## Renner Explains Reports

Confusion seems to have arisen over the new grade report system since the issuance of reports began Wednesday.

Don Renner, assistant dean of admissions and registrar, said "This grade report includes all work attempted, all hours passed and all grade points accumulated, from any work taken in the college. Transfer hours will include all solid work transferred for admission purposes.

"For this reason, the overall figures will not necessarily agree with the figures accumulated by the Academic Dean for certification of degree requirements. This is especially true for students who have transferred from different schools or have changed majors."

**GRADE SLIPS READY** — Students packed the registrar's office, left, Friday to pick up grade slips. Looking over grades in the picture at right are Beverly Jones, left, Paducah sophomore, and Shirley Sterett, Houston freshman.

Staff photo—Moore

# Ruby To Get Dallas Trial, Judge Says

DALLAS (AP)—The Judge ruled Friday that Jack Ruby must go on trial in Dallas on Monday for the murder of President John F. Kennedy's accused assassin.

Dist. Judge Joe B. Brown said he still might move the trial to another Texas city, as the defense has demanded—but first the lawyers must try to find 12 impartial jurors here. That will be the true test of whether Ruby can get a fair trial in Dallas, Brown said.

### NOT CONVINCED

Chief defense attorney Melvin Belli said he still is convinced Ruby cannot get a fair trial in

Dallas and that he might spend an entire day questioning a single prospective juror.

**DIST. ATTY.** Henry Wade said he was pleased with the decision.

In ruling that Ruby's trial must begin Monday, Judge Brown said he was withholding a final ruling on the defense motion to transfer the case.

Selection of jurors will begin at 9 a.m. Monday in the courtroom of Judge Frank Wilson. Judge Brown will preside.

### COURT SEATS 200

Judge Wilson's courtroom will seat more than 200 persons, Judge Brown's only 62.

**RUBY IS** charged with murder in the killing of Lee Harvey Oswald, 24, the professed Marxist charged with assassinating President Kennedy here on Nov. 22.

Ruby, 52, a balding strip joint operator, stepped out of a crowd of newsmen as Oswald was being moved from the city jail to county jail and cut down Oswald with a single shot from a pistol.

Wade said he would seek the death penalty.

### DEFENSE SAYS 'INSANE'

The defense contends Ruby was innocent of murder because of temporary insanity brought on by the shock of the president's death.

The defense also contended Ruby could not get a fair trial here because the city was so shamed by the two shootings that its leaders want him convicted above all else as a means of clearing Dallas' reputation.

### Board Meets

Tech's Board of Directors will meet at 9:30 a.m. today in a regular business session. Business on the agenda is reported to consist mainly of routine committee reports on college academic, construction and financial programs.

# THE DAILY FORLADOR

TEXAS TECHNOLOGICAL COLLEGE

Vol. 39

Lubbock, Texas, Saturday, February 15, 1964

No. 83

# Religious Council To Meet Sunday

The first open meeting of the Religious Interest Council is scheduled for 3 p.m. Sunday in the Tech Union ballroom.

"I personally feel that this could be an excellent organization for

Tech students," said Royal Furgeson, president of the Student Council.

"We hope that all interested organizations and individuals will be represented at this meeting. It is

something that I feel can add to the development of an intellectual center at Tech," he said.

### RELIGION TO CAMPUS

The purpose of this organization will be to bring the issue of religion to the campus. The Council will not be promoting any one sectarian belief; it is designed to be a means through which knowledge of all religious ideas can become known to the student body, according to Council spokesmen.

**ONE PROJECT** the group is working on is scheduling of nationally known theologians to speak on the campus. Other ideas will come from student members.

Approximately 30 leaders of campus organizations were concerned with an apparent lacking in one phase of campus life. They met in October, 1963, to discuss this lacking—formulating plans for a corrective program. Furgeson presided at this and all subsequent meetings.

### LEADERS EXPRESS CONCERN

The mutual concern of these organization leaders is the general lack of religious stimulation on the Tech campus. The denominational student centers have programs oriented to their constituency, but these have a limited appeal, according to Council members. These leaders feel that there is a need for an organization on this campus to further intellectual stimulation in the area of religion.

**THE BASIS** for an organization which should benefit all students has evolved from these meetings.

"The main thing is for all interested students and organizations to be present at the first meeting," Furgeson urged. "This newly proposed organization offers the students at Tech a definite challenge if we hope to continue the development of an intellectual center here."

## —On Campus—

# Election Dates Set

Filing, campaigning and election dates for the spring Student Council and cheerleader elections have been released by the Council office.

For vacancies on the Council, deadlines for elections are as follows:

Feb. 18—Petitions go out.

Feb. 21—Petitions due in the Council office by 5 p.m.; campaigning begins.

Feb. 26—Elections.

Dates to remember for candidates for the offices of executive Council members, cheerleaders and Council representatives are as follows:

March 17—General filing meeting for all candidates.

March 24—Petitions due in Council office at noon.

April 6—Campaigning begins for executive officers and cheerleaders.

April 9—Election rally 7 p.m. Lubbock Municipal Auditorium.

April 10—Election for cheerleaders and executive officers.

April 24—Election date for Council representatives.

## Hurt Man Just Lost In No. 6

The injured man who was found in Women's Dorm No. 6 late Thursday night thought he was at St. Mary's Hospital, according to Bill Daniels, chief of Tech Traffic-Security department.

Daniels said Friday that the man, a traveling salesman, had accidentally cut his wrist on his car windshield at the Koko Inn and was looking for St. Mary's Hospital when he wandered into the dormitory.

Dormitory residents reported the man entered the dorm through the back door and was on the second floor in a telephone booth when discovered.

Tech police were called after the dorm supervisor, Mrs. Genevieve Stinnett, asked him to leave. The officers found him in the back parking lot and took him to Methodist Hospital.

Daniels also said the man was looking for a telephone in No. 6 which he thought was St. Mary's.

Letters To Editor

# Techsans Turn 'Thumbs Down' On UT

Dear Editor:  
 In regard to Mr. Bush's Valentine greeting to Texas University student Denton, I would like to say I differ from him in respect of the New Year's Texas-Navy game.  
 Having been sent by my high school for three years to regional UIL meets at Tech, then to the

state meet at the University, I had good reasons for choosing Tech as my college. There is no comparison in hospitality and friendliness between the two schools.  
 I made my judgment then, nearly four years ago, and it still stands.  
 Consequently, I don't "wish to

hell I'd yelled for Navy" New Year's day. I did.

Most sincerely,  
 Stanley Guy

★ ★ ★ ★ ★

Editor:  
 Texas Longhorns, tried and true, Sportsmanship, and fair play, too.

Every fall, from miles around, People flock to Dallas town.

There the Longhorns play O.U. 'Mid street fights, brawls, and riots, too.

And when the Aggies come to play, No cop gets a holiday.

In basketball, they lost a few, To the Aggies, Tech, and SMU.

But, their so-so team was not to blame. 'Twas the Raider fans who saw the game.

My final statement's not demure, But I'm sure you Techsans will concur.

They can take their wealth and football power, And cram it up their Memorial Tower.

J. Stewart  
 Gordon Hall

★ ★ ★ ★ ★

Dear Editor,  
 Recently (Feb. 4) I went to the office of Room Reservations. Upon entering, I was startled to see a line of bewildered students also there to pay their room and board. After asking questions of a few

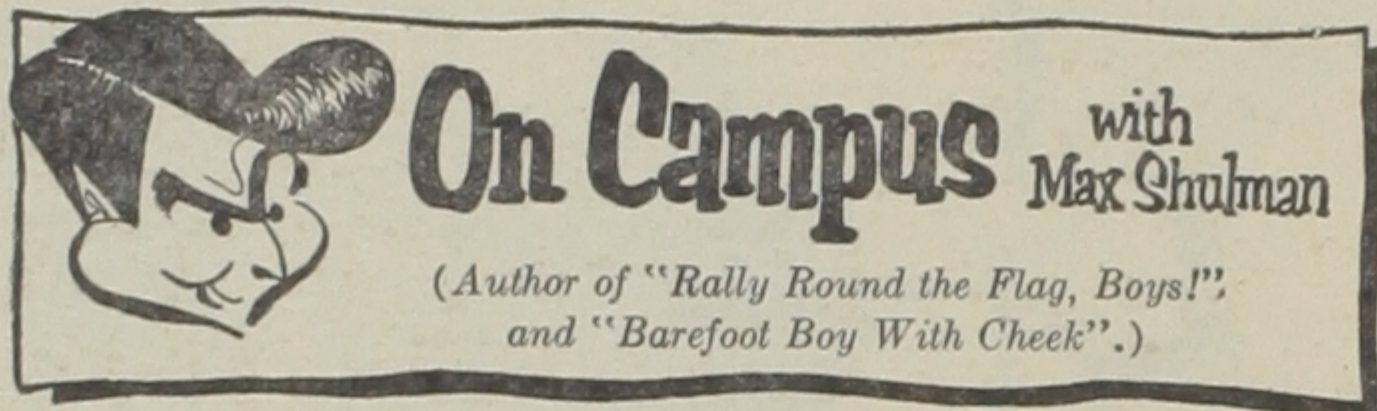

irate students, I discovered that not only was I late but I also owed an additional quarter. After standing in line for a while, I noticed more students entering with the same look of bewilderment I had.

It seems to me that the Tech paper could have put a notice such a place as to let students know of the change in payment dates. This, of course, would have cost the school considerable amounts of small change, as I counted no less than 70 students at one time.

The administration should be informed that students are not a hindrance to their business but are their business.

The money was not the reason for this letter. I think penalization is a necessary evil, but I also think that a more current warning should be posted.

Respectfully yours,  
 Richard Honey

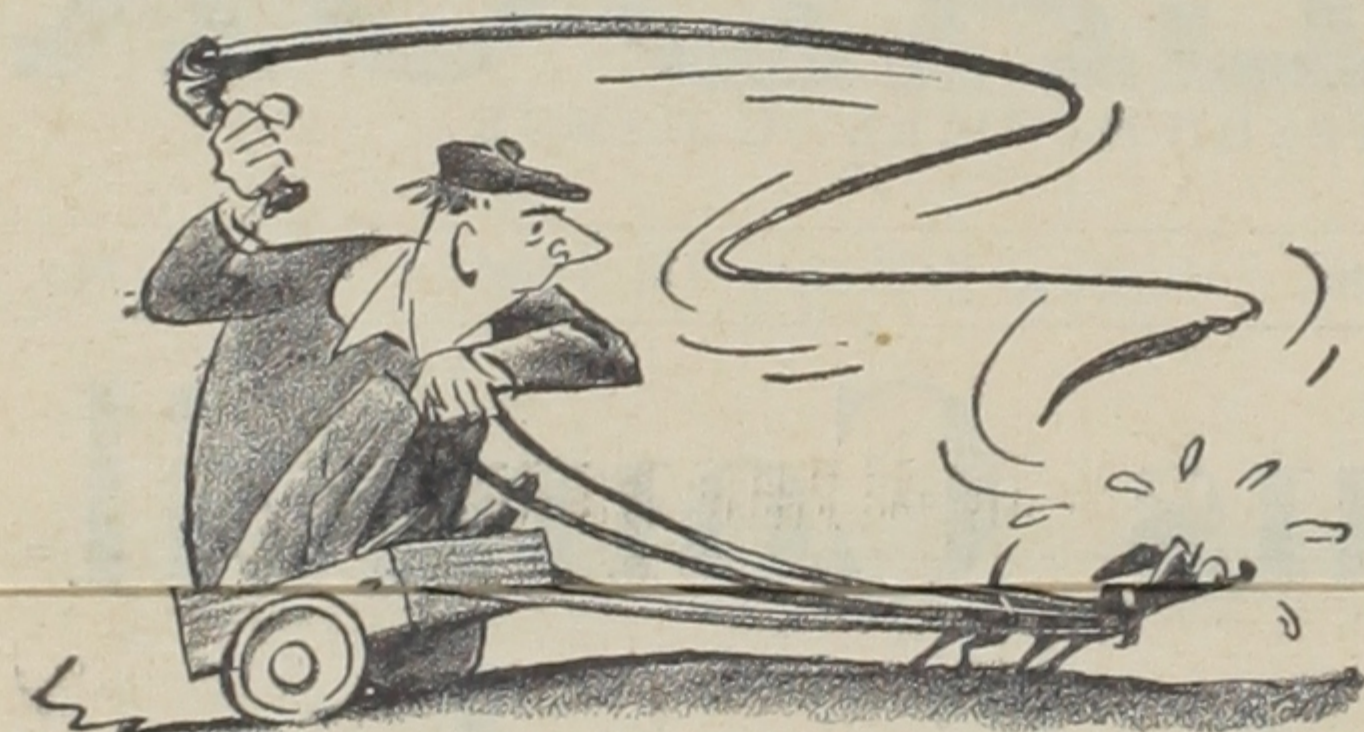

On Campus with Max Shulman

(Author of "Rally Round the Flag, Boys!" and "Barefoot Boy With Cheek".)

ARF!

Benjamin Franklin (or The Louisville Slugger, as he is better known as) said, "A penny saved is a penny earned," and we, the college population of America, have taken to heart this sage advice. We spend prudently; we budget diligently. Yet, despite our wise precautions, we are always running short. Why? Because there is one item of expense that we consistently underestimate—the cost of travelling home for weekends.

Let us take the typical case of Basil Metabolism, a sophomore at UCLA majoring in avocados. Basil, a resident of Bangor, Maine, loved to go home each weekend to play with his faithful dog, Spot. What joy, what wreathed smiles, when Basil and Spot were re-united! Basil would leap into his dogcart, and Spot, a genuine Alaskan husky, would pull Basil all over Bangor, Maine—Basil calling cheery halloos to the townfolk, Spot wagging his curly tail.

The results were not all Basil had hoped

But the cost, alas, of travelling from UCLA to Bangor, Maine, ran to \$400 a week, and Basil's father, alas, earned only a meagre salary as a meter-reader for the Bangor water department. So, alas, after six months Basil's father told Basil he could raise no more money; he had already sold everything he owned, including the flashlight he used to read meters.

Basil returned to California to ponder his dilemma. One solution occurred to him—to ship Spot to UCLA and keep him in his room—but Basil had to abandon the notion because of his roommate, G. Fred Sigafoos, who was, alas, allergic to dog hair.

Then another idea came to Basil—a stroke of genius, you might call it. He would buy a Mexican hairless chihuahua! Thus he would have a dog to pull him around, and G. Fred's allergy would be undisturbed.

The results, alas, were not all Basil had hoped. The chihuahua, alas, was unable to pull Basil in the dogcart, no matter how energetically he beat the animal.

Defeated again, Basil sat down with G. Fred, his roommate, to smoke a Marlboro Cigarette and seek a new answer to the problem. Together they smoked and thought and—Eureka!—an answer quickly appeared. (I do not suggest, mark you, that Marlboro Cigarettes are an aid to celebration. All I say about Marlboros is that they taste good and are made of fine tobaccos and pure white filters and come in soft pack or Flip Top box.)

Well, sir, Basil and G. Fred got a great idea. Actually, the idea was G. Fred's, who happened to be majoring in genetics. Why not, said G. Fred, cross-breed the chihuahua with a Great Dane and thus produce an animal sturdy enough to pull a dogcart?

It was, alas, another plan doomed to failure. The cross-breeding was done, but the result (this is very difficult to explain) was a raccoon.

But there is, I am pleased to report, a happy ending to this heart-rending tale. It seems that Basil's mother (this is also very difficult to explain) is a glamorous blond aged 19 years. One day she was spotted by a talent scout in Bangor, Maine, and was signed to a fabulous movie contract, and the entire family moved to California and bought Bel Air, and today one of the most endearing sights to be seen on the entire Pacific Coast is Spot pulling Basil down Sunset Boulevard—Basil cheering and Spot wagging. Basil's mother is also happy, making glamorous movies all day long, and Basil's father is likewise content, sitting at home and reading the water meter.

## Union Features German Film, 'The Last Bridge'

Winner of the Cannes Film Festival Award in 1954, "The Last Bridge" comes to the Tech Union.

THE GERMAN post-war film stars Maria Schell, who has been seen in recent years in American films such as "Cimmaron" and "The Brothers Karamazov."

Actress Schell portrays a young German doctor captured by Yugoslav partisans and forced to care for the wounded.

At first reluctant, she finally volunteers and dies "on the last bridge" from both German and Yugoslav gunfire.

"ONE OF THE finest films to emerge from World War II... it

could be the story of any war, for it does not center on battles and bombings, but on human values... such a sensitive performance rarely comes along on the screen," said the New York Herald Tribune.

The film is spoken in German with English subtitles.

OTHER AWARDS for the film include the International Critic's Prize and Best Actress Award and First Award, Evangelical Film Guild.

Performance times are 3 p.m. and 7 p.m. Sunday in the Coronado Room. Student tickets and general public 50 cents.

## Paper Says Tech Clock Quit

HOUSTON (AP) — The Houston Chronicle said Friday at least four times while play was in progress the game clock was not running at Lubbock's Municipal Coliseum Tuesday night during the Texas Tech-Texas A&M basketball game.

Tech won, 84-82, with the tying points coming with eight seconds to play and the winning basket in the final second.

Tech overcame a 19-point Aggie halftime lead to win the game and

Charles Carder, Chronicle sports writer who reported the game, said the silent clock was noted in the first half and at least three times in the last 10 minutes of the game.

He said the play-by-play account of the game, prepared by the Tech sports publicity department, bears out two occasions and indicates a fifth time when the lack of clock operation might have affected the eventual outcome of the game.

## TECH ADS

Experienced seamstress — New clothes, alterations, repair work. Fast service, reasonable prices. Mrs. Robert Carr, SW 5-1417.

Obedience Training Class for Shepherds offered by Lubbock German Shepherd Dog Club — for Shepherds only — starting Wednesday, February 12, 7:30 p.m., 12 week course, \$15.00. Aggie Pavilion on Campus.

## Why Can't You Remember

A noted publisher in Chicago reports there is a simple technique for acquiring a powerful memory which can pay you real dividends in both business and social advancement and works like magic to give you added poise, necessary self-confidence and greater popularity.

According to this publisher, many people do not realize how much they could influence others simply by remembering accurately everything they see, hear, or read. Whether in business, at social functions or even in casual conversations with new acquaintances, there are ways in which you can dominate each situation by your ability to remember.

To acquaint the readers of this paper with the easy-to-follow rules for developing skill in remembering anything you choose to remember, the publishers have printed full details of their self-training methods in a new book, "Adventures in Memory," which will be mailed free to anyone who requests it. No obligation. Simply send your request to: Memory Studies, 835 Diversey Parkway, Dept. 9962, Chicago, Ill. 60614. A postcard will do.

## Soviet Film Opens Here

The foreign film series sponsored by the Tech Cinema Society, brings the Russian film "Muu Muu" to the Tech campus.

The forthcoming film is based on a short story by Russian novelist Ivan Turgenev.

The society headed by Stephen George, Houston sophomore, has undertaken to provide the college with high quality foreign films. This semester, there will be five more continental films shown, including one with the Academy Award winning actress Simone Signoret.

Although enough tickets were sold to make the project a success, some are still available, according to George.

Students may buy a ticket to all five films for \$3. Tickets will also be sold at the door for each showing.

Performance time for "Muu Muu" is Friday.

The forthcoming films to be shown will be French, English, Italian and Swedish (including an Ingmar Bergman film).

## WHAT MAKES HAPPINESS?

Is it money? fame? health? Certainly there are many contributing factors, but the first essential is the inner satisfaction that comes only from peace with God.

# Annual ROTC Ball Fetes Queen, Court

Replicas of ancient weapons and medieval decorations will recreate "The Days of Chivalry" at 8 p.m. for Tech's annual Army ROTC Ball.

AS THE MAIN chamber of a medieval castle, Tech's Union Ballroom will host a Queen of the Ball attended by five princesses, chosen previously by a Corp of Cadets. The six queen finalists, selected from 15 brigade unit sweethearts by a special judging committee, include Sherry Beadle, Eunice, N.M.; Dana Speer, Olton; Beth Gibson, Vernon; Carole Barnes, Dallas; Kay Bursleson, Friona; and Kay Perkins, Petersburg.

Miss Beadle, sophomore art major and "G" Company representative, is a member of Delta Gamma sorority and Tech Rodeo Assn. secretary.

MISS SPEER, sponsored by "D"

Company, is a freshman English major, member of Pi Beta Phi sorority, and was a runner-up in the Miss Mademoiselle contest.

Sweetheart of "C" Company, Miss Gibson was crowned Miss Mademoiselle earlier in the year. She is a freshman majoring in elementary education.

AS MISS PLEDGE for Kappa Sigma fraternity, Miss Barnes will represent "H" Company in the Queen competition. A freshman, she is a member of Chi Omega sorority and majoring in liberal arts.

CHOSEN BRIGADE Sweetheart in the fall, Miss Bursleson is affiliated with Gamma Phi Beta sorority and is a freshman government major.

Miss Perkins is one of two sweethearts of the Tyrian Rifles, Tech Army ROTC's precision drill team.

Staff photo—Harrison  
SWEETHEART CROWNED — The Tech Dames Club selected Mrs. Turk Cook as its new sweetheart at the annual Sweetheart Dinner-Dance Friday night. Shown crowning Mrs. Cook is Mrs. Jerry Hauchin, last year's sweetheart. The Dames Club is composed of wives of Tech students.

## Greeks Offer 3 New Scholarships At Tech

Three new scholarships are available to Tech applicants who meet the requirements. The new grants are sponsored by Zeta Tau Alpha, Delta Delta Delta and Kappa Alpha Theta social sororities.

ZETA TAU ALPHA is offering foundation scholarships to women students with at least a "B" average and with good character recommendations. Grants will be made only on an annual basis but may be renewed. Extracurricular activities of the student will also be taken into account in considering applications.

Application blanks may be obtained by writing the Zeta Tau Alpha Central Office, 708 Church Street, Evanston, Ill. Students may apply Feb. 15-May 15 and will be notified by July 15.

DELTA DELTA DELTA is offering a scholarship for junior women with good scholastic records, a financial need and leadership potential indicating promise of valuable future service to the community. Grants of \$750 will be made in six geographical areas. SUCCESSFUL candidates will be notified by May 1, 1964. Applicants may write for forms to Mrs. Drury A. Pifer, 505 Boston St., Seattle, Wash.

Kappa Alpha Theta is awarding a \$2,000 Foundation Fellowship Award at their 1964 Grand Con-

vention in June. The award will be presented to a student for use in graduate work on the basis of scholastic record, objectives of study, and need.

Senior women interested in this award may write for applications to Mrs. C. Vaaler, Kappa Alpha Theta Foundation, Suite 342, 1580 Sherman Ave., Evanston, Ill.

ADDITIONAL information on these three new scholarships is available in the Office of the Dean of Women.

## Recital Set By Faculty

Frank Bowen, flutist, and Byrnell Figler, accompanying him on the piano, will perform in a faculty recital Sunday at 3 p.m.

Bowen is a new member of the faculty this year. Figler is a member of the University of Alabama faculty and is visiting Tech to perform in this recital and in another one Tuesday night.

The program for the Sunday afternoon recital includes "Sonata for Solo Flute," by Bach; "Sonata," by Willem Pijer; "Le Merle Noir," by Olivier Messiaen; and "Sonata, Opus 94," by Serge Prokofieff.

Admission is free to the recital which will be in room 1 of the Music Bldg.

## Dorm Honors Coed Resident

Peggy Thomas, senior home economics education major from Odessa, has been selected as Woman of the Month for Horn Hall. She is a past president of Horn Hall, treasurer of Women's Residence Council and a Member of the Assn. for Childhood Education and the Home Economics Club.

Each wing of the dormitory nominates a resident for the honor. The nominee receiving the most nominations is selected. At the end of the semester a Woman of the Year will be elected by popular vote.

Others who have been selected as Woman of the Month are Keitha Davis and Sally Sheffield.

## Deadline For Entry Set In Best Dressed Contest

Somewhere on Tech campus dwells a coed glamorous enough to compete with women throughout the nation in Glamour magazine's contest to find the "Ten Best Dressed College Girls in America."

Deadline for entry in Theta Sigma Phi's fashion show to discover Tech's Best Dressed Woman is 5 p.m., Thursday. Entry blanks, plus the \$1 entry fee, can be submitted in room 211, Journalism Bldg. from 2-5 p.m. Monday, Wednesday and Friday.

Feb. 29 is the date for the local competition fashion show which will be in the Tech Union Coronado Room. Tech's winner will be featured on a page in the Mademoiselle section of La Ventana and will automatically be a candidate for national competition.

Any woman's organization on campus can sponsor an unlimited number of women in the contest.

REUTHER OUT OF ACTION

# Crippled Raiders Try 'Horns

Texas Tech's cage team, rated by some sports writers to finish no better than fifth in the Southwest Conference basketball race in pre-season polls, travels to Austin today seeking to keep at least a tie for first place as second round action in the SWC race begins.

**COACH GENE** Gibson's Cinderella team moves into Gregory Gymnasium at 8 p.m. today hoping to keep its season record with the University of Texas Longhorns perfect. The Raiders defeated the Longhorns in the two teams first outing this year, 94-90, in Lubbock.

Tech's score in that game was the fourth highest ever rolled up against a SWC opponent, but the Longhorns 90 point mark was also the fifth highest ever rolled up against a Tech team in SWC play.

**A BIG BLOW** to Tech' offensive hopes came when Gibson announced that sophomore Norman Reuther would not be able to play for the Raiders due to an infection on his hip.

Reuther is the third high Tech scorer, hitting for an average of 14.1 points per game during Conference play. He is also a big cog in Tech's defensive machinery, pulling in 63 rebounds in the first seven SWC games. Only Harold Denney leads Reuther in the recovery category, having collected 68.

**PROBABLE** replacement for the 6-4 sophomore from Fort Worth will be Bill Murren. Murren, a 6-4 senior from Atlantic City, N.J., is the Raiders "sixth" man and was on the Tech starting five at the first of the season.

Gibson said that his main worries besides the absence of Reuther would be the use of the fast break by the Longhorn team, which he

said the Texas crew was using much more than they were when they played in Lubbock.

**STARTING FOR** the Raiders will be Dub Malaise, 5-11, 19.6 points per game; Harold Denney, 6-8, 16.4; Tom Patty, 6-5, 13.9; Glen Hallum, 6-5, 10.6; and Murren, 6-1, 4.0.

Probable starters for Coach Harold Bradley's Longhorns will be Tommy Nelms, 6-0; Jimmy Clark, 5-9; Joe Fisher, 6-7; John Paul Fultz, 6-8; and Larry Franks, 6-6. Forward Mike Humphrey who was a starter last year for the Texas bunch and their third high scorer, has been something of a disappointment to Bradley this year.

**IN TEXAS'** first game with Tech, Humphrey fouled out of the game without scoring a point.

After a disappointing start at the first of the Conference, the Longhorns appear to have ironed out some of their problems.

## '56 Mark Untouched

Highest score ever rolled up by a Texas Tech team came in 1956 when the Raiders rolled to a 117-90 triumph over Texas Western.

The second highest score was made by the same 1956 team against Arizona State University, when the Tech five hit 113 points to their opponents 63.

In SWC games, the Tech high score was a 101 score against Texas Christian in 1961.

## 'Mural Action Set To Start

Table tennis and badminton singles programs for the spring semester are set with 25 entrants in the table tennis contest and 32 participants in the badminton matches.

First round eliminations will be played on or before Feb. 28, second round action finishing on or before March 13, the third round ending on March 25, the semi-final rounds ending on April 10. The finals will be decided on May 7 during the annual intramurals finals, Noche de Conquistadores.

Winners in each match must notify the Intramural Office promptly after each match and any matches not played by the deadline will be forfeited.

## Team Breaks Record Despite Losing Season

Although the 1963 Raider basketball team finished with only a 6-17 record, they still managed to set several school marks for accurate shooting.

Bobby Gindorf, the lone starter from the '62 National Collegiate tournament representative, succeeded on 57 per cent of his field goal tries in SWC play to surpass the 55 per cent mark set by Roger Hennig in 1961.

Also, the Raiders set a couple of team marks for field goal accuracy. The season 45.5 percentage figure topped the 44.1 mark of the 1958 team, and in SWC play the Raiders clicked on 48 percent of their tries, bettering the mark of 45.2 per cent set in 1960 and tied in 1962.

### ROOMS AVAILABLE

Dorm rooms are still available for occupancy during the current semester.

H. L. Burgess, director of Room Reservations, said that girls' rooms have been numerous since the opening of Women's No. 6 and 7. In the boys' dorms, five rooms are available in Carpenter; three in Wells; nine in Gaston; four in Gordon; and eight in Bledsoe.

## You have room for growth in data processing—at IBM

IBM offers graduates with bachelor's or advanced degrees in Engineering, the Sciences, Business Administration, Economics, or Liberal Arts challenging assignments in the marketing of information systems and equipment. ■

Rewarding opportunities exist in more than 190 IBM Sales and Service Offices located in major cities throughout the United States. ■

These opportunities increase with each new system that is designed to meet the growing needs of business, industry, government, research, education, or space. ■

### wide range of positions

**Marketing:** ■ The IBM Data Processing Representative is a consultant to his customers. ■ He demonstrates how customers can achieve better business management and controls through data processing. ■

**Systems Engineering:** ■ IBM Data Processing Systems Engineers are men and women who study customer requirements in depth, devise an approach, define a preferred machine and operational solution, and assist in implementing this solution. ■

**Customer Engineering:** ■ The IBM Customer Engineer is a specialist in precision data processing machines and systems. ■ He is responsible for the installation and maintenance of IBM's vast line of electronic and electromechanical equipment. ■

### opportunities for advancement

IBM, an Equal Opportunity Employer, offers you extensive training in the area of your special interest. ■ This training continues as you advance along a planned career path leading to professional or managerial positions. ■

We also have comprehensive company-paid benefits plans...training programs to keep you abreast of developments in your field...and a tuition-refund plan to give you financial assistance for graduate study. ■

### on-campus interviews

See your college placement director to determine when IBM will interview on campus, and make an appointment to see our representative.

If the interview date is inconvenient for you, please write or call: ■ D. B. Stuart, Branch Manager, ■ IBM Corporation, 1207 13th Street, Lubbock, Texas, PO 2-0855. ■

IBM will interview February 24, 25, 26. ■
