

AUSTIN, Tex. — One day after receiving a 40-year service award from the Texas Highway Commission, State Highway Engineer Dewitt C. Greer announced his retirement.

Greer reached the mandatory age of 65 on July 27, but he agreed, at the behest of the Commission, to stay on the job until the end of the year.

Li. Gov. Preston Smith, acting governor while Connally hunts in Africa, called on Greer at his office to present him with a framed copy of a proclamation making August 4 "Dewitt C. Greer Day" in Texas.

A celebration commemorating the Highway Department's

took the oath to begin an unprecedented third six-year term on the Commission.

Woodward, who succeeds Petry as chairman, was first named to the Commission in 1955.

AGENCIES — A deed has been signed by the School Land Board giving the United States the minerals under 47,895 acres in Guadalupe Mountains National Park.

Two days of hearings, October 17-18, have been scheduled by the Texas Water Rights Commission on proposed cancellations of unused water rights for diversion of water from the Rio Grande, indicating that the Commission will apply the newly passed Water Rights Adjudication Act to Rio Grande rights first.

Water Rights Commission has found that directors of Brazoria County Water Control and Improvement District No. 8 have failed to comply with the law by appointing directors to fill vacancies for which there is no unexpired term of office; by not holding annual elections for directors; by assessing taxes which are not equal and uniform; by not appointing a board of equalization; by collecting too much from the District for services and expenses; and by not calling a special election to fill vacancies.

Board of Insurance put the new driver penalty point system into effect on August 1. By levying \$8,459,362 in penalties on drivers who had wrecks or serious traffic offenses during the year just ended, the Board was able to cut average rates by one percent.

Texas Employment Commission reports that a total of \$8,200,000 in unemployment insurance benefits was paid to eligible claimants in Texas during the April-June quarter.

PRICE - FIXING SUIT — State of Texas has filed a price-fixing suit against 5 big drug firms.

Suit, entered in federal court at Dallas by Atty. Gen. Crawford Martin, seeks triple damages totaling about \$12,000,000 from the producers of aureomycin, terramycin and tetracycline products.

Drugs involved are used to treat both human and animal diseases and as animal feed supplements.

According to Martin, the federal government already has an anti-trust suit pending against the same firms, Charles Pfizer and Co., Inc., American Cyanamid Co., Bristol-Meyers Co., Olin Mathieson Chemical Corp., and the Upjohn Co.

**HERB ALPERT & TIJUANA BRASS SET**  
OCT. 10 & 11 AT 1967 STATE FAIR

Herb Alpert and the Tijuana Brass will bring their witty, upbeat, romantic — and above all happy — sound to the 1967 State Fair of Texas for two performances in the Cotton Bowl at 8 p.m. Tuesday, Oct. 10, and Wednesday, Oct. 11. Mail orders for reserved seats are now being accepted at State Fair Attractions, P. O. Box 26268, Dallas, Texas 75226.

Martin alleges that the drug manufacturers charged state and local governments "unreasonably high" prices for the antibiotics through a conspiracy to limit their manufacture and sale.

Furthermore, the attorney general contends, the firms' actions inflated prices to retail druggists, wholesalers, private hospitals and the consumer.

Martin estimated more than \$3,000,000 has been spent by state and local governments alone between November, 1953, and November, 1956, to buy antibiotics for use in public-supported hospitals, schools and other institutions and health or welfare programs.

Other states are contemplating similar suits, Martin said, and state attorneys general will discuss the case at their conference in Portland, Ore. on August 29.

HEALTH GRANTS SOUGHT — Seventy-eight health facilities have applied for federal Hill-Burton construction grants of more than \$34,500,000, about twice as much as is expected to be available for Texas.

New 1968 Texas State Plan for Construction and Mod-

ernization of Hospitals and Related Medical Facilities now is available for review at the state Department of Health.

Hill-Burton Act provides funds to help finance construction and modernization of general hospitals and long-term facilities, diagnostic or treatment centers, rehabilitation facilities, tuberculosis hospitals and public health centers.

Dr. J. E. Peavy, State Commissioner of Health, said the 1958 plan indicates ever-increasing use of health facilities.

APPOINTMENTS — Lieutenant Governor Smith has made these appointments: Sens. Henry Grover of Houston, George Parkhouse of Dallas and David Ratliff of Stamford to Interim Committee on State and Local Tax Policy; Sens. Henry Grover of Houston, D. Roy Harrington of Port Arthur and A. R. Schwartz of Galveston to a Special Committee to Study Texas Beaches; and Sens. Chet Brooks of Pasadena, Tom Creighton of Mineral Wells, Barbara Jordan of Houston, Jim Wade of Dallas and Charles Wilson of Lufkin to the Study Committee on Emergency Hospital Treatment.

House Speaker Ben Barnes has made these appointments: Rep. Richard C. Slack of Pecos to the Legislative Budget Board to succeed Rep.

Maurice Pipkin, who resigned from the Legislature to become executive director of the State Judicial Qualifications Commission; Raleigh Brown of Abilene to the Governor's Committee on Interstate Co-operation; Rep. Ben Atwell of Dallas, W. C. Sherman of Fort Worth and Hudson Moyer of Amarillo to the House Concurrent Committee on State and Local Tax Policy; and Reps. Charles Jungmichel of La Grange, Dean Neugent of Texas City and Gus Mutscher of Brenham to the Interim Committee for the Study of Land Uses and Environment Control.

State Finance Commission appointed Francis A. Miskell, Regulatory Loan Commissioner, to serve as Consumer Credit Commissioner, effective October 1. Post was created to administer the Consumer Credit Code passed by the 60th Legislature.

ATTORNEY GENERAL Martin has ruled that:

- Personal car mileage & meals during travel on official business, office rental and parking space fees are among legal expenses which legislators now can charge to the state under their \$1,000 a month expense allowance.
- Counties now are required to pay the fees of lawyers appointed to represent juveniles in proceedings to determine whether they will be tried as adults.
- County tax assessors are not authorized to require a taxpayer to use the tax rendition forms they prescribe.
- Guadalupe, Blanco River Authority property, not

necessary to business of the district, may be sold to either the original owner or others. But GBRA may not make improvements solely for the purpose of selling surplus land.

EDUCATION — Amarillo College has received approval from the Coordinating Board to establish a two-year registered nurses' training program. First class will be accepted in 1968. College also has received a \$37,000 research grant from the Texas Education Association to plan curriculums for its School of Health Occupations.

### AS IT LOOKS FROM HERE

Omar Burleson, M. C. 17th District, Texas

Washington—It would be a refreshing change if all of us at the Federal level, and particularly the President of the United States, would simply say, "We are in a mess and there are a lot of things which are going to have to be done to get out of it. Much of it we don't like, and the people will not like, but it is necessary in the interest of

our nation." At 8:30 on Thursday morning of last week at a White House conference, the President layed before the Chairmen of Committees of the House of Representatives, including Members of the Appropriations and Ways and Means Committees, the fiscal situation now immediately facing us.

Unless certain things are done, it is estimated there will be a \$29 billion deficit in the fiscal year 1968. This is the period from June 30, 1967 to the same time next year. To reduce the deficit, the president says there must be a 10 per cent surtax increase. This simply means that when corporations and individuals determine the amount of tax we now pay under present rates, 10 per cent will be added. Those with incomes under \$5,000 will not be affected. As an example, a family of four with a \$10,000 income would pay \$120 extra in taxes if this rate is enacted by the Congress.

This rate is calculated to raise \$7 1/2 billion. In addition, the President says that

Federal employees' salaries should not be raised beyond the 4 1/2 per cent recommended in the budget, and that to raise it to the extent now being proposed in the Congress would cost another billion.

He also recommends the sale of \$2 billion in securities held by those Federal Agencies such as the Farmers Home Administration, Small Business Administration, the Veterans Administration, and so forth.

This reduces the total estimated deficit to \$18 1/2 billion, and ways will be looked for to reduce this in actual spending, with the hope it may be brought down another \$4 1/2 billion, coming up with a deficit of not more than \$14 billion. This would be the amount which would have to be borrowed to carry on the Government operation at the present level.

Non-defense expenditures in government now run about \$61 billion. Approximately two-thirds of this sum are fixed expenses such as interest on the public debt (over \$14 billion); veterans compensation and insurance pensions (\$5 billion); public assistance (\$4 billion); farm price supports (\$2 billion); medical payments out of general revenues (over \$1 billion); and others.

More than \$15 billion will be spent to complete contracts for obligations entered in prior years. An additional \$8 billion goes to pay Federal employees' salaries.

If the steps recommended by the president are taken, and the other estimates are about as set out in his recommendations, this leaves only \$12 billion over which he can exercise much discretion in the year ahead.

Congress needs to cut to the bone non-defense appropriations. It will have to do so if it sells the American people on a tax increase.

For some there comes to mind Horatio Alger's boy in "Bound to Rise." You may remember that Harry wrote to his father about losing his job in the cobbler's shop. He joined Professor Henderson, the ventriloquist, as his helper. Professor Henderson could throw his voice into a trunk, and from inside came the shout, "Let me out, let me out, or I shall die." The Professor also sold a little tin gadget that you put in the mouth, which with prac-

### New Farm Tool For Big Jobs

The operator does not have to leave the tractor seat to change blade positions, either horizontally or when angled for cutting depth, as when ditching.

Mechanization, which has changed many facets of American life, has had, and is still having, far reaching effects on farming practices. Land and water conservation programs have created demands for special use tools, particularly in areas where farmers depend upon a stored water supply instead of a kind Providence for their moisture needs. An irrigated farm operation of any size requires miles of irrigation ditches, and after they are built and in use, continual maintenance is required.

A special tool for this purpose has been developed by E. L. Caldwell & Sons, Inc., of Corpus Christi, Texas. It is called the Power Giant, and was designed for the man who has a big job to do in a hurry. It is for use on wheeled tractors of 100 horse power or

more. It will dig irrigation or drainage ditches, at a controlled depth, backfill, level land, terrace sloping land, smooth farm roads or road shoulders, etc. The seven-foot blade, mounted on a heavy curved moldboard, which rolls the dirt, can be set in an infinite number of horizontal positions, angled to cut shallow or deep, or offset to right or left, and it can all be done from the tractor seat, as Power Giant is completely hydraulic. The tool weighs 1190 pounds.

spiral. A huge deficit erodes savings, pensions, annuities and effects all income except that of a purely speculative nature. Most of us would like to be "let out," but the lesser of evils has got to be faced.

Our government is throwing a lot of money around in some pretty empty places and none of it is coming back. We mumble around over these huge figures, with everyone knowing that much more could be done to give us a safe fiscal condition, but the political ear is tuned in on so many programs of a popular nature that expenditures continue to climb upward. The cost of the Viet Nam war is greater than expected, and it continues to

### PUBLIC NOTICE Proposed CONSTITUTIONAL AMENDMENT NUMBER ONE ON THE BALLOT

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Section 9, Article VIII, Constitution of the State of Texas, be amended to read as follows:

"Section 9. The State tax on property, exclusive of the tax necessary to pay the public debt, and of the taxes provided for the benefit of the public free schools, shall never exceed Thirty-five Cents (35¢) on the One Hundred Dollars (\$100) valuation; and no county, city or town shall levy a tax rate in excess of Eighty Cents (80¢) on the One Hundred Dollars (\$100) valuation in any one (1) year for general fund, permanent improvement fund, road and bridge fund and jury fund purposes; provided further that at the time the Commissioners' Court meets to levy the annual tax rate for each county it shall levy whatever tax rate may be needed for the four (4) constitutional purposes; namely, general fund, permanent improvement fund, road and bridge fund and jury fund so long as the Court does not impair any outstanding bonds or other obligations and so long as the total of the foregoing tax levies does not exceed Eighty Cents (80¢) on the One Hundred Dollars (\$100) valuation in any one (1) year. Once the Court has levied the annual tax rate, the same shall remain in force and effect during that taxable year; and the Legislature may also author-

ize an additional annual ad valorem tax to be levied and collected for the further maintenance of the public roads; provided, that a majority of the qualified property taxpaying voters of the county voting at an election to be held for that purpose shall vote such tax, not to exceed Fifteen Cents (15¢) on the One Hundred Dollars (\$100) valuation of the property subject to taxation in such county. Any county may put all tax money collected by the county into one general fund, without regard to the purpose or source of each tax. And the Legislature may pass local laws for the maintenance of the public roads and highways, without the local notice required for special or local laws. This Section shall not be construed as a limitation of powers delegated to counties, cities or towns by any other Section or Sections of this Constitution."

Sec. 2. The foregoing constitutional amendment shall be submitted to a vote of the qualified electors of this state at an election to be held on November 11, 1967, at which election all ballots shall have printed on them the following:

"FOR the constitutional amendment allowing counties to put all county taxes into one general fund."  
"AGAINST the constitutional amendment allowing counties to put all county taxes into one general fund."

## Health And Safety Tips

**From The American Medical Association**

Sometimes it's "housemaid's knee." Or "policeman's heel." By any other name it's still bursitis, and it is one of mankind's more painful and disabling ailments.

Bursitis, says the American Medical Association, means inflammation of a lubricating sac about a joint. The sac, called a bursa, is similar to a collapsed balloon with some fluid inside. It is located at various places in the body where joints or tissues touch or rub, and without cushioning, there would be friction.

Bursitis can hit at many points in the body, but most often occurs in the shoulder, elbow or knee.

In almost every case bursitis follows unaccustomed use or strain of an extremity. By taking a little time to work up to your physical condition, and especially by working up the muscles that you plan to use in any repetitive motion outside your normal activity (strengthening your wrist and arm before starting to paint the house, for instance) you can probably keep clear of this common and painful ailment.

If you get bursitis, no one need suggest that you see a doctor. The pain is so acute that you will be the first to seek relief.

In recent years science has learned much about bursitis, and there is much your doctor can do to relieve the pain.

As one indignant judge put it:

"What right has the defendant to shut out God's free air and sunlight from the windows of his neighbor, not for any benefit to himself but simply to gratify his own wicked malice? None whatever. The wanton infliction of damage can never be a right."

What if the fence-builder's motives are mixed - partly spite, partly practicality? For example, besides having a grudge against his neighbor, he may also have a legitimate use for a fence - perhaps as a windbreak or as a feature of some ornamental landscaping.

In that case, the law usually gives him the benefit of the doubt. The man may build his fence, even if the additional motive of tormenting the folks' next door adds zest to his labors.

But if the law gives its approval, it may also tack on a word of advice.

"A good neighbor is a great treasure," one court reminded an obstinate home owner. "We can generally have such treasures if we are neighborly ourselves."

It's Body Shaped

New Tub Made For People

From the hand-made bathtub of the western frontier (1) where men took baths once a month whether they needed them or not, 'til today, tubs were made for one purpose, to hold a lot of water. True, the first manufactured tubs were larger, like the "boat-with-feet" models of the 1800's (2). And later ones, like the side-wall types that came in during the '20's (3), offered "modern" design, but they were still made primarily just to hold water. Now bathtub manufacturers such as Crane Co. are going well beyond the original concept and considering the people using them, their safety in use and how they harmonize with the decor of the rest of the room. The Express (4), for instance, is the first "body-shaped" tub. It's tapered to allow extra hip and elbow room, and has a contoured backrest and bottom. Built-in innovations include a sturdy grab bar, an integral, easy-to-clean soap dish and a wide ledge for toilet articles. An optional slip-resistant bottom helps prevent injuries, while the tub's sculptured lines match modern design motifs.

Mr. and Mrs. Buck Mills and Karen of Olton, D. H. Moore and Mr. and Mrs. Pete Moore all visited their mother last week. Mrs. Sam Moore. Mrs. Clyde Greer of Brooksmith visited friends. Fred Tucker of the United States Marine Corps, was a visitor last week. Mrs. Frank McCreary visited Tena Steward, Mrs. Iva McMillan and Mrs. Ray Stafford. Starling of Denver City, visited at the Inn, also Julia Waglay of Brownwood, Fannie Albersson of May, and Walter Brown of Teague. Mrs. Gary Hosh of Abilene was at the Inn visiting her grandmother, Mrs. J. J. Horner. Margarete Horner and LeAnna Pollock lead the song services Sunday morning. Nancy Reynolds of Trent visited the Inn, also Josie Murphy of Brownwood. Jessie Hart and Mrs. Bow Moore of Coleman also visit-

ed. Mr. and Mrs. C. W. Stafford and family of Christoval visited his mother, Mrs. Ray Stafford. Visitors with Mrs. Dera Dribell last week were Mrs. Evelyn Gaines, Coleman, Rev. and Mrs. Compton Riley of Beaumont. Residents, employees and visitors are missing Mrs. Aliene Henner, administrator who is on a vacation. ate frozen meals for busy-lay cooks includes fish, scallop or shrimp dinners, tuna pies, shrimp, Newburg and chow mein with fish. Fish spoils quickly, so be careful to refrigerate it properly. Seafood should be defrosted in the refrigerator rather than at room temperature. Transforming your purchase into a business, a sandwich or a party buffet is the next step. Every year some fisherman loses a motor in the water because he forgot to use a tiedown chain or rope. Be sure every time you hang your outboard motor on the transom that there is a chain or piece of rope linking the motor to an eye-bolt on the transom. A motor at the bottom of the lake is useless. You can make an easy plug knocker by using a six-inch length of garden hose. Slit it unevenly. When your plug hangs, slip the piece of hose over the line and let it down. Usually if your line isn't wrapped, the weight of the hose will knock the lure loose.

The frozen-seafood case offers a variety of convenient products, reports Frances Reasonover, Extension Foods & nutrition specialist at Texas A & M University. Fish fillets, steaks and sticks are usually well represented. Fillets are the sides of fish cut away from the backbone. Steaks are cross-section slices of the larger fish, usually about 3-4 of an inch thick. Steaks are uniform pieces cut lengthwise or crosswise from fillets. Read carefully so that Dad's request for lake perch won't be filled by ocean perch instead, or vice versa. The case may contain cod, haddock, sole, whiting and numerous other fish. Breaded portions of boneless fish may be labeled fillets, cutlets, burgers and steaks. Other frozen seafood will be in various stages of preparation: cleaned shrimp to be cooked, breaded fantail shrimp ready to fry or fried shrimp ready to heat and serve. A sampling of other frozen seafood includes clamsticks, lobster tails and fish cakes. The selection of com-

**Proposed CONSTITUTIONAL AMENDMENT NUMBER FOUR ON THE BALLOT**  
BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:  
Section 1. That the Constitution of the State of Texas be amended by adding a new Section in Article III to be known as Section 52e, reading as follows:  
"Section 52e. Each county in the State of Texas is hereby authorized to pay all medical expenses, all doctor bills and all hospital bills for Sheriffs, Deputy Sheriffs, Constables, Deputy Sheriffs, Constables and other county and precinct law enforcement officials who are injured in the course of their official duties; providing that while said Sheriff, Deputy Sheriff, Constable, Deputy Constable or other county or precinct law enforcement official is hospitalized or incapacitated that the county shall continue to pay his maximum salary; providing, however, that said payment of salary shall cease on the expiration of the term of office to which such official was elected or appointed. Provided, however, that no provision contained herein shall be construed to amend, modify, repeal or nullify Article 16, Section 31, of the Constitution of the State of Texas."  
Sec. 2. The foregoing Constitutional Amendment shall be submitted to the qualified electors of this state at an election to be held on November 11, 1967, at which time the ballot shall have printed thereon the following:  
"FOR the Amendment to the Constitution authorizing each county in this state to pay the medical bills, doctor bills and hospital bills for all Sheriffs, Deputy Sheriffs, Constables, Deputy Constables and other county and precinct law enforcement officials who are injured in the course of their official duties; providing that these officials while they are incapacitated, but such salary payment shall not continue beyond the terms of office to which they were elected or appointed."  
"AGAINST the Amendment to the Constitution authorizing each county in this state to pay the medical bills, doctor bills and hospital bills for all Sheriffs, Deputy Sheriffs, Constables, Deputy Constables and other county and precinct law enforcement officials who are injured in the course of their official duties; providing that the county shall continue to pay the maximum salary of these officials while they are incapacitated, but such salary payment shall not continue beyond the terms of office to which they were elected or appointed."

THE WORLD'S MOST WIDELY USED DEVOTIONAL GUIDE

"Pass not judgment, and you will not be judged. For as you judge others, so you will yourself be judged." (Matthew 7:1-2, NEB)  
The teaching of Jesus on passing judgement is, like all His teachings, as modern as today. A teacher of mine was traveling by train from Assiut to Cairo. A few minutes before reaching Cairo, he said to the passenger sitting opposite him, "Please dust your fez. It is not nice to enter the great city of Cairo with a dusty fez."  
After hearing these words of criticism, the passenger glanced for a moment at the teacher. Then he retorted, "You better dust your own first."  
Apparently my teacher had forgotten that the dusty trip had had an effect on him as on his fellow passenger. His motive was commendable — he wanted to see the other fez clean. Yet the same criticism applied to him.  
The temptation is a common one — to see faults in other persons but miss seeing the same faults, or perhaps even more serious ones, in ourselves.  
PRAYER: O God, let the mirror of Thy Lord reveal me to myself. May the Holy Spirit remind me how I look. Teach me to look to Christ as my example and live in His spirit rather than being critical of what others look like. In Jesus' name. Amen.

Growing trees to a height of 17 feet in six months is no Texas tall tale. Texas Forest Service researchers have obtained this growth from cottonwood cuttings selected for outstanding growth characteristics. The trees are located in the Brazos River bottomland in Robertson County, on land owned by Texas A&M University. The planting is part of the tree improvement research program of the Service, aimed at producing the maximum yield of wood per acre for the production of paper. Savings with Fruits And Vegetables There are many "saving ways" with fresh fruits and vegetables, says Gwendolyn Clyatt, Extension consumer marketing specialist with Texas A&M University. Give some thought to your way of meal planning, then see if you can have better family meals at less cost. You are the best judge of what your family likes and how to cook it, so do the food shopping yourself. Carry a list of items needed, but keep it flexible. Take your time. Look around before you buy, and see what is the most fresh. Usually, your market manager has provided the best of the wholesale market has to offer for the day, so you have the advantage of this "pre-shopping" for you. Consider more than price. Check the "why" of a special. Specials on perishables such as bananas, pears, peaches, melons that are ripe and ready to eat make a good bargain if you plan to serve them right away. Keep in mind the quantity your family will eat. Most fruits and vegetables aren't the kind of items to stock up on, even with refrigeration. Buy enough for two or three days, but don't overload the refrigerator. It's too easy to tuck an item away and then forget it. The biggest is not always the best. Large size grapefruits and oranges, big potatoes and apples are not always your best buys. What counts is how you use them. For example, small size citrus fruits packed dozens in a bag are perfect for juice, while the large, thick-skin ones are fine for eating out of the hand. Small size potatoes to boil and serve in jackets save money, too.

Range Not Necessary For Good Meals If a bride has her heart set on a kitchen range that breaks the budget, should she settle for a lower priced model? Wanda Meyer, Extension home management specialist with Texas A&M University, suggests that there may be enough portable electric cooking appliances in her wedding gifts for her to get along until she can afford her heart's desire. With an automatic electric frypan, 3-quart saucepan, a 5-quart automatic buffet cooker and a portable oven, a homemaker can cook and serve good meals every day and be a good hostess when she entertains. There's the bonus benefit of the stay-hot features of plug-in electric cook - and-serve appliances. The built-in heating unit holds food at good serving temperature for 30 minutes or more after the cord is removed. If convenient, leave these appliances plugged in at a low setting. Of course, the number of dishes and the amount of food that can be prepared for one meal with these appliances calls for careful planning. The U. S. Department of Agriculture specialists have found in kitchen tests that these small appliances can be used satisfactorily to cook all types of foods. A talent for simplifying meals can result in good food with a minimum of dishwashing.

Julian Kelley of Dallas spent from Saturday until Tuesday with his parents, Mr. and Mrs. Ross Kelley, Talmadge Turner and Miss Doris Belle Turner visited in the Kelley home while guests of their parents, Mr. and Mrs. Arthur Turney. Mrs. Charles Ing of Brownwood was a business visitor in town Monday. Lee Riddle of Fort Worth is visiting his grandmother, Mrs. Lura Winger. Mr. and Mrs. Frank Shaw of San Saba visited with Mrs. Lula J. Bilbrey Saturday. Mr. and Mrs. Rex Turney were in Lampasas Sunday afternoon for funeral services for J. O. Greer. Mrs. Kate Helmer of Texas City Sunday night to be with her son, L. J. Lovelady, who had emergency surgery, Monday morning in the Houston Memorial Hospital.
