

Court Says Poll Tax Is Unconstitutional

AUSTIN (AP) — A three-judge federal court ruled Texas' 64-year-old poll tax voting requirement unconstitutional Wednesday, throwing doubt on 1966 voter registration and possibly setting up a special legislative session.

The court said its 45-page unanimous decision takes effect immediately, prohibiting the payment of the poll tax "as a prerequisite to voting in general, special and primary elections, federal, state or local, in the State of Texas."

Withholds Comment

Gov. John Connally, who has sole authority to call a special session, withheld comment until he could review the decision with Atty. Gen. Waggoner Carr.

Deadline for payment of poll taxes for the 1966 primary and general elections was Jan. 31. Party primaries are set for May 7. Monday was the filing deadline for candidates.

The court gave the state 14

days to ask the U.S. Circuit Court of Appeals or the U.S. Supreme Court to stay the order.

AG Initiates

U.S. Atty. Gen. Nicholas Katzenbach initiated the suit under congressional instructions contained in the 1965 Voting Rights Act. The suit alleged the requirement discriminates against Negroes.

The opinion, by Judge Homer Thornberry of the 5th U.S. Circuit Court of Appeals, said the poll tax "as a precondition to voting must fall as an unjustified restriction on one of the most basic rights guaranteed by the due process clause."

Senate Sets Special Meet For Tonight

The Student Senate has called a special meeting for 6 p.m. today to consider the only remaining item of the election revision proposals.

This is a constitutional revision which changes Article II Section 3 from "A Senator must be registered in the school from which he is elected" to "No Senator shall be seated or allowed to continue in his seat unless he is a registered member of the school his seat purports to represent. A candidate for senator need not be a registered member of the school he proposes to represent at the time of the election."

If approved by the Senate, the proposal will be submitted for student body approval in Wednesday's elections.

The Senate will also hear a report from Gary Rose of the Course and Instructor Evaluation Committee and will consider the by-law revision concerning summer senators.

The Senate will meet in the Architecture Auditorium, room 101 of the Architecture Building.

MUN Needs Resolutions

Model United Nations resolutions, which will be submitted to the three general committees for discussion, are due in the Student Union Program Office by 2 p.m. Friday.

Resolutions will be reviewed by the Steering Committee Friday afternoon and placed in order of discussion in the Political, Special Political, and Economic and Social Committees. The order of discussion in committee may be changed by a motion from the floor to override the Steering Committee's decision.

After discussion and debate, each of the three committees will adopt two resolutions to be presented to the General Assembly which convenes March 3.

These two resolutions will represent the committee's opinion on the issues to be discussed.

No. 81

Goodwin To Prepare For Smooth Transition

By DAVID SNYDER

Assistant Managing Editor

Dr. Robert Cabaniss Goodwin, retiring seventh president of Texas Technological College, declined Wednesday to speculate on his future plans, but said his main job now is to "make way for his successor."

Dr. Grover E. Murray, currently vice president for academic affairs of the Louisiana State University System, will assume the presidency Sept. 1.

Dr. Goodwin, who will be 68 years old March 17, said he had expected the appointment of a new president because of a policy maintained by the Board of Directors placing the age limit of administrators at 65. The Board restated this policy last year.

Make Smooth Transition

"My only plans now are to remain here until Sept. 1 and make the transition as smooth as possible for the next man," Dr. Goodwin said.

Dr. Goodwin became acting president of Tech in 1959 following the resignation of Dr. E. N. Jones. At that time he was academic vice president. He came to Tech as head of the chemistry department in 1930, became dean of the Graduate School in 1938 and dean of Arts and Sciences in 1945. He became president at the age of 61.

His term as president has been marked by both physical and academic growth. Enrollment has increased more than 6,000, many new buildings have been built, the scope of graduate programs

and advanced degrees has increased and the size of the faculty has nearly doubled.

Work Increases

"But along with this growth has come a tremendous increase in the amount of administrative work," Dr. Goodwin said. "The

ray will have an entirely different view of things when he arrives."

Dr. Goodwin predicted a favorable future for Texas Tech, marked by numerous kinds of growth.

Predicts Academic Growth

"I foresee nothing but continued growth for the college, not only numerically, but in depth and variety of programs here. Tech is and will continue to be one of the most important institutions of higher learning in the State of Texas," he said.

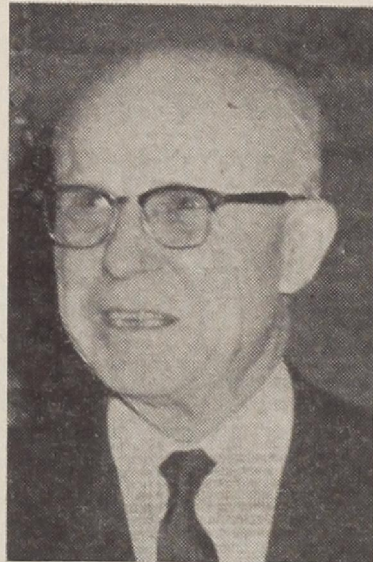

Dr. Goodwin came to Tech from the University of Florida, where he had been professor of chemistry, in 1930. He taught chemistry here until he became acting president in 1959.

Dr. Goodwin took a double major in English and history to earn his bachelor of arts degree from Howard Payne College. He earned a master of arts from the University of Texas and the Ph. D. from Harvard in 1928.

Has Exciting Prospect

Speaking of Dr. Murray, Dr. Goodwin said, "He faces an exciting prospect for a wonderful opportunity to promote the college, and its ever-widening influence."

Dr. Murray will be the first person to take over the presidency directly after coming from another school since Dr. D. M. Wiggins became president in 1948. He came from Texas Western, then College of Mines, in El Paso. Dr. Jones followed him as president in 1952.

DR. ROBERT C. GOODWIN

administration must continue to expand with the college."

He cited one of the main problems to be faced by Dr. Murray as maintenance of the proper level of instruction in a time of mass education, as well as development of further graduate and research work.

"However," he said, "Dr. Mur-

Ad Seminar Begins Today

Dan K. Loveland, of J. Walter Thompson Agency, Dallas, Rex Brack, senior vice president of Braniff International Airlines and Alex Chesser, vice president and director of advertising and public relations, Houston Natural Gas, will be featured speakers at the World of Advertising Seminar which opens at 9:30 a.m. today in the Tech Union Ballroom.

The seminar sponsored by Alpha Delta Sigma, Gamma Alpha Chi and the Lubbock Ad Club, will include an all-day series of addresses, a luncheon, a panel discussion and will conclude with the Silver Medal Award tonight.

'Advertising Week'

The seminar is part of National Advertising Recognition Week. The theme at Tech is "Advertising: The Gentle Giant."

Loveland works for J. Walter Thompson Co., the largest advertising agency in the world. He started in Detroit 15 years ago and has been writing advertising and sales promotion copy for five years. He later specialized in direct mail for Ford Trucks. "The Ford Mustang Story," is Loveland's speech topic.

Brack became a senior vice president with Braniff in 1960. He is responsible for advertising and public relations for the airline.

Brack became associated with

Braniff in 1944, and has served in different departments including traffic manager for the northern regions, general traffic manager and sales manager for the entire systems before his election as vice president in 1954.

'Plain Plane'

"Away with the Plain Plane," is Brack's topic. He will discuss the origin of the idea for this advertising campaign and present highlights of the campaign. A stewardess will model the new uniforms that are a part of this campaign.

"What Did Advertising Do For You Today?" will be the topic

of a panel discussion slated for the afternoon session. Panel members will include Art Pinson, sales manager, KOAT-TV, Albuquerque; G. Don Curphey, vice president of McCormick Advertising Agency, Amarillo; Rex Webster of Webster, Harris, and Welborn; Mrs. Jack Dulaney, housewife; Dr. C. Melvin Ratheal, pastor of the Trinity Baptist Church; and Bill Parsley, attorney at law and vice president of Texas Tech.

The Silver Medal Award Dinner at 7 p.m. at the Koko Palace will conclude the day's activities. Chesser will speak on "Advertising: The Gentle Giant."

Background Given

Chesser attended the University of Cincinnati and has worked as a staff newsman with WCOP, Cincinnati; as chief announcer with KABC in San Antonio; as program director of KIT, San Antonio and with McCann-Erickson before joining the Houston Natural Gas Corp. in 1955.

Chesser has been associated with the broadcast of Southwest Conference games for Humble Oil and Refining Company since 1944.

The entire day's program is open to all Texas Tech students, faculty and Lubbock and area citizens.

Reservations for the luncheon and award banquet may be made at Ext. 3119 until 10 a.m. today.

Men's 10 To Host All-School Dance

Men's No. 10 will have an all school dance Saturday. This will be the first attempt by a dorm at Tech to host such an activity.

The theme chosen stresses informality, and all participants are urged to dress as casually as possible.

The Grubby Valentine's Dance will feature "The Briks," formally known as the Embers on the Tech campus. "The Briks" who now play out of Dallas were awarded the rating of third best band in

the Dallas area in a Battle of the Band poll.

"The Briks" have played at the Whiske-a-go-go, Louanns, the Studio Club and Gringos in Dallas. They are scheduled to play for the University of Texas Round-Up in April. Their latest recording will be released in the Lubbock area in two weeks.

The dance will be in the Municipal Coliseum from 8-12 p.m. Admission is \$1.50 per couple. Tickets are on sale at the Union or at Men's No. 10.

Dairy Industry Students Plan Week's Field Trip

Three seniors in Texas Tech's dairy industry department of the School of Agriculture will begin a week's field trip next Wednesday with department head J. J. Willingham.

Willingham said the trip will include visits to the North Texas Producers by-products plant at Muenster, a visit to the Anderson-Clayton facility in Sherman and an inspection of the Campbell Soup Company plant in Paris.

Other sites to be visited include the Weyerhaeuser paper plant in Garland, which manufactures milk cartons, and the Kraft facility, also in Garland.

On Feb. 19, the group will visit the Foremost Dairies facilities and the Federal Food and Drug Administration laboratories, both located in Dallas. Willingham and the students also will attend the annual Dairy Products of Texas Institute in Dallas from Feb. 20-22.

The students are Gary E. Vaughan, Winters, James Roberson, Lubbock and Dwight McGeehee, Happy.

PBA Elects Warren Goss New President

Adaption of a constitution and by-laws and election of officers highlighted the formal organizational meeting of the Professional Business Association Feb. 3 in the Business Administration Building.

New officers are Warren Goss, president; Roy Thornburg, vice president; Travis Sursa, Jr., secretary; and Dan Crump, treasurer.

The association was organized to petition Alpha Kappa Psi, national professional business fraternity, for a charter as a chapter of the fraternity.

Activities planned for the organization include professional talks, tours, lectures, films and research work. It will also grant scholarship awards in the School of Business Administration.

Interested male business majors should contact an officer for further information.

JUNIOR COUNCIL

Junior Council will meet today at 8 p.m. in the Student Union, room 209.

SEA

"My Teaching Experience" will be the program topic at the monthly Student Education Association meeting tonight at 7 in room 212 of the Ad Building.

Two SEA Tech exes, Betsy Deaton and Gertrude Wolf, will tell about their first year of teaching.

ACADEMY AWARD WINNER — Sophia Loren is shown, along with two supporting cast members, in a scene from "Two Women," which is being presented at 7:30 p.m. today in the Coronado Room of Tech Union. The film depicts the prob-

lems of a woman and her 13-year-old daughter caught up in the turmoil of World War II Italy. Directed by Vittorio DeSica, "Two Women" co-stars Jean Paul Belmondo.

(Tech Union Photo)

Fine Arts Reminders

Lubbock Theater Center's production of "Teahouse of the August Moon," a sellout at each of its performances, will be held over for two additional shows, Managing Director Burt French said.

In addition to the scheduled showing at 8:15 p.m. Friday, there will be a performance at 8:15 p.m. Thursday and another matinee at 2:30 p.m. Sunday.

Tickets are \$2.25 for adults and \$1.15 for students, and reservations may be made by calling SH 4-3681.

★ ★ ★

"Wives and Lovers," second in the Popular Film Series presented by the Special Events Committee of Tech Union, will be shown at 8 p.m. Friday and at 3 and 7 p.m. Sunday.

The film features Janet Leigh, Van Johnson, Shelly Winters and Martha Hyer in the story of a struggling writer who suddenly becomes a smashing success and moves his wife into a swanky, luxurious suburb.

Students are admitted free upon presenting an I.D., and the movie will be shown in the Coronado Room of Tech Union.

★ ★ ★

Katherine Hepburn, Jason Robards, Sir Ralph Richardson and Dean Stockwell star in "Long Day's Journey Into Night," currently showing at the Continental Fine Arts Cinema.

The film is based on the autobiographical play of the same name by Eugene O'Neill and won high acclamation at the time of its release three years ago. It is scheduled to run through Saturday, with student admission set at 75 cents.

Off The Bored Worley

It's not just very often, according to the law of averages, that someone on this campus tries something new in the line of giving Tech students a thing or two to do to keep them off the streets.

And when it does happen, when enough people get together in an organized group-eager to provide something different in the line of entertainment, the fences of administrative handhold that confront them can seem almost too high to merit the effort.

The case in point here is the all-school "Grubby Valentine Dance" sponsored by Men's No. 10. The dance, first on the campus originated and planned by a residence hall on an all-school basis, has been in the works for quite some time. Committees were set up, the coliseum rented, tickets and invitations printed and posters made up for approval.

Bomb Falls

Then last week, when the invitations were sent out to the residence halls, the bomb hit. Suddenly there were administrative vetos from all sides.

First one official ordered removal of the invitations from the respective dorm mail boxes for inspection and then the same person forbade their re-issuance on the grounds that they had been neither stamped nor "metered"

and were therefore not qualified for distribution.

Then came reaction from another chain of command in the powers that be and the boys were called in for their comeuppance and told that the invitations must go . . . down the drain with a sum of money more than just a drop in the bucket when included in the planning of such an event.

Stunt Stumped

A publicity stunt planned to gain interest in the event, involving a truck if not identical at least similar to those used freely by other organizations during the spring cheerleader campaigns, was halted midway. The boys were directed from one "authority" to another and eventually their efforts culminated in their first having to prepare a highly detailed report on the stunt to the Solicitations Committee for approval.

The dance plans have not been halted altogether, and tickets are now on sale, priced at \$1.50 per couple, in the ticket booth of Tech Union. But with the lack of publicity resulting from the chain of events discussed above, it is only hoped that enough people will wander through the Union and spot the booth. This seems to be almost the only way in which

Hooray And Hallelujah!

THREE CHEERS AND HALLELUJAH!!

That's what we felt like shouting when we left the Biology Auditorium Tuesday night.

Along with members of the Student Senate and a handful of visitors, we had just witnessed a very impressive, frank question-and-answer session with Al Allison, a member of the Texas Tech Board of Directors.

But the meeting Tuesday night was more than just impressive and frank—it was historic, it was an epoch, it was a landmark case, it was a change—it was a change for the better.

The very first question out of the bag concerned the AAUP censure, and one of the next queries was about the name-change issue. And just what was being done in both areas?

On the AAUP censure, Allison said that there had been members on the Board who had not been interested in getting Tech's name removed, but that the situation was going to change.

He rested his hopes on Tech's newly-named president, Dr. Grover Murray, as being the key figure in getting this stigma removed.

On the name change, he said that the entire matter was badly mishandled by the Board, the students, the faculty and the ex-students several years ago. Allison also said that not all the facts were known by all the groups several years ago, and that there was too much misunderstanding.

He said that the question would be revived soon, probably by the Board, and that a suitable name to better describe this university would be found—and that

that name would probably be Texas State University.

These two questions set the stage for the rest of the evening. Many more questions followed during the next two hours, and Allison seemed to answer them fairly and frankly. (See story below.)

However, at one point we were a bit worried about his reference to—and reliance on—Tech's new president as a man who would actively cope with a myriad of these problems.

But from what we have since learned about Dr. Murray from Allison and other persons who have met him, our fears are somewhat eased.

Everyone describes Dr. Murray in glowing terms as a man who wants to get things done and makes others want to get those things done also.

We left the meeting feeling a lot better about Texas Tech, and we feel that in many trouble areas here, changes are soon to come about.

Scott Allen, Student Association vice president, summed up our over-all feelings:

"As long as we have Board members like Mr. Allison, who are willing to take their time and effort to serve the school and to inform students about the Board's action concerning our school, Texas Tech will continue to progress."

And progress it will, if more men like Allison will share their information and problems with others who are vitally interested and able to help.

We hope Allison's speech will be the start of a tradition that will never end at Texas Tech. It was one of the most rewarding experiences we have been involved with during our years here.

LETTERS:

Views Of The Reader

Student Questions 'Vague Provision'

Dear Editor,

Each year at registration I, like countless thousands of other students, sign the loyalty oath cards because the card states that the student's "Signature is required of all persons before being permitted to register at any State-supported college or university (in accordance with HB 837, 51st Legislature and Title 15 Vernon's Criminal Statutes of Texas)."

This year I devoted a few minutes to carefully reading the card and I was surprised and disturbed to find the third provision. It reads,

In becoming a student of Texas Tech I hereby pledge absolute obedience to the laws of the State of Texas, the United States of America, and the regulations of the Texas Technological College. I pledge conformity to those highest standards of conduct which are universally recognized in good society and among honorable men and women.

I was surprised to find this provision because other State-supported institutions (such as the University of Texas) do not have similar provisions. Also I do not think that the Texas Legislature would pass a special law dealing with conformity of behavior at Texas Tech.

I then proceeded to go over to the library where I looked up HB 837. I found that no such provision is included in the required loyalty oath. I also looked up Title 15 and found the same to be true.

I now would like to pose the question, where did the adminis-

tration get the authority to state that provision 3 is required by the State Legislature before permission to register is granted?

I am disturbed about this provision because there are no standards of conduct which are "universally recognized in good society and among honorable men and women."

I feel certain that now that the administration has been made aware of its mistake, it will certainly take steps to correct this mistake.

Yours truly,
Marilyn Tvedt

Students Dispute Harding's Letter

Dear Editor,

To the faultfinding Mr. Roger Harding, we wish to pose still another "why." With the myriad problems that we are forced to live with on this imperfect campus, why must he be critical of a person trying to alleviate some of these inconsistencies by bringing them to the attention of the student public?

We do not necessarily mean by this that TECH is in a worse condition than any other college, rather, in a similar one, imperfection being the norm. We are here at college to question and improve, which is exactly why constructive dissention is a healthy sign of student "awareness."

If this be a false statement, what, may we ask is the ultimate value of education? Perchance Mr. Harding would know.

In the belief of student rights,

Al Allison: Questions And Answers On Texas Tech

Tech Board member Al Allison spoke candidly and frankly concerning problem areas of the school before Senators and students Tuesday night in another first for Texas Tech.

Tuesday's meeting marked the first time a Board member has appeared before the Senate and paved the way for closer communications between the Student Senate and the Board of Directors.

Allison himself commended the Senate's action and encouraged them to invite other Board members.

Because of a lack of time and space the Toreador was unable to cover all questions in Wednesday's paper. Following are some of the questions posed to Allison and his answers:

Q. Explain the necessity and philosophy of on-campus housing.

A. Allison replied that he was probably the only Board member

who voted against off-campus housing. One reason was that Tech has had beautiful success with on-campus housing. However, Tech is now running into the problem of lack of land and in the future, housing will probably be in the form of complexes.

Q. Why aren't Board members all graduates of Texas Tech?

A. "It's political." However, Allison went on to add that he thought the qualifications of a good Board member are: he must be knowledgeable, interested in Tech, a success in his own business and have enough time to serve on the Board.

Board members are appointed for six years and have six meetings each year. Allison said one thing this Board is doing which he hopes other Boards will continue is future planning so that Tech can keep up with the increasing enrollment.

Q. Why are boys forced to live in the dorms and why aren't they allowed to demonstrate peacefully against food?

A. These decisions are purely administrative, Allison said, and the Board of Directors is not involved with them. However, he added off-campus housing will be controlled just as on-campus housing.

Q. What about seating at athletic events, and is it fair that students should have to pay the \$20 activity fee and then not be guaranteed a seat?

A. "In my opinion, students should have top priority over anyone at sports events," Allison said. "These are some of the best days of their life and they will provide many pleasant memories for them in the future." Allison believes students should not be denied the privilege of seeing their own sports teams in action.

The \$20 activity fee is an administrative decision not the Board's, and it is up to the administration whether the required activity fee be modified allowing students to pay by game.

Q. What action has been taken on the Faculty Senate?

A. "I don't know."

Q. How do you feel about a Faculty Senate?

A. "I have some reservations." Allison expressed some doubt that the Board of Directors and faculty are ready for a Faculty Senate.

Q. What steps should students take to appear before the Board of Directors to present their stand on an issue?

A. Students should first appear before their Student Senate and the Senate should then ask the chairman for permission to appear before the Board. The chairman can either refuse or grant this request.

Q. Are we completing the present library as fast as is possible?

A. "Yes, we just lack money." Allison said the lack of funds is also a drawback in building new classroom space. He said Tech needs a new science complex, building for law school and more classroom buildings.

Q. Are some Board actions and meetings kept secret?

A. Allison emphasized that Board meetings and actions are not secret and that all Board agendas are open.

Q. What were reservations in hiring Dr. Murray?

A. "I know of no reservations. Every Board member was 100 per cent for Dr. Murray, but we were all afraid he might not accept the appointment." He described Dr. Murray as a brilliant man and as a person in favor of action and getting things done.

Raider Roundup

42 AFROTC Cadets Plan Trip To AFB

AHEA
The Tech chapter of the AHEA will meet today at 6:30 p.m. in the Student Union Blue Room. "Twenty Years after Graduation" will be the program.

PRE-MED SOCIETY AND AED
The Pre-Med Society and Alpha Epsilon Delta, pre-med honorary, will meet today at 7 p.m. in the Science Building, C-2. Dr. Eugene Brown, D.O., will speak on Osteopathy.

OCS ORIENTATION
Army Officer Candidate School orientation for graduating seniors will be conducted Saturday from 11-12 a.m. in the Social Science Building, Room 22.

NEWMAN CLUB
The Newman Club will meet Sunday at 7:15 p.m. in the Newman Center. Beliefs held by the

Dr. Lockhart To Give Talk In Arizona

Dr. Bill Lockhart, head of Texas Tech's department of applied arts, will speak on "Art in the Home" today at Arizona State University.

Lockhart is one of the principal lecturers at a Family Life Seminar sponsored by the Sears-Roebuck Foundation in cooperation with Arizona State University's department of home economics.

In his lecture he will discuss how choice of design reflects and affects the personality of the home decorator.

Church of Christ on the Ecumenical movement will be discussed.

INTERNATIONAL CLUB
The International Club will meet Sunday at 3 p.m. in the Student Union Blue Room. Slides and a talk on the Holy Land will be presented.

VALENTINE DANCE
A Valentine dance for "those who dare to be close" will be held Saturday from 8:30-12 p.m. in the Union Ballroom. Mark Anthony's Orchestra will play for the dance, and there will be no admission charge.

ACCOUNTING SOCIETY
Tech Accounting Society will meet today at 8 p.m. in the Business Administration Building, Room 226. Bob Summers of Southwestern Public Service will speak. The public is invited.

SOCK AND BUSKIN
Sock and Buskin will meet today at noon in the Green Room of the University Theater. John

Off The Bored

(Continued from Page 3)
knowledge of the dance will be spread.

The success the boys in Men's No. 10 will have in this project, the proceeds of which, incidentally, will go to a scholarship fund, depends upon the support they are given by the students.

We hope the dance sells out to a crowd of people who, despite the complications involved in getting something new off the ground, will have a good "grubby" time Saturday.

Paul Painter, drama student, will give a magic show. All students interested in pledging Sock and Buskin the spring semester should attend.

SOCIOLOGY CLUB
The Sociology Club will meet at 7 p.m. today in the Mesa Room of the Student Union. The program will feature community services in Lubbock.

LATIN AMERICAN CAUCUS
The Latin American caucus will meet 7 p.m. today in the Student Union, room 209. One member from each Latin American delegation should be present.

Forty-two Air Force ROTC cadets from Texas Tech will leave Lubbock Municipal Airport tomorrow at 8 a.m. by C123 for Walker AFB, Roswell, New Mexico.

They will be briefed on the mission of the 6th Strategic Aerospace Wing located there.

Tentative schedule for the group includes a tour of the base and lunch at the officer's club, according to Maj Henry L. Gantz, professor of aerospace studies at Tech.

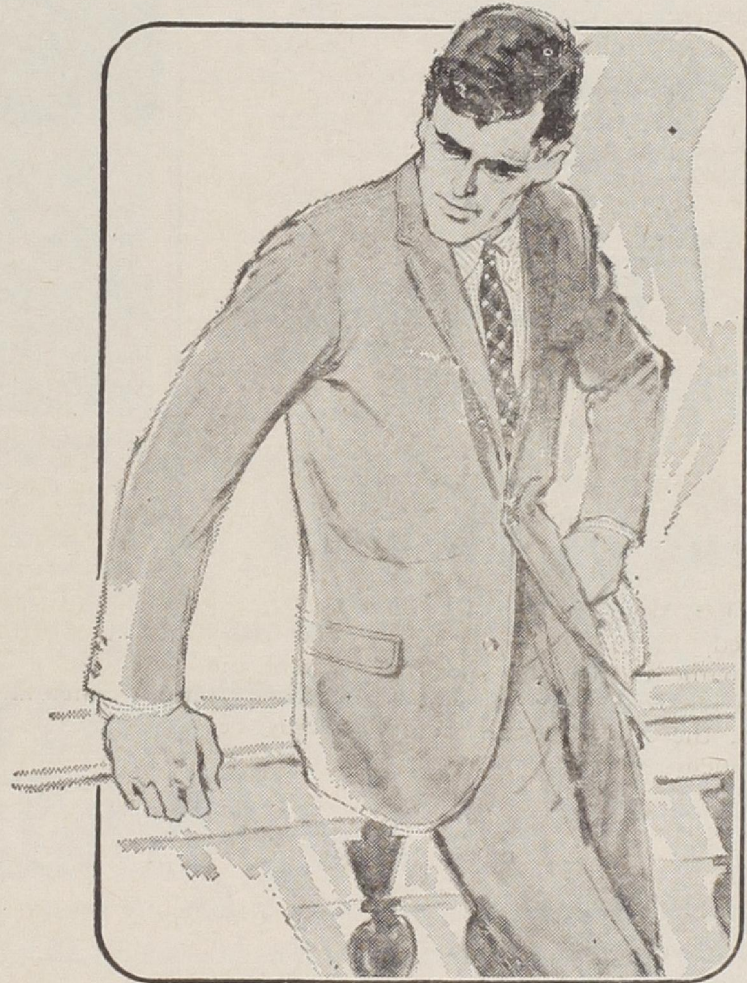

The group will view the B52 simulator, which is a device enabling the operator to reproduce, under test, conditions likely to

occur during actual performance. The cadets will learn the purpose of the Strategic Air Command (SAC) and be briefed on their role and mission in the United States defense.

Capt. Herman A. Jones, assistant professor of aerospace at Tech, will accompany the group.

"HAMLET" TRYOUTS
Tryouts for "Hamlet" will be held at the Speech Theater today and Friday from 4-6 p.m. and 7-10 p.m. The play will be under the direction of Perry Langerstein.

IT GOT AWAY—Tech lost the game and possibly the championship Tuesday night in College Station. Dub Malaise (22, top left) scores a layup surrounded by Aggies in the first half which Tech won, 40-36. Bob Fillpot, head Saddle Tramp (center), guards the spirit bell after some Aggies tried to steal it during half-time. John Beasley (44), blocks a Bobby Measells shot in the second half (top right). The scoreboard (bottom center) tells the reason for Norman Reuther's sadness (bottom right).

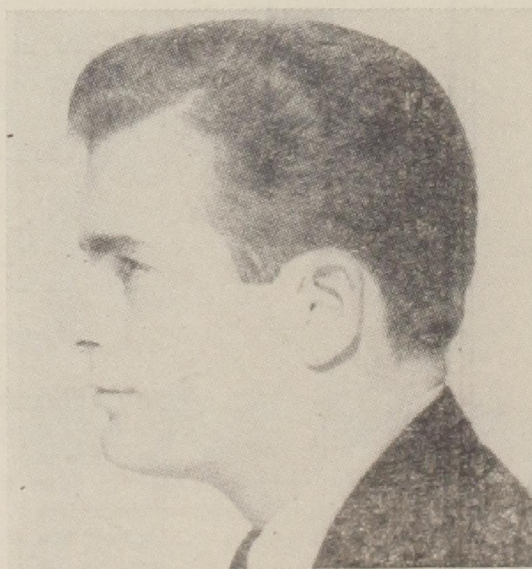

QUESTION...

Why be satisfied with second rate barber work at first rate prices? Try "Fabulous" Briercroft Barber Shop, meet our six renowned stylists, see our beautiful manicurist, and get a wax shine from Mr. Shine—All for the *same price* you are *now* used to paying.

WHY NOT STYLE YOUR HAIR??

Styling is not effeminate nor does it mean the glueing of hair into an unnatural style. Styling is merely the art of emphasizing a man's best features and deemphasizing his worst. The aim of a trained stylist is to show a man the methods and techniques of hair management that will enable him to achieve the utmost in good grooming.

WHAT IS RAZOR CUTTING??

Razor cutting employs the use of a razor in hair cutting, using special shampoo and conditioners that leave your hair looking and feeling great—

WHAT IS HAIR STRAIGHTENING??

A method by which curly or kinky hair can be chemically straightened, thus leaving it easy to manage, comb, and style.

Chemical Confab To Attract 400

More than 400 farmers and agricultural leaders are expected to attend the 13th annual Agricultural Chemicals Conference scheduled to open today at 8:30 a.m. in the Texas Tech Union.

Sponsoring the two-day meeting, along with Tech, are the Texas A&M University System, Lubbock Chamber of Commerce, West Texas Chamber of Commerce and the Soil Fertility Committee.

Dr. Clark Harvey, Tech professor of agronomy and Elmer Hudspeth Jr., agricultural engineer for the South Plains Research and Extension Center, are program committee chairmen.

Tech Dean of Agriculture Gerald W. Thomas will welcome conference participants. George McCleskey, president of the Lubbock Chamber of Commerce, will preside at the opening session.

Dr. Tom J. Army, senior research associate for International Minerals and Chemical Corporation of Skokie, Ill., will deliver the keynote address. He will discuss the problem of finding a solution to the threat of worldwide famine. Dr. Army for several years was in charge of fertility research for Western states.

"The Future Role of Pesticides in Food Production," will be the topic of Gordon L. Berg, editor of "Farm Chemicals" and "Farm Technology," at 10:05 a.m. Berg's work in agricultural journalism won him the Distinguished Service Award of the Texas Vocational Agricultural Teachers Association in 1957.

Other speakers include entomologist Dr. Richard Ridgway and Beverly Reeves, cotton ginning specialist, who will share the top-

ic, "Stem Application of Systemics," and Dr. Calvin Orr, whose subject will be "The Nematode Problem in West Texas."

Three special seminars are set for 1:15 p.m. Dr. Arthur B. Onken of the South Plains Research and Extension Center, will lead a seminar on "Fertilizer and Irrigation."

"Insects and Insecticides" will be the topic of Area Extension Entomologist Donald Rummel. Hudspeth will head a seminar on "Weed Control."

Dr. Billy Tucker, agronomist and project leader for soil fertility research and education at Oklahoma State University, will discuss "Measurement for Accumulated Soil Nitrates as a Soil Testing Tool," to open Friday's session.

Dr. Alex Pope of Plainview, former coordinator for research in soil chemistry and fertility on the High Plains, will outline the work of the Soil Fertility Committee.

Dr. Carlo M. Ignoffo, entomologist for International Minerals and Chemical Corporation, will present a talk on "Viruses; Living Insecticides," at 10:20 a.m.

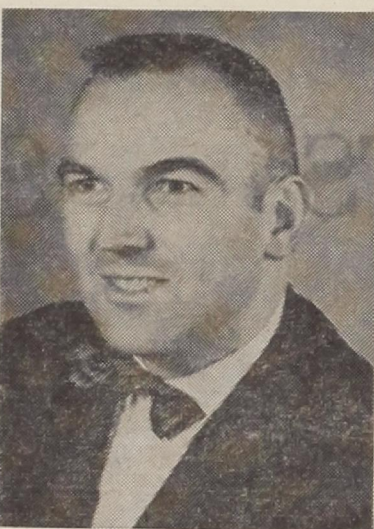

The closing address will be a discussion of "Soil-Borne Disease Problems in West Texas," by Dr. Robert W. Berry, pathologist for Texas Agricultural Extension Service at the South Plains Research and Extension Center.

For Computer Center

New Director Named

Dr. George K. Hutchinson, a research specialist with the Lockheed Missiles and Space Company since 1956, has been named director of Texas Tech's Computer Center, Tech President R. C. Goodwin said Wednesday.

Dr. Hutchinson, who also will serve as assistant professor of Industrial Engineering, has a bachelor's in Mechanical Engineering from the University of Maine, a master's in Mechanical Engineering from the Carnegie Institute of Technology and a Ph.D. in Management Science from Stanford.

DR. GEORGE K. HUTCHINSON

Dr. Hutchinson was a project leader with Lockheed's Computation Center, responsible for the administrative and technical direction of research projects and contracts. In 1960-61, he served as a senior mathematical analyst for Lockheed in problem definition, programming and system check-out. Dr. Hutchinson supervised and performed computer analysis and programming from 1956 to 1959.

Dr. Hutchinson served as part-time assistant professor at San Jose State College from 1964-65. He was an instructor in the executive development program in the Stanford Graduate School of Business and TransWorld Airlines. During 1959-60, he served as a part-time research assistant for the Western Data Processing Center at Stanford.

The Maine native holds memberships in Tau Beta Pi, Association for Computing Machinery, Operations Research Society of America and the Operational Research Society, Ltd.

He has held a Wares Fellowship, 1951-55; Pulp and Paper Foundation Award, 1954-55; Teaching Assistantship, 1955-56; and a Western Data Processing Center Research Assistantship, 1959-61.

His publications include "Optimum Tape Writing Procedures," "Vibrations of a Simply Supported Flat Plate with Point Masses Mounted Thereon," "Evaluation Techniques for Planning and Administering a Computation Center," "A Computation Center Simulation Project," "Lockheed Multiprocessor Simulator System" and "Systems Design and Analysis Through Simulation," a joint paper with J. N. Maguire presented in the AFIPS Conference proceedings.

Dr. Hutchison is married and has three children, Pamela, 7; Blake, 4; and Spencer, 11 months.
