REV. ROBERT H. HARPER MOTHER'S DAY

TEXT Sunday will be Mother's Day, a day that has now gained a general observance. Honor your mother by going to church. Wear a red flower for her. If she has left you for a time, wear a white flower. Thus will you conform with millions of others. But your heart will decide the value of the day to

If next Sunday were Woman's Day, no lack of imperisherable examples would forbid the observance. The fabled Semiramis, Deborah, Joan of Arc, and many illustrous queens could be named. But the day will be Mother's Day-a day that claims the palace and the humblest abode that has been glorified by a mother's love. So indulge sweet memories of

your childhood and with gratitude for your blessings honor her whosegoodness makes her a being apart from all others of earth -Mother. But will you pretend to honor her by wearing a flower and letting it it go at that? Go to see her. Write to her. And resolve by the grace of God to follow more faithfully in her footsteps. If she has left you, honor her memory by the high life vou live.

Manifestly, these thoughts concern a mother worthy of the name. Let mothers of the present so honor their own mothers and their God that they may leave memories that will live beyond the years.

IMPORTED FIRE ANTS THREATEN TEXAS

Imported fire ants. come a present problem and a

Southern states in a line from Florida eastward, infesting in their final course an area in Southeast Texas from the Louisiana border to Houston.

The imported fire ant is noted Its painful sting can cause boillike sores on humans and severely injure animals. They aggressively attack small animals in numbers and have killed newborn calves on the farm.

Their damage extends from poultry, livestock and wildlife to all\_types of plant life. Feeding both above and below ground, they seriously damage many vegetable crops. They injure pasture grasses, cereal and forage &crops, nursery stock, and fruit trees

Imported fire ants are easy to detect by the mounds that they build — reaching up to two feet in height and three feet in diameter. The huge, hard-crusted mounds mar lawns, damage lands and interfere with cultivating, moving, and harvesting

Entomologists have said the ants are at their worst as a nuisance, hampering all types of farm operations. In heavily infested fields, it is difficult for cotton pickers and other farm labor to work.

The tiny fire ants at present have covered only a relatively small part of Texas, but the continued growth of their population since introduction into this country some 30 years ago gives ause for alarm.

### Today's MEDITATION

The World's Most Widely Used
Devotional Guide

**The Upper Room** 

Read Isaiah 55:6-13.

Let the wicked forsake his way and the unrighteous man his thoughts; and let him return anto the Lord, and he will have mercy upon him; and our God, for he will abundantly pardon.

Many years ago a man of bad reputation lived in our rural community. His neighbors had good reason to doubt his uprightness. He did an unusual thing. He sewed to the outer garment on his back a white cross, which he thereafter wore.

His youthful nephew said to him: "Uncle, I've heard of the thief on the cross, but I never before saw a cross on a thief."

A sacred symbol used falsely deceives neither God nor the person himself. Unless what we are from day to day confirms our Christian profession, our lives are out of harmony with the eternal God.

Hypoerisy, deceit, and sham were disdained by our Lord, for they have no place in the gospel of brotherly love. In its noblest meaning, character is Christlike. The cross symbolizes the finest in our Christian reli-gion — God's gift of love revealed to mankind.

Our father, we thank Thee for making known to us the truth that our discipleship demands proof in the way we live. Cleanse us of hypocrisy, deceit and sham. Help us to develop Christlike character. In His name we ask it. Amen.

THOUGHT FOR THE DAY
Discipleship demands that I
be in accord with the will of the infinite God:
