Mountain Echoes

By Barbara Kingsbery

Cleve Fox and Church Deer are good friends now. They are both baseball fans, and are nearly backyard neighbors at the downtown housing units. But it wasn't always that way.

Soon after moving here from Arizona, Mr. Fox went to town to get acquainted with some of the local residents. He walked up to one gentleman and greeted him saying, "My name is Fox."

The new acquaintance replied, "My name is Deer."

Mr. Fox said indignantly, "The heck it is," and went home to tell his wife about the "smart-aleck" he had just met!

Ghosts and goblins were numerous Friday as the children of the elementary grades were entertained with Halloween parties at school. Trick or treaters were also out on Saturday night, as evidenced Sunday morning by the excess paper on the trees and scrubby about town.

As far as we know, there was no vandalism in our community on Halloween, a pleasing change from some towns and cities in the area where thousands of dollars damage was done to businesses and homes.

bk

Fall is truly in the air with temperatures in the low 30s for several nights in a row. Many parts of the community have had frost.

Local cotton farmers are expected to begin harvesting their crops since being aided by nature's own defoliant.

bk

A recent report from the Texas Parks and Wildlife Department stated that 20 per cent of all the fishermen catch all the fish. This means that 80 per cent are frustrated at the end of their fishing trips and probably wonder why they even went in the first place.

The report was no surprise to us. In our community you can almost count on one hand the really successful fishermen!

Mr. and Mrs. A. L. Sides, moved to Santa Anna Thursday after purchasing the Sealy home on North 8th Street. As if moving to a new home in a new community does not have enough problems, Mrs. Sides fell on Friday, fracturing her wrist.

1970 Chest Fund Now at \$1,150

Bill Weeks, chairman of the 1970 Community Chest fund drive, has announced that \$1,150 had been collected through Monday for the drive. Some of the city zone workers have not completed their drive, and several of the rural community chairmen have not yet turned in their collections.

It is hoped that the drive can be completed this week.

Anyone in the Santa Anna area who is not contacted by a Community Chest worker is urged to make a donation and should contact Mr. Weeks or Ford Barnes. Also, donations may be left at the Santa Anna National Bank.

The 1970 drive includes fund allocations to ten agencies. They are Red Cross, Salvation Army, Boy Scouts, Cub Scouts, School Milk Fund, Summer Recreation Program, San Angelo Boys Ranch, West Texas Rehabilitation Center, Mental Health Center, and Quarterback Club.

Remember... Veterans Day On November 11

Next Wednesday, Nov. 11, will be observed throughout the nation as Veterans Day. President Nixon has declared the theme of the 1970 observance will be "Peace With Honor."

On November 11 we honor those of our armed forces who have given their lives and their own liberties to keep America free, and to pay tribute to those who have returned from the battles.

Whether or not we take Congress changed one word in a 28-year-old resolution, and changed Armistice Day to "Veterans Day." The Armistice Day date was chosen as the fighting ended in World War I on November 11, 1918. It was made a national holiday in 1938.

In 1954 the United States part in any planned observance on Veterans Day, we should take time to pay tribute in some way to the living and the dead who have given so much to preserve our democracy.

W. H. Clifford, II, Killed in Vietnam

Mounties Win 38-0 In District Opener

The Santa Anna Mountaineers defeated the Eden Bulldogs in the Mountaineer's first district contest by a score of 38-0.

Ronnie Walton kicked off for the Mounties. The Bulldogs made one first down. Santa Anna penalties gave them two more as the drove into Mountaineer territory. Raymond Holland picked off a pass in the end zone and the Mountaineers took possession on their own 20 yard line. The Mounties fumbled; and Eden recovered, only to lose their fumble to Holland on the Mountaineer 40.

Eppler ran through and hurdled players for 55 yards and a TD which was called back on a holding penalty. The Mounties did not make first-down yardage and punted. Eden received a roughing the kicker penalty, and the Mountaineers had a first down on the Bulldog 35. Rocky Dean and Eppler each picked up first down yardage and Roddy Dean went in from the four yard line for a TD.

The Bulldogs went to the air, but Mounties Mark Wise batted down the attempt, and on the next play the Bulldogs lost a fumble to SA linebacker Ricky Beal. The Mountaineers drove deep into Eden territory with long runs by Rocky Dean and Dwight Eppler, who received excellent blocking from Roddy Dean and Mark Wise. The drive ended with a Mountaineer fumble.

The Bulldogs couldn't get going under heavy pressure from end Ronnie Walton, tackle Tommy Lewis, and linebackers Roddy Dean and Ricky Beal. Holland and Long each recovered fumbles on the Bulldogs' next two series of downs.

The Mountaineers went to the air on first down as Horner handed off to Rocky Dean, and Dean passed to Eppler who took the flying pigskin and raced 55 yards for the TD. The PAT was no good. The Bulldogs took the ball for three plays and punted. The Mountaineers went to the air again with Horner passing to Rocky Dean for 40 yards and a Mountain TD. The PAT was good. With 38 seconds remaining in the first half, Eden QB passed to end Tallaferro—but safety David Horner intercepted and ran 10 yards before the clock ran out with the Mountaineers ahead 19-0.

The Bulldogs' onside kick to open was covered by Mark Wise on the Mountaineer 44. The Mounties picked up first down yardage. On fourth down with 7 yards needed, QB Horner dropped back to pass. With no open receivers, Horner found wide open space for 29 yards and another Mountain TD. The PAT attempt was good but was nullified on a Mountaineer penalty. The second attempt was wide to the right.

The Bulldogs ran two plays before losing a fumble to Roy Keeney on the Mountaineer 25. Horner went 20 yards for a first, then handed to Rocky Dean who went in from the 5 yard line for a TD. The TD was nullified on a Mountaineer penalty. Eden made one first before the ball went over on downs on the next series. A little more than a minute left in the third quarter, Ricky Beal ran over the Bulldog defense for a TD.

The Bulldogs got a first down on a Mountaineer penalty, and wingback Lopez picked up another. QB Agnew went to the air. Mountaineer Holland intercepted on the Mountaineer 35 and ran 35 yards. The Mounties did not make first down yardage and punted. The Bulldogs attempted three passes which fell incomplete under a rush by defensive tackle Roy Keeney. The Bulldogs punted. Horner handed off on first down to halfback Roddy Dean who knocked his way through the Bulldog defense for 41 yards and a TD. Walton's PAT was good. The Bulldogs, with little time left in the fourth quarter, made a desperate attempt to get on the score board. They picked up two first downs on the ground and one more on a 28 yard pass, but a tough Mountaineer defense held them scoreless. The Mounties took over on downs. Rocky Dean ran for 21 yards and a first; fullback Beal raced for 59 more and another first. Ronnie Walton attempted a 32-yard field goal which was good, but again a Mountaineer penalty nullified the would-be 3 points.

With less than two minutes left the Bulldogs attempted three passes which fell incomplete. The Bulldogs punted; See MOUNTIES — page 8

In Our Opinion

By W. T. HAYS

COMMON CARRIERS in Texas, as well as other places, have been receiving considerable criticism, because they, like our postal department, have increased prices and reduced services.

Last year the freight lines got an increase of \$1.00 in minimum charge and again this year another \$1.00 increase to put the minimum freight charge at \$5.00.

That is it costs a minimum of \$5.00 for a freight shipment between any two business in Texas.

In addition to the increased costs in freight, if anyone receives a shipment, he may be required to unload his own packages. It depends on several things, just as to how it is packaged, and whether you have help for the truck driver, or it may boil down as to whether they want to or not.

It is getting to the point that shippers and buyers need to have their own trucks, because all they are getting for their money is the hauling between points.

Of course the buck is passed to the Texas Railroad Commission, and most of us are ignorant when it comes to rule and regulations of the commission. But we should learn them so we know where we stand.

What can we do? Let our state senators and representatives know that we are dissatisfied with the service we are getting. It is possible to give the common carriers more competition than they have by increasing the weight limit of film carriers and bus lines, and what would be even better, the Legislature could permit United Parcel Service to operate in Texas. They already operate in a majority of the state, but the freight lines have managed to keep them out of Texas so far.

A recent example of the unfairness is that recently an order went to a Fort Worth supply house for a can of peanuts. Due to the size and bulk it had to be sent by freight. What happened? The freight bill on a 35-pound can of peanuts was \$5.00. You can see what happened to the price of those peanuts. That added better than 14 cents a pound to the price.

On top of that, buyers of bigger weight material shouldn't have to unload their merchandise. That has always been considered part of the service, that the packages should be put into the door of the purchaser. The answer is, of course, more competition.

EACH YEAR many drives are made for various charitable causes and most of us dig down and help, but many times we are too familiar with the cause we help.

Of course the United Fund, American Cancer Society and other well know drives are familiar to us and we gladly help, but we should know something about anything we contribute to.

Some drives have questionable backgrounds, and the donor should familiarize himself with the project he is going to support.

Recently brought under fire has been UNICEF (United Nations Children's Fund) because there have been some questions of support of Communist countries including Cuba. Also many churches have objected to its alleged atheistic background. One complaint is that the supplies furnished to these countries are diverted to help their political causes and are not for the aid of the children, according to some critics. They also object to the fact that UNICEF's distribution of Christmas cards observe a Christian holiday yet many of the designers of the cards have no religious background at all, because many of them are Communist.

Regardless, if you are asked to contribute to any charity in which you are not familiar, investigate it first.

STATE *Capital* NEWS
By VERN SANFORD

Austin — With the next legislative session just two months off, a blue-ribbon speakers' committee has set out to evaluate the jobs of state lawmakers and how they can better perform their duties.

First meeting of the 150-member panel named by House Speaker Gus Mutscher and headed by Waggoner Carr, former attorney general, was held at the capitol last week. One of the first things Mutscher suggested was a study of the work load heaped on officials who draw only \$400 a month base pay. Committee is expected to come up with a recommendation and support for legislator's pay raise.

Mutscher asked the group to give special attention also to legislative facilities, ethics and internal security.

He further suggested a look at steps now taken to assure protection for orderly conduct of the state's business at the capitol and "physical protection" of state officials, employees and the public.

Mutscher said both houses of the legislature will hold a pre-session conference at Lyndon B. Johnson School of Public Affairs at the University of Texas.

Carr ruled out the study of such matters as annual legislative sessions and abuses by joint conference committees, since the committee was named by the House speaker and was not authorized by the Senate. "Timing of sessions and joint conference committees are matters of concern to both houses," he noted.

Four sub-committees were named and immediately began work. Sub-panels will work in areas of duties, responsibilities and compensation; ethics and standards of conduct; physical facilities and internal security.

BAPTIST RELEASE SCHOOL — Baptist General Convention here approved the request of Baylor Dental School at Dallas to be released from church control so it could accept government financial aid. Baylor Medical School in Houston was released two years ago, permitting it to seek state funds for enrollment increases.

Convention called on the University of Corpus Christi to repay a \$500,000 loan it received from the federal Small Business Administration to repair Hurricane Celia damage and borrow from non-governmental source.

Delegates adopted resolutions commending national leaders for their spirit of peace to end the Vietnam hostility; urging courts to use discretion in dealing with each marijuana case on merits; and opposing grants of tax funds to parochial schools.

INSURANCE AD RULES PROPOSED — State Board of Insurance set a November 30 hearing on proposed new rules governing advertisements by health insurance companies.

One rule would require a clear and conspicuous statement in ads of any waiting periods between the date of the policy and the time it actually provides coverage.

Another rule would make the same kind of clear disclosure necessary where coverage is limited for illnesses caused by conditions existing before policy date.

Suggested rules would apply to all newspaper ads, as well as radio-tv, billboards, leaflets, form letters and recurring representations by agents.

Companies would have to maintain a file of ads for inspection by examiners representing the State Insurance Board.

COURTS SPEAK — State

Supreme Court set a December 9 hearing on a Houston area welder's accidental "injury" suit which intermediate court held showed only evidence of occupational disease (sileiosis).

High Court directed the Bowie County District Court to block an oil pooling arrangement which was ordered by the Railroad Commission for the 80-acre, one-well Simms Field in Bowie County.

Federal District Court here postponed until November 12 a hearing on the San Antonio Conservation Society's suit to bar construction of San Antonio North 281 Expressway.

APPOINTMENTS-HONORS — Dr. Jimmy R. Allen of San Antonio was named to a second term as head of the Baptist General Convention of Texas.

George W. Hawkes, publisher of the Arlington Citizen-Journal, was recipient of the 1970 Public Relations Award, presented annually by the Baptist General Convention of Texas.

House Speaker Mutscher picked Alvin A. Burger of Austin, longtime (now retired) head of the Texas Research League, as executive director of a special committee studying legislative duties, pay and ethics.

Mutscher appointed W. C. McGee Jr. of Houston and Ward K. Wilkinson of Dallas to his committee on efficiency and economy in government.

HIGH COST OF CAMPAIGNING TOLD — U. S. Senate candidate George Bush topped all spending by general election candidates, according to required reports filed with the Secretary of State. Bush said he has spent \$696,008 and received

\$665,708 in contribution. Bush's Democratic opponent, Lloyd Bentsen, itemized campaign spending of \$419,332 and contributions of \$424,536.

Gov. Preston Smith said he has spent \$652,860 and received \$534,651 in contributions. His Republican opponent, Paul Eggers, reported spending \$409,028 and receiving \$312,661.

JUSTICE PLANNING FUNDS RECEIVED — Texas Criminal Justice Council received final approval of its 1971 block planning grant, totaling \$1.3 million.

Money will be spent for statewide planning to improve the criminal justice system. Forty per cent of funds will go to local governmental units.

Texas will receive a block action grant of \$19 million for fiscal 1971 from the U. S. Department of Justice to support projects in the field over the state.

STATE SECURITIES BOARD ENJOINS CHURCH Deputy Securities Commissioner Roy Mauer has issued an order enjoining the Trinity Baptist Church of Austin from selling any type of securities.

Order said that the church kept misleading, inaccurate and incomplete records. Also that Pastor R. D. Wade had been loaned \$25,000 in bonds on an unsecured non-interest bearing note which church members had not approved.

Wade has used \$18,000 of the bonds, according to the order, to purchase a motel in his own name. Eight series of bonds are outstanding, some of them default.

According to Mauer's order, the Board, as of October 22, did not have the funds necessary to pay the interest and principal due November 1. Bonds were being sold to the public through Fred Mat-

thews of Nationwide Church Bonds, Inc. of Birmingham, Ala., but Matthews was not registered in Texas as a security dealer, as required by Texas law.

WARNING ISSUED — Park and Wildlife Department has issued warnings against using as food or water containers any of the one-gallon DDT cans which recently washed up on the beach near Port Isabel.

A Harlingen man reported spotting 25 or 30 of the olive drab cans along a five-mile stretch of beach below Port Mansfield cut. Cans proved to be full of insecticide DDT. Only four actually were recovered. P & W fears that others may have been taken away by people who might plan to use them for water cans, or that they were washed out to sea and will reappear on other beaches.

SHORT SNORTS

Attorney Genral Martin has held that the State Health Department and Nursing Home Licensing Board could privately exchange confidential information.

New bank applications have been filed for Arlington and San Antonio.

Col. Morris S. Schwartz, 72, longtime state Selective Service director died following a three-months' illness.

One hundred and eighty six political subdivisions were required to buy \$103,674 worth of unnecessary coverage to get needed liability insurance, Dallas Sen. Oscar Mauzy has charged.

30 Years Ago In The News

The following stories are from the October 25, 1940, issue of the NEWS:

The Coleman County School Board has set Monday, October 28, as the date for the beginning of the 120 days attendance period required by law of every child in the common school districts in Coleman County.

Cotton stripping is under way in our community. People are wishing for a few days of sunshine to get the cotton, and then on the other hand others are in need of a good rain for stock water. Those of us who had cotton last fall have not forgotten the cotton in places was never gathered due to so much rain. But seemingly this fall we may not receive rain. So far our northers have been dry.

Jimmy Benton, organist, played the traditional wedding selections preceding the ceremony and also played "The Twelfth of Never."

Following the ceremony a reception was held in the church annex. The bride's table was laid with a white

SUCCESS OF STUDENT GRATIFYING TO TEACHER

by Mrs. Cliff Herndon
"One of the most gratifying experiences of a school teacher is at a time when he sees one of his students succeed—and he remembers he had, maybe, a small part in the molding of that student."

Veteran teacher Floyd Marshall, principal at Santa Anna High School since the beginning of the 1970-71 semester, voiced the inner feelings of the majority of the professional educators.

And Marshall had ample opportunity during October to see many of his former successful students during the homecoming festivities at the Melvin School.

He was associated with the Melvin schools 36 years. During this time, he was principal 24 years and superintendent 12 years. As a teacher there, his subjects included math, biology, chemistry and physical science.

A native of Lohn, a short distance from Melvin in McCulloch County, Marshall is past president of both the McCulloch County Teachers Association and Mid-Texas Men's Teacher Association.

In 1960 he received the McCulloch County Distinguished Service Award.

He is also a life member of the Parent-Teacher Association, and a member of the State Teachers Association, and the National Education Association.

"The primary purpose of these organizations," he says, is to promote the type of education that each student should have."

Marshall said he believes there has "definitely been a change in educational trends in the past few years" and it has removed the old image of the teacher in the public's mind into a role of importance.

"We all read stories like the ones concerning the Health, Education and Welfare Department in our daily papers," he said, "and it has brought the teacher to light to a great extent."

He referred to the former image of the old bachelor or old maid as replicas of teachers which began to change during World War II with the passage of the first G. I. bill whereupon the importance of education as a whole bloomed into full flower.

"I believe these trends are certainly a benefit to us all," he said.

Marshall, who teaches three periods of biology and one algebra class at Santa Anna High School, could not be considered the bachelor type. He is married to the former Beth Watkins of Perrin and they have three children.

Their son Jerry is a doctor at Rotan. Another son, Jimmy is a biology teacher at Jourdan. Their daughter, Sandra, is now a senior home-making student at Southwest Texas State University at San Marcos, and in the path of her brothers, will be married soon.

The Marshalls are grandparents.

Aside from extra paper work, he said the main difference between a principal and superintendent is "a superintendent must work 12 months while a principal does not."

But he says "Whatever capacity in which I serve in administration, there has always been teaching duty too—and a close association with the youth."

Little George Havens' Cowboy Camp Meet

(The following is from a story in the August 12, issue of the Herald, Wilmore, Ky.) by Dr. P. C. McPheeters, editor

A short distance from the sign was a commodious tent, and near the tent a cluster of covered wagons, relics of the frontier days. Intrigued with the sign and setting, I decided on the spot to cancel my dinner engagement which I had in Abilene.

As I drove in and parked my car near the covered wagons, the first person to greet me was Little George Havens himself—the preacher, founder and sponsor of the Cowboy Camp Meeting. The reason for his name was immediately evident. Little George is only 4 feet 11 inches tall. During a career in Hollywood, I learned, he was billed as the world's smallest cowboy and Hollywood's smallest cowboy stunt man.

When I introduced myself to Evangelist Havens he placed me instantly. "You're from Asbury," he said "My wife is an Asburian. She was at the Seminary when you were president." His wife was formerly Lucy Lee and had been a missionary in Mexico under the World Gospel Missions. George took me immediately to his trailer where his wife greeted me with cordial surprise. George extended me an invitation to preach at the evening service. I expressed my thanks but insisted, "This is a cowboy camp meeting. The people who come here expect to hear a cowboy preach, and I am no cowboy." I did, however, consent to give a ten-minute report of the Asbury revival.

I had a sumptuous dinner on the camp grounds at evening served potluck style by the ranchers' wives of the neighborhood.

At eight o'clock, the hour of the evening service, the tent on the camp ground was well filled with cowboys and ranchers. Bobby E. McMeans, founder and director of the Christian Corral Boys Ranch, New Braunfels, led the singing. One of the boys from the ranch gave a very moving testimony of his conversion at the ranch as a delinquent boy. Gene and Bobby Moore of the Ed Robb Evangelistic Team were the guest singers. It was my privilege to give a brief story of the Asbury Revival.

George Havens relates naturally to the ranchers who attend his camp. His forefathers were West Texas cattlemen, and he himself grew up on a ranch not far from the site of his Cowboy Camp Meeting. He understands the real west; but he also knows the artificial Old West, which Hollywood has created. During his ten years in Holly-

wood, he participated in over a hundred movies, many of them westerns. He had acting roles in some and was a stunt man in others. George Havens' colorful background contributes greatly to the effectiveness of his witness.

George Havens tells how, shortly after his conversion, he quit the movies. The path he followed led him into evangelism, one facet of which has been the annual Cowboy Camp Meeting.

I left the camp grounds with a grateful heart. It was good to meet another of God's witnesses and to see His spirit at work in a novel situation.

Smoking Annoys Non-Smokers

Smoking annoys nearby non-smokers. For good reasons. Exposure to cigarette smoke increases the heart rate and blood pressure of a non-smoker. It also pumps carbon monoxide into his blood stream.

The exact physiological changes that happen to non-smokers in smoke saturated environments were measured in experiments at Texas A & M University. The subjects were 103 boys and girls—ages six through 13 years.

The youngsters were divided into two groups. One group was alternately exposed to a 30-minute smoke-filled room and then a smokeless room. The second group was exposed only to a smoke-filled one.

The researchers found that cigarette smoke which is allowed to accumulate in a poorly ventilated room significantly increases the heart rate, blood pressure, and poisonous gas in the blood. The effects are similar to those on the smoker himself, but on a reduced level.
