

King Watches Heads Fall

Yemen's King Imam Ahmad's eyes bulge as he watches (right) heads fall during public executions of some of those found guilty of taking part in an unsuccessful attempt to remove him from the throne last month. The beheadings took place in the capital city of Taiz earlier this month. At left, an Army officer is beheaded. Fourteen persons reportedly have been executed in connection with the abortive plot.

Nixon's All Wet After First Fishing Trip

WASHINGTON (AP)—A somewhat frenzied fishing trip in the Florida Everglades by Vice President Nixon came to light today. It was the first attempt at fishing for Nixon and he wound up overboard twice. The story was recounted by James Shepley, chief of the Time-Life Washington Bureau, who was with Nixon on the trip and who snapped a number of photographs, including one showing Nixon in the drink. "He went overboard twice," Shepley said, "but he took it all in good fun. He didn't catch any fish, though." Shepley recounted one Nixon quip after his second dunking. As he was about to climb back into his boat, Nixon said: "Do you think we ought to bother getting in?" The fishing expedition grew out of remarks made by Gen. W. B. (Jerry) Persons, White House liaison man with Congress, who had been telling Nixon about all the snook he'd been catching in the Everglades. So Nixon, who went on a trip to Biscayne Key, Fla., from April 5 to 17, agreed to meet Persons and Shepley, fishing partner of the general, and try his luck. Bebe Rebozo, Miami businessman with whom Nixon was visiting, also went along. Shepley related they got about 20 or 30 miles in the wilderness and started fishing from outboard motor skiffs. Mangroves abounded, making casting difficult even for experienced fishermen. "Nixon was trying to fish and learn how to cast all at the same time," Shepley said. One cast put a lure in a mangrove and as Nixon tried to reach it, he fell overboard. The second time Nixon, Shepley and a guide went overboard when the guide turned too sharply. It was here, Shepley said, that Nixon wondered whether they should get back in the boat.

Millions Of Americans Entering Annual Daylight Saving Time

By The Associated Press
warm season was originated nearly 50 years ago by an Englishman, William Willett. Said he: "While daylight surrounds us, cheerfulness reigns and courage is bred for the struggle of life." Big appeal of the early time is in industrial areas, where it may mean less electricity for lighting. It also provides more after-work daylight for leisure of workers. In some states, daylight time is confined only to individual communities. For instance, in New Mexico, the only place going on the new schedule is the atomic city of Los Alamos. In Missouri, only St. Louis goes on "fast" time. Also in Montana, Butte is the only point doing so. Manda, N.D., alone makes the change in the Dakotas. But in other states where no statewide plan applies, many cities make the shift individually. This is true in the northern half of Ohio, much of Illinois, the eastern half of Indiana, and a big swath of central Kentucky, nearly all over Maryland and Pennsylvania. The South and the great central region of the United States will stay on regular time. Farmers say the cows don't come home until sundown, and there's no point in changing clocks if they can't change milking time. Although daylight time customarily has ended the last Sunday in September, there are plans to extend it until the last Sunday in October this year in the North-eastern states. New York, Massachusetts, Connecticut, Rhode Island, New Hampshire and Pittsburgh, Pa., already have added the extra month of "fast" time, and other states in the region may do so. Philadelphia's City Council yesterday voted to give the city an extra month of daylight time this year. Lawmakers are pondering the idea in Maine, Chicago and New Jersey. All financial and commodity markets in New York City and New York State will shift automatically to daylight time. The idea of switching clocks to grab an extra hour of daylight activity during the long days of the

Southern Communist Party Leader Convicted By U. S.

GREENSBORO, N.C. (AP)—Communist Junius I. Scales was convicted last night for advocating overthrow of the U.S. government by force and violence. Scales, 35-year-old Communist in Federal Court. The maximum sentence under the Smith Act is 10 years' imprisonment, a \$10,000 fine or both. Scales, 35-year-old Communist party chairman in the Carolinas, was the second person convicted as an individual under the Smith Act. The other was Claude Lightfoot, also an admitted Communist. Lightfoot was convicted in Chicago last January and given five years and a \$5,000 fine. For nine days a jury of nine men and three women heard testimony and arguments on charges that: The Communist party advocates overthrow of the government by force and violence; Scales was a member knowing this to be the party goal; and he worked to bring it about. Scales, grand-nephew of a former North Carolina governor, maintained the calm manner he had throughout the trial as the jury filed in after 1 1/2 hours' deliberation and announced its verdict. His lawyer said immediately that it will be appealed. Scales said to reporters, "I reiterate my innocence." The jury returned to the courtroom after 40 minutes' deliberation to hear part of the testimony read. The excerpt was from the testimony of Charles B. Childs, one of two government witnesses who said they were undercover informants within the party for the FBI. The jury wanted to go over his story of a school for "outstanding" young Communists he said was held, under Scales' direction, on the farm of William and Eleanor Binkley near Walnut Cove, N.C. The other FBI undercover man was Charlotte lawyer Ralph Clontz. The government's only other witness was ex-Communist John Lauer, who testified the party was firmly committed to violent revolution. After the verdict, Scales told newsmen, "my party has never advocated force and violence." Scales did not testify. Six witnesses testified for the defense. Three said they knew Scales casually while he was attending the University of North Carolina and considered him sin-

YMCA, Red Cross To Conduct Water Safety, Swim Classes

With daily temperatures already in the 80's and 90's, it'll soon be "down to the ol' swimming hole" for Big Spring. "Plans are already being made to give lessons in water safety at the City Park pool. Youngsters and their elders will have ample opportunity to learn to swim, life saving procedures and other water safety measures. The YMCA will conduct two "learn to swim" schools and the local chapter of the Red Cross will sponsor classes on junior and senior life saving. YMCA swim teachers have Red Cross certificates and are fully qualified to teach the various safety measures in and around swimming pools. The first "learn to swim" class conducted by the YMCA will be held June 6-17. Instructors have not yet been decided upon, but students from the high school and Howard County Junior College will be chosen in May. Persons desiring to enter the class may do so by registering at the YMCA during May. Swim students may be any age above seven years and the only other requirement is that they be members of the YMCA. There is no charge for the lessons. Last year, there were over 700 students and more are expected this year. Another class for beginning swimmers will be conducted July 5-15. However, if registration is heavy this second class may be reserved for advanced swimming lessons. The Red Cross will sponsor its annual senior and junior life saving programs during June. Open Puckett is the Water Safety Chairman of the chapter and will conduct the classes. He conducted three classes last year and will again this year if enough students enroll. All phases of advanced water safety are taught in the classes. Puckett said he would prefer to have about 24

Only 2 Voiced Opposition To Water Program

AUSTIN (AP)—A representative from the High Plains and one from far West Texas sounded the only words of opposition as the state water fund program finally passed the House Thursday. J. O. Gillham of Brownfield and Dick Slack of Pecos tried to keep the measure from getting the 100 votes it needed for final House passage, but even their fellow West Texans didn't support them. All other West Texas members voted for the measure. W. G. Kirklin of Odessa, Joe Burkett of Kerrville and Leroy Sauls of Kress were in the parade of members who urged legislators to change their mind and pass the measure. They mustered a comfortable 117 votes. The resolution calling for a constitutional amendment now goes back to the Senate en route to a conference committee. The House was working on Sen. Dorsey Hardeman's S. J. R. 1, the Water Resources Committee's proposal for a statewide water fund supported by a property tax and administered by an appointive board. Burkett directed a House drive which completely changed the Senate bill. As passed by the House, the fund would be supported by a water users tax and administered by an elective board. Some West Texans, who opposed the property tax because they say they can never benefit from the fund since they have no dam sites, expressed fears the conference committee will change the measure back to the Senate version.

Money, Girl Found

TOKYO (AP)—Her father reported Naoko Seki, 22, Tokyo bank clerk, missing about the same time the bank reported \$3,000 missing. Police found the girl and money yesterday in northern Japan.

Sorghums Exported

DALLAS (AP)—The Dallas office of the Commodity Stabilization Service says 2,054,000 bushels of grain sorghum have been sold for export. The grains came from stocks of the Commodity Credit Corporation obtained under last year's price support program.

Discharge Upheld

SAN ANTONIO (AP)—The discharge of San Antonio police officer Thomas Reagan has been upheld by the Fire and Police Civil Service Commission. Reagan, suspended March 15th for "conduct prejudicial to good order and violation of police rules and regulations," had identified himself as the state leader of a white supremacy group.

Here's The SOLUTION To CASHWORD PUZZLE NO. 11

The clue purposely says "often be found" which rules out a Tie which is not a frequent event and so certainly not "often" discussed.

- ### EXPLANATION OF MORE DIFFICULT CLUES
- CLUES ACROSS:
2. Spa is best. "Might succeed" implies that "prominent mention" was sought after and was successfully gotten. A Spy, and particularly a famous one, would not seek publicity. He would shun it as a Spy. A famous Spa might succeed in being prominently mentioned, if, for example, some notable was a guest there.
 9. Pace fits the clue better. The man could be present at a Race and not actually be taking part in it. The clue does not say he is participating. Not so with Pace. Here your natural interpretation of the clue is that the Pace is an unusually fast one for that man to be stepping. A man could watch a Race, but, not generally speaking, a Pace.
 11. Boots fits the clue better. "Good" as applied to Books, means "well-written" rather than "expensively produced," and the "good"-ness of a book is not necessarily suggested by the price.
 13. Poll is more apt. The clue says "describes a kind of tax." Poll does "describe" a kind of tax. Toll is a tax in itself. It does not "describe" a tax.
 16. Lie is best. A good Lie is important in making a golf shot and golfers always enjoy discussing the different ones after the game. A Tee is an unremarkable thing, and, if discussed at all, would not be discussed at some length.
- CLUES DOWN:
1. Wool is best. In many jobs it is quite often possible to use the wrong Tool and still get excellent results. Use the wrong Wool, however, and there will undoubtedly be a difference in results that will be apparent.
 4. Having his Way means doing what he wants to do. Having his Say is doing one of the things he may want to do. Way, then, is the more comprehensive answer, being his whole will, and including Say when this happens to be what he wants.
 10. This is a close choice and your only lead is the fact that the way the clue is worded implies that this has only one door (its door). This favors Cape because, generally speaking, a Cape has one door and a Cafe more than one, as, for instance, a front and back door.
 18. You "may expect" a Sailor to be a handy sort of fellow, able to handle a needle and thread. Surely you know a Tailor can do so; it's not a case of "may or may not" expect him to.
 19. Gold is the surer answer. A Golf trophy might be a small inexpensive thing with no great reason for pride. Gold trophies are expected to be awarded for reasonably high achievement.
 20. Leg is best. You can certainly easily lose your balance standing on one Leg. Not necessarily so with Log which might be a nice big one.

A Bible Thought For Today

Knowing that a man is not justified by the works of the law, but by the faith of Jesus Christ, even we have believed in Jesus Christ, that we might be justified by the faith of Christ, and not by the works of the law; for by the works of the law shall no flesh be justified. (Gal. 2:16).

Editorial

Two Views On Dulles Report

That was quite a session Secretary Dulles had with the Senate Foreign Relations Committee last Thursday. His identification of the State Department functionary who gave the New York Times the full transcript of the Yalta Papers as Carl W. McCordle, an assistant secretary of State, wasn't exactly news; McCordle's name had been frequently mentioned in that connection. Nor was his refusal to "discipline" McCordle exactly news, either; Dulles himself had made the final decision to make the papers public.

Sen. Sparkman (D-Ala) got into the act, and perhaps threw some worthwhile light on what happened and what Dulles said. He agreed with Humphrey that Dulles had said the Yalta agreements as they affected Europe were at the time a "victory" for the United States.

Eyes Bigger Than The Stomach

As customary along about this period of every legislative session things are getting in a jam down at Austin. The time is growing short, and few of the major bills are anywhere near final action. As usual the money bills are causing the greatest discord and confusion.

at fault. Two streams of people constantly travel to and out of Austin. They are made up of the Smiths and Joneses who go down there to ask the Legislature for new or bigger appropriations for whatever they happen to be interested in. So the Smiths and the Joneses, if they howl loud enough, get the promises they want and go home content.

Van Gogh Film To Be Serious

HOLLYWOOD — Art lovers need not worry. MGM is not going to shoot the life of painter Vincent van Gogh as "Lend an Ear."

company, but gave up the project when it appeared that MGM had priority. Houseman displayed some self-portraits of Van Gogh which bear an amazing resemblance to Douglas.

Must Be Some Mistake

James Marlow Matus Question Confuses Everyone

WASHINGTON — The American people and the Red Chinese have one thing in common: Both are left guessing whether the Eisenhower administration intends to defend the Matus and Quemoy Islands, close to the Red China coast.

On Wednesday the Defense Department announced, "in view of the tense situation" in the Formosa area, Adm. Arthur W. Radford and Walter S. Robertson, assistant secretary of state, would fly to Formosa. They left within two hours.

Yesterday Sen. George (D-Ga), chairman of the Foreign Relations Committee, the one man outside the administration most likely to know the purpose of the Radford-Robertson trip, said he thought the men were going to Formosa to get a first-hand view of the situation.

There have been several jolts in recent weeks. They were startling when they happened. The net effect was confusion.

Chiang Kai-shek, the American ally, claims Matus and Quemoy has troops on them. His main forces are on Formosa. The United States, by treaty with Chiang, is pledged to defend Formosa but not Matus and Quemoy.

Chiang Kai-shek, the American ally, claims Matus and Quemoy has troops on them. His main forces are on Formosa. The United States, by treaty with Chiang, is pledged to defend Formosa but not Matus and Quemoy.

Hal Boyle Dog-Gone Those Europeans!

By MICHAEL GOLDSMITH (For HAL BOYLE)

LANGENTHAL, Switzerland — Does your poodle wear a classical or a modern haircut? If you spurn tradition and shave off all his hair except for "cuts" on his legs, a tuft on his tail and a "corset" round the middle, then both you and your dog are suspect in the eyes of Fritz Ruef, recently elected president of the International Cynological Federation.

Unfortunately, Ruef said, base profit motives led to a refusal by certain "fraudulent elements" to kill off the excess puppies. "They even wanted us to enroll this illegal offspring in our official register," Mr. Ruef exclaimed with indignation.

Recognized "federation" dogs—says Ruef—are a distinct social class above the upstart "union" dogs—not to mention the untouchable class of dogs who don't belong to any organization. "Federation" dogs are rigorously forbidden to have any social contacts with "union" or unorganized dogs. Misalliances do occur, Mr. Ruef admitted, but the offspring doesn't have a dog's chance of inclusion in any social register recognized by the federation.

Five From BSHS In Regional Events

Mr. Bregor

Five pupils from the Big Spring Senior High School will be participating in the Interscholastic League Regional meeting in Lubbock Saturday.

Three of the number—Carlisle (Frosty) Robison, Bobby Fuller and Kenneth Harmon—will be in the track and field meet. Marilyn Morris and China Carroll will be journalism contestants.

Summary Judgment Granted In Suit

Motion for a summary judgment has been granted in 118th District Court in a suit for accounting and partition of an alleged partnership.

Around The Rim State Tax Advocated On Trading Stamps

The sermon today is going to make some housewives mad. Text is a pamphlet entitled "The 75 Million Dollar Take," which was published by the Texas Service Stations Associated at Brownwood.

trade stamp dealers should be levied. The pamphlet claims that a fourth of the service stations in Texas use trading stamps, and that station operators pay about \$13 1/2 million for the stamps.

Business Mirror

Prosperity Chorus Rises Higher

NEW YORK —The prosperity chorus rises higher today. Booming business is shown in the profit statements of corporations in many fields. Predictions of continuing good times are sounded at stockholders' annual meetings.

Libbey-Owens-Ford Glass Co.'s chairman, John D. Biggers, tells stockholders sales and profits are at a record high. Prospects for the year look good, paced by the "unprecedented residential and school construction."

J. A. Livingston Drug Firms Took Calculated Risk On Vaccine

The economics of the Salk polio vaccine seem, at first analysis, entirely topsyturvy and at variance with America's traditional profit-and-loss system.

later but before the next polio season. A shot consists of 1 c.c. (cubic centimeter) of vaccine. Foundation officials regard the price as "extremely favorable."

The Big Spring Herald

Published Sunday morning and weekday afternoons except Saturday by AFFILIATED NEWSPAPERS, INC. 200 Main St. Dial 4-1311 Big Spring, Texas

Dallas School Burns

Flames and smoke billow from the roof of the William B. Travis elementary school in Dallas, Tex. Dallas Fire Chief C. N. Penn told the Associated Press: "Somebody beat in windows in the school's classroom section in the west part of the building and then set the fire." He estimated damage at \$125,000 and said the building was 75 per cent destroyed.

Thieves Ignore Widow's Plea

NEW YORK (AP)—Two robbers, disregarding the pleas of a recently widowed Brooklyn woman, last night looted her home of \$1,500 in jewelry and \$20 in cash.

The armed thugs pushed their way into the home of Mrs. Shirley Stark whose husband, Dr. Julius Stark, was killed April 7 in a five-car collision on New Jersey's Pulaski Skyway.

One robber stood guard over the woman's two children, Allen, 15, and Tobey, 10. The other gathered up the gems and cash.

Mrs. Stark pleaded: "I'm a widow. I've just lost my husband. Can't you leave us alone?" She pointed to the mourning candles burning on a sideboard. The bandits ignored her plea and fled with the loot.

Eleanor Gets Service Award

NEW YORK (AP)—Mrs. Franklin D. Roosevelt is the recipient of the sixth annual Philip Murray award, a plaque, and \$5,000 for "a lifetime of service in behalf of many people."

At the award presentation last night, Mrs. Roosevelt said: "I can only accept it as really being given largely to my husband, because I think interest in health and welfare was always one of his interests."

She indicated the money would go to the National Foundation for Infantile Paralysis or to a boys' school in which she is interested. The award is made yearly in memory of the late president of the CIO.

Atom Expert Would Aid Poor Nations

LOS ANGELES (AP)—John Jay Hopkins, president of the company that made the world's first atomic powered submarine, has urged that the United States make atomic industrial power available first to underdeveloped areas of the world.

Hopkins, president of General Dynamics Corp. of New York, told a founders' day gathering at Occidental College yesterday that oil, coal and hydroelectric power are still cheaper in this country than atomic power.

But, he said, costs for conventional power run much higher in many parts of the world than they do in the United States. Hopkins, whose company built the atomic-powered USS Nautilus, added:

"I think now that those who have studied this evolving atomic situation are pretty well agreed that the time has come when it is practical for private enterprise to develop atomic power for peaceful purposes. The present question is, what is the best way to get started?"

"It seems to me that the answer to that question lies in what I call the 'paradox of world markets.' By this I mean that the quickest way to make atomic power generally available in our own country, in my opinion, is to make it available first abroad, and particularly in the so-called 'underdeveloped areas.'"

"Though atomic power in the United States," said Hopkins, "is not yet competitive price-wise with mineral fuels or water power, it is definitely competitive in many other countries."

"Industrialization by atom will sharply raise the income of these countries, and will make them major markets for American crops and goods through mutually beneficial trade," he said.

"The experience gained by installing atomic reactors abroad, with the cost reductions and technological improvements that are bound to result, will speed the day when it is feasible to make general use of atomic power here at home."

He said that he considered the atomic submarine built by General Dynamics to be on the "bright side" of the atomic situation. The Nautilus is far more than a weapon, he said.

"If the Nautilus were to tie up tomorrow at the dock at Groton, Conn., and connect her atomic engines to that city's power system, she could keep its lights burning and its electric engines running possibly for weeks on end—without refueling."

Oil Leader Dies

DALLAS (AP)—James G. Boyce, 74, vice-president and treasurer of the Nebo Oil Co., Inc., Dallas, died in a hospital yesterday. Boyce held the same office with the Pine Woods Lumber Co., Ltd., Dallas, and was vice president of the William Buchanan Foundation.

Nationalists Reject Exit From Isles

TAIPEI, Formosa (AP)—High Nationalist Chinese officials rejected beforehand today any proposal that might be made for Chiang Kai-shek's forces to abandon the coastal island group of Quemoy and Matsu.

"Absurd—ridiculous—unthinkable—impossible," these officials said of Washington reports that the United States may seek a cease-fire which would mean giving up the islands to the Communists.

The officials declined to be named. They said the question was a hypothetical one. They insisted that the United States had at no time suggested, directly or indirectly, that those offshore islands be yielded to the Reds, as were the Yachens.

Lost 48 Pounds With Barcetrane

"I weighed 178 pounds when I commenced to take Barcetrane," writes Mrs. Clifford Morgan, 5212 Tenth St., Fort Arthur, Texas. "I lost 5 pounds the first week. I now weigh 130 pounds. Barcetrane makes me feel better and keeps me regular." Just get 4 ounces of Barcetrane at your druggist. Mix with grapefruit juice as directed on label. Then take according to directions. If the very first bottle doesn't show you the way to take off ugly fat, return the empty bottle for your money back.

Not For Marriage

Dear Miss Brandow: A few months ago I was engaged; however we broke up. Then I met another boy with whom I fell in love and we became engaged. He moved to California and while he was gone I fell for a boy here and he wants me to quit school and marry him. The boy in California writes that he still loves me and I love them both. Which one shall I marry? Which one will I make a good wife?

Cathy: At the rate you're going you may make a regiment of men a good wife before you're through. Love isn't a game; nor is marriage a thrill-packed drama. Right now you are not ready to meet the emotional demands of marriage with anyone. Marriage means being able to give understanding and sympathy. It means giving in and giving up when necessary. It means forbearance and forgiveness and putting someone else before yourself.

Money may not always be plentiful nor health abundant but through good or bad days marriage means sticking together in love "until death do us part."

When, within a few short months, you can seriously consider marrying three different people and when your love will not stand the trial of separation, you may be sure it is not yet stable enough to weather the storms that descend on all marriages. Only in the movies is married life always full of romance.

Real life marriage is full of very real problems which can be met only by the rich enduring love of two capable, mature people for each other.

Those who marry believing that love is the thrill of a kiss on a moonlight night have a rude awakening in store. The divorce courts are full of disillusioned people who grew up the hard way.

There is nothing wrong with you. You are in love with love. All of us go through this phase. One day you will be in love with a man. Then you will be ready for the biggest step any person can take—saying "I do" to life with your yoke fellow in the Lord.

(Your letters are invited. Those enclosing a 3 cent stamp will be answered personally. Address them to Miss Brandow in care of The Herald.)

HOW HCJC EXES FEEL

Coach:

State Dept. Denies Yanks In Italy Lack Worship Rights

WASHINGTON (AP)—The State Department said today no Americans in Italy "are denied the right to worship as they wish."

The statement was made in a paper prepared in response to public inquiries about incidents involving the Church of Christ, a Protestant denomination, in predominantly Roman Catholic Rome.

The paper was being sent to members of Congress, newsmen and any others who asked the department about the situation. It said some confusion exists about the issue.

For one thing, the statement declared, "The issue is not one of freedom of worship—this department knows presently of no case in Italy where Americans are denied the right to worship as they wish."

One senator reported a backlog of about 30 inquiries about the Church of Christ's attempts to hang a sign outside its door in Rome, department officers said. The prepared paper referred to legal action brought in Rome by the Rev. Cline Paden, pastor of the Church of Christ.

Paden sought legal restrainers against Italian authorities who forced him to take down his church's sign about a year ago. The authorities were "concerned but the hearing judge delivered a legal decision which indicated it was all right to put up a sign."

The State Department's explanation said this question is a matter of "Italian legal interpretation." Paden has been charged with violating Italian law in putting his sign back. His case comes up Monday.

"This may give him an opportunity to test the validity of the investigating judge's remarks regarding the sign," the State Department said.

Department officials said one inquiry about the situation came recently from J. R. Chisolm of Brownfield, Tex., who wanted to know what the State Department was doing to protect American missionaries in Italy.

One official said, Chisolm was told the American embassy at Rome is going all-out to support the Church of Christ and to protect American citizens involved.

The prepared statement said "It may be of interest that at present there are in Italy 67 American missionaries who have entered

Italy since 1948," adding that the overwhelming majority of them are still there.

"The Church of Christ alone," the department said, "has in Italy 14 American missionaries who with the addition of 10 Italian missionaries, minister to approximately 1,000 members of that denomination."

Gov. Harriman Names Corsi Refugee Aide

ALBANY, N.Y. (AP)—Democratic Gov. Averell Harriman revived the State Committee on Refugees today and named Edward Corsi as one of its 17 members.

Corsi was fired April 10 by Secretary of State John Foster Dulles, a fellow Republican, as a consultant on refugee problems. Corsi called it "shabby and un-Christian treatment."

Harriman said last night that Corsi's ouster showed that the Eisenhower administration was "insensitive" to the needs of the people.

Speaking at a dinner of the Monroe County Democratic Committee in Rochester, Harriman said President Eisenhower and Dulles gave Corsi no support "when the weather got a little rough."

"All Mr. Corsi tried to do was carry out the President's pledge" on the refugee program, the governor declared.

"When he went to Washington, he took it seriously when Mr. Dulles praised his ability and called him 'my very good friend.' But as soon as the weather got a little rough, what happened?" Harriman asked.

"Leaving on Mr. Dulles turned out to be about like leaving on a red. And what about the President? All Mr. Corsi got from him—and all the people of America got—was silence," Harriman asserted.

Harriman disclosed he had offered Corsi the state appointment shortly after he was dismissed in Washington.

Corsi headed the unsalaried committee while serving as New York industrial commissioner in the Republican administration of former Gov. Thomas E. Dewey. The committee expired when Dewey left office last Dec. 31. It is designed to help place refugees in jobs and houses.

Germans To Enter Paris Again, But Not As Victors

PARIS (AP)—The last time German soldiers entered Paris they goosestepped in legions behind Hitler's swastikas. Next time, they will move in slowly, singly and almost humbly.

They came as conquerors in 1940 to begin four long years of Nazi occupation following the collapse of French defenses. Now they will be fellow members of a defense system designed to protect the Western World.

For a long time there won't be many German soldiers in the French capital. They will scarcely be noticed outside military and political circles. But their presence will be the first impact on the Paris scene of West German rearmament—an issue which has aroused and divided this nation more than two years.

Present plans call for the Bonn government to be admitted into the North Atlantic Treaty Organization as its 15th member by May 12 at the latest. The foreign ministers of NATO are to assemble here the second week of May to welcome West Germany into the organization.

Perennial Crop

In spite of late snow, sand storms and freezes, Central Texas always produces a crop of beauties and bluebonnets. This picture, taken just north of Belton, in Bell County, shows the knee-high bluebonnets running second to Belton beauties Colleen Hannon, left, and Betty Ann Barrett, students at Mary Hardin-Simmons College.

Ike Termed Saving 'Face' In Formosa

WASHINGTON (AP)—Sen. Morse (D-Or.) said today the Eisenhower administration is "trying to save face" in the Formosa Strait situation by "eliminating its implied commitment" to defend the Quemoy and Matsu Islands.

Morse said he will seek a vote in the Foreign Relations Committee next week on his resolution to limit to Formosa and the nearby Pescadore authority given President Eisenhower in the defend-Formosa resolution passed overwhelmingly by Congress in January.

Sen. Knowland (R-Calif.) loosed a thinly veiled swipe at Secretary of State Dulles last night in reiterating his contention that Quemoy and Matsu must be held. Dulles has said this country would not defend the coastal islands as such but would watch closely for any Red Chinese attempt to use them as stepping stones to an attack on Formosa.

She commented that "the 15th of April has come and gone and the Chinese Communists have not tried to take Quemoy and Matsu." This was a reference to a prediction attributed to Adm. Robert Carney, the chief of naval operations, that the Communists might attack in mid-April. Carney contended he made no such prediction.

Morse's resolution would seek to put Congress on record as saying this country should not help defend the coastal islands if the Reds attack. Chairman George (D-Ga.) of the Senate Foreign Relations Committee said he is "utterly opposed" to the resolution which, he declared, would put the United States in a "ridiculous position" in the Far East.

Sen. Aiken (R-Vt.) called the Morse proposal "almost an engraved invitation for an immediate attack by the Communists on the offshore islands." Morse said the administration is "coming to realize that the overwhelming majority of the people in this country is opposed to any attempt by preventive war to support Chiang Kai-shek," and he added: "I am satisfied that all the administration wants now is to save face. It is perfectly obvious that Asian nations, whether on our side or on Communist China's, won't support U.S. defense of Quemoy and Matsu. But they know we have a clear legal right to defend Formosa and the Pescadores. The administration is maneuvering to find a way out of its great mistake in January in presenting the Formosa resolution."

Kiwanians Hear Rev. Otis Moore

Approximately 40 Kiwanians heard an address by the Rev. Otis Moore at the organization's weekly meeting Thursday noon.

Also, Dr. W. A. Hunt, president of Howard County Junior College, discussed the coming bond election for expansion of the school's facilities.

Moore, pastor of St. Paul Presbyterian Church, spoke about the objects of Kiwanis International. He listed these objects as giving first place to the spiritual rather than the material values of life; importance of the Golden Rule; higher social, business, and professional standards; to build better communities and render altruistic service; and to develop a more intelligent and serviceable citizenship.

Hunt told the members about the advantages and benefits of a large college in Big Spring and the needs which the area would require in the ensuing years.

Benson To Make Dust Bowl Tour

WASHINGTON (AP)—Agriculture Secy. Ezra Taft Benson is scheduled to visit Stratford and Amarillo, Tex., next Tuesday on a three-day inspection tour of "dust bowl" areas of the Great Plains.

Benson said purpose of the trip is to get farmer reaction to proposals for dealing with drought and wind erosion problems. The secretary, accompanied by other department officials, plans to leave here Monday and go first to Denver, Colo., for an evening meeting with farmers and local officials.

UNCLE RAY'S CORNER

Some small owls go under the name of screech owls, but they might better be called wailing owls. The calls which they utter are more like wails than screeches.

A screech owl, including "big hoot owl."

Screech owls also have other names. In some sections people speak of them as gray owls, and in others as red owls. These birds have color phases; some of them are gray or gray-brown. Others have reddish feathers. Gray owls and red owls are related to each other as closely as brown and black bears, which both belong to the black bear family. A gray owl and a brown owl may be mates, and some of the young may be gray while others in the same nest are brown.

A pet owl of this type was gray for about a year. Then it turned red! The change may have come from the "liver only diet which was followed for that owl." Another name is mottled owl, and in some Southern states people call it the shivering owl. They often say that it gives them "the shivers" when it wails, and that it has a quivering, or shivering, call. After thinking of all those names, we may feel doubtful as to which to use. Perhaps the best thing is to keep the name of screech owl, which is most nearly general.

VARIABLE Pitch Propellers do wonders for Dynaflow.

That, in a nutshell, wraps up the biggest reason for the phenomenal success of the 1955 Buicks.

For the action that comes from Buick's new Variable Pitch Dynaflow is completely new to earth-bound vehicles—and it's thrilling beyond all previous experience.

It started when Buick engineers took a leaf from aviation.

They knew that the pilot of a modern plane can vary the pitch of his propellers—one way for fast take-off and climb—another way for top fuel economy when cruising aloft. Since Dynaflow has propeller-like blades

that swirl in oil, Buick engineers designed them to swivel a full 75°—just by the way you press the gas pedal.

Now you get better gas mileage in all normal driving and cruising—because the Dynaflow blades are normally in high economy "pitch."

But when you merely press the pedal all the way down, you switch the pitch for emergency action—and split-second quick you get full-power acceleration for instant getaway, or for a sudden safety-surge when you need it on the road.

Buick Sales are Soaring as Never Before
It's this spectacular performance—backed by record-high power, by a still finer ride,

by luxurious room and comfort—and by "great buy" prices that cannot be denied—that is sending Buick sales soaring to all-time highs.

It's what is making the '55 Buick the hottest performer and the hottest seller in Buick history.

And it's what's making folks flock in to join the "Buick Test Pilot Club"—which you join just by driving a new Buick.

Why don't you drop in on us this week and test-pilot the hottest Buick in history? You have nothing to lose—and the year's most thrilling experience to gain.

*Dynaflow Drive is standard on Roadmaster, optional at extra cost on other Series.

Earns Her Oats

One might think the racing laws would permit Trainer Harry Shillick to keep permanent possession of Dover Doll. He has claimed the 5-year-old mare three times in less than two years. Of her six victories, she has won five times for Shillick. At one time, Shillick claimed a dead horse.

John Serafin Moves Out Front In \$17,500 Open

VIRGINIA BEACH, Va. (AP)—John Serafin of Pittston, Pa., just a flash in the pan or has the 25-year-old son of a famous professional finally found his game to become a star on big time golf's tournament trail? The golf circuit's veterans and younger aces who already have established themselves as stars were asking this question today as play moved into the second round in the \$17,500 Virginia Beach Open Tournament.

Mission Foes Wear 'What-Hit-Me' Look These Days

By HAROLD V. RATLIFF
Associated Press Sports Writer

When San Antonio gets through with a Texas League opponent those guys go around with a "what-hit-me?" look on their faces.

The Missions finished a series with Shreveport Thursday night and what they did to the Sports in four games is a caution to the Jaybirds. San Antonio made 48 runs and pounded 51 hits.

They made it four straight victories Thursday night with a blistering 15-4 decision and increased their league lead to 2½ games.

Dallas and Beaumont, who had been crowding in on San Antonio, both got trimmed.

Dallas was edged 5-3 by Oklahoma City with Bob Upton furnishing the heroics with his relief pitching. He came in in the ninth with one away and the tying run on third. He forced the first batter to ground out then struck out Bill White.

Houston cooled off the hot Beaumont Exporters 9-6, slugging five runs across in the ninth. A 3-run double by Hal Smith was the big blow. It came with the score tied 6-6.

Fort Worth also scored in bunches to blast Tulsa 10-7. The driving Cats pushed eight runs over in the eighth with a 3-run homer by Danny Ozark and a 2-run homer by Frank Jeffers the main contributions.

Kal Segrist was the big noise in San Antonio's smashing victory over Shreveport. He socked a 3-run homer in the third inning and paraded the ball with none on base in the seventh. It gave him four home runs for the series.

Dave Roberts, like Segrist, batted in four runs. The Mission rookie first baseman pounded a triple and two doubles.

The race is jammed from second down through sixth with only three games separating Dallas, in second place, and Shreveport, in sixth.

Five Forsan Athletes Are Entered In Regional Meet

FORSAN (SC)—Five athletes representing Forsan High School will accompany Coach Frank Honoycutt to Odessa Saturday for the annual Regional track and field meet.

The Buffaloes are one of the teams figured to finish high in the running.

Those who will make the trip include Albert Oglesby, Harold Hicks, Johnny Baum, Tommy Henry and Red Draper.

Oglesby and Hicks will be the busiest. Albert will compete in the high jump, broad jump, high hurdles, discus throw and the mile relay.

Hicks will enter the 440, 220, mile relay and broad jump. Baum will compete in the 880 and mile relay; Henry the high jump and mile relay while Draper will run in the 440.

Forsan finished second to Cosahoma in the recent district meet at Big Spring but Oglesby and Hicks were the two top scorers.

Those finishing in the first three places in the events, with the exception of the relay races, will go to the state meet in Austin next month.

HC Golfers Enter West Zone Meet

LUBBOCK, (SC)—Frank Phillips of Borger is the defending champion in the West Zone golf meet, which will be held here starting at 8:30 a.m. Saturday.

Howard County Junior College will be represented in the one-day tournament by James Lee Underwood and Luke Thompson, who posted the low scores in a recent tournament at Odessa.

Winners here tomorrow become eligible to attend the state meet. All schools in the zone but Clarendon are due to be represented.

Amarillo Badgers Play HCJC In Pair

Howard County Junior College and Amarillo College were to clash in a West Zone baseball double header, starting at 1 p.m. today.

The first game will go seven innings, the second one five. HCJC will be seeking to get back in stride after losing their first two zone games to Frank Phillips of Borger.

Charles Rose will hurl the opening contest for the Jayhawks while Oakley Hagood will mount the knob in the evening-cap.

Franks Records His First Win

By The Associated Press

Big Dean Franks, who holds the Longhorn League record for pitching victories with 30, made his return to the loop a happy one for Roswell last night, hurling the Rockets out in front of the loop with a 10-7 decision over Carlsbad.

Franks, who posted his big season with Roswell back in 1951, opened the Rockets' home season, but needed plenty of help. He allowed 12 hits. The victory put Roswell, at least briefly, out in front of the pack.

In other games, losers of opening games took second-night victories. Raymond Romero won a 3-2 pitching duel for Hobbs over Artesia, San Antonio beat Midland 5-4, and Big Spring chased in 9 runs in the last two innings to whip Odessa 13-6.

San Antonio ran the bases wild over Midland, stealing six bases as Gil Guerra hurled a well-scattered 10-hitter in the winning show. Romero allowed only four hits in hurling Hobbs, new member of the loop, to its first victory. Chico Kroll made seven birdies, two of them coming on difficult 18-foot putts.

A stroke off the pace with 65's were nine other professionals, including British open champ Peter Thomson of Melbourne, Australia; Dick Mayer of St. Petersburg, Fla.; Jerry Barber of Los Angeles; Leo Blaggett of Sandusky, Ohio; J. W. Stamps of Atlanta; Al Goodrich of Murfreesboro, N.C.; John J. O'Donnell of Norfolk, Va., and Marty Furgol and Porky Oliver of Lemont, Ill.

Steers And Midland Meet Here Saturday Afternoon

Big Spring High School seeks to try and knock the Midland Bulldogs out of its for the lead in District 3-AA baseball standings in a game at 2 o'clock here Saturday.

Leroy LeFevre will probably get the mound call for the Steers, who have lost three of their four conference starts.

Midland will counter with either Larry Cooper or Jim Owens in the box.

Midland holds three wins over the Longhorns, two of which came in non-conference games.

In the league's other contest, San Angelo and Odessa have it out. San Angelo is the circuit's other co-leader.

Big Spring led San Angelo for several innings here the other day but faulty fielding led to the Steers' defeat.

Ricky Terry will probably take Kennedy's slants. Ralph Murphee will be at first for Big Spring, with Calvin Daniels at second, Tommy McAdams at shortstop and Truett Newell at third.

In the outfield, it will be Eugene Hall in left, Ronnie Wooten in center and Don Reynolds in right.

Gene Howard is the chief offensive threat for Midland. Wahoo McDaniel also hits the long ball for the Bulldogs.

Three Relay Teams Shoot For Record

LAWRENCE, Kan. (AP)—Three baton teams shoot for world records in the annual Kansas Relays tomorrow but Wes Santee's try for a 4-minute mile will overshadow the entire field of 900 athletes.

Santee, who lowered his own American record to 4:00.5 at the Texas Relays three weeks ago, feels he can achieve his long-sought mark before a home state audience, providing weather conditions are good.

Oklahoma A&M and the Universities of Texas and Houston will be aiming for global marks in the 440 and sprint medley relays.

The Houston quartet of Doyle Jones, Jerry Beck, Danny Boone and Larry McBride, already has tied the 440-yard relay record of 4:05.3 this spring. Texas will be making a co-assault on this mark with Dean Smith, Jerry Prewitt, Al Frieden and Bobby Whilden.

LOOKING 'EM OVER With Tommy Hart

It's just about as removed from the seasons, the one that is gone and the one ahead, as you can get but football, nonetheless, is in the air in this area.

Spring training, 15 days of it, begins for the Big Spring Steers next Monday. Lamess, Vernon and Sweetwater launched their spring workouts last Monday.

Why football in the spring? Some educators have been asking that question. Actually, many a fall game is won in March, April and May. The boys prove themselves then and a coach generally relies on what a player shows in the spring. There's not much one can do between September 1, when a team renews drills, and Sept. 10, when many schoolboy games are scheduled.

If a coach decided to go with the Split T in the spring, the odds are overwhelming that he will not change to the Single Wing or the Double Wing when practice is resumed in the fall, even though his boys perhaps will not take to the T with relish and might not even be able to adapt to it.

In football, spring training is a time for experimentation and experiment, and a coach can be expected to do a lot of both. He may take a raw recruit from Junior High and convert him from a tackle to a halfback, as Carl Coleman did with Frosty Robison two years ago.

If schoolboy football in Texas is a little better than it is in the rest of the country, as has been maintained, it is because the coaches ask their boys to work a little harder at it over longer periods of time.

Don't be surprised if Walter Davis' World's high jump record is bettered this year.

California's Ernie Shelton is getting close to Davis' best jump already, and he hasn't yet hit his peak.

Bob Percival, Vernon's new football mentor, has lined up himself quite a team of assistants.

I. D. Russell, the former SMU blocking star, is on the staff, along with Charles Kitchens, Joe Bob Sparks and Vernon Townsend. Kitchens is the most recent addition to the staff. He graduated from Childress High, where he lettered three years, and was All-Border Conference at West Texas State. He's been at Crane in recent years.

The following letter is from a Mrs. Lewis, who resides at 631 Selles Street:

"We attended a meeting of all people interested in Teen-Age Baseball and there were maybe six interested people there. What is the matter with the spirit of Big Spring? Are the people willing to sit back and watch teen-age delinquency grow and prosper? Hire more police, let their cars be rifled, etc.? Who will play baseball for the Corder Cops five or six years from now? The teen-agers! Why not get interested in the younger boys and raise good baseball material here in Big Spring. It could be done if enough people would take an interest. Here's to better baseball for the teen-agers."

A NEW FOOD SERVICE

Any food at the '66' Truck Terminal Cafe may now be purchased through our Take Home department ranging from a single cup of soup or a single salad to full luncheons or dinners for one person or a family. Prices are the same for meals taken out as for those served on the premises.

Have our delicious foods right in your own home, car or favorite picnic spot. No bother, no fuss in your hot kitchen and it's so inexpensive, too. Any item on our menu now available in our new take-home containers at no extra cost. Home baked pies are made fresh daily.

Just phone 4-5091, give your order and it will be ready when you call for it.

Pentagon Control Room During Test

As Maj. Gen. Edgar Erickson, left, chief of the National Guard Bureau, reads off the "readiness" reports from states during the National Guard mobilization test, Col. Charles L. Southard places cards with marked time on the big "Operation Minuteman" map at the Pentagon in Washington. Watching at right is Brig. Gen. W. P. Wilson of the Air Force. The alert was set for different times in various zones and the map shows most of the eastern half of the country reporting "alert and ready."

French, Tunis Rebels Agree On Rule Plan

PARIS (AP)—France's government and Tunisian Nationalists laid down a six-point plan today to bring eventual home rule and possible peace to the troubled North African protectorate. The agreement in principle, reached after midnight by French Premier Edgar Faure and Tunisian Premier Tahar Ben Ammar, must still be worked out in detail before a final text is drawn up. Then it must be approved by the aged Bey of Tunis — Tunisia's nominal ruler — and the balky French Assembly. The Bey's approval is considered certain. But in the Assembly the agreement is certain to encounter opposition from members sympathetic to the French colonists who constitute a powerful minority in Tunisia. The accord also is expected to run up against a strong undercurrent of French national pride, loath to yield still more of France's prewar glory of empire. Ending seven months of fitful negotiations, the agreement came just before the agreed deadline. The month-long holy season of Ramadan when the Moslem faithful suspend most business. Tunisian sources said the agreement had cleared one important hurdle. They reported it has won the approval of Habib Bourguiba, a exiled leader of the Nationalist Neodesour party which has led the agitation for Tunisian independence.

Struck Sperry Co. Seeks Court Ruling

NEW YORK (AP)—The Sperry Gyroscope Co. today seeks a court-enforced end to mass picketing and violence at its struck plant at Lake Success on Long Island. Meanwhile, its electronics production is halted. Two successive days of battling between CIO pickets and non-strikers left one man dead of a heart attack, and several injured. A State Supreme Court hearing was scheduled here today on a company petition for an injunction against the mass picketing. Yesterday's renewed violence outside the mile-long Sperry plant led the company to abandon all efforts to keep operating. Non-striking employees were directed to stay home until further notice. The effect was to idle all of Sperry's 18,000 employees, including the 9,000 members of the CIO International Union of Electrical Workers who struck at midnight Monday in a wage dispute. Besides the big plant at Lake Success, Sperry production plants at Mineola and Lake Ronkonkoma, both on Long Island, also were closed. There had been minor disturbances at these plants. Small bands of supervisory personnel kept vigil inside the plants to see that vital manufacturing processes and equipment did not deteriorate. It was the first crippling strike in Sperry's 45-year history as a chief supplier of electronics equipment to the nation's armed forces. The IUE is seeking an 18 cents an hour increase in wages that now average \$2 an hour. The company has offered 12 cents spread over three years. Federal mediators hoped in separate talks with the union and the company to set up a joint peace meeting. They reported no progress thus far. Pickets massed 300 to 500 deep at Sperry gates, Lake Success' 15-man police force has proven helpless to quell the disorders. Nassau County has sent reinforcements to some areas but they admittedly have been insufficient. Sperry Gyroscope, multimillion dollar main division of the Sperry Corp., was founded in 1910. Its first customer was the U. S. Navy, its first products marine gyro compasses and later automatic airplane pilots. Later, it began producing for the Army as well as the Navy and the armed forces remain its chief customers. Two-thirds of all ships afloat today navigate by means of Sperry instruments. With the growth of aviation and the mounting importance of the science of electronics, Sperry stepped up its research and development and now turns out about 200 products. Chief among them are guided missile parts, radar control devices, fire control apparatus and aircraft equipment. Seven different unions represent Sperry employees. The CIO Electrical Union gained recognition in the plants in 1942.

Head-Joined Twins Survive Separation

CHICAGO (AP)—The head-joined Andrews Siamese twin girls were separated last night and surgeons are "guardedly optimistic" both will survive. Mercy Hospital described the girls' conditions as "good" early today. Never have two similarly linked Siamese twins survived separation. Dr. Harold Voris, who headed the team of 14 doctors performing the operation, said it was completed in the relatively fast time of 4 1/2 hours. This compared to 12 hours, 40 minutes required for separation of the famed Brodie twins in 1952. Rodney Brodie, now 3 1/2, survived; Roger died 34 days after the separation. Unlike the Brodies, the Andrews girls, Deborah Marie and Christine Mary, now nearly 7 months old, had separate sagittal sinuses, the veins which drain blood from the brain. Dr. Voris said this fact was responsible for the operation's success. He reported that, going into the operation, surgeons planned to complete it only if the twins retained sufficient strength. The Rt. Rev. Msgr. John W. Barrett, director of Catholic hospitals in Chicago, said the separation was "touch-and-go" at times, with the girls rallying every time their strength began to ebb. The father, 38, is a meat packing company salesman.

Beefed Up Vaccine

Caught off guard by the early arrival of Salk anti-polio vaccine, Tucson, Ariz., city-county health officials had to put the precious stuff in a nearby refrigerated meat locker until proper facilities were installed at the Health Department offices. Butcher Wade Bunting goes about his business as though-veal and vaccine were standard fare at his shop.

Remodeled Grocer Bill Gets Approval

AUSTIN — A remodeled H. B. 714 (the bill in which retail grocers have been deeply interested) came out of the House State Affairs Committee Wednesday night. As rewritten, it puts no limits of any sort on the price a merchant can charge. But, it provides, if a merchant sells an item below cost, he cannot limit the number of items being sold. "So, if a merchant is selling for 50 cents sugar that wholesales at 90 cents, any competitor or customer can go in and buy all he has," Rep. Frank Carpenter, chairman of the panel which re-

wrote the bill, explained. That simple provision, Carpenter believes, would stop some price wars grocers claim are causing business difficulties throughout the state. As originally introduced, H. B. 714 provided that no person could sell goods at less than cost plus 6 per cent. As recommended by the State Affairs Committee, H. B. 714 still applies to all merchandising, not just groceries. Trading stamps, a growing "industry" in Texas, were taken into consideration in the rewritten bill. If a merchant gives stamps, the cost of them will be added to the cost basis of an item. The bill provides for suits for injunction in case a merchant refuses to sell unlimited quantities of below-cost items and makes a person violating the law subject to a \$500 fine. The bill came out of the committee by a unanimous vote.

Modern Knight?
TOKYO (AP)—A futuristic metal ornament on the hood of a 1955 Prince car became the end of the road yesterday for a pedestrian. Stabbed in the abdomen by the ornament, he died in a hospital.

Resumption
From The Herald's Front Page April 13, 1955
The two Big Spring banks showed deposits of \$27,230,856.87, a gain of \$4,329,492.57 over a year ago and \$126,000 more than for the call at the end of 1954, usually the peak for the year.
Cash on hand aggregated \$10,895,739.02, over a half a million more than the Dec. 31, 1954 figures.
Loans and discounts rose only 6.5 per cent in reaching \$8,235,952.76. The total was about \$21,000 more than at the end of last year.
Total resources stood at \$27,206,164.78, up by \$4,345,892.36 from last year and \$272,000 more than at the end of 1954.
In addition to loans and discounts, the two banks carried a total of \$177,516.73 in cotton acceptances and \$1,611,530.88 in government producers notes.
They had an aggregate of \$5,723,250.70 in U. S. government bonds and \$2,065,196.52 in county and municipal bonds.
By banks the figures showed:

'Caine Mutiny' Last Showing Tonight At Jet

Tonight is the last showing of "The Caine Mutiny" at the Jet Drive-In. The popular film stars Humphrey Bogart, Jose Ferrer, Van Johnson, and Fred MacMurray. Bogart plays the difficult role of Captain Queeg and Ferrer stars as defense attorney Barney Greenwald. Persons who enjoyed the stage production here recently should appreciate the film more, as it includes the many events that led up to the court martial scene. The "strawberry business" and the "yellow dye business" were both referred to in the play and they are illustrated in the movie. The spectator has the opportunity to draw his own conclusions about the innocence or guilt of all the players. The picture is in Technicolor.

Cub Pack No. 29 Sets 'Stunt Night'

Cub pack No. 29 is to have its regular meeting Monday at 7:30 p.m. in the high school cafeteria. Gathering of the seven dens of the pack will be the occasion for a "stunt night" along with the recognition of Cubs for their advancement. The newest den is one for Webster, and this group now is holding regular sessions each Friday evening.

Floyd Martin Chosen For NTS Fraternity

DENTON—Floyd Martin of Big Spring has been chosen to pledge Phi Kappa Sigma social fraternity at North Texas State College. Ten fraternities named 108 men for their spring pledge lists. Martin, the son of Mrs. Ruby E. Martin, is a junior business administration major.
