## Mountain Echoes

By

While we 'flatlanders' were hearing about the invasion of sharks along the Gulf Coast last week, our own NEWS staffer, Joyce Combs, and her family were at Padre Island getting a first-hand account.

While fishing in the shallow water along the beach, Ronald saw a six-foot shark swim past, and he beat a hasty retreat to shore. Feeling braver, he again ventured out in the shallow water where he caught a three-foot shark on a line baited with shrimp. Passers-by and fishermen in the area watched with interest and offered help as the shark was landed.

The Combs family brought home the meat from the shark but have not yet tried what is said to be a real delicacy.

Many people here were saddened by the death of a good friend, B. A. 'Hawkshaw' Parker who died Monday. He had a wide circle of friends and was a favorite among the coffee crew at Phillips Drug Store.

He will be missed in our community.

## City Hall Open At Noon Hour

The regular meeting of the City Council was held at the City Hall Thursday, June 2, at 6:30 p.m. During the business session the motion was made to rotate the lunch hour so that the office may remain open throughout the day. Office hours are from 8 AM - 5 P.M.

## City Library Open Daily

The Santa Anna City Library is open each weekday afternoon for the present time. Minnie Frausto, a senior at Santa Anna High School, is serving as summer librarian with the facility open from 1 to 5 p.m. each weekday afternoon.

Mrs. Edwin Hipsher, librarian, will supervise the summer schedule and has announced that a number of new books have been added to the library. Books from the collection of Rev. and Mrs. Richard Chaffin and several records have been donated, and books for the children's section have arrived from Abilene Public Library.

Local people are also reminded of the 'books by mail' that are available free of charge except for return postage. Mrs. Hipsher will secure the requested book by giving her the title and author. Books for this service are secured from several participating state libraries.

Participation is growing in the local library, and more readers are encouraged to make the facility worthwhile.

They have lived in Santa Anna for one year while he served as minister of Northside Church of Christ.

While living in Santa Anna the couple have taken part in several community groups with Mrs. Wille serving as president of Mountain City Garden Club and a member of Self Culture Club.

## Donations Sought For County Swimming Pool

With the closing of the Coleman swimming pool this year, Coleman County residents are coming to the front to promote the building of a pool for the county. A drive for funds has been started in the area, with money sought to match Federal funds available for such community projects.

Coleman County Commissioners, City of Coleman and City of Santa Anna have all pledged funds to the project, and private donations are now being solicited to complete the needed amount.

Representatives from Santa Anna Summer Recreation Program met with leaders of the county and city governments to secure the local funding, and an account has been opened at Santa Anna National Bank for those who

will make any donation. The fund is listed as Coleman County Community Teen Center - Swimming Pool Fund. Arrangements may be made at all county banks for drafts if donors choose to make monthly pledges to the fund.

The committee working with the project needs to raise \$10,000 by the end of the summer to start the federal funding process. Even if given top priority, a new pool is unlikely to be built by next summer.

According to statistics presented the group, Coleman County is one of only two County Seats in the State without a municipal swimming pool. The only public pool, a privately owned facility, closed last year after about 30 years of operation.

Sponsored by the Delta Omicron Chapter of Epsilon Sigma Alpha, the event is being staged for the benefit of the St. Jude's Children's Hospital in Memphis, Tenn., a hospital devoted to the treatment and research of leukemia which has received the support of actor Danny Thomas.

## S-Anna School Nurse Retiring After 22 Years

A long-time staff member of Santa Anna Schools is retiring this year, and perhaps she has made a more lasting impression on more students than most former school personnel.

Mrs. Edna Wells, R.N., School Nurse at Santa Anna for the past 22 years, probably has more 'notches' on her syringes than any other nurse in the area as she has administered inoculations to many of the children in the community several times a year from early childhood through high school.

Starting work with five schools in the county in 1954, Mrs. Wells has spent at least two days a week at Santa Anna tending to minor illnesses, giving shots and keeping accurate medical records of the students enrolled. She ended her work this spring as nurse for Santa Anna, Novice, Mozelle and Talpa-Centennial schools.

During her many years at the local school, Mrs. Wells has comforted and tended to hundreds of sick children and counseled with parents and teachers. Her duties have also included providing transportation for children who needed treatment by doctors, dentists or optometrists in neighboring towns. Besides her busy schedule as a school nurse, Mrs. Wells was often called to work as a floor nurse at Overall - Morris Memorial Hospital in Coleman, spending most of her summer 'vacations' on duty there.

Mrs. Wells graduated from Seton School of Nursing in Austin in 1929 where she compiled an

MRS. EDNA WELLS Trades Kids for Tigers

outstanding record.

Summer activities for Mrs. Wells include working with her daughter, Jacqueline Jennings, at Abilene Zoo. A trip to northeastern United States is planned for the fall, and she plans to enjoy traveling and gardening during her retirement.

Faculty and staff members at Santa Anna Schools and their families honored Mrs. Wells with a retirement party and get-together at the end of school. Mr. and Mrs. Charles Greenlee were hosts for the picnic at their ranch near Rockwood. A gift was presented Mrs. Wells by the group attending.

Among the guests was a former teacher, Mrs. Winnie McQueen of Coleman.

## 23rd Screwworm Case Discovered In Sanderson Little League Second Half Is Underway

Rancher C. F. Cox of Sanderson collected Brewster County's first 1977 maggot sample which proved, under laboratory examination, to be screwworms.

This is Texas' 23rd case of the year, reports Dr. M. E. (Cotton) Meadows, Jr., director of the U. S. Department of Agriculture Screwworm Eradication Program. By June 2 of 1976 Brewster County had tallied three cases and Texas had a total of 2,277.

Cox collected the Brewster County sample from the navel of a new born calf at his ranch headquarters on May 30. It was identified in the lab May 12. The nearest known cases (two) in the region were collected May 13 and 14 along the Pecos River near Sheffield.

Meadows asks livestock owners to watch closely for signs of infestations. "It is particularly important this year when we are striving to eradicate screwworms from Texas for the final time."

The screwworm fighter says one encouraging aspect of the effort this year is that no buildup has been recorded in any area. "The sterile flies seem to be preventing spread from any of the cases reported to date."

The Screwworm Eradication Program, operated by the Animal and Plant Health Inspection Service (APHIS), is based on the fact female flies usually mate only once in their lifetimes. Millions of screwworm flies are reared, and sexually sterilized, in an insectary.

They are released from APHIS aircraft in areas where it is thought wild screwworm flies may exist; and in specially heavy numbers in the area of known screwworm cases. When enough sterile to fertile matings occur eradication is achieved.

The Santa Anna Rams started the second half of Little League play with a victory over the Dodgers last Friday afternoon, winning by an 8-6 score. The Mets lost to the Senators 9-7.

Games on the schedule Friday will see the Rams at Coleman with the Giants and the Mets hosting the Dodgers, both games at 6 p.m. Tuesday night games will include the Mets vs the Yankees at Coleman and the Rams hosting the Senators at the local ball field.

The Santa Anna Senior League Orioles defeated the Coleman Cubs 15-3 May 31 and lost a close 7-6 to the Astros on Friday.

### REDDY'S HELPFUL TIPS

- ★ Your air-conditioner will operate inefficiently if filters are not cleaned regularly. Dirt and lint, collected on the filters, restricts air flow to the coils. Clean filters every two weeks.
- ★ Let nature help you save energy by shading your home with trees and shrubs to help cut down on summer cooling costs. Draw draperies against afternoon sun.
- ★ Remember to keep outside doors, windows, and fireplace dampers closed. If you have window units, close the heating vents near the floor, as cool air falls and can escape through vents.

### Bangladesh Is Important to SDA

The Santa Anna Seventh-day Adventist Church feels a definite interest in the work done to alleviate the sufferings in Bangladesh, since their assistant pastor and his wife are natives of Bangladesh and Pakistan.

Four destructive tornadoes have brought severe damage to a city in Bangladesh, prompting the church in its worldwide disaster organization to send \$19,000 in aid.

SAWS (Seventh-day Adventist Welfare Service) received request from that area to help 10,000 injured and 500,000 homeless persons in the city of Gopalganj, Bangladesh, where one-third of all the city's concrete buildings and all the bamboo houses were destroyed by early April tornadoes. The Adventist hospital located there escaped damage, but is overflowing with injured.

100 bales of clothing have been shipped from SAWS east coast warehouse in New York City, and the \$19,000 were sent.

Besides Bangladesh SAWS sent 67 tons of clothing to rural people in Peru, 50 tons to Brazil, and 55 tons are to be sent to Pakistan. Philippines sent an urgent request for help after the destructive fire in Ozamis, Mindanao Island. Clothing to value of more than \$115,000 answered this call.

The local Community Services Center is one unit, to help furnish clothing for SAWS to answer all these calls.

## SS Increase Will Begin Next Month

A cost-of-living increase in monthly social security benefits will be included in checks delivered on July 1, according to Don Austin, social security district manager in Brownwood.

The increase will amount to 5.9 percent for most people getting social security payments. The automatic cost-of-living provision was added to the social security law in 1972.

"People getting social security checks don't have to do anything to get the higher payments," Austin said. "The increase will be added automatically."

The increase is based on the rise in consumer prices from the first three months of 1976 to the first three months of 1977.

With the cost-of-living increase, average social security retirement payments to retired workers will go from \$221 to \$234 a month. Average social security disability payments to disabled workers will go from \$248 to \$262 a month. Average social security survivors payments to widowed mothers or fathers with two children in their care will go from \$517 to \$547 a month.

Social security pays monthly benefits to over 33 million people. The payments are funded by social security contributions from employees, employers and self-employed people.

Employees and employers contribute 5.85 percent of the first \$16,500 of yearly earnings from jobs covered by social security.

Self-employed people contribute 7.9 percent. These figures remain unchanged, Austin said.

Social security checks are usually delivered on the third of the month. When the third falls on Saturday or Sunday, the checks are delivered the preceding Friday. July 3 is on a Sunday this year, and the checks will be delivered Friday, July 1.

The Social Security Administration is an agency of the U. S. Department of Health, Education and Welfare.

### CROWDS AND THE PREACHER

"If the success of Noah's ministry is to be measured by the size of the crowd he attracted, then he was a miserable failure, because when the Ark pulled out she only had eight passengers on board. But it is evident that God considered him a SUCCESS because he is mentioned in Ezekiel 14:14 and in Hebrews 11 as one of the greatest heroes of faith.

"Yes, Noah could have filled the Ark by using his ingenuity, but the result would have been a loss of reward for himself and an Ark full of reprobates who had never been born again."

## Garden Wedding Rites For Couple Known Here

Wedding vows were exchanged Saturday, May 14, at Bryan by Miss Melissa Karthauser, daughter of Mr. and Mrs. David T. Karthauser of Arlington, and Kenneth Frank Hatfield, son of Mr. and Mrs. H. H. Hatfield of Bryan. The Rev. Edgar Blackledge officiated at the ceremony.

The wedding was held in the wooded garden at the home of the groom's aunt, Miss Jean

Calloway, near Bryan. An archway covered in spring flowers was the background for the ceremony.

Cherie Stafstrom of Fort Smith, Arkansas was maid of honor. John Murdock of Bryan served the groom as best man. Ushers were James Karthauser of Nacogdoches and David S. Karthauser of Dallas, brothers of the bride.

Miss Stafstrom was attired in a red colonial style gown trimmed in lace. Her bouquet was of pink and white spring flowers.

Given in marriage by her father, the bride wore an off-white formal gown of lace over satin, re-embroidered with tiny seed pearls at the bodice and hemline. A short veil of illusion was attached to a wide-brimmed lace hat, and she carried a bouquet of pink sweetheart roses centered with a white orchid.

Following the ceremony a

reception was held in the Calloway home. The bride's table was laid with a white lace cloth brought from England by the bride's parents. Crystal and silver appointments were used to serve the punch and three-tiered wedding cake decorated with pink roses. Assisting with the serving were Miss Calloway and the bride's sister and brothers, Martha Karthauser of Arlington, David and James Karthauser.

The couple will reside at College Station where they both seniors at Texas A&M University. They are members of the Anthropology Club of which he is president and she is secretary. The bride is a graduate of Lamar High School at Arlington and attended Tarrant County Junior College. The groom is a graduate of Bryan High School.

Among those attending the wedding were the bride's grandparents, Mrs. H. V. Karthauser of Pittsburg, Pa. and Mr. and Mrs. T. J. McCaughan of Fort Worth.

The bride is the great-granddaughter of Mrs. J. L. McCaughan of Santa Anna.

## Rites Held For Mr. McClatchy On Wednesday

Funeral services were held Wednesday, June 8, at Trickham Union Church for Wiley McClatchy, 84, a prominent Coleman and Brown County stockfarmer, who died early Tuesday, June 7, in Brownwood Community Hospital after a long illness. Burial was in Trickham Cemetery under direction of Henderson Funeral Home. Rev. J. H. Martin of Trickham officiated at the memorial service.

Born August 6, 1892 in Alabama, he was the son of the late John A. and Mattie (Russell) McClatchy. The family came to Coleman County before the turn of the century where he lived his entire life, attending schools at Trickham and Santa Anna.

Mr. McClatchy married Carrie Burney at Cross Roads July 1, 1917. He was a stockfarmer and member of Trickham Union Church (Methodist) where he taught the men's Sunday School class for 21 years.

Mr. McClatchy was one of the organizers of Texans, Inc. and served many years on the board of directors. He was also instrumental in the building of the Trickham Union Church.

He was also an ardent sports fan and never missed a Bangs high school football game, and was active in civic affairs or whatever was for the benefit of the area in which he lived.

Survivors are his wife; two sons, Pat McClatchy of Brownwood and Garner McClatchy of Bangs; a brother, C. T. McClatchy Sr., of Bangs; five grandchildren and several nieces and nephews.

Palbearers for the services were Ricky McClatchy, Leslie McClatchy, Mike McClatchy, C. T. McClatchy Jr., John Dockery and T. Z. Goodgion.

## Dove Harvest Estimate Made

Revised estimates indicate the annual harvest of whitewing and mourning doves during the September whitewing season is substantially higher than previously estimated, but state wildlife biologists feel the overall populations have not been critically affected.

'Although our harvest estimates have been low, population estimates have likewise been found to be on the conservative side', said Dr. Hal Irby, Texas Parks and Wildlife Department migratory game program director.

Following the 1976 dove seasons, biologists developed a more accurate method of determining harvests, based on white-winged dove stamp sales. The newer method makes a random sample of hunters from stamp purchases. The sample group was mailed a questionnaire, requesting such data as the number of whitewings and mourning doves bagged during each of the five half-days of the season and the county in which each hunt occurred. Approximately six percent of the 42,000 stamp buyers was included in the survey. A second mailing and a follow-up telephone contact of persons failing to respond was conducted to qualify the responses.

## County Grain Harvest Well Underway

The grain harvest is continuing full swing as the weather is cooperating by staying hot and dry.

Combines are running in the entire area as a bumper crop of wheat and oats are ready to harvest. The harvest is about half over according to some estimates.

Some oat fields were reported to have up to 100 bushels per acre yields, with the average at about 40. Wheat is said to average 25-30 bushels per acre.

## Calorie Cuts Suggested For Older People

COLLEGE STATION.....Often puzzling weight gain for older persons, who eat less than in slimmer days, is usually due to tricky 'hidden' calories.

'Senior citizens need fewer calories each day than the middle-aged,' Karen Kreipke, foods and nutrition specialist with the Texas Agricultural Extension Service, Texas A&M University, said.

'This is because the changes in body chemistry, as well as a decrease in activity.

'A woman over 55 years of age needs about the same number of calories as a child four to six years old -- about 1700 calories.

'A man over 55 needs about the same number of calories as a boy 10 years old -- about 2400 calories.'

Miss Kreipke noted that calories 'hidden' in everyday food such as cream and sugar for coffee, gravy for bread or potatoes, and butter, margarine or jelly for toast add to the daily calorie total significantly.

She tallied the 'hidden' calories in those foods.

'One cup of black coffee or tea has no calories, while adding a tablespoon of light cream and a teaspoon of sugar gives it 47 calories.

'One cup of skim milk has 90 calories, but one cup whole milk has 160.

'A half cup mashed potatoes has 62 calories, but adding milk and butter gives it about 90.

'One slice of bread has 70 calories -- a teaspoon and a half of butter or margarine adds 50 more calories. Count 25 calories for a teaspoon and a half of jelly'.

To solve the dilemma of high-calorie desserts, Miss Kreipke suggested fruits.

## OSHA Repeal Is Urged By Farm Bureau

The Coleman County Farm Bureau has asked Congressman Omar Burleson to co-sponsor a bill that would repeal OSHA (Occupational Health and Safety Act).

Victor Cardinas of Coleman, president of the local county Farm Bureau, said Rep. Steven Symms of Idaho introduced H. R. 1348 which would repeal OSHA. County Farm Bureaus throughout the nation are contacting their respective Congressmen to ask that they co-sponsor the measure.

In his letter to Congressman Burleson, the county president said that Farm Bureau's policy on the matter reads:

'The Occupational Safety and Health Act is detrimental to the American farmer and the American public and is a usurpation by the federal government of state, local and individual rights. The Act does not fall within the responsibilities assigned by our Constitution to the federal government. We therefore favor the complete repeal of this Act. Farm Bureau should take the lead in an all-out effort to achieve this important objective.'

Cardinas said the one-sentence Symms bill was introduced at the request of Farm Bureau 'as the only way to put an end to the ever-increasing number of regulations and the arrogant administration by this federal agency.'

The county president said OSHA tactics violate the rights guaranteed under the Fourth Amendment to the U.

S. Constitution against 'unreasonable searches and seizures'. He said that OSHA inspectors now enter private premises without a warrant, without probable cause to secure a warrant, and arbitrarily impose fines administratively without recourse to a trial by jury.
