

Tech Is To Have Representation On College Capers Program

Volume XVIII Z1742

College Capers To Have Tech Feature

Tech will be represented in a wartime radio edition of College Capers which will be sponsored this summer by Interstate Circuit, Inc. of Dallas, according to President Clifford B. Jones.

Students who have any stunt suitable for radio, who can sing over the radio or present a radio skit or play should report to Miss Anna Jo Pendleton, head of the speech department or Dr. Julien Paul Blittz, head of the music department, immediately, leave such data as required, and arrange for a time for rehearsal so the committee will know what talent is available on the campus. Tryouts will be held before the judges from Dallas arrive for auditions. Groups will be selected to represent Tech.

President Jones has named the following committee to handle all details for our participation in the program: chairman, Dr. H. L. Kent, administrative assistant, Dr. Blittz, Miss Pendleton, Wesley Youngblood, manager of KFYO, and Mrs. Johnnye Langford, head of women's physical education.

"Two years ago Tech participated in the summer tour and its representatives made a very creditable showing," said Dr. Kent. "If the talent is available we would like to participate again this year."

Last year, plans for College Capers were abandoned because of transportation and housing problems. This year the performance will be limited to the radio. College Capers of the Air will be presented over WFAA, Dallas, each Sunday afternoon beginning in the early summer. Only one school will be included in each broadcast until the finals. Judges will, at the end of the series, select for final elimination four outstanding acts and from the final competition two winners will be selected.

For each act that appears on the program participants will receive \$50 and acts which reach finals will receive \$100 for each appearance made during finals. The winner will be awarded at least a four-week contract for additional performances and if presented the winner will also be presented on a national network radio program, receiving all expenses and a competent fee for the appearance.

In addition to all prize money, any act appearing on the program will receive full expenses to and from the city in which the program originates as well as all expenses for their stay in the city.

Charles H. Freeman, head of the Interstate Circuit, Inc. will visit the campus at a later date for auditions. Karl Hohlitzelle of Dallas, member of Tech board of directors, is making further arrangements for this year's program.

Only Seniors Are To Be Deferred

No college students are to be deferred unless they can graduate by July 1, 1944 or can complete requirements for entrance into a medical or dental school and actually be taking classwork in either school by that time, according to Dr. H. L. Kent, administrative assistant.

These changes took place in the conditions of deferments of college students April 4, but copies of the orders were not received by the college or local draft board until Tuesday.

Home Ec Division Will Present Initial Program

The initial program of the series, "Design for Living" will be broadcast by students of the local high schools, and the division of home economics tomorrow at 11:15 a. m. over KFYO.

Tomorrow's program is entitled "What next? Shall I Go to College?" It was written by home economics students under the direction of Miss Frances Urban, associate professor of home management. Techsians participating are Yvonne Hartsell and Jean Wilkins. Also on this program will be two high school seniors.

A map of the country illustrating a placard containing the program schedule for the entire series has been sent to all high schools in the area. The schedule includes "Living at Home Is Fun," May 6; "Two and Three-Year-Olds in College," May 13; "Eating for Home and Health," May 20; "We Are All Designers," May 27; "Clothes on Your Back Should Be Off Your Mind," June 3; and "Professional Opportunities for Home Economics Trained People," June 10.

Press Club Will Function Through Summer Session

Press club will function through the summer, it was decided at Tuesday's meeting. Election of officers for the summer season will be held at the first summer session meeting, Tuesday, June 6.

Outgoing officers are: Ellen Helton, Miller, president; Martha Larch, vice-president; and Margaret Long, secretary-treasurer.

THE TORREADOR

TEXAS TECHNOLOGICAL COLLEGE, LUBBOCK TEXAS, FRIDAY, APRIL 21, 1944.

Knowing How To Vote Is Essential In Keeping Tech Democratic

Number 29.

Tech Coed Lists Flying As Her Favorite Hobby

Natalie Bailey, sophomore pre-law student from Tahoka, when asked why she is taking flying, replies, "Just for enjoyment."

She has always been interested in flying, she confesses, even attempting to have an CPT course last year only to find instruction limited to prospective WASPS. Her interest is purely as a hobby. Natalie plans to make a career of juvenile work.

This tall, brown-haired, brown-eyed Texan is only 18. She is the only woman student in Tech enrolled in the flying course. Natalie soloed with only eight hours instruction.

"As in driving a car," she says, "you have more confidence when you yourself are at the controls—especially in a stall!"

Talk Tech Is Theme Chosen By Commerce Group

The first convocation of commerce students in conjunction with Tech Chamber of Commerce will meet Monday afternoon at 4 o'clock in room 220 of the Administration building in support of the "Talk Tech" campaign.

President Clifford B. Jones will speak to the group on "The Possibilities of Students Talking Tech in Their Hometowns between May 15 and 29." Following his discussion the students will be divided into groups by their hometowns and a faculty sponsor will talk to them.

Purpose of the campaign is to tell more high school graduates about Tech. Several campus organizations are aiding in the program. Students in all divisions are invited to attend the convocation and help promote the campaign in their communities.

Judging Contests Are Held Sat.

Four Hundred Will Attend Aggie Meet

Entries from approximately 50 schools have been received for the seventeenth annual vocational agricultural judging contest which will be held on the campus tomorrow, according to an announcement made before this paper went to press by R. L. Chappelle, head of the agricultural education department and general superintendent of the contest.

Four hundred teachers and students are expected to represent West Texas high schools and will have use of Tech's facilities in the agricultural division, says Dean A. H. Leidigh. Registration is scheduled to begin at 8 o'clock tomorrow morning. Awards will be given at 5 p. m.

To the three high teams in each contest banners will be given. Ribbons will be awarded the five top-ranking boys in each part of each contest. The three high individuals in each contest will also be awarded.

The crop judging division will be supervised by Cecil Ayers, instructor in plant industry. The section leaders are Ronald Cleavenger, Kenneth LaMaster, L. D. Langham, Charlie Hickman, Robert Finley and Ed L. Robertson. Horace Tomlinson, Clyde Black and Edith Ayer will be in charge of the materials. Clerks for this contest will be Jack Creel and Charlene King. Dr. A. W. Young, head of the department, Dean A. H. Leidigh of the agricultural division, E. L. Mader, assistant professor of agronomy, and Ayers will be judges for the contest.

Eugene Cupp, senior agricultural student from Earth, will be superintendent of the poultry judging contest. Sections leaders of this division will be Bob Boyd, John White and Glenn Whitten. Paul Payne, Carroll Jones and Lewis Cobb are to be clerks. Prof. J. D. Strickland, assistant professor, of animal husbandry, will be contest judge.

For the dairy contest, Thomas Miller, James L. Savell and Eldon Rosson will serve as section leaders. K. M. Renner, head of the dairy manufacturers department, and L. G. Harmon, assistant professor of the department, are judging the contest.

R. C. Mowery, professor of animal husbandry, will be superintendent of the livestock judging division, which will include two classes of each of the following sections: beef cattle, dairy cattle, hogs and sheep. Assistant superintendent is to be Lewis Cobb. Ed Whitesides, Herman Quinius, Edgar Boaz and Jimmie Randalls are to be senior leaders. Clerks for this contest will be James E. Henry, Carroll Jones, D. H. Brewster and Barton Wigham.

Judges for the livestock division are to be as follows: W. L. Stangel, head of the animal husbandry department; F. G. Harbaugh, professor of the department, E. G. Blackmon, '28, livestock farmer; Joe Christen '35, connected with Economy mills; Roy E. Davis, A & M graduate of 1927, connected with Plains Cooperative Oil mill; W. A. King, '32, district supervisor. (SEE—CONTESTS, Page 4)

New Society Petition Is Presented

Organization For Honor Freshmen Applies For Charter

Scroll and Key, freshman honor society for men, is petitioning the Administrative Council for recognition. The object of the club is to apply for a charter with Phi Eta Sigma, national scholarship fraternity for freshman men.

The club, organized with the aid of Dean of Men James G. Allen, elected officers Monday afternoon. Tom E. Jamieson, Matador engineer was elected president. Lin E. Ewing, Lubbock accounting major, vice president; Mickie Sweeney, mechanical engineer from Lubbock, secretary-treasurer.

Other freshmen men who have established eligibility thus far are: Joe Loyd Beryman, Jack Autry Bill D. H. Brewster, Hubert L. Burgess, Arthur W. Busch, Fred Clarence Ferguson, John Lewis Hickey, Fred William Knoll, Warren Meeks, William E. Murfee, J. F. Strickland, Frank Taylor and Barton C. Willingham.

Requirements are as follows: (1) Eligibility for membership must be limited to regularly enrolled men students who have less than 30 hours credit, exclusive of credit in band and physical education.

(2) In establishing scholastic eligibility a student must have credit for a minimum of 13 hours for a fall or spring semester and a minimum of 12 hours during the summer, exclusive of band and physical education.

(3) No student is eligible for membership that transfers more than 20 credit hours to our college. Transfer students who have less than 20 credit hours must establish their eligibility during the first semester they are in our college.

The organization committee further recommended the adoption of the following plan, by which the qualifications for eligibility of men to be members of the organization will finally meet the requirements for membership in Phi Eta Sigma.

(1) That during the spring semester 1944, a man student in the college meeting the requirements listed above, and making a 2.0 average, shall be eligible for membership.

(2) That for the summer and fall semesters 1944, those men students meeting the requirements listed in the above paragraph, and making a 2.5 average, or better, shall be eligible for membership.

(3) That for the spring semester 1945, a man student meeting the requirements listed above, and making a 3.0 average on one-half his scholastic average, and a 2.0 average, or better, on the other one-half of his load is eligible for membership.

Phi Eta Sigma now has 48 chapters throughout the nation, and was founded to encourage and reward high scholastic attainment among men members of the freshman class. It was established at the University of Illinois, March 22, 1923, by Dean of Men Thomas Arkle Clark.

Miss Adele Hill Lectures At Recent Seminar

Miss Kate Adele Hill, district agent for cooperation work of College Station, spoke to senior home economics students on home demonstration work in Texas at home economics seminar Wednesday morning.

Miss Hill discussed the need for home economics trained people in home demonstration work. She explained the qualifications and the program required. Legislation affecting home demonstration work and cooperation with the county courts was covered.

She especially stressed the importance of training for the vocation for which one is trained. She gave as examples the people who are now doing mechanical work for which they are totally untrained because of the lure of higher salaries. She advocated the long range view of staying in the profession for which one has trained with the probabilities of future development and advancement.

Salaries and opportunities in the field of home demonstration were also discussed.

Applications for head boy and girl yell leaders must be turned in by Monday afternoon at 5 o'clock to the Double T Association in care of Walter Scheinkman, president. Qualifications for office are average and 60 hours at the time leaders take office.

Student Officers Will Be Nominated Tuesday

Pages Selected For Recognition

President Jones Will Receive Honor Scroll

Approximately 125 women will be recognized next Friday evening at 5 o'clock on the green south of the Administration building. President Clifford B. Jones will receive the recognition scroll at that time.

Awards will be made on a basis of scholarship and leadership, a grade point average of 2.0 being prerequisite. Women recognized are those whose grades for the fall semester are A or A minus.

Women members of Alpha Chi, Alpha Epsilon Delta, Alpha Psi Omega, Phi Upsilon Omicron, Kappa Mu Epsilon, Theta Sigma Phi, Sigma Delta Pi, and Sigma Tau Delta will receive recognition. Women who received prizes or honors at the Awards convocation in the fall will also be recognized if they are enrolled.

Mary Menon Stangel, outgoing AWS president, will give Lucille Melton, recently elected to that office, the torch which symbolizes the office, as part of the ceremony. Forum's award to the highest-ranking sophomore will also be made at that time.

Dr. Julien Paul Blittz will direct music for the ceremony. Pages for women being recognized are as follows: Mary Frances Alexander, Ruth Anthony, Lotie Margaret Atkinson, Imogene Bagwell, Glenna Faye Bailey, Lotta Bess Baldwin, Mary Margaret Borden, Betty Ruth Brock, Myrtle Brown, Jane Burns, Mary Jo Byrd, Ann Cabanis, Billie Bob Cannady, Dorothy Cantrell, Syble Carter, Joan Carver, Francis Chance, Mrs. Fay M. Cogdill, Roberta Conner, Dorris Clifton Cook, Polly Cook.

Betty Crawford, Norma Croxton, Ruth Cunningham, Estelle DeBusk, Betty Bob Diltz, Mary Nell Ernest, Verda Beth Edler, Christina Eller, Mary Findley, Charlene Fisher, Mozelle Fleming, Faustena Fulfer, Jean Goodloe, Margaret Goza, Janice Hall, Pat Hanks, Maxine Hendersdorf, Fae Beth Hill, Loretta Hodge, Gloria Hodges.

Ann Ruth Howland, Geraldine Howard, Joy Hughes, Naomi Hughes, Mrs. Nadine Huskey, Ruth Evelyn Keith, Margaret Kemp, Lois Kimbrell, Charlene King, Thelma King, Irene Knowles, Mary Langford, Martha Larche, Mary Nell Lea, Zelma Lee, Betty Jo Leonard, Carole Loveman, Jane McAlister, Alice Ned McCleskey, Modelle McClure.

Betty McDonald, Jane McGowan, Frances Jean McGregor, Joyce Murray, Miriam J. Means, Claudine Merritt, Mary Virginia Mixon, Margie Morrow, Jean Newman, Polly Anna O'Neil, Gertrude Owens, Frances Page, Marne Parrott, Edwina Pendleton, Angela Peters, Barbara Peterson, Willie Pike, Forrest Pittman, Virginia Pitts, Doris Ragsdale.

Betty Renner, Bobbie Jean Rhodes, Rose Marie Roberts, Margaret Rosson, Betty Russell, Betty Lou Seaman, Elizabeth Shaw, Jean Slover, Maureen Smith, Nancy Stiles, Sara Jane Strange, Mary Blanche Summers, Aileen Tapp, Mary Tartar, Betty Jane Taylor, Norma Lee Thornton, Mary Troy, Miriam Turrentine, Joy Veste Yardeman, Wanda Jean Vinal, Pitsy Walker, Ernesteen Wallace, Bettie White.

Latin Americans Talk At Littlefield

Latin American students attending Tech will take part in a panel discussion on the Latin American student and the American educational system at a district meeting of Federated clubs in Littlefield Thursday. Dean James G. Allen will be in charge of the discussion.

Students participating will be Norman Arguello, Humberto C. Castillo, Jorge Luis Munoz, Jorge Emilio Padilla, Carlos Ries, Guido Luis Rodriguez, Fabio Hernandez Urbina, and Maria Valdez.

1943-44 Annuals To Be Released

La Ventanas for 1943-44 will be released May 5. Prof. R. A. Mills, sponsor, announced today. Virginia Forbes, business manager, will make arrangements for their distribution in the basement of the press building, he said.

Eleanor Cotton, editor, and Ellen Helm Miller, associate editor, returned Monday from Iowa City, Iowa, where they read proof on the annual. Except for a few minor changes in the annuals are ready to go to press and will be shipped by truck the twenty-fifth of this month, they reported.

Candidates Are Named From Floor

Three Constitution Amendments Proposed

CONVOCATION for nomination of student officers will be held Tuesday night at 7:30 o'clock in the gym, according to Maxine Craddock, Student council president. Nominations will be made from the floor for the offices of student body president, vice president, secretary, business manager, representative to the Athletic Council, and yell leaders.

Three amendments to the student constitution will be proposed by the Student Council. They will deal with eligibility to hold office; an AWS representative to the Student Council; and the organization of a committee on student life and recreation to work on plans for a Student Union building.

Election of officers and voting on the amendments will take place Monday, May 2, from 9 a. m. until noon, and 1 until 3 p. m. Ballot boxes will be set up in the Home Economics, Engineering, and Administration buildings. Agriculture and commerce students will vote in the Administration building in addition to arts and science enrollees.

Candidates for the offices of president, vice president, secretary, business manager, representative to the Athletic Council, and the yell leaders must have at least a C average in all of their college work, and must have passed a minimum of nine semester hours with at least a C average last semester.

Presidential and vice presidential candidates must have at least 90 semester hours at the time of assuming office. Candidates for the offices of secretary, business manager, student representative to the Athletic Council, and yell leaders must have at least 60 semester hours at the time of assuming office.

Nominations for yell leaders will be made by the football squad since the Double T Association is not active this year. Applications for the positions should be turned in to Walter Schinkman by Monday, for approval by the squad. Two yell leaders will be elected, one man and one woman.

Only students who have attended Tech for one full school year at the time of election shall be eligible to hold office. Two elective offices cannot be held simultaneously by the same person.

A C average is based on the quality point system and must be maintained during the tenure of office for the offices mentioned; the quality point system being an average of at least one grade point for every hour for which the student has enrolled.

Campus Visitors From High Schools Attend Local Play

Approximately 300 seniors from nearby high schools visited the campus yesterday as guests of the college, according to Dean J. M. Gordon, dean of arts and sciences. From 2 until 5 o'clock they were conducted on a tour of the campus and through the buildings by members of the Student Council. Last night they attended the three-act play "Letters to Lucerne" as guests of the speech department.

Senior classes from the following towns were invited to visit Tech: Plainview, Cone, Hale Center, Abernathy, Muleshoe, Amherst, Sudan, Littlefield, Anton, Whitharral, Pettit, Pep, Morton, Whiteface, Denver, City, Levelland, Sundown, Shallowater, Wolforth, New Deal, Roosevelt, Cooper Consolidated, Ross, Patton Spring, Idalou, Lorenzo, Ralls, Crosbyton, Spur, Dickens, Southland, Post, Wilson, O'Donnell, Tahoka, Lamesa, Roper, Meadow, Brownfield, New Home, Earth, Spade, Cotton Center, Lockney, Floydada, and Robertson.

Grace Overton To Speak Again

Grace Sloan Overton, author and lecturer on problems of youth, personality adjustment and preparation for marriage and family life, will be in Lubbock next fall, Dr. Archie J. Bahm, associate professor of sociology and philosophy, announces. Dates for speeches will be Nov. 13, 14 and 15.

Mrs. Overton will speak to Tech students, high school students and parents, with Student Religious Council sponsoring her appearance on the campus. Other Lubbock meetings will be sponsored by the Lubbock Ministerial Association and the Parent-Teacher Association.

Tech students heard Mrs. Overton speak in the fall of 1942, when she discussed problems of modern youth. Her best-known book is Love, Marriage and Parenthood.

College Calendar

- Friday, April 21
- San Jacinto Day convocation, 10 a. m., gym.
- Spring festival, HE club, 6 p. m., Aggie Grove.
- Aggie club, hayride and barbecue, 7 p. m., stock judging pavilion.
- Alpha Phi Omega, hayride and dance, W. G. McMillan, home, 7:30 p. m.
- Saturday, April 22
- DFD spring dinner dance, 9-12 p. m., Hilton hotel.
- Engineers' picnic, 2:30 p. m., Mackenzie park.
- Newman club dance, 8 p. m., Newman hall.
- PSU installation banquet, 8 p. m., First Baptist annex.
- Sunday, April 23
- Band concert, 3 p. m., gym.
- Las Leales initiation, 5:30 p. m., 2627 Twenty-first.
- Monday, April 24
- Women's Inter-Club council, 5 p. m., Miss Dyar's office.
- Kappa Kappa Psi, 7:45 p. m., T 105.
- Newman club, 7:30-9:30 p. m., Newman hall.
- Tau Beta Sigma, 8 p. m., T 210.
- Tuesday, April 25
- Convocation for nomination of officers of the student body, 7:30 p. m., gym.
- HE club, 7:30 p. m., Annex D.
- Majors and Minors club, 7:30 p. m., Ad 210.
- Wednesday, April 26
- WRA dancing, 7:15 p. m., gym.
- Las Chaparritas picnic for patrons/wresses, 5:30 p. m., Mackenzie park.
- Thursday, April 27
- AWS, 5 p. m., Ad 220.
- Rehearsal for Women's Recognition Service, 5 p. m., S. of Ad Bldg.
- Alpha Phi Omega, 7:30 p. m., Ad 220.
- Student Council banquet, 7:30 p. m., Hilton hotel.
- Journalism banquet, 8 p. m., Hilton hotel.
- Faculty dinner, 7:30 p. m., Women's dorm No. 2.

# THE TOREADOR

THE TOREADOR, student newspaper of Texas Technological college, is published every Friday on the campus of Texas Technological college at Lubbock by the associated students of the college.

Entered as second class matter, October 31, 1925, at the postoffice in Lubbock, Texas, under the Act of March 3, 1879.

Editorial offices, Press Building, Rooms 103, 106. Telephone: college switchboard; Night editor, 8548.

## Learn How To Vote-

IF TEXAS Tech is going to maintain its student government and uphold the democratic standards set up by our forerunners, then we Techsians are going to have to learn not only to vote, but how to vote. Next week we will be called upon to nominate student officers which will compose next year's campus governing body.

Were you one of those twenty students who cast a void ballot last week? Of course, you had no intention of not having your votes counted after you went to the polls and voted. Many coeds did not have that much interest in the AWS election.

This year little interest has been apparent in all of the elections. Only a few of us Techsians have even attempted to cast a ballot, whereas in the past such an occasion on the campus was endorsed by the entire student body. Since this is our campus, and it is run along the same democratic lines as our country's government, such laxity reflects on our ability and consciousness as citizens of Tech. Something needs to be done.

The way in which our student organization is carried on next year depends on how each one of us goes to the polls in a couple of weeks and casts our votes. The action is voluntary, yet it is a privilege and even a duty to ourselves, to the candidates and to Tech. We can not complain if the officers fail to come up to our expectations, unless we are the ones who put them in office and endowed them with the duties of that capacity.

Those of us who do go to the polls must know how to vote in order that our ballots will be counted. It would be a waste of time and effort for us to vote a void ballot. The process of voting on this campus as set up in our student constitution is simple, and there should be no such excuse as not knowing how to follow the requirements. The ballots are numbered, and the voter should write his ballot number and his initials beside his name on the student directory. Then he should make his choice of candidates, numbering them as to preference, and then sign his ballot with his name before casting it into the box.

Such a procedure takes only a few minutes of one's time on his way to or from a class, and yet it means a great deal to the welfare of the student government. If only a few vote as it seems the present policy has become, then we are allowing an oligarchical form of government to establish itself in our midst. We are depriving ourselves of one of our oldest rights, that of having a voice in our government.

While ex-Techsians are in combat zones fighting to maintain our democracy, we idly sit by letting it fade away. In no other country could we be so free and democratic that we could still have such a government on the campus of a state institution. If we become inclined to care so little for our own student government, then what will we do when we are confronted with voting in our state and national elections. In the first place we lack interest, and secondly we have insufficient knowledge in knowing how to vote effectively.

The candidates and their backers receive little or no satisfaction from having such a "push-over" in getting a desired office. Competition is one of the best ways to create interest, and controversy makes the campaign more enticing. Candidates have either been chosen with little forethought or else not enough students have been concerned to try for an office with duties and honor attached. Is it that we are too busy trying to get out of school or in having fun that we are neglecting the political side of our campus life? How can we Techsians blot out an important phase of student organization and be content to take what comes our way by letting a minority control the top-ranking positions in our set up?

We will be tested again as to our citizenship here on Tech campus when we nominate and elect officers. Let us all have a part in determining who shall be our next student body president and other officers.—G. J.

## Band Aids Campus...

AT LEAST one organization on the campus is contributing to campus beautification. The Matador band, which receives a part of proceeds from every student activity ticket for traveling, uniforms and any other purposes as a student activity, has started landscaping around a band stand. The stand, which will have a shell at the back built on after the war, is located southeast of the Textile Engineering building, where the band hall and office is located.

Last year the band was unable to take its usual tour, and the Student Council permitted the use of the band's traveling fund to build the shell. The concrete stand was built last summer and grass was planted around it. Recently, however, R. I. Lockard of Tech's architecture department, made a plan for the landscaping. Band members wore coveralls to class and worked diligently before and after rehearsal digging the ground and planting grass seed, trees, and shrubs. Pledges of Kappa Kappa Psi, band fraternity, were given the task of watering the area every day, and already the plants have begun to get green.

Most members of the band and "Prof" Wiley will agree that working around the stand has been fun, and in a year or two, they can be proud of the improvement it has made to a little corner of the campus. It seems that any number of organizations on the campus which have had to stop many activities for the duration could each take a small plot to beautify.—V. C.

## Love At First Sight-

Co-eds at Montana University don't believe in love at first sight. And despite the wartime trend, they're in no big rush to get married. These facts are revealed in a campus survey of attitudes toward engagement and marriage in a sociology class titled, "The Family." The conclusions were based on

the answers of ninety-five university women proportionately allocated among the four college classes. The average age of the group was 19. A romantic 18 per cent of those questioned looked upon "love at first sight" as a requisite to a happy marriage, but an impressive 82 per cent thought there's nothing

# AMERICAN HEROES

BY LEFF

"Shooting Fool" is what they called Pvt. Charles Zuke, of Big Rapids, Mich., because in line of duty he shot down 22 Jap snipers in New Guinea. He twice bagged Japs who were trying to nick off his captain, saving the officer's life. No sniper's nest is safe from his Garand rifle. We help put Garand rifles in our heroes' hands with every War Bond bought.

U. S. Treasury Department

## Wake Up And Live-

WHY can't Techsians wake up and live? We should not be content to harbor our energies and talents within our campus, which is just a narrow strip of the big world about us. How often are we conscious of what is going on in the East and West, to say nothing of the North and South? We scan through the daily newspapers, reading the comics, sports or fashions, and headlines. After so-called reading of the morning news, could any of us go to class and clearly discuss an important current issue? What do we know about the racial problem, expected to be one of the most serious situations we must face after the war, unless it is the delinquency solution which is far from its desired destination.

Would not the professors be surprised if a current happening were used as an example in a classroom? There are many incidents that could be mentioned in place of ancient textbook examples.

Some say that we are living in an ever-changing age, but you could have fooled half of Tech students. Of course, everyone knows that a war is going on. We discover that each day when we ask for something in a store and the clerks look disgusted and go into great detail to explain that such an object has not been made since Dec. 7 or that it is on the priority list.

We Techsians worry more about who we are going to date or what we are going to wear than whether the soldiers should vote or what is going to happen to the hungry Europeans after the war. We spend our money and time for cokes, picture shows, and merrymaking rather than donating to War Bonds, the Blood Bank, and Red Cross.

If all the gripping we do was put together for a good purpose, then the war would be over in no time. Not only are we faced with today's problems that may be spread out over the world, country, state and campus, but we have the future staring us in the face as a challenge. Our present outlook may be a disillusion unless we are willing to do something about it.

We could afford to do our small part for our country in such a time of need. The time and energy that such little deeds require would never be missed in our daily routines. When one thinks of the hours that he wastes in bull sessions, extra sleep and over coffee in the Bookstore, he can account for time wasted that could be put to better use. There are things other than being obviously patriotic, such as rolling bandages or selling war stamps, that would help us in making Tech a better place. The future will be governed by what we are doing now. To live in the post-war world we must harness the best in us and have a working or practical knowledge of the extensive scope under such conditions. These things can not be learned in classrooms alone, no can they be obtained in movies or drug stores. It will have to be done through service and openmindedness, by keeping one's eyes open, taking advantage of what is going on in the four corners of this earth, and recognizing reality.

## Life With The Exes

Thomas Rollins of Littlefield is taking V-12 training at the University of New Mexico. When he finishes his course there in six weeks, he expects to go to midshipman school from which he will be graduated as an ensign.

James Victor Allen of Spur is also at the University of New Mexico in the V-12 program. Eldon Thorn, Ph. D., one of Tech's first geologist graduates, is now in the Army Engineers corps.

Lt. (jg) Henry Stence has recently been promoted from the rank of ensign. Lieutenant Stence of Lorena, a pilot flying with bombing squadron 105, has been awarded the DFC for attacking 11 German destroyers.

Capt. Earnest Gloyna has recently been promoted to his present rank. Captain Gloyna of Thalia has been overseas for 21 months. He is an aviation engineer stationed in England.

Ensign Walker Nichols, a former member of the Double T club, is now stationed somewhere in the Pacific area.

Lt. Marion Harris, an ex-Double T man, recently visited on the campus en route to the Pacific coast for an assignment. Lieutenant Harris of the Navy has been stationed at Corpus Christi. His wife, the former Maxine Clark, is planning on remaining here in Lubbock.

Garlan Head, a former basketball and football player, has recently been transferred to the armed infantry and is stationed at Camp Campbell, Ky. He has been a member of the ASTP.

Norman M. Rushing received the silver wings of a flying officer and commission as a second lieutenant in the Army Air forces last week from the Columbus Army Air field in Mississippi. Lieutenant Rushing entered pilot training Aug. 1, to it.

1943 and attended flying schools at Camden, S. C., and Greenwood, Miss., before his graduation at the advanced flying school near Columbus, Miss.

Capt. Jack Wells, a former member of the Silver Key club, is a Marine dive-bomber pilot. Captain Wells has encountered 43 missions against Japanese installations.

Sydney Erwin Key received his silver wings this week when he graduated as a second lieutenant from the Army Air Forces Advanced Two-Engine Pilot school at the Pecos Army Air field. Lieutenant Key of Kirkland was assigned to Pecos from Minter field, Calif.

Ray E. Ramsey was graduated last week from the Columbus Army Air field, Miss., where he received his silver wings and commission as a second lieutenant in the Army Air forces. Lieutenant Ramsey entered pilot training Aug. 1, 1943 and attended flying schools at Camden, S. C., and Greenwood, Miss., before his graduation at the advanced flying school.

William T. Cooke of McLean also was graduated last week from the Columbus Army Air field in Mississippi. He received the silver wings of a flying officer and commission as a second lieutenant in the Army Air forces. Lieutenant Cooke entered pilot training in September, 1942, and attended flying schools at Albany, Ga., and Greenwood, Miss., before his graduation at the advanced flying school.

Lloyd E. Brunson of Longworth was also a member of the class of aviation cadets that graduated from Columbus Army Air field, Miss., last week. He received his silver wings and commission as a second lieutenant. Brunson entered pilot training in July, 1942, and attended flying schools at Albany, Ga., and Greenwood, Miss., before his graduation at the advanced flying school.

## From.... 1

## 2 ...Another

By COUNT MEOUT

JIMMY FURRH was spurned but definitely Wednesday by CHUCK FISHER—turned down for a broom and a sailer. NINA CARPENTER's naval aviation cadet has her roommates on his side now. He brought them each a corsage of roses. Nan had the Navy visiting last week, and he'll be back this weekend. What's HAROLD PATTERSON doing in the meantime?

NINA JEWEL FAIRBAIN received a belated birthday gift Wednesday from Lt. David Hamner in the form of a life-time Shaeffer, but she says matters are still the same.

CHARLES CATHEY and BETTY JO CARDELL are keeping everyone guessing, but it's our opinion that LOU (of Lou to Louella), is way off the beam.

We've noticed that RALPH MECUSKER all but reaches for his six-guns at any references to the woman he loves, namely PETE ALLEN.

SPIDER DILLON, the Shiek of Texas Tech, latest conquest is MARGIE GERBER.

MARIJANE DUNN's fiancé ALBERT BAUCUM was in town last weekend. Every week it's the same thing.

LANELLE DOSHER was all excited too last weekend when JAMES COPE, her fiancé, ex-Techian, and naval aviation cadet at Louisiana paid her a visit.

EDDIE ALYANAK, ex-engineer, dropped in out of no where and left MARY JEAN WEBB one happy little girl.

HOY WEST and MARGARET ANN HUFFAKER were observed braving the better part of Oklahoma Sunday. (For the benefit of any dummies present, we are referring to the sand storm, West Texas fog, or what ever you may choose to call it, which we probably couldn't print here anyway.)

BETH HAMILTON'S time of late has been completely occupied with her fiancé, who until recently was interned in Switzerland. They will be altar-bound come summer.

DORIS CORNELIUS was being violently pursued by a couple of the least eligible wolves on the campus. VIRGIL MIERNS and RICHARD DIGNEY in the Bookstore this week. Hail, the age of adolescence.

Texas swains are keeping the long-distance wires hot. GENE BOSTLIN, ex-engineer, called DORIS HAMMERSCHMIDT last Friday. VIRGIL MIERNS and RICHARD DIGNEY, current number called her. Daphne will meet him in Sweetwater next weekend.

We wonder how LYNDELL BAUGH has managed to live this long without her one-and-only engineer.

PEGGY SEALE and MARIE DOLLAR spend most of their time in a little Mercury club coupe. Wonder how it feels to be a plutocrat?

D'LYLE BROOKE and JIMMY are a regular dupe these days, and were seen loping down the avenue the other night.

BONNIE CAMPBELL went home again this weekend because she didn't get to stay long enough last time.

MARY LYNN MORRIS may be listed among the doomstricken after the recent graduation at LAAF.

But she looked any thing but gloomy Saturday night, laughing with her fledgling loote. In fact, she was so high in the clouds she could hardly see her friends for mud.

EDNITA LONG is also unhappy about her lieutenant leaving after graduation at LAAF. He is headed overseas.

TOMMIE RHODES and YVONNE WESTMORELAND are considering a trip to Del Rio after schools out. Need we say more?

MAYBELLE BONNER pinned her lieutenant's wings on at the afore mentioned graduation and seen Sunday in a red car so long. We wonder if she'll be on hand to do the honors when ex-Techian ARLE GOWAN graduates from midshipman's school next month?

JACKIE WILKISON was having a hilarious time at a sporting night spot with an ex-Techian sailor (whose name we didn't catch) last Saturday night.

RODIE SUE KEENE did things for the morale of at least part of the air field in Pecos, last week.

William Lloyd George, an apprentice seaman, is stationed in San Diego, Calif.

Also H. B. Patterson, jr., William Andrew Jones, Sam Bob Ewen, William Tolbert and Wallace W. Loflad are apprentice seamen in the Navy and are now stationed in San Diego, Calif.

Maj. Leonard Bauman Roper, Flying Fortress pilot and squadron commander of the Eighth Air Force in England, has received the Air Medal with two Oak Leaf Clusters after completing ten combat missions.

## Campus Observations-

WHEN ex-Techsians and Techsians read about a Student Union building for Tech, they no doubt sigh and say, "Still the favorite dream of those students on the plains" and right they are for it is one thing that it seems every Techian really wants to see for the college, and is unselfishly dreaming of not for himself or the benefit of the division he or she happens to be enrolled in, but for Tech. . . . A Student Union building.

Why shouldn't this student body go down not only as the dreamers but doers as well? An excellent opportunity has presented itself to Techsians of 1944. We are going to school while the world is at war. Many friends and relatives are in foreign points all over the world fighting, many of them dying, and bombs are tearing down buildings of immense structure, buildings that housed important archives, wonderful pieces of architecture, and then we, the few students of Tech talk about adding a Student Union building.

When we put in our nickels and dimes and dollars for a Student Union building, we are at the same time putting down money for the ex-Techsians now in the war, we are doing something for national defense, because the money we put into a Student Union fund may be placed in defense bonds to be used after the war, when the govern-

ment doesn't put a red X on all building materials, and fellows overseas don't need blood plasma, ammunition, food and clothing.

The money that has been donated so far by a few groups when added up and placed along the figure for a proposed building, it amounts to a drop, but it takes a few drops to make a stream. A few grains of sand will start a rock, and so it goes.

A comment of, "why a Union building," was made (not by a Techian) and this was the answer, "So we Techsians can become better acquainted and build some of that badly needed school spirit." That answer seems to describe fairly accurately a need and an advantage of a building to call our own and to be used by us in work and play.

In a Union building there would be adequate room for club quarters so that no longer would the meetings be pushed around from one place to another, and never in a room where bulletin boards, pictures, permanent records could be kept.

A ballroom would be included so that the harrowing experience of taxi's sometimes missing other cars and sometimes not, would not have to be coped with every time a dance was scheduled. A game room would provide some place to go when ones number 18 and airplane stamps give out and "just walking around" has to stop, and the shows that are on for the fourth time wouldn't have to be seen a fifth, and maybe even digestion would be restored, in part at least, because then there would be someplace to go, and one wouldn't have to drop in an avenue "beanery" just to get off the street.

We take a great deal from Tech, but are we giving it anything? The Double T sign was given by a graduating class, and when it was kept lighted, it could be seen for a great distance and came to mean much to Techsians who remember its shining in the night. It's a tradition that we have let slip by us. The chimes were another thought of a graduating class to help the fainting spirit of Techsians, and now they are working for were when the paper went to press, one never knows about the eccentricities of the chimes) but it has been demonstrated how they may come and go. In a building we would have a milestone in the development of Tech, in for better comradeship among students, in helping Tech become a full grown college.

The possibility of using one of the men's halls next year for a Student building has been the current rumor and has received favorable comment from both students and faculty.

What the rumor proposes is for the building to be used in part for taking the lounge and dining hall (SEE-CAMPUS, Page 4)

MARIEHELEN—Brings you Garden-Fresh Dresses designed for Spring Enchantment

Marihelen is featuring cool, cotton dresses for spring and summer. We will be happy to have you stop in and try them—sizes from 9 to 11.

Also gay shorts and play suits \$5.95 to \$10.95

Marihelen's Across The Campus

# SPORTS

## Women's Team Wins Volleyball Game Monday

Women students come in to the spotlight this week in two sports, volleyball and baseball.

The first volleyball game for Tech women was played against the Lubbock High school team Monday night with Tech winning three out of five.

The volleyball team this year is composed of girls who played in a team against the physical education majors last year.

Those on the team are Louise Biffle, Veda Nell Pierce, Jean Cowart, Marjorie Schneider, Mary New and Mary Alice Hooten. Mary Alice served as team captain in the Monday night game. The team is coached by Mrs. Margaret Mancipelli, assistant professor in physical education.

Future plans for Tech's team include another game with the Lubbock High school squad, a game against the Aggie team and one with the men's faculty team.

## Social Clubs Have Baseball Tournament

A round robin in baseball is now underway among the women's social clubs on the campus.

Last year the DFD team came out victorious winning every game, but it seems the story will have a different ending this year, for they have already bowed to the Las Chaparritas one point by playing two extra innings with a final score of eight to seven.

The other game Monday afternoon was between the Ko Shari team and San Souci team. The Ko Shari's won nine to two.

Tuesday the Las Chaps won 21 to 8 in game played against the Ko Shari's and the DFD's won 10 to 8 against the Vivis. Wednesday the Ko Shari team against the Vivi team and San Souci against Las Chaps. Thursday the DFD team played against the Souci team and the Vivi against the Chaps. Today the last games will be between the DFD and Ko Shari teams and Vivi and Souci.

Physical education majors and minors have acted as umpires throughout the tournament.

Monday umpires were Doris Richardson, Louise Miller, Ruth Griffin and Wynona White. Scorekeepers were Ruth Spikes and Yvonne Westmoreland.

Tuesday umpires were Nina Jewel Fairbrin, Willa Jean Bailey, Louise Miller and Lois Smith. Wednesday umpires were Doris Richardson, Betty Alexander, Nina Jewel Fairbrin and Willa Jean Bailey.

Captains of the teams are: DFD, Maxine Craddock; Las Chaparritas, Mary Frances Barnard and Margie Gerber; San Souci, Dolores Bizzell; Las Vivarochas, La Verne Allen; Ko Shari, Helen Mixon and Pat Sparks.

## Basketball Team Begins Practice

Plans for spring training for next year's basketball team are complete and actual practice is next, on schedule, according to Polk Robison, basketball coach.

Monday afternoon at 5 o'clock in the gym will be the opening of spring practice. All boys interested in basketball whether they will be back next year or not are asked to come over Monday afternoon.

Members of this year's squad who are likely to be back next year are: Don Grove, Monument, N. Mex.; Jay Kerr, Channing; Tex Wallace, Portales, N. Mex.; Jack Dillon, Chillicothe; Paul Haskins, Wolforth.

## Banquet Honors Football Men

The men left in spring football training were guests at a banquet at the Hilton hotel last Tuesday. At the banquet awards were made to the seven men remaining in school from last year as lettermen in football, and certificates given to basketball men also.

The seven football men present were: Hubert Bechtol, Lubbock, now in V-5 Navy program; T. M. Cox, Muleshoe; Don Dudley, Wichita Falls; Bobby Hayes, Burkburnett; Buster Melton, Merkle, in V-12; Tom Pirtle, Lubbock; Bill Barnett, Waco, team manager.

The basketball men were: Hubert Bechtol, Lubbock; Donald Grove, Monument, N. Mex.; Jay Kerr, Channing; Phil Ragsdale, Lubbock; Tex Wallace, Portales, N. Mex.

## Wanda Allen Receives WAC Promotion

Wanda L. Allen, ex-Techian now in the WAC assigned to the WAC headquarters hospital detachment at Camp Carson, Colo., was recently promoted to the rank of technician sergeant fourth class.

Sergeant Allen was sworn into the service in April, 1943. She took her basic training at Buxton, La., and her advanced training at Bakers and Cooks school in Buxton and Ft. Oglethorpe, Ga., and then was transferred to Camp Carson in August, 1943.

There she has been assigned to unit personnel. Before joining the WACs, Sgt. Allen was a home making teacher. She has three brothers in the service, Lt. George T. Allen, Pvt. James R. Allen and Cpl. Robert H. Allen.

"The WACs have proved invaluable in the operation of Camp Carson," such was the appraisal of WACs by Col. Wilfried M. Blunt, camp commander, 11 months after the arrival of the first WAC contingent at Camp Carson.

"WACs have entered wholeheartedly into army life, working efficiently at 55 different types of work in 35 activities in this camp," he said. Of the Camp Carson WACs

## Noel E. Thompson Returns To States After Pacific Duty

Marine Capt. Noel E. Thompson is now stationed at the Marine Corps Air depot, Miramar, Calif., after completing more than 100 sky freighter hops throughout the Solomons in which he amassed 1200 flight hours.

Prior to Captain Thompson's most recent combat assignment as pilot for Maj. Gen. Francis P. Mulcahy, he was a pilot for the South Pacific Combat Air transport, commonly called "SCAT." His flying boxcar carried essential war supplies to Marine units in the South Pacific war zones and returned to the home base in the New Caledonia islands with wounded men and transient personnel.

Although his transport plane encountered heavy ack-ack over Munda and Bougainville, the Marine pilot declared the weather and not enemy bullets was his worst obstacle during scheduled flights. He experienced his narrowest escape while dropping paratroops to an advanced raider unit on Munda.

"We were flying just above the tree tops," he said, "when a pack of mortar shells stuck in the door. The pack broke open, throwing the shells back against the horizontal stabilizer. The plane nosed over, and it was several seconds before I got it under control. Frankly, I was scared to death."

Captain Thompson, a graduate of 1939, was a radio announcer for station KFYO before entering flight training. He won his wings and was commissioned as Corps Pilot in August 1942, and was promoted to Captain last June.

## Jack Wells Makes Direct Jap Hit

Captain Jack Wells, Tech graduate and now a Marine dive-bomber pilot, has completed 43 missions against Japanese installations.

Report of the hottest scrap he has been in comes from Bougainville which tells of his part in a strike against Rabaul.

Wells is credited with a direct hit on a group of anti-aircraft guns with aerial photographs confirming the direct hit. The cluster of shrapnel holes in the fuselage of his plane near the cockpit were soon forgotten when he saw the pictures showing the damage he had done.

"When the Jap guns opened up on us we were still a good two miles away," he related. "We took advantage of a heavy cloud formation to escape the concentrated ack-ack. By the time I came out of the cloud formation and the Japs spotted me I was going straight down at about 300 miles per hour."

"I strafed as I went and released my bombs right over the gun position. As I leveled out I glanced over my shoulder and could see black clouds of smoke rising from the target."

assigned to various branches of personnel there, 20 per cent were former teachers.

## STARS IN SERVICE

## Lt. O. D. Hunter Is Squadron Hero In Pacific Area

One of the members of the "Fighting Corsairs," a Marine fighter squadron with 10 aces on its roster, is Lt. Ovis Deltan Hunter of Childress. This squadron hero is credited with three Jap planes, two with his present unit and one while flying with another squadron.

The "Fighting Corsairs" had 135 1/2 Jap planes to its credit and a victory ratio of more than 20 to 1 over the Japs when it completed its third tour of combat duty. On the most recent of three tours of duty at the front, this squadron shot down a total of 104 1/2 Jap planes with a loss of only five Marine pilots, four of whom are listed as missing. It shot down 19 of this total in one day. Altogether the squadron has 46 probable victories to its credit, 26 of them listed on the last tour.

Lieutenant Hunter was employed by the Southwestern Life Insurance company of Dallas before he joined the Marine Corps.

## Gloyna Receives Recent Promotion

Earnest Gloyna, who was graduated from Tech in 1941, has recently been promoted from rank of first lieutenant to captain. He is an aviation engineer.

Gloyna has been overseas about 21 months with headquarters in England.

While in Tech he was an engineering student and a member of Tech ROTC.

## Spring Festival Is Given By Home Ec Club

Wrapping of the Maypole, though it is still April, will be one of the highlights of the Annual Spring Festival to be given by the Home Economics club today, April 21, at six o'clock in Aggie grove.

Installation of the newly elected officers of the club and crowning of the Festival Queen, who was to be elected by home economics students today, are other features of the program. A picnic supper, prepared by advanced foods classes will be served.

Special guests are President and Mrs. Clifford E. Jones, and officers and sponsors of prominent campus organizations, editor and business manager of The Toreador, and Miss Margaret Turner of the Lubbock Avalanche-Journal.

Tickets to the festival will be on sale today only. They are 25 cents to members of the Home Economics club and fifty cents to other home economics students.

## Leidigh Speaks At FSA Meet In Amarillo

Dean A. H. Leidigh of the agricultural division and other agricultural professors appeared on a Farm Security Administration program in Amarillo last week. The program, which is the third of its kind presented to the staff of the FSA, will consist of the following talks: "Land Evaluation" by Dean Leidigh; "Poultry Management" by J. D. Strickland, assistant professor of animal husbandry; "Victory Gardening" by W. W. Yocum, professor of horticulture; "Livestock Management" by Ray C. Mowery, professor of animal husbandry; and "Dairy Cattle Management" by Strickland.

Two other meetings of this type were held at Big Spring and Lubbock recently.

## Women Have Tennis Tournament Saturday

A tennis tournament will be held Saturday afternoon at 2 o'clock at the campus tennis courts.

Those taking part in the tournament will be six representatives from the women's tennis classes who will play doubles.

"Responsibility of Future Farmers" was the subject of the talk given by Dean A. H. Leidigh at a Father and Son banquet at Wilson last week. W. A. King, district supervisor of Food Production War Training program, also attended the banquet.

## Have a "Coke" = So glad you're back again

### ...or welcoming a home-coming sailor

Fighting men look forward to that home-world where friendliness and hospitality are summed up in the familiar phrase Have a "Coke". Be sure and get Coca-Cola for your icebox at home. From Atlanta to the Seven Seas, Coca-Cola stands for the pause that refreshes, — has become a global symbol of good will and of good living.

# Engineers To Have Picnic Tomorrow

## Division Heads Enter Various Skill Contests

Afternoon Affair Is To Be Held At Mackenzie Park

Editors note: A group of engineers got together with their slide rules and a typewriter and brought the story printed below to the Toreador. They asked that it go in as written in order that those not on the committees would know exactly what is in store for them, so here it is...

Engineers' picnic (or see the EEs get beat).

Engineers, would you like to see the head of your department call hogs? Would you like to see the Civil Engineers ball team get beat—or will it be the Electricals? Would you like to see some handsome chap eat a chocolate pie at break neck speed? Would you rather just sit around and eat hot dogs, drink cokes to your hearts content?

These are just a few of the things that will be happening at the annual picnic of the engineering society today when all the engineers and their dates and the old had profs all get together for a good time.

The program is to start at 2:30 o'clock with a tug-of-war between members of each of the societies. The second event of the evening will be a coke drinking contest which should be worth the money.

The third event will be a pie eating contest in which a representative of each society will enter in an endeavor to see who can eat a big chocolate pie in the shortest time. The fourth event will be a hog calling contest between the heads of each department. It is heard in some circles that O. A. St. Clair, head of IE department thinks he is about the best experienced hog caller that occupies the back side of a desk in the engineering division. When these contests have been completed, the finals of this seasons baseball will begin. Just who will be playing for top honors is not known. Time

## Aggie Officers Elected Tuesday

Aggie club officers for next fall were elected at the meeting Tuesday evening. Those to assume duties are as follows: Barton Willingham, president; Glen Witten, vice-president; Norman Hoback, secretary; Edith Ward, treasurer; Clyde Boyd, marshal.

A \$25 war bond was voted to be donated to the Student Building Union fund by the club. The remainder of the money in excess to this year's expenses was retained in the general fund of the club. This action was brought about by the amendment of the by-laws, which previously stated that any excessive funds should be placed in the loan fund.

## Sock and Buskin Will Have Picnic

Members of Sock and Buskin club will meet in room 202 of the Administration building Tuesday night at 6:30 o'clock to go on their annual spring picnic.

Emily and Ruby Cowan are in charge of the program. The refreshment committee includes Kidy Belle Cole, Stella Benefield, and Doris Bynum.

All members are urged to attend the picnic which is the last meeting of the year.

## Tech Faculty Members Attend Dairy Show

W. L. Stangel, head of animal husbandry department, J. D. Strickland, assistant professor of the department, K. M. Fenner, head of the department of dairy manufactures, and L. G. Harmon, assistant professor of that department, went to Plainview for the Dairy show last week. W. A. King, district supervisor of Food Production War Training program, also went with the professors.

Remember, this affair will start at Mackenzie park at 2:30 o'clock. Those without transportation to the park should be at the engineering building at 2 o'clock in order that others with cars may pick them up.

## BSU Banquet Will Be Held Saturday Night

BSU installation banquet will be held Saturday evening at 8 o'clock in the Sunday school annex of the First Baptist church. Mrs. A. E. Dieterling will conduct the installation.

Decorations will be of red, white and blue with victory as the theme. The program also will be based on victory with an address by Rev. Otis Strickland, pastor of the First Baptist Church of Crowell, on "Victory through Christ." Lois Chambliss, acting president, will preside as toastmistress.

Members to be initiated include Beth Floyd, president; John Ewing, membership vice president; Betty Grace Pugh, devotional vice president; Bobbie Rhodes, social vice president; Mildred Harrison, secretary; Gordon Mayes, treasurer; Juanita Williams, Sunday school representative; Imogene Bagwell, YWA representative; Jewell Mack Joyce, publicity director; Norma Grace Reid, musician; Stanley Riddle, magazine representative; Jerry Smyth, external relations representative; Viralyn Patrick, buzzer editor; Helen Walker, photographer.

## DFD Entertains With Dinner Dance Saturday Night

DFD will entertain with a spring dinner dance from 7:30 until 12 o'clock Saturday night at the Hilton hotel. C. A. Rodgers and his orchestra will furnish music for dancing. Decorations of the club colors, blue and gold, and the club flower will be used.

Special dinner guests will be the following club patronesses and their escorts: Messrs. and Mesdames J. Ray Dickey, Luther Godwin, Charles Whitacre, Ben Caswell, A. L. Cone, Wylie Briscoe, Aubrey Woodfin, C. D. McGehee, and Mesdames Harriet Christi and Hugh Harbert.

Members and dates include Patsy Smith, Bobby Casey; Eleanor Jackson, Lt. Dick Turner; Faye Beth Hill, Bobby Campbell; Betty Ricks, Sgt. Tad Ricks; Mary Johnston, Wylie Brassel; LaVerne Leigate, Joe Nix; Maxine Craddock, Charles Steed; Jackie Wilkison, Don Dudley; Kren Watson, J. P. Settle; Dorothy Miskimmins, Leslie Nikkel; Estelle DeBusk, Billy Johnson; Ruth Yows, Wayne Self; Garnette Heggen, Lt. Pete Thompson; Elizabeth Belew, Lt. Bob Roberts; Dorothy Cantrell, Maxey Pinson; Annie Lee Cone, Bill Cooke; Merrillyn Snider, Bobby Hermetz; Jerry Shaw, Charles Fugitt; Margie Street, Lt. J. B. Fore; Mary Frances Bledsoe, Lt. G. W. Anthony; Merle Johnson, Cpl. Pat Barry; Betty Cope, Johnny Waddell; Lou Greene, Richard Rainey; Gwen Edwards, Jimmy Cook.

Pledges and dates are Barbara Morris, John White; Mary Sue Osborn, a-c T. E. Holt; Christina Eller, Phillips Klugman; Jonnie Belcher, Lt. Lloyd Brunson; Pherba

## Alpha Phi Omega Hayrides Tonight

Alpha Phi Omega will meet in front of the Bookstore at 7:30 o'clock tonight for a hayride to the home of Mr. and Mrs. W. G. McMillan on the Loveland highway.

Members and dates attending will be Marshall Rhea, Norma Thornton; Hubert White, Pat Fox; James Merriman, Irene Knowles; Marion Bowers, Sarah Jane Strange; Bill Ervin, Dorothy Rogers; Gene Collins, Joan Tate; Bobby Harvey, Hope Cade; Jimmy Oates, Rozelle Pharr; Maxey Pinson, Selma Mullins; Wayne McDonald, Barbara Robinson; Brac Biggers, Merrillyn Snider.

Pledges and dates are Hubert Bechtel, Elizabeth Robinson; Johnny Malouf, La Nelle Ekins; Henry Pederson, Dolores Thompson; Charles Hajek, Pollyanna O'Neil. Guests will be Jimmy Hendrick, Margaret Dowse; Ray Rhodes, Phyllis Young.

Jordan, a-c R. S. Hoskins; Margie Morrow, Kirby Steadman; Wynelle Eskridge, Dixon Waggon.

## Campus—

Continued from Page 1

for dancing and game room and the offices for student body offices and the rooms on first floor for club rooms. A financial arrangement between the campus organizations, students and business manager of buildings could probably be easily arranged, as having students responsible would be more practical for the college than some of the other rumors of renting it out to towns people or closing it up permanently to stare at us as an evidence of inactivity and decay. Using such a building for student headquarters would certainly lend force to a drive for Student Union funds. All organizations are asked to

give of the money they may have left over to Student Union building fund. All Techsians are asked to subscribe what they can to this project.

The idea needs to be started, and then it will gather force as it moves along. Already the approval of the college president and student body president has been given with a promise that the administration and board of directors will back a Student Union building.

Dreaming has been going on since 1925, let's let doing write the finish.—M. L.

A home was one prepared in Maine for Marie Antoinette who, during the French Revolution, planned to escape to America.
