SANTA ANNA, COLEMAN COUNTY, TEXAS, FEBRUARY 22, 1968

NUMBER 8

Column

I

By Johnny Valentine

The man on the street says that a fanatic is simply someone that knows he is right.

oOo

The Santa Anna News is having their annual George Washington's Birthday Sale edition this week, so don't miss the great bargains in the ads of this edition.

oOo

Here's something that is interesting. A woman has seven ages. In her infancy she needs love and care. In childhood she wants fun. In her teen age she wants excitement. In her twenties she wants romance. In her thirties she wants admiration. In her forties she wants sympathy. In her fifties she wants cash.

oOo

Since this edition of the News comes out on Washington's birthday we thought it would be appropriate to refresh your memory about George.

George Washington was born February 22nd, 1832 in Westmoreland County, Va. George was one of five children of a family which had for three generations lived in America. He was not sent to school, in England like his older brothers, for education, because his father, a well-to-do planter died when George was 12 years old.

George became a surveyor and later took his place in the militia when his brother became sick. George went on three expeditions against the French, as a major, and was defeated on the second and third. He later became the commander of American forces in the successful, hard-fought revolution against Britain.

He then became the nation's first President and was a very prominent man in the field of education. For fifteen years, the first seven in war and eight as President Washington guided and founded a new nation and as the father of our country, bequeathed a precious heritage to all of us.

oOo

Two brothers, one a doctor, and the other a minister, were identical twins. One day a gentle old lady met one of the pair and said: "you gave a fine sermon last Sunday."

To which the man replied: "I'm afraid you are mistaken, madam. I am not the brother who preaches; I am the one who practices."

oOo

A stranger in the West asked a native, "Is this a healthy place?"

The Westerner replied, "It sure is. Why, when I came here I was bald couldn't walk, and had to be lifted from my bed."

"Wonderful!" said the visitor. How long have you been here?"

oOo

"Oh," he replied, "I was born here."

Happy Birthday

UNITED STATES PAVILION—Work on the exterior of the United States exhibit hall, one-half of a \$6.75 million pavilion complex at HemisFair '68, nears completion and attention is turned to the interior design. This picture of the structure, marked by the United States Seal, was taken atop the Swiss Skyride already in operation at the San Antonio World's Fair.

Improvement Club to Sponsor Game Party

Are you ready? For the Game Party Thursday night sponsored by the Improvement Club. It will be at the Lion's Club Building starting at seven p. m. If you can't be there by seven come later.

Admission is one dollar per person and that includes refreshments. We will have forty-two, bridge, dominoes and canasta games. Your choice.

The money we make will be used for some improvement or beautification of the town.

Mrs. Lula Bilbrey returned Sunday from Midland where she spent last week with her daughter and family, Mr. and Mrs. J. F. Kuykendall. The Kuykendalls have moved to Santa Anna. Mr. and Mrs. Bobby Kuykendall of Midland visited here during the weekend.

Dick Kading Asks For Your Vote For Sheriff of Coleman County

I am a candidate for the office of Sheriff of Coleman County, and take this means of soliciting your vote, support and influence for the office.

For those who are not personally acquainted with me, and those who wish to know more about me, I wish to state that I am 46 years of age, have lived in Coleman County for 37 years, and am a veteran of World War II, a graduate of Coleman High School, have reared a family in Coleman County, and attend the Baptist Church. I own and live in my home in Coleman.

I was in business with my father for 18 years, operating a service station and used car lot, and have done some stock farming.

Since 1960 I have worked for wages most of the time—two years as a deputy sheriff, approximately one-half of this time being spent in the office and the other half on the outside. I resigned in 1965 for personal reasons.

Later I was employed by the State Highway Department until the present time, and resigned to enter this sheriff's race. Most of you people in Coleman County know me, and I feel that with my association with the people of this county and my past law enforcement experience, I am qualified for this job. I fully understand the duties of this job, and when elected will give my full time to this very important and responsible job.

And, to that end, will endeavor to improve the performance of my deputies and myself by attending as many of the periodical law enforcement school (in this area) as we can, without neglecting the duties of the office. Of course only one man at a time will attend such schools, and in some instances the duties of the office may prohibit attending the schools. Such instruction, I believe would lead to apprehending more law violators.

Sgt. Travis Allen, son of Mr. and Mrs. Eugene Allen, left February 2, for Hunter AFB, in Savannah, Ga. Sgt. Allen has recently completed a tour of duty in Viet Nam.

When elected, I will endeavor to have a church service in the jail at least once a week, if the ministry so desires and see that relatives have reasonable visiting privileges.

I will personally see that every legitimate complaint gets prompt attention from my office. I will want every person in the county to feel free to call on my deputies, day or night. I believe that the law, which after all is but the will of the people, should be enforced fairly, fairly and impartially.

I feel that having lived here with you, as well as in the county, and having been a deputy sheriff for more than two years, I am in a position to understand your problems.

I will make every effort to see as many of the citizens of Coleman County before election time as possible. If I should miss you, it will be unintentional, so please take this as a request for your vote and support.

Again, I want to stress that this will be my only job, working for you. I realize it is a full time job, 24 hours a day and seven days a week.

Sincerely, I thank you for your support and influence.

DICK KADING.

EASTER SEAL APPEAL TO BEGIN MARCH FIRST

The 1968 Easter Seal Appeal will begin March 1 and continue until April 14, Easter Sunday, it was announced by Amon Johnston, the Easter Seal Representative for Coleman County.

During those weeks a state wide appeal for funds will be made by the Easter Seal Society for Crippled Children and Adults to finance treatment and rehabilitation for crippled children and adults in Texas.

Last year, 17,622 handicapped persons received help from the Texas Easter Seal Society explained Mr. Johnston. But the needs of the handicapped and cost of providing expert professional care are rising and more money than ever before will be needed to serve the handicapped during 1968.

The Easter Seal Appeal mail will be delivered in Coleman County about March 1, Mr. Johnston stated.

Funds raised in the Easter Seal Appeal help support 21 Easter Seal centers in Texas where crippled children and adults are provided services regardless of the ability to pay.

"The people of Texas have needs and I feel certain that they will make it possible to increase the Easter Seal services to the crippled during the coming year," said Mr. Johnston. The Easter Seal Society for Crippled Children and Adults is a affiliate of the National Society for Crippled Children and Adults which last year provided services for almost a quarter of a million handicapped persons.

Mr. and Mrs. Eugene Allen report their son, Arlen, who is employed in New Braunfels, has been sent to Charlotte, N. C., by his company for three week special training.

BOB-CAT SHOT NEAR SANTA ANNA—Buddy Neff is shown holding a Bob-Cat that was killed about 4 miles north of Santa Anna. Neff and Billy Jones shot the cat with a shotgun. They thought that apparently the cat was after sheep.

SPECIAL MISSION SERVICE AT NORTHSIDE BAPTIST

A special bulletin has been mailed out to all the members and friends of the Northside Baptist Church announcing a year-end Mission Service Sunday morning, Feb. 25th. A mission offering will be taken to help reach the goal that has been set for this year.

The Northside Baptist Church has more than doubled her offering for missions this year, over the previous year. Fourteen foreign countries and our home land are expecting us to reach this goal. Fifty-three missionaries and their families are counting on us to do our part.

A mission booklet just published showing all the countries where mission work is being done and the names of the missionaries is being distributed to all who desire one of the unique booklets and do not get one this week they will be available at the mission service Sunday morning.

Sgt. Travis Allen, son of Mr. and Mrs. Eugene Allen, left February 2, for Hunter AFB, in Savannah, Ga. Sgt. Allen has recently completed a tour of duty in Viet Nam.

EDIBLE COTTONSEED FLOUR The U. S. Department of Agriculture scientists have developed a process for making high-protein edible cottonseed flour. Experimental trials indicate that 100 tons of cottonseed should yield about 36,000 pounds of high-quality edible flour containing 65 per cent protein. The U. S. could produce about 2 million tons of the flour and the rest of the world about 6 million tons. The product could make a major contribution toward easing the protein malnutrition in much of the world. Mr. and Mrs. C. E. Snider and family of Kopesville spent the weekend with Rev. and Mrs. Bill Brewer and family.

Your New Social Security

(By R. R. Tuley, Jr., Dist. Mgr.)
Editor's note: This is the 5th of 11 articles giving the pertinent details of the new provisions in Social Security.
New protection for the young worker and his family stands out among the new provisions in the social security law for the disabled. For young workers who became disabled before they had a chance to work under social security for at least 5 years, a new change in the disability benefit provisions is a boon. For benefits to be paid to a disabled worker and his dependents under the old law he needed social security credits for at least 5 out of the 10 years before becoming disabled. Now, if disabled between 24 and 31, credits are needed for only half the time between age 21 and the time of inability to work. If disabled before age 24, only 1 1/2 years of work under social security is needed out of a 3-year period ending when your disability began. Benefits under this new provision are first payable for the month of February 1968. About 100,000 people—disabled workers and their dependents—are eligible. An estimated \$70 million in additional benefits will be paid out in the first 12 months. The new law could mean benefits even for some people who have recovered from their disabling condition, or if they were denied benefits previously because they lacked enough work credits. Seek more information at the Abilene Social Security District Office if you or someone in your family might qualify. Or, see a representative of that office when he is in your community. A schedule of visits is posted in all post offices. All kinds carbon paper at The News office.

Sheep Enjoy Degree of Safety From Predators

San Angelo—The 38 desert bighorn sheep in the Black Gap Wildlife Management Area enjoy relative safety from predators thanks to several forms of mechanics and one member of the Texas Parks and Wildlife Department. Biology Technician Ray Watley has been trapping predators for the Department for three years, most of his work being just outside the 427-acre pasture the sheep call home. Hungry canivores wander by instant up to the 7-foot lion-proof fence where, if they escape the traps provided by Watley in strategic places, they may be discouraged by an electric wire on top of the fence. In the 12 years predator trapping has been practiced to defend the rare desert sheep, no known case of predation has occurred. During these years 32 lions, 72 bobcats, and 104 coyotes were trapped. In addition, 22 lions have been taken by other trappers on ranches adjacent to Black Gap Area. Stamp pads and inks at The News office.

Forty Mule Deer Complete Panhandle Stocking Program

San Angelo — Forty mule deer from the Reynolds Ranch in Jeff Davis County have been trapped by the Texas Parks and Wildlife Department and transplanted to the Panhandle to complete the project begun in 1963 in Floyd, Briscoe, and Motley Counties. The species has been bolstered each year by further releases in the same counties plus releases in Roberts and Ochiltree Counties. A respectable herd has grown from the total of more than 350 transplants. Department biologists say survival has been generally good, but in 1966 sixteen mule deer died during freezing weather shortly after the release was made. Department biologists, says Wildlife Supervisor Jack Parsons, are maintaining a careful periodic check, looking forward to a healthy and huntable population of the big-eared species.

Omar Burleson, M. C.
17th District, Texas

Washington, D. C.—On this, the birthday of our first president, George Washington, it is natural that we should devote some time to the consideration of the influence which America's greatest hero, soldier and statesman has had upon our Republic.

To many, the most outstanding work that Washington accomplished was his invaluable aid to the formation of the American Constitution which, although only 181 years old, is still the oldest, active, political document existing in the world today. Since 1787, when our Constitution was adopted, civilization has been a world of tumbling thrones, prostrated dynasties, the overturned constitution—of new empires, new republics, new

and constantly varying conceptions of states—yet in this epoch of upheaval, during the last 181 years, one political entity, and one alone has remained intact; that is the Constitution of the United States of America.

Our Constitution is not self-perpetuated. If it is to survive, it will be because it has public support, not passive.

The Constitution of the United States is the final refuge of every right that is enjoyed by any American citizen. So long as it is observed, these rights will be secure. Whenever it falls in to disrespect or disrepute, orderly organized government as we have known it for 181 years, will be at an end.

Washington was the president of the Constitutional Assembly which met in Philadelphia in 1787 and which produced the American Constitution. Therefore, Washington can rightly be called the Father of his Country and the founder of its Constitution.

Every American citizen today should study his Constitution. That great body of laws can be read in only 30 minutes of time, and yet it contains every right that we have direct and indirect.

There are several basic principals underlying our Constitution:

First it establishes a representative form of govern-

ment.

Second. It establishes a dual form of government, each citizen living under two forms of government, the national and the state.

Third. It guarantees to its citizens individual liberty, freedom of speech, liberty of the press, right to own property and the right to worship God according to the dictates of conscience.

Fourth. It also establishes an independent judiciary and created the Supreme Court.

Fifth. It prevents the concentration of power in the hands of one man or a group of men by checks and balances, creating the three departments of government—the legislative, the judicial and the executive—each department independent and yet cooperating with each other to the working of a harmonious government.

This provision of our Constitution has been the safeguard of the nation in the days gone, and the perpetuity of our institutions in the future depends upon the independence of these three functions of government.

Sixth, and finally it places in the hands of the President and the Senate joint power in determining the foreign affairs of our nation.

It is specially important in these days of unrest to become students of our great fundamental law. It has been our guiding genius for almost two centuries, from the time when our country consisted of only 3,000,000 people along the Atlantic seaboard. In a topsy-turvy world in which sins are being committed in the name of democracy, we must distinguish between real democracy and the sham and pretense which seeks to masquerade under democracy's cloak. We must remember

that no government can be automatic; that it depends upon the intelligence, the integrity and the loyalty of her citizens.

Washington made himself immortal as the founder of our Constitution. It is our duty to so administer that Constitution as to guarantee to our citizens those full rights and privileges which are inherently American and which have made America great.

Seafood May Be Answer To More Healthy Heart

Seafood is one of the answers toward a more healthy heart says Bill Schwartz, seafood marketing specialist for the Texas Parks and Wildlife Department.

Doctors F. J. Stare and Mary McCann of the Department of Nutrition, Harvard University, say that one of the major causes of heart attacks is the high level of cholesterol and other "fatty substances" in the blood.

These substances coat the inner layer of blood vessels and restrict the natural flow of blood, requiring the heart to work faster to increase pressure in order to force blood through the vascular system.

The result is that 500,000 Americans die each year from heart attacks, many of them caused by an overworked heart.

Schwartz says that fish and shellfish do not contain the hard, saturated fats that comprise such a large part of American diets today and which contribute to high blood cholesterol levels.

"Unlike meat fats," he says "fish fats are soft, polyunsaturated, and if eaten several times a week, will actually neutralize the harmful effects of saturated fats from other foods in the diet."

Julian Kelley of Dallas spent the weekend with his parents, Mr. and Mrs. Ross Kelley.

"Before Your Very Eyes" Suing a soap company for damages, a housewife charged that a certain shampoo had caused her hair to fall out. During the trial, the company offered to have a model use the shampoo in front of the jury—to demonstrate, "before your very eyes," that her hair would not fall out.

But the court rejected this experiment. The judge pointed out that, since the housewife's hair allegedly fell out over a period of months, it wouldn't help to see whether the model's hair would fall out in a period of minutes.

Experiments in the courtroom can be mighty persuasive. But, precisely for that reason, the law is concerned to keep them within fair limits. An experiment won't be allowed if it is not similar to the original situation to justify comparison.

The shampoo case illustrates the point. And in another case, a court held that the reaction of a drug on an ailing old woman could not be shown by demonstrating its reaction on a healthy young man.

On the other hand, the experiment need not be identical in every detail for example:

A woman shopper, who had slipped on the floor of a market, wanted to demonstrate for the jury the slipperiness of a cleanser that had been used on the floor. The market protested that her test sample came from a different batch of cleanser.

But the court decided the experiment should be allowed. The judge said that, since it was the same product, from the same manufacturer, there was enough similarity to justify making the test.

Of course there is always the risk that an experiment, even though permitted, may boomerang and prove the wrong thing.

In one case a woman sued a railroad for losing her

trunk. She sought payment not only for the trunk itself but also for a great many articles of clothing which, she claimed, had been in it.

On the day of the trial, the railroad's lawyer brought into court a trunk of exactly the same size—and a duplicate of each and every item the woman had listed.

"Now, madam," he said with a bow, "kindly show the jury how you were able to get all these things into the trunk." With perfect aplomb the woman proceeded to fold,

lucky and fit the items so neatly that she not only got everything in but had plenty of room left over. Result: she collected in full.

A public service feature of the American Bar Association and the State Bar of Texas. Written by Will Bernard.

BRIGHT FUTURE IN RURAL TEXAS

With sound comprehensive planning, American communities could be less congested, be free from smog and pollution, and have better distribution of prosperity by the year 2000, says Reagan Brown, Extension sociologist at Texas A & M University. He sees a bright future, as evidenced by results of the Texas Community Improvement Program for Texas communities which are willing to meet the challenge of the times.

Northside Baptist Pastor is Given Grocery Shower

A very generous grocery and money shower was given to Rev. Vernon D. Parnell and his family Sunday night, Feb. 18. This was done as a surprise to the Parnells. Load after load of good things were brought in thru the back door of the church just before service time. At the close of the service Robert Robinnett announced a fellowship for the church and friends who were visiting. The groceries and gifts were presented to the Parnells in the Fellowship annex of the church.

75 Years in Coleman

Austin, Texas — State attention continues to center on the embattled Texas Liquor Control Board.

Speaker Ben Barnes appointed a special subcommittee from the House State Affairs Committee to study possible changes in the election laws. Rep. Dick Cory of Victoria, committee chairman, also heads the subcommittee. Other members are Reps. James Slider of Naples, Bill Clayton of Springlake, Cletus Davis of Houston and Roy Garwood of San Antonio.

Cory stressed that the committee will not investigate Board operations. It will look into the cumbersome liquor laws which have not been modernized since they were first adopted in 1934. Chairman Cory says the panel will be ready with its recommendations (which conceivably could include legalization of liquor by the drink sales) "whenever Governor Connally calls a special session of the legislature."

LCB itself has drafted a set of recommendations that include the provision that no private clubs, veterans or fraternal organization can serve liquor over the bar in dry

areas without local option election approval.

A veteran lawman, O. N. Humphreys, Jr., was chosen by the Board to take the vacant job as assistant to Administrator Coke Stevenson, Jr. Humphreys, 43, is a native of Brenham. His father was chief of police there. The new LCB assistant chief has been with the Texas Department of Public Safety since 1948 and for 11 years has been head of its intelligence division.

His selection led to speculation that the LCB might in a few months move Humphreys up to administrator. But Stevenson said that he has no intention of resigning while the agency is under fire.

In a unique way, the LCB situation got involved in the governor's race. Lt. Governor Preston Smith was critical of the decision by Barnes to name a special committee. Then Eugene Locke of Dallas, one of Smith's opponents in the Governor's race, said the liquor laws obviously need revision and that Smith should have provided leadership toward that end.

Gov. John Connally's decision that state legislators have been involved in "influence peddling" efforts with Stevenson, and his refusal to grant special treatment kept his salary down, led to some checking.

A study of the appropriations laws for the past 10 years shows that Stevenson's salary was generally held to about \$4,000 less than those of comparable department heads. It was only last Sept. 1 that his salary was brought to within \$1,000 of

two other agency heads.

SPECIAL SESSION TALK
With all the 1968 candidates now on the line and campaigns still in low gear, favorite capitol speculation is the date of the upcoming special legislative session.

Governor Connally must call one in order to pass a 1969 budget and a new tax bill. This has to be done before September 1, start of the next fiscal year. Otherwise, there will be no money for continuation of state services.

The big question is when? It has been widely assumed that Connally will wait until around June 3, when the primary elections will be over.

Since the governor said that he may ask legislators to consider liquor by the drink legalization and conflict of interests curbs, speculation on the session's date has flared anew. It is felt that he may have an earlier date in mind, like maybe March 4. Senate Secretary Charles Schnabel "predicted" this starting time in a Valentine Day letter to senators. Later he said he wrote with "tongue in cheek" and wasn't really serious.

Arguments run something like this:

For June—Legislators will not vote for a big tax bill with elections staring them in the face, and will resist having campaigns interrupted. Early session would put friends as well as foes on the spot and might result in defeat of some. Lawmakers are reluctant to vote for tax measures until the last minute, anyway; and along about July and August, they can't put it off any longer.

For March—after their election lame duck legislators would be rebellious toward any tax program or other controversial measures submitted by the governor. More time might be needed to pass a major tax bill than would be allowed by a June session. The new Democratic nominee for governor will be known by June, and the legislators may be inclined to look to him for leadership and ignore Connally's proposals.

Only man really in a position to know is John Connally. He says he hasn't made up his mind—and might not for several weeks. But adds: "Any date is a possibility."

APPOINTMENTS ANNOUNCED
Governor Connally selected Consumer Credit Com-

missioner Francis A. Miskell as a member of the State Constitutional Revision Commission.

Sen. Ralph Hall of Rockwall, senate president pro tempore, has been designated state campaign manager for gubernatorial candidate John Hill.

William F. (Bill) Carter, press secretary to the governor, will return to his old job as DPS public information officer on March 1.

James J. Kelly will serve as acting executive of the Texas Industrial Commission.

Kyle Thompson, capitol bureau head of United Press International, is handling press relations for gubernatorial candidate Eugene Locke.

COURTS SPEAK

The high court agreed to hear arguments on March 27 in a San Antonio case involving a father's right to prevent a divorced wife from legally changing the name of their child.

The Court of Criminal Appeals affirmed the death penalty assessed 19 year old Johnny Rudy Enriquez for murder of a Beeville nurse—one of five persons he was accused of slaying within six hours April 25, 1966. Trail of death extended from Corpus Christi, through Beeville and into Wilson County.

OIL DEMAND

Continued blockage of the Suez Canal and the TAP pipeline in the Middle East has zoomed demand for Texas oil.

The Railroad Commission increased February oil production allowable from 47 to 49.6 per cent of potential, retroactive to February 1.

The commission set March factor at the same level, responding to demand by producers.

Now allowable will permit maximum production of 3,723,485 barrels a day, compared with 3,588,958 under 47 per cent factor.

ATTORNEY GENERAL RULES

The State Department of Public Welfare is required to make "medicaid" payments direct to doctors and hospitals for medical care of welfare recipients, says Atty. Gen. Crawford Martin.

In other recent opinions, Martin held that: Public junior colleges are local educational agencies, providing "public free" secondary education at public expense and subject to public supervision and direction; and the State Insurance Commissioner does not have authority to approve an amendment to an insurance company's charter which, in effect, transforms it into a commercial corporation required to have a charter from the Secretary of State.

DRAFT QUOTA UP SHARPLY

Texas draft boards next month must furnish the largest monthly quota of young men for military service in nearly two years.

Col. Morris S. Schwart, the state Selective Service director, said the local boards have been called on to provide 1,948 men—most since the 2,012-man quota of November, 1966. Low point in the interim was 674 men last February.

This year's monthly quotas have been 1,165 men in February and 1,659 in January.

National call for March induction is 39,000 men. All are for the Army.

FIRE RATE CUT PROPOSED

The State Board of Insurance proposed its first cuts in seven years (average of 3.5 per cent) in statewide fire, extended coverage and home owners insurance premiums.

Rate experts suggested 4.4 per cent reduction in fire premiums, 3 per cent in

extended coverage and 3.1 per cent average for home owners.

Fire and extended coverage rates are set statewide, and homeowners rates are figured on a three-region basis due to weather hazards.

If adopted, rates would be effective June 1. Biggest money saving on home owner's premiums would be in 10-county Sherman area where rates are now high.

FISHING AGREEMENT SIGNED

Texas and Louisiana fishermen soon will be able to fish in boundary waters of the two states with license or exemption from either.

Parks and Wildlife Commission signed such an agreement with Louisiana officials. It takes effect in 30 days and applies to Sabine Pass, Sabine Lake, Toledo Bend Reservoir and Caddo Lake.

PWC Chairman Will Odum said this reciprocal arrangement climaxed two years of work. He expressed hope that Texas can work out similar pacts with Arkansas and Oklahoma.

Odum said that no two-state reciprocal hunting licenses can be adopted

Short Snorts

Carl V. Ramert of Yoakum has been appointed District Engineer by State Highway Engineer J. C. Dingwell.

Texas Industrial Commission named James J. Kelly as acting executive director.

Texas Committee on Natural Resources vigorously protested the lease of Meridian State Park property for a nine-hole public golf course.

Cotton farmers in Hudspeth and El Paso Counties have until Feb. 29 to clean their fields of stalks to protect against pink bollworms.

Gov. Connally approved a regional planning grant of \$5,500 for the Concho Valley Council of Governments, San Angelo. State Board of Health allocated more than \$17,000,000 in Hill-Burton hospital construction funds to 40 projects.

TWO TEXANS IN IFYE PROGRAM

Two Texans in 1968 IFYE Program—William J. Stroman, Jr., Lampasas County and Margaret Michele Mahaffey, Van Zandt County both outstanding former 4-H Club members, have been selected to participate in the 1968 International Farm Youth Exchange Program. Stroman, a junior business administration student at the Texas A & M University, will go to Venezuela this summer for six months. Miss Mahaffey will spend the same time in India during the winter of 1968. She is a junior home economics student at North Texas University.

Mr. and Mrs. J. D. Ashmore of Eldorado, Mr. and Mrs. Eddie Paul Voss and Bessie were Saturday dinner guests of Mrs. Carl Ashmore. Afternoon visitors were Mr. and Mrs. Hop Ashmore of Bangs and Mr. and Mrs. Joe Edd Spencer of Eldorado.

TAX MAN SAM SEZ:

If you have a question to ask about preparing your income tax return after reading the income tax instructions you received in the mail, IRS has three booklets that can help you. If you have farm tax problems, you can get a copy of the Farmer's Tax Guide free at any Internal Revenue Service office or at your County Farm Agent's office. Internal Revenue sells "Your Federal Income Tax" and the "Tax Guide for Small Business" for 50 cents each. "Your Federal Income Tax" answers most of the questions for an individual. The "Tax Guide for Small Business" does the same thing for a business.

Enjoyable New Way To Beat Dieting Blues

If you think dieting is difficult, then you haven't kept up with the newest ways to beat the dieting blues. Proper ingredients and a little feminine ingenuity can make weight watching downright enjoyable—to say nothing of the satisfaction you get from being attractively trim.

The secret is to start with a nutritionally complete diet meal. That way all the calories will be pre-calculated, and you'll be working with a basic ingredient that's been proven effective.

These special meals have plenty of variety by themselves. They come in many good flavors in liquid, powder, cookie and diet dinner forms. But don't stop there. You can expand their variety even more with recipes like this delightful rice & chicken innovation. It's easy to prepare, and you can have it with low calorie soft drinks, salads and relishes for a delicious and very filling low calorie meal.

CHICKEN WITH ALMONDS

Calories	Ingredients:
45	6-8 Almonds or 1 Tablespoon, Slivered and Toasted

Read I John 3:1-8.

If we have committed no sin, we make him out to be a liar, and then his word has no place in us. (I John 1:10)

Several years ago I suffered some severe lacerations in a motorcycle accident. I went to a doctor to seek relief from my pain, but in treating, my wounds he made my pain more intense. He first scrubbed my wound with soap and water. Not until he had scrubbed out all the grease and road dirt did the doctor bind up my broken skin. It was painful treatment, but if the doctor had spared me that pain, my wounds could have caused infection and more pain.

The healing of the Great Physician is something like that. It hurts to know ourselves as sinners. But we must have confidence in Him that He can do for us what

needs to be done. Unless God's word of judgment first washes away our self-deception, we can never know the healing, the joy, the life that His mercy and forgiveness can bring.

Tax Refunds Are Not Automatic

Dallas, Texas—You will not automatically receive a refund of tax withheld from your wages unless you file a tax return, said Ellis Campbell, Jr., District Director of Internal Revenue from Northern Texas.

A tax return is not required when the gross income received during the year is less than \$600, Mr. Campbell said but a return must be filed to obtain a refund of any Federal tax withheld. This advice applies particularly to students and other persons who worked only a part of the year.

Form 1040 and 1040A must be filed by everyone under 65 years of age whose gross income for 1967 was \$600 or more. If the taxpayer is 65 or older, a return is required only if total income does amount to \$1,200 or more.

TAX MAN SAM SEZ:

Do I have to file a federal income tax return? Internal Revenue answers: Not if you made less than \$600—or less than \$1,200 if you are over 65 years of age. The tax folks very quickly point out that if your wages were subject to withholding that you have already paid taxes on your earnings. You are entitled to get a refund of the taxes withheld but you must file to get a refund—the sooner the better.

Trickham News

By Mrs. Oscar Boenicke

Mr. and Mrs. Walter Stacy left Wednesday for Upland, Calif., to visit their son and family, Mr. and Mrs. Del Ray Stacy, for two weeks.

We are sorry to report that Marvin Whitley became ill Sunday morning. His wife and son, Wayne, took him to the Brady Hospital. The doctor said he had suffered a stroke and was very sick. Both sons and their families are at his bedside. He was reported some better Monday.

Mr. and Mrs. Seth Jenkins of Bangs visited the J. E. York family Sunday evening. Donnie York and Billy Don Haynes were home from Sul Ross College at Alpine over the weekend.

Mr. and Mrs. Royce McIver and family of Abilene visited their parents, Mr. and Mrs. Grady McIver, also R. C.

Miss Lena Boyd spent Sunday of last week in Fort Worth with her sister, Mrs. Ted McCaughan and other relatives. She visited Monday and Tuesday in Richardson with a friend, Mrs. Mary Anderson of Florida, who was visiting her daughter, Miss Lena and Mrs. Anderson had not seen each other since they were missionaries in India some 18 years ago.

Attend Church Regularly

Smith and Vicki of Taylor visited Saturday, Mr. and Mrs. Doyle McIver and Brad of Mansfield visited Saturday and Sunday.

Mrs. Robert Stearns and the Ray Wells family of Coleman visited in Abilene Sunday with the R. C. Stearns family and the Charlie Ray Fleming family.

Visitors with the Marlon Fords Sunday to celebrate Mrs. Tavy Ford's birthday anniversary were three of their children; Mr. and Mrs. James Ford and boys and Mr. and Mrs. Dayton Jackson and children of Santa Anna and Mr. and Mrs. Jimmy Lancaster and two children of Brownwood.

Aunt Pearl Ford has been in Medical Arts Hospital in Brownwood for two weeks or more and is some improved.

She will be moved to the Twilight Home in Bangs in a few days.

Visitors with the Eugene James family over the weekend were their son, Stanley and two of their grandsons Stevie and Mike James of Fort Worth.

Mr. and Mrs. Otis Stephens of Brownwood visited his parents, Mr. and Mrs. Stafford Stephens Sunday.

A number from our community attended the funeral of Rodger Windom at Bangs Methodist Church, Thursday at 2:30 p. m. He died at home, Wednesday morning at 4 o'clock, in the Mount View community, from a heart attack. He was 75 years old. We extend our sympathy to his wife and family.

The Oscar Boenickes visit-

ed Thursday evening with Mrs. Beula Kingston, at the Bangs Rest Home. She was not feeling well. Also visited Mrs. Earnest Wylie at the Lonnie Sikes home. Mrs. Wylie is able to be up as usual.

Mrs. Minnie Craig of Coleman visited the Lige Lancasters Monday and Monday night. Mrs. Lancaster has been sick for about two weeks, but is some better.

Mrs. Wiley McClatchey visited Mrs. Maud Burney in Coleman Tuesday. She said Maud was doing all right, her friends will be glad to hear from her.
