Colorful Red Raiders Attack Purple Frogs

By VY TOWNSEND
Staff Writer

A color spectacular is promised today when Red Raiders and purple Frogs clash on the green turf of Jones Stadium at 7:30 p.m.

Clear blue is predicted for above and victorious red for below as the Associated Press picks post-Aggie Raiders over the post-Arkansas thwarted "toads" by one touchdown.

Mrs. Mildred Wright, director of ticket sales at Tech predicts a rather short 33,000 attendance number for Tech's third conference game.

The second conference play for TCU brings Frogs with a 1-2 overall victory record.

The Saddle Tramps will throw "Red Raider" balls into the crowd at 7:15 p.m. These miniature red and black footballs will be souvenirs for those who catch one.

Halftime will be a technicolor production featuring two bands and

the Saddle Tramp-directed card section.

Dressed in purple and white, the 140-member TCU Band will open the ceremony. The band is directed by James Jacobson.

Following the Frog performance, the Red Raider Band will make a stereo entry to take spectators "back to the blues." "Birth of the Blues" will begin the experience in sight and sound.

Clyde McCoy's "Sugar Blues" will next feature the golden Tech trumpeters in the center of the field

Marching variations with "Blues in the Night" will move the band into position to feature twirlers Claudean Cunningham and Vicky Keene, majorettes Juanna Jo Moore, Chris Adrean, Dyanne Curry, Judy Ranner, Sandi Parmer, Dianne King, Judy Stewart and Donna Snyder and twirling champion Terry Stephens all in "Farewell Blues."

Spelling Tech and leaving the field, the band will conclude the azure mood with "Bye-Bye-Blues."

Performing for the second time, the card section, directed by Ron Hertel, will present four features from section 23.

The movements will include the spelling of TCU, a trumpet on a blue background, a double T and the number 40, commemorating Tech's anniversary.

Dressed in white, cheerleaders Ziggy Nicholson, Jan Fauske, Butch Moses, Connie Curry, Dick Ostott and Patty Perkins will lead students in assorted yells.

The passing of the colors of America, the red-lighted baton directing the flashing gold and silver horns, the bright artificial light against the flag on a background of night-blue and the racing red and black of Charcoal Cody and Doug "Dink" Wilson—all add more color to the Raider game.

College Radio Campaign Set

The most extensive publicity campaign in the history of Tech radio KTXT-FM is now underway with operation "Big Twenty Days" (BTD) from now until October 30th.

A full array of activities is scheduled, including dances, parties and other promotions, according to Ron Reese, chairman of the operation. Thursday night a dance with the Esquires band will be held in the Tech Union from 7:30 to 9:30 p.m.

Included is the repainting of the entire radio station, located in the old Speech Bldg. Also planned are remote broadcasts from 8 a.m. to noon today and all next week, an all night broadcast during the 24 hours from 8 a.m. Monday until Tuesday morning.

New Announcers

A drive is on for new staff announcers. Over fifty inquiries were received yesterday from interested students. Any student, regardless of experience may call the radio station for further information. If enough announcers can be secured, the station could begin 24 hour operation in the near future, according to Bill Williams, assistant broadcasting director.

"The plan of action for KTXT can be successful only if the student body and the general public realize that we are on the air as a source of good musical entertainment and campus news," said Reese. In order to secure the necessary awareness, the station has placed posters at several points throughout the campus, and is offering free transportation to or from class all next week. Students desiring transportation on campus should call KTXT.

Purpose of the program is to promote KTXT-FM, to increase the enthusiasm of the station's staff, to increase the listening audience, to revamp or remodel

the physical plant of the station and to provide better programming.

Station Moves

KTXT has been on the air since 1952, originally broadcasting strictly on campus from studios in Sneed Hall. In 1961 the station moved to its present location and began operation on 91.9 megacycles as a service not only to Tech, but also Lubbock.

The station broadcasts currently from noon to midnight with programming of music and special interest programs of jazz, folk tunes and show tunes.

Bill Shimer, faculty director of broadcasting and speech instructor, is assisted by Bill Williams. Station manager is Ted Saffle, with David Cheeves as chief announcer. Pat Cantrell is production manager, Sharon Lumsden is program director and Tom Barnett is news director. Public relations are handled by Lonnie Dillard. Aside from the executive positions, about thirty students work at the station.

Two Studios

The station operates with two studios, one of which doubles as a recording and production room, and offices in room two of the speech building. Funds for the operation of KTXT come from two sources; the speech department provides \$600 annually for lab equipment for speech courses and the allocations committee of the student council provides about \$1200 for operation of the station. Materials for the current drive to revamp the studios were furnished by building maintenance.

A new program to be initiated by the station is a telephone "name it and claim it" with gift certificates as prizes. KTXT also is selling transistor AM-FM radios at a reduced price to students.

Schools Open Doors

The schools of Agriculture and Home Economics will have open house today 9 a.m. to 12 noon and 1 p.m. to 4 p.m. as part of Tech's month-long 40th anniversary celebration.

Theme of the exhibits on display is "40 Years of Progress." Special exhibits will be shown in the Ag Bldg., Ag Engineering, Veterinary Science Meats Lab, Plant Science, and Home Economics Buildings.

Tech Board of Directors will host a buffet supper honoring current members of the Foundation Board and former members of the College Board of Directors at 5:30 p.m. in the Coronado Room at the Union.

Following the supper those attending will be transported to the Tech-TCU game by bus. Former

members of the Board of Directors, Foundation Board of Directors, and administration and officials from other colleges on campus for the day will be recognized.

A hospitality and registration desk will be in the west lobby of the Union from 9 a.m.-5 p.m. today. They will leave from the north entrance of the Union and

last about an hour.

Dr. D. M. Wiggins, former Tech president, is the head of the planning committee for this weekend. Dr. Willa Vaughn Tinsley, dean of the school of Home Economics, is vice chairman. Also on the committee is Dr. Bill Pearce, academic vice president.

Harkness Ballet Group To Perform At Tech

The Harkness Ballet—the first in a series of programs Tech Artists Course will bring to Lubbock this year—will perform at

3 p.m. Sunday in Lubbock Municipal Auditorium.

Because the Artists Course is financed by a 50 cent allocation from student activity fees, admission for students is free. Students must show an ID to obtain tickets.

Ballet tickets are \$2 for Tech personnel and \$4 for the general public. Tickets may be picked up in the downstairs ticket booth at Tech Union.

Marjorie Tallchief, the first American ballerina to dance at Moscow's Bolshoi Theatre, leads the company of 20. Other solo dancers are Lone Isaksen, Helgi Tomasson, Brunilda Ruiz and Lawrence Rhodes.

The Harkness Ballet has performed at the White House twice and toured Europe. The company's Tech performance is one of its first presentations in the United States.

HARKNESS BALLET—Richard Wagner and Marlene Rizzo (pictured above) are two of the twenty dancers who will perform Sunday when the Harkness Ballet appears in Lubbock. Performance begins at 3 p.m. in Lubbock Municipal Auditorium.

• Agronomy Displays •

In observance of Tech's 40th anniversary, the agronomy-range management department will have a special open house today.

Displays will be set up on the second floor of the Agricultural and Plant Science buildings, which will be open until 7:30 p.m.

Exhibits in the Plant Science Bldg. will include: plant growth regulators; root developments in

grass plants; influence of weeds on production of grain sorghum; portrayal of grain sorghum past, present, and future; the past and present in soil mapping and soil classification; the genetic ratio in corn; and the work of crop teams in the areas of seed quality, grain quality, and plant identification.

The Ag Bldg. display will examine range management progress during the last 40 years.

La Ventana Shots Extended

The deadline for individuals wishing to have their picture made at Avalon Studio for the 1966 La Ventana has been extended to Friday, October 15.

Persons may come in from 8:30 to 12:00 and 1:00 to 4:45 Monday through Friday.

TYPING

TYPING: Electric typewriter, paper furnished, one day service, work guaranteed, spelling corrected. Mrs. Jerry Gray, 3060 34th Room 2, SW2-2201.

For typing, duplicating, copying, year-books, bulletins, business or calling cards, personalized stationery, mail drop, telephone answering, notary and prestige offices—See Mrs. Porter, Porter's Office Leasing & Secretarial Service, 7th Floor Citizens Tower — PO2-0301.

TYPING: Experienced, term papers and research papers. Fast service. Mrs. McManhan, 1412 Ave. T, PO3-7620.

SECRETARIAL SERVICES: Typing of theses, technical reports, research papers, lab reports, etc. PO2-3815, SW5-2632, PO2-1538.

I gather and compile research papers, bibliographies for Tech students and professors. SW5-7207.

TYPING: Work guaranteed, electric typewriter. Theses, reports, etc. Mrs. Welch 3004 30th St., SW5-7265.

Fast, dependable typing of all kinds. Mrs. Penny, 832-4587; Mrs. Evans, 832-4280.

FOR RENT

2505 27th rear, one bedroom, furnished, includes stove and refrigerator, private drive and yard. \$65 month, immediate occupancy. PO3-7317, SW5-7303.

\$50.00 monthly—All bills paid—Near Tech. Special Student Area, 1, 2, & 3 bedrooms—Private entrances. Stove, refrigerator upon request. Full services. Tech Gardens—501 North Avenue U, Phone PO3-8801.

Attractive, clean efficiency apartments, central heating, near campus. Reasonable rates. College Courts, 505 College, PO5-6638.

For Rent: 3113-B Erskine furnished \$45. to couple or baby. Excellent condition, vented heat, plumbed for washer, 3 large rooms, bath. SW5-0886, PO5-8886.

For Rent: Attractive, clean furnished house, 2410 7th St. Half block from campus. Room for Tech students. Rent reasonable. SW9-7861.

FURNISHED AND UNFURNISHED APTS. One and two bedroom, all kitchens furnished. Ideal for married or single students. Accessible to shopping areas and school locations. Prices to fit every budget. Locations: 701-715 47th St., 2322-2326 62nd St. FOR APPOINTMENTS CALL SH4-8604.

Furnished single efficiency apartment for rent. All bills paid. \$35 per month. Call SW5-3461 afternoons only.

Nice, large 2-bedroom duplex, convenient to Tech, unfurnished, garage, \$75. SW9-2293.

Furnished apartment, 2 room, bath, carpeted, \$50. Bills paid. 3503 20th, SW9-0134 after 5 p.m.

FOR SALE

For Sale: 1961 Impala sport coupe, some speed equipment included, \$1,000 cash or consider motorcycle in trade. Ext. 4671. Bobby Borum.

Attention Tech Employees: Small house near Tech. Small down payment, small monthly payments. Jack McQueen Real Estate. Ask for Frank. SH7-3431, SH4-2208.

For Sale: 1965 model Honda motorcycle 305 cc. Super Hawk. Excellent condition. \$585. Leo Brock, SW5-8385, 4823 35th.

For Sale: 1959 DKW Sports coupe, front wheel drive, 4 speed. 2203 7th.

1955 Plymouth Hardtop, new tires, in top condition, one owner, SW5-7303.

Will sell or trade—156 rear-end for '55-'60 (might fit others) Ford or Mercury. Contact: Ralph Shaw — 119 Bledsoe, Ext. 5085.

For Sale: Natural gray squirrel cape. Good condition, \$50. Call SW5-7896, 5-6 p.m. or Saturday and Sunday mornings.

TYPEWRITER—HERMES PORTABLE ELITE TYPE, EXCELLENT CONDITION, REASONABLE PRICE. PO3-2017 after 5.

For Sale: Gretch "Chef Atkins" Guitar & Case. \$275. After 6 p.m. 4313-A 28th, SW9-5120.

1965 Honda "90." Excellent condition, complete with windshield. Priced to sell. Call PO3-2631.

Dyna-Glaze car polish, Sparkling bright. Diamond hard. Never wax again. Buy—611 27th Street.

For Sale: 1959 Ford Galaxie 500, 2-door hardtop, red and white. Automatic, radio, heater. Good W.S.W. tires. W. D. Harrison 892-2161.

For Sale: Console component stereo, AM-FM. Less than one-half price, 1961 Extra clean Ford Falcon, 58,000 miles, SW9-2559.

MISCELLANEOUS

MATH TUTOR: Certified experienced teacher. Full time tutoring by appointment. 4936 47th, SW5-2632.

Ironing wanted. 2813 Auburn, PO3-0578.

Ether's Beauty Salon—Three operators to serve you. Razor shaping a specialty. Faculty and students invited. 2424 14th, PO5-5322.

Football mums for every game delivered to your girl at no extra cost. Three sizes with satisfaction guaranteed. Call Steve Wester, authorized agent for Don's Flowers, at SH7-1241. All arrangements made in one call.

Electric Bass man needed for combo with Tech students. Electric piano or organ also. SW5-1021.

LOST AND FOUND

Found: one pair contact lenses in case in Industrial Engineering Building. May claim at Room 102, Journalism Building.

Found: Man's watch in reserve parking lot west of BA building. May be identified in Military Science Building, Room 12.

Lost: Black leather purse. Reward for return to Horn Hall office.

Province Governor To Visit Music Sorority

Lois Ayres Gordon, Mu Phi Epsilon province governor, will inspect a formal chapter meeting of the Tech chapter, Epsilon Pi, Tuesday.

Mrs. Gordon will be making her biennial inspection of the chapter, and will view and inspect pledging and initiation ceremonies.

As a graduate of Wichita University with a bachelor of music degree in cello, Mrs. Gordon was a charter member, and is now vice chairman of the Memorial Foundation of Mu Phi Epsilon.

Officers of the Tech chapter are: president, Kaye McGee; vice president Lola Page; pledge trainer and rush chairman, Betty Jo Walwood; corresponding secretary, Jan Crawford; alumnae secretary, Mary Claire Babin; treasurer, Anita Schloer.

Other officers are; warden, Dana Heaton; historians, Karen Parkes and Carol Woods; chorister, Melody Edwards; BSO representative, Sallie Ann Manicapelli; and chaplain, Roya Beth Harris.

CHANNING CLUB

Bronson Havard, editor of the 1964-65 Daily Toreador, will speak on "The Unprinted Issues" at 7:30 p.m. Sunday in the Blue Room of the Tech Union.

The Texas Tech Channing Club will host the event which will feature a discussion of censorship and the student press in addition to the talk. Visitors are welcome.

GAMMA ALPHA CHI

Members of Gamma Alpha Chi, women's advertising fraternity, invites all women majoring in advertising, journalism, or advertising art and design to a tea Sunday at 2:30 p.m. in the Blue Room of the Tech Union. Requirement for the fraternity is a 2.00 over-all grade average.

ARNOLD AIR SOCIETY

The Arnold Air Society will sponsor a smoker Tuesday, Oct. 12 at 7 p.m. in the Ballroom of the

Union. Outstanding cadets will attend by invitation. The Society will have their regular meeting at noon the same day. Maj. Gantz, of aero-space studies will be special guest, and special projects will be discussed.

RIC

The Religious Interest Council will meet at noon Monday in Room 209 of the Union.

MARKET ASSOCIATION

The American Market Association will meet Tuesday at noon in the Mesa Room of the Tech Union. Students must sign up for lunch in room 318 by noon Monday.

MANAGEMENT

The Society for Advancement of Management will meet at 7:30 p.m. Tuesday in the Coronado Room at the Tech Union. George Miller, head of the Trust Department of Citizens National Bank, will speak on trust funds. Refreshments will be served and the public is invited to attend.

A reception will be held today from 9 a.m. to noon in the Tower Room of the Chemistry Bldg. Special guests will be a group of students from the University of Texas Medical School in Galveston.

AWS

AWS General Council will meet Wednesday, October 13 in the Mesa Room of the Tech Union at 5 p.m. The meeting is open to all students.

Luna 7 Fails

MOSCOW (AP)—Tass insisted Friday that Luna 7 carried out most of the preliminaries for a soft landing on the moon before it crashed into the lunar surface.

If the unmanned spaceship had succeeded in a controlled landing, the Soviet Union would have jumped perhaps six months ahead of the United States in the race to be the first to put a man on the moon.

Instead Luna 7 crashed early Friday in the Ocean of Storms area, 3½ days after its launching. It was the third unsuccessful Soviet attempt in six months to make history's first soft landing on the moon.

The braking system apparently did not function properly. This happened before in the Soviet moon program.

While tacitly admitting the failure, the Soviet news agency claimed that Luna 7, a 1½-ton spacecraft carrying photographic equipment, had achieved some positive results.

King Selected As Head Of AFROTC Wing Staff

The Air Force cadet wing staff officers for the fall semester were announced recently by C/Col. William C. White, Wing Commander.

Selected to head the wing staff this year was C/Lt. Col. Winston H. King who will hold the position of Wing Executive Officer. King, a senior psychology major from El Paso, is the son of Mr. and Mrs. H. G. Squires. Lt. Col. King, 21, is also the current National Historian for the Arnold Air Society.

This year's Administrative Officer is C/Lt. Col. Don B. Kennedy. Lt. Col. Kennedy, twenty-one-year-old son of Mr. and Mrs. Lee C. Kennedy of Burkburnett, Texas, is a senior accounting major. Kennedy also serves as the editor of the national Arnold Air Newsletter.

C/Lt. Col. Tom W. Fisher has been named the new Personnel Officer. Lt. Col. Fisher has improved the procedure for taking roll this year by introducing a system of IBM cards. At each leadership laboratory, each cadet will be given a specially punched IBM card as proof of his attendance. All remaining cards will constitute the absence. The twenty-two year old senior math major is the son of Mr. and Mrs. Guy Wesley Fisher of Midland, Texas.

The Operations Officer for the current term is C/Lt. Col. Robert J. Vacker, twenty-one year-old senior chemistry major. He is the son of Mr. and Mrs. Willie Vacker of Seymour. Lt. Col. Vacker serves as the coordinator of wing activities.

Serving as Inspector General is George M. Burnup, 21, senior office management major from Austin. He is the son of Mr. and Mrs. George W. Burnup. As the new Inspector General, C/Lt. Col. Burnup has initiated a new program for removing demerits. Demerits will henceforth be eliminated by a thirty-minute tour for each demerit. Failure to remove demerits will result in a deduction of points from a cadet's grade. Lt. Col. Burnup's plans include inspection of four flights each week.

In charge of the wing finances is C/Lt. Col. Michael G. Gurley, Director of Accounting and Finance. Gurley, 21, is an accounting major from Marlin, Texas. He is the son of Mr. and Mrs. Rodney D. Gurley. Lt. Col. Gurley is also a

member of Beta Alpha Psi.

C/Lt. Col. George Stewart will handle the supply and demand problems of the wing this year as the wing Material Officer. The senior advertising arts major is the son of Mr. and Mrs. Arthur Stewart of Levelland, Texas. Lt. Col. Stewart, 23, is enrolled in the Air Force ROTC Flight Instruction Program.

Rounding out the wing staff is junior government major, Wayne E. King. Keeping Texas Tech and the 820th Wing informed of cadet activities is the job of the new Director of Information. C/Maj. King, 21, is the son of Mr. and Mrs. Edwin E. King of Lubbock. King will edit the official wing newspaper and will handle news releases concerning the corps. King is also a member of the Pre-Law Society and Arnold Air Society.

Tech Board Meets Today

Tech Board of Directors will meet today to discuss granting of three new degrees and campus building projects.

Also, R. Wright Armstrong of Fort Worth, chairman of the Board, will report on the Sept. 17 meeting of the Coordinating Board, Texas College and University System.

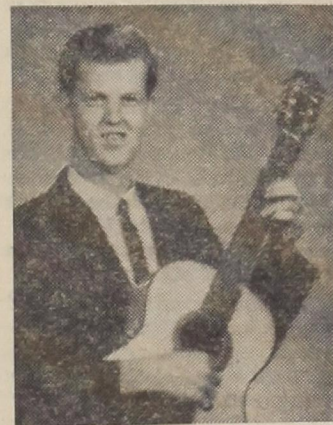

New degrees requested are Master of Science degree in accounting, to be effective after eSpt. 1, 1966; and Bachelor of Science degrees in Physical Education from both the men's and women's departments of health, physical education and recreation.

NEW AFROTC OFFICERS—Standing, left to right, Cadet Major Wayne E. King, Cadet Lt. Col. Don Kennedy, Cadet Lt. Col. Tom W. Fisher, and Cadet Lt. Col. Robert J. Vacher. Sitting, left to

right, Cadet Lt. Col. Winston H. King, Cadet Col. William C. White, Cadet Lt. Col. George Stewart, and Cadet Lt. Col. Michael G. Gurley.

But Do They Want It?

THE QUESTION OF graduate representation to the Student Association took a new turn at last Tuesday night's Senate meeting.

The problem is no longer *should* they be granted representation but *how* should they be represented and, more important than this, do they *want* representation.

According to the Supreme Court's advisory opinion, graduate students are included within the term "student body" and therefore are due representation.

However, the fact that most graduate students are older, in most cases are married and spend relatively few hours on the campus puts a new slant on the problem.

Graduate students, as a whole are not closely woven into campus life. In many instances, they take only a few semester hours and spend the majority of their time doing research. Therefore it is probable that they are not concerned about campus politics.

If this is the case, should Senate representation be forced on them? We feel it should not. Graduate students could add very little to the Student Association unless they are truly interested in campus politics and want a voice in student government. If they are concerned about campus politics, then certainly they are entitled to representation.

Granting representation to graduate students would pose several problems that need to be ironed out: How many representatives should they have? Should they be represented according to various schools within the Graduate School (such as Engineering, Arts and Sciences, etc.), or should the Graduate School be treated as one academic school?

However, these questions are of only secondary importance now. We feel the question of whether they truly want representation should be thoroughly investigated before any future action is taken by the Student Senate.

The University of Houston may have found a way to settle football seating disputes.

According to the *Daily Cougar*, block seat ticket sales are a booming success. Before their game last week the UH Interfraternity Council was given 1,368 tickets to sell to organizations desiring seats in the same location.

Within 45 minutes only 16 tickets were left; and four organizations were unable to get tickets for their groups.

The IFC will continue to sell block seat tickets for the remainder of the season and perhaps expand on the program.

Sounds like a good way to get around seat-saving at games.

★ ★ ★

A coed doing her week's wash in a swimming pool was just one of many unusual sights witnessed by University of Texas students last week.

Other students were doing such things as dancing in department stores, rearranging displays in grocery stores, walking away from taxicabs without paying and many more "unusual" things.

According to the *Daily Texan*, every action was a class experiment in Sociology 336, an advanced study of deviant social behavior. As part of the experiment, each class was to break at least one social norm and observe the reactions of other persons.

And apparently the experiment was a success as far as reactions went: one student, watching the girl wash her clothes in the swimming pool, asked in passing, "What do you think this is, the banks of Jordan?"

★ ★ ★

The Buffaloes of nearby Canyon finally have another mascot for their school—a baby buffalo, naturally.

The last time the Buffs had a mascot, live and on the field at every game, was in 1959 when the old bull became cantankerous and had to be retired.

The 550-pound bull calf was brought to the Buffs' stadium last week by members of Alpha Tau Omega, who will have custody of

Our View On:

University Happenings

the beast. The mascot was donated to the school by an area rancher, according to the *Prairie*.

★ ★ ★

At least the pedestrians at Texas Tech are not alone in their battle to stay alive on campus streets. The *Daily Reveille* of Louisiana State University reports that speeding and reckless driving are growing on the LSU campus.

The head of LSU's Traffic-Security said that many persons per-

sist in speeding, driving recklessly and disregarding campus crosswalks. Campus Security is issuing tickets to each offender.

Although this helps the situation, the Chief commented that "... we cannot have a safe campus unless each driver makes it his personal responsibility to abide by the laws, rules and regulations."

It sounds as if LSU needs some effective method to curtail traffic around their campus, too.

Christian Scientists Plan Weekly Program

EDITOR'S NOTE—The following article is the fifth in a series concerning activities and programs offered by various religious groups in town.

By PAULINE EDWARDS
Editorial Assistant

Every Tuesday at 5:15 p.m. approximately 20 students and faculty meet at the Tech Union to sing hymns and read from the Bible.

The group is Tech's Christian Science Organization, and the program is the group's regular 30-minute weekly worship service.

"Christian Science Organization meetings are conducted similarly to church services," according to Ralph Dinsmore, Tech student and president of the organization last year.

One or two hymns are sung at the beginning and conclusion of the meeting, a student reads from the Bible and from "Science and Health With Key to the Scriptures," the Christian Science Church textbook written by Mary Baker Eddy, and one or two members relate testimonials or experiences of how they have used Christian Science in their work during the last week and how it has affected their daily experiences and personal relationships.

Aside from its regular weekly meetings, the Christian Science Organization has numerous social events throughout the year. Last weekend the group had a water ski party at Buffalo Springs Lakes and is planning a weekend picnic at Mackenzie Park Saturday. Members will meet at the Student Union at 1 p.m. before going to Mackenzie. The organization usually plans at least one social event each month.

Another activity scheduled for this weekend is a meeting 4 p.m. Sunday at the Christian Science Church on Broadway to discuss last August's biennial meeting at the Mother Church in Boston, Mass. Every two years Christian Science Organizations from colleges all over the world meet at the Mother Church in Boston.

Approximately 4,600 attended the meeting last August. Six of these were from Tech. These six Techsians, as well as college students from neighboring communities will show slides of the Boston meeting, explain the program and aims of the meeting and give their impressions of it.

Christian Science Organizations from colleges throughout Texas sponsor an annual retreat during the spring, usually around April, to Wimberly, a ranch resort near Austin. Several members of Tech's organization usually attend the two-day annual retreat.

As a service project, members of the Christian Science Organization sell subscriptions for the *Christian Science Monitor* to students and faculty members for half price.

One of the organization's chief projects each year is bringing one or two Christian Science lecturers to the Tech campus. These lecturers travel all over the world speaking on college campuses. The first such lecturer scheduled to speak here this year is William Henry Alton, who will speak in the Union Coronado Room Oct. 23 at 8 p.m.

Tech's Christian Science Organization was first founded in 1955, according to Mrs. Ruth Tracy, organization advisor. Mrs. Tracy also served as the first advisor when the organization was founded ten years ago. During the first year, the Christian Scientist Organization had only four or five members who formed their own constitution and plans for organization.

New officers for this year's 20-member organization are Brent Flenniken, president; Roger Amerman, vice-president; Jan Downing, secretary; Joy Striedel, treasurer; and Roger Norwood, member-at-large. These leaders were selected at the first business meeting Sept. 19.

Students who want to join the organization may do so by taking out application forms, going before the executive board, attending the meetings and showing interest in the organization, according to Dinsmore. The weekly meetings are open to the public.

Members who still live in the area after graduating from Tech may still meet with the group and will have the same privileges as other members except they will not be allowed to vote during business meetings. Tech now has five alumni members.

"The purpose of the Christian Science Organization is to give people on campus an opportunity to learn something about the Christian Science Church," Dinsmore said. "It is designed to give young Christian Scientists a chance to further their religion and to learn more about God and learn more about the relationship between God and man. As a result, we believe we can improve our situation whether it refers to physical problems, emotional problems or problems with school work."

The goal of the Christian Science Organization is to help the individual as well as to help the entire country and entire world. We feel we can do this through the lecture meetings, social gatherings, testimonial meetings and selling subscriptions to the *Christian Science Monitor*," he added.

Letters To The Editor

All commentary letters for publication should be addressed to "Editor, The Daily Toreador, Campus."

Letters on any topic are welcomed and encouraged, but will be rejected for publication if they are libelous or too long for practical use. All letters will be edited for spelling, grammar and minor mistakes.

Letters mailed through the intra-campus mailing service require no postage.

Little Man On Campus

"OUR STUDENTS ARE BEGINNING TO LOSE CONFIDENCE IN THE PROMISED REWARDS OF HARD STUDY AND THE ACCUMULATION OF VAST KNOWLEDGE — ALL THE 'BRAINS' ASSEMBLED HERE HAVEN'T BEEN ABLE TO SOLVE THE 'PARKING PROBLEM.'"

Dodgers Try Rebound On Home Soil

LOS ANGELES (AP)—Camilo Pascual will try to make it three in a row for the surging Minnesota Twins, and Claude Osteen will attempt to halt the skid of the Los Angeles Dodgers today as the teams resume World Series play at Dodger Stadium before 55,000 fans.

Jolted by the Twins disasters in Minnesota when both Sandy Koufax and Don Drysdale were beat-

en, the Dodgers hope to return to native soil and their spacious park will help.

Warm sunshine cutting the smog and fog is expected to send the thermometer to the mid-70s by game time, 1 p.m. CST.

There will be the usual NBC network radio and television coverage.

Twins Now Favored

After the pair of defeats at Metropolitan Stadium the Dodgers

dropped from 7½-5 favorites to 3-1 underdogs because they have been beaten in their strength—pitching.

Osteen, a talented lefthander, who was acquired from Washington last winter, never lost to the Twins in his American League days, managing a 5-0 record against them.

To Los Angeles, Osteen is regarded as a tough luck pitcher because the club seldom scores many runs behind him but he has a 15-15 record. Actually the club seldom scores many runs behind anybody. They have scored only three in the first two series games.

Missed Games

Pascual, a talented Cuban curve ball artist, missed several weeks

late in the season after an operation on his back. He didn't pitch from July 28 to Sept. 6 and finished with a 9-3 record. He is a deliberate workman who will be in sharp contrast with Osteen, a quick pitcher.

With another lefthander working for the Dodgers, Manager Sam Mele of the Twins will leave Rookie Joe Nosssek in centerfield and Bob Allison in left. It was Allison's diving catch on Jim Lefebvre's hit in the fifth inning of Thursday's game that helped save the day for Jim Kaat.

Walter Alston is expected to go with the same lineup that played the first two, reversing a couple of positions to compensate for the righthanded Pascual.

David And Lisa' Real

By MIKE NIEMCZYK
Fine Arts Staff

"David and Lisa," currently playing at the Continental Fine Arts Cinema, is a film which artistically interprets a story from real life. What distinguishes it from most is its success in synthesizing the real and artistic elements.

Taken from an actual case history of two emotionally disturbed adolescents, the film manages to gain in dramatic intensity from the believability of its characters and situations.

Contributing to the realistic quality of the film are the short sequences, some measured in seconds, which often reveal only one aspect or impression of a character or situation. Both the dialogue and the acting are, for the most part, underplayed, with a particularly subtle performance being given by Howard da Silva as the psychiatrist.

The art of the movie manifest itself in symbols, occasional intensification, and the imposition of a conventional dramatic structure.

A watch, a statue of a mother and child, a pair of clasped hands inconspicuously emphasize the needs of the two young people and a means of fulfillment for them.

Acting is intensified at important moments in the film, the hardest part of this acting being handled by Keir Dulleia as David. His memorable performance involves a range from a rigid paranoid state to one of semi-normale, with many shades of terror, hostility and compassion in between.

A conventional dramatic structure is imposed on the film, including separate turning points for

David and Lisa—each one's turning point centering around the other one—and a gorgeously executed climatic scene in which the two find a reciprocal salvation.

However, the art of the film is never dominant. Screenwriter Eleanor Perry and director Frank Perry have created a drama which is living, breathing. Seeing "David and Lisa" means taking part in something very, very real.

Tech Dames Meet Monday

Wives of Texas Tech students are invited to attend a meeting of the Tech Dames Club at 7:15 p.m. Monday at St. John's Methodist Church.

The program will include a style show presented by Hemphill-Wells Department Store and a skit, "Mrs. Towsack Pageant," by members to introduce new officers and committee chairmen for the year.

Officers are Mrs. Clive Lankford, president; Mrs. Gerald Aldridge and Mrs. Wirt Davis, vice presidents; Mrs. Donnie Arnold and Mrs. Wayne Gent, secretaries; Mrs. Tom Dickerson, treasurer, Mrs. Elliott Prater, publicity chairman, and Mrs. D'Nard Arthur, parliamentarian.

Raiders, TCU Clash Tonight

By MIKE LUTZ
Sports Editor

Texas Tech and TCU, each backed into the same corner, renew acquaintances in Jones Stadium at 7:30 p.m. today, with the loser facing almost certain expulsion from the league title chase. The Raiders, 20-16 victors over Texas A&M on the same turf last Saturday, are 1-1 for league tabulations and the Horned Frogs are 0-1, still smarting from a 28-0 dunking at the hand of Arkansas a week ago.

Championship Fight
Secondary to the importance of

the Conference battle will be the fight for the Championship of West Texas, decided each year by the two schools. A saddle emblematic of the title is presented each year.

The Raiders regained the saddle in Fort Worth a year ago with a 25-10 decision. TCU won in 1963 and leads the series 13-8.

The Raiders are possessors of the longest injury list of tonight's foes with two starters out of the action.

Out for the season with a knee injury is halfback Guy Griffis, who limped from the practice field

Wednesday with several torn ligaments.

Young Out

Also missing the contest will be guard Doug Young, who was on the sidelines last Saturday after receiving injuries against Texas two weekends ago.

The loss of Griffis also eliminated the team's top punt return artist. David Baugh, who charged back into the starting lineup last week against A&M, will be the deep man this week.

More shifting in the Raider backfield has been aimed at filling a void at fullback and Kenny Baker, a sophomore from Houston Smiley will open at the power spot tonight.

"It was a tremendous blow to lose Griffis," Coach J T King said Friday. "Of course, we'll miss his playing ability, but the loss of his leadership will hurt just as much as anything."

With two capable quarterbacks and excellent ends, Tech's defensive secondary is expected to receive another severe test.

Shabay Likely Starter

P. D. Shabay, a sophomore from Graham, will likely start at quarterback.

"If Shabay starts, they'll probably have a well-rounded attack," King said. "He's excellent on the option play."

The better passer of the two quarterbacks is injury-prone Kent Nix, a senior two-year letterman from Corpus Christi Ray. The Frogs pass more frequently with Nix under.

Starting ends for the Frogs will be Charles Campbell and Joe Ball, a co-captain.

Rounding out the TCU secondary will be Steve Landon, halfback; David Smith, wingback and Kenny Post, fullback.

Starting tackles will be Bobby Barker, 201, and Adon Sitra, 198; guards, Russell Stout, 200, and Butch Gilliam, 219 and center, Jim Nayfa, 231.

Joining Baker in the Raider backfield will be the standard trio of Donny Anderson and Johnny Agan at halfbacks and Tom Wilson at quarterback.

Ends will be Jerry Shipley, 190, and either Terry McWhorter, 186, or Terry Scarborough, 215; tackles, John Porter, 224, and Stanley Edwards, 216; guards, Phil Tucker, 224, and Chester Howard, 219 and center, Jerry Turner, 196.

Arkansas Goes For SWC Leadership Against BU

While Texas Tech and TCU struggle for survival in Southwest Conference warfare tonight, Baylor and Arkansas clash in Waco with the league lead at stake for the Razorbacks.

It'll be the loop debut for the Bears. Arkansas opened conference action last Saturday, dumping TCU, 28-0.

Texas, which won the first conference game of the season—a 33-7 victory over Texas Tech—is cleaning up its intersectional schedule preparatory to heading pell-mell into the championship race.

Meet Oklahoma

The Longhorns meet Oklahoma in the Southwest's second oldest rivalry—65 years. Only the Texas-A&M game is of longer duration.

Texas, the nation's No. 1 team, will be attempting to maintain an undefeated, untied record through four games. Oklahoma is seeking its first victory of the season. The Sooners lost their first two games—to Pitt and Navy.

Of the three remaining conference members, only Texas A&M is active today. The Aggies take on Houston University at College Station. They are favored to win. Rice and Southern Methodist rest this week.

Raiders Favored

Texas Tech is a touchdown favorite while Arkansas is given a 13-point bulge over Baylor. Texas is favored by 18 points—one of the heaviest margins ever given a team in this storied intersectional series.

Crowds totaling 169,500 will see the four games with the largest at Dallas where 75,504 will watch the Texas-Oklahoma struggle. It is the only daytime attraction.

The Baylor-Arkansas game will draw about 36,000 while 33,000 will see TCU-Tech. Only 25,000 are anticipated at College Station for the A&M-Houston game.

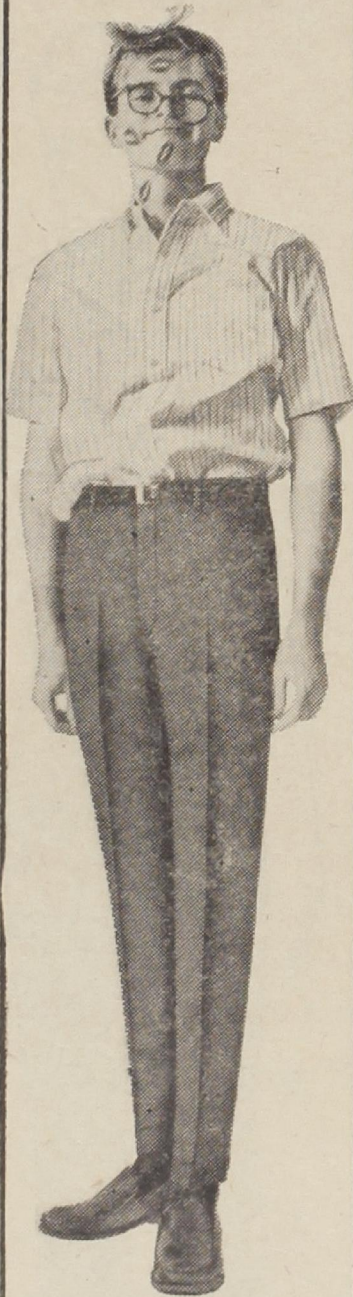

Priceless Gem Division Head

NEW YORK (AP) — Having proved she can beat the best of the male 2-year-olds, Priceless Gem returns to her division today as the 1-4 favorite to whip six other juvenile fillies in the \$75,000-added Frizette at Aqueduct.

The strapping daughter of Hail to Reason and Searching stepped out against colts in her last race and whipped the great Buckpasser by one-half length in the Futurity at Aqueduct for her fourth straight victory after finishing fourth in her debut.

The distance of one-mile should not prove difficult for the swift-moving miss from Mrs. Ethel D. Jacobs barns. After winning two filly races by eight lengths each, she set nearly all the pace in the Futurity and answered every challenge as Buckpasser, rated best of the colts, twice made runs at her in the final quarter.

Concert Set For Quintet

Texas Tech Faculty Woodwind Quintet will present its first concert of the fall season at 8:15 p.m. Friday in the foyer of the Tech Library.

The group, which made its international debut last year in a series of television concerts in Mexico City, includes Keith McCarty, clarinet; Frank Bowen, flute; Anthony Brittin, French horn; Richard Meek, bassoon, and Benjamin Woodruff, oboe.

Featured in the concert program will be Quintet Opus 67, No. 2 (Franz Danzi), Sinfonia (Bernhard Heiden), Partita (Irving Fine), and Five Dances (Denes Agay).

McCarty has played with the U. S. Army Field Band, Washington, D. C., and the Lubbock Symphony Orchestra. He is associate professor of clarinet at Tech and in addition is assistant with the Tech bands and director of the Tech Summer Band School.

Bowen, recipient of a Fulbright grant to Amsterdam, Holland, in 1961-63, has played with the Netherlands Wind Ensemble, Holland's National Organization for Woodwind Instrumentalists and at the International Summer School for New Music in Darmstadt, Germany.

Brittin's professional experience includes director of bands at Barton Academy, Mobile, Ala., assistant conductor and solo horn with Mobile Youth Symphony and appearances with Monmouth County (N. J.) Symphony, Stamford (Conn.) Symphony, Montreal (Canada) Symphony, and New York Philharmonic.

Meek's background includes appearances with the Oberlin Conservatory Orchestra, the Eastman School of Music Philharmonic, Akron (Ohio) Symphony, Brevard (North Carolina) Festival Orchestra, Camerate Acamedemica, Salzburg, Austria, and the orchestra of the American Symphony Orchestra League. He also is first bassoonist with the Midland-Odessa Symphony.

As a graduate assistant in the Wind Division at the School of Music, University of Illinois, Woodruff played with the University Concert Band, Wind Ensemble and Symphony Orchestra and with the Champaign-Urbana Symphony. In addition to membership in the Tech Faculty Quintet, he also is first oboist with the Lubbock Symphony Orchestra.

TECH'S FACULTY QUINTET—Left to right, Frank Bowen, Benjamin Woodruff, Keith McCarty, Anthony Brittin, and Richard Meek will perform Oct. 15 in Tech Library foyer.

TSHA Adjourns State Convention

The Texas Speech and Hearing Association will close its ninth annual State Convention at the Caprock Hotel at noon today.

Short course speakers at the morning session will be Dr. Lenart Kopra, University of Texas, speaking on Hearing Conversation in the Aztec Room. Mrs. Margaret Booker, Director of Special Education, Spring Branch Independent School District, will discuss "Diagnostics Procedures In the Public School Setting" in the Comanche Room.

The final address by the convention's featured speaker, Dr. Duane C. Spriestersbach, president of American Speech and Hearing Association and dean of the Graduate School, University of Iowa, will be at 11:15 in the Matador Room.

Kick the dull driving habit. Step out in a lively Dodge Coronet.

Isn't it time you joined the Dodge Rebellion?

Why Do You Read So Slowly?

A noted publisher in Chicago reports there is a simple technique of rapid reading which should enable you to double your reading speed and yet retain much more. Most people do not realize how much they could increase their pleasure, success and income by reading faster and more accurately.

According to this publisher, anyone, regardless of his present reading skill, can use this simple technique to improve his reading ability to a remarkable degree. Whether reading stories, books, technical matter, it becomes possible to read sentences at a glance and entire pages in seconds with this method.

To acquaint the readers of this newspaper with the easy-to-follow rules for developing rapid reading skill, the company has printed full details of its interesting self-training method in a new book, "Adventures in Reading Improvement" mailed free to anyone who requests it. No obligation. Simply send your request to:

Reading, 835 Diversey Parkway, Dept. 9967, Chicago, Ill. 60614. A postcard will do. Please include your Zip Code.

Forget all you've seen and heard about '66 cars. Because Coronet is here . . . sharp, smart and sassy, the greatest thing from Dodge since Year One. Loaded with luxury the higher-priced cars haven't caught onto yet. With a choice of five engines, each one designed to make the walls of Dullsville come tumbling down. And with a whole slew of standard equipment that used to cost extra. Like an outside rear view mirror. A padded

dash for extra safety. Variable-speed electric windshield wipers and washers. Backup lights. Turn signals. Seat belts, two front and two rear. And, as some extra frosting on the Coronet cake, a 5-year or 50,000-mile warranty.*

Enough said to get you really tempted? Now let's get away from the look-alike, drive-alike, first-cousin cars with Coronet, a car with a lively personality all its own.

DODGE DIVISION  CHRYSLER MOTORS CORPORATION '66 Dodge Coronet

*HERE'S HOW DODGE'S 5-YEAR, 50,000-MILE ENGINE AND DRIVE TRAIN WARRANTY PROTECTS YOU! Chrysler Corporation confidently warrants all of the following vital parts of its 1966 cars for 5 years or 50,000 miles, whichever comes first, during which time any such parts that prove defective in material and workmanship will be replaced or repaired at a Chrysler Motors Corporation Authorized Dealer's place of business without charge for such parts or labor: engine block, head and internal parts, intake manifold, water pump, transmission case and internal parts (excepting manual clutch), torque converter, drive shaft, universal joints, rear axle and differential, and rear wheel bearings.

REQUIRED MAINTENANCE: The following maintenance services are required under the warranty—change engine oil every 3 months or 4,000 miles, whichever comes first; replace oil filter every second oil change; clean carburetor air filter every 6 months and replace it every 2 years; and every 6 months furnish evidence of this required service to a Chrysler Motors Corporation Authorized Dealer and request him to certify receipt of such evidence and your car's mileage. Simple enough for such important protection.

Join the Dodge Rebellion at your Dodge Dealer's.

**not
just another
weekend . . .**

It's the greatest . . . a
weekend you'll
color bright with distinction.

It starts with a new suit . . .

A country homespun or
hopsack, an oxford weave or worsted
