TEXAS TECHNOLOGICAL COLLEGE, LUBBOCK TEXAS, FRIDAY, JUNE 2, 1944

Number S-1

Recreation Program Is Announced

Annual Tech Band School Opens For Eleventh Time

Texas Technological college began the eleventh annual summer band school Monday with registration of about 75 students, according to Prof. D. O. Wiley, general director of the school. About 40 of the high school students enrolled are staying in Doak hall with Barbara Wright and Charles Senning as special dormitory supervisors.

Faculty for the band school consists of D. O. Wiley, director of the Tech band; R. A. Dhossche, director of the Technical High school band at San Antonio; D. W. Crain, director of the Abilene Christian college band; Milburn E. Carey, who directs the Phillips university band at Enid, Okla.; and Ted Cramer, of Lockney.

Classes of the school, which will end July 7, consist of instrumental music for all band instruments, theory, conducting, band maneuvering and twirling for drum majors and majorettes.

The first of the weekly Tuesday evening concerts will be presented this week in an out-of-doors performance at 8:45 east of the Textile Engineering building.

Lt. Donald Budge, Tennis Champion, Is Transferred

Lt. Donald Budge, for the past eight months attached to the Army Air Forces Training unit on the campus, has been transferred to Yuma Army Air field, Yuma, Ariz. He left here Monday en route to his new station.

Lt. Budge selected the 1944 La Ventana beauties in the fall. Budge, an internationally known tennis champion, entered the Army Feb. 18, 1943. He has been stationed at Sheppard field, Knollwood field, N. C., and graduated from Officers Candidate school at Miami Beach, Fla. He was assigned here as a tactical officer.

He is the only person to have won four major championships in one year. The year was 1938, the championships consisting of the Australian, French, English, and American.

Stewart Aids Technician In Fiber Testing Laboratory

Ruby Stewart, senior textile engineering student, will be working with Miss Lucille Finley in the fiber testing laboratory this summer. Lucille Finley is representative of the Texas Cotton Research committee at Tech.

Tuesday, June 6

Toreador Given High Honor Rating

Publication Receives Award Fourth Time

First Class Honor rating was awarded the Toreador in the annual contest sponsored by the Associated Collegiate Press of the National Scholastic Press association. The period covered was the first semester of the 1943-44 school term.

The Toreador has been awarded the First Class Honor rating four times previously, in 1936, 1937, 1941 and 1942. In 1939, under the editorship of Reeves Henley, the Toreador won the Pacemaker award, which is the highest of all, and of which only six are given each year.

College papers from all over the nation are included in the competition. To make it as fair as possible, they are classified according to method of publication, type of school, enrollment of school and frequency of issue. They are graded on the point system from the standpoint of news values and sources, news writing and editing, features, headlines, typography, make-up and printing.

Girl's Dormitory Hours Announced

Women's Dormitory hours have been set at 11 o'clock on week nights and 12 o'clock Friday and Saturday evenings, as announced by Dean of Women Mrs. Mary W. Doak.

Dormitory counselors are Betty McCoy, senior from Baird; Mrs. Lucille McKinnon, junior from Hillsboro; Yvonne Hartsell, senior from Mart; and Dorothy Chitt, sophomore from Waxahachie. Special dormitory supervisors for band school students under college age are Barbara Wright, sophomore from Lubbock, and Mr. and Mrs. Charles Senning of Lubbock.

Latin American Students Enroll For Engineering

Two new Latin American students enrolled in the division of engineering this semester of summer school. They both transferred from Texas Agricultural and Mechanical college.

George E. Colon is a junior civil engineering major. His home is Santurce, Puerto Rico. Rafael José Lopez is a second semester freshman mechanical engineering major. He is from San Juan, Puerto Rico.

New M. E. Course Open To Students

Prof. H. F. Godecke has announced that a new course in the mechanical engineering department has been added. The course, M. E. 423, internal combustion engines, will be at 1 o'clock Monday through Saturday.

This course is available to anyone who has the necessary prerequisites.

Emmet Earl Hinson, who attended Tech during 1941-42 has been commissioned a second lieutenant in the U. S. Marine corps. He has recently completed flight training at Corpus Christi.

Lieutenant Hinson majored in engineering here.

President Clifford B. Jones will continue in office until the Tech Board of Directors appoints his successor, according to an announcement made at graduation.

President Jones resigned in the spring due to ill health. His resignation was to have become effective June 1, but he agreed to remain here until such time as a new president is appointed.

Students Make Annual Geology Field Expedition

Four women were included in the group of nine students which left the campus Monday morning for the annual field trip of the geology department. Betty Morris, Sylvia Ceadley, Betty Jo Leonard, and Lily Merle Eibbey were the first women to make the trip with the college group. With them were Elmo Walling, Donald Dodson, Maxey Pinson, Herbert Case, Frank Visser, and Dr. Raymond Sidwell, sponsor.

For six weeks the students will live and work at the camp maintained by the college near Capitan, N. Mex. in Lincoln National forest and mess hall in which the students eat. The camp includes bunkhouses, the necessary housekeeping in addition to the field work. All but one of the students are either majors or minors in geology.

Coon Is Winner Of Annual Award In Geology Work

Malise Coon of Lubbock was winner of the annual merit award given by West Texas Geological society of Midland to the student doing the most outstanding work for the year in geology. Miss Coon is the first woman to win the award, which consists of two years membership in the American Association of Petroleum Geologists. Their monthly bulletin will carry her picture along with the announcement in an early issue. Miss Coon has worked for the Stanolind Oil Company but returned to school at the beginning of the spring semester and will receive her degree in August.

812 Complete Registration For First Summer Term

A TOTAL of 812 students have completed registration as the Toreador goes to press, according to Registrar W. P. Clement. "Considering conditions, we feel that the enrollment is very good," Dean James M. Gordon, chairman of the summer school committee said Wednesday.

Of those registered, 361 are enrolled in the arts and sciences division, 43 in agriculture, 156 in engineering, 135 in home economics, and 123 in commerce. The ratio of women to men students is about two to one, as in the past year.

Students registering after today must carry a reduced load and pay a late registration fee, according to the registrar. Tuition fees were assessed this semester in accordance with the amount of work registered for, and paid after classes were scheduled.

In the first six weeks semester last summer some 980 students were enrolled.

Home Ec Seniors Redecorate Home

Eight Students Care For Milam Orphan

Complete redecoration is under way in the Home Management house, according to Miss Frances Urban, home management professor. Closets have been constructed and woodwork painted in the kitchen and dining room.

Elaine Montgomery, baby who has been cared for by the women students living in the house, returned to her father at Grand Prairie. Residents are now taking care of an infant from Milam's Orphanage.

A total of eight home economics majors are staying in the Home Management house this summer. They are Margaret McGregor, Mary Frances Peak, Maxine Cardwell, Billie Christine Russell, Lena Mae Austin, Katharine Cummings and Geraldine Rampey.

Male Collegians Return To Dorm

Civilian men students are now living in a campus dormitory for the first time since the spring of 1943. A total of 35 men have moved into Barracks No. 3, and more are expected, according to Dean of Men James G. Allen.

Men students vacated both of their dormitories to make room for the Aircrew detachment early in 1943. They will move back into West hall when the preflight students leave. Earl B. Christy, junior from Fremont, Ohio, is student monitor.

Erwin Returns From Meeting Held At Chicago

Miss Mabel Erwin, head of Tech's clothing and textiles department of the home economics division, returned this week from Chicago, where she attended a meeting called by the National Office of Education. A total of 30 institutions were represented at the week's convention.

A certain Wrangler said that in every corner of the campus you will find a triangle.

Artist Courses, Movies, Dances To Be Featured

Intramural Sports Tournaments Also Included In Plan

Tech's first semester summer recreation program as outlined by Dean James G. Allen, chairman of the Summer Recreation committee, will feature four Artist course numbers, four movies and four all-college dances, in addition to intramural sports activities.

The program will be opened Wednesday night at 9 o'clock with the showing of "Pot O'Gold," starring Paulette Goddard. Other movies to be shown include: "There Goes My Heart," starring Frederick March and Virginia Bruce on June 14; "A Chump at Oxford" with Laurel and Hardy on June 21; and "Alexander Graham Bell" with Don Ameche on June 28.

The first Artist course number featuring Miss Lucille Montoya, soprano, and Kurt Frederick, concert violinist, will be held Thursday night at 8:45 o'clock. Frederick is a member of La Quinta string quartet that is to give a series of eight open air concerts at the third annual June Music Festival held on the Simms estate near Albuquerque, N. Mex. Miss Montoya is one of the artists scheduled to assist the quartet in their presentations.

Lt. Richard Chamberlain, baritone, who is stationed at LAAF, will appear on the second Artist course, June 15. William Ireland Duncan will present his Tatterman Marionettes in "The Glowing Bird" on June 20. The final artist course will be June 29 when Donald Scott-Morrison, pianist, is presented.

Each Friday night from 9 to 11 o'clock, Ted Cramer will play for informal all-college dances in the Tech gym.

Movies and Artist course numbers will be presented on the green south of the Administration building. In case of rain or high wind they will be held in the main lobby of the Ad building.

In addition to these features, the athletic department will sponsor a series of round robin tournaments in softball, basketball, tennis, volleyball and other sports. The first game of the tournaments will be a volley ball match. Both men and women students interested in playing will meet at the gym at 7:15 o'clock Tuesday evening. Plans have not yet been completed for the athletic activities, but schedules for the other games will be announced next week, according to Morley Jennings, Tech athletic director.

Students holding recreation tickets will be admitted to these movies, Artist course numbers and dances with no further charge. They will also be entitled to special rates for swimming at the city pool and at Buffalo lakes, for admission to the Tech theatre and will receive the summer Toreador. Almost all registrants bought recreation tickets according to Dean Allen.

Williams Commissioned Army Air Corp Lieutenant

Joe Williams, who attended Tech from 1940 until 1943, was recently commissioned a second lieutenant in the Army Air forces at Turner field, Albany, Ga. While at Tech Lieutenant Williams majored in diary manufactures.

THE TOREADOR

THE TOREADOR, student newspaper of Texas Technological college, is published every Friday on the campus of Texas Technological college at Lubbock by the associated students of the college.

Entered as second class matter, October 31, 1925, at the postoffice in Lubbock, Texas, under the Act of March 3, 1879.

Editorial offices, Press Building, Rooms 103, 105. Telephones: college switchboard; Night editor, 8543.

Not Marking Time

TECH extends a welcome to those students who have enrolled for the summer session. In normal times many of you would be resting and playing while making plans to attend college during the long session only. Instead you are in classrooms, realizing that the future of the nation depends upon you as educated individuals. Many of you have very little time in which to attend college before being called to various services; hence, the accelerated schedule has been set up to meet your needs.

You have friends who are serving in the armed forces, others who are working in defense plants or with various government agencies. As you study you may wonder if perhaps they are not doing more for America than you, who it may seem at times are just marking time.

Many students have left school, responding to the call of these other works. And Tech is proud of them, for they are doing their duty. But it is also the duty of those of you who can stay in school as long as possible.

For at this very hour industry is calling for trained personnel to help with the speeded up production programs. There will always be enough unskilled labor—the need is for those who have extensive specialized training that college courses give. Our government also needs college trained workers, for the best civil service jobs require a college degree. Further, in recent years the need has never been so pressing for competent teachers. The only way you can be sure that today's children have instructors with a good background is to prepare yourselves thoroughly to teach them.

And when the war is over, educated men and women will be needed to help reconstruct the world. Not only will physicians, lawyers, home economists and engineers be needed; there will also be a place for those who understand the theories of economics, who know history and government. Those who read and speak foreign languages will have a chance to bring about a closer understanding between the peoples of the world. These are only a few examples—many more could be cited.

You who have enrolled in Tech, therefore, are not merely marking time. You too are progressing—working for something better. You may not be doing the most spectacular deeds of the times, but by building firm foundation, you are preparing yourselves to do the most lasting good.—E.H.M.

From.... I

2 ... Another

By COUNT MOUNT

The Count is so glad to be seeing so many happy, smiling faces around on the campus this summer. And just for the good of those who can read, he will now give out with the current dirt:

One of the charter members of the Wrangler club was at the reunion in Amarillo — his name is DAVE DAVENPORT, and he was escorting a WAC corporal.

The Count has noticed that BEVO MONTAGUE is back on the

campus—this time to make good grades.

And he has seen the burn HOPE CADE got on her arm by backing up against a hot stove in Ruidosa where several Techsians went as soon as they had finished their finals.

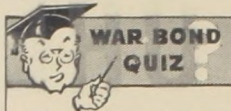

In Dallas most of the Ko Sharis who live down that way met at MARIAN RENDALL'S home for a farewell party for FRANCES FORD, who left for the WAVES' boot camp at Hunter college in New York Tuesday.

Two former Techsians at that party were RUTH GIBBONS and FRANCES GARY, who are now working in Dallas and Fort Worth, respectively.

WALTER SCHLINKMAN was seen in Amarillo, waiting for a streetcar—oh, pardon us, a bus to take home.

HUETT ALLISON ought to be a very interesting catch for someone since MARY MALONEY won't be in school this summer.

Which brings to mind the fact that JEFF JEFFRIES has the taffy so bad he will undoubtedly be making trips to Arkansas all summer to keep JACKIE TOLLESON from getting lonely.

WAR BOND QUIZ

Q. What kind of Bonds are War Savings Bonds?

A. They are appreciation Bonds, that is, they are sold on a discount basis. After issue, they increase in value, reaching their full value in 10 years. The increase in value, which you receive when you redeem the Bonds, is the interest on your investment.

Q. How long will War Savings Bonds and Stamps be on sale?

A. No time limit has been set. The sale will continue until it is stopped at the discretion of the Secretary of the Treasury.

Q. Can children purchase War Savings Stamps and Bonds?

By Gil Crockett.

A. Yes. Millions of children are buying them regularly as their share in the national savings program.

Q. Will the Government accept a personal check in payment for a Bond?

A. Yes subject to collection.

Q. If both coowners of a War Savings Bond die before the Bond is presented for redemption, who gets the money?

A. The estate of the co-owner whose death took place last.

Remember—the longer you keep War Bonds, up to 10 years, the more valuable they become.

Little MARY FRANCES BARNARD still has all the luck and can be seen with ROGER FLANNAGAN or TRUITT "CHUCKLES" BOWLES most any time of the day. Truitt will soon be leaving for medical school.

Two Lubbock girls who are making use of the dorm this summer are roommates, JODIE HALE and JEAN NEWMAN.

AUDREY STEPHENSON was thrilled over getting to see the hometown boy friend the last day she was home when he was able to get a leave from the Merchant Marines.

DOTIE BLAKESLEE, second semester freshman from Fort Worth, was happy that she just missed a boy named Bill when she was home, because it isn't Bill anymore—it's Red.

Late dating at the Wrangler reunion was enough to keep anyone puzzled—ask BOB DENNIS.

Since the boys have a dorm this summer and with EARL "YAN-KEE" CHRISTIE as the dorm "policeman" it ought to be fun. But poor CHRISTIE is sooooo lonely these days.

The honeymoon of Mr. and Mrs. RALPH MECUSKER took in the Wrangler reunion, but for some reason they weren't around very long—she is the former "PETE" ALLEN.

So, now you're all enrolled and back in the routine of classes, let's hope you all stay out of trouble. But do something, so the COUNT can keep busy.

Morton Dunham Member Of Churchill Honor Guard

Word has been received by friends here that Lt. Morton Dunham, who attended Tech during the summer of 1939, was a member of Winston Churchill's guard of honor during the early part of this year. Lieutenant Dunham is now with the Adjutant department in North Africa.

Life With The Exes

Ruth Merriman of Lubbock is now taking basic training in the Marine Corps Yeomen's Reserve at Camp Lejeune, N. C. She attended Tech during 1941-43, majoring in commercial art.

Bob Weddle, Roy Williams, Caylor Caddell, Ben Oglesby and Leon Elwood Harris were commissioned ensigns in the U. S. Naval Reserve when they graduated recently from the Naval Training school for midshipmen at Abbott hall, Northwestern university, Chicago, Ill. The new officers completed a three months course in gunnery, navigation and seamanship, and will now be assigned to duty with the fleet as deck officers.

Weddle, a journalism major; Williams, a physical education major; Caddell, a business administration major; and Oglesby, a journalism major, attended Tech during 1940-43. Harris was a speech major, graduating in 1941.

Capt. Claude Harris, a Tech student in the division of agriculture from the fall of 1936 to the spring of 1941, has been awarded the DFC for extraordinary achievement as a ferry pilot in the India-China theatre. He is now stationed at Love field in Dallas.

Just For The Records

EDITOR'S NOTE: Since the last Toreador was issued, several things have happened at Tech which we feel should be on the records in the college paper.

Graduation exercises were held May 15 in the Stadium for one of the smallest classes in the history of the school. A total of 137 seniors received their degrees, including 39 who finished their work in September '43 or January '44.

President Clifford B. Jones conferred degrees and senior honors. The Hon. T. Whitfield Davidson, judge of the U. S. District court of Dallas, delivered the commencement address.

Marian Chandler, Lubbock; Oliver Walkup, Tulsa, Okla.; and Helen Ruth West, Levelland, graduated with high honors.

Students graduating with honors included: Ophelia May Beall, Virginia Forbes, Florene Noack, Betty Rhea Caldwell and Lucille Hall, all of Lubbock; Tommy Fowlkes, Dimmitt; Virginia Lee McSpadden, Phillips; Rowena McKinley, Hamilton; Donald Robbins, Santa Fe, N. Mex.; Mary Jane Johnston, Graham; Kathryn Rentro, Amarillo; and Lois Ratliffe Smith, Lamesa.

Three Receive High Honors Student Election In May

Student officers for the school year 1944-45 were elected in May. Maxine Craddock, senior engineering student from Robert Lee, will again head the Student council. Reta Norman, Plainview, was elected vice president; Moreene Roberts, Ft. Worth, was chosen secretary; and Jimmy Witt, Lubbock, was named student business manager. Jackie Wilkison, Prisma, was named head girl yell leader.

Three Amendments Passed

Three amendments were made to the student constitution. The first provided for the election of a representative from the Association of Women Students to serve on the Student council.

Another amendment was passed providing that any officers, either elective or appointive, of any campus organization or student representative, either elective or appointive, of the college in any official capacity, excluding queens and beauties, must ave a C average and must have passed a minimum of 9 semester hours with a C average for the semester preceding the one in which he serves.

The third amendment provided for a Student Life and Recreation committee to formulate and suggest plans for the promotion, construction, furnishment and maintenance of a Student Union building. Members of this committee are to be the presidents of the Student association, MICC, WICC, Alumni and Ex-Students association, Aggie club, Home Economics club, the Tech Chamber of Commerce, the editor of the Toreador, the senior Arts and Science representative to the Student council, and eight faculty members.

A Tech coed said that give an athlete an inch and he would take a foot; but let him have it—who wants athlete's foot?

Certain Tech freshmen have found that one book that always has a sad ending is a check book.

A senior advises that the best way to tell a bad egg is to break it gently.

Dr. Ling Offers Non-Credit Class In Basic Chinese

Dr. B. C. Ling will teach a course in basic Chinese on the campus this summer. The course, which will carry no college credit, is open to everyone. Classes will meet for one and one half hours two nights a week, and will continue for eight weeks.

According to Dr. Ling, students will cover approximately half the amount covered in the regular 131 course that is offered for credit during the long session. If there is sufficient interest, she will teach the second half during the second summer term, and students who finish the course will be ready to enter 132 classes in the fall.

Students interested in this course should register with Dr. Ling on or before June 5. She may be reached at 2-3512 between the hours of 4:30 and 6:30 p.m. and after 10 o'clock at night.

Chinese has been taught at Tech since May 1942, with approximately 150 students taking the course, according to Dr. Ling.

Stadium Damaged By Fire

A fire of unexplained origin burned out a section about 70 feet long from the bottom to the top of the northwest end of the Tech Stadium. The blaze completely destroyed the dressing rooms beneath the structure containing football equipment valued by Coach Dell Morgan at approximately \$7,500.

The fire occurred late on the night of April 28.

An I.O.U. is just another paper wait.

1208 Broadway

Berniece Tuttle Killed In Wreck

Mrs. Ralph E. Tuttle, the former Berniece Cocanougher, was fatally injured in an automobile accident early last Friday morning near Holdenville, Okla. Mrs. Tuttle was a commerce student in Tech from 1941 until last spring. She was a member of Ko Shari, Sock and Buskin, Student council, and was a La Ventana beauty.
Funeral services were held Sun-

day afternoon at the First Baptist church. Flower girls were the girls who had been bridesmaids and usherettes at her wedding, February 20.

A Tech freshman gives acknowledgement to the fact that calling a senior's girl friend at midnight is a dangerous calling.

William went out for a ride in his Ford. The Ford ran out of gas. Will pushed the car back to town. Ford moved by Will Power.

**Caldwell Elected
Wrangler Prexy**

Troy Caldwell, Seymour junior, was elected 1944-45 Wrangler president at the club's last spring meeting. Other new officers are Bill Murfee, Lubbock, vice president; Virgil Miers, Texarkana, secretary; and Jimmy Williams, Albany, treasurer.

Caldwell succeeds Charles Fugitt as president of Wranglers. The club, organized in 1929, is one of the oldest on the campus.

"I pulled a fast one that time," chuckled the motorcycle cop, after arresting a speeder.

**Madden Is Commissioned
An Ensign In Naval Reserve**

William Madden, who graduated last spring, was commissioned an ensign in the Naval Reserve recently following completion of the flight training course at the Naval Air Training center, Pensacola, Fla.

Ensign, Madden received a BS degree in chemical engineering.

**Former Agriculture Majors
Are Visitors On Campus**

Maj. Clifton Cole of Lubbock, and Lt. Paul Kyser of Sylvester, both former agriculture students now serving with the Army Air corps,

**DFD's, Ko Sharis
And Wranglers
Attend Reunions**

**Between-Semester
Meetings Are Held;
Attendance Is Good**

Two women's and one men's social clubs have held reunions between semesters.

Fifteen members of DFD left Thursday, May 11, for Ruidoso, N. Mex., where they spent three days at Park's Pine Lodge. Their activities included horseback riding, tennis and hiking.

Seventeen members and three exes of Ko Sharis club gathered Saturday night, May 27, at the home of Marian Rendall in Dallas for a dinner in honor of Frances Ford, who is leaving soon for Hunter college for training with a WAVE contingent. The same group had luncheon at the Village on Sunday. A dinner Sunday night at the home of Ruth Gibbons ended the series of entertainments.

Wranglers held their fourteenth annual reunion at the Amarillo Hotel in Amarillo from May 18 through May 21. Sixteen members, five exes, and their dates were present. Dances, a picnic, a breakfast and a luncheon were scheduled. The first Wrangler reunion was held in Ft. Worth in 1930. Last year it was held in Dallas.

**Adams And Parsons Return
To Tech After Extensive Trip**

Dean O. V. Adams of the engineering division and L. E. Parsons, head professor of textile engineering, have returned from a trip to Dallas, Fort Worth and Waco. The trip was in connection with work of the Textile Engineering department.

**Graduate Visits Campus
After 22 Months In Pacific**

Capt. James H. Cowan, 1940 graduate in mechanical engineering is on leave after 22 months in the South Pacific. He visited friends on the campus the early part of this week.

Captain Cowan is with the Engineer corps and is on his way to report to Ft. Sam Houston.

**Ex-Techsan Linn S. Cooper
Commissioned Lieutenant**

Linn S. Cooper, jr., was a member of the twenty-fifth class of aviation cadets to graduate from Columbus Army Air field near Columbus, Miss. In the ceremony held on May 23, he received a commission as second lieutenant.

Cooper majored in mechanical engineering while enrolled here. He attended Tech during 1940-42.

He was visitors on the campus during the past week.

Major Cole is stationed at an airfield in Bruning, Neb. Lieutenant Kyser is on leave after two years in the south Pacific as a fighter pilot. He has assisted in many engagements, having completed more than 100 combat missions.
