

Mrs. Houser In Talk Before Music Club

Age Of Music In Foreign Places Is Discussed

Speaking on the beginning of music in China and India and other foreign places, Mrs. Ann Gibson Houser spoke yesterday before the Music Study club on "How Old Is Music?"

She discussed Hindustani, Mexico, Peru, Persia and Arabia in the talk on music.

Bob Whipple spoke on ten symphonic masterpieces being offered during Music Appreciation Week by The Herald.

Mr. and Mrs. J. D. Hall were elected to the choral club membership and Mrs. J. H. Parrott was named corresponding secretary.

Pull the Trigger on Lazy Bowels, and Also Pepsin-ize Stomach!

When constipation brings on acid indigestion, bloating, dizzy spells, gas, coated tongue, sour taste, and bad breath, your stomach is probably loaded up with certain undigested food and your bowels don't move. So you need both Pepsin to help break up that rich undigested food in your stomach, and Laxative Senna to pull the trigger on those lazy bowels. So be sure your laxative also contains Pepsin. Take Dr. Caldwell's Laxative, because its Syrup Pepsin helps you gain that wonderful stomach comfort, while the Laxative Senna moves your bowels. Tests prove the power of Pepsin to dissolve those lumps of undigested protein food which may linger in your stomach, to cause belching, gastric acidity and nausea. This is how Pepsinizing your stomach helps relieve it of such distress. At the same time this medicine wakes up lazy nerves and muscles in your bowels to relieve your constipation. So see how much better you feel by taking the laxative that also puts Pepsin to work on that stomach discomfort, too. Even finicky children love to taste this pleasant family laxative. Buy Dr. Caldwell's Laxative—Senna with Syrup Pepsin at your druggist today!

Yearbooks were distributed to members.

Hints To Save Wear, Tear And Loss Of Energy In The Kitchen

Household hints to aid the housewife in saving time, saving worry, and adding to efficiency were brought out by Mrs. Arreva D. French, who yesterday finished the three-day Happy Kitchen Cooking School sponsored by The Herald and held at the city auditorium.

Some of these include:

If paper sticks to package of raisins, place in oven for few minutes and the wrapping may be removed easily. It will also cause the raisins to separate and fall apart.

As a little baking powder to the flour in which you roll your chicken or other meats before frying, this insures a fine crisp outer covering.

Christmas suggestion: Over your cauliflower pour tomato cheese sauce which gives it the red color of Christmas.

To prevent vegetables, macaroni or rice from boiling over, add a small piece of butter to the water.

It is a good idea to use newspaper and rub all grease from the kitchen range while still hot.

For a "dark" chocolate cake, use dark brown sugar and add half a teaspoon of powdered cloves.

Leftover rice or macaroni mixed with cooked meat, makes a good filling for green peppers or tomatoes. The latter need to be cooked only twenty minutes in a moderate oven.

After peeling onions, rub celery salt over the hands before washing and the odor will disappear.

Fruit cookies are made more delicious by adding chopped walnuts to the fruit filling.

Place biscuit or onion on top of cabbage and the odor will not escape the boiler.

Artichokes for salads have a lovely glaze and color if cooked in boiling salted water to which one tablespoon of salad oil has been added.

Attractive garnishes may be made of pineapple rings by dipping edges in paprika.

To prevent pie crust, cookies and other dough from sticking, cover rolling pin with child's white stocking, from which the foot has been removed. Rub flour well into stocking.

If cream refuses to whip, add a little salt.

Onion juice without tears and trouble. Sprinkle salt on surface of cut onion then scrape with spoon to extract juice.

Enjoy Better Light Tonight

● Yes, you can enjoy tonight the benefits of Better Light in your home. Here are three easy and inexpensive ways to improve your lighting, to make seeing easier and to make your home more attractive:

1. Select a supply of lamp bulbs of sufficient size at your neighborhood store and put them in reading lamps and in other fixtures. You'll be agreeably surprised by the change a little more light will make.
2. Visit local stores which sell lamps and select a few of the inexpensive plastic lighting units which screw into light sockets. They provide a diffused, semi-indirect illumination that is easy on the eyes.
3. Place two or three portable floor and table lamps in the living room for comfortable reading and use pinned-up wall lamps in the bedroom and other rooms to provide increased illumination and also to make rooms more attractive.

Use any or all of these suggestions on how to improve the appearance of your home. A few minutes time and a few dollars are all that is required to Enjoy Better Light Tonight.

9th Infantry In Surprise Attack

BALTIMORE, Oct. 25 (AP)—Dumping over highways in an encircling movement of 100 miles which took their speedy motorized column far to the south through Fort Davis, a battalion of the 9th Infantry and battery of field artillery struck far in the rear of the first cavalry before daylight today.

The surprise climaxed a hectic night in which both cavalrymen and foot soldiers went without sleep as their commanders sought to outguess each other.

Major General Robert M. Danford, chief of artillery, Major General John K. Herr, chief of cavalry, and Brigadier General Frank M. Andrews of the general staff, who have been observing the annual maneuvers of the cavalry here, returned to Washington this morning by airplane.

Grants Increased Allowables To Two Fields

AUSTIN, Oct. 25 (AP)—The railroad commission has granted increased oil production allowances to the Farr sand of the Benavides field, and the Reynolds field, Jim Wells county.

The Reynolds pool allowable was boosted from 870 barrels to 1,872 barrels daily, effective Oct. 22. The Farr sand allowable was raised about 800 barrels to 3,041 barrels per day, effective Oct. 19.

A hearing was set Nov. 9 on whether the order permitting recycling of gas from gas wells in the Long Lake field, Anderson and Freestone counties, by the Tidewater Associated—Seaboard Oil company should be amended or rescinded.

TO BOOST ARMBANDS BERLIN, Oct. 25 (AP)—The first public announcement here of the sinking of the German Patrol boat Eise 7 off the Danish coast October 21 asserted today that possibly 50 of the crew of 85 went down with the ship, which struck a mine in a German mine field.

AN ANALYSIS OF THE WAR DEVELOPMENTS

By DEWITT MACKENZIE The greatest danger to the Anglo-French allies thus far developed lies in the Nazi assault on merchant ships carrying war supplies and food.

The extent of this menace has been emphasized by the increase in the number of sinkings of allied tonnage (chiefly British) in the past few days.

Only this morning a German official spokesman intimated that the full cost to British shipping hasn't yet been told.

To get the entire picture one mustn't overlook the renewed threat from Berlin of wholesale bombing of England. This presumably would be calculated to include massed attacks on shipping tied up in ports.

All this, of course, is the Nazi answer to the allied blockade which also is aimed at squeezing Germany into submission.

The terrible capabilities of the submarine were fully demonstrated in the last upheaval. During that conflict German U-boats sank a total of 5,406 allied and neutral ships (11,129,000 gross tons), and in the process lost 203 under-water boats, which are comparatively easy to replace.

in the Russian note replying to the British notification of contraband lists.

The Russian note might have added that the German submarine campaign is a piece of the same cloth, so far as regards hardships on civilians.

Obviously, however high may be the morals of the combatants and whatever be the exact purpose of their operations against shipping, those operations are bound to bring hunger to women and children if successful and carried out to a finality.

That gives me a chance to raise the question—purely academic, of course—of whether it is less painful for a German or French or English youngster to die of starvation than by bombing. Or better it is moral to cut civilians off from food but an atrocity to bomb them.

Women Invade The Diplomatic Corps

WASHINGTON, Oct. 25 (AP)—The capital's all-male diplomatic corps has been invaded by two pretty Latin American girls in their early 30's, probably the first women to be accredited as full-fledged diplomats to the United States government.

Senorita Alicia Vieira has just become secretary of the Chilean embassy, and nearby at the Panamanian embassy Senorita Anita Ramirez-Duque is tackling her job as attaché.

They soon will be joined by Senorita Esperanza Solis Aguilar, middle-aged widow of a former Cuban congressman, who has been appointed Cuban commercial attaché.

U.S. Merchandise Imports Boosted

WASHINGTON, Oct. 25 (AP)—The commerce department said today heavy withdrawal of sugar, whisky, wine, wool, zinc and manganese from warehouses boosted United States merchandise import figures in September to the highest for any month this year.

The merchandise, brought into this country in previous months, had been locked in warehouses pending sales to American buyers.

September imports, including withdrawals from warehouses totaled \$199,453,000, compared with \$189,338,000 in August and \$172,909,000 in September, 1938.

For the first 9 months of the year, exports totaled \$2,119,894,000 and imports \$1,820,646,000.

Attorney, Under Pressure, Resigns

NEW ORLEANS, Oct. 25 (AP)—Charles A. Byrne, defiant parish district attorney, resigned suddenly today and was replaced by his assistant Niels F. Hertz who immediately moved dismissal of the court hearing here in which charges of a widespread tax reduction racket in New Orleans were being investigated.

Byrne finally yielded quietly to gubernatorial pressure, thus completing an involved legal purge begun Monday by Governor Earl K. Long when he forcefully removed Attorney General David M. Ellison and Assistant Attorney General James O'Connor in a move interpreted by observers as meant to stop the hearing here.

Immediately after he had presented his commission signed by Governor Long, Hertz moved dismissal of the three judge court hearing of charges against Byrne growing out of a grand juror "revolt" against him.

Post-Debs Plan For A Wiener Roast On Wednesday

Blue and gold were the club colors selected Wednesday when the Post-Deb group met in the home of Rosemary Lassiter.

A committee to select a great was appointed and others were named to be in charge of the Christmas dance. Next Wednesday the club voted to hold a wiener roast for the Sub Deb club and reveal big eaters.

Others present were Eloise Kuykendall, Mrs. James Edwards, Joelle Tompkins, Bobbie Taylor, Clarinda Mary Sanders, Mrs. Roy Bruce, Mrs. Jim Waddie, Wanda McQuain and Maurine Rows.

RULES AND CONDITIONS GOVERNING THIS OFFER

Please Read Below Carefully

To obtain the 10 symphonies and symphonic masterpieces and the electric Record Player to be distributed in this Music Appreciation Plan, proceed as follows:

First, fill in and mail the Reservation Form printed in the lower right corner of this page. The purpose of this form is not to obligate you in any way but to enable us to estimate the quantity of records and Record Players to have on hand to meet the demand.

Each day during this music appreciation offer we will publish a reminder coupon setting forth the date on which each symphony will be ready. You can get your first symphony (Franz Schubert's No. 8 in B Minor) on November 4th. Subsequent symphonies will be released one every two weeks thereafter. Watch the reminder coupon which will be published daily. It is not necessary for you to clip the coupons in order to get your records or Record Players.

You obtain each symphony, which consists of three or four double-faced 12-inch records, for a payment of \$1.49. This payment is not for each record but for all THREE

or FOUR records. Symphonies which consist of FIVE double-faced 12-inch records require a payment of \$1.98 for the entire symphony of all FIVE records. The Cesar Franck Symphony in D Minor, on account of its great length, is divided into two units, each unit consisting of three double-faced 12-inch records and the cost of each unit is \$1.49, the same as for any other three-record group. A quantity of de luxe records, known as Philharmonic Transcriptions, enclosed in beautiful record albums which have been designed individually for each particular symphony, are available at a slightly higher price. After you have obtained all 10 of the symphonies, you can secure the Electric Record Player for a payment of \$3. If you want to get your Record Player earlier, you can

do so—you can get it with your first group of records, your second, third, or any other group, merely by making a deposit of \$5. After you have obtained all of the 10 symphonies, \$2 will be returned to you. Thus, whether you get your Record Player before or after you have obtained all of the symphonies, the cost to you is only \$3. For those who want a more elaborate Record Player, a Symphonic De Luxe Model, enclosed in a walnut case, is available at a higher price. First, mail the Reservation Form to assist us in our distribution problems. Please check whether or not you want the Record Player reserved. We will acknowledge your reservation by mail. Filling in and mailing the reservation entails no obligation whatever on your part.

Labor Truce Is Unlikely

WASHINGTON, Oct. 26 (AP)—Proposals for peace between the AFL and the CIO appear to be getting little attention from labor leaders back in the capital after their rival conventions in Cincinnati and San Francisco.

Their energies are being poured into other channels — lawsuits, grand jury investigations, and bigger organizing campaigns — and the problem of a labor truce seems to be awaiting some new move by the Roosevelt administration.

The AFL leaders' chief concern now is a federal court injunction which has tied up the federation's basic powers to settle jurisdictional matters. It also is interested in the government's study of purported restraints of trade in the building industry through grand juries in eight or 10 cities.

On the other side of the capital, the CIO in its freshly-painted headquarters is laying plans for a more energetic membership drive in conformity with John L. Lewis' advice to the CIO convention — that "we must not give ourselves too closely to the bottom of our swivel chairs."

Nation On Eve Of Scientific Era, Says Geo. Carver

NEW YORK, Oct. 26 (AP)—George Washington Carver, noted negro scientist, believes America is on the eve of the "greatest scientific development it has ever known."

"The peace which will come after this war," he told the New York Herald Tribune forum on urgent problems, "will be laden with many new scientific possibilities, growing out of the destructive ravages of the conflict."

Carver, chemistry professor at Tuskegee institute, said the ideal chemist of the future would be an investigator, "one who dares to think and work with an independent freedom not permissible heretofore, unfolding before our very eyes a veritable mystic maze of new and useful products from material almost or quite beneath our feet and now considered of little or no value."

Explanations, Not Propaganda, Says British Ambassador

NEW YORK, Oct. 26 (AP)—Great Britain has decided against conducting a propaganda campaign in the United States, says the Marquess of Lothian, British ambassador to the United States.

But, he told the Pilgrims' Society last night, Great Britain feels that it has the right "to explain to you and all other democracies what we are doing and why we are doing it; the judgment is your inalienable right."

Trout A Servant

DENVER, Oct. 26 (AP)—The mountain trout is going to become a municipal servant.

George J. Turre, Denver water department chemist, discovered trout are susceptible to chlorine. He suggested trout pools be established at five Denver filter plants to indicate when too much of the germ-destroying gas has been used.

George F. Hughes, department manager, approved the idea.

A Church Benefit

WHEATLAND, Ind., Oct. 26 (AP)—Farmer Roy Prather told women of the Wheatland Methodist church, "harvest it yourselves and I'll give you a field of corn."

So 10 of them went into the cornfield and, in 90 minutes, husked over 30 bushels.

The Rev. J. S. Kerr hauled the corn to an elevator and sold it for \$15.25, to help pay off the church debt.

Profits Increased

KANSAS CITY, Oct. 26 (AP)—Transcontinental and Western Air, Inc., said in its quarterly report today that net profits for the period ending Sept. 30 totaled \$143,474, an increase of \$134,500 over the preceding quarter.

Jack Frye, president, said "the increase is due primarily to the great increase in passenger revenue."

46 THOUGHT LOST

ATHENS, Oct. 26 (AP)—Forty persons were believed drowned today when the 250-ton Greek coastal steamer Amvrakia struck a reef and sank near Volo.

COURT SIDES WITH POVERTY IN CHILD ADOPTION MATTER

WOONSOCKET, R. I., Oct. 26 (AP)—After hearing Judge Charles Walsh declare a child "may be better off overcoming the obstacles in a poor home than it would be in the home of a millionaire," a jury gave Mrs. Jeanette E. Webb, 65, the right to adopt a little girl left on her doorstep eight years ago.

The Rhode Island society for the prevention of cruelty to children opposed the petition, arguing that Mrs. Webb was unable to give proper care to the child because of her age and financial status.

New Surgery Method Gives Relief From Heart Involvement

CHICAGO, Oct. 26 (AP)—A new method of surgery appearing to give the first "uniformly complete relief" from angina pectoris, which causes pain in the heart region, was announced today in the Journal of the American Medical Association.

The operation, reported by Dr. Rupert B. Raney of Los Angeles, requires an incision in the upper part of the back along the spinal column and cutting the nerves which carry impulses resulting in the painful heart spasms.

Dr. Raney disclosed he had used this surgery on 11 patients, and that "all have obtained complete relief."

Railroad Problem Easing Under Boom, Traffic Up Sharply

NEW YORK, Oct. 26 (AP)—The business boom may remove from Uncle Sam's doorstep one of the biggest depression problems—the railroads.

Industrial expansion is helping the industry the way it wanted to be helped. Traffic has increased to the highest figures in nine years and some roads for the first time since 1927 are operating in the black again.

Wall Street rail statisticians estimated today net operating income

of the Class 1 carriers for October would approach \$100,000,000 to make the best showing for the month since 1930.

The September-October rise in freight movement, it was said, has been one of the most rapid in the history of the industry.

Many roads are taking advantage of improvement in revenues to buy new equipment, repair old and carry out deferred maintenance expenditures on tracks and other property. This extra spending by the railroads has been felt far and wide by suppliers of materials, manufacturers of equipment and by men who have returned to payroll.

FROM YOUR GROCER
A New Policy ...
EFFECTIVE NOVEMBER 1st

Beginning Nov. 1, Dairyland's only retail Milk outlets will be through your grocer. We feel that this new system will be of greater advantage and convenience to all concerned and has been decided upon as the best way to serve you because of the following reasons which, we believe, will meet with the hearty approval of housewife, home owner and consumer:

- No noise to wake you up in the morning.
- No stolen milk or bottles.
- Easy to cut down or increase order; no notes to write.
- No collector to call.
- Eliminates one bill to pay each month.
- You get colder milk. (Only 5 to 10 minutes from grocery store to your home. On retail routes sometimes hours pass before your milk gets to refrigerator).
- No milk man to call when you leave and return to the city.
- Milk does not set out in dust or where cats and dogs can bother it.
- No milk man to track across your lawn or flower.
- Milk purchased at the store is just as fresh as if it came off the trucks... it is changed in stores every day.

These are but a few of the advantages in buying DAIRYLAND MILK from your grocer... and below we list the Big Spring Stores served by this Creamery:

Field Day Program Slated At Midland On November 7th

Several Howard county ranchers are expected to take part in the field day program at Midland on Nov. 7 when water conservation work and contour furrowing of pasture land in Midland county will be inspected.

Among extension service specialists who will be on hand for the gathering are Ray Dickson, manager of the Spur station; R. R. Lancaster, pasture specialist; M. R. Bentley, extension engineer; C. Hohn, soil conservation specialist;

Fred Reynolds, AAA range program, and Howard Kingsbury, AAA state committeeman.

In addition to viewing demonstrations in conservation work, those attending will get to see special machinery for contouring in operation. The machine employs a technique known as basin listing, that is small dams are thrown up at 10-foot intervals in furrows to make them more effective where rows are not on exact contour. Demonstrations of growth of grass on barren spots also will be pointed out.

A barbecue will be held in connection with the event.

TRAINING SCHOOL FOR SCOUT LEADERS TO BEGIN NOV. 6

A training school for scout leaders, the first in several seasons, is scheduled for Nov. 6. Ted O. Groehl, chairman of the district training school, said Thursday. The course to be offered has not been chosen definitely, but indications are that it will be on "troop operations." This is a streamlined course based on the old specialization course, "The Principles of Scoutmastership."

Scoutmasters, assistants, committeemen and others interested in the program will be urged to par-

ticipate in the training period. It will run either three nights a week for two weeks or two nights a week for three weeks, said Groehl.

LIFE INSURANCE AS A GREAT PARTNERSHIP IS DESCRIBED IN RADIO TALK BY BROOKS

Life insurance is the greatest partnership the world has ever seen, Jan. T. Brooks said Wednesday in a radio address over KBST sponsored by the Big Spring Association of Life Underwriters as part of the program for the Annual Message of Life Insurance, which is being observed this week throughout the nation.

The 64,000,000 men, women and children who hold life insurance policies are all partners in the business of making their future secure, the speaker said.

"Life insurance is like a big factory. It has a product that all of us need and most of us purchase as much of it as we can," said Brooks. "This product is called security. You put in the raw material—dollars—every time you pay a premium. At the other end comes out security. Maybe it's in the form of continuing income for your family after your death, or perhaps it's to provide you with something to live on when you get to be an old man."

What Insurance Will Do

"Life insurance will educate your children, bury you, keep you alive, feed you, do whatever else you want it to do, provided you make the proper use of it," the speaker continued. "Millions of us approve the principle of life insurance; the companies that are the trustees of your funds have done a brilliant, responsible job of management. But we still don't know as much about it as we should. When you go into a store and buy a cake of toilet soap you know that it's for washing your face and hands, and will last you just so long. If you want soap for laundering or washing, you get another kind. That's because through the years we have learned what kind of soap we need to do a particular kind of a job. And we don't bother to know how the soap is made. We know that all soap is generally good; all else we have to know is first, whether we want it for face, dish or clothes washing and second, how to use it when we get it."

"Well, it's that way with life insurance. It offers you an opportunity to make your future secure. If you do your part, it does its part. Over a hundred years of performance in this country through depression, war and epidemic have amply proved that fact."

Brooks discussed the three general kinds of insurance, one, to provide protection for others; second, to provide protection for oneself; third, to provide protection for others, plus protection for oneself. Each type has a definite use, he pointed out, explaining how they should be used. He also pointed out many other types of policies.

Agent's Task

Because there are so many different types of policies for different purposes, the speaker declared, the job of the agent has become one of serving and giving advice as well as selling. "It's his job to advise you on the best way to make your future secure. He has been educated to do these things; to know what family needs are today and what they will be in the future; to know what program for insuring them to the family pocketbook."

Future delivery of the \$110,000,000,000 of life insurance in force in the country today, said Brooks, is guaranteed by nearly \$28,000,000,000 of reserves which the companies, acting as trustees for the policyholders, have invested in U. S. state and municipal bonds; real estate and basic industry throughout the nation.

"This is what life insurance is: You want to protect your dependents if you die too soon; yourself if you live too long," he said. "You go to the agent, a dealer in self-help, and he helps you plan the security you want. You put in your dollars and the life insurance company takes these dollars, sends them out to work and multiply for the good of the entire country until the time comes to give you what you have worked for—security."

Talks To Students

Another talk in connection with the insurance observance this week was one given Thursday before high school students by Lis Coffey, who discussed life insurance and the part it plays in making the individual's life secure. The work of the actuary, "the man who can tell you what your future will be in dollars and cents" also was discussed.

Pointing out that life insurance payments in 1938 were two and one-half billion dollars, or two and one-half times the amount spent for national defense last year, Coffey said:

"You see, life insurance is based on three things: mortality, interest

year the amount for claims would increase. In 30 years—with half the original group still alive—the amount for claims would increase. In 30 years—with half the original group still alive—the amount would be practically prohibitive.

"So the actuaries have worked out what they call a level premium. That means that after you take out your policy the amount of your premium is the same, year after year.

"In the first few years this level premium is more than is necessary to take care of the death claims. So the money left over is used to build up a reserve on the policy. The companies take this money and invest it in safe securities, in government bonds, mortgages and sound industry throughout the nation, so that interest will make the reserves even larger. Then, in later years, when the amount they need to pay death claims is larger than the amount they collect in premiums, the reserve makes up the difference. That's the fundamental basis of life insurance.

"So there isn't any magic to it. It's just plain arithmetic. The tremendous amount of money that is paid out each year by the insurance companies is proof that it works."

Mortality Rate

"But, by knowing how many deaths to expect each year—this is called the mortality rate—the actuaries know how much will have to be on hand to pay the policies those persons had.

"They could, of course, just add the expenses of doing business to that amount, divide the total by the number of persons insured and set that as the premium, or amount to be paid in that year by every person.

"In the first year, this being a group aged 30, that wouldn't be much. But the next year, there would be more deaths and fewer persons left to make up the amount necessary to pay claims. Each

DISMISSAL MOTIONS IN TRUST CASES STUDIED BY JUDGE

SOUTH BEND, Ind., Oct. 26 (AP)—Federal Judge Walter C. Lindley of Danville, Ill., had under advisement today a motion to dismiss charges against the 17 individual defendants in the General Motors anti-trust case, being tried here.

The 17 are officials of the General Motors corporation and three subsidiaries. Individuals and corporations are charged with plotting to force GM dealers to finance installment sales of automobiles through factory-controlled credit firms.

The motion was filed yesterday after the government rested its case.

OLD LAW EMPLOYED
