No. 119

Estimated 2,000 Techsans Attend Election Festivities

CONVENTION HALL, Texas Tech—Step right up, step right up. Get your kisses, balloons and free treats. So they were saying Thursday night at the colorful election carnival preceding a rally in the Municipal Auditorium.

THERE WERE clowns, swinging bands, old cars, kissing and pie throwing booths in addition to campaign posters numbering in the hundreds. "I've never seen anything like it," said one Techsan. A cheerleader candidate, while doing the twist, commented, "I

think it is a big success, bigger than ever before."

Campaign themes ranged from jungle animals such as tigers and elephants to the Roaring Twenties.

THE ELECTION rally at 7 p.m. saw candidates for the executive offices of the Student Council stand before an estimated 2,000 Techsans inside the Auditorium.

Interest in the rally centered around the presidential nominees, Royal Furgeson and Gary Strickland, but a full slate of cheerleader aspirants and candidates for Student Council representative slots also appealed for votes.

FURGESON in his speech pledged to support continued strong programs in both academic and athletic recruiting and said he would work to bring more noted speakers for campus convocations. His speech was interrupted once by applause when he announced his intentions to pursue a break between dead week and final exams.

He said he felt also there was a need to begin a basic foundation and balance for the traffic committee to facilitate a solution to campus parking problems.

STRICKLAND told the audience he would aim his tenure in office, if elected, toward solving the parking problem on campus, particularly in the area around the circle; obtaining student rates at the theaters; putting ballot boxes back in the dormitories; and pursuing the possibility of initiating athletic integration at Tech.

Both Strickland and Furgeson hit on the name change proposal. "My term in office will see something done," Strickland said. "We will not have another wasted term."

FURGESON favored the change also, saying, "Tech is definitely a university, though not in name. No action can be taken until the Legislature can meet in 1965, but we need to begin working toward this." In the race for vice president,

James Cole told his audience Texas Tech was direly in need of a compulsory faculty evaluation program. He said he would push for a more active role by students in the name change proposal and also for a study concerning the possibility of a campus book swap.

DOUG GIBBINS said if he were selected vice president he would push for a study toward

possibilities of initiating athletic integration at Texas Tech and also of a name change. He said he felt the Council should let the Legislature know its feeling on the tuition hike proposal.

Cecile Camp, Pat Hamilton and Judy Price spoke in their behalf in the secretary race and Ronnie Bolkin and Mike Cornell gave talks concerning their candidacy for business manager.

Engineers To Show Variety Of Exhibits

Tech's campus takes on a scientific air today with the addition of Bell's Telstar communications satellite and a 92-foot Thor-Able missile.

The two space features are here as highlights of Tech's 31st annual Science and Engineering Show. Activities begin at 2 p.m. and continue until 9 p.m. Saturday's program runs from 9 a.m.-9 p.m.

Honored guests for the free show will be more than 2,500 West Texas high school students and their sponsors, on campus for the University Interscholastic League Region I literary and athletic meet.

Missile Erected

The Thor-Able missile was erected in science quadrangle by Tech's Air Force ROTC department. Congressman George Mahon was instrumental in obtaining the loan of the missile for the show.

Featured exhibit in the civil engineering department is a model of the Canadian River project.

Tech's chemistry department will feature a display of the Air Force national center for molecular research related to chemical aspects of the United States' space exploration program.

Other Exhibits

Members of the petroleum engineering department will have both indoor and outdoor exhibits, including a geophysical logging truck.

Agricultural engineering students will display a model farm of the future.

Members of the textile engineering department will show tapestry and special woven materials.

Exhibits To Be Judged

Exhibits will be judged and prizes awarded. Judges will be Alton Griffin, Lubbock district attorney; Dr. Paul Woods, associate professor of history at Tech; and Royal Furgeson and Lynn McElroy, Tech students.

Tech students compose the staff of the science and engineering show. Wayne Hillin is the general manager with Jim Scott as his assistant. James Culp is business manager and Lee Pfluger is advertising manager.

Walt Frazier is the traffic manager and John Schertz is in charge of concessions. Ronnie Vance is publicity manager; Charles Muery, lighting manager; and Carol Burden, secretary.

Because Of Censorship

Harbinger Editors Resign Wednesday

By JEANNIE BOOKOUT
Toreador News Editor

Arthur Chandler and Hunter Heath III, both Tech seniors, resigned Wednesday as editors of the Harbinger, Tech's literary magazine, because of censorship of works they had chosen to appear in the magazine.

Chandler, speaking for himself and Heath said, "Hunter and I have stated in the past to everyone who knows us that we are violently against censorship. We felt duped. I think we owe no apology to anyone except the persons whose works were cut."

As They Saw Fit

According to Chandler the two took the job as editors of the Harbinger under the condition that they were to assemble the magazine as they saw fit on the basis of literary worth.

As editors they picked the material to be published and submitted it to Dr. Roger L. Brooks and Dr. Thomas Bruce Waters for judging.

No Comment Made

"At the time they were judged, neither man made any comment about anything offensive in the pieces. They made state-

ments only about their literary quality," Chandler said.

However, after the copy reached Tech Press, press personnel phoned Dr. Brooks because they felt some of the copy was offensive, Chandler stated. Brooks then deleted a story and poem which were to have appeared in the Harbinger.

Dealt With Sex

Chandler said that the poem's theme dealt with sex and that one phrase in the story also had to do with sex.

"We felt they were dropped solely because they thought it might offend some people or stir up controversy," Chandler declared. "Nothing worse appears in Byron's works, which are accepted literary works. Objection to obscenity is not germane to literary value."

Chandler said that he and Heath had hoped to produce what they felt to be a literary magazine of high quality.

'Not Been Able'

"Ultimately, since we will not be editors, we have not been able to do this. I refuse to align

(See HARBINGER Page 5)

Tech 'Teething Ground'

'STRUMMERS' TAKE FIVE—Members of the Alpine Trio pause to pose, thus delaying a practice session. They are, left to right, Ken Ballard, Denver, Colo. junior, tenor guitarist; Ron Logan, Denison senior, banjo strummer and Bob Black, Dallas sophomore, guitarist.

Alpine Trio 'Born' At Beer Bust

By JANICE RODOWICK
Toreador Staff Writer

Many things happen at beer busts. People sing, drink, and are merry. Sometimes trios are even formed. This is the case with Ken Ballard, Ron Logan, and Bob Black—The Alpine Trio.

The trio, starting out as beer bust singers, have become one of the most popular folksinging groups on and off campus.

Logan and Ballard started singing together in 1961 when Ballard pledged Delta Tau Delta, of which Logan was already a mem-

ber. The duo frequently sang at fraternity functions and for "pure enjoyment."

The following semester, Black came to Tech as a freshman. The Deltas began to rush him and so did the duo. By spring he was a member of both Delta Tau Delta and the trio.

After singing on campus, the trio became better known and soon was asked to sing at various functions. Then it was time to adopt a name. The "Alpine Trio" was picked as the name because of its professional sound and because it reflects their interest in skiing.

Sponsored by other organizations, their first job as professional entertainers came when they sang at the Navaho Lodge at Ruidoso. Since then they have had engagements at The Holiday Inn, Capri Club, Officers Club of Reese Air Force Base and conventions in Lubbock.

The trio also has been offered jobs for the future. The latest plans include singing at Six Flags Over Texas this summer.

Logan, a senior pre-med major from Denison, plays the banjo. His family is in the music business and he loves jazz and folksongs, he said.

Black, a sophomore from Dallas, is at Tech on a football scholarship. He played in a trio while in high school and sang as various

night clubs in Dallas. He plays tenor guitar.

Ballard, a junior finance major from Denver, Colo., also sang and played the guitar at high school "woody's." He sings at Little Italy.

All three of the boys love folksinging and sing because they enjoy it, they claim.

A very important asset to the trio is Bob Jarratt. Jarratt, a junior marketing major from Wichita Falls, and also a Delta, is their manager. He handles all correspondence, booking and transportation.

Travel became such a problem, the trio bought a 1937 Oldsmobile "hearse" to haul dates and instruments around. Now not only is it possible to hear the trio coming, but it is hard to miss seeing them—in a white hearse with Delta Tau Delta and Alpine Trio painted on it from "stem to stern."

Someday they may be known as the "famous" Alpine Trio.

Union Shows 'Red Shoes'

Academy Award winning film, "The Red Shoes," will be shown Friday and Sunday as a part of the select film series sponsored by Tech Union.

Feature times are 4 p.m. and 8 p.m. Friday and 2:30 p.m. Sunday in Tech Union Coronado Room.

The movie is based on a Hans Christian Anderson tale and is the first feature-length film to present a ballet in its entirety.

Admission is 25 cents for Tech students and 50 cents for non-students.

CARDONA RESIGNS

MIAMI, Fla. (AP) — Dr. Jose Mira Cardona quit Thursday as president of the Cuban Revolutionary Council, accusing the U.S. government of reniging on promises to help the anti-Castro cause and being vague on Cuban policy.

Election Committee Bars Strickland Campaign Mail

The Student Council Elections Committee ruled Thursday that Gary Strickland, candidate for president, will not be allowed to distribute campaign letters to dormitory students.

The Committee met Thursday afternoon in a special session, after campaign letters from Strickland were reportedly found in several mail boxes in Thompson Hall.

STRICKLAND said Thursday he had not decided whether or not to abide by the Committee's ruling, since he felt it was in no way his fault and was done without his knowledge or the knowledge of persons working for him.

Ernest Morrison, dorm supervisor at Thompson, said he thought Strickland "was a victim of circumstances. I'm really responsible."

Morrison said he felt the mail was placed in the boxes inadvertently by a mail clerk, and that Strickland knew nothing about it.

Strickland told THE DAILY TOREADOR Thursday he had estimated 50 per cent of his campaign funds had gone into preparing the 4,500 letters, and he felt the restriction was unfair.

Karen Anderson, Student Council secretary and chairman of the Elections Committee, said, "Gary broke a rule of the election code by placing letters in the dorm mail boxes."

Commenting on who was re-

sponsible, Miss Anderson said testimony led the Committee to believe that placing the letters in the mail boxes was not entirely "an accident."

Tech Rodeo Entries Due

Entry deadline for participants in the Tech Rodeo close at 5 p.m. today. Entry forms are available at X16, East Engineering Bldg or at Tech Union. Entries thus far total 125.

Science Fair, UIL Host Contests, Displays Here

By KATHE GRAW
Toreador Staff Writer

For the first time, the South Plains Region Science Fair is being sponsored in conjunction with the Region I University Interscholastic League here today and Saturday.

Expected are approximately 160 entries for exhibit on the first and second floors of the Science Bldg. Judging of senior and junior high school entries will begin at 4 p.m. today. Elementary exhibits will be judged beginning at 10 a.m. Saturday.

Winners will be announced at a noon banquet at the Chicken Shack Saturday. The exhibits will be open to the public from 2-4 p.m. Saturday.

Region One UIL sports get underway this morning, with all contests continuing tomorrow except golf. Field preliminaries begin at

9:30 a.m. Running preliminaries begin at 1 p.m. today.

Tennis begins at 8:45 a.m. today on the Tech and Lubbock High School courts, while girls' volleyball is off to an early start at 8:30 a.m. today in the Women's Gymnasium Bldg.

Region One golfers tee off at 8:30 a.m. today at the Meadowbrook Golf Course in Mackenzie State Park. They will follow 18 holes of medalist play.

Candidates Discuss Issues

Discussion by Student Council executive officer candidates at a Tech Union luncheon meeting Thursday centered primarily on re-assertion and explanation of election platforms which were reported in Thursday's edition of THE DAILY TOREADOR.

Gary Strickland, presidential hopeful, began explaining his platform by emphasizing the importance of more participation by all students in all phases of Tech life in the future.

Strickland stressed, as did his opponent Royal Furgeson, that lack of communications necessitated a Student Council President's column in the 1963-64 Toreador. Strickland added that, both through such a column as he suggests and through special convocations, Tech students might have an opportunity to discuss and criticize administrative policies and activities and have some power in administrative decisions.

Furgeson prefaced his remarks saying that his platform was not original with him but was compiled from campus-wide student opinion and desires.

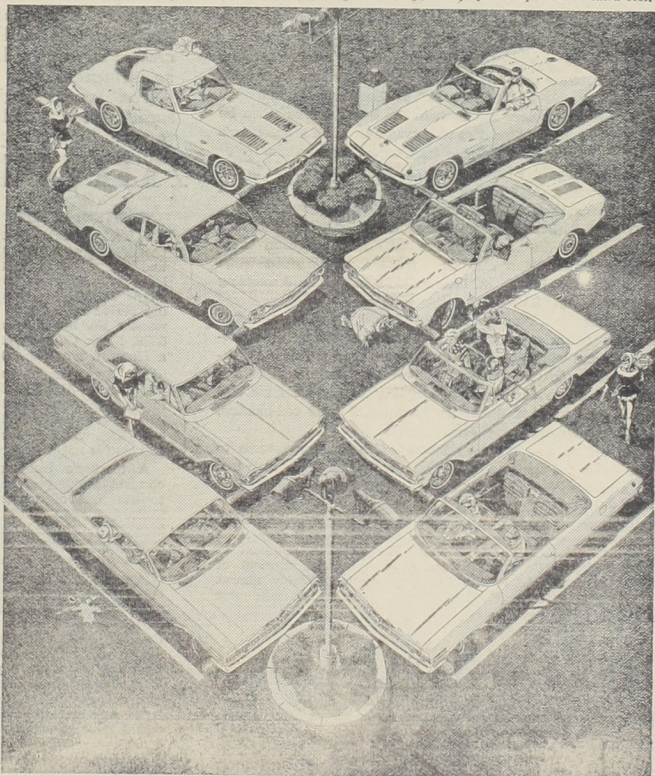

Asked if he had checked out each of the points of his platform, Furgeson answered that he had and had acquired faculty support for many of them.

After re-stating his primary aims, James Cole, candidate for vice president, pointed out his belief that this year's Student Council had "let down" on the name change issue, and he said he would want to actively stress the need for such a change through next year's student leadership.

Doug Gibbins, Cole's opponent for Student Council vice president, stressed the possibility of future athletic integration, if the students favored it, and investigation concerning class officers.

Strickland was later asked about his platform "plank" concerning re-evaluation of restriction on dormitory girls. The candidate replied that this point may not have been correctly reported in Thursday's TOREADOR and that one cannot really count on being accurately quoted.

TAPS FOR CHICKEN LITTLE

By HUNTER HEATH III
Guest Columnist

The unfortunate passing of boxer Davey Moore after a severe beating at the hands of Sugar Ramos in a California prizefight has caused a resurgence of public and official indignation over the allegedly cruel sport of boxing.

The governor of California has requested a mandate from the people to allow prohibition of the sport. The Vatican publicly favors, if not outright abolition, at least severe limitations on the extent and manner of body contact. The "Men in the Street" are divided into two factions: those definitely opposed to boxing in any form, and those devotees who favor the sport as it is.

As is true in most matters of total division over an issue, both extremes are in the wrong. The sensible treatment of the "problem" of boxing lies somewhere between.

The very word "prohibition" conjures up cerebral ghosts of the Capone Era and Valentine's Day Massacre; and as well, the recollection that the Great Experiment, prohibition of alcohol, was an absolute, total, laughable failure.

By analogy, it might appear that to attempt to abolish the sport of boxing would be a foolish and worthless "experiment." As gin was made in bathtubs, bare-knuckle prizefights, conducted by men of Mafia ilk, may be fought in secret arenas.

Today man is more of an intellectual animal than at any other time in his history. This means that the caveman's chief avenue toward the settlement of conflict, human combat in the most intimate personal sense, is largely denied to men (although this is not to say that some men do not frequently engage in combat—it is to say that men are not as likely to kill over trivial matters as they were, say, 1000 years ago).

One of the results of intellectualization of conflict between men, and between men and their society, is a certain frustration at not being able to "strike back" at those who thwart one's goals. One simply does not bash in the boss's brains when he says, "You're fired!" One does not, generally, slash a professor's throat for giving an impossible task on an examination.

The slashing and bashing and murdering take place in the mind, nowadays. And boxing serves in a sense as an outlet for the frustrations of daily life to those who are spectators.

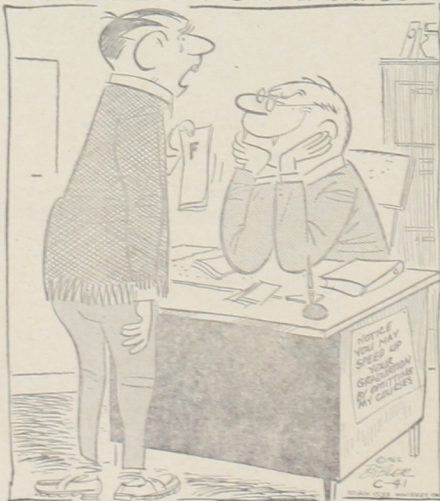

It is true that men sometimes die in the ring; it is also true that men die on automobile race tracks, or even while jockeying horses. Men also die from injuries received while playing football—but do we hear an outraged public demanding the abolition of football?

The charge of "cruelty to the fighters" must be countered with this truth: most boxers are recruited from low socio-economic and educational levels; they are men to whom, without a chance to use the born potential of their muscles and sinews, would be denied the opportunity to achieve fame and fortune (and are not these the goals of all good red-blooded, Free-Enterprise-espousing Americans?).

Even the mother of Davey Moore's five children refuses to blame either the sport or Sugar Ramos; it is as if her man had been a steelworker who fell from a high building—he died in line of duty.

The sport of boxing should not, nay, cannot be prohibited in the United States. Removal of legal sanction would only force the sport underground, and remove the beneficial element of public control. The sport is useful to a certain segment of society, is profitable to the fighters, and is certainly almost irreplaceable—bathtub gin goes well with barnyard bare-knuckle fisticuffs.

LITTLE MAN ON CAMPUS

"—WELL, DIDJA EVER STOP TO THINK THAT THIS 'F' JUS! MIGHT REFLECT A PRETTY POOR JOB OF TEACHING?"

Get Out And Vote!

Congratulations to all the candidates for Student Council and cheerleader positions.

The campaigns this year are unfolding with seriousness of purpose and with a genuine attempt to stir students to question, consider, decide and to vote.

It's amazing how much time, thought, planning and down-to-earth work these people are putting into the race.

Today we reward them for their efforts by going to the polls and, in the space of a minute or two, casting a ballot for our choice.

Or, will we once again allow a minority to select our campus leaders by our failure to make the small effort of marking a ballot?

Lew Bullion
—Toreador Copy Editor

Welcome To Tech

More than 2,500 of West Texas' most talented high school students will be on campus today, participating in a science fair and interscholastic league meets.

All of these students are potential Tech students, and the image that is created for them today will, no doubt, be an influential one.

The annual engineering show, the spring elections and a variety of other

activities will be surging over campus throughout the day, creating an atmosphere of intense activity, life and learning. And perhaps these high schoolers will find mingled with it that warm brand of Techsan hospitality. Because this is a part of Texas Tech too.

Welcome, high school students. We're proud to have you on our campus.

—M.J.

Anyone For Dancing?

WANTED: EXOTIC DANCER TRAINEES: Professional training. Must be 21, attractive and interested in learning in Houston's finest Burlesque Night Club. After short training period salary \$125 to \$150 weekly. For appointment, FA3-6269, Stork Club. (Want ad in a Houston newspaper.)

That's good money for an exotic dancer. It is good money for anyone, especially teachers. And, in contrast to exotic dancers, the training period for teachers is not a short one.

A teacher's training period consists of four years of college to the tune of approximately \$1,200 per year. If the teacher happens to be a college professor, an extra two years of college expense must be added.

Nevertheless, the college professors of Texas are paid little more than exotic dancers in a burlesque club. And it appears that the State of Texas is going to allow things to remain that way — for two years at least. The House of Representatives recently deleted the clause in the appropriations bill which would have raised the salaries of college professors.

Not only are their salaries in

Texas similar to those paid exotic dancers, they lag greatly behind those paid in other states.

Exactly how do they compare? The Texas Commission on Higher Education recently surveyed 106 institutions of higher learning in 30 states as to their faculty salaries. All but three were state-supported.

Eighteen of these institutions reported professorial salaries of over \$12,000 for nine months. The highest figure exceeded \$15,000. The only school in Texas which is comparable is the University of Texas with \$11,777. However, UT supplemented its 1962-1963 salary budget to the extent that it exceeds the legislative appropriation for that category by almost 19 per cent.

Of the remaining Texas institutions, none fall in the \$10,000-\$11,000 bracket. Six colleges — Arlington State Teacher's College, East Texas State College, Lamar State College of Technology, North Texas State University, Texas A&M and Tech — are in the \$9,000-\$10,000 bracket.

The remaining 12 of the 19 Texas institutions fall in the \$8,000-\$9,000 range. This places

them between 70th and 90th among the 98 reporting institutions. Texas A&M ranks 20th among 22 land grant colleges in the survey.

The associate professor, assistant professor and instructor brackets reveal the same situation. Among the institutions, Texas colleges ranked 55th to 87th in the associate professor range, 56th to 84th in the assistant professor range and 59th to 91st in the instructor range.

All of the institutions surveyed were of the same general kind found in Texas. The character and level of program offerings, broad purposes and functions were taken into consideration.

We are not suggesting that raising the faculty salaries of Texas colleges and universities will automatically raise the program standards of our schools. However, inadequate salaries are not doing anything to improve the situation.

And we certainly feel that the faculties of Texas' institutions of higher learning deserve a greater distinction in salary than burlesque dancers.

Celeste Hardy
—Toreador Copy Editor

LETTERS TO THE EDITOR

Dear Editor,

I think Techsians had better look closely at the candidates for president of the student body. Because of the importance of this potentially powerful office, I think we would want to elect the man who can best represent us. A large student body needs to have representatives who can express our views to the administration.

One presidential candidate has said he will get something done about a name change next year, if elected. He did not tell the truth. The truth is that he cannot, if for no other reason than the fact that it won't be until 1965 before the Legislature meets again, and they

must approve any name change. Also the Board of Directors says any name change must be approved by the current students, the faculty and the ex-students.

The other candidate says he will work for united agreement on a name change and will strongly represent the student body view — a far more realistic statement.

Secondly, in another campaign promise, the candidate has promised to put ballot boxes back in the dormitories. This was tried as recent as three years ago but was abandoned because of the widespread practice of "ballot stuffing." There are still not enough members of the Coun-

cil to watch over the dorms to see that this does not happen.

IT WOULD seem from observing this candidate's campaign tactics (including personal letters mailed to all freshmen in the fall; laminated photos sent to students whose pictures appear in the Toreador, with his compliments; etc.) that he is just a politician in every sense of the word.

Tech will best be represented by a candidate who presents an intelligent, representative platform. I for one will vote for Royal Furgeson as the man who will best represent me as a student at Texas Tech.

Terry C. de la Moriniere
Sneed Hall

Jive Jumps At D-J Hop

Disc jockeys from KSEL and KLBK will highlight a D-J Hop sponsored by KTXT-FM Saturday, 8-12 p.m. in Tech Union Coronado Room.

The D-J's from KSEL will be on hand 9:30-10 p.m. KLBK will emcee from 10:30-11 p.m., hand out free records, mingle with the crowd and spin a few records.

Charles Buzzard, assistant professor of speech and director of Tech's radio station, said he hoped a large turnout would show visitors how much their programs are appreciated by Tech students.

A P Newsmen Joins Staff

W. E. Garets, professor and head of Tech's journalism department, has announced the appointment of Robert A. Rooker as assistant professor of journalism for the 1963-64 academic year.

Rooker, Austin Associated Press correspondent, will replace Mrs. Louise Allen, who plans to retire May 31.

The new assistant professor graduated from Tech in 1958 with a B.A. degree in journalism. He earned his M.A. degree in government at Tech and taught in that field as a teaching assistant.

Attended TU

In 1960, he attended the University of Texas on a fellowship

to do course work toward a Ph.D. in government.

"We are tremendously pleased at being able to obtain Rooker's services, not only because of his extensive experience in the coverage of major events, but also because of his background in social sciences. Because we consider journalism a social science and because it, more or less, 'bridges' the social sciences, we consider this a great asset," said Garets.

Rooker has also worked for the New Mexico AP in Santa Fe and served as public relations consultant and speech writer for a candidate for the New Mexico gubernatorial nomination.

AP Work

During his employment by the AP, he has covered federal and state courts, state political conventions, statewide campaigns, meetings of state boards, commissions and departments, train and plane wrecks and Vice President

Lyndon Johnson's trips to his ranch.

He has also been identified with the coverage of various aspects of the Billie Sol Estes case.

Journalists Get Summer Jobs

Three journalism students have been chosen for summer internship programs. They are Nancy Miller, Houston junior; Carrie Lou Chaney, Crane junior and Gayle Machen, Olton junior.

Miss Miller will work in the fine arts department, Dallas Morning News; Miss Chaney will be a general reporter on the Waco News-Tribune and Miss Machen will serve as a general reporter on the Amarillo Globe News.

The students were chosen by the journalism faculty for their interest and fitness on newspapers, according to department head, W. E. Garets.

Harbinger

(From page 1)

myself with any organization which promotes censorship in this manner. Where is freedom of the press?" Chandler asked.

The Harbinger is sponsored by Sigma Tau Delta, English honorary. Brooks, faculty adviser to the organization, confirmed the resignations, but declined further comment.

'Granite Conservatism'

Calling the action "Texas Tech in a nutshell," Chandler said it reflected "granite conservatism, fear of controversy, well meaning, but anxious overseers of all activities combined with what I feel is an atmosphere diametrically opposed to culture."

Chandler, who has been accepted for graduate work at Harvard, plans to attain a doctorate in English and teach at college level.

To Attend Med School

Heath will attend medical school upon graduation from Tech this spring. Both men are 20 years old, have written several works for the Harbinger in the past and belong to Sigma Tau Delta.

The Harbinger is scheduled to appear in early May.

9¢ TO 2⁹⁹

Texas Tech College BOOKSTORE ON THE CAMPUS

As I see it . . .

by Johnnie Lu Raborn

When I left, it was cool and gray. I had rushed, "cussed" and struggled to be on my way. The relief from worry about papers and quizzes and jobs was, for a while, put away.

Each of us registered different feelings as we pulled away from school week before last. The common denominator was relaxation. The gloomy day added to the bleakness of the plain, but soon this setting gave way to a new plush green and promise of a good time.

Soon out of Lubbock, my transmission decided to act as a marker for everyone going to the University of Texas Roundup. By the 10th hour, it had consumed 14 quarts of fluid, leaving a plain trail to anyone following.

Austin was full of Techsians, and I even met a few students from California. Roundup has become famous as a "fun-time" weekend. It started in conjunction with the Texas Relays adding an all-school revue to the festivities.

It has since grown into a three-day cocktail party featuring name bands and vocalists at most parties. It occurred to me that Tech might have something of this type in the spring. But I quickly discarded the idea.

One, our spring vacation affords us the opportunity to relax from studies. Two, Lubbock's liquor stores are too far from campus. And three, there aren't enough faculty members to check the parties! If our vacation continues to coincide with Roundup, we can just travel to Austin, saving us work and trouble here.

AS I SEE IT

Tonight will close a chapter in

the college life of campus chapters. The fraternities and sororities will compete in the annual sing song. Weeks of preparation have gone into this year's show. I know, because my roommate has been getting up and banging around the room at 6:30 a.m. for those weeks.

Each of the groups have worked hard, and I hope that the show goes as well as the preparations. Good luck to those participating.

AS I SEE IT

Alpha Chi Omega Province District meeting is this weekend in El Paso. Chapters from New Mexico and Arizona will be represented. Those attending from Tech are Mary Alice Hill, Pat Hamilton, Sally Speer, Lynn Wallace, Donna Pest, Carolyn Russell, Charmie Stinson, Cynthia Myrick, Susie Fletcher, Sandy Campbell, Ann Morrow, Patsy Dawson and Clara Hieronimus.

Kappa Sigma will have the annual Pajama Dance from 8-12 p.m. Saturday at Fair Park Coliseum.

Kappa Alpha Theta sorority will have a dinner dance from 6-12 p.m. Saturday. Vann's Catering Service will be the dance scene.

Alpha Phi Omega, service organization, will give a steak fry Saturday from 7-12 p.m.

Society News

Applications for Saddle Tramps, men's spirit organization, are available now with a deadline set for Sunday at 10 p.m.

Applications may be obtained from Erin Schmidt in Bledsoe Hall, room 306. They are to be returned to Robert Sandage, Bledsoe Hall, room 336 or Ronnie Botkin, Gaston Hall, room 342.

Requirements for pledgeship include regular enrollment at Tech with a minimum of 30 semester hours and acceptance of application. The group plans to take approximately 25 pledges with pledgeship beginning next fall.

Army Seminar

Association of United States Army will sponsor a service orientation seminar at 7 p.m. Monday in the Architecture Auditorium.

The panel discussion will be conducted by officers and non-commissioned officers of Army military science department.

It is open to those students finishing ROTC work in college and will be entering active duty within the next 12 months.

WORK IN EUROPE

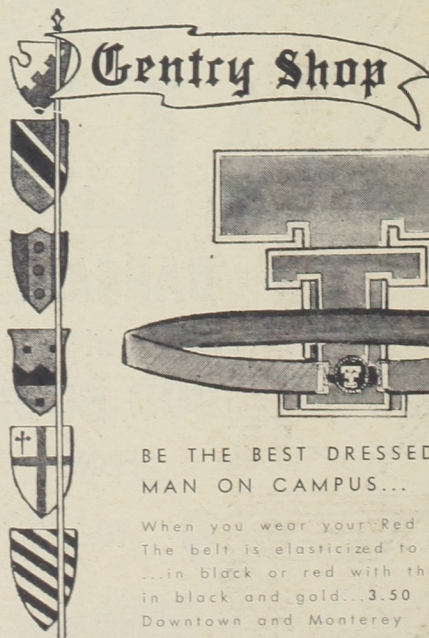

MORE TRAVEL GRANTS

Apr. 19, 1963—The American Student Information Service, the only authorized placement service for American students seeking summer jobs in Europe, has increased from 1500 to 2000 the number of travel grants for positions in Europe.

Job openings now available in Europe include positions in factories, resorts, hospitals, farms, summer camps and in offices. Applications are received until May 31.

Interested students may write (naming your school) to Dept. H, ASIS, 22 Ave. de la Liberte, Luxembourg City, Grand Duchy of Luxembourg, for a 20-page prospectus, a complete job selection and application. Send \$1 for the prospectus, handling and an airmail reply.

The first 5000 inquiries receive a \$1 premium for the new student travel book, Earn, Learn and Travel in Europe. adv.

Baseballers Meet ENMU; Netters, Thinclads Hit Road

Texas Tech's track, tennis and baseball teams will be in full action this weekend, with the tennis team and the thinclads competing out-of-town.

Coach George Philbrick will take his netters to Dallas today for a conference match with Southern Methodist University, followed by another loop trial Saturday with Texas Christian University in Fort Worth.

Daryl Allison, Lubbock senior; Don Draper, Houston junior;

Greer Kothmann, Junction sophomore; Beau Sutherland, Kerrville junior and Robert Peterson, Wichita Falls sophomore, will represent Tech in the two court outings.

Baseball Team Meets ENMU
Tech's baseballers, under the tutelage of Berl Huffman, will meet Eastern New Mexico University for two games Saturday. Past experience has shown that the Tech nine will provide excitement for viewers. The game will

be played at Hodges Field, 41st St. and College Ave. There is no admission charge for Tech students.

The track team has journeyed to Kansas for the Kansas Relays. Walt Cunningham, Richard Vogel, Noel Carter, Norm Donelson, Gary Don Bove, Jerry Brock, Bill Meador, Twink Terry and Coach Don Sparks made up the Tech squad competing today and Saturday.

Reds, Whites Square Off
The Reds and Whites will be squaring off in a scrimmage game at 7:30 p.m. Saturday in Jones Stadium. This game will be free to all viewers. The scrimmage April 27, will cost \$1.50, but Tech students will be admitted upon showing identification cards.

Other action this weekend on Tech campus begins today in the form of the regional high school meet.

Track, tennis and golf participants from classes B, A and AA will vie for the coveted trip to the state meet in Austin May 4-5.

Use of the duplicating machine in the library has been restricted, according to Librarian Ray Janeway.

Operation of the machine is being done by the library staff, and a limit of 10 copied pages has been set. Janeway said Thursday that this restriction is made in order to get operation costs in range of the budget.

To prevent further abuse of the machine, all copying will be done by the library, he said. The 10-page limit for a student applies to material that can be borrowed or used from the library.

However, more copying may be done from restricted material if the need is justified by the student to a library staff member.

King Names Scrimmage Opponents

Division of Texas Tech's football squad into Reds and Whites for Saturday's game was announced Thursday by Coach J T King.

Kickoff time in Jones Stadium is 7:30 p.m. A final game will be played at 4 p.m. April 27.

King also split the coaching staff. Full-time and student coaches who will work with the Reds are Merrill Green, Harry Buffington, Eldon Hawley, Larry Mullins, Bev Herndon, and Jack Denardo. Against them will be John Conley, Jim Wright, Joe Blaylock, Travis Simpson, Al Shuler, and Tommy Hayes.

Red Starters

Probable Red starters are ends David Parks of Abilene and Jerry Don Balch of Lubbock, tackles John Porter of Lamesa and Jimmy Walker of Seminole, guards Leslie Nelson of Vernon and Bill Shaha of Dumas, center C. C. Willis of Bay City, quarterback Benn Elledge of Brownwood, halves Billy Weise of Austin and Donny Anderson of Stinnett, fullback Jim Zanios of Albuquerque, N.M.

Tentative White starters are ends Sam Cornelius of Spearman and David Rankin of Midland, tackles Bill McLelland of Stinnett and Ronnie Reeger of Merkel, guards Ray Garrett of Odessa and Richard Willis of Fort Sumner, N.M., center Butch Thompson of Lubbock, quarterback Danny Scarbrough of Stinnett, halves Roger Gill of San Antonio and Jerry Lovelace of Farwell, and fullback Charles Graham of Longview.

Admission to this Saturday's game is free.

IEEE OFFICERS

Travis Simpson will serve as 1963-64 president of Institute of Electrical and Electronic Engineers. Other officers are: vice president, Pat McCarroll; secretary, Richard Hollingsworth; and treasurer, Jerry Stafford.

Executive Platforms Voiced

Furgeson Seeks One-Day Break

In many conversations with Tech students across the campus, I have found a desire for strong programs and for new ideas from the Student Council. With this in mind, I have tried to develop a platform to meet the desired needs of the student body.

Presently Tech is accelerating its academic growth just as fast as its physical growth. In this realm I feel the Student Council can promote activities.

The speaker convocation should be greatly intensified in order that Tech students can get a first hand report on national and international activities. These convocations could help us coordinate our in-class instruction with practical, on-the-spot information.

Since I have mentioned the classroom, let me explain another idea I have in relation to academics. At Tech and at other universities in this nation, grades are of chief importance. Since the pressure to make high grades is so great and since final examinations usually determine a grade to a large extent, I feel that we, as students, should have longer to prepare for our tests.

With this explanation I propose to work for a one-school-day break between dead week and final exam week.

I feel that Tech is definitely a university, and next year, I will work to bring university status to our name. These above four programs are the ones I plan to stress in the realm of academics.

Another realm of the Student Council which has not been examined closely in the past is the area of communications between the Council and the student body. I would like to remedy this problem by printing a column in THE DAILY TOREADOR from the Council.

I also feel that we need to have the executive officers before the students for criticisms and suggestions. This could be accomplished by having monthly meetings in the Union composed of the officers and all students who wish to attend. We would also have these mass meetings in the dorms.

Another area where I feel communications need to be improved is between Tech and other Southwest Conference schools.

With these other programs I have mentioned, I would like to emphasize some of the established programs of the Student Council. The Traffic Program is one that needs continual work and supervision. Our Athletic Recruiting Program is also one which can add strength to our athletic system in future years.

All these programs are the ones that I feel Tech needs to enable it to continue to keep pace with the changing times. Since they are important, I have made them the basic points in my platform.

NOT EVEN WIND CAN STOP 'EM—A strong West Texas wind seemingly proved no obstacle to this couple attending Thursday's campaign rally. Perhaps the girl received a lift to obtain a better view of campaign proceedings or merely to provide a balance against the winds. —Staff Photo

Strickland Sees Small Minority

Will we ever have another chance? If so, when? Do you really care if we have another chance? If so, read on.

Will we let a small minority of students set the policies and procedures of this campus for another term of office? I hope not. Will we continue to permit the leaders to blame the lack of voting on students' indifference? Again I hope not.

The main question is, will we face the following true fact?—We have never had a real reason to vote, mainly because of the self-centered policies and practices of this small minority.

As you read you will be able to understand how my platform isn't constructed to make me sound popular — because frankly, I'm not for everything that is "popular." I stand for the issues that back the rights of every Tech student.

First, I will inform students with a President's Column in THE DAILY TOREADOR, giving factual information of Student Council and administrative decisions and viewpoints.

Secondly, I will earnestly seek possible solutions to the growing parking problem.

Thirdly, I am not completely against a tuition hike if scholarships and other benefits are provided to balance the extra expense, but I will personally lead a campaign against any action that does not enhance the Tech student.

Fourthly, I will use any influence I have to obtain student rates at local theaters.

Other areas of my platform are: further stressing of honors program, hush discontentment about dorm food, reconstruct girls' restriction codes and eliminate out-of-date restrictions, ballot boxes in each dorm, something done about the name change, obtain athletic intergration if Techsians want it and continue study of purposes of class officers.

My platform also includes: unifying Tech organizations to work for advancement of Tech, obtain big - name speakers, raise money for name marker at campus entrance, make Model UN an annual event and work with IFC and Panhellenic to promote TB fund drive.

Let me ask you to study each candidate's platform and make a decision on your own. Then vote.

Prexy Candidates List Qualifications

Royal Furgeson QUALIFICATIONS

- ✓ Two-year member of the Student Council, serving on Publications Committee and Athletic Recruiting Committee
- ✓ Saddle Tramps
- ✓ Who's Who in American Colleges and Universities
- ✓ Varsity Basketball Letterman
- ✓ Interfraternity Council
- ✓ Honors Program in English
- ✓ Leadership Recognition in All-College Service
- ✓ High School Senior Class President
- ✓ Sports Editor of High School Annual
- ✓ National Honor Society
- ✓ High School Varsity Basketball

Gary Strickland QUALIFICATIONS

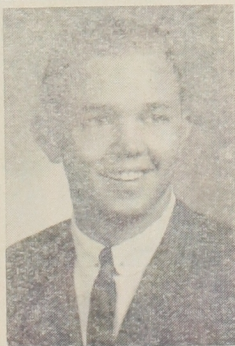

- ✓ Engineering Representative on Student Council
- ✓ Chairman of Class Committee Student Council
- ✓ Co-Chairman of WUS
- ✓ President of Sophomore Class (61-62)
- ✓ Vice President of social Fraternity
- ✓ Activities Chairman of social Fraternity
- ✓ Member of IFC
- ✓ Member of BSO
- ✓ Member of Alpha Phi Omega (service fraternity)
- ✓ On Committees at BSU
- ✓ Participation in advance ROTC
- ✓ Cheerleader in High School
- ✓ Student Council in High School

President's Duties

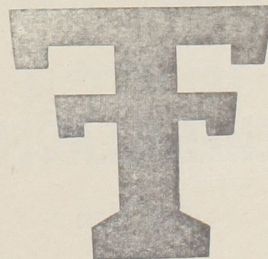

- Preside over meetings of the Student Association.
- Serve as presiding officer for the Student Council.
- Be chairman of the Executive Committee.
- See that rules and regulations are executed.
- Appoint all committee personnel not otherwise provided for in the Constitution.

STRICKLAND

ROYAL FURGESON FOR

PRESIDENT COMPARE AND VOTE

VP Hopefuls Give Platforms

James Cole

I propose to work for a compulsory evaluation of the faculty in the hope that such evaluations, if required, will make department heads more aware of teacher deficiencies. I also propose to work for increased student voice in the area of determining, to some degree, academic policy.

I propose to do this by working for joint student-faculty committees on which student opinion is voiced as to departmental policies. I propose to work for ad-

ministrative convocations at which the administration explains its policies and then subjects itself to question and answer periods about administrative matters.

I propose to work this summer on the feasibility and value of a book swap and then incorporate it next year if it is a good proposal for Tech students. I propose a very active name change program to the point of student referendum votes.

I propose to study our freshman orientation program and try to come up with a better orienta-

tion into the areas of campus activity, student life, and school spirit.

My qualifications are as follows:

President of Wells Hall in 1961-62, vice president of Men's Residence Council in 1961-62, member of Saddle Tramps, president of BSO in 1962-63, student council in 1962-63, chairman of the traffic committee, member of the elections committee, Who's Who in American Colleges and Universities, 1962-63, College Awards Board member, Tech Union Board member, committee on student organizations member.

Doug Gibbins

I would like to decrease student apathy through more student participation in Student Council and student government.

I propose to do pioneer work toward athletic integration. I also propose to continue and improve upon the athletic academic recruiting program.

I propose to study fraternity and sorority lodging plans and formulate some ideas and plans that would be workable in the future. Also, I would like to find more definite and satisfactory reasons for the tuition hike before we let it be put into effect.

My qualifications are as follows:

Chairman of the special events committee, in charge of the Freshman Dance and Freshman Convocation during freshman year; Games and Tournaments Committee at Tech Union; Wells Hall Social chairman in 1960; Campus Religious Council in 1961; secretary of the Double T Assn.; president of junior class in 1962-63; member of Phi Delta Theta; member of the Saddle Tramps; member of Phi Epsilon Kappa.

Botkin, Cornell Compete

Ronnie Botkin

The position of Business Manager of the Student Association is usually greatly underrated by the average student. Only at election time is anything really heard about the office. The position requires a great deal of work, and only with prior experience on the Student Council and a working knowledge of the duties of the office would anyone be able to do the job correctly and efficiently.

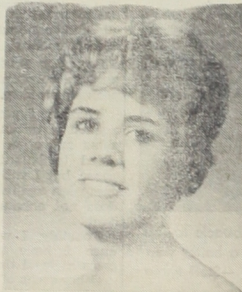

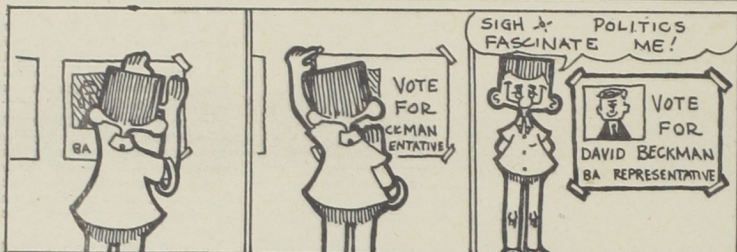

I feel that by being a member of the Student Council and working on the Allocations Committee I have gained the needed experience and knowledge. The responsibilities of the position are great and I think that I will be able to deal with any situation that might arise with the best interest of the students and Texas Tech in mind.

If you choose to select me as Business Manager of the Student Association, I will serve you and this 'university' to the best of my ability.

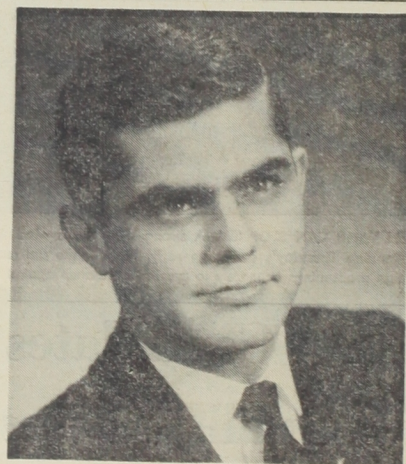

Jess Cornell is also a candidate for Student Council business manager. His platform does not appear as he failed to submit it to the Toreador by Thursday's deadline.

VP Duties

- Perform the duties of the President in the event of his absence or inability;
- Succeed to the Presidency in the event that the office should become vacant;
- Perform such duties as designated by the President or the Council;
- Be in charge of the annual school trip.
- Keep a complete and accurate record of all financial transactions of the Student Association.
- Serve as chairman of the Allocations Committee of the Student Council.
- Direct the financial activities of the varsity yell leaders.
- Educate all yell leader candidates in regard to the responsibilities and limitations of their positions.
- Be responsible for the approval of all money-making activities of the four undergraduate classes.
- Write an article to be printed in the TOREADOR during the month of December of each year to inform all students graduating at the end of the first semester of the deadline for submitting requests to the office of room reservations for the return of their room deposits.

REMEMBER...
TO VOTE!

Pat Hamilton

Secretarial Candidate

In both leadership and service capacities, I have served and am serving Texas Tech:

Through school — I have worked in the Home Economics Club,

and am past CANDLE Editor and incoming President of Phi Upsilon Omicron.

Through organizations — I am a member of President's Hostesses, will be a legislator of Doak Hall, and have recently been selected to membership in Mortar Board.

Through Student Council — I have served on the Elections, Current Events, and Allocations committees.

If elected your Secretary, I would like to accomplish the following things during my term of office.

- Continue the present secretary's program of opening up the campaigns and putting the candidates in front of the voters.
- Make arrangements so that all counting of votes can be done by IBM computer. This would insure fast and accurate tabulation of votes.
- Hold Freshman Council elections as early as possible in the fall so they may work on a more united freshman class; they could reserve a section of the football stadium for the freshmen whose enthusiasm might boost our school spirit.

Cecile Camp

Secretarial Candidate

My qualifications for Student Council secretary are: EXTENSIVE secretarial training, GOVERNMENT minor, EIGHT consecutive year's service on student councils.

My platform is:
 Ready to serve YOU in:

1. Better communications for a better Tech—
 - Council members should report back to their organizations
 - Minutes of meetings should be printed in the TOREADOR

DOR
 2. Fairer elections for a better Tech—

- Re-evaluation of officer qualifications
- Filling cheerleader and class officer vacancies

3. More special events for a better Tech—

- Another all-school program such as the Model U.N.
- Top national speakers

4. Safer traffic for a better Tech—

- Let the students decide

Judy Price

Secretarial Candidate

Qualifications:
 Student Council 62-63, Elections Committee 62-63, Recognized by Student Council for leadership.

Freshman Council 60-61, Junior Council, Sigma Kappa, Phi Gamma Nu, Pi Delta Phi, President's Hostesses.

As Secretary of the Association, improved communications would be one of my goals. As a member of the election committee this year, lack of student interest in campus elections has been painfully evident. Campus positions are often filled by a very small percentage of voters. Integration of students into Tech's student government could be achieved through a coordinated program with the TOREADOR.

I would also work this summer with IBM in the Engineering Department to set up a program for elections. All elections then would be held on IBM cards and counting would be done electronically.

Office Duties

The secretary's duties are:
 KEEP the minutes of meetings of the Student Association and of the Student Council; BE responsible for the maintenance and preservation of the official version of the Student Association constitution and all rules and regulations of the Student Association; SEE that a copy of the official version of the constitution and all rules and regulations of the Student Association remain on file in the office of the president of the college; SEND a copy of the minutes of each meeting to the following: President of the College, Dean of Student Life, Dean of Men, Dean of Women, Student Council sponsor, Vice President and Comptroller, Academic Vice President.

AT all times maintain and preserve the official copies of the Student Association constitution and bylaws in the Student Council office.

PRICE IS RIGHT for SEC.

for
Business Manager

WHO WILL IT BE? — Techsians voting by secret ballot today will choose three boys and three girls from the 18 candidates for cheerleaders to rally students behind the Raiders next fall. Run-off elections are set for Monday. —Staff Photo

Cheerleader Candidates

And Duties

Candidates for cheerleader are Carolyn Buxton, Linda Edie, Carol Fursman, Gay Gillespie, Jeannine Jones, Nelda McQuien, Camella Moore, Kathy Osthoff, Sandy Sample and Jami Steinhoff.

Other candidates are Myrna Stephenson, Lynn Wallace, Dennis Ashmore, Mike Bohn, Smiley Irvin, James Perry, John Ward and Bobby King.

Those persons elected will:

- Be responsible for all Texas Tech pep rallies
- Coordinate the generation of enthusiasm at all recognized college athletic events
- Be responsible for furnishing a representative to the Southwest Conference Sportsmanship Committee
- Encourage good sportsmanship on the campus
- Be responsible to the business manager for the management of their finances
- Elect, from their number, a

head cheerleader who shall be a male student and shall serve as their chairman.

PRICE IS RIGHT for SEC.

It Takes More Than Yelling To Be A Tech Cheerleader

Lots of people can yell and cheer with gusto when the Red Raiders go over for a touchdown. Quite a few can turn flips, inspire enthusiasm and attend all athletic events.

But there are a few special qualities, perhaps best classified under the term, gung-ho, that sets a good cheerleader apart from the football crowd.

Special qualities don't include regular cheerleader duties such as coordinating pep rallies and being on hand at ballgames.

One Tech cheerleader called it a year-round job. "A cheerleader must attend teas for visiting athletes, entertain visiting yell leaders and when away, attend all planned functions at other schools," she said.

High on her list on what makes a cheerleader really go is being able to perform yells well, en-

thusiasm, and devotion.

"A good cheerleader above all to develop sportsmanship and his enjoys cheerleading," she reflects. "He should at all times strive to develop sportsmanship and his own potential to its fullest."

Industrial Engineers Win First

Industrial engineering department took its fifth straight first place in the recent Science and Engineering Show.

Industrial engineering exhibits demonstrated techniques in production control, plant design, materials handling, work measurement, statistical quality control, product design, manufacturing analysis and organizations research.

Displays in the 31st SE annual show were judged on appeal to the public, explanation of department curriculum and presentation of exhibits.

The industrial engineering display received 3,705 points of a possible 4,000.

Bud Lanham was chairman of the department's exhibit. American Institute of Industrial Engineers and Alpha Pi Mu set up the displays.

READY TO STOMP—Judy Richards, junior, and Bob Fouts, senior, are all decked out for the Phi Mu western dance 8-11:30 p.m. today. Jimmy Heap's Band will play for the open dance at Vann's Catering Service. —Staff Photo

Delegations Plan Trips

Delegates from Tech's history department will scatter to state and regional history meetings in Austin and Albuquerque this weekend and next.

Four faculty members will represent Tech at the Texas State Historical Assn. meeting this weekend. The Austin meet begins today and continues through Saturday. Dr. David Vigness, department head; Dr. Ernest Wallace, professor; Billy Mac Jones, instructor and Richard Marcum, teaching assistant, will attend.

Tech's chapter of Phi Alpha Theta, history honorary, will send five representatives to a regional meeting in Albuquerque, N.M., Friday and Saturday, May 3-4.

Attending will be Dr. Paul Woods, history professor, and Lt. Col. George R. Hull, professor of air science.

Ronald Benson, teaching assistant, will present a paper on the Hay-Pauncefote treaty.

Nancy Vincent, Alpha Theta president, and Sarah Gaston, Austin junior, are Tech's student representatives.

Why Do You Read So Slowly?

A noted publisher in Chicago reports there is a simple technique of rapid reading which should enable you to double your reading speed and yet retain much more. Most people do not realize how much they could increase their pleasure, success and income by reading faster and more accurately.

According to this publisher, anyone, regardless of his present reading skill, can use this simple technique to improve his reading ability to a remarkable degree. Whether reading stories, books, technical matter, it becomes possible to read sentences at a glance and entire pages in seconds with this method.

To acquaint the readers of this newspaper with the easy-to-follow rules for developing rapid reading skill, the company has printed full details of its interesting self-training method in a new book, "Adventures in Reading Improvement" mailed free to anyone who requests it. No obligation. Simply send your request to: Reading, 835 Diversey Parkway, Dept 9894, Chicago 14, Illinois. A postcard will do.

Zsa Zsa Stars In Union Show

Mel Ferrer and Zsa Zsa Gabor star in "Lili," a technicolor movie, at 4 p.m. and 8 p.m. today and 2:30 p.m. Sunday in Tech Union Coronado Room. The Special Events Committee is sponsor.

Grads Discuss Negro Novelist

Grover Lewis and Nolan Porterfield, graduate English students, will lead the discussion at today's Noon Forum in the Tech Union Blue Room.

Discussion topic is contemporary Negro novelist, James Baldwin. Baldwin is author of "Another Country."

Purdue Prof Lectures On European Market

Competition from the European Common Market will force the U.S. to move rapidly if it is to hold onto its world markets or consider expanding them, according to Dr. James Greene, industrial engineer and visiting lecturer at Tech.

His ideas may carry some special weight since he has recently been a consultant to the European Production Agency, a division of the Common Market's organization.

"The U.S. must find ways to produce goods with more efficiency," he declared. "This presents a challenge to our industrial engineers."

Dr. Greene, a Purdue University professor, is spending three days, Monday through Wednesday, at Tech. He is conducting seminars in general industrial engineering research, production control and operations research.

Positions Open For L-V Staff

Applications are now being accepted for associate editor, copy editor and staff artist for next year's La Ventana.

Students interested in these positions should write a letter giving their qualifications, past experience on an annual or newspaper, why they want the job and any new ideas they may have for next year's La Ventana.

Past experience is not necessary, but preferable. Applications should be turned in to the La Ventana office or to either Johnnie Lu Raborn or Travis Peterson by May 1.

These are paid positions, and applicants should be willing to put in a great deal of time.

HONORARY MEETS

Psi Chi, psychology honorary, will meet at noon today in Tech Union, Elmer's Lounge. The group will initiate members and present a slate of officers. Those attending must sign up in the psychology office, X-31.

SURROUNDED—Carol McCormick, Ennis sophomore, was surrounded by cadets from England's Royal Air Force after their captain said, "If I were you blokes, I wouldn't let these ladies sit alone."

As I see it . . .

by johnnie lu raborn

"You think we speak the same language, but we don't," said one cadet from Cranwell, the Royal Air Force Academy in England. I had to agree with him.

Tech's Angel Flight was visiting the Air Force Academy in Colorado Springs. Some were dated with English cadets, who were also visiting. It was a real education.

For years, I've heard the English stereotype came out with "jolly good," "old chap" and "ra-ther." They are all true with the addition of an occasional "quite" and "Oh, my yes."

In England, you are not "out to lunch" but "around the corner." When we have a lousy date he is called "cull" or "bad head," but Cranwell calls them "grimmies."

'MAKING OUT'

It is a mystery how they got it but "cupeake" is said for "making out." Tennis shoes are called "blimp shoes," and a resounding "dash it" means darn or damn.

We Americans take much for granted. These cadets had never seen a drive-in movie or drive-in restaurant. Motels were also new, for they don't exist in England. Some of the guys got their first taste of pizza, Mexican food and pretzels. They didn't like it.

'STATUS SYMBOL'

It is a status at our Air Force Academy for the "firsties" or seniors to have Sting Ray Corvettes. That vast parking lot is full of them. I didn't see five cars under two years of age. The Cranwell "chaps" find it "marvelous" to get to ride bicycles when seniors. They do have cars, but generally these are somewhere in the 30's models. A car 10 years old is relatively new.

I did notice one thing about the cadets as a group. They abounded with national pride. One said, "There will always be an England." To which some of the U.S. cadets sort of laughed. A Cranwell "troop" recounted with a "Don't scoff at it, national pride is a wonderful thing." Their pride was so emphasized that it made me wonder if we "came over" the same way about our country.

On Saturday night, a formal ball was given for our flight, Cranwell and first classmen (seniors) at the academy.

The British boys taught us one way to live up a rather stiff dance. During one of the songs, one Cranwell "troop" yelled "Ants." The cadets immediately fell down on the floor, rolled over on their backs and kicked their feet and arms into the air. At the sound "dead ants," the legs and arms went stiff. Rather quaint, I'd say, but still effective enough to break everyone up.

GHOUL POOL

The Angels with U.S. Academy dates were wondering that night if they were included in the "ghoul pool." It goes like this. The academy hosts arrangements for blind dates for the formals. Cadets within each squadron enter a "pool" for 25 cents. At the dance, squadron officers act as judges and dance with the dates of each cadet entered in the pool. Afterwards, these officers decide which had the worst date and he wins the money. If we did it here, I would be rich.

AS I SEE IT

Sigma Kappa will choose a "Mr. Pledge" at 8 p.m. today in the National Guard Armory. Mr. Pledge will be chosen from fraternity pledges. The Caravans will play for the all-school dance.

Phi Mu will have a western stomp, 8-11:30 p.m. at Vann's Catering Service. The open dance will feature Jimmy Heap's band. Tech Union also is having a western dance from 8-11:30 p.m. in the Ballroom. Jimmy Mackey is playing.

KAPPA KAPPA GAMMA

An informal "German Beer Garden" will be the setting for the Kappa Kappa Gamma dinner dance at 6:30-11:30 p.m. today.

Delta Sigma Pi will have its Rose Dance from 7:30-12 p.m. Saturday at the Pioneer Hotel.

Newman Club will go on a picnic Sunday to Palo Duro Canyon.

Red-White Skirmish Ends Spring Training

Scarborough, Ben Elledge Opposing QBs

By ARTIE SHAW
Toreador Sports Editor

A pair of shining freshman quarterback prospects will be opposing each other at 4 p.m. in Saturday's final spring training scrimmage.

Featured will be Danny Scarborough of Quanah and Ben Elledge of Brownwood.

The annual contest is the rubber game of the series, as the Reds jumped to a quick two-game advantage, only to have it taken away from them in the last two outings by the underdog Whites.

Two upperclassmen quarterbacks, Bill Worley of Midland and James Ellis of Lubbock, underwent knee surgery in December and will probably not see action, although they will be suited.

Statisticians Overworked

With both the Reds and the Whites threatening to "loosen-up" their previously tight offenses, the stress could be worse on the statisticians than on any one else.

Last week the Reds gathered 364 yards of total offense in a losing cause, while the Whites haled and threw for 277 in their 20-12 victory.

Long gainers have been the word of the day thus far, and any

Tech Linksmen Meet UT At Meadowbrook

Texas Tech, in an effort to get back into the Southwest Conference golf race, engages the University of Texas here on Lubbock's Meadowbrook golf course today.

Tee-off time at Meadowbrook is 12:30 p.m.

Coach Jay McClure's linksmen, 4½-1½ losers to Texas Christian University here Monday, will also be motivated by a desire for revenge. Texas sports five lettermen from the squad that downed the Red Raiders 5-1 in Austin last year.

Texas Tech currently has a 14½-9½ standard. The Raiders lost to Texas A&M, knocked off Rice 6-0 and defeated Baylor 5-1 before dropping the match to TCU.

Texas' players will probably be Bill Munn of Midland, Randy Geiselman of Houston, Oscar Goode of Austin and Pat Thompson of Mission.

Texas Tech golfers for the match will probably be Bruce Dobie of Worcester, Mass., Richard Yates of Corpus Christi, Housty Brewer of Andrews and Jim Davidson of San Angelo.

Yates is Texas amateur champ, and lost his first-SWC match of the year to Jack Montgomery of TCU last week.

BILL WORLEY

. . . Will not see action

more would be just icing for the cake.

Jim Zanios, Albuquerque full-back, for example, took a handoff from Red quarterback Ben Elledge and raced 52 yards off tackle in a spectacular gainer.

Elledge connected on two long passes, one to all-Southwest Conference end, David Parks, for 44 yards and another to Stimmert half-back, Donny Anderson, for 41 yards.

For the rubber game, each having won two contests, lineups will be exactly the same as last week. There may be a trade at half-back between David Baugh of Rotan, a Red last week and Jimmy Edwards of Roysie City, who played for the White squad last week.

Admission is \$1 for adults, 50 cents for students and Tech students will be admitted by showing their identification cards.

Traffic and Security

The staff is comprised of a chief, 10 commissioned officers, one night sergeant, two radio operators, one secretary, one clerk and two part-time employees. There are three radio-controlled patrol cars. In October, 1962, there were 6,240 cars registered to park on campus.

Tech Netters Challenge Rice, Texas In Important Matches

Texas Tech tennis players, in their next two matches, have a chance to influence the outcome of the Southwest Conference championship campaign.

In successive matches—against Rice University here Saturday and against University of Texas in Austin Monday—the Red Raiders tackle the teams currently sharing the lead.

Coach George Philbrick's netters, besides playing the role of potential spoilers will be out to guarantee or better their own third place position. Tech is 14-4 following wins over Baylor University 5-1 and Texas Christian University 6-0 and a split with Southern Methodist University 3-3.

Raiders' netters will be Daryl Allison of Lubbock, Greer Kothmann of Junction, Beau Sutherland of Kerville and Robert Peterson of Wichita Falls.

Rice University is led by the 1962 Southwest Conference finalist in both singles and doubles, Fritz Schunck. The Owls, coached by Sammy Giamalva, are defending Southwest Conference team champions.

Last year Rice downed Tech 6-0, and the Longhorns battled the Raiders to a 3-3 draw.

A re-match of last year's SWC finals doubles match, won by Allison and Sutherland over Schunck and DeEdward Greer, has been virtually ruled out by re-pairings on both teams.

Matches, on the Varsity Courts, will start at 1:30 p.m. The public is invited free of charge, Coach Philbrick pointed out.

GEORGE PHILBRICK

Pics Down AFB, 20-12

Texas Tech's Picadors picked up their eighth win of the season Wednesday as they ran away from Reese Air Force Base, 20-12.

The game, which took three hours and twenty minutes to play, was called at the top of the ninth inning due to darkness. Tech slammed out 17 hits, as converted basketballer Dadid Schmidly picked up his first mound victory of the season. Schmidly pitched the first four innings and left the game with a 15-5 lead. In his four innings stint, Schmidly allowed only four hits, while striking out six and walking three.

The Picadors were led at the plate by second-baseman Buzz Henderson, who collected four hits out of five at bats. Jim Murrell and Ronnie Holly drove in the most runs with five RBI's apiece.

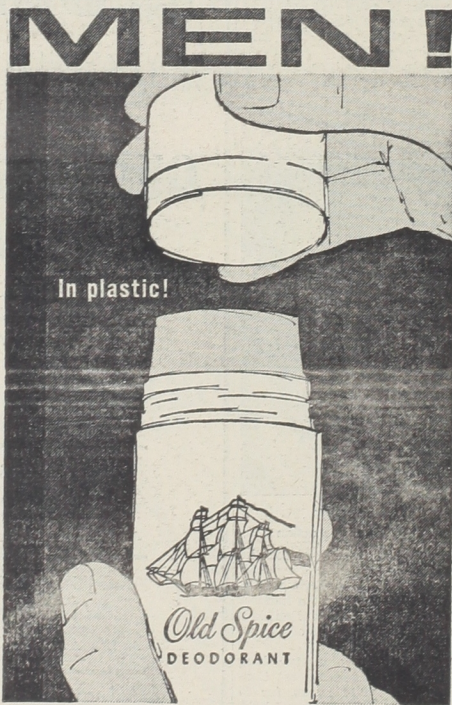

"FLORA-SCENT" makes The Perfect MOTHER'S DAY Gift

Raiders Visit Highlands Nine

Two improved baseball teams—Texas Tech and Highlands University—clash in a doubleheader at Las Vegas today.

Since Texas Tech posted a pair of wins, 5-2 and 3-0, here earlier this month, the Cowboys have won six straight and now are 10-10 for the season.

The Red Raiders have a three-game streak, and five of the six, going for them. Their only loss came at the hands of the Abilene Christian College nine. Other wins are the twin-killing of Highlands and a double victory over ENMU.

If a sports fan wants to stay busy here this weekend, he won't have much difficulty.

Touching off the crowded schedule was an NRA Rodeo, which begins at 8 p.m. Thursday. Other night sessions are carded for tonight and Saturday night. One is also slated for 2 p.m. Saturday afternoon.

★ ★ ★

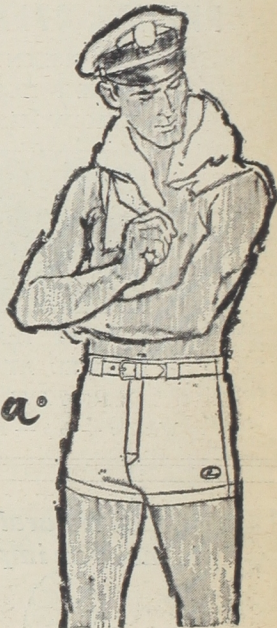

A football clinic gets underway at 2 p.m. today and continues through Saturday. It is being hosted in conjunction with the annual Red-White scrimmage and will include a barbecue tonight and sessions Saturday morning. Head Coach J T King and his staff are holding this clinic for high school coaches.

★ ★ ★

Starting at 1 p.m. Saturday will be finals in the Red Raider Relays, open to state track and field meet qualifiers. The strongest events prior to the start of the Relays appear to be the 100-yard dash, pole vault and high jump.
