SOCIETY

Mrs. C. O. Moody Entertains Club and Guests Recently

Mrs. C. O. Moody of Coleman entertained the New Deal Club and many Santa Anna guests and visitors recently with seven tables of bridge at her home, 1707 South Concho Street.

A yellow and green color scheme was used in decorations and the refreshment table. Prizes were won by Mrs. E. D. McDonald of Santa Anna, high guest, Mrs. George Rhone, second high guest, Mrs. R. A. Gardner, high club, and Mrs. M. E. Weaver, second high club.

Others present included Mesdames R. D. Boyers, C. F. Cavanaugh, Sam T. Dowtry, E. C. Edens, J. F. Gaines, J. E. King, Kenneth Knowles of Long Beach, California, B. B. Nunley, Ben Pessels, H. A. Robertson, C. V. Robinson, W. P. Stobaugh, Alton Beach, T. A. Clark, R. O. Caldwell, Ray Gilliam, Roy Miller, J. C. Richards, H. A. Seidal, Gerald Swann and Aubrey Childers, Dewey Pieratt, R. I. Lovelless, and J. Riley, add of Santa Anna and Marion Pollard of Dallas.

Friends Enjoy Barbecue Sunday at Shield Home

Friends from Santa Anna, Coleman and Brownwood were guests of Mr. and Mrs. Elgean Shield Sunday afternoon for a barbecue at their home north of Santa Anna.

The guests arrived early in the afternoon and stayed late into the evening enjoying the delicious barbecue supper. Those present were Mr. and Mrs. Karl Wallace of Brownwood, Mr. and Mrs. Pat Warren of Coleman, Mr. and Mrs. Ed Wallace and children of Santa Anna, Mrs. Judge Woodruff and children of Santa Anna, Mr. and Mrs. Johnnie Henderson of Coleman, Mr. and Mrs. James T. Padgett of Coleman, Mr. and Mrs. S. Cavanaugh of Coleman, Mr. and Mrs. Will Roberts of Brownwood, Mr. and Mrs. James Padgett Jr. of Brownwood and Dr. and Mrs. J. M. Nichols of Coleman.

Know Texas

DENTON, MAY 6.—"Thirty foot" tales are now in order, since the Texas fishing season has opened. As the yearly trek to water-holes throughout the state begins, old Isaac Walton should thrill at the variety of fish and fishermen native to the Lone Star State.

Classifying Texas anglers according to the prey they seek, there are the freshwater sportsmen, who want a good fighting fish, such as spotted and largemouth black bass or the handsome yellow bass. On the coast "Silver King," or tarpon has won the title of "greatest game fish" and more daring anglers set out every year to find a 30 to 300 pound specimen of him or of a Sheepshead, another popular fighter.

The "barefoot boys" go after little Blue-spotted Sunfish and the familiar Rock Bass, both of which are found in ponds, creeks and rivers around patches of vegetation. Other common freshwater varieties out of the 130 represented in this state are the six-inch Blue and Red-eared Sunfish, the foot-long crappies or White Perch, the long, slender, destructive Little Pickereels in East Texas, and the whole family of Catfish.

The bad name given to Catfish is unfounded, since the Blue and Spotted Varieties caught in the Trinity and San Jacinto rivers are excellent to eat, and caviar is made from the eggs of the spoon-bill cat in East Texas. The yellow mud cat, which is more voracious and less clean-

Trinity Canal to Remove Physical Barrier To Lone Star State's Industrial Progress

FORT WORTH.—Removal of the greatest physical barrier to the profitable industrialization of Texas, namely the remoteness of the rich mid-state region from tide-water, is seen by the All-South Development Council in the imminent realization of the dream of a canalized, commerce-bearing Trinity River.

This engineering feat bringing Fort Worth and Dallas to the seacoast, figuratively speaking, hailed as a boon to the movement for the encouragement of industry, which is gathering momentum throughout the state, may be soon a reality, the Council's report says. Revision in the plans has reduced the number of locks to 21, cutting the estimated cost from \$102,000,000 to \$80,000,000. Furthermore, powerful arguments supporting the economic justification for the project have been prepared and documented, and the Council states that proponents of the canalization plan look for a successful outcome of the hearings which will soon be held in Washington.

The physical problem of Trinity canalization is extremely simple, according to Gen. Herbert Deakyne, formerly chairman of the U. S. Army Board of Engineers for Rivers and Harbors, who is here in charge of preparing a report on the engineering plans for the project. From the recently completed Eagle Mountain and Bridgeport lakes, just above Fort Worth, will come the bulk of the water used to move modern, Diesel-engined towboats through the 21 locks along the straightened, 400-mile course from Fort Worth to Galveston bay. Experts estimate that these lakes, the new Mountain Creek lake near Dallas, and other slack-water pools in the area, will provide easily twice as much water, at any time, as the canal will require.

This will not be a disconnected, isolated project, the Council points out, but a valuable link in an integrated inland waterway system that serves 60 per cent of the nation's population. This is true because it will connect with the Intra-coastal canal at Galveston and thence with the Mississippi, thus tying up to the great canals and rivers that serve the prosperous Midwest.

Strong support which is rallying behind the move to establish this long-sought connection between Texas' rich interior and tidewater is indicative, observers feel, of determination being manifest in all parts of the state, to obtain for Texas the benefits of new industry—increased payrolls, diversified production and a consequent sharing of the tax burden which is now borne by a comparatively few industries. Many forward-looking groups which are pressing for a sound state policy of taxation to reassure industries already located in the state and bring to Texas prospective investors of new capital, are also mobilizing to put engineering skill at work on this waterway which they regard as a pivotal point in the broad program of building for the future of the Lone Star state.

Mrs. H. L. Voss A Mother's Day Tribute to a Real Mother

It has been well said that God could not be everywhere and so he made Mothers. They have always had a leading part in futherer His will on earth and most great men ascribe unto their mothers the major part of the credit for their success.

And so it is fitting that once a year we observe Mother's Day, when a people, perhaps thoughtless at other times, place crowns of appreciation upon their mothers.

A mother worthy of such homage was our friend and neighbor, Mrs. H. L. Voss who on April 30th at 12:37 a. m. set sail for "That land beyond the blue."

She lacked 12 years reaching her "three score and ten" but she lived wisely and well, lovingly discharging every obligation and responsibility during the years allotted unto her.

In the past she had been very active in the Missionary Society of her Church, the Woman's Christian Temperance Union, the Parent Teachers Association and other organizations whose aim it is to make the world a better and happier place in which to live.

Because of failing health her work of late years had centered in the home. Here as wife, mother and grandmother, she reigned as one of America's uncrowned queens.

Never was she more happy than when doing something that would bring joy and gladness to others. She was especially efficient in the sick room. Her kindnesses extended beyond her family to relatives, friends, and neighbors. No blare of trumpets accompanied her benefactions, but she heeded Mathew's admonition, "Let not thy left hand know what thy right hand doeth."

So on next Sunday when Mothers are being honored and as the preachers eulogize Sarah, Hannah, Dorcas, Lydia, Eunice, Lois and the Marys of the Bible, our memories will recall the kindly ministrations and neighborly deeds of Blanche Spence Voss.

"Year after year as we journey through life, Visions of childhood e'er shine through the strife; Memory turns back to our happiest days, Mother and home! Whom our hearts ever praise." A Friend.

Say you saw it in the News.

School Supervisor Praises Local System

Deputy State Superintendent S. Ozell Murdock of San Angelo spent Tuesday in local schools and was high in his praise of work being done as well as the department and response of students. His official record will come from Austin soon.

Additional accrediting was granted in all courses being taught for which applications had not previously been made for affiliation. This included one unit in typing, one unit in General Mathematics, and one-half unit in Commercial Arithmetic. This will bring Santa Anna's accrediting with the Department of Education up to 30%.

Doss Smith of Whon was in Santa Anna Monday on business.

RUPTURE

SHIELD EXPERT HERE H. M. SHEVNAN, widely known expert of Chicago, will personally be at the Brownwood Hotel, Brownwood, Monday, only May 10, from 9 A. M. to 6 P. M.

Mr. Shevnan says: The Zoetic Shield is a tremendous improvement over all former methods, effecting immediate results. It will not only hold the rupture perfectly but increase the circulation, strengthens the weakened parts, thereby closes the opening in ten days on the average case, regardless of heavy lifting, straining or any position the body may assume no matter the size or location. A nationally known scientific method. No understraps or cumbersome arrangements and absolutely no medicines or medical treatments.

Mr. Shevnan will be glad to demonstrate without charge. Add. 6411 N. RICHMOND ST., Chicago. For 15 years assistant to F. H. Seeley, famous rupture expert of Chicago.

Resettlement Has Second Birthday

This week marks the end of the second year of the Resettlement Administration, which, in Coleman County, has made 218 loans to farmers for a total of \$61,237.

R. K. French, county supervisor, announced that during this two-year period the Resettlement Administration has also made 288 non-repayable grants in the county for a total of \$4,746, in addition to the loans.

The supervisor said when Resettlement Administration was set up two years ago, its first job was to take over farm families formerly on relief, and to make these families again self-supporting. Detailed plans of farm and home management were worked out with each family, and backed by loans for the necessary supplies, livestock and equipment.

"More than 18 per cent of Texas farmers have incomes ranging from \$400 down to less than nothing. A typical member of this group," the supervisor said, "spends on an average only \$1 a month for food, only fifty cents a month for clothing, and only five cents a month for medical care." He pointed out that these families can develop, in the aggregate, an enormous purchasing power, if properly financed and supervised.

"Many farmers included in the Resettlement program last year had never before known what it was to grow a garden or to own a cow or chickens," the supervisor said. "Most of them had no team or tools. Resettlement plans worked out last year enabled such families in Texas to buy 26,599 horses and mules and 7,932 milk cows. These families planted 19,762 gardens and put up more than five million pounds of dried meat and vegetables as well as more than three and a half million cans. A total of 57,540 loans to such families were made in Texas during the past two years by the Resettlement Administration, for \$11,978,654. The number of non-repayable grants was 195,900 for \$1,547,032.

The Debt Adjustment Section of Resettlement in Texas, working through volunteer committees in each county, has not only assisted in saving 816,131 acres of land from foreclosure on 3,529 farms, but has also brought about refinancing through which \$33,400 in delinquent taxes has been paid to state and county treasuries.

To help put land into the hands of low-income farmers,

KINGS HERE ON VISIT FROM RANGER

R. O. King and three sons of Ranger arrived in Santa Anna Wednesday upon receipt of word that Mr. King's father-in-law, H. H. Brown had died earlier in the week. A telegram was sent Monday from here to Mr. King but was never received at the Ranger telegraph office and Mr. King did not know of Mr. Brown's death until after the funeral.

Mr. King said that a check up on the telegram showed that the telegram had been sent from the local office so that the delay was not from this source.

ATTENDS FUNERAL

Boswell McAnelly went to Del Rio last Friday to attend the funeral of his aunt, Mrs. R. D. McAnelly. Boss McAnelly, father of Boswell, has been in Del Rio with his brother for some time and will remain with him on the ranch there.

The late Mrs. McAnelly came from England when she was 16 years old. Funeral services were held Saturday.

Mrs. Dena Franklin and children, Mr. and Mrs. John Jordan, Jr. and Mrs. Charlie Harris spent last week-end in Corpus Christi. They were accompanied home Monday by Mr. and Mrs. Todd Jordan who will visit this week in the Jordan home.

What has become of all those old-fashioned children who used to be referred to as "a credit to their parents?"

Say you saw it in the News.

F. F. A. OFFICERS ELECTED FOR 1937-38

Next year's F. F. A. officers were elected Thursday, April 29 at the high school. Those chosen to lead the group are Buddy Lovelady, president; Burton Gregg, vice-president; Joe Brunton Flores, secretary; Vernon Oakes, treasurer; Ford Holt, reporter; Shag Garrett, farm watch dog; J. T. Garrett, parliamentarian; Lewis Evans, historian; Wyndell Rowe, song leader; Leon Copeland, band master.

Lets Talk about Clothes

TEXAS STATE COLLEGE FOR WOMEN (CIA)

DENTON, May 6.—Spring fashions are breaking out all over the country, and from everywhere comes the cry, "How can I be different?" Standardization of the evening silhouette this season means that details alone can decide whether a dress shines in a crowd or is classed as "the usual thing."

Those who like the ultra-simple small-waisted, full-skirted dancing frocks could try one of the sheer, hooded capes for newness. Over a dress of taffeta or some other crisp material, a filmy wreath of chiffon, loosely gathered, invisibly fastened at the neck, framing the face softly, and hanging in irregular folds almost to the floor is good for that effectively wistful look.

Marquisettes, organzas, nets, mousseline de soie and other cloudy materials are best set off by tricky little taffeta mess jackets or by loose, big sleeved coats with four or five pleats or gore in back, usually finger-tip length. So far as the dress itself is concerned, highlights which are making history with girls at Texas State College for Women are narrow or broad bands of pleats around the many-yarded hemline, shirred bodices, flowers dotted over skirts and lack of bareness except for a low front neck-line.

As important as the dress itself is the slip worn with it. For sheer frocks a color combination between dress and slip will give the smart chameleon effect. For close-fitting costumes look around for one of the zipper slips that banish all fear of queer bulges in the wrong places. Since transparent fabrics are definitely leaders now, this season's petticoats should be as carefully selected as those of our grandmothers.

Advertising doesn't cost—it pays

Jack and Mary Going to Fair

They're in again, and this time in person—Jack Benny and the quipping Mary Livingstone, radio's favorites, who will appear July 3, 4 and 5 at the Pan American Exposition in Dallas. In a glass broadcasting booth, the No. 1 comedy team of the air will perform in the Cotton Bowl stadium, where 47,000 international fair-goers can sit and watch. They headline the fourth week of the Exposition, which opens June 12.

Demonstrator Stories

In order to keep one's clothing in good condition with the least amount of work, a well-equipped closet is necessary, says Zella Smith, Wardrobe demonstrator of the New Central 4-H Girls' Club. Zella is working to bring her closet up to standard by adding a shelf above the rod for hats, shelves in one end for folded garments, a shoe rack, and papering the inside with white paper to make the closet lighter.

Besides working on her closet Zella has taken an inventory of all clothing on hand and has made a wardrobe plan of the clothing she will need to buy during 1937. She is also keeping a clothing expense account in order to find out just how much money is spent on her clothing in a year. This record will be most helpful another year in helping Zella plan for her clothing needs to the best advantage for the amount of money to be spent.

In February Inez Williams, garden demonstrator of the Echo 4-H Girls' Club made her garden plan providing for enough row space to produce a sufficient supply of vegetables for her family this year. As her garden is only 15 ft. by 36 ft. Inez will have to make several plantings during the year to fill the family budget for vegetables.

The garden plot was deeply cultivated well in advance of planting to insure better growth of the vegetables. Then Inez planted squash, okra, onions, corn, tomatoes, lettuce, cucumbers, beets, beans, and English peas. As soon as the vegetables begin to come up she will begin giving her garden careful, thorough cultivation, and dusting or spraying for insects if necessary.

West Texas Women and Club Girls Plant Gardens

County home demonstration agents in West Texas have been busy with garden demonstrations as members of home demonstration clubs and 4-H club girls plant gardens to provide fresh vegetables and material for canning.

"I have been getting spinach, onions, radishes, and turnip greens out of my garden for a month," Mrs. John Turmes, food supply demonstrator of the Grand Falls home demonstration club in Ward county, said at a recent meeting. Mrs. Turmes also has strawberries and a bed of parsley which she is using for garnishing and for sale.

A group of Mexican girls in Presidio county, who have never had a garden, have planted one garden for the entire club and will all take part in planting and caring for the vegetables.

A new home demonstration club in El Paso county, composed of 10 Mexican women, has planted gardens to fit the size and needs of the members of the families and will can some of the vegetables produced.

"I have my 4-H club garden well under way," Lucille Eckert, garden demonstrator in the Pecos-Pratt 4-H club in Nas-

Relative of Local Residents in Follies at WTCC Convention

Miss Nettie Bell Batton of Littlefield, oldest great granddaughter of the late Mr. and Mrs. Henry Volentine, and a distant relative of Mrs. Theo Kirkpatrick and the Hunters, will be one of the featured entertainers in the West Texas Follies of 1937 at the West Texas Chamber of Commerce Convention in Brownwood.

Miss Batton has gained recognition as a dancer and singer. The program in which she will appear will be given at the convention next Monday and Tuesday nights. Girls representing West Texas Towns, who will appear in the Follies will be judged for their beauty and the queen will be crowned "Miss West Texas."

Whon News

Mr. and Mrs. Leonard Jamerison of Coleman visited Miss Ina Smith Sunday.

Miss Alpha Mae Johnson spent Tuesday night with her sister, Mrs. Ida Herring.

Mrs. George Hunter was removed to the Sealy Hospital from the Scott and White Hospital at Temple last Sunday afternoon. Mrs. Hunter is very ill.

Rev. Riley McFarlin has returned home from Monahan and he now lives in Whon.

Miss Aline Fisher from Doole spent the week-end with Mrs. Charlie Gill.

Mr. and Mrs. Jimmie Gill and Mrs. M. T. Kight left Sunday for Edna, Texas to visit Mrs. Kight's father, Mr. Stacy.

Rev. L. P. Jennings filled his regular appointment at the Nazarene Church last Sunday.

Mrs. Dick Deal has been sick but is much better.

HONOR ROLL FOR WHON

First grade: Gene Deal, Luella Diaz; second grade: Doris Smith, Lucille Diaz; third grade: Sylvia Fiveash, Joe Diaz, Joyce Gill, Sammie Jack Black; fourth grade: Allyn Gill; eight grade: Vean Trotter.

on county, reported at a recent meeting of the club. Lucille's garden was fertilized, plowed deep, and well pulverized before planting was done. Among the vegetables which have been planted and are up to a good stand are beets, radishes, okra, squash, onions, eggplant, English peas, beans, cauliflower, corn, and cucumbers.

West Texas Farm Women Begin Home Improvement Demonstrations

Impetus has been given to every phase of home improvement carried on by home demonstration club women in West Texas by the establishment of goals for the repair-the-house demonstration which will be carried in El Paso county on a county-wide basis for the next three years. The way was blazed for the demonstration last year by 16 Wharton county women who enrolled with the idea of completing the rehabilitation of their homes in two years.

Kitchen improvement work in San Saba county began well this year with 10 demonstrators reporting that they now have their work tables built into the wall. Mrs. George Munsell of Live Oak had surplus lumber on hand, so she and two other club women have built her a movable kitchen work space and cabinets. A wood box that is filled from the outside to prevent rubbish from getting on the floor is found in the wall of the model kitchen of Mrs. B. Hubberts of Colony.

As interior home improvement demonstrator for the Bakersfield home demonstration club in Pecos county, Mrs. Kate Padgett has varnished her breakfast room chairs, made attractive covers for them, made curtains for the windows, and varnished the linoleum. The floor has been stained with a stain made at home according to the directions given by the county home demonstration agent.

In order that home demonstration club women of Brown county might reach the goal of adding a magazine rack or book shelf during 1937, a demonstration has been recently given in each club on making these articles from fruit boxes. Two were shown as examples, one having been made from shot gun shell boxes at a cost of 60c and the other from orange crates at a cost of 70c for paint, molding, and rollers.

W. R. Kelley returned last week from Houston where he visited for several days with his daughter Mrs. H. B. Buzar and family.

BTU Plans Program In Honor of Mothers

The Baptist B. T. U. will sponsor special Mother's Day programs Sunday honoring the mothers of the church. All mothers are extended a special invitation to attend the unions in which their children are members.

Three bouquets of flowers will be given away, one to the youngest mother present, one to the oldest mother present, and one to the mother having the most of her children present with her at the programs.

A. L. Lewallen will give several piano solos.

B. T. U. will be over in time for the church to attend the Methodist Revival Sunday night.

PROGRAM FOR SELF CULTURE CLUB ANNOUNCED

May 14th
Alexis Carrel, M. D.
Roll Call.
Review—"Man the Unknown."
Mrs. J. R. Banister.
Hostess: Mrs. J. L. Harris.

MOZELLE BOY KILLED BY LIGHTNING MONDAY

Jim Mack Jones, 18 year old athlete at Mozelle High School, was killed by lightning which struck an iron chain he was using to draw water from a well Monday afternoon on his father's farm.

Services were held Tuesday at the Brown Ranch Baptist Church.

The boy was a junior at Mozelle and was captain-elect of the 1937-38 football team. He was the son of Mr. and Mrs. Will Jones of Fisk.

Louis Pittard was in Santa Anna Monday from his farm at Coulbush.

J. C. Hunter of Rockwood was a visitor in Santa Anna Monday.

BUCKY and his PALS

THE SAMOYEDE

IS THIS YOUR DOG?

THE SAMOYEDE COMES FROM SIBERIAN RUSSIA, WHERE IT WAS ORIGINALLY BRED BY A TRIBE CALLED "SAMOYEDS" FOR USE AS A SLED DOG, FOR HUNTING, AND HERDING REINDEER. USUALLY WHITE OR CREAM-COLORED. HT. 22 IN. WT. 36-45 POUNDS. AN EXCELLENT HOUSE DOG.

BACK HOME AGAIN

By Ed Dodd

Corns

Lift Right Out!

FREEZONE does it! Puts the corn to sleep—deaden pain—and in a few days makes it so loose in its bed of flesh that it lifts right out! Hard corns or soft—all yield to FREEZONE. It helps calluses, too. Get a bottle at any drug store and walk in comfort!

FREEZONE

Thereby Hangs a Tale
Big Game Hunter—"Yes, sir, once when I was eating a hasty lunch in the jungle a lion sneaked up so close to me I felt his hot breath on the back of my neck. What do you suppose I did?"
Bored Listener—"Turned your coat collar up?"

Wedded Bliss
There was a young lady named Ginter,
Who married a man in winter;
The man's name was Wood,
And now—as they should,
The Woods have a cute little splinter.

Unbalanced Budget
Mrs. Gabley—"So you're in Vassar, Miss Seymour. Tell me, what course are you taking?"
Miss S—"Political economy."
Mrs. G—"Really? But isn't that a waste of time? You'll never be able to teach these politicians to economize."

Inflation and Deflation
Sambo—"What do inflation and deflation mean?"
Ephraim—"Nigger, don't you know what dat means? At first de dollar git so big it look like de ocean; den it git so little it look like a drap ob water."

A LITTLE FUN Jokes to Make You Laugh

Tough Luck
Mr. Smith—"My wife dreamed last night she was married to a millionaire."
Mr. Brown—"You're lucky. Mine has dreams like that in the day-time."

Hale and Hearty
The quack was selling an elixir which he declared would make men live to a great age.
"Look at me," he declared. "Hale and hearty, and I'm over 120 years old."
"Is he really that old?" asked a listener of the quack's assistant.
"I can't say," replied the assistant. "I've only worked for him 90 years."

Just the Seat
Willie was being measured for a spring suit of clothes.
"Do you want the shoulders padded?" asked the mother.
"Not the shoulders," replied Willie. "Just the seat."

Never Again
The proud parent of twins called up the newspaper office to report the happy event. The girl at the desk didn't quite get the message.
"Will you repeat it?" she asked.
"Not if we can help it?" was the prompt reply.

Seeds Inside
Jenkins—"What are you burying in that hole?" You act rather suspicious.
Neighbor Duff—"Just replanting some of my garden seeds, old man."
Jenkins—"Seeds! That looks more like one of my white leghorn hens."
Duff—"That's right, the seeds are inside of her."

Confusion Explained
An eminent architect was being cross-examined in court.
"You are a builder?" asked the State's attorney.
"No, I am an architect."
"Well, is there a difference?"
"Yes, an architect conceives the design, prepares the plan—in short, supplies the mind. The builder is but the machine which puts it together."
"A very ingenious distinction without a difference," rejoined the attorney sarcastically. "Could you tell this court who was the architect of the Tower of Babel?"
"There was none," replied the architect very calmly. "hence the confusion."

Not So Crazy
A visitor at an asylum was watching one of the inmates pushing a wheelbarrow upside down.
"That's not the way to push that thing," the visitor exclaimed. "You've got it upside down."
"Oh, have I?" answered the lunatic. "I used to push it the other way, and they put bricks in it."

Most Sensitive
Teacher—"Will you tell us which is the most delicate of the five senses and give your reasons?"
Tommy—"The sense of feeling is the most delicate because when you sit on a pin you can't see it, or hear it, or taste it, or smell it, but you know it's there."

His Demand
A prominent politician, who had just taken part in an election where the voting was found to be illegal, was called up on the telephone one day and informed that he was the father of triplets.
Becoming greatly excited, he shouted into the receiver: "I demand a recount."

Uniforms of Lobbyists
Alabama's legislature is considering a bill which would require lobbyists to wear uniforms so they can be identified, each group wearing a distinctive costume. Here are some of the styles proposed:
Railroaders: Overalls, carrying an oil can and a switch lantern.
Public utility men: Carrying a roll of wire in one hand and a hand-telephone set in the other.
Insurance business: In a rubber coat, high boots, and a fireman's bonnet.
Educational interests: Cap and gown and a coonskin coat.
Bankers: Old gold uniforms and one black eye.
Druggists: A white uniform, carrying a tray of ham sandwiches and a box of pills.
Medical men: Internes' uniforms, carrying a stethoscope and a bottle of smelling salts.
Liquor dealers: Large white apron, carrying liquor labeled: "Bottled in Bond, by Knockout Distilleries."

Young Geologist
Father and son were enjoying an afternoon in the country.
"Just fancy, William," said the father, pointing around him, "at one time these fields were covered by sea, and fish were swimming about on the very spot where we stand."
"Yes, papa," said little William, suddenly stooping.
"Look, here's an empty salmon can."
Robert's Diplomacy
Teacher—"Robert, I'm afraid I'll have to send a note to your father."
Robert—"You wouldn't if you knew how jealous that would make mother."
A Break for Dad
Son—"Tomorrow is dad's birthday. What shall we do for him?"
Daughter—"We might let him have his car for a day."
In Style
My wife thinks of nothing but motoring and golf. I'm getting tired of it.
Well, at least she's in the fashion.
Yes, but she's such a failure at it. In golf she hits nothing, and in motoring she hits everything.

"MADE TO ORDER FOR ROLL-YOUR-OWNERS"

RA IS MILD, BUT THERE'S PLENTY OF BODY AND GOOD RICH TASTE!

says PETE KERSCHER, who allows he's never seen the equal of Prince Albert!

PETE KERSCHER says what most everyone agrees on in this section: "I've never seen the equal of Prince Albert for smooth, cool 'makin's' cigarettes. I smoke steady all day, but P.A. is always mild and tasty. Never bothers my throat or tongue."
Around here Prince Albert is the choice for those TASTY "makin's" cigarettes. Rolls fast, burns SLOW and COOL because "crimp cut." The special "no-bite" process makes it EASY on the tongue. PRINCE ALBERT MEANS REAL PIPE JOY TOO!

70 fine roll-your-own cigarettes in every 2-ounce tin of Prince Albert.

Intestinal Worms
Where there is any indication of infestation whatever in the flock, the use of worm remedies is advisable at once before the chickens are allowed out in order to prevent contamination of the soil and therefore spread of the infestation. After the worm remedy has been used, it is well to keep the birds confined for 2 or 3 days and clean out all litter and droppings, removing them to a screened manure pit or manure shed. Using these precautions now at the beginning of the season will help considerably to keep down intestinal worms in the flock.

Turkeys on Restricted Range
Turkeys do not necessarily have to be grown on free range, although they will do considerably better on free range than if they are restricted. Where they are grown on a restricted range, some provision should be made for alternating this range so they do not have to stay on the same small area of land throughout the entire growing period.

Need New Range Ground
Many times chicks grow and develop splendidly until they are let out of doors. Then they seem to lose their gloss and sparkle. This is very probably due to the fact that they have been put out on ground that is not clean. If poultry has been grown on these lots before, the chicks must fight the contamination they pick up there. This has sapped some of their vitality. They may be strong enough to resist the infections if all conditions are favorable, but it will slow up growth and lessen their chances of making the most of their feed and care. There is no time like the present to get the range ready for young stock, as it will soon be time for chicks to be moved out on the growing range.

Keeping Out Rats
Rats will burrow down anywhere from 2 to 3 feet below ground. You should have no difficulty with a poultry house, however, if you have a cement floor in it and a cement foundation. Where there are no such floors some poultrymen and flock owners bury wire to a depth of between 2 and 3 feet around the entire house, particularly if the house is a small one, so that rats will find it difficult to burrow through and get up on to the poultry house floor. This is not necessary with concrete foundation and concrete floors, however.

The WINDOW SILL GIVE-AWAY

MELVIN PURVIS FORMER ACE G-MAN
invites all boys and girls to become SECRET OPERATORS

MELVIN PURVIS, former Ace G-Man, who founded the Junior G-Man Corps, has formed a new organization, called Melvin Purvis' Law-and-Order Patrol. Members are called Secret Operators. They have special codes, passwords, and Order Patrol. Members are called Secret Operators. They have special codes, passwords, and special equipment. Here is one of the many adventures, taken from the secret files and published to prove that CRIME DOES NOT PAY. As the story opens, Melvin Purvis has invited two of his Secret Operators to have Sunday night supper at his New York headquarters...

GEE! POST TOASTIES SURE DO TASTE GOOD FOR SUNDAY NIGHT SUPPER!

THAT'S RIGHT! ALL MY SECRET OPERATORS HAVE THEM FOR BREAKFAST—FOR A MID-AFTERNOON SNACK, TOO!

Suddenly, out of the bitter cold winter's night comes a frantic phone call...

THIS IS CANNONDALE, THE AIRPLANE MANUFACTURER... I HAVE THE SECRET PLANS FOR A NEW BOMBING PLANE OUT HERE AT MY LONG ISLAND HOME, AND I'M AFRAID THERE'S GOING TO BE SOME TROUBLE...

I'LL BE RIGHT OUT, MR. CANNONDALE!

MY CHAUFFEUR TOLD ME HE SAW A COUPLE OF SUSPICIOUS CHARACTERS HANGING AROUND MY AIRPLANE PLANT -- SO I TOOK THE PLANS HOME WITH ME, BUT I STILL DON'T FEEL SAFE...

I HAVE AN IDEA!... TOM, TRY EVERY WINDOW IN THE HOUSE!

NO USE IN THAT, MR. PURVIS. I TOLD MY CHAUFFEUR TO LOCK THEM ALL -- AND ANYWAY, WITH THE SNOW PACKED ON THE WINDOW-SILLS, EVERY WINDOW IS FROZEN TIGHT.

THE LITTLE WINDOW IN THE BUTLER'S PANTRY OPENS EASILY, MR. PURVIS!

JUST AS I THOUGHT -- ONE WINDOW'S BEEN FIXED! -- I'LL STAND BESIDE IT AND BE READY TO GRAB ANY ONE ENTERING... TOM AND BETTY, YOU STAND BEHIND THE SOFA AND KEEP YOUR EYE ON THE SAFE WHERE THE PLANS ARE HIDDEN!

Midnight that night, the servants have retired, the chauffeur is in his room over the garage, the house is quiet...

IT'S BLACKMAIL, THE MECHANIC I HAD TO FIRE! I GUESS THAT SOLVES EVERYTHING!

WAIT! THERE'S AN "INSIDE MAN" IN ON THIS JOB. EXAMINE ALL THE SALT SHAKERS FOR FINGERPRINTS, TOM... MEANWHILE, MR. CANNONDALE, CALL IN ALL THE SERVANTS!

THERE ARE FRESH PRINTS ON THIS ONE, MR. PURVIS!

GRAB THAT MAN!

WELL, YOUR CHAUFFEUR WAS THE "INSIDE MAN" -- THESE ARE HIS FINGERPRINTS ON THE SALT SHAKER!

SO THAT'S WHY MY CHAUFFEUR WANTED ME TO BRING THE SECRET PLANS HERE!

HOW MELVIN PURVIS DEDUCED THAT IT WAS AN "INSIDE JOB":

I knew that all the windows should have been frozen tight, due to the snow and ice packed on the sills outside. I also knew that, if one window opened easily, it was likely that salt had been used to prevent freezing and enable the window to be opened silently even in the bitter cold hours of the night... therefore, whoever had left fingerprints on a salt-shaker was probably the "inside man"!

WELL, WE'VE SAVED THE AIRPLANE PLANS-- AND THOSE TWO CROOKS ARE GOING TO MAKE A FORCED LANDING IN JAIL! ... YOU TWO SEEM TO HAVE EATEN UP ALL YOUR POST TOASTIES-- HAVE SOME MORE?

YOU BET, MR. PURVIS!

JUST TASTE THAT RICHER FLAVOR

from the tender hearts of the corn!

HERE'S the grandest-tasting breakfast treat a family ever had... a bowl of Post Toasties with rich milk or cream!

That's because Post Toasties are made from the sweet, tender hearts of the corn, where most of the rich flavor is stored. And each golden-brown flake is toasted double-crisp in order to keep its crunchy goodness longer in milk or cream.

Post Toasties are great for after school, too--or for a bedtime snack.

For a special treat, try Post Toasties with fruit or berries. It's a marvelous combination.

Get Post Toasties, the better corn flakes, right away. A Post Cereal, made by General Foods.

ASK FOR POST TOASTIES IN HOTELS, RESTAURANTS AND DRIVING CARS

MICKEY MOUSE TOYS ON EVERY BOX

Boys and Girls!

BE A SECRET OPERATOR

IN MY NEW LAW-AND-ORDER PATROL! GET MY NEW SECRET OPERATOR'S SHIELD AND MY SECRET OPERATOR'S MANUAL CONTAINING SPECIAL INSTRUCTIONS... CODES AND PASSWORDS... SECRETS OF CRIME DETECTION... HOW TO WIN PROMOTION TO HIGHER RANKS... ALSO PICTURES OF ALL MY WONDERFUL FREE PRIZES! TO BE A SECRET OPERATOR, JUST SEND ME THE COUPON BELOW, WITH TWO RED POST TOASTIES PACKAGE-TOPS.

SECRET OPERATOR'S SHIELD (left), SECRET OPERATOR'S MANUAL (right), Manual and Shield FREE for 4 Post Toasties package-tops.

Both of polished gold finish, adjustable in fit any finger. FREE for 4 Post Toasties package-tops.

Free Prizes FOR SECRET OPERATORS!
