

Pat Hamilton, Mrs. Boze 'Outstanding'

AWS Honors Top Women

Patricia Hamilton, Cleburne senior, and Mrs. Nancy Boze, instructor in the English department, walked off with top honors at the annual Tech Women's Day banquet Tuesday night.

Miss Hamilton, home economics major, was named Woman of the Year, and Mrs. Boze was recognized as Faculty Woman of the Year.

A WOMAN OF distinction Award was presented to the guest speaker, Mrs. Amy Freeman Lee,

author and critic, who spoke on "The Texture of Our Days" to an audience of women faculty members and student leaders.

While maintaining a 3.1 grade point average, Miss Hamilton, a member of Alpha Chi Omega is listed in the Who's Who of American Colleges and Universities. She is president and candle editor of Phi Upsilon Omicron, a member of Mortar Board, and Student Council representative.

AN INSTRUCTOR at Tech the past six years, Mrs. Boze, who was also nominated last year, was cited for her "interest in young minds" and "ability to inspire."

Named Home Economist of the Year at Tech was Lynn McElroy, Lubbock junior.

SCHOLARSHIP awards for the coed with the highest academic standing in each hall were Lanelle Crawford, Casa Linda; Barbara Short, Barbara Sperberg and Sandra Wolfe, Doak Hall; Linda Badgett, and Nancy Taylor, Drane Hall; Emily Croom, Horn Hall; Linda McSpadden, Knapp Hall; Hazel Hale, Darla Henderson, Betty McFarren, Ann Orrick, Kathryn Osthoff, Lola Page, Jackolyn Pope and Ruth Ann Shelburne, Weeks Hall; Karen Kitzman, West Hall; Sandra Deering and Eugenia Odell, Women's No. 6; and Sandra Fry, Women's No. 7.

Sororities also cited coeds from within their ranks that stand high scholastically. They were Mary Alice Hill, Alpha Chi Omega; Miss Croom, Alpha Phi; Julie Kay Parkington, Chi Omega; Miss Deering and Nancy Taylor, Delta Delta Delta; Lola Page, Delta Gamma; Loys Ann Slaughter, Gamma Phi Beta.

OTHERS ARE Linda Badgett and Jan Justice, Kappa Alpha Theta; Miss Ostoff, Kappa Kappa Gamma; Nancy Hood and Miss Sperberg, Phi Mu; Miss Hale, Gay Haught, Miss McElroy, Miss McSpadden and Miss Odell, Pi Beta Phi; Tommie Allen, Sigma Kappa; and Betty McFarren, Zeta Tau Alpha.

Pi Beta Phi was recognized as the sorority with the highest scholastic average and Phi Mu was announced as the sorority with the most improved academic average.

IN SPECIAL awards, scholarship honors went to Katherine Cartwright, Town Girls; Miss Hale, Miss Orrick, Jane Anderson, Barbara Short and Kittie Porr, Alpha Lambda Delta; Audrey Bednarz, Chi Omega; Betty Jo White and Gay Gillespie, Delta Delta Delta; Sallie Speer, Intramurals; and Anita Brady and Ann Hemphill, Mortar Board.

Others cited and their organization are Jill Philbrick, Zeta Tau Alpha; and Ann Jenkins, Phi Gamma Nu.

WEEKS HALL representatives were presented with a trophy for the highest average of upperclassmen dormitories and Drane Hall was cited as the freshman hall which ranks highest academically.

City Panhellenic Scholarships were awarded to Roberta Snodgrass, Tommie Allen and Nancy Jones.

Presiding at the banquet were Carolyn Kelley, mistress of ceremonies, and Charlotte Dorsey was chairman of Women's Day.

WOMEN OF DISTINCTION — Pat Hamilton, left, Cleburne senior, was named as Tech Woman of the Year, and Mrs. Nancy Boze, English instructor, was awarded the Faculty Woman of the Year award, and Amy Freeman Lee, guest speaker and San Antonio author, lecturer and critic, was presented a Woman of Distinction Award by the Assn. of Women Students at the annual Women's Day banquet Tuesday night.

Staff Organizations Record Tech 'First'

Two faculty organizations will record another Tech "first" tonight as they join forces for the first time to present a symposium on academic freedom.

The organizations, Tech chapters of the American Assn. of University Professors and Texas Assn. of College Teachers, share the issues of academic freedom and tenure as their primary areas of interest.

Panel Discussion

The symposium's program will consist of a panel of three faculty members and one student discussing the various facets of academic freedom by a discussion open to the audience.

Panel members are Dr. Lawrence Graves, history professor; Dr. Robert Lawrence, assistant professor of government; Dr. Thadis Box, associate professor of agronomy; and James Cole, Student Council vice president. Dr. Lowell Blaisdell, history professor, will moderate the program.

History Of Growth

Dr. Graves will present a history of growth of academic freedom as well as its meaning in general terms. He will also point out the importance of academic freedom to a university.

Dr. Lawrence will compare academic freedom as involved in a private organization connected with the federal government and as involved in a university such as Tech.

A discussion centering around the different views concerning tenure and the need for academic freedom

in research will be presented by Dr. Box.

Student Views

Cole will present the place of academic freedom in three facets of the campus community: the administration, the faculty, and the student body. He will also point out several areas where he feels that each of these facets have failed and succeeded in regards to academic freedom.

Each panelist will have 10 minutes in which to present his topic before the floor will be opened to discussion.

"I am hopeful that during the discussion period we will have a free exchange of ideas," commented Dr. Blaisdell.

Symposium Objectives

Dr. Blaisdell listed the following as objectives for the symposium:

- "First, we feel that the symposium will allow people to let off steam. There has been a lot of ill feeling among faculty members and students in this particular area recently.

- "Also, AAUP and TACT want to bring themselves to the attention of the faculty so that it might know the organizations are working in their interest.

- "We would also like to try to show the public what academic freedom is and why it is important to a faculty."

The symposium will be at 7:30 p.m. today in the Ag Engineering Auditorium.

Miss Lubbock Contest Set

The 1964 Miss Lubbock contest is set for May 8. Tech coeds, along with Lubbock residents are eligible to enter.

Entry blanks are available at the Lubbock Jaycee office and from Phil Orman in the Journalism Bldg. Deadline for entries is midnight, May 2, according to Dr. Carl Brown, chairman.

Contestants must be between 18 and 27, single and must have never been married. They will be judged on poise, talent and beauty by five judges — two from out of town and three from Lubbock.

-Dishwasher Held- Worker Shot In Dormitory

By CECIL GREEN
Toreador Copy Editor

A Negro dishwasher for Women's Dorms 6 and 7 is being held by Lubbock Police in connection with the shooting of a fellow worker at the dorm kitchen yesterday morning.

Arthur Saddler is in the custody of the county sheriff, but no charges had been filed at the district attorney's office Tuesday afternoon.

Joe Pauda, a Latin American, is in serious condition at Lubbock's Methodist Hospital, but officials said no report of his condition would be released until 24 hours after treatment began at about 10:30 a.m. Tuesday.

Shooting An 'Accident'

Police officers said both Pauda and Saddler told them that the shooting was an accident.

Officers reported that Saddler had brought a .22 cal. revolver to work and left it in his locker, with the intention of pawning it later Tuesday afternoon.

According to officers' reports of Saddler's and Pauda's accounts, the two talked about the weapon and shortly after 10 a.m. decided to look at it in the kitchen storage room.

Story Pieced Together

Police then pieced together the story that Saddler held the gun out to Pauda, and, as the young Latin American took the weapon, it fired, striking him in the chest.

X-rays taken at the hospital showed that the bullet went through Pauda's right lung and lodged in his back, causing internal bleeding.

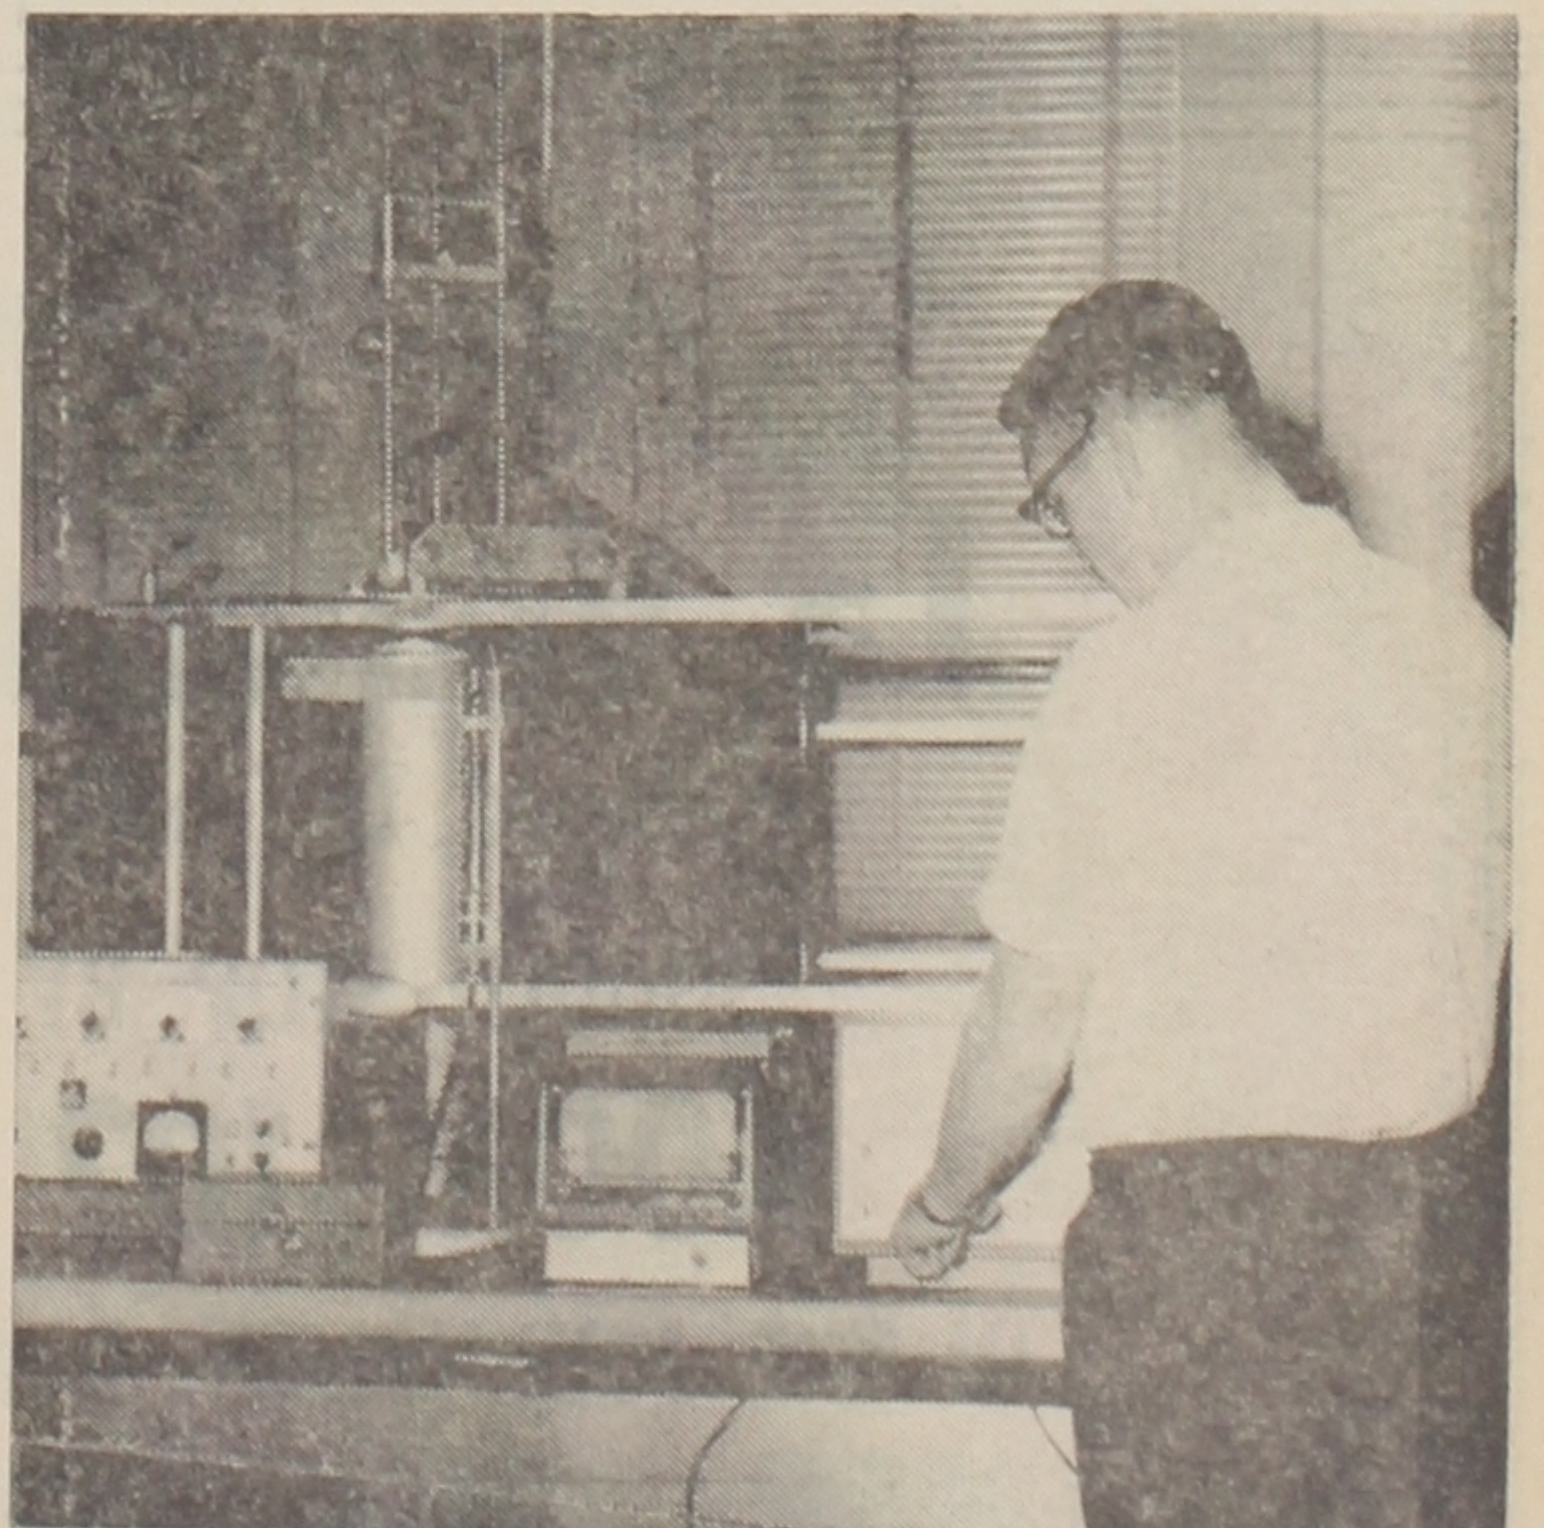

An unidentified eyewitness to the shooting ran yelling into the kitchen after the incident, disrupting the work of cooks who were preparing a noon luncheon for a Women's Day ceremony at the dorm.

Boy Shouts Wildly

"The first thing we knew about it (the shooting) was when the boy came running in shouting 'Come quick. Arthur just shot Little Joe.'" said a kitchen worker.

Someone then called the Traffic-Security Department and an ambulance, which quickly rushed Pauda to the Emergency Room at Methodist Hospital.

Both Pauda and Saddler have been employed by the college for about four months, and, according to informed sources at the dorm kitchen, there has been no trouble between the two and they have been friendly.

LAST MINUTE CHECKS — Jerry Knoll, Jr., engineering major from Fort Worth, makes last minute adjustments on Tech's subcritical training reactor. The reactor will be in operation during the 32nd Annual Science and Engineering Show to be held on campus Friday and Saturday.

Staff photo
LA VENTANA DEDICATION — La Ventana, Tech's yearbook, is dedicated this year to Oscar Kinchen, history professor. L-V staff members made the presentation in a surprise ceremony Saturday. Dr. Kinchen and Mrs. Kinchen are shown with the cover of "Tyme" magazine section which features a picture of Dr. Kinchen.

History Prof Honored By La Ventana

Dr. Oscar Arole Kinchen, professor of history, was honored in a surprise ceremony Saturday when he was named "Tech's Man of the Year" and received the 1964 La Ventana dedication.

Johnnie Lu Raborn and Travis Peterson, co-editors of La Ventana, unveiled the drawing of Dr. Kinchen which will be featured on the cover of Tyme magazine.

The dedication ceremony, which took place in a morning class, was witnessed by top college officials, representatives of student government, members of the history department and members of campus and Lubbock news media.

Addressing Dr. Kinchen, Peterson said, "Because of the scholarly example you have set for all to see, because of your service and loyalty to this institution and in acknowledgement of the tremendous impact you have had upon the thousands of students whose lives you have touched, we . . . consider it a great privilege . . . to dedicate the school yearbook to you."

Considered a specialist in many different fields of study, Dr. Kinchen is the author of several published articles and books on the history of Canada, the Southwest and the Confederacy. One of his best known books, published in 1958, is "Daredevils of the Confederacy."

The distinguished professor joined the Tech faculty in 1929. He is now a professor in the history department teaching courses in American, British and Canadian history.

Tech Morals

Tech Disapproves Student Drinking As Group Activity

By MIKE WALL and TOMMY SEAY
 Toreador Editors

"The college has no set rule on drinking for an individual, but does impose a fairly strict set of regulations on drinking as a group activity, such as might take place in fraternity or sorority systems."

Dr. James G. Allen, dean of student life at Texas Tech was airing his views on drinking on the Tech campus. He continued by saying that the reason social groups were ruled by fairly strict rules and the individual was not was social pressure.

DRINKING UP TO INDIVIDUAL

"A fraternity or sorority contains an atmosphere of high emotionalism," Allen continued. "We feel that the drinking question is an individual question and should be answered individually."

"Since the individual would necessarily feel pressure brought by his particular group, we feel that the organization should not influence a student unduly in making up his mind either way about drinking, and that is the reason for such stringent controls over organizational drinking."

LESS DRINKING NOW

Allen went on to state that he believed there was less drinking at Tech than there was even ten years ago.

Allen said that there were several reasons for his conclusion. One of his main points was the changing view of sophistication.

He said that the availability of alcoholic beverages may have in part contributed to this changing view. "When a person used to have to travel 80 miles there was a certain air of mystery and excitement about drinking. Now that he has to travel only eight miles, much of this excitement has diminished."

Allen went on to point out that increasing academic standards really didn't allow the dissipation caused by drinking that might have been the case in years past.

MORE OUTSIDE ACTIVITIES

He also mentioned the outside activities aspect for keeping Tech students from drinking. "Young people have a large potential to find constructive activities to occupy their time if they are given a chance. I think that Tech is becoming more and more aware of this fact and has made great strides in this area in the past few years," Allen concluded.

Going back to the individual problem, Allen said that each case brought to school officials' attention had to be considered in its own light. "I have found that there can be no hard and fast rules. We must of course take a hand when a person's drinking problem reaches the stage of finding its way into the eye of other public agencies, but each case must have an individual answer."

STUDENTS POLLED

Of 100 Tech students polled, about 60 per cent said that they drank "moderately," with approximately 40 per cent saying that they drank some before they came to college.

Approximately 65 per cent of male upperclassmen replied that they drank in college, but only five per cent drank what they considered to be immoderate amounts. About 30 per cent replied that they drank at least every weekend, but many of these stated that they usually imposed a self-set limit and did not consider the amount consumed to be immoderate.

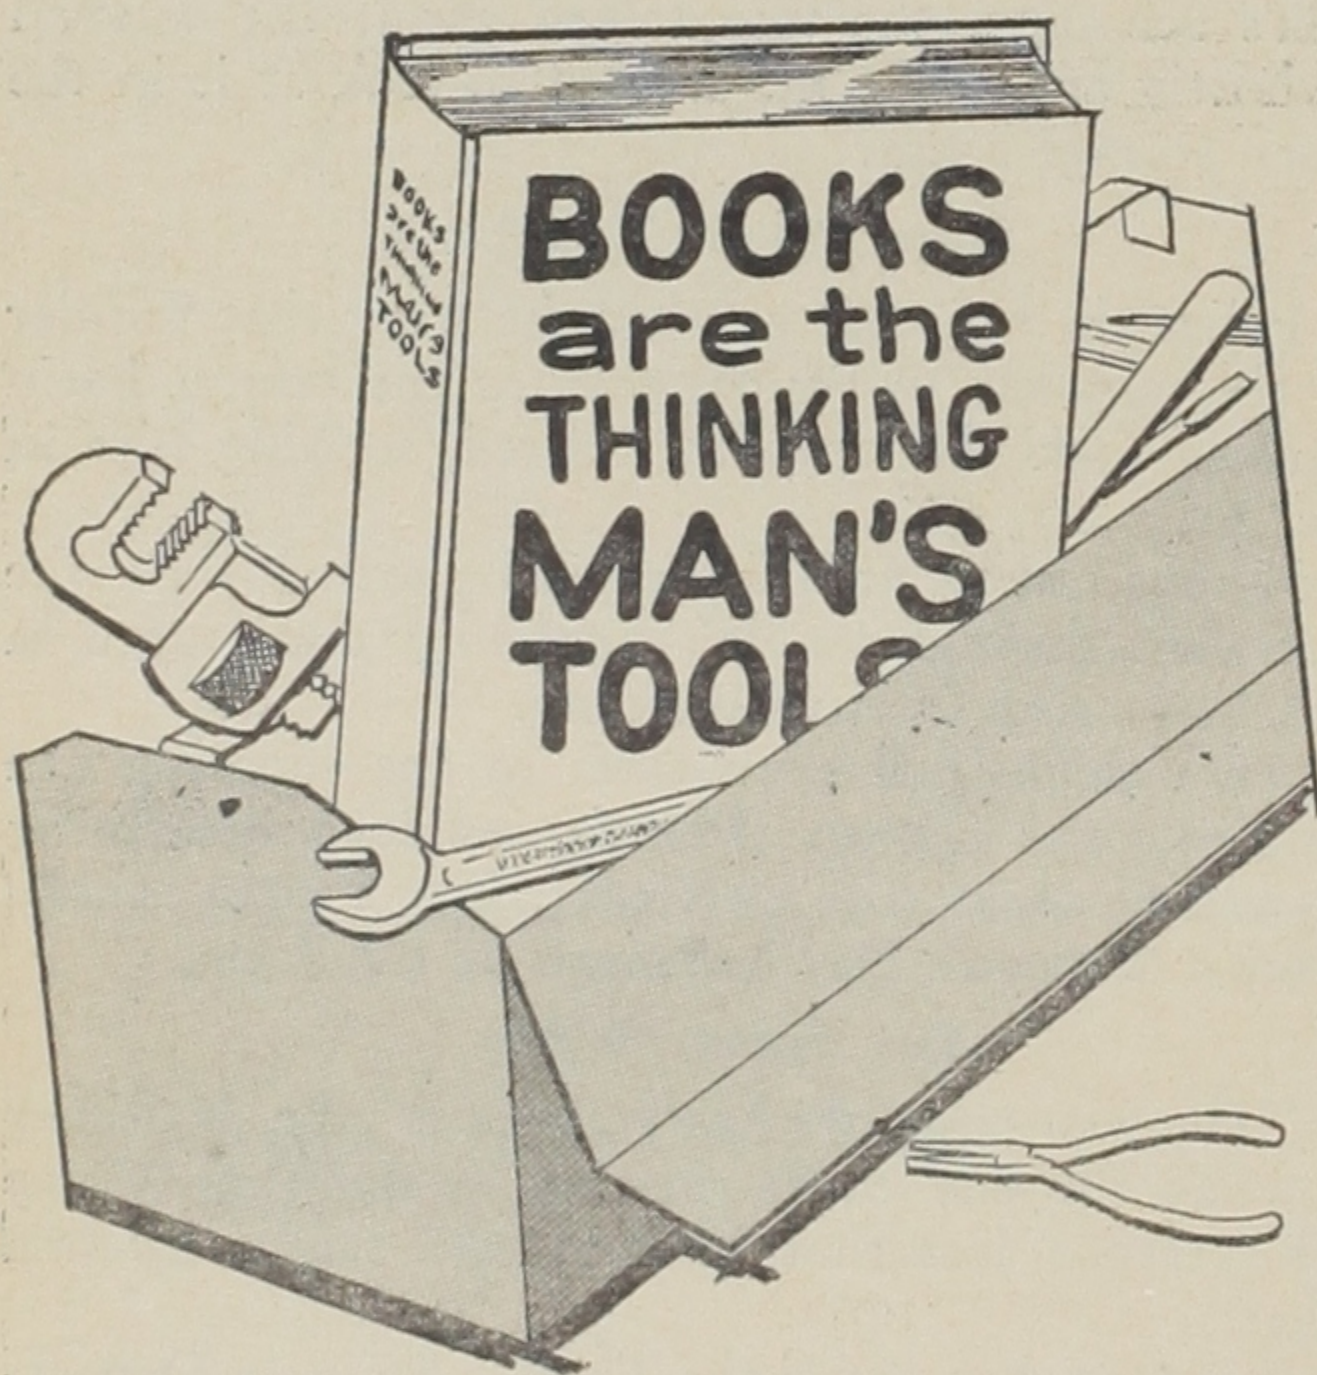

About 50 per cent of female upperclassmen interviewed said they drank at some social functions, but only 10 per cent said that they drank with any regularity. Approximately 20 per cent said that they had done any drinking before coming to college.

DRINKING AT TECH "AVERAGE"

These figures compare closely to a national poll conducted in 1961 by psychologists Gallup and Hill. According to their survey, 63 per cent of male college upperclassmen drank at least some, while 56 per cent of female college upperclassmen interviewed reported the same.

According to the same survey, 35 per cent of high school senior boys and 21 per cent of high school senior girls said that they drank at least "some" before enrolling in college.

Drinking at Tech then appears to be about "average" when compared to drinking habits of the nation's college students as a whole, not as serious as regarded by some students and adults and more serious than viewed by others.

DUDLEY, WILLIAMS COLLECT WINS

Raiders Sock ACC Wildcats, 15-5, 10-1

By MIKE WALL
Toreador Sports Editor

Coach Berl Huffman's Raider baseball team decided to make sure their recent losing streak was broken for sure yesterday afternoon and picked a hapless nine from Abilene Christian to prove their point.

The Raiders bombed the wildcats 15-5 in the first game of the double-header played on the varsity field, and came back in the nightcap to do the same thing again, this time collecting 10 runs to Abilene's single tally.

RIGHT - HANDED Morris (Moose) Dudley picked up the win for the Raiders in the first game, going the distance for the Tech team. Lefthander Kippy Williams was the winner for the Raiders in the second game, also going all the way.

The Raiders sewed up the first game in the first inning when ten Tech batters hit starting pitcher

Terry Smith of the Wildcats for seven hits and six runs.

LEFTFIELDER Ronnie Ayers lead off the Tech assault with a triple. He was driven in with a single by second baseman Foy Williams. Then the real trouble for the ACC crew began as catcher Doug Cannon, rightfielder Bob Fielder and Dudley all collected doubles.

The Wildcats finally got another Raider to fly out for the second out of the long inning, but the out only seemed to make the Raiders hit harder as first baseman John Dudley connected with a roundtripper in his first time at the plate, and third sacker Richard Perry went one base less for a triple.

IN ORDER TO make sure the lead was secure, the Tech team added two bonus runs in the second inning, three in the third, three in the fourth and one in the sixth.

The Wildcats collected two runs in both the second and third innings

and added a single run in the top of the seventh.

THE SECOND game started out like a repeat of the first, except worse, for the Wildcats.

Centerfielder Jim Miller started the first inning off for the Raiders with a ground-rule double. Leftfielder Ronnie Ayers followed with a walk before shortstop Foy Williams lined-out to second.

BUT CATCHER Doug Cannon kept up the double tradition started in the opening game with a little blooper that dropped in between the second baseman and centerfielder.

Fielder and third baseman Richard Perry both kept up the tradition with doubles into the same centerfield slot.

Redwine Wins Cross-Country

Allen Redwine took first place honors in the annual intramural cross-country run last week with a time of 9:18.2.

Phil Moser took second place with a 9:21.8, while Billy Allison was third in 9:22.3 and Eldon Mongold fourth with a 13-flat clocking.

H. L. Daniels lifted 975 pounds for 685.79 points for fourth place; Phil Botik lifted 850 pounds for 659.60 points and fifth place; Frank Barker lifted 845 pounds for 655.72 points and sixth place; while Phil Russ lifted 675 pounds for 610.87 points and seventh place.

Points in the event were awarded on a weight lifted to the individual's weight ratio.

Vick's record lift of 290 in the bench press bettered his own record of 280 set last year.

Vick Sets IM Record In Weightlifting Contest

Dale Vick set a new intramural record of 290 pounds in the bench press on his way to taking first place in the intramural odd-lift weightlifting contest last week.

Vick lifted a total of 1,080 pounds in the bench press, squat and dead lift to collect 766.80 points, which was good enough for the blue ribbon.

Second place in the competition went to Mickey Hawkins, who lifted a total of 1,010 pounds for 743.36 points, and third place went to Doug Young who lifted 1,050 pounds for 728.70 points.
