## Mountain Echoes

We occasionally 'lose' a subscriber by accidentally omitting a name from the list, but we MOVED a subscriber for the first time a month or so ago.

Somehow the name of a new subscriber, Bryan Shield of Albuquerque, New Mexico, turned out Shield Brown (the name of one of our most faithful subscribers and supporters).

Neither of the nice gentlemen mentioned the error, but friends of Mr. Brown were most concerned to think he might have moved to Albuquerque from Austin without letting the homefolks know!

After checking two subscription files and a stack of receipts, we finally put the people in the correct places.

This should be the time to mention the dry weather and that it hasn't rained in several weeks, etc., etc.

Nearly every time I write something about the weather, it changes from the time the item is written until it gets printed. Most of us are ready for a change for sure (a rain, that is).

bk

Construction has started on a new home for Clint and JoAnn Day and girls. The new home is located on acreage just south of the Wesley Isehower home, formerly known as the C. L. Eeds place on the Rockwood Highway.

Those of us who pass the site almost daily will watch the progress with interest.

## City Sales Tax Up From 1976

The City Sales Tax for receipts for Santa Anna totaled \$2,356.47 for the period ending May 27. The total is a 28 percent increase over the same period last year.

The Santa Anna city sales tax for the 1977 year has been \$6,712.75.

According to State Comptroller Bob Bullock, the amount rebated to cities in Texas this year has shown a 15 percent increase over the previous year. Houston received the largest amount this period -- \$7.5 million -- while Roanoke received the smallest check of \$15.79.

## City Expenditures, Costs Are Listed In '76 Audit

The City of Santa Anna is on a very strict budget, according to the audit report for the fiscal year ending March 31, 1977. Municipalities are caught in the same inflationary spiral in which businesses and individuals find themselves and are squeezing every penny.

City tax payers who have expressed interest in the collecting and spending of the City funds are welcome to study the audit report or attend meetings of City Council to learn where the money is spent. All City records

are open to the public.

City taxes have generally increased very little in recent years with the city's total property evaluation listed at just over two million dollars. At the rate of \$1.50 per \$100 evaluation, only \$32,000 in taxes was billed for 1977. Of that amount over \$1,000 is delinquent.

Other income for the City included less than \$2,000 each from Housing Authority, gross receipts taxes, gas collection fees and rent. Revenue Sharing netted the City \$15,891; credited to miscellaneous was \$5,000, and small amounts were collected from dog taxes, backhoe rent, paving and equipment sold. Total combined income from the funds was \$73,608.

The \$55,000 Federal grant received last year was used for street repair (\$38,909) and water system repair (\$16,091).

Other expenditures from the General Fund include salaries, retirement and payroll taxes - \$33,000; legal and accounting fees - \$1,661; utilities and maintenance - \$22,762; depreciation - \$10,294; Fire Department, City Library and Day Care Center - \$2,139; Payment on Armory - \$1,201. The total is \$72,869.

A look at the financial statement shows why many of the needed repairs and renovation is not done to the City facilities. City leaders should be commended for keeping the operation of the City of Santa Anna 'in the black' as long as they have done so.

## GOOD NEWS

By WRIGHT PRICE, Pastor

The cantankerous, troubled and selfish rich man, while visiting his pastor was escorted to his pastors' office window overlooking a busy street. "Whom do you see out there?", asked the pastor.

"I see a lot of men, women and children," said the man.

Placing a large mirror in front of the window, the pastor again asked, "Whom do you see now?"

"I see myself," replied the rich man.

The pastor said, "In both cases you looked through a glass, but one sheet had a thin layer of silver behind it. That is all it took for you to see only yourself."

If what we have keeps us from seeing others, we would be better off without it. But if what we have helps us to help others, our lives will be greatly enriched.

# PROPER INSULATION...

Keeps in the Cool Air You've Paid For

- ★ Proper insulation helps to keep OUT heat in the summer, helps to reduce outside noises, absorbs inside sounds, and can save over 40% on energy costs on both cooling and heating.
- ★ Insulation comes in rolls, loose-fill or batts. Insulation is labeled with a R value showing its ability to resist heat. The better its insulating value, the higher the number. R values up to R 30 in the ceiling and R 20 in walls are now being recommended for new construction in this area.

### Local Angora Goat Breeders Take Part In IMA Tour, Events

The Mohair Council of America hosted the International Mohair Association Conference last week in San Antonio. This is the first time the annual conference has been held in the United States.

Concluding the conference was a two-chartered-bus tour of the heart of the Texas mohair producing area. Texas produces 97 percent of the U. S. mohair.

On Friday Mr. and Mrs. Edwin Hipsher of Santa Anna joined the tour group with stops at the Sonora Warehouse Co. where the guests observed mohair grading and sorting. The tour group visited the Earwood Ranch some 35 miles south of Sonora for a closer look at Angora goats on range. A barbecue lunch was served at the Edwards County Park at Rocksprings.

Jokingly one of the foreign delegates termed the occasion as a 'halloo'. Also during the lunch break enjoyed by all was an unscheduled event conducted by a pair of young and very enthusiastic Texas cowboys who forcefully outfitted one young foreign feminist in Western garb - chaps, boots, hat and rope. The afternoon included a tour of the James Wittenburg Ranch and refreshments at Uvalde Country

#### McCLINTOCK VISITORS

### Cowboy Camp Meeting Ending This Weekend

The annual Cowboy Camp Meeting will continue this week at Flying H Acres between Santa Anna and Coleman. Services are held under the big tent at 8 o'clock each night preceded by prayer groups at 7:15 and followed by campfire songfests.

George Havens, founder and director of the camp, extends an invitation to everyone in the area to attend the services that will continue through Sunday, June 26. Well-known speakers will be at each service, and music will be directed by Margie and Bobby McMeans of New Braunfels.

A chuckwagon supper Saturday at 6 p.m. will be open to the public, with those attending asked to bring a salad or dessert for the meal.

The Camp Meeting is in its 11th year at the location, drawing hundreds of people for the unique religious programs.

Many old Western items and

antiques are on display at the campsite, and visitors are invited to go early enough to tour the location.

### Firemen Busy During Week

The Santa Anna Volunteer Fire Department has answered several calls during the past week, two of which were false alarms.

A grass fire was extinguished just west of town on the Valera Highway Friday afternoon. Very little of the adjoining pastureland was burned as the rural truck and four firemen were soon on hand to put out the blaze.

A boat belonging to Alfred McCrary was burned near the City Lake Sunday afternoon, the fire starting from an undetermined cause. McCrary unhitched the boat trailer from his pickup, but the boat was almost completely destroyed before the truck and firemen arrived at the scene. The boat trailer was not badly damaged, firemen said.

Thursday and Friday nights the local firemen were called to the Liberty Community where gas was being burned at an oil well site. Someone notified the VFD of the blaze without determining the need of the firefighters.

Santa Anna firemen are eager to assist when they are needed, but they ask people to confirm the need for the men and equipment before making the call. Also anyone planning a large fire that might cause concern or create a large amount of smoke, please notify the VFD so that they will not rush to the scene when some unauthorized person summons them to the vicinity.

#### VISIT IN HAYNES HOME
