Two of our local kindergarten students are mascots for the school cheerleading squads. The honor is quite impressive to their peers, and the entire class knows they are mascots.

One day last week one little kindergarten girl saw the Junior High cheerleaders in the hall at school and ran to her teacher, Sue Newman, and said, "Oh, Mrs. Newman, the hall is just full of MASCOTS."

Basic rules increase home-stored gasoline safety

COLLEGE STATION — Home-stored gasoline used in lawn mowers, hedge and grass trimmers, chain saws and other appliances provides a major source of fire, death and property loss.

Observation of three basic rules can prevent accidents, says fire protection specialist John R. Rauch of Texas A&M University.

"Store gasoline only in an approved, self-closing can," Rauch recommends. "Never store nor use gasoline in a closed space, where spark sources can set off gasoline vapor. And certainly never use gasoline for cleaning."

Quail Bag Limit Stays The Same In Coleman Co.

Quail hunters in Texas will have lower daily bag limits this fall than the previous year in most counties.

The Texas Parks and Wildlife Commission meeting in Austin September 3 responded to quail census data which showed reduced populations by setting somewhat lower bag and possession limits.

Drought conditions during the nesting season severely hampered quail reproduction over most of the state, reducing populations from the high levels of 1979.

Most of the state will have a 12 quail per day limit, with possession limit of 36. Last year, high populations allowed

the commission to set a daily limit of 20 in some counties. This fall, no county will have such a liberal limit.

The daily bag limit will remain at 16, with possession limit of 48 in the following counties: Archer, Armstrong, Baylor, Borden, Bosque, Briscoe, Brown, Burnet, Callahan, Carson, Childress, Clay, Coke, Coleman, Collingsworth, Comanche, Cooke, Coryell, Cottle, Denton, Donley, Eastland, Erath, Fisher, Garza, Gray, Hall, Hamilton, Harde-man, Haskell, Hemphill, Hood, Howard, Hutchinson, Jack, Johnson, Jones, Kent, Knox, Lampasas, Lipscomb, Mills, Mitchell, Montague, Motley, Nolan, Ochiltree, Oldham, Palo Pinto, Parker, Potter, Roberts, Runnels, Scurry, Shackelford, Somervell, Stephens, Stone-wall, Tarrant, Taylor, Throck-morton, Tom Green, Wheeler, Wichita, Wilbarger, Wise and Young.

In the rest of the counties under the department's regula-tory authority, the daily bag limit is 12, possession limit 36.

The quail hunting season dates vary by county. Consult the department's Guide to 1980-81 Hunting and Sport Fishing Regulations booklet available at hunting license outlets across the state.

SSI Payments To Children

Supplemental security income (SSI) payments can be made to disabled or blind children as well as to adults, Priscilla Tercero social security branch manager in Brownwood said recently.

SSI is a federal program that provides a basic cash income to people 65 or older, or blind, or disabled, who do not have much income and do not own much in the way of property.

There is no age limit for SSI payments to persons who are disabled or blind. Young children can qualify as well as people who are beyond 65.

For a child under 18 to be eligible, he or she must have an impairment comparable in severity to one which would prevent an adult from working for a year or more. Blindness is defined as central visual acuity of 20/200 or less in the better eye with use of a corrective lens or restriction of the visual field to 20 degrees or less.

In addition to meeting the disability requirements, a child must also meet the income and resources tests to get payments. The parents' income and resources count toward the child's eligibility after certain allowances are made.

Generally SSI payments cannot be made to a person living in a public institution. But people living in a publicly operated community residence serving no more than 16 people may be eligible.

The maximum SSI payment for an individual is \$238 a month, but this amount is reduced if a person lives with someone else or has income above a certain limit.

A child cannot receive SSI payments and take part in the Aid to Families with Dependent Children program. The parents of a child eligible for both programs can choose the one that best fits the family.

For more information about SSI payments, contact the Brownwood social security office or a social security representative.

It Shall Be Our Righteousness

Come unto me, all ye that labour and are heavy laden, and I will give you rest. Matt. 11:28.

It is to-day that the sweet voice of mercy is falling upon your ears. It is to-day that the heavenly invitation comes to you. It is to-day that in Heaven everything says, Come.

Come, for all things are now ready. Whosoever will, let him come and partake of the waters of life freely. It is now that we want childlike simplicity. We want to see everything like pride, and vanity, and folly, put away. We have the Judgment in view. Men and women will want strength that is greater than any human aid to lean upon. They must lean upon the mighty arm of Jehovah. We have in view that day when the works of men are to be tried, and tested; and we want you to get ready....We make appeals to you to rid yourselves of the pride of the world, the pride and vanity, and folly, of life. Jesus loves you. Jesus pities you. The angelic host He sends to minister unto you. And now, while all Heaven is interested for you, will you be interested for yourselves?

Some men seem afraid to take God at His word as though it would be presumption in them. They pray for the Lord to teach us and yet are afraid to credit the pledged word of God and believe we have been taught of Him. So long as we come to our heavenly Father humbly and with a spirit to be taught, willing and anxious to learn, why should we doubt God's fulfillment of His own promise?...When you have sought to know His will, your part in the operation with God is to believe that you will be led and guided and blessed in the doing of His will....It is Christ who is guiding His people today, showing them where and how to work,

Remembering the 1936 flood, quoting Ulmer Bird in the San Angelo Standard-Times, "The middle span swayed slightly under the terrible pressure, about an inch downstream. A big supporting beam had slipped about a half inch on a giant rivet, where two spans meet, a concrete chip weighing possibly two pounds had been slivered." Water covered the floor of the bridge and reached the door knobs of our house. We moved out Friday--a week later the river came down again--we moved again, but the river lacked 9 feet being as high as the week before.

Screwworm Program Has Successful Year

Fast action to suppress any wild screwworm population, and to search for other screwworm cases in the vicinity of Kinney County's Rafter L Ranch, is apparently working, says Dr. James E. Novy.

No additional signs of screwworm activity have yet been discovered.

The director of the U. S. Department of Agriculture (USDA) Screwworm Laboratory says the second positive screwworm sample of 1980 reached the Lab and was identified August 27. By that evening fly trappers, a veterinary epidemiologist, and livestock inspectors were in the area.

Screwworm Adult Suppression System (SWASS) pellets were distributed in the area of the case the next morning. In the afternoon an airplane load of more than a half million sterile screwworm flies from San Luis Potosi, Mexico, was distributed in the area where the sample had been collected.

For some time all sterile

screwworm flies produced at the Mission Lab had been shipped, as pupae, to Tampico, Mexico. There they were boxed, allowed to emerge and mature, and then dispersed among wild fly populations. Consequently, the most immediately available sterile flies were 400 miles away, at San Luis Potosi.

On Saturday, August 30, dispersal of sterile screwworm flies boxed at Mission began from Del Rio. Now Del Rio Flying Service is distributing flies over 5600 square miles in the vicinity of the Kinney County case at the rate of 1700 per square mile weekly. Drops are made four days per week.

Fly traps are now operating within a 20 mile radius of the case. Texas Animal Health Commission is operating screwworm fly trap along the Rio Grande from Langtry to El Indio.

Novy says all of this action will continue at least until authorities are certain there are no additional screwworms in the area. Sheep and goat shearing is underway in the area. Novy says both stockmen and the Program will benefit if all wounds are treated to prevent screwworm infestation.

The only previous case confirmed this year was in April on the Harold Bragg Ranch near Glen Cove in Coleman County.

MR. AND MRS. DANIEL H. CROOM

S-Annans' Granddaughter Wed in August 16 Ceremony

Julie Jones, daughter of Rev. and Mrs. Gail Jones of Glenwood Springs, Colo., and Daniel H. Croom, son of Mrs. Foye Griffin of New Castle, Colo. and H. R. She wore a fingertip-length veil and carried a white lace fan with an arrangement of roses, carnations and baby's breath tied in yellow ribbon.

Candlelighters were Debbie Perkins of Fairbanks, Alaska, a cousin of the bride, and Kelly Cope of Camarillo, Calif.

Dear Barbara:

I am reading your articles about Paris with great pleasure. Since you and I have both seen Versailles, Kin Louis XIV's place, I was especially interested in your Sept. 11 article and your statement: "Troops to protect the king and palace numbered 5,000."

A man named Antoine Crock-etagne got a commission in those household troops of Louis XIV in 1664. Two of his sons were James Crockett (born 1674) and Joseph Louis Crockett (born 1676). Descendants of these men are of interest to us, as you will see.

Antoine was a Huguenot, and was martyred and exiled when the Huguenots were driven out of France. He went to England, then Ireland, changing his name to Crockett, Antoine's son, Joseph Louis Crockett, was an ancestor of Davy Crockett, also a martyr (at the Alamo).

Among James Crockett's descendants was T. Warsaw Hunter, son of T. W. Hunter and Tempie Conner, and a half-brother of Lennie and Charlie Hunter of Santa Anna (Lennie had the meat market and Charlie the drug store).

In 1896 T. Warsaw Hunter married Kate Hubert, daughter of Will Hubert, former editor of the Santa Anna News, and founder, with son Harry Hubert and Warsaw Hunter, of the Coleman Democrat in 1897. Warsaw Hunter also had a half-interest in the Santa Anna

After a wedding trip to Grand Mesa, the couple are living in Tulsa, Oklahoma where the groom is a student in Rhema Bible College. He is a graduate of Rangley High School and served four years with the U. S. Navy.

The bride, the granddaughter of Mr. and Mrs. Joe C. Barnes and great-granddaughter of Mr. and Mrs. W. F. Barnes, all of Santa Anna, is a 1977 graduate of Glenwood Springs High School and attended Ottawa University, Ottawa, Kansas, and is a graduate of American Beauty College in Grand Junction, Colo.

Pecan Valley Arts Fest This Weekend in Brownwood

More than 60 artists and craftsmen from throughout Texas and several other states will show and sell their work in the first annual Pecan Valley Arts Festival this Saturday and Sunday, September 20 and 21 in Brownwood.

The two-day sale and entertainment extravaganza is being sponsored by the Community Cultural Affairs Commission of Brown County. Proceeds from the festival will be used by the commission to fund a variety of events during the year including symphony concerts, ballet performances, children's activities and other cultural entertainment.

According to co-chairperson Nancy Barnes and Eloise Trigg the event will be held in Festival Park next to Cen-Tex

News and rode a bicycle from Santa Anna to Coleman soliciting business. (The Hunters are descended from Dr. Johnson Hunter, one of Stephen F. Austin's colonists in early Texas history.)

Kate Hubert (died 1919) was a sister of Carrie Hubert (Mrs. L. L.) Shield, of Santa Anna. Uncle Warsaw died in August of 1957 at the age of 87. I have a letter he wrote me in June of that year. He was a colorful crusading editor of the Harts-horne (Oklahoma) Sun. He had a half-sister, Beulah, the same name as my mother (Mrs. Beulah Shield (A. R.) Brown.

Barbara, I hope you and your mother and other Santa Anna friends find some of these items of interest. I should enjoy trying my French on some of your relatives in France.

Carry on the good work. It's great.

Yours,
Shield Brown

Stadium in the Camp Bowie Recreation Area in South Brownwood.

Festival activities will take place throughout the day on Saturday, September 20 and from noon until 6 p.m. on Sunday, September 21.

Included in the sale of fine art will be watercolors, oils, acrylics, graphics, photograph, sculpture, woodwork, fibers, pottery and jewelry.

In addition there will be a special art auction of work donated by the various artists. Throughout both days there will be live entertainment including a mariachi band, square dancing, a large "Fantasy Island" for children, and all types of food and beverage will be provided by various civic and non-profit groups from the area. Radio station KXYL and KBWD will broadcast live from the site both days.

Tickets will be on sale by the Brownwood Jaycees at the gate to Festival Park and will cost \$1.00 for students and \$2.00 for adults.

IT'S THE MOST!

The fastest anything can go, scientists say, is the speed of light: about 186,000 miles a second.

Nearly the speed of light is the speed at which electricity travels to you—it can go seven and a half times around the earth in one second, says the Edison Electric Institute.

Electricity moves so fast it's used at almost the same instant it's produced.

ASTHMA

An estimated one to two percent of all Americans suffer from asthma. Asthma is a disorder of the bronchial tubes which carry air from the windpipe into the lungs. During an asthma attack, these tubes become constricted and the individual has difficulty breathing.

Asthma is much more frequent among children than adults; more frequent in boys than girls. Fortunately, however, it is usual for attacks to become less frequent and severe during middle and late adolescence, and then disappear.

About 50 percent of children who are asthmatic will be symptom-free in adulthood. Only about five to ten percent will continue to have severe disability from the condition as adults. This will be more likely if the asthma began in infancy in conjunction with eczema.

Often, even those not completely symptom-free after adolescence will experience only occasional mild attacks at infrequent intervals—although sometimes severe attacks may recur years or decades later.

A new medicine that's been successful in the treatment, relief and control of the distressing symptoms of asthma (and emphysema and bronchitis) has recently become available here. Phyllocontin Tablets, developed in England, have been

Most children who suffer from asthma will outgrow it. introduced to the United States by the Purdue Frederick Company, an international pharmaceutical research firm. The tablets, available by prescription, should usually be taken at

least twice daily and can provide round-the-clock relief.

Most frequently, asthma attacks result from allergic factors; however, they may also be caused by nervous or psychological factors, physical exertion or respiratory infection.

If Brooklyn were not one of the five boroughs of New York City it would be the third largest city in the United States.

Tips To Be Included For Social Security

People who work for wages in social security-covered employment generally have their social security taxes withheld by their employers. In many instances, however, a person may receive cash income in the form of tips. When this occurs, the employer depends on the worker to report this form of income.

Tips received by waiters and waitresses often constitute the greater part of their income—even more than the salaries they are paid. Other people, including bell boys, barbers, and beauticians, also receive tips. This income, just like regular wages, counts for social security and brings the employees higher cash benefits in later years.

The amount of monthly cash benefits paid by social security to retired or disabled workers and their families and to the families of deceased workers is based on the employee's earnings covered by social security. This means that by including cash tips with their wages, they assure themselves of higher payments in future years.

Only cash tips totaling at least \$20 in a month of work for one employer count in earning social security protection. Other forms of tips, such as merchandise, do not count.

Persons receiving \$20 or more in tips a month are required to report the information to their employers within 10 days after the end of the month in which the tips are received. However, an employer can require these reports more often than once a month. The report can be made on Internal Revenue Service (IRS) Form 4070 (Employee's Report of Tips), which is available at any IRS office, or on any other form that contains the same information.

The report must include all tips and must be submitted on time. A late or incomplete report may subject the employee to a penalty of one-half the amount of the taxes on tips not reported properly to the employer.

Employers are required to deduct the employee's share of social security taxes on the tips reported, either from regular wages owed the worker or from money turned over by the worker for that purpose. The employer is not permitted to deduct either income tax or social security taxes from tips being held for the worker.

An employer who cannot collect all the social security taxes due on tips reported by an employee must give the employee a statement of the tax still owed. This permits the employee to meet his or her obligations by paying the tax directly to the Internal Revenue Service. Any portion still due IRS must be paid at the end of the year when the Federal income tax return is filed.

The employer reports both tips and regular wages to the Social Security Administration,

where they are credited to the worker's earnings record. If you have any questions, contact a social security representative.

Almost all social security matters can be handled by phone. For general information or to report a change, call toll free 800-392-1603. Medicare questions or filing of medicare claims can be taken care of by calling toll free 800-442-2620. If you wish to file an application to establish your eligibility you may call collect 915/646-7533 in Brownwood.

A representative of the Brownwood office visits Santa Anna once a month on the second Wednesday. The representative can be found at the Mountain City Center, from 9:30 a.m. until noon.

WE BUY NATURAL GAS THE WAY YOU BUY GROCERIES.

Lone Star shops for the best values. Just as one brand of green beans might be a better value even though it costs a penny or two more, gas that costs the least could prove to be the most expensive.

We have to consider a number of factors. How much gas can we expect from a new field? How close is it to our existing pipelines? How much processing will the new gas need? Is the BTU content high or low?

As a result of this careful shopping, Lone Star's weighted average cost of gas in 1979 was \$1.76 per MCF (1,000 cubic feet) of gas — lowest of any major intrastate gas company in Texas.

This savings is passed on to you because your monthly bill is based on our average cost of gas.

PUBLIC NOTICE

BRIEF EXPLANATORY STATEMENTS OF PROPOSED CONSTITUTIONAL AMENDMENTS GENERAL ELECTION NOVEMBER 4, 1980

PROPOSITION NO. 1 ON THE BALLOT

Senate Joint Resolution 35 proposes a constitutional amendment that would authorize the Legislature to permit banks to establish and operate unmanned teller machines within the county or city where the banks are located and to share the use of teller machines on a basis consistent with anti-trust laws, if it finds such operation will serve the convenience of the public. The Legislature has already passed enabling legislation (H.B. 1510) for this proposed amendment.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment permitting the legislature to authorize banks to use unmanned teller machines within the county or the city of their domicile on a shared basis to serve the public convenience."

PROPOSITION NO. 2 ON THE BALLOT

House Joint Resolution 97 proposes a constitutional amendment that would grant the State and the accused the right to an interlocutory appeal from the following trial court rulings in criminal cases: pretrial rulings on the constitutionality of a statute; on a motion to quash, dismiss, or set aside an indictment; and on a motion to suppress evidence.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment authorizing appeal of certain pre-trial rulings of a trial court in a criminal case by either the state or the accused."

PROPOSITION NO. 3 ON THE BALLOT

House Joint Resolution 98 proposes a constitutional amendment that would require a single appraisal of all property subject to ad valorem taxation and would provide for a single board of equalization within each county. The con-

stitutional requirement that the county commissioners court sit as a board of equalization would be eliminated, and elected officials of the county or governing body of the taxing unit would be prohibited from serving as members of the board of equalization.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment requiring a single appraisal and a single board of equalization within each county for ad valorem tax purposes."

PROPOSITION NO. 4 ON THE BALLOT

Senate Joint Resolution 18 proposes a constitutional amendment that would allow the Legislature to authorize the conduct of bingo games by certain specified groups for charitable purposes, subject to the limitations that operation of the games must be approved in local option elections and that all proceeds must be spent in Texas.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment to authorize bingo games on a local option election basis if the games are conducted by a church, synagogue, religious society, volunteer fire department, nonprofit veterans organization, fraternal organization, or nonprofit organization supporting medical research or treatment programs and if the proceeds are to be spent in Texas for charitable purposes of the organizations."

PROPOSITION NO. 5 ON THE BALLOT

House Joint Resolution 86 proposes a constitutional amendment that would allow the Legislature to exercise fiscal control over the expenditure of certain appropriated funds, subject to any conditions and limitations provided by law and subject to the ap-

proval of a budget execution committee that would be composed of the Governor, Lieutenant Governor, Speaker of the House of Representatives, Chairman and Vice-chairman of the Senate Finance Committee, and Chairman and Vice-chairman of the Committee on Appropriations of the House of Representatives.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment to grant the governor power to exercise fiscal control over the expenditure of appropriated funds as provided by law."

PROPOSITION NO. 6 ON THE BALLOT

Senate Joint Resolution 8 proposes a constitutional amendment that would allow the Governor who appointed a previously confirmed official to remove that official from office subject to the advice and consent of the Senate; and if the Legislature is not in session, to call a special session of the Senate which may last no longer than 2 days for consideration of the removal.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment to authorize the governor to remove appointed officers with the advice and consent of the senate."

PROPOSITION NO. 7 ON THE BALLOT

House Joint Resolution 121 proposes a constitutional amendment that would authorize counties with a population of 5000 or less to construct and maintain private roads if they impose a reasonable charge for the work. The Legislature by general law may limit this authority. Revenue received from private road work may be used only for the construction, including right-of-way acquisition, or maintenance of public roads.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment authorizing counties with a population of 5000 or less to perform private road work."

PROPOSITION NO. 8 ON THE BALLOT

Senate Joint Resolution 36 proposes a constitution-

al amendment that would change the jurisdiction and authority of the State's appellate courts. The amendment would change the name of the Courts of Civil Appeals to Courts of Appeal and provide that these courts have intermediate appellate jurisdiction over both criminal and civil cases. The amendment would change titles for the Associate Justices of the Supreme Court to Justices and would require members of the Supreme Court to be attorneys licensed in this state while holding office.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment to change the name of the Courts of Civil Appeals and the names and qualifications of the justices of the Supreme Court and to prescribe the jurisdiction and authority of the appellate courts."

PROPOSITION NO. 9 ON THE BALLOT

House Joint Resolution 54 proposes a constitutional amendment which defines separate property owned by either spouse as all property, both real and personal, of a spouse owned or claimed before marriage, and that acquired afterward by gift, devise or descent. Persons about to marry and spouses, without the intent to defraud pre-existing creditors, may by written instrument from time to time partition between themselves all or part of their property. Spouses may exchange a community interest in property owned or to be acquired for a community interest in other community property. The amendment would allow spouses to agree in writing that income or property arising from any separate property is to be separate property rather than as community property as it would be in the absence of an agreement. The amendment proposes that a gift from one spouse to another is presumed to include all income or property deriving from such gift.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment allowing spouses to agree that income or property arising from separate property is to be separate property."

Texas drivers are learning to live with 55 mph limit

COLLEGE STATION
Some Texas drivers are slowly learning to live with the 55 mph speed limit, perhaps in time to save the state some federal highway money, says a Texas A&M University researcher.

Many drivers still exceed 55 mph "but overall we are getting closer to the 55 mph mark," said Dr. Quinn Brackett, research specialist with the Texas Transportation Institute at Texas A&M.

"Several factors contribute to the better showing," explained Brackett. He cited the price of gasoline; smaller, more energy-efficient cars which people tend to drive more conservatively, and public awareness of the effect of high-speed driving on fuel conservation and safety.

"Increased emphasis by enforcement agencies is also important," Brackett said.

Good Breakfast Is Important

The national promotion for better breakfasts during September should appeal to the health-conscious individual. It is those who are not eating breakfast at all that could benefit most.

In religious groups, Adventists are perhaps foremost in suggesting that everyone start the day with a good breakfast. A variety of products originally based on the processes were first developed by two Adventists, Dr. J. H. Kellogg and his wife. They still form a cornerstone for a good breakfast.

The Kellogs used their kitchen to manufacture toasted cereals, peanut butter, vegetable protein, and cereal coffee. As technology has developed, new products have been added.

Fruits, grains, and nuts, which made up man's original diet, seem like a safe approach to good nutrition. Adventists are generally classified as lacto-ovo vegetarians, eat plant foods plus dairy products and eggs. As a result, their health records have been found to be better than the general U. S. population.

Without food the mind functions like a tired horse the jockey must keep whipping. If it is their weight they are trying to control, it is best to skip the evening meal.

Adventists operate health producing products in 16 countries, and sales increased from \$96 million in 1974 to \$188 million for 1979. There are also retailed vegetarian restaurants in South America, Australia, and Europe, as well as the United States.

The first "nickel" coin appeared in the U.S. in 1866.
