

# Raiders Invade Wildcat Territory

by RALPH W. CARPENTER  
Toreador Sports Editor  
WHO—Texas Tech — Arizona  
WHERE—Tucson, Ariz.  
WHEN—8 p.m.

TUCSON, ARIZ., Nov. 7.—Texas Tech's Red Raiders hope to tame a Wildcat — Arizona variety — tonight when they clash with the University of Arizona at 8.

DeWitt Weaver's crew will be seeking their fourth victory of the 1959 football campaign. They will be hoping to rebound from four straight defeats.

**THE WILDCATS** will be after their third victory. The Arizona lads have dropped four contests. Their latest defeat came at the hands of Utah last week, 54-6.

Only once in 20 games between the schools has the Arizona crew been able to beat the Raiders. Their last victory over Tech came in 1935 when they escaped with a narrow 7-6 margin.

The game will mark an end to the series started in 1932. Tech will drop the Wildcats from its schedule when it enters South-west Conference competition next year.

**IN THE PHYSICAL** department, the Raiders should be stronger than any time since the Baylor game. Dan Gurley, split-half-back, who hasn't started since the Waco defeat, will be ready for action.

Arizona coach Jim LaRue, making his first effort at the Arizona school, knows the Tech crew from previous experience. He was an assistant coach at Houston and SMU.

LaRue has installed the Split T attack with flankers. He ditched the wild offense that former coach Ed Doherty won only three games with last season. He has a flock of fast backs and a couple of good passers to throw at the opposition this season.

**WALTER MINCE**, a junior college transfer who stands 6-2 and tips the scales at 185, is the Wildcats' best mail-carrier. Mince is an all-around performer, running hard, blocking well and a better than average pass receiver.

Minner Williams, fleet back who did well against the Raiders last season, returns to try again. Williams stands 5-7 and weighs 162 pounds. He will receive aid from Warren Livingston, 170 pounder who moves like the wind. This combination gives the Wildcats a definite go-for-the-downs threat.

The Arizona aerial game will be directed by two quarterbacks, Jim Geist, who stands 6-2 and weighs 190 pounds, and Ray Shackelford, a lad who stands 5-11 and weighs 170. Both can throw the short or long pass with ease.

**THE RAIDERS** will counter with two passers of their own. Ken Talkington, 160 pound senior

from Tyler, will probably get the starting role. He will be assisted in the play-calling department by Glen Amerson, a 170 pound junior from Munday.

The Wildcat line is built around Ted Urness, 6-2, 205 pound guard. He is considered to be the roughest man in the forward wall.

The tackles rate well too, they are headed by letterman Tony Matz, a 205 pounder, and Billy Christensen, a 200 pounder.

**ARIZONA** also boasts a pair of fine ends, Willie Peete, a three-letter winner who weighs 190 leads the way, Gary Cropper, a

## TOREADOR

THE TEXAS TECHNOLOGICAL COLLEGE

Vol. 35

Lubbock, Texas, Saturday, November 7, 1959

No. 22

# Lectures Begin Monday

## 'Night Club' To Choose Tech's 'Tab'

Texas Tech's Most Handsome Man will be chosen tonight at Theta Sigma Phi's, women's journalism fraternity, 21st annual Club Scarlet at 8 in the Rec Hall.

**THE SEVEN** finalists and their sponsors are Bill Blackburn, Men's No. 8; Wiley Doran, Kappa Kappa Gamma; Todd Henson, Delta Delta Delta; Floyd (Brownie) Higgs, Phi Mu; Delbert Shirey, Alpha Chi Omega; Winston Ulmer, Kappa Sigma; and Audris Zidermanis, Major-Minor.

Tickets to the event, which cost \$1 per person, also serve as ballots for the owner's favorite candidate.

Dancing begins at 8; the floor show at 9 with Phi Beta Phi and "Tazz-Ma-Tazz" followed by Sigma Chi and "Nervous Nardis" and Sigma Kappa's "Calypso." Next is Phi Mu's "Mother's March for Morals"; Then a musical number by Phi Gamma Delta's Suvans.

**FOLLOWING THE** intermission at which the Most Handsome Man will be announced will be Alpha Chi Omega's "Calendar Coed"; Delta Tau Delta and "This Is Your Day"; Kappa Alpha Theta's "Vaudeville"; Alpha Phi's "This Is College"; and a musical number by Kappa Kappa Gamma.

Judges for the floor show skits are Adrian Vaughan, director of public information; W. E. Garets, head of the journalism department; and Dr. David Bowers, associate professor of journalism.

Proceeds from Club Scarlet finance a delegate to Theta Sigma Phi's national convention.

## Annual Anyone?

Copies of the 1959 La Ventana will go on sale Monday and Tuesday from 1-5 p.m., Donna Christopher, co-editor of the yearbook, has announced.

The annuals will be sold in the La Ventana offices, Rm. 211 of the Journalism Bldg. Prices for the books are \$3 each.

**DAY OF RECKONING** — An unidentified Tech student portrays what probably every Tech-san would like to do in the next few weeks — light a torch to the mid-term reports which will be sent to parents. (Staff Photo by Travis Harrell)

## Tech Students Receive Awards

Three Texas Tech students have received scholarship funds from B&H Instrument Company, Inc., Fort Worth.

The grants are part of \$5,000 given by the company to five Texas colleges and universities.

Tech students honored were Damon H. Duncan, senior mechanical engineering major from Muleshoe; Leonard F. Short, senior electrical engineering major from Post and James E. Steelman, senior electrical engineering major from Plainview.

## FOR VENTANA BEAUTIES

# Contest Date Slated

by ELLEN VENABLE  
Toreador Staff Writer

She'll be pretty as a picture . . . with a charming personality . . . the grace of a goddess . . . Who is she?

She is La Ventana's "Mademoiselle" to be chosen in the 1960 La Ventana Beauty Contest Dec. 5 in the Lubbock Municipal Auditorium.

**SPONSORED BY** Sigma Delta Chi, men's professional journalism fraternity, the contest will be based on the Miss America theme. Entrants will appear in bathing suits and formals during the pre-

liminary eliminations and also during the final selection.

"Mademoiselle" will be featured on the cover of the 1960 yearbook's Mademoiselle section and each of the ten top finalists will have a full page in that section.

They will also be hosted by SDX and La Ventana at Hondo Ski Lodge, Taos, N.M. before the Christmas holidays.

**RALPH W. CARPENTER**, president of SDX, announced a Dec. 1 deadline for entry blanks. All campus organizations may enter as many candidates as they wish but girls wanting to enter the contest do not need a sponsoring organization.

## Trueblood Gives Willson Speeches

The 13th series of Willson Lectures will bring Dr. D. Elton Trueblood, educator, philosopher, author and lecturer, to Texas Tech Monday through Wednesday.

**DR. TRUEBLOOD**, professor of philosophy at Earlham College in Richmond, Ind., and holder of eight degrees from as many colleges, will give a series of four lectures under the overall title of "The Life We Prize."

The lectures will be in Lubbock Municipal Auditorium. Dr. Trueblood will lecture at 9 a.m. Monday and Tuesday and at 10 a.m. Wednesday and Thursday.

"The Predicament of American Youth" will be the topic of Monday's lecture. "New Life in the College" is Tuesday's topic. "New Life in the Church" will be discussed Wednesday and "New Life for the Individual" on Thursday.

**HE IS IN** greater demand as a college campus speaker on religion than any other man in the U. S. according to James G. Allen, dean of student life.

Dr. Trueblood has taught at five colleges, among them Harvard and Stanford. He has written 17 books dealing with philosophical problems of modern and ancient man such as family life, logic, religion and education.

He will also speak at a faculty-student dinner in the Union at 6:15 p.m. Wednesday. Reservations for the dinner, sponsored by the Campus Religious Council, may be obtained in the office of the Dean of Student Life or from the C.R.C.

**THE TECH** Choir under the direction of Gene Kenney will perform at each lecture.

Dr. Trueblood's latest book, **The Idea of a College**, presents an analysis of the background, challenges, liabilities and assets of the present day American college.

## News Analyst Talks Tonight

Paul Harvey, veteran news analyst for the American Broadcasting Company, will speak in Municipal Auditorium at 7:30 tonight.

His talk on current world conditions, "We've Got It Made," is sponsored by the Monterey Optimist Club. All proceeds will go to the club's boys work.

Tickets for the talk will cost one dollar for students showing I. D. cards and two dollars for non-students.

A \$1 entry fee must be paid by each contestant.

Janie Norris, winner of last year's contest, will present the 1960 "Mademoiselle."

Selection of Playboy's Miss Playmate will be announced at the beauty contest. She will be put in a fold-out page in the Playboy section of the 1960 yearbook.

Male organizations must submit an 8 x 10 glossy print of their candidate in a bathing suit. Prints must be turned into the La Ventana office by Nov. 25. Each organization is limited to one Playmate entrant.

PHI GAMMA DELTA'S SUVANS SING OUT

... on a number for Club Scarlet tonight. They are left to right Bob Fielden, Mike Armstrong, David Pool and Sid Simmons.

(Staff Photo by Travis Harrell)

## BSO Mailboxes Ain't No Letter Hidin' Place

Campus mailboxes set up by the Board of Student Organizations are not being utilized, according to BSO president Bob Hunts.

Many of the boxes have not had mail picked up since school began. The boxes are located across from the Registrar's Office in the West

end of the Ad Bldg. Each organization on campus has a mailbox.

BSO dues are now \$3 and may be paid in the office of James G. Allen, dean of student life.

Campus groups who would like mail sent out or other office work done should contact the secretaries in the BSO office in the Aggie Pavilion. Office hours are 10 a.m. to noon and 2-4 p.m. Monday, Wednesday, Thursday and Friday.

## Musicians to Play Sunday in Museum

Local artists Cecil Bolton, organist, and Francisco Hernandez, violinist, will play original compositions in the auditorium of the West Texas Museum at 4 p.m. Sunday.

The performance is part of the Twilight Music Hour musical performances sponsored by the Museum every second Sunday of the month.

Newly elected BSO executive council members are: Linda Chapell, business administration; John McGraw, arts and languages; David Herd, engineering; Cora Jo Lilly, sororities; Jim Knowlton, agriculture; John Stokes, service and interest; Judy Rutledge, military; Mildred Thompson, hono-

riaries.

Others include Joyce Harvey, dormitories; J. B. Copeland, science; Mary Wallace, coordinating; Wayne Isom, fraternities and Dick Toll, religious.

Engineers!

Scientists!

WE'RE LOOKING FORWARD TO MEETING YOU

Last year we had the pleasure of meeting many engineering and science seniors during our visit to the campus. As a result of our discussions, a gratifying number chose to join our company.

We'll be back on the dates below, and this notice is your invitation to come in and see us.

If you're interested in joining a company that's a leader in fields-with-a-future, you'll be interested in the advantages Boeing can offer you. Boeing is in volume production of Bomarc, the nation's longest range defense missile, and is a prime contractor on Minuteman, an advanced solid-propellant intercontinental ballistic missile system.

Boeing is also the nation's foremost designer and builder of multi-jet aircraft. Production includes eight-jet B-52G missile bombers, KC-135 jet transport-tankers and the famous Boeing 707 jet airliner.

Research projects at Boeing include celestial mechanics, solid state physics, nuclear and plasma physics, advanced propulsion systems, and space flight.

Expanding programs offer exceptional career opportunities to holders of B.S., M.S. and Ph.D. degrees in aeronautical, mechanical, civil (structures), electrical-electronic and welding engineering, and in engineering mechanics, engineering physics as well as in mathematics and physics. At Boeing you'll work in a small group where individual ability and initiative get plenty of visibility. You'll enjoy many other advantages, including an opportunity to take graduate studies at company expense to help you get ahead faster.

We hope you'll arrange an interview through your Placement Office. We're looking forward to meeting you.

THURSDAY and FRIDAY  
NOVEMBER 12 and 13

## APO Aids Boy Scouts

Handicapped boys of Scout Troop 161 under the leadership of Alpha Phi Omega, Tech service fraternity, were assured another year of assistance and guidance when Lucian Thomas renewed their charter yesterday.

Boys in Troop 161 are handicapped either mentally or physically. The troop helps train the boys in scouting.

Leadership of the pledge class one member of Alpha Phi Omega for every two of the handicapped boys. Alpha Phi Omega has received recognition in Time Magazine for its service in this field.

★ ★ ★

Alpha Phi Omega has announced its fall pledge class and officers.

Clifford George, Anton, will serve as president of the pledges. Dick Wyatt, San Angelo, will be vice president and Don Tillery, Lubbock, will be the recording secretary and treasurer.

MEMBERS of the pledge class are Byron Christian, Paul Dinsmore, Cliff Epps, Keith Glover, Toby Hannz, Wayne Hillin, Bill Kaun, Lyndell King, Frank Little, Bill Leverage.

Also Bill McAdams, Dennis Malcolm, Antonio Montoto, Harold Moore Jr., James Morris, Bill Nevius, Bob Parsons, Don Patterson, Tom Sayre, Don Tillery, John Tillery.

Also John Walton, John Washkom, Robert Tuley, and Bill Yohner.

## Marketing Group To Hear Oil Rep

"How to Determine Retail Locations" will be the topic of Mr. Clyde Oskins' speech Tuesday to the American Marketing Association.

Oskins, Conoco's district staff assistant in Lubbock, will cover a vital issue in the success or failure of a retail business and one which is not covered in the marketing courses until the senior year as a general rule.

The meeting, in the Tech Union workroom, is open to guests, and any student with an interest in marketing is invited to apply for membership with the local AMA chapter.

# Music Opens Festival

The Texas Tech Symphony Orchestra, Choir and Singers will combine in a musical presentation Sunday, Nov. 15, in the Lubbock Municipal Auditorium to open the week-long Fine Arts Festival.

**SELECTIONS** will include the Schubert Symphony No. 7 in C Major, the "Great" Symphony and the Schubert Mass in G.

"Blood Wedding," a play written by Federico Garcia Lorca and presented by the speech department, will highlight the second day of the Festival devoted to performances, discussion, and examples of the arts.

The play begins at 8:15 p.m. Monday in the speech auditorium and will continue nightly through Nov. 21. The 27-member cast will

be directed by Ronald Schulz of the speech department, with Jane Perry of the Tech Modern Dance Group handling the dances.

A **PANEL** of Sigma Tau Delta English fraternity members will discuss "Beat Generation Literature" at 10 a.m. Monday, Nov. 16, in the Tech Union workroom. It will be followed by open discussion from the audience.

Dr. C. B. Qualia, professor of foreign languages, will give a lecture on the life and works of Lorca at 4 p.m. Tuesday in the Union Ballroom. Lorca was a modern revolutionary poet who departed from the traditional forms and themes of Spanish poetry.

Professor Erich A. Albrecht, Newcomb College, New Orleans, will give a lecture commemorating the 200th anniversary of the birth of Johann Friedrich Schiller at 7:30 p.m. Nov. 17, in the Union Ballroom.

A **JAZZ CONCERT** by the Tech Stage Band will be at 4 p.m., Nov. 20, in the Union lounge. It will be directed by Keith McCarty, instructor in the music department.

"An Evening of Opera and Dance," presented by the music department combined with the women's physical education department, will be given at 8 p.m. on Nov. 20-21. Scenes from operas by Verdi, Puccini, and Mozart will be presented by the Tech Opera Theater, under the direction of Charles Lawrie, and the Tech Orchestra, directed by Paul Ellsworth.

An applied arts exhibition in the Architecture and Applied Arts Bldg., sponsored by the department of applied arts, will be presented the entire week of Nov. 16-21.

## Therrell Chosen October Princess

Sigma Nu social fraternity has named Nancy Therrell its White Rose Princess for the month of October.

Lowell Whitlock, Sigma Nu president, announced the selection at a party in the Sigma Nu lodge.

Miss Therrell is a secondary education major from Houston.

"LUMINARIOS" WILL LIGHT THE WAY ... to the homecoming pep rally Friday night. Filling the bags with sand are Imogene Davis and Janice Jarrett for Junior Panhellenic.

## Sigma Chi Initiate Name Best Pledge

Sigma Chi spring pledges have been initiated, the best pledge named and scholarship awards given.

Howell Phelps, Spearman sophomore, was chosen best pledge. He is an electrical engineering major.

Highest scholastic achievement and highest scholastic improvement plaques were awarded to Duane Shelton, junior electrical engineering major from Bowie.

Other pledges initiated besides Phelps and Shelton include Dave Sutcliffe, Billy Helton, Tommy Morris and Ike Simmons.

# JUST SOME GAB

j.s.g.

The past few weeks have been crowded with a number of exposes concerning "rigged" television quiz shows, as well as the presumed horrible fate of the principal participants of the now renowned frauds.

These developments have aroused my interest to some extent; however, the most serious thing I feel that has occurred here is that Charles Van Doren has been knighted "Sir Scapegoat" for the particular company with whom he was associated. Too, he is the one who is taking the "rap," for all others involved.

There is little need to consider the fact of whether Van Doren was right or wrong in doing (or not doing, as the case may be) what he did. Rather, the crux of the matter is why was it allowed to happen? And, in happening, why show up only one prime person as the offender to be punished?

★ ★ ★

It has been my contention, at least in thought, that integrity in business, and even in everyday living, has somewhat lost its place on the pedestal of reverence. Over the years, unfortunately, integrity has become less and less a matter of individual responsibility and more and more one of group concern. In other words, if one does something unethical, deceptive, fraudulent, but is not caught in this act, there is nothing "wrong" with it. The crime is not in the doing, but worse, the crime is in being CAUGHT in the doing.

There might possibly be some parallel between this feeling and that old bit about the existence of noise in a forest when a tree falls if there is no one there to hear it. However, instead of taking that tack, let's go back to the matter of Van D. I fail, initially, to see where it is the duty of this man to be nailed to a cross of misconduct alone. Together should be the (pardon the expression) "thieves," consisting of the other "fixed" winners, especially the lady who conquered (?) him; the sponsors involved (surely a \$5,000,000 per year outlay entitles a sponsor to know ALL that goes on — or comes off); and, most important, the persons of the networks whose charge it is to protect the "poor, gullible 'public'" from such "disaster."

★ ★ ★

It might well be a point to consider that there is room for much investigation of: certain congressional and political people who fail to write their own speeches (credit: Alexander King); certain national magazines and not-so-national newspapers who take great glee in slanting this very news story to their own competitively jealous ends; certain persons of high public esteem who utilize their positions to further business ventures (e.g., a Senator who makes a deal with the F.C.C. to prohibit competition in telecasting by having it refuse license to any other channel requests in the same city); and so on. These are not "important" fields of investigation, however, since things such as these "don't happen."

★ ★ ★

My premise after all this is a small attempt to feel a little bit sorry for a very intelligent man, highly underpaid (\$5,500 per year at Columbia) for this mentality, who had a chance — risky as it was — to really make a buck (plus the \$50,000 per year in TV), and lacked the ability to honestly refuse it. But having gotten into a tight, from which there was but one release — to tell the truth — he did. Had he even done this a year before, the stench of today might well have been forgone, or at least forgotten. He might well have been considered even more of a man. To use him as a scapegoat for that in which he was no more than a willing victim of circumstance is not a very fair shake, to say the least.

★ ★ ★

Apparently, I must be old-fashioned to believe in integrity AND forgiveness all at once. I noticed that some professor in Massachusetts says that cheating in American colleges is now part of the culture. You'll forgive an "old man," I'm sure, but I must revert to even older John Keats:

"Beauty is truth, truth beauty,  
That is all I know on earth and  
all I need to know."

At Baldwin Wallace

## Greeks and Negroes at Odds

An interesting bit of information came to us from the Intercollegiate Press this week concerning a special faculty report on fraternity discrimination on the Baldwin-Wallace College campus. It summarized the opinions of three Negro students who have been invited to discuss their feelings about any cases of intra-campus discrimination.

According to the report, the students charged that "restrictions exclude Negroes from membership in all but one of the Greek letter organizations," that there is a lack of adequate and equal social opportunities on the campus in the community, and that "there is a problem in housing in campus residence halls."

In a review of eligibility for membership clauses in the constitutions of national fraternities represented on this campus, the committee found that only one Greek letter organization's national constitution "specifically restricts membership on the basis of race, color, and creed." Only one has had Negro members to date, the committee reported.

The committee also found "evidence that all students are eligible without racial, creedal or color restrictions to become members of honoraries, religious or student government organizations on the Baldwin-Wallace campus."

Ah, yes, the problems other schools have that we don't have to face at Texas Tech... yet.

TOM SCHMIDT  
 Editor

## Many Students Have One Ambition

Editor's Note: This is the sixth in a series of reviews of books written by Dr. D. Elton Trueblood, featured speaker at the Willson Lectures at Lubbock's Municipal Auditorium, Nov. 9-12.

YOUR OTHER VOCATION  
 by Dr. D. Elton Trueblood  
 Reviewed by Dr. A. W. Young

Perhaps a basic motivation characteristic behind our 1959 Willson Lecturer is found in the fact that more than a decade ago he left a position of prominence at Harvard University to serve as professor of philosophy at a small institution, Earlham College, at Richmond, Indiana, because of his conviction that a college professor is most effective when he is able to help the student "find himself." He believes that the pattern of life in a large educational institution offers far less opportunity for personal contact between the student and the professor than is normally possible in a school with a relatively small enrollment.

With a background of a life dedicated to serving student needs, Dr. Trueblood in discussing vocations points out that a counteraction tends to develop for each action in life, whether it be in the life of an individual or a group of individuals. To illustrate this fact he points out that the laboring class of this country comprised a large portion of the church going, professing Christians a few decades ago, whereas today the laboring class is largely not affiliated nor identified with Christian activities. He suggests that a counteraction may be developing against the labor movement because of the lack of adherence to Christian ideals.

HE FURTHER POINTS out that professionalism appears to make the individual less sensitive to religious truths. These facts may indicate the probable trend of the United States in the years ahead. The attitude of many college students today seems to be that their one ambition is to get out of the institution with a degree and a high paying job. Can our civilization endure and thrive if this desire motivates our college students in an ever increasing degree?

Dr. Trueblood's discussion suggests several questions, the answers to which may largely indicate our future as a nation of the world. Does a Christian witness to his basic beliefs by his work? Can a Sunday religion maintain those moral and religious levels needed to keep us a Christian nation? Does the ministry of work have a place in today's world? Is the pay check the only incentive which is needed to dignify work as a vocation rather than just an occupation? Is there such a thing as a "calling" to be an engineer, an accountant, a scientist, a teacher or a lawyer? Does conviction of divine intention apply to any vocation other than the ministry?

If divine intention should influence the selection of a vocation by an individual, will this affect the nature of the man's attitude toward his vocation? Can a person who is motivated by Christian ideals of a vocation be satisfied with

incentive of making money from his vocation? Can a Christian worker testify to his Christian ideals in his vocation?

THE AUTHOR asks the question as to why a vocation is necessary and then answers it by saying that all of man's deeper emotions are involved in an effort to support and maintain family life and the vocation becomes, under normal conditions, that activity which makes possible family life.

Moral values may be considered in the church as separate and apart from specific problems but in family life in the home moral values must be applied to those problems which may arise between husband and wife, parents and children or between brothers and sisters. Thus, Christian witnessing becomes the center of the training program within the home with the most effective teaching resulting from the daily demonstrations which take place within the family circle. Preaching and practice must go hand in hand and mutually support each other. The home is in reality a laboratory rather than an auditorium or lecture room. Communistic ideology cannot thrive in the atmosphere of a Christian home, but may find receptive minds for growth in broken homes or homes which offer only the boarding house atmosphere.

Many working mothers have paved the way for a breakdown of the home centered training activities for the children in the family. As a result interests and activities may become centered elsewhere where influences can be for good or bad.

FOR A CHRISTIAN nation the Christian ministry of family life is the keystone to the development of a powerful philosophy of the value and dignity of vocation. When the home is a religious institution with family life considered as a holy calling, and where there is a loyal acceptance of discipline the home becomes a center of community service and operates for the betterment of mankind and the renewal of individual values for the larger community of man.

Throughout Dr. Trueblood's manuscript he emphasizes that in today's world the lay religious leader may exert a greater influence for good than the professional religious worker. This is true because the layman, through his vocation, is constantly in contact with his fellowmen at a common level, a situation seldom, if ever attained by the professional religious worker. By ministry through his vocation the layman may reach and inspire his fellowmen to high ideals of Christian service.

Dr. Trueblood, in closing, challenges the reader with the thought that probably one of the greatest weaknesses of the lay religious leader is often found in his sloppily quoted scriptures, inadequate theology and general ignorance of sound religious fundamentals as they are related to man's relationship to God. Each individual should place greater emphasis on a widening and deepening of Christian training by reading the great religious writings of our own age as well as those of earlier generations.

DESCRIBES ART TEACHER

# Randall Pens Book

Texas Tech professor and artist Arne Randall is co-author of a new book that accurately describes the role of the art teacher in modern education.

Co-authored with Dr. Howard Conant of New York University, *Art In Education* has been cited as a handbook for art educators. Randall is head of Tech's applied arts department.

AS A TEXT, *Art In Education* brings together information that has not appeared in print before, according to Ivan E. Johnson, Florida State University professor.

Evaluation charts such as "Which type of Program is Yours?" offer a wide range of information for the experienced art educator.

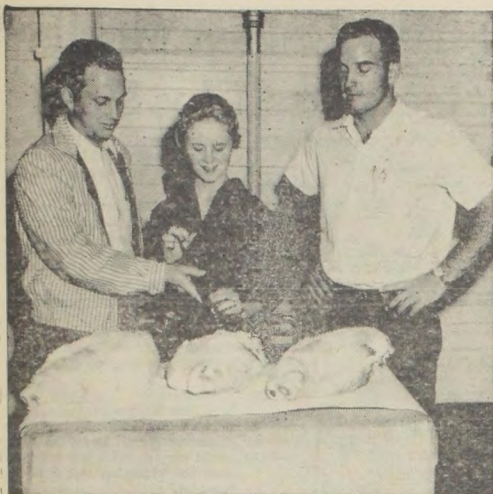

Among other kinds of information are lists of art materials and tools and publications for the use of the teacher and student. A section devoted to teaching art to the teacher-in-training as well as handicapped children is also included.

Randall came to Tech as professor and head of the department of applied arts in September 1953.

He is advisory editor for *Schools Arts Magazine* and *Junior Arts* and has been guest editor for several art magazines.

Florence Randall, his wife, is editor of *Highlights for Children* and has recently published a handbook on the American Indians.

Authentic facts about Indian clothing, shelters and food are colorfully illustrated in the 31-page handbook. Popular Indian stories such as "Pocahontas" and the "Song of Hiawatha" are included. Illustrations for the articles were drawn or suggested by Prof. Randall.

GOING, GOING, GONE—These three hams are among about 75 that will be auctioned off Dec. 5 by the Block and Bridle Club. Left to right are Jim Knowlton, president of the Block and Bridle, Mack Shurbert, ham sales chairman and Sarah Finson.

## Tech, LCC Host Educational Buyers

Texas Tech and Lubbock Christian College will host the annual meeting of the National Assn. of Educational Buyers Sunday through Tuesday.

REPRESENTATIVES from Texas, Oklahoma and Arkansas will meet in the Caprock Hotel for the three day meeting.

Main speaker will be Dr. Dan Procter, vice president of the Star Engraving Co. of Houston and former president of Oklahoma College for Women in Chickasha. He is serving as Star Engraving's educational consultant for the southern half of the nation.

Other speakers will include L. K. Barry, president, National Assn. of State Agencies for Surplus Property, San Antonio; George Wolford, Slater Food Service, Philadelphia, Penn.; Dr. Robert Rouse, Tech economics department; H. W. Lowman, purchasing agent for the University of Arkansas, Fayetteville, Ark.

Bert C. Ahrens, executive secretary of the NAEB, Garden City, N.Y.; Theos S. Morck, business manager of Texas Lutheran College, Seguin; Richard P. Hamlin, E & ICS, Garden City, N.Y.; and Bill Christensen, purchasing agent of the University of Utah, Salt Lake City, Utah.

THERE WILL be a panel discussion on federal excise taxes. The chairman is J. Frank Ray, assistant business manager of Trinity University, San Antonio. Percy A. Francis, business manager of Lubbock Christian College, and Marshall Pennington, Tech vice president and comptroller, will be on hand to welcome the educational buyers. S. T. Cummings, Tech purchasing agent, will preside at the Monday luncheon meeting.

FOR HOMECOMING

# Exes Plan Activities

Ex-Student Assn. homecoming activities will begin with an executive board meeting at 10 a.m. Friday in Tech Union.

**LUNCHEONS** for the boards of directors of Texas Tech and the Ex-Student's Assn., executive members of the administration, and past presidents of the Ex-Student's Assn. are scheduled at noon Friday in the Union.

Election of officers will be the main business at the annual council meeting at 1:30 p.m. Registration

for ex-students will begin at 2 p.m. Booths for this purpose will be erected at the Caprock Hotel, Lubbock Hotel, Plainsman Hotel and Union.

The coronation of the homecoming queen will highlight the pep rally at 7:30 p.m. Friday.

**THE TECH** class of 1934 will be honored in class reunions to begin at 8:30 p.m. The Caprock Hotel will be the setting of the Old Timers Dance for 1926-1938 graduates. Graduates of 1939-1949

will gather in the faculty club room and 1950-1959 graduates in the Rec Hall.

Registration booths will be open from 8-10 a.m. Saturday morning in the same locations as the day before. The homecoming parade will begin at 10:30 a.m. with the Ex-Student's Assn. sponsoring the float awards.

A buffet luncheon for ex-students and friends is scheduled at 12 noon in the municipal coliseum.

**INTRODUCTIONS** of new officers of the Ex-Student's Assn. will be made following the luncheon.

All attention will be turned to the homecoming football game between Tech and the University of Houston at 2 p.m. The Ex-Student's Assn. will sponsor halftime awards for campus decorations.

# Snark Guided Missile Steers Itself by Stars

Compiled from Associated Press Wires

**CAPE CANAVERAL, Fla.**—A Snark guided missile, steering itself by the stars, was launched on an intercontinental range test flight Friday.

The 69-foot missile darted from its pad, successfully dropped its two booster rockets, and vanished in an overcast sky. It was aimed at a watery target off Ascension Island, 5,000 miles away.

The last Snark tested here, on Sept. 25, crashed in flames when one of the boosters failed. That ended a long string of Snark successes.

Northrop Corp., which makes the Snark, reportedly included advanced star-tracking equipment in the latest missile.

**LITTLE ROCK, Ark.**—Gov. Orval E. Faubus said Friday piece-

meal integration of Little Rock's public schools would wreck them as much as sudden and total racial mixing.

It was his answer to a school board member, Russel Matson Jr., who said recently Little Rock could expect more classroom integration in meeting a federal court mandate.

Eight Negroes were integrated in once-white Central and Hall high schools this fall. Little Rock's four high schools were closed by Faubus last year to stop integration.

"Remember, I said you couldn't stop this integration once it started," Faubus said at a news conference. "We all know that if you could stop it with token integration the situation could be well handled."

## HORN HALL HAS UNUSUAL GIFT PARTY

How would you feel if you went to a jailhouse birthday party and your hostesses served you bread and water?

The girls on Annex 3rd South in Horn Hall didn't seem to mind at all when this happened to them Tuesday night at a surprise birthday party for Priscilla Pond, junior home economics major from Big Spring.

**ACTUALLY THE** water was carbonated water — 7-Ups. The bread was French bread with pink candles stuck between the slices.

The girls at the party were bewildered as to how the hostesses managed to have hot, buttered French bread. Jerry Sizemore, one of the hostesses, hesitated and finally told the group that she had used the dryer in the laundry room to heat the bread.

**BETSY GRIMES** and Miss Sizemore hosted the party after wing meeting. They featured a jailhouse theme and were consequently dressed in black and white.

Guests at the party all brought silly gifts they had made such as a construction paper shower cap, gourd ashtrays, Kleenex flowers, a sign for the door, a buzzer signal, a wire man, and a Japanese lantern.

## Club Scarlet Tickets

Tickets for Club Scarlet will be sold in the Tech Union until noon today, in the Rec Hall from 1 till 5 p.m. and at the door tonight.

# Committee Ends Quiz Show Probe

WASHINGTON (AP) — Chairman Oren Harris (D-Ark.) of the House subcommittee on Legislative Oversight Friday described the quiz scandals as unfolded by

his group "a shocking situation," and declared he had "heard enough."

"The hearings disclosed that millions of Americans were deceived and tricked by what was

nothing more than a sordid, commercial scheme," Harris said.

**IN CLOSING** out the quiz show phase of the inquiry, Harris said he was convinced corrective legis-

lation is necessary.

He stated he was pleased to see that the Federal Trade Commission has begun corrective action. "I hope we will have similar

action from the Federal Communications Commission."

The committee approved for inclusion in its record a letter from the American Guild of Authors and Composers charging that "commercial bribery has become a prime factor" in determining what music is played on many broadcast programs.

And, one of the nation's top scientists says Americans are getting "an overdose of soap operas, shoot 'em-up westerns and glib-tongued emcees of empty entertainment" on television and radio.

Dr. Alan Waterman, director of the National Science Foundation, made the remark today in asking for more programs that appeal to the mind as distinguished from those that appeal to the emotions. He said there are notable—though all too infrequent—examples of such.

His appeal was part of a broader plea for the press, radio and television to arouse in the public a sense of urgency and determination to improve education generally and to increase its support of scientific research and development in the face of Soviet advances.

# Tech Undisturbed by Scandals

by DOROTHY BOWLES  
Toreador Staff Writer

Rags to riches to rags.

This, in a milder form, seems to be the fate of many isolation booth champions as the House of Representatives Subcommittee on Legislative Oversight ended its probe of television quiz shows.

**THE SHAKEN** faith of thousands of TV viewers was completely shattered this week when Charles Van Doren, perhaps the most popular of all big time money winners, came forth and confessed that he had also played an inside part in the hoax.

Van Doren was an instructor of English at Columbia University in New York when his now famous TV appearances began in 1956. Since then he rose to national fame in taking away \$129,000, recognized a life's ambition in being made assistant professor of English at Columbia and signed a \$50,000 a year contract with the National Broadcasting Co.

The 33-year-old intellect made

a suspenseful and dramatic appearance on the witness stand Monday, equaling those made in the NBC isolation booth in 1956 and 1957. Now he no longer holds a position at Columbia and his NBC contract has been canceled ten months before its expiration.

**SOME FEEL** that quiz shows served an educational purpose; others chalk them up to entertainment; still others feel that the American public has been wronged. NBC officials charged that the fraudulent programs "abused the confidence of the viewing public."

The expose seemed of little concern to Texas Tech students as the majority plodded along their

way apparently unconcerned about the national headlines.

A Toreador poll revealed few student opinions. Most people questioned knew little about the situation, had no opinions, and showed no interest in forming any.

**"IT'S JUST** another scandal in the entertainment world," Dub Heffington, vice president of the Student Assn., stated.

Hannah Kittrell, Arts & Sciences sophomore, expressed the viewpoint that the fixings show a "decrease in American values."

On the question of prosecution of producers and sponsors connected with the scandal, Betty

Ayres, junior pre-med major, said that exposing these people is prosecution enough.

**"ENTERTAINMENT** is basically a world of deception," was the comment of William Oden, associate professor of government.

In chalking the scandal up to show business, several labeled the big money winners as "well paid amateur actors."

"We were suckers, and most of us enjoyed it while it lasted," Adele Drossman, sophomore art education major, exclaimed.

Like most other news of the world, this spectacular event has apparently passed relatively unnoticed by most Tech students.

Meet a Young  
Executive on the  
Champs Elysees

(SHE COULD BE YOU!)

Not long ago this young lady was a college senior. Today, she handles the responsibilities and decisions of an executive in one of the world's largest organizations. Today, she's an Army officer in Paris... a Lieutenant in the Women's Army Corps.

Her professional and social life is busy... exciting... happily balanced.

On duty, this young executive occupies a position requiring education, initiative and intelligence. The high salary and traditional privileges of an Army officer are hers.

Off duty, she enjoys her leisure time. (Free evenings and weekends plus 30 days annual paid vacation.) Perhaps she'll attend evening classes at the Sorbonne. Or make a skiing trip to St. Moritz. Or spend a holiday on the French Riviera. Whatever she does, she'll find a world of fun!

Of course, her assignment didn't have to be Paris. It might have been Heidelberg, Honolulu, Tokyo... even New York or Los Angeles.

But wherever this young lady goes, she enjoys a feeling of individual accomplishment. Because she began her career as an executive... an officer in the Women's Army Corps.

She could be you... this young executive on the Champs Elysees.

Special...1960 Summer Program  
for Juniors:

Want a special preview of Army life? Why not see it for yourself this summer! If you qualify for this limited program, you'll receive 4 weeks of orientation training during the summer of 1960—without any commitment. The sole purpose of this program is to help you decide—with confidence—if you want to apply for a commission after you graduate. If you're interested, today is the day to mail the coupon. There's no obligation.

**THE ADJUTANT GENERAL**  
Department of the Army  
Washington 25, D. C., ATTN: AGSN-L

Please tell me more about a world-traveling, executive career in the Women's Army Corps.

ANNUAL CONFERENCE SUCCESS

# Career Forum Ends

Texas Tech's fourth annual Career Conference ended Thursday morning with addresses from 10 persons from various fields of business and management.

A. W. WATKINS, assistant manager of Dunlap's in Lubbock,

was the climax speaker for the two-day event.

"The terrible efficiency of science and the terrible inefficiency of human relations combine to place before our generation the gravest threat and challenge which has ever confronted any generation," Watkins said as he discussed the world situation.

"It looks rough," he said, and then smiled, "but if we dip into the literature of any generation of the past we will find that the world looked like it was coming apart at the seams.

"I REFUSE to lose heart or side with the alarmists for several reasons. One is that we have progressed and we are continuing to progress," he explained.

"Another is the inevitability of the unexpected. When my grandfather first came to Floyd County in 1884, no one thought that the great American desert, as this region was then called, would bloom into one of the world's richest agricultural areas," he said, as he went on to give many examples of man's pessimism of the future throughout history.

Other Thursday speakers at the Delta Sigma Pi sponsored event were Mrs. Ann Chote, Mrs. Beverly Rodewald, Mrs. Polly Lewis, Mrs. Frances La Ferney and Mrs. Karel McVay.

Addresses also were made by Jack O. Egloff, F. C. Lawrence, Jack Russell and Elwood Freeman.

F. L. LAWRENCE URGES "OPEN MIND" FOR ACCOUNTANTS ... at accounting discussion at Tech Thursday

## Speaker Challenges Accounting Students

F. L. Lawrence offered Tech accounting students a series of challenges Thursday night when he spoke to members of the Tech Accounting Society and Beta Alpha Psi on "Accounting, A Changing Profession."

HE STRESSED the need for a basic method of accounting, progress and a widening of horizons in the changing accounting profession.

"The human animal is adverse to change. The accounting profession is going to change for better or worse. We must keep open minds and move forward," Lawrence said.

"We must establish leadership within the profession in order to establish sound accounting principles and to develop competence in assisting business in the use of accounting as a tool for planning and forecasting," Lawrence said.

THE NEED for a basic accounting method was emphasized by Lawrence's statement that a company can show either a million dollar profit or a million dollar loss according to the type of accounting it takes to its transactions.

"We have not taken into consideration the impact of inflation," Lawrence said. "We now have about a 30 cent dollar compared to the dollar of 1939."

Lawrence, who spent most of the week in Chicago, also said our northern isn't at all cold compared to the wind blowing off Lake Michigan.

## Prof Attends Business Study

William R. Pasewark, professor of secretarial administration, will attend the sixty-second annual convention of the National Business Teachers Assn. Dec. 28-30 in Cleveland, Ohio.

Theme of the convention, which features tours and workshops, will be "The Increasing Importance of Business Education."

## Divorce Granted!

LONDON (P)—A wife whose husband spanked her because she didn't cook supper for him 90 minutes before midnight has been given a divorce.

Judge John Flowers said of the case brought by Jean Wood, 27, against John Wood, 35; "No reasonable man would expect his wife to get supper for him at that time of night. And if he did expect it—he wouldn't get it."

### DIARY OF A COED

MONDAY: Prof. Pomfritt sprang quiz in English lit this morning. If Shakespeare didn't write *Canterbury Tales* I'm a dead duck ... Lunch at the house—turkey hash. Question: how can we have turkey hash when we never had turkey? ... Smoked a Marlboro after lunch. I dig those better mskin's the most! ... Played bridge with sorors in afternoon. When game was over, my partner stabbed me several times with hatpin. Must learn weak club bid ... Dinner at house—lamb hash. Question: how can we have lamb hash when we never had lamb? ... Smoked a Marlboro after dinner. What filter! What flavor! What pack or box! ... Chapter meeting at night. Motion made to abolish capital punishment for pledges. Motion defeated ... Smoked more Marlboros. *Quelle joie!* ... And so to bed.

TUESDAY: Faculty tea at the house. Spilled pot of oolong on Dean of Women. She very surly. Offered her a Marlboro. Still surly. Offered skin graft. No help ... Dinner at Kozy Kampus Kafe—24 hamburgers. But no dessert. Have to watch waistline ... And so to bed.

WEDNESDAY: Got our marks in English lit quiz. Lucky for me Shakespeare wrote *Canterbury Tales!* ... Afternoon date with Ralph Feldspar. Purely platonic. Ralph wanted to consult me about love trouble he's having with his girl Nymphet Calloway. I assured him things would get better. Ralph said he certainly hopes so because last four times he called on Nymphet, she dumped vacuum cleaner bag on him ... Smoked several Marlboros. Wonderful cigarette. No confusion about which end to light. Saves loads of time ... Dinner at house—bread. That's all; just bread ... And so to bed.

THURSDAY: Three packages from home—laundry, cookies, records. So hungry I ate all three ... Quiz in American history. If Millard Fillmore didn't invent cotton gin, I'm in big trouble ... Dinner at house. Big excitement—Nymphet Calloway announced her engagement to Ralph Feldspar. While sorors flocked around to congratulate Nymphet, I ate everybody's side meat ... Then smoked Marlboro. Oh, what a piece of work is Marlboro! ... And so to bed.

FRIDAY: Got our marks in American history quiz. Was shattered to learn that Millard Fillmore did not invent cotton gin. He wrote *Canterbury Tales* ... How very odd! ... Lunch at the house—bread hash ... Marlboro after lunch. Great smoke. Must send valentine to manufacturers ... Spent entire afternoon getting dressed for date tonight with Norman Twonkey. Norman is dall, dark, loaded—a perfect doll! Only thing wrong is he never tells a girl where he's going to take her. So I put on a bathing suit, on top of that an evening gown, and on top of that a snowsuit. Thus I was ready for a splash party, a dance, or a toboggan slide ... So what do you think happened? He entered me in a steeplechase, that's what! ... Would have taken first prize easily if I hadn't pulled up lame in the last furlong ... And so to bed.

Yes, the college life is a busy one and you may be having trouble choosing the cigarette that's right for you. Here's a handy guide: For filter plus flavor—Marlboro. For flavor without filter—Philip Morris. For filter plus flavor plus coolness—Alpine ... All made by the sponsors of this column.

suit yourself in fall casuals

Rogers is also president of the West Texas Telecasting Network.

Freshman girls will be excused from regular dorm hours for the semi-formal affair.

The convocation, representing freshman class school spirit, will include a candle lighting ceremony depicting class unity.

and foreign languages from Texas, Oklahoma, Arkansas, Mississippi, and Louisiana are at the three-day meeting.

"William Gilmore Simms and the Kentucky Tragedy" was the paper presented Friday by Dr. W. B. Gates, Tech professor of English and graduate school dean.

DR. J. T. McCULLEN, professor of English, will present "The Short Unhappy Life of the Hemingway Hero" today.

"Folklore Along the Santa Fe Trail" is the paper brought by Dr. Everett Gillis, English professor. Dr. Lawrence E. Bowling, professor of English now on leave, is the chairman of the American Literature section.

Dr. Elaine E. Boney, associate professor of foreign languages, presented a paper on "The Role of the Paradox in Rilke's 'Sonnetes'."

"THE PORTRAIT THEME in the Plays of Calderon" was read by Dr. Eunice J. Gates, professor of foreign languages. Theodor W. Alexander, associate professor of foreign languages, gave "Schiller

as a Psychologist in his Medical Writings and in the Play, Die Rauber."

Other members of the foreign languages department attending the meeting are Dr. T. Earl Hamilton, Spanish professor, and Dr. Alexander P. Hull, Jr., assistant professor of foreign languages.

Dr. Hamilton presided at a breakfast meeting of Sigma Delta Pi, national honorary Spanish society. Dr. Hull served as acting secretary of the German linguistics section.

# AF Cadets Undergo Flight Instructions

Twenty-five senior Air Force ROTC cadets are receiving flight instruction through the "Flight Instruction Program" at Texas Tech.

THE PROGRAM is made possible through a government contract between the Air Force and the college.

Students are receiving instruction in the Piper Tri-pacer type aircraft. Upon completion of the program, the cadet receives a private pilot's license.

Training is conducted by the Wes-Tex Flying School at Lubbock Municipal Airport. Air Force supervisor is Capt. O. B. Ogletree, associate professor of air science.

CADETS TAKING part in the program include E. D. Allen, R. W. Andres, J. R. Bell, D. R. Blanton, C. N. Cochran, E. L. Coleman, B. E. Filler, C. W. Fieszel, E. A. Hagan, Todd Henson, W. E. Hogan, P. H. Laird, G. B. McElroy and K. L. Nutt.

Others are J. L. Parrish, W. E. Parsons, W. E. Scott, R. G. Sewell, S. L. Stumberg, W. K. Taylor, Harry Van Horn, George Vaughn, J. K. Whitfield, J. N. Whitmore and C. J. Ward.

MIND" FOR ACCOUNTANTS

## Challenges Students

Accounting Society and Beta Alpha Psi on "Accounting, A Changing Profession."

HE STRESSED the need for a basic method of accounting, progress and a widening of horizons in the changing accounting profession.

"The human animal is adverse to change. The accounting profession is going to change for better or worse. We must keep open minds and move forward," Lawrence said.

"We must establish leadership within the profession in order to establish sound accounting principles and to develop competence in assisting business in the use of accounting as a tool for planning and forecasting," Lawrence said.

THE NEED for a basic accounting method was emphasized by Lawrence's statement that a company can show either a million dollar profit or a million dollar loss according to the type of accounting it takes to its transactions.

"We have not taken into consideration the impact of inflation," Lawrence said. "We now have about a 30 cent dollar compared to the dollar of 1939."

Lawrence, who spent most of the week in Chicago, also said our northern isn't at all cold compared to the wind blowing off Lake Michigan.

## Prof Attends Business Study

William R. Pasewark, professor of secretarial administration, will attend the sixty-second annual convention of the National Business Teachers Assn. Dec. 28-30 in Cleveland, Ohio.

Theme of the convention, which features tours and workshops, will be "The Increasing Importance of Business Education."

## Divorce Granted!

LONDON (AP)—A wife whose husband spanked her because she didn't cook supper for him 90 minutes before midnight has been given a divorce.

Judge John Flowers said of the case brought by Jean Wood, 27, against John Wood, 35: "No reasonable man would expect his wife to get supper for him at that time of night. And if he did expect it, he wouldn't get it."

# 'Sizeable Seven' Play Penn State Crew Today

by Associated Press

Is Syracuse's "Sizeable Seven" really as big as it's touted? And will that exciting Northwestern team get its biggest push toward representing the Big Ten in the Rose Bowl?

**STICK AROUND** today and you'll find the answers to these, and a few other pertinent football problems.

Unbeaten Syracuse (6-0) plays unbeaten Penn State (7-0) in the

East's biggest game of the year, with the winner having a choice of four major bowls.

**IN THE MIDWEST** Northwestern, unbeaten in six games and the nation's second-ranked team in the latest Associated Press poll, meets Wisconsin (5-1), ninth-ranked and having a severe case of "rose" fever.

These are the day's two big games, but top-ranked Louisiana State meets a tough eleven from Tennessee.

## FROM THE SIDELINES

by BILL BLACKBURN

Just as we were about to concede the fraternity football crown to a strong Phi Delta team, the Pikes came along Wednesday and upset the previously unbeaten Phi's 14-8.

This sent up to the scratch pad figuring out how the standings had been altered. Here is how they stand.

	Won	Lost
Phi Delta Theta	6	1
SAE	6	1
Fiji's	5	2
Pikes	5	2
Delts	4	3
Kappa Sigs	3	4
Sigma Chi's	2	5
Sigma Nu	2	5
Phi Psi	1	6
ATO	1	6

The race could easily wind up in a four way tie if the Fiji's beat the Phi Deltas next Wednesday and the Pikes beat the Sig Alphas this Sunday. As it stands now, the Phi's rate first over the SAE's due to their 13-7 victory over them last week. The Pikes need a clean slate the rest of the way and a defeat for the other three contenders before they could cop it. A win over the Pikes and the Sigma Chi's, plus a Fiji win over the Phi Deltas would give the SAE team the championship. The Fiji's, of course, need to whip the Phi's to stay in contention.

All of this speculating was based, of course, on the possibility of the Phi Deltas losing another game, which is the sort of thing you don't want to bet on, as some have found out!

—F-T-S—

Dorm 7 took a long step toward winning the dorm league when they beat Bledsoe last Tuesday. BSU is still leading the independent league, with the Church of Christ team second.

—F-T-S—

Edsel Buchanan, director of intramurals, has announced that entries are now being taken for bowling and swimming. Bowling entries close November 24, and competition starts December 5. Swimming entries close December 5, and the meet is scheduled for December 14.

—F-T-S—

To set anyone straight who wonders what the devil this column is for, I would like to set forth the goals we have in mind. Our policy has been to cover the best games of the week in the Tuesday and Thursday editions, keeping in mind, however, that a wide coverage of all teams is best.

This column, which will ordinarily appear in the Saturday edition, will be more general in nature and will, in Army lingo, attempt to present the "Big Picture". Odds and ends will be covered here in an informal way. From time to time we will give some personal opinions, but none which will, we hope, be a source of contention.

In short, no philosophy or outspoken statements, "just the facts, ma'am."

# Picadors to Play McMurry 'B' Today

by JOHN PETTY  
Toreador Sports Writer

Texas Tech's Picadors will try for their third straight victory of the season today when they collide with the McMurry "B" squad in Jones Stadium at 2 p.m.

SINCE LOSING their first game to the Eaglets of North Texas State, 20-12, the Picadors have developed into a top notch freshman ball club. They came back to swamp the Hardin-Simmons But- tons 28-9, and then breezed through the Arkansas Shoats 26-6.

McMurry's "B" squad has fared somewhat badly over the season. They have yet to see a victory with one tie and one defeat re- corded for them in their three pre- vious efforts.

THE PICADORS were original- ly scheduled to play the West Tex- as State freshmen last Thursday

at Canyon. The game was can- celled at the request of the West Texas coach, and the McMurry game was set up for today.

Coach Tom Hamm's freshmen will go into the game with a de- cided disadvantage in experience. The McMurry starting lineup boasts four juniors, two sopho- mores and five freshmen while the young Raiders are all first year men.

THOUGH THE Picadors are short on experience, they are de- finitely long on talent. Quarter- back Johnny Lovelace and full- back Coolidge Hunt head the list of Techsan power.

Lovelace has become one of the best potential quarterbacks to hit Jones Stadium in quite a while. Hunt's power in hitting the line and his outstanding defensive play mark him as one of the Picadors' key men.

TECH WILL go into the game with a slight weight advantage

over McMurry. The Raider line will average 197 pounds per man while McMurry's forward wall will weigh in at a 195 pound per man average. In the backfield Tech's foursome will average 188—Mc- Murry's 184.

"McMurry will run from a basic pro-type offense. They split the ends and backs and can run al- most any kind of play from that setup," Coach Hamm said.

Hamm expects to play the en- tire squad as he did against Ar- kansas.

"WE HAVEN'T had a chance to scout their team (McMurry's) be- cause of the short notice. We will have to go into it cold and see what develops," he said.

The Picadors will play today at almost top strength. Only one man—end Byron Lewis—will not suit up. The rest of the team is in top shape, physically.

"WE ARE always afraid of a let down after a victory like the

Arkansas game," Hamm said. "The boys will have to get in the right frame of mind before we can take this one."

This crop of Picadors should be handy supplements to the varsity next year during their first South- west Conference try. They have

proved their desire for rugged football over the past three games.

# R ALPH'S RAMBLINGS

by  
Ralph W.  
Carpenter

In just a few hours from now we should know if the Raiders are going to have a respectable season, or another one of those start fast — end slow nightmares. If they win they can claim at least a 4-6 record and maybe a 5-5 with some breaks against Houston.

If they lose they will be the first Tech team to lose to the Wildcats since way back in 1935. Something you wouldn't want to tell your grandchildren about, is it?

This corner would like to see the Raiders win over the Wildcats and come home next week and defeat Houston in the Homecoming game.

If they bear down and play hard and fast for 60 minutes they could do it.

★—RWC—★

If you want an indication on how the recruiting program fared this year, you should drop out to the Stadium today and look the Picadors over. They will be playing the McMurry "B" team in a game that should prove exciting for all concerned.

Keep an eye on Johnny Lovelace and Coolidge Hunt — this pair of lads should make your ole football heart feel good. If they have a good afternoon, McMurry may wish they had brought Hardin-Simmons with them.

★—RWC—★

Jack Harkrider, sports editor of the TCU Skiff, says the rumors are flying fast and thick concerning the tenure of office of Jim Meyers, head coach at Texas A&M. Harkrider said certain individuals who "know the real score" are saying he will "resign" at the end of the season.

You never can tell, Jack.

★—RWC—★

We have been labeled "chicken," "yellow," and other assorted tidbits this week. Why? Well, a few of our faithful readers thought we failed to predict the games last week on purpose. I can assure you the idea occurred to us, but lack of space was the final reason.

So with tongue in cheek and both hands on our wallet, here goes:

**TEXAS TECH OVER ARIZONA** — Heck, the Raiders should win this one. The Wildcats are improved but they can be had.

**TEXAS OVER BAYLOR** — The Bears will have to throw a lot of Bull (Ronnie) to win this one. The Steers shoot for their eighth straight.

**TEXAS A&M OVER SMU** — The Aggies are playing at home and the Mustangs don't seem to care anymore.

**ARKANSAS OVER RICE** — The Porkers won't have an easy time of it.

## Texas Longhorns to Face Golden Bears Today

Because TCU doesn't play this week, there's no chance of Texas taking an insurmountable lead in Southwest Conference football. The Longhorns can, however, continue with an undefeated, untied record and stay with the top teams in the national rankings. Texas gets old enemy Baylor, a group whose spirit is willing but the flesh isn't strong enough. The pair meet at Austin.
