No. 17

Staff Photo by Harold Creswell

**FINISHING TOUCHES** on Homecoming Plans for Nov. 2-3 are made by the Homecoming Committee. Left to right, front row, Bob Bentz, Vet's Club coronation chairman from Dallas; Joanne Holmes, student council representative from Lubbock; Billy Walker, Homecoming chairman from Midland; Mervin Downey, parade chairman from Hawley; and Jess McIlvain, Alpha Phi Omega Coronation chairman from Pecos. Back row: Joe A. Sneed, registration chairman,

Lubbock; Fred Williams, campus sign chairman from Pampa; Randy McKenzie, half-time activities from Fort Worth and James Thomson from Amarillo. The two-day gathering will include Queen coronation and bonfire Friday night; a downtown parade, and game Saturday morning and afternoon and a mammoth homecoming dance with Woody Herman Saturday night in the Municipal Coliseum.

Texas Tech's Red Raiders, still seeking their first win of the season, are en route to Tucson today, where they meet the highly touted Arizona Wildcats tomorrow at 8 p.m.

The game will cap homecoming activities for Arizona, but will be anything but a gala event for the Red Raiders. Plagued by injuries,

the Big Red will go into the game minus their leader in total offense, quarterback Buddy Hill.

Hill has had a recurrence of the knee trouble which has sidelined him more than once in the past two seasons. Hill will be counted upon for "limited" action tomorrow night. He will be replaced by captain Don Williams, shifted to left halfback for the West Texas game two weeks ago. Also on the doubtful list is fullback Charles Dixon, who suffered practice last week. Dixon leads a minor shoulder separation in Tech ball-carriers in the yards-pertry department.

The absence of these two leaders in Tech's offensive machine does not help the Raiders' comparative strength much. Even with these two stalwarts, the Wildcats would still have a decisive edge.

Arizona has back the nation's leading ground-gainer for two consecutive seasons in tailback Art Luppino. The "Cactus Comet" galloped 1,313 yards last year, and had 1,369 in 1954. As if Luppino weren't enough, the Wildcats have the nation's second leading passer in quarterback Ralph Hunsaker. The Arizona ace has connected on 51 of 93 passes for 620 yards. Hunsaker's total offense mark of 764 yards places him third nationally in that department.

One thing stands out in Tech's favor. The Wildcats have never beaten the Raiders in Tucson. One game at Tucson ended in a tie, however. That was in 1936, when the Raiders had opened with three consecutive losses. Score was 7-7.

That the jinx will be enough to hold back the Wildcats seems unlikely, as Arizona will be seeking to make up in part for their dismal overall showing against Red Raider teams. In 17 meetings Arizona has emerged victorious

### Annual Postpones Picture Deadlines

Deadlines for students to have their pictures made for the La Ventana has been extended through Oct. 29, 30 and 31, Editor Barbara Pearce announced.

Students from any class who have not had their picture made may do so any one of the three days at Koen's Studio, 1311 College or 2222 Broadway. Nov. 7 is deadline for students to select their proofs, according to Miss Pearce.

All clubs that wish to buy a page in the yearbook must have all their information into the La Ventana office by Nov. 10 or they must forfeit their money and page space.

### Talented Techsans To Appear At A&M

Five acts were chosen Friday night in a Union talent show to represent Tech when Texas A&M screens acts for the Aggies' Intercollegiate Talent Show later in the year.

The five finalists chosen include Pat Cassidy, sophomore education major from San Antonio, who played the accordion; Ross Cass, speech major from Plainview, who sang "Earthbound"; the "Flying Matadors", a trampoline act made up of Jay Johnson, sophomore chemistry major from Amarillo, Joe Naylor, sophomore pre-med major from Lubbock and coached by Edsel Buchanan, director and coach of intermural sports at Tech;

Other finalists were Bennie Dunn, junior speech major from Lubbock with a baton routine and Martha Mack, senior voice major from Lubbock who sang "Sweethearts."

The five finalists were chosen from ten acts that had been chosen through a screening session on Thursday.

Janelle Ohlenbusch supplied the background music on the organ for the show. Two hundred people attended.

enchosenclose:dol-H cleantheir

### Lubbock Journalist Will Address Club

Mrs. W. A. Wilbanks of Lubbock will give an informal talk on her experiences in the newspaper world at the next meeting of the Press Club, Nov. 6.

Mrs. Wilbanks, a veteran newspaper woman, received her B. A. in Journalism from Oklahoma University and her Masters Degree from The University of Missouri. She has a wide view of the profession, working on both daily and weekly publications. She is now preparing manuscripts for the activities of the local Artists Guild.

## Tech Prepares For Homecoming Crowd

### CROWNING OF QUEEN SPOTLIGHTS ACTIVITY

Crowning of Tech's third Homecoming Queen next Friday night will set off an activity-packed weekend for Techsans of the past and present.

Homecoming agenda released today by L. C. Walker, executive secretary of the Ex-Students Assn. includes a giant pep rally and bonfire in front of the Science building preceding the Queen's crowning. Registration of exes will begin Friday afternoon at 2 at major Lubbock hotels and at Tech Union. Other Friday activities will include class reunions following the pep rally.

Registration from 8 to 11 a.m. will begin Saturday's activities, featuring the Homecoming Parade at 10:30 a.m. and a buffet luncheon for exes and friends in the Gym.

Game time is 2 p.m. for the contest with Oklahoma A&M.

### Spanish Speakers To Sponsor Show

"Lluvia Roja," a Spanish language movie depicting Mexican life during the revolution, will be shown in the Library, room 11, Thursday.

Sponsored by the foreign language department, there will be four different showings of the movie to allow every interested Techsan to attend. Tickets will be 25 cents, and are being sold by all Spanish instructors. Tickets will probably be available at the door before each performance, according to movie sponsors, unless there is a sell-out of seats.

There will be English captions written at the bottom of the picture. Showings will begin promptly at 2, 3:30, 6 and 8:30 p.m.

Woody Herman and his "third herd" will furnish music for the Homecoming Dance Saturday night in the Coliseum.

### Fred Waring Gives Varied Concert Here

Fred Waring and his Pennsylvanians will appear here Sunday in the Lubbock Municipal Auditorium at 2:30 p.m. for a two-and-a-half hour program.

Tickets for the show are now on sale at the Auditorium ticket office for \$1.25 to \$3.50.

"The show travels from the latest hit of Tin Pan Alley to the magnificence of moving spirituals, love songs, ragtime and rock and roll—all part of the musical heritage of America," according to a release from the company.

"Old Man River," "With a Song in My Heart," and "Battle Hymn of the Republic" are among numbers on the program.

Appearing for the first time with Waring's 45-piece orchestra and chorus will be his son, Fred Waring, Jr., who will be featured vocalist along with Norma Douglas and Bob Sands.

### TECH CIVIC CHORUS CLAIMS RECORD 150

Rehearsals for a special Christmas program are already underway by the Texas Tech Civic Chorus (formerly the Festival Chorus), according to director Ira Schantz.

Membership is still open—to non-students as well as persons officially enrolled at Tech, and no auditions are necessary. The Chorus now has about 150 voices, an increase of 35 from last year.

### TRAMPS SPONSOR FLASH CARD SHOW

The flash card system, which most Southwest Conference schools have at each game, will be the feature attraction during the halftime activities of the homecoming game, Nov. 3, and will be sponsored by the Saddle Tramps.

Section Q will be the flash card section, extending from the fourteenth row to the fourth row from the top. The Saddle Tramps will hand out three cards to each person in this section before halftime. There will also be directions concerning the use of the flash cards under each seat in the section. The students are asked not to leave the section during the time of the program. Each person should sit directly behind the one in front of him for proper lineage.

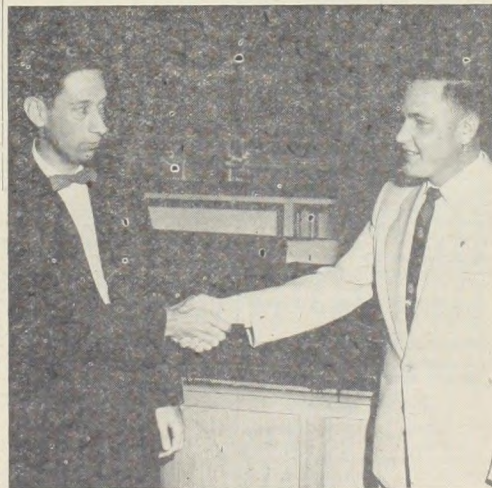

The Saddle Tramps will give the directions for this program and its success depends upon the cooperation that they will receive from the students.

### Assistant Registrar Resigns From Post

Warren G. Harding, assistant registrar and head of Veterans Affairs at Tech, will leave Tech next week to assume duties as registrar and assistant to the director at the University of Texas Medical School in Galveston.

Harding was honored last night at a meeting of the Tech Vets and presented with a letter of appreciation for the work he has done for the organization during his five and one-half years as sponsor.

Harding has served seven and one-half years as assistant registrar. His replacement has not been announced.

THANKS TO THE VETS SPONSOR—Don Avery, right, president of the Tech Vets Association, congratulates Warren G. Harding for his work with the Vets for five years. Harding is resigning from his position as assistant registrar and will leave Lubbock next week to accept a position in Galveston.

# Amendments Fill Coming Election

Techians who are eligible to vote Nov. 6 probably already have made a decision between Ike or Adlai. But the ballot will also call for another decision that has been less publicized; the eight amendments to the Texas Constitution.

For Tech voters who are not already familiar with them, the Toreador presents the following summary of the proposed amendments. Many of them would not effect the average student personally but it is his responsibility as a citizen to signify intelligent approval or disapproval of the measures.

- The amendments are:
1. Providing compensation to persons who have paid fines or served prison sentences for offenses of which they were later found innocent.
  2. Allowing county commissioners courts greater leeway in division of tax funds for county purposes.
  3. Revising the building fund system of state colleges and allowing the investment of Permanent University Fund money in additional types of investment properties.
  4. Broadening the teacher Retirement System and the State Retirement System to provide better retirement for public employees.
  5. Authorizing the issuance of an additional \$100,000,000 in bonds for financing the Veterans Land Program and changing the make-up of the Veterans Land Board to include two private citizens and the Land Commissioner.
  6. Changing the oath of office for appointive state officials.
  7. Allowing commitment for more than 90 days of mentally ill persons without jury trial to prove insanity.
  8. Providing that a judge may deny bail to a person who has been convicted of two previous felonies and providing protection against misuse of this power.

## DR. EVANS LECTURES TERMED SUCCESSFUL

"The Willson Lectures this year have been the most successful of all," thinks Dean of Student Life James G. Allen.

This success is due to the excellent facilities which have been made available for the lectures, the good organization, and to Dr. Evans himself, who is not only a fine thinker, but also a good speaker, Dean Allen added.

He estimates that attendance at the lectures this year has been up to 40% higher than in previous years.

**TOREADOR**

The Toreador, student newspaper of Texas Technological College is regularly published each Tuesday, Thursday and Friday on the campus at Lubbock by the associated students of the College, and is financed by student activity fees, advertising and subscriptions.

## TECH'S RELIGIOUS GROWTH . . .

Tech students have shown a growing religious trend during this semester.

The Willson Lectures drew record crowds which were too large to be seated in the Union Ballroom—and they even gave the ground floor of the Lubbock Auditorium a run for its money.

The large attendance can be attributed in part to better facilities, and also partly to the international fame of the speaker which was brought for the lectures. However, these reasons are not all that is behind the growing religious crowds.

"Bull Sessions," on religious subjects interested crowds of more than 100 students in dormitories.

These crowds were not "captive audiences." It is significant that students turned out for the lectures because they wanted to, rather than feeling that they should go because of school loyalty or other reasons.

And have you heard about the latest resolution adopted by the Student Council? They have resolved to begin every meeting with a prayer.

Religious activities are definitely on the move at Tech. Now that the ball is rolling, the task of keeping it moving is relatively easy. We hope to see great religious strides on the Tech campus throughout the remainder of the year as well as in future. Our thanks to every person whose efforts have helped in making the 1956 Tech religious program a success over and above what was expected from looking back at other years.

—Ross Short

## Union Calendar

A "listening party" for the Tech-Arizona football game will begin in the Tech Union Saturday at 2 p.m. A dance is slated after the listening party, beginning at 8 p.m.

"Monday night is movie night, featuring 'Hasty Heart,' which will begin at 7 p.m.

### Oxford Debate Set

Also Monday will be an Oxford Debate, sponsored by the Lectures and Debates committee of the Tech Union. Campus Democrats have challenged the Young Republicans to debate on the question, "Resolved: That the Republican Party deserves the confidence of the American people. The debaters will be Willis Taylor, Joe Ben Hughes, Craig Austin, and Don Ledwig. The audience can ask questions and challenge the speakers on the question of "Ike or Adlai."

### Scheduled for Tuesday

Hospitality Hour starts at 9 a.m. Tuesday, and pictures of the Tech-Arizona tilt will be shown at 7 p.m. Bridge instruction, proved a great success with sixty participants, begins at 6:30 p.m. in room A. The entire night has been named "Game Room Date

Night," beginning at 7 p.m. The only requirement for admission is a date.

## we offer you the key to your future . . . OPPORTUNITY TO GROW!

Opportunities for individual growth abound in the electric utility industry. They stem from the tremendous growth of the industry itself—unequaled by any other basic industry of the nation. With a six-fold expansion of facilities in the last 10 years already completed, and even greater growth ahead, Houston

Lighting & Power Company offers graduate engineers unparalleled opportunities in a wide range of jobs.

Other factors, important to you in selecting a career, merit your careful consideration of this expanding, forward-looking industry:

**CHOOSE YOUR OWN OPPORTUNITY!**

DESIGN ENGINEERING  
CONSTRUCTION • PURCHASING  
SALES ENGINEERING  
POWER PLANT AND  
SYSTEM OPERATION

INTERESTING WORK, offering a wide variety of challenging problems.

STABILITY, both with respect to job permanence and location.

A PROGRESSIVE AREA, having the South's greatest concentration of economic power.

Here is an opportunity to grow . . . and grow fast. It's as big as the future, and it's here today.

OUR REPRESENTATIVES WILL BE ON THE CAMPUS MONDAY AND TUESDAY, OCTOBER 29 AND 30

## HOUSTON LIGHTING & POWER COMPANY

DEPENDABLE LOW COST ELECTRIC SERVICE

WE INVITE YOU TO TAKE THIS OPPORTUNITY TO LEARN MORE ABOUT US.

## Tech Greeks

Weekend agendas for sorority and fraternities continue to be crowded this weekend and plenty continues.

Gamma Phi Beta will have a bring pledge party for active members at 7 p.m. tonight at the home of Carol McKenzie, 3513 42nd Street, Monday morning the Gamma Phi Beta will go in a group to the First Methodist Church.

Delta Gamma sorority will have a dance in the Rec Hall, honoring pledges, as a highlight to Delta Gamma Week.

## STUDYING C

Is studying bugging you? Do you have trouble remembering names, dates, or the library? Dear friend, you have to do it master the art of Mnemonics, as we all know. Mnemonics, as we all know, are not only a Greek philosopher. Mnemonics, as we all know, are not only a Greek philosopher. Mnemonics, as we all know, are not only a Greek philosopher. Mnemonics, as we all know, are not only a Greek philosopher.

But I digress. We are nothing more than jingles that help you remember. For example, surely knows the little Columbus sailed in fourteen hundred and ninety-two. You see how simple it is. You see how simple it is. You see how simple it is. You see how simple it is. You see how simple it is.

You won't need mnemonic devices to remember the flavor of Philip Morris. You won't need mnemonic devices to remember the flavor of Philip Morris. You won't need mnemonic devices to remember the flavor of Philip Morris.

## Tech Greeks Maintain Quick-Paced Semester Schedules

Weekend agendas for sororities and fraternities continue to be crowded this weekend and pledges continues.

Gamma Phi Beta will have a ring pledge party for activities 7 p.m. tonight at the home of Carol McKenzie, 3513 42nd. Sunday morning the Gamma Phis will go in a group to the First Methodist Church.

Delta Gamma sorority will have 45 in the Rec Hall, honoring the pledges, as a highlight to Delta Gamma Week.

Zeta Tau Alpha will hold a dinner dance at 7 p.m. tomorrow in the Union, honoring pledges.

### French Club Takes Annual Hayride

French Club members will have their yearly hayride and marshmallow roast tomorrow night at Buffalo Lakes. Those planning to attend will meet at the east side of the Library at 7:30 p.m. with sack lunches.

Kappa Kappa Gamma girls will retreat to Buffalo Lakes this week-end, from noon Saturday through Sunday evening.

Sigma Nu fraternity has scheduled a mixer at 7 p.m. Sunday at K. N. Klapp Party House honoring pledges and as a get-acquainted affair.

## 13 Initiates Listed In Phi Kappa Psi

New fall initiates of Phi Kappa Psi fraternity are: Tommy Beard, Ed Childs, Paul Edwards, Richard Estes, Gilbert Finell, Ted Long, Ray Moore, Bill Richmond, Claude Rogers, Darryl Sanders, Delbert Sanders, James Thompson, and Borden Worsham.

The Phi Psi lodge, 1315 College, was recently opened with an open house for Tech fraternities and sororities.

Phi Psi's are currently making plans to entertain alumni of their parent social organization, the Centaur Club, with a buffet supper at the lodge after the Homecoming game Nov. 3.

Their forthcoming social events include mixers with Delta Gamma and Delta Delta Delta sororities and the Li'l Abner Dance Nov. 17.

## Dean To Distribute Complete Club List

A list of the active student organizations for fall semester is now printed and in the office of the Dean of Student Life, Ad-167. A copy will be sent to the president of each student organization and various other administrative offices on the campus.

On this list are compiled in order the name of the president, treasurer and sponsor of each club, together with the time and place of the regular meetings of the organization. Also listed are the telephone numbers of the college and the dormitories.

## 3 Girls Pledge Theta Sigma Phi

Theta Sigma Phi, honorary women's journalism fraternity, held formal pledge service Tuesday night in the home of Mrs. James G. Allen, for Cathy Dickinson, Janet Moore and Helene Edwards. Barbara Pearce presided, and refreshments were served.

### STUDYING CAN BE BEAUTIFUL

Is studying bugging you? Do you have trouble remembering names, dates, facts, figures, and the location of the library? Dear friends, it need not be so. All you have to do is master the simple art of mnemonics.

Mnemonics, as we all know, was invented by the great Greek philosopher Mnemon in 526 B.C. Mnemonics, incidentally, was only one of the many inventions of this fertile Athenian. He is perhaps best known for his invention of the staircase, which, as you may imagine, was of inestimable value to mankind. Before the staircase, people who wished to go from floor to floor had to leap from springboards. This meant, of course, that aged and infirm persons were forced to live out their lives, willy-nilly, on the ground floor, and many of them grew cross as bears. Especially Demosthenes, who was elected consul of Athens three times but never served because he was unable to get up to the office of the commissioner of oaths on the third floor to be sworn in.

But after Mnemon's staircase was invented, Demosthenes got up to the third floor easy as pie and took the oath-to Athens' sorrow, as it turned out. Demosthenes, his temper shortened by years of confinement to the ground floor, soon embroiled his countrymen in a series of senseless and costly wars with the Persians, the Visigoths, and the Ogallala Sioux. He was voted out of office in 517 B.C., and Mnemon, who had made his accession possible, was pelted to death with fruit salad in the Duomo.

But I digress. We were discussing mnemonics, which are nothing more than aids to memory - catchwords or jingles that help you to remember names, dates, and places. For example, any student of American history surely knows the little jingle:

*Columbus sailed the ocean blue  
In fourteen hundred ninety two.*

You see how simple a mnemonic is? There is no reason why you can't make up your own. Say, for instance, that you are proceeding with American history.

*The Pilgrims landed on Plymouth Rock  
In sixteen hundred twenty, doc.*

(This jingle is especially useful to medical students.)

The next important event is the Boston Tea Party. Let us compose a rough-and-ready couplet about that:

*Samuel Adams flung the tea  
Into the briny Zuyder Zee.*

You can see how simple and useful they are - not only for history, but also for current events. For instance,

*In nineteen hundred fifty six  
It's the cigarette that clicks!*

What, you ask, is the cigarette that clicks? Why, Philip Morris, of course! And why shouldn't it click? Could any cigarette be more pleasing to the palate? No! Could any cigarette be more tempting to the taste buds? No! A thundering, thumping, resounding no! Get some today, hey. You'll see.

©Max Shulman, 1956

You won't need mnemonics to remember the wonderful natural flavor of Philip Morris Cigarettes, whose makers are delighted to bring you this column every week.

5,000 FEET ABOVE LUBBOCK—Tech faculty and students of the biology department saw what life is like at 8,500 feet elevation last weekend. A group of 14 went to Evergreen Valley Ranch near Montezuma, New Mexico to study plant and wild life. Sponsors were Dr. Earl Camp, associate professor of biology and his wife.

### Biology Faculty And Students Spend Weekend In New Mexico On Field Trip

Fourteen biology faculty and students spent last week-end on a biology field trip to Evergreen Valley Ranch, Montezuma, New Mexico.

Key points of study were transitions from one life to another, plant life of hot springs, plant succession after a forest fire and after a rock slide, types of forests at different elevations, and various alpine and aquatic plants. Mule deer, wild turkey, tufted-ear

squirrels, chipmunks, hawks and various other animals were seen.

The group stayed in cabins and prepared meals at Evergreen Valley Ranch at an elevation of 8500 ft.

Making the trip were Dr. and Mrs. R. A. Studhalter, Dr. and Mrs. Earl Camp and son, Bill, Dr. Paul Prior, A. L. Baer Jr., Bill Edwards, Judith Hyatt, Dan Morse, Mary Ann Sharpe, Barry Thompson, Benjamin Vance and Martha Watson.

### Five HE Students Attend Workshop

Five home economics students and their sponsor, Miss Billie Wolfe, are attending a statewide Home Economics Club workshop at Texas Christian University today and Saturday.

Representing Tech are: Priscilla Baumgardner, Wellington; Margaret Gibson, Bryan; Carolyn Reynolds, Enochs; Betty Smith, Slaton; and Kay Sandlin, Lubbock. Miss Wolfe is assistant professor of home economics and is in charge of the Tech home management house.

Miss Baumgardner is president of the Tech Home Economics Club and will be Tech's official voting delegate at the workshop. Miss Gibson will participate in a panel discussion Saturday morning on "Looking Ahead to Careers in Home Economics."

Miss Reynolds is Tech's nominee for secretary of the Home Economics Clubs, and is also a member of the state resolutions committee. Miss Smith is a member of the nominations committee and Miss Sandlin of the publicity committee.

Representatives from various Texas colleges will attend the meeting to hear panel discussions on home economics problems.

### Versatile Can Comes To Te

Versatility is the keynote of man's life. Graham Turnbull, physics section graduate student at Lachine, Quebec, Canada, participated in Canadian trials, strums a guitar, and is a semi-professional hockey player.

Attending Tech to learn about United States track and field to teach it in Canada, participated in the Canadian Olympic track trials in the jump form 1952 to 1955. He was second in 1952; first in 1953 in the British Empire Games, first on the All-Canadian team in the broad-jump from 1953.

At the 1954 British Empire Games at Vancouver, the broad-jumper represented and placed seventh out of 10 competing in the games. British Empire Games he met outstanding athletes as Johnny and Roger Bannister. In 1954, he set the best record of his career by 22 out of 27 meets and first in the "Canadian Training Plan" held at Toronto. At the training plan he set a record in the broad jump. His best jump has been 25 feet 6 inches.

Concerning the 1956 Olympic trials, he was selected to go to trials, but because

GRAHAM TURNBULL

injury received in college competition at the University of Dubuque, Iowa, he could not do his best at the time of the offer.

Attending Dubuque on a scholarship, the brown-haired Canadian was the brown track champion of the Iowa intercollegiate Athletic Conference in 1951 and has six unbroken broad-jump records in Iowa, and was a honor student with a 2.5 average.

The Canadian, who was born in Sydney, Nova Scotia, also plays guitar. Graham, Jerry Gooch, sophomore from Houston, and also, make up a group that plays almost every week on Muleshoe's radio station. According to Graham, they plan

# Versatile Canadian Olympics Star Comes To Tech With Top Record

Versatility is the keynote to this man's life.

Graham Turnbull, physical education graduate student from Lachine, Quebec, Canada, has participated in Canadian Olympics, strums a guitar, and has played semi-professional hockey.

Attending Tech to learn more about United States track in order to teach it in Canada, Graham participated in the Canadian Olympic track trails in the Broad-jump from 1952 to 1955. He placed second in 1952; first in 1954 for the British Empire Games; and first on the All-Canadian track team in the broad-jump from 1952 to 1955.

At the 1954 British Empire Games at Vancouver, the 160-lb. broad-jumper represented Canada and placed seventh out of the 26 competing in the games. At the British Empire Games he met such outstanding athletes as John Landy and Roger Bannister. Also, in 1954, he set the best competing record of his career by winning 22 out of 27 meets and placed first in the "Canadian Olympic Training Plan" held at Toronto. At the training plan he set a new record in the broad jump. His farthest jump has been 25' 2".

Concerning the 1956 Olympics, Graham stated that he was asked to go to trials, but because of leg

injury received in college competition at the University of Dubuque at Dubuque, Iowa, he felt he could not do his best and declined the offer.

At Montreal in 1951, Graham participated in a semi-professional hockey team where he was second in the league in point scoring.

When asked whether he had ever wanted to be a Royal Mounted Policeman Graham replied that he thought about teaching physical education in the Royal Mounted Ranks but there were no vacancies.

# Museum Sponsors Art Show

"Photographs of Sculpture from the Southwest" are on exhibit in the Museum's Art Gallery sponsored by the Lubbock Cemetery Board. The exhibit will be shown through Wednesday.

Works of eight noted Southwest sculptors have been chosen by a selection committee of 21 persons recommended by three prominent art authorities from southwestern museums. Dr. W. C. Holden, director, headed the Museum's selection committee.

Artists whose works are being shown are: Bernard Frazier of Tulsa, Oklahoma; Charles Umlauf of Austin; Octabio Medellin of

Dallas; David Cargill of Beaumont; Charles Williams of Fort Worth; Herb Goldman and John Tatsch of Albuquerque, N. M.; and John Swenson of Ontario, Calif.

### Deadline Changed

GRAHAM TURNBULL

injury received in college competition at the University of Dubuque at Dubuque, Iowa, he felt he could not do his best and declined the offer.

Attending Dubuque on an athletic scholarship, the brown-haired Canadian was the 1954 and 1955 track champion of the Iowa Intercollegiate Athletic Conference, has six unbroken broad-jump records in Iowa, and was a senior honor student with a 2.5 average.

The Canadian, who was born in Sydney, Nova Scotia, also strums a guitar. Graham, Jerry Dryer, junior from Houston, and Harold Goodson, sophomore from Muleshoe, make up a group which plays almost every weekend on Muleshoe's radio station. According to Graham, they plan to re-

only one time, at Tech's 1935 homecoming, 7-6.

Another Raider who probably will be unable to start is tackle, Charlie Moore. A head injury has caused Moore to be unable to wear his headgear. He will be replaced in the starting lineup by sophomore Jim Henderson.

A tentative starting lineup for the Raiders in tomorrow night's game reads:

Left end, Ken Vakey; left tackle, Jim Henderson; left guard, Hal Broadfoot; center, Jack Henry; right guard, Ray Howard; Floyd Hood; right tackle, Phil Williams; right end, Pat Hartsfield; quarterback, Don Williams; left half, Milton "Rabbit" Vaughn; right half, Hugh Fevin, and fullback, Doug Duncan.

Slated to see action are backs Ronnie Herr and M. C. Northam, ends Dan Law and Bobby Young, tackle Doug Campbell, guard Tim Stone and center Barton Massey. The Raiders return home Sunday by air.

**Intramural Slate Is Announced**

The Fraternity League begins next week's intramural football play Sunday. Phi Kappa Psi goes against Sigma Alpha Epsilon, and Sigma Chi takes on Pi Kappa

**Tennis Tournament Schedule Released**

Edsel Buchanan, intramural director, has released the schedule for the intramural tennis singles tournament. First-round play must be completed by Tuesday, second round play by Nov. 3, semi-final play by Nov. 7, and the finals by Nov. 10.

Entries are Carl Lane, Woody Kelly, Bill Crenshaw, Hobie Howell, John Ealle, Tommy Bass, Lynn Wallace, Lewis Dorrough, Carl Cannon and Kenneth Bass.

Alpha, Kappa Sigma plays Phi Delta Theta.

Independent League begins play Monday with Wesley facing the SUBS. The Burnetts will meet Tech Vets, and Phi Mu Alpha plays BSU.

On Tuesday the Dorm League will play. Doak furnishes the opposition for Sneed, and Gordon opposes West.

Wednesday the Fraternity League plays again to round out the week's activities. Phi Kappa Psi takes on Phi Gamma Delta, and Sigma Chi meets Alpha Tau Omega. Kappa Sigma faces Sigma Alpha Epsilon and Phi Delta Theta plays Pi Kappa Alpha.

**Lubbock To Seek '56 Cotton Maid**

A \$1,000 cotton wardrobe, an all-expense paid trip to Memphis, and a specially designed gift—all await the lucky young lady who will be selected South Plains Maid of Cotton at the two-day contest in Lubbock Nov. 19-20.

Eligible to enter the contest are girls between the ages of 19 and 25 inclusive, at least 5 feet 5 inches tall, unmarried, and born in a cotton-growing state. Deadline for entry is Nov. 9. Complete information and entry blanks may be obtained by writing to the South Plains Maid of Cotton Committee, P.O. Box 561, Lubbock.

The entry deadline is set 10 days prior to the contest to give the girls a chance to attend three modeling sessions conducted by instructors who will give points on poise, make-up, dress, diction and other social graces, plus more complete instructions on contest activities.

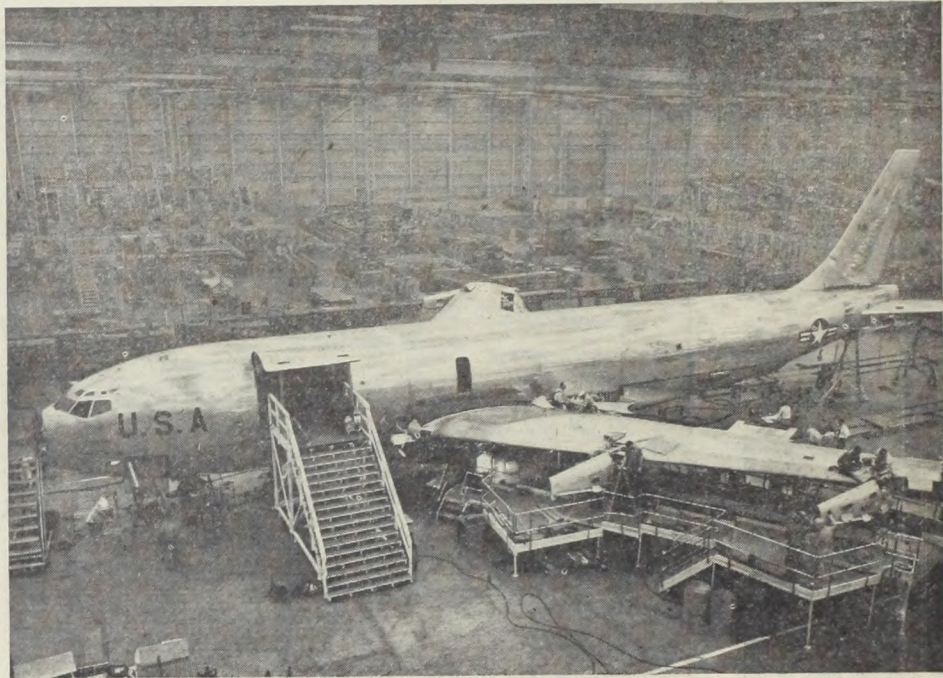

The South Plains Maid of Cotton Committee, headed by Chairman Charles Signor, plans a full two-days of activity for contestants, topped with the finals on the evening of the 20th in Municipal Auditorium with background music by the nationally famous Buddy Morrow orchestra.

South Plains Maid of Cotton, Miss Revis Jordan, who was named first alternate in the national judging last year, will lead the Grand March at the formal dinner-dance to the accompaniment of the Buddy Morrow orchestra.

Purpose of the program is to focus attention on the importance of the cotton industry to the South Plains, the world's greatest cotton-producing area.

**Another engineering first—the Boeing jet transport-tanker**

The KC-135, shown on the production lines of Boeing's Transport Division, is America's first jet transport-tanker. It gives the Air Force a refueling craft that matches the performance of today's jet-age fighters and bombers. In its transport role, the KC-135 becomes our defense forces' first personnel and critical-cargo carrier geared to the speed and altitude demands of jet-age operations.

Boeing production engineers—who helped turn out 888 piston-driven tankers in this same Transport Division plant—are now working full time on jet-powered aircraft. Boeing's big and growing backlog of orders for both commercial and military aircraft creates constantly expanding opportunities for production engineers of all types—civil, mechanical, electrical, aeronautical, industrial.

At Boeing, production engineers find the kind of challenge that helps them grow in professional stature. They enjoy the satisfaction of working on such nationally important projects as the B-52 eight-jet intercontinental bomber, the 707, America's first jet airliner. Guided missiles, supersonic and nuclear-powered aircraft are other Boeing projects with a long-range, exciting future.

Here's some measure of your advancement potential at Boeing: during the last 10 years, the number of Boeing engineers has increased 400%. With that kind of growth, there are always opportunities for advancement. They could be your opportunities, for Boeing promotes from within. Every six months a merit review gives you an occasion for recognition, advancement, increased income.

At Boeing, you live in progressive, young-spirited communities, with good housing and recreational activities. You work with men outstanding in the world of engineering, on projects of tremendous importance to your country. You look forward to one of the most liberal retirement plans in the industry. There's job stability, and a limitless future, at Boeing—in production, and in design and research as well.

For further Boeing career information consult your Placement Office or write:

### Fewin Slated To Start For Raiders

Slated to be at the right half-back position at kickoff tomorrow night is Hugh Fewin, Tech footballer from Burkburnett. The Red Raider senior has been alternating most of the season with another senior, M. C. Northam of Littlefield.

Fewin's showing in the West Texas game, and in recent practice sessions won him the starting assignment.

An all around student, Fewin is active in much more than football at Tech.

Last spring, for example, Fewin was presented the "Gold Medal of Excellence," which was presented to only nine other men over the nation. Hugh is a cadet lieutenant colonel, commanding the entire Engineer ROTC Battalion at Tech.

Fewin was also re-elected to the Student Council in last spring's balloting, and was chosen to "Who's Who on Tech Campus."

### "I WON'T WEAR A THING BUT TOWNE AND KING!"

says A. L. HAYFEVER, campus politician

WHITTIER, ILL., Aug. 30—When cross-questioned by Dean A. L. said, "In an election year, you have to have coordination. I was just coordinating the sorority vote." He has his finger in every pie, his eye on the polls and his foot on the ladder. "Every politician has to have a trade mark," says he. "Mine's coordinated knitwear. Get a load of this set..."

### Frosh-West Texas 'B' Rescheduled

The Texas Tech freshman game with West Texas State's "B" team, cancelled last week, has been rescheduled for Thursday, Nov. 22, in Canyon, freshman coach Tom Hamm announces. Next game for the Picadors is scheduled for Friday, Nov. 9,

with the Hardin-Simmons B squad furnishing the opposition in a game set for Jones Stadium.

In their only two starts, the freshmen have lost to San Angelo Junior College and Tyler J.C., being held scoreless in each case.

### CIVIC CHORUS...

(Continued from Page One) Rehearsals are Monday nights from 7 to 9 in the Music Building.

The Christmas concert will be in the middle of December, in

conjunction with the Tech Orchestra, directed by Paul Ellsworth. Main number on the program, now being rehearsed, is "Manifacat" by Dietrich Buxtehude. Rehearsal pianist for the Chorus is Amanda Ward.

# Native Of Bagdad Puzzled By Hot Dogs, Women

By LARRY TODD  
Toreador Staff Writer

Hot dogs and cowboys—these were the two things that puzzled Sabad Ahmed Ibrahim upon coming to Texas. Ibrahim a native of Bagdad, Iraq, was greatly concerned when offered a "hot dog" to eat. Although having had a great deal of English before coming to the United States, Ibrahim could not comprehend the meaning of the slang expression. Like most foreigners, Ibrahim had heard stories of the western cowboy and expected the obvious.

Another thing that was new to Ibrahim was the American outlook on women. In Iraq the women have no rights. Marriages are

arranged by the parents, sometimes without consulting the girl. Boys are not allowed to talk with girls at any time until they are married. This is one of the major differences between Iraq and the United States, according to Ibrahim.

Americans think of Bagdad as a city filled with snake charmers, dark-skinned people wearing turbans, and dark, narrow streets. Although these things are still present for the tourist, new Bagdad of Iraq has sprung up from the ruins of the old. The educated people are working to raise the standard of living. According to Ibrahim, Iraq is now starting on its long road to modern progress. Within the past 20 years there

has been a rapid change and a new outlook of Western culture is evolving.

Ibrahim states that Iraq wishes to remain neutral in the world crisis. He says that his country will never turn Communist because of its desire to raise its standards.

Sabad Ibrahim's personal interest in his country is overwhelming. He believes by securing a good education for himself he can help his country back to a progressive nation. The engineering major wishes to complete his four years at Tech and then work for a while in the U.S., after which he will return to his homeland and begin his work there.

Take a  
2-minute  
preview of  
your path  
to RCA  
engineering

### Specialized training program

Earn a regular professional engineering salary as you work on carefully rotated assignments giving you a comprehensive view of RCA engineering. Your individual interests are considered and you have every chance for permanent assignment in the area you prefer. Your work gets careful review under RCA's advancement plan and you benefit from guidance of experienced engineers and interested management. Following training, you will enter development and design engineering in such fields as Radar, Airborne Electronics, Computers, Missile Electronics. For manufacturing engineers, there are positions in quality, material or production control, test equipment design, methods. You may also enter development, design or manufacture of electron tubes, semiconductor components or television.

### Direct hire

If you are qualified by experience or advanced education, your interests may point to a direct assignment. The RCA management representative will be glad to help you. Many fields are open... from research, systems, design and development to manufacturing engineering... in aviation and missile electronics, as well as radar, electron tubes, computers, and many other challenging fields.

### ... and you advance

Small engineering groups mean recognition for initiative and ability, leading on to advancement that's professional as well as financial. RCA further helps your development through reimbursement for graduate study under a liberal tuition refund plan.

### Now... for a longer look at RCA

See your placement director about an appointment with an RCA engineering management representative who will be on campus...

**FRIDAY, NOVEMBER 2**

Talk to your placement officer today... ask for literature about your RCA engineering future! If you are unable to see RCA's representative, send your resume to:

Mr. Robert Haklisch, Manager  
College Relations, Dept. CR5-67  
Radio Corporation of America  
Camden 2, New Jersey

**RADIO CORPORATION of AMERICA**
