

For SC Jobs

Campaigns Near Start

Campaigning for executive posts on the Student Council will move into high gear Monday as the candidates begin making appearances before campus groups in preparation for Friday elections.

Candidates for the four executive positions and cheerleader hopefuls will begin actively seeking campus support in their contests throughout the week.

The candidates will contact the sororities Monday night, and campaign in the dorms on Tuesday and Wednesday.

RONNIE BOTKIN and Bill Honey are vying for the president's post, while Kent Hance is unopposed for vice president of the Student Council. Holly Hunt and Nancy Shoemaker oppose each other for secretary, and Roland Anderson faces Garland Weeks in the contest for Council business manager.

Six men are vying for cheerleader positions, along with eight women. Mike Bohn, J. "Jim" Crawford, Albert Hall, Cril Payne, Ronnie Siler and Jack Walker have

been qualified by the Council to run for cheerleader.

Also qualified for the race are Sandra Cox, Anita Edmiston, Jan Keen, Camella Moore, Betty Newby, Kathy Osthoff, Karen Shroeder and Sondra Stargel.

RALLY SET THURSDAY

An election rally for the candidates will be Thursday at 7 p.m. in the Municipal Auditorium, and the elections will begin Friday.

ROYAL FURGESON, Council president, said, "The elections coming up are going to be extremely important." He said that students will have every opportunity to see and hear the candidates present both their views and qualifications.

Furgeson went on to say that student government on the Tech campus "has high potential—potential that has not yet been fully recognized."

He said, "The only way to achieve full Student Council possibilities is through active student participation and student interest." He went on to emphasize the need for students to take advantage of every opportunity to evaluate candidates and issues during the campaigns and vote in the elections.

LAST YEAR RECORD

He pointed out that last year's election was attended by a record number of votes cast and said that he hoped that the number of students voting would be even greater this year.

Tuesday the presidential aspirants will appear in West, Weeks, Doak, Drane, Horn, Knapp Halls and Women's Dorms No. 6 & 7. The Wednesday schedule calls for appearances before audiences from Sneed, Bledsoe, Gordon, Thompson, Gaston, Wells and Carpenter Halls.

All other candidates will be following a somewhat different schedule from that of the presidential candidates, but they will also be visiting the same dorms on the same days as will Botkin and Honey.

Regents Grant Leave For Ruby's Lawyer

AUSTIN (P) — University of Texas regents ended speculation Friday over the academic status of Jack Ruby's new defense counsel, Dr. Hubert Winston Smith, by granting Smith a leave of absence during his connection with the case.

The regents attached several conditions to the leave, which Chairman W. W. Heath said Smith had asked in a telegram. The stipulations provide mainly that the university and Smith's connection with it be kept strictly out of the prominent law professor's defense of Ruby, convicted slayer of accused presidential assassin Lee Harvey Oswald.

Page Keeton, university law dean, earlier had been quoted as saying Smith could continue his teaching duties so long as his defense of Ruby did not interfere with his classroom responsibilities.

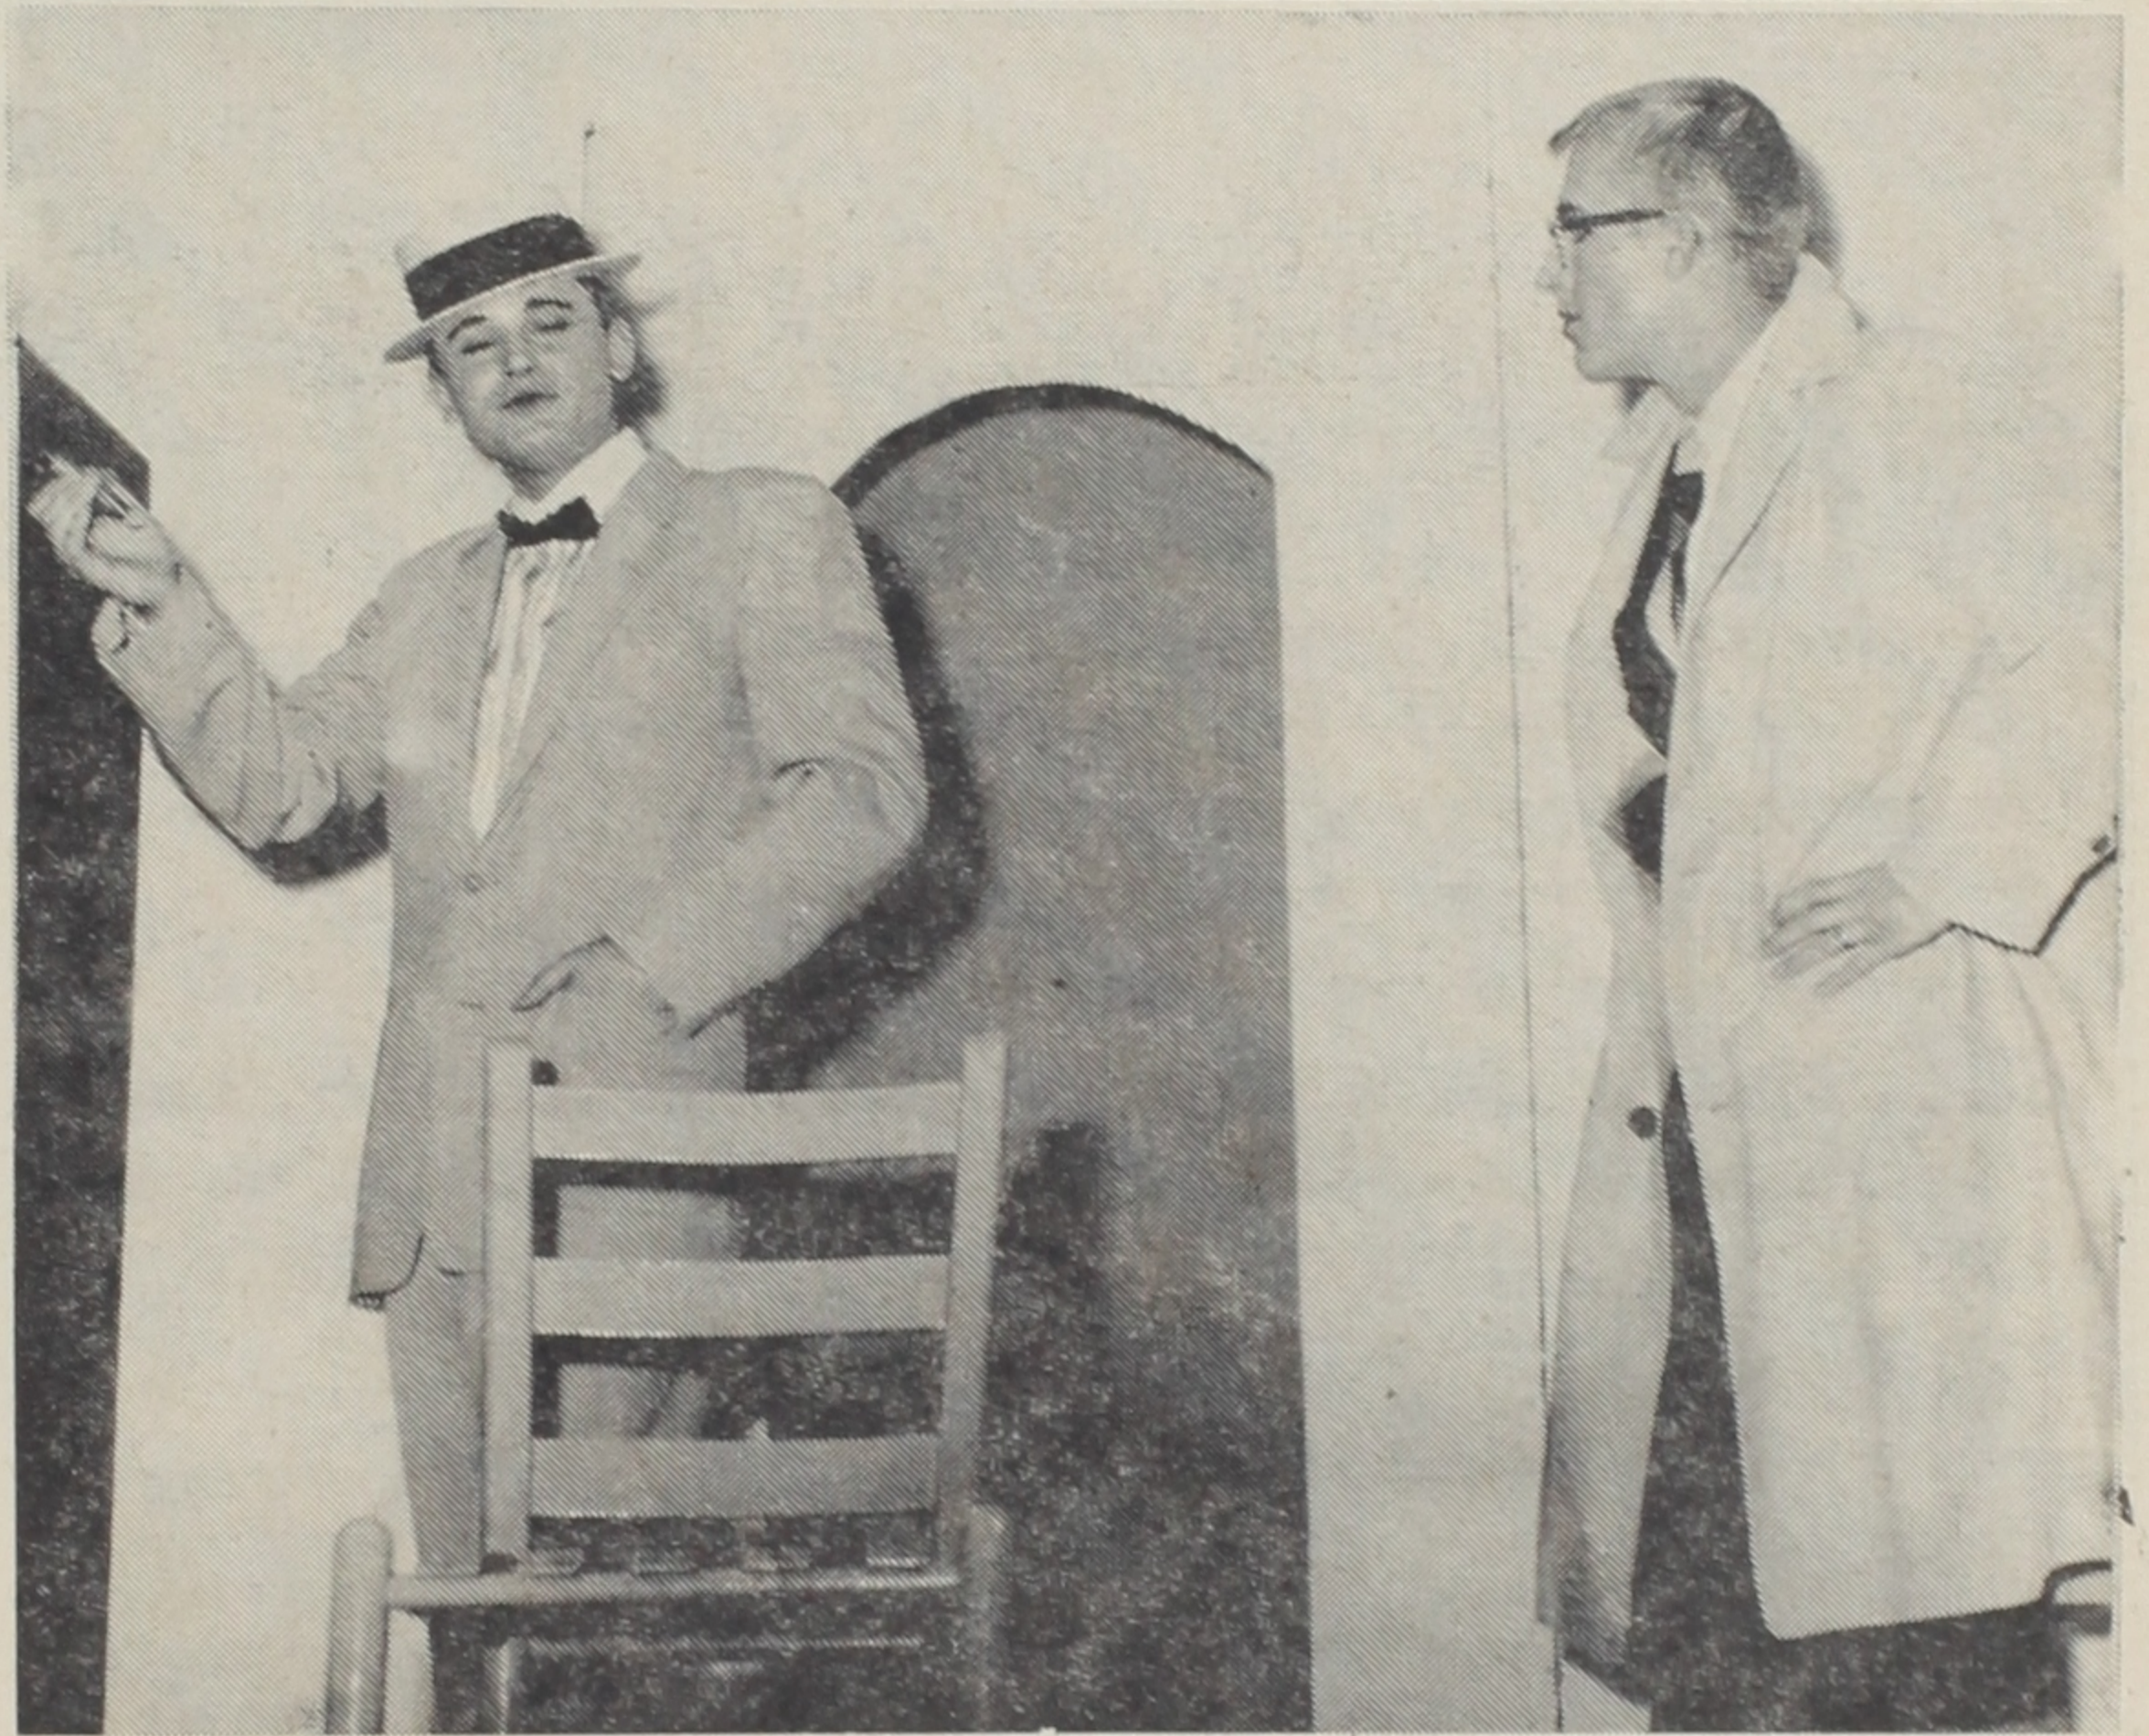

Some complaints had been made concerning Smith's acceptance of the Ruby case, Heath said last week. He called Friday's special meeting to review university policy on outside employment of faculty and staff members.

The board acted on the recommendation of Keeton and university chancellor Harry Ransom, Heath said.

The leave could last for several years if Smith stays with the Ruby case through all avenues of appeal. Ruby was convicted March 14 by a Dallas jury of gunning down Oswald in the basement of the Dallas city jail on Nov. 24—two days after the assassination in Dallas of President John F. Kennedy.

The regents issued a two-page statement to newsmen on its decision to grant Smith leave without pay.

The regents said Smith had declined to accept pay from the university during the leave.

GERMAN CLUB PLAY — The plot thickens in a scene from the Liederkrantz Theater production of "Phillip Hotz's Fury." Players are Heinz Fuhrmann, who portrays Wilfred, and Jeff Green, who takes the

part of Phillip Hotz. The play, co-sponsored by the German Club and the Tech Union, is scheduled again for performances at 7:30 p.m. Monday and Tuesday in the Ad. Bldg., room 217.

— Fall 1964 —

Techsans Compete For Post

Five Techsans and a Lubbock resident, are competing for a chance to become Lubbock's Community Ambassador to Nigeria, Africa.

The envoy will be selected this month by representatives of Lubbock's civic clubs, garden, study and religious organizations.

Applicants are Ann Brown, Dwight Young, Tommy Watt, Michael Malley, George Griffin and Richard Riddle.

Miss Brown, sophomore journalism major, a graduate of Whitney, Texas High School, is the only coed applicant. She is a member of Town Girls Club, THE DAILY TOREADOR staff, Optimates, Latin honorary, and she is chairman of the West Hall Assn.

MONTEREY HIGH graduate Young is a junior majoring in English. He has served as president of the Tech Model U.N.

Watt, junior government major, also graduated from Monterey High. He is a member of Sigma Chi social fraternity, Tyrian Rifles Drill Team, Tech Army ROTC, Tech Debate Team and the Baptist Student Center.

Malley is a sophomore majoring in liberal arts. He has served as president and vice president of Newman Club, and has been on the Committee of International Interests.

A JUNIOR MAJORING in history, Griffin will appear in Tech's production of "Romeo and Juliet." A graduate of Dunbar High School, George is a member of Channing Club and Tech's Tyrian Rifle Drill Team.

Riddle attended the Institute of Applied Science in Chicago, Illinois.

Room Rate Hike Set

A raise in room and board rates will be enacted with the Fall term, 1964, according to Guy Moore, director of residence halls.

Women's halls Doak, Drane, Horn and Knapp, as well as men's

• BULLETIN

WICHITA FALLS (P) — A vicious tornado ripped through northwestern suburbs of Wichita Falls Friday, killing at least four persons, injuring scores more and wreaking enormous property damage. Entire sections of home additions were demolished as the twister touched down.

halls Sneed, Bledsoe, West and Gordon, will be raised from \$618.82 to \$630, yearly. Rates of Carpenter, Wells, Thompson, Gaston and Weeks, will increase from \$684.17 to \$696; and Women's 6 & 7 will join new halls Women's 8 & 9 and Men's 9 & 10 on the \$760 level.

CAUSES CITED

Moore attributed the price increase to the installation of new telephone equipment and the rise in the cost of utilities, labor and food.

WITH 808 NEW spaces for women, and 1,054 for men, Tech's dorm capacity will shoot to 7,147.

Snack bars and recreation facilities will be provided in the basement of Men's 9 & 10.

The schedule for signing room contracts for men is as follows: Wednesday, April 8, for men who want their present rooms for next year; Thursday, April 9, for students remaining in their present hall, but want to change rooms; Friday, April 10, for students who want to change halls (they should go to the hall they are applying for to sign their contracts); Thursday and Friday, April 9 and 10, for signing of contracts for new

contracts will be signed at the Office of Room Reservations.

FOR WOMEN

The schedule for signing room contracts for women is as follows: Monday, April 13, for students who want their present rooms for next year; Tuesday, April 14, for students remaining in their present hall, but who want to change rooms; Tuesday, April 14, for officers, legislators, office assistants, rood service staff and roommates of those students (during the 1963-64 term) who want to change halls; Wednesday, April 15, for seniors who want to change halls; Wednesday, April 15, for juniors who want to change halls; and Thursday, April 16, for sophomores who want to change halls.

Professor Is Injured In Hit-Run

Robert L. Mason, mechanical engineering professor, is resting at home after receiving a double fracture in his left leg and a fractured pelvis during a hit and run accident March 22.

In satisfactory condition, Mason is able to get around in a wheel chair or on crutches.

Mason explained that he and his wife had stopped to administer aid at the scene of an accident near San Antonio. As they were walking back to their car, he was struck from behind by another car which dragged him about 60 feet.

"My wife told me the driver stopped momentarily but soon drove on. We have no information on the driver," Mason said.

He expects to be teaching again in two weeks.

Pact Made On Panama

WASHINGTON (AP) — The United States and Panama agreed Friday to reestablish diplomatic relations and seek elimination of causes of conflict — a step hailed by President Johnson as marking "truly a great day" for all sides.

The agreement was signed in a public ceremony at the Pan-American Union. U.S. Ambassador Ellsworth Bunker signed for the U.S. and Miguel Moreno for Panama.

The agreement provides for each country to name a special ambassador to work immediately for "a just and fair agreement" removing differences between the two countries.

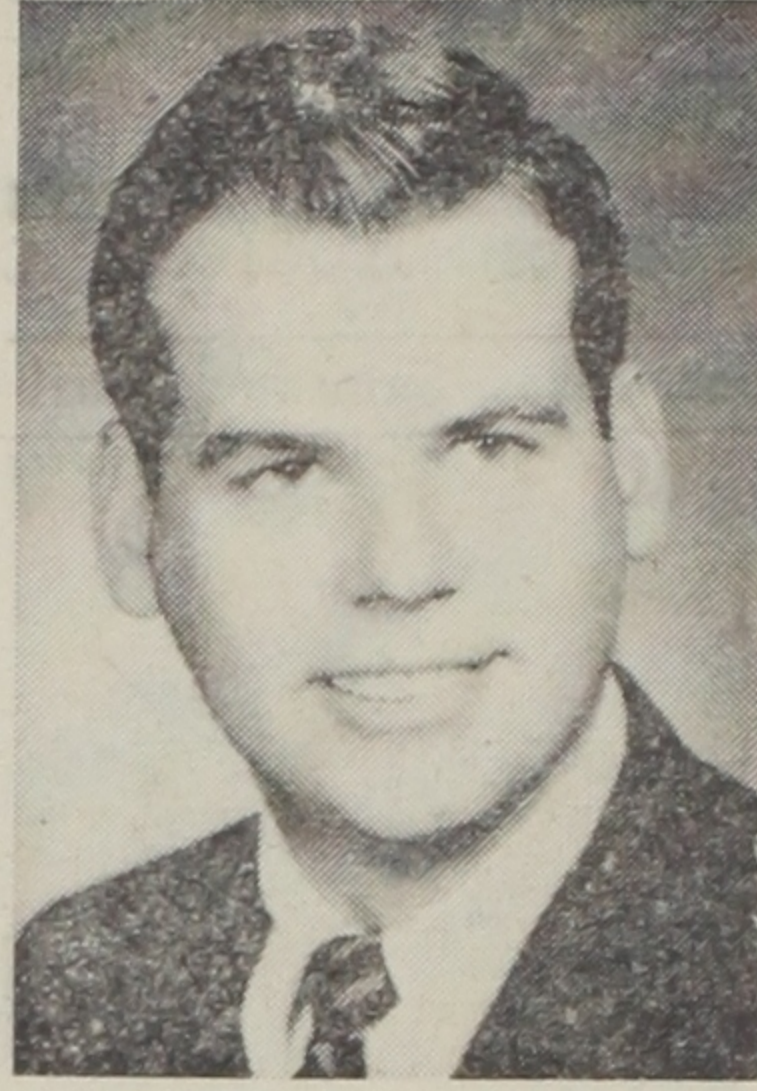

Club Spotlights Disarmament

Dr. Martin T. Kyre, professor of government at Tech, will present some of the problems of disarmament to Channing Club Sunday night.

Euford Terrell, president of Channing Club, announced that Dr. Kyre would demonstrate some of the problems involved in the subject with a disarmament game he has developed.

The object of the game is to disarm your opponent and yourself without being destroyed by "war." The audience at the open meeting of the club will participate in a disarmament program—representing the two sides of a bi-polar power structure.

Terrell said that the meeting would be in the Blue Room of Tech Union at 7:30 p.m. Channing Club meetings are open to all Tech students. Coffee will be available.

WILLIAM ROBERTSON

Deadline Reset For Scholarship

Deadline on applications for the Louise C. Allen Scholarship for a coed journalism major or minor has been extended to Wednesday at 5 p.m. Applications should be picked up and returned to the Journalism Bldg., room 101. Aspirants should be at least a sophomore and maintain a 2.5 grade point overall.

USAF F-105, unleashing air-to-ground rockets at simulated enemy target.

School's Out.

Right now, graduation seems way off in the wild blue yonder. But it's not too early to start planning. In the future, you'll look back on decisions you make today with satisfaction... or regret.

What can an Air Force career mean to you in tangible gain? The opportunity to take on executive responsibilities you might otherwise wait years to attain. And a head-start into one of a wide range of possible careers in the exciting Aerospace Age.

As an Air Force officer, for example, you may be flying a su-

personic jet...helping to keep America's guard up. Or you may be in an Air Force laboratory, working to solve an intricate scientific or technological problem.

Doing jobs like these, you can hold your head high. In addition to being essential to your country, they're the beginnings of a profession of dignity and purpose.

For more information, see the Professor of Air Science.

If there is no AFROTC unit on your campus, contact your nearest Air Force recruiter.

Greek News . . .

Tech's William Leonard Robertson has been selected by fellow members of Phi Kappa Psi as the Summerfield Scholar of the Year.

This is an award that is available annually in each of the 63 chapters of Phi Kappa Psi for presentation to a member who, in the opinion of his fellows, has achieved an excellent record of good scholarship in combination with demonstrated leader-

ship qualities and worthwhile contributions to his university or college and to the fraternity.

Robertson's activities at Tech include membership in the Freshman Council and the Inter-Fraternity Council.

David (Smiley) Irvin, senior finance major from Fort Worth, has been given the seventh annual "True Sons of Tech Award" for 1963-64 by his social fraternity, Sigma Alpha Epsilon.

Irvin's name will be engraved on a large "Double-T" traveling trophy and he will receive a similar trophy to keep.

At Tech, Irvin has been on the swimming team; head cheerleader; a member of Saddle Tramps; Dolphins, national swimming fraternity; on the hospitality committee of the Tech Union; on the Southwest Conference sportsmanship committee; social chairman of SAE fraternity; and president and wing governor of Gaston residence hall.

Eighteen juniors and seniors have been selected for membership in Tau Beta Pi, national honorary engineering fraternity.

Those selected are: Edward F. Jones, Beverly, Mass.; E. Delbert Horton, Houston; D. Allen Redwine, Fort Worth; Kenneth Etheridge, Jacksonville; J. B. Headrick, Phillips; W. M. Marcky, Lubbock; Charles R. Key, Levelland; Darrell Boyd, Muleshoe; William Radell Carradine, Bay City; Billy Hugh Bowerman, Arlington; James Zorns, Ropesville; Thomas A. Cox, Amarillo; Jerry C. Hobbs, Corpus Christi; Willie Beecher Craig, Richmond, Indiana; Bruce D. Stocks, Burley, Idaho; Charles M. Cribbs, Jacksonville, Fla.; Charles A. Betts, Pittsburgh, Penn.; Jesse E. Strother, Oakdale, La.

Gamma Phi Beta will host a carwash Saturday at Caprock Shopping Center and St. John's Methodist Church parking lot. One dollar per car will be the cost of the pledge project, which will last from 2-5 p.m.

Forensic Group Plans Intramural Competition

The Tech Forensic Union will sponsor an Intramural Speech Tournament Thursday in the Agricultural Auditorium.

The events which are open for entries are prose reading, extemporaneous speaking, after dinner speaking, and dramatic interpretation. The tournament begins at 7 p.m.

Seven minutes will be the maximum time for the prose reading event. Extemporaneous speakers may speak from five to seven minutes. They will draw their topics at 6:30 p.m. Those entering the after dinner speaking competition will have from seven to 10 minutes

to talk. Their material must be original. The dramatic interpretation may be memorized or read from a script and has a seven minute maximum.

Fees for entering the tournament are 50 cents for individuals and \$2 for organizations. Individual trophies will be awarded in each event. A sweepstakes trophy will go to the organization with the highest number of points.

Entry blanks are available in the office of J. G. Robbins, speech instructor, room 207A of the Ag Engineering Bldg.

SMU Selects Dramatist To Head New School

A new School of the Arts has been created at Southern Methodist University. Nationally distinguished dramatist and author in the fine arts, Dr. Kermit H. Hunter, presently professor of dramatic arts and chairman of the division of Music, Drama and Fine Arts at Hollins College, Roanoke, Va., has been named its Dean.

Dr. Hunter's election and establishment of the new School of the Arts, which includes SMU's former School of Music and Departments of Art and of Speech and Theater, now in the School of Humanities and Sciences, was announced by SMU President Willis M. Tate following a meeting of the SMU Board of Trustees on the Campus March 17.

Dr. Hunter has produced more plays than any other American playwright, and at present, he has more plays running simultaneously than any other American playwright. His works have been seen by nearly 4,000,000 people.

The Board also selected Dr. Floyd Pfautsch, Professor of Sacred Music and director of choral activities at SMU, as Associate Dean of the School of the Arts and director of its program in music. Both appointments and establishment of the new school will become effective July 1, 1964.

The entire program of the School

of the Arts will be conducted in SMU's new \$8,000,000 Owen Fine Arts Center, part of which is now under construction. Creation of the school was called for in SMU's Master Plan for the academic future adopted last May 10.

"The new coordinated school, the beautiful new Owen Fine Arts Center, and the leadership of Dean Hunter, who comes to us with an unusual breadth of background in the arts, will allow SMU the finest opportunity to continue to achieve eminence in the vital field of the fine arts," Dr. Tate said.

The new School of the Arts will be a professional school including the present programs of the former School of Music and present and developing programs in the fields of art, speech and drama, and the dance.

Dr. Hunter is the author of 24 outdoor historical dramas, four of which are produced annually. His play, "Unto These Hills," produced in Cherokee, N.C., has been viewed by more than 2,500,000 people. Professor Jack F. Kilpatrick of SMU composed the musical score for "Unto These Hills."

Show Postponed

The Tech Union sponsored Bridal Style Show originally scheduled for Sunday has been canceled, Union officials report. The program will be rescheduled at a later date.

Scranton Could 'Walk, Not Run'

CARSON CITY, Nev. (AP) — Gov. Grant Sawyer, noting that Gov. William W. Scranton of Pennsylvania does not choose to run, invited him Friday to go along on a 10-mile walk advertising Nevada's centennial year.

The occasion would be the "Harry Warren Race" from Wabuska to Yerington in western Nevada on July 4.

In 1910, Harry Warren walked from his ranch near Wabuska to Yerington, 10 miles, in three and a half hours. He carried a 120-pound sack of wheat.

Sawyer's invitation went to Scranton in a letter Friday.

"I note from the political columns that you do not choose to run, but will you join me for a 10-mile walk?" Sawyer, a Democrat, asked.

Scranton has been mentioned as a possible darkhorse candidate for the Republican presidential nomination.

U. S. Supports Brazil Regime

WASHINGTON (AP) — Secretary of State Dean Rusk pictured the ouster of President Joao Goulart as a victory for constitutional democracy in Brazil. He proclaimed U. S. readiness "to work very closely" with the new regime to help pull the country out of economic chaos.

Rusk said concern had mounted among Brazilian congressmen, state governors, the military, "moderate, democratic elements" and "large segments of the people" that the left-leaning Goulart was moving toward "some sort of authoritarian regime."

The United States shared the concern that "extremist elements

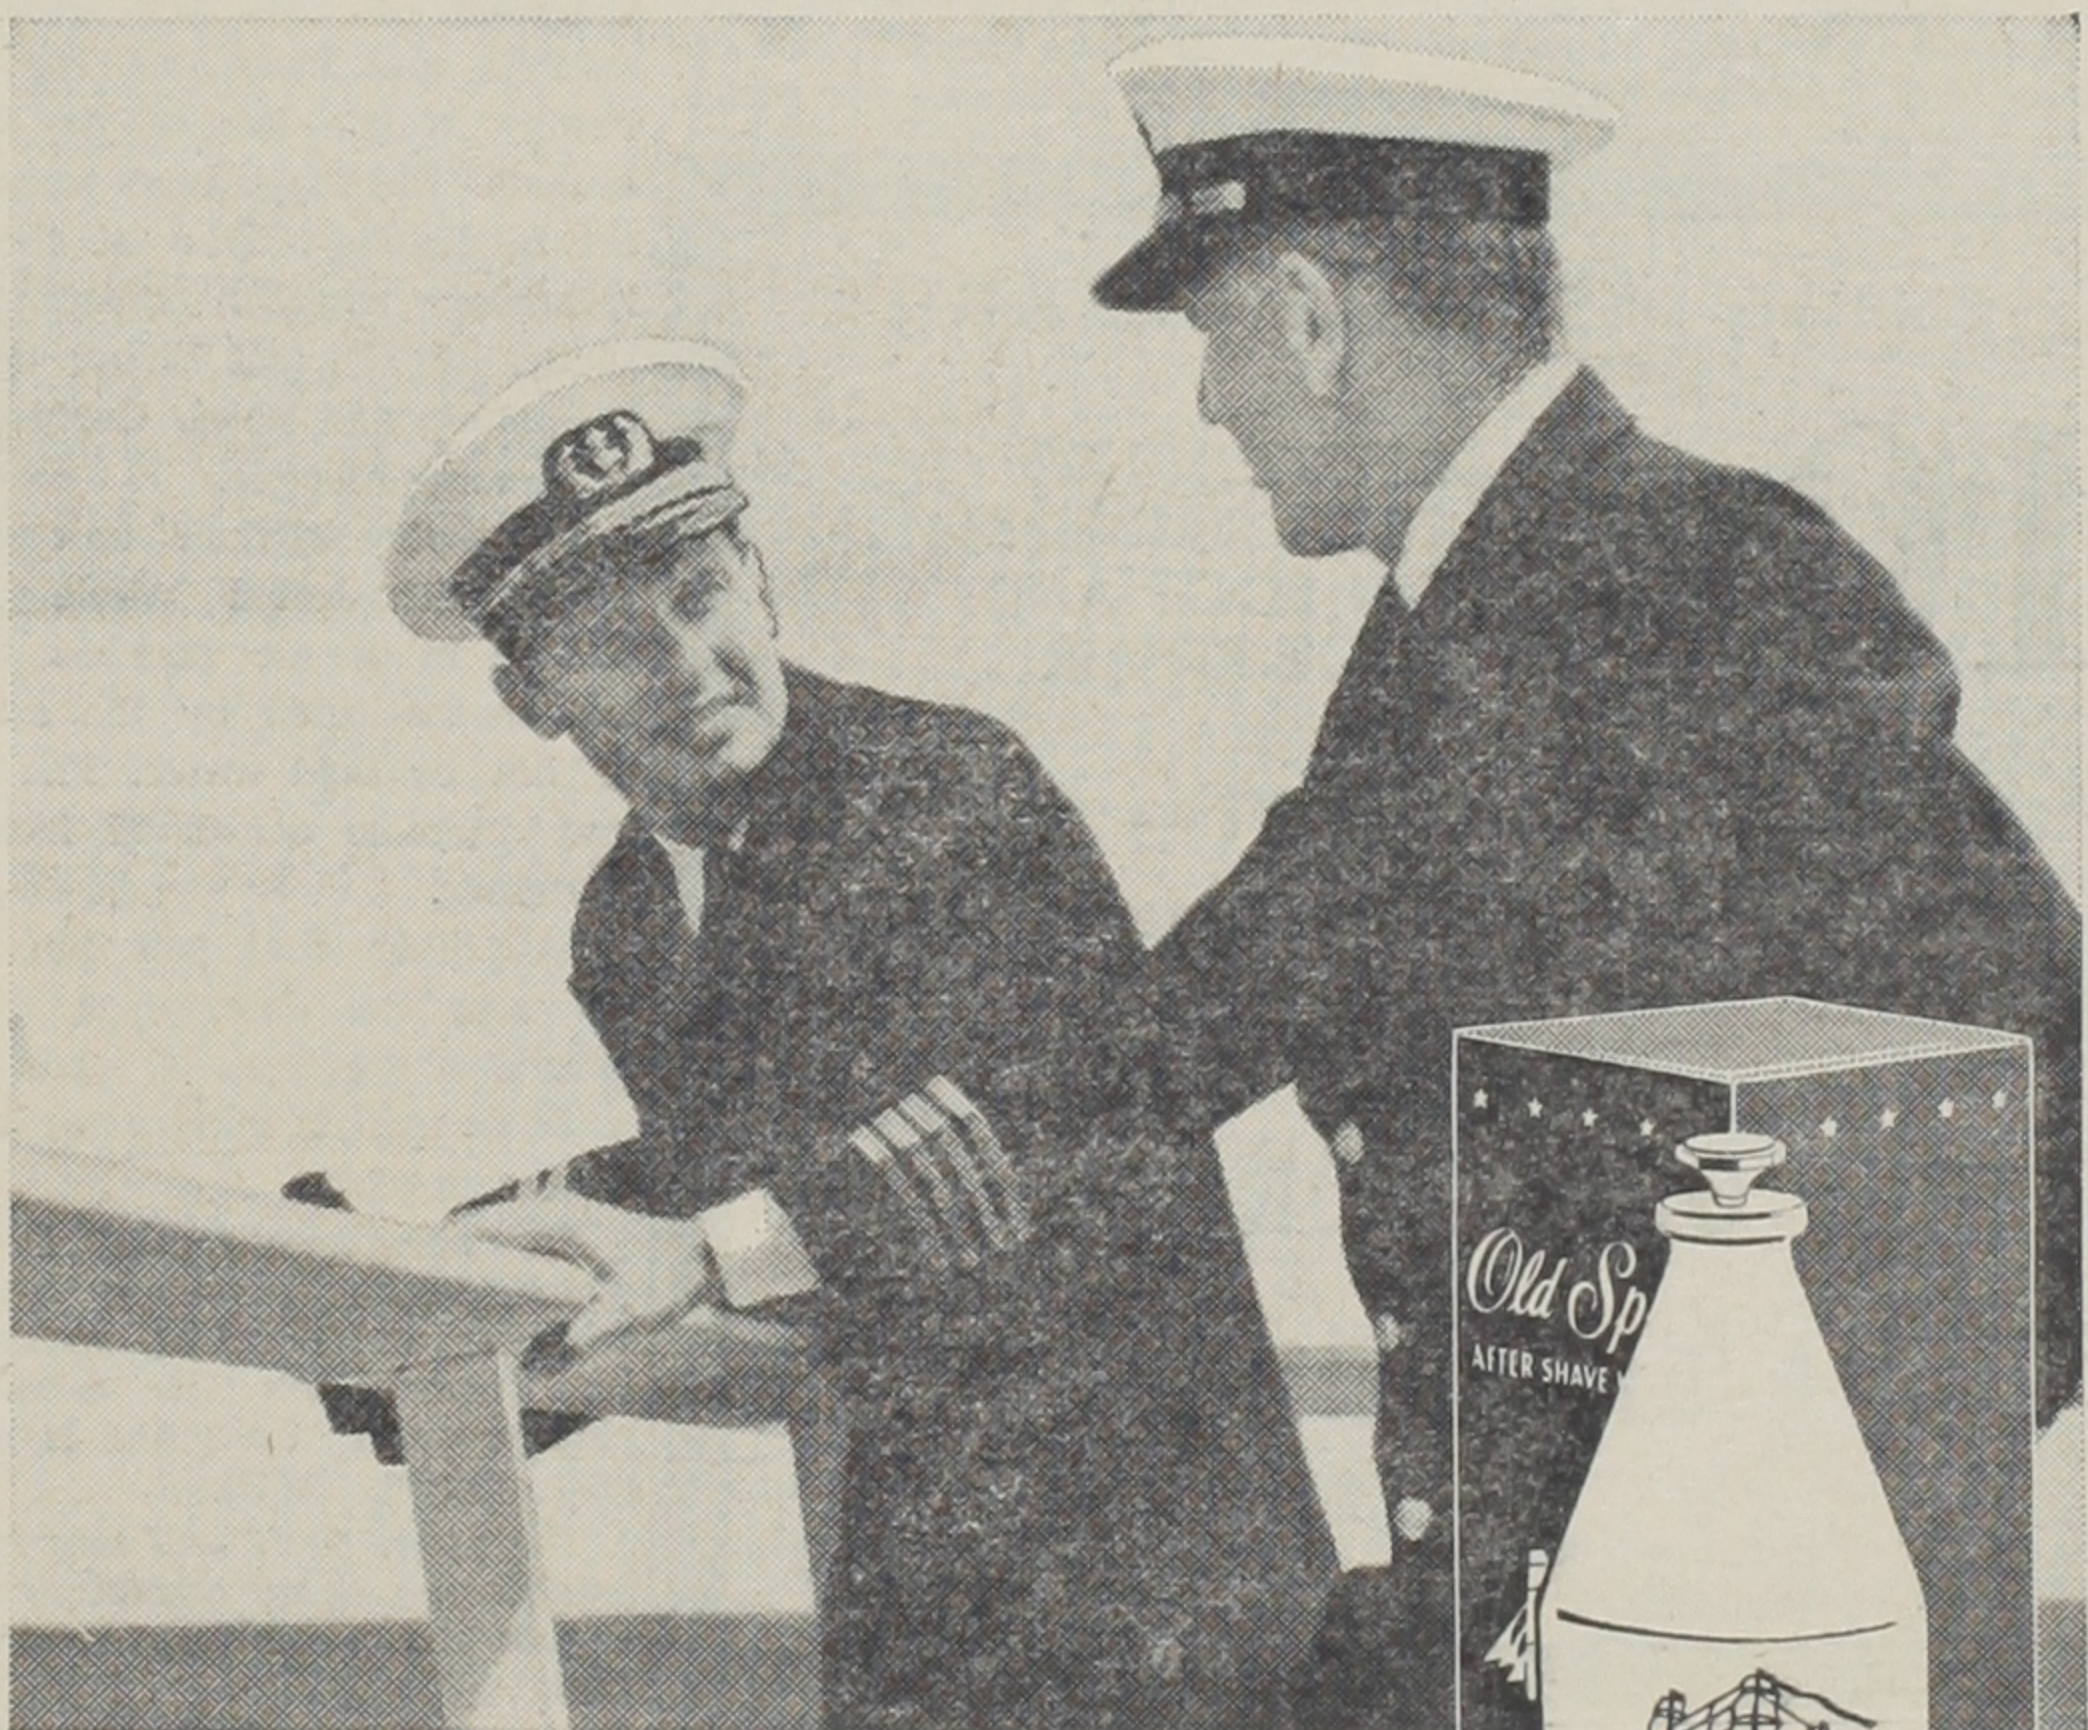

were having more and more influence" in the Goulart administration, Rusk said. But he denied a Cuban charge that Washington engineered the revolution.

Rusk's news conference remarks set forth Friday the U.S. view of the spectacular Brazilian overturn, after official U.S. silence had been broken by a message of good wish-

es from President Johnson to the new interim Brazilian president, Paschoal Ranieri Mazzilli.

Administration sources said Johnson's decision for a friendly U.S. posture was taken on advice of the U.S. ambassador in Brazil, Lincoln Gordon, seconded by foreign policy advisers here.

Unit Offers 'Meals' For Space Flights

Several Tech coeds learned Friday some techniques an astronaut may use in preparing his meals enroute to the moon.

The coeds were being acquainted with a simulated "kitchen" prepared for possible use by astronauts. The unit is part of a display being brought to the West Texas Museum at Tech for the upcoming space show, "From Arrowheads to Aerospace."

Not much larger than a good-sized suitcase, the unit contains an "oven" and a water dispenser

unit. During the space show, planned for April 12-May 31, the coeds will demonstrate to visitors the unit's operation by preparing lemonade through use of the water dispenser. A simulated freezer unit will also be on display with the miniature "kitchen."

The units were developed by several national companies as a concept of what may be a solution of the problem of preparing meals for an astronaut enroute to the moon.

The units make use of freeze dehydrated food packages for meals,

which officials of the companies say make possible an unlimited variety of foods for the astronauts.

The display will feature exhibits from General Electric; Libby, McNeil and Libby; Litton Industries, Inc.; the National Aeronautics and Space Administration; and Southwestern Bell Telephone Co.

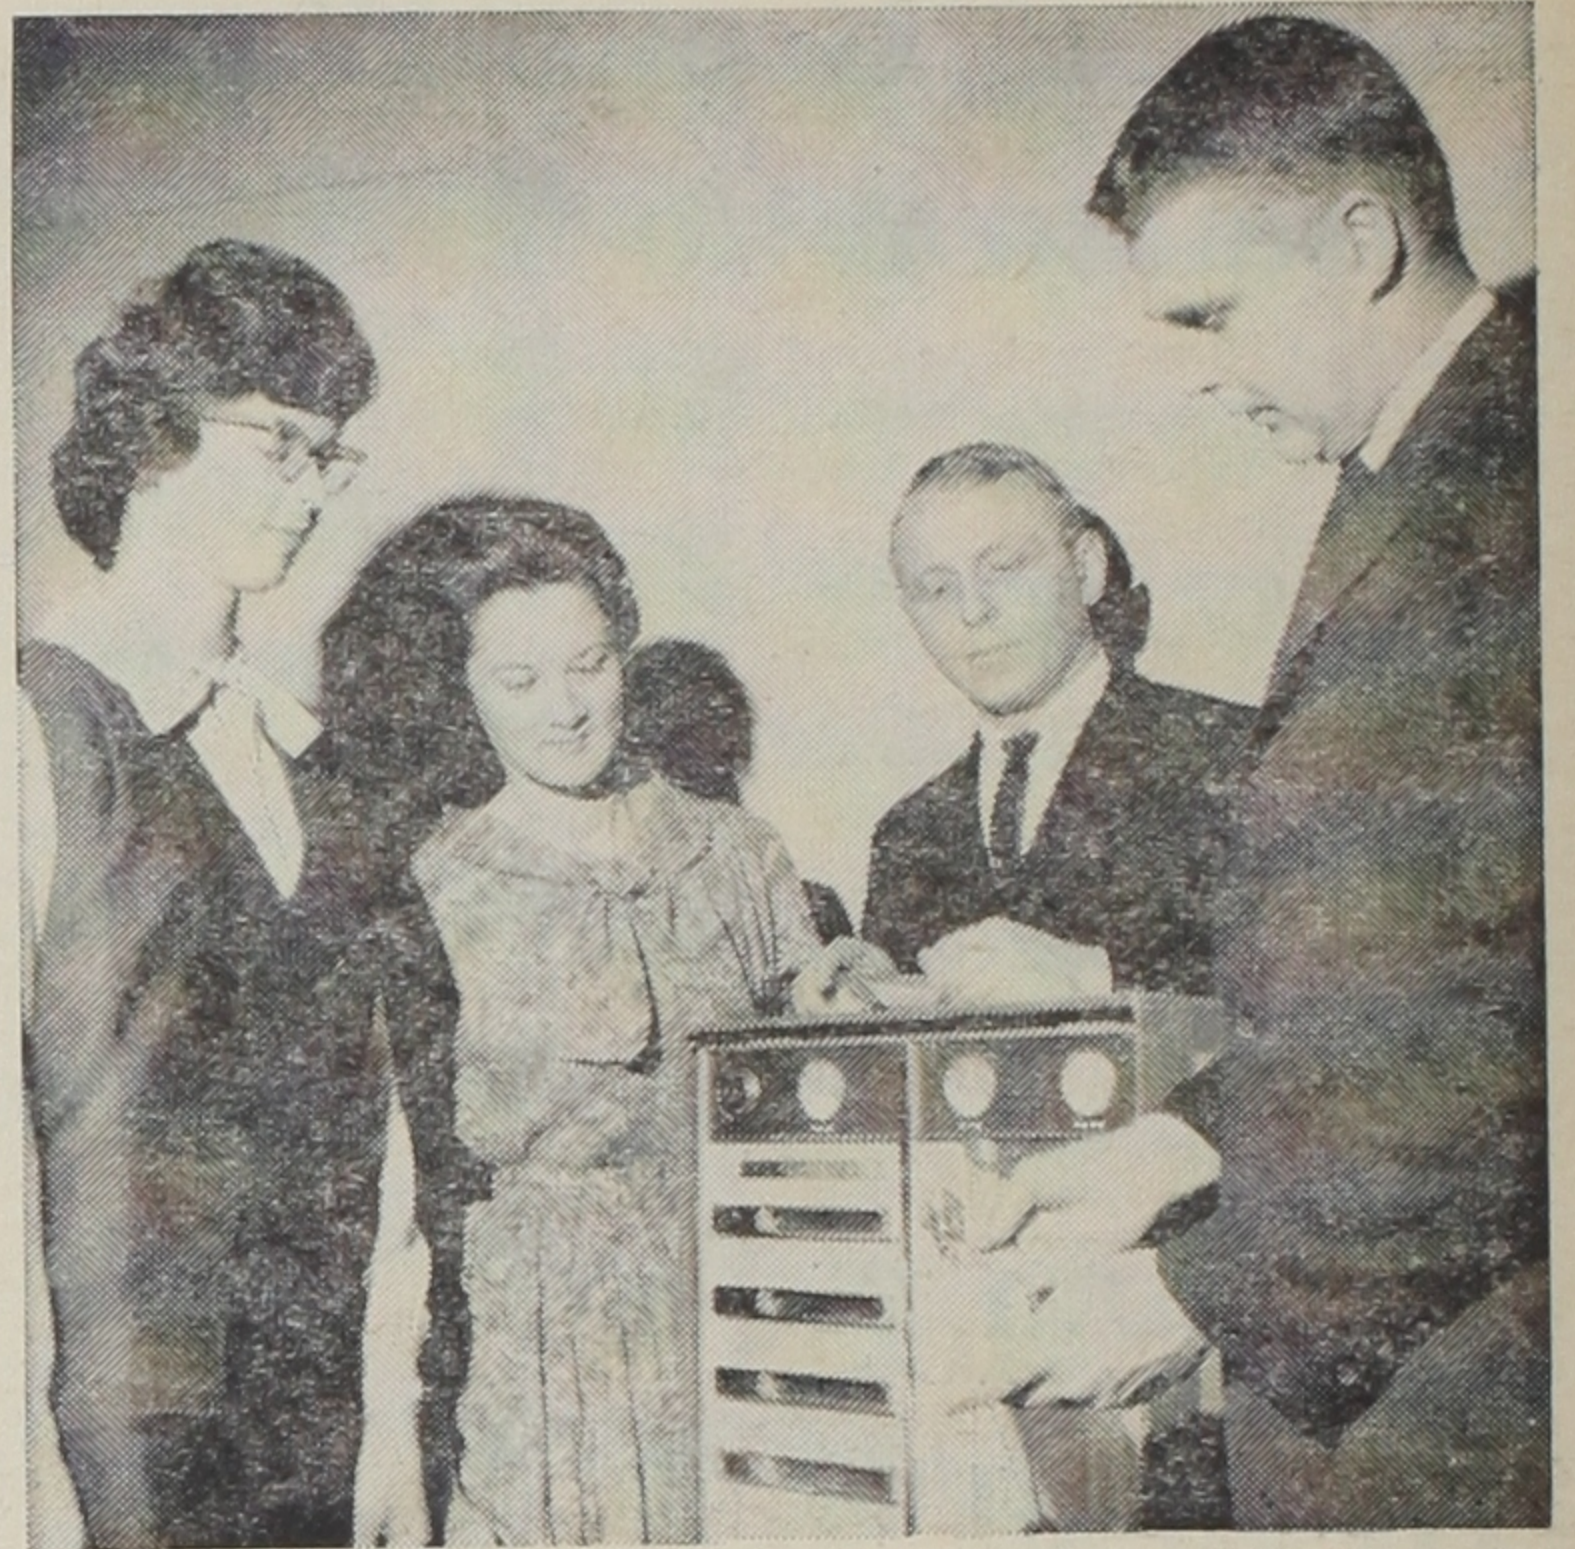

Three representatives arrived this week to check facilities for the exhibits and instructed the coeds Friday in the use of the "space kitchen." On the campus were Robert L. Hawley, head of the food technology research department of Libby, McNeil and Libby; Charles O'Donnell, and Rocco Caruso, both of General Electric.

The "space kitchen" unit utilizes freeze dehydrated whole foods, packed in plastic pouches, which are reconstituted by the addition of hot or cold water. The foods may then be consumed from the container.

"Anything that you can think of" was the description by one official of the types of foods which could be used in the process for the "space meals."

An "adherence factor" is added which, while remaining colorless, tasteless and odorless, makes the food remain on the astronaut's plate even if the plate is upside down during the flight.

The space show will also include exhibits on space communications, flights and general space information.

MEALS ENROUTE TO THE MOON — Two Tech coeds, Sue Thompson and Sherrell Foree, receive some graphic instructions on how to prepare a meal for an astronaut. Charles O'Donnell, right, and Robert L. Hawley, on campus for preparation of space exhibits at West Texas Museum, show the coeds some techniques in operation of a "space kitchen" developed for possible use by astronauts.

Professor Talks On Math Studies

Mathematics related to studies of the heart and circulatory system will be discussed Monday by Dr. H. Melvin Lieberstein of New Mexico Highlands University.

The free public lecture will be at 4 p.m. in Ad Bldg., room 358. Dr. Emmett Hazelwood, mathematics department head, said address will be of primary interest

to mathematicians but that all interested persons are invited. Dr. Lieberstein also will be on campus today for conferences with faculty members and students. Well-known as an applied mathematician, Dr. Lieberstein has done contract work for the Office of Naval Research and the Army Research Center.

Attention SENIOR and GRADUATE MEN Students

who need some FINANCIAL HELP in order to complete their education this year and will then commence work.

Honorary Pledges 124 Tech Scholars

Phi Kappa Phi, scholastic honorary for all schools of the college, has announced the pledging of 124 students from Tech's six schools for the spring semester, 1964.

Pledges are, from the School of Arts and Sciences, Roger C. Camp, Dorothy G. Brown, Stephen Pat Magee, Leroy B. Cebik, Eloise K. Schreiner, Alta Ada Schoner, D. Elizabeth Young, James E. Woodward, Margaret N. Nall, Jerry C. Tonroy, Carol J. Harvey, Martha Ann Bray, Nancy Ann Jones, Lubbock.

Also Anne C. S. Connor, Judith D. Campbell, B. Laruth Rigsby, Judy Beth Sell, Douglas D. Ford, Judy Gay Roy, Patricia C. Adkins, Nona Marie Burgamy, Cecile K. Camp, Mainelle Cole, and Myrna B. Stephenson, all of Lubbock.

Those from Houston are Emily Croom, Loys Ann Slaughter, Linda Jane Vennema, and Caroline Quebe. Those from Dallas are Sandra Kay Fry and Jeane C. Jacobs.

Other initiates are O. Preston Copeland, Austin; Dana W. Murphy, Abilene; Barbara G. Spurburg, Odessa; E. Beth Hinds, Odessa; Linda Yarborough, Fort Worth; Rondall E. Jones, Midland; Joseph E. Cannon, Midland; Noelle L. Lamb, Artesia, N.M.; Nancy Jeanne Lamb, Artesia, N.M.; Nancy Spikes, Graford; and Barbara Ellen Kanipe, Corpus Christi.

Darla K. Henderson, Shallowater; James M. Minor, Post; Roy Ivy Jr., Crosbyton; Edna M. Faught, Eldorado; Mary Porte Lowe, Monahans; James C. Armstrong, Angleton; Dorothy M. Hansen, Parkridge, Ill.; Betty Sue Thomson, Abernathy; Joveta Richardson, Wolforth; Thomas N. Williams, Farwell; Betty E. McFarhen, Cleburne; Tommy Lee King, Nocona; Lynn M. Chenault, Amarillo; and Verna M. Strawn, Spearman.

Those from the School of Agriculture are John Charles Malechek, Van Court; John Paul Walter, Lubbock; William F. Barkley, Spearman; Edwin T. Meyer, Esteline; Kenneth Lynn Gill, Bellevue; Marihelen Kamp, Tahoka; W. Richard Bush, Fort Worth; Glenn Ray Howell, Seymour; James R. Coppedge, Knox City; and Horst Schach, El Paso.

Those from the School of Business Administration are Rita Pat Harrell, Stanton; Amette Inmon, Dallas; Cary Miller, Vernon; Belverd Needles Jr., Lubbock; Gene Reichman Jr., Roswell, N.M.; and Richard E. Spikes, Lubbock.

Those from the School of Home Economics are Karen Edith Morris,

White Deer; Jeanette Wilson, Ralls; Pat Hamilton, Cleburne; Mary Behrends, Dimmitt; Linda Gilbreath, Houston; Janet Hetherington, Houston; Lynn McElroy, Lubbock; and Charlotte Dorsey, Lubbock.

Those from the School of Engineering are L. Wendell Goïn, Phillip Basil Clark, Jim B. Kennedy, Charles A. Betts, Roy Russell Graham, all of Lubbock; Jim Brown Palmer, Odessa; Leo Henry Caesar, Houston; Thomas Aubrey Cox, Amarillo; George Chester Hite, Bellaire; Jerry I. Stafford, Levelland; D. Ronald Fannin, Madisonville; Bill Lee Gunnin, Cedar Hill; and Charles M. Cribbs, Jacksonville, Fla.

Those from the Graduate School are Adrain N. Anderson, Lester L. Schmidt, James L. Wadley Jr., James C. Whatley Jr., Mrs. Eloise H. Gray, Mrs. Eleanor M. Waggoner, Mrs. Lois A. Scarlett, Reagan H. Been Jr., Dr. Billy B. Everton, Keith E. Musselman, Vernon L. Odom, Mrs. Martha C. Brunson, and Patrick F. Noud, all of Lubbock.

Also Frank L. Bartlett, Mrs. Sue S. Park, Abernathy; Mrs. Billy B. Rankin, Julian C. Hart, Andrews; David K. Ferry, San Antonio; Clyde A. Fort, Lovington, N. M.; and Robert R. Arnaw, Lancaster.

James A. Shadden, Houston; Mrs. Margaret J. Pereboom, Baton Rouge, La.; Mrs. Imogene A. Vaught, Odessa; Mrs. Betty Lou Skinner, Chicago, Ill.; Miss Charmayne Wilson, Dallas; Rodger Shoemaker, Beaumont; Dr. James W. Tunnell, McAllen.

Paul E. Schlimper, Port Arthur; James D. Adams, New Richmond, Wis.; Mrs. Janie R. Flynt, Mineola; Mrs. Judith E. Hearne, Austin; and Ira R. Hulse, Refugio.

Grades Are Out

HOWARD TOURS

THE ORIGINAL STUDY TOUR IN THE PACIFIC

HAWAII TOUR

SIX UNIVERSITY CREDITS
57 DAYS \$549 Plus \$9 Tax

Attend University of Hawaii Summer Session and earn college credits while enjoying beautiful Hawaii with the nationally popular Howard Tour — the program in which you "live in" and enjoy Hawaii — not just see it; the tour in which you personally participate in the very best of island living, not just hear about it.

Tour price includes roundtrip jet thrift flights between California and Hawaii, campus residence, and the most diversified itinerary of the highest quality and largest number of dinners, parties, shows, and cruises, sightseeing, beach activities, and cultural events; plus all necessary tour services.

Walkiki apartments and steamship passage are available at adjusted tour rates. Also available, optional tours to neighbor islands.

ORIENT TOUR

SIX UNIVERSITY CREDITS
44 DAYS \$1989

Hawaii, Japan, Taiwan, Hong Kong, Philippines, Thailand, Singapore — famed names you've dreamed about — all in a single escorted program for sophisticated travelers whose intellect, adventurous spirit, and previous travel to other more accessible areas make them ready for one of the most exciting and pleasurable of all travel experiences on earth. If you desire, you may also enroll in the San Francisco State College Summer Session courses offered in conjunction with this program. Price includes roundtrip air travel between West Coast and Orient, plus all first class and luxury services ashore — hotels, meals, sightseeing, all tips, and the most extensive schedule of special dinners, cosmopolitan entertainment, evening events, and social functions; plus all necessary tour services.

Can you avoid living in "Jamsville"?

It won't be easy. By 1980 most Americans will live in 40 large metropolitan areas—each with more than a million population. To keep your community from becoming a "Jamsville" will take people with ideas — ideas that can help cities move more traffic swiftly, safely and economically.

Some of the ideas come from the men and women of General Electric who, in effect, form a "Progress Corps."

In major cities, they're helping to develop *balanced* transportation built around rapid rail-transit systems . . . and they're providing advanced equipment to power and control the trains. They're also developing a TV monitoring system that enables a single engineer to control miles of auto traffic . . . a jet engine

that speeds commuters in a hydrofoil ship *over* the waves . . . and another jet engine to lift travelers *over* traffic via turbocopter at 150 mph.

Traffic is only one of many problems General Electric people are working on. Their numerous projects, in this country and around the world, demand a variety of talents: engineering, finance, marketing, law, physics and many others.

If you'd like to join the "Progress Corps" after graduation, talk to your placement director. He can help qualified young people begin their careers at General Electric.

Progress Is Our Most Important Product

Raiders Drop Pair To Highlands

By MIKE WALL
Toreador Sports Editor

Tech couldn't seem to find the range of the opposing pitchers in either game of a doubleheader with New Mexico Highlands yesterday, as the Raiders went down in defeat in both games, 4-0 and 5-2.

In the first game, Tech managed to get a man as far as second base and that was only once. Catcher Doug Cannon got to first on an error and advanced to second on a single by the team's leading hitter, Bob Fielder in the bottom of the

seventh. But the effort was all in vain as the alert New Mexico crew pulled out a double play and the game was over.

Kippy Williams was tagged for the loss for Tech, evening his record out at 1-1. Highlands collected two runs off the big lefthander in the third and another in the fourth before David Tarter went in to do the relief work. Tarter was tagged for a single run in the sixth. Tech collected only three hits off the winning pitcher, Humpert and no two of those came in the same inning. Foy Williams picked up

Tech's only walk in the first game in the first inning. Second baseman Ronnie Holly tagged Humpert for a single in the second, Cannon got a single in the fourth and Fielder collected his single in the seventh.

In the second game it was strictly a pitching duel until the fifth inning when Highlands managed to push across a single tally. No more runs crossed the plate until the top half of the seventh when the New Mexico club exploded for four big runs.

When the bottom half of the same inning started, it looked for

a while as if the Tech club was going to pull the same stunt, but the rally fell short.

Bob Fielder started the inning off with a single. He advanced on a fielder's choice and scored on a single by Jim Miller. Miller advanced on another single by Nash and scored on yet another single by Richard Perry.

But there the rally died as both Nash and Perry were stranded on the bases when Ronnie Ayers popped up to the catcher to end the game.

Right hander Frank Ray went

the distance for the Tech club and the defeat was his second against one win. Mayo was the winner for the New Mexico team.

The Raiders will get another chance at Highlands tomorrow at 1 p.m. when the two clubs meet for another doubleheader on the Tech diamond.

The two losses evened the Tech record up at four wins and four losses.

Football Schedule Released

The schedule for the 1964-65 football season for the Red Raiders has been released.

Two new teams spotlight the new schedule, with Tech tackling Mississippi State in the season opener at Jones Stadium on Sept. 19 and renewing an old rivalry with West Texas State on Nov. 7, also in Jones Stadium.

- 1964-65 FOOTBALL SCHEDULE**
- Sept. 19—Mississippi State (Lubbock) 7:30 p.m.
 - Sept. 26—Texas (Lubbock) 7:30 p.m.
 - Oct. 3—Texas A&M (College Station) 7:30 p.m.
 - Oct. 10—Texas Christian (Fort Worth) 7:30 p.m.
 - Oct. 17—Baylor (Waco) 8 p.m.
 - Oct. 24—Southern Methodist (Lubbock) 7:30 p.m. (Dad's Day)
 - Oct. 31—Rice (Houston) 2 p.m.
 - Nov. 7—West Texas (Lubbock) 7:30 p.m.
 - Nov. 14—Washington State (Lubbock) 2 p.m. (Homecoming)
 - Nov. 21—Arkansas (Lubbock) 2 p.m.

Exciting things are happening everywhere at Ford Motor Company!

After Ford's spectacular debut in last year's Indianapolis 500-mile race, many people wondered what we would come up with next. Well it's here! Ford Motor Company engineers have developed a brand-new V-8 especially for this year's competition at Indy. Although it's the same size as the 1963 version, this racing engine is a much "livelier" performer because of four overhead gear-driven camshafts and other refinements. Overall results of these revolutionary changes: an increase of at least 44 horses, delivering 420 hp or more at 8,000 rpm.

Ford engineers met many challenges in developing this engine. But this is just typical of the challenges being accepted every day by our employes . . . that's what makes Ford Motor Company such an exciting place to work. And not only in engineering. Exciting opportunities exist in manufacturing, finance, sales, marketing, industrial relations, purchasing, traffic, product planning, styling and research. All types of career opportunities for all types of graduates. If you're looking for an interesting career—look to Ford Motor Company. A growing company in a growing industry,

HIGHLANDS BOOSTS LEAD—As Tech second baseman Ronny Holley looks on, an unidentified New Mexico Highlands player rounds the base headed for another run in the seventh inning of the second game played between the two teams yesterday. Highlands exploded for four runs in the top half of the last stanza to take the game from the Raiders, 5-2.

King Adds Seniors To Workouts

Texas Tech's Red Raider gridgers went through their second day of practice after the spring vacation yesterday with the seniors held out of practice during the earlier sessions in the lineup again.

Coach J T King is still running the practice sessions in two parts in order to concentrate more on the younger players. "We meet with the older players first and run through fundamentals for a little while, then run the whole squad together for a short practice," King commented. "Then we send the older players in and concentrate on the individual problems of the younger players," he said.

The Raiders will not hold a scrimmage session today but will go through a regular workout starting at 2 p.m.

Next Tuesday, the Raiders will go back to their regular three-day-a-week training sessions, and will conclude the week with another white and red scrimmage at 2 p.m. April 11.

Practice for the spring will come to a close on April 18, when the team will divide into two squads for a final scrimmage at 7:30 p.m. in Jones Stadium.

King said that the squad still hadn't ironed out many of the kinks acquired during the holidays, but that the added presence of the seniors was allowing the coaches to formulate a better idea of the club's potential for next fall.

PENNANT FEVER

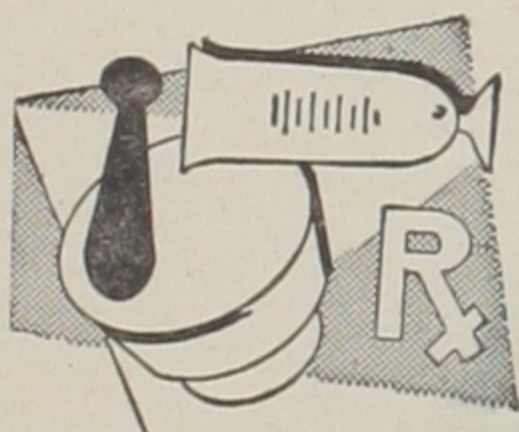

WEST PALM BEACH, Fla. (P) —Milwaukee Manager Bobby Bragan has a bad case of pennantitis. Loathe to admit it publicly, he firmly believes his Braves can win the National League championship provided his young pitchers come through.
