Atomic Bomb Dropped For Second Time On Japan With 'Good Results'

TRUMAN ANNOUNCES RUSSIAN WAR ON JAPAN—President Truman (standing, center foreground) shown as he announced that Russia had declared war on Japan Wednesday. Secretary of State James F. Byrnes is seated in foreground and to right of Truman is Adm. William D. Leahy. Newsman are at left in this conference scene in the president's White House office. Associated Press Photographer John Rous made this exclusive picture. (AP Wirephoto).

No Details Given In Nagasaki Raid

By MURLIN SPENCER
GUAM, Aug. 9 (AP) — The world's most destructive force—the atomic bomb—was used for the second time against Japan today, striking the important Kyushu island city of Nagasaki with observed "good results."
More than one bomb may have been dropped in this second attack and it might have been of a different size than the first one which destroyed 60 per cent of Hiroshima. The carefully worded communique

Superforts Strive To Finish Off Amagasaki

GUAM, Aug. 9 (AP) — A task force of 80 superfortresses strove tonight to finish off the important oil refinery and tank storage farm at Amagasaki, near Osaka, in a concentrated attack with nearly 500 tons of demolition bombs.
The big bombers struck heavily at Japan's chief refinery of aviation gasoline.
The Nippon refinery was hit July 20, when 47 per cent of the built-up area was destroyed.

'Himmler Of France' Testifies Petain Reproached Him

PARIS, Aug. 9 (AP) — Joseph Darnand, once known as the Himmler of France, testified on the 16th day of the Petain trial today that the aged marshal reproached him only once.
That scolding, Darnand testified, was "in a long letter written when the Americans reached Rennes" in their dash into Brittany for the circling smash to Paris.

War Criminal Trial Preparations Made

LONDON, Aug. 9 (AP) — Arrangements for the first major trial of German war criminals advanced today even as the atomic bomb and the Soviet strike against Japan appeared to advance the hour when the Allies could get their hands upon Emperor Hirohito's warlords.
Appointment of James V. Bennett as head of the prisons branch of the United States group control council for Germany was announced officially in Washington and Berlin.

Six Reported Killed When Plane Crashes

VICTORIA, Aug. 9 (AP) — Six men, including Pete Zarilla, baseball property of the Knoxville Snickers of the Southern association, were reported killed in the crash of an army plane early today near Smiley, Tex.
The plane was reported en route to Foster Field here from Blackland army field at Waco, where the Foster Field baseball team played last night.

Most Devastated City

GUAM, Aug. 9 (AP) — Most devastated city in Japan is Toyama, on the Japan Sea 160 miles northwest of Tokyo, the 20th air force announced today.
The city of 127,000 population is 95.5 per cent destroyed.
Toyama was one of four forward cities hit by a record force of 800 superforts Aug. 2.

SANK 23 SHIPS

MANILA, Aug. 9 (AP) — Far East air force planes sank or damaged 23 Japanese ships and 36 small craft Sunday night and Monday in more than 400 sorties ranging from Korea to Malaya and the Indies. The bag included two freighter - transports, five freighters and a gunboat off Kyushu.

World Safe For Many Years Yet—

Bomb Jitters Unjustified By Facts

By HOWARD W. BLAKESLEE
AP Science Editor
NEW YORK, Aug. 9 (AP) — The public jitters now spreading concerning the perils of the atomic bomb are not justified, either by the official facts from Washington or by the scientific records of the discovery.
It is a scientific fact that the energy in the complete explosion of one pound of uranium could blow the Empire State building 20 miles into the air.
It is possible, as unofficially reported, that 11 pounds of uranium are used in the present atomic bomb.
But it also appears certain, from the scientific records up to

Red Army At War With Old Enemy Since Midnight

By EDDY GILMORE
MOSCOW, Aug. 9 (AP) — The powerful Red army was thrown into the balance against the old enemy Japan today after midnight, when the Soviet declaration of war became effective.
The Soviet people awaited the first news of fighting, but neither radio nor press had carried any war dispatches from east Asia as yet.
Columns of singing Red army men, fresh from victory over Hitler's Germany, tramped through the streets of Moscow and were cheered by crowds pouring from buildings a few minutes after the news of the new war had been announced.

From all over the Soviet union came news of factory meetings, at which speakers declared their determination to liquidate the last "den of aggression" in the world and restore peace to freedom-loving peoples.
Red Star, hailing the decision to "remove the danger which has constantly hung over the eastern borders of our country for many tens of years," said that Japan planned an attack on Russia in the grim days when the Red army had its back to the Volga.
The foreign commissar disclosed the dramatic news in a casual, almost nonchalant fashion at a press conference in the brilliantly illuminated conference room at the Soviet foreign office. Three and a half hours before, at 5 p. m. (Moscow time) he had summoned Japanese Ambassador Naitake Satō to the Kremlin and handed him the declaration, to be effective at midnight, seven hours later.
Molotov disclosed that Emperor Hirohito had asked the Soviet union to mediate in the Pacific war. This was in "mid-July."
Britain and America were informed he said.

He added that Tokyo's rejection of the Potsdam unconditional surrender ultimatum left the Japanese proposals without significance.
Molotov's announcement said Russia entered the Japanese war as her "loyal Allied duty" on the request of the United States, Britain and China.

Now on leave as director of the U. S. bureau of prisons, Bennett will have charge of imprisoned Nazis and ordinary war criminals in the U. S. occupation zone. His authority will embrace Nuerberg, where such defendants as Hermann Goering and Joachim von Ribbentrop will be arraigned in the first case before a four-power military tribunal from which there will be no appeal.
A pact to establish the tribunal for speedy trials, intended to demonstrate that aggression leads "to the prisoner's dock rather than to honors," was signed by representatives of the United States, Britain, Russia and France in London yesterday.

Justice Robert H. Jackson, chief U. S. prosecutor for war crime cases, signed for the United States. A spokesman for Jackson announced last week that the first trial would open in Nuerberg, former Nazi shrine city, Sept. 1.

Several other players of the Foster Field baseball team besides Zarilla were reported aboard the plane.
Full details were not immediately available.

School Boards Urge Smallpox Vaccinations

County School Board recommends that all school children be immunized against small pox before school begins.
Ann Fisher, county health nurse, says now is a good time to visit doctors and also to be immunized against diphtheria before the mild epidemic increases in Texas.
She also advised for those who have been vaccinated now to get Schick tested to be sure the immunization stands. "Whooping cough shots should be taken, too," she added.

Truman To Speak

WASHINGTON, Aug. 9 (AP) — President Truman reports to the nation tonight on the war situation. His half-hour address over all radio networks will begin at 9 o'clock, central war time.

Lost In Local Show: Two Small Boys

Two small boys were lost in a local theatre Wednesday evening and had their mother so worried that she called the police.
Luckily enough, the boys knew their way home and returned about 10:30 p. m.

Russians Slash Across Border

By The Associated Press
Red army troops slashed across the eastern and western frontiers of Japan's stolen Manchuria early this morning shortly after the Russian declaration of war became effective and sharp fighting now is in progress in all invaded areas, the Tokyo radio announced today.
A broadcast Domei dispatch said Russian forces had battered across the eastern frontier of Manchuria at "several points" along a 300-mile line extending southward from Hutou to Hunchun. Hutou, just across the Soviet-Manchuria border, is 350 miles east of Harbin, and Hunchun is about 240 miles southeast of that key industrial and communications center, regarded as a prime Russian objective.
The attack from the west, Tokyo said, was launched in the vicinity of Lupin (Manchouli), in the northwestern elbow of the winding Manchuria border, about 500 air miles northwest of Harbin.
A Japanese imperial headquarters communique said the Russians struck across both the eastern and western frontiers, beginning shortly after midnight. This suggested a vast pincer movement against the black Kwangtung army, pride of Emperor Hirohito's forces, believed massed in Manchuria.
At the same time, the enemy communique said, Soviet planes raided targets in northern Korea and northern Manchuria in separate actions.
The headquarters communique asserted that "part of the Soviet army opened attacks after crossing the eastern and western Manchukuo-Soviet borders while simultaneously small numbers of aircraft of the Soviet air force made separate raids on parts of northern Manchukuo (Manchuria) and northern Chosen (Korea)."
"Both the Japanese and Manchukuoan armies in these areas counterattacked for self defense and now are engaged in fighting with the Soviet army."
Tokyo said the Manchurian puppet government this morning proclaimed a defense decree for the entire nation "against the Soviet army's unlawful invasion."
Senior members of "Dal Nippon Seijaku," most influential political party in Japan, held an emergency meeting at the diet building in Tokyo to discuss counter measures "capable of meeting the sudden development in the war situation following the Soviet union's declaration of war against Japan," another Tokyo broadcast said.
If the Japanese make a determined stand the fighting may well be bloody. The best trained and best equipped units of Hirohito's forces are believed to have been held in Manchuria all through the war against just such an eventual London reports estimated that the Japanese had some 2,000,000 men in North China and Manchuria. There was no accurate estimate of Soviet strength in the area.

Nips Completely Encircled, Told Of Destruction

By JOHN M. HIGHTOWER
WASHINGTON, Aug. 9 (AP) — The mightiest armed forces of all history completely encircled the seared and tottering empire of Japan today, ready to smash it into oblivion if the Japanese do not surrender within a few hours.
Russia's entry into the conflict, reuniting the powers that blotted out Nazi Germany, robs the Tokyo government of its last hope for a holdout stand on the Asiatic continent. It thus shortens the war by many months even if the Japanese choose a fight to the death.
But from the White House to the capitol all official Washington hopes and expects that this momentous development, together with the atomic bomb campaign, will break the back of enemy resistance at once.
Use of the awful weapon reached the campaign stage today with strategic Nagasaki as its second target.
An intensified, 24-hour propaganda drive directed at the Japanese people over the heads of their leaders was opened by OWI when President Truman announced the Russian declaration at 3 p. m., Washington time, yesterday. It had the earmarks, although not the official stamp, of a 24-hour ultimatum.
Secretary of State Byrnes told a news conference:
"There is still time—but little time—for the Japanese to save themselves from the destruction which threatens them."
If the Japanese do not surrender now the war in the Pacific and Asia may go on for a year or so. But the conviction voiced on all sides here is that ever-so-end will come months sooner because of Soviet participation, with a consequent saving of American lives.

Yanks Hammer For Month To Interfere In Jap Withdrawals

CHUNGKING, Aug. 9 (AP) — American air forces have been hammering Japanese routes of withdrawal northward for a month with foreknowledge of the Russian entry into the war and have "seriously interfered" with the enemy's movements toward the Russian front, Lt. Gen. Albert C. Wedemeyer said today.
It was understood that Russia's intention to participate in the war against Japan had been known to high American officers since the Tehran conference in late 1943.
Gen. Wedemeyer, commander of U. S. forces in the China theater, conferred with Russian military representatives today.
Detailed plans already have been perfected with the Russians for the smooth coordination of air, ground and sea operations against the Japanese.
Wedemeyer also told a press conference that American-trained Chinese parachute troops were in action behind Japanese lines in China and were doing "splendid work" in interfering with the possible transfer of Japanese forces northward.
Chinese ranger forces recently achieved complete surprise in a dawn parachute drop between recaptured Kwelin and Hengyang in Hunan province on the route of withdrawal toward the Yangtze in central China, it was announced. The Chinese caused great confusion and heavy casualties among the retreating enemy, the general said.

Red Army Strikes, Leaflets Announce

MANILA, Aug. 9 (AP) — The first mission of the Far Eastern air force in support of their new Soviet Allies in the war with Japan was carried out this morning when millions of leaflets printed in Japanese were showered on the Japanese population only a few hours after war was declared.
The leaflets, printed in advance, were designed to explode a psychological bomb on the war weary enemy civilians.
Brig. Gen. Bonner F. Feller's psychological warfare officer who operates under the direct supervision of General MacArthur, admitted the advance preparation was a gamble that the Soviet Union would come into the war.
"However, as long as four months ago, the probability that she would come in seemed so strong that we felt it would be a criminal neglect if we did not plan an exploitation of the psychological advantages of this probable event," he said.
Much advance preparation under the closest secrecy went into the message to the Japanese people, Fellers said. Only one copy of the English translation of the text ever existed at a time.
The leaflet was labeled "The Red Army Strikes."
Less than 10 persons knew of the existence of the leaflets in the Manila printing headquarters where hundreds of army men and civilians are employed.

Mighty Third Brushes Aside Air Opposition

By MORRIE LANDSBERG
GUAM, Aug. 9 (AP) — Admiral Halsey's mighty Third Fleet attacked Japan anew today with more than 1,200 carrier planes and brushed aside enemy air opposition, the first encountered since it started hounding Nippon's homeland more than a month ago.
A dispatch from Associated Press Correspondent Al Dopking, with the fleet, said the armada's anti-aircraft guns thundered as the Japanese planes appeared and that he saw two shot down. No ship reported damage.
Returned carrier pilots, who started their attacks before dawn against northern Honshu, reported many Japanese planes set afire on the ground, two ships sunk and at least six others damaged.
The return of Admiral Halsey's massive fleet to waters off north Honshu—the same sector where it began its "Red July" scourge of the enemy fleet, air force and coastal industries—came as Admiral Nimitz pledged Russia the assistance of the navy.
The Tokyo radio reported that in addition to the heavy carrier plane attacks, surface units of the Third Fleet were shelling the northeastern Honshu steel city of Kamashi.

PRESIDENT LAYS DOWN FIVE POINTS FOR RECONVERSION

WASHINGTON, Aug. 9 (AP) — President Truman today laid down a five-point plan designed to speed reconversion of industry to peacetime production and recommended the lifting of controls as soon as possible.
The president said in a letter to WPB Chief J. A. Krug that he hopes the WPB staff "will stay on the job" because their work is not yet done.
The War Production Board, Mr. Truman said, can and should "play an important role in reconversion."
He asked Krug to take these steps:
1. A vigorous drive to expand production of materials which are in short supply "not only because of military demands but to meet civilian demands as well."
2. A limitation on the manufacture of products which would require materials that are in short supply.
3. A board and effective control of inventories "to avoid speculative hoarding."
4. Granting of priority assistance "to break bottlenecks which may impede the reconversion process."
5. Allocation of scarce materials for the production of "low-priced items" essential to the continued success of the stabilization program.

Woodruff Promoted To Sergeant's Rank

Cpl. Garland O. Woodruff has been promoted to the rank of Sergeant at the Big Spring Bomber School, Col. John K. Nissley, commanding officer, has announced.
Sgt. Woodruff, whose wife resides here, has been on the field since October 1942. He is now in the Personnel Affairs office.

World Safe For Many Years Yet—

Bomb Jitters Unjustified By Facts

That single split is all that ever has been reported as happening to uranium atoms.
The world is quite safe until far more than that kind of a split can be attained. The entire atom would have to come apart to make the 20-mile blow-up of the Empire State building with a pound.
Any of the other 91 different kinds of atoms, such as gold, iron, lead, iodine or carbon could cause a comparable destruction, per pound, if they could be made to blow up completely.
But on the evidence to date, scientists have been unable to get a single one of the other atoms even to split, much less blow up completely.

Hard-To-Get Goods Now Making Reappearance

"A lot of hard to get sports goods and office equipment are beginning to trickle back on the market," Boone Horne of Hester's, said Monday, "and we are getting our share."

Parts Stock Is More Complete Says H. M. Rowe

H. M. Rowe, manager and owner of Rowe's garage at 214 1-2 West Third, announced Monday that he now has a good line of Chevrolet parts in stock, including new motors and transmission parts for all models. He also has a supply of Fram oil filters, and one new Bulok motor.

Mechanics at the Rowe garage are specialists in car care—and their chief concern at this time is to help keep every essential car on the road, and make it possible for wartime car owners to make their autos last until new ones can be purchased.

"When you stop to consider how many cars may go completely out of service before reconversion will make new ones available again," said Rowe, "perhaps you will then realize how important it is that you bring your car in right away for a thorough checkup."

The demands upon your car have never been greater than at the present time, with the whole country working feverishly toward victory, and summer heat adding to motor parts wear and tear. Remember that the Rowe garage is open for the purpose of servicing your automobile. Remember, too, that early minor repairs avoid costly ones later.

Rowe, as all other garage operators, is short-handed, but he is keeping a "daylight to dark" schedule to serve his customers to the nearest pre-war standards as possible, and his quality of work is just as high as at any time since he went in business for himself some five years ago.

Avoid letting your automobile parts wear, and your car won't break down and keep you from driving. Take your car to the Rowe garage and be certain of speedy service and a thorough job—at the right price.

shipment of non-rationed tennis shoes in preparation for the fall season of sports. Football shoes are again part of their stock and they've been able to get a supply of soft balls and soft ball bats. Horne said that their supply of fall gift items has arrived and that they are very complete. For the younger set there are all kinds of toys and games, and for adults there is a good stock of attractive leather goods from which one may choose a well made billfold, picture frame, photograph album or desk set.

Hester's stationery supplies are well known, and they have one of the best selections of personal stationery in town. Whether it is a fine quality of writing paper that is desired, or a fancy novelty note paper, Hester's is ready and prepared to serve. The personal touch may be added with initials or a name printed right on the paper.

They have a good selection of office writing paper and in addition, are able to print an attractive appropriate letterhead of a business-like, conservative style. Horne announced that a few Underwood typewriters and Sundstrand adding machines are coming into the store, and it is expected that the flow will increase in forthcoming months. For typewriter owners who are having trouble with their machines, Hester's now has an experienced, well-trained typewriter mechanic. Bill Horne, who recently returned from overseas duty, will keep all office machines in good operating order.

Hester's at 114 E. Third street offers the best in service and merchandise.

Russia, Japan 'Natural Foes' With 40-Year Record Of Hate

By RUSSELL BRINES
A P War Correspondent

The "natural enemies" of Asia — Russia and Japan — have glared at each other for 40 years across the rich continental bulge which both covet.

Since the Russo-Japanese war of 1904-05, peace has been enforced between them by practical considerations and a balance of power made more precarious by preoccupation elsewhere. That official peace has been broken in the past 15 years by an endless series of border skirmishes, climaxed by small-scale undeclared war in 1939.

The issues between them are a solidification of hatred, fear, revenge, mistrust. They stem from the "unfinished business" of the Russo-Japanese conflict and the events which produced it. Each subsequent development of belligerent history between them has made the day of reckoning more certain.

During the past five years, official Russo-Japanese relations were smoothed by tongue-in-cheek diplomacy which kept growing hostility from reaching surface manifestation. The last of these diplomatic dykes crumbled in April.

Moscow, with ironic correctness,

denounced the neutrality pact of 1941. The official reason was that the agreement had lost its meaning by the continued warfare of each principal against the other's allies.

The Russians, however, actually were telling Japan that their success in Europe had minimized the one time catastrophic threat of a Japanese stab through Siberia. Implemented, by other statements and developments, the denunciation was viewed as a warning that the Soviets were getting set for possible participation in the Pacific conflict.

The neutrality pact in itself was no protection against sudden attack. Both it symbolized the delicacy of their peace, dictated by pressing demands on other war and diplomatic fronts.

Until the end of 1939, Japan's surge toward empire was directed toward the lands held or sought by Russia. The program was sold to the Japanese people largely as a "battle of self-defense" to eliminate the "Russian menace."

Step by step, with power, guile and ruthless exploitation of Russian weaknesses, the Japanese drove across the northeastern continent to the Amur river. The ultimate goal was Siberia.

The Japanese made their most determined bid for that incredibly rich area during the Allied Occupation of 1918. Only the strongest pressure by third powers succeeded in forcing the withdrawal of Nipponese forces from regions which they attempted to rule and exploit as soon as they landed. To conclude that with-drawal the Soviets agreed to a 45-year lease of oil and coal concessions in Russian-owned northern Sakhalin Island.

Expansion made Japan a continental empire with some of the richest resources in Asia. It consolidated the domestic power of the army clique now dominant. When these militarists turned their conquering armies toward southwestern Asia, they merely

were deferring, not abandoning, the ultimate hope of capturing Siberia.

But they modified the blustering arrogance with which, in the days of their power, they dragged concession from the Soviets. They had given the proud Russians little chance to forget the humiliation of 1905. The Treaty of Portsmouth, ending that conflict, became the legal basis for subsequent Japanese exploitation of such Soviet resources as fisheries. Tokyo militarists openly boasted of breaking Russian power in Asia.

The Soviets snapped back with telling force in the 1939 border war at Nomonhan. Their armored columns scored a convincing victory on the Manchuria-Outer Mongolia border in a three-month engagement which cost 20,000 Japanese casualties.

Tokyo became conciliatory. Former Foreign Minister Matsuoka sought and obtained the neutrality pact, which the Japanese previously had spurned. His price was liquidation of the northern Sakhalin oil rights 26 years ahead of the treaty date.

But the Japanese did not announce that part of the bargain, nor did they make any attempt to comply, until Moscow sharply brought it to world attention in 1944. The Japanese had temporized, in hope of a German victory over Russia. That gamble lost, they were forced to accept a revision of treaties by which the Soviets fully demonstrated their new diplomatic ascendancy over Tokyo.

The pendulum made its final reversal when the Russians broke the German threat. Moscow was about to be given one of the greatest opportunities in history. With the full weight of her allies behind her, Russia could choose the time and place for a military stroke that would bring long-dormant hopes for humiliations as numerous perhaps as any great power had been forced to endure. She could end, with surety, the persistent Japanese threat against one of her richest domains.

Doolittle's First Superforts Arrive

OKINAWA, Aug. 8 (AP) — The first B-29s of Lt. Gen. James Doolittle's Eighth air force arrived on Okinawa today, swinging spectacularly out of the clouds onto the newly completed coral airstrip.

"It is great to have these boys with us to take their share in the knockout of Japan," said Doolittle, who with four other generals was among the crowd at the airstrip for the initial welcoming of the Superfortresses to this potent airbase on Japan's doorstep.

Muslin was imported into England from India in the late 1600's.

Eloquent Gravestones On Iwo Jima Reveal Emotions GI's Don't Show

By ROBBIN COONS
IWO JIMA, (AP) — Cemeteries traditionally are green and quiet retreats. Those here are neither green nor quiet.

Nowhere on Iwo is there quiet. The steady drumming of B-29's, the screaming passage of Mustang fighters, and the sky-splitting whine of Black Widows in the night keep the air over Iwo in turmoil — and that too seems fitting, seems to give added meaning to the sacrifice here remembered.

Many servicemen are inarticulate. If you suddenly asked a group of them to put into words what their war was about and why they were fighting, you'd stand a fair chance of hearing some unprintable remarks, some wisecracks about the draft, and

sundry assorted insults to the point system. The GI does not wear his heart nor his emotions on his sleeve.

In a cemetery where his buddies lie, however, he sometimes gives himself away. Two gravestones carved and erected, sometimes in the midst of battle, some of them by men who were to join their comrades in death, are eloquent.

These stones have given way to military, uniform markers on the graves, but they have been preserved in orderly display in lines beside the cemetery entrances.

There are these: "R. K. Gillespie . . . 1927 - 1945 . . . Blessed are the pure in heart . . ." and "Zeke . . . May God bless

you . . . Your childhood buddy." Some tell a poignant tale in few words — like this anguished inscription: "But God—fifteen years was not enough!" . . . But time and again this theme recurs: "He died that we may live — We'll never forget . . ." "Your spirit will never die . . ." "Reach down, Dear Lord, for this marine who gave his all that we might live . . ." Orators some day may say it with more and bigger words. They'll never say it better.

Valuable Hints On Stretching Meats

Among the most valuable ideas nowadays are those on how to make the meat supply go further—and when it's gone how to prepare appetizing protein dishes without meat.

Miss Elizabeth Lawrence, specialist in food preparation for the A. and M. College extension service, has a wealth of ideas on the subject. "Meat Alternates as the name implies, are goods which can be used in place of meats," says Miss Lawrence. "They have simi-

lar food value. Poultry, fish, eggs, cheese, dry beans and peas and nuts are excellent alternates. Any one of these foods may be used in place of meat as the main dish of the meal.

Poultry, fish, eggs and cheese are good sources of protein and the B vitamins. That is why they may be used instead of meat. Dry beans and peas and nuts are also good sources of proteins and the B vitamins, but the protein in these products is a little lower in nutritive value than protein from animals.

"So remember," Miss Lawrence advises, "to drink a glass of milk or eat another food containing cheese or eggs when your main dish is dry beans or nuts or peas. For instance, if you have baked beans to take the place of meat as your main dish, take a glass of milk or eat custard for dessert to increase the food value of the meal.

And speaking of meat extenders, we can sympathize with the poor man in the song who "gets no bread with one meat ball," because as every smart homemaker knows, bread is one of the best of meat extenders. Nowadays when bread, like other cereal products, is among the plentiful foods, you can depend upon it to spread the meat flavor to the last bite—whether its the bun on the hamburger or the roast stuffing made of bread crumbs.

Supply The Family With Poultry Meat

The meat shortage has tremendously increased the interest in raising fryers, and requests for poultry information coming into the office indicate that this interest is not lessening as the war advances.

A large percentage of the inquiries which reach the office are concerned with the use of battery brooders as a possible means of keeping a continuous supply of young birds for home use or for filling the weekly market commitments. Moore, a poultry specialist, said that many inexperienced poultrymen who plan this type of production program may have disappointments. For this reason, small inexperienced producers who go in for production should consider carefully all the disadvantages involved.

He believes that for home use, a family should decide about how many birds it desires, then obtain enough chicks in one order to supply this entire need. When this batch of chicks becomes too large to feed as fryers, the remaining birds should be killed and stored for use during the rest of the year, or sold and another group started. In this manner disease, sanitation and feeding problems are simplified, and the chances of eventually producing a fat healthy chicken are greatly increased.

Placing chicks of different ages in close contact increases the disease threat, as older birds contaminate the young. The problem of heating also is complicated, as different aged birds require different temperatures.

Moths breed in heated rooms during the winter.

LEGAL NOTICE

CITATION BY PUBLICATION
THE STATE OF TEXAS
TO: WILLIE GRACE LOYD,
GREETING:
You are commanded to appear and answer the plaintiff's petition at or before 10 o'clock A. M. of the first Monday after the expiration of 42 days from the date of issuance of this citation, the same being Monday the 24th day of September, A. D. 1945, at or before 10 o'clock A. M. before the Honorable District Court of Howard County, at the Court House in Big Spring, Texas.

Said plaintiff's petition was filed on the 25th day of July, 1945. The file number of said suit being No. 5547. The names of the parties in said suit are:

JOHN HOWARD LOYD
as Plaintiff, and
WILLIE GRACE LOYD
as Defendant.

The nature of said suit being substantially as follows, to wit: Plaintiff alleging bona fide inhabitancy in the State of Texas for a year and a resident in Howard County for 6 months next preceding the filing of this citation, that they were married February 15, 1936, and permanently separated from her March 1, 1945, for the reason that her course of conduct was of such a cruel nature as to render his living with her insupportable and unbearable; that the plaintiff is in the Army and has been physically and continuously overseas, and not in the United States at all for the past two years, and has not seen the defendant or been with her during that time, but she has given birth to a child now only a few months old, and he alleges that the child is not his, but begotten by some other man with his wife during his absence; praying for a divorce and praying for judgment decreeing that the said child is not a child of the plaintiff and not a heir of the plaintiff.

Issued this 8th day of August, 1945. Given under my hand and seal of said Court, at the office in Big Spring, Texas, this 8th day of August, A. D. 1945.

GEORGE C. CHOAETE

"Hon. Spy report war make U. S. populace cruel and barbarous—very popular spectacle on U. S. stage is man sawing woman in half!"

Today On The Home Front— Serious Problems, Unemployment, Reconversion, Threaten Peacetime

By JAMES MARLOW
WASHINGTON, Aug. 9 (AP)—Japan is caught in a double crunch: The atomic bomb and war with Russia. Japan may have to quit, soon. Then what?

A sudden end—say in a week, two weeks, a month—will mean a painful wrench on the American home front from a war to a peace economy.

An end six months from now would make the change-over easier. By that time more and more war plants would have eased over into peacetime work. But a sudden end to the war will mean:

Wholesale cancellation of war contracts. Millions thrown out of jobs, some to seek jobs elsewhere because their plants can't convert, some to hang around until their plants do convert.

Millions of men from the armed services will start pouring back into civilian life, also looking for jobs.

Kentucky's Senator Barkley, majority leader, warned his colleagues when they quit August 1 that they had big programs facing them upon their return.

Here are just three:

1. President Truman's request,

seeking to ease the stress of mass unemployment when war ends—to increase unemployment pay and give it to more people. Congress hasn't done anything about this.

2. President Roosevelt's request that congress pass a bill through which the government could plan for full employment. Nothing has been done about this except for a couple of days' hearings by a senate committee.

3. The need to start whittling down taxes when the fighting is over.

Men, Women! Old at 40, 50, 60! Want Pep? Want to Feel Years Younger?

Do you blame exhausted, worn-out feeling on age? Thousands credit it on what a little peping up with Oxyel has done. Contains tonic many need at 40, 50, 60, for body and soul because low in iron, also supplies vitamins B₁, calcium, phosphorus. Low cost! Intolerant only \$1.00. Try Oxyel Tonic Tablets for new pep, younger feeling, the very day.

At all drug stores everywhere—in Big Spring, at Collins Bros. Drug Store. (adv.)

Pfc. Van Dyke Reports To El Paso Hospital After Home Furlough

FORSAN, Aug. 8 (Sp)—Pfc. J. L. Van Dyke, Jr., has reported to the William Beaumont General hospital in El Paso after a furlough with his wife and his parents, Mr. and Mrs. J. L. Van Dyke, Sr.

Pfc. Van Dyke will undergo plastic surgery on his neck. He was wounded on March 12 from shrapnel in France near the German lines.

He landed in the United States in May, having gone overseas in September, 1944.

Leftover crusts can go into puddings or be dried and made into dry crumbs.

PIGGLY WIGGLY

FOODS OF QUALITY

From where I sit... by Joe Marsh

Lawn Mowers—Prewar Versus Postwar

Will Curry isn't falling for those pictures of a postwar life of ease. He was sweating over his lawn mower the other day, when somebody shows him pictures of a mower that runs under its own power.

"Shucks," says Will, "I like a lawn mower that gives you some backtalk and exercise. It gets the old blood circulating and works up a wonderful thirst."

"Then," Will adds with zest, "there's nothing in the whole world that tastes as good as a cheerful glass of beer!"

From where I sit, there's a lot of good sense in what Will says. A little honest effort never hurt anybody. And there should be more to our post-war plans than how to make life comfortable and easy.

Outdoor work—work you do with your hands and your back—ought to be part of everybody's post-war plans. And on a hot day, as Will says, there's always that sparkling glass of beer as a reward!

Annual Old Settlers Reunion To Be Held Last Friday In August

Annual reunion of old settlers will be held at the city park on Aug. 31, officials of the association decided at a meeting Friday.

James Barr In Unit Cited For Gallantry

WITH THE 32ND INFANTRY DIVISION IN NORTHERN LUZON, P. I., Aug. 14 - Pfc. James C. Barr, son of Mr. and Mrs. L. M. Barr, of Vincent, shares a citation awarded Company "C" of the crack 127th Regiment by Major General William H. Gill, commander of the veteran 32nd (Red Arrow) Infantry Division.

C. W. Bettle Told About In Column

The name of T-5 Clayton W. Bettle, son of Mr. and Mrs. Frank W. Bettle of Big Spring, recently appeared in an article in the Fort Worth Star Telegram under the by-line of Charles K. Boatner, who is correspondent for that paper with the Merchant Marine.

July Cash Balance For County Healthy

Howard county's cash balance at the end of July was \$241,173, including \$150,000 from the 1945 series of road bonds.

Crops Benefit In Midweek Rains

Reports from over Howard county Saturday indicated that crops, and particularly ranges, were responding to mid-week showers.

Commissioners Pass On Highway Project

Looking toward post-war projects, the Howard county commissioners court has assured the highway commission by resolution that it is ready to secure right-of-way on highway projects in this county.

Pfc. Jessie Wood In States From Europe

FRESQUE ISLE, Me. - Pfc. Jessie W. Wood, son of J. B. Wood, Sr., of Big Spring, veteran of 28 months service as a supply clerk in the European theater of operations, arrived at the Fresque Isle army air field recently aboard an Air Transport Command plane of the North Atlantic division's Snowbird fleet.

Apply At ACA Office For Sheep Subsidy

Applications by sellers of sheep and lambs for CCC subsidy payments may now be directed to the county ACA office.

Injunction Prohibits Large Sugar Increase

DALLAS, Aug. 15 (AP) - An injunction prohibiting the Southern Wholesale Grocery Corporation of Corsicana from increasing its sugar orders has been signed by Fed. Judge William H. Atwell, Walter Brahan, District Office of Price Administration attorney, announced yesterday.

TRAINED TOGETHER - AB Clinton (Bud) Purser, son of Mr. and Mrs. J. D. Purser, and AB George O'Brien, Jr., son of Mr. and Mrs. George H. O'Brien, completed training together at Avalon, Calif., as members of the U.S. Maritime Service, before they were sent to different ports for embarkation.

C-C Barbecue Has Good Crowd

Bucking such an auspicious occasion as the surrender of Japan, the chamber of commerce barbecue nevertheless attracted a large number to the city park Tuesday evening.

Martin-Howard Soil Conservation District News

A 4,000 cubic yard tank is being constructed on Jim Hodnett's stock farm located in the Vincent cooperation group. This will provide fine watering units for 1,400 acres of range land.

RECEIVES WINGS - Pictured above is Eddie J. Carpenter, 19, son of Mr. and Mrs. Edmond J. Carpenter, Star route, Vincent, who received his silver pilot's wings and was appointed a Flight Officer in the Army Air Force upon completion of his two-engine advanced training at Pampa Army Air Field.

Commissioners Adopt Budget

Howard county commissioners court Monday afternoon adopted the proposed 1946 budget calling for total expenditures of \$289,504.

Sawtelle To Attend Home Service School

Mrs. Moree Sawtelle, executive secretary of the Howard-Glasscock chapter of the American Red Cross, has been instructed by the chapter to attend a special institute on home service work at El Paso next week.

Sgt. H. E. Hammond Point-Discharged

FT. DOUGLAS, Utah - Discharged from the Army under the adjusted service rating plan at the Fort Douglas Separation Center, Sgt. H. E. Hammond has had four years service in the States stationed at Randolph Field, Big Spring and Kearns, Utah.

Sentry Only Visitor At Roosevelt's Grave

HUDE PARK, N. Y., Aug. 15 (AP) - The Hudson valley grave of Franklin D. Roosevelt lay in stillness punctuated only by footsteps of a lone sentry as the complete victory for which the late president worked so hard and long finally came.

Teacher Replacement Chief Board Problem

Board of trustees of the Big Spring Independent School district will hold their regular meeting Monday at 8 p. m.

Acker Turns In Top Performance In "GI Mikado"

Cadet R. C. Acker, former professional singer playing the lead in "G. I. Mikado," turned in a top notch performance last night in the cadet comedy which opened for a three-day stand at the Big Spring Bombardier school.

The play will run at the post today and Tuesday at 8 p. m. and will play free to the public Wednesday at 8 p. m. in the city auditorium.

That will leave an hour and a half show, with comedy situations, snappy dialogue and first class lyrics providing a fast moving performance.

A production of cadet class 555, the story features the plight of a lone private first class who is thrown in with a lot of brass in an American bomber base off the coast of Japan.

Six More Cases Of Typhus Here

Six more cases of typhus here were reported in Big Spring, bringing a total of 19 such cases, says the local health clinic in its weekly communicable disease report.

A rat extermination campaign is going on in the city to help reduce the spread of typhus which is carried by fleas on rats.

Six persons are reported to have influenza and one has pneumonia. One case of measles has been listed and one of whooping cough.

Vealmoor Soldier Heading For Texas

MIAMI, Fla., Aug. 14 - The longest but fastest part of the journey home was over for a group of overseas veterans heading for Texas, when they planted their feet on native soil again at this Air Field after a 7,300 mile flight from Casablanca via Air Transport Command planes.

Nissley Announces Several Promotions

Promotion of two field-grade officers and 11 others was announced today by Col. John K. Nissley, commanding officer of the Big Spring Bombardier school.

More Calves Selected For 4-H Club Boys

Fifteen more calves have been selected for 4-H club boys who will feed out dry lot animals.

Four Picked Up For Fighting In Flats

Four persons were picked up in the flats for fighting with bottles Friday night and received emergency treatment at a local hospital, show police records.

Work Will Begin On Flood Control Project

Big Spring's Engineering Department is working on flood control projects for the north side of the city, said city officials Monday.

Police Pick Up Women For VDC

Twenty women were in police custody Monday awaiting VDC checks through the Health Clinic following an intensified pick-up during the week-end, mostly in the flats area.

One woman was picked up for unlawful train riding and trespassing, as well as VDC.

Three persons were arrested for gaming and five men were held for investigation. Seven drunk were held over the week-end.

Eighteen traffic tickets were issued by police on Saturday. The car is a black '41 Pontiac sedan.

Phillips Due To Plug Deep Test

Another deep production prospect for this area apparently was down as a failure with a decision to plug the Phillips Petroleum Co. No. 1 L. S. McDowell, north-central Glasscock exploration.

The test recovered 8,123 feet of sulphur water on a 45-minute drillstem test from 10,793 to 10,915 feet.

The test had unofficially been reported to have logged several shows, notably one around 9,400 feet in the Eilenburger section.

The bottom of hole was said to be in the Eilenburger. Location is 330 feet from the north, 3,236 feet from the west lines of section 31-34-26, T&P.

C. W. Guthrie No. 1 Scott, southeaster Howard wildcat, was at 2,100 feet in-lime. It is in section 64-29, W&N.W.

Cosden No. 2 Reed Bros., outpost to the chalk pool was clearing out following two shows. The test, located in section 141-29, W&N.W., was bottomed at 3,117 feet.

Kamikaze Planes Crash On Troops

OKINAWA, Aug. 15 (AP) - A pair of bomb carrying Japanese kamikaze suicide planes crashed into Iha Island, 30 miles north of Okinawa tonight, injuring at least two American garrison troops in a futile raid which left Okinawa fuming with fury.

The raid came 12 hours after President Truman's announcement of Japan's surrender was made known. It caused a two-hour black-out alert over Okinawa and nearby islands.

The alert, following by hours General MacArthur's communique declaring "offensive action in all sectors had been halted," stunned Okinawa troops. They thought that at last they would be able to see a movie or play cards uninterrupted by enemy air action.

ABC's Told Of Lack In School Teaching

There have been transfers of 91 students into the Big Spring Independent into the Big Spring Independent elementary schools.

Best Way to Celebrate The Peace

We were sitting on Bill Webster's porch the other night, talking about how we'd celebrate when the Japs surrendered.

FATHER VISITING

Mr. and Mrs. J. C. Douglass, Jr., have as their guest her father, O. P. Griffin, Clyde Mr. Griffin is former county agent of Howard county, having retired a year ago to a farm near Clyde.

SEAMAN PORTER WOUNDED

Most recent navy war casualties report shows Sammie Wilburn Porter, S 1-C, USNR, as wounded in action. He is the son of Mr. and Mrs. Sam J. Porter of Forsan.

Spence Checks City Plans On Water Supply

Lt. Col. E. V. Spence, member of the state board of water engineers and former Big Spring City manager, advised with city officials Saturday on contemplated water supply development plans.

He studied possibilities of an auxiliary dam as well as possible new underground sources for the city.

Col. Spence emphasized that the facilities and personnel of the state board would be available to Big Spring in the planning of its water program.

He is enroute to Barstow to join Charles H. Miller, compact committee member, for a trip to Albuquerque, N. M., where they will confer with New Mexico engineers and the corps of engineers on Aug. 16 concerning impounding of Pecos river water which might flow into Texas.

Currently, the federal government has blocked all assistance on projects concerning the river until Texas and New Mexico come to an understanding on policy.

Col. Spence said he was anxious for the various communities of the state to make use of the board's services, both to the development of surface and underground sources of water supply.

He stressed the need of conserving water supplies, and by this he meant a wise appropriation of water resources for maximum public benefit.

Regulatory Controls May Be Relaxed Soon

Recommendations made recently by the Management-Labor Committee of the Ahlens area have been approved by J. H. Bond, regional director, for the relaxation of all War Manpower Commission regulatory controls in this area.

All controls will be relaxed as of 12:01 a. m. Monday, Aug. 13. There will be no priority referrals, no essential industries and issuing of statements of availability will be halted. Workers are encouraged to stay on the job.

"In most places," said Henry A. Clark, manager of the local USCS, "jobs are getting scarcer and the labor supply is greater than the demand."

Right Back Where He Started From - And Still In The Army

FT. LEONARD WOOD, Mo., Aug. 11 (AP) - When Sgt. Orm McMaisters returned here recently after 37 months overseas, he found himself right back where he started from.

McMaisters trained in the 39th engineer training battalion after he arrived here as a rookie. When he checked in here again he was assigned to the same company in the 39th, to the same platoon barracks, and to the bed next to the spot he occupied as a trainee more than three years ago.

From where I sit... by Joe Marsh

From where I sit, Bill Webster has the right idea. When Peace comes, there's going to be a whole new world to build.

There's a really big job to be done. A glass of beer, the beverage of moderation, and a good night's sleep to be ready for the task ahead - that's the right way to welcome Victory!

Bill Webster had the last suggestion. "I'm going to pour a glass of beer and drink a toast to our fighting men," he says, "and that is just as far as my celebrating's going to go."

From where I sit, Bill Webster comes, there's going to be a whole new world to build. There's a really big job to be done. A glass of beer, the beverage of moderation, and a good night's sleep to be ready for the task ahead - that's the right way to welcome Victory!

Opening Date For Schools Scheduled

Big Spring public schools will open on the morning of Sept. 10. This decision was reached by the board of trustees at a Monday evening meeting.

Ordinarily school starts here the day after Labor Day, but the first Monday falls on Sept. 3 and trustees felt that Sept. 4 would be too early.

Supt. W. C. Blankenship has called a meeting of the faculty for Sept. 8, the Saturday previous to the opening.

Trustees took up the matter of the proposed budget and set Aug. 29 as the date for the public hearing. Increases were granted to 12-months employees of the school system as follows on a monthly basis:

Pat Murphy, \$25; Mrs. Amabel Lovelace, Mrs. F. M. Purser, Debra Bradford, Mrs. Hazel Pierce, \$15; W. C. Blankenship, \$50.

State National bank was designated as depository for 1945-47 with Edith Hatcher as treasurer.

Election of teachers included these in high school: Mrs. Mary Boyvy, librarian; Mrs. W. O. Lowe, commercial department; Edna Earl Harper, home economics; Mrs. Liza Ruckley, eighth grade math; Edna Earl McGregor, home economics.

Elections to elementary posts included Sarah Alice Harper, Mrs. Veda Eggleston, Mrs. Margaret M. Priest, Maurice Trig, Yette Watkins, Mrs. Inez Newton Grant, Lucille Grant.

Harrison And Shaw Promoted To Pfc.

WITH 81ST INFANTRY DIVISION SOMEWHERE IN PACIFIC - Clinton H. Harrison, son of Mrs. Lena A. Harrison and husband of Mrs. Ruth E. Harrison, Big Spring, has been promoted from private to private first class in recognition of proven ability as an infantry medical companyman.

Gene E. Shaw, son of Mr. and Mrs. Willie S. Shaw, Knott, has also been promoted to private first class in recognition of proven ability with an infantry anti-tank company.

Both are members of Maj. Gen. Paul J. Mueller's 81st Infantry "Wildcat" division, which last fall wrested the Palau and other western Caroline Islands from the Japs.

OPA Representative To Meet With Dealers

A representative of the Lubbock district Office of Price Administration will be in Big Spring Wednesday to meet with dealers selling goods covered by MFR 550.

The meeting will be at 8:15 p. m. on the mezzanine floor of the Settles hotel.

Discussion will center around the five pricing rules and how to apply them, "maximum prices for new stores opening since March 19 of this year, marking and tagging, and "retailing invoices" on articles received since April 20.

Firms in adjoining counties are urged to attend these meetings to get a thorough explanation of the regulations and how it is to be carried out.

Bus, Car Collide Making Right Turn

A bus and car collision was reported by officers at the intersection of Third and Gregg at 11:30 p. m. Tuesday.

The car tried to pass the TMNO bus on the right side as the bus was making a right turn.

\$40 damage was done to the car and \$25 damage to the door of the bus. No one was injured.

O'Brien Advises Food Supply For V-J Holiday

George H. O'Brien is telling all his customers to be sure they have grocery supplies which will last them in case V-J Day is announced. He says the O'Brien Grocery, 1201 Eleventh Place, will be closed all day then.

O'Brien's complete stock of quality goods is a special drawing card and regular customers know what it is to obtain some scarce articles. The store even has pepper now and then.

National advertised products are available at the grocery. Del-monte foods and White Swan can products are on their shelves. Meats feature the Double A grade and Armour Star products, when they are available.

Three times weekly—Tuesday, Thursday and Saturday—a fresh shipment of vegetables and fruits arrive. The fruits are California products and the vegetables come from Colorado at the present time.

Only a limited delivery service is operated now but will increase when things permit. This may be had by phoning 1622.

O'Brien does solicit good credit accounts and carries these on a two week and monthly basis. Operation of the store is done by the owner and his son, Joe.

O'Brien Grocery opens at 8 a. m. and closes at 7 p. m. during the week. Saturday hours are the same except for an extended hour closing time.

Baby Chick Season Gets Second Wind

The baby chick season gets its second wind next month, and Wooten Produce Co. will be ready for it.

Harvey Wooten, owner of the company, announced the installation of a new incubator unit which will be used in production of chicks for the autumn season.

Already several thousand chicks have been hatched, and indications are that there will be a demand that will at least equal the hatching egg supply. The meat conservation campaign cost flocks heavily in roosters, for the bulk of these gentlemen are now resting in food lockers. Too, there has been a heavy demand for eggs and commercial producers frequently prefer infertile eggs because of marketing problems.

Wooten, however, will be in the market for good setting eggs and is anxious for producers in this area to contact him for bookings.

His poultry processing department has been getting the rush act in recent weeks. For more than a month Wooten Produce averaged 1,000 fryers processed. A good part of these were custom picked and prepared for freezer lockers, while no little volume went into regular commercial channels. The mechanical picker, a revolving drum with notched rubber fingers, plucks feathers and polishes a bird in almost nothing flat.

Wooten Produce also maintains

its position as a purchaser of cream. In the new location at Nolan and E. 2nd street, Wooten is in better position than ever to handle cream. He also has a large refrigerated vault which gives him ideal storage.

Although the feed situation has lightened perceptibly, Wooten expedites delivery of his quotas and makes them available immediately to customers. As an added service, Harvey Wooten also has been trucking in supplies of fresh fruits and watermelons for the convenience of his customers—and they have given rousing applause by quick purchases of this quality merchandise.

That Which Returns To Earth Shall Rise

FIRTH, Ida., Aug. 13 (AP)—Franklin Just was working on the Fred Bennett farm with J. P. Croft when the latter dropped—and lost—his wife's high school class ring. That was 17 years ago. Just, who now owns the farm, found the ring yesterday while he was irrigating potatoes.

Advertising Goes To Church With Editor

BURLINGTON, Ia., Aug. 13 (AP)—In warm weather, Van Garrison, sports editor of the Burlington Hawk-eye Gazette, attended church wearing his bowling shirt beneath his suit coat. The Rev. Bruce Masselink invited the male portion of his congregation to remove their coats. They did so, including Garrison.

There, blazoned on his back, was the name of a nationally-advertised beer.

your car—and yourself—a favor by letting Arnold see that it is tested, and, if necessary, recharged without delay. The muscle of your car is its electrical system. Don't let it deteriorate from sheer neglect—when a checkup can save its life and gain you many more miles of safe and useful driving.

Abilene Couple Drown

ABILENE, Aug. 13 (AP)—W. A. Stewman, about 42, Abilene cafe operator, and his wife, Edith, about 31, were drowned in Fort Phantom Hill lake north of Abilene yesterday. Search for the bodies was in progress.

Mrs. Charlotte Clark who accompanied the Stewmans in a boat said Mrs. Stewman left the boat and that the wind caused her to become separated some distance from the boat. Stewman swam to her. Mrs. Clark said she watched as they tried to reach the boat and expressed the belief that Stewman suffered a heart attack.

WAR TIME CARE OF YOUR CAR

The thoughtful car owner realizes that EVERYTHING he uses in his car—gasoline, oil, greases, etc.—must be carefully selected with one thought uppermost — to get the BEST and the BEST only because the car he now owns will have to last for quite some time. Our COSDEN PRODUCTS are refined according to the highest American standards... we are NOT sacrificing quality during the present emergency... we want your business now, after the war... in fact ALL the time.

"Gasoline Powers the Attack—Don't Waste a Drop"
Cosden Higher Octane

Atomic Bomb Spelled ABC

By JOE WING

Q. What are atoms?
A. Atoms are units that form the basic building blocks of all matter. Put together, they form molecules.

Q. What makes up atoms?
A. Atoms contain tremendously hard cores of protons, or positively-charged particles, and neutrons, or particles without electrical charges. Around them fly electrons, or negatively-charged particles.

Q. What is meant by atomic fission?
A. It's a 75-cent phrase for smashing atoms into two pieces.

Q. What is the potential power of an atom?
A. The electrical force binding an atom together never has been measured, but when a uranium atom is split in two (not even shattered) by 50 electron volts a force of 200,000,000 electron volts is released — a fraction of that available. The full atomic force of a pound of uranium might send the Empire State building 20 miles into the air.

Q. Who discovered the atomic bomb?
A. It was the culmination of work by hundreds of scientists here and abroad. In direct charge of solving the final technical problems was Dr. J. Robert Oppenheimer, Maj. Gen. Leslie R. Groves had over-all responsibility.

Q. Why is discovery of the means of utilizing atomic energy being called Promethean?
A. In the Greek legend, Prometheus stole fire from heaven and gave it to man. This discovery of a new kind of fire may be the greatest event in human history since then.

Q. How is an atomic explosion akin to the heat of the sun?
A. The sun evidently gets its heat from atomic fires, inconceivably hotter and longer lasting than ordinary fires.

Q. How does an atomic explosion differ from an ordinary explosion?
A. An ordinary explosion is a greatly speeded up ordinary fire, in which heat results when molecules separate. An atomic explosion gets its greater heat and force from the separation of atoms which make up the molecules, and from the break-up of atoms themselves.

Q. What was the principal apparatus used in the experiments that led to construction of the bomb?
A. The cyclotron was used. There are 37 in the world, including 20 in the United States.

Q. How does a cyclotron work?
A. The cyclotron hurls atoms of heavy hydrogen around in a small circle in a vacuum until they are traveling thousands of miles a

ATOM GUN: Cyclotrons like this helped bomb research

second and their speed gives them an electrical energy equal to as much as 5,000,000 volts. They emerge to strike a target, usually a piece of metal. Tearing particles from some of the atoms in this target, they release part of the energy of the damaged atoms, in the form of rays.

Q. What gap did the scientists have to bridge between the cyclotron and an atomic bomb?
A. In the bomb, the tremendous activating apparatus of the laboratories must be concentrated in immeasurably smaller space, and the explosive substance stabilized until the moment of detonation.

Q. What has heavy water to do with it?
A. Heavy water furnishes the neutrons for cyclotrons and in a German process an effort may have been made to use heavy water to slow down neutrons enough so that they would be useful in atom smashing.

Q. Was the atomic bomb really a war-time discovery?
A. Yes, although basic theories behind it were known before 1939.

Q. What is the essential substance in atomic bomb production?
A. Uranium. Probably the isotope known as uranium-235, because its atomic weight is 235.

Q. What is uranium?
A. It's a lustrous white metal not found in pure state in nature. Its sources are pitchblende (also the source of radium) and carnottite.

Q. Is much uranium available?
A. It's a comparatively rare metal, although ore deposits are scattered widely.

Q. How is uranium like radium?
A. Both are radio-active, radium the more so.

Q. Can atoms in other substances be split?
A. Presumably they can be, but no one knows how yet. Uranium is just one of 92 elements.

Q. Why is the uranium atom easier than others to split?
A. It is the largest of atoms and comparatively unstable. Smaller atoms seem to be tougher, harder to break.

Q. What was the cost of developing the atomic bomb?
A. About two billion dollars.

Q. Where are the atomic bombs made?
A. Chief plants are at Oak Ridge, near Knoxville, Tenn., and at Richland, near Pasco, Wash.

Q. Why were such locations picked?
A. Because they were remote and probably because they were near large electrical supplies.

Q. Can the atomic bomb be manufactured safely?
A. Greatest possible safety is insured by handling the processed materials in separate concrete cells by remote control.

Q. When was the first atomic bomb exploded?
A. Before daybreak July 16, 1945, on the desert 120 miles southeast of Albuquerque, N. M.

Q. How big is the atomic bomb?
A. Its size has been estimated at 400 pounds, including about 11 pounds of explosive substance plus casing and activating apparatus.

Q. How is an atomic bomb set off?
A. That's a secret but presumably it is done with neutrons. Before the war plans were to set off such a bomb by directing radium particles against beryllium which would give off high-speed, penetrating neutron rays. These would be slowed down by being passed through paraffin. The slowed down days directed against uranium would split off some of the particles of the uranium atoms and start a chain series of atomic explosions.

Q. Does the atomic bomb utilize all available energy of the atom?
A. No. Only a fraction of one per cent. Full use will be impossible until atoms are actually smashed instead of being merely divided as at present.

Q. How powerful is the atomic bomb?
A. The one first used had more power than 20,000 tons of TNT, or more than 2,000 times as much as the British 11-ton bomb.

Q. How widespread is the effect of an atomic bomb?
A. The blast of the experimental bomb knocked down observers 10 miles away. The first bomb on Japan wiped out more than four square miles of Hiroshima.

Q. When an atomic bomb goes off, why doesn't the world explode?
A. There's no more reason for it to explode than for it to catch fire when an ordinary bomb goes off. A far greater, more intense explosion than anything now possible would be necessary to touch off a world explosion.

Q. Is the atomic bomb too costly for frequent use?
A. Experts call it cheaper for the attacker in money as well as lives than ordinary bombing.

Q. Is controlled atomic energy as opposed to explosive energy, now available?
A. Yes. It has been produced during the production of some of the bomb elements, but is not yet practical for ordinary use.

Q. Does the atomic bomb on exploding leave deadly emanations in its wake?
A. The War Department says no.

Q. How was America able to keep secret this greatest of secret weapons?
A. The government ordered strict secrecy; the work was so compartmentalized that few people knew the over-all picture; and newspapers and other publications and radio under voluntary censorship kept mum.

Q. Who owns the atomic bomb?
A. The governments of the United States and Great Britain. All persons engaged in the work were required to assign any rights to their governments.

Q. How long will it be before atomic energy can be utilized in industry?
A. Certainly many years, say officials. That may mean five years or 50.

Q. Why can't atomic power be put to peaceful purposes at once?
A. Because knowledge of how to control it is insufficient, because its production is not now economic, and because uranium is rare.

Q. How does uranium-235 compare with coal as a potential source of energy?
A. One pound might give off as much heat as 1,000 pounds of coal and therefore would be worth \$5,000 a pound as fuel. As a gasoline substitute it might be worth \$10,000 a pound; as a substitute for electricity \$100,000 a pound.

Q. How near did Germany come to developing an atom bomb?
A. Near enough to keep the Allies jittery. She was working feverishly on the problem by 1940. Many of the basic theories were developed by German-born scientists.

Q. What foiled Germany in this?
A. Lack of some materials, destruction of some key plants, the killing of some of her top scientists, and the persecution of Jewish scientists.

Q. Will the atomic bomb secret be given to Russia?
A. There has been no indication that the United States and Britain will pass it on now to any other power.

Q. How will the world be safeguarded against indiscriminate use of the atomic weapon?
A. By an immediate policy of secrecy on the means of producing the bomb; by long-term planning under the direction of a committee of outstanding scientists and others headed by Secretary of War Stimson; and by a commission which the President will ask Congress to establish.

CHECKING CIVILIAN PASSES — Troops of the Ninth armored division, occupying force in Bayreuth, Bavaria, inspect passes of Germans entering the city at a road block.

Midland Scores Again

Midland scored its seventh straight baseball victory over the Big Spring Bombardier school last night at the post here, when the visiting AAF averaged two runs each inning for a total shutout of 18-0. Manager of the local team is 1st Lt. Edward M. Gibbons. Midland won five games against Big Spring before transfers necessitated reorganization of the local squad late in June. Since then the Bombardier squad had played Midland only once, until yesterday.

In 1928 Egypt declined the offer of John D. Rockefeller, Jr. of \$10,000,000 to help establish a museum for her antiquities.

THIS POINT-SAVING MEAT STRETCHER

Even more in summer, nourishing food is needed... and with meat rationing to worry you, here's help that non-rationed National 3-Minute Oats can provide. Try this recipe for dinner... hot or cold, or for pep-providing sandwiches.

1 1/4 c. National 3-Minute Oats
1 lb. ground meat 1/2 c. ketchup
2 tsp. salt 1/4 tsp. pepper
Combine oats, meat, salt and pepper. Beat eggs, add milk, ketchup and onion. Mix all together. Pack in greased loaf pan. Bake 1 hour at 350° F. Serves 6.

No other type of food is such a plentiful source of Vitamin B1, Protein, Usable Iron and Energy.

NATIONAL 3-MINUTE OATS
THERE IS A DIFFERENCE IN OATS

REFUGEE AMONG RUINS — A destitute Chinese family takes refuge amid the ruins of Luchow after Chinese troops retook the city, once a U. S. air base, from the Japs.

Meatless Tuesday? That Sounds Like War

TUCSON, Ariz., Aug. 16 (AP)—Sgt. Nelson Loveland kept a wise-crack under wraps for 1,345 days, and when he finally used it yesterday, a waitress at a nearby airfield's service club couldn't think of a come-back.

The sarge ordered a hamburger and when the waitress told him it was meatless Tuesday, he cracked: "Migosh, you'd think there was a war going on!"

Censorship, OWI To Be First To Disband

WASHINGTON, Aug. 16 (AP)—The offices of censorship and war information made ready to go out of business quickly.

Indications are that they will be the first of the government's war agencies to die with the advent of peace.

Censorship will cease with the proclamation of V-J Day.

MASKS WITH GLASSES — Specially designed spectacles for the inside of Army gas masks, to avoid leakage at the temples, are explained by the designer, Samuel Bouchard (left) of the Bausch & Lomb scientific bureau.

Hip Song Tong Finds Noisy End For War

BOISE, Ida., Aug. 16 (AP)—It was "hip, hip" and 10,000 bang-bangs when the Hip Song Tong of Boise celebrated the Jap surrender yesterday.

The Chinese organization, led by 74-year-old Louie Sing You, applied the torch to 10,000 fire-crackers the members had saved since their native country went to war with the Nips in 1937.

Gov. Charles C. Gossett lent the celebrationists the steps of the state capital building for the occasion.

Yes, It's Time To Celebrate, Sailor, Soldier, But The Dead Can't Dance

(Kenneth L. Dixon, Associated Press war correspondent who covered the fighting from North Africa into Italy, France and Germany, the Potsdam Big Three meeting and now en route to a Pacific assignment, writes here another view of victory).

By KENNETH L. DIXON

WASHINGTON, Aug. 15 (AP)—It's too bad the dead can't dance. This is the day and night to celebrate, to dance, to throw confetti and honk horns, to be joyful.

Victory is here—and more than that, peace. This is the day and night that Sandy and Wendell and Joe and Jimmy were looking forward to. This is going to be their day and night.

They knew how it would be. And it's that way. They were going to throw confetti and kiss blonds, brunettes and redheads (especially redheads, Sandy used to say) and thumb their noses at captains and lieutenant-colonels today and tonight. They were going to buy their wives, or sweethearts (that's a concession to Sandy who was single) orchids and hire a taxi for the night and just raise merry yells. I hope they are celebrating, but I don't know.

For Sandy lies south of San Pietro in a little graveyard just west of that junction in the road beyond Venafro. And Wendell lies at Anzio — "biggest little graveyard in the world" they called it. And Joe was the kid who drew his cross in the Vosges hills (southern France, it was). Jimmy's swift and efficient soldier's burial came in the Ardennes breakthrough. They were all good kids. Sandy was worried about whether he would be a "man" in combat. He was. Wendell was worried about his wife, because he'd been studying

human reactions and he was afraid for what might happen to their love.

Joe was just tired—just weary of the whole business and wondering when the hell it would be over.

And Jimmy had long since become philosophical about it all. He knew that, eventually, he'd either get one of those "million-dollar-wounds" or get it. He got it.

Guy's like those are buried all the way from Hill 609, Tunisia, to Margraten, Holland, where they shipped them back from Germany to let them rest in friendly soil. I've never been westward, but it must be the same all the way from

Guadalcanal to Iwo Jima. It must be that way from Bataan back to Bataan.

Some places they have poppies and some places they don't. But the crosses always bloom. And they always cover guys like Sandy and Wendell and Jimmy. And these are the guys who can't be here today.

But they are the dead who should be dancing tonight. So kiss a lot of girls, sailor. And tea the stripes off a hundred topkisses, Joe. You've got a lot of celebrating to do, this victory day.

You've got to fill in for a quarter-million or more of the best of your buddies who aren't here to celebrate. For the dead can't dance.

Balloon - Borne Bombs Fall Flat In Texas

By The Associated Press

At least two instances in which bomb carrying paper balloons landed in Texas were recalled as relaxation of censorship permitted details of that bizarre and ineffective Japanese attack against the North American continent.

One such unmanned balloon, wafted on air currents to this country, spilled three bombs in north Brown county before falling near DeLeon in Comanche county early this year. Another balloon landed in Erath county, in the same west central part of the state.

A crater was burned by one of the bombs which exploded after burying eight feet in red clay in a Brown county pasture. Another exploded in the air; the third buried six feet, but did not explode.

More than 200 of the balloons were landed by the Japs in North America. They fell from Alaska to Mexico, and as far east as Michigan. As a military weapon they fell flat.

Today's Pattern

The straight-cut pieces of this pinafore apron, Pattern 9350, make it unusually easy to put together. The optional cross-grain section of skirt is gay in striped fabric.

Pattern 9350 comes in sizes 12, 14, 16, 18 and 20. Size 16 takes 2 1/8 yards 35-inch material.

Send TWENTY cents in coins for this pattern to Big Spring Herald, Inc., Pattern Dept., 232 West 18th St., New York 11, N. Y. Print plainly SIZE, NAME, ADDRESS, STYLE NUMBER.

Fifteen Cents more brings you the Marian Martin Summer Pattern Book, a collection of all that's new and smart in wearing apparel for the family. Free Nightgown Pattern printed in the book!

Post Swimmers To Compete For Team

Nine swimming events and diving were listed today for the Big Spring Bombardier school's summer swimming meet here Monday, from which a post team will emerge to compete against eight other AAF bases.

The team will seek the championship of the central sports district of the Central Flying Training Command in competition at the Midland AAF Sept. 1-2, according to Capt. George D. Allen, athletic director.

Events, identical with the Midland schedule, will include the 50, 100, 200 and 400-yard free-style races; 100-yard breast stroke; 100-yard back stroke; 200-yard individual medley relay; 300-yard medley relay, and the 400-yard free-style relay.

Competition here, which will be run off Monday at 7 p. m. in the municipal pool, is open to cadets, enlisted men and officers, although cadets will not be eligible for the post team due to duty conflicts, Capt. Allen said.

Diving competition will include five optional and five required dives. Air fields that will compete at Midland besides the host base and Big Spring are Concho and Goodfellow Fields from San Angelo; Waco, Blackland, Bryan, Fort Worth and Selman Field from Monroe, La.

To remove iron rust, ink and scorch on washable material, moisten the spot with lemon juice, sprinkle with salt and place in sunlight. Repeat until stains disappear.

LEGAL NOTICE

CITATION BY PUBLICATION THE STATE OF TEXAS TO WILLIE GRACE LOYD, GREETING:

You are commanded to appear and answer the plaintiff's petition at or before 10 o'clock A. M. of the first Monday after the expiration of 42 days from the date of issuance of this Citation, the same being Monday the 24th day of September, A. D., 1945, at or before 10 o'clock A. M. before the Honorable District Court of Howard County, at the Court House in Big Spring, Texas.

Said plaintiff's petition was filed on the 25th day of July, 1945. The file number of said suit being No. 5547. The names of the parties in said suit are: JOHN HOWARD LOYD as Plaintiff, and WILLIE GRACE LOYD as Defendant.

The nature of said suit being substantially as follows, to wit: Plaintiff alleging bona fide inhabitancy in the State of Texas for a year and a resident in Howard County for 6 months next preceding the filing of the suit, that they were married February 15, 1936, and permanently separated from her March 1, 1945, for the reason that her course of conduct was of such a cruel nature as to render his living with her insupportable and unbearable; that the plaintiff is in the Army and has been physically and continuously overseas, and not in the United States at all for the past two years, and has not seen the defendant or been with her during that time, but she has given birth to a child now only a few months old, and he alleges that the child is not his, but begotten by some other man with his wife during his absence; praying for a divorce and praying for judgment decreeing that the said child is not a child of the plaintiff and not an heir of the plaintiff.

Issued this 8th day of August, 1945. Given under my hand and seal of said Court, at office in Big Spring, Texas, this 8th day of August, A. D., 1945. GEORGE C. CHOATE, Clerk, Court Howard County, Texas. (SEAL) By Luella Merrick, Deputy.

NOW SHE SHOPS CASH AND CARRY

Without Painful Backache Many sufferers relieve nagging backache quickly, once they discover that the real cause of their trouble may be tired kidneys. The kidneys are Nature's chief way of taking the excess acids and waste out of the blood. They help most people pass about 3 pints a day.

When disorder of kidney function permits poisonous matter to remain in your blood, it may cause nagging backache, rheumatic pains, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness. Frequent or scanty urination with burning and burning sometimes shows there is something wrong with your kidneys or bladder.

Don't wait! Ask your druggist for Doan's Pills, a stimulant diuretic, used successfully by millions for over 40 years. Doan's gives happy relief and will help the 15 million of kidney tubule fish eat poisonous waste from your blood. Get Doan's Pills.

Bill Webster had the last suggestion. "I'm going to pour a glass of beer and drink a toast to our fighting men," he says, "and that is just as far as my

BUSY FLIGHT DECK — Curtiss Helldivers are spotted on the deck of the airplane carrier, USS Yorktown. In the foreground is a 40-mm. battery; beyond, two five-inch gun turrets.

Try and Stop Me

DAILY STORY FROM THE BEST-SELLING BOOK By BENNETT CERF

THE solemn, almost mournful countenance of Robert Emmet Sherwood camouflages a playful nature that found expression at an extremely early age.

His bedridden grandma was wheeled out on the porch in sunny weather; the boy Robert was discovered there, manipulating a rod and string, at the end of which dangled a live beetle. Grandma was ducking as best she could, and hollering for help. Robert saw no reason why he should be punished. "All I was doing," he explained indignantly, "was tickling up Grandma."

Sherwood grew up to be a great playwright, a close adviser of the late President Roosevelt, the husband of a beautiful movie queen (Madeleine Hurlock), and a punster of the first water. Invited to sit in on a gambling orgy, he muttered, "Only the brave chemin de fer." When rich Spaniards sought to escape the Civil War via the international bridge and were strafed by warplanes, Sherwood read the reports and said, "That's what comes of putting all their Basques in one exit."

Sherwood's first Pulitzer Prize play, "Idiot's Delight" gave the propaganda machine of the late and unlamented Herr Goebbels a name for him, "You can ignore those short-wave broadcasts," hooted Goebbels, referring to Sherwood's O.W.I. work. "They were written by a delighted idiot."

US, British Discuss A Jewish Palestine

WASHINGTON, Aug. 16 (AP)—President Truman disclosed today that this government is discussing with the British a Jewish national state in Palestine.

The chief executive told a news conference that the American view is that as many Jews should be let into Palestine as possible. The matter would have to be worked out diplomatically with the British and Arabs to assure success, he said. It would have to be on a peaceful basis, the chief executive asserted, adding he had no desire to send half a million American soldiers to keep peace in Palestine.

Mr. Truman said he had discussed the Palestine question with Winston Churchill and his successor, Prime Minister Attlee, at the Potsdam conference.

Error In Increase

Information concerning monthly salary increases to 12-months employees of the Big Spring school board was in error as concerned the superintendent of the system, it was learned today.

The figure should have been \$25 per month, the same amount granted the principal, coach, and director of diversified occupations. The original report erroneously doubled the amount.

Direct Cost Of War Is Staggering Sum

WASHINGTON, Aug. 15 (AP)—The United States government spent over \$300,000,000,000 directly on the war before the Japanese surrender came.

This total will rise much higher before the last soldier is discharged and the last contract paid off.

The \$300,000,000,000 went for direct war costs between July 1, 1940, when the defense program began, and the middle of this week.

By contrast, the first world war cost \$25,000,000,000 to the middle of 1921.

Treasury figures show how much was spent in each fiscal year, as follows:

1941—\$ 8,855,000,000.
1942—\$28,266,000,000.
1943—\$76,298,000,000.
1944—\$89,722,000,000.
1945—\$89,501,000,000.

Marine Sends Home Jap Brush Document

A Japanese document, declared by army intelligence to be "one of the finest pieces of brush we have ever seen," was picked up on Iwo Jima by Marine Cpl. Sam Stinson, Jr., son of Mr. and Mrs. Sam Stinson, Sr., 635 N. 3rd, Phoenix.

The document, a farewell address of Miss Kiyoko Takaegu of the Haku Japanese language school in Hawaii in 1938, was said to be "almost a museum piece."

One paragraph was deleted from the translation of the text by G-2 before it was permitted to go to his parents. The Stinsons are former Big Spring residents.

American Airlines Show Profit Increase

Net profit for American Airlines, Inc. showed an increase for the six months ended June 30, according to an announcement by C. R. Smith, chairman of the board.

The figure was \$2,311,066 after provision for federal income taxes, depreciation, etc. and equivalent to \$1.79 per share of common

Captain Oppenheim Travels With Spatz

When Capt. Gertrude Oppenheim recently journeyed to the Pacific theatre at her own request, she made the trip with Gen. Carl Spatz. Understandably, the party was accorded plenty of attention.

Capt. Oppenheim, a sister of Mrs. J. C. Douglass, Jr., had asked for the Pacific assignment since her husband, Lt. James Oppenheim, had been reported a casualty in a Jap prison camp. She was impressed by her billet on Guam and said "If I could come back to the good old USA tonight, I would turn down the chance."

Cpl. C. E. Robinson Given Purple Heart

WITH THE 7TH INFANTRY DIVISION ON OKINAWA, Aug. 16—Cpl. Clarence E. Robinson, 28, of Big Spring was wounded June 21, the day the island of Okinawa was declared secured, and has been awarded the Purple Heart.

After fully recovering, he returned to his duties with the 13th Combat Engineer Battalion.

Overseas 14 months, Okinawa was Cpl. Robinson's second campaign. He had previously participated in the battle for Leyte.

A graduate of the Big Spring high school, he was employed by the Suggs Construction Company before entering the Army in Sept., 1943.

His wife lives at 406 State Street and his father, C. B. Robinson, also lives in Big Spring.

Funeral Delayed

Funeral for Mrs. J. H. Burns, 52, Ackerly, has been delayed until 3 p. m. Friday due to inability of some survivors to make connections to get them to Big Spring as originally planned. Rites will be said at the Brown community in Martin county and burial will be in the Ackerly cemetery. Mrs. Burns succumbed here Tuesday.

NO MORE DEPLOYED

FRANKFURT ON THE MAIN, Aug. 16 (AP)—No more troops will be deployed from Europe to the Pacific, U. S. army headquarters said. It said five divisions, approximately 75,000 men, would be on the way to the United States within 30 days.

WE'LL see you since the war is over with a continued quality wheel alignment job. Your patronage has been appreciated during the war.

PTA Postpones Grain Distribution For Rats

Heads of the Parent-Teacher associations of Big Spring today decided to postpone until Aug. 23 the distribution of poisoned grain to residences as a part of the city-wide rodent killing campaign.

The postponement of a week was announced due to displacements following surrender of the Japanese. A week from today, when the picture is more nearly back to normal, the distribution will be undertaken.

Each P-TA unit head will appoint from four to six helpers in her district to see that the grain is made available to every residence.

PASS ORDINANCE
A rat stoppage ordinance was passed at the first reading of the City Commissioners meeting Tuesday afternoon. The ordinance must be read two more times before full passage by the commissioners.

Motorists Order "Fill 'Er Up"; Housewives Mostly Buy Evenly

Favorite canned fruits of Big Springers were rapidly disappearing from the shelves of local stores and looks of astonishment were on the faces of gasoline purchasers Wednesday after OPA announced termination of those items.

The majority of service stations remained closed but those that did open did a booming business with cars lined up to "fill 'er up." One station owner said he almost sold out and another reported very few persons didn't know the rationing had been lifted. One person asked for five gallons and then handed the station attendant a ration coupon. After being told the good

news, the customer was so excited then he asked for more.

One grocery store owner who opened Wednesday said people were fighting over canned goods and each had his arms loaded down. He said, "People have gone to eating good again and it is the most wonderful thing."

Only one other grocery reported similar doings, but its supply was mostly exhausted on canned fruits with high point value. The majority of the stores were busy as in normal times and no one seemed to be taking more than his share. Another owner believed, "Some people don't seem to know that blue points have been lifted."

Each housewife shopping took only two or three cans. Peaches and other scarce fruit went fastest. "If stocks had been larger," a grocery owner thought, "then crowds would have been larger."

Anyway, housewives know they can get the foods now whether they hurry or not.

Pfc. Wood Awarded Bronze Arrowhead

Pfc. Jessie B. Wood, Jr., husband of Mrs. Jessie B. Wood, Jr., 1111 E. Sixth, member of the 132 FABN of the veteran 36th "Texas" division, has been awarded the Bronze Arrowhead to wear on his European theater of operations ribbon. The Arrowhead has been awarded for participation in the (Salerno) (Riviera) invasion when he made the D-day amphibious assault.

The 36th Infantry division has seen action on two D-days: Italy and southern France. To its credit are such battles as San Pietro and Cassino, the Rapido River, and Anzio. It fought at Montelima, where the German 19th army was annihilated, and drove across the Salnte Marie Pass of the Vosges mountains. It breached the powerful Siegfried line defenses at Wissembourg and completed 400 days of actual combat plunging through Germany and deep into Austria.

Registered strength today is as follows: 2,217 scouts, 1,319 Cubs and 957 scout and Cub leaders, a total of 4,493 for the largest such figure in the history of the council.

Nimitz Invites Two Guests To Ceremony

GUAM, Aug. 16 (AP)— Fleet Admiral Nimitz has sent messages to General Spaatz and Lt. Gen. Roy Geiger inviting them and their aides to be his guests on his flagship at Japanese surrender ceremonies.

Churchill Tells New Commons Of Effect Of Bomb

By ALEX H. SINGLETON
LONDON, Aug. 16 (AP)— Winston Churchill told Commons today that the atomic bomb was responsible for the sudden ending of Japanese war and saved a million American and 250,000 British lives which would have been lost in invading the enemy's home islands.

Prime Minister Attlee said subsequently that the atomic bomb discovery would force reorganization "in the sphere of international relations."

"We have to realize that we are living in a new world, now that we have seen the atoms, a new force, the consequences of which we find it difficult to grasp," said Attlee, who succeeded Churchill as Britain's first minister as a result of the July election.

Churchill said Generalissimo Stalin promised to enter the Pacific war three months after the German surrender and the Russian intervention on Aug. 8 after the German collapse May 8 was "but another example of the fidelity and punctuality" of the Soviet Union.

He disclosed that he and President Truman made elaborate plans at Potsdam for "great battles and landings in Malaya," the Netherlands East Indies and in the homeland of Japan itself, "not knowing how long Japanese resistance would continue."

He insisted that the secret of the atomic bomb be kept from other nations. The bomb, he said, "more than any other factor," brought about the "sudden and speedy ending of the war against Japan."

Churchill spoke as leader of the government's conservative opposition, a position to which he was regulated by the July election.

Generalissimo Stalin was informed that "we contemplated using explosive of incomparable power against Japan," he said. "It is to this atomic bomb, more than any other factor, that we may ascribe the sudden and speedy ending of the war against Japan."

He credited the atomic bomb with saving a million American and a quarter million British lives which he said would have been the price of invasion of Japan itself.

He told the house that the secret of the devastating new weapon should not "at present be imparted to other nations in the interests of the common safety of the world."

Churchill said Premier Stalin had promised him that Russia would declare war on Japan "three months after the capitulation of Germany."

"The fact that the German army surrendered on May 8th and the Russians declared war on Aug. 8th is no mere coincidence, but another example of the fidelity and punctuality with which Marshal Stalin and his valiant armies always kept their military engagements," Churchill said.

The house cheered.

The chunky, 70-year-old statesman declared that "there are

CITY GETS BACK INTO ROUTINE AFTER POST-SURRENDER PAUSE

Big Spring was beginning to get back into the routine Thursday, a day after news of the Japanese surrender was flashed.

While most of the business houses were reopened, there were some who stood by their guns that the occasion warranted two days off. Most offices opened their doors, but the postoffice made it a two-day affair in keeping with the president's statement of a two-day holiday for federal employees. This also kept the lock on some federal offices.

Food stores and filling stations appeared to be getting most of the post-holiday rush. The spontaneous closing after the surrender announcement caught many households with their pantries down. This, coupled with relaxation of canned goods rationing, drew many to stores Thursday morning.

Service stations happily were answering the once-familiar "Fill 'er up!" Many who did not particularly need a tank full of gasoline just wanted to see how it felt.

CLEAN UP TOWN
It was a busy day for the city water department and garbage department Wednesday. Employees of these departments were responsible for cleaning up the town after surrender celebrations Tuesday.

Voices which assert that the atomic bomb should never have been used at all.

But, he added bluntly: "I cannot associate myself with such ideas. Six years of total war have convinced most people that had the Germans or the Japanese discovered this new weapon, they would have used it upon us to our complete destruction with the utmost alacrity."

Cheers sounded from both sides of the house.

The city passed through a calm day Wednesday and Thursday the reaction from victory was still mostly one of thankfulness.

In place of speculation about duration of the war, there was conjecture over problems of reconversion, redeployment and the perennial debate over whether business would slack or generally keep going on an even keel. In the city, there appeared little likelihood of reaction one way or the other soon.

BETTY SUE by Vaughn's SWEET SHOP

Mommy and the whole family will be thrilled with VAUGHN'S ENRICHED "WON-DA" BREAD. Baked from a special, scientifically developed recipe that produces a tender, easily-cut crust and an even, fine-grained inside that is better than you can imagine. Make it a daily "must."
