Mr. and Mrs. Bill Pritchard left Tuesday morning for Corpus Christi on a business trip and planned to be home Wednesday.

Mrs. John Bray Praises The Santa Anna Hospital

Editor's note: The following is published at the request of Mrs. John Bray, who was injured recently in an auto-train accident while on her way to attend Wednesday evening church services at the Presbyterian Church. Mrs. Bray is more or less a new comer to our community and we feel her thoughts are well based.

THROUGH A NEW-COMER'S EYES

Vinci — Vidi — Vici
Fate brought me "crashing" from the back end of a freight train into the Santa Anna Hospital — ALIVE!

I have so much to be thankful for. Not only my life, His loving mercy in sparing me, but through this accident medium, I came to know the Santa Anna Hospital, its Christian working staff and the excellent services rendered. I have been a patient in several big hospitals, in big cities. I want to say to Santa Anna you have a prize here in your midst. What a privilege to have such an institution in a town so small.

I am most grateful for this experience. I salute the Santa Anna Hospital and Staff.

P-TA Bazaar To Be Held In Gym Saturday Night

The Parent-Teachers Association, in an effort to raise funds for their organizations work for the school year, will sponsor a P-TA Bazaar at the high school gym Saturday night. Doors to the gym will open at 7:00 p. m. The program for the evening will begin at 8:00 p. m. There will be no charge of admission to the building.

In the building several communities will have booths and some local booths will also be set up. They will have a large variety of merchandise for sale. It has been described as having almost anything you want will be on sale here Saturday night. Everyone interested in the schools and the P-TA is asked to come and bring the family. There will be lots of entertainment.

The organization hopes to make enough money in this one affair to carry them through the year. At present they are not planning any other money raising programs.

Juniors Postpone Early Game; To Play Next Week

The Junior Mountaineer football game scheduled for Tuesday night was postponed because of illness by some of the members of the Early team. The game was re-scheduled for Thursday night, November 14, at Early. Games time will be 7:00 p. m.

The Early schools were dismissed Monday for several days due to more than 100 students being out with the flu. The Bangs game that was postponed on Oct. 15 due to illness, has been re-scheduled for Tuesday, November 19, at Bangs. This game will also be played at 7:00 p. m.

At the present time the local Juniors are leading their district. The local boys have two ties through the season and no losses. Early, second in district competition, has two ties and one loss; having forfeited to May last week because they were unable to play due to illness. May apparently asked for the forfeit.

Last Thursday night the Juniors won over Blanket by a 13-0 score at Blanket. This was their second win from Blanket, both times by the same score.

Mrs. Larry Pennington and children, Edward and Ann, were weekend visitors in the home of Mr. and Mrs. Tom Kingsbery. Mrs. Pennington and Mrs. Kingsbery were room-mates at John Tarleton College before their marriages.

Mountaineers Travel To Llano Friday

The Mountaineers have their two hardest games of the season ahead of them. This week they will journey to Llano for the last game away from home this season. Next week they will play Mason on the local field. Both these games will begin at 7:30 o'clock.

The Llano Yellowjackets have a season record of 6 wins and 2 losses. They lost one conference game to top ranking Mason and their only other loss was to powerful Class AA San Saba by a 20-0 score. Last week the Jackets scored 19 points in the first quarter to beat Cross Plains 19-18. As all the local fans remember, Cross Plains beat the Mountaineers 13-6 in the best game the Mountaineers have played this season.

It is a long trip to Llano. The Mountaineers are going to have to play just a little better than they have in the past in order to bring this one home. We feel the boys are capable of doing so. However, they need all the local support possible and if you can make the trip, it will be worthwhile to the boys.

Lions Club Annual Pancake Sale To Be Friday, Dec. 6th

The 50 cents admission fee will guarantee you all you can eat. Included with the pancakes will be bacon, butter, syrup and coffee or milk.

This affair is held annually in connection with the Santa Anna Christmas Opening. Plan now to come to town early and spend the day. There will be entertainment throughout the day and in the afternoon a big parade will be held. Several bands and floats will be included in the parade.

Slow Rains Fall Over Wide Area

Some of the finest moisture this country has received in years has been falling the past three weeks. This week the gauge at the Coleman Gas Company office showed a total of 1 1/2 inches from Sunday through Wednesday morning. All the moisture has fallen slow and very little has run off. All the days have been damp with a little moisture falling, most of the time.

Between rains the past few weeks the ground has dried out enough to allow the farmers and ranchers to get a large amount of small grain planted. Lots of it is up now and looking good. We have the finest prospect for late fall and winter grazing we have had in about ten years.

Regular Singing To Be Held Sunday

The regular Second Sunday Singing will be held at the First Christian Church Sunday, Nov. 10. The singing will get underway at 2:00 p. m.

All singers are invited to attend and those who enjoy good singing are also invited.

Mrs. J. A. Manley and her daughter-in-law, Mrs. Mozelle Manley, left Tuesday of last week for a visit of two or three weeks with relatives of both at San Diego, Calif., and other places in the state.

PLANS BEING MADE FOR ANNUAL MARCH OF DIMES CAMPAIGN

Many Land-owners Now Eligible For Social Security Pay

Farm landlords over the age of 65 have started filing claims for their social security benefits, according to R. R. Tuley, Jr., manager of the Abilene social security district office. The number of such claims will reach a peak early in 1958, after farmers have filed their 1957 tax returns, he declares.

The 1954 law which covered self-employed farmers beginning with 1955, did not provide coverage for any landlord receiving rental income from his farm land, according to Tuley. This meant that many landlords whose sole business was farming and who actually took part in the farming operations were denied the protection of the Social Security Act. To remedy this, Congress in 1956, changed the law so that a landlord who by arrangement with the tenant or share-farmer takes part in producing a crop and whose activities significantly affect the amount of the crop, will have his net income from this activity credited to his social security account.

This means that the farm landlord over the age of 65 who has been helping his tenant in the production of a crop by helping with the work, contributing machinery or money and actively managing some of the operations, during 1956 and 1957, may be qualified for a social security benefit.

The social security office has leaflets and booklets explaining in more detail what things are taken into consideration in determining whether the landlord's activities constitute material participation. If the landlord meets the requirements, then it is necessary that he file a Schedule F along with his regular income tax form and pay the social security tax on his income from this farming activity.

Santa Anna Band News

After being rained out at the Santa Anna-Cross Plains game, the band presented a half-time program at the Bronte game Friday night. They put on their version of "Little Bo Peep". The program was well received by the Bronte and Santa Anna fans. Brenda Densmore, daughter of Mr. and Mrs. E. A. Densmore, played the part of Little Bo Peep.

The band put on a good performance in spite of the absence of about ten members who were out with the flu. The Bronte band was unable to perform because most of its members were ill.

The band students who sold magazines in this area recently with to express their thanks and would like to remind those who purchased the magazines it will take from 6 to 8 weeks for the first magazines to arrive. If anyone who purchased a subscription from a band student does not receive their in this time, you are asked to contact the band director.

The band would also like to express their appreciation to those who made contributions to the band.

Friday the band will travel to Llano to perform during the football game. They have prepared a skit entitled, "In the Middle of an Island." It is hoped that many Santa Anna fans will be able to go to Llano and help the band support the team.

Mrs. R. E. Albright and her daughter, Mrs. John Smuldm of Baton Rouge, La., came on Thursday of last week and will be here most of this week, visiting with Mrs. Albright's parents, Mr. and Mrs. J. Edd Bartlett.

Charlie Sue Garrett joined a group of young people from Brownwood Sunday and attended a Westminster Fellowship young people's meeting at the Presbyterian Church in San Angelo.

Mr. and Mrs. E. W. Parker and children, Martha and Bill, of Odessa, visited last weekend with her parents, Mr. and Mrs. Louis Zachary.

Plans on the national, state and local levels are in progress for the annual March of Dimes campaign. The National Foundation seeks to raise \$44,900,000 in the 1958 January campaign, primarily to help tens of thousands of polio victims left in the wake of the vaccine's conquest of the polio virus.

"No victory is worthwhile unless it is a complete victory," Basil O'Conner, NPIP President, said. "We shall not have a complete nor a meaningful victory over polio until the post-polio of our country are given a fair chance to combat the after-effects of this disabling disease."

Funds raised in the annual campaign will be divided three ways the coming year. The National Foundation will set aside 25 percent of the net proceeds in a Medical Aid Fund to assure that no victim of the disease will lack care because of insufficient funds in communities hard-pressed by high patient care costs. O'Conner explained that the Medical Aid Fund will meet contemplated needs for advances to chapters. It will provide for the purchases of new technical equipment and the maintenance and replacement of old equipment used by severely stricken polio patients.

The remaining 75 percent will be divided as usual, one-half going to the National Foundation for research, professional education, maintaining treatment centers and otherwise continuing the work of the National organization. The remaining one-half of the 75 percent will remain in local chapters for use in treatment of local polio cases and seeing they are cared for.

ACROSS the DESK
ideas from other editors

From The Lincoln Times, Lincoln, N. C.: People may get the idea that retailers are not deeply concerned with price inflation—on the theory that all any retailer has to do when costs go up is to add some more pennies or dollars to his price tags and let the consumer like it or lump it. That idea is 100 per cent wrong. As editor Godfrey M. Inghar of Chain Store Age writes, "No factor which retailers consider in planning for the future can be more important than the purchasing power of the dollar. It affects not only their own capital expenditures but more importantly it affects their sales prospects." As an example of the last, he cites the many consumers who live on fixed incomes or whose buying power falls for some reason to keep pace with rising prices. When prices go up, these people are forced to curtail their purchasing. There is another big factor here too. Human nature being what it is, we often tend to blame the retailer for price increases. He is the man we deal with when we do our shopping, and he becomes the scapegoat when we are displeased. The truth is that retailers themselves can do little about inflation. Current studies — including one from the Labor Department—intimate or indicate that excessive

wage increases have been mainly at fault, and retailers have no control over those. But retailers — like all the rest of us — are deeply concerned, and would like nothing better than price stability. **From The Herington Advertiser-Times, Herington, Kansas:** It is possible for statistics to be factually correct and misleading at one and the same time. The retail industry has become an important case in point. Various studies show marked differences in wages between different kinds of retail stores and that has led some people to believe that something must be drastically wrong and in need of legislative correction. Actually, these differences are based on sound and traditional economic characteristics. The many different kinds of retail stores require employees with very different kinds and degrees of experience and skill. For example, it takes a first-class salesman to sell expensive automobiles, furs, furniture and other such merchandise. But it takes virtually no skill experience to sell inexpensive notions. Then there's still another factor, known as the average sale. In a fashionable women's wear store, this average sale may be as much as \$25.00.

Sam Everett, Former Resident, Buried In San Saba Friday

Funeral services were held at San Saba Friday, Nov. 1, at 4:00 p. m. for Samuel M. Everett, who died there at his home on Thursday, following a long illness. He was 73 years old. He is survived by his wife, the former Miss Nell Parker of Santa Anna; three daughters, three sons, four sisters and four brothers. Relatives going from Santa Anna were Mr. and Mrs. Will Parker and Mrs. Frances Everett. Mrs. C. J. Deer returned home early last week from a two months visit with her son, Mr. and Mrs. J. S. Deer and children at Newark, N. J. The last month she was there Mrs. Deer had the flu and hasn't been well since getting home, but is improving.

Mr. and Mrs. Durwood Thigpen of Laurel, Miss., are the parents of a baby son, born Oct. 27 at 2:40. At last report the child had not been named. Durwood is the son of Mr. and Mrs. D. L. Thigpen. Mrs. Frank Thigpen and Mrs. Maude Smith are the great-grandmothers.

Mrs. Clyde Haynes of Brooksmith visited Saturday afternoon with Mrs. Glen Haynes. **LOWER TAXES?** Austin — Interested in lower taxes? Then try playing it "safe" for a year. J. O. Musick, General Manager of the Texas Safety Association, reported today that the economic loss from accidents in Texas, last year, cost us more than 300-million dollars. For this amount, he said we could have operated all state supported schools from the first grade through college levels. We would still have enough left over to take care of our eleemosynary and correctional institutions. Plus, state parks, monuments and museums. "The loss," Musick said, "is equal to more than one-third of the state's entire budget for a year." TSA records show that a total of 6,176 persons were killed from accidents of all types, during 1956, and 781,789 were injured.

Bronte Upsets Over Confident Mountaineers

Fumbles and an apparent over confidence cost the Mountaineers the last non-conference football game on their schedule Friday night at Bronte. The Longhorns dominated the ball game the last three quarters to win 14-13 over the Mountaineers.

THE GAME

Bronte kicked to the Mountaineer 8-yard line and Ray returned the ball to the Bronte 47-yard line. Four ground plays put the ball on the Bronte 28-yard line and another play would have put the ball within one yard of the goal line but was called back and the Mountaineers were penalized 15 yards for holding. This put the ball on the Bronte 35-yard line. A pass from White to Aldridge was good for a first down on the Bronte 18, a ground play went to the 11, a fumble was recovered by the Mountaineers, a ground play was good for three yards and a first down, then White on a keeper went around left end for the TD. Ray kicked the extra point. The Mountaineers kicked to the Bronte 12-yard line and the Longhorns returned the ball to their 49-yard line. Four plays did not net any gained yardage and the Mountaineers took over on the Bronte 49. Six plays and two first downs later the Mountaineers were on the Bronte 9-yard line. A fumble was recovered by Bronte on their 7-yard line as the quarter ended.

In the first play in the second quarter Bronte lost two yards and then in nine plays marched the 95 yards to score from 10 yards out. They ran the extra point over. Bronte kicked to the Mountaineer 12-yard line and the ball was returned to the 21-yard line. Twelve plays and four first downs later the local boys were on the Bronte 31-yard line as the first half ended, the score being 7-7.

Bronte chose to receive to begin the second half. The Mountaineers kicked to the Bronte 11-yard line and the Longhorns returned to their 39-yard line. In eleven plays the Longhorns went ahead of the Mountaineers on a 9-yard TD pass, then ran the extra point over to make the score 14-7 for Bronte. The Longhorns kicked to the Mountaineer 9-yard line and they returned the ball to their 25-yard line. The local boys picked up a first down, then fumbled and the Longhorns recovered on the Mountaineer 43-yard line. The quarter ended with Bronte on the Mountaineer 24-yard line.

On the first play in the fourth period the Longhorns lost 2 yards and the ball went over to the Mountaineers on their 26-yard line. Eleven plays later the Mountaineers bogged down on the Longhorn 21-yard line and Bronte took over. The first play lost a yard for the Longhorns, then Ray intercepted a Longhorn pass on the 22 and returned it the 22 yards for a TD. They attempted to run the ball over for the extra point but failed, making the score 14-13 for the Longhorns. The Mountaineers attempted a short kick and Bronte took the ball on their 44-yard line. Seven plays later the game ended with Bronte on the Mountaineer 22-yard line.

Mason was idle over the weekend and retained the top position in District 9-A competition. The Cowpunchers have Cross Plains and Santa Anna remaining on their schedule.

Today's MEDITATION from The World's Most Widely Used Devotional Guide

The Upper Room

© THE UPPER ROOM, NASHVILLE, TENNESSEE

Read Romans 15:1-7.

We then that are strong ought to hear the infirmities of the weak, and not to please ourselves. (Romans 15:1)

We were sitting in the darkened balcony of a large auditorium watching a film when a man entered from one of the brightly lighted corridors. Before his eyes became adjusted to the darkness, he stumbled at the first step as he started up the aisle. Quickly hands were outstretched to guide him. In this way he was helping along from person to person and finally guided to a seat.

How often the glamors of the world, in which we so much live, blind our eyes to things of a spiritual nature! We live blindly and in fear unless helping hands are outstretched to guide us. Then we become firmly established in faith and secure in the fellowship of the Church.

This is one of the great privileges which we as Christians enjoy - helping one another until we are secure in the knowledge that we belong to Christ and that He belongs to us.

PRAYER

Our heavenly Father, we thank Thee for Thy love and care. We thank Thee for the helping hands that have been extended to us along life's way. Keep us every mindful of others who need Christian love and guidance. Grant that we may be a beacon and a help to them. In the name of Christ, Amen.

THOUGHT FOR THE DAY

By helping others we strengthen ourselves.

—Harold Rogers (Tennessee)

D. 1957, his Final Account of the condition of the Estate of said Ina E. Bouchelle together with an Application to be discharged from said Trust.

Said Final Account and Application will be heard and acted on by said Court on the first Monday next after the expiration of ten days from date of Publishing this citation, the same being the 18th day of Nov., 1957, at the Courthouse thereof in Coleman, Texas, at which time and place all persons interested in the Account for Final Settlement of said Estate are required to appear by filing a written answer and contest said account and application should they choose to do so.

INSTEAD of reducing surpluses, the present program for Agriculture is not only increasing surpluses, but the millions being paid out in soil bank payments do not actually add to the farmers' income. These payments at best are only a substitute for money he would have received had he not retired his acreage from production.

are figured climbed from \$1.4 billion in 1952 to \$5.9 in 1957, an increase of \$4.5 billions. The theory under which the present farm program is operating, that is, less and less price supports, is that it will reduce surpluses; that retirement of acreage under the soil bank program under which the government is paying out from \$140 million to \$300 million per year, would also reduce production. It doesn't work out that way. Neither do acreage allotments.

Traffic Accident Record To Be Set - Good Or Bad?

The traffic accident records of the next two months will decide whether or not Texans will plunge deeper in the traffic quagmire of death and destruction. Frankly, the future isn't bright, for December has come to be regarded as the most deadly month of the year - from a traffic standpoint - with November close behind.

In 1955, for example, 263 persons died on Texas streets and highways during December's 31 days, bringing the traffic fatality toll to 2547 for the year. In 1956, 252 were killed during the same period - for a record year's total of 2611.

Thus far, more than 2,000 people have been killed during the current year. The final outcome of a higher or lower toll depends on what the individual motorist and pedestrian does in the next 60 days.

Yes, believe it or not, we more or less have control of our own destiny. If we are careless, we are sure to meet with accidents. In every walk of life. But if we are careful and keep on the lookout for hazards, we may easily steer clear of those things which cause trouble. It is folly to say that it is all a matter of luck, because luck actually doesn't enter into it at all.

Consider, for a moment, this season of the year and your own attitudes. We may not have ice and snow within the next two months, but we will certainly have damp, cool and occasional foggy days and nights. We know that winter is on the way just as surely as we know it will be followed by spring.

It is true there won't be much vacation travel in the next two months, but traffic will be heavy during Thanksgiving and Christmas holidays, and over the football weekends. Also, there will be considerably more nighttime driving after dark. That is, the earlier hours of the evening will necessitate more nighttime driving. Records of the Texas Safety Association reveal that 14 per cent of all rural fatal traffic accidents occur between 6 and 8 p. m.

One thing for certain, Texans are entering the most dangerous traffic period of the year. A record will be set - whether it is GOOD or BAD will depend on each of us.

Answer to Puzzle No. 470

WHAT PRICE CAN YOU AFFORD FOR PIGS?

The price a farmer can afford to pay for feeder pigs depends on the value of the finished hogs, cost of raising them and death loss.

Recent studies on midwestern hog raising has produced a gauge for estimating in advance, the possibilities of profit and loss.

To determine the finished value, a farmer first estimates the prices at the time he will sell the hogs, and their probable weight. For example, if Farmer Jones wants to buy 35-pound feeder pigs in late May to sell in October, he may estimate their ultimate weight at 225, the price at \$16.

The weight is based on experience with rate of gain, and the price is a forecast. His expected income or net value at the farm is 225 pounds times \$16 per hundredweight or \$36 altogether.

Probable costs should be estimated next. Figures vary from year to year and farm to farm but experimental results show the average midwestern farmer uses 350 pounds of protein supplement to add 100 pounds weight.

This would be a total of 665 pounds (about 12 bushels) of corn and 100 pounds of supplement to increase the 35 pounders to 225 pounds.

With corn at \$1.15, the cost for 12 bushels would be \$13.80. And with supplement at \$5 a hundredweight, total cost would be \$18.

Feed is the largest cost item, but labor, shelter, equipment and veterinary count too. Usually, these amount to one-fifth of the feed costs. This is \$3.76, bringing total production costs to \$22.56.

Difference between income and total costs is the first estimate of the price a farmer can afford to pay for a feeder pig. This figure is \$13.44. But the amount should be adjusted for death loss. Probable survival rate is multiplied by the margin over cost per pig.

For example, Jones expects a death rate of 5 percent — or a survival rate of 95 percent. Multiplying margin per pig (\$13.44) by 0.95 gives price per pig: \$12.77 in this case. If Jones pays this price for a feeder pig, he can expect to get market price for his feed and average wages for his labor. In addition, he will cover all his costs for shelter, equipment, and other items. When a pig may be purchased for less than \$12.77, the difference constitutes profit.

End of Season Outlook:

Polio Threat Is Reduced; But Millions Unprotected

MARION B. FOLSOM, Secretary of Health, Education, and Welfare, has reported a dramatic 80 per cent reduction in paralytic poliomyelitis in this country over the past two years. He warned, however, that millions of Americans under 40 still have not received full vaccine protection and thus "are needlessly risking disability or even death."

Mr. Folsom, summarizing the polio season now coming to an end, reported 1,576 paralytic cases so far this year, compared with 7,000 cases two years ago, before widespread use of the Salk vaccine, and 5,241 cases last year. "For many years," Mr. Folsom

officers, and the Advertising Council are all joining in a campaign this fall to urge vaccination of as many persons as possible with the full recommended schedule of three doses.

Surgeon General Leroy E. Burney of the Public Health Service gave this summary of the polio picture now:

Incidence— There have been 1,576 paralytic cases so far this year, compared with 7,886 for the same period in 1955 and 5,241 in 1956.

Only 63 cases of paralytic polio have been reported among the 28 million persons who have received 3 shots of vaccine, and not all of these cases have been confirmed yet. Three doses are estimated to reduce paralytic polio incidence by up to 90 per cent.

Although the vaccine is designed to prevent paralytic polio, as distinguished from non-paralytic, the total number of polio cases this year also shows a sharp reduction. There have been 4,851 cases so far, compared with 21,667 2 years ago, and an average of 24,928 a year over the past five years.

Vaccine Production— More than 215 million cc. (doses) of vaccine have been released for public use since April, 1955 when manufacturers were first licensed to produce the vaccine. More than 84 million cc. have been released this year. Production has been running about 12 million cc. a month recently and manufacturers will be asked to maintain this rate or to increase it if the demand is sufficient.

It now appears possible, for the first time, to have enough vaccine available to give protection to substantially all the population under 40 before the start of next year's season of peak incidence.

Vaccine Use— It is estimated that more than 72 million Americans already have received one or more doses—out of a total population of 109 million persons under 40. Estimate indicate:

Of the 67 million persons in the priority group, under 20 years of age and expectant mothers, 25 million have received all three injections, 22 million have received 2 injections, 11 million have received 1 injection, and 9 million have received no vaccine. Attention should be given particularly to vaccinating teen-agers.

Polio can and does strike severely at adults, however. Of the 42 million persons 20 through 39 years old, 14 million have been vaccinated—3 million with 3 doses, 5 million with 2 doses, and 6 million with 1 dose. But 28 million adults have had no vaccine.

The inventory of vaccine on hand already has begun to pile up. The supply reached a low point of 3.2 million cc. during the week ending March 25. In recent weeks it has climbed from 9 million cc. on August 9, to 18 million cc. on September 15, 23½ million cc. on September 20, and remained at almost that level—23.8 million on September 27.

Don't Press Your Luck!

said, "this country anxiously sought the means to avert the suffering and anguish caused by polio. Today, with steadily increasing supplies of Salk vaccine, the means are at hand."

"If people will use the vaccine available, it is possible to give paralytic polio a knockout blow within the next year."

"Still, more than 37 million Americans under 40 have received no vaccine, and 44 million have taken only one or two doses and have yet to complete the full schedule of three doses."

"It will be a tragedy if, simply because of public apathy, vaccine which might prevent paralysis or even death lies on the shelf unused."

The Secretary noted that last fall, use of the vaccine dropped sharply, supplies piled up in warehouses, and production was cut back. By last spring, however, the demand had risen to such a peak that supplies were short again and many planned community and industry vaccination programs had to be postponed.

"We are most anxious to avoid this sort of boom-or-bust cycle, which seriously impedes an effective vaccination program," he said.

"Although all the reduction in paralytic polio may not be due to the vaccine, the vaccine certainly has played a major part in this dramatic progress."

"And yet supplies already are beginning to pile up. This is the best time for medical societies, local health departments, schools, industries, and individual citizens and physicians to make sure that everyone who needs protection gets it."

"If unvaccinated persons will start now, they can get the full schedule of three doses before the next polio season begins."

Mr. Folsom said the Public Health Service, the National Foundation for Infantile Paralysis, the American Medical Association, State and Territorial Health Of-

POOR Eddie Fisher... After years of hit records which netted him some half dozen gold disks, he not only has dropped almost out of contention in the past few years but has the added twist of fate of having his pretty wife, Debbie Reynolds, who isn't known for her singing by any means, come up with the country's top waxing in "Tammy"... As though that isn't bad enough, Eddie's first TV show of the current season would have been a flop except for the sparkling presence of one of his guests... who else but Debbie Reynolds.

PLATTER CHATTER
CAPITOL: Lots of good hi-fi albums turned out by Capitol, one of the best of which is "Boulevard of Broken Dreams" by popular Ferlin Husky who scored so high in the pop field this year after years in the country and western field... Husky sings the title song among standards carefully selected for his styling... Peggy Lee has a great new album which not only shows up her voice to advantage but marks the debut of Frank Sinatra as a musical conductor... Peggy does "The Man I Love," "Please Be Kind," "That's All," "He's My Guy," "My Heart Stood Still," "There Is No Greater Love" and others.

In singles, Capitol offers Nelson Riddle doing his usual magnificent job on "In a Small Forgotten Town" backed by "Blame It On Farce"... A tasty coupling... Sonny James continues to score with "Love Conquered". Flip side has "A Mighty Lovable Man," a weak song but well done... The ol' Voice himself, Frank Sinatra, comes up with a song that may go all the way and it's titled appropriately enough, "All The Way"... Reverse has "Chicago" and both are from his latest movie, "MERCURY". Lonnie Donegan goes wild with "Futtin' on the Style" and "Gamblin' Man" on the reverse is just as frenetic... tailor-made for the jumpin' teens.
