THE
AMERICAN
WAY

DID YOU KNOW?

By Tom Anderson

(Editor's Note: Thos. J. Anderson, Publisher of Farm and Ranch and five other farm publications, is the most quoted farm editor in America.)

Did you know that when candidate Kennedy told us and the world that 17 million Americans go to bed hungry every night he was including those on Metrecal? That Senator Kennedy's daddy's wealth, reputed to be in the vicinity of \$400 million (made off liquor and other "human values,") would buy \$1 dinners for all those 17 million Americans every night for three solid weeks? Did it ever occur to you that a true humanitarian gives away his own money, not somebody else's?

Did you know that President Kennedy, whose Rooseveltian heart bleeds for the working man, like F. D. R., never held a non-political job in his life? That the Truman Administration spent 17 times more in price supports for peanuts than on missiles?

Did you know that the "boozefund" of the State and Defense Departments has been costing us \$2 million a year? That Presidents get \$50,000 a year from us for "entertainment," much of which is for liquor? That we have spent 12 million dollars on Rama Road — a jungle road in Nicaragua?

Did you know that a Senator testified that the U. S. Navy paid \$21.10 each for lamp sockets which retail for 25c? That the U. S. Army bought wrench sets for \$29 which sell in hardware stores for \$9.98? That the U. S. Air Force paid \$9.65 each for drill brushings which should sell for not more than 50c?

Did you know that our population has more than doubled since 1900? And that federal spending is more than 140 times what it was then? That it costs an average of \$171,000 per member to run Congress each year? Expressed in terms of "human values," is your congressman worth it?

Did you know that the only way we can end the cold war is to win it? That the Russian definition of coexistence is slavery? That while Russia's twin astronauts were circling the world, union workers at our missile base at Huntsville, Alabama were out on strike?

Did you know that 26 illegal secondary boycotts have delayed construction at vital missile installations? And that labor unions are on a new drive to legalize "secondary boycott" picketing?

Did you know that our debt is larger than all of the nations of the world combined? But that we give foreign aid to 3/4 of the world's 104 nations? That we have more than 10,000 agreements mostly secret, with foreign countries? That our State Department wants the U. S. to channel all its foreign aid through the United Nations? The only thing we should give through the U. N. is our resignation.

Did you know that the plastic bag containing carrots costs as much as the farmer got for the carrots?

Your Part

Whether you knew all of the above or not, what do you plan to do about it? If America can be saved from Socialism, insolvency, and surrender it can be saved only by a grassroots revolution — the same way it was founded. What can you do? You can stand up and be counted — else you'll soon be counted out. You can believe in your God and your country and in yourself, and in that order. Then you can go to work for God and country. Remember, "It never troubles the wolf how many the sheep may be."

SINGING CONVENTION

The McCullough County Singing Convention will meet at 2:00 p. m. Sunday in the Baptist Church at Camp San Saba. Everyone is cordially invited to attend.

Mr. and Mrs. Pete Rutherford, Joe and Larry and Mr. and Mrs. O. B. Rutherford took their son, Don to Brownwood Sunday afternoon, where he will be a freshman ministerial student in Howard Payne College. Don is a 1962 graduate of Santa Anna High School.

Ether was first used as an anesthetic in 1842.

Romulus was the founder of Rome.

Mountaineers To Host Class AA Dublin Friday

The Mountaineers will play host to the Dublin Lions on the local field Friday evening, beginning at 8:00 p. m. This will be the third non-conference game for both teams. Prices of admission will be \$1.00 for adults and 25 cents for students.

The Mountaineers looked some better Friday night in their 23-0 win over Cross Plains, than they did the week before. However, they made lots of mistakes in the Cross Plains game and it is hoped they will be able to overcome some of them this week.

The Mountaineers have a 1-1 record thus far and have no real reason to be over-confident for this encounter. Just because the Lions have taken two beatings from District 10-A teams is no reason that an over-confident Mountaineer team can and will do the same.

Dublin lost their first game to Early 10-0 and then last week dropped their second game to Goldthwaite 30-12. Being a Class AA team, this makes both Early and Goldthwaite look like powers in District 10-A.

Lots of local folks planned to attend the Baird game but were rained out. This would be a good time to make up for the game and have a good crowd out to cheer the Mountaineers on.

Bids Asked On 3 Flood Control Dams On Jim Ned

Invitations for Bids to build conservation floodwater retarding structures, Sites 9, 10, and 22 Jim Ned Creek were issued by the State Soil Conservation Service Office in Temple last week. The three structures are located on the Zeno Hemphill and Mrs. Carrie Morris Ranch approximately 18 miles northwest of Coleman. The contract for the job will amount to placement of approximately 316,000 cubic yards of compacted earth fill, 116,000 cubic yards of compacted earth fill, 116,000 cubic yards of concrete and 7,168 pounds of steel bar reinforcement will be used in the three principal spillways. Approximately 692 feet of 24" spun concrete pipe will also be needed for the principal spillways. Salvaging and placement of topsoil in the emergency spillways will amount to about 51,000 square yards. Approximately 14,300 feet of net wire fencing will be required to go around the dams and emergency spillways to protect grass cover that will be established as a part of the project.

Invitations for bids will be opened at 2:00 p. m., room 401 First National Bank Building, Temple. Construction is scheduled to begin within 20 days from the date of award and shall be completed within 293 calendar days.

The three structures in this invitation are among the 43 planned flood water retarding structures being built on the Jim Ned Creek Watershed for flood protection.

Prison Rodeo More Than Entertainment For Inmates

Huntsville — The annual Texas Prison Rodeo is more than just an entertainment feature for the 12,000 inmates of the Texas Department of Corrections.

While they look forward to each Sunday in October with a great deal of anticipation, they have another good reason for boosting the world's wildest rodeo.

They know that net proceeds from ticket sales go into their own fund which makes it possible for the prison to maintain an accelerated rehabilitation program.

This includes spiritual, educational, recreational and medical services not furnished by the state. These services are designed to help inmates prepare themselves for the future — the day when they may be either paroled or discharged from prison.

This year's rodeo, the 31st annual event, will headline at least five of the nation's top entertainment and sports stars.

GO TO CHURCH SUNDAY

Mukewater Creek To Get Two More Flood Controls

Invitation for Bids to build Sites 2 and 3, Mukewater Creek Watershed some 10 to 12 miles southeast of Santa Anna, were sent to prospective bidders Monday of this week by the State Office of the Soil Conservation Service in Temple, according to E. J. Hughes, Area Conservationist at Brownwood. Bids for the awarding of the contract will be opened at 2:00 p. m. October 15. Principal items involved in the building of the two floodwater retarding structures will include excavation and placement of approximately 150,000 cubic yards of earth fill material; 78 cubic yards of reinforced concrete and 328 linear feet of concrete pipe will be used in the principal spillways. Topsoil will be salvaged and placed in the emergency spillways to make possible the growing of grass on an estimated 35,000 square yards and wire fence to protect the dams and emergency spillways will amount to approximately 15,000 linear feet.

Ralph W. White, Project Construction Engineer with the Soil Conservation Service, headquartered at Brownwood, will supervise construction of the contracted work. The project is due to get underway within 20 days from the date of award and all work shall be completed within 144 calendar days. Invitations to bid for this contract may be obtained from H. R. Baker, State Administrative Officer of the Soil Conservation Service, P. O. Box 648, Temple, Service, P. O. Box 648, Temple, Box 607, Brownwood, Texas, Hughes said.

Mrs. W. H. Burden Buried Sunday

Funeral services for Mrs. W. H. Burden, 72, were held in the Northside Church of Christ at 2:30 p. m. Sunday. Burial was in the Santa Anna Cemetery, under the direction of Hosch Funeral Home. Jim Rucker, minister, officiated, assisted by a Rev. Lewis of Eastland.

Mrs. Burden died in the Santa Anna Hospital at 7:30 a. m. Saturday, after a long illness. She had been in the hospital for only a short time on this occasion, but had been very ill several times previously and had been in the hospital several times.

Myrtle Ethel Evans was born February 22, 1890 in Williamson County, Texas. She came with her family to Santa Anna 53 years ago and has made her home here since. She was married to W. H. Burden in Santa Anna December 5, 1910. She was a member of the Church of Christ.

She is survived by her husband; three sons, Alvin Burden of Santa Anna, Evans Burden of Elgin and W. C. (Bill) Burden of Lubbock; one daughter, Mrs. John Clark of Moberly, Missouri; one brother, G. L. Evans of San Angelo; and two sisters, Mrs. Frances Everett and Mrs. George Stewardson, both of Santa Anna. Also surviving are 11 grandchildren, three great-grandchildren and a number of nieces and nephews.

Pallbearers were F. B. Hill, Vernon Parker, Darwin Watson, Jr., A. L. Evans, Milford Taft and Troy Sanford.

School Bus Drivers To Get Safety Awards

School bus drivers in Texas who have safe driving records are to receive awards from the Texas Safety Association.

J. O. Musick, General Manager of the Texas Safety Association, announced the awards will be based on records achieved during the 1961-62 school year.

School bus drivers must have driven without an accident during the period to qualify for the TSA award.

Musick said applications for the recognition awards are being accepted now.

Last year there were 7,918 bus routes under the state school system, transporting 423,473 pupils.

The school bus drivers chafed up the impressive total mileage of 86,236,325 miles.

Juniors Defeated Tuesday Night

The Junior Mountaineers suffered a 6-0 defeat Tuesday night at the hand of the Junior Early Longhorns. They now have a 1-1 win, as they won over Blanket last week.

It was somewhat of an upset and a surprise that the local youths lost. Early has yet to make a first down this year and this game was no exception. They were operating with the ball at about mid-field and suddenly one of their boys broke into the clear and went all the way.

The local boys moved all over the field, but just could not get over the goal line. One time they made a TD but had it called back on an infraction. The local boys outplayed the Early boys considerably.

W. N. Culpepper Killed Instantly Wed. Morning

W. N. Culpepper, 53, was killed instantly at 5:50 a. m. Wednesday, Sept. 19, in a one car accident 5 miles north of Coleman on U. S. Highway 84. He was the son of Mrs. J. H. Branion of Santa Anna.

Culpepper was traveling toward Coleman in a GMC pickup and apparently dozed just as he topped a hill and met a large truck. The pickup veered to the right of the road and turned over, throwing him out.

He was taken to the Stevens Funeral Home in Coleman, where services are pending.

The accident was investigated by the Texas Highway Patrol.

Armyworms Being Reported in Many County Areas

Fall armyworms, which develop best during cool wet weather, are being reported in many areas of the state according to C. F. Garner and W. H. Newton, entomologists, Texas Agricultural Extension Service.

The worms which feed primarily on pastures, lawns and native grasses during this part of the year, may later become a problem on small grains, say the specialists. They probably cause more economic damage to fall planted small grain, grain sorghum, and Bermuda grass in Texas than to any other crops, they add.

The worms eat the forage and tender stems of the plants they attack and cause whitish patches of grain or pastures which are the first signs that the worms are present.

The adult moths are active in the late evening and at night and females usually lay eggs in masses of 150 on blades of grass or on the eaves of houses since they are attracted to light.

The young larvae hatch in 2 to 4 days but the young larvae are usually not noticed until they are 1 to 1 1/2 inches long. Larvae feed for about 2 to 3 weeks and pupate in the ground, completing a life cycle in about one month.

For best control of the fall armyworms, insecticides should be applied at the first sign of an outbreak and when the worms are small. For information on their control, the entomologists suggest a visit with the local county agent. Copies of MP-339, "Texas Guide for Controlling Insects on Sorghum, Small Grain, Corn and Grasses" are available from the agent or the Agricultural Information Office, College Station, Texas.

Public Urged To Practice Safety In School Safety Week

Texans were urged today to think, talk and practice safety in observance of School Safety Week, September 17-23.

J. O. Musick, General Manager of the Texas Safety Association, has challenged Texans to make this week an accident-free week for our state's school children.

He provided a think, talk and practice formula to achieve this goal.

Musick said, "Take five minutes extra a day — to THINK for school children — they sometimes forget their safety lessons; TALK safety to your family, neighbors, friends and school officials; and PRACTICE safety at home and in your driving, especially around schools."

Lions To Hold Light Bulb Sale Thursday, Oct. 18

The Santa Anna Lions Club will hold their regular light bulb sale on Thursday, October 18. Members of the club will canvas the entire town during the day. All are urged to purchase light bulbs from the Lions if you are going to need them anytime in the near future.

Lion President Roy Horne appointed Elgean Harris and Allyn Gill to head two teams to see which group could sell the most bulbs.

The teams are as follows: Gill's Team, W. F. Barnes, W. B. Griffin, Fred Murrell, Dr. John Murrell, Norman Hosch, Chester Galloway, Larry Buchanan, Harry Crews, J. L. Boggus, Dr. J. W. Kegley, M. R. Simmons, D. H. Moore, W. H. Thate and Thomas Wristen.

Harris Team: Roy Horne, W. R. Mulroy, Cullen U. Perry, Kenneth Bowker, O. L. Cheaney, Raymond Jones, John C. Gregg, Doc Barkley, Bill Cupps, Walter Holt, Lee Strother, R. C. Smith, A. D. Pettit and Roy Matthews.

Santa Anna 4-H Club Organized

The Santa Anna 4-H Club was organized Thursday evening of last week with 10 members being present for the first meeting. Officers were elected and leaders were selected.

Officers are: President, Dickie Horner; Vice President, Jerry Horner; Council Delegate, Darlyne Jones; Reporter, Eddie Jones; Secretary, Nina Stiles; Recreation Leader, Edward Anderson; 4-H Leaders, Mr. and Mrs. Richard Horner and Rev. and Mrs. Raymond Jones.

Others present for the meeting were: Phillip Bates, Mike Cupps, Wade Jones and Eubba Jones.

The meeting will be held each second Thursday evening in the Community Room of the Santa Anna National Bank. All interested persons are invited to attend the meetings.

Record Enrollment Expected at Howard Payne College

Brownwood — The largest number of advanced dormitory reservations in the history of the school indicates a possible record enrollment for Howard Payne College as the school prepares to open its doors for classes on Sept. 24.

Whether or not the record number of 1207 students enrolled last fall will be surpassed will be known next week when students register for the fall term.

The women's dormitory and both men's residence halls are all booked solid with reservations, and provisions are being made to house overflow students in the women's dormitory — at least temporarily — in the laundry room of the facility. Additional men students will be quartered in the infirmary, according to Mrs. E. N. Elsey, dean of students.

Brother of Local Woman Buried Wed.

Alfred L. Mitchell, 80 of Coleman, a brother of Mrs. S. E. Benton, died in the Coleman Hospital at 9:08 p. m. Monday. He was a retired brick layer and had been a resident of Coleman just about all his life.

He was born in Bosque County, Texas, Sept. 10, 1882 and came to Coleman at the age of two months. He was a member of the Baptist Church.

He is survived by three sons, three daughters and five sisters, including Mrs. Benton.

Services were held at the Stevens Memorial Chapel in Coleman at 10:00 a. m. Wednesday, with the Rev. Paul Smith officiating. Burial was in the Atoka Cemetery, under the direction of Stevens Funeral Home of Coleman. Nephews were pallbearers.

Mr. and Mrs. Paul Wilburn, Carolyn, Nancy and Warren, of Big Lake, spent the weekend with Mr. and Mrs. Cliff Herndon on Sunday Mr. and Mrs. Wilburn took Carolyn to Austin to enroll in the University of Texas. Nancy and Warren remained for a longer visit.

Mrs. H. D. Speck spent last week in Dallas with her son, Mr. and Mrs. Adrian Speck and daughter, Melanie Ann.

POLIO VACCINE POSTPONED

After everything was ready to administer the Sabin Oral Polio Vaccine to everyone in the county, suddenly last Friday afternoon it was decided the program would be postponed for a few days, due to some adults taking polio in Canada. Apparently, there was no connection with any American made vaccine but in order to be sure the program had to be postponed.

It seems now that the program will be continued and will possibly be administered in this area about September 30. However, this date is a guess at this time and it could be given on a number of other dates.

Plans are definitely being made for the vaccine to be given here and as soon as the dates are announced, we will bring you the information.

Local Merchants Fall Program Begins Oct. 1st

A meeting of local merchants was held early this week to decide on their annual Fall and Christmas Program. The group decided upon the same type program has been held during recent years and the program will get underway Monday October 1.

Each merchant participating in the program will give tickets as purchases are made in their stores. These tickets will be deposited in a large tumbler and names drawn for merchandise coupons, that may be spent just like money in any of the participating stores.

Plans are for about \$600 in merchandise coupons to be awarded through the Fall and Christmas seasons. The first drawing is due to be held on October 27.

Addresses Of Former Students Needed Now

The officers of the Santa Anna Ex-Students Association are appealing to residents of this area to furnish them the address of the following former Santa Anna students. Anyone knowing the addresses are requested to call Mrs. Norval Wylie, secretary, or Mrs. Barbara Kingsbery, president, and give them the address. Your cooperation is needed as soon as possible.

The names are: Monte (McCain) Mooney, Doris (Center) Bass, Faye (Boyd) Cawthon, Lorene (Burriss) Monty, Nell (Bledsoe) Selden, Joyce (Baugh) Deval, Christine (Douglas) Morris, Madie Ada (Holland) Star-temyer, W. R. Williamson, Frank Dibrell, Bernis Callaway, Lewis W. Ratcliff, Bill Arrant, Glean Brooks and Duane Holland.

Happy Birthday

"Happy Birthday" to all who have birthdays during the next week. Below are listed the birthdays we have this week.

SEPTEMBER 21
Betty Ruth Keeney
Diane Henderson, Del Rio

SEPTEMBER 22
Barbara McIntire
Lillie Hosch
Mrs. Irene Bobo
Aleene Jones, Austin
Mrs. W. E. Priest, Olton

SEPTEMBER 23
Mrs. S. C. Carter, Lamesa
Barbara Faye Lovelady, Texas City

SEPTEMBER 24
Timmy Bengé
Ricky Alfred Murray
Mrs. Della Bradley
Roy Haynes

SEPTEMBER 25
Mrs. Clifford Stephenson
C. W. Rasberry
Mrs. Jim Owen

SEPTEMBER 26
Van Aldridge
Mrs. W. P. Aldridge
Sandie Lynn Lewis

SEPTEMBER 27
Mrs. George Richardson
Mrs. Ethel Harris
Daymond Jackson
Darrell Wright
Mrs. M. A. Richardson

Would you like for your name to be published on your birthday? If so, please be sure to let us know when it is. Next week we will publish names of those born 28th and October 4th.

State Capital NEWS

Austin — A campaign to pass the water conservation amendment on which Texans will vote this November (No. 4 on the ballot) got under way at a meeting of the Statewide Water Committee in Austin. Committee is composed of just about everybody who is interested in water conservation and development.

Proposed amendment would permit the State Water Development Board to acquire storage space in reservoirs built either by local or Federal agencies and conserve storm and flood waters for beneficial uses.

Gov. Price Daniel addressed the meeting and thanked the committee for its "dedicated efforts" in promoting Texas' water program.

John Vandertulip, the State Water Commission's chief engineer, reported on the broad plan for meeting the State's water needs in 1980. Marvin Nichols of Fort Worth, chairman of the Development Board, discussed the lending program through which water projects have been financed. And Joe Carter, chairman of the Water Commission, explained the proposed amendment in detail and emphasized the need for its approval.

The Statewide committee urged

its members to back the amendment and approved the Water Commission's proposed budget. It also commended Governor Daniel for his "courageous, bold and dynamic leadership" in bringing about "the greatest and most comprehensive water resources and development program in the history of Texas."

Ben Carpenter of Dallas was named chairman of the finance committee for the conservation amendment campaign.

TICK SURVEY

The U. S. Department of Agriculture has turned up five kinds of ticks which are suspected as carriers in a survey currently being conducted in Texas.

The Lone Star tick, believed a carrier of Rocky Mountain spotted fever, Q fever and tularemia and also a transmitter of Bullis fever and tick paralysis, has been found in Robertson, Rusk, Colorado, Medina, Kerr, Comal, Nueces, Karnes, Harris and Hays Counties.

The Cayenne tick, found only in South Texas and a producer or transmitter of Q fever, has been discovered in Kenedy Co.

The Gulf Coast tick, blamed for tick paralysis, has shown up in Washington County while its imitator (amblyomma imitator),

rarely seen in the U. S., was found in Nueces County.

The spinose ear tick (only soft tick of the five), suspected in Q fever and anthrax, has been identified in Randall, Wichita and Comal Counties.

TRAFFIC SAFETY WEEK

Gov. Daniel expressed "deep concern over the dangerous upward trend in traffic deaths among Texas high school and college students," as he proclaimed Sept. 17-21 as fifth annual Texas School Traffic Safety Week.

He noted, however, that the 25 Texas traffic deaths in the 3-day Labor Day holiday were the second lowest toll since 1951.

EXPORTS

Texans can start thinking of themselves as exporters in big style.

Nobody had counted it up before, but now the University of Texas Bureau of Business Research finds that Texas is exporting to foreign countries \$837,000,000 worth of manufactured products, \$446,000,000 of agriculture products and \$31,000,000 of other products, mainly sulphur, salt, talc and fishery products.

Petroleum exports came to \$177,000,000 and chemicals to \$247,000,000, showing how the petro-chemical industry has turned Texas' sales of oil abroad from a raw to a manufactured product.

SCHOOLS

The men and women who run the schools' board members and administrators come to Austin on Sept. 30 for their annual conventions. They plan searching looks at the problems of schools, many of which sum up into five letters—M-O-N-E-Y.

Overhaul of the ad valorem tax system was proposed by a series of clinics held by schoolmen earlier this year.

Problems of textbook selection and teaching Americanism will be aired.

The textbook panel will review recent criticisms, as well as prospective legislation which may be recommended by a study committee.

BLONDE HOUSE

The Texas House of Representatives is becoming a blonde.

Eleven coats of varnish, applied over the years since 1888, have been peeled off the oak woodwork in the House chamber. Earlier, workmen had done the same peeling job on paneling on the ground floor of the Capitol.

Beauty of the original wood was thus restored. So a new light blond look has taken over the Capitol.

Lower Chamber also is getting new flooring and carpets. The House gallery, where so many Texans have sat in hard chairs watching legislation move through the House, is getting new upholstered chairs to make the taxpayers more comfortable. Rep. Will Smith of Beaumont, whose Rules Committee chairmanship puts him in a general

supervisory position on the work of the State Board of Control, thinks it will be finished by November 1.

OLD FOLKS

Board for State Hospitals and Special Schools, faced with a report that 3,000 of its "patients" in state mental hospitals aren't sick — but just old — will ask the Legislature to do something about it.

Reports indicate county judges are "committing" aged persons to state hospitals mainly because they and their families can't care for them.

Board suggests the State pay part of the cost of placing such persons in privately-owned nursing homes. Sons and daughters would be required to pay the balance. Problem is one of welfare, rather than psychiatry, says the Board.

"We now have older persons crowding facilities that are supposed to be used for the mentally ill."

WHAT IT COSTS

Texans who pay taxes to the state government got an idea of what the new school and welfare programs are costing when Comptroller Robert S. Calvert added up costs for the fiscal year which ended August 31.

State aid to public schools and colleges came to \$533,541,099, up nearly \$100,000,000 over the \$431,974,434 of the previous year. Welfare spending went up from \$188,875,904 to \$212,765,620. Increased Federal aid for welfare paid most of the increase.

Highway construction and maintenance totaled \$371,870,298. This is about the same as the previous year.

In all, the state spent \$1,307,623,666, up \$115,000,000 from the previous year.

RECORD YEAR

The State Securities Board closed a record fiscal year, having registered more than \$375,000,000 in securities in that period.

Forty-one permits to sell \$35,958,648 in securities were issued in August, Commissioner William M. King has reported.

The Board, now five years old, has registered in excess of \$1,000,000,000 in securities.

BATTLE LOOMS

Changes in criminal court procedure being proposed for the next legislature by a State Bar committee are in for rough sledding.

Dist Judge A. R. Stout of Waxahachie has announced his intention to carry his protests to the Legislature if the State Bar's proposals are introduced in January.

Judge Stout asserts that defense attorneys are dominating the committee's proposed court changes. He further stated that the Legislature would do better to adopt recommendations previously made by a committee on law enforcement.

1900 HURRICANE STORY

Gov. Price Daniel and a group of prominent Austinites got together early this month to do some reminiscing about the 1900 hurricane which destroyed Galveston.

September marks the 62nd anniversary of that big and disastrous blow.

One casualty of that hurricane was the South Texas Baptist

College at Waller, the school which the Governor's father was attending.

Mrs. Stuart Purcell presented the Governor with a photo of the 1900 graduating class, of which M. P. Daniel was a member.

BANKERS FIGHT

A new organization, Association of Texas State Chartered Banks, has been formed to fight for preservation of the dual banking system and the independence of state banks.

P. B. (Jack) Garrett, vice-chairman of the board of the Texas Bank and Trust Company of Dallas was elected president of the new association.

ROSY PICTURE

Austin and Dallas have the best employment pictures in Texas.

Texas Employment Commission says the two cities had only 3.7 percent unemployment of the total labor force during July, the month covered in the latest report.

This 3.7 percentage also compares most favorably to the overall Texas average of 4.9 percent.

SCHOOL BUS PASSING

Texas Department of Public Safety says it will crack down this year in motorists who illegally pass a school bus stopped to take on or discharge children.

State law requires the driver of any vehicle to stop upon approaching from either direction any school bus which has stopped on the highway for the purpose of receiving or discharging school children.

TWO BANKS OKAYED

State Banking Board has approved applications of two banks, Wolforth State Bank near Lubbock, and Homestead State Bank at Houston.

At the same time the Board also deferred action until October 4 on an application by Hillcroft State Bank of Houston.

SHORT SNORTS

Texas Water Pollution Board has deferred until November action on Wilson County's resolution that a public hearing be held on "pollution of the San Antonio River by improper sewage treatment by the City of San Antonio."

Governor Daniel has proclaimed September, October and November as United Community Campaign Months.

Six more cases of polio have been reported. Paralytic cases were in Potter, Travis and Jones Counties, the latter having two.

Bids were taken by the State Highway Department for construction or improvement of 324 miles of state highways and farm roads.

berly of Woodboro, a relative of Texas's first governor, James Pickney Henderson, presented a portrait of him to the State Library.

With the coming change in attorney generals, Will Wilson's assistants are moving to new jobs. Latest is Tom McFarling, formerly of New Braunfels, who becomes city judge in Austin.

County Atty. Ward Markley of Jasper was advised by the attorney general that a sheriff cannot let prisoners go to church or go home to sit up with a sick relative, without a guard.

State quota for Texas draft boards in October calls for 160 men. Col. Morris S. Schwartz, state Selective Service director, has announced.

State Board of Education has moved toward a policy change in November to provide state school bus aid to city pupils without adequate public transportation service.

Statistical evidence is now overwhelming that cigarette smoking is a serious detriment to good health and long life, says the Texas Department of Health.

A report by the Texas Research League on its program and management study for the Texas Game and Fish Commission has won a first place award from the Governmental Research Association.

In order to make room for new merchandise, dresses added daily to our \$5 Rack. One rack of special reduced miscellaneous items. Ladies Shop.

Be Prepared For Small "Scrapes"

Stock up on first-aid and grooming needs for the family before cold weather gets here.

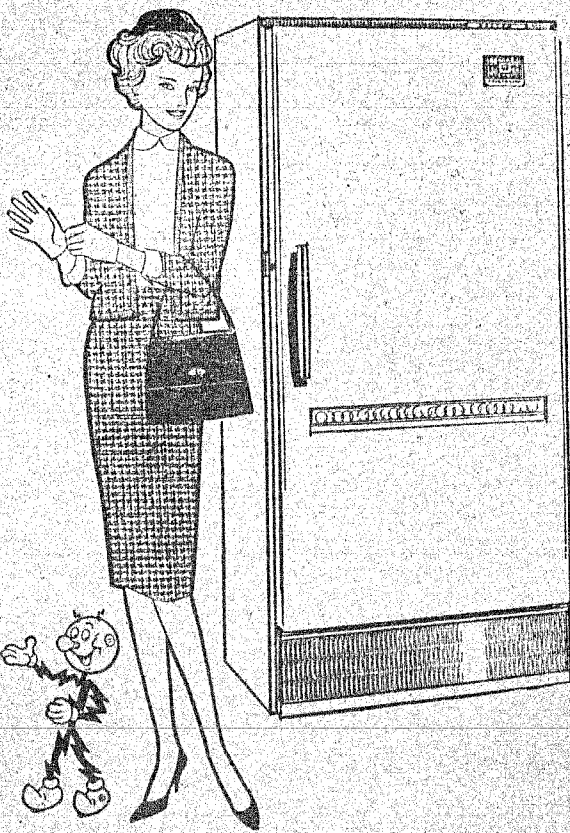

Especially where there are active youngsters, it's good to have your medicine cabinet well stocked with first aids for cuts, bruises, scratches and playtime casualties.

PHILLIPS DRUG

We Give S. & H. Green Stamps

Here's why Martha puts laundry in the freezer

A woman's work, especially the ironing, is never done. Sometimes Martha just has to take time out for shopping or visiting during the day. But sprinkled clothes can't be left to sour or mildew! So Martha pops them into a plastic bag and into the freezer they go. When she gets back, they'll be ready for her to start ironing again. Isn't it amazing how many ways women have learned to use flameless electricity to make living better...

...and, it costs so little, you can use lots of it.

FREEZER TIP... Sprinkle your clothes and place in freezer for about 10 minutes and they will be ready for ironing.

**It's Time For...
EYE CARE**

Dr. Newton K. Wesley
SUN GLASSES

Proper care of the eyes during the sunny months of the year cannot be overemphasized. It is quite easy for an eye to become sun-burned just as the skin may become burned.

This condition of the eye is called solar retinitis and one can even lose his vision—perhaps permanently—because the nerve endings may be affected.

The use of proper sun glasses or sun contact lenses are important and these can be prescribed by your doctor. Cheap sun glasses often are of poor optical quality and they will distort vision or they may not be enough protection in screening harmful rays of the sun. Your sun lenses should be checked by your optometrist or your ophthalmologist.

Sun glasses should not be worn at night. According to the National Eye Research Foundation, about 8 per cent of the light is removed by ordinary spectacle lenses. As a rule, doctors do not prescribe darker tints to be worn at night, and sun glasses which are much darker should not be worn after dark because of reduced visibility and danger of driving accidents.

Some people who wear glasses or contact lenses are content with any type of sun glasses, chiefly because they are mainly interested in screening out the light rays of the sun. These people should know they are doing their eyes a great deal of damage and should consult their eye doctor for the proper type of sun protection.

what she has done to combat Communism, all the 49 other states could do. The legislature of the State of Louisiana, recognizing the existence of "a clear, present and distinct danger" to its security and to the well-being of its citizens, has this year set up its own legislation to regulate and control Communist propaganda. It has also revised and strengthened existing State laws relating to control of Communists and their conspiracy.

These laws were passed following hearings conducted last March by "The Joint Legislative Committee on Un-American Activities, State of Louisiana," with Representative James H. Pfister, New Orleans, as chairman and Jack N. Rogers, Baton Rouge, as counsel. The Committee concluded that the danger arose from the infiltration of a significant amount of Communist propaganda as well as the fact that the State was a shipping point for sending dangerous material to other states and foreign countries.

Words are Bullets
Reporting the conclusion of its hearings, the Committee said it found the Communists were using propaganda as a tool or weapon to bring about forcible destruction or subjugation of the State and Nation, as well as total eradication of our basic philosophy of freedom. Communists are using words as bullets, and whatever guarantees of sovereignty or freedom Louisiana's citizens enjoy will surely vanish if the U. S. A. is destroyed or taken over, the Committee report concludes.

Attacks by propaganda, they reasoned, can be just as dangerous and therefore as subject to legislative remedy as narcotics, alcohol, pornographic literature, or kidnapping. Moreover, federal legislation on the subject either was inadequate or not effectively enforced, in view of the large quantities of unlabeled and unidentified material entering Louisiana, particularly from Mexico and other foreign countries. They also found that the U. S. mails were being used extensively, especially the favorable bulk mailing rates, to send this material to Louisiana's citizens.

Scholars Exempt
The new law makes generous exceptions for students of foreign political systems and bona fide research projects. But any such material entering legally will have to be labeled in red

By Congressman
O. C. FISHER

ADAM CLAYTON POWELL, the Harlem Negro Congressman, recently engaged in a notorious European junket, accompanied by two female secretaries. As Chairman of the House Committee on Education and Labor, Powell was able to finance the trip by drawing upon counterpart funds at various embassies overseas.

These funds are generated by foreign aid money with local contributions from the respective countries affected, is set aside for use in financing various projects. The money, by agreement, cannot be spent outside the Nations where it is set aside. And chairmen of congressional committees are permitted to draw upon that source for the financing of expenses considered necessary in the discharge of official business by the committee or its members and employees. Committee chairmen are granted the discretionary right to determine when such use is justified.

Powell claimed his mission was to make a study of equality of opportunities for women as practiced in the countries where he visited.

But the press reports indicated he was using the money for a multitude of purposes not related to official business.

It is obviously the responsibility of the Congress to prevent such abuses of this privilege. I have introduced a bill to prohibit the use of counterpart funds by any committee, member or employee for any purpose. As I see it, about the only way to prevent such misuse of funds is to stop the practice in its entirety.

ink: "Communist Propaganda." With these exceptions, Communist propaganda materials (defined in terms similar to those of federal laws) are considered illicit and contraband. It becomes a felony "to knowingly, willfully and intentionally deliver, distribute, disseminate, distribute, or store" such matter in Louisiana. Violators of the act may be fined \$10,000 or imprisoned six years or both.

The other legislation recognizes additional infiltrative tactics of the Communists. It is meant to provide full surveillance and control of any Communists in the State, as well as their organizations. It recognizes the declared objectives of world conquest that are being gradually accomplished by espionage, fraud, sabotage, aggression terrorism and treachery. This law declares the world Communist movement to be a clear and present danger to the citizens of the State of Louisiana, to the extent that the security and general welfare of its citizens must be protected.

Fronts Are Included
The legislation enacted calls for the annual registration under oath and fingerprinting of Communists and members of Communist front organizations, with the Department of Public Safety. It also prevents the Communists Party from appearing on election ballots, disqualifies Communists and knowing members of front organizations from any public office or public employment, outlaws subversive organizations, and makes it a felony with stiff penalties for anyone to carry on activities in subversive organizations.

In short, Louisiana is having no sympathy toward any Communist person organization, or activity. The wonder of it is not so much that now one state at last has said NO to Communism, but that any sovereign state in the Union could delay even this long in giving its firm answer to the sinister challenge of Communism. But Louisiana's action is a firm example that ought to stir our 49 other states to declare themselves.

hibit the use of counterpart funds by any committee, member or employee for any purpose. As I see it, about the only way to prevent such misuse of funds is to stop the practice in its entirety.

THERE'S A CHANCE for an international wool textile agreement to protect producers against increases in imports.

With the blessing of Secretary of Commerce Hodges, something along this line is due to be considered at a meeting of the International Wool Study Group in London this fall. The objective will be to obtain agreement among various exporting countries that in the future there will be a fixed limit on the amount of wool textiles shipped to the U.S.A.

TSA Launches Drive For Safe Football Driving

A campaign was launched today by the Texas Safety Association to make the 1962 football season safe for motorists and pedestrians.

J. O. Musick, General Manager of the TSA, announced football fans are being asked to take special safety precautions while traveling to and from football games.

The campaign was initiated with releases of safety messages to all secondary schools, colleges and universities in the state.

"Superintendents of secondary schools and presidents of colleges and universities are being asked to cooperate in the football season safety campaign," Musick said.

The football safety messages are designed for use over public address systems at school and as spot announcements during games.

The safety director cited congestion around stadiums as a major hazard. He urged motorists to take special note of driving conditions.

"Motorists should drive at a speed that is reasonable and prudent for existing conditions and should allow plenty of space between their car and the automobile ahead," he said.

Following too closely has been labeled by safety experts as the greatest single cause of

multiple accidents. Musick warned motorists not to overload cars with passengers or unnecessary objects.

The driver should never be crowded or distracted by too many passengers in the car—it endangers his efficiency," he explained.

He emphasized the danger of overloading cars with unnecessary gear by citing that a loose object in an automobile may become a lethal weapon on impact.

In appealing to pedestrians to observe traffic laws while walking in congested areas, Musick said:

"Put your best forward—carefully. Cross streets at intersections only, preferably at traffic lights or where an officer is directing traffic.

"Walk facing traffic if you must use the street or roadways for traveling and beware of stepping into the street from behind a parked car."

The safety director also advised pedestrians to carry flashlights or wear something white when walking at night.

He further urged motorists to employ all their driving skills when following the team to out-

of-town games. "Slow down, get plenty of sleep, drive courteously and cautiously and be prepared for the unexpected, especially at night," he concluded.

SUNDAY'S SERMON

Rev. ROBERT H. HARPER
KINDNESS TO CREATURES
RECENTLY, on a blazing day in July, I drove with a friend down a neighborhood road to a home where my friend desired to visit relatives. After he went into the house, he came out and said that his relatives invited me in, saying they would make some coffee. It was pleasant to sit in a large comfortable chair, with a busy fan playing upon me. And I was well content.

Soon the frenzied family dog set up a great barking and the young daughter went to see. In the back yard the dog was barking fiercely at an intruder which

JUST A THOUGHT:
It is extremely difficult to find any good in the human race when we go about with eyes and ears expecting to always see and hear the very worst.

few dogs have found in their territory—a large crane with plumage as white as the driven snow. My friend, a big ready fellow, rushed toward the crane, who with his long pointed beak pecked the mat on the nose. I could not help but be amused, since he was not badly hurt and the lady had touched salve to his nose.

The crane could hardly be blamed, since the hand of man had always seemed against it. But that was the only time he offered any act of defense. Sick or injured, we know not, he had seemed to trust the people who dealt with him kindly. I recalled what Coleridge wrote in the Ancient Mariner—"He prayeth best who loveth best all things both great and small."

HEALTH AND SAFETY TIPS FROM THE AMERICAN MEDICAL ASSN.

Hunting Safety

The fall hunting season is here again and millions of Americans of all ages and both sexes are taking to the woods and fields, gun in hand, bent on bringing back a loaded game bag. Firearms, from a single-shot 22 calibre rifle to a heavy big game weapon to a fast-shooting automatic scattergun, are designed to kill birds and animals. They can also kill or wound humans.

Each fall several hundred hunters don't return alive and thousands of others return with a load of bird shot or a rifle bullet to be dug out. Behind almost every hunting accident is one cause: carelessness.

Before you pull the trigger, know what you're firing at says Today's Health, the magazine of the American Medical Association. The hunter who blazes away at everything that moves runs a big risk of bagging a fellow hunter.

Never cross over or through a fence or climb a tree with a loaded gun. It may fall and discharge. Unload first and reload after crossing. Don't shoot at a hard, flat surface. Ricocheting bullets can carry long distances with killing power.

Keep guns away from children. Never leave a weapon unattended without unloading it. Store guns and ammunition beyond the reach of youngsters, preferably under lock and key.

Always carry a gun so that you can control the direction of the muzzle even if you stumble. Keep the safety catch on until ready to shoot. Always be sure the barrel is clear of obstructions. A barrel clogged with mud or snow may burst.

Guns and alcohol don't mix at all. If you like a nip around camp, wait until you're through hunting for the day and all weapons are unloaded and in cases.

Treat guns with respect at all times. They may be loaded, despite all precautions. Thus never point a weapon at something unless you plan to shoot it.

WILL SCIENCE FREEZE LIFE?

Cryobiology is a new field in which scientists are looking for various ways to use cold for man's benefit. It is a combination of two sciences — cryogenics (extreme low temperature physics) and biology. A breakthrough already achieved is the freezing of cells to preserve them alive and unchanged indefinitely. It may be possible someday to freeze a human being solid, put him in storage and take him out hundreds of years later to start living again in exactly the same condition as when he entered the deep freeze!

WIGS BACK IN STYLE

The wig is back in style and — judging from newspaper reports from Chicago and Hollywood — so is wig-snatching. But if history is any teacher, the worst is yet to come.

The Egyptians were among the first to use wigs, but World Book Encyclopedia points out that they had an excuse of sorts — wigs protected them from the heat of the sun. When the style came back in the 1600's it was strictly for vanity's sake, and the repercussions were felt by innocent babes and national treasures.

From the moment Louis XIV became bald, the wig was the thing in Paris, and the style quickly jumped the Channel into England. The English, eager for a diversion after the gloomy rule of the Cromwells, took up wigs with a passion. Wig-snatching might have been expected. But soon children were being forbidden to go out-of-doors alone, lest some enterprising thief snip off their locks.

Fortunately for French children, their elders preferred horse-hair. And they imported so much of it from Germany that it threatened the country's gold reserves. Colbert, the minister of finance, pleaded in vain for a law to prohibit wig-making.

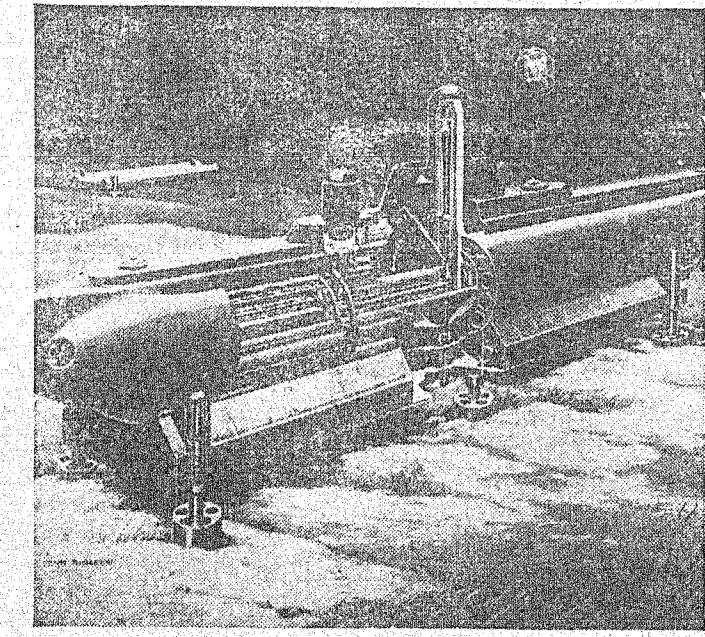

Wigs finally fell with the Bastille, and after the Revolution anyone appearing on the street in a wig was likely to lose it, as well as his head, because of its aristocratic connotation. French hairdressers, of course, were ruined, but the National Assembly decided the new liberty made them part of the fraternity and voted them 22 million francs in compensation.

England, disgusted by the Revolution's excesses, kept its powdered wig on. That is until the government needed money to fight the wigless French. The fashionable Englishman might remain unperturbed as he powdered his wig with flour that would otherwise have been made into bread for the poor. But when the government slapped a tax on hair powder, a principle was at stake. Millions for wigs, perhaps, but not one cent for a tax — and the wig went the way of all fads.

Farm Sales Up — Net Income Down

College Station — Farmers, like other businessmen, in recent years have increased their gross sales but have received less net income, reports C. H. Bates, extension farm management specialist.

The nation's farmers have increased gross sales since 1945 by 46 percent but their net income has declined more than 9 percent, Bates adds. Gross income in 1945 was \$25.7 billion and production was 12.9 billion. Net income equaled \$12.7 billion.

DRILLING FOR OIL . . . The 300-ft. submarine shown above may be sent beneath the Gulf of Mexico soon to drill for oil. It's the first of its kind, and if successful, may herald an entire fleet.

About Your Health

The irreplaceable gift of sight is being lost to one American every 20 minutes.

If that figure, estimated by the National Society for the Prevention of Blindness, holds true for all population segments of the nation, it means four Texans are blinded every day.

September is Sight-Saving Month throughout the land. Even as you read this, some man, woman or child is standing on the brink of permanent darkness, about to join the 392,500 other Americans who are already enduring bleak enormity of blindness.

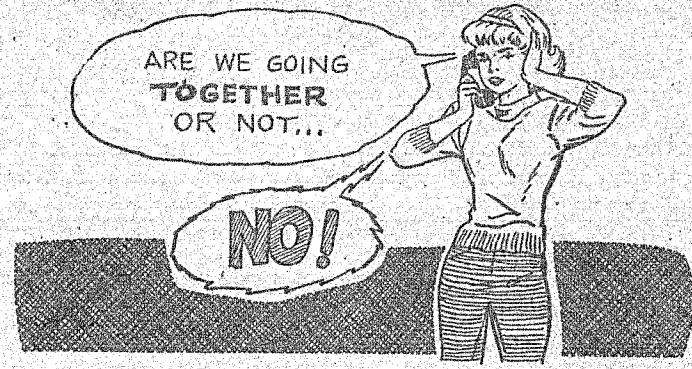

What causes blindness? There are two major contributing factors: disease and accidents. Neglect exaggerates both of these. Blindness brought on through neglect really is no worse than that caused by an accident or disease. But somehow it seems worse. It's so unnecessary.

If all children were given a thorough eye examination prior to entering school for the first time, and if all visual defects were corrected or placed under treatment at that time, a major

FOR AND ABOUT TEENAGERS

Boy Bows Out After Mom Gives An 'O.K.'

By C. D. Smith

THE WEEK'S LETTER: "I'm a girl of fifteen. Last Summer I was asked to go steady by a very nice guy, a little younger than me (about 11 months). After talking it over with mom, I accepted. I told him I had discussed it with my mom and when I said this he acted as if I had done something wrong. This surprised me. I thought he would be happy that my mom approved.

"For the next week I didn't see him at all. This worried me quite a bit. He lives on the same street, so distance is no problem. Maybe I shouldn't have, but I called him on the phone and asked if we were going together or not. He said, "no." He didn't even bother to tell me why. I got mad and hung up.

or ask him why it turned out that way. "Mom says I did the right thing and that I'll always have him as a true friend, but it doesn't seem that way. I'm afraid I still like the guy and that it shows. Shall I just forget it ever happened and let everything take care of itself?"

OUR REPLY: You did absolutely the right thing and, if he is worth having, you gained a friend. In fact, you gained much more—his respect. As he grows older and wiser, he will respect you all the more. Don't bring up the subject with him, but don't dodge a discussion if he brings it up.

By 1960, gross income was up to \$37.9 billion but expenses had jumped to \$26.3 billion, leaving a net of only \$11.6 billion.

Farmers have sought to improve their situation, says Bates, by shifting the inputs or "mix" of production resources. They have substituted machinery for labor. In 1940, U. S. farmers spent \$1.75 on machinery and buildings for each dollar spent on hired help. By 1960, they were spending \$2.77 on these items for each dollar spent on hired labor.

Another effort to boost efficiency is reflected in the amounts spent for fertilizer and lime. By 1960, U. S. farmers were spending 4.2 times more for these items than was spent in 1940. This means a great increase in quantity since prices for fertilizer and lime have increased only 50 percent.

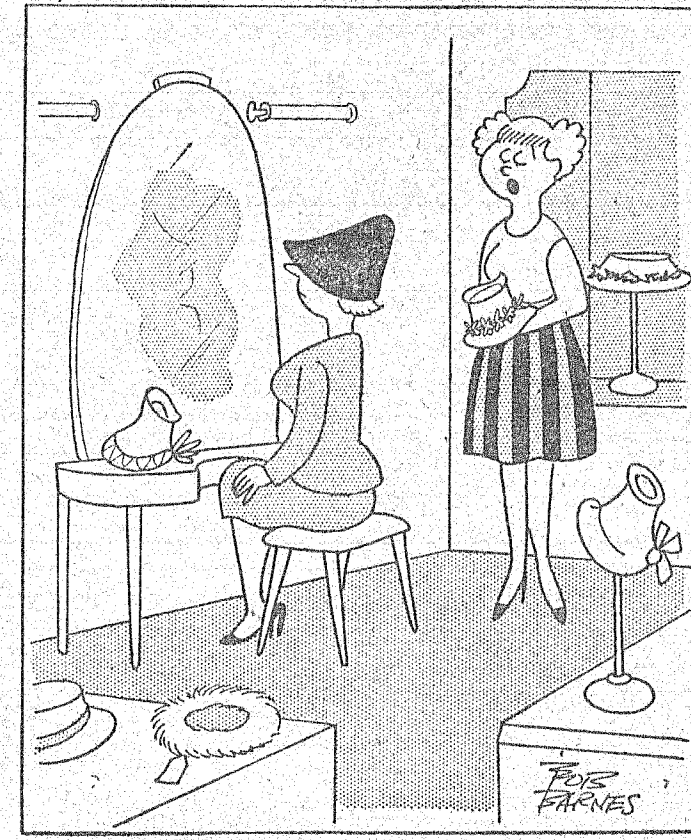

Although comparable figures are not available on farmer expenditures for pesticides and herbicides, the trend has been sharply upward, says the specialist.

These inputs have tended to keep down the cost of food to consumers, he adds.

The question is often raised, points out Bates, why do farm units continue to increase in size? A major factor behind the pressure for larger units is the use of machinery and the narrower margin received on products marketed, explains the specialist. Today's farmer must invest three to four times as much capital in fixed assets as was needed in 1940 to obtain net returns on a comparable level and the price-cost squeeze is continuing, he adds.

Pioneer Tea Opens Self Culture Club Year Friday, Sept. 14

The Self Culture Club opened its sixtieth year with a Pioneer Tea at the City Library on Friday afternoon, naming Miss Bettie Blue, honorary member, as honoree.

Mrs. Hardy Blue, Mrs. Joe C. Mathews and Mrs. C. D. Bruce were in charge of arrangements for the tea. Frosted golden punch was served from a crystal bowl and gold mints, sugared nuts and decorated sandwiches were in crystal dishes. The tea table was laid with a yellow damask cloth and the cornucopia of Fall fruits was flanked by orange candles entwined with yellow flowers.

Miss Blue told of industries and recreations at the turn of the century; of the rock cutting machine about where the Ford Barnes home now is; of the band stand in the cove and the men who played there in the '90s; of the school on McDaniel Hill and the "College" that replaced it. She spoke of the fact that the Baptist Church had a belfry while the Methodist did not, was an embarrassment to some Methodist children around 1895, and mentioned the perennial Sunday custom at that time of dressing up on Sunday afternoon and going "on the mountain."

Mrs. Tom Kingsbery gave the history of the founding of the United Daughters of the Confederacy in Santa Anna and of the young hero, Sam Davis, for whom the chapter was named.

Mrs. Jim Harris told of early schools of Santa Anna and the teachers in them. Pioneer pictures of the town and people were displayed.

Among guests of the club were Mrs. E. K. Thompson, the former Anna Gardner, who, as a high school girl, married her principal about 1897; Mrs. Jessie Allen, a newcomer to Santa Anna, whose grandfather, named Sterling, built the Santa Fe lake at the Coleman Junction; and Mrs. Jennie Oakes, daughter of the pioneer Boyd family, who has all nine of her school report cards carefully preserved.

Other guests were Mrs. Burgess Weaver, Mrs. Ida Jones, Mrs. L. E. Abernathy, Mrs. Frank Turner, Mrs. Tom Mills, Miss Pearl Wilburn and Mrs. Terry Sanders.

New yearbooks were given the members and a corsage was presented to the honoree. Mrs. J. W. Taylor and Mrs. J. F. Goen, former members, were voted back into the club. About 15 members also were present.

Chapter Courtesy Theme For Eastern Star Meeting Mon.

The Santa Anna Chapter No. 247, order of Eastern Star, met Monday, September 17, in the Masonic Hall. Mrs. Billie Guthrie, Worthy Matron, and Montie Guthrie, Worthy Patron, presided in the east.

Mrs. Guthrie used the short form for the opening. Thirteen officers filled their stations. The Worthy Patron led the group in repeating the Pledge of Allegiance to the Flag.

During the business meeting plans for Grand Chapter, to be held in Houston October 29-Nov. 1, were made for Santa Anna representatives.

Mrs. Guthrie announced a study class of District 3, Section 5, would meet Sept. 27 at 7:00 p. m. in the Masonic Hall. All members are requested to be present for this class.

Mrs. Rosa Bass, program chairman, gave the program on

Chapter Courtesy. Mrs. Pauline Barnett was also asked to make a few remarks.

The chapter closed with the retiring march. Mr. and Mrs. Jack Mobley and Mrs. Louise Moore served refreshments of ginger bread with topping, coffee and tea to 19 members.

Decorations used included the Worthy Matron's chosen butterflies, cherubs, pink roses and star point color flowers.

Trickham News

By Mrs. J. E. York Telephone DU2-3336

Mrs. Jewell Stearns and Willie and Mr. and Mrs. Pat Stearns and family of Fort Worth and Mr. and Mrs. Ben James of Corpus Christi spent the weekend with Mr. and Mrs. Eugene James and family.

Joanna Woods of Brownwood spent last week with Mr. and Mrs. Bill Vaughn. Weekend guests were Dr. and Mrs. Touchstone and Mr. and Mrs. Terrell of Dallas.

Mr. and Mrs. Fred Haynes and Billy Don spent Sunday at Merkel visiting Mr. and Mrs. Frank Wallace and children.

Mrs. Lucille Oakes and family of Brownwood, and Mrs. Minnie Craig were dinner guests of Mr. and Mrs. Lige Lancaster on Sunday.

Mr. and Mrs. Arthur Durtschl of Brownwood visited Sunday afternoon with Mr. and Mrs. Felton Martin and family. On Monday Mr. and Mrs. Jesse Alford of Brownwood visited in the Martin home.

Mrs. Stanley and Linda of the Whon Community visited with Mrs. E. E. Pinson, Virginia and Helen on Sunday.

Visitors with Mrs. Beula Kingstons last week were Mr. and Mrs. O. R. Boenicke, Mrs. Minnie Wilson, Rev. Bruce Hornell, Mrs. Roy Laughlin and Mrs. Malcolm Wilson.

Mr. and Mrs. Robert Stearns visited in Coleman on Sunday with Mr. and Mrs. Roy Wells and family.

Mr. and Mrs. Grady McIver and Mrs. Keetie Haynes of Santa Anna visited Sunday afternoon with Mr. and Mrs. Jack Cole of Brooksmith.

Mrs. Irene Haynes, Mrs. Annie Lou Vaughn and Miss Joanna Woods spent Thursday in San Saba visiting Mrs. Haynes' mother, Mrs. Mae Bowden.

Mr. and Mrs. E. E. Pinson, Virginia, Helen and Mr. Billy Jacobs visited with Mr. and Mrs. J. E. York, Donnie and Nikki on Monday night.

Sunday afternoon visitors with Mr. and Mrs. Jack Dockery, John and Tinker, were Mr. and Mrs. H. B. James, Wanda and Donna and Mrs. Lela Hays, Mrs. Louise Walker, Ruth Ann, Jackie and Boots of Santa Anna. The Dockerys have moved into their new home, which was recently completed.

Mr. and Mrs. Marvin Whitley spent Saturday at Denton Valley visiting Mr. and Mrs. Morton Whitley.

Rain recorded here on Sunday night was one inch. Mrs. Boenicke reported 1.65 at her place.

There has been some changes in the telephone lines around here, so when you call me your news, don't forget my new number is 2-3336. Thank you.

Designed to reflect changes in the cost of living since 1957, when the last compensation increase for veterans disabled in service went into effect, the average payment will be 9.4 percent more than the current rate.

Compensation for peacetime service-connected disabilities is paid at approximately 80 percent of that for wartime service-connected disabilities.

The increases are on a sliding scale so that the more seriously injured veterans are to receive the higher benefits. The increase for a veteran who is 10 percent disabled goes from \$19 to \$20 a month and the payment to a 100 percent disabled veteran is upped from \$225 a month to \$250.

In addition to payments based upon percentage of disability, additional "statutory" payments are made for specified disabilities or combinations of disabilities such as blindness, deafness and loss of limbs.

The maximum amount that may be received by a wartime veteran who has no dependents, and who is so seriously disabled as a result of his service that he requires aid and attendance, has been increased under the new law from \$600 to \$725 monthly.

The general session, open to the public, is scheduled at 9:00 A.M. in the Kemp Hotel, headquarters for the meeting. Committee meetings are scheduled prior to the general meeting, according to Joe S. Fletcher, TSCRA secretary-general manager.

Reports on animal health and water conservation will be among the number of topics in the general session.

Skunks (De-scented) Make Fair Debut

A rose by any other name smells sweet. A skunk by any other name smells... except the mama skunk and little skunklets who will debut, de-scented, in the Children's Barnyard at the 1962 State Fair of Texas, October 6 through 21.

According to Ray W. Wilson, the State Fair's livestock manager, the popular polecats will be added by popular demand to the menagerie of farm animal young'uns.

"Skunks are always good for a laugh," Wilson said. "Ours should draw lots of jokes from Barnyard visitors. Luckily, the skunks won't be in any position to retaliate!"

Reg's Trading Post BARGAINS!

62 cents per pound during each of the eight years of the Wool Payments Program with Texas producers receiving a total of 10.2 million dollars in payments for the 1960 marketing year.

Also under consideration is the question of changing the marketing year from the present April 1 through March 31 to a calendar year basis, the specialist says. Views on these two items should be sent to Livestock, Dairy and Poultry Division, Agricultural Stabilization and Conservation Service, U. S. Department of Agriculture, Washington 25, D. C.

The third item to be considered is the referendum on the lamb and wool agreement with the American Sheep Producers Council. The question is whether deductions from the incentive payment should continue. The deductions at the rate of 1 cent per pound of shorn wool and 5 cents per hundredweight of lamb would go to continue the Council's promotional activities in behalf of lamb and wool. Under these deductions, Texas sheep and wool producers contributed 17 per cent of the Council's budget, a big \$536,107 in 1960. Deadline for the voting in this question is September 21 and ballots may be returned to county ASCS offices starting on September 10, the specialist adds.

Disabled Vets To Receive Increased Payments Soon

On or about October 31 some two million disabled veterans will start receiving checks for increased compensation amounting to \$98 million yearly, P. J. Mims, Manager of the Veterans Administration Regional Office in Waco said today.

Under terms of the new law signed by the President September 7, provision is made in the October payment for a special increase which amounts to a three months retroactive sum. This applies to the October checks only.

Mims stressed there is no need for veterans to contact the Veterans Administration. The compensation checks are processed automatically with electronic data processing equipment so that the checks received by veterans with service-connected disabilities about October 31 will contain the first of the increases.

Designed to reflect changes in the cost of living since 1957, when the last compensation increase for veterans disabled in service went into effect, the average payment will be 9.4 percent more than the current rate.

Compensation for peacetime service-connected disabilities is paid at approximately 80 percent of that for wartime service-connected disabilities.

The increases are on a sliding scale so that the more seriously injured veterans are to receive the higher benefits. The increase for a veteran who is 10 percent disabled goes from \$19 to \$20 a month and the payment to a 100 percent disabled veteran is upped from \$225 a month to \$250.

In addition to payments based upon percentage of disability, additional "statutory" payments are made for specified disabilities or combinations of disabilities such as blindness, deafness and loss of limbs.

The maximum amount that may be received by a wartime veteran who has no dependents, and who is so seriously disabled as a result of his service that he requires aid and attendance, has been increased under the new law from \$600 to \$725 monthly.

The general session, open to the public, is scheduled at 9:00 A.M. in the Kemp Hotel, headquarters for the meeting. Committee meetings are scheduled prior to the general meeting, according to Joe S. Fletcher, TSCRA secretary-general manager.

Reports on animal health and water conservation will be among the number of topics in the general session.

Skunks (De-scented) Make Fair Debut

A rose by any other name smells sweet. A skunk by any other name smells... except the mama skunk and little skunklets who will debut, de-scented, in the Children's Barnyard at the 1962 State Fair of Texas, October 6 through 21.

According to Ray W. Wilson, the State Fair's livestock manager, the popular polecats will be added by popular demand to the menagerie of farm animal young'uns.

"Skunks are always good for a laugh," Wilson said. "Ours should draw lots of jokes from Barnyard visitors. Luckily, the skunks won't be in any position to retaliate!"

HEALTH AND SAFETY TIPS FROM THE AMERICAN MEDICAL ASSN.

Care of Eyes

Slightly more than half of all people in the United States have something wrong with their eyes.

Some 40 percent of all Americans wear glasses. Eight million sets of contact lenses have been sold. Almost a million are blind.

Contributing to this situation is the fact that millions of people neglect their eye health, says Today's Health, the magazine of the American Medical Association. Many of us don't know what's good or bad for eyes. Others know but ignore it. And most of us have some ideas about eye care that just aren't true.

Most ophthalmologists (physicians specializing in eyes) now agree that there is no such thing as eye strain. There is eye fatigue, however, and this is what sometimes occurs when you spend long hours watching television. It isn't serious.

Nothing, including wearing glasses, eating carrots or eye exercises, can cure nearsightedness. Glasses will improve vision but they will not correct the defect that causes nearsightedness. Children aren't likely to "outgrow" crossed eyes if left alone and some loss of sight might result if treatment is not provided.

Inflammation of the eye, often called "red eye," should be treated if it continues for more than a day or two. It might be caused by dust or an allergy and is not serious. Or it might be an infection or a symptom of something more serious.

Glaucoma, a widespread condition causing sight impairment, cannot be cured, but it can be treated and arrested. The prevalence of glaucoma among people who don't know they have it is alarming. For this reason regular eye examinations by a physician are important. Diagnosed early glaucoma can be treated and prevented from developing into serious impairment of vision.

Contact lenses have been greatly improved in recent years, but there still is a danger of corneal scratches and possible infection. Some people can see better with contact lenses than with conventional glasses. The wearer of contact lenses should be especially careful to have regular examinations to make certain that everything is all right.

Children should have their first medical eye examination at the age of three to four years, unless something happens to indicate an even earlier checkup. Often problems discovered at an early age can be corrected or alleviated before they become too severe.

Dockery Scores 26 Points In Defeating Cross Plains 28-0

Tinker Dockery, running from the fullback slot, scored 26 of the 28 points scored by the Mountaineers Friday night. Dockery gained a total of 127 yards during the evening and was credited with a number of tackles while playing on defense. Randy Brown scored the other two points, on a wide left end scamper for two points following a touchdown. Brown was also outstanding on offense during the evening. He made a total of 94 yards and helped set up three of the four touchdowns.

The field was very wet, although it did not appear to have had any rain on it during the past few days. It was also very rough and full of chug holes.

The Buffs were just a little lighter in weight than the Mountaineers, but were a determined group of boys. However, they were never able to put together a scoring threat, although they gained 191 yards during the course of the game. They lost 46 of those yards however. One time they started on the Mountaineer 34-yard line after a short Mountaineer punt, but lost 3 yards and fumbled two plays later. In the third period the Buffs drove from their 18-yard line to the Mountaineer 36-yard line, with the drive going into the fourth period. However, they lost back to the Mountaineer 46-yard line on a fourth-down try.

THE GAME

Santa Anna kicked to the Buffs, but they could not gain and punted to the Mountaineers. After two 15-yard penalties, Brown broke loose for nice yardage and picked up a first down at the Buff 45. With Brown and Dockery alternating, the Mountaineers drove over their first TD seven plays later with Dockery going the final 23 yard through the line. Dockery went through the line for the two extra points.

On the second play after the kickoff the Buffs fumbled and Brown recovered on the 16-yard line. Home made 4 yards, then Simmons lost 3 yards and fumbled with the Buffs recovering on their 16 yard line. The Buffs picked up 9 yards and fumbled again, with McIver recovering for the Mountaineers on the Buff 24-yard. Brown drove to the 1-yard line, then Dockery carried into pay dirt for the TD. A pass attempt for the extra points failed. The Buffs got a nice return on the kickoff and drove to their 44-yard line as the quarter ended.

Failing to gain, the Buffs punted. The Mounties could not gain and punted back. The Buffs made one first down and punted. The Mountaineers made a first down and was stopped from making the second on a 5-yard penalty. Not able to make up the loss, the Mounties punted again. The half ended after the Buffs had gained 32 yards, to the Mountaineer 49-yard line, but could not keep the drive going. The Mountaineers had one play as the first half ended, with the score 14-0 for Santa Anna.

The Mountaineers took the kickoff and quickly lost 24 yards. Stewardson got off a short punt that went out of bounds on his 34-yard line. The Buffs just could not get going as they lost 3 yards on two tries and fumbled with Henderson recovering for the Mounties. Brown fumbled on the next play and the Buffs recovered on Santa Anna's 37-yard line. The Buffs drew a 15-yard penalty on the next play, then tried a long pass, but failed. They again attempted the long pass but Dillingham broke through the line and caused the passer to fumble. Dillingham recovered the ball back on the Buff 40-yard line. Brown carried two times and Dockery three times, with Dockery going over for the TD from 12 yards out. The try for extra points failed. The Buffs took the kick-off and drove back to the Mountaineer 44-yard line as the quarter ended.

The Buffs drove on to the Mountaineer 36-yard line but lost back to their 46 on a fourth down try and the Mountaineers took over. Ball handlers were Dockery, Simmons, Dockery, Brown, Simmons, Colbough, Brown and Dockery went through the line for 23 yards and the TD. Brown went wide around left end for the two extra points.

The Buffs took the kick-off back to their 31, lost 5 on a penalty, then fumbled (we could not determine who recovered this one). The Mountaineers lost from the Buff 25 back to the 36, then gained to the 26 on a fourth down try.

Trying the passing route, the Buffs completed a long one for 20 yards, then Williams broke up their attack by making the only pass interception of the game. The Mountaineers drove to the Buff 34, lost back to the 36 and fumbled again. The Buffs gained 15 yards, then lost it on a penalty. They had gained back nine yards of this as the game ended with the ball on the Buff 45-yard line.

FOOTBALL ROUND-UP

Members of District 9-A showed up well over the weekend. The seven member schools won five of their games and lost two. Three of the schools now have a 2-0 perfect record, two have a 1-1 record, one has a 0-2 record and one has a 0-1 record.

Santa Anna took the Cross Plains Buffalos to the cleaners, to the tune of 28-0, to break even thus far with a 1-1 record. Goldthwaite trounced the Class AA Dublin Lions 30-12, to give them a 1-1 record for the season also.

Bangs romped all over the Rising Star Wildcats, to the tune of 38-0, to keep their perfect record in tact. Burnet treated the Class AA Fredericksburg team about the same way by tromping on them to the tune of 21-0. Early kept up their perfect record by running over Class A Jim Ned Indians 26-0.

Copperas Cove took another beating, with Academy winning 22-0 and leaving the defending district champs with a 0-2 record. Marble Falls opened their season Friday night against Blanco and took a 33-6 pounding, giving them a 0-1 record.

Baird lashed Wylie 22-0, to continue their winning streak.

Rockwood News

By MRS. JOHN C. HUNTER

Rockwood young people are all back in school. Sissy Steward, LeQuinn Cooper, Louise Cooper and Mary Rehm are enrolled in Tarleton College in Stephenville; Mrs. James Steward, Don Hunter and Bruce Hornell are attending Howard Payne College in Brownwood; Judy Bryan and Vita Rehm are students in North Texas State University in Denton; Anita Broadway is a student in the School of Nursing at Scott & White Hospital in Temple.

Mr. and Mrs. E. G. Billings visited recently with relatives at Wickett, Monahans and with Mrs. Lucy Billings in Coleman.

Mr. and Mrs. John Kemp visited Friday to Sunday a week ago, with Mrs. Ray Gibson at Electra.

Mrs. Dick Inman of Abilene came Sunday to spend a few days with her parents, Mr. and Mrs. N. J. Buttry. Mrs. Buttry is still a patient in the Santa Anna Hospital, doing fairly well.

Mrs. Sherman Heilman was at Colorado City, visiting her mother, Mrs. Dena Ellis, Friday and Saturday. Mrs. Denver Ellis of Junction spent last week there and brought Mrs. Heilman home.

Mrs. Hilary Rutherford, Rocky and Dena Lee and Mrs. Loyd Rutherford of Brownwood visited in the Heilman home Sunday afternoon.

Sissy Steward spent Sunday with Mr. and Mrs. Jack Cooper.

Mr. and Mrs. J. E. Porter of Utopia visited during the week end with Mr. and Mrs. Johnny Steward.

Mr. and Mrs. Ely Kelley of Coleman spent Sunday with Mr. and Mrs. James Steward and Jamie Kay.

The Home Demonstration Club will meet Wednesday, Sept. 26, at 2:00 p. m. at the Community Center. Plans will be made for a Halloween Carnival and the Homecoming.

Mrs. Era Blackwell went to Stephenville Monday to spend a few days with her daughter, Mrs. Roland Caudle and family.

Mrs. Uless Maness of Brownwood and her guests, Mrs. Cora McFarlin of Falls and Mrs. Vera Lovelady of Brownwood, were at the Maness farm Friday and Mrs. Era Blackwell was a dinner guest.

Sunday guests with Mrs. Mena Shuford were Mrs. Epha Bowers of Coleman, Amos Caldwell of Dallas, Mrs. A. L. Crutcher and Ludy Jane and Bruce Hornell. Amos Caldwell visited with Mr. and Mrs. Lee McMillan also.

Raymond Boatright of Hobbs, N. M., and Taylor Boatright of Coleman spent Sunday with Mr. and Mrs. Leffel Estes and family. The Leffel Estes family visited Sunday afternoon in Coleman with Mr. and Mrs. Cecil Day and children and the Taylor Boatrights.

Mr. and Mrs. John Hunter visited Thursday to Saturday in Temple with Mrs. Letrice Benedict and other relatives. They visited at Lometa with Rev. and Mrs. C. A. Miller.

The Rev. Jan Daehnert preached at the Baptist Church at the Sunday services and was a dinner guest with Mr. and Mrs. Bill Steward.

Mr. and Mrs. A. L. King visited in Midwest City, Okla., with Mr. and Mrs. R. C. Arnold and Meri Jan, Thursday to Monday. Mr. and Mrs. Fred Rothermel of Shawnee, Okla., were also guests. They visited Mr. and Mrs. Vernon Norris and family and saw their beautiful new home.

Mrs. Jessie Fowler of Coleman visited last Thursday with Mrs. Hyatt Moore. Mrs. Lee McMillan visited Monday. Mr. and Mrs. Bruce Snodgrass of Killen spent Saturday and Sunday. Edwin Fowler of Coleman visited Sunday afternoon.

H. E. Cheatham and son, Walton, of San Antonio, spent the weekend with Mr. and Mrs. Claud Box.

Mr. and Mrs. Boss Estes and

Mike spent the weekend at Galveston with Douglas.

Linda McIntire spent last Wednesday night with Loretta Broadway, Mary Etta Broadway and Judy Nell visited Sunday in the McIntire home and Linda spent Sunday with Loretta.

Mrs. Bill Polk of Salt Gap was a Friday supper guest with Mrs. Mary Brusenhan and Joe McCreary. Mrs. Matt Estes visited Saturday afternoon with Mrs. Junior Brusenhan and Mrs. Mary Brusenhan.

Louise Cooper of Tarleton College was home for the weekend. Mrs. Alfred Cooper of Brady visited Mrs. Elec Cooper Monday afternoon.

George Rutherford was admitted to the Santa Anna Hospital last Wednesday. The Elec Coopers visited him Sunday afternoon.

Mrs. A. L. Crutcher and Ludy Jane were Friday evening visitors with the Sleepy Garner family at Rochelle. Ludy Jane visited Grandmother Crutcher Monday afternoon.

Mr. and Mrs. Drury Estes visited Monday afternoon with Mrs. Mena Shuford.

Gene McCreary of Houston spent Sunday night with his aunt, Mrs. Lon Gray and Mr. Gray, enroute to Lubbock to attend Texas Tech.

Mr. and Mrs. J. E. Richardson of Coleman visited Saturday with Mr. and Mrs. M. A. Richardson. Sunday guests were Mr. and Mrs. Ronald Cooper and family of Snyder and Mr. and Mrs. Cecil Richardson and boys.

Mr. and Mrs. Miller Box of Fort Worth were at their home here Friday and Saturday.

Mrs. Lee Miller spent the week end with Mr. and Mrs. C. N. Davenport in Coleman. Mrs. Dalton Davis and friends came for her. They visited Saturday afternoon in Bangs with Mrs. Fannie Pike and in Brownwood with Harrell Pike and family. Mrs. Miller and Mrs. Davenport visited with Mrs. Pike in Bangs again on Sunday.

Among those visiting last week at the hospital with Mrs. Buttry were Mrs. Tom Bryan, Mrs. Era Blackwell, Mr. and Mrs. Matt Estes, Boss Estes, Miss Ludy Jane Crutcher, Nikki Johnson, Rev. Bruce Hornell, Mrs. Byrd Arnold, Mrs. Tatum, Mrs. Goen. Mrs. Kate McIlvain visited in the Buttry home. Mrs. Buttry appreciates the cards and flowers from friends.

Boss Estes took Mr. Buttry to Brownwood for an eye check and new glasses.

The Rev. Bruce Hornell filled the pulpit at the Methodist Church Sunday morning. He was a dinner guest with Mr. and Mrs. John Hunter.

Mr. and Mrs. Ted McCarthy of Dallas spent last weekend with Mr. and Mrs. Ray Caldwell. Mrs. McCarthy and Mrs. Caldwell went to Dallas Tuesday to Sunday and Mr. McCarthy remained to hunt with Mr. Caldwell. While there Mrs. Caldwell visited her sister, Mrs. Ida Mae Wamsley. Mrs. A. N. Cullum accompanied them back Sunday. She and the McCarthys returned to Dallas Tuesday. While here they visited Mr. and Mrs. R. L. Steward. The girls took Mrs. Steward to Brady Hospital Monday for a check up and Mr. Bob had lunch with Ray and Ted.

Mrs. Joe C. Barnes, Joe Gilbert and Bobbie of Grand Junction, Colo. visited Mr. and Mrs. R. J. Deal last Thursday. The Deals spent the weekend at Fort Stockton with Mr. and Mrs. Rolan Deal and children. Joe Deal of Abilene visited in the Deal home briefly Monday evening.

Mr. and Mrs. Douglas Avants and children of Brady spent Sunday and Mr. and Mrs. Henry Barker of Brady were Monday guests with Mr. and Mrs. John X. Steward.

Visitors in the Emmett Stiles home over the weekend were in San Angelo; Mr. and Mrs. E. Sharon Ann Stiles, student nurse W. Meador of San Antonio; Mrs. A. F. Sisk and children and Mrs. George Dawson and children of Coleman.

Mr. and Mrs. Bill Scott of California spent last week in the home of Mr. and Mrs. Buddy DeSha and family.

Mr. and Mrs. Dan Tindol, Bobby and Mike, spent the weekend in Victoria with their daughter and family, Mr. and Mrs. Frank Deaver, Lydia and Paul, who is two weeks old. Mr. and Mrs. Dan Tindol Sr., of Beville, spent Sunday in the Deaver home.

Mr. and Mrs. Fred Perry of Bangs visited Friday with Mr. and Mrs. Dan Wheatley. Saturday evening visitors were Mr. and Mrs. W. W. Rosser and boys.

Mr. and Mrs. G. C. McDonald received word Sunday that their son, George (Junior) of Chubut, Argentina, South America, will be home this week. George has worked for an oil company in Chubut several years and will return to Argentina after his vacation in Texas.

Sunday Mr. and Mrs. Troy Fitzhugh took their son, Riley, to Denton, where he will attend North Texas State University. They returned home Monday.

James Naromore of Cleburne spent Monday night with the Bert Fowler family.

Mrs. Geo. Cobb visited her mother, Mrs. Jim Watkins, in San Angelo on Friday. She also visited an aunt, Miss Eunice Goodall of Junction, who is a patient in a San Angelo hospital.

Mr. and Mrs. Roy Gamble of Ballinger were guests of Mr. and Mrs. Roy Bledsoe on Sunday.

Francene McClure spent Sunday with Mrs. E. S. Jones. In the afternoon they visited the Noble Carpenter family at Santa Anna.

Mr. and Mrs. Bert Fowler were in Abilene Monday. Bert had a check up and got a good report.

Sunday visitors with Mr. and Mrs. George Wheatley were her parents, Mr. and Mrs. Riley McFarlin of Baird and Mrs. Ura Dillingham and Richard.

Mr. and Mrs. Fred Shields of Santa Anna and their daughter, Mrs. Nell Thate of Coleman, visited Sammie Shields Sunday afternoon.

Mr. and Mrs. John Hunter and Mrs. Walter Yancy and Sandra visited Mr. and Mrs. Bert Turney Sunday afternoon.

Mrs. Floyd Morris visited with Mrs. Florence Carter last Thursday afternoon. Sorry to report Mrs. Carter not feeling so well.

Mr. and Mrs. Tom Rutherford attended memorial services for Mrs. Homer Burden in Santa Anna Sunday afternoon. Our sympathy is extended the bereaved.

Mr. R. A. Baker was with his daughter, Mr. and Mrs. Darwin Lovelady and Randel last week, going to Brownwood Sunday afternoon.

Cheryl Fitzpatrick visited Linda Rutherford Sunday afternoon.

Mr. Lesley Stanley of Gustine visited during last week with his brother, Mr. and Mrs. Cleburne Stanley and daughter, Linda.

I received a letter from Mrs. Babe Gardainer today, informing me she would enter Shannon Hospital in San Angelo Sunday afternoon, Sept. 16, and would undergo surgery there Tuesday morning at 8:00 o'clock. Would be nice for friends to remember Mrs. Gardainer during her illness. The Gardainers are former residents of our community, now living in Brady. Mrs. Gardainer stated she would probably be hospitalized 10 days.

Becky Turney of Santa Anna visited with Jana and Cindy England during the weekend.

Present were Mrs. Henry Smith, Mrs. Bill Bryan, Mrs. Lon Gray, Mrs. F. E. McCreary, Mrs. R. J. Deal and Mrs. Ray Caldwell.

Mrs. Junior Brusenhan directed a program on "Look at Communism" at the church Monday, assisted by Mrs. Matt Estes, Mrs. Evan Wise, Mrs. Bill Bryan, Mrs. F. E. McCreary.

ROCKWOOD WMS REGULAR MEETING

The Woman's Society of Christian Service met at the Rockwood Methodist Church Monday to study the Twenty-First Annual Report of the WMS meeting, held at the First Methodist Church in Corsicana.

Mrs. M. A. Richardson led the responsive scripture reading and gave the prayer. Mrs. Tom Bryan led the closing prayer. There were six members present.

GO TO CHURCH SUNDAY.

Shields News

By MRS. E. S. JONES

Rain Sunday night and early Monday measured .6 inch at Shields. The measure on the Dan Wheatley farm was .3 inch; Jones farm, .7; D. S. Milligan, 1.4; Leonard Williams, 1.2. Other reports indicate more than an inch to the south and southwest parts of the community.

Mr. and Mrs. Darwin Watson, Patricia and Sherry of Fort Worth, spent Sunday with her parents, Mr. and Mrs. Geo. Stewardson and attended the funeral of her aunt, Mrs. Homer Burden at Santa Anna.

Mrs. Grady Williams and children spent Sunday in Coleman with her grandmother, Mrs. Manley Williams. Other visitors were her mother, Mrs. Emmett Lowe of Hale Center and Miss Mabel Williams and Larry Williams.

Guests in the Glenn Scarborough home on Sunday were Mr. and Mrs. Haynes and Jimmy of Gouldbusk and Mr. and Mrs. Manton Jameson and Johnny of Leaday.

Mr. and Mrs. Fred Perry of Bangs visited Friday with Mr. and Mrs. Dan Wheatley. Saturday evening visitors were Mr. and Mrs. W. W. Rosser and boys.

Mr. and Mrs. G. C. McDonald received word Sunday that their son, George (Junior) of Chubut, Argentina, South America, will be home this week. George has worked for an oil company in Chubut several years and will return to Argentina after his vacation in Texas.

Sunday Mr. and Mrs. Troy Fitzhugh took their son, Riley, to Denton, where he will attend North Texas State University. They returned home Monday.

James Naromore of Cleburne spent Monday night with the Bert Fowler family.

Mrs. Geo. Cobb visited her mother, Mrs. Jim Watkins, in San Angelo on Friday. She also visited an aunt, Miss Eunice Goodall of Junction, who is a patient in a San Angelo hospital.

Mr. and Mrs. Roy Gamble of Ballinger were guests of Mr. and Mrs. Roy Bledsoe on Sunday.

Francene McClure spent Sunday with Mrs. E. S. Jones. In the afternoon they visited the Noble Carpenter family at Santa Anna.

Mr. and Mrs. Bert Fowler were in Abilene Monday. Bert had a check up and got a good report.

Sunday visitors with Mr. and Mrs. George Wheatley were her parents, Mr. and Mrs. Riley McFarlin of Baird and Mrs. Ura Dillingham and Richard.

Mr. and Mrs. Fred Shields of Santa Anna and their daughter, Mrs. Nell Thate of Coleman, visited Sammie Shields Sunday afternoon.

Mr. and Mrs. John Hunter and Mrs. Walter Yancy and Sandra visited Mr. and Mrs. Bert Turney Sunday afternoon.

Mrs. Floyd Morris visited with Mrs. Florence Carter last Thursday afternoon. Sorry to report Mrs. Carter not feeling so well.

Mr. and Mrs. Tom Rutherford attended memorial services for Mrs. Homer Burden in Santa Anna Sunday afternoon. Our sympathy is extended the bereaved.

Mr. R. A. Baker was with his daughter, Mr. and Mrs. Darwin Lovelady and Randel last week, going to Brownwood Sunday afternoon.

Cheryl Fitzpatrick visited Linda Rutherford Sunday afternoon.

Mr. Lesley Stanley of Gustine visited during last week with his brother, Mr. and Mrs. Cleburne Stanley and daughter, Linda.

I received a letter from Mrs. Babe Gardainer today, informing me she would enter Shannon Hospital in San Angelo Sunday afternoon, Sept. 16, and would undergo surgery there Tuesday morning at 8:00 o'clock. Would be nice for friends to remember Mrs. Gardainer during her illness. The Gardainers are former residents of our community, now living in Brady. Mrs. Gardainer stated she would probably be hospitalized 10 days.

Becky Turney of Santa Anna visited with Jana and Cindy England during the weekend.

ROCKWOOD WMS REGULAR MEETING

The Woman's Missionary Society met last Wednesday evening at the Rockwood Baptist Church for a study entitled "Enlistment for Missions," with Mrs. Evan Wise directing the study. Others

WEDDING SHOWER TO HONOR NEWLY WEDS

Hostesses invite each and everyone to a shower honoring Mr. and Mrs. Loyd Rutherford Saturday night at 8:00 p. m. at the Community Center. Remember, if you read this or hear about the shower, you are invited.

We, in this community, feel like we are on the upward trail of time again. We received from 1 inch to 1½ inches of rain Sunday afternoon and early Monday morning.

Mr. Elon Cheatham of San Antonio visited last Tuesday in the home of Mr. and Mrs. Earl Cozart. Elon and Mrs. Cozart are cousins. We were pleasantly surprised last Friday afternoon when our son, Thomas Ray, called from

Soil Conservation Service News

Interest in the Great Plains Conservation Program in Coleman County is still very good, according to Bob Walkup, Range Conservationist, with the local Soil Conservation Service. Thirty three applications for assistance have been received by the local Soil Conservation Service. This represents approximately 42,240 acres of land in Coleman County, which is within the Central Colorado Soil Conservation District. A total of 20 contracts have been developed with producers, which represents 24,947 acres.

Results of the program are very good, with many needed conservation practices being applied. Several of the producers had very good results with establishing more permanent grasses such as sidecoats grama, K. R. bluestem and green sprangletop. A total of 1298 acres have been seeded to these grasses, of which 718 acres were seeded on old cropland. In the very near future 9513 rods of fence will have been completed by the producers. Some of these fences were constructed to divide large pastures to get a better seasonal use of forage. Other fences were constructed around cropland that was seeded to range grasses to give protection until the grasses are well established.

Brush Control, which is another good range management practice has been applied on 1643 acres. Coupled with the brush control, 3939 acres of rangeland has been deferred thus far this year. Each of the producers have planned to defer all their rangeland at least once every three years for at least three consecutive months during the growing season.

Other practices which have been completed or planned to be complete during the contract period are Proper Range Use, Water Wells for Livestock Use, Water Storage Facilities, Pipelines, Farm Ponds, Diversion Terraces, Field Terraces, Grassed Waterways, Contour Farming, Conservation Cropping Systems, Crop Residue Use, and Cover Crops.

The objective of the Great Plains Program is to assist farmers and ranchers in developing and carrying out, on a voluntary basis, a plan of operations that will bring about greater stability through cropping and grazing systems and land use changes and the application of enduring soil and water conservation practices.

For additional information contact the local Soil Conservation Service.

Safest Cars on the highway may well be those with gaudy paint jobs such as yellow and blue, according to the American Medical Association. A car decorated in this fashion makes it easier for other motorists to judge how far away it is, says the AMA.
