

State Capital NEWS

Austin — State-owned islands along the coast, and submerged lands in inland waters, now are available for lease for industrial purposes.

Leasing for industry was authorized last year by the Legislature. First step in the program was for Gov. Price Daniel to select the men to serve on a committee to advise the School Land Board on leasing procedures.

Daniel now has named J. Chrys Dougherty of Austin, an attorney, and Dr. Armstrong Price of Corpus Christi as the advisors.

Procedure is this — a person who wants to lease state land must first apply to the city government, if the land lies in a city limit, or to the country commissioners court. They publish notices and have public hearings. If they recommend the lease the three-man School Land Board then can consider it and set the amount of rent to be paid.

First application was from Port Aransas, which wants to lease part of Mustang Island for an airport.

SCHOOL BUS BARGAINS

Prices of school buses are falling. State Board of Control, which

buys buses for all the school districts on sealed bids, found that the price of 72-passenger buses has fallen by about \$1,200 this spring.

May purchases averaged \$5,430, while the 1961 average was \$6,618. Same sort of declines were noted in prices of smaller buses.

LEASES GO UP

But there was a note on higher prices, too.

For many years the University of Texas lands, in West Texas have been leased for oil and gas with only one-eighth royalty reserved for the University of Texas and Texas A & M College, which share in the proceeds.

This year, the royalty was raised to one-sixth, and only 9 of 101 tracts offered for lease were passed over by the oil company bidders who bought them at an auction sale. Cash bonuses averaged \$38.64 an acre. This is lower than at some sales in the past. But if they find oil or gas, the University fund will get more of it due to the higher royalty fees.

IMPACT STILL DRY

That long-expected "oasis" in West Texas will stay dry awhile longer.

It is the town of Impact, in the

edge of bone-dry Abilene, which incorporated and voted itself wet in 1961.

Atty. Gen. Will Wilson and the City of Abilene brought suit to declare the incorporation invalid. But District Judge J. R. Black held that the incorporation had been validated by the Legislature. It was done in a validating act passed mainly for the City of Plano, which just happened to apply to Impact, also.

However, State Liquor Administrator Coke Stephenson Jr. announced that he will not grant a package store permit which has been pending for months. He'll wait to see what the higher courts say about Judge Black's ruling, since the case will be carried to the Texas Supreme Court.

So there won't be any legal liquor in Taylor County for many more months.

TEXTBOOK STORM

The Special House of Representatives committee which had some stormy hearings wound up its business with an internal storm.

Rep. W. T. Dungan of McKinney held the final hearing all by himself in Dallas. Other four members boycotted the meeting, then voted to expunge it from the record.

Each member will write his own report to the House on the procedures by which textbooks are selected.

During the stormy life, committee heard one member called a "card carrying communist" by a lady in Amarillo. He filed suit against her, and apparently the folks back home didn't believe her, because he won re-nomination.

PARKS FOLDER

An attractive new folder describing for tourists the facilities and location of state parks is being made available by the State Parks Board.

A fishing scene at Lake Brownwood State Park is the colorful cover for the booklet.

RETIRING JUDGES

The judicial retirement system was designed so judges could leave the bench for a few years of rest before their deaths.

Statistics just worked up on the operation of the system by State Auditor C. H. Cavness reveals that there are 219 district and appellate judges paying into the retirement fund, and 31 who are on retirement.

During the last state fiscal year, five retired judges died and 11 retired. Of 62 judges who have retired, 31 had died as of the date of the audit.

But the retirement system may not have succeeded in keeping judges on the bench. During the

Rev. ROBERT H. HARPER
McGUFFEY'S READERS

IT HAD been my intention to write at some time about a group of books I had loved from childhood—now a controversy in some place beyond my horizon about McGuffey's Readers has stirred my typewriter keys.

I do not pretend to any great knowledge of pedagogy, but 'tis hard for me to think the way for a child to learn is to memorize a lesson and then declaim it. One day I pointed to a certain word in a small boy's perfect declamation and asked him what it was and he did not know. I'll admit that the boy finally learned

JUST A THOUGHT

The truth that right is right and wrong is wrong, is too often shaded with shadows these days. One can not be a little wrong or a little right about anything and live the good life.

to read, and that there is something about it that I don't understand. But I still believe I learned faster, beginning with "The cat is on the mat."

Still though I lay no great claim to knowledge of pedagogy, I record my gratitude that lessons of life that I learned from McGuffey's Readers have remained with me to the present. With McGuffey right is right and wrong is wrong and the right has a way of vindicating itself.

McGuffey has quite a literature to draw upon, but if fault be found with his choice, I submit that any literature that tends to make boys and girls better is worthwhile. Anyway, I'm satisfied.

year, 10 left the bench without retiring, to go into private law practices.

LEGAL RULINGS

Atty. Gen. Will Wilson answered a variety of question this week.

He told Education Commissioner J. W. Edgar that it is not legal for a school district to buy gasoline and oil from a consignee who is a member of the school board, even if he got the contract as low bidder on sealed bids.

He told County Atty. John Lawhon of Denton that Jim George, who won the Democratic nomination for two justice of the peace seats, can't hold them both, and that he vacated the office he held when he became a candidate for the other place. George's name cannot appear on the general election ballot for both jobs.

He told County Atty. Bill F. Griffin Jr. of Center that trucks owned by a farm corporation and used exclusively for hauling poultry and farm products are entitled to the half-price farm license fee.

He told County Atty. Mack Wallace of Athens that members

of the national guard are not exempt from ad valorem taxes levied against their property for road purposes. The exemption for militia members is from the "road tax" of \$3 per man which used to be levied against those who did not put in a day's work on the county roads.

MORE OIL SUITS

More and more lawsuits are being filed out of the East Texas Field crooked hole investigation.

Latest was a \$13,000,000 suit filed by the attorney general against operators of a lease which he contends had been produced through a crooked hole since 1949.

There had been indications that the "deviation" practices whereby wells wound up under somebody else's property had been going on quite awhile. But this is the first indication that it was happening that far back.

EFFICIENCY STUDY

Request for an efficiency study of the Texas Railroad Commission won approval from the executive committee of the Texas Research League. So that big agency will be looked into thoroughly.

Oilmen had complained in the past that there was too much red tape about Railroad Commission operations.

Chairman William J. Murray Jr. had defended his agency on that point, saying that many requirements have had to be added to make sure oil was produced legally and properly.

Anyway, the organizational experts of the Research League will look the Commission over, and advise next spring what legislative changes might be made to make it work better.

SALES BETTER

Total retail sales in Texas in May rose to 3 per cent above the

April level, after the UT Bureau of Business Research made its seasonal adjustments.

Durable goods sales were up 7 per cent and auto sales were up 16 per cent above April and 24 per cent above May of 1961.

Furniture and household appliances apparently reflected a bumper crop of weddings. They usually rise about 14 per cent in May over April. This year they rose 22 per cent.

Farm implements, hardware and building materials all contributed to the May boom in business.

Nationally, there was a 1 per cent decline in retail sales compared to the Texas rise of 3 per cent.

Issuance of building permits in urban areas showed a 2 per cent increase over May, 1961, and 14 per cent over April.

It's Time For... EYE CARE

Dr. Newton K. Wesley

WHAT IS "OLD AGE" VISION?

As we become older our body has less movement. For example, the bones in the body become harder. The eye begins to change around 25 to 30 years of age. One of the important changes is the hardening of the crystalline lens. This hardening process, as in the case of bones, continues at all levels. The effect is realized between the ages of 40 and 45. This results in the lens not changing its shape to focus for objects that are closer, and we consider this to be "old age" vision. Our eyes don't seem to focus for print that is near to us—we have difficulty reading a phone book. As Abe Lincoln said, "My arms aren't long enough!"

Wesley

The focusing mechanism of the eye changes the shape of the crystalline lens much like the changing of the bellows in a camera. It is doing this continually depending upon the clearness or the blurriness of the image on the retina, which is considered the back of the eye.

The average person does not think of the fact that the eye is constantly changing focus for all points. Your eyes accommodate themselves to near or far objects—you don't have to physically adjust them as you would a camera, for example.

Remember, this condition is a natural and normal process and does not indicate an unhealthy eye. In most cases, all that is required is to be fitted with glasses or contact lenses to correct this condition. The National Eye Research Foundation recommends an eye examination every six months.

Now why would Martha put laundry in the freezer?

Flameless electric living is a way of life, nowadays. Sometimes this wonderful way of life in the world of women brings about strange sights—sights that are incomprehensible to the mere man. Often, a man sees things more marvelous, even, than laundry in the freezer. That's because Martha . . . and all the Marthas served by West Texas Utilities Company . . . knows better than anyone (even us) the many ways to live better, electrically.

All right, Mister—why does she put laundry in the freezer? Ask the inventor; she will also show you other ways her family uses flameless electricity for a better life.

HEAR

A VITAL QUESTION

"What must I do to be saved?" is a vital question that finds its way into the heart of every person sometime in life. It is a question of eternal importance, and thus demands a thoughtful answer. Many answers have been given. Each religious group has its own code it asks men to follow. In view of these varied answers, many have come to say, "Take your choice", or, "One is as good as another". BUT THINK! Did Jesus die for just "any way" of salvation? Is the Will He brought from Heaven to be set aside for the "choice" of men? Can the "ways" as preached by men, varied and contradictory as they are, ALL be "The Way". Jesus said he is? (John 14:6). There can be only ONE answer given to this great question, and that is the answer found in the Bible — God's word to man. It is not our privilege to set the way; it is only our duty to seek the salvation Jesus gave.

July Plentiful Foods Ideal For Hot-Weather Fare

College Station.—There's delightfully cool summer eating in store for Texas homemakers who shop the "plentiful foods" route this July, suggests the Texas Agricultural Extension Service.

The July list features tender turkey, exceptional economical and ideal for warm-weather sandwiches, salads, or patio barbecues. Turkeys in storage are more than 40 percent higher than a year ago. Live turkey prices have been running the lowest since 1942.

Then, consider these additional menu sparklers: milk and all dairy foods; a galaxy of summer vegetables from local and commercial gardens; fresh, juicy peaches; a bonanza of cantaloupes; and frozen, refreshing orange juice.

All are on the July list of plentiful foods, as determined by the Agricultural Marketing Service in cooperation with producers and the food trade. Supplies of each exceed normal trade needs.

Consumers who buy and serve plentiful and in-season foods, often, stand to take advantage of lower prices, broader selection

for quality, special retail promotions and ready availability throughout the week.

TIME TO FIGHT CATTLE GRUBS

Cattle grubs may be controlled by conventional spray applications or pour-on or backline treatment, Gene Dunbar, assistant county agent, said today. All grub insecticides should be used between the time heel fly activities cease in the spring and before the grubs appear in the backs of the animals. In this area the systemics may be used between now and August 1.

Co-ral and Ruelene may be used as sprays or as pour-on insecticides, and co-ral may also be used as a dip. Ronnel (Trolene) is a systemic and may be fed to the animals in the normal feeding operations. These materials should be used only on beef animals or dry dairy cows. For detailed information on the mixing and application rates of these insecticides, study label instructions. Do not treat animals after August 1 as the body cannot absorb the grubs when they are near maturity.

A well-organized area-wide cattle grub control program gives the best results. By regular and effective treatment of all cattle

in an area or county, the amount of reinfection and spring and summer annoyance from heel flies will be reduced.

VIOLATORS FIND WARDENS ON THE ALERT

Austin.—Game wardens still get around. And they usually show up when you least expect them. A number of surprised fishermen found this out during the month of May when they came face to face with wardens who wanted to see their licenses. Undoubtedly, several thousand people over the state were visited by wardens during a day on the lake. However, 200 of them who didn't have licenses and had to pay fines probably will remember the occasion longer than the others.

Other than 58 arrests made for the sale of fish in retail outlets without the proper licenses, law violations remained at a lull in May.

Altogether 346 cases were filed. Of these, 31 were dismissed, 3 served time in jail, 2 appealed their cases, one was found not guilty and one was suspended. Fines and court costs amounted to \$5,952.35.

Mrs. Joe Thompson of New Port Beach, Calif., is here visiting Mrs. Ruby Markland.

Lonell Shields, Hugh L. Thate Marry

Miss Mary Lonell Shields, daughter of Mr. and Mrs. Fred Shields of Santa Anna, became the bride of Mr. Hugh Lynn Thate at the Shields home here Saturday, June 23, at 8:00 p. m. Mr. Thate is the son of Mrs. Jesse Thate of Coleman.

Rev. James Ford read the double ring ceremony. Miss Maureen Drake was maid of honor. Mr. Joe Wright was

best man. Bobby Lynn Shields, nephew of the bride, served as usher and candle lighter.

Given in marriage by her brother, Robert Shields, the bride wore a white street length dress of pleated nylon jersey with a shallow scoop neckline. She wore white short gloves and carried a white Bible topped with a white and ice blue carnation. The Bible belongs to her niece, Susie Shields.

Her head was topped with a short white veiled bow-type hat. The bride carried out the tradition of "something old, something new, something borrowed and something blue."

The bride's mother wore a navy blue orlon dress with black accessories, with a white and ice blue carnation. The groom's mother wore a navy blue dress with black accessories and a white and ice blue carnation.

A reception was held in the home immediately following the ceremony. Hostesses were Mrs. Wanda Daniel and Mrs. Joe Wright, sister of the bride. Mrs. Robert Shields, sister-in-law of the bride, presided at the register book.

A four-tiered wedding cake, topped with a miniature bride and groom, was served with pineapple and sherbet punch.

After a short wedding trip the couple are making their home at Lovington, N. M., where the groom is employed. The bride was a nurse in the Santa Anna Hospital before her marriage.

Lake Outing For Sorority Meeting

Members of the Delta Omicron Sorority of Santa Anna, their families and guests convened at Kirkland Docks on Lake Brownwood for their June Summer Social. Fishing, swimming, skiing and boat riding began at 1:00 p. m. Friday, June 20. Friday night the hostesses, Joyce England, Sylvia Herring, Claudia Rutherford, Wanda Campbell, Lorene Rice and Sybil Dean, served barbecued mutton to the 80 guests present. Beds were furnished for those desiring to stay the night.

A breakfast of scrambled eggs with bacon, toast and coffee was served early Saturday morning, after which fishing, swimming, skiing and boat riding were enjoyed again. Fish was served for the noon and evening meals.

Sunday morning breakfast was again prepared for those remaining for another day of outing.

Rev. Frank Haynes, Baptist pastor, preached both the morning and evening worship services on Sunday. He and wife were dinner guests of Mr. and Mrs. Martin and called in several homes in the community in the

afternoon. There were eight MYF members present when the group met on Sunday night.

Mr. and Mrs. Willie McClatchey returned home Saturday night, after a 12-day visit with Chaplain Pat McClatchey and family in Stouxtown, Iowa. While there Pat took them to Minnesota, where they enjoyed fishing for a couple of days. On their return home Mr. and Mrs. McClatchey flew for the first time and she says it was the most wonderful

thing she had ever experienced in her life. The past Sunday was their 45th wedding anniversary and they feel like their trip was a real nice celebration. Our best wishes go to the McClatcheys for the years to come and may they enjoy many more anniversaries together.

Mr. and Mrs. Ellie Grant of Fort Worth visited briefly with Mr. and Mrs. Robert Stearns on Sunday morning. Dinner guests were Mr. Gordon Stearns of Brooksmith and Mrs. Ray Wells and children of Coleman.

Mr. Elvis Ray Cozart of Angleton spent Friday night with Mr. and Mrs. Fred Haynes, Jerry and Billy.

Mr. and Mrs. Willie Norman Calcote of Birmingham, Ala., spent the weekend here with his parents, Mr. and Mrs. Leston Cozart. Willie grew up at Trickham, so many will remember him and be happy to hear of his recent marriage. The couple were on their honeymoon and had been in Arizona vacationing. Mrs. Minnie Craig spent sev-

eral days in Dowell, Ill., visiting a sister, Mr. and Mrs. Lucian Lenzini and family. Mrs. Craig reports her trip to have been wonderful as she rode a bus and train and saw so many beautiful scenes.

Visitors with Mrs. Beula Kingston Sunday were Mrs. Zona Stacy, Mrs. Tavy Ford and Mrs. Clara Cupps.

We received about 3 inches of rain at our home. Reports indicate more fell in some areas and less in others. Several still need heavy rains for their tanks.

One group of dresses reduced 1/4 and more for the holiday special occasions. Sizes, toddlers thru subteens at Tots 'n Teens, Inc.

Mr. and Mrs. Harold Mills and daughter of Olton, Texas, are here visiting his parents, Mr. and Mrs. Buck Mills and her mother, Mrs. C. A. Crump in Coleman.

LONGHORN JEANS are sanforized plus wash and wear. See them at Tots 'n Teens, Coleman.

O. S. (Slim) Allen returned home Tuesday of last week from Washington, D. C., where he attended a Boiler Operator's Conference for two weeks. The Conference was held to attempt to find a more economical way to operate boiler plants and utility

systems. "Slim" said he enjoyed the trip and had a chance to do some sightseeing while there, as well as seeing one major league ball game.
