Water from the recent rains was continuing to run into Lake Brownwood this week, with the lake almost full at last report.

City Secretary Mary Lou Jones said this week that water is backed up from Lake Brownwood into the Jim Ned Creek pump site, making the best supply for the City of Santa Anna in many months -- or perhaps years.

The present supply is expected to be sufficient to supply the town until the water project is completed, and with any rainfall and run-off at the city lakes, the town will have a good supply for months to come.

School starts in Santa Anna in just over two weeks -- Friday, September 1.

For those who have inquired, there WILL be school on Monday, September 4, Labor Day.

Emergency Loans Available Through Farmers Home

A new Economic Emergency loan service for farmers and ranchers who have financial problems caused by credit shortage or cost-price squeeze is now in effect through the U. S. Farmers Home Administration (FmHA).

Thomas E. Hill, the agency's County Supervisor for Coleman County, reports that the FmHA is prepared to take applications at the office in Coleman.

Economic Emergency loans are authorized under the Agricultural Credit Act of 1978 signed by President Carter August 4. They offer special help to farmers who are hard-pressed by recent shortage of credit from their regular lenders, or by debts accumulated during the recent period of low farm prices.

Hill said the Economic Emergency loan program was enacted by Congress, with Administration support, in recognition of the fact that economic conditions, as well as weather, are often beyond farmers' control.

FmHA emergency credit has previously been confined to loans for recovery from natural disaster, or the guarantee of private lenders' loans to livestock producers affected by economic conditions.

Under the Economic Emergency program, any Friday evening.

Harold and Oneta James of Santa Anna visited the Bond Featherstons Sunday evening.

Roy and Inez Miller of Coleman visited Rankin McIver Thursday night.

Grady and Genia McIver visited her mother, Keetie Haynes, and Terry and Orabeth McIver and family Sunday evening.

Visitors with the Hilburn Hendersons Sunday afternoon were her mother and father, Talmage and Daisy McClatchy.

Florence Stearns and her daughter, Alice Wells and Gregory, and daughter Barbara Kirkpatrick and Jennifer of Coleman, went to Alice, Texas, and visited Frances and Charlie Ray Fleming and boys during the weekend. They had a nice trip and also visited other places of interest while there.

Mr. and Mrs. Edgar Cole of Brownwood visited the J. E. Yorks last week.

established farm operator-individual, partnership, corporation or cooperative -- experiencing scarce credit or an overload of debt coming due, may apply for up to \$400,000 of credit through FmHA in order to survive in farming and continue their normal level of operation. Economic Emergency loans will not be made to expand a farm operation.

Loans made directly by FmHA will be at an interest rate equivalent to the cost of money secured by the government through sale of its securities to the public, plus an administrative add-on of up to one percent. The rate initially will be 8 1/2 per cent. Guaranteed loans will be made at rates negotiated between borrower and lender, with FmHA providing the lender up to a 90 percent guarantee against loss.

Loans for operating purposes will be made for terms of up to seven years, with loan considerations and rescheduling for another seven years permitted, and 20-year payment authorized under special conditions. Real estate loans may be made for up to 40 years. Loans for annually-recurring expenses will be repayable annually.

Inquiries about the loans can be made through a commercial agricultural lender or at the county FmHA office. The Act calls for decision by FHA on individual applications within 30 days.

Forty or fifty years ago, the electric bill was most often called the "light bill". In thousands of homes, Mr. Edison's illuminating invention wasn't the only electrically powered appliance, but most people associated electricity with the most visible benefit -- light.

Today, with the help of electrical energy and the appliances it powers, our tasks become easier and our lives more enjoyable. At West Texas Utilities we're working to provide you a continuing dependable source of electrical energy now and in the future.

Remember Reddy supplies the energy, only you can use it wisely.

Years Ago In The News

The following items are from the August 1927 issues of the NEWS:

The City is having samples of its water examined by the State Laboratory every week and the reports all show the water to be absolutely free of all germs. Algae, the very lowest form of animal life, which thrives on decaying vegetation, is responsible for the unpleasant odor and taste of the water and may be removed by boiling but does not make the water unfit to drink.

Without question there is no better place in this part of Texas to gin and market your cotton than in Santa Anna. We do not hesitate to claim for Santa Anna the distinction of Santa Anna being one of the best gin equipped towns in west Texas. Four big gin plants equipped with new and modern machinery gives us a ginning capacity of several hundred bales per day, and Santa Anna has always furnished the best lot of cotton buyers to be found in the state.

A new school building is under construction. It should and will be the pride of our town. It behooves everyone to assist in its preservation. Upon a recent inspection of some of the best school plants in Texas the Board had occasion to observe school property ten years old that had the appearance of newly installed equipemnt. When asked how it had been done, this reply was made: "When a student defaces or mutilates any piece of this property, he has just bought him whatever it happens to be." Beginning this year the Board authorizes the Superintendent to pursue such a policy and gives him strictly in charge to enforce its regulation in the matter.

A resolution was passed by the Council to exempt city residents from the one per cent city sales tax on their gas and electricity bills, effective October 1. The State Comptroller has exempted the four per cent sales tax effective that date, which will mean a five percent reduction to gas and electric customers. The city
