Hutto is representing District 56-B in the play-offs, holding a 14 11 record. Westbrook has a 25-5 record and is the District 25-B champion.

The Eden team is entering the play-offs with only two losses this season, one to Mason, a Class A team, and the other to Bronte, the champions of a neighboring district.

Winner of the Tuesday night game will advance to the Regional Tourney at Tarleton State University at Stephenville the following weekend. There will be eight teams in the tournament with the winner to play three games for the title and a slot in the state tourney in Austin. TIME TO TOP DRESS WHEAT AND OATS

Late winter or early spring is an ideal time to apply fertilizer.

Wheat and other small grains need nitrogen after their winter dormancy to help set deeper, stronger roots, and to boost yields.

Nitrogen can be expected to increase the yield of wheat as follows:

- 40 lbs. actual nitrogen typically increases yield 8 bushels.
- 80 lbs. actual nitrogen typically increases yield 15 bushels.

If you have not applied your total nitrogen treatment, be sure to topdress the needed nitrogen before greenup time. It will make a big difference in yield and quality grazing.

Census Jobs

Open In

Coleman County

The U. S. Census Bureau has a number of temporary jobs open during the next few weeks in Coleman County to help prepare address lists for use during the 1980 census.

Temporary census workers will work three to four weeks each and will be paid on a per-address collected basis. For an eight-hour day, the average worker will earn \$27 to \$30 per day plus 17 cents per-mile for any driving done in a private vehicle. Applicants for the jobs must be 18 years old or over, a U. S. citizen, and pass a written test.

The work involves driving or walking to compile lists of addresses of each dwelling unit in designated areas of the county. These address lists will play a vital role in taking the 1980 census. They will be used to produce mailing labels for the census questionnaires to be sent to each household in America on March 28, 1980. Then, a few weeks following the April 1 Census takers must then be sent to each non-responding household to collect the information required on the census form.

The 1979 address collection activity in the county is part of a Census Bureau program involving 35,000 temporary workers nationwide to compile lists containing approximately 30 million addresses. Another 50 million addresses have been purchased from commercial mailing list companies.

The Census Bureau is an equal opportunity employer.

County residents interested in applying for the temporary census jobs should contact your nearest state employment agency office or write:
