THE  
AMERICAN  
WAY

FRIENDS OF THE FOE

By Tom Anderson

(Editors Note: Thos. J. Anderson, Publisher of Farm and Ranch and five other farm publications, is the most-quoted farm editor in America.)

The most incredible Communist victories since the so-called end of World War II were won mostly by subversion. By relentless incitement to revolt, by perfectly planned internal subversion against foes unwilling or unable to meet subversion with subversion, the Communists enslaved 750 million people. While we spent \$40 billion a year for armaments and \$60 billion on total foreign aid since 1945 trying to buy peace piecemeal, the Communists spent peanuts.

In 1945 the Communists had enslaved 7 percent of the world's people. They have now enslaved 40 percent of the world's people and 25 percent of the land mass. The big Red Army didn't have to fire a shot. All the Communists have to do is keep on doing what they've been doing and all we have to do is to keep on doing what we've been doing, and the Communist timetable calls for taking us over, from within, by 1973. Yet our perless leaders tell us the menace is entirely from without, not from within. It is, of course, both — as any school-child should know, but doesn't.

There are reportedly less than 15,000 Communists in this country. Given the word, J. Edgar Hoover could jail them faster than the Supreme Court could turn them loose.

Fifteen thousand Communists won't take us. If we're taken from within, it'll be by hundreds of thousands of do-gooders, fatheads, socialists and fools in high places who are running the Communists' errands for them. We won't have Communism until we've had Socialism. Socialism is the halfway house to Communism. Communism without the firing squad. Yet some New Frontiersmen tell us the best way to oppose Communism is to adopt Socialism.

A "yellow traveler" is a person who preaches the Communist line but claims he is not a Communist. A yellow traveler is a Communist who lacks brains, integrity or guts. Pinks are gutless Reds.

Your neighbor who buys the seed, plows the ground, weeds, irrigates, lays by, harvests and sells his crops, votes on controls and allotments and gets ASC payments — if he is not a farmer, what is he? If he is a fellow traveler with Communists, following and preaching the Communist line, then it makes little difference whether he carries a Communist card. In fact, he is a more deadly enemy of freedom than if he did carry a Communist card.

Communism, whether Khrushchev's or Tito's or Castro's, is a criminal conspiracy. Under our laws anyone who aids and abets a criminal is also guilty of crime. Under our laws anyone who gives aid and comfort to the enemy is guilty of treason. Treason is punishable by imprisonment or, in wartime, by death. We are at war, a war of survival as a free people under God.

Fellow conservatives are busy fighting among themselves over whether we have been brought to the brink of surrender by fools or traitors. Actually, that's not the main issue. The issue is that we must change a losing game, if we are to avoid being swallowed up in a one-world socialist "brotherhood" and eventually enslaved. We face possible surrender to a one-world Socialist State — with or without firing squads — and the people who brought us here are guilty. They planned it that way as Roosevelt liked to brag, America's greatest menace is not falout; it's sellout.

Someone once said, "What you are speaks so loudly I can't hear what you say." People should be judged not by what they say, but by what they do. Real Christians live the Christian life. Rather than indulge in name-calling, let us judge anti-Communists, anti-Socialists, anti-Collectives by what they do. If it walks like a skunk, looks like a skunk, acts like a skunk and smells like a skunk, lets assume it is a skunk until somebody proves it's not.

The "menace within" and the "menace without" are inseparable. No one including the President of the United States, can accurately say which we should now fear the most. To pooch the Communist menace from within because there are not many Communists here is like a ship captain pooch-pooching

A. D. PETTIT

## A. D. Pettit To Be Honored At State Ag. Meeting

Austin — (Spl.) — A. D. Pettit, Santa Anna High School Vocational Agriculture Teacher for twenty-five years, will be honored by the Vocational Agriculture Teachers Association of Texas in San Antonio, August 8, according to J. D. Nixon of Beaumont, President of the organization. Pettit will be honored for his twenty-five years service to Vocational Agriculture in Texas.

The award will be presented at an awards breakfast sponsored by the Association. The breakfast is a part of the state-wide conference of Vocational Agriculture Teachers and the 1962 conference theme is "Improving Instruction to Meet Changing Needs in Agriculture." Educational features of the four-day meeting will be under the direction of George Hurt, Director of Agriculture, Education, Texas Education Agency. He will be assisted by J. A. Marshall, Clemon Montgomery, E. L. Thier and ten Area Supervisors, including J. B. Payne of Stephenville.

Pettit received the Bachelor and Master of Science Degrees from Texas A & M College. He has been active in professional activities of the Vocational Agriculture Teachers Association having served on the organization's Board of Directors. He is now Membership Chairman for his District, a post he has served for several years.

Pettit as advisor of the Santa Anna FFA chapter provides many opportunities for the young men under his supervision to develop their abilities in numerous activities. The chapter members are active in livestock shows throughout the state's major shows, winning top honors in these shows. For his outstanding contribution to Future Farmers of the Texas Association honored Pettit with the Honorary Lone Star Farmer Degree. Approximately 1200 teachers and friends will attend the San Antonio meeting where Pettit will be honored for his distinguished service to Vocational Agriculture.

## Linda Horner and Mother Take Paid Vacation Trip

Miss Linda Horner, daughter of Mr. and Mrs. Richard Horner, recently won an all-expense paid weekend in Dallas. She selected her mother to go with her. This was the result of a contest conducted by Estelle's Ladies Shop in Coleman.

The ladies took their trip last week, leaving here on Thursday and going to the Holiday Inn Central in downtown Dallas. They were joined on Saturday by Mr. Horner and the boys.

Mrs. Horner said they could order anything they wanted while at the Inn and all expenses were paid by the Jones, Brown and Adams, Inc., a firm who supplies fabrics to retail outlets in this area.

They had a sightseeing trip planned while there, but two days of rain caused several streets to be blocked and the sightseeing buses did not operate during that time. The family went to the zoo on Sunday before returning home that evening.

an iceberg because there's not much ice visible. It's not what's up front that counts. It's what's hidden beneath the surface.

While the Hidden Persuaders continue selling us out to a One World Socialist Dictatorship, J. Edgar Hoover's boss, Little Bob, spends his time looking under the beds for patriots.

## R. C. Lifesaving Course Being Taught At Pool

A Red Cross Water Safety and Lifesaving Course began Wednesday, Aug. 1, at The Pool, two miles west of Coleman. The first seven days of instruction will cover the Junior Lifesaving Course for boys and girls between the ages of 12 and 15. Several from Santa Anna are taking the course. Others interested are requested to contact Mrs. Leonard Moore.

The Senior Lifesaving Course will begin Aug. 9 and is for persons 16 years of age and older. Santa Anna residents are also invited to participate in this program. Interested persons may contact Mrs. Moore for more information.

Both courses are being made available to the public by the county Red Cross Chapter. They are designed to provide each individual with knowledge and skill necessary to save his life or that of another in case of emergency.

There is no charge for the instruction or for entrance to The Pool. The only requirement is the ability to swim fairly well. Individual certificates will be awarded to all students who finish the course.

## Good Rains, High Winds Hit Here

Late Wednesday evening of last week a very unusual wind and rain storm hit in the Santa Anna area. It was just about what could be called a local storm as very little moisture fell on areas around Santa Anna.

High Winds did some damage to several buildings and blew a large number of limbs from trees all over town. During the course of the storm, rain came from every direction — just about at the same time.

On Thursday, rain fell through most of the morning. Total measurement for the two days was about 2 1/2 inches.

Very little moisture fell to the south of here, where a good rain is needed most.

## LIONS DISTRICT GOVERNOR TO VISIT HERE TUES.

Roy Horne, president of the Santa Anna Lions Club, said the District Governor, Doc Ellis of Midland, will make his official visit to the Santa Anna Club on Tuesday, August 7th. All Lions are urged to make a special effort to be present for the occasion.

## SERVICES FOR MOTHER OF MRS. MURRAY COOPER

Mrs. Alice Stewart, 71 long-time resident of Honey Grove, Texas and the mother of Mrs. Murray Cooper of Santa Anna, died in the Paris Hospital about 12 noon Thursday July 26. She had suffered a serious heart attack Wednesday evening and another Thursday morning. She had heart trouble for about a year.

Services were held Saturday, July 28, at 4:00 p. m. in the First Baptist Church in Honey Grove, with the pastor, the Rev. T. J. Watts, officiating. Burial was in the Oak Wood Cemetery at Honey Grove.

Mrs. Stewart is survived by three daughters, including Mrs. Addie Cooper of Santa Anna; four sons, one brother and a large number of grandchildren.

Mr. and Mrs. Cooper were in Honey Grove from Thursday to Sunday night.

## Baseball Results

The local baseball season is just about completed. Only games played the past week were make-up games. The Indians won over the Mets 14-5 and the White Sox won over the Colts 8-7. The final game of the schedule will be played Thursday night between the Colts and Mets, at 8:00 p. m.

A second game will be played at 8:00 p. m. between a Santa Anna teenage team and a Coleman teenage team. This is the game that was rained out last week.

## Season Tickets Now On Sale

Season tickets to the five home football games this fall are now on sale by Supt. Cullen N. Perry and several other local citizens. Supt. Perry said all those who desire the same seats they had the previous year should let him know by the end of this week as the tickets will go on sale on a first come, first served basis the first of next week.

The book of five tickets are \$5.00 for adults and \$1.25 for students. The tickets will serve as admission to the game and the cover of the book will serve as your reservation of the seat number of the booklet cover.

As there are a limited number of reserved seats, Supt. Perry urges everyone who wishes to purchase them to do so as quickly as possible. There are only 216 reserved seats and with the possibility of the season being a good one for the Mountaineers, the tickets are expected to go pretty fast.

Games to be played on the local field are with Baird, Dublin, Goldthwaite, Copperas Cove and Bangs. The last three games are conference games.

At present all the conference games are scheduled at 7:30 p. m. The other games are scheduled at 8:00 p. m. Mr. Perry said some of the times would likely be changed at a meeting of the school officials, to be held later this month. The distance of travel will make it hard on the fans having to travel so far to arrive in time for games at 7:30 p. m.

Mr. Perry said he would likely be out of town a part of this week. If he is not available, you are requested to contact Roy B. Mathews or head coach R. C. Smith, for the tickets.

## HOUSES PURCHASED

Several real estate transactions have been completed in Santa Anna during the past few days. Included here are the ones we have been informed of.

Mr. and Mrs. Dawson Sec purchased the Charles Wristen house in the Sealy addition and moved in the first of the week. Mr. and Mrs. Wallace McKee purchased the Judy Sewell home on Avenue A and plan an extensive remodeling before they move here from Coleman.

Mr. and Mrs. H. B. James have purchased the Tommy Upton home on Avenue A and moved there the first of the week.

Mr. and Mrs. E. W. Bible purchased the Mrs. John Ellis property in the west edge of town. Mrs. F. C. Williams moved here from Abilene this week. She and Mr. Williams plan to start construction on a new home just west of Mrs. Ozro Eubank right away.

## Pony League Turney In Progress In Coleman

The second annual Pony League Baseball Tournament is now underway at Coleman and will continue through Sunday afternoon. The final game will be played at 2:30 p. m. Sunday.

Teams entered in the tournament are: Eastland, Cisco, Key City of Abilene, Brady, Ballinger, Albany, Bronte and Coleman. The teams are made up of the all-stars from each league. All the boys are ages 13-15 years.

Trophies for the winners and runnerup will be presented after the final game Sunday. Abilene was the winner last year, with Cisco being the runnerup.

## Claud W. Conley Promoted By Santa Fe Railway

The appointment of Claud W. Conley, Santa Anna native, as assistant to the superintendent of communications at Topeka, Kansas, effective Aug. 1, was announced last week by Dale R. Weems, superintendent of communications for the railways Eastern Lines there.

Conley, prior to his new appointment, was wire chief for the railway at Temple. He began his railroad career as an apprentice operator at Stephenville, Texas, Jan. 4, 1946. He also served at Galveston during two brief assignments.

He was born at Santa Anna on Feb. 1, 1925.

Mrs. Albert Shaw of Christoval visited with Mrs. T. R. Sealy Sunday.

Rev. and Mrs. H. H. Barnett visited a friend at Carlshad Sunday afternoon.

## Homecoming For Ex-Students To Be October 5-6

The annual Homecoming for Ex-students of the Santa Anna Schools has been announced for Friday and Saturday, October 5 and 6. Activities will get underway with the annual Homecoming Football Game Friday evening, Oct. 5. The game will be between Santa Anna and Goldthwaite and will be the first conference game of the season.

Following the game, a get-together will be held in the lunchroom for all Ex-Students and their families.

Registration will be on Saturday morning in the high school.

The Class of 1912 is planning a 50th year reunion. James N. Land, a member of that class will be honored as the Ex-Student of the year. A number of other classes are also planning reunions.

Local residents are urged to contact your friends and relatives who are ex-students and urge them to be here for the reunion.

## Methodists To Break Ground For New Building Sun.

A ground breaking ceremony will be held in connection with the regular evening worship service at the First Methodist Church Sunday, beginning at 7:00 p. m. Rev. H. H. Barnett, pastor, said the ceremony would start the construction of a modern new educational building for the church.

The new building is to be located north of the church and will face west. It will contain nine class rooms, a study, kitchen and activity room. The building will be 34 feet by 107 feet and will be constructed of face tile.

Dale Smith is chairman of the Official Board and chairman of the building committee. All members of the church and friends are invited to be present for the ceremony.

## Don W. Davis Employed In Ward School

One vacancy remains to be filled on the faculty of Santa Anna Independent School District as plans are being made for the 1962-63 school term to begin.

Mr. Don W. Davis of McMurry College was employed last week to assume duties as 7th and 8th grade science teacher and coach. Mr. Davis will also give some assistance to the high school coaching staff as needed. He will be an August graduate of McMurry. His home is in Abilene. A vacancy still exists for a teacher in an English and Speech combination, and it is hoped that this position may be filled soon. An English major will be employed if further efforts to obtain the help in the speech area should fail.

Two transfers within the faculty have been made one through necessity and the other through the teacher's request. Mrs. Lucille Dean has been transferred to the primary department and A. D. Bowen will work in the history department and continue as assistant coach.

Other members of the faculty are as follows: High School, Roy B. Matthews, Beth Manning, T. K. Martin, Winnie McQueen, A. D. Pettit, R. C. Smith and Daniel Tindol; and in Elementary School, James A. Harris, Margaret Crews, Ruth Dodson, Mattie Beth Davenport, Maud Harris, Nadene Harris, Gertrude Martin, Ruth Odum and Martha Perry.

One excellent application is on hand for the English-Speech vacancy; however, the applicant cannot live in Santa Anna, and an effort is being made to find a qualified person who can reside in the local school district.

Mrs. M. A. Pritchard of Temple visited with her daughter, Mrs. Opal Little, during the weekend.

Lt. Com. Thomas Hays is here with his family while on furlough from the U. S. Navy.

## County 4-H and FFA Beef Tour To Be Saturday

The annual Coleman County 4-H and FFA Beef Calf Tour will be held Saturday, Aug. 4, at 7:30 a. m. and continuing until about 4:40 p. m. Roy Sims, county agent, said the tour will leave from the courthouse in Coleman at 7:30 a. m. and arrive at the Beaver farm at Talpa at 8:00 a. m., where coffee will be served and three calves will be exhibited by Paul Beaver. All who are interested are invited to join the tour for the day.

During the day the group will view more than 50 head of calves. 4-H and FFA members who will exhibit the calves are: Paul Beaver, Sandra Hemphill, Jack B. Horne, Curtis Skilton, Richard Horner, Ann Davis, Karen and Roland Sims, Ronnie Greaves, Lewis and Steve McWhorter, Joe Paul Hemphill, Grady Hausenflake, Ben Scott, Darrell Hunter, Donald Turner, Douglas Roberts, Keith and Glynda Phillips and the Taylor Sisters.

At noon a barbecue dinner will be served at the Hemphill Ranch. A weight guessing contest will also be held at that time.

At the end of the tour awards will be presented for Showmanship and the winner in the weight guessing contest by the Coleman County Electric Cooperative.

## Ceramics Class To Begin Monday

Mrs. Cullen N. Perry is making preparation to begin her class in Ceramics on Monday August 6, and requests those who are interested in taking the course to contact her as soon as possible to arrange a time convenient for you.

The class will be for four weeks and will be taught in the Perry home on Avenue A. Classes will be held on Monday Wednesday Thursday and Friday from 2:00 to 5:00 p. m.

Mrs. Perry has arranged an exhibit of ceramics at Phillips Drug, and those interested are invited to visit the drug store and look the exhibit over.

Mrs. Perry said there would be no charge for registering and taking the course. However, each individual will be expected to pay for their working tools, greenware and firing. Prices will vary according to the individual and according to the products produced.

Persons of all ages are invited to attend the classes.

## About Your Health

Call them red bugs. Call them harvest mites. Call them chiggers. By whatever name, they mean sleepless nights and ceaseless spasms of itching misery.

This is their season. It will last from now until cold weather cuts into their ranks. A few people have an apparent immunity to chigger attacks, but the vast majority of us are oh-so-susceptible.

They — the chiggers — have a special affinity for low damp places covered with vegetation. Bermuda grass harbors them well, but for some unexplainable reason they are not usually found in carpet grass.

Just for the record, it's the larvae which do the damage,

attaching themselves with their mouthparts and sucking blood until they become engorged and fall off. The fiery itching is caused by an — coagulant material they inject into their host.

Although adult chiggers — large, red and velvety — are probably harmless to humans, their wayward offspring can be serious as well as annoying. Not that they spread any specific disease — at least not in this country — but their bites demand scratching which frequently causes secondary infections in the form of sores and boils.

To learn where chiggers are harboring, stand a piece of black cardboard on end where you suspect their presence. If after a few moments you see tiny yellowish or pinkish mites accumulating on the upper edge, you know it's time to check your supply of insecticide.

Chiggers attack lizards, snakes, birds and rodents with the same vigor and resourcefulness they display in attacking humans. No distinction is drawn between man and lesser animal species, which is hardly complimentary to us Homo sapiens.

Light applications of sulphur dust on lawns and low branches of shrubs have been used successfully for years to control chiggers. Nowadays, the new insecticides such as chlordane and lindane give better results. Just follow the directions on the label.

A quick word of caution: Be sure to avoid unnecessary exposure to the insecticide. If you spill the concentrated material on your skin, wash it off immediately. And be sure to keep children and pets out of the yard until the spray dries.

Attend church regularly.

## Oldest House In County To Receive Building Medallion

The "Rock House", the oldest residence still standing in Coleman County, has been found worthy of receiving a Texas Historical Building Medallion, Mrs. Mike Butler of Austin, chairman of the Houses and Buildings Committee, Texas State Historical Survey Committee, announced. The house is located near Leaday on the Padgett Ranch.

The Historical Building Medallion is awarded for structures which have architectural or cultural significance to the history of a community or area. This is an award presented by the State of Texas for buildings worthy of preservation.

The Rock House was built in 1847 during the time the Indians exerted a dominant influence. It served as headquarters for the 37,000 acre Day Ranch and has been in continuous occupation as a ranch residence since that time. The ranch is owned by Mr. James T. Padgett of San Antonio.

Since the Building Medallion program was inaugurated in March of this year, over 150 Historical Building Medallions have been placed over the state.

The goal of marking 1000 of Texas historic buildings has been set for the next two years.

The Medallion is 14 inches in diameter and is made of cast aluminum with Swedish steel effect. Red, white and blue stars and the words, State Historical Survey Committee, encircle raised map of Texas.

Other structures found worthy of the honor are the Alamo, Governor's Mansion and Sam Houston's home.

## D. H. Moore Jr. Receives Second Commendation Medal

London, England — Air Force Technical Sergeant Douglas H. Moore Jr., son of Mr. and Mrs. D. H. Moore, Santa Anna, Texas, has been awarded his second Commendation Medal. The award was presented him for duty he performed while stationed at Mather Air Force Base, California.

At Mather, Sergeant Moore was non-commissioned-officer-in-charge of the Base Information Office. Although he was mainly responsible for administrative supervision of the office's operation, he was active in other fields.

The citation accompanying the award revealed that he was very active in community relations, that he scheduled concerts by the Mather Band for high schools and colleges in the northern California area, and that he was instrumental in obtaining Air Force participation in the 1959 and 1960 California State Fairs.

Sergeant Moore also supervised publication of the Mather newspaper. During the period of his supervision, the paper-the-Wingtips-was named the best Class III publication in Air Training Command. He also organized a program to give recognition to an outstanding young Mather airman each month.

The sergeant departed Mather in August 1961 for Mildenhall, England. He was assigned to the armed forces daily newspaper, STARS AND STRIPES on July 1 of this year. He works as a reporter in the London Bureau.

The STARS AND STRIPES, which has a circulation of 150,000 daily, serves American personnel in Europe, the United Kingdom, Africa and the Middle East. It is printed at Darmstadt, Germany.

The Oxford blouse for Teens can be found in red, blue, gray or white at Tots 'n Teens, Inc.

## Two Local Guard Members Taking 6-Month Training

Austin — Two Santa Anna men are now on six months active duty with the US Army as part of the special training they are to receive as members of the Texas National Guard's 36th Infantry Division, headquarters here announced today.

The two trainees include Privates Denny L. Densman and Dayton L. Jackson. They are currently undergoing rigorous basic training at Fort Polk, La. They are both members of Mortar Platoon Combat Support Company, 2d Battle Group, 142d Infantry.

After completion of basic training, where the men will be schooled in physical fitness, military courtesy, first aid and quality with the M-1 rifle, they will be trained for the job each will hold as a member of Santa Anna's unit of the Guard.

The men are taking part in the Guard's popular "Take Six" program which calls for six months active duty and fulfillment of the remainder of their military obligations by attending drills with their hometown unit.

## Savings Bond Sales Pass \$75 Million In Texas Drive

Savings bond sales in Texas for the first 6 months of 1962 totaled \$76,720,875 which represents 102.3% of the 75 million dollar Freedom Bond Drive goal for Texas. June bond sales in Texas were \$11,489,263.

These figures were reported recently by Mr. Robert I. Bowen Jr., Chairman of Coleman County Savings Bonds Committee. Mr. Bowen also reported that bond sales in Coleman County were \$152,927 for the first 6 months of the year. This figure represents 34% of the 1962 sales goal. Bond sales in June were \$23,852.

## Bollworm Control Recommendation

College Station — Is the cotton bollworm becoming tougher and more resistant to insecticides in Texas? Because some farmers had trouble controlling bollworms last year, it seems they might be developing a tolerance to commonly used chemicals.

But, according to test results contained in Progress Report 2236 of the Texas Agricultural Experiment Station, bollworms show no resistance to the insecticides used for their control.

Bollworm larva for the tests were collected over the state and reared on cotton leaves and an artificial diet. They were then treated with various insecticides at different dosages and the rate of kill recorded. The insecticides used were DDT, endrin, Sevin, toxaphene-

DDT (2 to 1 ratio), and Strobane-DDT (2 to 1 ratio).

The revival now in progress has been well attended at each service. On Sunday night a large crowd was present. Visitors were from Winchell, Bangs, Brownwood, Fort Worth, Concord, Mt View, Brooksmith, Woodville and Tulsa, Oklahoma. Rev. Brooks is bringing some fine messages at each service and again I say, everyone is welcome to come and worship with the people of the Trickham Union Church.

Mr. and Mrs. Harly Stearns and Willie and a grandson of Fort Worth spent the weekend at their home here. On Saturday night they, along with Mr. and Mrs. Johnny Richardson of Bangs were bedtime visitors of Mr. and Mrs. Eugene James.

Mr. Robert Earl Lancaster of Woodville is spending this week with his parents, Mr. and Mrs. Lige Lancaster.

Mr. and Mrs. Doyle McIver of Mansfield spent from Wednesday to Saturday with his parents, sister and brother, Mr. and Mrs. Grady McIver, Gayla and Terry. Terry returned home with them to visit a few days.

Rev. Lloyd Coker and wife of Cleburne visited with Mr. and Mrs. Marvin Whitley on Friday. They also called on others in the community briefly.

Mr. and Mrs. Oscar Boenicke attended the dedication of the new First Christian Church in Coleman on Sunday. Mrs. Boenicke is to enter the Memorial Hospital in Brownwood Wednesday morning where she will undergo foot surgery. We certainly wish her the best of luck.

Mr. and Mrs. Nick Powell and daughters, Niki and Linda, of Tulsa, Okla., spent a few days with Mr. and Mrs. Bond Featherston. The ladies are sisters and on Sunday all the children of the late Mr. and Mrs. Tom Lindley were present for a reunion, except a brother, Earl Lindley of Fort Stockton. Others present besides those mentioned above were Mr. and Mrs. Emzie Brown-

ing and Mr. and Mrs. Carell Watts, Carol Sue and Randy of Lampasas, Mr. and Mrs. Howard Cravens of Stonewall, Mr. and Mrs. Bill Bransford of Kingsland and Mrs. Blanche Sparks of Brownwood.

Donna Beth McSwain of Fort Worth is spending this week with her grandparents, Mr. and Mrs. J. H. Martin.

Mrs. Doris Stearns and son, Bob, of Brownwood and Mrs. Alice Wells and children, Barbara and Irvin of Coleman, visited Mr. and Mrs. Robert Stearns Sunday afternoon.

Mr. and Mrs. O. J. Martin were dinner guests of Mr. and Mrs. Joe Stacy on Sunday. They also got to visit with a grandson, Martin Stacy of Denton, who was at home for the weekend.

Mrs. Beula Kingston spent last Thursday in Brownwood with a niece, Mrs. Howard Jones and family. While there she visited

Mrs. Henderson Cole and called on Mrs. Sam Shield and Mr. Geo. Powell in Memorial Hospital and Mrs. George Powell in her home. She also visited Mrs. Annie Smith briefly. These people are old friends of Mrs. Kingston's.

Mrs. Jewell Stearns called on Mrs. Kingston late Sunday afternoon for a brief visit.

Sherrill James spent Sunday with Helen and Virginia Pinson. Sunday afternoon visitors with the girls and Mr. and Mrs. E. E. Pinson were S. D. Fellers and Tinker Dockery.

Billy Don Cupps spent Sunday with Billy Haynes. The two boys and Donnie York enjoyed swimming in the afternoon.

Mr. Rankin McIver and Sherrill visited Mrs. Lee Meeks in Bangs on Sunday.

At the closing of my news I have just heard that Mrs. Lea Dockery is critically ill. We are very sorry to report this.

State Capitol NEWS

Austin — Gov. Price Daniel and water conservation leaders are launching a campaign to win voter approval of Constitutional Amendment No. 4 on the general election ballot November 6.

Daniel's Statewide Water Conservation Committee will meet on September 10 to map the campaign. Other statewide organizations are being urged to join the effort.

This amendment would allow the Texas Water Development Board to use part of its \$100,000,000 water loan fund to pay for the added height needed to fully utilize damsites in Texas.

Story is this: When cities or the Federal government build reservoirs, there may not be enough demand for water in the area to build the dams to their full height. Water studies have indicated that in 20 to 50 years, the full yield of all presently-proposed reservoirs will be needed to supply the 21,000,000 Texans expected by the year 2010.

But if the dam and reservoir are built only to meet present or near-future needs, there will be greatly increased costs later on, since recreational and other developments will have been built around it. Cost could run two or three times as much, then, to buy the developed land and raise the dam.

In the long run, sponsors argue, the amendment would save Texans many millions. If it passes, the Development Board could pay for the added cost now and hold the water storage space until cities or industries in the area need the water and are willing to pay for it. Then the revenue can be used to pay off the long-term bonds the board issues.

Two samples of the need are in the news these days.

Lavon Reservoir near Dallas was built mainly for flood control by the U. S. Army Corps of Engineers. Now more space is needed for water supply purposes.

Today, however, the North Texas Municipal Water District, which supplies water to 10 cities in the area, will have to pay about 60 to 70 per cent more than it would have cost them in the first place.

Cooper Reservoir on the Sulphur River is being delayed, right now, because cities in the area just can't raise the money to build it to full size.

LEGISLATORS' LIBRARIAN LEAVING

Miss Doris Connerly, the 1919 University of Texas law graduate who has directed a reference library for State representatives in the Capitol for 34 years, won't be in the statehouse when the 58th Legislature meets next January.

She will retire on September 30. Miss Connerly became director of the Legislative Reference Library in 1928 when Dan Moody was governor.

She and the late Gov. Beauford Jester were former classmates and friends. However, she won't pick a favorite among the Texas governors she has worked with. But she does say that she considers herself fortunate to have served the terms of Coke Stevenson, Allan Shivers and Price Daniel.

"These men played an important role in Texas' growth and culture," she says. "Texas' legislative library was established by the Legislature in 1909 to furnish legislators with factual and historical material. But thousands of state

workers and citizens interested in state business have used its services, including the file on "State Statutes and Session Laws." These date back more than 150 years and relate to all 50 states in the union.

COURTS TAKE A HOLIDAY

Justices of the Texas Supreme Court and the Court of Criminal Appeals have shed their long black robes for the remainder of the summer. The massive doors to their elegant chambers in the Texas Supreme Court Building won't be opened again until they reconvene on October 1.

Both courts are "supreme courts" because of a unique judicial set-up that Texas shares with the State of Oklahoma and England. Civil cases appealed from lower courts come to the Supreme Court. Final hall of appeal for criminal cases is the Court of Criminal Appeals.

POPULATION ZOOMING

State Health Commissioner J. E. Peavy estimates that Texas' population passed the 10,000,000 mark Friday.

He based his prediction by computing births, deaths and migration since April, 1960.

At that time Texas had a population of 9,579,677. Then Texas registered 570,250 births and 176,500 deaths or a natural increase of 393,750.

Assuming that the 1950-1960 rate of migration has continued, 26,500 more people have moved into the state than out during the calculated period. That would give the state a total population of 9,999,927 on July 26.

Dr. Peavy figured Friday was "10 Million Day," since more than 400 people are added daily by the excess of births over deaths.

NATIONAL SEASHORE URGED

The Legislative Beach Study Committee, headed by Sen. Robert W. Baker of Houston, endorsed the creation of a nation seashore area on Padre Island during a meeting in Galveston. He urged immediate legislation to implement the recent law passed by the U. S. Senate.

Committee is composed of Sen. Culp/Krueger, El Campo; Sen. A. R. Schwartz, Galveston; Rep. Neal Caldwell, Alvin; Rep. Don Garrison, Houston; John Mehos of Galveston; Jack E. Walker of Baytown; George T. Camp of Beaumont; and C. T. Parker Jr. and W. B. Edwards of Houston.

They expected to meet again in the fall to prepare a report for the Legislature.

SAFETY PLAN LAUDED

Governor Daniel credited organizations such as the Junior Chambers of Commerce and the Texas Federation of Woman's Clubs with awakening public interest in the use of safety belts in automobiles.

He said that Texas Department of Public Safety statisticians have informed him that their accident reports show that 500 lives could have been saved in Texas traffic in 1961 alone if drivers and front-seat passengers, in particular, had been wearing seat belts.

This would have reduced that year's traffic toll by nearly one-fourth.

Jaycees and members of TFWC have been conducting safety belt campaigns.

WILSON CITES ODD CURES

Attorney General Wil Wilson noted the recent U. S. District Court's refusal to allow naturopaths to prevent the State of Texas from prosecuting them for practicing medicine without meeting qualifications of the

IT'S TIME TO ADJOURN. Seldon in modern times has there been so much indecision and confusion about what the

Medical Practices Act.

Wilson called the decision "a valuable tool with which the people of Texas can fight uneducated charlatans and quacks who prey on unfortunate people when they have troubles."

He cited state's evidence including:

One naturopath who treated patients by sending catnip, parsley and strawberry leaf tea through the mail without having seen the patients.

Another who claimed to be qualified to give psychiatric treatment by an extension course from the University of California. U. of C. denied any knowledge of such a course.

Another claimed to use an electronic machine to detect cancer, cataracts, arthritis and hardening of the arteries from urine specimens sent to him through the mail. Members of the department of electrical engineering at Texas A & M College found the machine incapable of detecting vibrations or diagnosing any form of illness.

James L. McNeese Jr., attorney for the naturopaths, said he would appeal the ruling against his clients to the U. S. Supreme Court.

The naturopaths have filed a \$1,000,000 slander suit against the attorney general, but no hearings have been held.

SHORT SNORTS

The U. S. Senate has confirmed two promotions to Major General: Thomas S. Bishop of Austin, Adjutant General of Texas, and Everett S. Simpson of Amarillo, Commanding General of the 36th National Guard Division.

State Treasurer Jesse James reported the deficit in the General Revenue Fund increased from \$28,351,556 to \$33,083,117 since July 9.

Rep. Charles N. Wilson of Trinity has asked C. Smith Ramsey of San Augustine, chairman of the Board of Regents of State Teachers Colleges, to explain the firing of Prof. R. C. Koeninger of Sam Houston State College.

Congress should do about this or that. For one thing, the Congress has never before been so bombarded with so many requests from the White House. During this session alone the President has made 285 requests, of which 20 have been granted.

Major proposals are floundering, many defeated or limping along in attempts to stay alive. The over-ambitious farm bill was killed. Medical social security, a political patent medicine prescription for the ills of the elderly, has been deposited in the legislative ash can. A new Department of Urban Affairs, designed to channel more federal funds into metropolitan areas, was decisively licked in the House early in the session.

The \$2 billion public works stand-by proposal, a major New Frontier idea, which would have granted the president the power to decide if and when he would order new projects initiated, is not likely to survive. And the same is true of the President's request for stand-by tax-cutting authority, to be used if as and when he might choose.

A communications satellite bill, which passed the House almost unanimously is bogged down in the Senate where a hard core of extreme liberals are opposing it, headed by Sen. Wayne Morse of Oregon. It's a good bill and is sure to pass the Senate, handsily if and when a vote is taken.

THE PRESIDENT is reported to be withholding judgement on an economy-priming tax cut this year. That comes in the wake of Administration efforts to raise taxes more than \$2 billion a year to help pay for its medicare proposal, which was defeated in the Senate by a two-vote margin. Faced with an estimated \$7 billion deficit during this fiscal year, it is difficult to justify a decrease in taxes unless the loss in revenue is offset by a retrenchment in spending. And every request that has come to Congress has called for more spending.

BOILED DOWN, there can be no doubt that the country would be better off if after passing the essentials, the Congress would pack up and go home; cool off, listen to the people for a few months, and then come back and start over again.

**Webb-Lightfoot Engagement Told**

Mr. and Mrs. Meadford Webb of Midland, announce the engagement of their daughter, Barbara, to Stanley Lightfoot, son of Rev. and Mrs. A. B. Lightfoot of Odessa. The couple plan to marry September 1.

Miss Webb is a May graduate of Texas Woman's University College of Nursing at Dallas. Mr. Lightfoot is a senior medical student at Southwestern Medical School in Dallas, where he was named the most outstanding medical student recently.

**Thomas W. Jackson Promoted by Coleman Telephone Co.**

Thomas Wesley Jackson, 1404 Austin, has been named to the post of senior combinationman with The Southwestern States Telephone Company in Coleman. He succeeds O. B. Kitchen who is retiring.

A native of Talpa, Jackson is the son of Mrs. T. C. Jackson and the late Mr. Jackson. Graduating from Coleman High School in 1947, he was employed with Martin Brick Co. from June 1 to December 30 of that same year.

Entering the U. S. Navy on January 8, 1948, Jackson served until December 17, 1951, when he was discharged with the rank of ET2.

He joined the telephone company in Coleman on January 10, 1952, as a central office repairman. He has held that post until his promotion on July 5 to senior combinationman.

Jackson is married to the former Ann Glasson, daughter of Mr. and Mrs. Glasson, Route 1, Santa Anna. The Jacksons have two children, Bret, 6, and Ally-

By LINDA NORRIS

SOME time ago Ruth Welcome and her zither debuted on Capitol and it was a happy experience for music fans. . . . She's back with her zither, traveling west this time and the results are just as exciting, just as rewarding. . . . You needn't be a zither fan to appreciate this album—you'll automatically be one on hearing it. . . . The songs she plays so skillfully are all well known as the west's greatest contribution to America's musical heritage.

She has included in her new album her interpretations of such western favorites as "Cimarron," "Bury Me Not on the Lone Prairie," "Home on the Range," "Mexicali Rose," "The Last Roundup" (one of the greatest), "High Noon," "Tumbling Tumbleweeds," "On Top of Old Smoky," "When It's Springtime in the Rockies," "San Antonio Rose," "Roll Along, Prairie Moon," and "Red River Valley" . . . This is a thrilling treat to hi-fi fans and an album that will hold a top spot in musical libraries throughout the country.

Faron Young has a real problem in his latest Capitol single, and he explains his plight in the wistfully titled "Over Lonely and Under Kissed."

Rev. ROBERT H. HARPER

AUGUST

AUGUSTUS CAESAR was rather hard on some of his subjects. And the month named for him is rather trying so far as temperature is concerned. But we find that it has been a great month in our history as a nation, for several great dates in our history fell in August, proof of the fact that the weather cannot crush the American spirit.

It was on August 7 that the War Department was established, in 1789, the Panama Canal was opened August 15, 1914, woman suffrage began on August 16, 1920, and Japan surrendered to the United States on August 14, 1945. So let us be up and doing

**JUST A THOUGHT:**

It is interesting to note that many of the greatest men in history were always quick to give someone else part of the credit for their successes in life.

this August. If our people have done so much in the hot August days of the past, how much should we be able to accomplish with air conditioning and all the devices for combatting heat!

Let us consider the fact that man, of all the animals, has been able to conquer his environment and live in every clime from the lands of ice and snow to the torrid places of earth.

I am now reminded of some lines on the cover of a scratch tablet I had at school—"Honor and shame from no condition rise, do well your part, there all the honor lies."

Opening lead: 3 of clubs.

East won the first trick with the ace of clubs and returned a small club. South took the trick with the king and led a small diamond to the ace on the board. South led the nine of spades and let it ride to lose to West's queen. West returned a small diamond. East went up with the jack and South won the trick with the king. South then drew the last two rounds of trumps, played three rounds of hearts, sluffing a club and a diamond. South next trumped a heart in own hand, led last spade from hand and gave up a club for two trick set.

**COMMENT:** West made one error in play. After taking the queen of spades trick, should have returned a heart instead of a small diamond.

This hand was played by a bridge group that has been meeting regularly for 12 years. Although not professionals, all of the players are above average. How would you have bid and played this hand?

**CHILDREN'S EYE ACCIDENTS**

No one is immune from eye accidents. Youngsters, especially boys, run a big risk of eye injury because of pointed sticks, BB guns, bows and arrows, fireworks, and the many pointed objects that boys either find or invent for their games.

It is the parent's responsibility to see that the toy fits the age of the child. There are many toys on the market today that were manufactured with the thought of eye safety in mind. These toys do not have sharp corners or instruments, yet they have a high value of entertainment.

If a child wears glasses, the parent should see to it that safety lenses are used. The National Eye Research Foundation has records that show vision has been saved by contact lenses. One such case is described as a child being hit in the eye by a pellet from a BB gun. Luckily, the child was wearing contact lenses. The pellet hit the lens and cracked it, but the eye was not injured.

It will be necessary for parents to be doubly careful in the days ahead. I refer, of course, to the vacation period. When school is out, children are especially active and require more supervision. Be sure that your child has plenty to keep him busy at play and around the house. . . . but be doubly careful that his playthings are safe for his vision.

# Adjutant General States Position On Guard Reduction

(Editors note: the following is a statement by Major General Thomas S. Bishop, State Adjutant General, concerning the proposed reduction of National Guard forces in America. This proposal is of vital concern to everyone in Texas and the nation. We urge you to write your Congressmen and Senators about the proposal.)

There are three fundamental areas of concern in every nation where that country seeks to establish or to maintain its Armed Forces. Of first importance is manpower; the second factor is enough equipment for the training and use of this manpower, and finally, enough facilities in which to house, store and maintain this equipment and to administer the personnel. When the American army expects these three basic elements to be provided it and its Reserve forces, the Army is not being selfish, extravagant nor unpatriotic. Rather, I think, the Army is seeking only to provide itself with the basic necessities pro-

vided any other military force, be it an Army or a Navy or an Air Force. With this in mind, let me illustrate some of the impact Secretary McNamara's reorganization proposals will have on the Texas Army National Guard. A dominant factor in this reorganization proposal is the Secretary's own statement that economy is not an objective of his plan. "The reduction plan does not involve any actions to save dollars and the plan will not involve cutting a single cent from the budget for Reserve Components", said Mr. McNamara in his address to the governors on July 2 in Hershey, Pa. So, this disposes at the outset the question that this reorganization is an economy measure. Mr. McNamara further states, "The reduction in paid drill spaces from 400,000 to 367,000 will not require a single Guardsman to get out of the program if he wants to stay in it," and the Secretary continued "this plan will raise the strength levels of 3% of all the National Guard units."

Apparently Mr. McNamara does not understand clearly the full impact of his plan. In Texas alone, the 36th Division will be directed to reduce its units to a 50% manning level. This means an overall net loss to this Division of 2145 men.

Next, let me again quote the Secretary from his speech to the Governors on the matter of equipment. "(This plan provides) increasing the amount of equipment in the hands of the Reserves and their capability to maintain it." It is hard to reconcile this statement with the fact that the Texas Army National Guard's allocation of funds for the procurement of such equipment has been reduced 81% for the coming fiscal year. Let me mention the final subject of discussion — facilities for training and administration. Mr. McNamara and the Defense Department have sought to create the impression throughout the country that the Federal Government alone is bearing all costs, incident to the support of the Army National Guard. This is not true, nationwide, nor is it fair to Texas citizens that their direct contribution to the defense effort goes unrecognized. The Fiscal year 1962 Federal appropriation for the administration and training of the Army National Guard was \$414,133,000. This is 0.9 per cent of the total Defense appropriation and 3.5 per cent of the appropriation to support the Army. The States direct matching contributions to the Defense Budget look like this for the same period: Over \$58 million appropriated by the States for administration and logistical support. Texas' portion of this sum is in excess of \$1.3 million. The training facilities, provided the Army National Guard by the States are valued in excess of \$667 million. The military facilities Texas is providing are valued in excess of \$40 million. In addition, the States provide armory equipment and furnishings, landscaping, and care, parking areas and access roads for armories. The States pay 100% of the cost of operation and maintenance of all Armory facilities. Another unrecognized contribution to the Defense effort by Texas is in the field of personnel administration. It is estimated \$65 is an average annual expenditure by the Federal Government to administer the personnel records of an Army Reservist. This cost is born by the State in the case of National Guardsmen; therefore, Texas is providing personnel services in an amount equivalent to \$1.4 million annually. This is another significant fact which the Secretary has failed to recognize. We, in the Texas Army Na-

## PUBLIC NOTICE Proposed CONSTITUTIONAL AMENDMENT NUMBER SEVEN ON THE BALLOT

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 6, 1962.  
SENATE JOINT RESOLUTION NO. 27 proposing an Amendment to Article III of the Constitution of the State of Texas by adding a new Section to be known as Section 62 and which shall empower the Legislature to provide for the temporary succession to public office so as to insure the continuity of governmental operations in periods of emergency resulting from disasters caused by enemy attack, providing for the proclamation and publication of this proposed amendment by the Governor.  
BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:  
Section 1. That Article III of the Constitution of the State of Texas is amended by adding thereto a new Section to be known as Section 62 and to read as follows:  
"Section 62. Continuity of State and Local Governmental Operations. The Legislature, in order to insure continuity of state and local governmental operations in periods of emergency resulting from disasters caused by enemy attack, shall have the power and the immediate duty to provide for prompt and temporary succession to the powers and duties of public officers, except members of the Legislature, of whatever character, and whether filled by election or appointment, the incumbents of which may become unavailable for carrying on the powers and duties of such officers. Provided, however, that Article I of

the Constitution of Texas, known as the "Bill of Rights", shall not be in any manner affected, amended, impaired, diminished, repealed or suspended hereby."  
Sec. 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of this state at an election to be held on the first Tuesday after the first Monday in November, 1962, at which election all ballots shall have printed thereon the following:  
"FOR the Constitutional Amendment empowering the Legislature to insure continuity of state and local governmental operations in periods of emergency resulting from disasters caused by enemy attack by providing for the prompt and temporary succession to the powers and duties of public officers, except members of the Legislature, of whatever character, the incumbents of which may become unavailable."

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 6, 1962.  
SENATE JOINT RESOLUTION NO. 28 proposing an Amendment to Article IX of the Constitution of the State of Texas to add a new Section to be known as Section 1-A which grants the Legislature certain zoning powers to the governing body of any county bordering on the Gulf of Mexico or the tidewater limits thereof.  
BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:  
Section 1. That Article IX of the Constitution of the State of Texas is amended by adding thereto a new Section, immediately following Section 1, to be known as Section 1-A which shall read as follows:  
"Section 1-A. The Legislature may authorize the governing body of any county bordering on the Gulf of Mexico or the tidewater limits thereof to regulate and restrict the speed, parking and travel of motor vehicles on beaches available to the public by virtue of public right and the littoral of such beaches."  
"Nothing in this amendment shall increase the rights of any riparian or littoral landowner with regard to beaches available to the public by virtue of public right or submerged

The Legislature may enact any laws not inconsistent with this Section which it may deem necessary to enforce and administer the provisions contained herein."  
"Should the Legislature enact legislation in anticipation of the adoption of this amendment, such legislation shall not be invalid by reason of its anticipatory character."  
Sec. 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of this state at an election to be held on the first Tuesday after the first Monday in November, 1962, at which election all ballots shall have printed thereon the following:  
"FOR the Constitutional Amendment authorizing the Legislature to delegate limited zoning powers to any county bordering on the Gulf of Mexico or the tidewater limits thereof."  
"AGAINST the Constitutional Amendment authorizing the Legislature to delegate limited zoning powers to any county bordering on the Gulf of Mexico or the tidewater limits thereof."  
Sec. 3. The Governor of Texas shall issue the necessary proclamation for the election and this Amendment shall be published in the manner and for the length of time as required by the Constitution and laws of this State.

## SEAT BELTS CAN SAVE MANY LIVES

Governor Price Daniel said today that activities of numerous Statewide organizations during recent months had brought about a major increase in public interest and public use of safety belts in automobiles. Governor Daniel said the Texas Federation of Woman's Clubs and Junior Chamber of Commerce Groups had been among the leaders in the seat belt campaign in Texas during the past year. "There is evidence that thousands of Texas drivers are beginning to realize the importance of protecting themselves at all times while in an automobile, especially if they are driving," the Governor said. "Seat belts have been made readily available throughout Texas, it is neither difficult nor expensive to have them installed, and they will definitely prevent chest and head injuries. Perhaps most important, they will keep the driver and passengers from being thrown from an overturning vehicle. The Governor said the "most urgent reason for the universal use of seat belts in Texas cars is outlined by Texas Department of Public Safety statisticians. They tell me their accident reports indicate that 500 lives could have been saved in Texas traffic in 1961 alone if drivers and front-seat passengers, in particular, had been wearing seat belts. This would have reduced the 1961 Texas traffic toll by nearly one-fourth. Seat Belts are much cheaper than hospital bills, car repair bills and human misery."

### 1962 Agriculture Show Emphasizes Wildlife at State Fair

Animals and plants of forest, plains, desert and seashore will take the spotlight in the Agriculture Show at the 1962 State Fair of Texas, October 6 through 21, in Dallas. The show will tell the complete story of Texas wildlife and game, with the benefits of re-creation and the responsibilities of conservation. Live specimens along with color photographs and moving pictures will illustrate the story. The show will set a precedent by presenting wildlife and conservation as material resources of Texas agriculture. Cooperating with the State Fair in creating the show are Texas A & M College and the Texas Game and Fish Commission.

## Hints Offered For Cutting Home Repair Bills

College Station - The maintenance of bathtub and shower enclosures is one of the major repair items in most homes, according to information released by the Texas Agricultural Experiment Station.

A new bulletin (MP-569) explains that upkeep expenses usually result from improper installation or from the failure of surfacing materials, grouting, or adhesives. Failure of materials results in severe leakage and thus rotting of the backing material, flooring and framing. Or undesirable material characteristics such as fading, staining, or brittleness may make it necessary to replace the material before its usefulness has been fully utilized.

Research for the bulletin was done by workers in the Department of Agricultural Engineering, Texas A&M College. Sixteen different materials and several different methods of construction were used to determine which procedure was best to use with a particular material.

The materials used were: enameled steel tile, copper tile, stainless steel tile, procelain-on-steel tile, 2 brands of plastic tile, ceramic tile, laminated thermosetting sheets, 2 brands of pre-finished wallboard, vinylized wall fabric, flexible rubber, plywood, hardboard, gypsum board, and mortar.

The enclosures were subjected to nine 3-minute shower cycles per day for three months. At the end of the tests, the enclosures were completely dismantled

and sectioned in three places through each wall to locate the source and cause of leakage or other failure that had damaged them.

The authors, B. R. Stewars, O. R. Kuuz and Price Hobgood, discuss the appearance, failures and characteristics of each material and give an evaluation of the procedures and methods used in the tests.

Persons interested in more information on materials and methods of shower and tub enclosure installation may obtain a copy of MP-569 by writing to the Agricultural Information Office, College Station, Texas, and requesting the publication by number.
