Politicos Set Stage For Race

By The Associated Press
Texas politicians set the stage on Monday, the filing deadline, for light ballots in the May 2 party primaries.

Democrats in all statewide races combined totaled only slightly more than the 24 Democrats who battled for only four key offices in 1962.

14 GOPS FILE

Fourteen Republicans have filed for statewide races to provide only two contested GOP races—Governor and U.S. Senate.

GOV. JOHN Connally and Houston attorney Don Yarborough will have only the second two-man Democratic gubernatorial primary in 46 years.

Republicans are making a different type of party history with a new high of three candidates seeking a statewide race, the U. S. Senate seat.

Connally and U. S. Rep. Joe Kilgore added drama for Democrats on the final day of filing.

CONNALLY HESITATED

Connally filed for re-election after saying he had considered dropping out of the race, and Kilgore dashed conservative Democrats' hopes by declining to oppose U. S. Sen. Ralph Yarborough.

REPUBLICANS, meanwhile, quietly accepted the filings of four more candidates for statewide offices.

GOP leaders hope to create more interest in their primary with a Presidential preferential primary. The proposal will be considered at a March 9 meeting.

Atty. Gen. Waggoner Carr, Treasurer Jesse James, Comptroller Robert S. Calvert, Railroad Commissioner Ben Ramsey, Supreme Court Associate Justices Ruel Walker and Robert W. Hamilton and Court of Criminal Appeals Judge K. K. Woodley are unopposed in the Democratic primary.

FACE GOP MEN

All but Ramsey, Woodley and Hamilton must face Republicans in the November general election.

Sen Yarborough will meet John Van Cronkhite, a former campaign organizer for former Gov. Allan Shivers, in a primary race which many conservative Democrats had hoped would include an experienced candidate such as Kilgore.

The winner will meet either George Bush, Houston oil man, Dr. Milton Davis, Dallas surgeon, or Robert Morris, former counsel of the Senate internal security subcommittee, all running for the GOP nomination to the Senate post.

The other GOP contest is for governor. The candidates are C. G. Weakley, Jr., Dallas insurance agents, and Jack Crichton, Dallas oil man.

BABY, IT'S COLD OUTSIDE — Carole Brashear, Petersburg junior, braves the bitter cold to make classes Monday, as rain turned into downy snowflakes covering the campus—and students—in the first snowfall of the year. The U.S. Weather Bureau in Lubbock officially gave Lubbock an inch of snow late Monday, predicting more in the early morning. Light snowfall was forecast until noon today, during below-freezing temperatures. —Staff Photo by Sarge Klinger

Coed Contest Open For Beauty Crown

Applications now are being taken for the 1964 National College Queen Contest. All single women between the ages of 17 and 22 are eligible to enter.

The winner will receive more than \$5,000 in prizes, including a trip to Europe and an automobile. Other prizes include a complete wardrobe and portable appliances. A winner from each of the 50 states will be awarded free trips to the World's Fair in New York City where the finals will be conducted during mid-June.

Judging is based on academic accomplishment as well as attractiveness, charm and personality.

Candidates may send in their own names, or they may be nominated by individuals or groups by writing to National College Queen Contest Committee, 1501 Broadway, New York 36, N.Y., for full information and entry blanks.

The event is part of the "New York Is A Summer Festival" celebration, sponsored by the New York Convention and Visitors Bureau.

Four Chosen To Oklahoma Model U. N.

By MICHAEL READ
Toreador Staff Writer

The Model United Nations Steering Committee has chosen four of its members to observe the University of Oklahoma Model General Assembly Feb. 13-15.

The students making the trip will be Alan Henry, secretary-general of the Model U.N.; Jeri Rogers, African bloc leader; Zafer Cetinkaya, Western bloc leader; and Richard Hollingsworth, Soviet bloc leader. Dr. Paul J. Woods, Model U.N. faculty adviser, will accompany the students.

BLOC MEET SET

At a Monday meeting, the Steering Committee discussed plans for an orientation meeting Thursday, to be followed by the first bloc meetings.

SPEAKING OF the orientation meeting, Secretary-General Henry said, "This meeting is probably the most important meeting prior to the Model U.N. itself." All delegates to the Model U.N. are to attend this meeting, and about 200 delegates should be present.

The orientation meeting will begin at 7 p.m., Thursday, in the Tech Union. A packet of necessary materials will be given each delegation at this meeting, and the contents of these packets will be explained.

Dr. Woods will speak on the delegate's responsibilities.

This year's discussion topic is Human Relations and Apartheid in South Africa. In keeping with this

topic, a 30-minute film, "Black and White in South Africa," will be shown.

FILM IS CRITICAL

Henry said that this film is critical of the South African policy, and material on the other side of the question will be presented at future meetings to provide a balanced picture of the situation.

AFTER A SHORT question and answer period, the delegations will attend the first bloc meetings. These meetings will be in the Union. The African bloc will meet in Room 207, the Asian in the Coronado Room, Latin American in Coronado Lounge, Soviet in 208, Middle East in Executive Room and Western in 209.

In addition to the bloc leaders to visit the University of Oklahoma, Norman Mayes will head the Middle East, Joan Strandman will lead the Latin American and Mareia Winkelman will lead the Asian bloc.

The president of the General Assembly will be elected at a March 4 meeting from candidates nominated in the bloc meetings on Feb. 19-20.

TWO POINTS HIT

Two points are to be emphasized in instructions to the delegates. The packet materials on each country should be thoroughly read, and each delegation should present the actual viewpoint of the country it represents at the March meeting of the Model U.N.

Secretary-General Henry has called a noon meeting today for bloc leaders and faculty advisers, to complete plans for the bloc meetings. This meeting will be held in the Union. Rules and procedures, resolutions, and position papers still remain as discussion topics for Steering Committee action.

Council, BSO Posts Vacant

New vacancies in both the Student Council and the Board of Student Organizations will be filled during this month.

Elections to fill the positions of seven school representatives to the Student Council will be Feb. 26 and 28.

Resignation of these positions, including four in the school of Arts and Sciences, two in the school of Engineering, and one in the school of Home Economics, were accepted Monday by the Student Council Office.

Those resigning include Bill Abraham, Pat Daniels, Keitha Davis, Bill Dennis, Jeannie Gratton, Nancy Henry and Mike Moore.

Applications for 1964 officers of BSO are now available in the Dean of Student Life's office, and must be in by Friday at 5 p.m.

Those interested in holding an office must have a 2.0 point grade average for the preceding semester and a 2.0 overall grade average. No experience in the BSO is necessary.

Interviews for these positions will be arranged by the BSO Executive Council after the applications are turned in to the Dean of Men's office.

University Integrates Frat Rush

The University of Texas Interfraternity Council announced Friday that Negroes would be admitted to the fraternity rush for the first time this spring, according to a United Press International release.

The actual selection of the members will be by the fraternities and none will be required to accept Negroes.

Tommy Drew Cauthorn, interfraternity council president said,

The only limitations for individuals participating in fraternity rush are the scholastic requirements and the probationary standings imposed by the university.

According to Cauthorn, no Negro has filed for rush so far. The only Negro fraternity on campus, Alpha Phi Alpha, is not a member of the interfraternity council.

Techsan Asphyxiates

Services for Eddie Wittman, 20-year-old Tech junior, were Monday in Stuttgart, Ark.

Wittman was found dead in his garage apartment Saturday morning by his brother, John Wittman, an assistant professor of economics at Tech. Justice of the Peace George McCleskey ruled accidental death by asphyxiation.

The victim enrolled in Tech last Tuesday. He attended Tech before, but was not enrolled during the fall semester.

Wittman was born and reared in Stuttgart where he was a member of the Emanuel Lutheran Church.

Survivors include his parents, Mr. and Mrs. John L. Wittman, Stuttgart; a sister, two brothers, and his grandmother.

'We Wuz Robbed,' Cries Irate Reader

Dear Editor:

We wuz robbed!

MY DATE, myself, and I'm sure a considerable number of other couples were also robbed, and brazenly, I might add, in full view of a near-overflowing crowd in Municipal Coliseum on the evening of Feb. 1, 1964.

This was not the only time such activity has taken place and most assuredly, not the last. And who were the thieves? A number of Tech students who would probably not knowingly steal from anyone but have no aversion to being overtly rude.

WHAT WAS stolen? The first-come-first-serve privilege of occupying a seat in the student section during an athletic event.

Let me recount what happened to my date and myself this evening: We arrived at the game an hour and a half before the varsity game started. There were already quite a few people there . . . mostly students.

LIKEWISE, in places, there were a few seats, and we proceeded to take two for ourselves and view the freshman game from a prime position. Almost immediately, we were surrounded by four or five

individuals who were obviously annoyed with our presence.

Since my date looked very nice, combed my hair and put on clean clothes, I could not imagine what it was that was so repulsive about us. We came to find that we were imposing on nearly a whole row of their "buddies and their dates" who found it very inconvenient to make their grand entry until 10 minutes before game-time.

WHILE ONE of the brave souls was informing my date that she was sitting in his date's seat, I was beginning to think that something was fishy, since he came from the opposite end of the row above.

During this exchange, there was a quite hefty young man behind me who repeatedly made his presence known by bumping his stomach into my back and saying, "Let's don't start any trouble. I'm right behind you, Buddy."

RATHER THAN create a bigger scene and get my head bashed in, I thought it wise, at the moment, to depart and find a nice dirty step to sit on. From such a step we watched with much satisfaction

seeing the 'Horns get clobbered. But I found the part of my anatomy on which I sat . . . quite sore. Now THIS makes me mad.

My point is: no one, and I mean no one, has the right to more than one seat per I.D. card, no matter how early he arrives at a game. As our system is at Tech, the occupancy of student seats is on a first-come-first-serve basis and should be respected as such. I paid for this privilege when I registered this semester just as did the person who sat in the seat to which I was entitled.

IN MY INSTANCE, this is the last time my privilege will be abused, regardless of the scene created, and if too many scenes are created . . . we will probably be burdened with a more cumbersome procedure of admittance to athletic events.

At the University of Texas, for instance, students must take their I.D. cards to the ticket office and draw tickets for each game. When the tickets for available seats run

out, admittance ceases—therefore, no ticket, no seat.

But then, if such a system is instituted, and we find it bothersome to stand in lines like everyone else, we can always send someone to hold us a place, can't we?

John Lauritzen wanted further knowledge

He's finding it at Western Electric

When the University of Nevada awarded John Lauritzen his B.S.E.E. in 1961, it was only the first big step in the learning program he envisions for himself. This led him to Western Electric. For WE agrees that ever-increasing knowledge is essential to the development of its engineers—and is helping John in furthering his education.

John attended one of Western Electric's three Graduate Engineering Training Centers and graduated with honors. Now, through the Company-paid Tuition Refund Plan, John is working toward his Master's in Industrial Management at Brooklyn Polytechnic Institute. He is currently a planning engineer developing test equipment for the Bell System's revolutionary electronic telephone switch-

ing system.

If you set the highest standards for yourself, both educationally and professionally, we should talk. Western Electric's vast communications job as manufacturing unit of the Bell System provides many opportunities for fast-moving careers for electrical, mechanical and industrial engineers, as well as for physical science, liberal arts and business majors. Get your copy of the Western Electric Career Opportunities booklet from your Placement Officer. Or write: Western Electric Company, Room 6405, 222 Broadway, New York 38, N. Y. And be sure to arrange for a personal interview when the Bell System recruiting team visits your campus.

Educator Visits Here

Dr. Oscar Haugh, editor of the University of Kansas Bulletin of Education and Studies in Education, will conduct meetings on "Improving the Language Arts Program" Friday and Saturday, and Feb. 14-15. The meetings are sponsored by the West-Texas School Study Council, composed of 23 West Texas public schools and Texas Tech.

Staff Organizes League

Interested Tech faculty and staff members will meet to organize a spring semester bowling league.

Teams will consist of four mixed members, and the league is open to all couples and individuals who want to participate. Free preliminary instructional sessions will be scheduled by the Lubbock Bowling Club staff. These sessions are to provide instructions for inexperienced bowlers and refresher instruction for those out of practice.

The meeting is scheduled for 5 p.m. Thursday in the Men's Gym, room 206.

Ballet Classes Offered

A "one day only" course will be taught by Fernand Nault today in the dance room of the Women's Gym. Nault is ballet master of the American Ballet Theater.

He will also perform with the ballet company when it tours Lubbock today and performs at the Municipal Auditorium.

Suzanne Aker, physical education dance instructor, reports that the class is open to persons interested in participating or observing the instruction. A nominal fee will be charged. Interested persons may contact Miss Aker at Ex. 4107.

The class is set for 4-5:30 p.m.

'Firebugs' Light Up Play

By LANE CROCKETT
Toreador Amusements Editor

Attention, pyromaniacs! The "Firebugs" is here. One doesn't have to be a pyromaniac to enjoy this play. It has a little bit of everything—good acting, good directing and good setting.

Max Frisch, German born playwright, has written what may be termed as a different kind of play. There is no central theme. In fact, there are no central themes.

Barry Corbin, veteran of several Tech plays, turns in his usual stable performance as Gottlieb Biedermann, who has the unfortunate luck to house two "firebugs" in the attic of his home.

Acting honors go to Raymond Bailey, who gives a fine performance as Sepp Schmitz, a wrestler who incidentally is a firebug. The role gives Bailey a chance to show his acting ability, which he does with flying colors. To watch actor

Bailey eat is just about worth the whole performance.

The "sometimes" plot revolves around Herr Biedermann, who may be termed as "Mr. Average," and who is presented a simple problem. What to do when two firebugs decide to inhabit one's attic.

There are two alternatives—

either throw them out (which he should) or try and make friends with them and hope for the best (which he does).

The play has been extended to Friday and Saturday.

The play will also be presented Wednesday and Thursday. Performance time is 8:15.

Foster Ties 60-Yard Record

By MIKE WALL
Toreador Sports Editor

Billy Foster, speedster from Southern Methodist, tied the existing world record in the 60-yard dash with a 6.0 flat time in the event in the third annual Lubbock Invitational Track and Field Meet Monday.

In the same meet, Olympian Ralph Boston from Tennessee won both the 60-yard high hurdles and the broad jump event to take high point honors. Boston's distance in the jumping event set a new Lubbock mark. His 25-7 effort eclipsed the old record set in 1962 by 14 inches.

Another sensation of the meet was the freshman shotputting master from Texas A&M, Randy Matson. Matson set a new Texas indoor track record with a toss of 60-3/4. All three top finishers in the event went past the old Lubbock mark of 56-2 set last year.

The university two mile relay proved to be the most exciting race of the night, with a strong Oklahoma team edging past a group from the University of Texas and barely nipping them at the wire. All three first places in the event again broke the old Lubbock record of 7:56.9. Oklahoma's time in the event was 7:53.4, with Texas a bare tenth of a point behind and third place Baylor finishing in 7:56.8.

In the races for the women, Janice Rinehart of the Texas Track Club defeated the defending champion in the event, Sue Schexnayder, in record-tying time. Miss Rinehart flashed over the 60-yard distance in 7.1 seconds with Miss Schexnayder close behind with a 7.3 time.

For the Tech tracksters entered in the meet, it was a disappointing night.

Hurdler Ronnie Biffle garnered a third-place medal for his 7.3 time in the 60-yard obstacle race, Noel Carter finished a disappointing third in the 500-yard dash after leading most of the way, and Walter Cunningham managed a fourth place effort in the record-pacing 60-yard dash.

Swimmers Seek Win

Coach Jim McNally's swim team, winless in seven outings, tangle with the Eastern New Mexico Lobos at 7:30 p.m. today in Portales.

In action against the University of Oklahoma Friday, the Tech swimmers managed only one first place as they were soundly trounced by the Sooners, 70-24. Junior Phil Simpkins was the first place winner for the Raiders, with a 22.4 time in the 50-yard freestyle.

In the Saturday meet with defending Southwest Conference champion Southern Methodist, Tech could again manage only one first place. This time it was sophomore Gene Naukam, who won the 200-yard butterfly event with a 2:26.1 time.

Tech Tackles TCU Frogs

The high-flying Red Raiders from Tech take on the luckless Horned Frogs from Texas Christian in a must game for the Tech team and a too-late game for TCU today in Fort Worth.

Holding on to a second place tie for the Southwest Conference lead, Tech cannot afford a loss to the Frogs with all important games with Southern Methodist and Texas A&M coming up.

Thus far this season, Coach Buster Brannon's Frogs have yet to win a SWC game, losing their fourth consecutive game to SMU Saturday, 70-67.

Probable starters for TCU are Jim Torbet, 6-4, sophomore; Gary Turner, 6-6, sophomore; Archie Clayton, 6-10, junior; Bobby McKinley, 6-2, senior; and Rollie Cornish, 6-0, junior.

Turner hit 18 points for the Frogs in the loss to SMU, and McKinley hit 14 in the same game. Coach Gene Gibson will go with

his usual starting five consisting of Harold Denney, 6-8, junior; Glen Hallum, 6-5, junior; Dub Malaise, 5-11, sophomore; Tom Patty, 6-5, senior, and Norman Reuther, 6-4, sophomore.

Reuther set the high point record for the season in the effort against Texas, scoring 27 points. In the same game, Denney pulled in 15 rebounds to tie the high rebound record for the season.
