

Tech To Construct Six Dorms; Included In Doctoral Programs

\$17-Million Project Will House 3,432

Texas Tech's Board of Directors Saturday approved initial plans for three 12-story dormitories to be built in the location of Flint Avenue and 19th Street.

Future plans call for a total of six of the "tower complex" dorms, with three to be ready by September, 1967.

Estimated cost of the entire project will be \$17-million. The six dorms will house 3,432 students, 572 in each tower. A "commons" area will also be built to serve the complex; this will include dining facilities, lounge areas and possibly a post office.

Final plans for the project will be presented to the Board at their April 23 meeting.

In other action, the Board formally approved the appointment of Dr. Grover E. Murray as president of the college, effective Sept. 1.

To Become Advisor

They announced Dr. R. C. Goodwin will step down from the president's post Aug. 31. At that time, his title will be changed to presidential advisor, and he will be available for advice, consultation or service on committees as needed by the new president.

Dr. Goodwin will retain his present salary of \$29,000 annually and any fringe benefits he now holds as president until he actually retires.

Dr. Murray will also be listed as a professor of geology and receive a salary of \$35,000 yearly and living quarters.

Also, the Board's building committee was instructed to review and approve preliminary plans on the proposed biology, chemistry research, and business administration buildings. Definite action on the new buildings will be taken at the next Board meeting.

Approves Buildings

To provide classroom and office space on campus until the new buildings are completed, the Board approved the construction of 10 temporary wooden buildings—eight for classes and two for offices.

Cost of the temporary buildings will be \$100,000; the exact location has not been announced.

Action on a proposed policy change was tabled by the Board after it met opposition from Dr. Murray, who was attending his first Board meeting.

The proposal, recommended by a Board committee, asked for a change in the regulation concerning off-campus employment by faculty members.

Under existing policy, a faculty member may work and take other jobs as long as the jobs do not interfere with his on-campus duties. As it stands now, approval for off-campus work is given by the individual department head and dean "with the counsel of the president."

The proposed change will make written approval of the president a necessity before off-campus jobs could be secured by faculty members.

THE DAILY TOREADOR

TEXAS TECHNOLOGICAL COLLEGE

Vol. 41

Lubbock, Texas, Tuesday, February 15, 1966

No. 84

TECH SKYSCRAPERS—These six new dorms will add 25 per cent more living space to the Tech campus in future years. Three of the struc-

tures will be completed by September, 1967. Total cost of the complex, to be located at 19th Street and Flint Avenue, will be \$17-million.

Three Units Due In 1967

Amandes Named Law School Dean

An experienced professor and lawyer described by his colleagues as one of the best in his field will become dean of Tech's new law school which opens in the fall of 1967.

Richard B. Amandes, 38, assistant dean of law at the University of California's Hastings College of the Law in San Francisco, will assume his new duties July 1, Texas Tech President R. C. Goodwin said. Law school funds were made available by the Texas legislature in 1965.

"My interest was not in 'just any deanship,'" Amandes said. "The opportunity to build a school of law from the foundation up is one that doesn't come to everyone and I find the challenge at Texas Tech most attractive."

Amandes is no stranger to Texas, having taught one summer at SMU. He also has relatives living in the San Antonio area.

He was admitted to law practice in California in 1954 and in Washington in 1959. He became assistant professor of law at the University of Wyoming in 1957 and was named assistant dean of law at the University of Washington in 1958. He was named associate professor in 1960, serving until 1964 when he accepted his present post at Has-

tings College of the Law.

Law school tradition dictates deans devote some time to teach-

RICHARD B. AMANDES

ing as well as to administrative duties, and Amandes said he intends to teach in Tech's new school as much as his schedule permits.

Hastings law Prof. George Stevens described Amandes as "a sound, practical scholar," and "one of the best administrators I have encountered in recent years."

The ever-changing Tech campus is in store for an ultimate \$17-million face lifting with the completion of its proposed six high-rise dormitories at 19th Street and Flint Avenue.

The program will be administered in two phases. Three of the proposed towers are scheduled to be ready for occupancy in September, 1967, with the other three to be constructed as needed. Two will be for women and one for men students.

Each 12 story tower, yet unnamed, will house 572 students and will be served by a common dining hall. Available dormitory space will be boosted by 25 per cent.

Will Use Federal Funds

Business manager John Taylor said Tech will get funds for the dormitory structures through the U.S. Housing and Urban Development Department. "The loan will be repaid by room and board charges," he said.

"We've been working on the dorm plans for eight months," he said. "Tech students were able to voice their opinions on future housing structures by questionnaires passed among the residence halls last fall."

To Contain 2 Apartments

Berwyn Tisdell, architectural spokesman, said the first floor of each tower will contain a lounge, a room for dorm government meetings, dry cleaning pick-up areas, and two apartments for the supervisor and assistant supervisor.

Each of the other 11 stories will be devoted to student living spaces plus separate ironing and typing facilities and lounge areas.

A laundry room, study areas, (Continued on Page 2)

Coordinating Board Limits To 4 Schools

AUSTIN — The Texas State College Coordinating Board Wednesday named Texas Tech as one of four state-supported institutions in Texas to be allowed to maintain doctoral programs.

The action means that Tech, Texas A&M, the University of Texas and the University of Houston will be the key institutions in the state's advanced degree set-up.

Other state colleges now offering doctor's degrees will have to terminate them by Sept. 1, 1968, the Board said, except for a selected few at North Texas State and Texas Woman's University, and possibly Arlington State.

Approves BA Grant

The Board also approved a \$4.5-million grant to Tech for a new business administration building, and limited tax-supported law schools to Tech, the University of Texas and the University of Houston. Tech's law school will not open until 1967.

The same three schools and Texas A&M will be the only ones allowed to maintain architecture programs.

Under the Board's ruling, East Texas State's doctorate program and the Texas Southern law school will be eliminated.

'Not For Popularity'

"This recommendation was not designed to win friends and influence people," board member Tom Sealy, Midland, said in reading the report to educators.

"If you don't like the recommendation, come see us and you can have your day in court," he said.

The \$4,565,066 grant to Tech for a new BA building was part of a distribution of \$7,097,742 in federal grants for seven institutions. The funds are to be used for completion of \$26,994,960 in projects.

Doctorates Needed

The Board said certain doctorate programs now being conducted at North Texas and possibly some new ones are needed in the Dallas-Fort Worth area because of the rapidly growing industrial and business complex in that region.

The Board limited the school of veterinary medicine to Texas A&M.

The Board ruling, of course, does not affect church-supported and privately-endowed universities in Texas.

Here's Hoping For A Red Letter Night

The Daily Toreador is being printed in red today in observance of "All I See Is Red Day" sponsored by the Saddle Tramps. The Tramps have asked that all persons wear all red to back the Red Raider basketball team. The Raiders play A&M tonight in the Coliseum.

Authur Schlesinger Jr. To Speak

Arthur Schlesinger Jr., Pulitzer Prize winning author, will speak on "The World We Want—And

How To Get It?" at the Municipal Auditorium Friday at 7:15 p.m. Schlesinger "ranks among the

foremost in the new generation of vigorous social thinkers," says The New York Times.

In 1946 at the age of 28 he was the youngest historian to win the Pulitzer Prize when he received it for "The Age of Jackson." He is considered to be one of America's leading historians.

He has also been active in public affairs. From 1961 to 1964 he served in the White House as special assistant to President Kennedy and President Johnson.

He was born in Columbus, Ohio. His father, Arthur M. Schlesinger, was also a distinguished historian.

His father taught at Ohio State University, the University of Iowa, then Harvard, where he was graduated summa cum laude in 1938.

During the war Schlesinger served in the Office of War Information in Washington and in the Office of Strategic Services in London, Paris, and Germany.

He was deputy chief of the OSS/Paris Reports Board, and a corporal in the Army.

In the meantime he completed work on "The Age of Jackson," a book he had worked on before the war as a Henry Fellow at Cambridge University, England,

and as a member of the Society of Fellows at Harvard. He has won critical acclaim on his recently published books on President Kennedy.

3 Units Due

(Continued from Page 1)

TV room and a storage and concession area are planned for the basement.

The dorms will be air-conditioned and serviced by elevators.

A common lobby accessible by each dormitory tower is also planned. A concession, snack bar, game room and office for counselors will be located in it.

Combined Dining Hall

A separate split-level dining hall with the kitchen on the lower level will serve the 3,432 expected students. Perhaps the newest innovation in these high-rise structures are the sun decks atop each tower.

Construction bids will be taken at the May 28 Board of Directors meeting.

The Lubbock firms of Howard Schmidt and Associates and Stiles, Roberts and Messersmith are the architects.

Anderson Goes To Washington

Roland Anderson, Student Association president, will leave for Washington, D.C. today to attend the Presidential Prayer Breakfast this week.

The breakfast is being held in conjunction with a Student Leadership Conference. President Johnson, members of the cabinet and other top political figures will be present at the breakfast. Anderson will return Saturday.

Jurors Chosen In Cross Trial

AUSTIN (AP)—Two jurors, a salesman and a banker, were selected Monday in the murder trial of James C. Cross Jr., accused of the sexually motivated slaying of two pretty Dallas coeds.

Cross, 23, the handsome, dark-haired defendant from Fort Worth, watched calmly as jurors were chosen from the first 10 prospects, both before a delayed luncheon recess.

Moments before the trial began, the defense, headed by Perry Jones, entered a plea of insanity for Cross, charged with the summer strangulation deaths of Susan Rigsby and Shirley Ann Stark, both 21.

The partially clothed and decomposed bodies were found on a weed-grown Austin lot July 30 after a nationwide search for the University of Texas Chi Omega sorority sisters.

AEC Group Visits On Tech Campus

Representatives of the Atomic Energy Commission's college program visited the Tech campus Monday as part of the AEC's continuing search for outstanding young graduates in the fields of management, engineering and the physical sciences.

Interviews are being scheduled now through the Placement Office.

The agency has about 160 openings for men and women with a B average or above who will earn Bachelor's or Master's degrees in 1966.

While AEC will make its selections on a nationwide basis, there

will be no written exam and those who are selected will be notified a few weeks after the interview.

Each new graduate will be assigned, immediately after graduation, to a professional level job at one of 15 locations throughout the United States.

After the first year, there will be advanced educational opportunities for those with the necessary qualifications.

Starting salaries for new graduates range from \$6,500 a year for an accounting specialist with a Bachelor's Degree, to \$8,400 for scientific and technical specialists with a Master's Degree.

All employees, under AEC's special new-graduate program, have a chance to learn about the agency's over-all operations. For those who are assigned to one of the field offices, there will be a short period at AEC headquarters, in Germantown, Md. near Washington, D. C., during the first year.

AEC offices where new graduates may be assigned are located at Bethesda and Germantown, Md.; Albuquerque, N. M.; Grand Junction, Colo.; Las Vegas, Nev.; Idaho Falls, Idaho; Richland, Wash.; Berkeley, Calif.; Pittsburgh, Penn.; Oak Ridge, Tenn.; Aiken, S. C.; Upton, Schenectady and New York City, N. Y.; and Chicago, Ill.

AEC Personnel Director Arthur L. Tackman has said, "Our standards are high, for we expect these young people to become tomorrow's key officials. The Federal service, AEC in particular, deserves the finest young talent it can find."

More details on career opportunities with AEC are available through the Placement Office, or one of AEC's local offices.

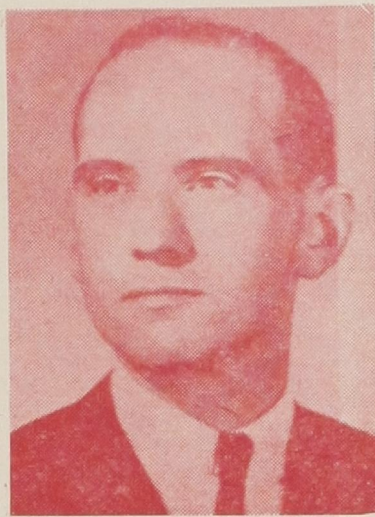

Tech Awarded 4 Traineeships

The U.S. Office of Education has awarded four traineeships to the Tech Department of Education for the academic year 1966-67. They are established to train teachers of mentally retarded children.

To be eligible for consideration a student must be seeking a degree in elementary education, be a senior by September, and have elected special education as an additional area of preparation. He must also have a 2.25 grade point average. Recipients receive \$1,600 plus tuition and fees.

Interested students can obtain additional information and application forms from Dr. Bruce Mattson, chairman of the special education section of the department of education, in room 253 of the Ad Building.

Deadline for submitting applications is May 1. Announcement of recipients will be made shortly thereafter.

DR. RAYMOND E. DESSY

Dessy Will Speak To Chemical Group

Dr. Raymond E. Dessy of the University of Cincinnati's Department of Chemistry will be guest speaker at a meeting of the South Plains Section of the American Chemical Society Friday on the Tech campus.

His topic will be "Organometallic Electrochemistry."

The meeting will begin with a dinner at 6 p.m. in Tech Union, followed by the lecture at 7:30 p.m. in room 101 of the Chemistry Building.

A native of Pennsylvania, Dr. Dessy received his B.S. and Ph.D.

degrees from the University of Pittsburgh. He was a post-doctoral fellow and instructor at Ohio State University before joining the University of Cincinnati staff in 1957.

Dr. Richard J. Thompson, assistant professor of chemistry at Tech, is chairman of the South Plains Section of ACS and Dr. Joe Adamcik, associate chemistry professor is chairman-elect. The society has members throughout a wide area of Texas and New Mexico.

20 CorpsDettes Visit Air Force

Twenty Texas Tech Army CorpsDettes toured Reese AFB and attended a social given by Class B Saturday afternoon.

The pilots of Class B of the 3501st Pilot Training Squadron provided a brief orientation of the flight program at Reese AFB, an opportunity to become acquainted with the Link Trainers, and a tour of one of the hangers with inspection of several of the planes. Afterwards, the CorpsDettes were returned to the 3501st PTS building by military bus to meet some of the officers.

For many of the CorpsDettes, the Saturday visitation was the first opportunity to visit a military installation of any kind.

For Better Education ..

DURING THE PAST one and one-half years there has been a trend throughout American universities and colleges for student evaluation courses and instructors, and this trend is making itself known at Texas Tech.

Last week the Student Senate came up with an evaluation plan which calls for a campus-wide evaluation of all teachers and courses at the end of the semester. The evaluations will be compiled through I.B.M. cards and machines and published in the form of a booklet.

The logic in this plan lies in the fact that the students are the ones in the classes, they are the ones who hear the professors' lectures and they should be the ones to evaluate the lectures.

The chief purpose of the teacher evaluation program is to give students some idea of what the instructor is like before signing up for a course. Also, such a plan would enable other department heads to know what the students think about an instructor's lecture methods, and to enable an instructor to see these comments as constructive criticisms and improve his teaching.

However, for the plan to be successful, it is necessary that both students and professors keep in mind that the aim is not to exert undue pressure on professors or simply to criticize them. Rather it is designed for the benefit of both groups in improving academic excellence at Texas Tech.

The Senate will either accept or reject this evaluation plan at the next meeting and we certainly hope they will decide in favor of it.

Furthermore, if the Senate does approve the evaluation system, we hope students and professors will take it seriously and show enough interest to make it effective, for the first two years may be very critical in determining its success.

Tech Men on "Ole College"

The Numbers Game ...

IN SATURDAY'S PAPER, we applauded Men's Dorm No. 10 for their work and determination in staging the Grubby Valentine Dance last weekend.

This was the first time in our memory that an "independent" group here has ever sponsored such events as an all-school dance. We thought the idea was a good one and that the men in No. 10 showed a lot of initiative.

We should have stopped there. But we went on to comment about what they had done in the past concerning Christmas cards to women on campus and to American troops in Viet Nam.

Boy, was that ever wrong. It seems as if Men's Dorm No. 9—and the residents therein—were the ones who sponsored the Christmas card drives.

And this was quickly pointed out to us Saturday morning by an avalanche of telephone calls—all from No. 9.

Now, we can only offer our sincere apologies to No. 9 and comment on their spirit: It's great.

However, in spite of the wrong information, the editorial seems to have accomplished its purpose: to make the people in the dorms aware of themselves and what they can accomplish as an organized group.

There is more to college life than just going to class, studying, eating and sleeping. Men's No. 9 and Men's No. 10 have proved that a dorm is not limited by its own boundaries, and that a dorm can be an active member of the campus society.

Letters To The Editor

All commentary letters for publication should be addressed to "Editor, The Daily Toreador, Campus."

Letters on any topic are welcomed and encouraged, but will be rejected for publication if they are libelous or too long for practical use. All letters will be edited for spelling, grammar and minor mistakes.

Letters mailed through the intra-campus mailing service require no postage.

LETTERS:

Views Of The Reader

Easter Commends Freshman's Letter

Dear Editor,

On Wednesday, Feb. 9, there appeared a letter by Miss Norma Van Galden in the Toreador which touched me as no other letter has done.

Her uncomplaining acceptance of her lot as a freshman who is barred from campus parking is admirable. I can feel the frustration in her cry "What do we do now—"

If the man or men who decide which areas are to be used for "campus beautification" and which areas are to be utilized for meeting human needs are not touched by the gentle sincerity of this young lady in her plea for the rectification of an unnecessary injustice, then they are heartless.

To Christ, it was more important that His hungry disciples be fed than that the laws of the Sabbath be observed. Can we not follow this example and set our standards accordingly? In my nearly eleven years as a staff member I have been very much disheartened by the overall pattern of campus planning which has portrayed a reckless disregard for human feelings and needs in the area of campus parking.

This letter is not intended to be unnecessarily critical of campus planning; but, in the same vein as Miss Van Galden's letter I am trying to say "Gentlemen, I do not question your authority in these matters, but, please give proper consideration to this very real need."

Sincerely,
Billy Easter
Electrical Engineering Department

★ ★ ★

P.S. I do feel that the city of Lubbock and the homeowners around Tech were just fied in their actions to keep parking spaces available near the residences. This is a Tech problem; not a Lubbock problem. A year or two ago an article by a Tech official came out in the Toreador which said, in effect, "Now, now, don't get excited. Tech is doing about as well as other schools of comparable size." But the glaring fallacy in the article was the fact that Tech is not doing nearly so much as it can with the area available. Should not this be the real criterion for evaluation?

B. E.

Cole Commends Entrance Ports

Dear Editor,

Ya-hoo! Yippee! I can hardly believe it. The traffic problem on the Tech campus is on the way to being reduced or eliminated.

It is a great feeling to know that in a few months, the danger of getting creamed while crossing Boston Avenue will be gone. Some people say, "What is life? Who needs it?"

Personally I am very fond of my life, and I would like to find out how it feels to reach 90. However, since I have been at Tech, I have been considering drawing up a will. I doubted that I would live to celebrate my 22nd birthday.

But thanks to the gentlemen on the Traffic Commission, I have been given a new lease on life, a reprieve from a possible death sentence.

The Commission, after long months of prodding by "The Toreador" and tossing the issue around like a hot potato, has finally come up with a workable solution. I heartily endorse the Entry Station System and urge its prompt installation on our campus. Also, a great big WELL DONE to the staff of the "Tor-

eador." Their ceaseless crusading has awakened the campus to the dangers and stimulated action. WELL DONE.

Ireland Pleased To Hear Anthem

Dear Editor,

Did You Notice? Did you notice the singing of the National Anthem before the Tech-Texas basketball game? For the first time in four years of attending basketball games at Texas Tech, I heard the National Anthem sung by practically everyone in the coliseum.

To hear our National Anthem sung by 10,000 people is very gratifying. The students of Texas Tech and the people of Lubbock should be praised for this fine showing of patriotism.

I think that one act was very impressive of our student body. I would like to see this continued at each of our coming basketball games. This is a single act that can do much for many, even if they are not present.

Yours truly,
John Ireland

Sun, Sex Simmer In Coloradan

A question of obscenity is plaguing the production of the University of Colorado's yearbook. The business staff of the Coloradan has clashed with the editorial staff over the use of some photographs which the business staff maintains are obscene.

"We simply can't condone the kind of pictures being printed in the '66 book," said the Coloradan's business manager. "In my opinion, some of them are practically pornographic. One, for example, pictured a half-naked girl diving. Others showed campus sun-worshippers in scanty attire."

The business manager said she hoped the publicity would force the editorial staff to replace the pictures with some that would be "more representative of the University community."

The head of the editorial staff has refused to retract any of the pictures in question. "After all," he said, "if we decided not to print the pictures, we'd have to change our entire theme and copy approach."

The copy editor said he feels

he's done some of his best work in writing the captions for the pictures. "If I can speak frankly," he said, "I am a master of the pun. I've used sparkling metaphors and other devices for some brilliant double-meanings."

While the editorial staff refuses to be denied its fun, the business staff has threatened a protest demonstration. They are concerned about the yearbook's reputation, which they claim will be ruined if the pictures are published.

The head photographer's only comment: "I try to enjoy my work."

Campus Art Contest

The Fine Arts Committee of the Tech Union is sponsoring a campus art contest. Prizes include \$25, \$15, and \$10 awards in each of three categories: Graduate Art Students, Undergraduate Art Students, and Non-Art Students.

First-place winners will become part of a traveling art exhibition for the academic year 1966-1967; this exhibit will be available to all member schools of the Region XII Union Conference, covering Texas, Arkansas, and Louisiana.

Rules for the contest are:

- All media are acceptable if work is capable of being hung.
- All works must be framed or matted for hanging, not to exceed 3'x4'.
- Work done in the classroom is acceptable.
- Students must be currently enrolled and must have completed their entry while enrolled at Texas Tech.
- Each entry must be identified according to title, artist, category, and value.
- Contestants must be willing to release their work for the forthcoming year (1966-67) should they win first prize.
- Entry forms must be received by March 9 at the Program Office in the Union.
- The entries themselves must be submitted to the Union by April 14.

Winners will be announced at an Open House on Sunday, April 17, 2:30-3:30 p.m. at the Union. Entries will remain on display until May 7; they may be picked up at the Union on or after May 7.

To Fill 40 Positions

Elections Set Wednesday

Wednesday Tech students will vote to fill 40 positions in campus-wide elections.

In the elections they will choose six Senate representatives, Mr. and Miss Texas Tech, Top Techs and will vote on amendments to the Senate Constitution.

To Choose Top Techs

Instead of the traditional two class favorites from each class, eight Top Techs will be elected this year to represent each of the four classes. "Today Tech is so large that two people are not really representative of a class," Sara Cox, Student Senate secretary, said. "By choosing eight top Techs, we think more groups can be represented in the elections."

Polls will be set up in six buildings: Ad Building, Business Administration, East Engineering, Agricultural, Home Economics and Student Union. Top Techs, Mr. and Miss Texas Tech, Senate graduate representative and the Constitution amendments can be voted on in any of the buildings.

Buildings Specified

Ballots for Senate representatives from the School of Arts and Sciences will be in the Ad Building, Business Administration representatives in the BA Building and representatives for the School of Agriculture in the Ag Building. Ballots for all positions will be in the Student Union.

The polls in the Student Union will be open from 8 a.m. to 5 p.m. and in the other buildings from 8-12 a.m. and 1-5 p.m. Student IDs are required for voting.

Runoffs for Student Senate positions will be Friday. Top Techs and Mr. and Miss Texas Tech will be revealed during the halftime of the Tech vs. Rice basketball game March 1.

Students running for the two Senate seats from the School of Agriculture are F. E. Busby, Richard Edwards and John H. Wheeler. Contenders for the two A&S positions are Betty Jane Brown, Cathy Carter, Ernie Cowger, Jane Edwards, Beverly Grubbs, Janie Harris, Bruce E. Mabrito, Scott McNutt, Sue Oststott, Ginger Viets, Carol Weingartner and Lorrie Woods.

Vieing for the one position from the School of Business Administration are Kirk Carr, Martin Hearne, Janice Johnson, Scott Murray, Michael Searcy, Jane Sparks and Rex Wilt. Contenders for the one seat from Graduate School are Charles L. Dietz and James Ward.

Mr. TT Nominees

Nominees for Mr. Texas Tech are Scott Allen, Roland Anderson, Chris Hickey, Dub Malaise, Barry McNeil, Dick Oststott, Norman Reuther, Barry Tull, Russ Wilkinson, Steve Wolfe and Neal Young.

Miss Texas Tech nominees include Joy Cox, Sara Cox, Connie Curry, Marge Eubanks, Jan Fauske, Rita Reynolds, Karen Schroeder, Susan Waits and Sue Walker.

Senior men nominees for Top Techs are Scott Allen, Roland Anderson, Floyd Clomberg, Chris Hickey, Robert Legg, Barry McNeil, Ziggy Nicholson, Dick Oststott, Wayne Packard, Collier Perry, Jerry Rawls, Larry Strickland, Billy Tapp, Russ Wilkinson,

Steve Wolfe and Neal Young.

Senior coeds nominated for Top Techs include Joy Cox, Sara Cox, Jo Hansen, Carolyn McGhie, Becky Pena, Vicki Pharr, Patty Pownder, Sue Walker, Becky Wilson, Ashley Wisdom and Susan Waits.

Junior Nominees Listed

Junior men nominees for Top Techs are Bill Beuck, Harold Cain, Jay Carter, Gib Coats, Lonnie Dillard, Mike Jones, Jim Killen, Craig Leslie, Allen Murray, Gary Rose, Pike Teinert and Bob Thompson.

Coed Top Techs nominees from the junior class are Sherrell Andrews, Carol Best, Judy Danner, Sandy Devlin, Jane Edwards, Rebecca Gracey, Regina Knust, Lynn Melton, Sue Oststott, Julie Parkinson, Jill Philbrick and Linda Urbanczyk.

Sophomore men Top Techs nominees include Chris Alford, Max Blakney, Ronnie Brown, Mike Cannon, Tom Coward, Richard Edwards, Pat Houston, Terry Scarborough, John Scovell, Chris Todd and Johnny Walker.

Soph Women Candidates

Sophomore women nominees for Top Techs are Cathy Carter, Susan Childs, Suzy Crain, Leslie Duckworth, Jannie Kinney, Tiger McGuire, Pam Munson, Pat Ramsey, Donna Schulz, Diane Shackelford, Judy Stewart and Nan Todd.

Freshmen men nominated are Mike Irish, Richard Knox, Dave McDougal, Copie Perry, Mike Riddle, Wesley Wallace and Keeton Zachary.

Freshmen women nominees are Donna Andrews, Sally Easterwood, Judy Garrett, Kay Hayden, Denise Humphries, Elizabeth La Bounty, Susan Murray, Diane Peek, Vicki White and Joan Williams.

Hopeful Raiders Host Aggies

Tech Tries To Get Back Into Loop Race

Still clutching a thin thread of hope that they can rebound into the SWC basketball title picture, Texas Tech makes an all-out charge at the front-running Texas Aggies in Municipal Coliseum at 8 tonight.

And a thin hope it is, what with the Aggies pacing the league with a 7-1 standard and the Raiders resting a full three games back at 4-4.

But the surprising Texas Longhorns proved Saturday that the Farmers aren't invincible, handing the Ags their first loss in conference action, 110-82.

And coupled with the Aggies' victory over the Techs in College Station two games ago, the Raiders should have sufficient impetus to gear for an upset.

Second Half Show

Should the Raiders make an impressive showing during the first half of tonight's action, focal point

New Record Set By Tech Shot Putter

Texas Tech's thinclads returned from two weekend track meets with a new school shot put record of 57 feet 2½ inches.

The new record, set by Ed Mooney, highlighted Tech's performances at the Will Rogers Indoor Games, last Friday, and the Dallas Invitational Track and field meet, Saturday.

Vernon Hilliard, head track coach, said that the team performed better than had been anticipated. He said that each of the 12 team members that participated placed in his event.

Mooney's performance led the Tech efforts, which included places in several other events. Foster Miller and Sam Hart placed third in high jump and pole vault, respectively; with Clarke Willingham and Terry Dively placing in the 300-yard dash and the 1,000-yard run. Tech's two-mile relay team finished third, and Art Carroll placed in the broad jump. Coach Hilliard said that he was pleased with the team's effort this early in the season.

The outdoor track season gets underway March 5 with a meet in Fort Worth.

of the contest will be on the opening minutes of the second half.

Tech has lost its last two starts as a direct result of scoring drouths in the opening minutes of the second half.

"I can't explain it," Coach Gene Gibson said. "If I knew what the trouble was, I'd certainly straighten things out."

"It's the thing that's beaten us the last two games."

Ironically, Tech has been leading, 40-36 at halftime in its last two outings (Texas A&M and TCU). But in both games the locals have been plagued by a slack in scoring that put them under.

Only Four Points

Against the Aggies, Tech managed only four points in 8:51 of the second half. They netted a mere two points in five minutes against the Frogs.

"We're getting the same shots that we do in other parts of the game, but they're just not falling for us," Gibson said.

Despite their sudden plunge, the Raiders are still optimistic.

Can Still Win

"We can still win this thing," Gibson said. "And if we win tomorrow night, we're really in it."

Gibson said he'd use the same starting five of Norman Reuther and Billy Tapp at forwards; Bobby Measells and Dub Malaise at guards and Bob Glover at center.

Opening for the Aggies will likely be Eddie Dominguez and Dick Rector at guards; the conference's scoring leader, John Beasley at center and Dick Stringfellow and Randy Matson at forwards.

AFB LOOKS NORMAL

SAN ANTONIO, Tex. (AP)—Lackland Air Force Base, the huge basic training installation for the Air Force, appeared outwardly normal Monday despite an outbreak last week of spinal meningitis that took one life and sent six other airmen to a hospital.

Basic training continues but no new trainees will be sent here until officials are certain the sickness has been curtailed.

In the meantime, new trainees that would come here are to be diverted to Amarillo Air Force Base, 500 miles to the northwest.

ID Cards Must Be Validated

All students must have properly validated I.D. cards to be admitted to tonight's Tech-A&M basketball game, Tech Athletic Director Polk Robinson said Monday.

Students registered for the fall semester can have their I.D. cards validated in the business office of the Administration Building. New students can pick up their cards in the Administration Building.

Kentucky Rated Tops In Nation

By the ASSOCIATED PRESS

Kentucky's unbeaten and virtually untested Wildcats reign all but unchallenged as the nation's No. 1 college basketball team in the latest Associated Press rankings.

In one of the strongest showings ever in the weekly poll, Kentucky placed first on 40 of the 42 ballots Monday by the nationwide panel, and received one second and one fourth.

The Top Ten, with first-place votes in parentheses and points on a 10-9-8-7-6-5-4-3-2-1 basis:

1. Kentucky (40)	416
2. Duke	355
3. Texas Western	301
4. Chicago Loyola	247
5. Vanderbilt	182
6. Providence	170
7. Kansas	169
8. St. Joseph's, Pa. (1)	134
9. Nebraska	87
10. Michigan	82

Rice Owls Keep Humor Despite Losing Streak

HOUSTON, Tex. (AP)—The Rice University basketball team has lost 27 straight games—currently the longest losing streak in the nation—but Coach George Carlisle still has his sense of humor.

"The other day," Carlisle said, "one of the kids got out his old high school scrapbook and thumbed through it. He wanted to see what it was like to win a few."

Carlisle has tried everything to break the jinx.

"I've tried giving them a pep talk. I've tried not talking to them. I've juggled the line-up. We've done everything to the point of being silly."

On the day of a game the trainer doesn't like for the players to put sour cream on their baked potatoes.

"So before one game, I let them

load up on sour cream," Carlisle said. "Losing does strange things to you."

The last time the Owls won was last year when they beat Trinity University 101-89 after a mid-term break. They dropped the next 10 games in that season and have lost 17 straight this season.

The all-time collegiate losing streak of 37 straight belongs to The Citadel. Rice can't break that record this year since only six games remain on its schedule.

The Rice problem may be just a little more painful to Owl followers because across town the high-scoring University of Houston Cougars have won 12 straight for a 17-4 record.
