## Mountain Echoes

By  
Barbara  
Kingsbery

The recent floods in area towns made us all look around to see if there was 'high ground' in our neighborhoods.

Those who have visited the town of Albany would not think it possible to have such a flood as those folks suffered, but the usually-dry creek in the west part of that city overflowed resulting in millions of dollars of damage and loss of several lives.

People in our area are grateful for the good rains and supply of water that resulted.

Many people were outside at dusk Monday to watch an unexpected treat as the planet Venus (usually referred to as the evening star) moved close to a crescent-shaped moon.

The beautiful sight was first visible as the horizon was rosy-pink with the sunset, becoming more vivid at dark.

The occurrence is not unusual, according to authorities, but it was a special treat to those who saw it.

The annual Ex-Student Homecoming is less than two months away -- October 6 and 7.

Several classes are making plans for reunions, and many activities are planned for the two-day event.

## Campfire Girl Groups To Enroll August 15

The Santa Anna Campfire Girls organization will get underway in September, with enrollment of members slated next week.

Eight adult leaders met last week to form the different age groups for the organization, with Mrs. James Puckett as coordinator and secretary for the group.

Tuesday, August 15, all elementary school girls interested in joining the organization are asked to meet at the Community Civic Center (Armory) from 7 to 8 p.m. Parents of the girls are also asked to be present so that information may be given on the program, cost and other plans of the group.

Leaders for the Bluebirds group, grades one, two and three, are Ruby Fleeman, Glenda Cook, Barbie Hoffman and Cathy Keeney.

Barbara Dockery, Charlotte Keeney and Debbie Harris will be leaders for the Adventurers, grades four, five and six.

Diane Wetsel is to be in charge

## PTO Project Rained Out; Re-Set Saturday

The rainfall Saturday the Santa Anna cancelled the PTO workday at the school playground.

Members of the PTO and other volunteers are to meet Saturday, August 12, at the school to work at the playground, starting at 9 a.m.

Plans have been made to renovate the playground, and all who are interested are asked to be on hand with hoes, rakes, shovels, hammers and other tools with which to work.

There are very few days left in which to do the work, so a large number of helpers are wanted Saturday.

## Trickham Baptist Church To Mark 100th Anniversary

The Trickham Baptist Church will celebrate their 100th anniversary on October 1 with an all-day affair.

of the Horizons group for girls in grades seven and eight.

## Fiesta de la Paloma Planned

The name and format of the Coleman County Fair will be changed this year, according to a release from D. G. Allen, executive secretary of Coleman Chamber of Commerce. It will be known as Festival de la Paloma, or Coleman County Dove Festival. It's scheduled Saturday, September 30.

This year one of the new attractions will be the Flea Market- Garage Sale area. Several flea market dealers have been invited to bring their merchandise and set up a 'stand.'

The Garage Sale area will give individuals and organizations the opportunity of bringing the usual and not so usual garage sale merchandise to the Rodeo Grounds at Coleman on

September 30 and to turn their stuff into cash. A large crowd is expected, and that is what everyone needs at a garage sale.

This will be a great opportunity for every community in the county to participate and raise some money. Special areas will be designated for each of the communities in the county.

Clubs, school classes, churches, etc., are also invited to collect merchandise and other articles and have their own flea market. Individuals may also bring their relics, antiques and

junk for sale.

With dove season in full swing at that time, a dove cook-off is planned during the festivities.

The many usual events, such as horse show, food booths, arts and crafts exhibit, and commercial exhibits, are planned as well as several more attractions.

Committees are currently being selected for the festival and all Coleman County people are urged to have a part in the first "Fiesta" and help develop it into an event which will attract visitors from all over the state.

Officiating ministers will be Rev. Bobby Weathers, pastor of Meadowbrook United Methodist Church of Fort Worth, Rev. Lewis Shambek, pastor of Clifton United Methodist Church, and Rev. Ellis Holden, pastor of Santa Anna United Methodist Church.

## Rain!

The Santa Anna community received the best rainfall of many months last week when 4.20 inches was measured officially in town. The first four inches of rain fell Wednesday and Thursday, August 2 and 3, and an additional quarter inch or so was measured Saturday, August 5.

Rainfall up to six to eight inches was measured in some of the surrounding areas, and at least three or more inches of rain fell in the entire area. Those with large amounts of rain had tanks and lakes filled during the weekend; where rainfall was lighter there was very little runoff.

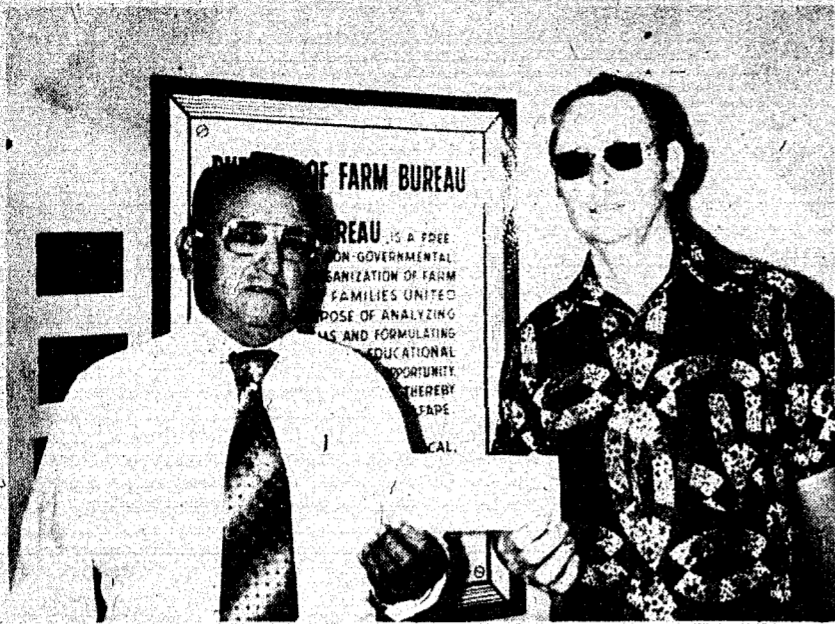

Large rains in the north part of Coleman County and the Brownwood Lake watershed almost filled Lake Brownwood. The lake had risen to within a few feet of the spillway level this week. The good rains brought vast amounts of water down Jim Ned Creek and filled the area from which Santa Anna gets city water.

Santa Anna officials feel the city water shortage is solved for many months, and water restrictions in Santa Anna have been lifted. Very little water was impounded at the city lakes, however, and Mayor Glen Copeland estimated about one foot of water was added.

The past week's rainfall brings the total in Santa Anna for 1978 to 13.92 inches.

## SECOND SUNDAY SINGING

The regular Second Sunday Singing will be held Sunday, August 13, at the Trickham Union Church at 7 p.m. All singers and musicians in the area are invited to attend the singing.

SANTA ANNA VFD received a check from Coleman County Farm Bureau for their aid in extinguishing a fire on property insured by the TFB companies. Victor Cardinas, left, County Farm Bureau president, presents the \$75 check to Freddie Dodson, VFD secretary.

### Fire Department Receives Check From Farm Bureau Insurance Co.

The Santa Anna Volunteer Fire Department received a check for \$75 recently from Texas Farm Bureau Insurance Companies as an expression of thanks for the Department's work on the property of Norman E. Tucker. The fire was a pick-up truck owned by Tucker that burned last week.

The money will be used for their loss prevention program. The Texas Farm Bureau Insurance Companies pay volunteer fire departments this amount when the department works at a fire in rural areas, involving property insured by them.

### CCTC Meeting On August 26

The Coleman County Telephone Cooperative, Inc. annual membership meeting will be held Saturday, August 26. The meeting will be held at the football stadium or in case of rain at the high school auditorium.

Registration and entertainment will start at 7:30 p.m. The business session will be held at 8:30 p.m. followed by a drawing for prizes. Free door prizes will be given to all members of the cooperative, and free refreshments will be served during the evening.

The Santa Anna stage band, "The Group", will be providing musical entertainment during the meeting that is open to the public.

Three directors will be elected during the evening. Those whose terms expire this year are Tom Kingsbery, Glen Copeland and Grady McIver.

The company believes volunteer fire departments have contributed to reduce the amount of loss involved by fire and more important to prevent fires. It is their hope this money will help the Santa Anna Fire Department in their program.

#### In Albany Flood

At least one Santa Anna resident had more than a passing interest in the flood that inundated the town of Albany and the area below on Hubbard Creek last week.

Wilburn Bible, an employee of Edd Hartman, lost a travel trailer to the flood waters last Friday.

The Bible trailer was parked at a campsite on Hubbard Creek eleven miles below Albany and about that distance from Graham.

The 40-foot rise of the creek washed away a number of trailers at the site, as well as a stretch of highway near the location. Bible and other members of the Hartman crew have been staying in the trailer when out on their job which is mowing of highway right-of-way in the central and north central Texas area.

## MAIL BOX

The Mayor  
City Hall  
Santa Anna, Texas

Dear Sir:  
On July 14, 1978 my wife and I drove through your city on our way to the New Mexico Mountains for a few days visit.

We stopped in Santa Anna for fuel and refreshments. While there my wife inadvertently left her wallet in Allsup's Grocery, a convenience store there. We did not discover it until the next morning at Plainview, Texas. I promptly called the store at that time and spoke with the lady manager. The salesgirl the evening before had found the wallet, laid it aside and the manager located it easily the next day when I called. She graciously sent it by mail to our home, everything intact.

It is my desire to thank those two citizens of your city for their honesty and graciousness. I am sure they are representative of the general body of citizens of Santa Anna and I would like to think, Texas as a whole.

This experience is in direct contrast to one we had while traveling on the East Coast a few years ago. We left behind a small portable radio for only a few minutes. When we returned, mysteriously no one had seen it. It had simply vanished.

The kind of honesty and helpfulness demonstrated by your people makes living in Texas a much more relaxed and enjoyable experience.

It is my hope that you can give these two people some recognition for the kindness which they demonstrated to us.

The recessional was "Pepperland" with piano and accompanied by Mrs. Gary Knapp on the flute, especially arranged for the ceremony by Mr. Knapp.

The aisle to the altar was marked by bows of pink satin. Tall brass candelabra and candle trees holding ivory bridal tapers formed the background for the ceremony. Pots of greenery were at either side of the altar.

Given in marriage by her father, the bride wore a white Quiana empire gown accented with beaded silk Venise lace at the high neckline, bodice and long fitted sleeves. The hemline and

## Oil Industry Boosts Economy In Coleman Co.

The multi-billion dollar boost that oil and gas industry operations gave to Texas economy in 1977 was shared by the citizens of Coleman County.

The marketed value of petroleum production in the county has been calculated at \$14 million in an economic activity profile of the state's leading producing counties prepared by the Dallas-based Texas Mid-Continent Oil & Gas Association.

Coleman was one of 201 counties last year which produced petroleum with a marketed value of \$100,000 or more. The county ranked 139th in the estimated total value of petroleum produced. The Association has computed that some \$7.5 million came from the production of 828,500 barrels of crude oil, with approximately \$6.5 million attributed to an output of 7.2 million MCF of natural gas. Payments last year to owners of royalty in the county were calculated at \$1.7 million.

While paying local, county and state property taxes, producers in the county also helped support state government through production tax payments estimated at \$831,700. This included \$344,500 from crude oil output, \$487,200 from natural gas.

According to the Texas Employment Commission, during 1977 some 135 employees worked for the industry in the county.

The search for more petroleum continued in Coleman County last year. Oil and gas developers spent an estimated \$16.8 million in the drilling of 249 wells, including 26 classified as wildcats. Some of that was lost in 78 dry holes. The 171 strikes included 127 oil wells and 44 gas wells.

Processing also contributed to the county's petroleum-related economy through the operation of one natural gasoline processing plant with a daily capacity of 1.5 million cubic feet.

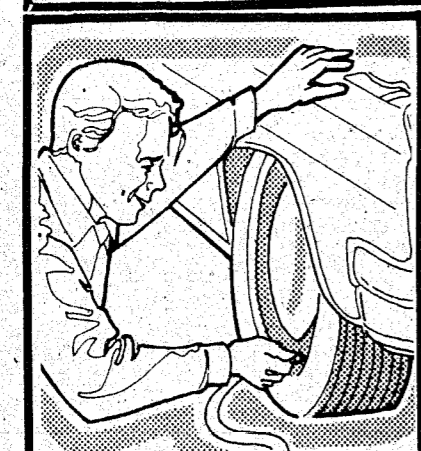

greenery decorated the living room. The stairway in the foyer was entwined with garlands of boxwood greenery and tied in swags with nosegays of pink and white carnations.

Following a wedding trip to San Antonio, the couple will be at home in Brownwood where he is employed at 3M Company. The bride is a spring graduate of Santa Anna High School where the groom graduated in 1976.

Special guests at the wedding were grandmothers of the couple, Mrs. Tom Hays, Mrs. Sadie Eidson and Mrs. Opal Little, all of Santa Anna, and Mrs. Othal Warnock of May.

REHEARSAL DINNER  
Mr. and Mrs. Derriell Warnock were hosts for a dinner for members of the wedding party and their families Thursday night following the wedding rehearsal. The party was held at Underwoods Cafeteria in Brownwood.

J. E. Watkins, the principal grain dealer, has bought and shipped 96 car loads.

This has been a hard year and this is only a light report for this place, but 102 car loads of oats at \$750 per car has brought quite a bit of cash to the community.

# THINK SMALL

An ant that's so small you can barely see it is the thief ant (*Solenopsis fugax*). Workers of this species are sometimes as small as .059 of an inch.

A cigarette so small that you can barely see it is aptly called "Lilliput." Made in Great Britain, each cigarette is just 1 1/4 inches long and 1/8 inch in diameter.

A computer so small that it fits in almost anywhere is so simple to operate it can be run by someone with very little training. Called the System/32 from IBM, it can provide small businessmen with the same benefits big companies get from their giant computers, yet it's no bigger than a desk.

A poem so small that its title is longer than the poem itself is called "Lines on the Antiquity of Microbes." It consists of three words: "Adam had 'em."
