Delegates Will Attend Ag Meeting

Several agriculture faculty members and graduate students will attend the Grain Sorghum Research and Utilization Conference in Amarillo Thursday and Friday.

Tech's delegation will be headed by Dr. Gerald Thomas, dean of the school, Dr. E. W. Huddleston, Dr. A. W. Young, Dr. Eugene Coleman, Dr. Willard F. Williams, Dr. H. W. Grubb and Hong Lee.

Featured speaker for the event will be Dr. Gianfranco Speranza, assistant spokesman and deputy director for the European Economic Community Commission who will also conduct a seminar Friday at Tech.

At the Tech seminar he will discuss the economic and political aspects of the EEC from 3 to 5 p.m. in the Ag Engineering Auditorium.

ENGINEERING SPEAKER — Dr. Carl F. Prutton, first guest lecturer for Tech's new engineering series, counseled chemical engineer students on their future in industry, during his visit to the campus Monday and Tuesday. Dr. Prutton is the first of six engineers and educators who will appear for the series. —Staff Photo

SC Approves Constitutional Revision Plan

The Student Council Tuesday unanimously approved the revised Student Association Constitution and set March 17 as the date for a student body vote on the constitution.

Roland Anderson, Arts and Sciences representative, read through the proposed constitution provision by provision to clarify and insure approval of all parts.

There was some discussion on the methods of electing senators to the student senate, but it was decided to wait until the constitution had been presented to and approved by the student body before an amendment on election procedures is further discussed.

Three Branches

The proposed constitution will create a student government consisting of executive, legislative and judicial branches, each branch having powers solely its own.

Executive power will be vested in the student body president, whose duties include presenting legislation to the student senate at the first of each semester and at the first senate meeting following his election.

He shall execute legislation passed by the senate and can ap-

point officers and committees with approval of the senate.

The president will also have veto power over senate legislation.

Student Senate

The legislative department will be the student senate, consisting of representatives elected from each academic school.

The senate supervises all campus elections and will "promote, regulate and coordinate student activities and provide for the student welfare."

A veto over presidential actions is given to the senate by the constitution.

The third branch of the student government system will be the supreme court, whose members are appointed by the president with advice and consent of the senate.

The complete revised constitution will appear in the Daily Torreador in a few days, when all minor corrections and additions have been made.

There was no discussion on the proposal made in the last Council meeting concerning the curfew for Tech women living in residence halls.

Food Problem Discussed

O. A. Keeter appeared at the Tuesday meeting to ask for Student Council help in solving the food problems in most of the residence halls on campus.

Keeter said residents, especially in the men's halls, are becoming rebellious, and food riots are increasing because of bad food.

Student Council President Ronnie Botkin suggested that a committee be appointed to study the situation and present facts and make suggestions, if necessary, to the Board of Directors.

Thieves Do \$1500 Business

By DAVID SNYDER
Copy Editor

A city of approximately 13,000 people is bound to have its share of thefts, and the Texas Tech campus is no exception.

In the past three weeks, items stolen have ranged in value from less than five dollars to a diamond wrist watch worth \$572. Total value of reported thefts on the campus in this period was \$1500.

By far the greatest part of these thefts have been from parked automobiles, including both car accessories and items left in the car overnight.

Thieves stole \$550 worth of articles from cars last week alone. Half of this amount was for an electric guitar taken from a locked car in the Bledsoe lot. The rest were car accessories, including five tachometers.

A check by THE DAILY TORREADOR with four of the five tachometer owners revealed that all four cars were locked, and none were damaged by forced entry. Two said that scratches near the window indicated that thieves

gained entrance by shoving a coat hanger through the rubber insulation to pry up the inside door handle.

All five of the thefts occurred the same night.

Chief security officer Bill Daniels said this was the usual trend in car accessory thefts. "It's usually all the same bunch, hitting several cars on the same night," he said.

Daniels said stolen articles are usually tachometers, hubcaps and fenderskirts, but that occasionally thieves take an entire transmission. The seats were even stolen from one car several years ago.

Some of the stolen articles are recovered, he said, but it is difficult to return them to owners because they are not marked.

Thieves often abandon stolen articles along the roadside, and they sometimes turn up in parking lots or storage buildings on campus.

Daniels said that about half the car thieves Traffic-Security has caught in the past several years were Tech students.

Traffic-Security last caught thieves stealing car accessories about six weeks ago.

Non-students caught are booked for theft at the Lubbock Police Department, while Tech students are turned over to the dean of men.

"Most articles stolen by students are used by them," Daniels said. "But the off-campus thugs usually sell them."

Entrance is gained to locked cars by finding a key that will fit the lock, breaking a vent glass or using a coat hanger. Cars are often left unlocked, Daniels said.

Two security officers patrol the entire campus at night, including

dorm lots containing some 2,500 cars. Almost all thefts occur in the four men's residence hall lots.

Cars parked near the back of parking lots were most frequently hit, victims said. One, however, was in the second row.

Daniels said the best ways to discourage theft of articles from car and car accessories was to not leave valuables in the car and to mark hubcaps, tachometers, fenderskirts and other accessories.

Alpha Phi Omega, men's service organization, is planning to sponsor a campaign to etch names on car hubcaps and other articles. A definite date has not been set.

Bradford Selected 'Engineer Of Year'

Dr. John R. Bradford, dean of the School of Engineering, received the 1964 "Engineer of the Year" award Monday night.

The honor, awarded annually by the South Plains Chapter of the Texas Society of Professional Engineers, was given to Bradford for his outstanding contribution to engineering in the field of education, said M. J. Adderton, past recipient of the award and member of the selection committee.

Adderton said since Bradford has been dean of Tech's engineering school it has grown both in quality of instruction and in size of operating budget.

"We consider him an outstanding engineer and are very happy to present this annual award to him," said Adderton. His chamber of commerce work, his active participation in his church and other civic activities qualify him as a good citizen as well as an engineer, he added.

Bradford is a 1942 graduate of Texas Tech. He took his doctor's degree from Case Institute in 1953.

DR. BRADFORD

Voting On Tap Today To Fill 4 SC Posts

Voting for four Student Council representatives is scheduled today from 8 a.m.-5 p.m. with polls closed one hour at noon.

Balloting for all positions may be done in both the Union and the Ad Bldg. Additional polls include one in the BA Bldg. for business administration representatives and one in the Mechanical and Civil Engineering Bldg. (East Engineering) for the one position open in that school.

Candidates for the Arts and Sciences representative include Sid Banks, Ann Annette Brewer, Dwight B. Fullingim, Finah Goode and Suzi Thompson.

With two vacancies in the School of Business Administration, candidates are Bill Beuck, Tom Fuller, Scott Gilmour and Phil Roberts.

The only candidate in the School of Engineering is Richard Varnell.

Counselor Hopes To End Rush

Students needing help in the selection of majors, in changing schools or in personal problems should go to the testing and counseling center now and not wait until mid-semester, according to Dr. James Edward Kuntz.

Dr. Kuntz, director of the testing and counseling center, said the center was a "madhouse" at the end of the semester, because students waited until the last minute to seek help.

"Unless the students come during the semester, the center can't do justice in serving them, since the counseling process shouldn't be hurried," Dr. Kuntz said.

Educational-vocational counseling consists of two phases. Phase one includes sizing-up to see what sort of person the student is, what his needs are, what his strength and weaknesses are, and what he wants out of life. This is determined by background questionnaires, a series of tests and interviews with the counselor.

Phase two is on occupations and academic programs. The counseling center has a reading room which contains extensive information on occupations and college bulletins.

The center also offers confidential counseling to students who need assistance in working out their difficulties.

UT Students To Sponsor Lettermen Concert Here

The Lettermen, popular recording trio, will appear at Tech March 6.

The three vocalists will present a concert at 8 p.m. in the Lubbock Municipal Auditorium. They are being sponsored by students from the University of Texas, who plan to bring a variety of talent to

Lubbock if their initial venture succeeds.

"We hope to bring different groups here next year," said Angus Wynne, one of the students. "It all depends on how well the students receive The Lettermen."

The trio, which records for Capitol records, have appeared at

more than 350 colleges. Their albums have sold in the millions and they have made countless night club appearances.

Individually, the members of the trio had been group vocalists for some time before they combined. They met when one of the boys, Jim Pike, auditioned for a group of which Tony Butala was a member. During the audition, the two discovered their unusual blend of voices, and set about searching for a third member. They found him in Bob Engemann.

Their act includes almost every type of popular and folk music. They all have the same range and interchange their parts, singing the melody line, top or bottom. They also each do solos. In their night club appearances, they combine their singing with comedy and vocal impressions.

Tickets to the Lettermen concert are on sale at Wayne's Records and Brown's Varsity. They will be \$2.25 for lower floor seats and \$1.50 for balcony.

BSO RETREAT

Delegates to the Board of Student Organizations' retreat must pay the \$32.85 expense fee by today, Feb. 24. The fee can be paid from 4-5 p.m. in the Organizations Room of the Tech Union.

DANCER — Eric Hawkins, one of America's leading male dancers, will appear March 3 at the Lubbock Municipal Auditorium. His performance is sponsored by the Special Events Committee and will be free.

Top Ranking Dancer To Present Concert

Eric Hawkins, one of America's leading male dancers, will present a concert at 7:30 p.m. March 3 in the Lubbock Municipal Auditorium.

The concert is sponsored by the Special Events Committee of the Union and will be free.

Hawkins began his career at 15 when he won a scholarship to Harvard University. While at Har-

vard, he majored in Greek philosophy and art. He also participated in athletics, primarily swimming and rowing.

His training in dance technique came from George Balanchine and Martha Graham. When Balanchine saw "Show Piece," Hawkins' first choreographic effort, he spoke of Hawkins as a gifted choreographer.

It was on the strength of "Show Piece" that Hawkins received an invitation from Martha Graham to become her partner. While performing with Miss Graham, he attracted the attention of Agnes de Mille, who invited him to dance the role of Curley in her "Oklahoma" on Broadway.

For 13 years, Hawkins has worked with composer Lucia Dlugoszewski and sculpture Ralph Dorazio to create a new poetic theater.

Hawkins has also been praised by critics. Arthur Todd of "Dance and Dancers of London" wrote that, "Eric Hawkins is in the forefront of the creative development of dance combined with decor and especially commissioned music. In its own way, such a work by Hawkins is as much a creative fusion of theater arts, in a truly contemporary manner, as the works commissioned by the Diaghilev company in its prime."

While at Tech, Hawkins will present a lecture and master dance class in addition to his concert. The class will be given in the Union Ballroom at 2:30 p.m. and the lecture will be in the Coronado Room at 4 p.m.

OMICRON DELTA EPSILON

Omicron Delta Epsilon, economics honorary, is taking nominations for spring membership.

Undergraduate students with the following qualifications may apply: (1) junior standing or higher, (2) 12 semester hours of economics with a B average or better, and (3) an overall B average.

Resident graduate students majoring in economics and having a graduate work average of B or better may apply.

Eligible persons should see Harry Walker, faculty sponsor, in the B.A. Bldg., room 321.

MORTAR BOARD

Mortar Board meets at 8:30 p.m. today in Tech Union, room 208.

SIGMA DELTA CHI LUNCHEON

Sigma Delta Chi, men's professional journalistic society, will have a buffet dinner at noon Thursday in the Union, room 208.

All prospective pledges are invited.

SIGMA ALPHA ETA

Sigma Alpha Eta, speech and hearing honorary, will have a panel discussion on clinical practices at a noon meeting today in the speech clinic.

YOUNG REPUBLICANS

Tech's Young Republicans will feature Frank Cromley, Dallas county commissioner, at a 7:30 p.m. meeting Thursday in the Union Coronado Room.

UNIVERSITY SING

Sororities, fraternities and independent organizations will plan the University Sing at 7 p.m. today in room 202, Music Bldg. All recognized campus organizations, including dormitories, may participate. Information will be given on rules and on the organization of choirs. Trophies will be awarded at the University Sing, scheduled for April 24.

MUN To Discuss Charter Revision

When Tech's Model United Nation opens Thursday, two topics will be discussed—charter revision and the Jordan River conflict.

Topics to be debated on the charter revision include:

- Enlargement of the major organs of the U.N.
- Financial responsibility of member nations.
- Admission of new members.
- Role of the secretariat.
- Authority of the U.N. for the conduct of peace keeping missions.
- Compulsive jurisdiction for the International Court of Justice.
- Function of regional defense pacts within the framework of the United Nations.
- The focal point of power—General Assembly or Security Council.
- The amendment process.
- Necessity of agreement of the permanent members of the Security Council on all matters which are not procedural—that is, the right to veto.
- Proportional voting in the General Assembly.

The Jordan River conflict deals with the effective distribution of

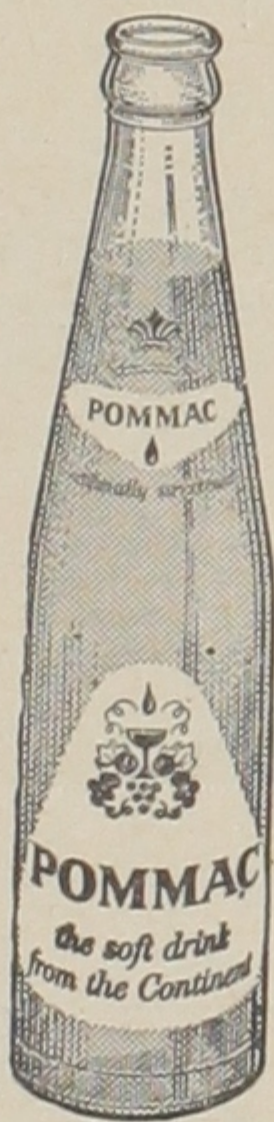

Jordan waters. Present difficulties stem from the announced intention of the Israeli government to draw water from the Jordan to irrigate the Negev Desert in Southern Israel. The Arabs are threatening to oppose it by diverting the Jordan's headwaters.

Syria and Israel have both asked the Security Council to stop what each called the aggressive activities of the other. In the meantime, border clashes between the two countries continue.

Tech's MUN will attempt to solve these two problems by presenting resolutions, position papers, and by debating the topics. The MUN will be Thursday through Saturday.

MUN ORIENTATION

An orientation for all MUN delegates will be conducted at 7 p.m. today in the Union Coronado Room. Delegates will discuss the rules of procedure, judging procedures, messenger, seating arrangement, language used and the banquet. Bloc meetings will follow.

Baylor Bears Drop Tech Again 88-86

TOREADOR
SPORTS
PAGE

By ALAN SEARCY
Sports Editor

Baylor's Ed Horne hit a 10 foot jump shot with no time remaining to give the Bears an 88-86 victory over Texas Tech Tuesday night in Waco. The win was Baylor's second over the Raiders this year.

The Raiders, who are now 9-2 in conference action and 14-6 for the season, still remain one game ahead of the pack. Second place SMU beat Rice 100-80 in Dallas to stay in the thick of the race. The Ponies' conference record is 8-3.

Baylor ran its conference mark to 7-4 and its season slate to 14-7. The win gave the Bears a sweep of the two games with the Raiders this year. They won in Lubbock three weeks ago 77-74.

Dub Malaise led the Raider cause with 31 points, and Norman Reuther was right behind him with 29. Harold Denney had 13 points.

Horne, who sank the winning basket, topped Baylor with 26 markers. Winston Moore recorded 17, and sophomore Darrell Hardy scored 14.

For the entire contest Tech hit 33 of 64 field goals for a 51.6 percentage. The Bears managed a whopping 57.7 mean, connecting on 37 of 62 attempts. The Raiders grabbed 32 rebounds to Baylor's 28.

Taking the opening tip, Glen Hallum tossed the ball to Malaise who quickly hit a 20-footer to put the Raiders ahead 2-0. Moore didn't take long to tie up the game and put the Bears ahead 3-2 on a free throw.

The lead then changed hands several times until Tech took an 11-9 margin with a little over 16 minutes remaining in the first half. The Raiders built up an eight point

lead, 18-10, during this splurge, but Baylor tied the game 21-21 and took the lead, building up as much as a five point spread, 33-28.

Tech Leads At Half

Malaise hit a jumper with 5:20 remaining to put Tech ahead 36-35. The Raiders then built this lead to as much as six points, 43-37, and led at halftime 53-48.

The Raiders hit 21 of 38 field goals in the opening stanza for a 55.3 percentage and 11 of 14 free throws for a 78.6 clip. Baylor hit

19 of 32 for a 59.4 free throw average and 10 of 14 free throws for a 71.4 mean. Tech held the edge in rebounding, 18-17.

In the first half the lead changed hands six times and the game was tied eight times.

Hardy opened the second half scoring to narrow the Tech margin to 53-50. The Raiders held the lead until with a little over six minutes remaining in the contest, Horne hit to tie the game at 80 all.

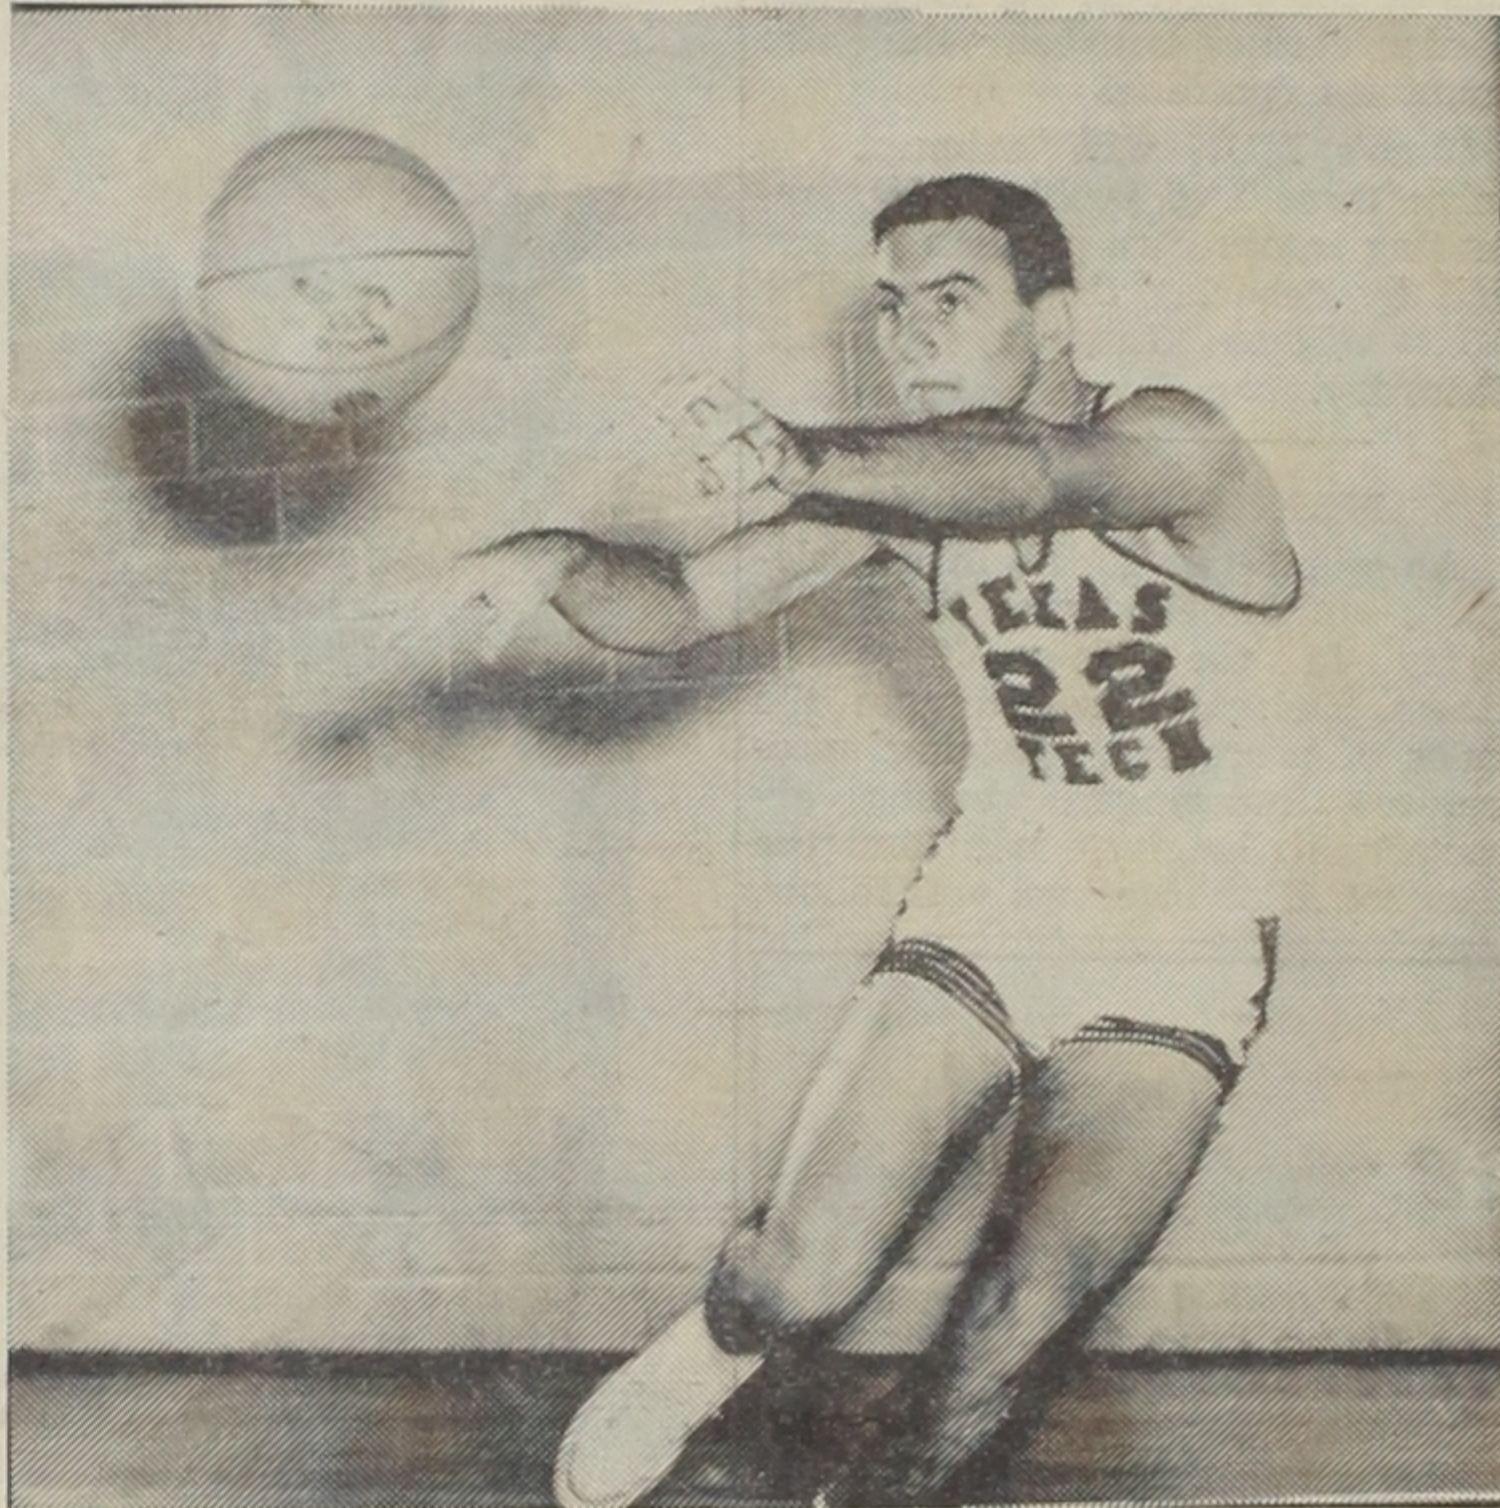

The lead changed hands six times before being again tied at 86-86 with 1:46 remaining. Tech called time and came out in its stall offense. However, Hallum was called for charging and Baylor got the ball with 56 seconds left.

Baylor Stalls

Baylor took a time out and came out in their stall offense too. With only a few seconds remaining, Horne got the ball and hit a 10 footer to give the Bears the 88-86 victory.

The second half was tied only three times, and the lead changed hands six times. Tech's largest margin of the final stanza was eight, 73-65, which came with a little under ten minutes to go. Baylor's biggest lead was the two point edge they finished with.

Tech's next game will be Friday night in the Coliseum against Texas Christian.

ALL-AMERICA HONORABLE MENTION — Dub Malaise, Tech 5-11 junior guard from Odessa, was voted an honorable mention to the NEA All-America Basketball Team. Malaise was the only Southwest Conference player to be named to the team.

Networks OK Sale

WASHINGTON (AP) — Top officials of two rival television networks defended Tuesday the purchase of the New York Yankees by the Columbia Broadcasting System.

Both Thomas W. Moore, president of the American Broadcasting Co., and Julian Goodman, a vice president of the National Broadcasting Co., gave much the same answers at a Senate antitrust and monopoly subcommittee hearing.

Neither man felt CBS would gain any unfair advantage in bidding for future television rights.

Both men said that while their networks had no immediate plans to purchase a baseball team, they might at some time in the future and objected to any action which might prevent this.

SHADES OF SPRING — Call them bone, clay, putty. They all add up to a new fashion color. The nations style leaders forecast these glows to be the "other shade" to give the overworked black suit a much needed rest. Complimented with a maize or blue shirt, these daytime colors give a handsome effect.

NO, THAT GUY did not lose his collar. He is wearing the popular HENLY KNIT SHIRT. It is really a shirt with no collar at all. The neck is piped and the 2 or 3 buttons in the front should button clear to the top.

1965 SWIMWEAR can be summed up in one word, WOW!! It will be a cold war to see who will get by showing the mostest wearing the leastest. The tenny weeny polka dot bikini will have nothing on the new surfer suits. Better start working out on those bar bells fellows.

IF YOU PUT shoe trees in those penny loafers you will get three times your money's worth.

SCENE AT LESTER'S Hickory Inn Saturday night — dapper Mike Sherman of SAE in black silk-wool sharkskin suit, white button down shirt, and tie, picking up the check for table of 8.

COLLEGE CORNER predicts the side vent model hopsack sportcoat to be a style leader this fall.

College Corner

Pitchers Sign

Two of the outstanding pitchers of 1964 came to agreements with their respective clubs Monday. The New York Yankees gave Jim Bouton \$29,000 to play ball in 1965. Bouton won 18 games while losing 13 for the American League champions.

Perfect-game hurler, Jim Bunning signed a contract for a little more than \$50,000 with the Philadelphia Phillies. Bunning won 19 games in 1964 for the Phils. He was one of the main reasons the Phillies led the National League for almost half of the season.
