Police Blame Techsans For Crime Surge

Tech students have been involved in 40 per cent of the minor thefts in Lubbock during the past month.

Six students were picked up for stealing Christmas trees and eight others were charged with shoplifting last week. Those students involved in shoplifting were found to be taking overcoats, gloves, pen-and-pencil sets, costume jewelry and hats.

Three students were picked-up and turned over to the Dean of Men for stealing shoes.

"ALTHOUGH this is a year round thing," said Lieutenant Keaton of the Lubbock police dept., "it is always magnified at Christmas." One of the reasons given Lt. Kea-

ton for the thefts was, "I wanted to get gifts for Christmas, but I didn't feel that I had the money to spend."

"It has been reported that there is a girls' club at one of the local junior high schools that requires its girls to steal in order to obtain membership", said Lt. Keaton, "but as far as Tech goes, we haven't heard of anything such as this."

MOST OF THE shoplifting has taken place in large department stores, especially Clark's, in the downtown Lubbock area.

The fine for shoplifting is \$100-\$200, with a minimum of three days and a maximum of six months in jail. No exceptions are made for Tech students.

PRESENTATION — Cadet Lt. Col. T. A. Cox, commander of the Tyrian Rifles, is shown with the group's sweethearts, Kay Perkins, Petersburg fresh-

man, left, and Donna Leland, Dallas freshman. Both girls were presented Christmas gifts.

BIG VARIETY — Kay Evans, elementary education freshman from Irving, looks over a few of the gifts being offered at the International Fair for Christmas shoppers.

Staff Photo

Fair Features Oddities For Christmas Buyers

The International Interest Committee of the Union is sponsoring the International Fair for Tech Christmas shoppers looking for unusual and inexpensive gifts.

ACCORDING to Mrs. Karen Moore, Union program director, the purpose of the fair is not only to provide unusual and inexpensive gifts but also to promote appreciation of other countries, and, most important, to obtain money to start a scholarship fund for international students.

Some of the inexpensive items which will sell for \$5 or less include straw angels from Mexico, inlaid wooden rulers from New

Zealand, carved wooden letter openers from India, cast bronze bells from Greece, place mats and cufflinks from Sweden and aprons, ashtrays, purses and candle holders.

THE UNUSUAL gifts are available for purchase by Tech students, faculty and Lubbock residents during the hours of 10 a.m. to 7 p.m. through Wednesday.

A "market place" was established in the Coronado Room of the Union Sunday, displaying the gifts from the above countries and many others. Each group of gifts was set in the country's "native" atmosphere.

Tech Library Spurs Students To High Academic Character

Faculty, students and laboratories — especially a library — are the three basic ingredients of a college or university, according to Dr. William M. Pearce, Tech's academic vice president.

AND TO A significant degree, the academic character of an institution can be measured by the quality and use of its library. In this respect, Tech is not only scholastically healthy, but getting better fast.

R. C. Janeway, Tech's head librarian, said the Library is basically a service agency for the instructional program, but its influence goes much further.

"The Library tries to meet the needs of the individual in the freest possible association. It is a liberalizing influence on education — a place where students and faculty can encounter ideas beyond their experience," he explained.

Statistically speaking, each Techsan annually borrows 16 books from the Library, an impressive figure compared to the 1949 average — 4 1/2 books per student.

JANEWAY ATTRIBUTED part of the increase to the new building, first occupied in July 1962. He noted a 40 per cent increase in recorded use — material checked out — since then and said unrecorded use probably has doubled since then.

"Recorded periodicals circulation has gone down, but we know from the amount of work in that department that unrecorded use has increased. This means more students are studying in the Library," Janeway pointed out.

The head librarian cited professional staff shortage and lack of space as major functional weaknesses of the Library.

"WE SHOULD HAVE a minimum of 20 on the professional staff where we now have 16," he said.

The Library collection includes 600,000 volumes and plans for the building provide space for 1600 readers. At present 50,000 volumes can not be shelved and study areas are adequate for only 709 persons.

The building's entire third floor and one-third of the basement — 40 per cent of the shelf and study space — are unfinished due to lack of funds. The librarian said there are no definite plans for completion of these areas.

"WE ARE SERVING 12,000 students with 700 seats rather successfully, though it is crowded at times," Janeway commented.

He pointed to lack of material related to the four newly approved doctoral programs as a significant weakness in the Library collection.

Basically the Library collection is selected by the faculty. "We try to respond to all needs that are made known. If we have the money and can find it, we buy it," Janeway said.

"However, if students are unable to find what they want we usually never know it. We welcome requests from students and will be happy to try to acquire material for them," he added.

Players Honored At Grid Dinner

Texas Tech honored the 1963 Red Raider football team in Tech Union Ballroom Monday night with its annual football dinner.

HIGHLIGHTING the evening's activities were the announcements of team awards for the past grid session.

Senior David Parks, all-American end and first choice in the National Football League draft, was chosen by his teammates as outstanding lineman. Denny Anderson, winner of Southwest Conference sophomore of the year laurels, was named outstanding back.

Bill Shaha, who with Parks co-captained the team, was selected best team player.

THE DELL Morgan courage award went to end Sam Cornelius, and the Pete Cawthon award for the best all-around player went to Shaha.

Also revealed during the dinner were the pair chosen by the team as co-captains for 1964—junior end Jerry Don Balch and junior guard C. C. Willis.

Lubbock radio announcer Bob Nash emceed the dinner, which was attended also by Red Raider Club officials, members of the Athletic Council members of the administration, Tech cheerleaders and members of the press. Wives and dates also were feted.

Pillsbury Award Offers Junior Executive Position

The top Home Economics graduate of this year has a chance to step into business as junior executive by picking up an application from the Dean of Home Economics.

The 1964 Pillsbury Awards Program is making this offer. The junior executive will be chosen from applications on a basis of scholarship, extra-curricular experience and personal suitability. She will step into a position as associate

manager of Pillsbury's Educational Program. Her starting salary of \$4800 will be supplemented by a cash award of \$500, plus a \$2500 scholarship for graduate study or a permanent position with Pillsbury following her year of executive training.

Other awards in the 1964 Program include grants of \$150 and a two day expense-paid trip to Minneapolis for four award finalists.

The year's schedule for the top award winner is designed to give practical and personalized training in the operation of such corporate departments as marketing, public relations, research, legal, and others which relate to the responsibilities of the Home Economist in business.

Deans Evaluate Corpus Schools

Dr. Willa Vaughn Tinsley, dean of Home Economics, and Dr. Bill Lockhart, head of the applied arts department, are serving as members of a public school evaluation team in Corpus Christi.

Dean Tinsley will evaluate home economics; Dr. Lockhart will evaluate the art program.

YMCA Offers Judo

The YMCA is offering judo lessons for Tech male students.

Lessons will be taught by Jim Alexander who holds the "black belt", the highest degree to be obtained in judo.

Participants will receive 32 hours of instruction with two-hour sessions twice weekly.

Students may enroll at any time.

Sessions will be Monday and Tuesday evenings from 5:30-7:30 p.m. Individual instruction will be given.

The \$10 lessons are being offered because of inquiries by college students.

Strout Story Features Trip

Mrs. Mary Strout, assistant professor of English at Tech, wrote the lead article on the front page of the November issue of "The Classical Outlook."

The article, "Aeneas Slept Here," is an account of Mrs. Strout's trip to Ostia, Italy, (near Rome), and her description of a classical play, performed in an ancient open-air theater.

Mrs. Strout was in Italy during the past summer as part of an annual European tour.

"The Classical Outlook" is a scholarly publication of the American Classical League.

Exam Schedule

The following is the exam schedule for the Fall Semester:

SATURDAY, JAN. 18

Time of Examination For Classes Meeting On:
8-10:30..... 8 MWF
11- 1:30..... 3 MWF and Saturday Classes only.
2- 4:30..... 10 TTS
6:30- 9 p.m..... All sections of ENGLISH 131, Room numbers will be announced in respective classes.

MONDAY, JAN. 20

8-10:30..... 11 MWF
11- 1:30..... 2:30 - 4 TT
2- 4:30..... 8 TTS
6:30- 9 p.m..... 6:30-8 p.m. MW & Monday Classes only.

TUESDAY, JAN. 21

8-10:30..... 9 TTS
11- 1:30..... 1 - 2:30 TT
2- 4:30..... 1 MWF
6:30- 9 p.m..... 6:30-8 p.m. TT & Tuesday Classes only.

WEDNESDAY, JAN. 22

8-10:30..... 10 MWF
11- 1:30..... 4 MWF
2- 4:30..... 11 TTS
6:30- 9 p.m..... 8 - 9:30 p.m. MW and Wednesday Classes only. All sections of PHYSICS 143 and 241. Room numbers will be announced in respective classes.

THURSDAY, JAN. 23

8-10:30..... 9 MWF
11- 1:30..... 4 - 5:30 TT and ALL MILITARY SCIENCE CLASSES.
2- 4:30..... 2 MWF
6:30- 9 p.m..... 8 - 9:30 p.m. TT and Thursday Classes only. All sections of FRENCH 141, GERMAN 141, LATIN 131, and SPANISH 141. Room numbers will be announced in respective classes.

FRIDAY, JAN. 24

8-10:30..... All sections of BIOLOGY 141 and 142. Room numbers will be announced in respective classes.
11- 1:30..... All sections of ACCOUNTING 234 and 235. Room numbers will be announced in respective classes.
2- 4:30..... All sections of CHEMISTRY 141 and 142. Room numbers will be announced in respective classes.

Examination time for classes meeting for more than one hour (as 1-2:30) will be determined by using the first hour of the class period to find the corresponding examination period for that class meeting.

Requested changes in the schedule for individual students will be considered by the Dean of the School in which the student is registered.

Okies Invade Lubbock

By ARTIE SHAW
Toreador Sports Editor

Oklahoma's Sooners leave their home floor for the first time this season, and walk right into the den of the hungry Red Raiders, who just recently polished off previously unbeaten Alabama, 92-74.

The 92-point output was the

highest of year for the Raiders, and pushed their season standings to 2-4. The only other win came at the hands of a cold Nebraska squad in Laramie, 76-60.

The Sooners, however, have beaten South Dakota and Illinois, while losing one to the Southwest Conference's Southern Methodist, 72-83, and to Texas, 61-58.

The Raiders have lost to New Mexico, Kansas, Kentucky and Wyoming. All except the latter are nationally ranked teams.

Sooners Score High

The Sooners, who have broken the century mark twice, are a high-scoring team, and boast four or five starters in considerably high double figures.

The starting five averages 6-3,

and features one senior, three juniors and a sophomore.

Meanwhile, the Raiders, who boast five starters in double figures, will start seniors Bill Murren and Tom Patty, juniors Harold Denney and Glen Hallum, and sophomore Norman Reuther.

Denney is the leading Tech scorer, with a total of 103 points in six games for a 17.2 average. Reuther has a 13.0 average, Hallum and Murren, 12.2 and Patty rounds out the first five with a 10.2 average.

Little Murren, of Atlantic City, N. J., sports the outstanding shooting percentage on the team, with a .625.

Game time for the contests is 5:45 p.m., when the freshman play, and varsity at 8 p.m.

★PhiDelts Beaten, 7-6

Tech's fraternity all-stars scored on a 15 yard pass from Nick Moore to Don Francis in the fourth quarter to come from behind and defeat the champion Phi Delta Theta gridders 7-6.

More than 50 persons viewed the game in 30 degree weather played at Tech's track field.

The Phi Delts scored in the first quarter on an 80 yard pass play from Buster Hindman to Rocky Gill. Try for extra point was blocked by all-star Cril Payne.

Trophies were awarded to each member of the winning team consisting of: K. R. Vance, Mike Webb and M. K. Murdock—Phi Gamme Delta; Don Francis, Don Littlefield and Nick Moore—Kappa Sigma; Bruce Henderson, Richard Shaffer and G. Garrison—Pi Kappa Alpha; Max Hawthorne and Doug Powell—Sigma Nu; Dick Otstott, Richard Perry and Ronnie Siler—Delta Tau Delta.

Also, David Baldwin and Eric Moore—Alpha Tau Omega; Larry Maddox, Cary Miller and Cril Payne—Sigma Alpha Epsilon; Jim Nobles and Don Weldon—Phi Kappa Psi; Dale Jones and Phil Suitt—Kappa Alpha; and Stanley Holgate and Jackie Nichols—Sigma Chi.

**THERE
WILL BE
AN EAGLE
ON THE
MOON**

Our world-recognized trademark—"the P&WA eagle"—has been identified with progress in flight propulsion for almost four decades, spanning the evolution of power from yesterday's reciprocating engines to today's rockets. Tomorrow will find that same Pratt & Whitney Aircraft eagle carrying men and equipment to the moon and to even more distant reaches of outer space.

Engineering achievement of this magnitude is directly traceable to our conviction that basic and applied research is essential to healthy progress. Today's engineers at Pratt & Whitney Aircraft accept no limiting criteria. They are moving ahead in many directions to advance our programs in *energy conversion for every environment*.

Our progress on current programs is *exciting*, for it anticipates the challenges of tomorrow. We are working, for example, in such areas as advanced gas turbines . . . rocket engines . . . fuel cells . . . nuclear power—all opening up new avenues of exploration in every field of aerospace, marine and industrial power application.

The breadth of Pratt & Whitney Aircraft programs requires virtually *every technical talent* . . . requires ambitious young engineers and scientists who can contribute to our advances of the state of the art. Your degree? It can be a B.S., M.S. or Ph.D. In:

MECHANICAL • AERONAUTICAL • ELECTRICAL • CHEMICAL and NUCLEAR ENGINEERING • PHYSICS • CHEMISTRY • METALLURGY • CERAMICS • MATHEMATICS • ENGINEERING SCIENCE or APPLIED MECHANICS.

Career boundaries with us can be further extended through a corporation-financed Graduate Education Program. For further information regarding opportunities at Pratt & Whitney Aircraft, consult your college placement officer—or—write to Mr. William L. Stoner, Engineering Department, Pratt & Whitney Aircraft, East Hartford 8, Connecticut.

SPECIALISTS IN POWER . . . POWER FOR PROPULSION—POWER FOR AUXILIARY SYSTEMS. CURRENT UTILIZATIONS INCLUDE AIRCRAFT, MISSILES, SPACE VEHICLES, MARINE AND INDUSTRIAL APPLICATIONS.

OVER 300 IN 1963

Traffic Mishaps Total Trouble For Techsans

(EDITOR'S NOTE: With so many students starting home en masse in the next few days, traffic and driving problems are utmost in most minds. However, there is a traffic problem of sorts on the Tech campus itself.)

The Tech campus is surrounded with "T". That also stands for Traffic—with proper apologies to the "Music Man."

Since January of 1963 until the middle of November, there have been more than 300 traffic accidents on and in the close proximity of the campus.

OF COURSE, Techsans have not been involved in all of these wrecks, but there are certain trouble spots nearby that seem to attract accidents like a magnet.

"On the campus itself," said Bill Daniels, head of Traffic-Security, "most of the accidents we investigate are minor ones, usually involving backing into parked cars and investigating other parking lot incidents."

"However, Daniels continued, "the college is in an unusual situation since we are surrounded by three major Lubbock thoroughfares—19th St., College Ave. and 4th St.—Tech Freeway," he said, "the college streets are used quite a bit for shortcuts across the campus; this can tend to cause accidents because of the amount of cars."

THE RECORDS show that during the 1962-63 school year (from September to September), there were 94 accidents on cam-

pus. This included 38 accidents on parking lots, 49 wrecks on campus streets, two cases involving pedestrians and five wrecks involving official campus vehicles.

Already this year, during the first two months of school, there have been 13 accidents, including eight in September and five in October. This compares to 10 accidents during the same period last year, all in October.

"ABOUT THE most serious accident I've seen on campus" happened last year," reported Daniels. "It involved a pedestrian who was hit by a car near the Ad Bldg."

"The boy, when he was hit, jammed his arm through the windshield of the car, receiving several cuts," he said, "but the bad part happened when he was taken to the Infirmary for treatment. While there, one of the sightseers fainted when he saw the blood, and knocked out several teeth when he hit the floor."

"That boy was hurt worse than the one who was hit by the car," Daniels said.

THE MOST accident-prone intersections near the campus, by the official police map-plots, are 19th and College, Broadway and College, Boston and 19th Flint and 19th, and 4th and College.

These five intersections alone accounted for more than one-half of the more than 300 accidents near campus, but where

did the other 150-plus occur?

MANY OCCURRED on the campus itself. There were 14 around the circle and pavilion; there were 20 close to the stadium and coliseum; there were five in front of the library; and there were 16 additional accidents on the Boston Ave. thoroughfare through campus.
