35-yard line in the same game so far.

On the beam defensively, although unable to stop the lightning-like runs of Ken Matthews and the locomotive drives of Jackie Field, SPAAF pushed the Pirates back for a total loss in yardage from scrimmage of 56 yards, more than Southwestern has lost in any of its games this year.

SPAAF was battered and bruised from the hard game with the Pirates and several players were doubtful starters against Tech because of injuries. First string tailback Ray Cagni is still out with a ripped ligament sustained in the Lubbock Army Air field fracas and tailback Don Jackson and wingback Bernie Stock were shaken up with slight injuries in the Pirate game. Jackson is SPAAF's most elusive runner.

John Carpenter, 170 - pound SPAAF end, appeared to be out with a broken foot from the Pirate game and probably will be on the bench for some time. Carpenter is the end who trapped Field behind his own goal in the Southwestern fray, forcing Field to pass out to Matthews on the 11, resulting in a 12-yard loss from the line of scrimmage for the mighty Marines.

The presence of 145-pound line-back Joe Eager in the SPAAF may indicate that SPAAF again will attempt to pass their way to a victory in the absence of a strong running attack.

The opening kickoff Saturday night will find Maurice Daubin, weighing 180 pounds from Fresno State college of California, at

The first yearbook published by a military organization on the University of Texas campus will come out in mid-February when the University Naval ROTC distributes its 70-page annual.

Because Lawrence College, Appleton, Wis., is the only Midwest conference school with a football team this year, it was difficult for the school to find opponents to meet on the gridiron. It looked as though Lawrence would have to celebrate a football-less Homecoming though Lawrence would have to ing until it was learned that Notre Dame's V-12 team had no game scheduled for October 16. Lawrence college officials were successful in persuading the Notre Dame team to play that day so now Lawrence no longer looks forward to a barren homecoming.

Every man enrolled in the V-5 unit at Illinois Wesleyan purchased a war bond in the third loan drive.

Ex-Student Studies Despite Jap Bombs

Corporal Ben Williams Now "Somewhere In South Pacific"

By Betty Davis
Toreador Staff Writer

CAN YOU imagine how it would be to study to the music of falling bombs instead of your "roomies" loud radio? Nothing less than an earthquake could interrupt the studies of Corporal Ben E. Williams, former Tech student. He is going ahead with his studies even though in actual combat, while the majority of us find it difficult to study with no interruption more serious than the urgent conversation in the next room.

We also find it hard to walk across the campus to hand in an assignment, but think what a long journey it is from "Somewhere in the Southwest Pacific" to Lubbock, Texas. Corporal Williams' third lesson in a course in General Business 334 (Business Law) was received in Tuesday, October 5 by Dr. J. O. Ellsworth. Postmarked Sept. 23, it took it almost two weeks to come by air-mail. The envelope containing the letter and lesson was badly frayed; in fact, the edges were almost worn away. Perhaps the plane carrying it had many close calls while flying over enemy-occupied territory.

Corporal Williams was born in Clarksville, Tenn., graduated from the Paschal High school, Fort Worth, and attended Rice Institute and the University of Texas be-

fore coming to Texas Technological college. He attended Tech from February 1939 through June 1941. He is a junior in the division of commerce.

This course is but one of more than two hundred courses the extension division is giving to service men everywhere. These courses are sponsored by the United States Armed Forces Institute and the extension division of this college. The institute pays one-half of the enrollment fee and book cost, the extension division of this college. The institute pays one-half of the enrollment fee and book cost, and Tech is giving one-third discount on the cost of the course. This discount is made possible through the cooperation of more than seventy-five instructors who regularly give instruction through correspondence. Men taking correspondence courses are located in every section of the world. They are scattered from Texas to India, from Alaska to Australia.

Approximately thirty prospective pledges were present at the regular meeting of Kappa Kappa Psi, band fraternity, Monday night. The majority of those present were freshman band members. Various activities were planned for the year.

Football Reception Sunday Evening

President Jones Host Of Affair From 3:30-5:00

Women's Dormitory Association And AWS Sponsor Annual Tea

The reception for football boys, sponsored by the Women's Dormitory Association and AWS, will be held Sunday afternoon from 3:30 until 5 o'clock in the home of President and Mrs. Clifford B. Jones on Tech campus.

Included in the receiving line are President Jones, Coach's Dormitory Association, Polk Robinson, Morley Jennings, H. C. Pender and H.F. Godeke, members of the athletic council; Walter Schlinkman and Buster Melton, football captains; Maxine Craddock, president of the Student Council; Missy McMon Stangel, AWS president; and Rowena McKinley, girls' dormitory president.

Members of the football team will be present throughout the reception and will be introduced to the guests in groups of five in order to make the reception as informal as possible.

Presiding at the serving table will be Mesdames W.L. Stangel, Pender, Robinson, Godeke, Jennings and Morgan.

The house party will include Mesdames Jones, Elizabeth Young, Mary W. Doak, Betty McCoy, Anna Baker, Eugenia Butler, Sara Eliland, Lucille Melton, Frances Ford, Betty Rhea Caldwell, Ophelia May Beall, Norma Lee Thornton, Patsy Smith, Anita Hale, Jo Hal Wofford, Madelyn Weeth, Elsie Mae Kimrey and Ernestine Gammon Stangel.

Refreshments of spiced tea, white cake, sandwiches and candies will be served from a table centered with a bouquet of garden flowers. Piano selections will be presented during the afternoon by various members of the planning committee.

All students attending Tech are invited to attend the reception.

Fourteen Men Named Pledges To APO Society

Alpha Phi Omega's formal fall pledge service was held Tuesday night with President Eike Gorey in charge of the ceremony. Fourteen men were given the pledge oath.

They are: Gene Collins Jr., Floydada; Bob Williams, Lubbock; Herbert White, Borger; Jimmie Velvin, Big Spring; Horace Underwood, Garden City; Robert Ward, Spur; Jimmy Oates, Seminole; James Merriman, Silver City; Bill Ervin, San Angelo; Talmadge Moore, Mobeetie; Donald Dodson, Burk Burnett; Wayne McDonald, Borger; Jimmie Silman, Lubbock; all of who are freshmen; and Eldon Ervin, a sophomore from Desdemonia.

Dr. A. W. Young, head of the plant industry department, attended the ceremony as faculty sponsor of the scouting fraternity.

Engineers Invite ASTP Students Into Society

The board of directors of the Engineering society voted Monday night to extend membership to students of the Army Specialized Training unit while they are on the campus. This allows them to attend the meetings of the society and all social affairs sponsored by it.

Officers were elected at the meeting to fill vacancies left by students who did not return this year. Tommy Fowlkes was chosen vice-president; James Dement, secretary; and Kenneth Dowell, treasurer.

November 5 was selected as the date for the Engineers' ball. This is an annual function of the society. Engineering society meets on the second Monday of each month in the engineering auditorium, and all engineers are eligible for membership.

AMERICAN HEROES

BY LEFF

Without sleep, rest or food for three days and nights, Marine Platoon Sergeant Basilone fought off repeated Jap attacks on his machine gun emplacement in the Solomons and won the Congressional Medal of Honor. "Manila John" Basilone of New Jersey, son of an Italian emigrant, stood his ground until, when reinforcements arrived, he had accounted for 38 Japs. How many Third War Loan Bonds will you yourself . . . or far, to back such men as Basilone?

Las Chaps Treat SPAAFs Hospital

Las Chapparitas will provide entertainment for soldiers confined in SPAAFs base hospital tonight. They will be the first of five women's social clubs to present programs to hospitalized men at the field.

The clubs are acting on the request of a Lubbock hospital committee. The committee invites all other campus clubs to participate in the project. It is not necessary that members of the clubs provide the entertainment but they should plan the program and arrange for suitable entertainers. Interested organizations should talk to Mary W. Doak, Dean of Women.

DFD Pledges To Be Honored At Reception This Sunday

The DFD reception in honor of fall pledges will be held Sunday evening from 5 until 7 o'clock at the home of Anna Lee Cone, 2324 Sixteenth street.

Included in the receiving line will be the pledges and officers of the club, Dean Mary W. Doak and Miss Bonnie K. Dyson will preside at the serving table which will be centered with garden flowers.

Refreshments of punch and cookies will be served.

Student Chapter To Hold Smoker Tuesday Night

A smoker for electrical engineering students will be given Tuesday evening at 7:15 o'clock by the student chapter of the American Institute of Electrical Engineers. It will be held in the engineering auditorium. Both army and civilian students majoring in electrical engineering will attend.

C. V. Bullen, head professor of electrical engineering, will explain the functions and aims of AIEE, a national professional organization of practicing electrical engineers, including teachers and research workers. Students majoring in electrical engineering are eligible for membership in a student chapter.

During the past years activities of the organization have included participation in the engineering show, lighting the campus for homecoming, and holding an annual banquet.

Plans for the annual Religious Emphasis week to be observed this year from November 29 until December 5 were announced at the first Student Religious council meeting last night. Dr. Sam Joekel, professor of Bible at Texas university and the Austin Presbyterian Theological seminary, will be the principal speaker.

The council, composed of various church student group members, met at the Methodist Student center. Neyland Hester, Senior philosophy and sociology major, is president of the organization.

Tech Graduate Visits Campus

Homer Robertson, geology major, class of '32, was on the campus last week. Robertson has recently returned from abroad, where he was employed with a party which did geophysical exploration work in Palestine, Egypt, India and Burma. He returned to the States shortly before the beginning of the War with Japan.

The trip proved to be one of the most thrilling of all his experiences, he said. He flew from Rangoon to Chungking arriving there forty-five minutes after the Japs had bombed it into submission. He arrived in Hongkong while it was being besieged. From Hongkong, he proceeded by air to Honolulu, then continued his homeward trek by boat.

Robertson is now engaged in geophysical work in Texas.

Toreador Heads To Speak At Press Club Meet Tuesday

Speeches planned to orientate new journalism students on building a college paper will be given at the press club's regular meeting Tuesday. The meeting will be held at 5 p.m. in room 208, Press building. Margaret Leue, associate editor of the Toreador; Josie Lee Barnett, business manager; and Raymond Piller, club president, will speak.

Eight Women Initiated Pledges In Beta Sigma

Tau Beta Sigma, honorary band sorority, initiated eight band women as pledges at its meeting Wednesday night. Those initiated were: Dortha Nell Dawkins, Mary Love Walker, Billene Mosely, Barbara Wright, Doris Ekas, Jaunita Davidson, LaVerne Henderson, and Norma Cleavenger.

The pledge ceremony was carried on by candle light, with the president, Betty Grace Pugh, officiating.

Red Cross Room Being Planned By Phi Upsilon

By Ellen Helm

PHI UPSILON Omicron, with the cooperation of Junior council, Las Leales, Forum, and Freshman Honor society, is planning to establish a Red Cross room on the campus. They plan to keep the room open from 8 a. m. to 6 p. m. All women students will be encouraged to come and work during any of their free time.

"If every girl on the campus would work as much as sixteen hours during the entire semester, we would have no trouble in filling our quota," Jean McLaughlin, Phi Upsilon president, stated.

We believe that every student at Tech will find that this is a highly interesting as well as useful project. Students will have an opportunity to widen their circle of friends, and at the same time can feel that they are doing something concrete to aid the nations war effort.

Just consider how you spent your spare time last week. You probably drank cokes and compared notes on the latest campus gossip for half hour on end. Now this is fine; this is collegiate. But in these days when every young person is forced to accept adult attitudes and responsibilities, we should all find some constructive way to spend a portion of our leisure hours. So come on, girls, and when this room is opened, let's pitch in and give it every thing we have.

This little ditty seems to be among the favorite of certain Tech coeds. But some only know the first verse. So we are printing it all for the benefit of any who may be interested:

My love is gone—he done I dirt—
Me never knowed him was a flirt—
To those in love let I forbid
Lest they be dood like I been did.
He is gone—he is went—
He has left I all alone.
Me hate him, me hate him,
Me wish him were died;
Him told I him loved I,
But darn he, him heed!
If in heaven we do not meet,
I hope we both enjoy the heat.

Today, October 15, is the last day to send Christmas packages to soldiers overseas. Waterproof wrist-watches and cigarette lighters that work in a high wind were voted the most popular gifts by a group of servicemen in Australia. But they added that hard candy, pictures, and the inevitable letters, and more letters were very nice things to get from home.

Favorite daffynitions of the

week:
Education: that process whereby information passes from the professor's notebook to the student's notebook without passing through the heads of either. (Daffynition given by Dr. Doyle D. Jackson, education prof).
Socialist: a man that goes to parties all the time.
Cub reporter: one who reports in the bear facts.
Yodel: the way people talk to each other in the Alps.
Contraalto: a low sort of music that only ladies sing.

Crouch Elected President Student Chemical Society

The student affiliate of the American Chemical society met last Tuesday to elect officers. Pat Crouch was elected president, Greer McKlesky, vice-president, and Vidabelle Orr, secretary-treasurer.

Meetings of the society are held once a month. Speeches are planned for the remainder of the year. The American Chemical society is an organization for the benefit of chemistry majors, and pre-med students. Dr. Joe Dennis is the sponsor.
