"He Profits Most Who Serves Best"

SMOKE

FROM THE MOUNTAIN

Seven local citizens have banded together and are taking turn about sitting up nights with loaded shotguns to catch the persons around here who are stealing gasoline from cars at night. The group wishes to add that the guns are NOT loaded with peas or salt and the men mean business. Luck to the catchers.

In response to the lost notice in this column last week, we have had several responses that the person in question was definitely not lost. We've acquired several "human bloodhounds" to keep track of him.

When the girl friend borrows the car and then loses the keys, that seems to us a case of having to walk whether you like it or not. And when you have to catch a train in about ten minutes that doesn't help the matter. At least that's what one young man here found out Tuesday.

Santa Anna was well represented at the Chamber of Commerce Convention if numbers counted. Many more mobs like that though and we'd all go on a Convention Strike. It was a hot convention especially if the temperature played a part.

What's this we hear about Jack Mobby finding empty ether cans in his car? Isn't your charm good enough to knock the ladies cold without using ether cans, Jack? Or just how come?

There was a good time had by all when Mr. Thate and Mr. Schreiber got on one of those bicycles built for two. They couldn't both engineer the thing and they both wanted to so for a while they were stranded there in the street until one of them weakened. We don't know who went out, but they finally got into the swing of the thing and tore out all over Main street like a couple kids. We've noticed several dignitaries lapsing back to the kid stage since the bicycle man came to town—ourselves included.

Spectators Are Urged to Give Funds for Games

Light Bills for Softball Must Be Paid by Contributions; No Games Next Thursday and Friday

The soft ball season has opened with success with the exception of financial arrangements, according to a report made by the Softball League Committee. Originally it was planned to pay the light bills by taking a collection at each game, but with two games a night scheduled the collections have not been enough to meet the amount needed for lights.

The committee makes an urgent request for everyone to contribute at the games when the hat is passed; if more is not collected in this manner, an admission charge for each game will have to be charged and in the long run will cost the spectators more.

Light costs for one night for two games, barring any delays, run up to \$4.00. Entrance fees cannot begin to take care of this expense and the care of the field. The committee states that the light fund must be taken care of by the spectators.

No games will be played next Thursday or Friday night of next week because of the school graduating exercises to be held on these nights.

The committee also states that the slow league, to consist of players who are not in practice enough to play with the fast league, has made little progress. However there are many men who want to play of the exercise who would like to organize this league. The committee is urging that these men get busy and work up a team since they are entitled to the field as well as the other players.

J. T. Garrett attended the Chamber of Commerce luncheon for secretaries and newspaper men Tuesday at the Wood.

National Hospital Day was celebrated at the Sealy Hospital Wednesday, May 12 with open house to 168 local and out-of-town adult visitors from 1 to 5 p. m. with the Alumni of the Nurses School acting as hostesses. Visitors were greeted by the Graduate Nurses and were conducted on an inspection through the hospital. A free clinic was conducted for all babies born in the Sealy Hospital with Dr. M. A. Ramsdell, pediatrician of San Antonio, in charge. The babies were thoroughly examined, records were made and advice given to the parents as to the care of their children. A total of 131 babies were examined in the clinic.

Dr. Ramsdell was associated with Dr. T. Richard Sealy preceding the war and since that time has been in San Antonio devoting his time to the study and care of children.

Following the inspection the visitors were served brick ice cream.

Many from Santa Anna registered during the day. Out-of-town guests were Mrs. Eugene Richey, Sonora; Mrs. Pat Mullens, Tuscola; Patricia Mullens, Tuscola; Gladys Kelly,

DOES THE MAIL-ORDER MERCHANT HELP YOU?

Did you ever stop to think just how much the welfare of your city depends on the success of your business houses? Did you know that the business men and merchants give more money and time and cooperation in keeping up the city schools, band, streets and all city enterprises and recreation facilities?

You are dependent every day upon money which citizens of your own home town have spent for improvements and the largest portion of that comes from your home town merchant.

What does the mail-order merchant do for the welfare of Santa Anna? Does he help support schools in your town? Does he contribute to programs, to financing your city band, to sponsoring city or county fairs? Does he care whether your churches are flourishing or make any contributions? No, he takes the money out of town and forever out of sight. It is never returned to you in benefits of any kind.

The money you spend with home town merchants is returned to you in increased prosperity to the city, in financial support of civic institutions. TRADE AT HOME AND GAIN SUPPORT THOSE WHO SUPPORT YOUR TOWN.

Keep the Rangers at Santa Anna Build the Ranger Home Now

The ex-Rangers voted to make Santa Anna their permanent meeting place for an annual reunion, because Santa Anna was home to the Rangers of the 70's.

Because we loved the ex-Rangers and were proud of the fact that they had voted this their home, local citizens and organizations pledged a Museum for the Ranger Relics to be placed in for exhibition. With that pledge Santa Anna went to sleep except for a few hard-working citizens and now the DANGER ZONE is approaching. Other cities are wanting to furnish this museum because they see that the Ranger organization amounts to something and because of the historical prestige which the group has.

Other cities do not just want and then sit back and hold their hands. They get up and do something about it. They are planning to offer their city as Ranger Museum Headquarters because it seems Santa Anna is too indifferent to care. They will profit by our negligence unless we, as a town, snap out of the daze immediately.

The ex-Rangers themselves have said time and again that they would rather come to Santa Anna than any other city because of the ties it holds with the past. The ex-Rangers of the 70's had their camp on the crossing of military road on Home Creek. But they need a building for their meetings here and a small museum in this building in which to keep the many valuable relics of the organization.

This city needs to raise half of the money for the project. The WPA project will equal the sum we place in it. The sum is not large. Are we going to do anything about it?

To refuse to respond will mean that sooner or later the Rangers may be forced to change the meeting place because they are not properly cared for here. Most of them have given to this fund so it can be built in Santa Anna — are we going to make the men to whom the memorial should be dedicated pay for it also? They have already paid in service.

If another city gets the Museum it means that Santa Anna is branded as a failure in a worthy project which failed due to lack of any civic pride or appreciation of these old Rangers. New York has invited them to meet there; San Antonio wants them; other cities want them. But the Rangers want Santa Anna. Would you turn your parent away from your door? Some of these ex-Rangers feel that this is home? Are you going to turn them away?

Get up some enthusiasm for the Museum Project. Pledge your financial support and your spare time in this endeavor. Let's be able to tell the ex-Rangers when they meet here in the summer that provisions are definitely made to care for them here. But get busy. Other towns are awake.

Recreation Project — A Worthy Program

After months of talking, planning and hard endeavor, Santa Anna at last has completed arrangements for providing youths and adults recreation activities in the form of athletic and social privileges and in plans for park construction.

Headed by loyal citizens and organizations and assisted by workers in the WPA, Santa Anna will have a fine recreational program to assist in developing moral, physical and social needs of boys and girls and the grown people of this town.

Regardless of the fact that some probably will not approve of all the activities sponsored in the indoor activity program which includes tap and acrobatic dancing, women's physical education, volley ball, ping pong and other games, the program will fill a need for helping the boys and girls enjoy athletics and social hours under the supervision of directors who know how to assist children and adults in getting pleasure and benefit from recreation of the proper sort.

No one can expect to keep up a high physical, social or moral standard among the youth or the adults when no provision is made to employ their leisure hours. Heretofore, the boys and girls have had nothing provided for them and naturally they devised their own ways of passing leisure time, and some of the results are not always gratifying.

It has been said that crime begins when the youth of the land begin standing on street corners to while away the time. Evil broods in idle time. The recreation program should eliminate to a large extent any such idleness among the young people if they will take advantage of their opportunities and if made attractive enough, the program will interest them.

Citizens and organizations should be congratulated upon their success in obtaining this feature for Santa Anna and should receive the cooperation of the citizens in the worthy projects planned.

Dynamite Needed

Recently a very important Trades Day meeting was called and a notice was placed in the paper, urging all members of the association to attend the meeting. Besides the written notice, officers made personal solicitations to merchants to attend because some very important business was to be discussed.

When all arrived, half an hour past schedule, approximately 10 out of 30 members were present — which is not what anyone would call a good percentage. Those present were with the business and disposed of it; yet probably some one will complain about the decisions made at a later date but were not interested enough to come to the called

Mrs. Boone Is Guest Speaker at Legislature

Former Santa Anna Resident
Makes Address at House
at Ausitn

Mrs. Lester C. Boone of Fort Worth received a round of applause from the spectators, at least, in the House of Representatives at Austin, when she spoke to that body last Tuesday when she opened her address with a wisecrack.

"This is the largest group of unemployed I have ever had the privilege of addressing," she said in her opening remark. The spectators in the gallery applauded, although there was not quite so much applause from the legislators.

Mrs. Boone is the daughter of Mrs. Frances Adams of Austin, and is a granddaughter of the late Mr. and Mrs. H. Valentine. Mrs. Boone was invited to speak before the House through a resolution signed by Lonnie Smith and other Fort Worth members.

Softball Rules Compiled Monday by Committeemen

Ground Rules for Games Set
to All Team Managers

Committee members in charge of the Softball League met Monday afternoon and compiled rules for games played to eliminate confusion about rules.

The following ground rules have been sent to team managers:

1ST BASE: A ball thrown past first base and going outside the fence, runner advances without liability of being put out to the base he is going to and one additional base.

3RD BASE: A thrown ball over or passing third base and hitting spectator or passing behind spectator, runner passes base going to and one additional base without liable to be put out; otherwise ball is in play.

HOME PLATE: Same as first base with the exception of pitched balls. If ball is stopped by backstop, it is in play.

FIELD: All balls hit in outfield are in play regardless of light poles, autos, or any other obstacle.

NIGHT GAMES: First game will start promptly at 8 p. m., playing for one hour or seven innings. Ten minutes between games. Second game will play for one hour or seven innings. It will not be called a game unless five innings have been played.

TEAMS: Each team must furnish at least one good ball each game and their own bats.

Oldest Mothers Receive Candies for Mother's Day

Two of the city's oldest Mothers received a large box of King's Chocolates from Walker's Pharmacy Sunday for Mother's Day. The two ladies were Mrs. W. D. Stephenson, 90, and Mrs. M. E. Chambers, 95.

For several years Walker's Pharmacy have asked the Mothers of advanced years to register at the store before Mother's Day and the oldest one who registers receives a large box of chocolates as a Mother's Day remembrance.

For the past three years, Mrs. Chambers has received the box, but this year Mrs. Chambers and her daughter, Miss Luella Chambers, thought that the honor should be passed to someone else and therefore Mrs. Chambers' name was not signed up.

When a check was made Mrs. Stephenson was the winner, but C. A. Walker, owner of the pharmacy, delivered a box of chocolates to both Mrs. Stephenson and Mrs. Chambers, since Mrs. Chambers is the City's oldest Mother and she was happy in the thought that the store had remembered her with the gift.

Ex-Ranger Dies From Injuries and Pneumonia

Funeral services for John Watts, ex-Ranger, were held at the Rocky Cemetery last Friday afternoon. His death was due to injuries in an automobile accident two weeks ago and to pneumonia.

Mr. Watts was said to be one of the first white children to be born in Coleman County. He was born in one of the Camp Colorado residence buildings when his father was stationed there as a private soldier about 1859. The present Watts Creek was named for two of his uncles, Lem and John Watts, who settled on a creek flowing into the Jim Ned.

Mr. Watts spent his boyhood in the old fort. When a child, the ex-Ranger witnessed a fight in which his older brother opposed single-handed six Indians.

In his first fight after he had joined the Rangers, Mr. Watts was badly wounded in the hip by an Indian arrow and was honorably discharged.

He is survived by the grandson with whom he lived.

Mr. and Mrs. David Eubank and son Ronald, and Mr. and Mrs. Marvin Rozelle of Wichita Falls spent the week-end with Mr. and Mrs. M. D. Eubank.

Liberty and Local H. D. C. Meet Together

The Santa Anna and Liberty Home Demonstration Clubs met Friday, May 7 at 2 p. m. in the local club room. The Santa Anna Club held a brief business session then the group sang "Motherhood the Beautiful."

Roll was answered with a household hint, followed by a short talk by Miss Alice Glenn Young on yard furniture.

She brought out that one of the nicest ways is to use a yard as an outdoor living room which gives a good place to sit in the evening and entertain for children. Furniture should be selected to follow family needs. It should be durable and well built, protected by a coat of paint. Different kinds of furniture that can be used to an advantage include camp furniture with canvas backs and seats, wooden or metal furniture.

Each club member gave plans and improvements on lawns and furniture. At the end of the discussion Mrs. Ford Barnes read "My Mother" and "Spick and Span." Mrs. John Williams, Mrs. Sam Forehand and Mrs. Roy Stockard sang a number, and Miss LaRue Curry read "A Letter to My Parents."

Some amusing games were played and a diverting contest was held. A refreshment plate of ice cream and cake was served to the following: Mrs. Welton Holt, Mrs. A. L. Williams, Mrs. R. S. Traylor, Mrs. George Evans, Mrs. William Sheffield, Mrs. J. B. Lowe, Mrs. Jim Scott, Mrs. C. T. Malone, Mrs. Alan Lynch, Mrs. Collin Price, Mrs. Max Price, Miss La Rue Curry, Mrs. W. F. Holt, Mrs. C. A. Curry, Mrs. Sander-son, Mrs. J. W. Taylor, Mrs. S. K. Moredock, Mrs. R. R. Lovelady, Mrs. Sam Forehand, Mrs. Leo Scott, Mrs. Roy Stockard, Mrs. Virginia Burrow, Mrs. W. O. Garrett, Miss Jossie Baxter, Mrs. W. A. Standley, Mrs. Tom Upton, Mrs. Ford Barnes, Mrs. Walter Vanderford and Miss Alice Glenn Young.

The Rae-Echo club was invited to attend the meeting but was unable to be present.

The next regular meeting of the local club will be Friday, May 21 at 3 p. m. in the club-room.

The topic for discussion will be Arrangements of Dresser Drawers. Mrs. R. R. Lovelady, bedroom demonstrator, will conduct the demonstration.

The next meeting is the last time at which the club may select candidates for delegates to the Texas Home Demonstration Association Annual Convention.

Mother's Day Dinner Given at Nichols Home

Mr. and Mrs. B. B. Nichols were surprised by their children and friends on Mother's Day with a big dinner.

S-A-H-S SCHOOL SPIRIT

Spirit is as vital to the life of a person as is breath to the life of a person. To make this a power for good there must be enthusiasm, good sportsmanship, participation in games, attendance at games and loyalty. Loyalty makes itself felt in the care of the building as well as in the maintenance of school traditions.

Cooperation covers a broad field; it includes a sincere desire to attempt to see the point of view of teachers and executives, an appreciation of their problems and an endeavor to maintain a courteous attitude in every part of the school building.

S-A-H-S Mother's Day Program Presented in Scribblers Club

Thursday morning, in the Scribblers club, the program was presented by the Juniors. At the beginning of the program red and white roses were pinned on each member. Gale Collier told a Mother's Day story followed by a poem entitled, "Mother," given by Elizabeth Morris. The program was very much appreciated by the club.

THE CAUSES OF FAILURE AMONG STUDENTS

The real reason that high school students fail to receive all that is for us to receive is that we do not take our work seriously. Most of us say that the reason that we go to school is because our parents make us, or some of us say that we go to school so that we can have a good time.

Usually if we stop long enough to really think the matter over, we see that we go to school because we really want to. When, for some reason, one of us has to stop school, he then realizes that his school meant more to him than he ever realized. Any one of us who is really interested in his work will not be a failure, because he will study hard and strive to be a success. The trouble with most of us high school students is that too much of our time is spent in social gatherings. If we would take only half of the time that we spend having a good time and use it for studying, we would discover that we can make much better grades.

Then, the solution to this problem is to take our work more seriously. When we realize that our later life depends largely upon our success at school, we will study more and there will be less failures.

What is the "Low-price Field"?

YOU hear a lot about "the low-price field" these days. A good many cars claim to be in it. So whenever the low-price field is mentioned, remember:

Until Ford came, no average American could own a car.

Today all Ford prices are still low — with the prices of the 60-horsepower Ford V-8 \$30 to \$60 lower than those of any other car of comparable size.

But with Ford, "low price" doesn't merely mean low figures on the price tag. It means much more than that. It means low prices and low costs all the car's long life. Low prices for service — for parts — and, above all, for operation.

Both Ford V-8 engine sizes are economical to operate. The 85 horsepower gives greater gasoline mileage this year than ever, and the "60" delivers the highest mileage in Ford history.

Private owners, cab companies, fleet operators all report that the "60" averages from 22 to 27 miles per gallon of gasoline.

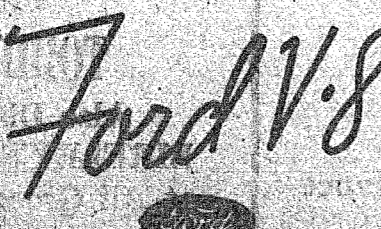

Check and see how much Ford saves you.

Ford Founded the Low-price Field Ford Keeps That Field Low-priced Today

Ford V-8 Prices Begin at \$529

AT DEARBORN FACTORY. TRANSPORTATION CHARGES, STATE AND FEDERAL TAXES EXTRA

This price is for the 60-hp. Coupe equipped with front and rear bumpers, spare tire, fuses, windshield wiper, rear view, glove compartment and salt tray.

\$25 A MONTH, after usual down-payment, buys any Ford V-8 Car from any Ford dealer in the U. S. — through Authorized Ford Finance Plans of Universal Credit Co.
